## Gasoline Explosion Claims Local Woman

### Campaign Suggested Here To Rid City Of Mosquitos

#### YOUR LILY POND MAY BE HATCHERY

CLAIMED THAT MOSQUITOES  
ORIGINATE IN THEM IN  
SPITE OF GOLDFISH

That the mosquitoes which in recent years have made it practically impossible to enjoy one's cool front porch, or the "outdoor living room," are due to the ornamental fish ponds is the opinion of a landscape authority who recently visited J. T. Patman, fire insurance man of this city.

"I mentioned the fact that Mrs. Patman and I had had to abandon our idea of a sort of 'outdoor living room' on account of the appearance in recent years of swarms of mosquitoes. They make it very unpleasant even to sit on one's front porch. Until a few years ago mosquitoes were practically unknown in Clarendon, although when the wind got in the right direction they would be blown over the city from the lake which in former years would be filled from rainfalls. But the city officials have kept all such waterholes well oiled in recent years and I'm sure that the mosquitoes do not come from them."

His friend then inquired, "Do you have a good many lily ponds about the city?" "Yes, but most of them have goldfish in them," said Mr. Patman.

"It has been definitely established that goldfish do not feed on the wiggle-tails which hatch from mosquito eggs," said his friend. "But if the ordinary small minnows which abound in all streams are introduced into the fish ponds the wiggle-tails never reach the mosquito stage," he said.

Here's a suggestion to the Boy Scouts: Scout around and locate all the lily ponds on Clarendon premises, take orders for a dozen or two minnows, and go out on a hike and catch them for your customers. The News believes that every owner of a lily pond in Clarendon will gladly buy a dozen or two minnows and join in the campaign to get rid of "those infernal pests" that drive folks indoors during all the summer months. It's worth trying when the cost is so low.

And here's a suggestion to home-owners: Any container of any kind that can catch rainwater is just what mosquitoes want for a breeding-place. Get rid of all such things. Keep empty food tins in a shed, or other place where rain can not fill them. Turn all vessels upside down that are outdoors. Don't provide hatching places for mosquitoes. Let's have no mosquitoes in Clarendon this year. It can be done.

Mr. and Mrs. Johnnie Tucker, Miss Lois Alexander, and Mr. Clyde Martin spent Sunday in Shamrock.

#### One-Half, or All, of School Taxes May Be Paid Without Paying Other Taxes

The attention of all taxpayers is directed to a bill which has been passed by both houses of the Legislature, and approved by the Governor, authorizing any taxpayer to tender one-half, or all, of his school taxes to his tax-collector, and receive legal receipt for such taxes, without paying any other taxes.

For such payment of school taxes made, exclusive of other taxes, the tax collector is directed to issue a memorandum receipt in duplicate, one receipt for the taxpayer and the other for his own records, official receipt to be issued when full payment of all other taxes, interest, penalties, etc., has been made.

Section 2 of the bill provides that the tax collector may "in his discretion, prepare a separate

#### Childress Site Greenbelt Golf Tourney in June

Selection of Childress as the site of the annual Greenbelt golf tournament June 12 to 15 was announced Sunday at the close of a meeting of the directors of the Greenbelt golf association at Quanah.

Childress was chosen over the other two bidders, Frederick, Oklahoma, and Quanah on account of the central location of the city and the fact that the tournament had never been held here.

Between 150 and 175 golfers from 14 clubs will participate in the tournament and valuable trophies will be presented to winners.

The date has been set into enough so that two of the outstanding golfers in the association, C. P. Sanders, Jr., of Childress and Billy Holmes of Shamrock will be able to participate. They are both at college but will be home in time to enter the tourney. Holmes was winner last year and also winner of the Caprock tourney here. Sanders is the champion of the Childress club and one of the best in the Greenbelt association.

Arch Blanton represented Childress at the directors meeting at Quanah Sunday and did not intend to invite the tournament to Childress until he learned that Frederick was making a strong bid. He pointed out that Childress had an 18 hole course in good condition and has hotels and tourist parks to easily accommodate a large crowd.

In the voting, Childress received four votes in the first ballot to three for Quanah and one for Frederick.

The second ballot was unanimous for Childress.

The tournament was staged at Electra last year. Quanah has had the tournament two years. Electra twice and Memphis, Clarendon and Vernon, once each.

Outstanding golfers of this section take part in the tournament, which is the largest in the Panhandle. Other winners besides Holmes are L. S. (City) Walker of Quanah, three times winner; Frank Foxhall of Memphis twice winner; and Raines West of Memphis.

Directors who attended the meeting Sunday were: F. P. Fry of Frederick; G. R. Davidson of Electra, T. S. Honey of Crowell, O. T. Nicholson of Shamrock, Rufus Green of Memphis, R. R. Gilliland of Quanah, Bill Rogers of Vernon.—Childress News.

Mrs. Lenode Goldston and daughter, Billie Mae, of Dallas, and Mrs. Leonard Parker and children of Hereford, are visiting their parents, Mr. and Mrs. A. E. Benson this week.

Mrs. Georgia Burrell spent Sunday in Goodnight.

#### LOCAL BOYS WIN STOCK JUDGING

TAKE FIRST PLACE OVER  
FIVE PANHANDLE TEAMS;  
ALTERNATES SCORE HIGH

The stock-judging team of Clarendon boys which participated in the contest which was held at McLean Saturday, Feb. 25, carried off highest honors with a team total score of 1021 points.

The team was composed of Alfred McMurtry, whose score was 349 points; John Blocker, Jr., 331 points and Asa Yates, 341 points.

Each young stock judge was required to judge two classes of Jerseys, two classes of beef cattle one class of horses and one class of hogs, by indicating the "place" (first, second, third, or fourth) in which he would place each animal in a class. His placing was judged according to his success in placing the animals as the official judges placed them. In addition to placing, each contestant had to give reasons for his placing, orally, on the Jerseys and on the hogs.

It was a severe test of the stock-judging ability of the youngsters and the fact that they won first place among six teams is a high compliment to them and to their instructor, G. L. Boykin, vocational agriculture teacher in the city schools.

Second place was won by the Sayre, Okla., team, with a score of 991 points; third place by the Panhandle team, with 975 points; fourth by the Erick, Okla., team, with 974 points; fifth by the Tulia team, with 960 points; sixth by the Conway team, with 935 points.

Clarendon's alternate team, judging the same stock for the practice, surpassed the regular team by making a score of 1198 points. The alternates and their scores: Rob Nichols, 430 points; Howard Gilbert, 377 points; Jess Cornell, 391 points. This fine score was really another victory for Clarendon, though not an official contest record.

The people of Clarendon are proud of the fine record made by these boys who will doubtless be among the Panhandle's foremost future stockraisers.

Mrs. O. L. Fink returned Tuesday from Lubbock, where her son, Kenneth, underwent an appendectomy on Monday, Feb. 20. She states that he is recovering nicely and expects to return home next Sunday if the weather is favorable.

Miss Thelma Reid, who is working in Amarillo, visited Sunday with her parents, Mr. and Mrs. Leonard Reid.

#### Walsh Dead

Senator Thos. J. Walsh, 73 years old, and named as United States attorney-general by President-elect Roosevelt, died this morning on an Atlantic Coast Line train, en route to Washington for the inauguration ceremonies in company with the Cuban bride to whom he was married last Saturday. He was found unconscious on the floor of the couple's drawing room on the train, and died before medical attention could be given to him.

#### BOYS SHOW CALVES AND PIGS MARCH 4

ENTRIES WILL ALSO BE  
SENT TO FAT STOCK  
SHOW AT AMARILLO

The annual Calf and Pig Show of the boys of the Vocational Agriculture classes and 4-H club boys will be held in Clarendon on Saturday, March 4, according to announcement by G. L. Boykin. The show will be held in the fenced enclosure next to the Lemons & Thompson Grain company's building.

The Clarendon Chamber of Commerce will award premiums for the winners, Mr. Boykin stated. While the entries will not be numerous this year, some high class pigs and calves will be shown. At least five calves will be sent to Amarillo to compete in the Fat Stock Show the following week.

Some of the pig club boys have stated that they wish to sell their pigs. They offer them at 4½ cents per pound, dressed and delivered to the buyer. The pigs will weigh about 200 pounds, Mr. Boykin stated.

The public is invited to attend the pig and calf show, and ask questions about how the animals were fed and cared for. The boys can show splendid gains in weight for the time their pigs and calves were on feed.

#### South Ward Pupils to Present Benefit Play

A well-trained cast of pupils of the fourth and fifth grades of South Ward school will present the play, "Miss Molly's Girl," at the College Auditorium, Friday night, March 3, at 7:30 o'clock.

Admission will be only 5 and 10 cents, the proceeds to go into the athletic fund of the South Ward school, to buy baseballs,

#### SHERIFF OFFERS \$25 CASH REWARD

WHEELS AND TIRES STOLEN  
OFF SIX CARS HERE; IS  
GANG JOB, BELIEF

Thirteen tires and eleven wheels were stolen from the Ford automobiles of six Clarendon citizens Tuesday night, according to a check-up made by Sheriff Guy Pierce. The thefts are believed by Sheriff Pierce to have been made by the same persons who stole 22 tires and wheels about three weeks ago at Hedley.

J. Earl Ryan lost two tires from a trailer and two wheels and tires from his car; Parsons Brothers lost three wheels and tires; Claude McGowan, one wheel and tire; Mrs. R. M. Morris, two wheels and tires; Dr. C. W. Galloway, two wheels and tires, and Dr. H. F. Harter, one wheel and tire.

Six of the wheels were later found near the places where they were stolen, the tires have been taken off them. In each case the wheels discarded were the 21-inch wheels, the thieves keeping the 19-inch wheels. The wheels found belonged to Parsons Bros., Claude McGowan and Mrs. R. M. Morris.

Sheriff Pierce authorizes the offer of a \$25 cash reward for information which leads to the arrest and conviction of the thieves. "I am making this as a personal offer, and I hope that I will have the pleasure of paying it," said Mr. Pierce. "I am convinced that the thieves are members of an organized ring which is operating over a wide territory. A total of about 70 wheels and tires have been stolen at Memphis. This appears that the thieves have the cars spotted which they plan to rob, suggesting a possible local hook-up of some kind."

J. G. Blanks, hearing a noise Tuesday night went out and found two men near his car. When he startled them with the question, "What are you up to?" they fled, one of them almost breaking a fence down in his flight. Sheriff Pierce requests that he be called on the telephone if any skulkers are observed around any citizen's premises at any time of the night. An important arrest might be made on a tip of that kind.

bats and similar supplies. In addition to the play, there will be interesting specialties by a number of the pupils. The readers of The News are urged to attend an enjoyable entertainment and assist the little folks' athletic fund.

#### Body of Suicide Is Found Monday

Monday of this week the body of Henry Harvey, aged 67, was found in a pasture about three miles from the headquarters of the Goodnight Ranch. Suicide was the cause of the death, the throat having been cut with a razor, and the aged man had been dead about ten days when found, by Gid Williams of Goodnight. The body was partly undressed and was about twenty feet from his clothes, where also lay his false teeth.

At first it was thought that Harvey came to his death through foul play as no razor or knife was found, but remembering the habits of the pack-rats, the searchers broke up a den nearby and located the razor where it had been cached by the rodent.

Mr. Harvey was the father of Mrs. Tom Miller of Claude and is said to have threatened suicide recently. He is said to have left Claude, Friday, Feb. 15th and was seen the last time on the 16th when he rode a feed wagon of the canyon from somewhere on the road.

Funeral services were held Tuesday at Claude.

#### Brothers Meet First Time In Forty Years

C. R. Skinner had the great pleasure this week of meeting, for the first time in forty years, his brother, L. T. Skinner, of Pueblo, Colorado, who arrived here Monday night with Roy Skinner, son of Mr. and Mrs. C. R. Skinner.

C. R. Skinner has been seriously ill with the flu, and the arrival of his brother and their subsequent talks over old times and happenings since they last saw each other have been a real tonic to him. He is said to be much improved.

Roy Skinner, who has lived for the past 30 years at Bennett, Colo., is manager of the eastern district of the Great Western Insurance company, of Des Moines, Iowa. He lives in the plains country of Colorado, where cattle and wheat are the principal products, and says that business conditions are much like those of the Panhandle country.

#### PIONEER WOMAN IS CLAIMED BY DEATH

MRS. CHAS. HEISLER WAS  
PRESENT AT FIRST RE-  
LIGIOUS SERVICE HERE

Another of the pioneers of this part of the State of Texas has passed on, a woman whose splendid qualities of character admirably fitted her for the arduous life of a wife and mother in the days when Panhandle history was in the making.

Born April 27, 1874, Mrs. Chas. F. Heisler died Feb. 25, 1933, at the home of her son-in-law, J. B. Bourland, of Pampa, to whose children she had been both mother and grand-mother since the death of her daughter about seven years ago. Stricken by an incurable malady, she suffered many weary months before death finally released her brave and cheerful spirit.

Coming to Clarendon on the first passenger train run over the Ft. Worth and Denver railroad, Annie Merrick, native of Coryell county, Texas, was married in 1890 to Chas. F. Heisler. She attended the first church services ever held in Clarendon and on June 25, 1891, was one of the first three to receive baptism in First Baptist church of this city, the other two being Miss Lucy Carder and Miss Kitty Prout.

Mr. Heisler was camp boss on the JA Ranch at the time of their marriage at the camp known as "the Lower Farm," on what is

#### MRS. ALDERSON IS VICTIM OF BLAST

HOME BURNS AS VICTIM AND  
HUSBAND ARE TERRIBLY  
BURNED SUNDAY A. M.

Mrs. Mary Ida Alderson, wife of Irvan Alderson, is dead and her husband is under treatment at the Adair hospital in this city for severe burns as the result of a gasoline explosion which occurred Sunday morning, about 10:15 o'clock, at their home in northwest Clarendon, which, with its contents, was almost completely destroyed by the flames. Mrs. Alderson, fearfully burned and practically her entire body, died at the hospital Sunday night at 7:30 o'clock. She was not able to tell much of what occurred except to state, as did her husband, that they were engaged in cleaning some clothing with gasoline when the explosion occurred.

James Rogers, who lives in the old JA Ranch town house next door east of the Alderson home stated to a News reporter that he heard Mr. Alderson calling for help, jumped over the yard fence and as he ran toward the house saw smoke coming from the kitchen. Mr. Alderson and Mrs. Alderson were apparently trying to get into his car, parked close to the east side of the house.

Rogers shouted to his wife to bring quilts, assisted Mr. Alderson in getting his burning shirt off, and as soon as Mrs. Rogers came with the quilts wrapped both sufferers in them and started to the hospital with them, in Mr. Alderson's car, passing the fire trucks on their way to the fire.

Everything known to medical skill was done in the effort to save Mrs. Alderson's life, but her too severe external, and probable internal, burns claimed her as a victim Sunday night.

At first thought to be too badly burned to survive, Mr. Alderson has shown daily improvement and it is now believed that he is out of danger. His burns were chiefly about the head, back, arms and hands. Whether they were caused from the explosion, or by his efforts to extinguish the flames which enveloped his wife's body is not yet known, though Mr. Rogers stated that he was doing his best to assist his wife when Mr. Rogers reached the scene.

Funeral services were held for Mrs. Alderson Sunday afternoon at 3:00 o'clock at First Baptist church, where hundreds of sympathizing friends gave testimony, by their presence and by the many floral offerings, to the high esteem in which she was held.

The services were conducted by Rev. B. N. Shepherd, her pastor, who paid high tribute to the Christian character which had been developing ever since her union with the church when she was 18 years old, and which had made her a useful and valued member of her church.

Mary Ida Bishop was born to Mr. and Mrs. A. W. Bishop at Vernon, Texas, on Sept. 10, 1883. At the age of seventeen she was married to Irvan Alderson, of Vernon, one son, Earl, being born to them. In 1917 they moved to Clarendon where they have since made their home with the exception of a short time spent in South Texas.

In addition to husband, son and his wife, deceased is survived by her father and mother, Mr. and Mrs. A. W. Bishop, of Childress; a brother, A. W. Bishop Jr., of Sioux City, South Dakota; a sister, Mrs. L. E. White, of Vernon. All were present at the funeral except the brother in South Dakota. L. E. White, of Vernon, was also present.

Interment was made in Citizens cemetery under the direction of Bunlin and Sons, morticians. Pallbearers were Crockett Taylor, Bennett Kerbow, C. E. Lindsey, Nolie Simmons and John Hunt.

Put this fact before your mind's eye: Every man, woman and child in the United States pays an average of \$123 a year in direct and indirect taxes. A national organization "to reduce public expenditures" is authority for the statement, which has ample verification. That figure means that the average family is paying at least \$500 per year for government.

\$500 a year for government is vastly more than the average family can afford. There is only one way to reduce the figure. That way is by the reduction or elimination of certain types of government service cost. If you are able to conduct your business, whatever it maybe, on the 1927-28 scale, you will not understand the necessity of reducing cost of government. But if you have had to scale down your expenses to fit the volume of business you can do now, you can see clearly that your government (state county or city), with reduced income likewise, MUST reduce and eliminate some of its costs.

But are you fair-minded enough to admit that the pruning knife should lop off some of your friends? or that certain institutions are overlapping the functions of others and that the overlapping should be eliminated? or that certain services which government is rendering can be done away with? In short, are you ready to let the amputations be made where the surgeons say they should be made? Or do you want to boss the job yourself—protecting your own friends and neighbors from the pruning?

If that's your attitude, remember that it is the attitude that will probably prevent any reduction of government cost. The tax-eaters, individually or collectively, will bring every possible pressure to bear to prevent their being disturbed. The system is old. It has been used for decades in keeping Tammany's 148,000 office-holders in control of New City's government. Texas has a vast army of office-holders who will resist to the last ditch any effort to oust any of them, no matter how useless and expensive they may be.

## A HIGHWAY PRIMER FOR THE MOTORIST

Motorists want good roads. Motorists pay the gasoline tax. The gasoline tax was designed to pay for good roads. Today, only ONE-HALF the gasoline tax goes to roads. The other half pays for schools and refunds county bonds.

Motorists still pay ALL the gasoline tax. The average motorist pays \$27.80 a year in gas tax. This is three times his auto license fee.

The motorist pays MORE taxes, and gets FEWER new roads, each year.

In four years, gas tax revenue has INCREASED 100 per cent. In three years, the amount spent on roads has DECREASED 45 per cent, and the amount of NEW roads has DECREASED 66 per cent.

Texas spent 33 million dollars on roads in 1930. This has decreased steadily since, until—

In 1930 it will have but 18 millions for roads, if present funds are UNDISTURBED.

Yet State Representative Morrison has a bill to reduce the amount to 14 millions, and State Representative Reed has a bill to reduce it to 11 millions.

BUT it costs 11 millions a year to MAINTAIN our 19,000 miles of highways. Texas, remember, is four times as large as all the New England states combined.

Texas motorists would CONTINUE TO PAY AS MUCH GAS TAX AS EVER, but . . .

The Reed bill would not permit a SINGLE MILE of new roads.

The Morrison bill would leave only 3 millions for new roads, plus equal federal aid.

A million dollars will buy from 50 to 100 miles of modern road, and there are 9,000 miles of unpaved "key roads" in Texas.

For comparison, 21 millions were spent on NEW ROADS in 1930, 19 millions in '31 and 17 millions in '32.

Texas ALREADY takes away from its motorists MORE of THEIR road-money, for non-road purposes, than any other state.

The Texas Good Roads Association, a new state-wide organization to protect Texas highways, believes the motorist has become the tax "goat". It is not seeking a lower gas tax, nor does it wish to take gas-tax money away from any agency now receiving it.

But it DOES contend that the state owes an obligation to the motorist who pays this road-money—that the highways now carry enough burden—and that NO MORE OF THIS MONEY SHOULD BE TAKEN AWAY FROM ROADS FOR ANY OTHER PURPOSE.

Home is where you scatter the Sunday newspapers all over the premises.

## ROBBING PETER TO PAY PAUL

In your left-hand trousers pocket you have the sum of 50 dollars. In your right-hand pocket is another 50. For a period of time you spend entirely from the left pocket, until the 50 suffers alarming depreciation. Then you begin spending from the right pocket. Would you consider this economy and reduction of expenses? You certainly would not. It is unimportant whether the dollar comes from one pocket or another, whether your left hand or your right passes it out.

But, when tax commissions and politicians announce a program of tax reduction, it usually does precisely what has been described above.

It takes a dollar off the property tax and puts another dollar on the income tax. It shifts burdens from an inheritance tax to a sales tax. It discovers intangible taxes—supposed to lower some other tax, but increases the total volume of tax money from individuals and industry. And so it goes.

The average tax reduction program is a farce and misrepresentation. It robs Peter to pay Paul it does not recognize the fact that there is but one way to lower taxes—to spend less money.

Keep the pocket illustration in mind next time your public officials announce an economy drive. See if they actually do lower the cost of running the government, or simply dip into your other pocket. Then act accordingly.

# "I NEVER READ THE ADVERTISEMENTS"

YOU know this person. He thinks he is telling the truth. But quiz him and he will recite the make of his motor-car, his hat, his shirt, his suit, his shoes, his tooth-paste, his towels, ad infinitum . . . with the accent on the "ad." In other words they are all advertised products.

WHY, he could no more escape the presence and the power of the printed word than he could evade eating or sleeping. The advertisements are a definite part of contemporary American life. Their messages are vital to daily existence. They have a definite association with the pocketbook, than which there is nothing more intimate and personal.

THE important thing is not merely to "read the advertisements," but to read ALL of them. The one advertisement you "didn't see" may contain information you would have given a great deal to possess. Certainly, it is as important to you to know the Smiths are having a sale of sheets or shirts, as to read that Congress will hold a special session!

**Parents Are Grateful For Lions' Assistance**

Little Lendol Ragel, of Lelia Lake, has never been able to walk since his birth, but members of the Clarendon Lions Club, which has undertaken to have his little crippled limbs straightened, are hopeful that he will eventually be a normal, happy child.

When his case was brought to their attention the first examination disclosed the fact that tonsil trouble had so affected his general health that it would be useless to begin treatment for his crippled condition until his tonsils were removed. The operation was performed by Dr. C. G. Stricklin, himself a member of the Lions club.

At the Tuesday luncheon of the club Lion Homer Mulkey read the following communication from the little fellow's parents, Mr. and Mrs. V. H. Ragle:

Lions Club Members:

Words can not express our appreciation for your kindness in assisting us in the treatment of our little son, Lendol. His throat was well in one week. His cheeks are rosy now and he is getting fat. Is sure doing fine. Wishing you all success in the good work you are doing, we are

Sincerely,

Mr. and Mrs. V. H. Ragle.

In a short time Lendol will be taken to Amarillo where treatment for his crippled limbs will be begun by Dr. John T. Gray, widely known orthopedic specialist of Amarillo, who recommended the removal of the tonsils and expressed confidence in the ultimate cure of the boy. Dr. Gray is a graduate of the Carrell-Driver-Girard Crippled Children's Clinic of Dallas, whose staff is headed by Dr. W. B. Carrell, nationally famous for his successful treatment of crippled children. Dr. Carrell is also chief surgeon of the hospital which is maintained in Dallas by the Scottish Rite Masons of Texas.

Hon. J. O. Guleke, member of the State Board of Education has this to say, "It's time the Texas educators cut out politics, got down to business and worked to save the school's for the children of Texas. An appropriation of \$9,000,000 for 29,000 students in college and \$30,000,000 for 1,556,777 public school children is wrong. The two appropriations should be more in line with the number of young people for whose education they are used. The greatest problem in Texas today is the fact that \$200,000,000 in school bonds are outstanding, and these are drawing 5 per cent interest and you have to set aside an additional 2 per cent for sinking fund purposes. That means you are paying out \$14,000,000 annually and you haven't hired a single teacher, nor fired a boiler."

## Nowetompitimin Troop

The Nowetompitimin Troop of the Camp Fire Girls met in regular session Wednesday at their room.

Further plans for their Penny Social were discussed. This Social is to be held Saturday, March 4th, and it is hoped that a large crowd will attend. After the business meeting the troop adjourned to meet next Wednesday.

Mr. and Mrs. Clyde Atteberry, of Pampa, were visitors here Sunday with his mother and Mr. and Mrs. R. L. Bigger.

## Missionary Society Meets

The Ladies Missionary Society of the First Christian Church held its regular monthly meeting Wednesday afternoon in the home of Mrs. George Norwood. Mrs. C. E. Herd, president of the organization called the meeting to order. Mrs. G. A. Anderson led the devotional program, and Mrs. R. E. Paxon was the program leader. A special study of life and conditions in China is being made by the society, and the main theme of the day was, "Seed-time in China," or "The ministry through our hospitals."

The leaders of the programs and subjects presented some very important lessons. There were two visitors and fourteen members present. After the business and study period, all enjoyed a very pleasant social hour, at which time the hostess, Mrs. Norwood, served the members present with a generous and delicious serving of Cherry pie and ice cream.

JUST SUMN' AROUND

Just sumn' around the campus this morning and discovered that Easter was a little premature this year for three certain up and coming young students of the high school and college, some Hedley Owls (night owls, we imagine) favoring them with an egg shower—and whoever said that rabbits laid eggs were fooling.

Lloyd Martin told Miss Morgan that the only occasion of which he could think that would merit the wearing of a tuxedo was that dim and distant date when Mr. Noland should be lenient enough to bestow upon the said Mr. Martin the hand of his oldest daughter.

Incidentally, two of the faculty members seem to have been on a purchasing spree last week, Mr. Carver being the proud owner of a new Willis coach and Mr. Burton being just as proud an owner of a new pipe—only it isn't caked quite as thoroughly as the old one was.

Passing by the office yesterday, we heard a terrible noise and upon investigation, found that Watson was playing Bing Crosby for the benefit of Hutton and Stocking. Watson knows part of the tune and one or two of the words to Here Lies Love. Looks as if he and Stuart Erwin might give Bing some keen competition.

Suppose you've seen in the papers that women are going in for men's suits this spring. We just wanted to warn the boys that Rhodin Chase has been threatened. But we do think that Eugenia Noland ought to be fair enough to give him an even trade—and how do you think Rhodin would look in a dress?

You know, Mr. Hutton detests kodak pictures and chewing gum—but still we don't think that this offense quite warranted his making Peggy and Sybil miss part of their Algebra lesson. And really they were quite broken up about it.

Henry Wilder swears—maybe vows is a better word—that the depression is over; and all because he happened to be lucky enough to be on the railroad track at the same time one of those big round pieces of silver that they call half dollars was. But we just dare you to ask him how he happened to be on the railroad track at that particular time.

Pete Powell is still getting Billy Walker and Arthur Chase confused—she gets Billy confused one night and Arthur the next according to a broadcasting report from the Junior-Senior Banquet.

Imagine:—Lloyd Benson getting up at 6 o'clock to help put cinders on the track.

Roy stargel starring for New Mexico University. Joveta and Sybil coming to school in the afternoon.

One of Miss Headrick's college English classes studying the lesson.

Emma Lee Johnson asking J. O. Vinograd for a date.

Alpha Delta Psi Literary Society

The Society met last Tuesday night instead of the regular meeting time which is Wednesday night.

Not only was a good program rendered, but there was also a good attendance. After discussing unfinished business, a George Washington, "First in Peace," by Lu McClellan, Washington, "The Country Gentleman," by Lynn Floyd, Gertrude Shepherd favored the group with a piano solo, "Stolen Kisses," which was enjoyed by all very much.

To conclude the program the group stood and sang "America."

Palo Duro Literary Society

The Paloduro Literary Society met last week on Tuesday instead of Wednesday because Wednesday was a holiday. The attendance was unusually small at this meeting, but perhaps this was due to the fact that it was not the regular meeting night.

A patriotic program was given in keeping with our first presidents birthday. A piano duet, "Stars and Stripes Forever" was played by Pauline Shelton and Pauline Sanford. Robert Green gave a brief sketch of George Washington's life. A modern short story, the plot of which shows that a picture of Washington can have an effect on people, was read by Bill Wood. At about eight-fifteen o'clock the Society adjourned until next meeting night.

JUNIOR-SENIOR BANQUET

The Juniors and Seniors held their annual banquet on Washington's birthday, Wednesday, February 22nd, at the Presbyterian church. Down the center of the tables were alternately placed diminutive cherry trees and red tapers. Place cards were silhouettes of George Washington, while favors were small red hatchets decorated with cherries. The following menu was served by mothers of members of both classes.

- Grapefruit Cocktail
Roast Turkey Dressing and Gravy
Tomato Salad, Sweet Potato Pluff
Cranberry Jelly
Hot Rolls Saltines
Angel Cake Parfait
White Swan Coffee

The following program was presented: America—Group. Invocation—Reverend McKee. Clarinet Solo—Hubert Reavis. Reading—Wilma Dee Smith. Let's Tune in on C. H. S.—Jo Ella Stewart, Eleanor Morris. Violin Duet—Harvey Lou Strawn, Mary Smith, Piano—

Louise Smith. Auction Sale—George Chamberlain, J. D. Holtzclaw. Piano Solo—Arthur Chase. Toasts.

To the Juniors—Alfred McMurtry. To the Seniors—O. C. Watson. To the Seniors—Lawrence White.

To the Superintendent—Marjorie White. To the Faculty—Ardia Patman. Response—Mr. Carver. To Our Mothers—Thayer Acord. Response—Mrs. McKee.

Contrary to the usual custom, all but the first two members on the program were presented after the banquet had been served.

Alfred McMurtry, president of the Senior class, acted as toastmaster. Hubert Reavis, who accompanied by Rhodin Chase, played a very enjoyable clarinet solo. Everyone enjoyed a reading, Marcia, given by Wilma Dee Smith. In "Let's Tune in on C. H. S." Jo Ella Stewart and Eleanor Morris gave a short sketch, telling gossip of C. H. S.

This number was broadcast over the radio with Bryum Halle announcing. The violin duet, played by Harvey Lou Strawn and Mary Smith with Louise Smith as accompanist, was highly appreciated. The "Auction Sale" conducted by George Chamberlain and J. D. Holtzclaw furnished a lot of fun.

Everyone was disappointed because Delbert's pants were not forthcoming. In a Persian Market, a piano solo, rendered by Arthur Chase was greatly enjoyed by everyone present. One number on the program, "Can You Beat That?" followed by numerous question marks, was not given to the further mystification of all. In the giving of the toasts there was not much stumbling as last year. Miss Ineva Headrick, who could not attend because of illness, was originally to have given the response to the toast to the faculty, but her place was taken by Mr. Carver, the other Senior Sponsor. Mrs. McKee's response to the toast to mothers was an inspiration to every student present.

The Juniors and Seniors want to thank their mothers for making it possible for the majority of them to attend the banquet. May other classes in the future years be as fortunate.

After the banquet, dancing and games were enjoyed until twelve o'clock at the Parish House.

ASSEMBLY

Friday, Feb. 24, at 11:00 o'clock Mr. Hutton called assembly of the high school students. Census slips were passed out. These slips were to be taken home and signed by a parent or guardian. After instructions had been given, the assembly was dismissed.

CAN 36 BEEVES IN MONTH

Thirty-six beeves were canned on farms in Eastland county during the month of November, according to report of Miss Ruth Ramey, home demonstration agent. Miss Ramey notes progress in the work of helping farm families to put up their supplies by difference in the questions asked by the farmers visiting her office. "It used to be they would come in and say 'We are killing a beef tomorrow, will you come out and can it for us?'"

And now they come in and say 'We are killing a beef tomorrow; please give us the latest recipes for canning it.' Many of these families, having learned how to can meat themselves are able to pass on the information to their friends and neighbors."

If you would buy a dollar's worth of pleasure, keep half of it and give the other half away.

SPORTS

SPORT SPUTTERS

BY O. C. WATSON, JR.

Looks like the track meet for Clarendon is an assured thing. The cinders are being put on the track and everything is being put in tip-top shape. Amarillo has signified their willingness to bring a reputable squad. That should create much interest as there is no school in this section stronger. Pampa, no doubt, will send in their entry soon.

I would like to announce that all rural teams in the county who have not yet entered the Donley County Basketball meet at Hedley, Friday and Saturday, March 3-4, should do so at once. Those who have not entered may do so by getting in touch with County Superintendent Sloan Baker.

Well, you Texas fans win and I lose, I guess. Texas has got the best team after all. As you know, Texas won the Southwest conference crown when Texas A. & M. beat T. C. U. Now it will be T. C. U. and A. & M. fighting for second place.

It looks like the Panhandle will surely have some baseball this summer, as Amarillo has stepped into the West Texas New Mexico Baseball League with both feet. Borger, Pampa, Plainview, El Paso and other cities are expected to enter the league soon. Boy, one good thing you can say for Amarillo, is that they sure do back their sports up there. No matter what kind of a sport, they are always in for it; that is the spirit we like to see. If all teams were like this we could sure make sports pay.

Lake View won the Hedley all-star Basketball tournament Saturday by defeating the Hedley all-stars in the final game and, boy, did they smear 'em!

Right of Comment On Public Affairs Upheld By Court

AUSTIN, Texas, Feb. 23.—The Court of Criminal Appeals Wednesday sustained the right of C. H. Pease, editor of the Hidalgo County Independent, to comment on public affairs when it set aside a judgment of contempt of court against Pease and ordered his discharge. He had been sentenced by Judge R. M. Bounds of the Ninety-Second District Court of Hidalgo County to three days in jail and fined \$100.

Pease had been cited for contempt for publishing three news items and an editorial. One headed, "Bounds' Grand Jury," told of indictments returned by a grand jury in Judge Bounds' court. Another referred in a humorous vein to "crimes" committed by good government leaders, who had been indicted by that grand jury and ended in a declaration that the most serious crime in Hidalgo County was to oppose the Democratic ring.

There was also a statement that "it was the general view over the county that the indictments were for political purposes only."

Pease, when cited for contempt, proposed to offer proof of the truth of his articles. The court

refused to permit such testimony. Judge O. S. Lattimore, writing the opinion, said:

"Inclining to the view that the matters of publication were not contemptuous, and having serious doubt of the validity of the proceedings and being convinced that the applicant should have been allowed to prove the truth of the matters so published by him, the prayer of applicant will be granted, the judgment of contempt will be set aside and relator will be discharged."

Two years ago self-feeders for hogs were practically unknown in Goliad county. Now they are so common that hog feeding without them is regarded as a sign of poor management. The new system of feeding hogs by self-feeder on rations of corn and equal parts cottonseed meal and tankage, introduced by the county agent, has revolutionized hog raising and has led to the general use of hogs to dispose of corn at a small profit.

**Bits Of WASHINGTON'S Current Comment**

Disarmament is getting its share of attention from prominent men. Mr. Roosevelt is said to be ready to carry out President Hoover's plans in that direction, and over in Germany, Mr. Hitler, the leader of the hour, thinks that the world has had battle aplenty, and that something should be done about it. Speaking of disarming, it is too bad that the gun-artist who selected the incoming President as a target, could not have been stripped of his weapons before he had opportunity to use them. Mayor Cermak, who stopped a bullet intended for Mr. Roosevelt, is a gritty and considerate soul. He had himself propped up in bed, in order that he might sign a pay roll. Now is the time for all good men to come to the relief of the pay roll. Apropos of good men and pay rolls, documents of that kind will be illuminated by two illustrious names if, as is rumored, Senator Swanson of Virginia, and Daniel C. Roper are to be added to the cabinet list, the one as Secretary of the Navy, and the other as Secretary of Commerce. Mr. Woodin of the Treasury. The friends of New York may be Secretary of silver in Congress intend that he or someone else shall have the necessary metal to make plenty of hard money; a congressional committee has recommended that the Treasury Department be authorized to purchase 250 million dollars worth of silver bullion. But don't turn the resulting coin over to crooked bank officials, is the implied advice of a Senate investigation committee, a member of which says that bankers who act like Al Capone should receive what Al got.

Election is over and inauguration is at hand, but the task of compiling a new "Who's Who" is only begun. Stretching away in diminishing perspective from cabinet and high diplomatic places to the lowly government jobs at the cross-roads, are many offices that will have to be filled. Perhaps none is more important than the Speakership of the House. The choice will be made upon the second of March, a date close at hand, yet far enough away so that intervening events make it impossible to pick the incumbent with any degree of certainty. Forty-three men have presided over the lower house. The list includes such names as Champ Clark, Thos. B. Reed, Mr. Crisp, and many others fitted to hold the Presidency, yet but one Speaker, James K. Polk, made his way to the White House. Some have been called, but few chosen, Clay and Blaine being the most notable examples of Speakers who tasted the bitterness of defeat when they sought to shift their activities from the Capitol to the executive mansion. If history may be relied upon, the Speaker to be selected shortly before the coming fourth of March stands small chance of being the central figure in any inauguration ceremony thereafter.

Japan and China are busy beating each other up. War between Yugoslavia and Italy is feared, and Germany is being summoned to prevent Austria from being made a battle ground. Unless debt arbitrators convene soon and work fast, suggestions that the debts of the war be cancelled, will be interrupted by the question: "Which War?"

When the House confirmed the action of the Senate and voted for the repeal of the Eighteenth Amendment, there was a scattering of grains of comfort for everyone. On the face of things, the wets are victors since repeal has received the approval of both branches of Congress. One very wide and turbulent river unquestionably has been crossed, and there is reason for moist rejoicing. Upon the other hand, decision has been taken out of the control of two bodies shown by their votes to be wet, and turned over to the will of the whole people, whose views on the sub-

**Tips on Taxes**  
LEGISLATIVE NEWS SERVICE OF THE TEXAS PRESS ASSOCIATION, AUSTIN

AUSTIN—Many measures are pending in the Legislature designed to reduce the cost of government. They range all the way from simple resolutions to constitutional amendments. Legislators are given attention to the problem of local taxation, as it is affected by State law, and bills are pending whereby local governing bodies will not be hampered in economy efforts by State law and constitutional provisions. The major share of the tax burden is for local purposes, cities, counties and school districts.

Senator Purl of Dallas has introduced a resolution providing for a constitutional amendment abolishing the fee system, except as to public weighers, notaries public and county supervisors. It is believed that vesting in Commissioners Courts the right to fix salaries for officials who are now compensated by fees would result in great savings to the taxpayers. Other legislation, similar in purpose, is being considered.

There seems to be a well-defined purpose to reduce the cost of the State government an average of 25 per cent. The House has already passed the judiciary supply bill, providing for that amount of reduction in salaries of district judges, appellate court judges and district attorneys. The Senate has not acted. Vigorous protests against the reductions have been made before the Senate committee, considering the bill.

Presidents and regents of teachers colleges are reported to be agreeable to a 25 per cent reduction in their budgets.

The House has before it a bill reducing automobile license fees one-third. Passage of this or some similar measure is regarded as certain.

A constitutional amendment, introduced by Senator Walter Woodward, would limit the total cost of the State government to \$10 per capita per year. This proposal is unique in that it would compel economy by placing an arbitrary limit on expenditures. Approval of the amendment would place expenditures on the same per capita basis as 1927. In 1925 the per capita cost of peak was reached in 1930 when State government was \$8.50. The figures were \$14. Last year the per capita was \$12.50.

It is claimed for this amendment that it would provide an automatic check on taxation which is now virtually without limit. Another claim is that it would compel the discontinuance of bureaus, commissions and departments once their usefulness had passed. Instances of government bureaus and services being discontinued are rare. It is argued that this amendment would require the abolishment of less needed services when necessity for new ones arises.

The general trend is for tax reduction measures, but several bills have been introduced seeking to tap new sources of revenue. The most far-reaching is the proposal to levy a three per cent tax on gross receipts from sales

and professional services. Estimates of the amount that would be derived from this levy vary from 50 millions to 100 million. It is certain that many businesses would be compelled to stand an increase in their State taxes from eight to ten-fold, and many lines who now pay no State ad valorem taxes would be heavily taxed.

Another new source of revenue is suggested in the bill providing for an income tax. The tax on individuals would begin on the first \$1,000 of net income with a rate of one per cent and graduate up to seven per cent on net incomes above \$11,000. The corporation rate would begin at two per cent on the first \$1,000 and graduate upward to six per cent on incomes above \$6,000. Deductions, similar to those of the Federal income tax, would apply.

The belief, however, is that the two bills will be combined and modified to carry some of the features of both. Few will predict, however, what the final fate of these new tax measures will be. There is determined opposition to both, based chiefly on the theory that there should be no new taxes levied but that the State budget should be balanced by economies in expenditures.

A constitutional amendment has been introduced for increases in salaries of a few State officials. The Governor's pay would be increased from \$4,000 to \$12,000; Attorney General from \$4,000 to \$10,000; Treasurer and Land Commissioner from \$2,500 to \$6,000. Many other State officials now receive much higher pay than these.

**Happenings That Affect the Dinner Pails, Dividend Checks and Tax Bills of Every Individual. National and International Problems Inseparable From Local Welfare.**

As is usual at this time of year, business sentiment is somewhat mixed. Reports from various parts of the country point to a change for the better in industrial activity, always an encouraging sign. Financial optimism seems to be a trifle more optimistic. Even the high percentage of commercial failures impress many as having a favorable side—elimination of weak units in the industrial machine is essential to getting it going again at full speed.

At the recent retailer's convention, it was forecast that sales would drop 20 per cent during the first quarter of 1933 with improvement in the second quarter. A majority of retail authorities believe that prices are gradually being stabilized.

To many, one of the good events of 1932 was declined in the cost of living of 9.4 per cent. This, too, has its other side—the continued decline in commodity costs is one of the most stubborn influences in prolonging depression. Another barrier to industrial rehabilitation is the growing fear of heavier taxation and the possibility of a general sales tax that will further damage purchasing power. The state of the public finances continues to be unhappy, with the deficit hovering around the \$1,200,000,000 mark. Federal receipts are below expectations, due principally to the lost potency of the income tax.

Latest reports on major industries show:

**BUILDING**—Improved, with contracts ahead of same period last year.

**LUMBER**—New business continues to exceed production, and in Southern pine district is 12 per cent ahead of last year.

**STEEL**—Fell off after moderate expansion; consensus of opinion looks to improvement in next few months.

**COPPER**—Profitless at present 5c price; best side is that domestic consumption leads production.

**SUNNY VIEW**

The patrons of the school here met last week and hauled dirt and gravel to spread on the school ground, which greatly adds to the appearance of the school yard. We are glad to report Mr. and Mrs. Nelson Riley recovering after being ill last week.

Mr. and Mrs. Henry Williams of Hedley, Mr. and Mrs. A. M.

so far this year.

**OIL**—The drop in crude from 63c to 38c a barrel, in the face of prorotation agreements, and because of overproduction, is one of the most discouraging of recent events.

**NEWSPRINT**—Price-cutting has led to losses.

**SHOES, SILK AND AUTOMOBILES** show definite improvement.

Employment declined 4 per cent in December, with four out of seventeen major industrial groups marking increase. White collar workers constitute 28 per cent of those out of work. Even slightest change upward in purchasing power should be immediately reflected in employment statistics, as stocks of finished goods of all kinds are now at an irreducible minimum and only demand is needed to make factories hum.

While farm conditions show little change, a good sign is that the fundamental supply and demand situation is regarded to be steadily improving, thus warranting the opinion that price improvement will come in the future. There have been some farm price setbacks, with cattle and hides holding tenaciously to the upward trend. Foreign demand for cotton has been moderately good.

A raise in prices—probably temporary—recently in Bolivia, with but little change in the other South American countries. Basic British industries reported to be more active. For the first time in 30 years the Nationalist Government in China has succeeded in balancing its budget. Rumania showed a large favorable foreign trade balance for the first nine months of 1932. Canadian business continues low.

now a part of the H. Lott ranch, working for the JA from 1885 until six years later, when he resigned. After four years he re-entered the employ of the JA and stayed on with it for 26 years, becoming boss of the Graham Camp during that time, and holding the position until about 1921, when he resigned.

Mrs. Heisler was a warm personal friend of Mrs. Cornelia Adair, owner of the JA Ranch, who found in her a congenial and lovable nature that endeared her to all who knew her. She was especially beloved by the cowboys of the JA who always found her ready to give them a good "feed" and listen to their troubles. A large number of these attended her funeral.

Three children came to the Heisler home—Wyatt, Will and Ethel. Of these only Wyatt survives. Will dying in September, 1918, of flu-pneumonia, while in the American army in France. In addition to her husband and son, she is survived by two sisters, Mrs. Cleo Keys and Mrs. Will Terrell, both of this city, and two brothers, John F. CORRECTION

In the list of grand jurymen for the March term of district court, which was published in The News last week, the first name on the list was M. W. Mosley. This was an error, as the name should have been M. W. Hatley.

The copywriter blames the linotype operator, who in turn passes the buck to the proof-reader, and he insists that it was only half an error, anyway, since the initials were right. All of which, it must be admitted, is "baloney," since newspaper workers should never make an error. But, it must be further admitted, newspapers do make mistakes more or less frequently, proving that newspaper folks are made of ordinary clay after all.

G. W. Antrobus returned Monday night from Falmouth, Kentucky, where he was called several weeks ago by the serious illness of his 83-year-old sister. He left her slightly improved.

Misses Herlose Burrell, Betty Walker, and Latrice Benson were Berger visitors Sunday.

Funeral arrangements were in charge of Buntin and Son's Mortuary. Pallbearers were Charlie Johnson, W. H. Patrick, M. E. Bell, Frank Whitlock, James Trent and Roy McMurtry.

Sales Record for Past 54 Months Is Announced

Dayton, Ohio, January 3, 1933.—A record of achievement which is possibly without parallel in business history was revealed here today when officials of the Sargon Laboratories, Inc., reported that fifty-four months ago their medicines, Sargon and Sargon Soft Mass Pills, were first placed on the market, and that up to date 7,417,428 packages of these two medicines have been sold.

In explanation of this truly remarkable record Mr. J. J. Gibson, Secretary of the Company, said: "We spent two years' time and a considerable fortune in developing these medicines before they were placed on the market, and we had good reason to believe that as soon as the public became acquainted with their effects there would be a very large demand for them. This is what seems to have happened during the past fifty-four months."

"As evidence of this," he continued, "thousands upon thousands of individual endorsements have literally poured in from all parts of the country, and we are shipping our medicines throughout the United States, Canada, and Hawaiian Islands, Porto Rico, the Philippine Islands, Cuba, Jamaica, and several Central American countries. Only yesterday we received an order from Nice, France. Indeed a large part of our business comes from sections where our advertising has never appeared. This indicates that people who use our medicines are writing or telling their friends about them."

When asked for a brief statement of what effects Sargon and Sargon Pills have on persons who take them, Mr. Gibson replied, "These are new medicines and they actually accomplish many things which the older remedies were supposed to do. For instance, it is now conceded by the medical profession that calomel and other laxative drugs have no effect whatever on the liver. Our medicines actually stimulate the liver to cleanse itself by increasing its production of bile. Sargon and Sargon Soft Mass Pills also promote general glandular activity; build up the red blood cells, and correct the most prevalent causes of indigestion and constipation and the many ailments resulting from these disorders."
