

DISTRICT MEET FEBRUARY 7TH.

LIONS OF PANHANDLE TO ASSEMBLE HERE FOR ALL DAY SESSION.

Plans are practically complete for the joint meeting of the Lions Clubs of the Panhandle in Clarendon on February 7th, for an all day session.

The Clarendon Club, to go a step further and bind a group of the Panhandle into a better unit, have asked that the entire membership of all the Panhandle Clubs be here on that date for an organization of the district into a business-like organization.

Deputy District Governor Graham of Wichita Falls is to be one of the guests of the occasion and will speak to the officials of the club at their meeting in the morning.

Invitations will be extended the luncheon clubs at Wellington and Floydada, and they will be given full attention in the meeting although they are not members of the Lions International movement.

Since the growth of the Clarendon Club to 41 members, it will be a comparatively easy matter for the entertainment to be put over in grand style.

REV. W. M. MURRELL HOLDS FIRST QUARTERLY MEETING AT ALANREED

(Special to The News.)

ALANREED, Texas, Jan. 24.—Presiding Elder W. M. Murrell of the Clarendon District preached his first Quarterly Conference sermon of this charge at the local Methodist church at 3:00 o'clock Sunday afternoon to a large, attentive audience.

After the sermon, the first Quarterly Conference of this newly organized charge, composed of Alanreed, LeFors, Eldredge, and Hopkins, was called in session and business transacted.

Among other achievements reported by the pastor, Rev. H. G. Walton, were the following: Good Conference collections, an active Woman's Missionary Society, the construction and furnishing of a new parsonage, the Sunday School's regular contribution to the support of one orphan child in the Methodist Orphan's Home at Waco.

The next meeting of the Quarterly Conference for this charge will be at LeFors.

E. T. Pope is in New York City with a group of buyers from the associated stores, making the purchases for the summer months.

Mr. and Mrs. J. B. McClelland are now enjoying the fine climate of San Antonio, going directly there from Abilene, where they attended convocation a part of last week.

LUCIAN BARNETT TAKES LIFE 24TH.

ACQUITTED MAN ENDS OWN LIFE AT HEDLEY HOME TUESDAY NOON.

The city of Clarendon was saddened Tuesday afternoon of this week when it was learned that Lucian Barnett had taken his own life at the home of his parents in Hedley near noon of that day.

Lucian will be remembered as the brother of M. O. Barnett, sheriff-elect of Donley County, and as the acquitted slayer of a telegraph operator in Hedley a little more than a year ago.

Injured in his service during the war, and weakened through disease, it is thought that the thoughts of his act of last year had caused him to become temporarily insane.

A note was left, instructing his immediate family as to the actions to be taken with his effects. No other explanation of the motive was found.

Funeral services were to have been held this afternoon and interment will take place in Hedley. Friends of the family in Clarendon attended the last rites.

CHEESE FACTORY MAY LOCATE HERE

KRAFT CHEESE COMPANY SAYS FIELD IS FAVORABLE FOR PLANT IN CLARENDON.

The new year for Clarendon and the Chamber of Commerce is opening with a bang and prospects for the establishing of a cheese factory and curing plant in Clarendon was never better than it is at the present time.

The letter states that the company is willing to establish factories where there are sufficient dairy herds to supply the demands of the creamery.

Those who have had some experience with plants of this nature state that it will require 200 cows for a small station.

They are stating that Mr. Kraft is to be in this territory in a short time and will confer with men in Clarendon with a possibility of establishing a factory here.

This move falls directly in line with the plans of the Chamber of Commerce for the present year.

The first letter comes from Mr. Teissler of Wichita Falls, who states that it is very probable that a factory will be established in Clarendon if the required herds are available and a site is provided.

FIRE MONDAY EVENING DESTROYS ANTRUBUS HOUSE

Fire of undetermined origin ruined the house belonging to G. W. Antrubus that is situated directly across the street east of Tom Gold's store.

From all accounts, the fire originated in the eastern part of the building and spread rapidly to the entire structure.

The entire house from the ground up was consumed by the flames.

MOTHERS CLUB IN REGULAR MEETING FRIDAY

The Mother's Club met in the home of Mrs. W. B. Sims with Mrs. Draffen as hostess on Friday afternoon January 20th.

Mrs. Fred Buntin was leader for the afternoon, the lesson being "Myths and Legends."

Members of the Mother's Club are showing an unusual amount of interest in their work now and the attendance record stands very high.

Those attending this meeting besides the hostess and her mother, Mrs. Sims, were: Mesdames Shelton, Fred Buntin, O. T. Smith, Sherman, Manley Ozier, R. Wilkerson, H. T. Burton, George Ryan, Clyde Douglas, Bill Bromley, T. H. Ellis, J. R. Porter, W. W. Taylor, James Headrick and U. J. Boston.

BOOSTER CLASS OF CHRISTIAN SUNDAY SCHOOL MET TUESDAY

Tuesday evening of this week the Booster Class of the First Christian Sunday School met with Homer Mulkey at his residence in South Clarendon.

After the devotional exercises and lesson study conducted by W. F. Dubbs a social hour was enjoyed and refreshments were served by Mrs. Mulkey assisted by Mrs. B. W. Morrison.

Mrs. W. A. Land and Mrs. Frank Whitlock motored to Amarillo Wednesday afternoon with E. F. Brown who was visiting in the city on that day.

Mr. M. M. Noble spent last week in Wichita Falls.

BRONCHO COLTS RECEIVE SWEATERS AND LETTERS

Seventeen of the Colts received their sweaters and letters in a chapel exercise in the Junior High School auditorium the latter part of last week.

The team was coached by A. R. Carter, who formerly was coach of the Clarendon High School team a number of years past.

BAPTIST S. S. SENIORS SHOW GREAT INTEREST

A report from Mrs. W. C. Stewart, Superintendent of the Senior Department of the Baptist Sunday School, states that that department is showing more interest in their work since the new year than ever before.

At last account, it was the plan of the Chamber of Commerce to use some lighter material on the program as well and the more solid details concerning farming in the county.

POLL TAXES ARE FALLING BEHIND

PAYMENT IN COUNTY LESS THAN IN YEARS WHEN NO ELECTION IS HELD.

Late advices from the office of the sheriff and tax collector state that the poll taxes for the year are less than they would be if there were no election in sight for the season.

The largest one-industry the world has ever known—the Good Roads Show last week at Cleveland—gave a picture of road progress that would be difficult to visualize fully otherwise.

MANY LIONS IN TUESDAY FEED

NINETY-FIVE PER CENT ATTENDANCE IS REGISTERED FOR MEAL AT ANTRU.

Thirty-eight of the forty Lions now holding membership in the Clarendon Club were in their places when the dinner bell was rung Tuesday of this week.

Not a visitor was present at the luncheon Tuesday, for the first time in many weeks meetings of the club.

The entire membership who were in attendance were Lions and they all held the true Lions spirit for doing something worth while.

The members were fully acquainted with the phone numbers of their buddies, which explains the splendid attendance that has been in effect for the past few weeks.

Lion O. C. Watson was called to the floor for a reading and an explanation of the Lions code of ethics.

Lion George Ryan was welcomed back into the club and when asked to say a few words, stated that he was merely going to state that he was glad to be back with the club and that he would be ready for use at any time.

Lion Garrison was welcomed back into the meeting after an enforced absence of three weeks caused by the illness of his son.

The matter of inviting the Wellington and Floydada luncheon clubs to Clarendon for the district meeting in February was brought to the attention of the club.

Lion Patman stated that the agriculture committee of the Chamber of Commerce had a communication that would be of interest.

The matter of securing a factory with all accoutrements for Clarendon when the country could be shown to have sufficient milk to supply the demands of the factory.

Lion Beville stated that the city should be complimented on the fire department in the manner in which it was being handled.

Lion Chase stated that the Fire Department of the city would need some additional equipment in the immediate future that the city could not furnish and asked that the matter be taken under advisement for a possible future discussion.

The present equipment should be examined and the future needs of the company be looked into with an eye to the needs of the company that might arise in the months just ahead.

Lion Cooper gave the low-down on the trip of Lion Murrell to Memphis last week and told a story to substantiate the claims he presented.

The Rotary Club of the city of Memphis stated in a letter to the Boss Lion that they greatly appreciated the attendance of Lion Murrell and that they would be pleased to reciprocate with a speaker in the very near future.

The Boss Lion stated that the first 100 per cent meeting held of the Lions would be photographed and warned Lion Alderson that his camera should be kept in readiness for just such an event.

Adjournment was had in the usual manner.

150 HENS CARRY DONLEY MAN OVER

SHORT CROP DOESN'T STOP LOCAL FARMER FROM LIVING AND PAYING NOTE.

Borrowing \$275.00 in March, 1927, marketing not a single bale of cotton, and raising just about enough feed for his own use, a farmer living north east of Clarendon rode a hundred and fifty hens to success during the past year.

This is a remarkable record, yet it is one that has been repeated in a number of instances and under varying circumstances, according to W. H. Patrick, president of the First National Bank, who related the above story to a News representative a day or so ago.

This farmer has no better farm than hundreds of other Donley County farmers and it is no discourtesy to say that he is no wiser or better experienced than the average Panhandle farmer.

With other Donley County bankers, Mr. Patrick is advancing money to customers who are interested in buying better grade milk cows, and as in other years is urging that Donley County farmers plant an acre of roasting ear corn and give attention to other truck products.

The income from milk, butter, eggs, chickens, turkeys, corn, beans, peas, melons, etc., is certain in spite of crop conditions and low prices, and it is the purpose of Donley County bankers to urge that more farmers go the diversification route in 1928 than ever before.

The News hopes to be able to carry a story each week about the practical demonstrations of diversification in this county by our own aggressive farmers.

In some cases the names will be withheld, but in all cases verification can be had by calling on the banker or merchant from whom the details are secured.

CHRISTIAN ENDEAVOR ELECTS OFFICERS FOR JUNIOR BODY

The Junior Christian Endeavor elected officers for their body at their regular meeting Sunday evening in the First Christian Church.

This group of young people are looking forward to a successful year and ask the co-operation of the young folk of their church.

Their meeting hour is 6 o'clock and a cordial invitation is extended for all the members to attend and bring some other one with them.

Officers for the new year are as follows: President, Ruby Barefield; vice-president, Mable Conner; secretary, John E. Wilson; treasurer, Miss Monte Conner.

Henry Youngblood left for Carlsbad, N. M., Tuesday of this week to trade the effects of S. A. Pines from that city back to Clarendon.

B. Frank Bennett, assistant manager of the West Texas Chamber of Commerce, has been in Clarendon the fore part of this week attending to business matters.

ELDER McCLUNG TO SPEAK HERE

ELDER CLAUDE McCLUNG OF FORT WORTH TO BEGIN SERIES MEETINGS FRIDAY.

The Church of Christ of this city will be the scene of a series of meetings beginning Friday of this week in which Elder Claude McClung of Fort Worth will have the floor.

Elder McClung has been in Clarendon before this date, and there are many who are looking forward to hearing him again on his appearance here.

For the past few weeks, he has been in this part of the state, and according to advices from the members of the local church, has given his entire time to Donley and Hall Counties for a month.

Services will be held at both the morning and evening hours at the public has been cordially invited to attend any or all of the services in the church.

The hours for the meeting have not been announced, but will be made public when Elder McClung arrives in the city.

Houston Miller and U. J. Boston spent last Sunday in Shamrock.

FIVE-YEAR PROGRAM FOR CLARENDON AND DONLEY COUNTY.

A competent and able committee appointed to work out a five-year program for the Clarendon Chamber of Commerce, after due thought and consideration worked out the following objects, which were unanimously adopted at the Chamber of Commerce banquet last week:

- First: Farm diversification, with due emphasis laid on dairying, poultry raising and hogs.
- Second: A commercial hatchery for Clarendon.
- Third: County Fair, with exhibits at district, state and tri-state fairs.
- Fourth: More friendship and co-operation between town and country people.
- Fifth: A farm demonstration agent for Donley County.
- Sixth: Paved highways for Donley County.
- Seventh: More sidewalks and street improvement for Clarendon.
- Eighth: Free mail delivery for Clarendon.
- Ninth: More shade trees, and cleaner streets and alleys for Clarendon.
- Tenth: A community auditorium for Clarendon.
- Eleventh: More liberal support for the Clarendon Municipal Band.
- Twelfth: Mass support for the Chamber of Commerce, financially and in every line of effort.

The twelve items above spread over a period of five years, do not present as pretentious a program as might be first supposed. The accomplishments of the city of Clarendon in the past five years has been so great and far-reaching, that a review will prove to any interested citizen that all of the objects set forth in the program may be obtained in the next five years if we stick together and set ourselves to the task.

Really, the accomplishment of the twelfth paragraph will insure the accomplishment of all the other eleven.

Forward!

One of our humorists has said "Friends are people you like in spite of your superior virtues." Well, well, now isn't it about fifty-fifty? Our friends, no doubt, have some "superior virtues," too.

No free government or the blessings of liberty can be preserved to any people but by a firm adherence to justice, moderation, temperance, frugality and virtue, and by a frequent recurrence to fundamental principles—Patrick Henry.

In these days of cash and carry, there is no item so important as one's personal credit.

Have you paid your poll-tax? With this warning, don't blame us if you come up without a vote in the July primaries and at the general election.

January is a better business month than many of us anticipated even in spite of the shadow of tax-paying time. February ought to be still better. 1928 as a whole will be more satisfactory from a business standpoint than was 1927.

Clarendon now has an opportunity to secure a sub-factory of the extensive cheese factory located at Wichita Falls. It appears that we have about the minimum requirement of milk production in this territory to make the sub-factory profitable, and with the extension of dairying in Donley County, it should become a great asset to Clarendon and the county at large. Whether Clarendon gets the new enterprise or not, rests entirely upon the leadership and co-operation in the town. If we go after it hard enough we will get the factory.

Donley County's agricultural diversification advantages are to be broadcast from Station KRGS at Amarillo, Friday evening, February 3rd., in a program outlined by the agricultural committee of the Clarendon Chamber of Commerce. Effort will be made to interest the farmers of the north, east and middle-west in coming to Donley County, which is in line with the plan this year of bringing thousands of immigrants into the Panhandle and West Texas. Donley County has more advantages to offer than any program of ordinary duration can tell to the world.

Character will always tell. Governor Dan Moody has declared in no uncertain terms that he will not be a candidate for the vice-presidency on the same ticket with Al Smith. He has declared that he stands for a dry Democracy. He has demonstrated to his Texas friends that he is not a man to be swayed by the siren voice of ambition, when principle is at stake. Texas is proud of Dan Moody, and she may present his name at the Houston convention as her "favorite son," offering him as a candidate for president on a prohibition platform. Strange things are happening these latter days. Who knows?

There are many needed improvements in the public service of Donley County, but The News believes that there is no one item so badly needed as a county agricultural agent. The counties of the Panhandle who are making the greatest progress are the ones who have used the services of the county agent for a period of years. Now the dividends are coming home to them in hundreds of better bred dairy cattle, better flocks of poultry, better and fatter cattle and hogs, etc. Where the emphasis is put always comes the improvement. Without the proper and intelligent emphasis improvement is necessarily slow and restricted. Donley County needs the county agent.

CLARENDON CHAMBER OF COMMERCE

The Clarendon Chamber of Commerce held its annual banquet Tuesday night at the Antro Hotel. This banquet proved to be worth while to all participating. The menu was practically all products of Donley county, and showed what can be done at home. Col. Haines of Amarillo was the speaker of the evening, and he showed very forcibly how a chamber of commerce can and does do more for the community than any other organization.

The report of activities for the past year in Clarendon made it very plain that the Clarendon chamber of commerce is an active and effective organization. The outline of the program for 1928 advocated paved highways, municipal auditorium, more attention to dairying and poultry raising, and a more complete diversification program. In fact, every county in the Panhandle could adopt the same program and do great things.—Memphis Democrat.

LACY BOURLAND ACCORDED HONOR BY A. & M. STUDENTS

The News received an item the fore part of this week that shows that merit is not only centered on the heroes of the gridiron or their environs, but may also be obtained through honest efforts in many other fields of endeavor. This item heaps further honors on Lacy Bourland, one of the Clarendon boys attending A. & M. College at College Station. This is the senior year of Lacy and he has been voted one of the five most popular boys on the campus at College Station. This honor has been shared by five other students of the college, two of them being Hunt and Sikes of football fame. The last honor is heaped on the deserving head of Bourland following his appointment to the post of Colonel of Cadets and many other like favors that have been his since he has entered the portals of the School of Agriculture and Mechanics of the state. Clarendon has just reason for being proud of her boys who have gone into the schools of the state and emerged victorious.

A. & M. COLLEGE SHORT COURSE DATES GIVEN OUT

College Station, Texas, Jan. 29.—Dates for the nineteenth annual Farmers' Short Course to be held at the A. & M. College of Texas during the coming summer have been announced as July 30-August 4 by H. H. Williamson, vice-director of the Extension Service. This will be one week later than last year when the short course was held July 25-30.

The program for the coming short course is already being worked out, officials having announced plans for the best educational program yet offered, dealing with various phases of agricultural, livestock and home demonstration work.

What Is Thrift?

The beginning and end of Thrift, is to spend a little less than you earn; to work diligently; to live simply; to save consistently.

The joys of Thrift are abiding. Its rewards are measured in terms of security, comfort, self-respect, power, character, influence, independence—all those things so desired of man.

Thrift is the foundation upon which all community wealth is built. To the man or group of men who possess the habit of Thrift, it eventually brings power, prestige and prosperity.

True Thrift deprives no one of rightful pleasure; it narrows no prospects; hampers no worthy ambitions. Rather, it is the answer to all worthwhile things; it brings comfort and happiness; opens the door to opportunities, and makes possible the realization of many ambitions.

Thrift on the farm or ranch constitutes careful planning, business-like methods, diversification, wise borrowing, judicious spending, a substantial bank balance.

Thrift does not call for superior courage, wisdom, foresight or judgment; it simply calls for a common-sense program of living, as summed up in the opening paragraph: To spend a little less than you earn; to work diligently; to live simply; to spend judiciously; to borrow wisely; to save consistently.

Start a Thrift program for your farm or ranch and for every member of the family. It is the first step toward bigger, better things.

4-WHEEL BRAKES ON DODGE FOURS

MAJOR IMPROVEMENT SHOWN ON "128" LINE SHOWN BY LOCAL DEALERS.

Among the cars exhibited by Bal-ew & Noble local Dodge Brothers dealers, are those of the "128" line which are now equipped with four wheel steeldraulic (mechanical) brakes. This improvement was made just before the first of the year and with no extra cost to the purchaser. The supplying of these brakes to the four cylinder passenger cars constitutes a major improvement.

A unique feature of this system is the connection between that part of the mechanism supported on the frame and that on the axle which is through a special flexible connection, eliminating the complicated universal joints and shafts usually associated with mechanical four wheel brakes. This connection consists of a steel cable, passing through the center of short steel guides or vertebrae, the ends of which are rounded and cupped so that as they fit together, they form a series of ball-and-socket joints, permitting a considerable amount of bending.

These guides are supported in a coiled spring casing around which is placed a heavy protecting cover of rubber fabric.

This construction possesses sufficient rigidity to transmit tension in the cable without changing form. The shape of the joints in the conduit is such that the length along the center line does not change, when the conduit is bent, therefore the brake action is not affected by the turning of the wheels, spring action or body roll.

Another unique construction is the brake shoe which floats on the brake support, not being fastened to the anchor pin and therefore is not affected by eccentricity of the brake drum. The brake shoe itself is of pressed steel, the rear half being rigid and the front flexible, giving a full wrapping action on this half when the brake is applied. The shoe is expanded by a toggle, moved by pull from the cable through the flexible connection, and returned to the released position by a cross spring in the brake shoe. The shoe is held in position by the anti-rattler spring which holds it against the anchor pin and the brake shoe stop.

The brake linkage is very simple, consisting of a tubular cross shaft in the frame with double levers on each end, which connect through pull rods to the flexible connections to each wheel, and connections on the cross shaft to the brake pedal and hand lever, the same linkage and shoes serving both the foot and hand brakes. The connection to the brake pedal is by double rods giving a push-pull action, which eliminates side thrust from the cross shaft.

The connection to the brake hand lever is a steel cable, which is in tension only when the hand brake is applied, slackening when the foot brake is used. Anti-rattlers on the rods, and springs on the cross shaft and hand lever keep the linkage in tension at all times to prevent rattles.

The brake drums are of the same flanged design used in the Dodge Senior sixes protecting the mechanism from dust and mud. An inspection hole in the brake drum between the spokes of the wheel, allows brake adjustments to be made without removing the wheels.

President Homer Mulkey of the local Lions Club and Lion Frank Whitlock motored to Shamrock Friday of last week to attend a meeting of the Lions of that city, and to invite them to the district meeting of the Panhandle Clubs in Clarendon on February 7th.

Notice is hereby given for ten days as required by law that I will sell at my place, the old Nelson place, five and one half miles west of Clarendon, two gray horses about nine to eleven years of age, one being marked "H. L." on left shoulder. This sale to be made in accordance with the statutes for pasture and same will be sold at 10:00 o'clock the 30th day of January, 1928.

C. I. A. NOTES

By Nedra Cooper

Mary Jo Chamberlain had as her guest Saturday, Jan. 14, her father, Mr. F. E. Chamberlain, of Clarendon.

Sunday School Social.

The Young Marton's Class of the Methodist Sunday School were entertained in the home of Mrs. L. H. Johnson with Mrs. John Butler as assistant hostess on Tuesday afternoon.

After a short business session a social hour was spent in hand work and conversation, after which a lovely luncheon was served to the following: Mesdames Paul Shelton, Ben Anas, Manley Ozier, Hutchins, John Butler, and two others whose names we fail to recall.

Newly Organized Bridge Club Entertained Friday.

Mr. and Mrs. H. B. Kerbow were the delightful host and hostess to the newly organized night bridge club on last Friday evening. After much merriment and the playing of several hands of bridge it was found that Mr. H. B. Kerbow was high point man for the evening.

The guest list included: Mr. and Mrs. C. E. Killough, Mr. and Mrs. Ralph Kerbow, Mr. and Mrs. Don Grady, Mr. and Mrs. R. Wilkerson, Mrs. C. C. Powell, Mrs. B. G. Smith and Mrs. Eva Rhodes.

Needle Club Entertained

The Thursday Needle Club was very delightfully entertained by Mrs. Meredith Gentry on Tuesday afternoon January 24th.

Fancy-work and conversation made the afternoon hours pass swiftly. A delicious two course luncheon was served by the hostess.

Those present were: Mrs. L. L. Swann, Mrs. H. Ellis, Mrs. H. Kennedy, Mrs. R. L. Bigger, Mrs. Ralph Porter, Mrs. Clarence Miller, Mrs. Chas. Trent, Mrs. Nat Perrine, Mrs. Sam Dyer, Mrs. Earl Alexander, Mrs. Clyde Price, Mrs. Selden Bagby, Mrs. Philip Gentry and Miss Ineva Headrick.

Busy Women Entertained.

A very gay and happy crowd of thirty-five women gathered at the home of Mrs. L. L. Taylor with Mrs. Edw'n. Baley and Mrs. Will Lott as assistant hostesses on Friday afternoon of last week.

A short business session was held at which time it was decided to have a social on the first Friday of each month.

Progressive conversation and a fish-pond was the other feature of the afternoon. Twenty-five cents was charged for each throwing of the line, the attractiveness of this feature was in the kind of fish caught. The money derived from this was turned to the treasurer.

A delicious two-course luncheon was served by the hostesses.

Mrs. Acord of Hedley and Mrs. H. Miller were special guests.

Mr. and Mrs. A. T. Jefferies Entertained at Bridge Friday.

On last Friday evening, Mr. and Mrs. A. T. Jefferies entertained their evening Bridge Club in a kingly fashion.

Their home was made beautiful by the numerous flowering pot plants and ferns used in the decoration scheme.

A lovely three course luncheon was served at the small tables with dainty candy baskets as the chief table decoration, after which bridge was played by the following: Mr. and Mrs. J. L. McMurtry, Mr. and Mrs. F. E. Chamberlain, Mr. and Mrs. W. H. Patrick, Mr. and Mrs. H. M. Rhoads, Dr. and Mrs. Ellis, Mr. and Mrs. Calhoun, Mr. and Mrs. W. C. McDonald, John Bugbee and Louis Holloway.

Mrs. F. E. Chamberlain was presented with a lovely prize as high score for the ladies, while Dr. Rhoads won high score prize for the gentlemen.

The C. I. A. Orchestra, of which Claire Marie Braswell, of Clarendon, is a member, will play the orchestration for the choral festival.

Mrs. John Beverly Hostess To Christian Ladies Aid.

The Ladies' Aid of the First Christian Church met Wednesday, January 25th, in the home of Mrs. John Beverly. Mrs. G. A. Anderson was lesson leader. An interesting discussion was had on questions of the Israelites' sojourn in the wilderness, and was enjoyed by all. After a short business session, in which future work for the society was discussed, the hostess served dainty refreshments to 11 members and two visitors. The meeting closed with the Lord's prayer. The next meeting will be held with Mrs. Beverly as leader.

Mrs. H. M. Rhoads Hostess To Thursday Bridge Club.

Mrs. Rhoads was the charming hostess to the Thursday Bridge Club at her beautiful country home on Thursday January 19th.

Her twelve guests arrived at one o'clock and enjoyed the lovely one course luncheon served by the hostess.

Bridge was played throughout the afternoon. Mrs. Glascoe holding high score at the conclusion of the games and was presented with a useful gift.

This congenial crowd were: Mrs. L. L. Swann, Mrs. T. H. Ellis, Mrs. Price, Mrs. Park Chamberlain, Mrs. Earl Alexander, Miss Mary Cook, Miss Fannie Florence Sims, Miss Nettie Sims, club members and Mrs. W. H. Patrick, Mrs. F. E. Chamberlain, Mrs. Homer Glascoe, and Mrs. R. A. Chamberlain as special guests.

T. E. L. Sunday School Class

Guests of Mrs. W. B. Sims. Mrs. W. B. Sims and her daughter, Mrs. Eva Draffen were the gracious hostesses to the T. E. L. Class of the Baptist Sunday School, in the home of Mrs. W. B. Sims.

Much amusement was derived from the various games and contests which occupied the attention of the guests during the afternoon. One of special interest was the marshmallow contest in which Mrs. Massie was winner.

Due to so much sickness only twelve members of this interesting class were present for this, the jolliest social of the year. They were: Mrs. W. A. Land, Mrs. Frank Whitlock, Mrs. Cap Lane, Mrs. E. M. Lindsey, Mrs. Acord, Mrs. Frank Brown, Mrs. W. Z. Barron, Mrs. W. A. Massie, Mrs. Turnbolt, and Mrs. W. W. Emmons.

The Get-Together Meeting.

The members of the Epworth League of the Methodist church were hosts to the entire membership of the church on Wednesday evening of this week.

About one hundred and fifty people made up this congenial crowd and it was truly a get-together meeting, as had been planned by the hosts.

A very interesting program was rendered after which punch and wafers were served in a well appointed room.

Much credit is due Jack Crow, Miss Fannie Perry and Mr. Schull in the way they planned this delightful affair.

The following program was rendered:

- Song Congregation.
- Prayer Rev. Murrell.
- "Looking Ahead" J. R. Porter.
- "Young People" Mr. Schull.
- Violin Solo Miss Ruth Haning.
- Miss Haning, accompanist.
- Greetings Rev. Allison.

- Address Rev. Murrell.

program in the spring and plan, in addition, to give a few outstanding selections.

The orchestra, which is composed of twenty-six musicians, is now working on Mozart's Minuet from E Flat, and Schubert's Unfinished Symphony.

During the past semester not one case of serious breach of honor has been brought before the Student Council, the student governing body on the campus. This has been attributed to the fact that the students have regarded the honor system seriously and have earnestly kept their pledges to be honest in all college work.

The new method of placing upon each individual student a two-fold obligation—responsibility for her own actions and those of her fellows—inaugurated at the first of the year, has been largely instrumental in maintaining a high standard of honor.

The new White Way, which consists of thirty-eight lights, on the C. I. A. campus, was lighted for the first time, Saturday night, January 7.

The installation of the White Way is in line with the present policy of the Board of Regents and President Hubbard to make the campus as attractive as possible. This makes C. I. A. one of the best lighted campuses in the United States.

A special European tour for next summer has been arranged for Miss Anna Van Buskirk of the English Department of C. I. A., and a party of ten or twenty students who will accompany her. Monte Carlo, Paris, Venice, Rome, Naples, Interlaken, Lucerne, Geneva, the Rhine, Old Heidelberg, Riviera, Nice, Brussels, the country of Shakespeare, Edinburgh, London, Oxford University, and Montreal, Canada, are some of the places of romance and glamour to be visited.

The party is to sail from New York June 30 and will return August 25. Miss Van Buskirk plans to make this a university tour.

Hair dyeing is coming into its own as a favorite indoor sport of C. I. A. students. Red is among the favorite color among dyes—its prevalence being given by beauty authorities on the ground that it is so cheerful. A student added that "somehow redheaded people are forgotten so much more than blondes or brunettes." But hair is often blondened and quite frequently ravaged.

Nor is hair the only item girls have found it interesting to change. Eyebrows and eyelashes are stylishly darkened to match the coloring of the hair and eyes.

And since one brilliant student discovered that serip ink dyed hair beautifully—its washable qualities making it doubly desirable—the campus has been momentarily awaiting the appearance of chameleon-like styles of hair tinting.

A degree will be offered students who have completed the requisite number of courses in library training, at the beginning of the regular session of the college in September. It is expected to train students in work as private and school librarians. A laboratory for this work will be offered in the Frank M. Bralley Memorial Library. Miss Caroline Meyer, C. I. A. librarian, is director of the department.

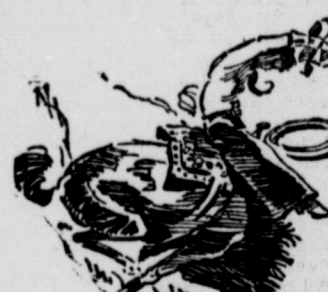

Plans for a dance to be given February 18 were completed at a meeting of the Panhandle Club, Thursday, Jan. 19. Frances Wayne Smith of Amarillo was appointed chairman of the entertainment committee.

Approximately sixty girls from the Panhandle have joined the club. Amarillo heads the list of representatives with eight girls, while Clarendon runs a close second with seven. There are five girls from Lamesa, four from Memphis, three each from Childress, Wellington,

Claude and Tulia, two each from Booker, Quitaque, Vega, Matador, Dalhart, Spearman, Slaton and Haskell, and one each from Petersburg, Stratford, Crowell, Canyon, Silverton, Miami and Shamrock.

A series of lectures in Texas for Dean Walter Williams, Dean of the Faculty of Journalism at Missouri University, is being arranged by Eric G. Schroeder, director of the Department of Journalism at C. I. A. Dean Williams will speak at a meeting of the Panhandle Press Association at Childress, April 20. Tentative plans are being made for Dean Williams to speak at T. C. U., Texas Tech, Texas University, and Baylor. He will also speak to the Journalism Club at C. I. A.

Final drawings and specifications for the new \$150,000 dormitory at C. I. A. will be submitted to the Board of Regents of the college soon. Bids for the dormitory will not be considered before June. The dormitory will have 100 rooms with accommodations for 215 girls. In addition there, will be parlors,

TELEPHONE HOMES IN U. S. BUY MAJORITY OF ADVERTISED GOODS

"Telephone homes" in the United States purchase two-thirds of American advertised commodities, according to a survey completed by the General Federation of Women's Clubs.

The direct relationship to business of the home telephone is reflected in the fact brought out in the survey that seventy-nine per cent of the automobiles in the United States are owned by persons whose dispensable necessity—the telephone.

A further indication that "telephone homes" are the first to buy new things and always are alert to make use of conveniences is the fact that although twenty-one per cent of the families in this country have electric percolators, eighty-eight percent of these families have telephones.

A. & M. SUMMER SCHOOLS TO INCLUDE NUMBER OF COURSES

College Station, Texas, Jan. 29.—The 1928 summer school of the A. & M. College of Texas, which will open June 11, the Monday following commencement of the regular college year, is now being organized. Dean C. H. Winkler, of the school of Vocational Teaching and chairman of the summer school committee has announced. The summer session will again continue for twelve weeks, with two terms of six weeks each. Enrollment in the college division of the summer school was the largest in the history of the school and Dean Winkler predicts an even larger enrollment for the coming summer.

In addition to the regular college division, which includes the graduate school, a number of short courses will be given, such as the summer school of cotton, six weeks; course for vocational teachers, three weeks; course for public utility men, for graduate veterinarians, cotton breeding course, county superintendents' conference, and the big Farmers' Short Course, each of the latter five calling for one week's duration.

Dean Winkler has called attention to the fact that, by reason of law enacted by the Fortieth Legislature making provision for the extension of teachers' certificates by attendance at summer school, any person holding a teacher's certificate of any kind or grade has the right to have such certificate extended for one year by passing in four courses or subjects at a recognized summer school. This provision, he added, should result in a considerable increase in summer school attendance by teachers.

HOW LONG SHOULD LAYING HENS BE KEPT?

(By F. W. Kazmeier, Bryan, Tex.) Too many people keep their hens until they die of old age. It is apparently a natural characteristic for hens to lay more eggs the first year than any time thereafter. Not only do pullets lay more eggs but they lay them in months when eggs are worth the most. Hens on the other hand lay their smaller production in months of the year when eggs are the cheapest. There is no question but that pullets hatched at the proper time, not only lay many more eggs but lay more in the fall and winter. Results of experiments by Prof. Dryden at the Utah Experiment Station, showed average pen results from leghorns in the first year of 164 eggs and in the second year 126 eggs per pen. At the Oregon station later results were secured as follows: Fifty Barred Plymouth Rocks laid 160 eggs the first year and 105 the second year, and 50 White Leghorns 153 eggs the first year and 130 the second year. There seems to be no question but that the first laying year of a hen is the most profitable.

Periods of Incubation.

The number of days required to hatch eggs of the different species of poultry is as follows: Hen, 21 days; pheasant, 22-24 days; duck, 28 days; duck, (Muscovy) 33-35 days; turkey, 28 days; peafowl, 28 days; guinea, 26-28 days; ostrich, 42 days; goose, 30-34 days.

Length of Brooding Period Often we are asked the question, "How long should chicks be given artificial heat?" To answer this, we say late hatched chicks generally do not require artificial heat for longer than six weeks and early hatched chicks require heat for at least eight weeks. Chicks hatched in March require heat longer than chicks hatched in May. It is a serious mistake to take all artificial heat away too soon. This no doubt is one of the greatest causes of stunted growing stock. The proper brooding temperature is about 95 degrees, one inch from the floor, in the area under edge of hover where the chicks are to remain. It is also a good idea to gradually reduce brooding temperature as the chicks grow older. On the other hand they should be kept warm enough at all times to keep them from crowding. For 350 chicks use a 52 inch hover and brooder in a house about 12 feet square.

NOT MEANING TO CRITICIZE

Be it far from our intention to adversely criticize any method of judicious advertising, but there is advertising and advertising and then there is stuff that is called advertising that does not advertise.

We can well speak for newspaper advertising because we know it—and know if you really want advertising this is what you want to use. But the billboard. Can it really be said that the few words on a billboard can be interpreted as advertising? In the first place the letters must be large to command any attention, and it would require a billboard a half-mile long to tell what should be told, and the expense of such a billboard would be prohibitive. Then the people who pass along the road haven't sufficient time, as a rule, to stop and read the pictures on a billboard.

The truth of the matter is that the majority of billboard advertisements are repellant and do not draw in any sense. They just say Bill Jones is selling some kind of car or other commodity, in loud, flashy letters, and the passerby must slow up or stop to read and get any understanding from the advertisement.

Not so with the newspaper advertising. It goes directly into the home, and there meets the attention of every member of the family from "Papa" down, and the man who advertises can tell his story in a plain, convincing manner—and it is true. Billboard advertising may be all right for a circus, but for general business,—no.—McComb, Mississippi, Journal.

RADIOED FROM U. S. D. A.

The best way to regain a youthful figure is to take sufficient exercise, and follow a safe reducing diet. A reducing diet is low in calories, or fuel value. The watery and bulky fruits and vegetables, which are low in calories, or fuel value, should predominate in the diet of a person who has a tendency to store up fat. Food to be used sparingly, are the more concentrated foods, especially those rich in starch, in fat content, and in protein. It is fairly easy to limit the amount of fat, since most of the fat is added to the diet. This means cutting down or limiting butter, cream, and dishes prepared from cream; salad oils of all kinds, fat meat, and fried foods. If you want a salad dressing, make a simple French dressing, with lots of vinegar or lemon juice, and very little oil. A good salad dressing can be made by using mineral oil, as a substitute for the ordinary salad oil. Mineral oil is not digested, but simply acts as a filler, and helps to carry flavor.

CIVIC OPERA TO OPEN BUILDING

WICHITA FALLS MEMORIAL AUDITORIUM TO BE USED FOR FIRST TIME FEB. 29TH.

When the Chicago Civic Opera company stages the operas, "Aida" and "Resurrection" in the new \$750,000 Memorial Auditorium at Wichita Falls on the evenings of February 29th and March 1st, the first opportunity will be given for a glimpse of the huge stage since the curtains have been hung and all equipment installed.

An idea of the immensity of the stage is gained when it is known to be 120 feet across, with a depth of forty feet and a 60-foot proscenium arch. The proscenium setting is so designed to permit the possibilities of a very large stage or a small stage.

The main curtain is of asbestos, constructed to preclude the most remote danger of fire. On this curtain a famous scenic artist has depicted the blue waters of Lake Kemp for a center panel and the side panels show oil field and dairy farm scenes typical of this section of Texas. Velvet-velour, with beautiful panels of applied tapestry, art-tassels and gold fringe complete stage hangings unrivalled in the United States. Twenty-four dressing rooms with private showers and lavatories and every other

convenience take care of the actors and workers back stage.

The acoustics have been pronounced perfect; one can hear as well in the balcony as on the lower floor.

Rosa Raisa, the star of "Aida," is one of the world's greatest dramatic-sopranos; she is supported by many noted artists.

Mary Garden, the star of "Resurrection" is "our Mary," known the world over, not only for her voice, but for her dramatic personality. She, too, is supported by other famous artists.

Grazing livestock in the farm woodland and maximum production of timber do not go well together, says the United States Forest Service. Continued heavy pasturing of hardwood woodland eliminates all young timber growth on the ground and prevents more from becoming established. This brings about a parklike appearing woods which grows but a small percentage of the amount of wood that the land is capable of producing.

FOUR CLARENDON MEN AT MEMPHIS CELEBRATION

The annual Chamber of Commerce banquet held last Friday evening in the ball room of the Memphis Hotel was a great success from every angle. Editor Claude Wells of that city was in the chair as outgoing president and handled matters in a very pleasing manner. A review of the work done in the year past showed that the body had done much. Their plans for the coming year would indicate that they are planning to do more work in a shorter time than was the case last year. J. A. Brewer was elected to head the board for the new year, but was unable to be present and take any part in the festivities that marked the beginning of his regime as president of the Chamber of Commerce. Foremost on their list of work for the year 1928 is the item of a lower insurance rate. To accomplish this item, it will be necessary for the city of Memphis to install water facilities that will preclude another such calamity as befell them Friday of last week, when a \$50,000 loss was incurred in the burning of a lumber yard in the heart of the business district.

Two speakers filled the evening with their words of wisdom and experience. Col. Harve Haines of Amarillo served in the capacity of speaker of the evening, being aided in this work by the singing mayor of Wichita Falls, Mr. Shepherd. Clarendon representatives who were present were G. L. Boykin, Chas. G. Speed, H. J. Edington and F. L. Stallings.

FIRST EDITION METHODIST NEWS PRESENTED SUNDAY

Volume 1, number 1 of the Clarendon Methodist Church News was presented the members with the announcements and news of the past week at the morning service at the Methodist Church Sunday morning. The bulletin is to be published each week by Miss Lottie E. Lane, and all copy and announcements should be phoned to her at the court house. The paper is to be mimeographed and will take the place of announcements at the morning hour.

CONTEST LOSERS ENTERTAIN WITH FEED SATURDAY NIGHT

The Clarendon Hotel was the scene of a great activity Saturday evening of last week when the two contesting sides of the Epworth League met and concluded the work started in the fall months. The purpose of the meeting was to pay off all outstanding agreements and was a great success insofar as the feed was concerned. The side named "The Winners" was the loser and the feed was at their expense. Jack Crow was at the head of the festivities as toastmaster and handled the matter with the ease of a veteran in the cause. Each one of the thirty one present at the festivities was called to the floor and presented their feelings on the matter. With one accord, all present felt that the event was a great success and all of them asked to be on the winning side in the contest that will soon be announced.

HENRY YOUNGBLOOD OUT FOR COMMISSIONER PRE. 2

W. H. (Henry) Youngblood has authorized the News to publish announcement of his candidacy for commissioner of Precinct No. 2, on the Democratic ticket. Mr. Youngblood has been a resident of the Panhandle for twenty-six years, and has been a citizen of Clarendon for the past eight years, moving here from Hall County, Brice community, where he says his first office was at the rear end of a mule team for many, many years. In Hall County, Mr. Youngblood served as member of the county board of education and on the local board of trustees. Since coming to Clarendon, Mr. Youngblood has been active in school matters, now serving his third term on the board of trustees of the Clarendon Independent School District. Mr. Youngblood promises the strictest attention to the business of the county if elected, believing that he has full qualifications for every demand of the office which will be heavier as the years go by. See his name in the announcement column and give his candidacy consideration.

"KING OR COMMONER" IS NAME OF SERIES TO BE RUN IN FUTURE

ELEVEN ARTICLES DEALING WITH FUTURE OF COTTON INDUSTRY IN U. S. TO START IN EARLY ISSUE OF NEWS—COURTESY BANK OF MANHATTAN CO., NEW YORK—LATEST VOLUME IN ECONOMIC SERIES.

To show the readers of the News the significance of the cotton crop of the United States, and to show that others outside the Panhandle and the State of Texas are watching this problem, we are presenting a series of eleven articles from the Bank of the Manhattan Company library of economics.

These stories will be in as condensed form as is possible to get them and will be short enough to allow an easy reading at one time. The articles are not intended to preach a sermon on the cause and effect of the over production or under production of the staple, but point out the fact that co-operation in all lines from the time the seed is planted until the finished crop is marketed in the form of a staple cloth.

The generally increased uses for cotton have increased the demand for the staple until even now, it is impossible almost for a time to come when over production will be the case. Many industries have found that they are able to use cotton in huge quantities when they did not use a single bale some years past. The utilization of the by-products of the cotton is taking its due place in the scheme of affairs and the seed alone is becoming of great value to the producer.

We are presenting the series in the hope that the producer of Donley County and the surrounding territory will glean some bit of information as to the importance of raising cotton. Of raising better cotton at a smaller cost to the producer and of better price when it comes time to sell to the middle man or the factory.

The first of the series will be sent in the issue of February 2, and will fall under the heading, "The Spirit of America."

CURTIS E. THOMPSON FOR COUNTY JUDGE

Hon. Curtis E. Thompson has authorized this paper to announce his candidacy for the office of County Judge and Ex-Officio Superintendent of Public Instruction of Donley County on the Democratic ticket. Judge Thompson has been a resident of Clarendon for the past seven years and is now completing his third elective term as county attorney. He is thoroughly familiar with the affairs of the county and offers for the office on his fitness for its duties. If elected, Judge Thompson says he will be in line with the progress of the county, will give special attention to the rural schools and administer the business affairs of the county with strict economy and accuracy. He asks that you consider his record and he invites your vote and influence.

MRS. WILLIE GOLDSTON IN RACE FOR COUNTY CLERK

The News is authorized to announce the candidacy of Mrs. Willie Goldston for the office of County Clerk. Mrs. Goldston asks for the office in full assurance that she is adequately prepared in every way to give the most efficient service, and comes with a wealth of experience and a great desire to fill this place to the complete satisfaction of all. Having been solicited by people from all over the county and from all walks of life, she feels that her faithful service in preparing herself for such office has been well spent, knowing the workings of all county offices and being in perfect harmony with all, she also states that she is making the race solely on her own merits and will use every known effort to get in touch with every voter and solicits the support and vote of every citizen in the county, having lived in Donley County thirty-nine years she feels she knows and appreciates the needs of the office, and earnestly asks for your sincere consideration before you cast your ballot at the coming election. If elected, she promises to faithfully fulfill all duties, and give the kindest consideration to every one at all times, and assures you the most courteous treatment in all matters.

SECRETARIAL SCREENINGS

CLARENDON CHAMBER OF COMMERCE
G. L. BOYKIN, Secretary

We hope you will read the article in another section of this paper concerning the policy of the Kraft Cheese Company that has recently built a factory in Wichita Falls. They state that they expect to construct several factories as large and smaller than the one at Donley in parts of this section. If Donley county can show the cows and the quality of milk when they visit this county we can get one. We are endeavoring to find out their requirements and are at the same time taking a cow census of this section. If you are milking cows please help us to do this as we must have the dope to give them when they visit us. Each cream station has a list for you to sign if you are a farmer milking cows. Please give us this information as soon as possible. Your names will not be used. We need a better market for milk. Lets get it.

A company coming to Clarendon as large as the Kraft Cheese Company is going to be largely set back when they find out Donley county has no county agent. If we secure a meeting with them, one of the first questions asked will be where is your county agent? And rightly so because he is the buy who can develop agriculture above all else in any section, if he has a chance. Donley certainly should have a farm demonstrator.

When you receive your committee assignments this year please take it to heart and make your committee active during 1928. Every committee connected with this organization should have enough to do for 1928 to have that committee meet once each month. If you will you will help your town. Let each committee put something over for the good of Clarendon during the year. The success of this organization is founded on individual and committee activity. Make your committee the liveliest one in town, and Clarendon will go in 1928.

The Secretary and three members of this organization attended the Memphis Chamber of Commerce banquet Friday night and had a most enjoyable visit with our neighbors.

RADIE BRITAIN CONCERT SEATS ON SALE HERE NOW

Clarendon has been reserved a block of parquet seats from the 9th row back and some seats just behind the parquet for the Radie Britain concert at Amarillo, February 10th. Miss Katherine Patrick has charge of the tickets in Clarendon and reservations may be made with her at the First National Bank. Parquet seats \$1.50. Behind parquet, \$1.00. Miss Patrick says a great interest is manifest here as Clarendon will be strongly represented on account of Miss Britain's popularity in this city. Get your reservations now.

NOTICE TO AUTO OWNERS

By a ruling of the attorney-general's department there is a twenty-five percent to be added to all license paid after the 20th of January. However, since there has been a general delay in the matter of securing license, we will not add the twenty-five percent penalty until Feb. 1st. On and after that we shall be forced to collect the penalty in addition to the license fee. It is our purpose to handle this matter with as little inconvenience and added expense as possible, so we urge that all get their license tags before Feb. 1st.

W. A. Pierce, Sheriff and Tax Collector, Donley County (4c)

Mrs. James Trent and Mrs. L. S. Bagby attended convocation at Abilene last week. While there they were royally entertained in the home of Mr. and Mrs. Max Bentley. Mr. Bentley is one of the best known newspaper men in Texas. Mrs. Bagby and Mrs. Trent returned by way of Ft. Worth, where they spent one day shopping.

MRS. LINNIE CAUTHER FOR COUNTY TREASURER OFFICE

Mrs. Linnie Cauther desires her candidacy for the office of County Treasurer to be announced in this issue of the News. Mrs. Cauther has been a citizen of Clarendon for the past ten years, where she is held in high esteem by her neighbors and acquaintances. She is well fitted and qualified by education and temperament to fill the duties of the office to the complete satisfaction of all and on the basis of fitness is making the race. She will make an active canvas of the county and desires the vote and influence of the Democratic voters of Donley County. See her name in the announcement column.

TECH STUDENTS TO RECEIVE TRAINING IN COTTON GIN

Lubbock Texas, Jan. 29.—Dean A. H. Leidigh of the department of agriculture in Texas Technological college announces that a modern cotton gin will be the next addition to the college farm equipment. According to the plans the unit will carry the latest in ginning equipment, cleaning machinery for studded and snapped cotton being featured.

Vacuum conveyers on the gin will allow the school of agriculture to carry on seed standardization and propagation.

With the establishment of this gin on the Tech campus, cotton, Texas' leading product, may be carried from the seed to its final

JOKES FROM THE COLLEGE

Some members of the all town "Gossip Clubs" were discussing a coming banquet.

"I," said Mrs. Brown, "am going to wear a brown dress because my husband's hair is brown."

"And I," said Mrs. Gray, "Am going to wear a gray dress because my husband's hair is gray."

"Well," said Mrs. Unfortunate, "I don't suppose I will go to the banquet. My husband is bald-headed."

She—"Oh, Harry, what shape is a kiss?"

He—"Well, give me one and we will call it square."

Why Laundry-Washed Clothes Last Longer

Because our rainsoft water laundry uses, plus nine to thirteen purifying baths and rinses, completely removes every trace of fabric-destroying dirt. Rubbing is eliminated by cylinder washers which dissolve dirt by gently swishing creamy suds and rainsoft water through every fabric pore. Remarkable spinning baskets extract the water from the clothes without injuring a single thread. And ironing equipment, delicate enough to smooth wet tissue paper without tearing, is but another of the numerous advancements that characterize present-day laundries.

VISIT OUR MODERN LAUNDRY

Then you will understand why millions of home-makers now depend upon fabric-saving laundry methods for relief from irksome washday toil.

The Laundry does it Best!

Reasons Why Laundry-Washed Clothes Last Longer

- FIRST—Only mild soap and softened, filtered water are used for cleaning clothes. To avoid rubbing, modern laundries bathe and rinse the average washing in more than 600 gallons of purifying water.
- SECOND—Whirling basket wringers dry clothes to ironing dampness without squeezing a single thread or fibre.
- THIRD—Gigantic ironers smooth out clothes with child-like gentleness—delicately handling even sheerest fabrics safely.
