

THE CLARENDON ORCHESTRA IN RECITAL SUNDAY

WORK OF THE YEAR SHOWN IN SUNDAY AFTERNOON PROGRAM. MISSES PIRTLE, STORY AND LANE ASSIST WITH NUMBERS

That Clarendon is always a music-loving city was attested Sunday afternoon when a very large attendance greeted the Clarendon Orchestra in its first annual recital, given at four o'clock at the Methodist Church in this city.

For some years Clarendon has been without a full orchestra, although the College has had for a number of years, a very creditable string orchestra, therefore last fall when it was proposed that there be a joining of forces of the musical talent of the conservatory of the college and that of the town, there was a very hearty response and work has been going on in a very serious way all winter and spring. The concert Sunday afternoon was, therefore the exhibition of the finished work of the organization and from the many expressions of approbation heard from so many sources there is little doubt but what the first venture toward a strong organization has been crowned with success.

Mr. Chas. Dean has been the director of the body and his work has been of such a careful and detailed nature that the blending of the parts has been most successful and the interpretation of music from the light to the classic has been done with technique under his baton. Miss Beatrice Story, the concertmeister, has shown again her native ability and acquired skill as a violinist of more than first rate ability, and to her must be accorded much of the credit for the success of the orchestra. Her several pupils and graduates of the department of violin at the College have also proven her striding teaching by their work in the organization.

Miss Mattie Eva Lane, as accompanist, needs no introduction nor commendation to the people of Clarendon, as for years she has been recognized as one of the best, if not the best exponent of art at the piano, Clarendon and Clarendon College has ever produced. Her work has been a tower of strength in perfecting the ensemble of the orchestra.

Following is the program as rendered:

Coronation March from the Prophet, Meyerbeer—Orchestra.
Overture, "The Contest", Mueller—Orchestra.

Reading, "In Florida", Wright—Miss Pirtle.

Violin Solo, Zigeunerweisen, Sarasate—Miss Beatrice Story.

Piano Solo, "Country Gardens", Granger—Miss Mattie Eva Lane.

Jakey and Old Jacob, Anon—Miss Pirtle.

Overture "Poet and Peasant", Suppe—Orchestra.

Loin du Bal, Gillette—Orchestra.

Violin Duet, La Paloma, Yradiere—Miss Beatrice Story and Miss Annis Owens.

Cornet Solo, "Addah" polka, Losey—Chas. Dean, accompanied by orchestra.

Theme from Caliph of Bagdad and Lucrezia Borgia, Boieldieu—String section of orchestra.

Faust, Grand Selection, Gounod—Orchestra.

The numbers that won especial applause from the large audience were the reading "Jakey and Old Jacob" by Miss Pirtle, who is regarded as the best teacher of expression Clarendon College has ever had; solo, Granger's "Country Gardens" by Miss Lane; Sarasate's "Zigeunerweisen" by Miss Story, violin duet, "La Paloma," Misses Story and Owens; and the orchestra rendition of Suppe's "Poet and Peasant," and Gounod's "Faust" which closed the enjoyable program of an hour and a quarter.

Werner Woods left Saturday morning for his home at Seymour after having attended Clarendon College this year.

SHRINE CARAVAN REACHES CLARENDON YESTERDAY

FIVE CARS OF THE TRANSCONTINENTAL TRAIN WERE GREETED HERE YESTERDAY MORNING TO REACH AMARILLO TODAY.

The Trans-Continental Shrine Caravan which left Washington, D. C. May 1st, arrived in this city yesterday morning, and the local Chamber of Commerce with Secretary McCordell in charge acted as host to the visitors presenting the gentlemen with drinks and cigars and the ladies with boxes of candy. Capt. Bernard S. McMahan is the official pilot of the caravan, and four cars have composed the lot most of the way, but the fifth car entered the caravan before reaching here being that one of Mr. and Mrs. Boston of Oklahoma City.

Upon reaching this city, the caravan had traveled twenty-seven hundred miles, and this without blowout or any sort of trouble; and, although this has been a very rainy season, it has been unnecessary thus far to use horses or mules in getting the cars across streams.

The big snow white touring car used by Captain McMahan and loaned by the Colorado-to-Gulf Highway association, has attracted wide attention all along the route and hundreds in every city have made inquiries about the highway which has its seal on the big car.

Besides those mentioned above the members of the party follow: Capt. Bernard S. McMahan of Berkeley, California; Mr. and Mrs. James U. McKay of Canton, Pa.; Mr. and Mrs. Robert H. Romunder and daughter, Malias of Des Arc, Ark.; and Miss Ella Romunder of Milwaukee, Wis.; Mr. and Mrs. Herman J. Bergman of Minneapolis, Minn.; Mr. and Mrs. Geo. Moline of Superior, Wis.; N. F. Sanford of Atlanta, Ga., and A. C. Gill, city editor of the Washington Times. The caravan left for Amarillo and will be present for the C. to G. Convention today and the Shrine Ceremonial tomorrow.

The visitors were very complimentary to Clarendon declaring that it altogether modern and has a progressive air that even the visitor can feel. Considerable advertising matter of Clarendon and Donley was also given to the visitors.

The Caravan will reach San Francisco to be present at the Imperial Council of the Shrine which will take place June 13th to 20th.

KINDERGARTEN PUPILS OF MRS. MCKILLOP GIVE PROGRAM

Last Thursday night at the High School auditorium, the kindergartens pupils of Mrs. J. A. McKillop, gave their entertainment to a crowded house.

The little folks entertained the grown folks with a program of songs, drills and speeches and showed a school year of excellent training. Little Miss Dorothy Taylor gave the welcome address. Then followed a series of songs, pretty drills, cute pantomime expressing stories which the little folks "got over," and took the hearts of the crowd. A splendid program was given by the little boys and girls, and a fine showing of their drawings, art work, and articles made by them was displayed in the hall on the lower floor.

The work done in the kindergarten grades is shown to have been done well by the instructor. Mrs. McKillop besides being a Baylor University student and a teacher of experience, has a diploma from the Home Correspondence School of Springfield, Mass. She has been giving the little folks splendid training leading to the grade work.

Rev. J. T. Griswold returned Friday morning from Hot Springs Arkansas where he attended the General Conference. He filled his pulpit here in the First Methodist Church Sunday morning and evening.

DONLEY COUNTY WILL BUILD GOOD ROADS

Of course there is no doubt, implying some future date; but the question of today is when will Donley County build good roads?

Let us build the roads we will be proud of, roads like we see others are building in our Texas counties near by; good roads are like a busy city they draw others, they grow, they expand; increase travel that means money; money spent means money in circulation and if in circulation we all must get some of it. A traveler over a good road tells the other fellow, the other fellow tells others and so on, you can't stop it when it gets started, and like results from bad roads.

Good roads to the county, is to the farmer and to the business man, the same thing a railroad is to the big business of today; the better the road the closer the farmer is to the railroad and to the towns.

The life of an automobile, wagon, truck or any vehicle of transportation depends on the road it travels, no one will say that good roads do not mean a saving; and everyone in Donley County that is a taxpayer using any kind of vehicle for transportation over the present roads will save money after the good roads are built in repairs and by being able to get to their destination quicker and haul larger loads.

In Detroit Michigan one automobile has gone one million miles. Why? Good roads. How many miles do you get out of your car? How much is your repair bill? How much mileage out of your tires? You don't know. If the taxes were increased to improve the roads you would know how much it would be; well if you know how much the increase would be why is it not just as important to keep an account of the expense of your car, truck, etc; for your own satisfaction, find out the exact cost then take a little more trouble, write any one you know who travels over good roads and ask them the question that you want to know. Take this much trouble for your own satisfaction, and then be convinced good roads are a saving and not an extravagance. It is a saving to every one using them.

One firm in this state during 1921, in fourteen counties in Texas, was completing road work at the rate of one million dollars per month. You say extravagant; no, not if you are building for the future, of course it is if you only consider one year and not the years to come. As we live for the future, why not build with an eye for the future. The railroads are working all the time to keep their roads in good condition, so we must take care of the roads after they are built.

And when it is said Donley County is going to build good roads and you say when; it will be when most of the taxpayers will look at other counties building their roads, and say we want good roads and not until then; but when they decide to build good roads then Donley County will be the County it should be and not until then will we grow as we should. Eventually why not now?

The various Chambers of Commerce in Texas are doing all that can be done to attract people to the State and to bring about a general revival of prosperity. This can never take place unless we have a system of roads that will adequately carry the traffic which use these roads. Settlers coming into our midst from other progressive States will pass us by if our roads are not improved. A progressive farmer demands good roads and good schools. Good roads cause a better attendance at school. Good roads mean that farmers wives will not live such lonesome lives as they do when remaining at their homes on account of impassable roads.

Good roads strongly tend to keep our boys and girls on the farm, whereas mud roads and the long periods of isolation on the farms due to the bad roads undoubtedly cause many girls and boys to seek the "bright lights" and "white ways" of our big cities. When you consider the special tax that you will have to pay on account of good roads, consider also that practically 90 per cent of all the bond money will be spent right here in Donley County. Every man that wants work will be able to get work. The farmer, the merchant, the banker, the professional man will all participate in the benefit of this increased prosperity if eventually good roads. Why not now?
A. N. McCordell, Mgr. C. of C.

HEALTH CONFERENCE TUESDAY GREAT SUCCESS

MISS YEAGER CONDUCTS CLINIC WITH LOCAL ASSISTANCE. FIFTY-FOUR CHILDREN ARE EXAMINED AND RECOMMENDATIONS MADE.

Although Miss Berry, the nurse with the extension department of the State University, failed to appear, Miss Yeager, local public health nurse, assisted by some of the local physicians, conducted the Child Health Conference in this city Tuesday, fifty-four children being examined. The entire day was given to the work which took place in the Y building.

Of the fifty-four children examined, twenty-eight were found to have defects and recommendations were made to the mothers concerning these. Most of the children examined were from this city, as Miss Yeager had conducted a clinic at Hedley on Monday.

In the work here Tuesday, Miss Yeager received valuable assistance from the local dentists and from physicians Wilder, Stricklin, Ellis and Carroll. Local health authorities are delighted with the success of the clinic, and the whole credit for this success is due to the efforts of the local workers.

Parents had opportunity to see the value of the work from a new angle, when many of them who had their children examined at the conference last year, brought the children there again this year for another examination. In this way the growth of the children in many ways could be readily ascertained. It was further shown that in many instances where the children suffered from defects the parents were unaware of this. No word has as yet been received relative to the failure of Miss Berry to reach this city, but since the meeting was the success that it was, everyone is delighted to say that it was carried on by local people only.

INTER-SOCIETY DEBATE PROMISES TO BE GOOD ONE

This year's debate between the Panhandle and the Adkissonian Literary societies promises to be a good one. The subject concerns the adoption of the Kansas Industrial Court Plan by the other states of the union, and in view of the recent decision proves to be one of the most interesting in years because it is a live one. The Add speakers, Messrs. Cecil Peoples and Johnie Jenkins will contend for the affirmative side of the question, while the Pan speakers, Messrs. Eugene Craig and P. W. Walker will uphold the negative. The manifestation of the keen rivalry between the societies is most evident. The battle will be staged in the College Auditorium Saturday evening at eight o'clock. An admission of fifty cents will be charged, and the public is cordially invited to attend.

REPLY CARDS PROVE EFFECTIVE IN SECURING STUDENTS

Dean S. H. Condon states that the reply cards which were sent out from the college office week before last are proving very effective in lining up new students for the institution next year. When the cards had been out scarcely a week, deposits had been sent in for twelve reservations, and with the passing of each day new reservations are being made. The News printed almost two thousand of those cards for the college recently, and is interested to learn that such success is being met by this means of advertising.

The ladies aid society of the First Baptist Church entertained Mrs. J. A. Smith at her home last Thursday evening. The event was a surprise to the honoree. A beautiful black canton crepe dress was presented to her by the aid, as an ever-rememberance as she will leave shortly to make her future home in San Angelo. Refreshments of ice cream and cake were furnished by the T. E. L. class for the occasion. About forty guests were present.

The pupils of Mrs. Edythe Cameron and Miss Anna Moores appeared in recital at the Baptist Church Friday evening. The program was a good one and was highly enjoyed by the good sized audience in attendance.

ATTORNEY-GENERAL RULES BONDS VALID

A communication from the Attorney-General's department dated Friday was received here the first of the week which communication ruled that the water bonds recently issued by the city are valid. As was stated in the last issue of the paper, Dunn and Carr, the purchasers of the bonds refused to take them declaring that they were issued under a statute that has since been amended and changed. In notifying the Attorney-General's department these facts were told in detail, and that office at once replied stating that the bonds are valid; quoting some of the highest authorities in the law in stating that a misstatement of the statute under which the bonds are issued does not of itself invalidate the bonds; even going so far as to say that after Attorney-General has approved bonds the only way in which the purchaser can avoid his contract is to show either forgery or fraud on the part of those issuing the bonds.

The only hitch in the proceedings was where the city entered into contract with Dunn and Carr to allow them to purchase the bonds subject to the approval of Charles and Rutherford, St. Louis attorneys. Through the delay that has been caused, a lesson has been learned; and it is altogether probable that no such lenient contract will be entered into with the next purchaser. The bonds will be sold again on the first day of June.

CONDON SPEAKS TO MANY PANHANDLE SENIOR CLASSES

Dean Stuart Condon has been particularly busy this commencement speaking to graduating classes from various high schools over the Panhandle. Thursday evening he spoke to the Lelia Lake graduating class; and his address was heard with interest and enthusiasm by a capacity house. Friday evening he spoke at Claude and Monday evening at Wellington.

CLARENDON TO OBSERVE MEMORIAL DAY

Clarendon will observe Memorial Day Sunday afternoon. Tuesday is the Memorial day, but due to the fact that a larger crowd can be present Sunday, that date has been set by the local committee preparing for the occasion. A parade will be staged in the afternoon in which the Great War Veterans, the Red Cross, and the Woman's Auxiliary of the Legion and other organizations will participate. Trucks will be furnished representing the various organizations, and prominent among these trucks will be the one occupied by the Confederate Veterans.

Following the parade the services will be concluded on the court house lawn. The decorating committee is preparing to decorate the trucks appropriately; and everything is pointing to a fine service. The Clarendon Band will make its first appearance at that time, and furnish the music for the occasion.

MRS SMITH HONORED BY LADIES AID SOCIETY

The ladies aid society of the First Baptist Church entertained Mrs. J. A. Smith at her home last Thursday evening. The event was a surprise to the honoree. A beautiful black canton crepe dress was presented to her by the aid, as an ever-rememberance as she will leave shortly to make her future home in San Angelo. Refreshments of ice cream and cake were furnished by the T. E. L. class for the occasion. About forty guests were present.

The pupils of Mrs. Edythe Cameron and Miss Anna Moores appeared in recital at the Baptist Church Friday evening. The program was a good one and was highly enjoyed by the good sized audience in attendance.

WEST TEXAS CHAMBER OF COMMERCE CONVENTION OPENS AT PLAINVIEW WITH 5,000 PRESENT

THOUSANDS OF VISITORS ARE ROYALLY ENTERTAINED BY THE CITY THAT IS HOST TO THE CONVENTION. TARIFF FOR FARM PRODUCTS IS ASKED. NEXT YEAR'S CONVENTION WILL GO TO SAN ANGELO. SOME LOCAL PEOPLE ATTEND.

Plainview, May 22.—The biggest regional chamber of commerce convention in the world got into full swing this morning, when Clifford B. Jones, of Spur, president of the West Texas Chamber of Commerce, called to order the Fourth Annual Convention of the organization. Just how many people there are here is impossible to say. The most conservative estimates place the attendance at between four and five thousand, and no one doubts Plainview's big new municipal auditorium was filled at the opening session, and there were more people outside the hall than inside.

John Boswell, secretary of the Plainview Chamber of Commerce, says there are twenty-two bands, including Hereford, Floydada, Jayton, Slaton, Brownwood, Texhoma, Lubbock, Tahoka, Sweetwater and others. Most of them will enter the contest for the thousand dollars prize offered to the best band attending the convention. All side tracks in the Santa Fe yards here are filled with special trains and special Pullman cars bringing delegations from at least five hundred towns in west Texas and New Mexico. Hundreds of visitors came in automobiles.

Vernon, Brownwood, Sweetwater, San Angelo, Cisco and Midland are in the race for next year's convention. All these towns have big delegations. Some idea of the scope of territory represented here by the fact that a big delegation is here from Laredo on the south and Texhoma on the north, Fort Worth on the east and Las Cruces, N. M., on the west. Plainview is taking care of the meeting in fine shape.

The addresses of welcome were delivered this morning by Captain Winfield Holbrook of Plainview and A. E. Boyd, president of the Plainview Chamber of Commerce. George Sheppard, mayor of Sweetwater and Charles P. Brewington of Stamford made the response. H. L. Kent, president of the New Mexico A. and M. College, at Las Cruces, made a talk this morning on the agricultural and live stock industry of the territory.

President Jones announced the following committees: Nominations, W. M. Massie, Fort Worth; George H. Sheppard, Sweetwater; George W. Briggs, Lubbock; E. H. Perry, Plainview; Charles H. Brewington, Stamford; J. A. Hill, Canyon; W. P. Jones, Childress; W. P. Dial, Memphis; M. B. Hanks, Abilene; S. L. Williams, Ballinger; B. M. Hollan, Slaton. Credentials, H. A. Guy, Crosbyton; Mark McGee, Brownwood; W. G. Kingsolving, Abilene. Resolutions, A. B. Spencer, Crosbyton; Dallas; Dallas Scarborough, Abilene; William Moring, Fort Worth; Houston Hart, San Angelo; J. W. Cheney, Amarillo; Homer D. Wade, Stamford; L. T. Martin, Lubbock; W. P. Hallmark, Dublin.

Amarillo crowds showed up fine. About a hundred and twenty-five are present. Canton drum corps is making big noise. Lubbock broke up the meeting this morning when her band headed by L. T. Martin, secretary of Chamber of Commerce, wearing straw hats and linen dusters, marched through convention hall and occupied the stage. Tahoka followed suit with her negro jazz band.

The choosing of a president for the coming year is the center of a hot fight between the supporters of A. B. Spencer, Crosbyton; J. F. Hartford, Post; and Carl Guion, Ballinger. Practically the entire afternoon was taken up in committee meetings and group meetings. Sessions of all kinds are being held all over

the city. The program for tonight's entertainment includes a cantata to be given by a choral club composed of Plainview women, which will take place at the Auditorium, and the showing of motion pictures by representatives of the Department of Agriculture. The Bureau of Good Roads will show motion pictures of highways, their proper construction and care, and the U. S. Conservation Bureau will show motion pictures on irrigation. Movies of towns and cities over West Texas, including Amarillo, Plainview, Lubbock and many others, also will be shown. Lubbock has probably the largest out of town delegation here, their number being estimated at 500.—Amarillo Tribune.

The resolutions to be voted on at the night session of the Fourth Annual Convention of the West Texas Chamber of Commerce include a demand that the farm and ranch products of West Texas and the South be given equal tariff protection with the products of other sections of the country.

The resolutions call attention to the fact that farm products are sold in an open market and calls upon Texas Congressmen and Senators to initiate and support legislation designed to equalize the tariff protection as between all sections of the country.

Another demand of the resolutions committee is for a West Texas Agricultural and Mechanical College, and directs attention to the fact that for every three dollars collected in school taxes from West Texas counties, only one dollar is paid back by the state. The resolution demands a change in the school tax system which will permit West Texas counties to retain all their school tax money.

In discussing highways, the resolutions call for a change in the state policy so as to require counties to make provision for maintenance before receiving state aid.

Other questions discussed include more railroad development in West Texas, less stringent regulation and interference in business by the Government, relief for disabled war veterans, flood prevention, the establishment of a state park, state cooperation in the destruction of predatory animals, extension of the time of operation of the War Finance Corporation to January 1, 1923, and an endorsement of the Capper Truth-in-Fabric Bill requiring honest statements on labels of merchandise.

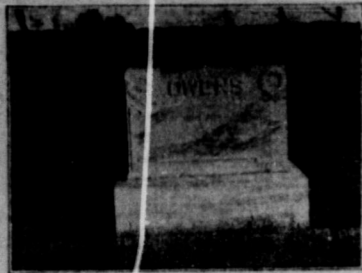

The redistricting of Texas in Senatorial districts is also demanded and sympathy is expressed with the litigation recently inaugurated to put the Senatorial bill in effect before 1924.

The morning session was held in the First Methodist Church, Speakers were E. J. Hosey, representing Armour and Company, Fort Worth; J. H. Barwise, general attorney of the Fort Worth and Denver, and Judge L. Gough of Hereford, who spoke on wheat marketing problems.

The afternoon sessions were devoted to group meetings, which will be followed by the general wind-up of the convention at a monster banquet in the Municipal Auditorium.

ROAD CONDITIONS DISCUSSED FRIDAY

At the meeting at the court house Friday evening, a good sized crowd was present, despite other unfavorable circumstances. Although no definite action was taken, everyone agreed that the time has come when Donley must do something; and an effort will be made to stir up more enthusiasm.

Nothing will express your appreciation for your departed loved ones as well as a neat MONUMENT made in your home town. "Everything in Marble and Granite."

THE CAUSES OF UNREST

That there is widespread unrest throughout the world everyone knows. The causes of it, however, are not so apparent. And yet we believe that a certain metropolitan writer was right in saying that "The causes of unrest are not economic but spiritual, not physical but moral. What we are witnessing is the revolt of men who see life passing away without their ever having lived, who face the prospect of carrying their ideals and their aspirations unfulfilled and unspoken to the grave."—Kind Words.

Small boys often ask embarrassing questions. A preacher was addressing the Sunday school and explaining the significance of white. "Why," he asked, "does a bride desire to be clothed in white at her marriage?" As no one answered, he went on, "Because white stands for joy, and the wedding day is the most joyous occasion in a woman's life." Immediately a little fellow piped up, "Please sir, why do the men all wear black?"—The Veteran Magazine.

Lady Astor, who formerly was Miss Langhorne of Virginia, now a member of the British House of Commons and the wife of Viscount Astor of England, is a visitor in America. She is far more popular than some of our former visitors who have seemed to take a delight in making stabs at America, its ways and laws. For one thing, she believes in prohibition. Upon her arrival in America, she said: "I have been told that the wifes are prepared to spend \$50,000 to keep me out of Plymouth. I say let them come on. We need the money." One of the reporters interviewing her on the ship in New York Harbor asked her what she thought of the present-day women's dress. "Nothing," she declared, "lets women down more than to go about half naked."—Graham Leader.

"A HANGING A DAY"

A proposal to hang a murderer each day in the year would horrify most of us. Opponents of capital punishment would renounce it as an atrocity. The average man and woman would flinch from it at first as a gruesome thought. Yet is a hanging a day worse than a murder a day? Do we cry out against that gruesome toll? We average a killing a day. Why not a corresponding rate of punishment? If there were a hanging a day, there would soon be a drop in the murder

rate.

Of course, murders in the first degree do not run as high as one a day. In 1919 the number reported was 154. Homicides were 194. That is more than a killing a day. But with the death penalty confined to murders of the first degree, we should need a hanging every two days, excluding Sundays, if punishment kept pace with the crime.

The year 1919, in which there were 154 murders, there were three hangings and only twenty-seven sentences to the penitentiary. Ten murderers committed suicide, so that leaves 114 unaccounted for.

A killing a day represents our crime product. Three hangings a year was the rate at which justice pursues.

No wonder the killings go on and human life remains the cheapest of commodities.—The Chicago Tribune.

ICE PRICES LOWER IN CHILDRESS

Ice prices have taken a tumble according to the advertisements of the local plant being run in today's issue. Ice in the residence section is now being delivered at the rate of 75 cents per hundred, which is 15 cents less than last year.

Ice can be purchased in the residence section for even less than 75 cents per hundred pounds. The company is issuing ice strips, which two or more neighbors can purchase in lots of ten and reduce the cost to 67 1-2 cents per hundred, providing that the ice is purchased in lots of fifty pounds.

This price and scale of weight has been adopted so as to reduce delivery costs. Fifty pounds of ice will last the average family two days.

Electric rates are to be reduced shortly. Ice to business firms is much less than last season.—Childress Index.

ASKS FOR HALF MILLION DOLLAR ROAD BOND

A petition is being circulated in Memphis and other parts of the country this week, asking the Commissioners Court to order an election for an issue of \$500,000.00 of 5-1-2 percent road bonds for Hall County. It is known that several road districts have asked the Court to order elections for smaller amounts, but the Court is not inclined to do this. Instead, the general road bond issue is to be submitted to the voters of the entire county. The Court is in session this week, and it is understood that the matter will be passed on Saturday.

The Herald wants to announce right now that it stands squarely for the bonds. We believe in Hall County. An experience of more than thirty years in Hall County makes us know that this is a great county. If it is a good county, and we are to live and rear our families here, we must have good roads to move our crops over. If it is not a good county, then we had best move out and locate in some good county. By all means, the bad roads of Hall County prove to be the heaviest tax upon the people, that we have to pay.

When the details have been worked out and the matter put squarely up to the people, we shall have more to say about the merits of the question.—Hall County Herald.

PAVING BONDS ELECTION CARRIES BY BIG MAJORITY

Memphis will at once launch an extensive paving campaign that will do more to revolutionize business affairs than ever before brought about in one year in the life of the city. The property tax payers decided on this step in no uncertain manner, in an election held for the purpose Tuesday.

The interest in this question had been growing in Memphis for a year or more, and finally crystallized when the people decided to sell back the light plant, some six weeks ago. This made it possible to secure the money for the paving bonds, and the decisive result in that election was brought about by the desire to get out of the mud and pave the streets. To vote sufficient bonds for the purpose with the light plant's bonds outstanding was not practical. As a result, the paving bond election was called upon the heels of the other election and the campaign of publicity begun. The only ones empowered to vote were the property tax payers.

The total vote cast was 486. Of this number, 472 voted favorable to the paving bonds, and only fourteen against the bonds.

The proposition to sell the light plant, which was recognized as preliminary to this movement, was carried by a vote of 269 to 12. This was about 22 1-2 to 1. The vote for the paving bonds carried by over

33 1-2 to 1. Thus the spirit of progress grew with the campaign not only in the size of the vote cast, but in the progressive percentage.

The victory was even more complete than our people had even guessed. The law requires a vote of 2 to 1. If the vote had stood that way, with a representative number cast, the people would have felt good. If the election had been carried by 16 to 1 the people would have been delighted but when it was more than 33 1-2 to 1, they were both surprised and delighted.—Hall County Herald.

LITTLE THINGS IN SERVICE

One evening a few weeks ago, as a limited train drew out of Chicago, two passengers entered the dining car. Famed as was the system in charge for the excellence of its meals, it was certain that a satisfying dinner would be served. And it was. The memorandum presented on a silver plate at the end was twenty-\$2.70 but the meal has been worth it. The host of the occasion, as was his habit, looked over the items before laying a bill on the plate.

"See here," he addressed the waiter "you have charged us thirty cents for bread and butter. Seems to me that is pretty steep. The menu says fifteen cents for bread and butter and we had only one order—half a dozen half slices of bread and a pat of butter."

"But two of you ate it; that makes two orders," was the calm reply.

"Send the steward." The passenger was becoming interested.

"Your bill is correct," the steward said. "One of you could have had a loaf of bread and a pound of butter for fifteen cents—but for two it is thirty cents."

Later the passenger put it up to the manager of the system, with the remark that, while the amount was negligible, just petty impositions as this are what annoy the public. He supposed that no further attention would be paid to the matter.

But—and this is the point—that manager wrote a letter saying that the charge was unjust, that the steward probably pocketed the extra sum and added that he had sent a bulletin to every steward on the system calling attention to the incident and warning that it must not occur again. More than that, the order stated that a customer must be served on his bread and butter order all he wished to eat and that he might use it for himself or others of his party without extra charge. Incidentally the charge was reduced to ten cents.

"Our greatest asset is the good will of the public," added the manager. That is true not only of this system but of every business. If all business concerns would make the same effort to correct wrong practices, even in the smallest items, and treat the public with fairness and consideration, in little things as well as in large, we should have a better feeling and less general criticism.

Little things in service count and little things are what make a business institution strong.—C. M. Harger in "Business."

FOND ISSUE ENDORSED BY BUSINESS MEN

The Mayor called a meeting of the business men Tuesday afternoon to talk about a proposed bond issue for electric lights, waterworks and street improvements for McLean.

Practically everyone present expressed himself in favor of the bond issue. A hearty vote of confidence was given the city council in the matter. Just as soon as an estimate of what will be necessary to put in the improvements we need can be had, it is the intention of the council to submit the matter to the people. Everyone agrees that we must have these things before we can amount to anything much as a town. The only thing that remains is to determine who best to do it and the city council is busy on plans for this purpose.—McLean News.

AGENT WANTED

Capable, industrious man to sell Rawleigh's Good Health Products to consumers in Hemphill and Roberts counties. For particulars address P. O. Box 764, Clarendon or Phone 270. (21pd.)

DR. F. N. REYNOLDS

PRESBYTERIANS IN NEW CHURCH BUILDING

Last Sunday was the most mountain peak of history for the Presbyterian church of this city. On that day they worshipped for the first time in their new building, and they have just cause to be proud of this handsome structure. Whenever a photograph is taken a more intensive description will be given of this beautiful place.

The freshness and cleanness of the building inside and out was enhanced by the splendor of the morning, and its beauty was adorned by a wealth of roses that decorated every available spot. The church members had glad faces, and those who came to worship with them for the first time in the new building were also glad.—Baylor County Banner.

LIVESTOCK BODY AGITATES NEW EXHIBITION HALL

A livestock exhibition and sales hall to be erected at the fairgrounds for the use of local farmers is under consideration at this time by the Wilbarger County Pure Bred Livestock Association. Sentiment expressed Saturday afternoon at a regular meeting of the organization was distinctly favorable to such a building, and a committee composed of Marvin Sharp, Mark Neal and Joe Collins, was appointed to formulate plans for the launching of such a project.

Broeders belonging to the association have agreed to offer animals for sale, the proceeds to be devoted to providing a pavilion and sales hall. The cost of such a structure is estimated to be about \$2,000.—Vernon Record.

DIRT BROKEN FOR NEW HIGH SCHOOL BUILDING

The dirt was broken yesterday for Chillicothe's new sixty thousand dollar school building and the work will be pushed as rapidly as possible. Mr. Stucky who has charge of the construction informs us that he will have it completed by the time for the regular term this fall.

When this building is completed and equipped it will be one of the best high school buildings in this section of the state. A number of new people will come to Chillicothe to take advantage of our school facilities and we welcome them all to the best and fastest growing town on the Denver.—Chillicothe Valley News.

POSTED

The pasture known as Kelly Creek is posted. No trespassing, swimming or picnicking allowed. We are forced to do this to protect our interests. Take notice and avoid trouble and expense. Our feed lot north of town is also posted.

Simply delicious!
Kellogg's Corn Flakes with strawberries

Such a feast for a warm morning's breakfast—Kellogg's Corn Flakes and strawberries and a big pitcher of cold milk or cream—why, it's a revelation as an appetizer and so satisfying! Just as wonderful for lunch or for between-times nibbles!

And, best of all—Kellogg's Corn Flakes and fruit are exactly the food you should eat for warm weather! You'll feel so much cheerier, so free from drowsiness and headaches if you'll keep away from the heavy foods this summer!

Let the children eat all they want! For, Kellogg's—digest easily and rest the stomach and supply nourishment!

Kellogg's CORN FLAKES

THE POTENCY OF ROOSEVELT'S SPIRIT

E. D. SHURTER

At midnight on the fifth day of January, 1919, Theodore Roosevelt wrote a memorandum for the Chairman of the Republican National Committee. Four hours later, quietly in his sleep, the man of many battles and much tumult slipped out of the company of living men; but with new potency his spirit cried to the hearts of his countrymen.

If Lincoln was the "First American," Roosevelt was the first American of the past generation, and he wields to-day an influence far greater than that of any other character in America's history. What was the secret of his power?

"He was found faithful over a few things and he was made ruler over many; he cut his own trail clean and straight and millions followed him toward the light. He was frail; he made himself a tower of strength. He was timid; he made himself a lion of courage. He was a dreamer; he became one of the great doers of all time. Men put their trust in him; found a champion in him; kings stood in awe of him, but children made him their playmate. He broke a nation's slumber with his cry, and it rose up. He touched the eyes of

blind men with a flame that gave them vision. Souls became swords through him; swords became servants of God. He was loyal to his country and he exacted loyalty; he loved many lands, but he loved his own best. He was terrible in battle, but tender to the weak; joyous and tireless, being free from self-pity; clean with a cleanness that cleansed the air like a gale. His courtesy knew no wealth, no class; his friendship, no creed or color or race. His courage stood every onslaught of a savage beast and ruthless man, of loneliness, of victory, of defeat. His mind was eager, his heart was true, his body and spirit, defiant of obstacles, ready to meet what might come. He fought injustice and tyranny; bore sorrow gallantly; loved all nature, bleak spaces and hardy companions, hazardous adventure and the zest of battle. Wherever he went he carried his own pack; and in the uttermost parts of the earth he kept his conscience for his guide."

Above all, he exemplified by word and deed the spirit of an Americanism that will guide aught all true Americans of this generation, and another and another.

THE STATE OF TEXAS,
 TO THE SHERIFF OR ANY CONSTABLE OF DONLEY COUNTY,
 GREETING:

You are hereby commanded to summon all persons interested in the estate of Richard Walsh, deceased, and also all persons who would have been entitled by inheritance, had there been no will, whose names are unknown, to be and appear at the next regular term of the County Court of Donley County, Texas, to be held at the Court House of said County in the City of Clarendon on the 3rd Monday in June, 1922, then and there to contest, should they desire to do so, the probate of the hereinafter mentioned will, as well as the application of W. H. Patrick, filed in said Court on the 5th day of May A. D. 1922, and numbered 363 on the probate docket thereof, which will then and there be acted upon for the probate of the last will and testament of the said Richard Walsh, deceased, the original of which last will and testament cannot be produced in court because of the fact that the original of said last will and testament has been heretofore admitted to probate by and is now on file with the Master of the High Court of Southern Rhodesia, South Africa, but a duly certified copy of said will, is filed with said application, and the said W. H. Patrick alleges that he is named executor of the American property mentioned in said will, and asks for a probate of the same.

You are further commanded to serve this citation by publishing the same in a newspaper which is published nearest to the Court House of said county for four successive weeks previous to the first day of the term of this the County Court of Donley County, Texas, to which this citation is returnable, to wit: the 19th day of June 1922.

Herein fail not, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness W. E. Bray, Clerk of the County Court of Donley County, Texas.

Given under my hand and seal of said Court at office in the City of Clarendon, Donley County, Texas, this 5th day of May, 1922.

W. E. Bray, Clerk County Court, Donley County, Texas. (22c)

TO CANDIDATES

All candidates who expect to ask to have their names printed on the Democratic Ballot for the Primary Election July 22nd, 1922, must file their application on or before "Saturday before the third Monday in June" and which for this year is June 17th. Let all remember the final date—June 17th, and not fail to file by or before that date, as the law requires. Again the Executive Committee at its meeting on Monday, June 19th must pass on the question as to whether or not nominations are to be made by Majority or Plurality vote. In other words a double or single primary as to County and Precinct Officers. I am sure that the Committee will want to voice the sentiment of the people and the candidates themselves in this matter. Let Democratic voters discuss this matter with their Precinct Chairman that he may be prepared to properly represent you at the meeting when this matter is to be settled.

Sincerely,
 A. M. BEVILLE, Sr.,
 County Chairman. (23c)

PECULIAR FREAK OF THE WIND

A sudden gust of wind out of the clear sky yesterday afternoon picked up Rotan Hankins barn, and completely demolished it. It was a regular twister, and as there was no wind to speak of at the time, came wholly as a surprise. The planks fell down in a vacant spot fortunately not doing any further damage. —Quannah Tribune Chief.

HEREFORD STREETS DRAGGED BY LATE MODEL MACHINERY

The new city grader and finisher went to bat Tuesday afternoon and has been kept steadily at work ever since. The International people furnished a Titan tractor and crew to help the Russell Grader demonstration crew show the paces of the new outfit, and the combination has been making the dirt fly. Several streets have been beautifully smoothed over and at the present rate it will not take long to put all the city's streets in excellent condition.—Hereford Brand.

STOP THAT ITCHING

No matter how long you have suffered from a skin disease such as Itch, Eczema, Ringworm, Old Sores, Tetter, or cracked Hands, Poison Oak Sore Feet, or Sores on Children, we will sell you a jar of Blue Star on a guarantee. This is a scientific preparation which penetrates the skin going direct to the seat of trouble. Will not stain your clothes.
 Sold on a guarantee by R. A. Long Drug Co. (26c)

CASH BASIS

We are often asked why it is necessary for us to be so rigid with our collections. The reason is very easily explained. Every thing we buy must be paid in cash.

We have adopted the policy of paying cash for all material and supplies that we buy locally.

When we buy fuel we have to pay cash in advance.

Freight and express are always cash.

Labor is always cash.

Ninety-nine per cent of everything we buy must be paid for in cash. This plant is owned by a big company, but it is operated by itself. We have to pay all expenses out of the money we collect. As all our expenses must be paid in cash it is necessary for us to have the cash to pay them.

We all know that following up delinquent accounts is an expensive process. And that if we can pay cash for what we buy and get cash for what we sell we can operate our business on a cheaper basis.

The state laws limit our profits to a reasonable return on the physical value of the property. It is to the interest of our customers to help us reduce our expenses. You can do this by paying your bill as early in the month as possible, so that we can keep our business on a strictly cash basis.

This is the reason why we ask our customers, to pay their accounts before the 10th of the month.

Clarendon Light & Power Comp'y

Commencement is one time everybody wants to "style up"—wants to get the best of everything, to know that what he has on is exactly right. There is only one way to be SURE—get the best clothes you can find.

They're HERE! Anything from a necktie to a suit of clothes, priced at less than you would expect to pay for "cheap" clothes.

HAYTER BROS.

THE PRESBYTERIAN CHURCH

Last Sabbath morning witnessed the largest number of members of the church in the hour of worship of many moons. Let us get the habit fixed steadfast in our weekly programs of going up to the House of the Lord.

You'll feel better;
You'll look better;
You'll be better;
You'll do better.

Morning service will not be held as usual next Sunday morning due to the High School and College Baccalaureate sermon at the Methodist Church. We will have the evening service at eight o'clock. Sermon by the pastor.

Mid week service Wednesday at eight o'clock. The public is cordially invited to attend all of these services. The membership is expected.

Miss Sarah Thompson, who was the Latin teacher in the Canyon High School the past year, arrived here Tuesday evening to spend the summer with her parents, Mr. and Mrs. E. A. Thompson.

LELIA LAKE

School closed May 19th with one of our most successful terms.

W. B. Holly and daughter, Gladys returned from Plainview Monday where they had been after his daughter Miss Hazel who has been in school there the past term.

Mrs. Frank Wolford was called to the bedside of an aunt at Childress last Wednesday.

R. E. Conner and family spent Sunday at Barney Fielders east of Lelia.

Several of the Boy Scouts attended the regular meeting at Clarendon Friday.

The Home Economy Club met at Mrs. Walter Cauthans Monday morning.

The young folks enjoyed a nice party at Mr. Webb's Friday night. Grover Heath of Hedley had business in Lelia Monday.

June Taylor was a Clarendon visitor Tuesday.

Horace Tucker returned yesterday to Electra after having visited here with home folks for several days.

NOTICE TO SUBSCRIBERS

If your paper is dated wrong, or if you know of anyone who thinks that his paper is not dated right, please report to this office. We wish to close out the contest right, and we like everyone else, are liable to have made mistakes. Service is our motto. The Clarendon News by Sam M. Braswell.

ELECTRA BANK DEPOSITS SHOW GOOD INCREASE

Bank deposits in Electra are nearly \$100,000 heavier than when the government made its call for statement of March 10. On the other hand loans have been materially reduced. None of the local banks has any money borrowed. With an available cash reserve of nearly \$300,000, the local bankers have every cause for congratulation. Loans of the three banks aggregate \$1,144,000.—Electra News.

J. L. McMurtry returned yesterday morning from a business trip to Amarillo and Hereford.

GOVERNOR NEFF'S PROGRAM OF CONSTRUCTION

Denton people who were privileged to hear Governor Neff's short talk at the Texas Press Association meeting here were impressed, first with his knowledge of concrete needs of Texas, and second—very many places it first—with his sincerity of purpose, his real desire to be of service to the people of Texas and his native State.

Put into the Governor's office after a virulent campaign into which bitter, a crimonious personalities largely entered; declared a minority Governor elected by voters who were at heart opposed to him except as a second choice subject of slanderous charges of slacking—in spite of all these, Governor Neff in less than two years has converted a very large number of voters originally opposed to or apathetically supporting him, to the belief that he not only is giving to the State the best that is in him, but that in that best is a real service to the commonwealth.

It was remarked not so long ago by one who had supported him as a second choice that no previous Governor had given a greater effort at learning the needs of the State than this same Governor Neff. It is much easier for a State executive to sit in his office at Austin and get second-hand information about the different sections of the great State of Texas, their needs, their advantages and wherein they could be helped by the power of the government than to go out over the State and get them himself. It is no picnic to travel over wide areas of Texas by automobile or even by train to secure first-hand knowledge of the facts. Campaigning Texas is an onerous labor that is indulged in only by those seeking office or other material reward. But Governor Neff, long before any opposition to him for a second term was out and reasonably secure in the knowledge that there was hardly a possibility that the second-term precedent could be overturned, went out into the remote sections of Texas to glean by personal visits the knowledge that is essential to solution of the problems before the government of Texas. He has gone by trains by auto even by horse-drawn vehicle, and he has sought to obtain this knowledge, with dissemination of arguments in the directing of public attention toward the needs of Texas and building up of sentiment for their satisfaction as a secondary matter.

Given the knowledge of existing needs, there hope for the supplying thereof, Governor Neff has gone out into the highways and byways seeking ascertainment of what Texas needs to become actually what it already is potentially—the greatest State in the Union. And now, as he told his 3,500 hearers here the other night, he is at work on a program of construction, a far-visioning, permanent plan, for the removal or correction of disadvantages, for the correlation and co-ordination of the great natural advantages, resources and assets of this great State, for the beginning of the march toward that goal every citizen desires and the way to which Governor Neff is now diligently seeking.

Governor Neff is committed to the basic idea of economy. There was never a time when economy—governmental and individual—was more necessary to the speedy re-stabilization and rehabilitation of the world than now. But those who have heard the Governor briefly outline his views and his plans are quite convinced that his will be no "ox-cart economy," no saving at the spigot to waste at the bung-hole, no skimping in permanent investment to make a showing now and incur a huge capital loss in the future.

Governor Neff promised that the details of his construction program would be submitted to the people of Texas during the summer. Those details are awaiting with interest and the skeleton of them, as given in addresses over the State, gives rise to the confident belief that they will be of such nature as will draw to them the support of a very great majority of forward-looking Texas people concerned in the permanent advancement of their State.—Denton Record-Chronicle.

HENRY FORD ENTERS GROCERY BUSINESS IN LUBBOCK

Is Lubbock a good place for big business to make their investments? Well, yes. For just look who is entering the grocery business here—Henry Ford, one of the well known local men, not the automobile manufacturer and railroad operator, but the genial Henry Ford so well known to the people of Lubbock.—Avalanche.

BIG TENT SHOW ALL NEXT WEEK

The original Copeland Brothers and their splendid company of twenty-five artists, vaudeville and musicians will start a weeks engagement in Clarendon under their mammoth water proof tent theatre.

This company, which is making its initial bow in Clarendon is one of the oldest and most popular stock companies traveling in the south west, having spent twenty years in the state numerous times and the consensus of opinion every where is that it is one of the cleanest and best dramatic tent shows traveling in this section.

The company is headed by the well known Copeland Bros, a team of comedians who have made good all over America and are recognized as comedians of exceptional versatility and ability. They have surrounded themselves with a company of twenty-five artists and musicians, all above the average carried by an organization of this kind.

Chief among the vaudeville artists, who will appear between the acts of the players are the Three Copelands, comedy harmony singers. The Hamilton comedy sketch artists; Chambers the Rube monologist; Fred Roberts, cornet virtuoso and Myrtle Zento, the song girl.

The plays that will be offered during the week are all new and all standard stock releases. The opening play on Monday, May 29 will be "When Toby Comes to Town," the seasons funniest comedy. On Monday night only, all ladies, ministers and all veterans of the civil war will be admitted absolutely free.

Prewar prices of twenty-five and thirty-five cents will prevail during the entire week.

FIRE SIREN HERE; TO BE CONNECTED WITH PHONE OFFICE

The fire siren is here at last after being on the road two weeks or more. The City Commission reports that it will be erected on top of the fire station just as soon as a line can be strung between the station and the telephone office. To do this it will be necessary to erect three or four poles and put up the wire. This work should be completed in a few days and afterwards, when a blaze

occurs, the population for two or three miles around will hear of it pronto, if the advance dope on the new siren is lived up to.—Hereford Brand.

PAYS \$40,000 FOR HOGS

The firm of Dodson & Teaver, hog buyers for Lockney, paid out \$40,000 for hogs last month, according to the statement of Frank Dodson, a member of the firm.

The hog industry in Floyd County is a big item in our industrial development. This section has been maintained almost altogether through the sale of hogs and poultry for the past nine months. Hogs and poultry have been our main source of revenue, and without same this country would have been hit hard the past winter.

There will be more hogs raised this year than in the history of the country. There will be more poultry raised during 1922 than any two or three years combined during past activities in the poultry business.

Teaver and Dodson ship direct to California and this year's shipments are going to amount to huge figures, both in point of new money brought and left in the country, and the number of cars shipped. The county that beats Floyd this year in hog and poultry raising and shipments will have to get up and go some.—Lockney Beacon.

W. T. Hayter returned the latter part of last week from Dallas where he attended the state convention of clothes dealers.

Firestone

CORD TIRES

The tire section above at the left shows the condition of a Firestone 38x4 1/2 Cord Tire after 20,994 miles on a Yellow Cab in Chicago.

The section at the right was cut from a new Cord of the same size. Careful measurements show that only 1/3 of the tread of the tire on the Yellow Cab has been worn away after this long, grueling test. The carcass is intact after more than 11,000,000 revolutions.

Firestone Cords have averaged over 10,000 miles on Chicago Yellow Cabs (1,200 cabs all Firestone equipped). In thousands of instances, they have given from 15,000 to 30,000 miles.

Look at the tread—scientifically angled against skid, massive

and heavy in the center where the wear comes, tapered at the edges to make steering easy and to protect the carcass against destructive linging action of high tread edges. The carcass is air bag expanded to insure uniform tension and paralleling of every individual cord. It is double "gum dipped" to make sure that each cord is thoroughly insulated with rubber.

This is the reason why Firestone Cords unfailingly deliver extraordinary mileage. It explains the unanimous demand of thoughtful tire buyers for these values. The local Firestone dealer will continue to provide the personal service that makes Firestone tire comfort and economy complete.

BOY STEALS CAR— CAUGHT AT CHILDRESS

Last Sunday afternoon C. R. Dobbs' Buick was stolen from the square in this city. The car was missed in a short while and the officers began to send out warnings to other officers to keep on the lookout. Roy Dobbs and Henry Singley left immediately on the trail of the car which could be tracked by the tread on the tires—benig different, and found the car partly in the ditch some five or six miles north of Childress. The rain had made the road slick and the driver let the car go into the ditch. The driver was apprehended in Childress by the officers there. His name was Raymond Baker, aged 14, son of Geo. R. Baker, of Oklahoma City, a prominent citizen of that city. He arrived in Childress Monday and was decided best to permit the boy to return with his father, according to a statement in the Childress Index. Mr. Baker stated that the boy had been considered a model boy and this was his first time to leave home.

Raymond became enthused about the movies in California and was on his way to that state. It is said he drove a car belonging to some one else from Oklahoma City to near Vinson, Okla., where he had to abandon it when it ran out of gas, caught a ride to this city and had been here but a few minutes when he stole Dobbs' car and pulled out.—Wellington Leader.

ATTORNEY MOVES TO McLEAN

A. A. Ledbetter an attorney from Clarendon, has moved to McLean to practice his profession. We are glad to welcome Mr. Ledbetter to our city. McLean has needed a lawyer for some time.—McLean News.

McMURRY COLLEGE BUILDING GOING UP

Workmen on the administration building for McMurry College are progressing rapidly, and the brick layers have the walls of the building several feet above the foundation.—Taylor Co. Times. (Abilene).

DO NOT BUY "JUST COWS"

The development of producing breeds of dairy cows and the constant improvement in production has demonstrated the fact that there is a difference in cows and that there are certain points that must be considered in making purchases for a dairy herd. Even then, according to best judges, mistakes are made in making selections. The points, however, to be observed in selecting a cow, are outstanding to our best dairy husbandmen, and are as follows:

The udder should be deep, wide and long, with good attachments. It should be evenly developed, level on the floor and equipped with teats of good and uniform size, symmetrically placed. It should also be soft and pliable, indicating that it consists of secreting cells rather than flesh.

A good set of milk veins indicates that the udder is well equipped with blood. Long, crooked milk veins entering large wells or opening through the body wall are usually associated with high production.

A cow cannot be a maximum and continuous producer unless she has a strong constitution. Vitality and strength of constitution are indicated by broad, open nostrils, and a chest which is deep and broad.

Feed capacity essential. In order to produce heavily a cow must consume large quantities of feed and water. A barrel which is long, broad and deep indicates a large capacity and good production. A large cow nearly always has the advantage in production, provided she is no deficient in other points.

Alertness in temperament is an asset, and a sluggish cow is seldom a high producer. Dairy temperature indicates those characteristics which include the cow's feed is used for the production of milk rather than for body fat. Angularity, prominent points and lack of heaviness and flesh, and the presence of the tripple wedge are good indications.

Quality refers to the handling or pliability of the hide, the refinement of bone, and the character of the animal, which cannot be described but which have to be seen to be appreciated.—Farm and Ranch.

LINDSEY THEATRE IS BEING IMPROVED IN MANY WAYS

Ed. Rowley, manager of the Lindsey Theatre, is making some attractive improvements to the building interior, a nice pipe organ having been installed recently, and his program calls for many other features to be improved which will add materially to the comfort of the patrons of that show. Mr. Rowley is a progressive wide-awake business man, and his coming to Lubbock is a great addition to the personal of the city.—Lubbock Avalanche.

STORE ROBBED AT ALAN REED MONDAY NIGHT

Last Monday night Blakney Bros. store at Alanreed was broken into and \$150 worth of goods were stolen. The thieves, it is thought to be the work of two men, obtained entrance to the store by raising a window.

A shirt, pair of shoes, pocket knives, and a lot of jewelry, including one diamond ring, were taken.

Deputy Sheriff D. N. Massay of McLean was called to make an investigation, and found a clue that will probably mean the capture and punishment of the robbers.—McLean News.

MORRISON SELLS HIS RANCH AT CANADIAN

R. L. Morrison has sold his ranch immediately south of Canadian to Austin Beene of Claude and has become the owner of the Beene ranch and herd of cattle near Claude. The values of properties involved in the transaction were reported at \$100,000. The Morrison ranch was formerly the Moody ranch, and the handsome ranch headquarters are just at the south part of the town. Mr. and Mrs. Morrison have made many friends in Canadian, who will regret very much their decision to move away from this city.—Canadian Record.

HOSPITAL BONDS TURNED DOWN BY VOTERS TUESDAY

Incomplete returns from Tuesday's special election to vote on the issuance of \$50,000 in bonds to erect a county hospital show that the voters

of the county turned the bond issue down. Oklaunion is the only voting precinct in the county that returned a majority in favor of the issue. Vernon boxes gave a majority of 83 against the issue. From the already in it indicates that less than half of the voters in the county went to the polls to vote.—Vernon Times.

FIRE BURNS OIL MILL SEEDHOUSE AT HAMLIN

About midnight Saturday night the big seed storage house at the Hamlin Cotton Seed Oil Mill was found to be on fire and soon the whole structure was a roaring furnace. It is estimated to be around \$175,000. This means the building, the seed, which would have run the mill about two months longer, a big lot of seed products that had been stored, machinery, etc. Besides the oil mill loss there were several railway cars to burn and one or two loaded with seed products. The wind during the fire was fortunately from the northeast and this helped to save the main mill, but to save the mill there was some very heroic work done by fire fighters.

From reports the mill will continue to operate and all damages will be repaired in due time for the next crop of seed.—Hamlin Herald.

IMPROVEMENTS ON THE CITY AUDITORIUM

The City Council working in conjunction with the Chamber of Commerce has made some splendid improvements on the City Auditorium. An entirely new and substantial stage has been built. A light reflecting apparatus was placed on the ceiling and foot light arrangements were made the entire length of the stage. Several loads of dirt was put in the auditorium and on the dirt was placed several loads of gravel eliminating all danger of overflowing the grounds. A coat of whitewash was given the inside and it has the appearance of a new place.

It is contemplated to have the auditorium enclosed some time in the near future.—Snyder Signal.

CANDIDATES MUST FILE 3 REPORTS

All candidates for county offices for the democratic primaries in July are required by law to file three reports setting forth all expenses incurred in the campaign. This is set forth in the general laws of the 36th legislature on Page 142.

The law requires that the first report of expenses must be filed not more than 30 nor less than 25 days prior to the primary election, including money borrowed and liabilities incurred but not paid. The second one must be filed not more than 12 nor less than eight days prior to the election and the third one not more than ten days after the election.

The report must be sworn to and filed with the county clerk. Each succeeding report must include all the amounts previously received and disbursed at set forth in the former report or reports.—Haskell Free Press.

SUNNY VIEW

We have had most a week pretty weather, and farmers are making good time planting.

F. L. Behrens and wife and little son George Truett called on A. M. Lanham and wife Sunday night.

Mr. and Mrs. Neal Bogard spent Sunday in the home of the former's father Mr. Bogard.

Odus, Clinton and Clyde Martin had as their guests Sunday Clifford and Lois Davis, also Maurice Patton. A singing was enjoyed by the young people in the home of W. W. Moreland Sunday night.

Mr. and Mrs. Lonnie Wood and sons, Arlie and Lewis and Mrs. A. M. Lanham motored to Mr. Edwins Sunday afternoon.

Misses Blanche, Ega and Ruby Bogard are enjoying a visit with home folks as their schools have closed.

Delbert Lanham of Goodnight spent Sunday night with his father and mother, A. M. Lanham and wife.

CATTLE STEADY; HOGS HIGHER; SHEEP DOWN

Kansas City Stock Yards, May 15. Trade in cattle opened slowly with bids steady to a shade lower but later became active and most of the good fat cattle sold steady. Prime 1200 pound steers sold up to \$8.75. Hog prices opened 5 to 10 cents higher and eased off some before the close. The top price was \$10.75, the highest in several weeks past. Spring lambs were higher and shorn and woolled fed grades were 25 cents lower.

"When Toby Comes To Town"

The Funniest Comedy of the Season

ON MONDAY NIGHT ALL LADIES WILL BE ADMITTED ABSOLUTELY FREE

Pre-War Prices-25 and 35c

Receipts today were 10,000 cattle, 14,000 hogs, and 8,000 sheep, compared with 11,000 cattle, 15,000 hogs, and 10,000 sheep a week ago, and 12,775 cattle, 17,050 hogs, and 8,725 sheep a year ago.

Beef Cattle

Liberal receipts of fat cattle and lower prices in Chicago caused local buyers to place lower bids here at the outset. However, receipts here were no more than equal to demand and the trade later became active, fully steady on the best classes, and only slight weakness showing in plainer kinds. Choice 1300 pound steers sold up to \$8.75, the highest price on those weights in the past two weeks. Yearlings sold up to \$8.80. Cows, heifers, bulls and veal calves were steady with demand active.

Stockers and Feeders

Trade in stockers and feeders was not as brisk as a week ago, though prices held steady with last week's close. The best demand was for fair to good steers suitable for grazing.

Hogs

Following the experiences of last week when they got crowded out of the market by active packing buyers, shippers jumped into the trade this morning early at 10 cents higher prices than last week's close and at the highest level since March. Later packers paid steady to 5 cents higher prices than Saturday. The top price was \$10.75 and bulk of sales \$10.50 to \$10.70. A close clearance was reported.

Sheep and Lambs

Arizona spring lambs sold up to \$14.60 or 20 cents above last week's close. Woolled lambs sold up to \$14.50, and clipped Texas wethers up to \$8.50. They were quoted 25 cents lower and the lowest for some time past.

Horses and Mules

Trade in horses and mules was

quite at unchanged prices. Receipts were moderate.

Chas. M. Pipkin Market Correspondent.

KLAN FORCES REPORTER VIEW WEIRD INITIATION

At 6 p. m., May 11, four men garbed in the regalia of the Ku Klux Klan, stopped a reporter on the road in Gray County and invited him to join them. After driving 15 miles to a point near LeFors, county seat of Gray County, the party was stopped by a guard who after a whispered conversation, ordered the reporter blindfolded. From this place the party drove several miles and when the blind was removed from the reporter's eyes a weird spectacle was unfolded. Hundreds of white robed figures stood silently before a "fiery cross," the only other illumination being the moon.

Reporter Was Known

The parties driving the car occupied by the reporter are thought to be prominent men of the Panhandle, all of them calling the reporter by name. Immediately above the fiery cross floated the Stars and Stripes. The visitor was taken to a distance where words used in the initiation of the hundred candidates were not audible. Guards were stationed on the hills overlooking the valley to prevent the approach of unwelcome visitors. After the initiation ceremony, the reporter was permitted to join the mysterious assembly, where a barbecue was being held.

Early in the morning speeches were made by two speakers. One of these related the growth of the Klan in the Panhandle within the last month. Another speaker—more conservative than eloquent, stated that one-half of the male voters in this section who were eligible, were members of the Klan and that 25 percent

of the remainder would be added within the next two weeks. An idea was gained from the speakers that organization was begun in Gray County about one month ago.

Held in Pasture

The meeting was held in a large pasture, beneath a cottonwood tree. A remark was heard that visitors were present from klans located in McLean, Shamrock, Canadian, Miami, Pampa, Panhandle, Amarillo, White Deer, Groom, Allanreed, Clarendon, Goodnight and Claude. This remark indicated that some time during the secret ceremony the members had unmasked and disclosed their identity.

Following the speaking the party disbanded and the reporter was returned to the starting point with the request that he tell the truth in his report.

While the weird night spent by the reporter was interesting—it was anything but pleasant to the uninitiated.—Star Telegram.

SULPHUR SOOTHES UGLY, ITCHING SKIN

The First Application Makes Skin Cool and Comfortable

If you are suffering from eczema or some other torturing, embarrassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin specialist. This sulphur preparation, because of its germ destroying properties, never fails to quickly subdue itching, even of fiery eczema. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Mentho-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.

Why Not Build Now?

The price of building material is in line with the price of the commodities you sell. If you are a farmer see how the price of a two hundred pound hog will compare in purchasing lumber with a two hundred pound hog in 1918, when the prices of everything was up. Don't contemplate Building—Just Build!—Never before was the time better for the builder, our fine materials priced within reach of all, makes building costs mighty low, and really for fine building and economical building, our materials cannot be beaten.—Figure with us.

DAMSITE LAKE IS TO BECOME PLEASURE RESORT

Negotiations are on foot between a well-known promoter and the Rice Bros., of Houston by which the Damsite lake is to become a pleasure resort of considerable dimensions.

For years the two thousand acres of clear water, which constitutes this lake have attracted tourists for the fine fishing it offers. Large catches of bass weighing from two to eight pounds are nothing unusual, and there are always people camping enroute to or from Colorado, enthused over the fine sport they are having.

To put the possession of this lake on a commercial basis, it is the intention to enclose the water with an eight foot iron fence to exclude trespassers. A number of summer cottages are to be built, which will be rented out at a nominal figure. Other conveniences will be provided to make it a health as well as a pleasure resort, and the people of the surrounding country will be given access to the lake at any time of the year on the payment of a nominal fee.

The promoter believes that he can build up here one of the most popular resorts in Northwest Texas. Its being only four miles from Quanah will mean that the supplies will all have to come from this town, and that the whole country will be benefited.—Quanah Tribune Chief.

WARNING GIVEN ON HOOKING UP RADIO

Washington, May 14.—The Bureau of Standards Saturday warned fans to give heed to fire insurance rules in connection with the "hooking up" of radio equipment. If the rules are ignored the rates on their property may be raised or the insurance refused entirely the bureau declared in calling attention to the fact that fire insurance regulations governing the installation of radio apparatus are to be revised.

According to the Department of Commerce revisions of the rule which has heretofore covered radio installations is being considered by a committee of the National Board of Fire Underwriters.

The Department of Commerce has prepared a mimeographed circular containing tentative requirements which have been suggested for adoption.

It will probably be a matter of several months before the requirements are decided upon but in the meantime anyone who has real use for the circular may secure a copy by writing to the Bureau of Standards for their letter circular No. 82, "Proposed Revision of Rule 86 of the National Electrical (Fire) Code on Radio Equipment." William S. Boyd, Chairman of the National Fire Protection Association, 175 West Jackson Boulevard, Chicago, the bureau announces, will receive any suggestions, concerning changes in regulations.

DANIEL BAKER COLLEGE BALL TEAM ENTERTAINED

The Daniel Baker baseball team, being in the city for a series of games with Clarendon College, was invited to while the waiting hours after Thursday's game in meeting some of the young people of Clarendon, at the home of Mr. and Mrs. W. H. Foster. It was a very informal affair with no other purpose than to meet the young men of the Presbyterian College at Brownwood, while here.

On every hand, especially in College circles, there has been the word of commendation for these young men, as being a bunch of fine sports and well bred young gentlemen, and they made a good impression in Clarendon.

Fruit punch was served to the following guests: Misses Anna Moores, Annis Owens, Roberta Owens, Jessie Morrison, Annie Pearl Morrison, Roberta Morris, Emily Rice, Essie Patton, Margaret Martin, Clara Chrisman, Iove Read, Ethel Gentry, Mrs. Edyta's Bryan Cameron, Messrs. Blair, Page, Bates, Ashburn, Mitchell, White, Elinn of Daniel Baker and Messrs. Roy Kutch, and John Ryan, of this city.

Mr. Gillilan, the Daniel Baker coach, could not be present except for just a moment, due to the preparations to be made for departing and taking care of Mr. Witherspoon, who was in the Adair Hospital, from injury.

FIRST CHRISTIAN CHURCH

Pastor will preach on the "Ascension of Christ," at both hours Sunday. Subject for Wednesday evening, "The Waiting Brotherhood." The public is cordially invited to worship with us at these services.

B. L. Hughes, Minister.

SECOND OIL PRODUCER ADDED TO PAN. FIELD

The Gulf Dial well on section 10, block Z, Hutchinson County, was officially declared a producing oil well by Gulf officials in a test of the production by swabbing May 18th. The workmen found that the production would be large, but the exact amount will not be known until a pump can be installed and storage tanks moved to the lease.

The test will probably be made about June 10th, at the present depth of 3065 feet.

The land on which the Gulf Dial well is located is owned in fee by Walter Kline, a prominent operator of Wichita Falls.

The Silk, Bullington & Clark well on Burnett land in Carson County near the Texas well which had a fire Wednesday in which two men lost their lives, will have the hole filled with water to prevent a repetition of the Texas horror, due to the 25 million feet of gas which is escaping from the hole.

Material is in the yards at Groom for a deep test to be made on section 43, block B-2-H. & G. N. Ry., Gray County, 14 miles north east of Groom. Drilling should begin within forty days, according to terms of contract.

The derrick of Texas Company destroyed by gas explosion last Wednesday will be rebuilt at once, workmen began clearing the debris this morning.

H. T. McGee & Co Smith No. 1 Hutchinson county, will be drilled in early next week. The workmen are engaged at present in fitting a braiden-head to the pipe in order that the gas may be conserved and at the same time permit the drilling of the well. The heaviest flow of gas was encountered 200 feet above the oil.—Panhandle Herald.

SCHOOL BOARD MET PLANS ARE ACCEPTED

The School Board met in special session Saturday afternoon, and finally accepted the plans and specifications of the architect W. R. Kaufman, and bids for the construction of our new public school building are now being advertised for. The new building will double the school's capacity and in addition makes provision for Agriculture, Animal Industry, Manual Training and Home Economics, as well as to give us an auditorium with seating capacity around five hundred and a modern gymnasium.—Panhandle Herald.

HALL COUNTY ROAD BOND ELECTION ON SAT., JUNE 17

In compliance with a petition signed by 495 Hall county voters, presented to the commissioners' court last Saturday, the court entered an order for an election to be held on Saturday, June 17, submitting the question on issuing bonds to the amount of \$500,000 for road construction and improvement.

In referring to this petition last week the statement was made that 250 petitioners were required for a county election, this was an error, the number required under the law is only fifty. The law makes the calling of the election mandatory upon the court when a petition with the legal number of signers is presented.

A committee of voters from Estelina was present and asked that an agreement be inserted in the election order awarding to each commissioner's precinct its proportionate share of the proposed bonds, the proportion being in accord with the taxable values. The committee was informed that such agreement in the order would invalidate the election; but that the present court would readily agree to the division proposed and that the road funds had been divided upon this basis for a number of years past; since 1911, when the custom was adopted at the suggestion of the Estelina precinct, which voted a bond issue that year.

The commissioners' court made a conditional contract with George L. Simpson & Company, of Dallas, for the sale of the \$500,000 road bond issue, if the bonds should be authorized in the election called for June 17.

The Simpson company agrees to put up a \$10,000 cash forfeit to take the bonds at par and accrued interest also to pay all costs of preparing copy and printing bonds.

The Estelina committee also suggested that a large amount should be called for; an estimate of the needs of that precinct being around \$210,000.—Memphis Democrat.

Nature intended that you should eat what you want. You can do it if you take Tanlac. Stocking's Drug Store and R. A. Long Drug Co.

BUILDINGS CONTINUE GROWTH IN NUMBER

Work was started on the four buildings on the west side of the square. These are being financed by Holt Brothers, J. P. Green and J. C. Moore. A fire wall is being built by A. H. Hunt between his store and the new buildings. The construction is superintended by Red Minor. Two of the buildings will be twenty-five by eighty feet and two of them twenty-five by sixty. All four of them will have plate glass fronts, and will be modern in every particular. They will be occupied by J. P. Green's Hardware, M. Melhany & Co., Groceries, the Barber Shop, and The Fair Store.

Ad Holmes of Shamrock began work this morning on the new Ford service station and parts shop, which will occupy the corner lot just across the street north from the City Drug Store. The building will be 24x62 feet in length which will allow a drive way 22x24 feet and a parts storage room 24x10 feet. The building will be built of concrete blocks and stucco finished. It will be modern in every particular.

Mrs. C. Bee Stevens has purchased the corner lot just east of the Claude Oglesby residence at the Northeast corner of the square and in the near future a sheet iron building with concrete floor will be constructed upon the lot. The building will be 24x50 feet and will be the home of a new garage conducted by Fred Farmer. The garage will contain a complete acetylene welding outfit a general repair system and later on a complete electric lighting outfit and battery charging station. Sam Watson will go to this shop.

Nat Wofford and Norwood Hall have begun work on a new concrete block building next door to the recently opened Wofford Store. This place will be 25x30 feet in dimensions and will house the barber shop and tailor shop. It will be of the same construction throughout as the two buildings recently erected for the drug store and Wofford's dry goods and grocery store. This leaves only three more vacant lots on that block.—Wheeler News Review.

PIONEER OF BROWNFIELD DIED THERE WEDNESDAY

W. B. Winn, of Brownfield, died at his home Wednesday. Mr. Winn has been an active factor in the development of that section was justice of the peace of Brownfield several years ago, and in many other ways made himself useful as a town builder and keeper of the law.

He leaves a family and a host of friends to mourn his loss. To Brownfield he was so well known as a leader that his leadership will be greatly missed, and the good people of that town realize the fact thoroughly.

The men who came to the Plains before the possibilities of our soil was known have played a conspicuous part in the development of our commercial, agricultural and industrial life, and their passing is regretted not only by those with whom they were associated, but by the entire thinking population of the Plains.—Lubbock Avalanche.

COUNTY FAIR ASSOCIATION RECEIVES CHARTER

Thursday the Collingsworth County Fair Association received its charter from the State of Texas and the stock certificates will be printed and issued right away.

The Association has completed the purchase of four blocks of land adjoining the old site on the east, and work has been started fencing it. A race track will be put in so it can be used during the American Legion celebration July 4 and 5.

Mr. Newlin is planning to have a stock car handicap race from Childress to Wellington July 4th and all who want to enter should see him soon. The entrance fee will be \$10 and the purses will be \$150, \$100 and \$50. This will be a great event, if pulled off as planned. The handicap will be five seconds between the starting of each car.—Wellington Leader.

Coming Friday, June 2 **MARY MILES MINTERS** in **TILLIE**.

MATINEE 2 TO 5 O'CLOCK
EVENING SHOW 8 O'CLOCK
PIANO MUSIC BY MISS RYAN.

PASTIME THEATRE

THOUGHTS ON CURRENT TOPICS

(Old Rounder)

Hugh Nugent Fitzgerald of the Wichita Falls Record News is an astute political prognosticator. His recent articles on the situation as regards the senatorial race are interesting. A week ago he prophesied that Culberson and Thomas would be the leaders in that race, but in his issue of May 19th this week, writing from Houston he advises speaking of Hon. Earle B. Mayfield, that "It is an even bet that Mayfield is apt to run first in the field with Culberson second," in the east and southeast Texas section. Mr. Fitzgerald also comments on the fact that Mayfield seems to be the only candidate for the Senate who has advanced an economic issue in the campaign, and further comments upon the fact that Mr. Mayfield is making an excellent impression everywhere he goes, mentioning several large places specifically, where he has spoken. Mr. Fitzgerald remarks that Mayfield from the standpoint of good looks is in position No. 1; that Thomas does not stack up within 50 pounds of him. In the article the writer states that Mayfield is a serious contender for the high place he is seeking. In our own opinion Earle Mayfield is gaining every day and will be in the second primary.

The death of the noted writer, who was the author of the Frank Merriwell and King Brady detective stories so much read by boys a few years ago died recently in New York. Twenty years ago it was heard by the small boys of that time that if they read the Frank Merriwell and Old King Brady Detective stories they would be sure to come to a bad end, but many of the men who read those stories then are filling places of honor and trust today, but the fathers and mothers of that day are now seeing their grandchildren reading the trashiest of literature without so much as a protest. In the 5 cent weeklies of 20 years ago the good was held to be supreme, and the heroes of those stories never lent their influence except for good, and the bad men and women were always overthrown or came to a bad ending. Far different are the stories with which the youth of the land is regaled today. The bad is held up nice, and the good is made fun of; moving pictures have taken the place greatly of the cheap price magazines, and usually it is found that the evil and bad are upheld and broadcast as the heroic, and the good overthrown or made fun of. Isn't it about time to call a halt and take stock of our reading?

In the Frank Merriwell and King Brady stories of 20 years ago, the heroes always gave their aid to the weak and to the good. They never

stooped to anything bad, they never countenanced evil, but in many of the modern day stories the villain is the hero, and the good are made sport of. The Frank Merriwell stories were those of baseball and football, and the exploits of Frank and his teammates battling for the glory of the Yale University. Clean, stalwart and manly, did Frank stand and winning by right living, hard fighting for his victories, never countenancing wrong, and at all times opposing gambling on the games he played. How many times do you find that the case in the stories read today? Is it not a fact that gambling is so many times upheld, and wrong doing countenanced by the hero of the story, so long as the ends sought are accomplished. The old time so called "trashy" literature is far better and was on a higher plane than our literature of today with its sexuality, sensuality, immorality and many times downright indecency. The breaking down of our law enforcement in this country during the past few years can be attributed largely to the trashy literature distributed about the nation. Think of these things.

THE MASONS GIVE QUARTET OVATION

Ivanhoe Lodge, Kansas City, Entusiastic Over Marion Quartet
A few weeks ago the Marion Quartet by request, appeared before the Ivanhoe Masonic Lodge of Kansas City. The Ivanhoe Lodge is one of the strongest Masonic Organizations in the country. Every Saturday night they have what is known as a social evening.

Some of the great artists of the country appear at these affairs and consider it an honor to be invited. The Marion Quartet was supposed to give fifteen or twenty minutes of a varied program. Before they were allowed to quit they had consumed almost an hour of time. At the close of their program six hundred men stood to their feet and applauded for five minutes.

The Marion Quartet is one of the most versatile organizations on the Chautauqua platform. It is not only a male quartet. They play Marimbaphone, all four of them. All four of them play the Saxophone. In addition, there is a pianist and banjo player.

You can imagine the kind of a program that a quartet of this kind will give. It is limited only by the length of time they have to work. It is abounding in good music, delightfully played and sung. Popular songs will be an important feature.

HEMSTITCHING—10c per yard. Everything furnished. Office over Whitlock's Barber Shop. Singer Sewing Machine Co. (1c)

HOW TO CLEAN AN INCUBATOR

Be sure to clean your incubator before starting the machine so you may have a good hatch.

First—Take the lamp from the books and clean the burner good. Fill the lamp and clear the wicks with a match. Rub the charred wick off so it will not smoke; also lift up the perforated peice on the burner and rub off so the burner will get air. This is very necessary for the lamp will not smoke if you will do this but be sure and fill lamp every morning and smooth the wick.

The next thing to do is to clean the flues of the machine, using a stick with a rag on it to swab out the soot if there be any. This sometimes occurs from the wick burning too high.

Now clean the egg chamber by taking out the egg racks and give them a thorough washing in a tub of hot water with plenty of suds, and a brush. Take boiling water and sterilize the racks and trays thoroughly and set aside to dry.

If your machine has a nursery under the egg tray for the little chicks, remove the cloth and wash dry and tuck the cloth back in the machine. See if the air holes are open on the bottom of the machine.

Have plenty of hot boiling water ready to fill the tank so you will not have so long to wait. This is for hot water machines. Be sure and repeat this after each hatch.

A clean start with a clean incubator means a clean hatch from your eggs. Don't blame the incubator or the eggs when you do not give them a fair chance to hatch.

"Cleanliness is next to Godliness," in hatching eggs just as it is in most other things—Mary Jane.

Earl Rogers, of Waxahachie, visited here last week with friends. Mr. Rogers is looking to the Panhandle with a view of locating here.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 5c bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica and lame back misery so promptly!

GLASS OF SALTS CLEANS KIDNEYS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which remove the body's noxious waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonates, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

MUNDAY VOTES TO ISSUE BONDS FOR WATER SYSTEM

The sixty thousand dollar waterworks bond issue carried at Munday Tuesday of this week by a twenty-five to one majority vote.

Munday voted on a fifty thousand bond issue the early part of the year and it was carried without a vote against it but some mistake was made in the order of the election and the Attorney General would not approve it hence the sixty thousand bond issue was ordered that the mains could be extended further in the northeast part of the town.

Munday is experiencing the biggest building progress in its history. Some fifteen new buildings have been erected this spring with that number under construction now and about to be started.—Haskell Free Press.

"You may grow to great riches and glory, You may toil for yourself through the day; You may write in your record and story The struggles you've met on the way; But vain is the fame you boast of; And wasted the years that you scan; Your strength you have not made the most of, If you've rendered no service to man."

ANOTHER REDUCTION FOR TULIA IN FIRE INSURANCE KEY RATE

On account of the Tulia public schools having adopted this course, as recommended by the State Fire Insurance Commission, the key rate for insurance in the City of Tulia has again been reduced three per cent. This means a very material saving to those paying out on premiums for fire insurance.

The text books, as being used for this course in our schools, is one which is prescribed by the State Fire Insurance Commission, entitled, "Safeguarding the Home Against Fire," a fire prevention manual for the school children of America. Fifty of these books have been bought, being paid for by the City of Tulia.—Tulia Herald.

J. L. Craig, of Friendship Tennessee, arrived here this morning to be present at the graduation of his son Eugene, who is a member of the senior class at the college.

Miss Mary Fair and Mr. Life Smallwood were united in marriage Sunday afternoon by Rev. J. T. Griswold at the home of the bride's parents, Mr. and Mrs. W. L. H. Fair.

Mrs. W. H. Bradford, of Almagorda New Mexico, is visiting here this week with her sister, Mrs. J. B. Anthony.

Rev. Robert Kruse was called last week to his old home at Arlington, Nebraska by a message stating that his father was seriously ill. He returned here Sunday after it was thought that his father was on the road to recovery, but received a message Monday stating that the father had passed away.

The editor and family are in receipt of the commencement program of the Rockdale High School, this being sent by Miss Clara Esten

Cooke, one of the graduates and the class reader. Miss Cooke is the daughter of Editor John Easton Cooke, of the Rockdale Reporter, and lived in this city several years ago when her father was the editor of the Banner-Stockman here.

J. C. Albritton of Galveston was a visitor the past week at the home of his long time friend, E. H. Watt, at Giles. He also visited a brother at White Deer. Mr. Albritton has spent many years studying the cotton plant and industry, as grower, buyer, and shipper—having been with W. L. Moody & Co., twelve years, as well as serving on the Examination Board of State Cotton Classifiers, and in various other capacities. He is still a large landowner and cotton grower in South Texas, is a fluent and interesting talker, and doesn't think a great deal of the "Experts" or "Paper Farmers" who of late years have been put in charge of our agricultural affairs. He has reasons for thinking as he does—and gives them, plainly and convincingly.—Hedley Informer.

FOR SALE—Alfalfa hay; new crop and bright green. E. M. Ozier. (21c)
