1.45 Inches Rainfall In Donley County Tuesday Night

EARLY PLANTING IS NOW ASSURED

DONLEY COUNTY GETS BEST RAIN OVER WIDE AREA SOUTH OF AMARILLO

Farmers, stockmen and business men of Donley county were wearing broad grins Wednesday morning, following a rainfall Tuesday night of 1.45 inches, according to the official gauge of Joe Goldston, U. S. weather observer. Coming from the northwest, rain began falling about 9:00 o'clock, the initial heavy downpour being followed by an almost continual slower fall during the remainder of the night.

Reliable reports stated that the rainfall extended from Amarillo, southward, the area receiving it being roughly bounded by Amarillo, Lubbock, Childress and Pampa. The wheat country north and northwest of Amarillo was said to have received no rainfall. So far as could be ascertained, Donley county received the heaviest rain reported, most of the area receiving about one inch, Amarillo getting .47 inch, and Pampa about the same amount.

The rain assures ample moisture for planting early crops, while the range grass will be soon ready for grazing and thus relieve stockmen of the major part of feed expense. Farming lands were all in excellent condition for soaking up a good rain, and planting will get under way at the usual time, assuring a good start for crops.

Rainfall recorded in Clarendon since October 1 is as follows: Oct. 21-24, 1.20 inches; November, a trace; Dec. 9, .42 inch; Dec. 15, .50 inch; Dec. 22, 1.00 inch; Dec. 23, .20 inch; Jan. 6, .10 inch; Jan. 17, .10 inch; Feb. 24, .20 inch; Feb. 26, .12 inch; Feb. 27, .08 inch; March 28, 1.45 inches. Snowfall in December is included in above as melted measurement.

Neighbors List 100 Acres For Sick Man

J. W. Skinner, who lives in the Windy Valley community and who has been sick for a long time, received a demonstration last Thursday of what real neighborliness means when thirty-four of his neighbors gathered at his farm, and, before he knew what was happening 28 lists were at work in his field, with 114 horses and mules.

By four o'clock they had listed over 100 acres of land. The crowd then assembled at his home and drove past his window so that he could see the faces of his friends, the number including almost 100 per cent of his neighbors.

"Mr. Skinner was very appreciative and everybody seemed to be happy and glad that we live in Windy Valley," said one of the neighbors who was present.

Those who took part in this splendid deed for a neighbor who was in need of such a lift were: W. O. Drake, C. C. Ayers, G. H. Parker, G. G. Ayers, Cap Anderson, S. V. Halford, R. E. Darnell, A. A. Russell, C. W. Stogner, W. B. Ayers, Emory Morris, F. C. Paulk, J. J. Josey, S. F. Johnson, E. N. Cole, V. O. Morris, H. W. Stogner, Nollie Simmons, Sewell Buchanan, Lacy Noble, Jack Pope, L. B. Nobles, J. S. Harland, Buck Noble, Ivan Harland, Carl Simmons, Van Ray, Williams Cullwell, John Simmons, I. N. Noble, Cornell English, Virgil Yates, N. C. Stogner and Ira Paulk.

Aubrey Brady, 14-year-old-son of Mr. and Mrs. H. L. Brady, won first place here in declamation this year for the third year in succession, winning the same honor in Ochiltree county before moving to Clarendon. He has also won twice at Canyon, and will go there again this year as High Junior contestant.

'Redheaded Stepchild' at College Friday Nite

Eleanor Morrison, as the "red-headed stepchild," will be the feature of the play which will be presented under the auspices of the Methodist Women's Missionary Society at College Auditorium Friday night.

The curtain will rise promptly at 7:45. The well-selected cast has been perfectly trained under the direction of Mrs. U. J. Boston, and those who see the play will have a delightful evening of fun and entertainment. Admission will be 10 cents to all school children and 25 cents to adults.

REPORT MADE ON CHILDREN'S WORK

CRIPPLED CHILDREN'S COUNCIL EXAMINE 301 CHILDREN DURING PAST YEAR

Ira Merchant, president of the Clarendon Lions Club, presented to the club at the Tuesday luncheon copies of the annual report of the Crippled Children's Council, Inc., covering the year 1932.

The section of the report entitled "Record of Cases Handled" will be of interest to the people of Donley county, because several of the cases originated in Donley county through the Lions Club which is a member of the Council. The record of cases handled reads as follows:

New Cases	97
Re-observation	204
X-Rays	66
Photos	60
Operations	39
Anesthetic	32
Casts	66
New Braces	14
Braces Repaired	5
Hospital Days	863
Home Visits	68
Non-Orthopedic Cases	3
Dressings	571
Physio-Therapy	
Treatments	119
Artificial Limbs	1
Clinics Held	3

A total of \$2,871.71 was expended by the Crippled Children's Council in connection with the above year's work, the funds largely originating in the activities of the membership of the Council, supplemented by contributions by various organizations, clubs and individuals. The Council is composed of the Lions, Rotary, Kiwanis and A. B. C. clubs of Amarillo, and the Lions clubs of the Panhandle country.

G. A. McCulloch, of Amarillo, is chairman of the council and a prominent Lion. Other members of the Council are F. J. Storm and A. B. Hunsley of the Rotary club; J. W. Collins and Alex. Alenius of the Kiwanis club; John Armstrong and Rev. Ferrell Fox of the A. B. C. Club; and J. C. Paschall of the Lions Club.

B. T. S. Convention at at Amarillo April 4-6

A convention of Baptist Sunday School and Training Service workers of District No. 10 will be held at Amarillo, April 4-6, meeting with the San Jacinto Heights Baptist church. The district embraces all of the Panhandle area.

An excellent program has been prepared, according to Rev. B. N. Shepherd, of this city. "B. Y. P. U. workers will be especially interested in the conference for all departments which will be held Wednesday morning, as also the address the same morning of Sec. G. S. Hopkins, of Dallas. Sunday school workers will be especially interested in the conference to be held Wednesday afternoon, and in the address of Sec. T. C. Gardner, of Dallas, on "B. T. S. work," said Mr. Shepherd. He expressed the hope that a large delegation would go from Clarendon to the convention.

TRUSTEES TO BE NAMED SATURDAY

VOTERS TO CHOOSE TRUSTEES FOR COUNTY AND INDEPENDENT DISTRICT

Saturday, April 1, will be school trustee election day in Clarendon and Donley county. Clarendon Independent school district voters will vote for independent school district trustees and for a county trustee for Precinct No. 2. The names of Odos Caraway and O. W. Latson will be on the ticket for re-election as trustees of the Clarendon independent school district.

The names of H. T. Burton and Neal Bogard will appear on the same ticket as candidates for county trustee of Precinct No. 2, vote for one.

In Precinct No. 3, voters will vote for either Claude Nash, of Giles, or W. C. Bridges, of Hedley, for county trustees of Precinct No. 3.

Trustees for Precinct Nos. 1 and 4, Edwin Bailey and W. M. Pickering, respectively, are holdovers for another year.

W. A. Poovey, of Ashtola, and O. L. Jacobs, of Hudgins, are candidates for county trustee-at-large, and only voters in common school districts may vote for them.

County school trustees whose terms expire this year are: Precinct 2, O. L. Jacobs; Precinct 3, E. L. Lewis; at large, H. T. Burton.

Any voter who is qualified to vote in other state or county elections may vote in these school elections.

Meteor Seen Here By Local Early Risers

Early risers (if six o'clock is properly called "early") of Clarendon and Donley county were amazed last Friday morning by the sudden appearance of the flaming meteor which was seen all over the Panhandle and New Mexico.

It was visible for only a few seconds, in a northwesterly direction from Clarendon. A number of citizens have reported observing the brilliant display. C. L. Knight, dairyman, stated that he saw its swift flight through the sky end in a burst similar to that of the familiar child's Christmas, or Fourth of July "sparkler."

The Amarillo Daily News of Tuesday morning reported the finding of fragments of the meteor on his farm, by Ed Hart, seven miles west and two miles north of Stratford. The News' story says:

"Upon striking the ground, the meteorite splattered molten metal for a radius of nearly 15 feet. The largest piece found weighed more than four pounds. Grass was burned by the meteorite when it struck. Mr. Hart brought the specimens here Saturday. The meteorite was extremely heavy and mostly metal with minute pieces of rock. The largest piece was about six inches across and four inches high. The particles of the meteorite that splattered from the main piece were like small balls, about a half inch in diameter.

"These meteorites are extremely hard and a steel file will only scratch them, but when a piece was ground on an emery wheel it had an appearance like steel." A scientist, named Nininger, who is a meteorite expert and who happened to be in the north-eastern part of New Mexico when the meteor made its spectacular flight, believes that the main body of the meteor fell in the area near Roy, New Mexico. The fragment found near Stratford would indicate the possibility of a widespread scattering of fragments.

Mr. and Mrs. Jonnie Tucker were Amarillo visitors Sunday.

Scout Patrol No. 1 Wins In Knot Contest

A committee of judges awarded first place in the Knot Contest, held last week, to Patrol No. 1, second place to Patrol No. 2 and third place to Patrol No. 3. The patrols had handsomely decorated boards, on which specimens of knots tied by them were mounted, on display in one of the windows of the Greene Dry Goods Company, official outfitters to the Boy Scouts.

The fourth patrol, to be known as No. 4, will be organized Friday night, five members having already signed up. Only three places are open, and Scoutmaster S. L. Tidwell invites boys who wish to join to be present Friday night at the Baptist church. The five boys already enrolled in the troop are Wayne Estlack, Bobby Wilson, Eldridge Chilton, Maurice Lane and Ray Palmer.

Nickey Stewart has offered the Boy Scouts the privilege of using his well equipped home workshop. He has all sorts of tools and machines and the boys appreciate his offer very much.

Patrol No. 1 is composed of: Nickey Stewart, leader; Bob Boston, Wesley Powell, Truitt Holtzclaw, Aubrey Brady, Marvin Mitchell, Marvin Salmon, Led Jay.

Patrol No. 2, Harold McDaniel, leader; Jesse Cornell, Woodrow Bulls, Linwood Betts, Kermit Sloan, Walter Brady, Kenneth Sloan, Wilson Kutch.

Patrol No. 3, Howard Strawn, leader; Lowell Patton, Houston Gattis, Allen Patman, Jelly McGowan, Johnnie Lott, Billy Cook, James Welch.

COUNTY MEET IS WELL ATTENDED

FINE WEATHER SATURDAY BRINGS CROWD TO SEE INTERESTING CONTESTS

The 1932 Donley County Inter-scholastic Meet, held here Friday and Saturday, was attended by perhaps the largest crowd of spectators ever assembled for a similar occasion. The outdoor events of Friday were marred to some extent by a moderate sand-storm, but Saturday was all that could be asked, as far as calm and pleasant weather was concerned.

All the various contests, both indoors and outdoors, were held on schedule time, and the winners were announced promptly with few exceptions. Many of the contests were highly exciting to the spectators who thronged the athletic field and the various rooms where indoor contests were held.

The Class A athletic events were won by Clarendon High. In the Class B events, both Martin and Chamberlain schools piled up excellent point totals, Martin losing first place to Clarendon Junior High by the narrow margin of five points, and Chamberlain taking third place with four points less than Martin. Clarendon Junior High's score was 33 points, Martin's 28 and Chamberlain's 24 points. Windy Valley scored 11 points, Lelia Lake 9, and Giles and Ashtola 6 each.

Essay
Class A—1st Pauline Boliver, Hedley; 2nd, Jo Ella Stewart, Clarendon.

Class B—1st, Cynthia Mae Eller, Lelia Lake; 2nd, Velma Morgan, Goldston.

ROTARY ANN IN CHARGE PROGRAM

MISS RHODA WIEDMAN TELLS ROTARIANS OF GROWTH OF B. & P. W. CLUB

Miss Rhoda Wiedman, better known to members of the club as "Flapper," and its pianist and official Rotary-Ann, was in charge of the Rotary Club's program Wednesday. She is also president of the local Business and Professional Women's Club.

She gave a very interesting and instructive address on the history, purpose and aims of the B. & P. W. Club. "The first B. & P. W. Club was organized in St. Louis in 1919. From an organization of about 200 members in one city, the movement has spread until the National Federation now has over 1300 clubs, with more than 60,000 members," she told the Rotarians.

The National Federation of B. & P. W. Clubs publishes several magazines for women, and is helping thousands to find places of usefulness in the business world. The clubs have also sponsored several good will tours throughout Europe. Their aims are given as "Activity, progress and idealism."

Several members of the Rotary club made short talks on Health and School Activities, which were also very interesting and well received.

Presbyterian Meeting to Begin Sunday

Rev. Jan A. McMurphy, of Quannah, will preach Sunday night, 7:30 o'clock, at the Presbyterian Church, speaking on the subject, "Does it Do You Any Good to go to Church?" This is the first of a very unusual series of sermons which he will preach each night during the week. Rev. McKee will preach the opening sermon of the Meetings Sunday morning on the subject, "The Church of the Open Door."

Rev. McMurphy, active civic leader, a talented singer and a preacher of rare ability, is at present the moderator of the Presbytery of Dallas. Those who heard him last year are rejoicing at another opportunity of hearing him. The public is invited.

Summer Water Rates Effective April 1st

The City Commission, in session today, decided to make the customary summer water rates effective April 1st instead of May 1st, as heretofore. The summer rates are made to encourage the use of water on lawns and flower and vegetable gardens.

Rates will be as follows: First 3,000 gallons, \$1.50; next 2,000 gallons, 30 cents per thousand; excess above 5,000 gallons, 20 cents per thousand.

MANY ENTRIES LIONS CLUB ESSAY CONTEST

The members of the English classes of the ninth, tenth and eleventh grades are preparing essays for entry in the Lions Club's prize essay contest, which closes April 10th.

The local winner will receive a \$2.50 cash prize from the Lions Club. The district winner will receive a gold medal, and the national winner a free trip, with all expenses paid, to St. Louis.

An Opportunity for Clarendon

The people of Clarendon have the opportunity to make their city the annual gathering place of the cream of Panhandle track men. Next Saturday not less than fifteen, and probably as many as twenty, track teams from the principal schools of the entire Panhandle country, will contend for the honor of winning the first annual Clarendon College Invitation Track Meet.

Will Clarendon give them the stimulus of a monster crowd, or will it act as though nothing of interest could be happening out on the College athletic field?

The News shares the belief of the moving spirits behind the Invitation Meet that if enthusiastic fan support is given to the

Rain Makes Cinder Track "Perfection"

The rain Tuesday night did what was needed to the new cinder track at College Park, where the Clarendon College Invitation Track Meet will be held Saturday, April 1.

Coach John Hutton is quoted as saying that it is doubtful if there is a better track anywhere than that awaiting the big meet. It was well rolled Thursday and pronounced "perfection itself."

As no admission charge will be made it is expected that a record-breaking crowd will witness the hot contests which the stars of the Panhandle's track teams will stage here Saturday.

ZONE MEETING OF LIONS TUESDAY

LADIES' NIGHT WILL BE FEATURE OF ENTERTAINMENT FOR VISITORS

Plans were announced Tuesday at the Lions Club for the Zone meeting which will be held here next Tuesday night, the program for which has been arranged by G. L. Boykin and F. W. Rathjen. A large number of Lions and their wives are expected to attend from clubs within the zone, among which are Amarillo, Pampa, McLean, Childress, Turkey, Quitaque and Claude.

Local and visiting Lions will gather at the regular meeting place at 6 p. m. for a business meeting, and at 7:30 will be joined by their wives and sweethearts at a banquet and Ladies' Night Program. A male quartet and a tap dancing specialty, by Misses Mary Travis Dyer and Peggy Taylor, will be entertainment features, which will be followed by an address by District Governor C. H. Walker, of Pampa.

At the regular luncheon last Tuesday the Lions enjoyed very much several numbers played by Harold White on a musical hand-saw, accompanied by his sister, Miss Dorothy White.

Tom Coke Connally, a visitor, was introduced by his father as "a young man wearing a little dress, who announced when I was getting ready to move to Clarendon about thirty years ago that he wanted to go to Clarendon and grow up with the country."

Tom replied that it was about that time his father began feeding him yeast cakes.

Coaches Stocking and Hutton have the reputation of keeping things moving on schedule, so spectators may be assured of a fast and snappy schedule.

No Admission Charges
The track meet will be free to the public, through the generosity of the merchants and business men of Clarendon who have donated the entire list of valuable merchandise prizes.

Every boy who is a member of any school track team, or even expects to be, should see this extraordinary track meet. They have an opportunity that few young track prospects have—that of seeing seasoned track men in hot contest with the best in the country. A large attendance is expected from both Clarendon and all the county schools, in addition to the rooters who will accompany the visiting teams. Several hundred visitors are expected.

Coaches Stocking and Hutton and all others who have been interested in promoting the meet are sincerely grateful to the business men for the fine cooperation extended to them. A total of 52 firms and individuals have contributed to the premium list. Their names will be published next week, with the report of the winnings at the meet.

List of Jurors, 3rd Week District Court

The following is the list of petit jurors for the third week of the March term of District Court, beginning Monday, April 3rd. From this list will be selected the juries for the criminal cases which will come up for trial during the week, on billings returned by the grand jury.

C. R. Lindsey, R. L. Farris, C. A. Jones, W. C. Bridges, Ed C. Dewey, C. H. Holland, R. L. Steagall, Clyde Hudson, W. P. Howard, G. C. Ayers, J. W. Bland, F. G. Hermesmeier, Henry Tomb, R. L. Duckworth, Frank Hardin, Lee Holland, J. C. Christal, B. F. Wolford, F. B. Crisp, Rhea Couch, J. H. Wood, Edwin Bailey, L. O. Beck, D. W. Turner, C. C. Carter, Earl Alderson, J. T. Bain, W. F. Williams, Carl Naylor, H. D. Bugbee, H. F. Lovell, W. E. Clifford, P. H. Longan, E. B. Baker, F. O. Naylor, and N. R. Simmons.

The grand jury, recessed since Wednesday, March 22nd, will reconvene on Wednesday, April 5th.

W. M. Patman made a business trip to Pampa Tuesday, returning just ahead of the big rain.

NEARLY SCORE OF TEAMS ENTERED

NUMEROUS ENTRIES MADE IN EACH EVENT ASSURE DAY OF EXCITEMENT

Not less than fifteen track teams, with nearly 200 entries for the various events, are assured for the first annual Clarendon College Invitation Track Meet here, Saturday, April 1st. The number will probably be increased to twenty or more, as entries may be made up to Friday night.

Coaches from the following towns have definitely notified Coach Frank Stocking that they will be here with their teams: Amarillo, Pampa, Canyon, Shamrock, Wheeler (two teams), Panhandle, Memphis, Hollis, Dumas, Kirkland, Quitaque, LeFors and Clarendon.

Entries already made include: high hurdles, 10; 100 yd. dash, 20; 280 yd. run, 14; 220 hurdles, 10; mile run, 14; 220 yd. dash, 18; 440 yd. dash, 14; mile relay, 6; high jump, 12; broad jump, 20; javelin, 7; discus throw, 16; shot put, 14; pole vault, 10.

The number of entries for each event assures spectators of exciting contests throughout the meet. Furthermore, since the meet is scheduled to begin at 1:00 p. m. and there are so many contenders, it will be necessary to have quick action in each event.

Coaches Stocking and Hutton have the reputation of keeping things moving on schedule, so spectators may be assured of a fast and snappy schedule.

"SICK, AND YE VISITED ME"

That was a fine thing that J. W. Skinner's neighbors, out in the Windy Valley community, did for him last Thursday. Mr. Skinner, ill for several weeks, had doubtless worried no little bit about his farm work, and thirty-four of his neighbors, with 28 listers and 114 horses and mules, gathered at his farm and listed over 100 acres of land for him. Then they drove past his window, so he could see each of them. It's easy to imagine how a lump rose in his throat as he waved at them and thanked them for what they had done. Would a man want to leave such neighbors as Mr. Skinner has? Not likely.

TWO IMPORTANT ELECTIONS

On Saturday, April 1st, three county school board members will be elected. Two of the full board of five members are "hold-over" members, with another year to serve before their terms expire. Of the other three, a new member will be elected for Precinct No. 2 and one for Precinct No. 3. A member-at-large will be elected.

The precinct trustees will be voted on by the qualified voters of the precinct. The trustee-at-large will be elected by the voters in common school districts only. This is an important election and every qualified voter in each precinct of the county should vote.

Another important election is the Clarendon city election, which will be held Tuesday, April 4, when the mayor will be named.

In view of the fact that poll tax payments have been light this year, each qualified vote carries a higher fractional value in relation to the total possible vote. The fact that there is no "hot campaign" on between the two candidates for mayor should not mean a lack of interest in the election. If you are a qualified voter, by all means vote.

Clarendon Lions feel a justifiable pride in their association with the work of the Crippled Children's Council, Inc., which has its headquarters at Amarillo. The report of the past year's activities of this organization can not reveal the priceless happiness which has been brought in the families whose children's lives have been touched by the healing hand of science. If you have not read the report, turn to it now and read it.

The other day we saw the first violet. A friend tells us he saw a grasshopper. The air has that soft, balmy feel that induces thoughts of clear, running water and wriggling worms and flopping fish. We find ourselves thinking of garden seed, and wondering if freshly turned dirt still smells good. It must be, it surely must be, that Spring is here.

LONGER TERMS FOR STATE OFFICES

Progress in governmental methods is necessarily slow. Mistakes are made and must be corrected. But the general average is in the direction of improvement. The latest move in the direction of improvement is in the State Senate, which has given tentative approval to the adoption of the four-year term for state officials with no possibility of a longer term. Oklahoma and Louisiana have already adopted the plan.

Its greatest merit lies in freeing the official of the necessity of running for office the first two years after election. Once elected he could give his entire time and through the proper discharge of duties of his office.

The principle should be extended to include both state and national offices. Terms of office should be fixed for sufficient length of time, depending on the nature of the office, for the official to accomplish his program unhampered by the necessity of patching up political fences continually.

Franklin D. Roosevelt wants to be president for eight years, because precedent has set eight years as the limit of incumbency for a president. But he must be re-elected in four years. Unavoidably, his chances for re-election will be affected by the events of the next four years. He is riding a wave of popularity now. His people believe in him now. Four years from now he will be no less capable than he is now and vastly more experienced. But political fortune may conceivably toss him into the discard.

An eight-year term, barring removal for cause, would loose political bonds and would leave a president of the United States free to exercise the state-craft which his electors believe he had when they placed him in office.

In 24 of the United States, governors are elected for four-year terms. New Jersey elects for three years. All others elect for two years, including Texas. It can not be denied that at the two-year governors' official acts are more or less colored by consideration of the possible effect on their re-election. Texas ought to have a four-year term for its governor. Texas ought to have longer terms for its other state officials. Longer terms, with no re-election chances, would attract better qualified men to State offices.

DONLEY GINNINGS ARE THIRD LESS

FINAL REPORT 14,679 BALES FOR 1932, AS COMPARED WITH 21,098 FOR 1931

According to the preliminary final report of the Bureau of the Census, issued March 20, the production of ginned bales of cotton in Donley county for 1932 was approximately one-third less than 1931. A final total of 14,679 bales is reported for 1932, as compared with 21,098 for 1931. The State ginned 4,303,589 bales in 1932, as compared with 5,068,779 for 1931. The largest number of bales was ginned by Jones county—107,265 bales—and Lubbock county ginned the second highest number, with 94,921 bales for 1932 as compared with 72,308 for 1931.

The News publishes below an incomplete but representative list of the production by counties in all sections of the State.

Table with columns: County, 1932, 1931. Lists production for counties like Baylor, Bell, Bosque, Bowie, Briscoe, Brown, Caldwell, Callahan, Castro, Childress, Clay, Coleman, Collin, Collingsworth, Colorado, Comanche, Cooke, Coryell, Cottle, Crosby, Dallas, Denton, Donley, Ellis, Falls, Fannin, Fayette, Fisher, Floyd, Garza, Gonzales, Gray, Hale, Hall, Hardeman, Haskell.

Table with columns: Name, 1932, 1931. Lists production for individuals like Hill, Hockley, Hunt, Jones, Kaufman, Knox, Lamar, Lamb, Limestone, Lubbock, Lynn, McLennan, Milam, Mitchell, Navarro, Nolan, Nueces, Red River, Runnels, San Patricio, Scurry, Taylor, Travis, Wheeler, Wichita, Wilbarger, Williamson.

NAYLOR

(By Mrs. Rich Bowlin)

Mrs. Mary Astin of Amarillo is spending quite a while with her cousins, Misses Minnie, Lou and Ava Naylor.

Sunday the Naylor folks enjoyed both Sunday School and Singing. We hope to have more with us next Sunday.

Morris Morrison is this week visiting relatives at Memphis.

Mr. and Mrs. Paul Ashley and son, Gene, of McLean, spent Sunday with Mr. and Mrs. Austin Selby, the ladies are sisters.

Mr. and Mrs. Dee Crites of Lelia Lake spent the week-end with their parents, Mr. and Mrs. A. E. Tidrow.

There will be a teacher, trustee and patron's meeting at the Sunny View school house Friday night and would like for the Naylor folks to be there.

Mrs. Austin Selby and two little daughters, Thelma and Maxine, left for an extended visit to her parents at Borger.

Billy Cook, of Clarendon, spent the week-end with Mr. and Mrs. Clark Alexander.

Let every man speak well of the bridge he goes over.

An Industrial Necessity

A dependable and adequate source of electrical energy is not only a vital convenience to your home and business life—but a definite advantage from an industrial standpoint.

Major industries contemplating changes in location (as many are now doing) are looking toward the progressive small city as the ideal factory site... And those cities which are assured an adequate and constant source of electric power... distributed over an interconnected transmission line system from strategically-located main generating stations—will be the choice of industrial engineers.

The West Texas Utilities Company is aiding industrial growth, through the rendering of this dependable and inexpensive power supply, in 161 progressive West Texas cities, towns and communities.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

SPORTS CHURCHES

SPORT SPUTTERS

BY O. C. WATSON, JR.

The greatest sport event in the athletic history of Clarendon Junior College is at our door. Saturday the schools of the entire Panhandle assemble here, as guests of the local institution, for the first annual Invitation Track Meet. Amarillo should be the victors with a great array of runners and field men. The metropolis of the Panhandle will be well represented. If the weather permits the officials are expecting a crowd of some 500 fans to witness this event. The list of prizes offered will be found on the front page of this paper.

Again Clarendon High School captured all honors at the County Meet, Friday and Saturday. Of much interest was the tennis match between Armstrong of Hedley and P. Smith of Clarendon, the latter winning after a long tussle. For the championship, Wesley Powell and P. Smith played, Smith winning the championship. In a very easy fashion McMurtry and McKee captured the boys' doubles. Saturday the Bronchos took the track meet with no trouble whatsoever, Hedley winning only one first place, that being the 220 yard dash. In the final check up it was found that the Bronchos scored "109" points to Hedley's "15". For class B Lelia Lake was first in points, followed by Martin of Clarendon was high High. In the class A division point man with a total of 19 points. Hudson second with 17 points. In class B, Turnbow of Martin, was high point man with a total of 23 points; Behrens second, with 15 points. The athletes performed before a crowd of 300 fans, and the day was ideal for a track meet.

It is often asserted that heaven is simply a condition: that when righteousness prevails, that is heaven. The figures to portray heaven and our Lord's teaching show the incorrectness of this of what the "wets" promise. "O I know," replied one of the men, "that a three cents tax on a bottle of beer will bring in an additional billion dollars to the government."

CARD OF THANKS

We wish to express our heartfelt thanks and appreciation to our many friends and neighbors who assisted us in the illness and death of our darling baby, Little Jess Tom, who passed away recently. Also do we wish to thank the teachers of the Ashtola school for the beautiful floral offerings. May such sorrow be long in coming to each of you, is our prayer.
Mr. and Mrs. B. L. Collier, and family.
Mr. and Mrs. Earl Billingsley, Mr. and Mrs. R. D. Perry.

Prohibition Facts

By "BOZO"

"Bozo," is out working every day. Listening to what the "wets" say. He passes the news on to you. And the facts he brings are always true.

"Bozo" the Prohibition hound, pricked up his ears. His favorite subject was being discussed by a party who knew nothing about the question, only what he had heard some other uninformed person state.

"Fellows, the whole problem will be solved, if we repeal the prohibition law. One million men would be put to work and that would help to solve the unemployment situation," the man was saying.

"Bozo, snorted his protest to this statement, and recalled to mind a report of the Department of Commerce, made to the Senate. The report showed that in 1914 there were only 86,000 men employed in the manufacture of liquor. Increasing employment in the brewery industry would take away thousands who are now employed in the "soft drink" industry and there would be no net gains in the employees of all industries. The liquor trade never did employ that many men and would not do so now.

"But I'll tell you," said another chap, "Repealing prohibition would permit the Government to levy an internal revenue tax on liquor to about two billion dollars a year."

This statement made Bozo howling mad. The highest liquor tax ever received by the government was \$83,000,000, which included a special war tax in 1919. The average year's liquor tax was less than ten per cent

theory. "I go to prepare a place for you, and if I go to prepare a place for you, I will come again, and will receive you unto myself, that where I am, there ye may be also." (John 14: 2, 3).

But the realization of heaven will exceed our highest expectations. It is noticeable that John in Revelation, depicts the wealth of heaven, but says nothing concerning the riches of the inhabitants. Possibly no tongue can tell of them, no pen can write of them, nor hath it entered into the heart of man an adequate conception of the greatness of the riches of the inheritance of the saints in glory.

In heaven, two of our highest aspirations will be attained. We shall see the King in His beauty, and we shall be like Him. "And every one that hath this hope set on him purifieth himself, even as he is pure" (1. John 3:2,3).

Are you sure of heaven? Have you made arrangements for a home over there? Now is the time for you to get ready to see and enjoy the blessings that God has in store for all who will come to him in faith and obedience.

Sunday morning our subject will be: "Christian Liberties" This

lesson shows some blessings we may enjoy here in this life. Sunday night our subject will be: "The Way to Heaven." This lesson will help you find the way to that Home.—W. E. Ferrell, Minister, First Christian Church, Clarendon, Texas.

A party of Methodist ministers, composed of Revs. M. M. Beavers, presiding elder, E. B. Bowen, L. N. Lipscomb of Amarillo, E. V. Hendrix of Hedley, and E. L. Landreth of Memphis, left Tuesday morning by auto from Clarendon for Dallas, where they will hear an address by Stanley Jones, returned missionary from India. They will return Friday.

Mr. and Mrs. Homer McElvaney and family drove Saturday night to Prague, Okla., about 55 miles east of Oklahoma City, to visit his father, returning Sunday night. Mr. McElvaney states that the wheat crop in the Yukon country is as fine as he has ever seen.

Mr. and Mrs. Tom Bugbee visited relatives in Clarendon Saturday.

Frank Pounds visited in the home of John Sims Friday.

SOCIETY

LORRAINE PATRICK, Editor

Belle Bennett Circle Met Tuesday

Mrs. Simmons Powell and Mrs. B. F. Kirtley were joint hostesses for the Belle Bennett Circle of the Methodist Society, at the home of Mrs. Kirtley Tuesday afternoon.

As it was a social meeting, "42" was the diversion of the afternoon. Those attending were: Mes. Tom Goldston, O. C. Watson, Walter Wilson, R. A. Baker, Paul Shelton, W. C. Thornberry, Curtis Galloway, Blanche Oden, Fred Russell, and Ben Andis.

Pathfinder Club

The hostesses for the regular meeting of the Pathfinder Club Friday afternoon were: Mrs. R. L. Bigger, Mrs. J. W. Evans, Mrs. Sella Gentry, and Mrs. Joe Cluck. The Pulitzer Prize Winner of 1931, "Good Earth," was the lesson. Mrs. J. G. Sherman, as the leader, made the book very interesting by telling many fascinating points concerning Pearl S. Buck, the author; also her purpose in writing the book. The story was told jointly by Mrs. Paul Shelton and Mrs. J. R. Porter. An open house discussion was then allowed.

Honor guests for this worthwhile lesson were the 1926 Book Club, Mrs. George Ryan, Mrs. Arthur Letts, and Mrs. L. S. Bagby.

The 1926 Book Club invited the Pathfinder Club to meet with them April 4 and hear the discussion of "Sons," the sequel of "Good Earth".

After a most enjoyable social hour the Club adjourned until the next regular meeting.

Mrs. W. C. Stewart Is Hostess

Members of the Kill Kare Needle Club and invited guests spent a delightful afternoon Thursday as guests of Mrs. W. C. Stewart at her home on First Street.

The entertainment for the afternoon consisted of pleasant conversation and fancy needle work, with dainty refreshments being served to:

Miss Etta Harned, Mrs. Harry Brumley, Mrs. Eva Draffen, Mrs. W. A. Massie, Mrs. Buel Sanford, Mrs. Ben Hill, Mrs. Homer Mulkey, Mrs. W. B. Sims, Mrs. F. O. Wood, Mrs. M. W. Mosley, Mrs. Ted Williams, and Mrs. W. A. Land, club members.

Guests for the afternoon included Miss Ida Harned, Mrs. Ed Speed, and Mrs. George McCleskey.

Friendship Club

Mrs. S. E. Allison was the hostess to the Friendship Club Tuesday afternoon. Twelve members were present and Mrs. J. E. Chunn was the guest.

The usual opening of the Lord's Prayer was said and the 16th Chapter of Proverbs was read. The rest of the afternoon was spent in interesting conversation and needle work.

At the close of the session delicious ice cream and cake was served to: Mes. C. R. Skinner, J. H. Harris, J. W. Rowland, H. Tyree, J. D. Stocking, M. E. Thornton, J. A. Tombs, M. T. Crabtree, C. E. Lindsey, L. Ballew and J. E. Chunn.

Presbyterian Banquet

The ladies of the Presbyterian Auxiliary served dinner to the members of their congregation and families, Wednesday evening, in the basement of their church.

During the evening a report was given on each department of the church.

Many games and other forms of entertainment were enjoyed by members of the Presbyterian Church.

CONTEST CLOSES

The contest between "The Dorcas Class", Mrs. W. T. Hayter teacher, and "The Come as You Are, Men's Bible Class," W. E. Ferrell teacher, closed last Sunday with the men leading by 950 points. The ladies will set the men up to a "Big Supper" next Tuesday night. Every member of both classes is urged to be present next Sunday for final plans and arrangements.

BUSINESS WOMEN TENDER BANQUET

B. & P. W. CLUB HONORS BUSINESS ASSOCIATES TUESDAY EVENING

Maintaining an established reputation for delightfully planned and executed dinner-programs, the Clarendon Business and Professional Women's Club members were hostesses Tuesday evening at the annual "Bosses' Banquet" which is tendered to their employers or business associates.

Dainty hand-made programs marked the places for the sixty-five guests and club-members in the large banquet hall of Caraway's Cafe, which served the following delicious menu:

- Tomato juice cocktail
- Broiled steak
- Baked potatoes
- Sliced tomatoes
- Fruit salad
- Hot rolls
- Lime ice
- Salted nuts
- Cake
- Mints
- Coffee

The program began with a "smile" song, to the tune of "Pack all your troubles," with Miss Rhoda Wiedman, club president, acting as toastmistress, a unique feature of her direction of the program being that each number was announced in rhyme.

Thus it was that after the invocation by Mrs. Mae Womack, she introduced the member who delivered the welcome address: "And now it's my pleasure to introduce to you, one of our girls whom we've tried and found true. You know her quite well in a business way, for you, too, have been with her from day to day. A welcome tonight she'll bring to you, a welcome that'll be friendly and hearty, too. So without any frills—let's be very plain—ladies and gentlemen, meet Miss Lane."

Recalling the story of the man who always put on his spectacles when about to eat cherries so that the fruit might look larger and more tempting, she invited the club's guests to "put on your spectacles and we will do our best to provide the cherries." She then quoted five "cherries" of philosophical thought—"The law of worthy life is fundamentally the

law of strife. It is only through labor and painful effort, by grim energy and resolute courage that we move on to better things"; "It is well for a man to respect his own vocation, whatever it is, and to think himself bound to uphold it and to claim for it the respect it deserves"; "The character and qualifications of the leader are reflected in the men he selects, develops, and gathers around him"; "Co-operation, not competition, is the life of trade" and "co-operation is not a sentiment, it is an economic necessity"; and last, she quoted Hellen Keller, the blind girl, who said, "My share of the work of the world may be limited, but the fact that it is work makes it precious." Her comment on these quotations was thoughtful and very impressive.

A surprise number was a vocal solo, with guitar accompaniment, by T. D. Nored, whose surprise at being called on was greater than the surprise of most of the guests who were not aware of his accomplishment. He refused to accept an encore, however.

Entertainment numbers which were greatly enjoyed, each being heartily encored, were a quartet composed of Misses Katherine Bowen, Lotta Bourland, Etta Harned and Norma Rhode, with Miss Mantie Graves at the piano; a piano solo by Miss Dorothy White; and a tap dancing specialty by Misses Travis Dyer and Peggy Taylor.

J. R. Porter's talk was announced by Miss Wiedman just as the long-looked-for rain began falling and, although he looked his humorous best and kept his foot on his vocal loud pedal (a real acrobat!) in order to be heard above the drum of the rain, it is doubtful if any one knows any more about what he said than does this reporter, who, like all the other sixty-odd, was listening to the rain. He was applauded when he concluded.

The principal speaker of the evening was Mrs. Bessie Smith, who was introduced, in rhyme as were all the others, as the organizer and first president of the club. She told, in a very interesting way, of the birth and growth of B. & P. W. Clubs, the national federation of which is the largest women's organization in the world. In 1919 it had only 200 members. Today it has more than 1300 clubs with 62,000 members. In Texas there are over 60 clubs.

with more than 2,500 members.

"Other counties heard of our work through the European Good Will tour, and some of our outstanding members were invited to Geneva, Switzerland in 1930, where was formed the International Federation of B. & P. W. Clubs, and so today our work is being carried forward in almost every country in the world," said Mrs. Smith.

"The club membership, of course, is made up of busy women, working either through choice or necessity, banded together to improve their minds and bodies so as to render the most effective service possible and thus realize joy and happiness of living; demonstrating to the world that woman is a living, thinking individual, capable of working hand in hand with the men of the world. Women are everywhere studying the great economic problems and their social implications. B. & P. W. members are learning to think clearly and are becoming a part of the fabric of American business life. Our club is a civic club, similar to the Lions, Rotary, Kiwanis and other men's clubs. In addition to its other aims, one of the major ideals of the National Federation is 'at least a high school education for every girl.' More than \$250,000 has been expended in helping some 1500 girls and several boys with a part, or the whole, of their education. The Clarendon club has made it possible for three or four girls to attend Clarendon College," Mrs. Smith said in the course of her splendid address.

The business men whose good fortune it was to attend the banquet are sincerely appreciative of the pleasant and interesting

SENIORS HAVE BUSY WEEK

The Seniors have received a hint of how busy their lives are to be in the future. Innumerable class meetings have been held to decide several questions. Some of these meetings were held before anything definite was decided. After much delay because of dissension among the class members, blue and silver were agreed upon as the class colors. A committee consisting of Louise Smith, Garland Wood, Elizabeth Dunn, and Phillip Smith was appointed to make suggestions for the class motto and the class flower. They are expected to report the latter part of this week. Other questions that have been decided are the dates of those two important events in a Seniors Life, Class Day and Class Night. The former will be on April 28th. Plans for this occasion have not yet been made. Class night will be on May 12th. The list of names for the diplomas was also taken.

The three act comedy, "Girl Shy," which was presented to a full house last Thursday night, went over with a "bang." Kenneth Brown played the part of the boy who was girl shy, and James Smith as the college flirt. The melting action began when it became apparent that Kenneth was engaged to another girl when Mr. Arsdale, Tom's father, arrived with the girl whom he wished Tom to marry. James proved to be helpful as a close friend to Kenneth since he thought of the idea of having Kenneth engaged to another girl when Mr. Arsdale and Sylvia arrived. Helen Lawler was successful in making the boys think she was a "professional cleaner" instead of a wealthy society girl. Cleta Camp, the real "professional cleaner," was a movie aspirant, but was a "fizzle" in her attempt to crash the movies. Charles Walker was a typical college Dean who knew about college life, and moved in his characteristic dignified manner. Nova Cook somewhat resented being kidnapped and became rather indignant. She was so affected that she fairly got Mr. Arsdale told. However, she fell in love with the distinguished Alfred Tennyson Mergatoff, who was Lu McClellan. Virginia Wisdom had inspirations and expressed her feelings in verse. Claudine Ratcliff was the sweetheart of James and was she a cut up? Pauline Slover, who was Asma, experienced some difficulty in convincing others that she was no pack-horse, but a wash lady. Chuck Mayo was ultimately successful in regaining the love of his sweetheart after employing such means as kidnapping and etc. Birdie was glad to see him after she had failed to become a movie actress. J. R. Cox made a typical Chuck. Harold Phelps in impersonating Mr. Arsdale, was self-confident and determined to manage his boy, but at the end he consented to other arrangements. From all indications the play was a success. Miss Lorraine Patrick kindly consented to direct the play and we feel that what measure of success we might justly claim is due to her untiring efforts. The society is indeed appreciative of the splendid cooperation extended by the public in supporting the play. We wish to thank Rhodin Chase, Hubert Reavis, and "Fiery Five" chorus for their valuable contributions. We especially thank the Kerbow Hardware Company for the use of the beautiful furniture during the presentation of the program.

ASSEMBLY REPORT

Thursday, March 23, at 1:10 an assembly was called for all high school and college students. An excerpt of the play "Girl Shy" was given, also the "Fiery Five" chorus gave a part of their dance, "Stepping Around."

SOPHOMORES PLAN A PICNIC

The Sophomores had a class meeting last week and decided to go on a picnic. Mr. Burton advised them, however, to set no certain date because of the uncertainty of the weather, but they will go soon on some pretty afternoon after school. The exact date will be announced later.

HOME ECONOMICS

First year girls are working on a luncheon menu. Their chief aim is to prepare a vegetable that they dislike in a way that will be appetizing to them. Among these vegetables are spinach, cabbage, turnips etc. The second year girls are beginning their problems of selecting a suitable layette for a baby at a minimum cost. The third year girls are beginning special occasion dresses, some of which will be worn for graduation exercises.

LIBRARY NOTES

The regular meeting of the Palo Duro Literary Society was held in the society rooms at 7:30 Wednesday evening. After the roll call and reading of the minutes of the previous meeting, one of the most interesting programs of the year was given. The life and works of John Masefield, Poet Laureate of England, were main features. Life of Masefield-Bill Word; Spring and the Poets-Dorothy Jo Taylor; Poetry of Masefield-Pauline Shelton, were numbers on the program. Another very interesting feature on the program was a group of several popular piano selections played by Arthur Chase. Every one enjoyed this number very much and hopes that Mr. Chase will play again some time.

HOME ECONOMICS

Public school reorganization is provided in Senate bill No. 387 reported favorably to the Senate. Its principal feature is that it makes the county the unit for administrative purposes. Existing districts will continue to function so far as taxes, bond issues, etc., are concerned. Administration of schools would be vested in a county board of seven trustees, elected by popular vote for terms of six years, and a county superintendent, elected by the trustees.

The "short short" meets the desire for a more compact and swifter narrative form to conform to this hurrying age. Because the writer must simply imply much, he is compelled to use words in a special manner-words that suggest rather than actually tell. The writer gains much through the use of vivid phrases, charged with dramatic implications, making the story more abrupt but the quickened pace gives it heightened effect and dramatic appeal. Another new book which is a gift by Mrs. George Ryan is "Pere Marquette" by Agnes Repplier. It is a vivid story of this explorer and adventurer, humanist and missionary, priest and hero, who, as a great pioneer, helped to lay the foundation of America. got to use diplomacy to get along with these teachers, and I intended to tell him (Mr. Burton) that I had gone fishing.

You ought to have seen the show last nite. Sloan Baker was sure nertz. He was all stuffed with pillows to make him look like he was fat when he ain't and he had a fancy arch on his epibrouse which was pointed red, black and besides all that he wuz jumping a roap. He ought to go in for ballay dancing.

Dick Nickels told me that Leroy Leathers had gone in for profile sketches in a big way, as wuz seen in english class Munday drawing a picture of Lloyd Benson's face turned sideways. I think I'll be a skulpter-the hardwair business is a little slow right now and I reckon it will be till hot weather when the congressmen start drinking beer and buying bottle caps. Sure is a shame the way those people down at Austin carry on.

Say, I've been thinking about something misterious and as soon as I finish my correspondence course on How to be a Detective, I'm gonna' do a little shadow work or finger printing or a lot of hard thinking and try o find out what Rhodin Chase carries in that brief case.

Well, I gess I had better clothes and study my edjucaatshum lessun for tomorrow.

So long.

Pinky.

The writer gains much through the use of vivid phrases, charged with dramatic implications, making the story more abrupt but the quickened pace gives it heightened effect and dramatic appeal. Another new book which is a gift by Mrs. George Ryan is "Pere Marquette" by Agnes Repplier. It is a vivid story of this explorer and adventurer, humanist and missionary, priest and hero, who, as a great pioneer, helped to lay the foundation of America. In this biography the author paints him as a romantic figure, a trail man inspired by a heroic spirit which overcame all obstacles. The peak of the thrilling story is the account of Marquette and Joliet's expedition on the Mississippi in two

By MRS. C. A. BURTON

The Best Short Shorts of 1932" is a new book in the library which is proving popular. It is edited by Paul Ernest Anderson and Lionel White, and is the first venture in this particular type of story collection in book form. The editors plan to make it a yearly feature. It includes stories by Peter B. Kyne, Lord Dunsany, Zona Gale, Julian L. Shaprio, and many other English as well as American writers. The "short short" story means ordinarily a story of about 1500 words in length, and has become increasingly popular. Few important magazines fail to carry a "short short" in each issue, and seven magazines in the U. S. use them exclusively.

HOME ECONOMICS

Public school reorganization is provided in Senate bill No. 387 reported favorably to the Senate. Its principal feature is that it makes the county the unit for administrative purposes. Existing districts will continue to function so far as taxes, bond issues, etc., are concerned. Administration of schools would be vested in a county board of seven trustees, elected by popular vote for terms of six years, and a county superintendent, elected by the trustees.

fragile birch-bark canoes, facing death, with nothing to guide them but courage and will. The story is authoritative, and very readable.

A slim volume of Edgar A. Guest's poems, "Just Folks," is also being appreciated.

One teacher in the County schools told me she got three selections for the recent county meet from this little volume.

Our friends are still remembering us with much appreciated books. These have come last week:

By Miss Mary Sue Watters "God and the Grocerymen"-Harold Bell Wright.

By Jimmie Lumpkin "Pitter Patter Book", "Hans Brinker for Children"-Mary Mapes Dodge "Hopalong Cassidy"-Clarence E. Mulford.

By Mrs. George Ryan "Pere Marquette"-Agnes Repplier. "The Crusader" - Harold Lamb.

For all these we say "Thank

you"-but still like Oliver Twist, we are begging for "more".

SHERIFF PIERCE WINS \$25,000 DAMAGE SUIT

Sheriff Guy Pierce will not have to pay \$25,000 damages arising out of his arrest of Joe Ivey, of Pampa, recently. The latter's suit against Mr. Pierce was tried Monday without jury before District Judge A. J. Fires, by agreement of counsel for the plaintiff, the jury having been dismissed for the week.

Sheriff Pierce arrested Ivey on description furnished him by the sheriff of Hardeman county of a certain car and its contents. When the sheriff recognized the car and attempted to stop it, the driver refused to stop and Sheriff Pierce shot a tire flat. It developed that Ivey was not the wanted man. He later filed suit for \$10,000 actual damages and \$15,000 exemplary damages. His attorney indicated the possibility of an appeal to a high court.

POISON
in Your bowels!

Poisons absorbed into the system from souring waste in the bowels, cause that dull, headachy, sluggish, bilious condition; coat the tongue; foul the breath; sap energy, strength and nerve-force. A little of Dr. Caldwell's Syrup Pepsin will clear up trouble like that, gently, harmlessly, in a hurry. The difference it will make in your feelings over night will prove its merit to you.

Dr. Caldwell studied constipation for over forty-seven years. This long experience enabled him to make his prescription just what men, women, old people and children need to make their bowels help themselves. Its natural, mild, thorough action and its pleasant taste commend it to everyone. That's why "Dr. Caldwell's Syrup Pepsin," as it is called, is the most popular laxative drugstores sell.

DR. W. B. CALDWELL'S
SYRUP PEPSIN
A Doctor's Family Laxative

It Takes More Than Salts, Calomel, Mineral Waters, Oils, or Laxative Pills to Arouse a Sluggish Liver

They Give Only Temporary Relief From Constipation and Biliousness, Because They Have No Effect Whatever on the Liver or Its Production of Bile

Bile is nature's own laxative and your stomach and bowels require at least one quart of fresh bile every day to keep them clean, pure, free from fermentation, putrefaction, gas and disease germs.

When your liver becomes torpid or sluggish the bile stagnates and stops flowing freely. The contents of your bowels become the breeding place for germs and poisons; your food does not digest—it just ferments and decays in the bowels. The blood absorbs these poisons and you suffer from constipation, gas, sick headaches, biliousness, nervousness and sour stomach.

Sargon Soft Mass Pills will remove the cause of this condition and purify your entire system in nature's way. They are not like any other medicine you have ever taken. They are so gentle, thorough and natural in their action that there is nothing about them to remind you that you have ever taken a medicine, and most remarkable of all you gradually reduce the dose until you no longer require a laxative at all.

Five years ago it was generally believed that calomel and laxative drugs stimulated the liver, but modern science has proved that calomel, salts, mineral waters, oils and other laxatives have no effect whatever on the liver.

Sargon Soft Mass Pills act directly on the liver because they

contain two amazing substances which highest medical authorities agree are the only effective stimulants to the bile-producing activity of the liver known to modern science. These substances stimulate and invigorate the liver to cleanse and purify itself through increasing its production of bile. This fresh bile immediately starts to work neutralizing acids and poisons, stopping fermentation and decay, cleansing and purifying the bowels and sweeping out accumulated poisons.

Unless you have tried Sargon Soft Mass Pills you can have no idea of the effects produced by this natural cleansing of your liver and bowels. It makes you feel years younger, stronger, healthier and happier. It brings back life and color to faded eyes and cheeks, restores the appetite and sound digestion—gives you a new outlook on life itself.

Insist on genuine Sargon Soft Mass Pills. Don't be misled. There are only two known substances which will actually stimulate a torpid or sluggish liver to cleanse and purify itself by increasing its production of bile. Sargon Soft Mass Pills contain both of these substances and no other advertised medicine on the American market today does contain them.

Only 60c for a full 30-day treatment. At your druggist, or write G. F. Willis, Inc., Atlanta, Ga.

Douglas-Goldston Drug Company.

BAPTIST TRAINING SCHOOL EXCELLENT ENROLLMENT

Under the direction of Miss Jessie Cook, B. T. S. Director of First Baptist Church of this

city, an excellent training school for Sunday school workers has been held this week.

Seventy-six persons had enrolled up to Wednesday and several more were expected. It is believed that at least 75 will be awarded their seals Friday night when the school will come to a close.

MELLOWED 80 MILLION YEARS

While brutes grew coats of mail in OKLAHOMA

MILLIONS of years ago Nature buried in Oklahoma certain priceless complex chemical compounds. Ages went by—long ages which saw the rise and fall of life in strange forms. And little by little, heat and pressure began to have its effect. Cambro-Ordovician crude oil was in the making! Today the drills of Sinclair oil men have bitten deep into the soil of Oklahoma and tapped this treasure trove. Piped to the great Sinclair refineries and carefully refined and blended, Cambro-Ordovician crude oil becomes Sinclair Opaline Motor Oil, a product resulting from man's exhaustive care and Nature's 80 million years of priceless treatment. Man's part in producing Opaline is all-important. In order that you shall have full value for your money, Sinclair not only de-waxes Opaline—it goes

one step further and removes the non-lubricating petroleum jelly by chilling the oil down to as low as 60° F. below zero. An extra step taken by few refiners besides Sinclair! Have the nearest Sinclair dealer change your oil to Sinclair Opaline according to the Sinclair Law of Lubrication Index. Notice how quietly your engine runs. Then, at the next draining period examine the used Opaline. Observe how little it still holds its rich lubricating body—how little oil has been used up!

REMEMBER: Sinclair offers you your choice—Sinclair Opaline, made from the oldest Mid-continent crudes, or Sinclair Pennsylvania, made from the costliest Pennsylvania grade crude.

SENIORS HAVE BUSY WEEK

The Seniors have received a hint of how busy their lives are to be in the future. Innumerable class meetings have been held to decide several questions. Some of these meetings were held before anything definite was decided. After much delay because of dissension among the class members, blue and silver were agreed upon as the class colors. A committee consisting of Louise Smith, Garland Wood, Elizabeth Dunn, and Phillip Smith was appointed to make suggestions for the class motto and the class flower. They are expected to report the latter part of this week. Other questions that have been decided are the dates of these two important events in a Seniors Life, Class Day and Class Night. The former will be on April 28th. Plans for this occasion have not yet been made. Class night will be on May 12th. The list of names for the diplomas was also taken.

The three act comedy, "Girl Shy," which was presented to a full house last Thursday night, went over with a "bang."

Kenneth Brown played the part of the boy who was girl shy, and James Smith as the college flirt. The inciting action began when it became apparent that Kenneth was engaged to another girl when Mr. Arsdale, Tom's father, arrived with the girl whom he wished Tom to marry. James proved to be helpful as a close friend to Kenneth since he thought of the idea of having Kenneth engaged to another girl when Mr. Arsdale and Sylvia arrived. Helen Lawler was successful in making the boys think she was a "professional cleaner" instead of a wealthy society girl. Oleta Camp, the real "professional cleaner," was a movie aspirant, but was a "fizzle" in her attempt to crash the movies.

Charles Walker was a typical college Dean who knew about college life, and moved in his characteristic dignified manner. Nova Cook somewhat resented being kidnapped and became rather indignant. She was so affected that she fairly got Mr. Arsdale told. However, she fell in love with the distinguished Alfred Tennyson Mergatoff, who was Lu McClellan. Virginia Wisdom had inspirations and expressed her feelings in verse. Claudine Ratcliff was the sweetheart of James and was she a cut up? Pauline Slover, who was Asma, experienced some difficulty in convincing others that she was no pack-horse, but a wash lady. Chuck Mayo was ultimately successful in regaining the love of his sweetheart after employing such means as kidnapping and etc. Birdie was glad to see him after she had failed to become a movie actress. J. R. Cox made a typical Chuck. Harold Phelps in impersonating Mr. Arsdale, was self-confident and determined to manage his boy, but at the end he consented to other arrangements.

From all indications the play was a success. Miss Lorraine Patrick kindly consented to direct the play and we feel that what measure of success we might justly claim is due to her untiring efforts.

The society is indeed appreciative of the splendid cooperation extended by the public in supporting the play. We wish to thank Rhodin Chase, Hubert Reavis, and "Fiery Five" chorus for their valuable contributions. We especially thank the Kerbow Hardware Company for the use of the beautiful furniture during the presentation of the program.

Dear Jake:
 I sure was mad when I found out that you told Mr. Burton that I wuz playing golf the other day when I should have been in government class. You

got to use diplomacy to get along with these teachers, and I intended to tell him (Mr. Burton) that I had gone fishing.

You ought to have seen the show last nite. Sloan Baker was sure nertz. He was all stuffed with pillows to make him look like he was fat when he ain't and he had a fancy arch on his epaulettes which was pointed real black and besides all that he wuz jumping a roap. He ought to go in for ballay dancing.

Dick Nickels told me that Leroy Leathers had gone in for profile sketches in a big way, as wuz seen in english class Munday drawing a picture of Lloyd Benson's face turned sideways. I think I'll be a skulpter—the hardwar business is a little slow right now and I reckon it will be till hot weather when the congressmen start drinking beer and buying bottle caps. Sure is a shame the way those people down at Austin carry on.

Say, I've been thinking about something misterious and as soon as I finish my correspondence course on How to be a Detective, I'm gonna' do a little shadow work or finger printing or a lot of hard thinking and try o find out what Rhodin Chase carries in that brief case.

Well, I guess I had better clothes and study my edjucatum lesson for tomorrow.

So long,
 Pinky.

ASSEMBLY REPORT

Thursday, March 23, at 1:10 an assembly was called for all high school and college students. An excerpt of the play "Girl Shy" was given, also the "Fiery Five" chorus gave a part of their dance, "Stepping Around."

SOPHOMORES PLAN A PICNIC

The Sophomores had a class meeting last week and decided to go on a picnic. Mr. Burton advised them, however, to set no certain date because of the uncertainty of the weather, but they will go soon on some pretty afternoon after school. The exact date will be announced later.

Palo Duro Literary Society

The regular meeting of the Palo Duro Literary Society was held in the society rooms at 7:30 Wednesday evening. After the roll call and reading of the minutes of the previous meeting, one of the most interesting programs of the year was given. The life and works of John Masefield, Poet Laureate of England, were main features. Life of Masefield—Bill Word; Spring and the Poets—Dorothy Jo Taylor; Poetry of Masefield—Pauline Shelton, were numbers on the program. Another very interesting feature on the program was a group of several popular piano selections played by Arthur Chase. Every one enjoyed this number very much and hopes that Mr. Chase will play again some time.

HOME ECONOMICS

First year girls are working on a luncheon menu. Their chief aim is to prepare a vegetable that they dislike in a way that will be appetizing to them. Among these vegetables are spinach, cabbage, turnips etc.

The second year girls are beginning their problems of selecting a suitable layette for a baby at a minimum cost.

The third year girls are beginning special occasion dresses, some of which will be worn for graduation exercises.

Public school reorganization is provided in Senate bill No. 387 reported favorably to the Senate. Its principal feature is that it makes the county the unit for administrative purposes. Existing districts will continue to function so far as taxes, bond issues, etc., are concerned. Administration of schools would be vested in a county board of seven trustees, elected by popular vote for terms of six years, and a county superintendent, elected by the trustees.

Library Notes

By MRS. C. A. BURTON

"The Best Short Shorts of 1932" is a new book in the library which is proving popular. It is edited by Paul Ernest Anderson and Lionel White, and is the first venture in this particular type of story collection in book form. The editors plan to make it a yearly feature. It includes stories by Peter B. Kyne, Lord Dunsany, Zona Gale, Julian L. Shapiro, and many other English as well as American writers. The "short short" story means ordinarily a story of about 1500 words in length, and has become increasingly popular. Few important magazines fail to carry a "short short" in each issue, and seven magazines in the U. S. use them exclusively.

The "short short" meets the desire for a more compact and swifter narrative form to conform to this hurrying age. Because the writer must simply imply much, he is compelled to use words in a special manner—words that suggest rather than actually tell. The writer gains much through the use of vivid phrases, charged with dramatic implications, making the story more abrupt but the quickened pace gives it heightened effect and dramatic appeal.

Another new book which is a gift by Mrs. George Ryan is "Pere Marquette" by Agnes Reppier. It is a vivid story of this explorer and adventurer, humanist and missionary, priest and hero, who, as a great pioneer, helped to lay the foundation of America. In this biography the author paints him as a romantic figure, a frail man inspired by a heroic spirit which overcame all obstacles. The peak of the thrilling story is the account of Marquette and Joliet's expedition on the Mississippi in two

fragile birch-bark canoes, facing death, with nothing to guide them but courage and will. The story is authoritative, and very readable.

A slim volume of Edgar A. Guest's poems, "Just Folks," is also being appreciated.

One teacher in the County schools told me she got three selections for the recent county meet from this little volume.

Our friends are still remembering us with much appreciated books. These have come last week:

By Miss Mary Sue Watters "God and the Groceryman"—Harold Bell Wright.

By Jimmie Lumpkin "Pitter Patter Book", "Hans Brinker for Children"—Mary Mapes Dodge. "Hopalong Cassidy"—Clarence E. Mulford.

By Mrs. George Ryan "Pere Marquette"—Agnes Reppier. "The Crusader"—Harold Lamb.

For all these we say "Thank

you"—but still like Oliver Twist, we are begging for "more".

SHERIFF PIERCE WINS \$25,000 DAMAGE SUIT

Sheriff Guy Pierce will not have to pay \$25,000 damages arising out of his arrest of Joe Ivey, of Pampa, recently. The latter's suit against Mr. Pierce was tried Monday without jury before District Judge A. J. Fires, by agreement of counsel for the plaintiff, the jury having been dismissed for the week.

Sheriff Pierce arrested Ivey on description furnished him by the sheriff of Hardeman county of a certain car and its contents. When the sheriff recognized the car and attempted to stop it, the driver refused to stop and Sheriff Pierce shot a tire flat. It developed that Ivey was not the wanted man. He later filed suit for \$10,000 actual damages and \$15,000 exemplary damages. His attorney indicated the possibility of an appeal to a high court.

Mr. Lee and Elbert White, of

POISON in Your bowels!

Poisons absorbed into the system from souring waste in the bowels, cause that dull, headachy, sluggish, bilious condition; coat the tongue; foul the breath; sap energy, strength and nerve-force. A little of Dr. Caldwell's Syrup Pepsin will clear up trouble like that, gently, harmlessly, in a hurry. The difference it will make in your feelings over night will prove its merit to you.

Dr. Caldwell studied constipation for over forty-seven years. This long experience enabled him to make his prescription just what men, women, old people and children need to make their bowels help themselves. Its natural, mild, thorough action and its pleasant taste commend it to everyone. That's why "Dr. Caldwell's Syrup Pepsin," as it is called, is the most popular laxative drugstore sell.

Dr. W. B. Caldwell's SYRUP PEPSIN A Doctor's Family Laxative

It Takes More Than Salts, Calomel, Mineral Waters, Oils, or Laxative Pills to Arouse a Sluggish Liver

They Give Only Temporary Relief From Constipation and Biliousness, Because They Have No Effect Whatever on the Liver or Its Production of Bile

Bile is nature's own laxative and your stomach and bowels require at least one quart of fresh bile every day to keep them clean, pure, free from fermentation, putrefaction, gas and disease germs.

When your liver becomes torpid or sluggish the bile stagnates and stops flowing freely. The contents of your bowels become the breeding place for germs and poisons; your food does not digest—it just ferments and decays in the bowels. The blood absorbs these poisons and you suffer from constipation, gas, sick headaches, biliousness, nervousness and sour stomach.

Sargon Soft Mass Pills will remove the cause of this condition and purify your entire system in nature's way. They are not like any other medicine you have ever taken. They are so gentle, thorough and natural in their action that there is nothing about them to remind you that you have ever taken a medicine, and most remarkable of all you gradually reduce the dose until you no longer require a laxative at all.

Five years ago it was generally believed that calomel and laxative drugs stimulated the liver, but modern science has proved that calomel, salts, mineral waters, oils and other laxatives have no effect whatever on the liver.

Sargon Soft Mass Pills act directly on the liver because they

contain two amazing substances which highest medical authorities agree are the only effective stimulants to the bile-producing activity of the liver known to modern science. These substances stimulate and invigorate the liver to cleanse and purify itself through increasing its production of bile. This fresh bile immediately starts to work neutralizing acids and poisons, stopping fermentation and decay, cleansing and purifying the bowels and sweeping out accumulated poisons.

Unless you have tried Sargon Soft Mass Pills you can have no idea of the effects produced by this natural cleansing of your liver and bowels. It makes you feel years younger, stronger, healthier and happier. It brings back life and color to faded eyes and cheeks, restores the appetite and sound digestion—gives you a new outlook on life itself.

Insist on genuine Sargon Soft Mass Pills. Don't be misled. There are only two known substances which will actually stimulate a torpid or sluggish liver to cleanse and purify itself by increasing its production of bile. Sargon Soft Mass Pills contain both of these substances and no other advertised medicine on the American market today does contain them.

Only 60c for a full 30-day treatment. At your druggist, or write G. F. Willis, Inc., Atlanta, Ga.

CHURCH WORK REPORT

Rev. C. B. Ingram reports the following work done during the past three months: Number in Sunday schools, 227; number preached to, 745; number of visits, 156; number of talks, 103; number of professions, 115. Cash received since Conference in November, \$16.07. Number of miles traveled by the 24-year-old filly in March, 300. 46 conversions in sandstroms

and 300 miles in an old open buggy.

"A big car man said, "We used to look down on you and your old gray mare and buggy. Now we are afoot and have to look up at you as you drive by us," said Rev. Ingram.

BAPTIST TRAINING SCHOOL EXCELLENT ENROLLMENT

Under the direction of Miss Jessie Cook, B. T. S. Director of First Baptist Church of this

city, an excellent training school for Sunday school workers has been held this week.

Seventy-six persons had enrolled up to Wednesday and several more were expected. It is believed that at least 75 will be awarded their seals Friday night when the school will come to a close.

MELLOWED 80 MILLION YEARS. While brutes grew coats of mail in OKLAHOMA. MILLIONS of years ago Nature buried in Oklahoma certain priceless complex chemical compounds. Ages went by—long ages which saw the rise and fall of life in strange forms. And little by little, heat and pressure began to have its effect. Cambro-Ordovician crude oil was in the making! Today the drills of Sinclair oil men have bitten deep into the soil of Oklahoma and tapped this treasure trove. Piped to the great Sinclair refineries and carefully refined and blended, Cambro-Ordovician crude oil becomes Sinclair Opaline Motor Oil, a product resulting from man's exhaustive care and Nature's 80 million years of priceless treatment. Man's part in producing Opaline is all-important. In order that you shall have full value for your money, Sinclair not only de-waxes Opaline—it goes one step further and removes the non-lubricating petroleum jelly by chilling the oil down to as low as 60° F. below zero. An extra step taken by few refiners besides Sinclair! Have the nearest Sinclair dealer change your oil to Sinclair Opaline according to the Sinclair Law of Lubrication Index. Notice how quietly your engine runs. Then, at the next draining period examine the used Opaline. Observe how it still holds its rich lubricating body—how little oil has been used up! REMEMBER: Sinclair offers you your choice—Sinclair Opaline, made from the oldest Mid-continent crudes, or Sinclair Pennsylvania, made from the costliest Pennsylvania grade crude. COUNTY SCHOOL NEWS

Pleasant Valley and Hackberry School Districts will vote on consolidation April 22. The new school building will be placed half-way between the two present school houses if the consolidation is voted. Each school is a seven-grade, one-teacher school. The most important advantage of the consolidation is that the teacher load in grades will be cut in half, thereby enabling the pupil to secure longer recitation periods in each subject. J. A. Meaders is presiding officer for Pleasant Valley election, and John Chamberlain for Hackberry election. Present indications show that the consolidation will carry almost unanimously in the two districts.

Most of the common school districts sent in letters, petitions and telegrams protesting the passing of Senate Bill No. 387. This bill if passed would lead to centralization of school affairs and would not be democratic.

Donby County schools are not in a depression as far as material for interscholastic League contests is concerned. Contestants in the literary events were well trained. Large numbers of patrons of the schools showed an interest in the contest by their attendance and appreciative attention. We hope next year to make the county 100 per cent in membership in the League. Saturday was a beautiful day for the athletic events. A large crowd witnessed some good field records made.

Five district meetings of principals, trustees, teachers and patrons will be held Friday night. D. P. Smith will be in charge of the meeting at White Fish, Sid Thomas at Martin, Clarence Jackson at Windy Valley, Joe Baker at McKnight and Mrs. John Naylor at Sunnyview. A lively interest is being shown in these meetings. The president of the County Association, G. G. Reeves, of Chamberlain, urges every one to be present at these meetings.

Next Saturday will be election day for trustees both for the County Board and local boards.

Census takers are urged to bring in their census rolls this week as Saturday is the last day.

Ashtola school has a very efficient science department under the supervision of E. B. Bowen. A very complete laboratory equipment makes it easier to teach this subject. Ashtola has a school exhibit which would do honor to a much larger school.

White Fish school interest was shown in the interscholastic meet by bringing a party of sixteen and staying both Friday and Saturday. This school won high honors in the Spelling Contest.

Pauline Maddox, Rhea Virginia Harris, Ruth Knight, and Shirley King of Smith school were welcome visitors in the Sloan Baker home Friday and Saturday. Each one entered Interscholastic contests.

Chauffeur's License and Headlight Law

A patrolman of the Texas Highway Department called at the office of The News Monday with the request that the people of Clarendon and Donley county be notified that, under the new regulations, farmers will not be required to purchase chauffeur's licenses unless they do trucking for hire, in which case the law applies to them.

Car owners must secure license tags before Saturday, April 1st. It will not be necessary to have headlight testing receipts in order to secure tags from the county tax collector, the patrolman stated, but headlights must be kept in good condition or the highway patrolmen are likely to "pick them up."

GENE NOLAND HAS MOVED HIS SHOP TO HOMMEL'S

E. H. Noland, perhaps better known as "Gene," announces in this issue of The News the removal of his shop to the building occupied by the Hommell One-Stop Service.

Mr. Noland has a wide acquaintance, extending over nearly a score of years, and an equal experience in general auto repairs. He invites the owners of any and all makes of cars to bring their cars to him for repairs, or for check-up and estimate of reconditioning costs, which he says are surprisingly low now.

DRY BATTLE IN TEXAS STARTS

SIGNS POINT TO SEVERAL "DRY" YEARS BEFORE DECISION CAN COME

(Editor's Note: The following article, reprinted from the Wichita Falls Record-News, discusses the many phases of the coming battle in Texas over legalizing the sale of beer and wine, and will be of interest to both friends and foes of beer and wines.)

(Continued From Last Week)

Dry States Protected
The new federal beer law protects dry states against importation. Even if a man legally could import beer or wines into Texas, he would be subject to prison sentence for possession or for transportation. Possession of more than a quart of liquor in Texas is prima facie evidence of "possession for the purpose of sale," and that in itself is a separate penal offense.

Here is how it comes about that Texas may remain officially dry for years to come, even if it ratifies federal repeal:

The state constitutional amendment can be repealed or modified only on submission by the legislature at a regular session of the question to the voters. Therein lies the catch. A constitutional amendment to be submitted requires 100 affirmative votes, out of the 150 house membership, and 21 out of the 31 membership of the senate.

Failed in Number
Representative Weaver, Moore has pending a constitutional amendment for state repeal. He was able to muster 73 votes on the only test he has had. That fell 27 short, or more than 17 per cent below the required number on the house.

When this regular session adjourns in May, an amendment cannot be considered for submission until January, 1935. Only by the defeat in dry districts of approximately 25 dry house members, and the necessary number of senators, and the election of submissionists, could a change be effected in 1935. If that were to happen an election would be set in 1935 or 1936 on repeal, and would be bitterly fought. If repeal were voted, it could not be made operative until the legislature, at a special session, or in the 1837 regular session, had written enactatory legislation.

But the issue in every dry member's district in races hereafter will be pitched primarily on the liquor question. The drys dominant since 1918 in Texas, already are being aroused to a renewal of their crusading. They will fight not only in present dry districts, but in others as well, and in some borderline counties, may actually displace wets in electing the membership of the next legislature.

Modify Dean Law
Representative Preston L. Anderson has pending in the house bills to modify the state liquor penalties—the Dean law—to conform to the much lighter federal penalties. The federal penalties are fines and brief jail sentences when Texas sends violators to the penitentiary under felony convictions. This includes even possession of equipment designed to manufacture liquor, and various

other compounded statutory definitions of felonies.

Representative T. H. McGregor of Austin has offered a further bill to still more extensively reduce the penalties for liquor violations. He would make them merely misdemeanors with fines as low as \$25 and jail sentences as low as 30 days.

While the 18th amendment left congress free to define its limits, Texas drys say the state constitutional amendment was written by design to go all the way. Any beverage "capable of producing intoxication in any degree" is prohibited.

Subject to Attack
The question has been raised whether the state could quasi-legalize liquor sales under the federal limits by adopting a policy of failing and refusing to prosecute, or by outright repeal of the Dean enforcement law.

The constitution would remain unchanged, and any officer sworn to enforce the constitution, would be subject to attack and removal from office, instituted by any dry or other citizen, for failure to perform the duties specified by the constitution.

In this, the drys rely upon being able to prevent any laxity in enforcement.

Politically the prohibition question will start a poll tax boom in 1934, and will dominate state and legislative politics for years before and after each session's answer is given, for or against resubmission or repeal. The voters are too nearly evenly divided to be able to keep this issue out of all important races.

Representative John Mathis of Houston, chairman of the state affairs committee and one of the authors of the Anderson beer bill, said he did not believe a constitutional change was necessary to permit the sale of beer in Texas.

Opposite View
An opposite view was held, however, by other members of the legislature, some of whom were strong in the belief a constitutional amendment would be necessary.

Senator Clint Small of Amarillo predicted that if a beer bill, was enacted in the face of the existing prohibition section it would be held unconstitutional. Small said the prohibition section prohibited the sale of liquors "capable of producing intoxication."

Considerable sentiment prevails at Austin toward delaying action

JONES DISCUSSES FARM RELIEF BILL

MARVIN JONES TALKS OVER RADIO ABOUT FARM RELIEF ESSENTIALS

Congressman Marvin Jones, who is said by Washington newspaper correspondents to know more about farming than any other member of Congress, and who, during the past two years, has emerged from comparative obscurity into National prominence as chairman of the House agriculture committee, recently delivered an address over the Columbia radio network on the essentials of farm legislation.

In the course of his address he said, "The beginning of the new Administration is a turning point in our country's history. After passing through a trial by fire, the American people are getting the national viewpoint. Selfish forms are being discarded and individuals are beginning to realize that their own interests are bound up with the nation's welfare."

The most important step just now in the farm program is to have an adjustment and refinancing of farm mortgages. A program is being worked out, and action should be had as early as practicable. I hope it may be broad enough to relieve the tremendous emergency in this regard. This Republic is anchored in the farm homes of America. Nothing is of greater importance than to save these homes from foreclosure and to preserve the happy firesides that have been a bulwark of national safety.

The farm problem, however, is so complicated and involves so many different commodities that no one method can be depended upon to bring full relief. Methods must be devised to raise the price levels of farm commodities. These low price levels have almost destroyed farm purchases, and the stagnation thus produced has

had in turn a paralyzing effect upon industry.

The President has shown his understanding of national problems by urging emergency action for agriculture as one of the primary steps in his immediate program. He realizes the importance of the farm problem and has turned his attention in that direction.

"Must Have Action"
It is his intention to try "an untrod path" in an effort to avoid the difficulties which will result if another year of planting gets under way before something is done. The relief measure which he advocates is admittedly an experiment. While I am not in accord with some of its provisions, I am supporting it because we must have action in these troubled times.

This emergency legislation may be able to relieve immediate conditions while the groundwork is being laid for the thorough, long-range program which must be instituted if agriculture is to raise once again to the level with other industries where it deserves to be.

In addition to the adjustment and refinancing of farm mortgages, other phases of the permanent farm program involve adjustment of trade barriers, the correction of freight rate discriminations, the curbing of excessive speculation in farm commodities, an adequate currency on a sound basis, and the reduction of expenses of government.

If the discrimination which now exists are corrected, the cause of the trouble will have been removed and the greatest possible steps will have been taken to restore agriculture to its proper place in the affairs of the Nation. The upset condition of our country calls for a strong program of readjustment, a reassembling of our national elements of strength, and a rededication of all that is best in the character of our citizenship.

Some few people are complaining of the measures made necessary by the great emergency. The powers that are being granted to the President could not be justified if times were normal, but these are not ordinary times.

No one within a generation has captured the imagination of the American people like President Roosevelt. They are thrilling with the confidence of a new hope—a hope born of courage and the

HOOKED RUGS BRING "PIN MONEY" FOR FARM WOMEN

Mrs. T. J. Hargraves, a member of the King Home Demonstration Club, who lives about ten miles north west of Panhandle has found that hooked rugs may be a source of "pin money" for farm women as well as valuable aid in beautifying the interior of the farm home. Mrs. Hargraves has standardized her rugs and has two more ready to send to Miss Hayden, Extension Specialist in this line of work. Mrs. Hargraves won first place at the Dallas Fair on the first wool hooked rug that she made. She realized seventy-five cents per square foot from the sale of this rug. The best department stores in Dallas, Houston, and San Antonio sell these rugs to Interior Decorators.

Carson County is to have a rug school some time in April. Other club women of this county made 65 hooked rugs for the interior of their homes last year.—Morgie Lyon in Groom News.

willingness to follow a leader who is unafraid.

Like millions of other Americans who have pinned their faith to him, I believe he will lead us out of the darkness into the full sunshine of a new day.

LOCALS

Next Sunday night will be "violin night" at First Methodist church. In addition to the regular junior choir and orchestra, a number of old-time fiddlers have been invited to play by Mesdames G. L. Boykin and John M. Bass. Everybody is cordially invited to attend.

The regular meeting of the Sims P. T. A. will be held Thursday, April 6.

Mr. and Mrs. Otto Foster of Cleburne, Texas, are visiting their daughter Mrs. Frank Stocking.

E. F. Bryan and Harry Guiberson, his son-in-law, both of Amarillo, spent Sunday and Monday with his son, Allen Bryan.

Mrs. T. Stargel, of Amarillo, spent the week-end with her parents, Mr. and Mrs. G. W. Antrobus.

Mr. and Mrs. Bert Boomer, of Groom, visited over the week-end with Mrs. Boomer's parents, Mr. and Mrs. W. W. Taylor.

T. D. Nored received word Monday night of the death of his uncle, Joe Gill, at his home at Walters, Okla.
