

EIGHTY-FIVE IN ATTENDANCE AT FATHER AND SON BANQUET AND PROGRAM FRIDAY NIGHT

MANY INTERESTING SPEECHES AND TOASTS FEATURE FIRST CELEBRATION OF ITS KIND EVER HELD IN CLARENDON. VARIETY OF TEXTS FROM BIBLE EMPHASIZE KEYNOTE OF CLOSER ASSOCIATION AND PARENTAL DUTY AT HOME.

"One of the most profitable and pleasant meetings I have ever attended" is the unanimous comment of those who were present at the "father and son" banquet held at the Denver hotel Friday evening. It was the first assemblage of its kind ever held in Clarendon and was an unqualified success from every standpoint. Such was the enthusiasm developed that eighty-five attended and those present predict that the meeting next year will have to seek new quarters for room.

The program was rendered under the supervision of Dr. B. L. Jenkins who acted as toastmaster, and the keynote of the remarks was a plea for closer association between the father and son. The following program was rendered:

"The Fun-Loving Boy," Tom F. Connally; "The Father's Pride in His Son," L. O. Lewis, Sr.; "The Father as Adviser to His Son," A. T. Cole, Sr.; "A Father's Duty," F. E. Chamberlain; "The Father as an Example to His Son," Dr. H. L. Wilder; "Father and Son at Cross Purposes," R. F. Morris; "Courting—How it Was Done When I was a Boy," John T. Sims, Sr.; "The Fraternal Spirit Between Father and Son," T. M. Little, Sr.; "Sammy's First Tooth," Sam M. Braswell, Sr.; "Then and Now," J. C. Killough; "A Father's Long-Suffering for His Son," A. M. Beville, Sr.; "A Father's Thrill at the Coming of His First Born Son," Rev. J. T. Griswold. A Biblical quotation was used as a text for every speech, the toastmaster explaining that it was a good source for texts on any subject, more especially the one under discussion.

Following the rendition of the above program, the toastmaster called for volunteers from among the sons. Thomas C. Connally responded with a toast, "A Tribute to Dad," and Oscar Jenkins spoke on "Dad." Among the others who spoke at this time were: Chas. Dean, John T. Sims, Jr., Harwood Beville and Gilbert Johnson. Harwood Beville spoke as both a father and a son.

The hit of the evening was the speech by little Gilbert Johnson, thirteen-year-old son of Mr. and Mrs. Dave Johnson, who was present with his father. The remarks by this young orator, although entirely extemporaneous, were terse and timely. He drew a tremendous ovation.

Those present: Frank Whitlock, Clarence Whitlock, Edward Bedwell, Robt. Bedwell, Marion Bedwell, Cecil Parker, J. T. Parker, W. L. Clampitt, D. W. Clampitt, Ross Harwood Beville, R. H. Beville, A. M. Beville Sr., David Johnson, Gilbert Johnson, Clifford Mace, T. F. Mace, J. R. Tucker, George Tucker, R. F. Morris, J. H. Morris, C. W. Taylor, Billie Taylor, Richard Long, R. A. Long, Kelly Chamberlain, F. E. Chamberlain, Clarence Clark, A. V. Clark, Leon O. Lewis, Jr., Leon O. Lewis Sr., H. Lott, Warren Lott, Jno. T. Sims Jr., Jno. T. Sims Sr., H. B. Kerbow, W. L. H. Faris, Ocie Faris, B. W. Moreman, Haskin Moreman, Odos Caraway, Leonard Goldston, Rhodin Chase, A. L. Chase, G. N. Scruzgas, G. T. Scruzgas, C. W. Bennett, Sr., C. W. Bennett Jr., H. L. Wilder, Louis Wilder, Henry Wilder, William Wilder, J. T. Griswold, Albert Mason, Tom F. Connally, Tom Coke Connally, Chas. H. Bugbee, Hatold Bugbee, Sam Braswell, Sam M. Braswell, T. M. Little Jr., F. S. Campbell Sr., Abe Cole, Abe Cole Sr., Milus Little, T. M. Little Sr., Luther H. Skelton, Chas. Dean, Jr., C. H. Dean, Sr., J. C. Killough, W. A. Land, Marvin Land, Jack Rutherford, J. H. Rutherford, Ned McKillop, J. A. McKillop, H. Kenney, Tom Kennedy, D. O. Stallings, F. Loyd Stallings, B. L. Jenkins, Oscar L. Jenkins.

COUNTY AGENTS ADVISES LOCAL EXCHANGE OF FEED

For the benefit of farmers who have surplus feed to sell as well as those who are in need of feed, County Agent G. W. Harris is arranging what is in the nature of an exchange at his office in the court house. A blackboard will be installed at the door on which will be listed in one column the names of those who have stuff to sell. Another list will contain the names of those who are in the market for feed. This board will be accessible to the farmers at all times and they are requested to make full use of it. If the county agent is not in the office, he requests them to write their names on the board in the proper column.

The inauguration of the exchange was conceived by Mr. Harris after a thorough canvass of the feed situation of the county. He found that there are a number of farmers in Donley who have feed to sell and in many cases the man with stuff to sell has a neighbor who wants to buy. The logical and economical thing to do in such a case, he said, would be for the Donley county men to trade, otherwise the selling farmer would ship his stuff out of the county and the buying farmer would have to ship feed in. The local exchange eliminates the middleman and freight, he explained.

In this connection, Mr. Harris advises that an investigation of the feed situation over the country has convinced him that the price is due for a drop within the next month.

MEMPHIS SECONDS WIN FROM C. H. S. SCRUBS

One of the most interesting high school football games of the season was staged at College park Saturday afternoon when the second team from Memphis defeated the local high school second team by a score of 7 to 0. The contest was a surprise to the spectators in the quality of football displayed by the youngsters. The performance of the scrubs convinced Coach Carter that there will be plenty of good material available for next year's squad.

The visitors from Hall county came up with a squad that outweighed the locals by several pounds and were able to score their lone touchdown by virtue of sheer superiority in weight. The fighting spirit of Clarendon made up to a large extent for their lack of avoidpoups.

GROOM WOMAN KILLED ACCIDENTLY BY GUN

Funeral services were held at Groom Tuesday for Mrs. Joe Kelly, who died in an Amarillo hospital Monday from a gun shot wound she received Monday morning. The body was taken to Groom by the Griggs Undertaking Company.

Mrs. Kelly was sweeping her floors about 8:30 Monday morning when a .22 caliber rifle shot passed through the screen door and struck her in the side. She was hurried to Amarillo and died at 2:30.

The gun was said to have been accidentally discharged by Martin Jordan, who had borrowed it and was on his way home to kill hogs.

Rev. H. Bascom Watts and family left Tuesday morning for Cisco where Rev. Watts will take up his new work, he having received the appointment in that city at the last conference. They have been visiting friends in Clarendon for some two weeks.

C. H. S. BEATS McLEAN 14-7

BACKFIELD TURNS TRICK ON OFF-TACKLE PLAYS. CLARK AND RUSSELL STAR.

The Clarendon High School football team upset the dope bucket and accomplished their greatest victory of the season when they turned back the fast McLean High School team Monday afternoon on the locals grounds by a score of 14 to 7. The secret of the victory by the locals was the consistent work of the backfield. They used but one type of play, the off-tackle variety, but it was effective throughout the contest. Following almost perfect interference, Russell and Clark rarely ever failed to register a gain around the short end.

The Gray county athletes entered the contest fully expecting to meet a passing combination. Their defense formed for those tactics enabled the C. H. S. team to change their usual style of offense and with good effect. Clarendon attempted but three passes, all of which were incomplete. One was dropped by the receiver when he had a clear field for goal.

McLean resorted mainly to straight football through the line but several completed passes netted the visitors considerable gains.

The entire backfield of the local team showed up well Monday. The line did not do so well, particularly on punt plays. Their ragged defense on those occasions rendered Clarendon's punts more or less ineffective. The local boys also displayed some poor tackling when they persistently attempted to stop the runner by high holds.

The first counter came early in the first period as a result of a series of gains on short end runs by Russell and Clark. McLean tied things up in the third on a series of bucks added to several material gains on passes. The score remained tied until the last three minutes of play and then Fitzgerald did his stuff. Goldston blocked an attempted drop kick on Clarendon's fifteen yard line, Fitzgerald recovered and raced the eighty-five yards for the winning touchdown.

While the entire backfield played well, Russell and Clark were the outstanding stars.

The game Friday was postponed from Monday when it was originally scheduled. The McLean team was not able to get here on that day on account of muddy roads.

Clarendon line-up follows: Goldston, right end; Allen, right tackle; Naylor, right guard; S. Sykes, center; Ingram, left guard; S. Clark, left tackle; White, left end; E. Clark,

A. & M. BUDGET TO BE OPPOSED

DONLEY COUNTY RESIDENTS PREFER WEST TEXAS COLLEGE AS DISTINCT SCHOOL.

The six million dollar budget which is to be checked by the farmers congress, called to meet at College Station December 4th, 5th and 6th, will include a sum of one million dollars to be used in the construction of a West Texas A. & M., according to information received this week by County Agent G. W. Harris. While the residents are unanimous in their desire for an institution of this sort for this part of the state, they have a preference in the matter which is generally voiced in favor of an entirely separate college and under a distinct management. The inclusion of the building fund in the Bryan institution's budget is interpreted to indicate that the new school is intended to be under the direct supervision of the A. & M. authorities and this move will receive emphatic opposition from the Panhandle-Plains country. For this reason, Donley county residents feel that it is all the more important for this county to have a representative at the congress in College Station when this budget is taken up.

The purpose of the meeting at College Station is that the dirt farmers of the state may have an opportunity to check over the budget that is to be submitted by that institution to the next state legislature. Each item will be carefully considered and a committee will be appointed to go before the lawmakers to use their influence in preventing the slashing or elimination of funds vital to the A. & M. College activities, as has been done repeatedly by the legislature in the past.

Mr. Harris announces that the authorities of A. & M. College have appointed the following men to represent that institution in the selection of the Donley County delegates: Ashtola; Homer Mulkey, Clarendon; E. R. Reeves, Jericho; W. A. Lewis, W. L. Butler, Lelia Lake; J. W. Noel, Hedley; T. C. Johnson, Giles.

This committee is at this time busy raising funds to finance the trip of this county's representative to the College Station session.

County Clerk W. E. Bray and E. Goodwin of Clarendon College left Wednesday of last week for New Mexico on a business trip. They went through in a car and returned Saturday.

quarter Dean, full; Russell, right half; Fitzgerald, left half.

AMARILLO WILL BE FAIR SITE

EXPOSITION FOR 1923 PLANNED AT P. P. C. C. MEET AT HEREFORD TUESDAY.

Geo. Ryan, Harry Sitner, C. S. Boston, Homer Mulkey, Odos Caraway and Sam M. Braswell attended the second regional meeting of the Panhandle-Plains Chamber of Commerce held in Hereford Tuesday. They went up Tuesday morning and returned that night.

Amarillo was unanimously selected as the permanent site for the all-Panhandle fair at Tuesday's meeting. The choice was made at the recommendation of Judge James D. Hamlin of Farwell, chairman of the special fair committee. Lubbock and Plainview were also candidates for the fair site. The exposition in 1923 will be held in the new municipal coliseum.

A contest is to be held in the near future for selecting a name for the regional fair. It is the idea of the committee for the name to be one that will be outstanding and distinct. A consideration of the weather records is now under way with the object of selecting dates for the show when inclemency is least likely to interfere. It was pointed out that some expositions are put into bankruptcy as a result of bad weather. The plans for the show contemplate a king, queen and the necessary attendants.

Committee reports included an encouraging announcement by the committee on game reserve and hatcheries that the state game warden, W. W. Boyd, was back of any constructive work in this line. The agricultural committee reported progress in the movement to increase cotton acreage in this section. The report of the committee on the discontinuance of guarantees to lyceums and chautauquas was read by H. Mulkey and showed that a survey of the Panhandle revealed opposition to the guarantee by 24 cities. Three cities favor it.

Memphis, Canyon and Clarendon have asked for the spring regional meeting of the chamber which is to be held in February. One of these three cities will be selected later at a meeting of the executive committee.

NEW BUSINESS ESTABLISHED

S. C. Rigney of East Texas has been in Clarendon for several days establishing a produce business. The new venture is in the nature of a produce exchange. G. W. Hughes is local manager.

BUFFALOES ARE LACERATED BY BULLDOGS 13-6

SPEEDY BACKFIELD IS TOO MUCH FOR CANYON TEAM. GAME IS MARKED BY CLEAN SPORTSMANSHIP BY PARTICIPATING ATHLETES.

With the battle cry of "Powder River" ringing in the air the Clarendon College Bulldogs tore into the Canyon Buffaloes in their own pasture Friday afternoon and completely routed the herd, incidentally hanging up a score of 13 to 6 and keeping a clean slate for the season.

Superiority in speed in the backfield and almost perfect interference tells the whole story of the Bulldogs' victory. Canyon went into the contest drilled to the last minute in the art of aerial defense. They went on the ground with the firm expectation that the Bulldogs would specialize on passes and incidentally overlooked the possibilities of end runs where executed by fast men and well organized interference. They either overlooked or underestimated this bet, and lost.

The game Friday was pretty much the reverse of the show staged in Canyon last Thanksgiving in that it was Canyon this time who resorted to the pass in the latter stage of the game in an effort to come from behind. There was this difference, however; Clarendon succeeded last year and Canyon failed this year.

The game was one of the cleanest ever played by Panhandle colleges—a fact most notable and commendable in view of the intense rivalry between the participating teams. When these two teams meet, it has usually meant a fight in almost every sense of the word, a great many times at the expense of true sportsmanship. Sportsmanship was the prevailing characteristic in the game Friday and particularly was this true of the Canyon players. Time after time they were seen to pick up a fallen Bulldog. Not infrequently members of the two teams shook hands and a fraternal spirit was evidenced in more ways than one. But the climax was reached when the Buffalo scrubs, at the end of the game, carried the victorious Buffaloes off the field. Both players and spectators declare that they could not have asked for better treatment than they received in Canyon.

Probably one of the most noteworthy events in the victory of the Bulldogs was the gathering staged by members of the squad before the game in which Coach Burton and Captain Jackson took occasion to deliver themselves of certain remarks concerning the necessity of fighting to the end. The athletes declare that it would have been next to impossible for them to have lost the game after listening to the advice and admonition of their leaders.

A new star appeared upon the horizon in the Canyon contest in L. Bourland who played at quarter in place of Captain Jackson, declared ineligible. Bourland, a home product, not only handled the team like a veteran but proved to be one of the most effective ground-gainers on the field. E. Goodwin and Martin were two other regulars who were not in the contest Friday but the absence of these stars apparently in no way affected the morale of the team, or the machine-like precision with which the plays were executed.

For the Bulldogs, O. Close, G. Close, M. Goodwin, L. Bourland and Peoples played their positions with telling effect. Johnson, Bivins, Henry and Key were the stars for the Buffaloes.

During the first quarter the game was about even, Canyon having the shade of advantage, if, in fact, there was a difference. Fumbles were costly to the Bulldogs in this quarter and a greater part of this period saw the ball in C. C. territory. The quarter ended with the line of scrimmage on Clarendon's twenty-four yard line, and the score nothing all.

(Continued on page 6)

LIONS SPONSOR FOOTBALLS FOR C. C. BULLDOGS

LOCAL CLUB WILL BACK MOVEMENT TO PRESENT EMBLEMS TO MEMBERS OF SQUAD, PROVIDED THEY FINISH SEASON UNDEFEATED.

Clarendon College Bulldogs will be given gold engraved football as a symbol of having completed a season undefeated—provided they emerge victorious in their remaining two contests. The members of the Clarendon Lions Club voted unanimously to sponsor the purchase of these emblems at their weekly luncheon Tuesday. The membership declared wholeheartedly for supporting the team in every way possible inasmuch as the success of the college athletes has been the means of considerable advertising for the city. That their value to the city is such as to deserve the unreserved support of those who stand for the progress of Clarendon was the keynote of the discussion on this matter.

The question of arranging for a post season game for the Bulldogs was taken up and discussed with the suggestion that the venture be backed by the Lions but no definite action was recorded. Coach Burton announced that a game would no doubt be scheduled with some team from a higher conference but nothing definite has been settled in this connection.

"Service" was the phase of Lionism given special attention on the entertainment program Tuesday. This subject was ably handled by W. T. Hayter who stressed the point that "true service meant cheerful service." Orin Sharp favored the club with a humorous reading which contributed materially to the pleasure of those present.

Samuel C. Bell of Pennsylvania was a guest at Tuesday's luncheon. A rising vote of thanks was extended to the College Parents-Teachers Association in recognition of their having postponed their dinner scheduled for Tuesday until December 14. The action by the Association was taken in deference to the benefit show staged by the Club on Monday and Tuesday.

Superintendent Nelson was elected to speak at the Pastime Tuesday night in the interest on Lionism and the playground movement.

A considerable sum was realized by the Lions from the benefit shows staged at the Pastime Monday and Tuesday. Full houses attended both days and as a result a playground for the Clarendon public schools is much nearer a reality. The project is receiving the enthusiastic support of the patrons of the school and every indication is that there will be little trouble experienced in raising sufficient funds for the equipment. Arrangements for other benefits to be staged in the near future are already being evolved by the committee and there will be no let-up in the movement until the object has been obtained.

JURY LIST FOR COUNTY COURT IS ANNOUNCED

Following is the petit jury list for the December term of county court of Donley county which convenes on December 4th:

Kinch Leathers, J. M. Sibley, D. N. Bowers, C. C. Cope, W. E. Christie, W. W. Buck, J. H. Goldston, J. H. Bursom, I. G. Enochs, J. J. Edwards, Neal Bogard, J. R. Calhoun, R. L. Bigger, F. W. Gordon and L. H. Stark.

H. S. Vs. MEMPHIS TOMORROW

Clarendon High School and Memphis High School will clash on the local gridiron tomorrow afternoon in what is expected to be one of the best contests of the season. A large delegation of rooters will probably be up from Memphis to support the Hall county athletes. The teams are about evenly matched, according to the "dope."

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

There is no fear in love; but perfect love casteth out fear.—I John 4:18.

Be thankful that you know enough to feel thankful. Some don't.

Donley County farmers ought to begin planning right now for agricultural exhibits to win First Prize at the All-Panhandle Fair in Amarillo next fall. Our farmers' products, when carefully assembled, cannot be surpassed in this or any other country.

Amarillo is to be congratulated on her winning the location of the All-Panhandle Tri-State Fair, to be opened next fall. Amarillo, Plainview and Lubbock were contenders for the fair and the two cities who lost offered splendid bids, but in the judgment of the committee acting for the Panhandle-Plains Chamber of Commerce Amarillo's bid was considerably in excess to her ambitious rivals of the south-plains country. The News believes that the opening of this fair will be the preface to one of the greatest fairs of the nation, an objective that will be reached in a few short years. An aggressive organization will begin planning for the big event in the next few weeks and with the great Panhandle country behind the movement we confidently expect a truly remarkable fair next fall. Boost the All-Panhandle Fair, Amarillo, 1923.

Our big "Home Town Edition" to be issued on Dec. 21st, will be better illustrated than any other special edition ever printed in Clarendon. Already we have booked orders for some strong advertising, and we hope that every business in Clarendon will be represented in the advertising columns of the issue. It will be representative of Clarendon and is justly entitled to universal patronage.

There is no truer test of a man's qualities for permanent success than the way he takes criticism. The little-minded man can't stand it. It pricks his egotism. He "crawfishes." He makes excuses. Then, when he finds that excuses won't take the place of results, he sulks and pouts. It never occurs to him that he might profit from the accident.

—Thomas A. Edison.

The Clarendon College Bulldogs are undefeated thus far this season and Clarendon gridiron fans are confident that they will close the season in the same magnificent manner that they have performed all season. Frankly, we believe that Clarendon has never had more and better advertising than she has been given by Coach Burton's machine during the present football season. The Bulldogs are a wonderful asset to our city and we owe them full and spontaneous support. Bulldogs, we are with you!

Under a kind and All-Wise Providence we again come to the Thanksgiving season, and on even a casual reflection we find that we indeed occupy a happy lot. During the past twelve months we have seen the seamy side of life, financially speaking, but we have also seen evidences of a safer, saner trend in our national and civic life. We have, in more leisurely days, come to recognize again the value of those homely virtues that had been almost forgotten in the mad rush of the prosperity engendered in the swollen era during and following the world war. We saw again the need of simple living, of studied thrift, of strict honesty, of open sincerity, of old-fashioned righteousness. True, we haven't yet attained a full return to those virtues, but we have caught the vision again and out of the fog of unstable values, out of the morass of a heedless thoughtlessness, we are finding safer footing for our feet. God has been good to us as individuals, God has blessed us as a state, God has dealt graciously with us as a nation, therefore to Him we owe a debt of gratitude and to Him at this Thanksgiving reason we turn our thoughts and hearts. To have a Thanksgiving spirit is always timely, yet were it not for the day set by our national custom, many of us would never lift our hearts to the Giver of all good gifts, thereby adding another sin to our already too heavy burden. Let us be thankful, because we have a thousand-fold cause for thanksgiving. Let us be thankful because it is RIGHT.

Stronger advertising in the holidays and a studied campaign in 1923 will bring a wonderful era of business to our city for the next fourteen months. Get on the "firing line."

There is a growing sentiment and more insistent demand that Clarendon should not be without the services of a virile chamber of commerce. The News hopes there shall be raised up a leader in this matter and that before the 'old year is tolled out and the bells ring in the new year of 1923, plans will be laid and public sentiment crystallized behind an organization that shall surpass anything of the kind we have ever had in Clarendon and one that shall again lead other Panhandle towns in the paths of progress and achievement.—Clarendon News.

Wherein the News editor has the big idea cocked and primed for the town, but torpidly along this line precludes progress. Any town big enough to have a postoffice should have a commercial organization. The little lecture is nicely applicable to our own fair city.—Itasca Item.

Commenting on expressions about the West Texas A. & M. question by Editor Ben Smith of the Lockney Beacon and the editor of this paper, Lee J. Rountree, editor of the Bryan Eagle and legislator from the county in which Texas A. & M. college is located, has the following to say:

"The platform demand of the democratic party of Texas unanimously adopted states that the legislature should establish an agricultural college in West Texas to be a branch of the Agricultural and Mechanical system of Texas and to be under the board of directors of the institution and a school of the first place. The day this school is opened it will be of the first class because the parent institution is of the first class. If you would spend one session at the legislature in Austin and deal with educational problems you would soon ascertain that educational institutions in Texas are not founded as first class in a moment, a day or a year. Education is not the question of the moment a day or a year. Education is not the question of the moment but of the ages. There is great demand in Texas for schools and education, but there is little money to appropriate. Ben Smith and Sam Braaswell are patriotic citizens of the west. We have known them long and well—when they were school boys and before they moved out west. The Eagle is their friend and is going to support their noble educational aspirations based upon reason, judgment and success. Texas needs a great Agricultural and Mechanical college at Bryan and then other great co-ordinated colleges in one system so that they will not conflict and any other public policy would be an error. The fundamental principles of scientific agriculture are the source wherein the world survives, the only need of changes is in the different soils which are no different on one side of the world than on the other. Let us build in Texas, but build wisely so that all our educational institutions will be first class and have a real standing before the country."

STATE OF TEXAS.

To the Sheriff or any Constable of Donley County—GREETING:

You are hereby commanded to cause to be published, once a week, for ten days, exclusive of the first day of publication, before the return day hereof, in some newspaper of general circulation published in said county, which has been continuously and regularly published in said county for a period of not less than one year, the following notice:

To all persons interested in the welfare of Dan Dean, a Minor.

You are hereby notified that L. R. Dean has filed in the County Court of Donley County, Texas, an application for letters of guardianship upon the person and estate of said minor, Dan Dean, at the next regular term of said Court commencing on the first Monday in December, A. D. 1922, the same being the 4th day of December, A. D. 1922 at the Courthouse thereof in Clarendon, Texas, at which time, all persons interested in the welfare of said minor may and are hereby cited to appear and contest such appointment if they so desire and if said appointment is not contested, same will be made permanent by the said Court.

Herein fail not but have you then and there before said Court on the First Day of the next term thereof, this writ with your return thereon showing how you have executed the same.

Given under my hand and seal of said Court, at office in Clarendon, Texas, this 20th day of November,

W. E. BRAY, Clerk County Court, Donley County, Texas. (49c)

COUNTY AGENT SAYS LAY OFF TERRACE BEFORE RAIN

County Agent G. W. Harris urgently requests all who contemplate having any of their land terraced to see him and make arrangements as soon as possible to have the land marked off. He calls attention to the fact that the actual work can not be done until the country has more rain but that the ground can be laid off and that much time will be saved. "It takes nearly as much time to mark off the ground for the terraces as it does to do the actual work," he said, "and that much can be done now, and then when we do get the rain the matter of throwing up the terraces can be taken up immediately. Quite a number of farmers have expressed their intention of having their land terraced but there are a number who have tracts needing this attention who seem indifferent to its condition. Terracing has proven to be profitable here and there are numbers of acres in this county that can be turned into profitable tracts with a little attention."

LELIA LAKE

Quite a nice crowd attended the carnival given by the Parent-Teachers Saturday night, considering the weather over \$70 was taken in.

Prof. Floyd was called to Oklahoma on account of the illness of a brother Saturday.

Mr. and Mrs. L. A. Byrd visited the lady's parents, Mr. and Mrs. G. T. Adams Sunday.

Mr. and Mrs. Stanley Conner of Hedley visited in the Buster Conner home Tuesday.

Mr. and Mrs. Marbley were Memphis visitors Saturday.

Mrs. Moreman is visiting her daughter at Memphis this week.

Mr. and Mrs. B. J. Leathers were Clarendon visitors Tuesday.

Mr. and Mrs. Claude Fraiser of Grandfield visited in the H. D. Burris and R. E. Conner homes last week.

Mises Hazel Bynum, Vera Eanes and Lorene Lewis visited home folks Saturday and Sunday.

Mrs. John Tollar is visiting her mother at Ft. Worth.

Grandma and Grandpa Cook, also daughter, Miss Jessie were in Clarendon Friday.

PROFANITY

Some person with a sense of humor and a satirical bent has coined "ten good reasons why every respectable man should swear just as often and as hard as he can." The reasons are given below.

I have known a few men who never in their whole lives indulged in profanity. I have known others who could swear musically, and still others from whose lips every profane word scalded shocking. The art of swearing has come in for considerable discussion, and, it seems to me, more swearing is indulged in today than ever before. It's a habit, no doubt, and like all habits is justified by its victims and condemned by others.

People swear when they are mad, when they are happy, when they are surprised, when they are delighted, when they are hurt, and frequently without any excuse at all, but it has been noted that very few people swear when they are in great danger, such as in a storm at sea, or when the lightning is flashing all around!

But, to the reasons:

1. Because it is such an elegant way of expressing one's thoughts.
2. Because it is such a conclusive proof of taste, character and good breeding.
3. Because it is such a sure way of making one's self agreeable to his friends.
4. Because it is such a good evidence of acquaintance with good literature.
5. Because it furnishes such a splendid example and training for boys.
6. Because it is just what a man's mother enjoys having her son do.
7. Because it would look so well in print with your name signed to it.
8. Because it is such a good way of increasing one's self-respect.
9. Because it is such a great help to manhood and virtue.
10. Because it is such an infallible way of improving one's chances in the hereafter.

"Thou shalt not take the name of the Lord thy God in vain."—Ex. 20:7.

Col. E. R. Reeves of Jericho transacted business here last week.

Miss Alma Brown visited home folks in Jericho last week.

MOTHER AT FREDERICK SEEKS HERCHEL LOGAN

The News has received the following communication from Mrs. W. G. Whistler at Frederick, Okla:

"We have heard over radio in Frederick that a boy by the name of Herchel Dan Logan, about fourteen years of age, who has been lost from his mother for twelve years is in Clarendon and a woman knows him. Who is the woman? Can you find out?"

"Also this boy has a sister, Emma May Logan, about sixteen years of age, who is lost from her mother. They were taken from their mother by their father when they were mere babies, two and four years old. Their father is named Robert or R. B. Logan. The mother is in poor health and has grieved twelve long years which is long enough if I can find the children. With the help of the good people I believe I can. I am the mother's sister—the children's auntie."

Anyone who has any information concerning these children are urgently requested to notify Mrs. Whistler.

J. W. Owens was a business visitor in Amarillo Monday.

Rev. J. R. Henson filled the Methodist pulpit at McLean Sunday.

We will be closed all day Thanksgiving

THURSDAY, NOVEMBER 30TH.

ELEVATED RESERVOIR IS EXPECTED DAILY

Clarendon's new elevated water tank is expected to arrive any day. Mayor Cagle received the bill of lading several days ago and advises that the reservoir will be installed and put into operation as soon as possible after its arrival.

The contractors are over half through with the nine-mile extension to the city's water system. Work on the second lap began Tuesday when the ditcher began operation on East Third street, having completed practically all of the stretches in the western part of the city. The contract called, originally, for the completion of the work within a period of forty-five days but this time was extended by the city when other items were added to the agreement. However, at the rate the men are going at this time, it seems that the entire extension program will have been completed in less than forty-five days, barring any unexpected delay.

Some little inconvenience has been experienced by the water patrons during the last few days owing to the necessity of cutting off the water when making connections. The authorities explain that these shut-offs are limited as much as possible.

BULLDOGS TO WAYLAND FOR GAME TOMORROW

Clarendon College Bulldogs will meet the Wayland team in Plainview tomorrow for their last game before the Thanksgiving and "homecoming games" here with Canyon. The Plainview team was defeated earlier in the season by the Bulldogs in Clarendon but the result of recent games by the Bulldogs shows that they have been materially strengthened and Coach Burton is expecting a tough scrap tomorrow.

ST. JOHN BAPTIST CHURCH EPISCOPAL

On Thursday, November 30th, being Thanksgiving Day there will be a celebration of the Holy Communion at 10:30 a. m.

RAIN HERE THURSDAY

Donley county and this section of the Panhandle was visited by a slow rain last Thursday and Friday. The precipitations was not sufficient to help fall plowing materially but was of great benefit to the range.

MEMPHIS COUPLE MARRIED

H. S. Randall and Miss Lucile Craft of Memphis were married about 12:30 Sunday at the Methodist parsonage by Rev. J. T. Griswold. Mr. and Mrs. Randall are both well known in Memphis.

GOODFELLOWS SEEKING FUNDS FOR CHRISTMAS

Donations for the Goodfellow fund, collected for the purpose of spreading Christmas cheer among the poor, will have to be more liberal this year than usual, according to J. W. Watts, who is chairman of the movement. A year of depressions has rendered an unusual number destitute over the country and the present indications are that Clarendon will have her share of the needy to look after this season. Contributions for the fund have begun to come in, Mr. Watts says, but the Goodfellows will need every penny available to care for their wards this season. It is the request of the chairman that Clarendon citizens remember these poor people in their budget of Christmas expenditures and the sooner they hand in their donations the sooner the Goodfellows work can be organized.

WIVES BEGGING FARES TO FOLLOW HUSBANDS

The pitiable plight of three different women has been brought to the attention of Clarendon business men within the last week when these wives have made it known that they are seeking funds with which to purchase transportation to their husbands. In all of these cases the men had deserted their wives. Two of them "made no bones about" their intentions but comforted their wives by allowing them to follow the best they might. Even this "comfort" was denied the wife of the third who cashed in everything he could get his hand on and "beat it." None of the families lived in Clarendon. Apparently they were making their respective trips by piecemeal, going as far as their funds would carry them and then stopping over to ask more money.

Ask for your 1923 Calendar. We bought one for you. R. A. Long Drug Co.

JOBBERS-MANUFACTURERS SHOW OPENS IN AMARILLO

The three-day session of the Jobbers & Manufacturers Exposition opened in Amarillo at 1 o'clock today. Visitors were arriving in that city on every train yesterday from distant points in the Panhandle. A number of local people are planning to witness the show sometime during the three days.

Exhibit booths have been installed by 32 manufacturers and jobbers in the big J. I. Case hall and the decoration is said to be elaborate in the extreme. Special arrangements have been made for heating the building. The first vaudeville performance of the \$1,000 troupe was staged at 3 o'clock, and several shows will be given daily by this company. Dancing will be a feature of the entertainment.

HIGH SCHOOL PARENT-TEACHERS MEET DEC. 7

The High School Parent-Teachers' Association will meet Thursday, Dec. 7th. Program is being arranged and it is urged that all members be present. There is some important business to come before the association at this time which every member will be interested in. The attendance has not been all that it should be, and it is hoped that many of the members will take renewed interest and help to make the Parent-Teacher Association what it should be and what it will be with the right kind of co-operation on the part of both the mothers and the teachers.

NIGHT WATCHMAN AVERTS BURGLARY OF DEAN STORE

Apparently a burglary of Dean's Cash and Carry store was averted last night by the timely appearance of Night-Watchman Craptree. When Mr. Craptree "tried" the rear door he found that the lock had been removed from the chain used in locking. The chain had been slipped back into place but the lock has not yet been found. A simple push would have thrown open the doors but it is thought that the approach of the night-watcher was discovered at this stage of the work and the men fled.

PRESBYTERIAN CHURCH

Regular services next Sunday. Preaching both morning and evening. Sunday school begins at 9:30. All are cordially invited to worship with us.

Rev. F. T. Charlton, Pastor.

METHODIST LADIES BAZAAR

The ladies of the Methodist church will conduct a bazaar and market in the Little building Saturday, December 2. A chilli luncheon will be served at noon. (47c)

Our 1923 Calendars are going fast. First come, first served. R. A. Long Drug Co.

W. S. Gibbs and two sisters, Mmes. W. O. Moffett and J. W. Glass, of Shelbyville, Ky., arrived Friday for a visit with their nephew, P. A. Buntin. Until this visit, Mr. Gibbs had not been in Texas for over forty years. About forty-one years ago he visited Mr. Buntin near Gainesville.

Frieds of J. Roy Bartlett will be glad to learn that he is resting well and expects to be able to leave his room within a few days. He has been quite ill for some two weeks.

WHERE THEY WERE FIRST GROWN

Celery originated in Germany. Chestnuts came from Italy. The onion originated in Egypt. The nettle is a native of Europe. The citron is a native of Greece. Oats originated in North Africa. The poppy originated in the East. Rye came originally from Siberia. Parsley was first known to Sardinia. The pear and apple are from Europe. Spinach came from Arabia. The sunflower was brought from Peru. The mulberry tree originated in Persia. The gourd probably is an Eastern plant. Walnuts and peaches came from Persia. The horse chestnut is a native of Tibet. Cucumbers came from East Indies. The quince came from Crete. The radish is a native of China and Japan.

F. E. Chamberlain and John Ryan motored to Portales, N. M. today on a business mission.

LECTURER SAYS FLAPPER IS SLAVE TO FASHION

The modern flapper and the slicker are slaves to fashion, in the opinion of Allen D. Albert, professor of Sociology in the University of Chicago, who appeared at the College auditorium Thursday night in the second lyceum number for this year. Mr. Albert spoke before a full house using as his subject, "The Youth of 1923." A convincing speaker, the Chicago man delved into the intricacies of human nature bringing to light a number of determining factors seldom considered by the average person.

Mr. Albert unequivocally declared that the present generation is "the worse the world has ever known" but modified the assertion by adding that the modern youth is superior mentally, physically and morally to any preceding generation. The superficiality of modern youth, he said, is due to lack of intensified training. He indicted the present generation for "leaving the church" and named the automobile, the Sunday newspaper and golf as contributors to this tendency.

LELIA LAKE LOCALS

Bro. Weems, the new Methodist pastor preached Sunday morning and evening.

Bro. Kennedy preached Sunday and Sunday night at the Baptist church.

Mrs. Crockett Taylor and daughters, Misses Eugene and Gatha and son Eillie, also Mrs. H. W. Taylor of Clarendon visited in the June Taylor home Sunday afternoon.

T. U. STUDENTS FROM 20 STATES

SEVENTY-SIX ENROLLED FROM OTHER STATES. SIXTEEN NAME MEXICO AS HOME.

Austin, Nov. 22.—Although the great majority of the 4,154 students new in the University of Texas are native Texans, there are 76 students from other states. The number of visitors to Texas includes 30 girls and 46 boys, representing 20 states. There are students from the District of Columbia, New Jersey, Missouri, Florida, Colorado, Kansas, New York, North Carolina, Tennessee, Oklahoma, Illinois, Ohio, Mississippi, Virginia, Pennsylvania, Arkansas, New Mexico, Louisiana and Kentucky.

New Mexico leads the states in numbers being represented by sixteen students. There are 15 from Louisiana, and 13 from Oklahoma; four each from New York, Mississippi and California, and two from each of the following states: Pennsylvania, Colorado, Kentucky, Tennessee and Kansas. Each of the other states is represented by only one student.

Students also come from all parts of the world to attend the University. The majority of the foreign students come from Mexico because of the proximity of that country to the Texas institution. There are 16 students who give some point in Mexico as their home.

Of those who come greater distances to attend the University there is Miss Pearl C. Dahl, from Palmerston North, New Zealand. Paul Raigorodsky, a student in the College of Engineering, is from Proskourou, Russia. Alexander P. Militechevich, a twelve, \$862; oil, oil stove or oil lamp, eleven, \$9,168; defective flue, seven, \$4,264; spontaneous combustion, four, \$2,089; gas stove or heater, four, \$2,596; iron, two, \$12,500; gasoline, one, \$55; overheated stove or pipe one, \$250; car, one \$5; film in picture show, one, \$125; lightning, one \$127.

Jno. Britten, Joe Britten and J. W. Knopp of Groom were business visitors in Clarendon last week. home in Eastland.

Freezing weather coming. Don't neglect your cars.
Denatured Alcohol
AT
People's Pharmacy

It seems to me, Thanksgiving Day is good for people every way,—I wouldn't want to doubt it. . . . I'm certain that our blessed Lord forgives our sins and keeps His word—we couldn't live without it! I've noticed that the thankful man, who does the very best he can to show the Lord he's grateful—is happier a thousand-fold, than one whose gratitude is cold, and thrives by being hateful. I'd rather bless a crust of bread with benedictions sweetly said, than gloat o'er ingrate's splendor. . . . I'd thank the Hand that allers feeds, an' suits the blessin' to our needs—an keeps our conscience tender. . . .
If I must dine on rabbit roast, because I can't dig up the cost of gobbler, stuffed with dressin'—I'll down my hare-hop with a smile—in firm belief that, after while, we'll reap a richer blessin'. . . . I ain't ashamed to kiss the rod that chastens by the hand of God, yet spares my daily livin'. . . . and maybe that is why I'm here, to celebrate another year—in praises and Thanksgivin'!
Yours own,
UNCLE JOHN.

BALDWIN BROTHERS

Announce Their Removal Sale

Beginning next Friday, Nov. 24th and running two weeks ending Dec. 9th. Jan. 1st we will move our stock to our new location in next block South of our present location on the Westside of the street opposite Post-office building. REV. E. DUBBS TELLS OF VISIT IN TEXAS

Following is a letter from Rev. E. Dubbs written from his home in Milford, Ind., describing his recent visit in this section.

"Dear Mr. Braswell: "As you so kindly requested me to write you and your paper a short sketch of my visit to the dear home folks of Clarendon and the Panhandle upon my return home to Milford, Ind., I take this my first real breathing spell to do so, and I want to say to you, that I feel it a great pleasure to do so, for I can express to my many old time friends my heart felt thanks for the royal reception that they all gave me, and what a treat it was both to myself and wife to meet them again. The only sad part of our visit was that we were not able to meet them all.

"Our visit really commenced at Amarillo. After two night and one day after leaving Chicago we arrived at 6:20 in the morning at Amarillo, and as we got off the cars we were met by my son Clarence, and an old time friend, Bob Williams, a former Clarendon citizen, and taken to his beautiful home for breakfast, we had a fine breakfast and were splendidly entertained by our hostess, Mrs. Williams.

"After a short visit, Clarence and his wife, Bernice hitched up to three new Ford to take us to the ranch, 45 miles south of Amarillo beyond Blanco Canyon where we arrived in time for dinner. After we had dinner, Clarence had it in his mind to give us the time of our lives, and forgetting that we had passed several years of our voting age, says to me, "Papa I would like to introduce you to our neighbors, are you and Mama too tired to take a little drive this afternoon?" Oh, no, we both said, we will enjoy it fine, so we called on his neighbors. As they live about five miles apart, we spent the whole evening calling, never getting out of the car, just driving up to a house and calling the folks out, and after a proper introduction going on to the next ranch. I think we drove something like a hundred miles or less. We arrived home about dark, and then of course we had to visit awhile, but we got to bed and had about three hours sleep, when we were called up for breakfast, and had part of a fat yearling, hot biscuits and other goods things to kind of stay our appetites that the ozone or something or other gives to a fellow in the Panhandle.

"After breakfast, Clarence says, Papa, we had to take our steers to a ranch near Bovena N. M., as our grass was short here on account of the drought, it is only about a hundred miles over there, and the roads are fine, and I should go over and see them, are you too tired to make the trip?" No, wife and I both declared we would enjoy it fine, and we started. 19 miles to Canyon City, 35 miles to Hereford, and I don't know how many miles to Bovena, and then five miles to the ranch, and after driving over six or eight sections and looking at the steers and seeing that the water and grass was all right, we found that it was four o'clock in the evening. Clarence says, "It is most to far to drive back home, it is only 35 miles to Clovis, and my father-in-law, Mr. Gillam lives there, what do you say to going there to stay all night." We both said that would be fine. You see Mr. Braswell we were getting younger fast. We made Clovis by dark, and were royally entertained, chicken supper, and later a number of old time friends came in to shake hands, and visit, but we managed to get three hours sleep. Next morning off for home again and spent the last night of our visit there and had a full nights rest, and to tell the honest truth I really believe we needed it.

"When we came to Clarendon the next night, and were met by the whole Dubbs delegation to welcome us. All declaring we looked ten years young, then when we left there I thought they were just "spoofing" me, but the next day when I came down town, and met you and a host of my old time friends all saying the same thing, I commenced to straighten up, and step lively, actually throwing off ten years of my life, for it was easy to believe that a miracle of that kind could take place among people that I so dearly love, and in a country where I lived so long. Of course I know that you all just wanted to make me feel good, and you succeeded.

"I wish that I had the command of language to express to you, how much good it did us to meet with you again, and the kind reception you all gave us. The good will manifested by all we met in a source of gratitude, and will be a sweet joyful

memory to us so long as we shall live. May God keep you all in the hollow of his hand in our prayer."

"Papa Dubbs and Wife."

LITTER PIGS PRODUCED 3,040 POUNDS OF PORK WITHIN 6 MONTHS TIME

How a ton and a half of pork was produced in six months from one litter at a cost of less than five cents per pound is told of the winner of a pure bred contest by what is known as the Hoosier Ton Litter Club held in Indiana recently. An official world's record was set so far as the rapidity of growth is concerned. The prize was taken by a pure bred Poland China sow and a litter of pigs farrowed on April 11. They were sired by a pure bred boar and weighed 3,040 pounds on the day of the test.

This sow has farrowed six litters, a total of sixty-seven pigs, of which she is credited with saving sixty-one. The record made above was not under a college experiment but was an achievement on a sure enough farm by a regular farmer. The record was made on a farm of corn and 340 pounds of milk. The sow was turned with the other fine sows of the herd, in a field, a part of which was corn stalks in which soy beans had been planted, and the remainder of the field was an old clover meadow. They were kept there until March 1, with an old hulled clover stack as their shelter. They "roughed it." She had no feed during this period except what she gleaned from the stalks, beans and clover meadow.

After March 1, she was fed three ears of corn daily and some skim milk. By April 11, the date of farrowing, she had consumed 115 pounds five cents per quart. The cost of corn was worth one cent per pound and the milk was valued at twenty-five cents per quart. The cost of corn and milk for the period amounted to \$1.15 and 85c, respectively, or a total of \$2.00.

The litter was farrowed in the open with only a straw roof for shelter, but the weather was mild enough for such housing to be adequate. The sow had the run of a one-third acre lot of sweet clover, and the pigs were kept there throughout the entire feeding period. The sow consumed thirty cars of corn and eight gallons of milk daily during the entire sixty-day suckling period, and the owner says that no scouring in the pigs was evident at any time.

When the litter was six weeks old they were started on skim milk and shelled corn, and by the time they were sixty days old they were on full feed and entirely weaned. They were allowed all the corn they would eat from a self feeder all the time. For four weeks of the time the corn was soaked in water, but the owner says he will never soak corn for hogs again as it is useless work. The skim milk was diluted about one-half and they were given all they would drink of it twice daily.

During the fourth and fifth months, the corn and milk were supplemented with two hundred pounds of middlings and three hundred pounds of ground wheat, both of which were mixed in the skim milk. Their forage consisted only of the one-third acre of sweet clover.

The total cost of the litter was \$143.33. They were sold for pork at nine cents a pound and brought \$273.60. The net gain was \$130.27. The cost of production was four and seven-tenths cents per pound.

Mrs. Geo. Taylor has returned from a visit with relatives in Panhandle. She was accompanied home by Mrs. B. D. Garmon who remained for a short visit.

TEXAS HIGHWAY PROGRAM IS EXTENSIVE FOR 1922

Texas has over 2,000 miles on state highways under construction according to the reports received by the U. S. Bureau of Public Roads. This includes 146 miles of concrete and brick pavements, 425 miles of bituminous pavements, 1,190 miles of gravel and macadam roads and the remainder sand-clay, shell and earth state roads. This large program is estimated to cost about \$28,700,000 which amounts \$13,300,000 is to be paid by the state and federal government, leaving about \$15,400,000 to be paid by the counties and road districts.

RYAN BROS.
REAL ESTATE INSURANCE AND LOANS
Phone 454 Clarendon, Texas

THE PRESENT OWNERS ACQUIRED THE CLARENDON LIGHT & POWER COMPANY ONE YEAR AGO, NOVEMBER 1ST.

The following is a brief list of the more important improvements to their properties in Texas undertaken during this year.

CORPUS CHRISTI:
Installation seven-hundred and fifty horse power steam turbine, condenser and cast iron water supply line to deep water in Corpus Christi Bay. Three-hundred horse power boiler, new switchboard, new fire proof building, rebuilt ice plant, transmission line between Kingsville and Corpus Christi.

BEEVILLE:
Ice plant rebuilt, water works put into efficient condition and metered—hundred and twenty-five horse power boiler installed—adjoining property purchased—plans for new fire proof power house completed—graver water softener installed.

YORKTOWN:
New fire proof power house under construction. Transmission line from Guadalupe River Power Station to Nordheim under construction. Raw water ice plant being installed.

GUADALUPE RIVER WATER POWER:
Dam and power house being rebuilt. Three new five hundred horse power water wheels and generators being installed.

CUERO:
Separate transmission lines from Guadalupe Power Station to Cuero under construction. Distribution system modernized by converting from two to three phase.

VICTORIA:
Transmission line to Guadalupe River Power Station being rebuilt with completely independent circuit to Dam without going through Cuero.

DEL RIO:
Water wheel rebuilt. Two-hundred and fifty horse power Snow Deisel Engine installed. New ice vault installed. New ice machine being installed. Ice plant being converted to raw water. Power house being entirely rebuilt fire proof, material ordered to rebuild entire electric distributing lines.

MATAMOROS:
Distributing system entirely rebuilt. Power plant overhauled.

CENTER:
Ice plant rebuilt, new ice machine ordered installed. Ice plant being converted to raw water. Two hundred and twenty-five horse power Deisel Engine being installed. New fire proof extension being built on power house. Transmission line under construction to Carthage.

KINGSVILLE:
Two hundred horse power additional boiler capacity being installed. DeLaVergne Deisel Engine entirely rebuilt. New customers ice delivery station built.

CARTHAGE:
Plant overhauled and placed in operation. Ice plant being converted to raw water. Electric distributing system being rebuilt.

CHILDRESS:
New five-hundred horse power Deisel Engine being installed. Ice plant being enlarged. Fire proof power house being constructed.

MEMPHIS:
Twenty ton ice plant completed. Stand-by electric unit being installed.

SAN BENITO:
New water works being installed. Electric distributing system completely rebuilt.

When present owners acquired these properties, they promised improvements would be made as rapidly as possible and I believe this list of improvements complete and under construction, amounting to a total cost in excess of five hundred thousand dollars (\$500,000.00), speaks for itself.

CLARENDON:
In Clarendon a number of little improvements have been made, lines have been extended, repaired, etc. But no extensive improvements have been made to date. The owners of the plant have told me that they were repairing the worst conditions first. But that no plant would be slighted, that all plants would be put in first class condition. They have never refused me anything I have asked for. Material has been ordered to put the present engines etc., in Clarendon in first class condition. When the work we have started is finished I feel safe in saying that we will have almost 100 per cent service, until more improvements are put in. A number of improvements are under consideration for Clarendon, which will cost several thousand dollars. The full details have not been worked out yet. I will be ready to announce these improvements within the next few months.

They have assured me improvements will continue until each community in which they operate are supplied with adequate and efficient plants and service.

May I urge your co-operation to that end?

(Continued from page 1)

BUFFALOES ARE LACERATED BY BULLDOGS

The second period opened with the visitors at the disadvantage of being dangerously near their own goal. This danger was not fully overcome until about the middle of the period when M. Goodwin recovered a blocked kick. From that instant through-out the remainder of the game the Bulldogs seemed to have been re-

vised and played as a different team. End runs and line smashes followed in quick succession until Canyon's two-yard line was reached. M. Goodwin was elected for the final effort and he put it across on a buck. A pass, O. Close to Hitchcock, counted the point after touchdown. The half ended with the ball in mid-field and the score: C. C. 7; W. T. S. N. C., 0. The third quarter saw the continuation of C. C.'s steady gains toward the enemy's goal and all was going nicely until R. Bivens got in

the way of one of the Bulldog's passes and then kept out of the way of the Bulldogs during an eighty-yard run to touchdown. This speedy half-back's broken field run after intercepting the pass was unquestionably the most sensational play of the game. The kick for goal failed. Clarendon's gains during the remainder of this quarter were more or less nullified by their penalties. Time and again the Bulldogs handed five yards to the Buffaloes by being off-side and once they were assessed a penalty of fifteen yards for clipping. The quarter ended with the ball in Canyon's possession on their own twenty-yard line.

The buffaloes opened the final frame with a series of passes in a desperate attempt to come from behind. Their failure in these tactics was not due so much to their faulty execution as to the splendid defense by the Bulldogs. The passes were thrown accurately but the C. C. second line men succeeded in making some impossible blocks. The Normal was forced to kick and, once in possession of the ball, C. C. resumed her march for goal. A twenty-yard run around the goal by G. Close helped some and when the ball was on the four-yard line Goodwin strolled across for a touchdown. A pass for point was marked by persistent but in effect passing by the Normal. The game ended with the score standing, Clarendon College 13, West Texas State Normal College, 6.

The line ups:
Clarendon Position Canyon
Collinsworth Sanders
Center
Bulls Right guard Santy
Ratloff Left guard Rayzor
Smith Right tackle Golden
Peoples Left tackle Johnson
Hitchcock Right end Mitchell
Lane Left end Henry
Bourland Quarterback Graves

M. Goodwin Stewart

Left half
O. Close (Capt.) Barson (Capt)
Substitutes: Thompson for Sanders, Jones for Santy, D. Bivins for Mitchell, Vaughn for Jones, Key for Henry, R. Bourland for Hitchcock, Collins for O. Close, O. Close for L. Bourland.
Officials: Referee, Parcels, Amarillo; Umpire, Cartright, Amarillo; Timekeeper, Shirley, Canyon; Head Linesman, Sawyer, Canyon.

THE COLLEGE PARENT-TEACHERS' ASSOCIATION

The Parent-Teachers' Association of Clarendon College met on Monday afternoon in the Domestic Science Hall. A larger attendance than usual was present, including several visiting ladies. The old business consisted of a report from the "curriculum committee" concerning the public dinner which is to take place on the evening of Dec. 14th. Under new business, the resolution was passed for each member of the club to bring a plate and cup to store in the shelves of the domestic science department for the use of the hostesses in serving at each meeting.

The program consisted of a smile-producing reading by Miss Margaret Campbell, and of a very interesting and instructive address by Dr. B. L. Jenkins. The subject assigned Dr. Jenkins was "Sanitation in Clarendon with reference to the health of school children." He spoke rather briefly on this subject, since in Clarendon the sanitation is of an unusually high order. He stated that the important factors of a hygienic condition are pure air, pure water, good drainage, universal sewerage, and a pure milk supply. As to water, air and drainage, no town in Texas has better facilities. He urged the need of a law compelling property owners to place sewerage in their dwellings. The milk proposition should be carefully guarded in every city, he said. The state laws require of anyone selling even a pint of milk a day: 1st. That every cow shall be inspected for tuberculosis once during each lactation period; and if disease is found, milk sale must stop; 2nd. that the stable must be screened from flies; 3rd, vessels must be used that are without seams, and must be sterilized by scalding with boiling

water, then sunned, and scalded the second time before using; and 4th. the milk must be cooled immediately after being milked, poured into a sterilized vessel, sealed, and kept cool, at a temperature below 50 degrees. The reason for such laws is that milk is teeming with germs that multiply rapidly into untold millions if not kept at a cool temperature.

Dr. Jenkins voiced his unwillingness to conclude his address without speaking upon a subject that has been before the American public for the past week—that of the dread disease, cancer. He felt that this was an opportunity not to be lost of placing facts before the mothers present. He gave some very startling statistics that cannot be gainsaid, as they came not only from government reports, but chiefly from the great insurance companies, whose business is to have thorough knowledge of cause of death. Statistics show that during the two years of war, while 80,000 American soldiers were killed or died of diseases in the army, more than 180,000 died in the United States of cancer. An alarming fact is that the mortality from this disease is increasing. One out of every eight women over forty years of age dies of cancer. Dr. Jenkins described in a scientific, yet simple manner, the growth of the cells of the various parts of the body. They grow and reproduce in an orderly manner. But when a group of cells, obstructed in their natural growth in a manner that is yet a mystery, begin to "grow wild," they become harmful, destroying other cells, eventually throwing poison into the glands, and ultimately into the blood. A cancer at first is local, and its fetal course can be completely stopped by surgery. The primary cause is still unknown, though continued observation seems to indicate irritation as a best known cause. Smokers often have cancer of the lip. A roughened tooth may cause cancer of the tongue. The disease is not hereditary or contagious nor is it a blood disease. It can be absolutely cured by the knife or cautery if taken in the early stages, and delay is terribly dangerous. Dr. Jenkins ended with one great, emphatic "Don't." Don't fall a victim to quack doctors and to quack advertisements. Death and untold suffering can be spared by

heeding the symptoms in the early stages, and by consulting the family physician.

During the social hour, refreshments were served by the hostesses, Mrs. Griswold and Mrs. Shawver. The next meeting will be held on the first Monday in December, with Mrs. Stegman, Miss Pirtle and Miss Dunn, as hostesses. Miss Mildred Wilson will

give a talk on Home Economics, Mary H. Howren, Reporter.

POSTED NOTICE

This is to notify the public that all of the J. A. pastures are posted and hunting, trapping or fishing is not permitted and all trespassers will be prosecuted.

FOUR STUDENTS "TRAMP"
TO CANYON FOR GAME

"To Canyon or Bust" was the slogan of four Clarendon College students who "had to" see the game with Canyon Normal Friday. Four of the Bulldogs' loyal rooters elected a fifth student as their valet who should carry their "Sunday-Go-to-Meeting" clothes to Canyon. The man with the clothes rode the cushions. The four boys braved the rough weather Thursday night and rode the rods. But they saw the game.

Quite a number of local fans saw the game Friday. Among those who went were: Geo. Bagby, Wilson Turner, Harvey Sykes, Jerome Stocking, R. E. White, W. R. Booker, Rev. Z. B. Pirtle and son, D. M. Boights, Misses Moena Lane and Mabel Claire Betts.

CAPT. NAT S. PERRINE
REPORTS FOR TRAINING

Friends in Clarendon have received a communication from Headquarters of the Infantry School and Fort Benning, Ga., advising that Captain Nat S. Perrine has reported for duty and is doing splendid work. Capt. Perrine was among the few National Guard and Reserve officers selected by the army officials to take this special training. The special work extends over a period of three months.

The course given these officers is an abbreviated edition of the same instruction which every Regular Army Infantry Officer is now required to take and its completion makes a far more efficient officer of any one, no matter how great has been his previous experience. It is an acknowledged fact that the graduates of the Infantry School are much sought after for duty with all of the three components of the Army of the United States, the National Guard, Organized Reserve and Regular Army.

Captain Perrine was formerly in command of the local company when stationed in Denison doing guard duty.

APPROXIMATELY 200 NAMES
ON GOOD ROADS PETITION

With but four of the petitions turned in and tabulated, the good roads committee is in possession of the signature of approximately 200 voters who have declared themselves in favor of voting a \$250,000 bond issue for the purpose of improving Donley county roads. These names are on the petitions circulated in Clarendon, Hedley, Giles and Lelia Lake. According to the law, but fifty names would be sufficient for a request that the commissioners court call the election. The matter will be taken up with the commissioners at their next session.

NEWS TO BE PRINTED
WEDNESDAY NEXT WEEK

The News force is planning to observe Thanksgiving and in order to take full advantage of Turkey Day, which includes watching the Bulldogs mangle those Buffaloes, it will be necessary for the paper to be printed on Wednesday. Our effort to put out this sheet a day early will be materially facilitated if the business men will arrange to have their ads in a day early. Also it is requested that

all news items be sent in in time for the Wednesday publication.

FORMERLY NO ROMANCE
WITH ENGAGEMENT RING

Romance was the last thing to be associated with the first engagement rings, among which were formidable and cumbersome affairs of iron. According to an ancient chronicle the engagement ring was originated as a "safety first" institution to hold fickle and forgetful man to his bargain from the time he made his first avowal of love until the wedding ceremony took place. An ancient document says this:

"There are many men who, forgetful of their plighted faith, defer the fulfillment of their nuptial contracts. Therefore there shall be a solemn declaration before witnesses and a betrothal ring given and accepted."

The wedding ring was adopted among the Anglo-Saxons about 860 A. D. During the generations since then it has been alternately highly elaborate and severely plain. The reason why English women wore them on their thumbs during the reign of George I was because they were too large to wear on any other finger.

The old Hebrew betrothal rings were almost as large as turnips, including their superstructure reproductions of Solomon's temple or some other sacred building.

It was during the second century B. C., that woman first began to flash an engagement ring on the fourth finger of her left hand as a symbol of her betrothal. She chose to display it on that particular finger, because of the fancy then prevalent that a special vein ran from that finger to the heart. Later on, when science scouted that theory other fingers became the fashion.

In Russia the ring was worn on the forefinger. French women wore it on the middle finger despite the old Hindu superstition that any one wearing a ring on this finger would have bad luck. During the seventeenth century England chose to have the engagement ring adorn the thumb.

Though authorities on the history of the ring deny that it originally signified that the man had paid a sum of money for his bride there is an old German formula which reads as follows:

"I give you this ring as a sign of the marriage which has been promised between us, provided your father gives with you a marriage portion of a thousand reichstalen."

At one time the engagement ring consisted of three hoops looped together into what was known as a gimmel a puzzle ring. When the wedding took place one of these hoops was kept by the bride, one given to the groom, and the third bestowed on an ultimate friend who acted as witness to the ceremony.—Exchange!

INSPECTION FOR LOCAL
GUARDSMEN NOVEMBER 27

Next Monday, November 27, is the date set for the general inspection of the local National Guard company, according to information received by Lt. Geo. Taylor from the state officials at Austin. This inspection has been scheduled for several dates heretofore but has been postponed from time to time on account of the fact that a great deal of the property was being held out. Lt. Taylor has succeeded in gathering up quite a bit of this stuff and believes the local contingent will be in position to pass muster next week. Anyone who still has government property in his possession is asked to turn it in as soon as possible.

The Standard of Comparison

A Buick Roadster Satisfies
The "Six," \$1165; The "Six-Sport," \$1625; The "Four," \$865

For those who want the intimacy of the roadster design, Buick provides a completely satisfying selection of models, in appearance as well as in price. Business men find the six-cylinder, two-passenger roadster well suited both to the work day trips and to social motoring.

Equally fine for these, and at the same time luxurious in its appointments and smart in its snappy lines and coloring is the six-cylinder sport-roadster—the de-luxe model of its kind.

While a modest, dependable and convenient car is the four-cylinder roadster. And all are Buicks with all that Buick provides in power, dependability and flawless performance.

The Buick Line for 1923 Comprises Fourteen Models:

Four—2 Pass. Roadster, \$865; 5 Pass. Touring, \$885; 3 Pass. Coupe, \$1175; 5 Pass. Sedan, \$1195; 5 Pass. Touring Sedan, \$1225; Six—2 Pass. Roadster, \$1175; 5 Pass. Touring, \$1195; 5 Pass. General Pershing Goes And Gets 'em

Gen. John J. Pershing would have been quite a boy in the front line trenches with a rifle—had he not been busy bossing our A. E. F. in France. Last week on the lower Mississippi he went duck hunting with Gov. Parker and Bernard Baruch, using a 10-gauge gun, dropping his first eight birds without a miss. Then he posed for this exclusive photo.

THE AMERICAN SPIRIT

JAMES CARDINAL GIBBONS

I claim that the American spirit is fundamentally a religious spirit. But, thank God, in this country, liberty of conscience is respected, and the civil constitution holds over us the aegis of her protection without meddling in ecclesiastical affairs. "America," to quote Mr. Roosevelt, "this happy country of ours, where religion and liberty are natural allies." And so far our basic Americanism, religion.

Next, civic liberty and privilege. We are happily living under a government of constitutional freedom. Our citizens enjoy the largest measure of freedom that is compatible with law and order. They are justly impatient of arbitrary coercion and chafe under an undue restraint that might be imposed on their personal independence. This individualism is a healthy stimulus to legitimate activity and honorable emulation in the various walks of public and private life.

Surely of all people on the face of the earth the American citizen should take special delight in submitting to the legislation imposed upon him and in being loyal to his country and its institutions.

The immigrant who comes to this land must remember that he owes a debt of gratitude to this land which opens wide its doors to him, and places within easy reach what is today the greatest of civil privileges: American citizenship! He leaves a land where, as yet, he is debarred directly or indirectly from many things that his heart desires. He comes into the New World, and in five years he walks a king among men, clothed with the panoply of free citizenship, with the privilege of suffrage, active and passive, eligible to every office but the highest, from which, however, his children are not debarred. The very magnificence of this political generosity makes many foreigners forget that it is a boast pure and simple to which they have no right, and which may be curtailed or denied as easily as it has been lavished.

On this blessed soil of freedom is the opportunity, not to be found elsewhere, to cultivate every civic virtue: interest in all public problems, conscientious study of public issues, the sense of union for the common weal, unprejudiced devotion to the growth of the states, incorruptible exercise of the sacred right of the ballot, which is the holy fountain of our political life and well-being, and to poison or trifle with which is to cut at the root of our state. These are

indeed the privileges of Americanism. Next among qualities peculiar to the American spirit, I would name the dignity and the rights that are accorded to the American laboring class. The primeval curse attached to labor has been obliterated by the toilsome life of Jesus Christ. He has shed a halo around the workshop.

De Tocqueville could not pay a more just or more beautiful tribute of praise to the genius of our country than when he wrote that every honest occupation in the United States was honorable. The honest, industrious man is honorable among us whether he works with his hands or his brains, because he is an indispensable factor in the nation's progress.

As an evidence of the esteem in which the thrifty son of toil is held among us, we see from daily observation that the humblest vocations of life are no bar whatever to the highest preferment in the commonwealth, when talent and ability are allied to patient industry. Franklin was a printer. President Lincoln's youthful days were spent in wielding the ax and in handling the plow on his father's farm. President Johnson in his boyhood was apprenticed to a tailor. Grant was the son of a tanner, and Garfield once drove a canal boat.

In honoring and upholding labor, the nation strengthens its own hands as well as pays a tribute to worth. For a contented and happy working class is the best safeguard of the republic.

There are other attributes of our Americanism which I shall not attempt to define in detail. The people, imbued with the true American spirit, are gifted with a high order of intelligence. They are self-poised and deliberate. They are of industrious and temperate habits. They are, frank, manly and ingenious. They have a deep sense of justice and fair play. They are brave and generous, and they usually have the courage of their convictions.

Let us glory in the title of American citizen! It matters not whether this is the land of our birth or the land of our adoption. It is the land of our destiny! Here we intend to live and here we hope to die.

My countrymen will forgive if I seem to yearn over this people, but I do so because I believe the American people to be precious in the sight of God and designed for a glorious future.

The Clarendon News' Americanization series

(Editor's Note—The articles appearing in the above space from week to week are taken from "Americanization" by Elewood Griscom, Jr. This excellent volume, which is a collection of articles upon the general theme of patriotism and good citizenship, is presented to the schools of Texas by the Bodies of Scottish Rite Masonry in Texas.

A LIMITED LAND OFFER

First payment Dec. 1923, balance in 10 annual installments. Price \$25 to \$40 per acre. Ask for our new booklet—H. M. Madison, Gen. F & I Agt., S. A. & A. P. Ry., San Antonio, Texas.

POSTAL ERRORS ARE EXPENSIVE

LETTERS MAILED WITHOUT STAMP DAILY OCCURRENCE AT LOCAL POSTOFFICE.

To mail a letter without stamping it seems a very foolish thing to do and yet that very thing is done daily in Clarendon, according to C. C. Powell, postmaster. The carelessness of the people in their attention to postal regulations is astounding, he said. Incomplete addresses and mis-addressed pieces are the common problems of postal authorities and the carelessness is no worse here than at other offices. The Federal Postal authorities employ about 300 people to correct, as nearly as possible, the errors of the public as can be seen from the following sermon by Dr. Frank Crane sent out by First Assistant Postmaster General John H. Bartlett: STOP THIS WASTE! 25,000,000 pieces of mail annually delayed or not delivered at all because they are incorrectly addressed or improperly packed.

The postal authorities call our attention to the fact that there are 25,000,000 pieces of mail that they must handle three to seven times oftener than they would have to handle them if they had been properly prepared.

And even after they have exhausted every means of identification and salvage they succeeded in delivering only slightly more than one-fifth of that amount.

And this does not include vast quantities of circulars and newspapers which are not properly addressed and which are destroying because they can not be delivered.

In Chicago there is one building that is used as a storage place for mail of obnoxious value and for mail of first class which can not be delivered. Twice a year the contents are auctioned off, because there is no way of finding the owners. In this building are bins of shoes, quantities of clothing, dress goods, automobile parts, and tires, sporting goods, suit cases—everything from a bird cage to a mouse trap. These are lost to both the one who sent them and the one who should receive them because somebody was careless in tying a knot, or used flimsy wrapping paper, or put on a defective address.

Nearly 300 employees are engaged in correcting the common, preventable errors of the people. The only reason the post office can stand this drain of carelessness upon its resources is that the people pay the bill.

There ought to be a general campaign of education with the object of impressing upon the people the importance of properly preparing and addressing anything they put into the mail box.

Another waste, caused by sheer thoughtlessness arises from the custom of many business houses holding their mail until the close of the business day when they rush it to the postoffice in a perfect deluge. All day, cancelling machines, distribution cases, and other facilities for handling mail lie practically idle and just after 5 p. m. they are taxed beyond their capacities. If people would simply change their mailing habits to the extent of depositing their mail even two hours earlier than they do at present, it would revolutionize the

Postal Service.

This article is written in the hope that many people will adopt the idea of paying better attention to their mail matter.

After all, the postoffice is the great public servant, and it behooves every citizen of the country to make that servant as efficient as possible.

Much of the criticism leveled at the post office is due to the carelessness of the general public.

AFTER VICKSBURG MONUMENT

A movement has been started looking to the erection of a memorial monument for Texas circle in the Vicksburg National Military Park and in honor of Texas soldiers engaged in the Vicksburg operation. A bronze heroic statue of a Texas officer engaged in these operations has been suggested. The promoters of the project will take the matter before the state legislature for an appropriation.

**HONEY
PHILOSOPHY**
for 1922

They tell about Jake goin' into the barn to light his lantern so he could go courtin'. The farmer next door kidded him: "I never used a lantern when I went courtin'," said the farmer, and Jake said: "No, of course not; an' look when you got." There's lots of Jakes out these days with their lanterns, when they ought to be out with their X-rays. What's the use of looking at when you can look in. Lantern marriages mean pretty faces and heads with no adornment but the hair. The only advantage of courtin' with a lantern is that you can blow it out, an' then—ah, happiness doesn't come from object to eye, but faith an' lasting love come from soul to soul, an' you don't need any lantern to see that.

POSTED NOTICE

Childress is up against a water shortage again and it begins to look like something will have to be done to tide the situation over until the completion of the Lake Childress dam. The sinking of a test well near the lake has been suggested.

The Childress County Farm Labor Union has withdrawn its opposition to the maintenance of a county agent and has decided to support the agricultural representative.

The Commercial Club of Wheeler has set the membership dues at \$1 a year, payable in advance. Any member can take out as many memberships as he desires but he will get but one vote.

A man who was hung in Frederick, Okla., the other day for murder carried a basin of water to the gallows and carefully washed his face and hands, saying that by so doing he would wash away his sins.

At a meeting of the city council of Canyon last week it was decided to employ a traffic cop.

Mrs. Edith Williams of Dallas will be the first woman legislator in Texas. She was elected to the Lower House of the Texas Legislature in the last general election.

A man near Lockney has realized \$175 from a small truck patch and this is in addition to what the family consumed and what was given away to the neighbors.

Brownfield has let the contract for the erection of a light plant and the city will be lighted by electricity in the future.

Ten years ago two sons left their mother in Fort Worth and went in search of work. The mother had never heard of either of them until the other day she received an insurance check from the Government on a policy carried by one of the sons who had been killed in service.

Several sections of pasture and fifteen tons of cotton seed cake were destroyed by a prairie fire near Texline last week.

An election will be held in Wichita county on the 21st of this month on a \$150,000 bond issue for the purpose of erecting a \$50,000 hospital at each Iowa Park, Electra and Burk Burnett.

Including last week Childress county had ginned a total of 11,598 bales of cotton this season. Wilbarger county had ginned 23,129 bales.

Geologists from the University of Texas have begun a survey of the Panhandle gas fields.

The Parent-Teachers Association of Electra purchased some reference books and presented them to the schools during National Book week, November 12-18.

The Huntleigh Hall dormitory at Canyon has been traded for an apple orchard near Roswell.

His pocket knife probably saved the life of a farmer near Temple last week. He was rushed and knocked down by a bull but drawing his knife he stabbed the enraged animal until it finally withdrew. The man sustained three broken ribs and internal injuries but will live.

The city council of Panhandle have taken up an extensive street improvement program.

A farmer near McLean has sold over \$100 worth of tomatoes from

**Heiress True to Boy
Sweetheart**

And after everything was said and done it happened just as it always does in the story book, and Delloira is going to marry Lester in the spring and be happy ever after. When Mrs. John G. Gates died she left the enormous Gates fortune of \$38,000,000 to Delloira Angell, who was just a sweet little girl in St. Charles, Ill. Delloira's father, R. F. Angell, was made administrator.

While Delloira was in school at St. Charles she had a sweetheart whose name was Lester Norris. Money or no money, Lester was wild about her, but Papa Angell said Delloira must have her chance. So he took her away and she saw many wonderful people, and several times it was said she had become engaged to some notable or other.

But Lester knew the girl behind the gold and Delloira knew and when she had met everybody and learned a lot about men she was certain she was right in the first place and there never could be anybody but Lester whose father is the village undertaker. Now Delloira is 20 and her engagement to Lester announced. Photo shows Miss Delloira and her fiance, Lester Norris, 21, budding artist.

one-sixth of an acre.

Stratford has recently completed a new high school building.

Plainview is working on water and sewer extensions.

The matter of obtaining a new depot for Canyon has been taken up with the Santa Fe officials.

Engineers are sounding Palo Duro Canyon near Amarillo for the purpose of finding a suitable location for a dam. The city is planning to build a large storage lake on the canyon.

While a boy was riding a bicycle down a hill near Marshall he ran into a number of wild ducks flying low. He reached out and caught one of them, tucked it under his arm and carried it home.

A man in Dallas recently had the unpleasant experience of falling in a vat of concentrated lye. His injuries are not expected to be fatal.

Sweetwater is soon to vote on an \$80,000 bond issue for the purpose of erecting a new ward school building and modernizing two others.

A contract has been let for the erection of a five-block smelter in Amarillo by the United States Zinc Company. The plant is expected to be in operation within the next eight months. About 300 men will be employed. Bids have been called for on constructing 200 homes.

**WEST TEXAS PRODUCTS
TO BE SHOWN IN S. P.
AGRICULTURAL EXHIBITS**

According to dispatches from the officials of the West Texas Chamber of Commerce at Stamford, superior agricultural products of West Texas will help to make up the portable exhibit of the Southern Pacific railway which will be carried through most of South, East and Central Texas, Louisiana and other states, to teach those sections the growing and culture of better agricultural products. The products from West Texas were contributed by the West Texas Chamber of Commerce from the All-West Texas exhibits at the Texas Cotton Palace at Waco this fall, which lacked only 1 per cent of being a perfect exhibit.

Thirty years ago the railroad or individual who attempted to take field products from the "wilderness of West Texas" to the longer settled regions, especially for the purpose of instructing in the producing of better products, would have been hooted and mocked in every South, Central and East Texas newspaper. But the remarkable progress which West Texas has made and evidenced in its annual agricultural exhibits at the leading fairs of the South and North has changed the hue of things remarkably until today those sections are willing to sit at the feet of the western Gamaliel and learn those things they had neglected.

Officials of the Southern Pacific railroad who visited the Texas Cotton Palace this fall were so impressed with the exhibit of the West Texas Chamber of Commerce that they suggested that these fine specimens of the field, the ranch and the mines be placed at their disposal in a campaign of instruction and advertising. The officials went so far as to request that the organization send its exhibit manager, B. M. Whitaker, along with the exhibit car to give instruction to the thousands expected to visit it at every station where stopped. The organizations granted the wishes of the railroad to a certain extent by permitting the use of some of the finest specimens. West Texas will get proper credit wherever the special car is taken. Organization officials believe that this taking "West Texas to the very homes of the people of Texas, Louisiana and other states" will be one of the best advertising mediums to draw immigration that has ever been used. Already the signs are that there is a genuine breakaway from many worn-out sections to West Texas. The effect of this exhibit is expected to accelerate this migration.

Mr. and Mrs. Clyde Gilbert, A. L. Cobb and daughters, Allie Mae and Bill, were shopping in Clarendon last week from Claude.

Mrs. Ruby McKee and babies, Leota and Bettie Joe, visited in Claude last week with her sister, Mrs. Emma Waggoner.

**RAILROADS ANNOUNCE ONE
AND HALF HOLIDAY FARES**

While Local Agent Wisdom has received no official communication on the matter and does not expect any definite information until about December 1, announcement from Dallas is to the effect that the Texas General Passenger Agents Association has agreed upon reduced holiday rates. The fare agreed upon, the report says, is one and a half for the round trip. The announcement was made by George D. Hunter of the Texas & Pacific.

The tickets will be placed on sale Dec. 21, 22 and 23 and 24 and will be good for return until Jan. 4, Mr. Hunter said. The basis for interstate rates has not been decided upon, he said. The basis for interstate rates last year was virtually the same as the Texas rates, but applied to a limited number of points outside of the State, and were not applicable for any long distances.

Summer tourists rates were gone into by the Texas association and it was decided that the same basis as applied last year would be adhered to this summer. Mr. Hunter said. This will mean that Galveston and other summer resorts in the State will enjoy a rate of one and one-fifth fare for the fifteen-day ticket,

COUNTY AGENT HAS STOCK SHOW RULES

County Agent G. W. Harris has received from A. L. Ward, extension swine husbandman of A. & M. College, a bulletin setting forth the proposed rules for the hog exposition at the Southwestern Exposition and Fat Stock Show to be held in Fort Worth in March, 1923. This communication contains a list of the prizes to be awarded at the Fat Stock Show and stipulates that this is exclusive of premiums to be given by the breed associations. The extension department is planning to make a feature of the boys' and girls' club specials at this show.

The bulletin also contains some of the rules to be observed. Hogs are to be in the pen not later than 9:00 a. m., March 10. Pens will be assigned in order of arrivals at the yards. Special premiums offered by outside parties will be paid directly by parties offering same and the association assumes no responsibilities concerning them. Certificates stating the breeding of barrows must be furnished to the superintendent of the show on the opening day, these to remain in his possession until after the exhibiting is over. Barrows under six months will make their base dates from September 1, 1922. Barrows under twelve months will make their base date from March 1, 1922. Mr. Harris requests all who contemplate taking entries to this show to see him for further information.

Arthur Martin is in Denver, Colo., where he expects to remain for some time for the benefit of his health. Miss Anna Moores spent the weekend with friends in Memphis.

MAY GET GASOLINE FROM PRICKLY PEAR

Washington, Nov. 22—The discovery of a new motor fuel made from the juice of the prickly pear in South Africa, as well as other experiments with gasoline substitutes, will not materially reduce the gasoline consumption there, according to Trade Commissioner Stevenson at Capetown. In a report to the Department of Commerce it is shown that the consumption there has amounted to 7,600,000 gallons during the last five years. The United States and the

Dutch East Indies are the only countries supplying gasoline in this market.

SUNNY VIEW

A. M. Lanham is improving after having suffered for 10 days with muscular rheumatism. Mr. and Mrs. Neal Bogard spent Sunday in the home of Hugh Brown. W. F. Tooley and family of Chillicothe are visiting in the home of the latter's parents, A. M. Lanham and Mrs. Willard Stark and daughter.

Mrs. Neal Bogard, also Mr. and Mrs. Dick Lanham of Goodnight and W. F. Tooley of Chillicothe visited with Mrs. A. M. Lanham Monday. Mmes. Finley, Lott and Whipple called on A. M. Lanham and family Tuesday.
