## SUMMER TERM OF DISTRICT COURT TO CONVENE HERE MONDAY 17TH OF JULY WITH A HEAVY CIVIL DOCKET

JUDGE HENRY S. BISHOP TO BE ON THE BENCH AGAIN. DISTRICT ATTORNEY FOR THE TERM TO BE APPOINTED LATER. LARGE PAPERS TO HAVE REPORTERS HERE DURING THE TRIAL OF HOUSTON UPTON WHO IS CHARGED WITH MURDER.

The summer term of District Court in this county will convene here Monday, July 17th. Judge Henry S. Bishop will be on the bench, and the district attorney for the term will be appointed later. The civil docket is a very heavy one; and the criminal docket has a case that is one of the most famous ever tried here, the case of the State v. Houston Upton being tried here for murder on a change of venue. Some of the larger papers are preparing to detail special reporters to be present at the trial. It is very probable that the full for weeks allowed by law will be taken up on account of the large docket.

The docket as made up to present is as follows: Criminal docket, State v. George Dale, forgery; State v. A. Marquis, Conversion; State v. Andrew Newman, theft; State v. R. R. Hamlin, possession and manufacture of intoxicating liquor; State v. R. R. Hamlin, selling whiskey; State v. Jack Hamlin, possession and manufacture of intoxicating liquor; State v. Jack Lichfield and J. O. Bodie, violation of liquor law; State v. Dean Webster and Howard Smith, robbery; State v. J. F. Lindie and G. H. Brown, robbery; State v. H. M. Crawford and Bob Crawford, changing brand; State v. Ned January, selling liquor; State v. Houston Upton, murder.

The civil docket to date follows. Cases to be tried by jury are General Motors Acceptance Corporation v. W. B. Weston et al; Farmers State Bank of Clarendon v. D. N. Beavers et al, suit on note; Farmers State Bank of Clarendon v. N. C. Whitlock, foreclosure; D. W. Williams v. G. O. Wood et al, foreclosure; U. J. Boston et al v. Ed Evett, suit on note.

Non-jury cases are John Craig v. Frank Leis suit to collect note; Ed Martin v. Crane New York Oil Co, account; F. & M. Bank of Lelia Lake v. Nat S. Perrine et al, foreclosure; Bugbee Livestock and Land Co. v. H. R. Crane, damages and debt; Bugbee Livestock and Land Co. v. Don H. R. Crane, damages and debt; Nat S. Perrine v. M. O. Barnett, damages; James Smith v. H. Lott, specific performance; G. W. Andrews v. J. H. Evans et al, foreclosure.

Appearance cases are Farmers State Bank of Clarendon v. M. C. Slaughter et al, foreclosure; R. F. Morris v. P. O. Whitwell et al, trespass to try title; Clint Phillips v. R. E. Conner et al, foreclosure; C. L. Fields v. R. F. Morris et al, foreclosure; W. E. Christie v. Major B. Hudson et al, foreclosure; W. S. Noble et al v. J. W. Rowland et al, injunction; Walter Carmicle v. Ozelia Oil Co., suit on account; Jewell Allen v. James L. Allen, divorce; Myrtle Edmond v. R. E. Edmond, divorce; U. J. Bosten et al v. J. M. Robertson et al, foreclosure; Walter Darlington v. W. C. Lyle et al, foreclosure; Gerlach Brothers v. Swanson and Co., suit on account; Roy Guffey v. F. & M. State Bank of Lelia, injunction; Bessie Fuller v. J. W. Fuller, divorce; C. H. Ellis v. R. L. Shelley et al, foreclosure; E. T. Warren v. G. W. Meador, foreclosure; A. N. Wood v. Nat Perrine, foreclosure; J. M. Plaster v. W. T. Clifton, foreclosure; J. M. Plaster v. H. Cook et al, foreclosure; Beulah Brooks v. Earl H. Brooks, divorce; First State Bank of Hedley v. A. W. Kercherville et al, suit on note; John Ryan v. J. S. Morgan et al, foreclosure; J. C. Christie et al, executors v. W. L. Butler et al, foreclosure; Effie Brady guardian v. Mattie L. Means et al, suit to establish heirship; O. E. Batts v. Roy Guffey, suit on contract; Jefferson Standard Life Insurance Company v. George W. Taylor, foreclosure; W. E. Frye v. Dr. Agnes Frye,

divorce; Lottie Taylor v. Clarence Cox, suit to reform judgment; John A. Sexauer v. R. F. Morris et al, foreclosure; C. N. Plaster v. F. N. Reynolds et al, foreclosure; George T. Cook v. W. M. Patman et al, foreclosure.

The list of Grand Jurors selected to serve is as follows; and they are to appear at ten o'clock on the morning of July 17th.

Frank Hermesmyere, L. A. Stroud, C. A. Burton, Jake Masterson, B. F. Wolford, L. McClelland, W. C. Scott, W. A. Tomlinson, Sid Harris, J. D. Harvey, R. H. Alexander, G. M. Richards, Ervin Alderson, Will Kennedy, Robert LaFon and Jim Helm.

The list of petit jurors selected for the first week is as follows. They are to appear at nine o'clock on the morning of the 18th of July.

D. B. Hilburn, W. E. Lawson, J. M. Stephens, F. L. Bourland, O. C. Watson, Don Baker, J. W. Noel, W. P. Arnold, L. Z. Land, S. G. Adamson, H. L. Calcote, Arthur Bell, J. W. Bland, Otis Barnes, Newt Waldron, Sam Oakley, C. E. O'Neal, R. A. Brown, J. R. Bulls, Nolie Simmons, F. P. Shelton, Sam Allen, F. M. Clark, Ben Andia, J. E. Humphrey, Wm. Pickering, J. R. Ayers, Lee Holland, W. H. Stroud, H. M. Parker, J. A. White, J. N. Neeley, C. G. Oakley, Wesley Shaw, J. C. Estlack and J. D. Pope.

### BUNDLES FOR NEAR EAST RELIEF—GATHERED BY THE BOY SCOUTS

Although the rain made it difficult to gather the clothes, and quite a few people "hadn't thought of it," the bundles of old clothing for Near East Relief in the work done by the scouts was productive of much serviceable clothing which has been packed for shipping.

It is interesting to think that those old clothes you had all but thrown away will be carried across seas and by September will be ready for distribution. From folks that "have a heart" and care to—folks Christian folks—that appreciate that kindness.

We thank you.

### MAJOR SIMPSON IS COMPLIMENTARY TO GUARDS AND BAND

Major E. A. Simpson of Clarendon, Texas, commander of the Second Battalion, 142nd Regiment, National Guard, spent Wednesday and Wednesday night here, inspecting the local Guard company. Formal inspection of the boys was held at night at the Armory. Major Simpson expressed himself as well pleased with the work of the local unit. He also said he claimed the Hereford Band as the official musical organization for his battalion.

During the war Captain Simpson commanded the Clarendon unit, Company H, of the same regiment, and made quite a record as a fighting leader in France.—Hereford Brand.

### DONLEY COUNTY UNION CONTEST RECENTLY BEGUN

A new contest around which it seems there will be a strong atmosphere is the Donley County Union Contest. N. W. Hatchett, of this city, made the first entry Thursday afternoon with three large onions that together weighed two pounds and ten ounces. The circumference of the largest onion was fourteen and one fourth inches, and it alone weighed a pound. The variety of this onion was white Bermuda. The News solicits other entries in this contest.

### CITY OFFICE IN NEW HEADQUARTERS NOW

Following the purchase of the Cantelou building by the city last week, remodeling of the building was commenced at once; and the city office is now located in the nice new headquarters.

The city office was built in the southeast corner of the building, a large window having been placed in the south wall thus lighting the office well. The whole front of the building has been repainted, and the words "City Hall" stand out plainly.

Mayor Cagle and the other city officers are highly pleased with the new headquarters; and with the completion of the vault at a later date, Clarendon will be provided with a city hall that is unsurpassed.

### COTTON ROSE TAKES PRIZES AT THE CHILDRESS RODEO

Cotton rose, well known cowboy of the J A Ranch returned yesterday morning from Childress where he entered the rodeo held the 3rd and 4th. Cotton took the second prize in bronc riding and the same prize in steer riding the first day. The second day he raised his record by taking first prize in bronc riding, second prize in steer riding and second prize in steer bulldogging. Although Cotton was hurt when a steer that he was bulldogging fell on him, he returned happy that he took as many of the prizes as he did.

### INTEREST GROWS IN ONION CONTEST

This week has seen the manifestation of further interest in the onion contest started last week when N. W. Hatchett brought in a large onion weighing a pound. W. E. Hardin is thus far leading the contest, having brought in an onion he raised the weight of which is one pound and three ounces. All entries thus far are of the large white Bermudas.

### REV. WHITE TO DETROIT MICHIGAN

Mrs. S. J. White, who has been here visiting with Mr. and Mrs. Homer Mukey for some time, left Monday for Wilsey Kansas to join her husband who is holding a revival meeting at that place. Rev. White has an excellent charge at Detroit, the church paying a salary of \$3,700 per year. Rev. White will commence his work there the 15th of this month.

### LITTLE LIFE LINES

W. H. F. Opportunity comes to the modern just as well as they did to the ancient. But lots o'times when they knock at a fellow's door.

He turns 'em down cold With a sort of sweet resignation. And says, like the old man one time, "Weighed in the balance and found wanting."

But more likely the modern interpretation would be: "Weighed in the balance and found Not wanting To."

### BREAKS JAIL TO BE IN COURT ON TIME

Clovis, N. M., June 24.—Van Pollard, negro, believes in using the most stringent methods to obey the letter of the law. Van, who was arrested here one night recently for an alleged fight with another negro, was informed by the officers that he would be taken before the court at 8:30 the following morning for trial. At the appointed time, no one appeared at the jail to take the negro to court, so he broke jail and quietly walked into Police Judge J. P. Noble's office.

"Well, Judge, heah I is," he announced.

"What do you want?" question Judge Noble.

"Well, sir, dey say I wuz to appear befo' you dis morning' at 8:30 an' nobody come for me, so I broke out and heah I is."

"All right," said Judge Nobles. "Twelve dollars for disturbing the peace."

Harry Stiner was an Amarillo visitor yesterday.

### DATA COMPILED ON STAR ROUTE HERE TO PAMPA

RECOMMENDATIONS BEING MADE ON PROPOSED STAR ROUTE TO JOIN THIS CITY WITH THE NORTH PLAINS. FOLLOWS HIGHWAY 33B.

Although no definite steps have as yet been taken, Postmaster C. C. Powell, of this city, has been asked for data on the proposed star route joining this city with Pampa. In order for the full information to be turned into the Post Office Department, it will be necessary for Mr. Powell to go over the entire situation ascertaining the duplication of other routes and like effects.

It was first proposed by some of the citizens of Pampa that this be a motor route; but after advising with Mr. Powell, the local chamber of commerce asked that this be made a star route. The main difference in this case is that the motor route could carry only the mail and such merchandise as was sent parcel post, while on the star route passengers and merchandise other than that shipped by parcel post could be shipped.

It is estimated that it would take at least four and one half hours to go from one city to the other working the mail boxes on the route. In view of this, the schedule that will be proposed is that the mail car leave Pampa at seven o'clock in the morning, reaching this city about twelve o'clock; then start back to that city at one o'clock, reaching there about six o'clock. These recommendations will be made in view of the fact that it is proposed that the mail car make six trips per week, thus calling for a round trip each day. Should the route materialize as is hoped, it will be let by contract as are other star routes.

The proposed route will follow the recently opened highway between this city and Pampa; this highway is designated as 33B by the State Highway Department, and is thoroughly marked from this city to that; the markings are on a sort of crescent shaped board on a white post; the distance is given from this city to Jericho; and from there the distance is given between that city and Pampa.

Although the highway has not been officially designated as going further north than Pampa, many tourists are nevertheless going north from there. A man with team is kept on the Canadian, according to advices received, and autos are pulled across; and it is said that there is considerable travel across there.

### WICHITA APPROVES SCHOOL BOND ISSUE

Voters in Wichita Falls gave their unanimous approval Saturday to the proposal to vote \$850,000 worth of bonds for the building of a junior college and making enlargements to the school plant to care for increased enrollment in the grade schools of the city.

The bond issue was given an affirmative vote of about seven to one in May, but the attorney general held the election invalid because insufficient time elapsed between publication of notice of the election and the date set for the election.

Wichita Falls' junior college will cost \$650,000 and will take care of 1,500 pupils. President C. N. Marquis of the Sol Ross Normal College at Alpine was elected principal of the junior college, but his board of trustees has persuaded Mr. Marquis to remain at the head of the normal college—Electra News.

### FRED STORY WITH DONLEY COUNTY BANK

Fred Story went into the employ of the Donley County Bank the first of the month as teller, taking the place formerly held by Dick Walker, who resigned to go to farming his land in Gray County. Mr. Story was formerly in the banking business in Gateville, and will, no doubt, make a valuable employee.

### CLOTHING CONTEST FOR CLUB GIRLS HERE TUESDAY

Miss Trullie Richmond, county home demonstrator, announces that the clothing contest for the club girls of Donley county will take place in this city Tuesday of next week in the Y. M. C. A. building. In connection with this will be held the sewing contest. Some forty girls will make entries in the clothing contest, while almost all of the girls will enter the sewing contest. It is hoped that scholarships to the A. & M. short course may be secured for those winning the first prizes.

### MOULTON YOUNGBLOOD ENTERTAINS TERTAINS WITH DANCE

Moulton Youngblood entertained a number of his friends with a dance Saturday evening at his home in the southeast part of this city. Those present were Misses Annie Myra Bennett, Virginia Manley, Velma Potts, Thelma Allen, Annis Owens, Josephine Sawyer, Bess Alexander and Messrs. James Noble, Bob Bennett, Jimmy Miller, Harry Allen, Allen Cooke, Willie Wiedman and Bill Murphy.

### MISS BENEDICT HOSTESS TUESDAY

Miss Mary Hallett Benedict was hostess to several of her friends Tuesday evening honoring Miss Mary Lillian Young, of Megargel. Those present were Misses Mary L. Young, Virginia Manley, Nell and Ola Grogan, Thelma Allen, Helen Martin, Mary Stocking, Christine Richards, Annie Myra Bennett, Josephine Sawyer and Messrs. Roy Walker, James Noble, Wilburn Hartzog, L. W. Wrye, Shorty McCollum, George Clifford, Winfred Cole, Moulton Youngblood and Frank Stocking.

### MRS. ALLEN HOSTESS

The following is an account taken from the Dallas News of a social given by Mrs. Sidney Allen in Dallas. Mrs. Allen is the daughter of E. E. Moore, of this city:

Mrs. Sidney Allen entertained Thursday afternoon at her home, 511 Madison Street with a miscellaneous shower in honor of her sister, Mrs. J. D. Barrow, a recent bride. Bunco was played and the honor guest received many beautiful gifts.

The guests included Mrs. Barrow, Mrs. S. L. McAdams, Mrs. Katie Bruns, Mrs. Lee Engle, Mrs. Roger Compton, Mrs. E. Wagner, Mrs. J. Crutchfield, Mrs. M. A. Dozier, Mrs. Ola Littlepage, Mrs. Bobbie Littlepage, Mrs. C. C. Cuff, Mrs. H. M. Pierce, Mrs. Frank Sly, Mrs. Kearney, Mrs. More and Miss Kearney.

### SHERMAN-BALDWIN

Miss Mary Lou Baldwin, daughter of Mr. and Mrs. Charles Baldwin of this city, was married at eight o'clock Wednesday morning of last week to G. Z. Sherman in Canyon. The marriage came as the happy culmination of a romance begun last year when Miss Baldwin was an interscholastic league representative from this city going to the district meeting in Canyon.

The bride is the eldest daughter of Mr. and Mrs. Baldwin, and received her education in the schools of this city. Her friends are limited only by her acquaintance, and they join in wishing her many happy years on the matrimonial voyage. The groom is a young man of sterling qualities, being a barber in that city, and his friends congratulate him on winning his bride. The News joins with the many friends in wishing for them many happy years filled with prosperity.

Mr. and Mrs. W. H. Foster went up into Gray County last week where Mr. Foster preached Sunday afternoon and evening. They enjoyed also a Fourth of July community picnic Tuesday in the woods on McClelland Creek, returning home Tuesday evening.

Mrs. Roy Carhart and daughter Miss Gladys and son Leroy visited here the first of the week with Cal Merchant and family and Mr. and Mrs. George Taylor while enroute to Ft. Worth.

### JULY 4TH CELEBRATED WITH AN OLD TIME PICNIC

ALTHOUGH THE ATTENDANCE WAS NOT AS GREAT AS AT SOME CELEBRATIONS THE OLD FASHIONED GET-TOGETHER WAS SUCCESS.

Although Clarendon has had a much larger attendance at many celebrations; those in attendance at the celebration here Tuesday seemed to get as much pleasure out of the quiet affair as is ever got from the big noisy ones. The features of the day were the baseball games and the band music. In baseball the Roosters took another step forward in the city league which they are leading; by winning both games. The people began gathering by the middle of the morning, and the first performance was when the Clarendon Band gave a few numbers on the streets. Following this the Roosters met the Shriners on the College Park baseball grounds, and the clash resulted in a ten to two score in favor of the Roosters.

The stores closed at twelve o'clock so that the merchants might be with their families or participate in the basket dinner. The afternoon program began when the band gave a fifty minute concert on the court house lawn. Several hundred people were present for the music, and the numbers received best were "The Emblem" march by Bagley and "The American Patrol" by Meacham.

Following the concert, the Roosters as winners of the morning's game crossed bats with the American Legion. This resulted in another victory for the Roosters with the score standing 15 to 13. Fans declare that there were two features of the game; the best was when Manley Orier broke up the game in the ninth inning with a long home run over the left field fence. The other was when Al Cooke, the deliberate southpaw pitcher, struck out his brother Bill, one of the best batters ever on a local diamond.

Following this the Clarendon Black Tigers met the Amarillo Black Giants in like sport, but this time the visitors took the game from the local boys.

Although the political speaking was not gone through with as had been stated, there were, nevertheless, many candidates on the ground, and they seemed to like the personal appeal better than the speech route.

Although this was not the noisy celebration that is sometimes given, everyone seemed to enjoy the day, and the orderly manner in which everything went off is another triumph for the city and county.

### WELLINGTON CIVIC LEAGUE MAKING GOOD SHOWING

The Civic League's regular meetings are the 1st and 3rd Tuesdays, in the court house, at 4 p. m.

The president requests a good attendance next Tuesday as there are several civic matters of importance to be discussed.

The civic workers have joined with two other organizations of the town in order that there might be better co-operation, that the town might be made more attractive.

A large lawn mower has been bought by the league and it hopes to keep the park and other parts of town in a more attractive condition.

The man employed by the league to keep the park has made great improvement and it will not be long until Ellison Park will be the most attractive place in town.—Wellington Leader.

Word received from Bert McCordell, who is spending his vacation in Frederick Maryland, states that he is enjoying himself immensely and that he hopes to return here about August 1st.

Joe M. Warren was a business visitor to Amarillo Tuesday and yesterday.

### LAST PROGRAM OF CHAUTAUQUA MONDAY EVENING

THE PHILHARMONIC ORCHESTRA BRINGS THE 1922 CHAUTAUQUA TO A DELIGHTFUL CLOSE. ALL PROGRAMS ARE FAVORABLY RECEIVED

With a musical program that was par excellence, the Ladies Philharmonic Orchestra brought the 1922 chautauqua to a close Monday evening. Each one of the programs was received with great favor, and the best numbers were perhaps, the play "Friendly Enemies" and the program by the Philharmonic.

The series of programs commenced Thursday afternoon with a musical program by Vierra's Hawaiian players and singers. This was well received by the large audience at the opening number, and the same organization gave a prelude that evening to an excellent lecture by Prof. J. H. Dickason. Mr. Dickason is a thinker, and his address proved a treat.

On the second afternoon, the Marion Quartet rendered a delightful musical program; not only are they singers of the first class, but are instrumental musicians of like ability. That evening they gave a prelude to the entertainment by Al Baker, singing and numbers of such instrumental as the marimbaphone, banjo, Saxophone and piano served to make a program that was varied and well received. Al Baker also proved himself a master in his line; for he is a ventriloquist of the first class, and a magician of no mean ability. He received hearty laughs from his many comic dialogues and stunts with "Dummy Dennis."

On the third afternoon Miss Gertrude Roseline, a reader of accomplishment and Charles Edwin Shank, a reader of plays, entertained the audience. On that evening was given the play "Friendly Enemies." Each of the characters, among whom was Miss Roselle, was an artist, and the production was one of the very ever presented in this city. The play was laid at a time shortly after America's entrance into the Great War; and it is the kind that appeals to the patriotism of every American. Many scenes were these, and humor pervaded the whole play.

The fourth afternoon was given to a delightful program by the McKelvie-Jessop company. Miss McKelvie is an artist of rare accomplishment, and Miss Jessop is an excellent reader and accompanist. They also gave a prelude to the lecture by Dr. J. Q. Robinson that evening. Dr. Robinson was well received with a thoughtful message on the life of the boy and the girl.

Monday afternoon the Ladies Philharmonic Orchestra, under the direction of Forest Schultz, rendered a delightful musical program; and following this Y. T. Yamato, a Japanese lawyer and statesman, addressing the audience on some of the problems confronting the United States and even the whole world with reference to the solution of the far eastern question.

The closing program Monday evening had a large audience, and was highly received. The six young ladies and Mr. Schultz were artists; and their program was varied and highly received.

This year's program was brought here under the auspices of the American Legion. Although a slight deficit from the amount of the guarantee was realized, the boys are due much credit for the way that they worked to put the thing across.

Jim Stacy and his sisters, Misses Ruth and Beatrice, and Mrs. Osa West and her son Ben, of Amarillo, spent the Fourth here with Fred Story and family.

Misses Mary and Alice Johnson, of Hedley, visited here this week with their friends, Miss Ella Clark and Misses Rutherford.

Walter Butler who is putting in a wheat crop on the Plains was here the first of the week on business.

"Hey, you Buck an' Charley, you go an' lay down for a time while I get to the deep bottom of this big bowl of Kellogg's Corn Flakes an' fruit for my lunch! Fishes have got to wait for me when I eat Kellogg's— you jes' betcha, boy!"

## Health and happiness in every spoonful of Kellogg's CORN FLAKES

For tomorrow's breakfast—treat the family to Kellogg's Corn Flakes and fresh fruit! See that there is a big pitcher of cold milk ready! And, urge each big and little family member to eat plenty, for Kellogg's are the perfect warm weather food!

Kellogg's Corn Flakes are not only delicious in crispness and flavor, but they're wonderfully nourishing and refreshing. They give stomachs a chance to rest in warm weather because they digest so easily. Eat Kellogg's regularly and get away from so much heavy foods and see how much better every one in the house feels!

Insist upon Kellogg's Corn Flakes in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes! None are genuine without it!

Also makers of FELLOGG'S KRUMBLES and KELLOGG'S BRAN, cooked and crumbled

### NEWSPAPER ADS ARE MOST EFFECTIVE, BANKER ASSERTS

Competition is coming back into the world with a vengeance and the merchant manufacturer or banker who expects to get ahead from this time on must realize that he must fight his way upward, declared George Woodruff of Chicago, vice president of the National Bank of the Republic, in an address before the South Dakota Bankers Association here today.

"Advertising a Bank," was the subject of Woodruff's address.

Advertising, he asserted is the most effective of all weapons in the fight for business, and among the various kinds of advertising newspaper advertising is unquestionably the "big eartha" of the all.

"Bankers who do not believe that advertising pays are steadily retreating to the background," Woodruff continued. "This is surely not to the disadvantage of our country, for bank publicity is daily turning spenders into savers and creating that spirit of universal thrift upon which the future economies stability of America must necessarily be based."

## FRUIT JARS

Fruit Jars, Rubbers and Tops. We have old style Masons, Kerr's wide mouth Jars in pints, quarts and half gallon. Plenty of new tops and rubbers for your old jars. We have pure cane sugar for your preserves and jelly. We have Certo that makes jelly making easy and sure without boiling away the flavor. Paraffine for sealing your jelly glasses. Come to see us or phone.

### ETERNAL PROTECTION

The Lord shall preserve thy going out and thy coming in from this time forth, and even for evermore.—Psalm 121:8.

Candidates are warming up these days, even if they can't get the "dear people" to warm up like they would have them.

The News congratulates Editor T. B. Klepper, part owner of the Foard County News at Crowell, on his recent marriage to Miss Virginia Newton of Gainsville. Marry 'em young and bring 'em West.

People might think that newspaper men were above the average intelligences if occasionally one didn't get up and pull off a fool stunt like Harry Warner running against a governor for his second term.

Crit Conally, former editor of the Orange Leader has sold his interests in that concern and has bought the Ladonia News at Ladonia, Texas. Crit is a former Clarendon College student and is making good as a newspaper man.

The Pampa News has become a much better newspaper since installing their new press and instead of a four-page seven-column paper it is now an eight-page six-column medium that carries the news of Pampa's progress to the world. Smith & Son are forward-lookers.

The ways of politicians are still human ways and there is no discernible difference in the ways of the senatorial candidates. "And they all with one accord turned their guns on Mayfield" and everybody but the blinded know that they are not doing it because they think he has no strength.

Under the direction of Clarendon's mayor, our streets are gradually being put in better condition, and bridge approaches and pavement approaches are being rendered pleasing to motorists. The News believes Clarendon has one of the best mayors in the Panhandle in Mayor Cagle and is confident that the next few months will find the finances and service of the city in the best condition that they have been at any time in her history. Help the mayor and he can do us a better job as an official.

One of the most tragic events that may come into the life of a man, was the death of Mrs. Len Small, just as she entered her home returning with her husband from the trial at Waukegan where the governor was found innocent of the charges of graft that had been brought against him by his political enemies. Politics is a cruel game and as the case so often, the innocent suffer. Mrs. Small had been on such a nerve-racking tension during the days of the trial that when the cloud had lifted and they were entering the happy precincts of home the golden bowl was broken and silver cord and loosed. Many worldly wise repeat that political success is not worth the cost, for only the successful are marked for the slaughter.

Already a move is on foot to raise a fund of \$1000 or \$1200 to put on a big free Fourth of July barbecue for Clarendon next July 4th. In the days gone by Clarendon was noted for her big free barbecues given the people of the Panhandle country every Fourth, but for some years this feature has been discontinued on account of the financial depression, but there is a growing demand among even the conservative business men of Clarendon for the return of the once popular event when the city was host to ten thousand or more people on the Glorious Fourth. That is as it should be and The News stands ready to pay its share of the fund needed to make it "go over big." Are you in?

### NOTICE

The City of Clarendon will receive sealed bids for the city depository until two o'clock p. m. July 17th. Bids to be addressed to W. P. Cagle, Mayor. (27c)

Let me speak to you at Intermediate League Sunday evening.

### INTERMEDIATE LEAGUE

Leader—Otis Blaylock.  
Topic—"Better Loyalty to our Country."  
John 3:16—Leader.  
The Recessional—Julia Dean.  
Repetition of the Pledge—By Leaguers.

The Making of Our Flag—Coy Latson.

Song—The Star Spangled Banner.  
The Story of the Song—Ruth Little.  
A Message from Our Flag—Jack Merchant.

Your Flag and My Flag—Lurline Mars.

Talk—Mr. Casey.  
Song.  
Benediction.

The attendance for boys and girls last Sunday stood fifty-fifty. For next Sunday lets make it fifty-fifty, one hundred strong.

The Intermediate League party will be on the Church lawn next Saturday evening at 8 o'clock. All invited.

## STOMACH TORTURED? TRY YEAST

But Be Sure It's Ironized Yeast

You can't give your job the best that's in you, if you suffer with indigestion, dyspepsia or other distressing stomach ailments. The thing to do, if you want to feel in tip-top condition, with never a thought of stomach trouble, is to try Ironized Yeast. Simply take two tablets with each meal. In all probability you will notice highly beneficial results within the first 24 hours.

Yeast, as everyone knows, contains certain elements which have a wonderful effect on the functioning of our stomachs, and in toning up the system. But Ironized Yeast embodies the new scientific process of ironization which makes yeast just doubly effective. Forget stomach troubles and keep yourself 100% efficient. Get Ironized Yeast today. To try it free simply mail postcard for famous 3-Day Test. Address Ironized Yeast Co., Dept. 86, Atlanta, Ga. Ironized Yeast is recommended and guaranteed by all good druggists.

Ironized Yeast is sold and recommended by all good druggists, such as the CITY DRUG STORE.

## RED PEPPERS STOP PAIN OF RHEUMATISM

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion, and the old rheumatism torture is gone. Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

### POOR MULE

"That," said the city man, is what I call downright brutality. That man ought to be reported to the Society for the Prevention of Cruelty to Animals."

"Why?" "What's he doing?" "What's he doing? Can't you see how fast that mule has to walk to keep out of his way when he's pushing the plow?"—Richmond Times-Dispatch.

### POSTED NOTICE

All persons are hereby warned against hunting, wood hauling and trapping in the C. T. Word & Son pasture in Hall and Donley counties. All violators will be prosecuted promptly.

C. T. Word & Son.

### POSTED NOTICE

The public is hereby warned that hunting and wood hauling is forbidden in the R. O. pasture. All trespassers will be vigorously prosecuted.

## THE COW, THE SOW AND THE HEN

Yes the cow, the sow and the hen,  
Has ever been the farmer's friend;  
You'll always find where ere you go,  
That most farmers have learned to know,  
That milk and butter buys the duds,  
And covers the floor with new rugs;  
Then you'll find that most wise men,  
Keeps the cow, the sow and the hen

The sow makes the money for the farm,  
She pays her way and does no harm,  
She eats the scraps, the cost is small,  
Then there's the pigs when it comes fall;  
They pay for things the housewife needs,  
And makes the meat for the family feeds;  
Then don't forget about the pens,  
That keeps the cow, the sow and the hens.

Now there's the hen that lays the egg,  
Many fortunes that hen has made;  
Give her feed and a little care,  
She'll pay for clothes you have to wear;

She'll pay the mortgage on the farm,  
And your spare change she'll help to earn;  
Give them a chance, they'll be your friend,  
Yes the cow, the sow and the hen.

The farmer's wife takes all the care,  
She makes the butter they have to spare;  
She feeds the hens, the chickens raise,  
And ties the cow where she can graze;  
She slops the hogs and feeds them well,  
There's always something she can sell;  
She does this work to help the men,  
She feeds the cow, the sow and the hen.

—E. O. Dexter, Okemah, Okla.

## CHARLES AUSTIN BATES SAYS: "The Time to Advertise Is All the Time"

After a ball starts to roll it will go a certain distance merely by reason of its own momentum.

The heavier and bigger it is the further it will roll. It may have been pretty hard to start it in the first place, but once you get it going a little push now and then will be all that is necessary.

If the ground is soft and rough you will have to push pretty hard. When you get to smooth places it will be easier.

The ball of business is hard to move in hot weather.

The ground is more or less sticky and there is a great deal of friction. Still, if you push hard enough, you can move it.

In the fall, when cool weather has made the road to trade easier and smoother, you will not have to push so hard unless you want the ball to go faster. If you do not push at all it will come to a standstill even on a sheet of glass.

Somebody has said: "The time to advertise is all the time."

That is one of the smartest things that was ever uttered. If you do not advertise in the summer—if you do not push the ball at all—it will stop. If you do not advertise in the busy season, business will go on for a certain time at a slow rate of speed. But if you want to get over a deal of ground in a short time, you had better push it along lively.

The best thing to push it with is good, liberal advertising in the best paper you know of, a paper like the Clarendon News, for instance. A peculiar thing about the road to business success is that it runs uphill—if you stop pushing your ball it will roll down. There is no such thing as standing still.

### MEETING OF TEXAS GRAIN SORGHUMS ASSO- CIATION MET AT AMARILLO

Friday afternoon, June 2, at a widely attended meeting in Amarillo, the organization committee of the Texas Grain Sorghums association was selected. L. S. Palmer, known all over Western Oklahoma, Southwestern Kansas, Southwestern Colorado, Eastern New Mexico and the Panhandle-Plains of Texas as "Hog" Palmer, was selected chairman of the executive committee of three. John R. McDaniels of Amarillo, one of the most enthusiastic grain sorghum, wheat and wool growers in Texas, and a director of the Potter County Farm Bureau, was made vice chairman of the organization committee, and vice chairman of the executive committee.

D. P. McCallif of Amarillo, Panhandle-Plains supervisor of the Texas Farm Bureau Federation, and director of organization of the recently organized Texas Wheat Growers' Association, was elected secretary of both the organization committee and of the executive committee. He will have active and full command of the membership and organization campaign of the Texas Grain Sorghums association.

Another member of the organization committee, which may be increased as the present committee may see fit, so as to secure the greatest possible co-operation in the different grain sorghums growing districts, is L. A. Williams of Floydada, president of the Floyd County Farm Bureau, the organization that will assist in the grain sorghums growers' sign-up in the banner kaffir and milo growing county in the United States.

H. B. Bates of Hale Center, Hale county, who was a member of the organization committee of the Texas Wheat Growers' Association, and who assisted in making his community Farm Bureau one of the leading organizations in Northwest Texas, will represent a large district.

A. J. Embree of Belton, Bell county, one of the most successful organizers in Texas, and the man who led in the formation of one of the leading farmers' co-operative fire insurance companies in Texas, long before the Farm Bureau was first organized in the state, will represent a very great territory.

E. M. McCracken of Pampa and Groom, president of the Texas Wheat Growers' Association, secretary of the Texas-Oklahoma Zone Selling agency of the two states wheat growers' association, and J. S. Howard of McLean, vice president of the Gray County Farm Bureau Melon Growers' Association, the first to be organized in Northwest Texas will be on the committee.

J. S. Jordan of McLean, trustee of the Texas Melon Growers' Exchange, and one of the most successful Farm Bureau organizers in the state, was persuaded to accept a place on the organization committee, and to give his time and direction to field work in Wheeler, Collingsworth, Donley, Hall and other "million bushel" counties. He will immediately take charge of membership work for Farm Bureau, grain sorghums, wheat, cotton, wool, and mohair and melon associations in counties where he has become famous for organizing melon growers' associations.

George Menke of Canyon, Randall county, who assisted in making the Umbarger community in that county the first "100 per cent wheat growers' association community" in Texas, will represent the people among whom he is so well known and trusted.

George H. Alford of Dallas, secretary-manager of the Texas Farm Bureau federation, and a director of both the cotton and wheat associations, was unanimously selected as a member of the committee, in recognition of the great work he has been doing through the Farm Bureau and as former editor of the Progressive Farmer, one of the leading agricultural friends of the grain sorghums growers.

Although it had been raining practically every day for a week prior to the Amarillo meeting, the attendance from over the kaffir, milo, feterita and other grain sorghums growing territory was generous. Many delegations of farmers were kept from attending the meeting, but they generally secured representation.

The first meeting of the organization committee, after their selection at the state meeting in Amarillo, was held at the office of the Panhandle-Plains supervisor of the Farm Bureau in Amarillo, Saturday afternoon, June 10, and complete plans for the membership drive of the association made. It was found

at the meeting that organizers to work in fifteen more counties were most urgently needed, but seemingly impossible to get. All county and community Farm Bureau officers in the grain sorghums territory of the state were called upon to secure the signers of the contract of the Texas Grain Sorghums association possible. They were informed that organizers will be supplied to them in order of the assurances received for co-operation.

J. A. Draper, one of the most successful organizers from the northwest, where he assisted in the formation of the Washington, Oregon and Canadian Wheat Growers' associations; the Seattle and North Dakota Milk Producers associations, and numerous other farmers' co-operative commodity marketing associations, was given credentials to organize for the Texas Grain Sorghums association. He will secure Farm Bureau, grain sorghums, wheat, cotton, wool and mohair and other Farm Bureau associations members, opening his campaign in Floyd county, from where he will work into Hale, Lubbock, Crosby and other "million bushels" counties.

The organization committee decided at its June 10th meeting to form advisory committees on financing, warehousing, marketing and other special subjects. The most expert authorities on these special subjects will be induced to serve on committees, and to strive to solve the problems of the grain sorghums growers.

In 1919, according to the United States census, 36,000,000 bushels of kaffir, milo, etc., or one-half of the United States production, were grown in Texas on 1,500,000 acres of land, and the crop sold that year for \$41,000,000, or \$28 per acre.

Twenty-six counties in Texas produced over 500,000 bushels of grain sorghums each. Floyd county not only led all the other 253 counties in Texas, but led the counties in all the other states. It produced over 2,500,000 bushels then, and is estimated by T. Scott Wilson, Floyd county's agricultural agent, to have doubled its production in 1921, and to have still a greater acreage in grain sorghums crops this year.

Other counties with over 1,000,000 bushels production of grain sorghums in 1919 were Collingsworth, Crosby, Donley, Hale, Hall, Haskell, Jones, Lubbock, Lynn, Rannels, Wheeler. Some of them were very close to the 2,000,000 bushels mark. Counties that produced over 500,000 bushels of kaffir, milo, etc., in 1919, some of them almost reaching the 1,000,000 mark, were Armstrong, Carson, Castro, Cottle, Deaf Smith, Gray, Hardeman, Humphill, Knox, Motley, Nolan, Scurry, Swisher and Taylor. There was a very large number of these counties that produced from 100,000 to 500,000 bushels of grain sorghums in 1919, and many of them have since then entered into the 500,000 bushels class, just as a number of the 500,000 bushels counties have entered the 1,000,000 bushels class.

A letter to the secretary of the organization committee of the Texas Grain Sorghums association, from one of the five great poultry growers' association of California, stated that these associations consumed about 200,000 tons of grain sorghums yearly, and that the milk producers associations used still more of them.

It was stated that quite a considerable amount of grain sorghums were imported from Texas, and that if the freight rate could be made a little more favorable, California would take most of the Texas crop.

A demand for Texas grain sorghums has been constantly increasing in the northeastern states, as it has been found superior to corn for feeding dairy herds. All that has kept the dairy and poultry people of the east from using the kaffir, milo, feterita and other grain sorghums from Texas has been a steady and reliable supply. This condition will be cured by the formation of the Texas Grain Sorghums association.

There are bulletins by both the United States and Texas agricultural departments, showing what the grain sorghums have demonstrated in tests. They can be secured from the United States Department of agriculture at Washington and the Texas Experimental Station at College Station, Texas. When carefully studied they will give the grain sorghums growers a new vision of the possibilities of the wonderful feed he grows.

Assurance has been received by the organization committee of the Texas Grain Sorghums association that the quota of 500,000 bushels necessary to incorporate will be many times over-contracted. It is the plan of the committee to secure 500,

000 bushels the months of June, July, August, and September, thus making the Texas Grain Sorghums association the second largest farmers' co-operative marketing association in Texas, in point of members and business done, and first in point of increased profits to the farmer. As long as Texas grain sorghums growers stick to their motto, "United we stick, divided we're stuck," their prospects for success are good.

### PRESIDENT HARDING SAYS

#### LIQUOR SOON TO BE MEMORY

The Federal Prohibition Office, Austin, quotes President Harding as having, in a recent statement, said: "In every community men and women have had an opportunity now to know what prohibition means. They know that debts are more promptly paid, that men take home the wages that once were wasted in saloons; that families are better clothed and fed, and more money finds its way into the savings banks. The liquor traffic was destructive of much that was most precious in American life. In the face of so much evidence on that point what conscientious man would want to let his own selfish desires influence him to vote to bring it back? In another generation I believe that liquor will have disappeared not merely from our politics, but from our memories." The Director is desirous of having interested citizens—those against as well as for prohibition—to carefully read what the President has said and then write the Director how they believe the statement applies to their particular locality.

### WILLIAMSON COUNTY FOR- BIDS ADVERTISING SIGNS ON THE HIGHWAY

Georgetown, Texas, June 17.—Williamson county is adopting measures to insure against marring the beauty of the county highways and public roads. The commissioners court now holding session passed a resolution instructing County Auditor Hodges to place notices in newspapers notifying all persons, companies and corporations not to deface with advertisements any bridges, or public buildings belonging to the county and that the consent of the commissioners court shall first be obtained before any signs are posted along the right of way of any public road in the county. In speaking of the important matter a well known citizen said today: "Not only do these signs injure the scenery along the highways which have cost Williamson county tax payers about \$3,500,000 but they are worth but little. Worthless advertising is a great menace to business and I believe the proper advertising to be done is through the newspapers and not try to force people to read advertisements at shows and on fences and posts when they do not wish to do so. There is time and place for all things."

### OUR BOYS

As a Rotarian, I have been, and am, privileged to have a part in the great and inspiring Boy Program now being carried out by the Rotary Club of America.

I've no doubt that the Rotarians profit as much from the work as do the boys, it's that interesting.

Some one has defined the boy as a bundle of possibilities, and another has said that a great many boys go to the devil because they have no other place to go.

Seeing that we've all been boys, it is rather strange that at times we could do so wholly oblivious to the boy's welfare. The man who devotes a few minutes of his time to the aid and encouragement of boys, is planting a crop whose harvest can not be estimated in dollars, bushels or barrels.

Most boys are bright, energetic, and endowed with a spark of ambition that can be fanned into a flame for all-consuming good. You can't teach a boy anything, you must create within him a desire to know, to have, to hold, to possess. You can't drive him to hitch his wagon to a star; you must make him want to do so.

I have heard many little stories of boys that I like to believe are typical of the up-and-doing, red-blooded, impulsive, irresistible boy. One is of the boy who answered an advertisement for an office boy and found himself about sixteenth in line. He wrote a note and sent it to the boss, "Don't do anything until you have seen me." He got the job!

Then the story of the boy who had been working for five dollars a week for a whole year. Finally he went

to the boss and said, "I've been here a whole year, drawing five dollars a week. I think I should have a raise to eight dollars a week!" "How long have you felt that way?" the boss asked. "About six months," said the boy. "If you have been thinking for six months that you should have a raise, why didn't you say so before?" "Well," said the boy, "I've been so busy that I just haven't had time to speak to you about the matter!" "Well," said the boss, "busy boys are in demand. Hereafter your salary will be ten dollars a week!"

Men are boys grown tall, and boys are men who haven't yet attained their growth. This results in a friendship between man and boy that has no parallel. When a man tells me that he can't get along with boys, I know it is because he insists upon treating them as boys. Boys want to be treated like men, just as men want to be treated like boys.

Get acquainted with the boys in your town—your own boys!—you'll be delightfully surprised.—W. D. Trotter in Southwestern Machinery.

### PLAN NOW FOR TREES

There never can be real homes on the plains of eastern Colorado and in other plains areas until houses and buildings are surrounded with trees and shrubs to form shelter belts and windbreaks and add to the beauty and comfort of the surroundings.

Mr. Parsons and others of long experience who have thought deeply on this subject of making a plain country into settled communities of contented farm families never miss an opportunity to point out this fact. But it takes forethought and planning to successfully grow trees under plains conditions. Success is absolutely dependent on the accumulation of a reserve of moisture to give the trees a proper start and then such care as will insure their getting down about their roots all the moisture which falls through the year. "Trees are being planted this year," said Dr. V. T. Cooke of Strasburg, Colo., "with a possibility of their living; simply stuck into a hole in the ground where no effort has been made to store up the needed moisture in advance of the planting." Now is the time to prepare for planting trees by giving the land clean cultivation following deep plowing to open up a reservoir for holding water. Why not select the location for your grove or shelter belt and give it a season of summer tillage to put it into proper shape for the trees next spring?—Western Farm Life.

### 98c MEN!

We've heard of cheap-skates and cheap-Johns all of our lives, but it is doubtful if we fully realize just how cheap we mortal men are.

Worth about 98 cents a piece says Dr. Georgina Luden. This is "average value!"

Now Georgina sounds like a female's name, though it may not be. If it is, she may be either a man hater, a husband despoiler, or just simply a student of things mundane and mediocre—more mediocre than otherwise.

Here's how she gets us valued: "Fat enough for seven bars of soap. Iron enough for a medium sized nail. Sugar enough to fill a shaker. Lime enough to whitewash a chicken coop.

Sulphur enough to rid a dog of fleas." The doctor declares he, or she, wants to let the human being know just where he stands, hence the unscientific rendition of a scientific conclusion and to "bring human vanities within proper perspective."

The fat man has always felt that he could get a pretty good price for himself by selling himself to a soap maker. The bony individual has found consolation in the thought that if the worst came to the worst, he could sell himself to a bone-yard, and there you are.

The Doctor is interesting, though, if a bit cruel. We're glad to know just how much we are worth. Incidentally, I think you can find more in the pocket of a small boy than the doctor says is found in the person of a full grown man. But then perhaps the doctor was dealing with men and not small boys.

Ninety-eight cents a piece! Ten dollars a dozen! Just a little more than golf balls! Huh!—W. D. Trotter in Southwestern Machinery.

Mr. and Mrs. J. B. Baird returned Saturday evening from a visit to Denver Colorado.

H. F. Dozier, a prosperous young farmer of southwest of this city, was here Monday on business.

### CAREFUL CROSSING CAMPAIGN NOW BEING WAGED

Under the auspices of the American Railway Association, there was inaugurated on June 1st, and to be continued until September 30th, 1922, a "Careful Crossing Campaign," its slogan being "Cross Crossings Cautiously." This has for its purpose the prevention of or reduction in the number of highway crossing accidents involving railroad trains, vehicles and pedestrians throughout the country.

Co-operation in the plan has been assured by the United States Automobile Chamber of Commerce, the National Highway Traffic Association, National Safety Council and numerous other organizations.

Such a campaign is necessary and timely, as shown by the following facts: In thirty years our country's population increased 67 per cent. Crossing accidents increased 345 per cent in fatal and 652 per cent in injury cases. In 1920 automobiles were involved 76 per cent of all crossing accidents. During that year 1,791 persons were killed and 5,077 injured. Of the latter number 116 died subsequently from injuries sustained at railroad crossings with the United States.

There are two ways to reduce or entirely stop such accidents. The first in the public mind is elimination of the crossings. This is impossible. There are 251,936 highway crossings of Class 1 railroads along (railroads with revenue of over \$1,000,000 annually) in the United States. Of this number 399 were eliminated during 1919. At the same rate of elimination it will take 629 years to dispose of these crossings if no more are added. All the men and money available would not be sufficient to remove the crossings in a life time. Conservative estimates of the average cost of elimination fixed the figure at approximately \$50,000 per crossing. This means \$12,000,000,000.

It is evident the immediate question must be met by a method other than the elimination of the crossings, which latter work will undoubtedly proceed as circumstances permit.

Apparently the solution of the problem can be found in education.

This education should be joint upon the part of the railroads and the public. It is the duty of the railroads to keep the crossings in good condition for travel; give reasonable notice of the existence of such crossings; and see to it that the railroad employees do their full duty in warning the approach of trains. The railroads have learned the value of organized efforts for safety, through the reduction of deaths of employees on duty from 4,354 in 1907 to 2,578 in 1920, notwithstanding a larger force of employees in service during the latter years. Railroad employees as a whole have unquestionably attained a higher degree of care in the performance of their duties.

As education in and discussion of safety matters are responsible for the gratifying results obtained in employ cases, it is logical to assume that education of the public to the exercise of a higher degree of care when approaching and passing over railroad crossings, will likewise have a good effect in reducing crossing accidents.

While it is true the railroads have a direct interest in checking these oft-times most distressing accidents, yet in the first and last analysis, it is the public itself which suffers the pain, the mutilation, and the passing of the Great Beyond, in addition to bearing the financial burden. The railroads feel warranted in expecting that right thinking people throughout our land will lend their actual and moral support to this humane and laudable campaign.

### PIANO TUNING

C. Daughtry, the blind piano tuner of Fort Worth, who has had years of successful experience in the work will be in Clarendon for a limited time only. If you have need of his services call him at Mrs. J. P. Manley's residence, phone 1042-4 rings at once so that he can arrange his schedule of work while here. Satisfaction guaranteed. (27c)

Eyes carefully examined and properly fitted with glasses by H. B. Spiller at Stocking's Drug Store. All work guaranteed. (27c)

### ANNOUNCEMENTS

The Clarendon News is authorized to announce the following candidates for the offices under which their names appear, subject to the action of the Democratic primaries in July:

**FOR SHERIFF:**  
W. L. CRANE  
HARRY C. BRUMLEY.  
J. H. RUTHERFORD

**FOR DISTRICT AND COUNTY CLERK:**  
MISS LOTTIE E. LANE  
W. E. BRAY  
(Re-election)

**FOR COMMISSIONER PRECINCT NO. 1:**  
EDWIN BALEY  
F. L. GOLDSTON  
(Re-election)

**FOR COMMISSIONER PREC. 2:**  
JOHN W. BUTLER  
J. R. McFARLING  
G. M. ALLEN  
G. A. ANDERSON  
J. H. HURN

**FOR COMMISSIONER PRECINCT 4:**  
A. E. TIDROW  
F. B. THOMAS

**FOR COUNTY TREASURER:**  
MRS. WILLIE GOLDSTON

**FOR TAX ASSESSOR:**  
J. L. ALLISON  
E. F. NAYLOR

**FOR DISTRICT JUDGE 47TH JUDICIAL DISTRICT:**  
HENRY S. BISHOP,  
of Amarillo, (re-election)  
PERRY S. PEARSON  
of Amarillo.

**FOR DISTRICT ATTORNEY 47 JUDICIAL DISTRICT:**  
W. J. FLESHER  
LOYD FLETCHER

**FOR REPRESENTATIVE 122ND DISTRICT:**  
DEWEY YOUNG  
H. E. HILL  
(Re-election)

**FOR COUNTY JUDGE:**  
J. J. ALEXANDER  
J. L. BAIN

**FOR PUBLIC WEIGHER PRECINCT 5:**  
MRS. MAUDE BURRIS  
J. M. BOZEMAN  
W. M. COTHRAN

**FOR PUBLIC WEIGHER PREC. 2:**  
W. O. BUTLER  
BEN ANDIS

### LIVE STOCK PRICES HIGHER

Kansas City Stock Yards, July 3.—With Tuesday, July 4, the usual holiday at the stock yards, opening receipts for the week were small, though in line with expectations and prices were generally strong to higher. Fat cattle were strong to 25 cents higher. Prime weighty steers sold up to \$9.90, a new high record price for the year. Hogs were strong to 10 cents higher and sheep and lambs 15 cents higher.

Receipts today were 7,000 cattle; 8,000 hogs, and 6,000 sheep, compared with 9,000 cattle, 14,000 hogs, and 6,000 sheep a week ago, and a year ago was a holiday with no arrivals reported.

Trade in fat cattle opened early with killers anxious for the offerings. A strong even demand prevailed throughout the session with the average advance placed at 10 to 15 cents, and in some cases grass fat steers were up 25 to 35 cents. Prime native steers sold at \$9.75 to \$9.95, good to choice steers \$9 up. Some Texas steers caked on grass brought \$3.25, and straight grass fat steers sold at \$6.50 to \$8. No South Texas steers arrived. Cows and heifers were 15 to 25 cents higher. Veal calves were strong.

Thin cattle were in moderate supply and volume of business was held down on that account. Prices were firm. A good many orders were unfilled.

Hog prices were strong to 10 cents higher and about up to the high level made Thursday of last week. The top price was \$10.50 and bulk of the offerings sold at \$10.35 to \$10.55. Pigs sold up to \$10.50. Offerings were short of urgent requirements and the supply was cleaned up in a short time. Indications are that receipts from now on will be limited until transportation conditions are more settled. Today's small receipts were attributed to the holiday July 4th.

Most of the good lambs here were natives that sold at \$12.50 to \$12.85. They were quoted 15 cents higher. Sheep were quoted steady. Ewes sold at \$1.50 to \$5.65 and wethers \$5.75 to \$8.75. There is a good inquiry for breeding ewes and feeding lambs.

No new developments were reported in the horse and mule markets. Receipts were less than 100 head, and demand was limited.

Chas. M. Pipkin, Market Correspondent.

### PESSIMISM A DISEASE

One of the most dangerous diseases of the day is "pessimism." It is almost fatal when once it gets hold. For that reason a person should guard well his thoughts and actions in order to stave off any threatened attack. It is a disease that does not attack instantaneously, but grows upon a person gradually and therefore should be watched the closer. It works upon the mind of its victims, and gradually deepens its fangs which emit poison gradually and eventually penetrates the entire thinking capacity of a person and he is in the most dangerous condition. He is just as apt to go "bug house" as not and is always found on the doubting side of every question. He gets to where he thinks nothing can be done. It matters not what the proposition is. The victim becomes of that frame of mind that he believes every human being is a crook—a dead beat, and is unreliable and will stab you in the back at first opportunity—what an awful disease—what an awful feeling it must be! It is most disagreeable to say the least of it to be in the presence of such a person. We are glad that it is not extremely contagious, however, and that it scarcely ever gets hold of an optimist. Pessimists seldom ever live to the average age of man, which is indeed a fortunate thing for humanity and society in general.

A pessimist is a menace to business. He is almost despised by society, church and state, and if you want to live miserable life, drag along and make folks miserable, make them dread to enter into conversation with you, just cultivate the pessimistic germ that is embedded in every human being and you will be one of the most uncomfortable, unwelcome, disliked and most despised human in the community. On the other hand cultivate optimism, smile, laugh, look upon the bright side of life. Hunt for the silver lining. It is there. Be happy! Be a blessing! Not a curse!—Lubbock Avalanche.

### SUN THROWS GREAT HEAT

All that stands between the oblivion of the earth in a great ice age is the strict constancy of its source of heat, the sun. If the earth's average temperature dropped only 3 or 4 degrees and continued for some centuries we would have a glacial epoch. Life on earth would be impossible.

This would be the effect on the earth if the temperature of the sun were to decrease only 100 degrees centigrade, says Dr. H. D. Curtis of the Allegheny Observatory of the University of Pittsburgh.

Put certainly for 200,000,000 years, perhaps for 1,000,000,000 or more years, the sun probably has not varied more than 100 degrees, perhaps not more than 25 degrees, from its effective temperature of 5,600 degrees centigrade. Dr. Curtis believes for this long space of time the earth's nearest star has been supplying this planet with its daily heat and in its job it has given complete satisfaction. Scientists are sure that for at least these many millions of years life has existed on this earth in forms very closely similar to those we now have. The very beginning of life must go very far back of this and must have been favorable and not essentially different temperature and conditions as far from these as we enjoy today.

Some factors, such as the presence of water vapor, and carbon dioxide in the atmosphere, may have helped in maintaining this constancy, but the regular habits of the sun itself are largely to be thanked. The ice ages that the rocks of the northern part of this country tell us occurred while the crust of the earth was evolving. Dr. Curtis says may be explained without recourse to the hypothesis of a change in the heat emission of the sun running parallel with its sunspot period of eleven years. Dr. C. G. Abbott of the Smithsonian Institute has secured strong evidence of discharge in the sun's emission, perhaps reaching 10 percent, but lasting generally but a short time, and quite irregular in their occurrence.

### CUTTING OFF THE ENGINE

While riding on a train recently William Wrigley was approached by a man who addressed him: "Pardon me, Mr. Wrigley, but do you know you are wasting a lot of money?"

Mr. Wrigley, always anxious to learn anything about his own business, asked in return, "How?" "Why, in advertising!" the man replied. "Your product is so well known you do not need to advertise." "My good man," Mr. Wrigley said, "do you know what would happen if we were to cut the engine off from this train?"

"The train would coast along for a while and then stop," I suppose." "Exactly," replied Mr. Wrigley, and that's exactly what my business would do if I would cut off advertising. Advertising is the engine that furnishes the motive power for my business."

Eyes carefully examined and properly fitted with glasses by H. B. Spiller at Stocking's Drug Store. All work guaranteed. (27c)

## Wisdom Sisters

### To Be Heard in Methodist Revival

Everyone is looking forward to the greatest revival music that Clarendon has ever had when the Wisdom Sisters arrive here for the Methodist Revival. These ladies stand without peer in America in the field of sacred music as everyone who heard them sing at Annual Conference last fall will testify.

The preaching will be done by the pastor, Dr. J. T. Griswold. He is acquainted with the conditions here, and the congregation is glad that he will lead in these services.

### Revival Begins July 16th. A Cordial Welcome Awaits Everyone

#### THE IDEAL

In the neighborhood where I lived when a boy, there was a jack-leg carpenter who built things on the spur of the moment. All he needed to turn out a barn, house, shed, or chicken coop, was the material, saw and hammer. Of course, most of the houses had leaky roofs, warped sides and a general assortment of cracks and holes big enough for a dog to crawl through, but that was a small matter. Jim was our neighborhood carpenter and admitted that he was the best and fastest in seven States.

The trouble with Jim's building was that he had no particular plan. A building, so far as he was concerned, was a bunch of boards and scantlings nailed together.

And strange to say, we find Jim's most everywhere and in all walks of life. They go ahead, pell-mell, helter-skelter, hit-or-miss, and get along as best they can.

The Jims are always plodders because they have no particular plan of work.

The story is told of little Willie who had a little bantam hen. The little hen laid tiny little eggs and all the other boys laughed at Willie. They had regular hens that laid regular sized eggs.

Willie stood the gazing as long as his sensitive nature would permit and then took action. He got an ostrich egg, built a box over his bantam's nest, placed the egg in the box and lettered a sign on the side of the box. "Keep your eye on this and do the best you can."

"That is a nice little story, isn't it? Yes, a very nice little story, but hasn't it a great sermon of life between its lines?"

When we have an ideal to work toward, and a plan for the attainment of that ideal, all we have to do is to label that ideal, "Keep your eye on this and do the best you

can." "Keep Your Eye on This and Do the Best You Can."—W. D. Trotter in Southwestern Machinery.

#### THE SHERMAN BOND ELECTION CARRIES

The bond election last Saturday was decidedly in favor of progress for Sherman county, as the people voted to build a new court house by a vote of 321 for and only 81 against the bond issue.

The Star has stated several times in the past that it believed Sherman county was on the verge of a big step forward, and the election last Saturday demonstrated that the majority of the people are willing and anxious to go ahead.—Sherman Star.

#### SEYMOUR CALLS BOND ELECTION

At the regular meeting of the City Council Monday night an election was ordered for Tuesday, Aug. 8, for the purpose of voting on several bond proposals.

The largest of these is for \$40,000, which is to be used in purchasing a site and constructing a fireproof city hall.

Bonds in the sum of \$25,000 are proposed for the extension of the water system. This is for the purpose of aggrading advantage of the water system to practically all inhabitants of the town. This not only for the sake of having the water to use, but also for the advantage it will be in the matter of fire protection.

The last item is \$8,000 for park improvement. \$4,000 of this would be used to paying indebtedness on the grounds and the rest would be used for improvement.—Baylor County Banner.

Mrs. Annie and Mary Cagle visited with relatives and friends in Memphis Monday.

## We Do Not Spend As Freely

"THE ONE PRICE CASH STORE"

## STRIKERS WILL CONSIDER PEACE PROPOSALS, B. M. JEWELL TELLS HOOPER

Chicago, July 5.—Hope for the speedy settlement of the country-wide strike of the railway shopmen was seen tonight in statements issued by Ben W. Hooper, chairman of the United States Labor Board and B. W. Jewell, leader of the shopmen's walkout.

In a reply to Mr. Hooper which he stated that the strikers were willing to consider any negotiations with any one in authority for settlement of the strike Mr. Jewell said: "We are willing to confer with anybody authorized by the railroads to bring peace proposals to us. "I include or exclude nobody, but if the labor board for instance came to us with a definite proposition we would not hesitate to consider it."

Mr. Jewell then made public for the first time the exact figures on the strike vote taken by the 400,000 members of the six shopcrafts. The vote was divided into three separate ballots, the first on accepting a \$50,000,000 reduction in wages ordered by the labor board, the restoration of seven working rules altered by the board and third the abolishment of outside contracting by the roads.

A tabulation of the ballots Mr. Jewell said, showed only 94.7 per cent of the men had voted to strike on the question of wages, the heaviest vote for a strike being on the question of outside contract labor which polled 97.1 per cent of the vote cast. The ballot on rules came second with 96.2 for strike. Union leaders said that the vote showed the relative importance attached to the three points at issue by the membership.

Mrs. G. T. Cope, of Ft. Worth, left Saturday morning for her home after having visited here with C. C. Cope and J. H. Headrick and their families.

Dr. and Mrs. C. G. Stricklin and the latter's parents have returned from a vacation of several weeks spent in New Mexico.

Mrs. Sam Harle left Monday morning for her home at Memphis, after having visited here with her sister, Miss Zell Ryan and other relatives.

## DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

## RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly!

## CONDITIONS BETTER IN TAYLOR COUNTY

Confidence is fast getting back to normal again among the business men. The farmers and the ranchmen have prospects for good crops and feed and grass and water, and with the money that has been going out of the country for feed can now be used for some other purpose. The farmers are now selling fruit from their orchards, and vegetables from their gardens, poultry and eggs from their yards, fat hogs and cattle from their ranches and it is costing them nothing because of the abundance of the feed and grain raised on the farm this spring. This is helping to place the country in a much better financial condition than it has been for many years, and the future gives promise of still better times. The business men are expecting the biggest business this fall than for several years.—Taylor County Times.

Mrs. Rebecca Long arrived here last evening from Lubbock, where she has been visiting with relatives, for a visit with her son, R. A. Long and family.

Rev. E. J. Hughes returned Friday morning from a visit to Claude. Miss Annie Bourland returned Friday morning from a visit in Amarillo.

Mr. and Mrs. O. A. Churchman left Saturday morning for Oklahoma in response to a sad message stating that the latter's brother and other relatives had been killed in an accident when a train hit the auto in which they were traveling.

## BOOTLEG WHISKEY PROVES NOT TO BE REAL STUFF

Perhaps finding their customers were too rapidly dying off, going blind, or at least suffering such bad results by drinking the straight denatured alcohol, colored and beautifully labeled in old type whiskey bottles, some of the bootleggers have recently made attempts to remove the poison from denatured alcohol through a crude machine somewhat resembling an ice cream freezer, but analysis by State and Government chemists show that at least 12 per cent of the poison is unremoved.

This recalls a recent release from Washington quoting Commissioner Haynes in a story of two well-to-do men recently meeting by chance in a Pullman. One afforded the other a drink from his silver flask emphasizing that they could at least be sure of that particular whiskey. Several hours after both had retired the gentleman to whom the drink was given awoke feeling wretchedly bad, fumbled with his berth light, and finally rang for the porter asking him, "What is the matter with my light?" The porter replied, "Why boss, your light is all right." The man was blind; and upon the porter asking him where he got his drink and being told, "From the gentleman in lower nine," he went to that berth and found the man dead.

## CONSTRUCTION OF NEW BRIDGE STARTED TUESDAY

Driving of piling and actual construction began Tuesday on the State Bridge company's structure over Red river between Vernon and Altus, according to long distance telephonic word received this morning by Peck & Hickernell from C. R. Moore, president of Austin Bros. Bridge company of Dallas, who has the subcontract.—Vernon Times.

## CONTRACT LET FOR ELECTRA SEWER PLANT

The Van Orden-Winans Construction Co. of Eastland, Texas will build the new sewage disposal plant for Electra. Contract was let for this Tuesday night and the work is to begin at once. The new plant is to be completed in ninety working days. An expenditure of \$12,120 is involved, which includes working over the present plant.

Bids were submitted for increasing the height of the dam at the city lake five feet and building a concrete spillway but nothing was done.—Electra News.

## PETITIONER HAS POOR LUCK AT CANADIAN

A gentleman was in Canadian Saturday with a petition for restoring light wines and beer on the markets. He received mostly frowns and jeers from Canadian citizens who positively do not favor destroying the Volstead act. The petitioner went into crowds without securing a single signature, and the total list picked up in this city must have been disheartening. No doubt this gentleman will be able to testify to the high ideals of social life that prevail in the Panhandle.—Canadian Record.

## SEYMOUR PUTS OUT GOOD BASEBALL TEAM

By reason of contributions from local fans, the Seymour ball team has been organized and the season has begun. The first game was played Monday at Olney, when the local organization came back with the right end of a 12 to 1 score.—Baylor County Banner.

Local people will also be interested in learning that Werner Woods, star shortstop on C. C.'s team this spring, is playing same position on this team.

## PERSONALS

Mr. and Mrs. J. E. Russell and son Reece returned Monday from a business trip to Roy, New Mexico.

Miss Lillian Guyer, of Clayton, New Mexico, is visiting in this city with Miss Erma Russell.

A. M. King returned Monday from a vacation spent on the Plains and in New Mexico.

Work on the High school building has been delayed because the steel has not arrived.

Jim Thompson is building a five room modern farm home northeast of this city at this time.

Andrew Price of Ft. Worth, is visiting here with his uncle, P. A. Buntin and family.

L. W. Frye and Shorty McCollum, of Paducah, are visiting here this week with friends.

Misses Ella and Ora Yeager and Coye Nicks spent Monday in Amarillo.

Mrs. Brown, of Houston, left Saturday morning for her home after having visited here with her daughter, Mrs. E. A. Simpson.

W. E. Nelson, who was ill last week and part of this week, is recovering at this time and will soon be able to be out again.

John Rusk, of Abilene, left Monday morning for his home after having visited here during the week end with friends.

Miss Ora Yeager returned yesterday to her home at Thorndale after a week's visit here with her sister, Miss Ella.

Mrs. Eva Rhodes and son, J. P., left last week for Kansas City in response to a message stating that the latter's father-in-law had died.

Little Misses Mary Katherine and Dorothy Headrick left yesterday for Childress where they will visit with friends.

Miss Henrietta Longdon, of the Sunnyview community, reported to Miss Trullie Richmond on the 5th that she had a ripe tomato, which is the first reported by any of the club girls.

## NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To  
Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more yawning, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

## IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and lorry. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels: removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad's Salts: take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

## USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching  
Eczema Helped Over Night

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up. Get a small jar from any good druggist and use it like cold cream.

E. A. Simpson, Paul Atteberry, M. L. Kelly and Bill Cooke, of Clarendon, were here for a short time Monday.—Hedley Informer.

Sheriff Rutherford was a business visitor in Hedley last Friday.—Hedley Informer.

H. F. Dozier, a prosperous young farmer of southwest of this city, was here Monday on business.

## OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, yawning, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

## IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Back-ache or Bladder bothers—Meat forms uric acid!

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain out part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, lumbago, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scaling, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

## Deviled Spanish Green Olives

Here's a little hors d'oeuvre that may be prepared in a few minutes. It's novel and tasty. The family will enjoy it, and so will the guests. It's one of those "surprise" appetizers that labels your dinner "unique and charming."

Pit large green olives and fill with the yolk of hard-boiled eggs mixed to a paste with a little butter. Lay an olive on a strip of bacon, sprinkle with paprika and a tiny pinch of mustard, roll up, fasten with toothpick and broil just long enough to crisp the bacon. Serve on toast fingers.

### THAT BAD BACK

Do you have a dull, steady ache in the small of the back—sharp, stabbing twinges when stooping or lifting—distressing urinary disorders? For bad back and weakened kidneys Clarendon residents recommend Doan's Kidney Pills. Read this Clarendon statement.

Mrs. J. D. Brandon, First St., says: "Before I began using Doan's Kidney Pills my back was in awful shape. It ached and pained all the time, just over my kidneys and across my hips. It was a steady bearing down pain and when I tried to stoop, sharp twinges caught me in the small of my back so I could hardly straighten. I had dizzy spells and was bothered in others' ways until I saw Doan's Kidney Pills advertised and tried them. Doan's cured me of every symptom of kidney complaint." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Brandon had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Stop talking about your troubles. Take Tanlac. Stocking's Drug Store and R. A. Long Drug Co.

### NOTICE

We wish to announce to the ladies of Clarendon and Donley County, that we are now prepared to do any amount of plain and fancy sewing, and offer you the very best and quickest service with a guarantee to please you in quality and price.

Mrs. T. S. Riley is now associated with the business, comes to Clarendon very highly recommended and is a graduate in the business, and in connection with our dressmaking and hemstitching business, she will instruct a class in sewing this summer, and invites all those who are interested to call in and learn the particulars.

Remember our Hemstitching facilities are the best, we furnish the thread, give you quick service, good work, and at customary prices.

Office: Singer Sewing Machine Company, over Whitlock's Barber Shop. (28c)

Mrs. T. S. Riley,  
Miss Grace Cook,  
"It is one medicine that does all that's claimed for it." Thousands have said it about Tanlac and so will you if you try it. Stocking's Drug Store and R. A. Long Drug Co.

## THE IDEAL REPUBLIC

WILLIAM J. BRYAN

For more than a century this nation has been a world power. For ten decades it has been the most potent influence in the world. Not only has it been a world power but it has done more to affect the politics of the human race than all the other nations of the world combined. Because our Declaration of Independence was promulgated, others have been promulgated. Because the patriots of 1776 fought for liberty, others have fought for it; because our Constitution was adopted, other constitutions have been adopted. The growth of the principle of self-government, planted on American soil, has been the overshadowing political fact of the nineteenth century. It has made this nation conspicuous among the nations and given it a place in history such as no other nation has ever enjoyed. Nothing has been able to check the onward march of this idea. I am not willing that this nation shall cast aside the omnipotent weapon of truth to seize again the weapon of physical warfare. I would not exchange the glory of this Republic for the glory of all the empires that have risen and fallen since time began.

I can conceive of a national destiny surpassing the glories of the present and the past—a destiny which meets the responsibilities of to-day and measures up to the possibilities of the future. Behold a Republic resting securely upon the foundation stones quarried by revolutionary patriots from the mountain of eternal truth, a Republic applying in practice and proclaiming to the world the self-evident proposition that all men are created equal; that they are endowed with inalienable rights; that governments are instituted among men to secure these rights, and that governments derive their just powers from the consent of the governed. Behold a Republic in which civil and religious liberty stimulates all to earnest endeavors and in which the law restrains every hand uplifted for a neighbor's injury—a Republic in which every citizen is a sovereign, but in which no one cares to wear a crown. Behold a Republic standing erect while beneath the weight of their own armaments—a Republic whose flag is loved while other flags are only feared. Behold a Republic increasing in population, in wealth, in strength and in influence, solving the problems of civilization and hastening the coming of a universal brotherhood—a Republic which shakes thrones and dissolves aristocracies by its silent example and gives light and inspiration to those who sit in darkness. Behold a Republic gradually, but surely, becoming the supreme moral factor in the world's progress and the accepted arbiter of the world's disputes—a Republic whose history, like the path of the just, is as the shining light that shineth more and more unto the perfect day."

### The Clarendon News' Americanization series

(Editor's Note—The articles appearing in the above space from week to week are taken from "Americanization" by Elewood Griscom, Jr. This excellent volume, which is a collection of articles upon the general theme of patriotism and good citizenship, is presented to the schools of Texas by the Bodies of Scottish Rite Masonry in Texas.

### NEW ORLEANS PREPARES FOR LEGION CONVENTION

New Orleans, July 5th—Rolling along the French landscape in the diminutive freight cars marked "Forty Men or Eight Horses," the problems of transportation and housing were solved by many American Legion members in the World War days.

When the Legion Veterans come to New Orleans for their annual national convention, October 16 to 21, several thousands will revert to their railroad hotel. The New Orleans convention committee will establish a hotel on wheels, with a housing capacity of nearly 14,000 men.

Pullman coaches lighted with electricity will supersede the straw-littered French box cars. There will be dining car facilities, showers and all the conveniences of a modern hotel. Parking yards will be located a short distance from the downtown district. The New Orleans yards can take care of 465 pullman cars.

The railroads have established a rental and parking charge which will compare favorably with the reduced hotel rates. They will charge \$54 a day for each car and \$12 a day for parking. This will cover all pullman tariffs from the visitor's home town to the convention and return. Figuring on a maximum trip of ten days, the Legionnaire will obtain his "bank" for about \$2 a day, including Pullman charges en route to New Orleans.

The following cities have chartered Pullmans for the convention: Minneapolis, twenty-five cars; Louisville, fifteen; Washington, ten; Jacksonville, Fla., ten; Cleveland, seven; Detroit, six; Atlanta, five; Birmingham, four, and Pittsburgh, three cars. The sleeping cars will be operated after the pattern of a miniature city. Each car will be a house. One railroad will establish a clubhouse with shower baths, a barber shop and a laundry agency. The small city will be thoroughly lighted and supplied with water; sewage disposal from the cars has been arranged for, and walks will be laid.

With the creation of the hostelry on wheels, convention officials believe that better facilities will be provided for men from the same Legion departments and posts to enjoy the comradeship of the journey and to hold group meetings during their stay in the convention city.

Tanlac is a splendid tonic for puny, frail, delicate children. It is purely vegetable and contains no minerals or opiates. Stocking's Drug Store and R. A. Long Drug Co.

Read the advertisements.

### BOND COMPANY THINKS SHOULD BE CORRECTION

The News is in receipt from a communication from Dunn and Carr, of Houston, requesting that in fairness to them, we correct the mis-statements we made in a former article concerning their failure to purchase the city's issue of water bonds. We have looked over every sentence in the article we wrote, and to our best judgment we made only one misstatement and that was when we said that they had been organized only three days at the time of their purchase of these bonds. As a matter of fact, they have been organized for three years. We also stated that their bid of more than 104 was almost an unheard of figure in bond buying in this state, and that other bond buyers prophesied at the same time that they would not keep the bonds. The figure was undoubtedly high as we stated; and the prophecy surely came true; thus we deem it needless to attempt to explain sentences, the truth of which is apparent on their face. Again we stated that it seemed strange that the advising attorneys for the bond concern should better know the construction of Texas laws than the attorney-general's department; and we remain of that opinion. The bonds have been sold to another firm at an excellent figure, and are being printed. The communication also quotes at length from the advising attorneys' opinion why the bonds are invalid; but if we were of a mind to make such quotations, we would quote from the attorney-general's reasons assigned for approving the bonds.

### QUANAH PLANT ENLARGED

As much haste as possible is being made at the power plant of the Quanah Light & Ice Company, in completing the rebuilding of one of the engines. The demand for current is excessive. There are something like sixty electric ranges in the city, and at noon, say about 11:30, all at once these ranges seem to get into action, and the way they use current is startling. Also at Agatite at about the same hour, it seems as if an additional drain on the current starts for about an hour and a half. The engine which has been under repair for two or three weeks, will probably be started up today, when considerable relief will result.

The new engine which will be installed, is arriving in parts, and when that is set up and put to work several hundred additional horsepower will be added to the plant. A further addition to the capacity of this plant will be required for Eldorado service, and will be installed as soon as it can be got here.—Quanah Tribune Chief.

### BIRTHS AND DEATHS AS REPORTED BY UNCLE SAM

Washington, June 29.—The Bureau of the Census has issued its annual volume of birth statistics for the year 1920. It includes figures for more than 82 percent of the United States, or what is known as the "registration area." From its pages the information is obtained that "in the birth registration area of the United States in 1920 there were 1,508,874 live births, which represent a birth rate of 23.7 per 1,000 population, as against 1,373,438 live births reported in 1919, with a rate of 23.3. Of the 1920 births, 775,322 were males and 733,552 were females, or a proportion of 1,057 males to 1,000 females.

"The total deaths in the birth registration area in 1920 numbered 836,134, of which 438,201 were males and 397,933 were females. Of the 129,531 deaths of infants under one year of age, 73,737 were male and 55,794 were females, or a proportion of 1,322 males to 1,000 females.

"There is a marked excess of births over deaths in every state in the birth registration area. In Vermont the figures are lowest, the excess being 1,873 for 1920 against 1,947 for 1919. A marked excess is also shown for nearly every city, and wherever the deaths outnumber the births the excess is usually among the colored population. The mortality rate of infants under one year of age per 1,000 births in the birth registration area is 86, ranging for the states from 62 in Oregon to 116 in South Carolina. In 1919 the infant mortality rate of the birth registration area was 87, ranging from 63 in Oregon and Washington to 118 in South Carolina.

"The mortality rate of infants under one year of age per 1,000 births in the birth registration area was 87, ranging from 63 in Oregon and Washington to 118 in South Carolina. In 1919 the infant mortality rate of the birth registration area was 87, ranging from 63 in Oregon and Washington to 118 in South Carolina.

sends the ballot to the judge of the precinct for which it was intended."

# Notice to the Public

There has been a report in circulation that our Swimming Pool was not in a sanitary condition. We want to assure you that it is clean. We pump in each day Five Thousand gallons of fresh water and pump out the same amount.

With the assistance of Miss Yeager we sent a sample of the water from the pool, to The State Board of Health at Austin to be analyzed. Below is a copy of a Telegram showing that the water was satisfactory. We also have a letter in regard to same. Anyone can see it that wishes to at our Greenhouse.

Austin, Texas.  
Clarendon Plant and Floral Co.  
Clarendon, Texas.

Answering your wire bacteriological analysis your water sample as submitted shows satisfactory quality at time sample was taken but pool may become contaminated by bathers unless supply replenished regularly and regulations being forwarded you are carefully observed. Our letter explaining result went to you yesterday immediately upon completion of test.

John H. Florence, State Health Officer.

## Clarendon Plant & Floral Co.

### "BIG SIX" COMES BACK —DISCIPLINE AND HEALTH

Christy Mathewson, one of the greatest baseball pitchers of history, has apparently won his biggest game, a three-year-long struggle with tuberculosis. Wednesday he drove to a baseball game at Saranac Lake N. Y., where he has been carrying on his grim fight, and burned the pill across the pan in something like his old style.

The world which will take little note of the condition of Nikolai Lenin or the coal strike, will pause and rejoice that "Big Six" has "come back." The world loves a game, fair fighter, it honors a clean, straight shooter.

No father or mother need worry if the boy sets up Christy Mathewson as his hero. Keen minded, skillful, clean baseball player and gentleman in the best sense of the word, the former Giant moundsman is a fit model for young America.

Christy Mathewson's "come back" has a lesson for all who threatened or seized by the dread "white plague." It is the lesson that prompt attention to it and rigid adherence to the treatment prescribed gives a big chance to the average victim and some chance to even those in an advanced state.

Christy Mathewson baited no umpires, cursed no spectators and defied no baseball dictator. He was a part of the team and he knew the discipline, the voluntary discipline of the team. That discipline so moulded his will and his character that he has been able to submit himself to the fixed regimen laid down by the doctors. And so he has won a large measure of success in his

battle with the white plague—perhaps complete victory.

A physician of long and large practice once told us that many children lay in their graves today because their parents failed to discipline them to obedience. When dangerous illness came the untamed mind would not command the body to take the medicine or do the things a cure required. And death came.

How many times a drink of water, a regular dose of medicine, a good look down the throat means the difference between life and death. Fathers and mothers: Does your child obey? If not, you had better start right now.

### MILE OF HIGHWAY PAVED AT ELECTRA

Four thousand feet of the highway north of Electra have been paved, according to Campbell Hagan, who is in charge of the work for McCollum Construction company. Mr. Hagan expects to complete a mile of the paving by Saturday night. There will then be five miles more to pave. Because of terrific heat workmen stopped handling rock Saturday. However, there has been no other trouble. The crew is working now north from Magnolia flats north of Electra.—Electra News.

### POSTED NOTICE

This is to notify the public that all of the J. A. pastures are posted and hunting, trapping or fishing is not permitted and all trespassers will be prosecuted.

J. W. Kent, Supt.

C. M. Blanton and wife, of Goodnight, were here on business Saturday.

### MOB LAW

In a speech portraying vividly the evils arising from mob law, Lincoln asks:

"How shall we fortify against it?" The answer is simple. Let every American, every lover of liberty, every well-wisher to his posterity swear by the blood of the Revolution never to violate in the least particular the laws of the country, and never to tolerate their violation by others. As the patriots of seventy-six did to the support of the Declaration of Independence, so to the support of the Constitution and laws let every American pledge his life, his property, and his sacred honor—let every man remember that to violate the law is to trample on the blood of his father. Let reverence for the laws be breathed by every American mother to the lisping babe that prattles on her lap; let it be taught in schools, in seminaries, and in colleges; let it be written in primers, spelling books, and in almanacs; let it be preached from the pulpit, proclaimed in legislative halls and enforced in courts of justice. And, in short, let it become the political religion of the nation; and let the old and the young, the rich and the poor, the gay and the grave and the colors and conditions, sacrifice unceasingly upon its altars. While even a state of feeling such as this shall universally or even very generally prevail throughout the nation, vain will be every effort, and fruitless every attempt, to subvert our national freedom.

When I so pressingly urge a strict observance of all the laws, let me not be understood as saying there are no bad laws, or that grievances may not arise for the redress of which no legal provisions have been made. I mean to say no such thing. But I do mean to say that although bad laws, if they exist, should be repealed as soon as possible, still, while they continue in force, for the sake of example they should be religiously observed. So also in unprovided cases. If such arise, let proper legal provisions be made for them with the least possible delay, but till then let them, if not too intolerable, be borne with.

There is no grievance that is a fit object of redress by mob law. In any case that may arise, as, for instance, the promulgation of abolitionism, one of two positions is necessarily true—that is, the thing is right within itself, and therefore deserves the protection of all law and all good citizens, or it is wrong and therefore proper to be prohibited by legal enactments; and in neither case is the interposition of mob law either necessary, justified, or excusable.—Abraham Lincoln.

### THE AUTOMOBILE INDUSTRY

According to a recent review of economic and business conditions, Roger W. Babson, noted statistician and economic expert, declares that the automobile industry more than any other in the country has returned to normal conditions.

Mr. Babson points out that this revival of the automobile industry, following the depression that swept over the country in the past two years is due exclusively to the efforts to the industry itself to get back to normal.

When the depression came, automobile manufacturers found themselves with stocks of high priced raw materials and high priced products at a time when the people were unable to buy. This was the condition of other industries. The automobile industry was not exceptional in that respect.

But it was exceptional in another very important respect and that was that its leaders quickly realized the situation and began price reductions in order to stimulate buying. Huge losses were written off in the effort to get back to earth. This process continued until automobiles began to approach pre-war prices.

The result of this has been that many of the factories are now opening on full production and have found a demand for automobiles approximating normal.

These are some of the reasons, Mr. Babson cites as the cause of the revival of the automobile industry, and he declares that conditions in other industries would have been much better now if the example of the automobile manufacturers had been followed.

This same spirit seems to have permeated throughout the automobile industry. In Amarillo when business men in other lines were cutting out advertising, retrenching in every way possible, the automobile dealers kept up their advertising and

spent a lot of money to stage an automobile show. To some this may have seemed foolhardy, but the automobile industry is today reaping the rewards of its aggressive foresight of the past two years.—Amarillo Tribune.

### AS SOON WITHOUT CLERKS

"To discontinue advertising," John Wanamaker said, "is like taking down your sign. If you want to do business you must let people know it. I would as soon think of doing business without clerks, as without advertising."

Newspaper advertising is the red blood of business. It is the power that puts the merchant's goods into the homes of the people. It is a necessity in modern business methods. It revives the sluggish business and put new life into the atmosphere. It goes into the homes of the people you want to reach—your home people, people who know you and who know, when they read your advertisement in their home paper, that you are talking facts.—Fourth Estate.

### McLEAN FAIR WILL BE HELD OCTOBER 3 AND 4

An enthusiastic meeting was held Monday night to make final arrangements for the McLean fair.

October 3rd and 4th were the dates decided upon. This will give plenty of time to get our exhibits to the State fair at Dallas.

The McLean fair has been taken over by the McLean Community Chamber of Commerce and will be controlled by them hereafter. This step was taken on account of the fact that the same men belonged to both organizations and to eliminate the old Fair Association would save duplication of work.—McLean News.

### POSTED

The pasture known as Kelly Creek is posted. No trespassing, swimming or picnicking allowed. We are forced to do this to protect our interests. Take notice and avoid trouble and expense. Our feed lot north of town is also posted.

#### Green Olives

Here's a little hors d'oeuvre that may be prepared in a few minutes. It's novel and tasty. The family will enjoy it, and so will the guests. It's one of those "surprise" appetizers that labels your dinner "unique and charming."

Pit large green olives and fill with the yolk of hard-boiled eggs mixed to a paste with a little butter. Lay an olive on a strip of bacon, sprinkle with paprika and a tiny pinch of mustard, roll up, fasten with toothpick and broil just long enough to crisp the bacon. "Serve on toast fingers."

### PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night. Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

### NATIONAL HISTORY IN ADVERTISING

Historians who study newspapers to learn the habits and customs of peoples say they gain more information from advertisements than from the news accounts, and that the information imparted in advertisements is more accurate. Advertisements their stories without the intrusion of the editorial blue pencil. They show the development in transit, they disclose the changing conditions of the home, they announce the birth of scientific discovery and invention, they prove the worth of that which is true and lasting and unmercifully expose the sham and the fraud. They tell of our varying taste in dress, they show our belief in sanitation, they disclose our love of sport, describe our work, they mark the change in the status of womanhood and youth, they visualize the moulding of our morals and our methods and present to us humanity from the financier to the female shopper.

The newspaper subscriber who fails to read advertisements misses more than half the value of his favorite publication. Advertising is news of the highest importance and the most reliable news presented to the people. During the war, when Michael Friedsam, the great New York merchant, was appointed to serve as Fair Price Commissioner by the government, he was asked how the public could be best kept informed as to honesty of prices. His reply was terse and true: "Let them read the newspaper advertisements."

### BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clogged and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

### OLD-TIME GOLD CURE— DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

### RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia. Lumber up! Get a 35 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

# Business Backing

### CROWELL PROVIDES CAMPING GROUNDS

The next best thing Crowell is doing through its chamber of commerce is to provide a camping ground for tourists. Six lots on the northeast corner of the block east of the courthouse will be used for these grounds. Work commenced Wednesday morning. Toilets will be built and a fence put around the lots, free fuel will be furnished and the city water piped to the grounds, all to be free to tourists when they find it convenient to stop over in Crowell for any length of time. The matter of providing shelter from the sun and rain will be taken up later and probably put up.—Food County News.

**MERCHANTS PROTEST**

Port Arthur merchants have petitioned Senators Culberson and Shepard to vote against the proposed tariff on wool. They say that the proposed tariff on raw wool of 33 cents will increase the cost of a man's suit of clothes about \$4, an overcoat about \$7.50 and the same proportion on women's garments. They say it will cost the American people about \$360,000,000 annually, and this to protect the raw wool industry of America with a total output of only \$56,000,000.

They say that the wool tariff will not even protect the farmer because only 7 percent of the farmers of the United States grow any wool, and of those who do only a small fraction of 1 percent grow it in commercial quantities so that farmers as a class will be taxed more for their clothes than they will get in the enhanced price of wool. It is pointed out that

a tariff on raw wool of 33 cents on the clean content of the pound if adopted will mean an 83 percent increase over the Payne-Aldrich tariff former President William Howard Taft branded as indefensible.

Moreover these Port Arthur merchants say that this 33 cents will grow to a dollar a pound after it has passed through the hands of the wool dealer, the spinner, the cloth manufacturer, the clothing manufacturer and the retailer, after each one has added his overhead and profit.

These merchants of Port Arthur make this additional point of protest: "This is not a protected measure because half of this tariff would be ample protection. It will cost the American people \$360,000,000 and will merely enrich a comparatively few large ranch owners in the west." Farmers and wage earners are warned that this proposed wool tariff taxes all wools alike, regardless of quality or cost, which will

practically put an embargo on the lower grade wools and the workman and the average farmer will have to be satisfied with wool substitutes, cotton or shoddy.

This is the viewpoint of the Texas clothing merchant. It is passed on to Colonel John Henry Kirby's Southern Tariff association, to Clarence Ousley, and to the sheep and the goat raisers of the Concho river country.

Now the writer asks this question: Why should \$360,000,000 be taken out of the pockets of the American people to protect the raw wool industry with a total annual output of only \$65,000,000?

And to score a point why should Mexican crude be kept on the free list? If there is to be a tariff of 30 cents a pound on a wool importations then why not a tariff of 30 cents a barrel on oil importations? —Wichita Falls Record News.

**PLAN TO UNITE TWO COUNTY IRRIGATION DISTRICTS INTO 1**

Wichita Falls, Texas, June 30.—Definite plans of organization and operation between the two irrigation districts, the District No. 1, including Wichita Falls, which has voted the bonds and is constructing the project and District No. 2, which includes the farm lands to be irrigated, will probably be worked out in the near future, and the residents of the districts called upon to approve the plan by their votes.

This is particularly important in connection with the location of the North Side canal, now being surveyed—which will not be finally located not put under construction, it is believed, until the attitude of the land owners on its projected course is established.

Fixing of the relation of the two districts, which includes the apportionment of the cost of the project

between the city of Wichita Falls, which will obtain an additional water supply, and the owners of lands which will be irrigated, will require a near definite figure on the actual cost of construction, which at this stage of the game is a difficult calculation.—Electra News.

**NOTICE DEMOCRATIC COMMITTEE**

The Democratic Executive Committee for Donley County will meet Saturday afternoon July 8th, in my office in Clarendon, Texas at 2:30 p. m. Please don't fail to be present, as this is a very important meeting. Be here.

Truly,  
A. M. Beville Sr., Chairman.
