NOTICE—Any erroneous reflections upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will be gladly corrected upon its being brought to the attention of the publisher.

Speaking of the four constitutional amendments to be voted on the first Monday in August it is very probable that all will be lost, even though at least one should be carried by a heavy majority.

Dean H. Y. Benedict of the State University has been elected president succeeding Dr. Splawn, resigned. Dean Benedict has been a commanding figure in Texas educational circles for many years, and there will be general approval of his election.

It is a very unfortunate situation in Texas that nearly all amendments to the constitution are doomed to failure by Texas voters regardless of merit. Our people do not study the proposed changes in the state constitution seriously enough. The tendency to vote all amendments down is too prevalent.

Clarendon's city tax rate has been reduced from \$1.30 for all purposes to \$1.20—a cut of ten cents. When the city officials presented the recent proposed bonds for water improvement, they promised a reduction of the city tax in the sum of nine or ten cents. The city commission has "made good". They deserve the approval and commendation of Clarendon citizenry.

Since the survey for Clarendon's natural gas line is almost to the city limits, and since in a few short weeks our streets and alleys will be torn up as the city mains are laid, it is time for us all to realize that Clarendon is soon to go into real city class. It's time for the family council to decide where the gas stoves are to be placed, and whether father will be allowed to spit on the gas logs as he ruminates this winter.

One very worthy amendment proposed to Texas voters is the measure increasing the governor's salary together with the salaries of the legislators. The new measure provides some little discretion in the matter by the legislature, but since the increase does not come into effect until the next administration, it should not be a selfish matter with the present members of the legislature. \$4,000 a year salary is unworthy of the great State of Texas, and we have no right to ask a man capable of being governor to hold a position at a financial loss. The increase in pay ought to attract better men to executive position and to the legislature. If it will do this, it is certainly worthy of our support.

Another amendment to be voted on August first which ought to claim the support of our people, generally, is the measure which will abolish in whole or part, the present fee system. There was a time in Texas when the fee system for certain offices was a necessity, and there may still be instances where it would be desirable to retain it, but on the whole Texas has grown out of such a condition, and public officials should be paid fixed salaries in keeping with the importance and extent of their duties and responsibilities. Recently the supreme court of the United States spoke boldly against the fee system insofar as the courts are concerned, and its evils are no less apparent here in Texas. The proposed measure is elastic enough to take care of all situations in Texas, and The News hopes that this amendment will receive the endorsement of Texas voters.

The News will not support the purported "court reform" amendment. There are some excellent provisions in the proposed measure, but it falls so far short of giving Texas the real relief to which the public is entitled in the matter of a costly and cumbersome system of justice, that we cannot support the amendment. The leaven is working here in Texas which will finally give this state a modern and economical judicial system, if we do not accept a substitute at this inopportune time. We do not claim to be able to prescribe the ways and means of the remedy needed, but we do believe that lawyers and laymen who have studied our judicial shortcomings will be able to convince honest members of their profession and other laymen of the soundness of their suggestions in a short time—especially if the present unsatisfactory conditions continue. No one is especially to blame for the cumbersome system we now have to bear, but all should be deeply interested in remedying the situation—and all good citizens, regardless of profession, are interested. If we are not led up a "blind alley" by the inadequate measure now proposed, we shall soon realize the relief so greatly desired.

People generally are suspicious of changes in the existing plan of taxation here in Texas as in other states. This feeling and the specious arguments that are presented by those favoring the so-called "tax amendment", will no doubt be amply sufficient to defeat the measure, but there is, to our mind, much greater reason for its defeat. That is the provision of the amendment which gives the legislature the power to "separate the objects of taxation and abolish state levies on visible property". In the first place, there should be no such thing as separating the objects of taxation. Our present system of taxation places the burden of taxation on all property, and as it should be—except that certain discriminations should be discovered and remedied. The new law would provide that certain objects of taxation might be separated, and released from taxation. We see no justice in releasing any sort of property from taxation, for all property holders certainly owe their proportionate share of the expenses of government. In the second place, the very fact that the legislature would be clothed with such power of separation, and the abolishment of state levies for taxation, would bring to Austin the most varied, the most powerful and most resourceful horde of lobbyists the state has ever known. It is natural that selfish interests should seek to escape the burdens of taxation, and the adoption of this amendment will open the flood-gates of the most pernicious class legislation one could imagine. We need more equitable taxation, but we may obtain the desired ends under the present system—in fact a commission has already been appointed to study existing inequalities that they may be remedied. The proposed amendment can provide us nothing but more salaried employees in the comptroller's office, more lobbying, more graft—inglorious defeat for the aims of democratic citizenship.

The Clarendon News deprecates the feeling against any and all negroes which has grown out of the brutal murder of the rancher Weatherby and his family near Alanreed. There has been talk of running all negroes out of the immediate section. The News hits the nail on the head when it says that there is no sane basis for this kind of feeling; that the negro has a definite place in the economy of the Panhandle and that the infrequent criminal act of a member of the race is not sufficient cause for the enforced departure of all negroes. Wherever cotton is grown the negro is needed. He must be governed and he must be punished when he commits crime. But if he is law abiding, there is no more reason for running him out of the country than there is for running the editor of the Clarendon News out of the country because of the heinous crime of a white man. Levelheaded farmers and business men will frown on any movement which is directed at the colored race, or any other social classification and which leaves out of account individual excellence. It is well enough to run undesirable characters out of a community. And our observation leads us to say that such a movement would likely decrease the white population in almost any community. If we must do any chasing out, let's chase out white and black alike. But, above all, let us not resort to the mob spirit to accomplish it, nor to any other method that clashes with law and justice.—Childress Post.

HOME DEMONSTRATION CLUB HAS ALL DAY MEETING, 15TH.

The Clarendon Home Demonstration Club held an all day meeting Friday, in the home of the president, Mrs. J. C. Eastlack, with eighteen members present. The morning hours were spent in exchanging ideas and in conversation, at the noon hour a delicious lunch was served from baskets.

A demonstration on canning in cial attention to fancy packs in both tins and glass jars, with square jars, occupied the afternoon hours. Plans for the county fair to be held this fall were discussed and much enthusiasm was shown.

Presidents of all the demonstration clubs of the County were invited to the meeting and those who attended were Mrs. S. R. Thomlinson of Lelia Lake, Mrs. H. M. Reid of Chamberlain, and Mrs. Monroe Acord of Martin. Mrs. Hutchins, secretary of the Martin Club, and Mrs. O. L. Fink of Frederick, Oklahoma, a former member of the Clarendon Club, were also present. Each of the visitors made a short talk, telling of the accomplishments of her club since the first of the year. Miss Eula Key, County Agent, explained the "big sister" plan, in which each club woman becomes a sort of sponsor to one club girl in the County. Names of the girls were then drawn, the visiting presidents carrying home names to be drawn by members of their club. The big sister will help her little sister in any club work problem. The idea was accepted with genuine pleasure, and it is expected that the results will be most beneficial.

DEMONSTRATION CLUBS AND MEMBERS EXHIBITING RUGS

Two beautiful braided rugs, a hooked rug and a footstool to match, all of which were made by Home Demonstration Clubs or individuals of the Clubs, are on exhibit in the show window of Kerbow's store. Rug making is one of the most artistic projects of the Demonstration Clubs and is one of the most eco-

nomical. All three of the rugs on exhibition, as well as the footstool cover, were made from old rags and yarns salvaged and dyed.

The members of the Chamberlain Club, working together, made one of the braided rugs, while Mrs. H. M. Reid, a member of that club, made the other. Mrs. J. D. Jeffries made the beautiful hooked rug and the cover for the footstool. Specimens of her work won prizes

at the Tri-State Fair last year, and the specimen on exhibit, together with the others, will be shown next week at the Short Course at A. & M. College.

Mrs. John Clark and Miss Maude Clark spent Monday in Amarillo.

Mrs. F. A. Davis and her daughter, Miss Jessie, Mrs. Dallas Milner and children of Hedley were among the shoppers in Clarendon Friday.

EXPERT WATCH REPAIRING

Watches repaired at Stocking's Drug Store are turned out with the skill of a factory expert. Every pivot is polished, every plate is trued, every pinion is perfectly adjusted and the balanced wheel is timed just as it was when leaving the factory. Hugh E. Skiles, formerly a railroad watch inspector does the work in such a manner that the watch owner may rely on his timepiece.

The Misses Cooke Entertain with Bridge Luncheon Friday

Miss Frances Cooke and Miss Mary Cooke were hostesses to the afternoon bridge club and a number of other friends, entertaining Friday with a bridge-luncheon at the Antro Hotel. Bowls of white roses, white phlox, and yellow daisies formed the centerpieces for the small tables. The color scheme was developed in the place cards, the tally cards, and the last course of the four course luncheon.

Five tables were in the game, with the following playing: Mrs. Rex Moore of Cordell, Oklahoma, Mrs. M. H. Rhodes, Mrs. J. D. Browder, Mrs. John Ryan, Mrs. J. H.

Morris, Mrs. L. B. Merrell, Mrs. J. L. McMurtry, Mrs. Holman Kennedy, Mrs. Charles Trent, Mrs. O. L. Jenkins, Mrs. T. H. Ellis, Miss Josephine Sawyer, Miss Letitia Sawyer, Miss Beulah Baird, Miss Dorothy Carroll of Gainesville, and Miss Katherine Patrick. Exquisite favors were presented to Mrs. McMurtry for high score, to Mrs. Merrell for low, and to Miss Josephine Sawyer for consolation.

B. J. Aiken of Amarillo visited in the home of Mr. and Mrs. T. W. Welch Tuesday.

Miss Lorina Lloyd of Altus, Oklahoma visited her sister, Mrs. T. W. Welch, Sunday.

Miss Thelma Weatherly and Gideon Sam Darden Married at Home Thursday, the 14th.

The marriage of Miss Thelma Weatherly and Gideon Sam Darden was solemnized in a simple but beautiful ceremony at the home of the bride's mother, Mrs. Harry Weatherly, at six o'clock Thursday evening. The Reverend A. L. Moore, pastor of the First Methodist Church, officiated with the impressive ring ceremony. Only the immediate family of the bride and parents of the groom were present. Mr. and Mrs. Darden left immediately after the ceremony for Vernon, where they will make their home.

The bride wore a lovely orchid georgette afternoon dress and an orchid hat, with harmonizing accessories. Her traveling costume was a black and white ensemble.

The bride is a graduate of Clarendon High School and for the past two years has been a student in Clarendon College. She was a member of the Pan-Althean Literary Society and last term was president of Las Fielas, a social club for girls. She was one of the most popular members of the younger set of Clarendon, and just before her marriage she was honored with a number of very pretty parties and showers.

Mr. Darden is in business with his brother at Vernon. He is the son of Mr. and Mrs. W. W. Darden, who live not far from Clarendon.

Mrs. Darden is also a graduate of Clarendon High School and an ex-student of Thorp Springs College and Abilene Christian College. He is well known here and very popular in Clarendon.

Mrs. J. L. McMurtry Entertains at Bridge, Honoring Her Guest

Honoring her sister, Mrs. Rex Moore of Cordell, Oklahoma, Mrs. J. L. McMurtry entertained with a bridge party of last week. A pink and orange table of bridge Thursday orchid color scheme was followed in the appointments of the affair, and the party was one of the prettiest of the summer. Pink roses and orchid phlox added to the charm of the rooms in which the guests were entertained, and the tallies were rose medallions. The long table at which a three course luncheon was served at twelve o'clock was centered with a bowl of orchid phlox and was further decorated with pink candles in crystal holders. The place cards were of a beautiful butterfly motif, repeating the chosen colors.

The guest list for this delightful affair included the following: Mrs. Moore, honoree, Mrs. Joe McMurtry, Mrs. Don Grady, Mrs. L. B. Merrell, Mrs. O. L. Jenkins, Mrs. James H. Morris, Mrs. J. R. Porter, Mrs. Charles Trent, Mrs. Selden Bagby, Mrs. Phillips Gentry, Mrs. Meredith Gentry, Mrs. John Ryan, Mrs. Glenn

White, Miss Beulah Baird, Miss Willie Davis, Miss Frances Cooke, and Miss Willette Cole. High score in the game was made by Mrs. Morris, and low score was made by Mrs. White. Each received a lovely prize. Mrs. Moore was presented with a pretty guest favor, and Miss Davis drew the consolation.

Mrs. Meredith Gentry Entertains Dinner-Bridge Club Thursday

The Dinner-Bridge Club was entertained at the Country Club Thursday evening, by Mr. and Mrs. Meredith Gentry. A picnic supper was served, after which the game was played by the following: Mr. and Mrs. John Ryan, Mr. and Mrs. Homer Ellis, Mr. and Mrs. Selden Bagby, Dr. and Mrs. O. L. Jenkins, Mr. and Mrs. Phillips Gentry, Mr. and Mrs. Sam Dyer. High score prize was won by Mr. and Mrs. Ryan, while the cut favor was drawn by Mr. and Mrs. Ellis.

Mr. and Mrs. Wiley Morris Entertain with Camping Party

Mr. and Mrs. Wiley Morris and their children entertained during last week-end with a most enjoyable camping party at their ranch fourteen miles West of Clarendon. Their guests were: Mrs. W. H. Patrick and daughters, Misses Katherine, Lorraine and Elain; Mrs. Kate B. Carroll and children, Will, Wesley, Sherman, "Kittie"; Miss Dorothy Carroll and Joseph Carroll of Gainesville; Miss Ethel Bugbee and Tom Bugbee of Long Beach, California; Miss Jewell Davis; Harold Bugbee; John Bugbee; and Louis Holloway.

Lenode Goldston Honored at Luncheon on Birthday

One of the much enjoyed informal affairs of the week was the luncheon in which Mrs. W. Goldston honored the twenty-first birthday of her son, Lenode Goldston, Sunday, July 17th. Covers were laid at a prettily appointed table for the following: Mr. and Mrs. Richard Bell, Miss Lucille Goldston, Miss Ada Benson, Lenode Goldston, Cappy Stevens, and Johnny Rex McLelland.

Later in the afternoon, the party together with Mr. and Mrs. Jimmie Miller of Brinkman, Oklahoma, went to the Bell Ranch for a picnic supper and a swim.

Pan Literary Society Has Picnic Thursday Evening

Members of the Panhandle and Pan-Althean Literary Societies of Clarendon College went to Salt Fork Thursday evening for one of the jolliest picnics of the summer. More than thirty students and ex-students of the College enjoyed the games and the camp supper. Mrs. Alma McGowan acted as chaperone for the evening.

John Sims Jr., left Tuesday for a fishing trip in the mountains of New Mexico. He was accompanied by Jimmie Hill of Amarillo.

Mrs. W. H. Cooke Entertains Club Tuesday Afternoon

Mrs. W. H. Cooke entertained with two tables of bridge Tuesday afternoon, having members of the Tuesday Club and other friends as guests.

Roses and wild flowers were effectively used as decorations. Those present were: Mrs. T. H. Ellis, Mrs. J. D. Browder, Mrs. G. B. Bagby, Mrs. Charles Bugbee, Mrs. R. A. Chamberlain, Mrs. Sella Gentry, Mrs. J. T. Sims, and Mrs. James Trent. High score in the game was made by Mrs. Ellis and Mrs. Gentry cut the consolation. A two-course luncheon was served late in the afternoon.

Clarendon Girl and Former C. C. Students in Recital at Denver Last Wednesday

Miss Fray Stallings, who returned Saturday evening from Denver, Colorado, appeared Wednesday evening, July 13th, in a private recital in which Roy Beights presented a vo-

cal pupil. Miss Stallings played accompaniments for the young lady and for Mr. Beights, who also sang a few numbers.

Mr. Beights will be remembered as a talented former student of Clarendon College. Since leaving here he has won an enviable reputation as a performer and a teacher. Miss Irma Russell, a former resident of Clarendon and one of the most accomplished pianists who have studied in Clarendon College, was also in Denver and played a number of piano solos in the recital.

Mrs. Fannie Powell is Honored in Luncheon Given Tuesday, 19th.

Mrs. J. R. Porter entertained at luncheon at one o'clock Tuesday, honoring her mother, Mrs. Fannie Powell of Houston, who is spending the summer here. Nasturtiums and sweet peas gave a pretty note of color to the table, where covers were laid for the following: Mrs. Powell, Mrs. G. S. Slover of Dallas, who is also in Clarendon for the summer, Mrs. F. G. Patching, Mrs. C. C. Powell, Mrs. W. H. Condon,

Mrs. G. E. Bagby, Miss Ann Bobo, Mrs. E. W. Bromley, Mrs. Homer Glascoe, Mrs. T. F. Connally, Mrs. Anna Hattie, Mrs. H. W. Headrick, Mrs. J. W. Owens, Mrs. A. T. Miller and Mrs. A. W. McLean.

Mrs. Matthew Lane, Mrs. Myrtle Crabb, and Miss Willie Mae Wilkerson of Memphis were guests in the home of Mr. and Mrs. C. M. Lane Sunday.

ALL SHALL BE WELL

DODGE BROTHERS ANNOUNCE NEW MOTOR.

Dodge Brothers, Inc., today announces the most outstanding and important improvement in its present line of four-cylinder motor cars since the first Dodge Brothers car was built in 1914. It is a new motor—still rugged and dependable like the former Dodge Brothers engine but snappier in acceleration, faster and more economical on the open road and more powerful when power is needed. Dodge Brothers engineers declare that the cars powered with

this motor are the best the company has ever built.

So fundamental are the improvements in construction that its acceleration is 20 per cent quicker than that of the old motor. It develops 15 per cent more power. It is 20 per cent more economical in gasoline consumption. It is faster on the road. Everyone who has driven cars powered with the new motor has expressed astonishment at the marked increase in flexibility and in the smoothness of operation throughout the entire range of speed. The new power plant is fitted with a standard shift transmission, which

is more rugged in construction and easier and quieter to shift.

The 15 per cent increase in power has been brought about by better carburetion. To insure more complete vaporization of the fuel and easier passage into the cylinders the carburetor and manifolds have been redesigned. A section of the intake manifold above the carburetor is heated by exhaust gases. The shorter travel from the new carburetor to the cylinders and the effect of the heat in vaporizing any liquid fuel which strikes or flows over the heated surface, together with a redesigned cylinder head, increases the power of the engine 15 per cent.

The faster entry of the gas into the combustion chamber and the more powerful explosion because it is heated by the manifold are responsible for the improvement of 20 per cent in both acceleration and gasoline mileage. Greater speed also results from these fundamental improvements.

The smoother flow of power resulting from the changes in the engine itself has been augmented by increased rigidity of the engine supports. In addition to the recently announced improved method of fastening the rear of the engine to the frame at two points, the front of the motor is now securely bolted to the frame in two places. This reduces vibration to a maximum and permits much smoother operation at all speeds and under all driving conditions.

The distributor on the new motor is mounted on top of the engine, thus eliminating the possibility of trouble from dirt and water which might enter through the radiator or the louver in the side of the hood.

The location of the water pump has been improved by placing it at the rear of the motor. From the pump the water goes directly to the rear end of the block, which is always the hottest part. From there it flows forward to the radiator where it is again cooled.

Fort Worth—The Worth Mills have been incorporated with a capital of \$1,200,000 to operate cotton mills and manufacture cord tire fabrics.

Mrs. Selden Bagby spent Wednesday in Amarillo, and was accompanied home by her sister, Miss Dorothy Hays of Clarksville, who had visited in the home of her brother.

Mrs. Frank Tull of Stinnett, who has been the guest of her mother, Mrs. Callie Houk, for the past several weeks, left Wednesday for Oklahoma City where she will visit her sister, Mrs. Claude Parsons.

Reverend A. L. Moore, pastor of the Methodist Church, went to Memphis Thursday to perform the marriage ceremony in the wedding of Miss Ottilie Greene and J. E. Roper. The wedding took place at the home of the bride.

LOCAL HAPPENINGS

Mr. and Mrs. A. C. Hallmark spent Sunday in Childress, as guests of Mr. and Mrs. Roy Kutch.

Mrs. H. W. Clutter of Amarillo was the guest of her sister, Mrs. W. L. Landers, Sunday.

Miss Fray Stallings returned Saturday evening after a visit in Denver and other points in Colorado.

Mrs. L. C. Parker and Mrs. L. C. Parker, Jr., made a business trip to Pampa the first part of this week.

Rex Stegall of Amarillo visited his mother, Mrs. M. E. Stegall, Sunday.

Mrs. A. F. Thompson of Chillicothe is the guest of Mr. and Mrs. Jack Craig.

Mr. and Mrs. Lloyd Stallings spent the week-end at Hereford, as guests of Mr. Stallings' grand-mother.

A. M. King left Sunday for Gould, Oklahoma, where he will spend a part of his vacation.

Mrs. Emma Paige and her son, Russell Paige, attended to business affairs in Newlin Monday.

Mrs. D. A. Davis and Mrs. Russell Paige visited relatives in Memphis the latter part of last week.

Miss Mary Jane Younger of Amarillo is the guest of her grand-mother, Mrs. W. H. Martin.

Miss Pauline Stewart of Norman, Oklahoma is the guest of Mr. and Mrs. Dorr Ellis.

Misses Texanna Kesler, Enoree Hodges, and Martha Blackburn spent the week-end at Lelia Lake, as guests of Miss Ruth Lafon.

Jack Merchant and Mike Corbin left Saturday evening for a fishing trip in Colorado. They will visit in Denver and other cities.

Miss Anna Myra Bennett returned Sunday evening from Tulsa, where she was the guest of Mr. and Mrs. H. N. Van Treuse last week.

Mr. and Mrs. John Enoch and Earl Horton of Tyler were guests in the home of Mr. and Mrs. O. T. Smith, Friday.

Norton Headrick of Amarillo spent the week-end here with his daughters, Misses Mary Katherine and Dorothy.

Mrs. F. A. Hood and Mrs. John Pafford and children of Claude visited in the home of Mrs. F. A. Cooper Friday.

Mr. and Mrs. H. B. Skiles returned Friday night from vacation in Ft. Stockton, Dallas, Houston, and Galveston.

Miss Maude Clark returned Sunday evening from Wichita Falls, where she spent last week as the guest of Mrs. Paul Jacks.

Theodore Pyle and son Horace of Ft. Stockton spent a few days of last week in the home of the former's brother, T. M. Pyle.

Miss Frances Dewell of Los Angeles, California, and formerly of this city, was a business visitor in Clarendon Saturday.

Cal Merchant made two business trips to New Mexico this week. He was accompanied by his son, Jack, on the first trip.

Mr. and Mrs. Melvin Davis and baby of Claude were guests of Mr. Davis' parents, Mr. and Mrs. D. A. Davis, Tuesday.

Mrs. D. W. Hudgins of Amarillo visited in the home of her parents, Mr. and Mrs. J. G. Blanks and family Monday of this week.

PUBLIC EDUCATION

By Lewis B. Cooper

(This is a mere introduction to the many interesting and important facts about the greatest business of the nation, state and our community—Public Education.)

Distribution of the High School Population
According to the report of the United States Bureau of Education for 1924, there was an increase in enrollment of nearly a third of a million high school students in two years. One of the interesting increases of the biennial period is the increase in percentages for the several years of high school: first year, 7.5 per cent; second year, 13.9 per cent; third year, 18.7 per cent; fourth year, 25.3 per cent. These figures indicate that the public high school is holding its pupils better and, especially as the figures 49.3 per cent indicate, that a pupil who enters a four-year high school has one chance in two of graduating; no less than six years ago the chances were only two in five that he would graduate. Rather less than half of these graduates continue their education. One out of five of the pupils who enter a public high school graduates and continues his education; the type of community—rural, urban or city—shows little difference in the percentage of pupils sent on for a higher education.

What Proportion of Population go to High School?
A very pertinent question to ask is: what proportion of the entire population goes to high school? In 1890 only 3.2 persons in each thousand, and of the population were enrolled in public high schools; in 1918 15.6 and in 1924 there were 22.6. Only 1.2 per cent of the total school population was in high school in 1890, but in 1924 the report showed 14 per cent in the last four years of secondary education.

Distribution on Basis of Sex
Over a long period of years the number of girls has exceeded the boys, approximately 55 per cent being girls and the remaining 45 per cent boys. In this connection it should be noticed, first, that more girls than boys enter high school; secondly, that more girls than boys are found year for year throughout the high school period; and thirdly, that more girls than boys graduate from the high school. The ratio of girls to boys among the graduates is about 6 to 4. To be continued.

Miss Lucille Naylor is spending a two weeks vacation in Colorado. She left Sunday morning.

MISS HELEN MARTIN OF CLARENDON DESCRIBES PALESTINE IN LETTERS HOME

Miss Helen Martin, daughter of Mr. J. W. Martin of this city, and head of the Music Department of Clarendon Junior College, described her visit to the Holy Land last Easter in two very interesting letters to her father and her sisters. Miss Martin has spent two very interesting years as an instructor in a school for girls at Cairo, Egypt, and during that time, she has made many delightful trips into Europe and Asia. Her Easter visit to Palestine was one of the most enjoyable and the story of the excursion will be of interest to Miss Martin's friends here. She is at present in Paris, France, a student in Fontainebleau. She will be in Clarendon about the first of September.

The first of the letters printed below was written in Jerusalem, while the second was written after Miss Martin's return to the college in Cairo.

My Dear Folks:

Well I am here and I never saw such a place in my life. I thought Cairo, in its native sections, was ancient enough and as dirty as any place could be, but Jerusalem beats Cairo a mile.

I'll start telling you about things with the start from Cairo. We left there at 6:00 p. m. Thursday, but went to the train at 5:00 because we knew it would be crowded because of all the pilgrims going to Jerusalem. This week, besides being the Christian Easter and Holy week, is the beginning of the Jewish Passover, and a big Mohammedan feast, and all these religions call Jerusalem their Holy City. So the train was packed. In our party is Helen Moore, Esther, Mary Kennedy and her mother, and myself. At 9:30 we reached Kantara, on the border line, took a ferry boat across the Suez Canal, and spent over an hour getting through the customs, just to get our baggage checked with chalk without even opening it.

Most of the night we were crossing the desert. The moon was full and it was beautiful. Early in the morning we began to see green fields, and fields of wild flowers, the most beautiful bright red ones. The nearer we came to Jerusalem, the more hilly and rocky the land became. Around here not a sprig of grass could grow, except in a few valleys. The Temple area is the St. George's Hospice, which is connected with the English Cathedral and is outside the city wall, near the Damascus gate. The old part of Jerusalem is enclosed by a wall, in which there are four gates, Damascus, Jaffa, St. Stephen, and Zion. Back of the Temple area is the Golden Gate, which has been sealed up for years. Inside the wall the streets are narrower dirtier and more crowded than you could possibly imagine, and the people live in wretched little rock huts. The city is divided into four sections, that of the Jews, Armenians, Mohammedans, and Christians. Outside the wall there is a small modern section, but even that is not modern as we think of it. Even the best hotels are primitive looking.

The first afternoon we started out to see what we could see, and the first thing ran into a big Mohammedan procession. It is said that in the days when the Turks were in power here, they started this particular feast day in order not to be outdone by the Christians and Jews, who were also feasting at that time. The procession goes to a town called Nablus, several dancers on the shoulders of men, groups carrying banners and singing as they went, and one gave a talk on "Down with the English Mandate". English soldiers are everywhere here, otherwise there would be no order.

This same afternoon we accidentally got into the Temple Area. I say accidentally because it is in the hands of the Mohammedans and no one else is allowed there during these feast days. They ran us out of course, but we had already wandered around for five or ten minutes. We wandered so much in the crooked streets without finding anything that we decided we had better have a guide; so Saturday morning we started out with one. He took us to the spot where the Last Supper was supposed to have been held (nearly everything in Jerusalem has to add that "supposed"), and to the tomb of David. Then to the Jewish wailing wall, which is the one wall left of the old Solomon Temple. The Jews come here to wail and kiss the wall, hoping that some day it will

be restored to them. Our next visit was to the Church of the Holy Sepulchre, which is built over the spot where Christ was supposed to have been crucified and buried. The Coptic, Armenian and Greek churches have put so much gilt and brass and decorations in it that it becomes hypocritical to the rest of us.

In the afternoon of Sunday we took a car to Bethlehem, which is a half hour drive from here. On the way we passed by Rachel's tomb and the fields of Boaz, where Ruth and Naomi worked. In Bethlehem there is nothing to see except the Church of the Nativity, which is built over the grotto where Christ was born. A manger in those days meant a cave and not a barn as we think of it. The land around Bethlehem is terribly rocky and hilly, with not a thing growing except in the one small valley known as the fields of Boaz. The women there wore a curious head dress, which looks like a "Happy Hooligan" in cap with a white shawl thrown over it. Here in Jerusalem the coins of their dowry are strung around their head, giving the effect of the old fashioned "rat". The women wear much brighter colors than in Egypt, many have bright red embroidery. The men dress in the "habayes" and have a loose shawl over the head held down with a cord.

This morning we got up at 6:00 and went to a sunrise service in the Garden of the Tomb, a place that the English Church here thinks is the tomb of Christ. The service was lovely.

I am going to stop now and tell you the rest next week.

My Dear Folks:

Get set for a long letter, for I am all wound up. I don't know where to start, but to keep from getting mixed up had better begin where I left off last Sunday noon.

That afternoon we went to the American Colony for a service and tea and were invited to stay for dinner. These Americans are some people (and descendants) who came over here about sixty years ago, believing that the world was coming to an end, but since it didn't come, they stayed and have become wealthy importing and exporting Oriental goods.

Monday morning we left at 6:00 for the Dead Sea. The road leads past the Garden of Gethsemane, through Bethany, where Lazarus was restored to life and the woman anointed Christ's feet with costly oil. Soon we passed by an old Inn, known as the Good Samaritan's Inn. The road this far had been up hill

and down hill, and around hundreds of hairpin curves, but the most barren and desolate hills one ever saw. At the highest points we caught glimpses of the Dead Sea far below. It is 1292 ft. below sea level, and 3786 ft. lower than Jerusalem. Before coming to it we crossed a sandy, uncultivated plain, Jericho on one side at the foot of the hills, and the Jordan Valley on the other.

At the Dead Sea we ate the breakfast we had brought, and waded in the sea. We could not look around us much, because the natives on each side were having their daily swim before going to work, and not bothering to put on bathing suits. The women came out, admired our clothes, patted us on the back, and tried to talk to us.

From there we drove across the plain to the spot in the Jordan where Christ was baptized, and we got stuck in the only mud hole in Palestine—I think. There we stayed for over an hour in the boiling hot sun and a cloud of gnats, until some more cars came along. We were thoroughly cross, and then got to the Jordan to find it a narrow muddy little stream, and all around looked like the roof at school on wash day. There was hundreds of pilgrims there, many of them Copts from Egypt, and all over the trees and bushes they had hung their gowns in which they had bathed in the Jordan. They are then put away and saved for their shrouds.

In Jericho there is nothing to see except some old ruins and what is pointed out to be the Mt. of Temptation. As we were going back we met hundreds of pilgrims, walking and in cars, Christian ones going to the Jordan to bathe and Mohammedans ones going to the supposed tomb of Moses. The pilgrimage to this tomb was started several years ago in order to get as many Mohammedans in Jerusalem as Easter as there were Christians.

Monday afternoon we saw the native pottery and bought some of it. That night we had a "tea party" with an English fellow and some Americans from Syria, and then all took a long walk in the moonlight. Tuesday morning we spent on the native bazaars, tiny, narrow streets and most of them covered.

If I had left Palestine seeing only Jerusalem and near there, I would have believed it all hills and rocks, but the trip to Nazareth and Galilee changed my mind. We left Jerusalem by car at 8:00 and in a few hours were in rich valleys. The hills were green and the valleys beautiful with wild flowers. Our

Friendly Service

It has ever been our intention to give all our patrons the best service possible. We consider it our duty to serve you as true friends should be served.

THE FARMERS STATE BANK

first stop was at Jacob's well, and near there his tomb. The whole country is full of Biblical things ancient Shechem, Samaria, Dotham where there is a well thought to be the pit where Joseph was put by his brothers, and leading from it the ancient camel road to Egypt. Later by Gideon's Fountain, where Gideon encamped his army; and finally into a wide, fertile plain where battles have been fought from the time of the Pharaohs of Egypt to the one between the Turks and the British. This is the setting for the "allegorical final battle ground", the Armageddon of the book of Revelations.

Nazareth is in the hills just above this with Mt. Tabor on one side and the village of Endur on the other. As it was almost lunch time and we had been told Tiberius was a better place to eat than Nazareth, we drove on and did our sight seeing there as we came back. We came to Tiberius in about an hour, right on the Lake of Galilee and quite a bit below sea level. It is a beautiful place, surrounded by mountains. We had a good lunch at a German Hotel, wandered around a bit at the sea and then drove back to Nazareth. There we were shown the spot where the Holy Family supposedly lived, and another where they lived when they returned from Egypt, including the carpenter shop of Joseph. Both are covered with churches, as so many things in Palestine are.

On the way back we caught a

glimpse of the snow covered peak of Mt. Hermon, at the northern border of Palestine. Coming back to the Plain of Esraclon we could see Mt. Carmel, beside Haifa, and soon Haifa itself. All through this rich valley are many of those new Jewish Colonies, Jews returning from other countries and very prosperous looking. We reached Haifa on the Mediterranean, about 5:30 and found a place to stay at a German Hospice. We were all dead tired after such a day. Had to have breakfast the next morning at 6:00, in order to catch our train. The trip took us from the rich fields around Haifa to the barren hills near Jerusalem, and to the desert in the south and in Egypt. At 5:30 Kantara, where we went through the customs and crossed the canal. At 10:30 we reached Cairo, tired and dirty and glad to be home. One of our servants met us, we rode out the avenue in a limousine, and felt like we had reached civilization at last. Then the next day when we went to a tea party and out for dinner, we knew we were in Cairo for sure.

And so I have been to Palestine.

G. C. Brinson and J. O. Adamson of Hedley were in Clarendon Monday.

B. F. Veazy and Lewis Thomas left Sunday on a business trip to Ft. Worth.

Mr. and Mrs. R. A. Mitchell of Panhandle visited friends here Sunday.

Announcing NEW BEAUTY—NEW COLORS and Surprising Price Reductions!

—made possible by the efficiency and economies of the world's newest and finest motor car factory

Enriched in beauty by new and fashionable color combinations and offering all those amazing qualities of performance and luxury which have sent Pontiac Six popularity to record-breaking heights—

—Pontiac Six is announced today at new low prices on every body type!

This surprising price reduction comes at a time when Pontiac Six Sales have been surpassing all previous records—and is made possible only by the economies of insensible production in the new \$12,000,000 Pontiac Six Plant, which in facilities for efficient quantity production and precision manufacture, represents one of America's industrial achievements. As a result, manufacturing costs on the Pontiac Six have been reduced.

So now at a base price of only \$745 Pontiac Six offers the following features which constitute defi-

nite assurance of lasting satisfaction and which are obtainable in no other low priced six: (1)—Bodies by Fisher—with all the Fisher advantages in styling, comfort and safety. (2)—The smoothness, power and snap of the largest engine used in any six priced up to \$1,000. (3)—The endurance and stamina assured by an oiling system which forces 250 gallons of oil an hour through the engine at 35 m. p. h. (4)—The convenience and luxury of such features as tilting beam headlights with foot control and Fisher VV windshield.

These are four great factors of satisfaction which every buyer of a low-priced six has the right to expect. Yet not one of them is provided on any other six, at or near the new low prices of the Pontiac Six. See this triumph of efficient production and advanced design which makes possible the enjoyment of six-cylinder performance and Fisher body luxury at the lowest price in history!

New Lower Prices on All Passenger Car Body Types

Coupe . . . \$745 Sport Cabriolet \$795

Sport Roadster \$745 Landau Sedan \$845

De Luxe Landau Sedan \$925

Pontiac Six De Luxe Delivery, \$885 to \$770. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the General Motors Time Payment Plan.

Dry Weather

More than any other agency known to man, demonstrates to a very great advantage the need for paint on all exposed surface. Walls will split and crack, where they would be protected and remain absolutely firm if they were covered with paint.

Our line of ready mixed paints is such that they may be used by anyone without a great deal of practice. Results are worth while and the appearance of the place is materially assisted by the application of even the first coat of paint.

PONTIAC SIX

WHAT'S DOING IN WEST TEXAS

West Texas Chamber of Commerce

Stinnett—A new mail route will be put into operation on July 1st, between Spearman and Stinnett. This route will be daily and will serve about the same patrons as did the former route from Spearman to Flemings via Stinnett.

Tuscola—Hundreds of people attended the second annual "get together" meeting of the Tuscola Chamber of Commerce held July 11th. The principal speakers were Judge Milburn S. Long of the 42nd district court; Dr. E. B. Surface of Abilene; Ed Shanway and J. R. Masterson, county farm agent.

Anson—At a recent meeting of the Business Men's Luncheon Club here, the name of the organization was changed to the Anson Chamber of Commerce. Realizing the increased responsibility of the new body, immediate action was taken, and a canvas was made of the business section securing more than thirty-five new members.

Lubbock—Over two hundred workers are busy in Lubbock getting the distribution system ready for natural gas in Lubbock, Slaton, Plainview, Abilene, Hale Center, Monro, Lockney, Floydada, Kress, Tulia, Happy and Canyon.

Valley Mills—The Directors of the Bospue County Chamber of Commerce recently met here and outlined an extension program for the coming year. The next meeting place of the directors will be Iredell, Kerrville.

The sheep and goat Raisers' Association of Texas will meet in Kerrville, July 19-21. Registrations indicate that there will be more than 1500 of the best sheep and goats in Texas, California, Utah and other states presented for sale.

Clouderof—The West Texas Chamber of Commerce district convention recently held in Clouderof decided upon Carlsbad, N. M., for the next meeting place of that district, same to be held in the large room of the Carlsbad cave.

Ballinger—Work on the construction of a gas distribution system for Ballinger was started recently, and it is expected that the town will have gas by the first of September.

Cisco—Plans have been perfected for the opening of five local projects in Cisco, July 22nd. Completion of state highway No. 23, completion of the bridge over Wilson Dam at Lake Cisco, completion of the \$100,000 swimming pool and bathing beach, the new country club and the \$50,000 state fish hatchery will all be celebrated in one monster celebration. Among the speakers will be Governor Dan Moody and both United States Senators.

Whippet races—the first in Texas—will be seen at the State Fair, Oct. 8 to 23. Whippets are small greyhounds. There will be several race each day.

MODERN HOUSEWIFE USES HEAD MORE THAN HANDS

College Station, Texas, July 17 The most successful housewife is the one who uses her head more and her hands less, eliminating the unimportant details. She assembles her household material most wisely with due consideration for her family needs and her budget, this being a great factor in making the daily routine of the house run smoothly and without friction.

A simple and systematic arrangement which one house wife has planned for her kitchen pantry is a good solution to many of her house-keeping emergency problems. This pantry has five shelves grouped in one section. The first shelf is labeled "soup and cocktails" and there are three divisions. The first division contains canned soup of different varieties, along with small peas, etc. The second division is stocked with canned grapefruit, peaches, and pears, which can be combined easily for a cocktail. The third division holds crackers, and other such articles which must be purchased from a store.

The second shelf is for meat and meat substitutes, and is also divided into three sections. The first contains meats, such as veal, beef roast, chicken, etc. The meat substitutes are in the second section, these being baked beans, vegetable chowder, lima beans, and red kidney beans. The other section contains essential store products such as salmon, tuna fish, corned beef, etc.

On the third shelf is stored all kinds of canned vegetables grouped in four sections. The first contained leafy vegetables, such as spinach, string beans, etc. The second section contains succulent vegetables, such as squash, beets, carrots; and the third section holds corn, sweet potatoes, English peas, and hominy. The fourth section is filled with rice, macaroni, spaghetti, and other store provisions.

The fourth shelf is given over to salad materials, and is stocked with peas, spinach, asparagus, beets, pears, peaches, prepared mustard, olives, salad oil, pineapple, canned cheese, paprika, saltines, and salad dressing.

Products suitable for desserts are grouped on the fifth shelf. They are plum pudding, canned fruit juice for iced drinks or frozen ices, canned nuts, Boston brown bread, jello, figs, ice cream salt, gelatine, prepared cake flour and tapioca.

This arrangement makes it possible for the housewife to assemble quickly the necessary food for a complete dinner. It is possible to grow and can practically all the products included in all divisions on the farm.

OLD PAPERS FOR SALE, 20c per 100, at Clarendon News office.

SECRETARIAL SCREENINGS

CLARENDON CHAMBER OF COMMERCE
G. L. BOYKIN, Secretary

Entries for the yard beautiful contest are coming in more and more as the weeks pass. Clarendon already has the distinction of being one of the most attractive little cities on the Colorado to Gulf Highway in Texas, lets make it the most attractive.

Clarendon can have free mail delivery with only a few additions and improvements to the city. A statement of the additions necessary will be found in another part of the News. Lets have free mail delivery in Clarendon by January 1, 1928.

The second college booster trip was a success in every way with the possible exception that the Clarendon delegation was a bit small. We should have more cars and people interested in the welfare of this city and its new college to make these trips. Every where the delegation was royally received and the trip covered 17 cities and towns to the south of us. The final trip will be made to-day.

The survey for the long hoped for gas line into Clarendon will reach town this week, according to the engineer in charge of the survey who was a visitor to the Chamber of Commerce office Tuesday. Activity will start at once on the survey in town for laterals and service connections. Clarendon is keeping abreast of the progress of the Panhandle in no uncertain manner.

If you have a suggestion for the betterment of Clarendon let's have it. The Chamber of Commerce is only a pooling agency for ideas of wide awake citizens for the betterment of this town. If we can help you, come to see us. If you can help us, come to see us. We are for a more progressive and greater Clarendon.

NEW COLORS ON PONTIAC SIX

New color combinations and new striping on body and wheels on the Pontiac Six line were announced this week by the Oakland Motor Car Company and many popular Indian colors are used on motor cars for the first time. Head and cowl lights on De Luxe models and Sport Roadster are finished in same Duco coloring as bodies.

Blue, maroon, greens and browns predominate. A feature of the new coloring is the finishing of the garnish rails and instruments board in the same colors as the body, an innovation found only in the high priced cars.

The coach and coupe are finished in Algonquin Blue with Memominee straw striping. The Indian sedan is finished in Minocqua Blue with striping in Manistee Ivory. The Seneca dteish50 ththth th ar oda window reveals are finished in Seneca Red. The roadster has Wequetonsing Green finish on body with Siskiyou Red Striping.

The de luxe landau Sedan has Ontonagan Maroon on body, fenders and splash apron with Siskiyou Red striping on black body moulding. Ottawa Beige on body and Algoma Brown on fenders and splash aprons distinguish the cabriolet. The brown moulding is striped with Tacoma Cream.

STATES BUILT 20,000 MILES OF SURFACED ROADS LAST YEAR

More than 13,600 miles of earth roads included in the State highway system of the 48 States were surfaced by the several highway departments in 1926, according to information compiled from State reports by the Bureau of Public Roads of the United States Department of Agriculture.

The total length of surfaced roads constructed by the State agencies during the year was 19,492 miles, of which 13,664 miles was laid over former earth roads and 5,828 miles represented a rebuilding of old surfaces.

The reports show that the total mileage of surfaced roads in the State highway system increased by 18,205 miles during the year; but of this increase 4,541 miles represents no actual work by the States, but consists merely of mileage transferred from county to State jurisdiction, statistical changes resulting from resurveys, etc.

The above figures refer to increase in surfaced mileage on the State highway systems only and do not include surfacing laid by the counties or other local governments. They do include, however, all work done with Federal aid.

The statistical table issued by the Federal bureau shows that the combined State systems embrace 287,928 miles and that of that of this mileage 163,059 miles is surfaced and 28,456 miles is graded and drained according to engineering standards. The State systems are now about 66 per cent initially improved. The types of surfaced roads existing at the end of 1926 were as follows:

	Miles
Sand-Clay and topsoil	11,396
Gravel, chert and shale	79,286
Waterbound macadam	18,428
Bituminous macadam	12,927
Sheet asphalt	890
Bituminous concrete	4,815
Cement concrete	31,935
Brick	3,215
Asphalt, wood and stone block	165

Texas, which ranks first in total mileage in State systems, with 18,728.0 miles of roads, ranked third among the States in the existing surfaced mileage at the end of 1926,

DEATH STATISTICS FOR YEAR 1926

Statistics compiled by the bureau of vital statistics of the state department of health for the year 1926, show that of the 205 "official ways to die" that heart disease heads the list, with 4,538 deaths charged to this cause. Other leading causes of death last year in Texas are: pneumonia, 4,143; tuberculosis, 3,743; chronic nephritis, 2,125; cerebral hem. apoplexy, 2,043; cancer, 1,937; diarrhea and enteritis, 2,141; and influenza, 1,479.

The peak in the age periods at which most deaths occurred due to heart disease, is shown to be well past middle life, while 20 to 25 years is the age period at which the largest number died from tuberculosis. Children under 2 years of age are shown as having more fatalities from attacks of diarrhea, enteritis, and pneumonia.

More deaths from cancer of the

stomach and liver are shown than from cancer of any other organs of the body. Deaths from cancer of the female genital organs are listed as 257; cancer of the breast, 117; and cancer of the skin, 15. The age period at which most deaths occurred from cancer is 60 to 65 years, while one death reported as due to cancer was of a child between the ages of 1 month and 1 year.

Deaths from Preventable Causes
Of the 42,336 deaths occurring in Texas last year, 15,771 were due to preventable diseases, if pneumonia and cancer is included in this category. Thus preventable diseases are charged with more than 37 per cent of the total number of deaths occurring in the state.

Some diseases which are listed as the "official mode of demise," but of which no Texas resident died are military fever, Asiatic cholera, plague, yellow fever, glanders, beriberi, diseases of pituitary gland; and chyluria.

EPWORTH LEAGUE PROGRAM

Sunday evening July 24th, in the Methodist Church Auditorium. A hearty invitation and a cordial welcome await the young people of the community who attend this service.

Leader: Mrs. Loyd Stallings.
Subject: Fellowship Among the Churches.

COLLEGE AND H. S. FACULTIES NAMED

ALL MEMBERS OF COLLEGE GROUP ARE HOLDERS OF MASTER'S DEGREE

With the publication of the College catalog the latter part of last week and the fore part of this week, the faculty of Clarendon's Junior Municipal College has been announced. The major part of the faculty has been made public before this time but there are some who have been named since the publication was started and their names are to be used in the faculty at this time.

The head of the College will be H. T. Burton, who is well known to Clarendon. Mr. Burton has been here for six years with Clarendon College and is one of the best liked men in this section of the state. His Bachelor's Degree came from Baylor University and his Master's Degree was completed through the University of Texas. Paul Morgan will again head the Public Schools of the city in the place of Superintendent of Schools.

The Mathematics and Language Departments will be headed by Miss Mary Howren, who has also been connected with Clarendon College for a number of years past. The Education Department will be headed by L. B. Cooper, teacher in the College the past year. Mrs. Ella Marie Evans will be the instructor and head of the Department of Fine and Applied Arts. Mrs. Evans has taught in the College for several terms, having returned here last year after an absence of some years.

Miss Helen Martin, head of the Piano Department is studying in France this summer and will return here for the opening of school this September. The Department of Expression and Public Speaking will be held by Miss Rita Foster. The Commercial Department will be handled by J. R. Peters, who is a graduate of Draughn's Business College and also of the North Texas State Teachers College.

Few changes will be found in the High School faculty, the greater part of the faculty being held over from last year. Miss Rena Freeman will head the Spanish Department. Miss Myra Worsham will be the teacher of the English Department. J. H. Sandlin will be the instructor in the Vocational Agriculture Department and will coach the various athletic teams. Miss Ruth Dennison will take the Department of Music in the High School.

The booster trips that have been held during the past two weeks and the one that is being held today are expected to bring many students to the school that would have gone to other places had the school not been founded here. The promoters of the school feel that their efforts are not in vain and that the school will grow from the opening day and that it will fill a long felt need in the city of Clarendon.

MRS. B. F. SAWYER DIES AT HOME IN MARTIN COMMUNITY

Mrs. Moley Ann Sawyer, wife of B. F. Sawyer, a farmer of the Martin Community, died at her home last Monday night, July the eighteenth. Funeral services were held at the family home Tuesday afternoon, with the Reverend S. R. McClung, pastor of the First Baptist Church of Clarendon, in charge. The remains were taken to Altus, Oklahoma for burial.

Mrs. Sawyer was born Moley Ann Watson, at Tuscaloosa, Alabama, December 20, 1858. She married B. F. Sawyer December 26, 1881, and to their union were born seven children, only two of whom survive their mother. Mr. and Mrs. Sawyer moved to Texas in 1894 and lived at various places. They moved to the Martin Community, West of Clarendon, in February of 1925. Mrs. Sawyer has been an invalid practically all the time she has lived in this County and has been confined to her bed many months. She had many friends in the community who grieve her passing.

Surviving Mrs. Sawyer are her husband; her two daughters, Mrs. Dave Patterson of Clarendon and Mrs. R. T. Moore of Lindsey, Oklahoma; and two grand-children she reared, Mrs. C. O. Wood of Pampa and Lee Singletary of Martin.

MRS. ED CARLSON HOSTESS TO LADIES' AID SOCIETY

The Ladies' Aid Society of the First Christian Church met Wednesday afternoon in the home of Mrs. Ed Carlson. The meeting was opened with a prayer by Mrs. John Beverly, following which Mrs. O. D. Leisberg conducted the lesson in Acts.

Following the much enjoyed lesson was a business meeting and the lesson. Dainty refreshments were served to the fifteen members who were present.

Mr. and Mrs. Sam Dyer returned the latter part of last week from a motor trip to Waverly, Missouri. Mr. Dyer's mother, Mrs. Minnie Dyer, accompanied them and remained in Waverly for an extended visit with relatives.

McLEAN'S \$250,000 ROAD BOND VOTED LAST SATURDAY

McLEAN, July 17—The \$250,000 road bond election, which will give Precinct No. 4, Gray County, approximately 16 miles of paved highway and other improvements, was carried Saturday by a vote of 326 to 41, or over seven to one.

Of the two boxes in the precinct, McLean's vote was 255 in favor of and 26 against the issue, while Aland voted 71 for and 18 against. The project calls for the paving of Federal Highway No. 66 from Chicago to Los Angeles, known as "America's Main Street," \$10,000 to be paid from the bond issue. It also calls for the purchase of \$10,000 worth of road machinery, the building of three bridges, one of which is across McClellan Creek to the McLean oil fields, and the construction of important lateral roads connecting towns and communities in the county.

KNOW TEXAS

East Texas timber lands supply a large per centage of the pine poles used to carry the wires of telephone, telegraph and electric light and power companies. The pine timber belt, it is estimated, contains 17 billion board feet of pine.

The trans-Pecos region of Texas is an area as large as the state of West Virginia and contains nine counties, each of seven of which is larger than Delaware. The altitude of this region varies from 2,000 feet in the Rio Grande Valley in the southeastern part to 9,500 feet at the top of Guadalupe Peak in Culbertson County.

Texas leads the world in wool production. The latest figures show there are 2,983,959 sheep in Texas valued at \$27,374,000 that last season produced 24,960,000 pounds of wool which brought the growers more than \$14,000,000 in revenue.

SHORT SOCIAL HOUR IS NEW STUNT FOR LEAGUERS

When the Epworth League of the Methodist Church appeared in the auditorium of the Church last Sunday evening, there was a surprise awaiting them that they had not expected. The announcements had carried an item to the effect that there would be a surprise and it was there in full force. Lemonade of a coolness that made one feel grateful for it and cakes of a varied nature were found in abundance and the Leaguers more than enjoyed the treat offered them at this time. Enough of the refreshments were left over to be available for the crowd that attended church following the League services.

U. S. A COUNTRY OF POWER

With only six per cent of the world's total population, the United States has 60 per cent of the world's telephones, over 50 per cent of the electrical power generated, and has 35 per cent of the electrical operated homes.

TABLE OF DENSITY OF SYRUPS

40 per cent Syrup—2 cups sugar and 1-2 cup water.
32 per cent Syrup—2 cups sugar and 1 cup water.
28 per cent Syrup—2 cups sugar and 1-1-2 cups water.
24 per cent Syrup—2 cups sugar and 2 cups water.
17 per cent Syrup—2 cups sugar and 3 cups water.
14 per cent Syrup—2 cups sugar and 4 cups water.

Fruits are very often preserved in heavy syrup for home use. For preserving berries and cherries use the 40 per cent syrup. In preserving peaches, plums and currents, use the 28 per cent syrup. In canning fruits for home consumption, use the 17 per cent or 14 per cent syrups.

Small fruits, such as cherries, grapes, plums, etc., have a tendency to rise in the jar if processed too long. This may be avoided if one wishes to take the time to use the intermittent process. Prick, blanch, and pack the fruit. Cover with lukewarm water and bring slowly to a boil. Process just long enough to heat thoroughly, about five minutes. Seal and process the same length of time the second and third periods, allowing twelve hours between periods of processing. If fruit is too soft, do not process the third time.

Mrs. W. T. Montgomery and her daughter, Miss Nelle Connally, of San Antonio are visiting Mr. and Mrs. H. W. Martin and other friends in the city. Miss Connally will be here several weeks.

CANNING OF VEGETABLES IS STUDIED BY JERICHO CLUB

The canning of vegetables in both tins and glass jars was studied by the Jericho Home Demonstration Club when it held its regular meeting Monday afternoon in the home of Mrs. Elmer Ashmead. Plans for the Jericho exhibit at the Donley County Fair were formulated, all members showing much interest in the project. About sixteen members were present.

FUNERAL SERVICES FOR T. B. LUMPKIN HELD 14TH.

Funeral services for Mr. T. B. Lumpkin, who for twenty-four years had been a citizen of Clarendon, were held Thursday afternoon, July 14th, at the family home. The Reverend E. H. Kennedy, pastor of the Second Baptist Church of Lelia Lake, and a brother-in-law of the deceased, conducted the services. A large concourse of friends attended the funeral, and the many beautiful floral offerings further attested to the love and esteem in which Mr. Lumpkin and his family are held by the people of Clarendon and Donley County.

Mr. Lumpkin's death, which came at four o'clock Thursday morning, followed an illness which lasted only a week. He had been in failing health for more than a year, however.

Mr. and Mrs. Lumpkin, their daughter, Miss Mae Lumpkin, and their son, Floyd Lumpkin, came to Clarendon in 1903, coming from Travis County. Mr. Lumpkin was one of the leading stockmen and farmers of this County in early days of farming in this section of the State, and retired from active business only a few years ago.

He was born in Tennessee, April 16, 1850. The family moved to Texas when he was only two years old and settled in Travis County. He lived there until coming to Clarendon. Mr. Lumpkin and Miss Lelia Kennedy were married in 1886, and to them were born one son and one daughter. Mr. Lumpkin became a member of the Second Baptist Church of Lelia Lake several years ago. He is survived by his wife, both his children, and one small grand-son.

FINK FAMILY WILL MAKE FUTURE HOME IN CLARENDON

Mr. and Mrs. O. L. Fink of Frederick, Oklahoma were in Clarendon the latter part of last week, making arrangements for returning to this city to make their future home. Mr. Fink, formerly owned the Clarendon Telephone Company, has owned the Frederick telephone system for the past year. He recently sold the system and will retire from business. Mr. and Mrs. Fink state that they like Clarendon so much they will return and make their home. They and their children Miss Florence and Kenneth, will probably be here in a few days.

UNIVERSITY OF CALIFORNIA PROFESSOR, DR. FREDERICK EBBERSON, REVEALS NEW TOXIN TO END TUBERCULOSIS

SAN FRANCISCO—Definite proof that tuberculosis germs produce toxin or poison which may lead to the discovery of an anti-toxin comparable to that now used for the prevention of scarlet fever has just been offered by Dr. Frederick Eberson, assistant professor of medicine at the University of California Medical School. Dr. Eberson, at recent experiments completed at the university laboratories, demonstrated the existence of filterable toxin produced by tubercle bacilli. The existence of this toxin has been suspected but never definitely proven before. Further experiments will be carried out in the attempt to develop a standardized serum which may put an end to the great white plague. Photo Shows Dr. Frederick Eberson.

Mr. and Mrs. Bill Greene went to Memphis Wednesday evening, to attend the wedding of Miss Ollie Greene and J. E. Roper, which took place at ten o'clock Thursday morning. The bride is Mr. Greene's sister.

Judge C. C. Small of Wellington was a business visitor in this city Monday.

THE CRIMINAL SENTENCE PAROLE

ROSCOE MISSOURI

NOVELIST SEEKS LOCAL COLOR IN DONLEY FOR NEW NOVEL

Louis Stevens of Los Angeles and New York, widely known author, is in the Panhandle getting local color for a new book, the background of which will be the frontier life in the Panhandle. He spent two days of last week in Clarendon with Colonel Charles Goodnight, most famous of the living plainsmen. A visit to the Goodnight Ranch was one of the outstanding events of Mr. Stevens' visit to the Panhandle. Officials of the Clarendon Chamber of Commerce also assisted the novelist in his search for material for the new book, the tentative title of which is "Salvage."

CONFEDERATE VETERANS HONORED BY MISS SIMS

Miss Fannie Florence Sims, sponsor of Camp Sam Lanham, U. C. D., honored the members of the Camp, Thursday, with a dinner to which all Confederate veterans of the County were invited. A large flag of the Confederacy, made by Miss Sims' grandmother, the late Mrs. Lovelace, was draped at one end of the dining room. Portraits of the Confederate Generals were hung about the room as further decoration for the occasion. A two-course dinner was served, and later in the afternoon refreshments of ice cream and cake were served. The guests spent the afternoon with Mr. T. B. Lovelace, who makes his home with his daughter, Mrs. J. T. Sims. A number of the old soldiers were out of the County and others were unable to come, but those who attended the dinner had a most pleasant day. Those present were: Mr. T. B. Lovelace, who is the grand-father of the hostess, Adjutant W. H. Martin, Mr. Reed of Lelia Lake, Mr. Jim Dixon, Mr. R. E. Merchant, and Mr. T. H. Peebles.

S. H. CONDRON CATCHES BIG FISH HAS PRIZE

S. H. Condron maintains his supremacy among the local Isack Waltons. Last week he caught a six pound bass in a near by pool, the exact longitude and latitude of which remain unknown. As proof of the fact he can show a photograph of himself with the prize fish.

Mr. and Mrs. Ed Speed and children and Miss Katherine Speed visited Mr. Speed's sister, Mrs. T. W. Turner, in Stratford and friends in Goodwell, Oklahoma several days, returning home Tuesday.

John Dalrymple and R. D. Moxley of Lubbock were visitors in Clarendon Tuesday.

SUMMER RACING PROGRAM TRI-STATE FAIR ENDS 23RD

More than 300 horses are in Amarillo being trained for the annual Amarillo Tri-State Exposition mid-summer racing program to be held at fair track here July 18 to 23.

C. H. McMillan, veteran starter and manager, is in charge of the arrangements. A large share of the proceeds will go toward financing the 1927 Greater Amarillo Tri-State Exposition, September 11-17.

Some of the leading race horse owners of the Southwest with winners at recent meets in Tulsa, Jaurez and other cities have been in since the races started Monday. Five races will be run each day for a total of \$3,500 in purses.

No one can resist food after a visitation by ants. Hours of painstaking labor are spoiled. Delicious dishes are tainted, made uneatable. Fly-Tox kills ants. Spraying should be continued for several days because ants are always present in colonies. Insist on Fly-Tox. Fly-Tox is the scientific insecticide developed at Mellon Institute of Industrial Research by Rex Fellowship. Simple instructions on each bottle (blue label) for killing ALL household insects. Fly-Tox is safe, stainless, fragrant, sure. Every bottle guaranteed.
