CLARENDON, DONLEY COUNTY, TEXAS, THURSDAY, OCT. 27, 1927.

Established in 1878 New Series Vol. 38 NO. 43

MRS. ELLIS WINS CHRYSLER SEDAN BY LARGE MAJORITY; HUNDREDS WATCH THE COUNT

MRS. CLYDE ATTEBERRY WINNER OF SECOND GRAND AWARDS, AND MISS BERTA MAE POOL IS WINNER OF THIRD AWARD; MARSHALL MORRIS FINISHES FOURTH; COMMISSION CHECKS WON BY MISS CLARK AND MISS SWINBURN; ALL SATISFIED.

Ending in a blaze of glory and unleashed excitement after having held the unwavering interest of all Donley and surrounding counties for a period of more than five weeks, the last chapter in The Clarendon News \$5,000 Opportunity Club was written last Saturday night with the presentation of the prizes to the fortunate winners.

The Chrysler "52" Sedan was won by Mrs. Penelope Ellis who, with the tremendous total of 24,414,022 credits, led her nearest competitor more than 18,000,000.

The proud Chrysler winner stepped into her car and drove it away, hers to keep forever by right of conquest.

Not within the history of newspaperdom in the Panhandle has a campaign attracted the enthusiastic and widespread interest that was shown in the race which ended Saturday night.

The campaign was conducted under the direction of the American Circulation Service Company of Dallas, Mr. V. Y. Scotfield, general manager, in charge, selected for the work only after a rigid and painstaking investigation of their long record of successful operation in newspaper campaigns in Texas and other nearby states.

Of course, it was inevitable that in a campaign of this kind there would be some losers. The club members understood that when they entered. Were it possible, we would gladly reward every club member with a Chrysler.

Yet to those who worked energetically in the campaign but failed to win the car, the News extends its genuine regrets. If the thanks of the newspaper can in a measure lessen the regret of the losers, it is theirs.

The number of credits turned in by the club members and their friends was fairly staggering and when the official judges met to undertake the tabulation of the totals, it would have been discouragingly laborous but for the keen interest even they felt in the outcome.

Judges' Statement

We, the undersigned, selected to serve as a committee of judges to make the official and final count of the total credits cast in the News Opportunity Club, called at the Clarendon News office shortly before 9 p. m., Saturday, October 22, and at the hour above named did seal the ballot box and declare the campaign closed.

After a count of all ballots and credits cast by each club member during the entire campaign, we find the final total of credits as follows and the herein mentioned club members win the award set forth below their respective names, by polling the number of credits set forth herewith opposite their names.

- MRS. PENELOPE ELLIS—24,414,022 Credits
Winner of Grand Capital Award
1928 Chrysler "52" Two-door Sedan—\$890.00
Purchased from White Motor Company.
MRS. CLYDE ATTEBERRY—5,896,808 Credits
Winner of \$175.00 Diamond Ring
Purchased from Goldston Bros.
MISS BERTA MAE POOL—3,979,873 Credits
Winner of \$75.00 Diamond Ring
Purchased from Stocking's Drug Store.
MARSHALL MORRIS—1,505,122 Credits
Winner of \$30.00 Wrist Watch
Purchased from Stocking's Drug Store.

The following Club Members qualified for cash commission checks in accordance with the rules and regulations published at the announcement:

Table with 3 columns: Club Member, Check, Credits. Includes MISS ELLA CLARK, MISS OLETA SWINBURN, G. L. BOYKIN, G. L. CUMMINGS, ROY L. CLAYTON.

BAND CONCERT SATURDAY EVE

LOWER KEARNEY STREET HAS BEEN DESIGNATED FOR SHORT CONCERT.

The Clarendon Municipal Band will have a concert Saturday evening of this week on the lower part of Kearney Street, according to advice from Director Lindsey, of the band.

The Clarendon Municipal Band will have a concert Saturday evening of this week on the lower part of Kearney Street, according to advice from Director Lindsey, of the band.

CLARENDON GIRL ELECTED TO OFFICES AT C. I. A.

Miss Manette Chase, daughter of Mr. and Mrs. A. L. Chase of this city, a junior in the College of Industrial Arts at Denton, has recently been elected president of Brackett Hall for the ensuing semester.

Miss Chase was also recently appointed a member of the permanent entertainment committee of the Alice Freeman Palmer Club. This club is a literary organization, requiring a C average of its members.

Another honor which has been accorded Miss Chase during the present academic year was her election as president of the C. I. A. Panhandle Club. This is the second consecutive year for a Clarendon girl to hold this office.

Mrs. John Warren attended the Dallas Fair last weekend.

BRONCHOS TIE MEMPHIS 0-0

CLARENDON LINE STILL TO BE CROSSED AT END OF BATTLE WITH CYCLONE.

Showing the typical Broncho fight, Clarendon High School played a 0 to 0 tie with the Memphis High School Friday afternoon. Carrying the ball deep into Memphis territory, time after time, and once advancing to the one-inch line, the boys refused to quit and constantly threatened the Memphis goal line.

The work of the entire eleven is to be commended, and particularly that of Captain Arnold, who led his team as a seasoned general and who several times broke loose for gains of thirty and forty yards. Crabtree at tackle played one of the greatest defensive games ever seen on a local gridiron.

As yet, the Broncho goal line is to be crossed. Showing a defense unscathed in these past years, the Clarendon team gives promise of going far in the conference race. The boys are determined to win the district title. They are spending their time this week on offensive play, in preparation for the strong Shamrock fishermen, who also are undefeated in the conference race. Clarendon people are urged to lend the Bronchos their support in the game of Friday, October 28.

W. T. C. C. PUBLICITY DIRECTOR VISITS HERE WEDNESDAY

E. H. Whitehead, publicity director of the West Texas Chamber of Commerce, was in Clarendon Wednesday of this week, looking after interests of the organization and conferring with Sam M. Braswell, who is chairman of the publicity committee of the organization.

Mr. Whitehead, himself a former schoolman, is greatly impressed with the possibilities of Clarendon Junior College and is preparing a story for "West Texas Today," the monthly magazine of the West Texas Chamber of Commerce, and for use in other state publications, dealing with the progress of our school and the future possibilities.

Mr. Whitehead's headquarters are in Fort Worth.

Mrs. Russell Clark of Canyon, a former resident of this city, is the guest of Mrs. Will Johnson this week. She arrived Tuesday.

GRAND JURY RETURNS 11 BILLS; ALL FELONIES

Eleven bills of indictment, all for felonies, were returned by the grand jury sitting in the first week of district court. Arrests have been made in only five cases, however; and these are as follows: Lizzie Thompson (colored), unlawful sale of intoxicating liquor; E. T. Tucker, burglary; Florence Phelps, burglary; A. G. Huffmaster, assault with intent to murder; M. D. Bum, unlawful sale of intoxicating liquor.

The jury for the second week of court was dismissed, and court was recessed until Monday, October 31, when the jury for the third week will be called. The criminal docket will be taken up at 9 o'clock. The jury for the third week of court was published in a previous issue of the News.

LIONS DISCUSS FAIR MATTERS

REPORT IS HEARD FROM COUNTY FAIR; PAMPA CLUB VISITORS PRESENT.

The old spirit of buoyancy was absent from the Lions Club Tuesday of this week, due to the fact that so many of the members were absent from their places when the meeting opened. A number were out of the city, but the funeral of one of Clarendon's citizens kept the major part of the club from attending.

The matter that took the greater part of the meeting was the possible discussion of a Fair Association in Donley County, with provision made for the purpose of holding a fair in the county each year, in quarters that would be applicable to uses other than that intended by the fair.

Lion Boykin stated that the Fair held some time past was a splendid one and showed that the farmers of the county were as vitally interested in the fair as are the men of the towns of the county. Lack of room prevented the showings being what they should have been at the fair the few days back, and prevented some of the most interesting features of the fair from being shown at all.

Lions Rathjen and Griswold spoke on the subject. Lion Rathjen stated that he thought that the organization could be perfected and that property should be purchased and that a fair be organized that would attract people as the old fair formerly did to the city. Lion Griswold suggested that the proposed Fair Association might be enabled to purchase the Boys' Dormitory for their purposes and that they could use the park for a race track and other needed purposes.

He stated that he felt certain that the Board of Trustees would be glad to listen to any proposal that would come from a prospective purchaser.

Lions Boykin and Kemp reported on the trip to Pampa last week and stated that they met with a splendid reception and that they were glad to see the Pampa visitors with the club at the meeting Tuesday of this week.

Lions Duncan, Carterton and Carlson of Pampa were the guests of the day and were well received by the Lions, although they were detained on the road and were later in arriving than they expected to be. Lion Duncan was the spokesman for the visitors and stated that he trusted that the clubs could do more visiting in the future than they had in the past. They were looking for pointers for their club they stated and thought that Clarendon might be able to show them a few things they wished to know.

Further in the luncheon, it was brought out that the people in Clarendon could be of great assistance in the matter of hard surfaced roads in this and Gray County. The visiting Lions stated that they were coming within a number of miles of Clarendon with the pavement and thought that they would be able to complete the work if some co-operation could be secured from Donley County.

The "Buddy Plan" of securing members was again applied to the Lions, each member receiving the name of some other to bring to the luncheons in the future. Slips containing the names were passed to those present and all were urged to do their best to see that their "Buddies" were present at the next meeting of the club.

Announcement was made of the football game Friday of this week and the Lions were asked to do all possible to make this game a success since it will probably be the hardest game of the year for the Broncho team from the High School. Just prior to the adjournment of the club, the application of Dr. J. G. Sherman was presented to the club and he was unanimously elected.

HIGH SCHOOL TO PLAY SHAMROCK

DISTRICT TITLE TO BE DECIDED IN BATTLE HERE FRIDAY AFTERNOON.

By competitive methods and by comparisons of the two teams, Clarendon now has an opportunity of being the champion of this district of the Interscholastic League of Texas. This was determined in the battle with the Memphis team last Friday when the final score was 6 to 0 when the whistle ended the game.

The freshmen, whom they meet Friday of this week is by far the hardest competition the boys have hit this year. This team has put many of the teams of the Panhandle in the shade and the Bronchos are on their toes as the game looms on the horizon.

This is probably the last game the boys will play on the local field for some time and the fans are urged to attend in a body and help the Bronchos win the championship of the district, and put themselves in line for a bi-district game as was played at Floydada last year.

Back the Bronchos.

CLARENDON LIONS VISIT PAMPA CLUB THURSDAY

On last Thursday, four of the members of the Clarendon Lions Club made the trip to Pampa to visit with the newly organized club in that city. Lions Porter, Kemp, Mulkey and Boykin made the trip and report that they were royally entertained in the luncheon at the Schneider Hotel in that city. Matters of importance were discussed and the Pampa Club asked that the Clarendon visitors make it a point to visit their club at other dates.

A number of them were asked to attend a luncheon at the Clarendon Club and it is thought that probably some of them will take advantage of the proffered offer in the immediate future.

BULLDOGS TRIM CAMERON AGGIES

CLYDE AND LORAN NAYLOR STAR IN 10 TO 0 VICTORY FOR JUNIOR COLLEGE.

The Clarendon Bulldogs ran true to form Friday and took the measure of the Cameron Aggies from Lawton, Oklahoma, by a score of 10 to 0. This was a hard fought game from start to finish, with little advantage on either side.

The teams battled evenly for three quarters, with neither team threatening to score. About the middle of the last quarter Clyde Naylor stood on the forty-three yard line from the side of the field and booted a perfect field goal, giving the Bulldogs three points. After that the Bulldogs fought all the harder and managed to keep the ball in the Aggie territory. Loran Naylor intercepted a Cameron pass late in the last quarter and ran thirty yards down the sideline for a touchdown. It was a spectacular play and aroused cheers from the sidelines.

Cameron tried hard with their forward passes after the score evened against them, but they completed very few, due to the splendid defense of the Bulldogs. For a long while it looked as though the game would end in a scoreless tie, but Clyde Naylor's toe spelled defeat for the Aggies. His long punts kept the Aggies away from the Bulldog goal all through the game.

Both teams and coaches are to be commended, as it was as clean and hard fought game as has been witnessed this season.

LIONS DIRECTORS TO MEET MONDAY EVENING NEXT WEEK

The directors of the Lions Club will meet Monday evening of next week in their usual monthly meeting. The place of meeting has been designated as Caraway's Restaurant, and the hour has been set for 6:30 p. m. All officers and members of the Board are asked to be in their places at the appointed time so the meeting can be concluded in time for other events of the same evening.

HOG CHOLERA OUTBREAK IS REPORTED GENERAL

The News has been informed that an outbreak of hog cholera is reported in the immediate vicinity of Clarendon. There have been some losses. And it is thought best that those with free pens have their animals vaccinated before the disease strikes their places. This is possibly the spreading of the outbreak that was had in the Panhandle section some weeks past.

INTERNATIONAL CHECKER CHAMP COMING NOVEMBER 21

An announcement that will be of vital interest to the checker players of Clarendon and Donley County and to the players of the Panhandle was handed the News the fore part of this week. This announcement states that J. B. Hanson, Pacific Coast checker champion and member of the international checker team, will be in Clarendon November 21. Mr. Hanson is well known to the checker players of the Panhandle and the United States. Mr. Hanson will play the Clarendon and Panhandle representatives simultaneously, and it is hoped that some of the Clarendon men can at least win one game from the champion. For further information, players should see E. M. Lindsey, one of the players of Clarendon.

Mrs. W. H. Patrick and Mrs. Kate E. Carrol were among the guests at the tea given Wednesday afternoon by the Woman's Auxiliary of St. Andrews Church, Amarillo.

MATT BENNETT BURIED TUESDAY

WELL KNOWN CITIZEN, SCHOOL TRUSTEE, SUCCUMBS AFTER ILLNESS OF TWO WEEKS.

Funeral services for Matt Bennett, well known citizen who died Sunday, October 23, were held at the family residence in West Clarendon at 10 o'clock Tuesday morning. A host of friends, including many from out of the city, attended the service, and the floral tribute was one of unusual size and great beauty.

The Reverend F. T. Charlton, pastor of the Presbyterian Church, was in charge of the last rites, which were conducted in accordance with a wish recently expressed by the deceased. The Reverend J. T. Griswold assisted in the service. The hymns, "Asleep in Jesus" and "Beautiful Isle of Somewhere," were sung by a double quartet. Mrs. Gypsy Sullivan, Wylie of Abilene, a niece of the late Mr. Bennett, sang "The Old Rugged Cross." Members of the Board of Trustees of the Public School acted as pallbearers, while former members were named as honorary pallbearers.

Mr. Bennett had lived in Clarendon eight or nine years, having moved here in order that his children might enjoy the educational advantages which the town offered. He was elected a member of the Board of Trustees of the Public School shortly after coming here to make his home, and had been a member continuously since that time. He had served on the school board in every community in which he had lived, and at the time of his death was serving his fortieth year as a trustee. He was president of the local Chamber of Commerce at one time. For the first few years after moving to this city, Mr. Bennett was in business as a merchant. He retired, however, several years ago. Wherever he has lived, Mr. Bennett has been highly esteemed. He was well known throughout Donley County and was respected by the entire citizenship. He was also very popular in Goodnight, where the family lived several years.

Matt Bennett was born in Corinth, Mississippi, January 7, 1864. He had lived in Texas since he was 16 years old. He became a member of the Presbyterian Church in his early boyhood. He and Miss Margaret Lee Perkins were married on December 28, 1887. To them were born seven daughters and one son. Mr. Bennett had been in failing health three years, but became acutely ill about two weeks ago.

Surviving Mr. Bennett are his wife; six daughters, Mrs. De Vic Brooks of Fort Worth, Mrs. J. E. Younger of San Marcos, Mrs. J. W. Johnson of Clovis, New Mexico, Mrs. R. G. Hughes of White Deer, Mrs. P. L. Chamberlain and Miss Mae Bennett of this city, and one son, Herman Bennett of Clarendon. The eldest daughter, Mrs. Cleo Saxton, died at her home in Norman, Oklahoma, a little less than a year ago.

STATE TELEPHONE COMPANY ASKS FOR CO-OPERATION

In this issue of the News will be found the first of a series of advertisements of the State Telephone Company, present owners of the Clarendon exchange. The first advertisement asks that trouble be reported to the office through the regular channels rather than by the haphazard manner of writing to see the lineman on the street. Other ads will probably carry items of interest along other phases of the service that the company is attempting to give in Clarendon and other towns of the Panhandle where they are operating.

COLTS DEFEAT JUNIOR HIGH OF AMARILLO, 12-0

The Colts of Clarendon Junior High School defeated Amarillo Junior High for the second time this season, when the teams clashed on the Amarillo field Friday afternoon. The Amarillo team was an entirely different one and at least twenty-five per cent better than the one which played here a few weeks ago, but it was unable to check the surprisingly good offensive game of the Colts, who took the winner's end of the 12 to 0 score.

The Clarendon youngsters simply played above their heads, spectators say. They completed six of the seven forward passes they attempted, while Amarillo completed only four of the seventeen they attempted. The entire team played a good offensive game and an equally good defensive game. Johnny Tucker made two touchdowns, intercepting a pass and running forty-five yards for the first. In the fourth quarter he carried the ball across the goal. The ends were especially good at defense, although they showed themselves very capable on the offensive.

Thirty-two local fans, including the Junior High pep squad, accompanied the team to Amarillo and gave their support at the game. Coach Carter says this show of interest and loyalty excited much comment in Amarillo. The game, he says, was played cleanly and fairly by both teams.

Miss Beulah Baird of Amarillo is visiting her mother, Mrs. J. B. Baird.

BUILDING PROGRAM GROWING

CHANGES TAKING SHAPE RAPIDLY ON BUILDING PROGRAM OF CITY.

The fall building program of the city of Clarendon is rapidly taking shape as the workmen attend to their duties as the days pass. There are some other changes that will be made in the city within the next few weeks as the program gets better under way.

The Moss building is holding the attention of the city at the present time, and is rapidly nearing the stage when the tenants can take their respective places in the building.

On the side of the city near the light plant, there are two structures being put up. One of these is the plant of the West Texas Utilities Company and the other is the house for the pumping plant of the city. Both of these buildings are taking shape rapidly and will be completed within the next few weeks. All material is on the ground for both structures and they will prove to be two of the prettiest buildings in the city when they are completed.

In the residence section there are a number of changes and alterations that are being made. The old residence on the block just back of the ice plant is nearing a stage where it will be among the most complete houses of the city. The house was completely torn away to the foundation and will be completely reconstructed.

Directly across the street from this residence, the old home of A. M. Beville is undergoing quite a bit of rebuilding, especially in the back of the house. This house was completely refinished a short time past. The home of Mrs. W. A. Sokelle in the western part of the city is taking on a finished appearance. The basement is completed and the other parts of the structure are to be started in the immediate future.

Again in the business section of the city, work is to be started on the Second Street bridge in the immediate future. Sand and gravel in huge quantities are being placed and the other materials will be placed as soon as it is needed.

A-T TO DRILL BY SATURDAY

SETTING OF CASING TO BE COMPLETED AND ACTUAL WORK STARTED THIS WEEK

Advices from the management of the A-T well near Goldston would indicate that they are progressing nicely toward an early start to a completed well. The work of running the casing was started Wednesday morning and should be completed in time to allow for drilling operations to be started by the latter part of this week.

It will be remembered that the well has been shut down for a long period, during which time the ownership has been changed to some extent and a reorganization has been completed. The well was in a granite wash formation at last account with better showings than had been seen before this time.

Progress on the well will be watched with more than passing interest since so many wells have been brought in in Gray County, with the trend pointing to Donley County. The backers state that they should reach production within a short time.

NOTICE—Any erroneous reflections upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will be gladly corrected upon its being brought to the attention of the publisher.

Clarendon merchants report increased business from week-end to week-end. Clarendon's reputation as a trading center is gaining every day.

Our Home Town Edition for 1927 will appear Thursday, December 15. The success of this annual edition of The News has been so marked for a number of years that it is now watched with interest every December over the Panhandle as well as in Clarendon. It is a matter of pride with The News workers to see that each year's effort eclipses the product of the year before, so already we are laying our plans for "the biggest and best, yet."

Now Wheeler County proposes to build one hundred and fifty miles of paved and surfaced highways, falling in line with other Panhandle counties in the onward march of progress as represented by facilitating easy transportation and in spite of weather conditions. The added number of paving projects among our neighbor counties during the past fifteen months is most gratifying, and points us again to our opportunity along the same line. It is said that we now have a splendid chance to get our highway designation settled to the satisfaction of our citizenship in the east end of the county. If that can be effected, it would appear that in the next ninety days would be a very opportune time to present a paving project to the voters of Donley County. What a splendid way to start the New Year!

Elsewhere in this issue of The News will be found a page advertisement from the West Texas Utilities Company, our own local power and light dispensers. Only recently the West Texas Utilities Company has acquired the Clarendon plant along with a number of others in this section of Texas, from the Central Power and Light Company, a kindred concern with headquarters at San Antonio. While our local management will likely remain the same and the general policies of the West Texas Utilities Company are identical with those of its predecessor, yet there is something appealing in the name. This writer is very patriotic where Texas is concerned, but there is something just a little nearer and dearer about the sectional term, "West Texas." The News is happy to have Clarendon one of the hundred towns and cities in West Texas united under the general progressive policies of the West Texas Utilities Company.

The News management would like to be one of a hundred or more Donley County citizens or concerns to form an association and make an investment in a permanent Donley County Fair. We have seen what may be accomplished in our county from an agricultural and allied industries standpoint, and there is a general feeling that the only way to assure a permanent annual fair for our county is through a fair association and by the investment of funds sufficient to provide a suitable beginning insofar as buildings and equipment are concerned. Clarendon offers two or more propositions, either of which might be utilized in a satisfactory way and while this writer has a preference, yet we should like to follow the majority view of all those who will interest themselves in the formation of a permanent fair association. There is no immediate necessity for hurry, but experience of other fairs would lead us to the belief that some time this fall a county-wide meeting should be held looking to the perfecting of an organization. Let us unite for the benefits that will accrue to Donley County through a county fair.

A SUCCESSFUL CIRCULATION CAMPAIGN

Last Saturday night at nine o'clock marked the close of the Opportunity Club circulation campaign for the Clarendon News, which has been in progress for five and a half weeks under the direction of Mr. V. Y. Scofield of the American Circulation Service with headquarters at Dallas. In spite of the fact that very little cotton or feed has yet been sold in the county, The News management is happy to announce that the campaign was one of the most successful we have ever known. Not that it produced as much revenue as we would like to have received, but that it did what we wanted it to do, viz: gave The News circulation coverage in all parts of Donley County and in the trade territory immediately adjoining.

We sincerely believe that no newspaper ever had more honorable or conscientious campaigners than the ladies and young gentleman who labored so vigorously for the five and a half weeks. They employed real salesmanship in their sales talk and sold The News on its merits as a county publication, as we desired. They were always courteous and respectful of the personal privilege of those whom they solicited and we have heard no word of complaint from the public, but only words of praise for the persistence and determination of the workers.

The success of this campaign in the face of untoward endings in two campaigns of different plans in other not-far-away counties is a mute testimony to the American Circulation Service plan, the integrity of the workers, and we may add with pardonable pride, the well known standing of The News as one of the substantial business concerns of Donley County.

Near a thousand new readers have been added to our mailing list, and The News now enjoys the greatest circulation that it has ever known in its near forty years' existence. For many years The News has enjoyed the largest circulation of any weekly newspaper in the Panhandle, among the largest in Texas, and the augmented list means that that supremacy will continue.

Out here in the West where new people are constantly coming in it is certain that in every five years our counties have added a large percent of new residents who, by reason of their short term of residence, have little personal interest in the doings of their neighbors as chronicled by the county paper. It costs the newspaper a lot of money to reach these people, get them on the list for a year and create in their homes a demand for its weekly reading. This is the real reason for a campaign as we have just closed with its costly prizes and a high priced campaign manager. This happy end we have accomplished and we do not regret the cost any more than any other business concern regrets the heavy cost of an advertising campaign that brings the desired results.

The News presents to its readers, new and old, an improved and dependable news service for this county, and an editorial policy looking always to the upbuilding and progress of every phase of life in Donley County. To our advertisers we submit the greatest advertising opportunity ever offered by a Texas weekly paper, something that Clarendon merchants are not slow to utilize, even as the greatest concerns in the nation are doing. This game of giving better and increased service is dear to the hearts of The News staff, and no one begrudges us the modest income we gain while playing the game.

In conclusion we desire to publicly thank the workers in the campaign for their splendid efforts, and while we are sorry that only one could win the capital prize, yet such is competition, and we honor you, one and all, for the honest-to-goodness, American sportsmanship displayed when the judges counted the credits and announced the respective winners.

Satisfied Optical Patients

Eyeglass fitting is an art that requires considerable skill and above all things a scientific understanding and knowledge of optical survey.

Twenty-eight citizens of Clarendon and Donley County had their vision greatly improved during October by having glasses fitted by H. B. Spiller, graduate optometrist.

H. B. Spiller has opened a permanent optical parlor in this city. Only the most up-to-date methods of vision survey are employed and every pair of glasses are guaranteed under a money-back guarantee.

A leading business man of Clarendon says: "Glasses fitted to my eyes by H. B. Spiller have brought the greatest comfort to my vision. They are highly satisfactory."

A student testifies: "Study and concentration are easy now since I had my eyes tested and fitted with glasses by Hollis Spiller. Eye-strain has been completely relieved."

"I thread my needle with perfect accuracy and ease since having my eyes fitted with specially ground glasses by H. B. Spiller at Stocking's Drug Store. It is such a comfort to see things clearly. I cheerfully recommend the services of Mr. Spiller to anyone suffering from eye-strain." Such is the testimony of a Clarendon lady.

Hundreds of similar testimonials might be produced by those having their eyes examined by Mr. Spiller.

A better and more convincing test is to have your eyes examined free and fitted with glasses under a money-back guarantee.

FINK RETURNS FROM TRIP TO NORTH CENTRAL STATES

O. L. Fink returned home Monday from a three weeks business and pleasure trip to Iowa, Wisconsin, and Nebraska. He made the return trip by automobile and was accompanied by his niece, Miss Beryl Johnson of Laurel, Nebraska. Miss Johnson has a position as a nurse in a large hospital in Phoenix, Arizona, and will continue to that place after a visit here.

Mr. Fink attended to business interests in Iowa and visited relatives in the three states. He reports that crops of that section of the country are exceptionally good. Financial conditions, however, are very bad, he says, and many banks have been closed.

LOCAL CHAPTER REPRESENTED AT GRAND CHAPTER O. E. S.

The Clarendon Chapter of the Order of the Eastern Star was represented at Grand Chapter, which opened in Mineral Wells on October 25, by Mrs. G. B. Bagby, Worthy Matron and official delegate from the Chapter; Mrs. Mollie Gray, Past Worthy Matron, and Mrs. E. W. Bromley. They left this city Sunday, making the trip by automobile.

Nyal two for one sale beginning November 3. Three days big value bargains. Stocking's Drug Store.

The County Fair

Has ended and now you may turn your attention to the many items that need pairing around the farm and home before cooler weather sets in for the winter. There is a fence that needs attention and probably some out-building that needs a new roof. The chicken house will need some repairs for the winter to make the flock produce all through the cooler days and many other items that have escaped attention during the summer.

Let us show you our materials and tell you of the prices we have to make you on all our stock. You would be surprised at the low cost of many of the improvements you would like to make.

WE WILL BE PLEASED TO TELL YOU

TO THE PUBLIC An Introduction

The West Texas Utilities Company, with general offices at Abilene, Texas, has acquired operating control of the electric light, power and ice properties formerly operated by Central Power and Light Company in the counties of Donley, Collingsworth, Hall and Childress, and has taken over the duties and responsibilities incident to the administration of these public services.

As a new citizen entering into the community life of the towns and cities included in this territory, with important public service functions to perform, the company wishes to take this opportunity of greeting this citizenship and to assure its customers that the high standards of service rendered by the former management will continue to prevail.

The West Texas Utilities Company is proud of the fact that it is now rated as one of the foremost public service organizations of the Southwest. It is proud of the remarkable growth and extension of its operations during the last five years in West Texas, a growth that has carried it from a small public utility serving eight towns to one which now serves a hundred towns and cities and numbers over forty-five thousand customers. It is prouder still of the friendship, the confidence and the good will that has been manifested toward it by the citizenship of those towns and cities. And it earnestly hopes that through the same kind of honest and efficient service in this new territory that the same spirit of co-operation will prevail here.

No Effort Will Be Spared In Giving To These Cities The Highest Type Of Service

That sound financing and efficient engineering can provide, and it is neither exaggerating nor boasting when we state that we believe this service will always be on a par with that to be found anywhere in the world.

The West Texas Utilities Company, with its highly perfected electric transmission system and its great reserves of power is geographically better situated to serve this section than any other power company now operating in the Southwest. Under the modern system of mass production which demands such highly perfected systems as this in order that any section may keep abreast of the times and meet sectional competition, this territory logically falls within an area which should, according to economical principles, be served by the West Texas Utilities system. And this is the reason for the charter changes which have been made in order to permit the consolidation of this territory with the West Texas Utilities Company.

Few, if any, changes are contemplated at this time in the operating personnel of the properties at any of the cities concerned. The men and women who have served you in the past will continue to serve, under direction of the policies which control the operation of the West Texas Utilities Company; policies which have as their foundation

Always Fair Dealing, Consideration, Courtesy and Efficiency

It is such policies as these that have gained and we hope have merited the respect and friendship in the other communities which we serve, and it is in such a spirit of friendliness and determination to do its part in every worth-while undertaking for the advancement of these cities that this company has entered upon its duties as a public servant among you.

WEST TEXAS UTILITIES CO.

Columbia Records

We have recently taken the agency for these records and for the machines that are made under the same name. Drop into our place of business and look over our stock of records and machines. Other musical instruments are here in abundance, too.

WORK

In a recent popular weekly was an advertisement for cooking stoves.

It used to be that a cook stove was sold on its cooking qualities. They used to tell how more delicious and brown was bread baked in a "Burnmore" or "Hades Baker" or something of that effect.

But not so today, human nature and human desires have changed, and the man who writes the advertising knows it. In this particular advertisement the eye was caught by an extremely active young woman playing tennis after the fashion of Helen Wills. The eye traveled to the headline, "Photograph of a woman cooking with the gas turned off," or something like that. The appeal of course was that this stove allowed more time for play, and that cooking with this stove a woman had energy left for doing other things. Economy was secondary. Its cooking abilities were scarcely mentioned.

Today we came across the statement of the employment man for a steamship company. It represents his experience with young men, young college men. So the tale goes, two of this breed set out to work their way to Europe. They had heard that a big steamship company employed many college men in the summer for various humble jobs. But when they applied the employment man said: "No, we had to quit hiring college boys. An occasional one will work, but most of them have learned to shirk. We prefer young men for these jobs who have had to work all their lives and formed the habit of delivering an honest day's labor."

That is a serious indictment against the college boy, and whether or not this irresponsibility is justly applied to the college youth, it represents the opinion of more than one business executive hiring and firing labor. Why? Is the home training and the college educational system at fault? It is a problem too large to be settled here; we have but to view the facts.

That advertisement about the stove was calculated to appeal to America's young women. Do not both show a trend of feeling among our young people—at least the opinion of the older generation of the younger, which is almost as bad—do not both imply the desire of both young men and women to avoid work, to shirk their duties and attain without the due process of labor all the luxuries and freedom of wealth?

Young men seeking "white collar jobs" undoubtedly have caused the white collar job to pay below the average of semi-skilled labor. And the attitude of our young women to begin life where their parents left off rather than to start afresh and amass, and attain for themselves, has caused no little unrest and dissatisfaction.

Our higher educational system is somewhat at fault, although this cannot be the only cause of trouble with our young people. But the fact that so many complete colleges without the faintest idea of what they are to do, without choosing some objective early in the game, something to shoot at, undoubtedly leaves our youth with high taste and appreciation, but without proper mental equipment to achieve them.

The old axiom, "It's an ill wind—" yet has its bright side; it applies to this age as it has to all throughout life. For with the trend being toward less work and more leisure, the young man or woman who has the burning desire for greatness, they who want to work, have by contrast and the scarcity of their breed a far greater opportunity. By the shirking of others is their opportunity increased, and are they more likely to achieve the success they desire.

Let the young man or woman who finds work, as did Elbert Hubbard, "a blessed privilege" take note and here rekindle their desire and renew their energies, knowing that work will accomplish more than all talents, learning and abilities that are not used.—William J. Wyatt.

OAKLAND-PONTIAC CARS BRING MILE COST TO LOW FIGURE

A remarkable cross-section of automobile operating costs throughout America is revealed in the motor travel expense of 200 field representatives of the Oakland Motor Car Company who drove 3,466,232 miles during the company's recently completed fiscal year at an average cost of \$0.398 per mile.

Since the Oakland and Pontiac sixes which the field representatives use in their travels are factory-owned cars covered by blanket insurance, the factors of depreciation and insurance do not appear in the costs compiled by the company's statistical department. The average figure of \$0.398 per mile represents only the actual cost of maintaining and operating the cars. Of the 200 cars used, 130 were Pontiac Sixes and 70 were Oaklands.

Here is the cost per mile "broken down" into its various components:

Gasoline	\$.0150
Maintenance labor	.0072
Storage and parking	.0069
Washing	.0036
Oil	.0033
Parts	.0028
Tires and tire repairs	.0010

Total.....\$0.398

The field representatives, driving a distance equal to more than 134 times around the world over all types of American roads and through all extremes of American climate and weather, are believed to have eliminated the variants which would affect mileage costs compiled in any one state or region.

For instance, the average cost in the New York district where both traffic delays and winter storage expense are encountered is \$0.540 per mile, the highest figure in any of the 2 districts. In the Charlotte, N. C., district, where neither of these factors is present, the average cost was only \$0.270 per mile. In the mild climate of Charlotte district the total parking and storage cost for a year's mileage of 175,000 was only \$258.85 or an average of \$0.0147 per mile against the grand average of \$0.069.

An interesting fact shown by the figures is that gasoline represents about 37 per cent of the operating cost, while tires and tire repairs constitute only between two and three per cent.

INMATES OF COUNTY JAIL ESCAPE BY UNKNOWN MEANS

Two inmates of the Donley County jail escaped on the night of the eleventh, leaving a hole through the ceiling and the roof of the surrounding. Officers are unable to learn how they picked the lock on the cell. The screws of the lock were removed, and how the men accomplished this is unknown. One of the men, Clyde Lafon, is still at large; while the other, E. T. Tucker, has been returned to the jail, following his arrest in Amarillo, Sunday. Both were held on a burglary charge.

Dairy cows being fattened for slaughter should be handled and fed in much the same manner as beef animals. Cows giving milk should be dried up. The best ration to feed would depend upon the condition of the cows and the feeds available. Corn is one of the best fattening feeds, and if fed with a legume hay or some concentrate rich in protein such as cottonseed meal or linseed oil meal, dry dairy cows should fatten.

Let the young man or woman who finds work, as did Elbert Hubbard, "a blessed privilege" take note and here rekindle their desire and renew their energies, knowing that work will accomplish more than all talents, learning and abilities that are not used.—William J. Wyatt.

DEMONSTRATIONS ON MUSIC METHODS PROVE INTERESTING

A series of demonstrations on methods which were given here the latter part of last week by Mr. and Mrs. B. R. Young and Miss Ruby Huffman of St. Louis, working in connection with the local branch of the Amarillo College of Music, were attended by a large number of music students, parents, and teachers. A demonstration was given Thursday afternoon for children and young pupils, showing the methods used in Progressive Music Series. A similar demonstration was held at the Methodist Church in the evening, with the parents in attendance. Mrs. Charles Dean, head of the local branch of the Amarillo College of Music, says she is greatly pleased with the results of the demonstrations.

AN ORDINANCE

REWRITING SECTION FOUR, AMENDING SECTION SEVEN, REWRITING SECTION TWENTY, REWRITING SECTION TWENTY-TWO AND REWRITING SECTION TWENTY-THREE OF AN ORDINANCE ENTITLED "AN ORDINANCE FIXING AND REGULATING THE USE OF SEWERS BY PRIVATE INDIVIDUALS AND CORPORATIONS IN THE CITY OF CLARENDON, TEXAS," PASSED ON THE FOURTH DAY OF APRIL, A. D. 1919, AND DECLARING NULL AND VOID THE OLD SECTION FOUR AND THAT PART OF SECTION SEVEN THAT WILL CONFLICT WITH SECTION SEVEN AS NOW WRITTEN AND DECLARING NULL AND VOID SECTION TWENTY, TWENTY-TWO AND SECTION TWENTY-THREE OF SAID ORDINANCE, BE IT ORDAINED by the City Commission of the City of Clarendon, Donley County, Texas:

That Section 4 of Ordinance No. 250, entitled "An Ordinance fixing and regulating the use of Sewers by private individuals and corporations in the City of Clarendon, Texas," passed April 4, 1919, be rewritten to read as follows, to-wit:

A person, firm or corporation desiring to do business as a plumber in connection with the Sanitary Sewerage System of Clarendon, Texas, shall file in the office of the City Secretary a petition giving the name of the individual or firm and the place of business, and asking to be licensed as a plumber. Said petition must be signed by the applicant and shall state that he is a master of his trade and will be governed in all respects by the rules and regulations which are, or may be, adopted by this city. Each applicant for a license shall execute and deposit in the office of the City Secretary a bond in the sum of \$100.00, conditioned that he will indemnify and save harmless the City of Clarendon from all accidents and damages caused by neglect in protecting his work, or by any unlawful interference or in any way to violate the provisions of his license, and that he will also replace and repair any work done by him which may be found to be defective or in violation of any of these rules or regulations. On receiving his license he shall immediately notify the City Secretary of any change in either thereafter. No license will be granted for more than one year, and the fee of \$50.00 shall be paid by said applicant to the City of Clarendon said fee shall be for each year thereafter that said applicant shall apply for a renewal thereof. The fee shall be in addition to the city of the sum of \$10.00 per year or any fractional part thereof.

That that part of Section 4 in the original ordinance hereinabove referred to in conflict with Section 4 as hereinabove rewritten be null and void and of no further force or effect.

SECTION 7. Inspection.

The City Inspector is to be given notice when work is to be done, and all work must be left uncovered for examination until inspected and approved, and for each day that work is done the plumber shall apply either ether, poppermint, water or smoke test, in the presence of the City Inspector, and if the work is not approved or repair or remove any defective material or labor when so ordered by the City Inspector.

And that old Section 7 as written in the original ordinance hereinabove mentioned and declare null and void and of no further force or effect, where the same is in conflict with Section 7 as hereinabove written.

And that Section Twenty (20) of the above described ordinance be rewritten as follows, to-wit:

SECTION 20. Joints.

All joints in soil and waste pipes, must be so filled with oakum and motten lead and water tight. All connections of lead pipes with cast iron pipes must be made with a white lead joint. The pipe must be attached to the ferrule by a wiped joint. All connections of lead, waste and vent pipes shall be made by means of wiped joints.

And that old Section 20 as written in the original ordinance be declared null and void and of no further force or effect, where in conflict with Section 20 as hereinabove written.

And that Section 22 hereinabove described be rewritten so as to read as follows, to-wit:

SECTION 22. Stacks.

At least one clean-out plug, preferably a Y-branch with a one-eighth bend and clean-out plug of the same size, shall be placed under concrete or inaccessible places must have a clean-out plug where required by this ordinance.

One lavatory waste and one sink waste may be run into main stack, connecting to the stack in the usual manner and from opposite sides of stack, provided there are no fixtures above and the distance is not greater than thirty-six inches. Waste lines must be attached to the center of the waste to the center of the stack and the springer (waste line) has a fall not to exceed one-half inch per foot. Waste lines may be attached to stack by means of tapped tee or cross, by brass male solder nipple provided nipple is one size larger than waste line, so that lead may be inserted and run the length of the nipple. Dayton vents may be used on lavatory and sink waste lines.

And that old Section 22 in the original ordinance be declared null and void and of no further force or effect, where in conflict with Section 22 hereinabove written.

And that old Section 23 as written in the original ordinance described above be rewritten so as to read as follows, to-wit:

SECTION 23. Traps.

Every water closet, urinal, sink, wash tray, bath tub and every tub or set of tubs must be separately and effectually trapped. All bath tubs must be trapped with a four by eight inch drum trap. In case of floor line, inlet and outlet must be at bottom of trap and outlet must be brought up so that four inches of water will stand in trap. Inlet may be of 1 1/4 inch lead and outlet must be of 1 1/2 inch lead. A vent will not be required where it is not more than five feet from the center of the waste to the toilet ferrule or waste line, provided the fall is not greater than 18 inches or other fixtures are above which use the main stack for a waste line.

Traps must be placed as near fixtures as practicable. In no case shall water from the bath tub or other fixtures be connected with the water closet trap. Where vent is required on drum trap, it must be taken off

THREE CLARENDON MEN HI-JACKED FRIDAY NIGHT

Three white men were hi-jacked and badly beaten Friday night, and a negro man and woman claim to have been robbed. Three Amarillo men were arrested Sunday afternoon and brought to Clarendon. They are now in jail, awaiting action of the grand jury. The following item concerning the incident and the arrest was taken from the Amarillo Daily News:

Three Amarillo men were arrested here last night and returned to Clarendon on a charge of hi-jacking, the complaint growing out of a general melee at Clarendon Friday evening, according to reports.

Two white men and at least three negroes claimed to be victims of the Amarillo men. The Clarendon men were badly beaten about the head and face and declared that they were unconscious for a time. One of the men stated that about \$99 was taken from the crowd, one negro woman testifying that she had lost \$12. The other persons were not sure about the amount they lost.

The Amarillo men who were arrested in the city yesterday afternoon are alleged to have confessed that they were mixed up in a "drunken brawl" with the men who came up from Clarendon to identify them as hi-jackers, but denied the alleged hi-jacking charge. Neither of the alleged hi-jackers showed any signs of struggle which marked the Clarendon men.

Herbert Stanley, 100 Walnut Street; Pete Liston, 306 Johnson Street; and B. B. Lloyd, 209 Pierce Street, were returned to Clarendon last night to answer the charges filed there.

D. A. Wilson and Oscar Stamford and a negro man and woman were here from Clarendon to identify the alleged hi-jackers.

Stanley and Liston were arrested on the outskirts of North Amarillo Sunday afternoon while fixing a flat tire. They were with their wives at the time. Lloyd was apprehended later.

FACTS WORTH KNOWING

Rice hulls are now being used as a source of cellulose which is the principal material of the rayon industry.

Cakes of soap stamped with the name of a township are authorized by the Mexican government for use as legal tender.

Airplanes are being sold on the installment plan in London.

Texas farmers own 285,000 automobiles.

More than 700,000 oil and gas wells have been drilled in the United States since 1859.

A double decker superplane with a cabin accommodating twenty beds has been developed in Germany.

The United States produces nearly 150,000 tons of chocolates annually, valued at more than a hundred million dollars.

It requires 120,000,000 hides annually to meet America's demand for leather goods.

At high point of waste horizontal runs of lead must be supported where needed.

And that old Section 23 as written in the original ordinance be declared null and void and of no further force or effect, where in conflict with Section 23 as hereinabove written.

Passed and approved this 4th day of October, A. D. 1927.

H. W. TAYLOR,
Mayor, City of Clarendon, Texas.

MAUDE CLARK, City Clerk.
JOHN T. SIMS,
A. L. CHASE,
Commissioners of the City of Clarendon,
Donley County, Texas.

Your tongue tells when you need

Coated tongue, dry mouth, bad breath, muddy skin, groggy nerves and sour stomach suggest its use.

"To control the river is to control the mountain." This ancient proverb was a guiding principle in the Japanese policy of erosion control and torrent regulation as long ago as 1683. Since that time reforestation has been applied extensively throughout Japan as a factor of prime importance in the protection of the tremendously valuable rice fields of the empire, and in insuring the permanency and full utility of the water power resource.

Latest figures show that farm tenants comprise 88.6 per cent of the total number of farm operators. The percentage of tenancy in the different states and counties shows a wide variation. In some counties less than five per cent of the farmers are tenants. In other counties more than 95 per cent are tenants. Only three per cent of the farmers of Maine were tenants in 1925 as contrasted with 68 per cent in Mississippi.

MOTHERS CLUB ENJOYS INTERESTING PROGRAM

The Mothers Study Club had at their regular meeting of Friday afternoon a very interesting program on the subject, "Concentration in Body." Mrs. W. W. Taylor read an enlightening paper on this topic, and various phases of the subject were discussed by Mrs. James Headrick, leader for the afternoon, Mrs. J. D. Swift, Mrs. W. C. McDonald, Mrs. C. J. Douglas and Mrs. U. J. Boston. The meeting, which was held in the home of Mrs. W. W. Taylor, was marked by the attendance of all but three members of the Club, Mrs. V. J. Drew of Clinton, Oklahoma, was special guest at the meeting.
At the conclusion of the business session and the program, the hostess served dainty refreshments in two courses and a social hour was enjoyed.

IN APPRECIATION

I take this means of expressing my appreciation to my many friends, here and elsewhere, for their loyal support and encouragement in my campaign for the Chrysler offered by The Clarendon News Opportunity Club. I wish to thank, particularly, Mr. Seofield and Mr. Braswell, whose fair and businesslike conduct of the campaign made it possible for me to win without that expenditure of money which so many people consider necessary to winning a subscription campaign. The assistance of all these friends not only won the beautiful automobile and the \$50 in gold for me, but made the race a real pleasure for me. I thank you individually and collectively.
Mrs. Penelope Blocker Ellis.

Dinner Party Honors Miss Letitia Sawyer

Complimenting Miss Letitia Sawyer, who was to leave this week to spend the winter in Long Beach, California, Misses Maude and Ella Clark entertained at dinner at the Antero Hotel and at a show at the Pastime Theatre Monday afternoon. Those present at this delightful little affair were the hostesses, Miss Sawyer, Miss Mary Stocking, Miss Catherine Cole, and Miss Willette Cole.

College and High School Honor Football Teams

The Bronchos, the Bulldogs, and the football teams of Memphis High School and Cameron Agricultural College were guests of honor at a wintery roast and picnic supper given by the students of the High School and Clarendon Junior College, Friday evening, following the double-header game. A savory supper was cooked over a camp fire at Salt Fork, and the evening was spent in games.

Mrs. Clarence Whitlock Entertains at Luncheon

Honoring her husband's twenty-first birthday, Mrs. Clarence Whitlock entertained with a prettily appointed informal luncheon Tuesday. A large bowl of nasturtiums centered the luncheon table.

Covers were laid for eight, who were as follows: Mr. and Mrs. Frank Whitlock, Mr. and Mrs. Otis Barnes, Mrs. E. F. Bryan of Amarillo, Mr. and Mrs. Clarence Whitlock, and Miss Lucille Whitlock.

Mrs. McClelland Entertains Three Tables at Bridge

Mrs. J. B. McClelland entertained very charmingly Saturday afternoon, with members of the Tuesday Club and a number of other friends as guests. Three tables were arranged for bridge in rooms which were gay with bouquets of lovely dahlias. At the close of the game, salad and ice courses were served.

The guest list included the following names: Mrs. George Ryan, Mrs. T. H. Ellis, Mrs. Charles Bugbee, Mrs. L. L. Swan, Mrs. James Trent, Mrs. W. H. Cooke, Mrs. R. A. Chamberlain, Mrs. W. H. Martin, Mrs. Odos Caraway, Mrs. Sella Gentry, Mrs. J. T. Sims, and Mrs. A. H. Letts. High score was made by Mrs. Cooke, while consolation was drawn by Mrs. Ryan.

Mr. and Mrs. Selden Bagby Entertain With Dance

Members of the Dinner-Bridge Club enjoyed a pleasant digression from their usual program when Mr. and Mrs. Selden Bagby entertained them with an informal dance at the Country Club, Thursday evening. Music was furnished by a three-piece orchestra, and a buffet supper was served at midnight.

The guest list included the following names: Mr. and Mrs. Charles Trent, Mr. and Mrs. Phillips Gentry, Mr. and Mrs. Homer Ellis, Mr. and Mrs. Clarence Miller, Mr. and Mrs. Charles Bell, Mr. and Mrs. Richard Bell, Mr. and Mrs. Forest Taylor, Mr. and Mrs. Holman Kennedy, Mr. and Mrs. Ira Merchant, and Meredith Gentry.

Mr. and Mrs. Richard Bell Give Dinner-Bridge, 26th

Mr. and Mrs. Richard Bell entertained with a dinner-bridge at the home of the latter's mother, Mrs. A. T. Cole, Wednesday evening. Bouquets of dahlias were used as decoration in the rooms where the six card tables were arranged, and tallies were in the Hallowe'en motif.

The following were guests: Mr. and Mrs. Holman Kennedy, Mr. and Mrs. J. H. Miller, Mr. and Mrs. Clarence Miller, Mr. and Mrs. Ira Merchant, Mr. and Mrs. Charles Trent, Mr. and Mrs. Sam Dyer, Mr. and Mrs. Forest Taylor, Mr. and Mrs. Charles Bell, Mr. and Mrs. Homer Ellis, Mr. and Mrs. Dorr Ellis, Dr. and Mrs. O. L. Jenkins, Mr. and Mrs. P. B. Gentry and Mrs. Selden Bagby.

High score prizes were won by Mrs. Dyer and Dr. Jenkins, while low score favors went to Mrs. Taylor and Dorr Ellis. Mrs. Trent drew the consolation in the general cut.

Needle Club Has Delightful Meeting; New Members Elected

The members of the Tuesday Needle Club enjoyed a very pleasant afternoon when Mrs. L. L. Swan entertained them and a number of other friends on the afternoon of October 25. Chrysanthemums and dahlias predominated in the lovely bouquets which decorated the house. Dainty refreshments were served.

At this meeting the Club elected five new members, namely: Mrs. P. B. Gentry, Mrs. Earl Alexander, Mrs. Clyde Price, Mrs. Richard Bell, and Miss Ineva Headrick. Mrs. Swan's guest list included: Mrs. R. L. Bigger, Mrs. Holman Kennedy, Mrs. A. R. Letts, Mrs. Nat Perrine, Mrs. Clarence Miller, Mrs. O. L. Jenkins, Mrs. Charles Trent, Mrs. F. E. Chamberlain, Mrs. P. B. Gentry, Mrs. Sam Dyer, Mrs. Selden Bagby, Mrs. Homer Ellis and Mrs. T. H. Ellis.

Miss Mildred Martin Hostess to Club, Friday

Miss Mildred Martin was hostess to her bridge club Friday afternoon, entertaining, also, a number of special guests. Four tables were in the game, with the following playing: Mrs. Selden Bagby, Mrs. Sam Dyer, Mrs. Charles Trent, Mrs. O. L. Jenkins, Mrs. Forest Taylor, Mrs. Holman Kennedy, Mrs. Homer Ellis, Mrs. Clarence Miller, Mrs. Floyd

The World's Greatest Picture!

The Reverend L. L. Swan returned Tuesday night from San Antonio, where he attended the meeting of the Synod of the Southwestern Province. He also visited a few days in the home of his daughter, Mrs. J. L. Brown.

GOOD ROADS MAY SAVE HALF BILLION

GOOD ROADS TO CUT OPERATING COSTS OF CARS TRAVELING 100,000,000 MILES.

By E. E. Duffy.

American people are striking out for the open country in motor cars at the rate of more than a hundred billion miles a year.

Their annual driving expense in fuel, oil and car upkeep totals around eleven billion dollars.

The roads over which they travel are mainly in state highway systems, taking the country as a whole, that are not more than one-fourth complete.

Measured by well established tests, driving expense over roads not yet surfaced to the point where vehicle operating costs may be reduced to bed rock is approximately one cent a mile greater than on substantially surfaced roads.

It is assumed that not more than one-half of the country's hundred billion a year mileage is over surfaced roads, that is, surfaced to the point of minimum operating costs. Therefore, at least one-half the nation's \$11,000,000,000 driving expense or \$5,500,000,000, is yet to be cut at least ten per cent, which would mean a saving of approximately \$550,000,000 a year, or \$5,500,000,000 in the next ten years.

This, measured in money, is the ultimate goal in road building—to cut motor vehicle operating costs and at the same time add to the life of car investment.

In arriving at the nation's total annual mileage and driving expense, 5,000 miles a year is estimated for each of the 22,000,000 motor vehicles now in service, at the established estimate of ten cents per mile, counting all cost such as fuel, oil, upkeep, tire and car depreciation.

These figures, seemingly preposterous at first glance, are not far from the mark. The reduction of driving expense to the extent of more than \$550,000,000 a year is not to be considered within the range of possibility in any short period of time. It may be taken, however, as an ultimate objective to which road building should come, and this astonishing sum of highway power waste, as exemplified in driving expense, should serve to emphasize the necessity for speeding ahead toward the surfacing of all main traveled arteries in the country.

"When will the pressing need for modern road building close?" some may ask.

When will the people stop buying automobiles? This last question is answered there will be found an answer to the first. Last year the nation's new car investment reached \$4,000,000,000, or four times as much as was spent on roads during the same period, and not all of that went on surfacing that will cut driving expense to a minimum. With every new car wheeled out on the highway, the nation's total driving

expense increases, and there is undisputable evidence to show that the percentage of highway power waste is growing faster than the percentage of road construction designed to permanently check such waste.

Again we sight the ultimate goal in road building—the reduction of highway power waste by forcing the road building job up to somewhere near an even basis with car buying. Road building should exceed car buying until the various state systems are permanently cut driving costs.

FALL TON-LITTER CONTEST FOR TEXAS FARMERS

Bumper crops are usually disposed of at depressed prices, but Texas farmers have the opportunity of disposing of the largest corn crop that they have raised in the past five years at a comfortable margin of profit. Not only do the corn raiser enjoy this privilege but the producers of a grain sorghum crop have the same opportunity of substantial profits from this grain crop. The Progressive Farmer considers the opportunity for winter finding of hogs excellent this year, and this publication, through the cooperation of the A. & M. Extension Service, is sponsoring the first ton-litter contest for fall farrowed litters to be held in the United States. "The better hog feeders of Texas have learned that gains produced quickly from properly balanced rations are the cheapest that can be obtained," states Paul Huey, Field Editor of the Progressive Farmer. Mr. Huey reports that an average of all completed records on the spring contest show that the cost of production per pound of pork is slightly above six cents. When compared with the average cost of pork production on Texas farms, this shows a cost reduction of approximately 50 per cent due to better feeding and management along with improved breeding stock. The present feed cost on hand, if consumed by hogs under these ton-litter methods will net the farmer vastly more than if sold as grain or fed to swine in a careless manner," says E. K. Eudaly, Swine Specialist of the A. & M. Extension Service.

This contest is open to all hog owners in Texas and liberal cash premiums are being awarded for highest total weight and highest average weight in the various sized litters by: The Texas Cottonseed Products Manufacturers, the Progressive Farmer, Swift & Company, Armour & Company, Purina Mills, Universal Mill and the Fort Worth Stock Yards Company.

This contest, which is conducted in view of stimulating a more widespread adoption of improved methods, has demonstrated during the past few months through contests in 57 Texas counties that by observing the fundamental principles of hog feeding, the average farmer of our state can greatly increase his income from this source.

Miss Sybil Johnson left Friday morning for Wichita Falls, where she has accepted a position. She had only recently returned home from Denver, Colorado, after attending business college several months.

We Are Here—You Come, Bring Your Nickels, Eggs and Cream.

A. N. Woods Grocery

Miss Letitia Sawyer left Tuesday evening for a visit with friends in Kansas City. Immediately after her visit she will go to Long Beach, California, where she will spend the winter with her mother, Mrs. Robert Sawyer. She has spent several months here.

Mr. and Mrs. Robert Latimer and two children of Amarillo spent Sunday here in the home of Mr. Latimer's aunt, Mrs. J. D. Stocking. They left in the afternoon for Austin, accompanied by Mrs. Stocking, who is visiting her sons, Dr. George Stocking and Ebey Stocking.

Have you a rest corner in your kitchen? Near a window with a pleasant view put a small table where you can write up accounts or menus, sort housekeeping papers, or prepare your grocery order. Have a comfortable chair here, and some sort of a rack or shelf for cookbooks and such household magazines, as may be glanced at while something is cooking. If space permits the darning bag or any other pick-up sewing may be kept handy here, too. The table should have a small drawer if possible, where the housekeeping purse may be accessible but out of sight.

To remove chewing gum from a washable dress, soften the stain with egg white and then wash.

George Emerson Francis

Mr. Francis will help to make our Lyceum course one long to be remembered by the boys and girls as well as their fathers and mothers. His lecture on "The Jazz Jungle" is a brilliant, eloquent plea for finer thinking and better cultural standards; an appeal to invest your time now where it will pay the best dividends all through life. Don't fail to have the boys and girls hear Mr. Francis.

Avoid Excess Uric Acid!

To Be Well There Must Be Proper Kidney Action.

A STIFF, achy feeling is a common sign of sluggish kidneys and excess uric acid. One is apt to be tired and languid; nervous and depressed; suffer nagging backache, headaches and dizziness. A common warning of sluggish kidney action is scanty or burning secretions. Doan's Pills, by stimulating the activity of the kidneys, assist them to eliminate excess uric acid. If your kidneys are acting sluggishly, use Doan's. They have been recommended since 1885. Are endorsed the country over. Ask your neighbor!

DOAN'S PILLS 60c

Stimulant Diuretic to the Kidneys
Foster-Milburn Co., Mfg. Chem., Buffalo, N.Y.

WHAT'S DOING IN WEST TEXAS

West Texas Chamber of Commerce

Presidio.—Rapid progress is being made on the Orient Railway and the lines will soon be to this city from the Old Mexico terminus.

Tulia.—Considerable improvements are under way at Hotel Tulia. Gas stoves have been installed, and concrete walks are being laid about the building.

Canadian.—The Hemphill County Agricultural Exhibit was shown at three fairs this year, the Tri-State Fair at Amarillo, the Texas-Oklahoma Fair at Wichita Falls, and the State Fair at Dallas. This exhibit took third place at Amarillo, fourth at Wichita Falls, and third at Dallas, beating every county that scored above it at the other two fairs at the Dallas showing, except Garza County.

Ablene.—President R. W. Haynie of this city, and Manager Homer D. Wade of the West Texas Chamber of Commerce will motor to Brady on November 10 to attend the annual Turkey Trot held in that place November 11.

Fluvanna.—Oil and mineral tests are being made in this section, but the Fluvanna section is not depending upon such development for prosperity. Agriculture is the mainstay of this region. The Fluvanna Community Exhibit won first place at the 1927 Scurry County Fair, Snyder, and it displayed many excellent home-grown agricultural products.

Loraine.—New four-inch water mains are being laid into the Templeton addition in the eastern part of town, and will be complete for service at an early date.

Sweetwater.—Date for the West Central District Convention of the West Texas Chamber of Commerce has been reset for November 28. The previous date scheduled was November 14.

Stinnett.—Work of laying concrete on the highway has been started at

the south line of the county and is well under way.

Mason.—Native stone is being quarried and hauled on the grounds for construction of a second story to a local building. The addition will house the leading law firm of the city.

Eastland.—Plans are now being made for construction of eight or ten new business houses to be occupied by new firms.

Lubbock.—The last mile of grading on the Estelline-Lockney-Lubbock line of the Fort Worth and Denver South Plains Railway above the caprock is under way. Trains are expected to be in operation over the entire line by May or June 1, 1928.

Dumas.—Six new residences are under construction here. Gas and light conveniences are now available, systems having been completed just recently. Oil in Moore County has helped the town and promoted record activity here and throughout the section.

Midland.—Opening of the new Mayo Hotel has given approximately 250 hotel rooms to the city. This number will be augmented to 400 when the new Scharbauer Hotel opens the first of January.

Artesia, N. M.—Twenty-five cars of apples have been shipped from here to date. Production is heavier than first anticipated.

CARD OF THANKS

Mrs. Matt Bennett and family wish to publicly express our sincere appreciation to the people of Clarendon and the contiguous territory for the many acts of kindness bestowed upon us during the recent illness and death of our beloved husband and father.

STANLEY MILLER DESCRIBES LIFE OF UNITED STATES NAVAL RECRUIT

FORMER CLARENDON BOY TELLS OF OPPORTUNITIES FOR EDUCATION AND ADVANCEMENT ENJOYED BY AMBITIOUS RECRUIT AND DESCRIBES EARLY TRAINING OF SEAMAN.

The reasons underlying a recruit's enlistment in the Navy are as many and varied as the recruits themselves. In the majority of cases, the recruit is still a minor, attracted by the opportunity for travel and the vigorous, healthy life of the sailor, he is glad of the opportunity to attend one of the many trade schools maintained by the service.

The pay offered and the high standards maintained by the Naval service have made it possible for the Navy recruiting stations to choose carefully the men intended for future men-o-war's men. Any sign of disease or any serious physical imperfection is sufficient cause for rejection. An average of one-third of the many applicants successfully pass the physical as well as a short oral test to detect any illiteracy. Before the candidate is administered the oath of service he must produce recommendations from substantial citizens of his community and produce a minor's release properly witnessed if he is under age.

As soon as the recruiting officers determine his fitness for the service, the applicant is sent to one of the four naval training stations now maintained. Recruits from the southeastern and middle western states are sent to the Naval Training Station at Hampton Roads, Virginia, where they go through eight weeks of preliminary training before going to sea.

The recruit's lessons begin with the moment his fingerprints are taken, along with the other marks of identification for his service record. The basin at which he washes the ink stain from his fingers is placarded, "You're in the Navy now—Let's Keep This Place Clean," or some other appropriate sign.

His first sight of the training station with its orderly rows of buildings and well kept grounds fills him with an awe, not unmingled with trepidation. He is not given much time for sightseeing. From the time he reports at the "glass house" or office of the receiving unit, giving the instructor on watch his travel orders, he begins on the Navy routine whereby every waking moment is absorbed in useful work or diversion.

The receiving unit, designated as "Unit D," is isolated from the rest of the station, and for three weeks the embryo man-o-war's man is instructed in the fundamentals of the service. His first morning is marked by a regulation hair cut. Following this another strict physical examination is given to insure the recruit's fitness for the service. He also receives a cowpox vaccination at this time.

He passes from this point to the showers, from which he emerges in an unblushing state of disattire to go through the storeroom. Here he is issued a mattress cover which is generously filled with his initial outfit of clothing. Each article of clothing is stenciled with the owner's name and the number of his platoon or company. With the exception of a few toilet articles, his civilian possessions are returned to his home, and, garbed for the first time in the naval uniform of his country, the recruit staggers back to the receiving unit under his mattress cover, packed with articles

ranging from needles to hammock and mattress.

It is on this first and probably most eventful day of recruit training that he meets his platoon commander, a chief petty officer who as an enlisted man has gone through the same course of training. He is a man calculated to understand a recruit's problems and help in instilling the proper spirit. His platoon is assigned a bungalow accommodating twenty-seven men in each of the two wings. Under the supervision of his platoon commander, the recruit receives his first lesson in rigging, swinging and lashing his hammock, adjusting his uniform, and, most important of all, rolling and stowing clothing in his sea-bag, which seems at first entirely too small to contain the apparel crammed hodge-podge into the mattress cover.

That night the recruit has his first experience with a hammock. Swung well over his head, it seems rather a precarious nest, but within a few nights he dreams quite as contentedly in his taut bedding as he does at home.

The next day begins with reveille before sun-up, and another lesson in lashing hammocks to the jack-stays for sunning. He soon learns to handle the swab and scrubber on the decks, one of many lessons in cleanliness he is to experience. The bungalow is clean and glistening under his diligence by the time mess gear sounds, and following a hearty breakfast of Navy chow in the mess hall assigned to his unit, he is ready for his first day of drill.

Drill for the first day is usually light, and much of the afternoon is turned over to cleaning and polishing the rifles drawn from the station armory and washing clothes for the first time with the soap and ki-yi or brush furnished each recruit.

Once he has been drawn into the routine, time passes fast for the recruit. His days are passed in drill and sports, as well as in aquatic sacrifices to the sailor's god of cleanliness. The canteen and writing room at the recreation center furnish free movies three nights weekly and although recruits only leave the unit for drill during the first three weeks, there are letters home to be written, and the days slip past unnoticed. He is instructed in naval etiquette, and he hears the chaplain in church each Sunday as well as in lectures at the recreation center. Dress parade each Friday afternoon and bag inspection each Saturday morning are competitive, and he, like the rest of his mates, rejoices in the banner for first place or grieves over its loss.

Following his third injection of typhoid prophylaxis, the recruit is transferred to "Unit B," the other recruit unit. Here he has the privilege of base liberty when off duty and shore liberty three nights a week, on Wednesday, Saturday, and Sunday. Attendance at church is still compulsory, and on his trips to the Norfolk "Y," the bluejacket is given many helpful talks. The station orchestra plays for the popular Wednesday night dances at the Hostess House, where is also the well stocked station library. Current moving pictures are shown at the auditorium of the station administration building four times weekly, and boxing bouts and smokers enliven evenings on the base.

All this while, the recruit is being developed by the morning physical drill. During his fourth and fifth weeks of training he is acquainted with the manner of handling light field artillery and boats under oars. Before the end of the eight weeks' training period, too, he must qualify as a swimmer or else be retained.

The ambitious among the recruits try for the distinction of "Honor Man," chosen as the man in each platoon showing the most aptitude for the service and general alertness and cleanliness. Training in signaling and unfamiliar military maneuvers keeps every man on his toes in preserving high marks for his platoon.

Those desiring to enter one of the many trade schools on the base are examined during their sixth week, and those making a satisfactory mark on the aptitude tests are transferred to the schools at the end of the eighth week training period. In this manner, suitable petty officer material is prepared in advance for a rapid rise in rating.

A recruit usually spends either his sixth or seventh week on special detail, such as police duty or as a mess-cook. The final week of training is reserved for infantry drill alone, in preparation for the final dress parade and exhibition drill, when all work together to make the very best possible showing.

The recruit who has the necessary money, may, if he so desires, take a ten-day leave with two days' traveling time at the end of this training period in order to visit his home. Otherwise he is sent to school for which he has qualified or is sent to unit "J-Available," awaiting a draft to go to sea. It is during this eight weeks' training period that many friendships are formed to last through a half-dozen cruises. In each platoon breaking up are several "inseparables" who attend the same school, go aboard the same ship, and stay together throughout their enlistment.

All this preliminary training has but one object in view, that of preparing the embryo bluejacket for his experience afloat, and for the youngster with ambition, there is no position in the service from which

"What's your idea of a real optimist, Fred?"
"The man who thinks a pair of \$6 shoes will look as well, wear as well and be as generally satisfying as a pair of Smith Smart Shoes."

TO EVERYONE

I haven't the opportunity to thank each and every one individually for their kind support in the contest. I was disappointed when I got third place. Although, we couldn't all get the Chrysler. I'm sorry I won't get to carry out my greatest wish and promise to all. That is the disappointment of taking my friends and those who were so nice to help me in the contest for a ride in the Chrysler. I have enjoyed working with Mr. Scofield. I found lots of new friends, and above all, I can say what I did get is nice and I won it fairly.

contest of this kind can't realize what it is. I wish all of you good luck like you wished me, and also hope you are getting your copy of The Clarendon News and enjoy reading it. Berta Mae Pool.

To store farm butter for winter use the best method is to wrap the rolls or prints in parchment paper and pack them in a stone crock, covering them with a strong brine and store in a cool place. The butter intended for winter use should be made from sweet pasteurized cream churned at a fairly low temperature, washed thoroughly and worked merely enough to dissolve the salt.

ASSOCIATED STORES

there is no advancement. Two months after he finishes recruit training, the apprentice seaman becomes a seaman second class with a corresponding increase in pay. Following that time, his advancement is in his own hands, and a petty officer rating is open to the seaman having the required marks in proficiency and conduct after sixteen months in the service.

The United States Navy, unlike the polyglot navies of other lands, is fast becoming a vast protective machine of clean, straight limbed young Americans, offering education, training, travel and advancement, with a generous bounty for faithful service and a comfortable pension at retirement. Small wonder that it is today attracting well educated young men in such numbers.

TEXAS' TREASURE ISLAND

Rich in romance and adventure, holding the secret of buried treasure and the deeds of freebooters, back in the days when Jean La Fitte and his bold buccaners roamed the Texas coast, Padre Island gives to the world a treasure trove of legends bearing on "pieces of eight."

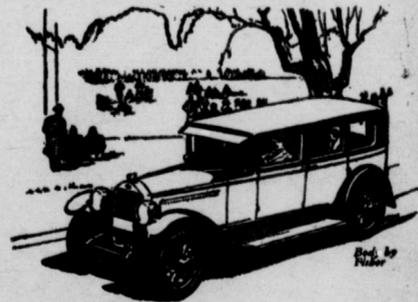

The island is two to three miles wide and begins about twenty-seven miles from Brownsville, Texas, near the mouth of the Rio Grande River, and proceeds near and along the gulf coast for almost 150 miles. At the northern end it has been recently linked up by means of the Corpus Christi causeway, and affords tourists one of the finest ocean drive-ways in the world.

The modernizing of Padre Island has brought to light its romantic past—the secret of its buried treasure.

Read this interesting story in the monthly magazine section of The Clarendon News to be issued November 17.

Much dust and dirt can be kept out of the house by taking precautions. If the roads near your home are not oiled, stop some of the dust at doors and windows. Dust window sills, porches, steps and walks daily. Cover the pantry and storeroom window screens with cheesecloth to keep dust out but let air in. If the walks about the house are muddy get the family to use shoe scrapers and leave muddy rubbers and boots outside.

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

There's
no "time out" for Buick

The referee's whistle shrills . . . "time out!" . . . The game halts, pending a player's return to the "line-up".

When you attend the big football games this year, notice the predominance of Buicks—for men and women who like action, like Buick. And hundreds of thousands of Buick owners can testify that there is no "time out" for Buick.

SECRETARIAL SCREENINGS

CLARENDON CHAMBER OF COMMERCE
G. L. BOYKIN, Secretary

Word from Shamrock announces this week that Wheeler County is planning a road improvement campaign with the view to paving Highway 4 through their county. This highway is a direct line to the Wheeler County oil and gas fields and at present is getting much travel that should pass over Highway 5 through this county, the break being made at Childress and on through Wellington to Shamrock and thence to Pampa and the Gray and Hutchinson County fields and on to Amarillo. With all counties along this route planning on paving their part of the highway tourists would have hard surface travel from Childress to Amarillo. Should this happen, this county would surely lose more travel than it has already lost, to our friends to the east while we are in the geographical position to command practically the entire travel from the oil centers to the north and the larger cities to the south.

All along the line of the Colorado to Gulf through this county, Hall County, and as far south as Vernon here has been reported a large fall-off of tourist travel, and should Wheeler and Collingsworth pave it would surely be larger unless this county paved also. So far as we can tell, every county along these two highways has announced some kind of a road improvement and hard surface program but Donley and Armstrong Counties. If we are to maintain our rightful position and hold our share of the travel, development, and progress of this section we must soon do something with our highways to make them better passable, and to attract the people to our county.

Just by way of getting better acquainted and serving more of a unified purpose, we want to say that this Chamber of Commerce is by no means impervious to suggestions and especially from its members. We like to have you visit us, tell us what you think we can do, and then help us do it. Feel free to us; this organization.

We are more than glad to hear the announcement that the College has the required number of students. It might be well to mention, however, that we must hold them the entire year and add a few all along. In all schools there are always a few that drop out after the football season, and we have none to spare. With a success for the College this year, authorities say it seems practically assured.

Wait for the NEW FORD

Unusual speed, acceleration and beauty of the new model will surprise you.

Clarendon Motor Company
Lincoln-Ford Fordson

WINNERS CLAIM SPECIAL PRIZES

UGLIEST MAN FAILS TO APPEAR BUT MOST OTHER SPECIAL PRIZES AWARDED.

Mayor H. W. Taylor is still the owner of the \$5 that he offered as a special prize to the ugliest man at the Donley County Fair, as extreme modesty prevented the appearance of even one claimant for that prize. Most of the other special prizes offered by business houses of the city were claimed, however, during the two days of the free fair.

The casing and tube which the Clarendon Motor Company offered to the family coming to the fair in the oldest Ford was won by the L. A. Walker family of Brice, who motored to Clarendon in a car of the 1913 vintage.

Mr. Scarborough of Ashtola won H. C. Kerbow & Sons' prize of a Congoleum rug, which that firm offered to the person who had the largest percent hatch in a Safety Hatch of the Buckeye incubator. The prize was awarded for a 91 percent hatch in the Buckeye incubator.

Joel Earl Lusk, seven months old son of Mr. and Mrs. Hugh B. Lusk, was awarded first place in the baby show at Alderson's Art Studio and Gift Shop and was photographed free of charge.

A forty-eight pound sack of flour was offered by the Shelton and Sanford Grocery for the twelve eggs weighing the most. This prize was awarded for one dozen eggs weighing 27-1/2 ounces, which were brought to the store by Miss Katie Meaders.

Mrs. Bill Greene was winner of the first prize offered by the Central Power and Light Company for the best cake baked in an electric range. She received an \$8 waffle iron. Mrs. Homer Ellis was second prize, a table lamp, in this contest.

The cash prize of \$5 offered by Speed Brothers to the heaviest man and wife to register at the Fair was won by Mr. and Mrs. J. R. Boston of Hedley, whose combined weight was 491 pounds.

A drawing was held at the Auto Service Station, following the registration of visitors to the Fair. The lucky number was drawn by Sam Tomlinson of Lelia Lake. He chose as his prize an auto battery.

E. A. Beverly, who sold \$29.87 worth of cream and eggs to Clarendon dealers during the two days of the fair, received the prize of 500 printed envelopes offered by the Clarendon News to the farmer of this trade territory bringing the record of the greatest amount of cream produce sold to local dealers on those days.

CANYON SCHOOL PLANNING BIG EVENT FOR SATURDAY

Home-coming with all its attendant thrills and renewals of old acquaintances will draw a crowd of some 1500 ex-students and old grads to the West Texas State Teachers College Saturday, October 9. It will be a gala occasion for the old college; and the entire resources of the school will be turned toward the entertainment of the home-coming sons and daughters of Alma Mater.

The main feature of the home-coming program will be the football game between the Buffaloes of the Teachers College and the Abilene Christian College Wildcats. A. C. C. is now the leading team in the race for the T. I. A. A. championship, and bids fair to win the honors in the Association race this year. The Buffaloes have lost their T. I. A. A. games and are out of the running for the championship, but it will be great fun to topple the Cats from their lofty perch; and that will be the aim of the Herd in the home-coming game.

As an added attraction there will be the Ex-Students Baby Show and the carnival at night. These features are always well planned and are thoroughly enjoyable.

One thousand students are now attending the college and will give a return to ex-students and grads with their friends a royal welcome.

PRESBYTERIAN CHURCH

Services may be expected at the Presbyterian Church on next Sabbath at the regular hours.

Our General Assembly has requested that next Sabbath be observed as Reformation Day in all of our churches, and that an offering be made for the relief of needy Protestants in European countries. Our church observes this day in common with a number of the leading American churches. Let us make a liberal offering.

It is always encouraging to have a good attendance of our members, and we always enjoy having visitors with us. Come.

ST. JOHN THE BAPTIST CHURCH (Episcopal)

There being five Sundays in this month, there will be no services this week.

Church School and Bible Class at 9:45.

Reverend L. L. Swan, Rector.

HOME DEMONSTRATION CLUB OF JERICHO MET MONDAY

An instructive and much appreciated demonstration in baking nut breads and corn flake cookies was given by Mrs. Helm at the meeting of the Jericho Home Demonstration Club Monday afternoon. Eleven members and a number of visitors, including two from Boydston, were present to enjoy this meeting. The meeting was held in the home of Mrs. Ashmead.

The next meeting of the Jericho Club will be held in the home of Mrs. Roland, November 14.

CHRISTIAN LADIES HAVE ALL DAY MEET WEDNESDAY

The home of Mrs. B. W. Moreman was the scene of an interesting all-day session of the Ladies Aid of the First Christian Church of this city on Wednesday of this week. Each member of the Society carried some dish of eatables with her and this was spread at noon, providing a most sumptuous repast. The morning was spent in quilting, the main object of the meeting. In the afternoon, the usual devotional and study meeting was held, beginning at 3 o'clock. Mrs. F. A. White was leader, taking as her lesson the Second Chapter of Hebrews. A very interesting discussion was entered by all those present. Following the business session that marked the end of the meeting, the hostess served ice cream and cake to the following members and visitors:

Mmes: E. C. Herd, L. L. Cantelou, O. D. Leisburg, S. B. Arnold, F. C. Johnson, G. A. Anderson, J. N. Wood, J. R. Tucker, Eva Humphrey, Betty Haning, F. A. White, J. H. Casey and the hostess, Mrs. B. W. Moreman. Visitors for the day were Miss Bender, missionary from India; Mrs. W. T. Hayter and Mrs. Will Dubbs. Mrs. W. J. Parsons and Mrs. Maggie Krutchmar of Amarillo were also visitors for the day.

The next meeting place for the Ladies Aid will be announced at a later date.

DONOR TO COLLEGE FUND GIVES REFUND TO CEMETERY

Upon receiving the sixty per cent refund on his share of the famous \$21,000 donation for Clarendon College, C. L. Benson turned the money over to the trustees of the Citizens Cemetery. The money, he said, was intended to serve a good cause, and if it could not serve one it should serve another. The amount of the refund was \$60, which constitutes a very substantial donation toward the upkeep of the cemetery.

TO MY FRIENDS

I desire to take this opportunity to express my thanks to so many loyal friends who assisted me in my efforts in the recent campaign for the Clarendon News. No one ever had more loyal friends and while I did not win the capital prize, I want those who backed me to know that I appreciate their aid and kind words just the same as if I had won the first prize instead of the second. The Plan of the campaign was fair to everyone and the judges did their work impartially and I believe now just as I did before that The Clarendon News is the best weekly paper anywhere. I am proud of the diamond ring and I have already offered my congratulations to the winner of the first prize.

Sincerely yours,
Mrs. Clyde Atteberry.

C. W. RATLIFF RECOMMENDED FOR RHODES SCHOLARSHIP

The faculty of Texas Technological College has recommended the following four young men as applicants for the Texas Rhodes scholarship: Wilburn Edelman of Plainview; Guy Carter of Tatum, New Mexico; Dale Wallace of Mount Calm, and C. W. Ratliff of Lubbock.

The selection of the student who will be given the scholarship will be made in December. It carries with it three year study in Oxford University with an annual stipend of \$2,000.

Clarendon people will be particularly interested in the recommendation of C. W. Ratliff for this singular honor with its almost unequalled opportunities. Ratliff is a former resident of this city and is a graduate of Clarendon College. After completing his course in the local school he attended the University of Texas one year and has been at Texas Tech two years.

He has always taken a leading part in student activities.
