LOCAL FFA JUDGING TEAM WINS FIRST PLACE IN STATE EVENT

T. H. Seay, local vocational agriculture instructor returned home early Monday morning very proud of six local youths who showed themselves well at the State Judging contest at College Station last week.

The milk and cream judging team comprised of Vernon Goldston, Bob Clifford and Buster Bain, won first place over the entire state of Texas and also won a trip to Waterloo, Iowa in October to represent the state in the national contest there. Vernon Goldston was the high point man in the state in this same contest. In addition to the boys' ability, Mr. Gillham is to be credited with a part of their success as he was the one who has been in charge of the group's training, Mr. Seay stated.

The Poultry Judging team, composed of Tommie Gattis, Tommy Murphy and Lavon McBrayer, placed 8th in the state and Gattis was the high point man for the state.

A dairy cattle judging team from Lakeview made the trip with the local boys. Glenn Reed from Clarendon also made the trip. They left Clarendon Monday August 4th and finished at A&M on Friday at which time Mr. Seay took the group on to Houston and Galveston, returning home Monday of this week.

Those competing in the contest were the 1st and 2nd place teams from each of the 10 areas of Texas.

Elsie The Cow "Has Done It" --- It's a Bull

"It's a boy—bully boy that is!" With this bull-ctin, "Pinkey Vineyard, General Manager of The Amarillo Borden Company is passing out the stogies emblazoned with that very legend in baby blue.

The reason? As Borden Company representative in this area, Mr. Vineyard also acts as ambassador plenipotentiary for Elsie the Cow. A little while back he promised that "Something Big is Going to Happen to Elsie," but was sworn to secrecy.

Now it has happened. The baby bull calf was born at the Elsie Farm, East Schodack, N. Y. today. Mother and the bouncing (at least, prancing) youngster are doing well, thank you. Hence, the occasion for Mr. Vineyard's cigar passing. He received word today in a special telegram from Elsie.

Elsie, the world-famous Jersey now has a family of four. Included are Elsie, of course, the new bull calf (as yet unnamed), Elmer the Bull, and their heifer, Beulah.

Elsie will bring her new arrival with her on an International tour which begins in a few weeks. Her famous boudoir has been reconverted into a nursery designed by leading calf psy-cow-logists.

The secret about the bull calf's arrival is out. Now, Mr. Vineyard, like Elsie is mystified about a name for the bully youngster. "This time I don't know the answer," he reports.

School Board Sets New Rate At 90 Cents

Consistent with the ruling of the opinion of Attorney General Price Daniel to the State Department of Education the Clarendon Independent School District, Board of Trustees have fixed the tax rate for such school district for the school year 1947-1948 at ninety cents (90c) on the \$100.00 valuation and so that the patrons and tax payers of the school district may know how to figure their tax the following example is given:

If a tax payer has an improved piece of property at 100% valuation, valued at \$1000.00, according to the ruling of the School Board the property will be taken for taxable purposes at a valuation of eighty per cent (80%) or \$800.00 and at the new rate of ninety cents (90c) on the \$100.00 valuation the school tax on such property would be \$7.20.

If a tax payer has an unimproved piece of property at 100% valuation at \$1000.00, according to the ruling of the School Board the property would be taken at sixty per cent (60%) of its valuation or \$600.00 and at the new tax rate of ninety cents (90c) on the \$100.00 the rate would be \$5.40.

This is the first time in a number of years that the tax rate in the School District has been less than \$1.00 on the \$100.00 valuation and this low rate will barely produce enough money to operate the school for the coming school year by the practice of strictest economy.

Mrs. C. A. Burton and sister, Rev. and Mrs. E. L. Craig and two daughters returned Tuesday night from Clovis, N. Mex., where they were called last week to be with their brother, Mr. W. E. Betts who is seriously ill. Rev. and Mrs. Craig and daughters left Thursday (today) for their home at Cleburne. He is pastor of the Main St. Methodist Church there.

ACP Conservation Activities Are Resumed

Conservation activities by Donley County farmers under the 1947 Agricultural Conservation Program (ACP) have been resumed according to Chairman Nolte G. Simmons of the county Agricultural Conservation Committee.

Uncertainty in the amount of funds available for use this year necessitated suspension of the program for a period of several weeks. This situation has now been clarified and ACP activities have been resumed, he stated.

Surveys are now being made by county offices throughout the county to determine the amount of work done under the program during the first five months of this year, he stated. This will give some indication of the extent of funds available for practices during the remaining five months of 1947. Funds available nationally for practices under ACP will be somewhat less for 1947 than they were in 1946, he added.

Chairman Simmons pointed out that one of the biggest problems farmers face in resumption of practices will be in obtaining and spreading conservation materials such as lime, phosphates and other materials, and in obtaining the services of contractors to construct stock-water dams, terraces and other practices requiring dirt-moving equipment.

In order to assure maximum conservation activity during the remaining months of the year, Chairman Simmons urges farmers who desire to carry out this type of practice to get in touch with contractors immediately and arrange for their services.

A prior approval must be had before the practice is begun if payment is desired.

Mr. Mosley stated that no specific time had been set for any particular part of the program and that you could expect most anything to happen at any time of the day, and at the present time they are still figuring on additional entertainment.

He stated further that there would be plenty of ice cold water and hot coffee for everyone and that all anyone had to worry about was to bring themselves and a well filled basket so they would have plenty to eat.

All the weeds have been chopped down and the grounds raked and the speakers' platform has been remodeled, he added.

He pointed out further that this was just an old-fashioned get-together where everyone visited and had a wonderful time and is encouraging everyone to bring along their basket and make a real day of it. Any of you who have not attended one of these celebrations will certainly enjoy every minute of the event. Tate's Grove, the scene of many of these enjoyable gatherings, is located six miles northeast of Hedley.

Present officials of the organization are M. W. Mosley, president; R. E. Mann, vice president and Mrs. Cherry, secretary-treasurer.

KAPPA SUB-DEBS

The home of Miss Portia Hay was the scene of meeting of the Kappa Sub-Debs on Wednesday, August 7th. Plans for the annual Rush Week were made, and it was decided that an all-out good week would be enjoyed. The Sub-Debs have received word from the head of the Federated Sub-Deb Clubs that a drive is being started to collect boys clothing for the unfortunate boys of the European countries who are now having to wear girls dresses. If any of the Kappas come knocking on your door, dig in the closet for anything which might be worn. These people gave; can't we help them now?

The girls enjoying cakes and "choc sundaes" were Juanita Carpenter, Layma Tatum, Alma Murphy, Donna Bryan, Portia Hay, Jane Johnson, Lucy Brown, Jo Blackwell and Sue Smith.

AMERICAN MERCHANT MARINE AND WORLD COMMERCE

EDITORS NOTE—The following essay, written by Bert Barns of Clarendon, was awarded first place in a nation-wide contest sponsored by the Houston Propeller Club. Bert was notified of his winning some months ago which entitles him to a free trip to Europe on one of the United States Lines' vessels. He will probably make the trip in 1948, as he is going to school this summer. Bert is a son of Mrs. Lola Barns of this city and a graduate of Clarendon High School.

The essay merits your time in reading it. The essay follows:

To better understand our Merchant Marine of today, one must consider briefly this organization's history. In 1607 Captain George Popham's colonists built a small thirty ton ship at the mouth of the Kennebec River. This little ship, the Virginia, was the precursor of the immense ocean fleet of America today.

Ship building, and trading along 'side it, progressed in the colonies. It was much cheaper to build ships here than in England and, many colonial-built ships were sold at good profit to English ship owners.

Our Merchant Marine progressed steadily until the War between the States; then there was a short decline for a few years. Between 1865 and 1917 there was a steady rise in ship production and foreign commerce. This rise was quicker in the teens because of the first World War and abnormal trade conditions, only to drop immediately once more.

We slowly decreased our Merchant Marine until the United States was a second-rate shipping nation in 1936, and we were only second because of the Merchant Marine Act of 1936.

Twice, in 1917 and in 1941, the United States had been caught seriously unprepared in the matter of ships and ship yards. We did not have anything like enough merchant tonnage to meet our needs, nor did we have facilities to furnish a rapid supply. We had to improvise a program at

enough. Our ships are desperately needed in these years of peace. Europe and parts of Asia are stripped of even the necessities of life. Here at home we feel a great demand for money for the conveniences we can get only from abroad. We owe it to ourselves to obtain a rightful share in this shipping, but no sensible American wishes to use our great merchant fleet to deprive other nations of income badly needed for post-war restoration.

The United States must have the right kind, both of vessels and of vessel-building facilities. We must have liners capable of serving as naval auxiliaries, fast freighters, tankers, and a variety of smaller craft. We must have these ships in operation, so that they can be training sufficient numbers of merchant seamen. We must have yards of various types, each with the latest equipment in welding, lifting, and other construction work. We must have these yards in operation, too, so that they can be training an effective corps of workmen, and testing new materials, designs, and products.

We must provide all this with due regard for defense on one side, and for passenger and freight services on the other. Needless to say, in making such provisions we must think of the

tax payer. We must tread a nice line between extravagance of lavish subsidies and the false economy of penny pinching.

Never again can a republic so rich and powerful, its political, commercial, and cultural life so closely interwoven with that of other nations, neglect what is still the primary instrument for originating world trade and friendly world contacts. Properly used, a strong merchant marine can help enrich the peoples it connects, can promote a true cosmopolitanism of the mind, and can strengthen the fabric of international peace. A country that has turned its back upon isolationism must turn its face toward the sea.

The day of detachment is past. In the world of today and of the future, if the United States is to hold its rightful place in the family of nations, we must be prepared to engage in friendly competition around the world.

Mr. and Mrs. H. L. Williams and children, Billy James and Helen and D. C. Williams returned home Friday after visiting with relatives in Dallas, Sulphur Springs and Charleston.

Mr. and Mrs. Dwight Blair are the proud parents of a 7½ lb. girl baby born Tuesday morning, Aug. 12 at the home of Mr. and Mrs. Harry Blair.

Veterans News

The Veterans Administration is seeking pharmacists for employment in Texas, Louisiana and Mississippi, VA announced this week.

Salaries for the positions range from \$2,644 to \$4,149 per year.

Application forms and further information may be obtained from the Board of U. S. Civil Service Examiners, Veterans Administration, Branch Office No. 10, 114 Commerce Street, Dallas 2, Texas.

The Veterans Administration has negotiated contracts with about 130 correspondence schools in the United States to furnish veterans instruction under the GI Bill.

Veterans are eligible for these "mail order" courses if they meet the qualifications for GI Bill education or training.

A veteran may get up to a total of 500 dollars worth of correspondence courses. No subsistence allowance is paid for correspondence courses.

Only schools which have a con-

tract with VA and which are approved by the state in which they operate may be paid for veterans' courses under the GI Bill.

Lt. Comdr. Willie Necker, noted dog trainer, says that one of the best ways to out-bluff a vicious dog at night is to stand still and turn your flashlight directly in his eyes. This will temporarily blind him and you will nearly always avoid attack.

Mrs. W. L. Landers has returned home from visiting relatives in Atlanta, Ga. and Ponca City, Okla.

Mrs. A. T. Cole and daughter, Mrs. Kent returned home from Temple where Mrs. Cole has been having medical treatments and is improving nicely.

Weekly SURPLUS NEWS WAA

Five Red River Arsenal warehouses containing 200 lots of automotive parts and a variety of other surplus property will be open to the public next Monday and Tuesday, August 18 and 19, for a competitive bid sale. Prospective buyers will find bus transportation waiting for them at the east gate of the Texarkana installation for a tour of all inspection sites. Bids on the lots of automotive supplies, furniture, hardware, bar steel and brass as well as quantities of other materials will be opened at 1 p.m. Tuesday, August 19, and awards will continue to be announced until everything has been

sold. Further information regarding the veterans' sale of 480 automobiles at 17 Texas installations was announced this week by the WAA at Grand Prairie. All of the actual selling will take place at the Grand Prairie sales warehouse immediately following a drawing to be participated in by all veterans present at 1 p.m. Monday, August 25. Honorable discharge copies or other proof of World War II service will qualify the veterans as buyers. Veterans will continue to make their selections from the shiny sedans, station wagons and other vehicles by inspection daily through August 22, and the buying will continue until

August 27, with certified veteran dealers scheduled to buy on August 28.

A farm-like expanse of everything from doll buggies to portable conveyers is greeting visitors to the air conditioned interior of the Grand Prairie War Assets Administration plant this week. The three million dollars worth of war surplus on display there for a giant bid sale August 21 and 22 covers an area of approximately 20 acres. Complete lists of the 5,000 items contained in the 1,000 lots will be posted on the lots so that prospective buyers will not have to sort through each of the displays. Inspection and acceptance of informal bids for the sale is continuing Monday through Friday and until 4 p.m. Tuesday, August 20.

There has always been a rather steady demand for army used and new clothing. Wool overcoats, coats and gloves in sizeable quantities will be offered through the Grand Prairie office of War Assets Administration until August 27, it has been announced. This clothing, which has been used, is sorted at Camp Hood at Killeen, and at Fort Worth Quartermaster Depot. The bidding is open to everyone and the clothing will be sold in lots.

A sealed bid sale of automotive truck parts has been announced by War Assets Administration and will be offered in a catalogue sale until 11 a.m. August 26, the Grand Prairie WAA office has announced. Among the automotive parts are main bearing shells, fuel pump links, suspension springs and top assemblies. The majority of the material, located at the Red River Arsenal, near Texarkana, is unused. A complete listing may be obtained from the Customer Service Center at Grand Prairie.

Harry Womack of Memphis attended business matters here Monday.

Veterans' News

Army Engineers have been given the "green light" on construction of new Veterans hospitals at Shreveport, La., and Big Springs, Texas, VA announced this week.

It is expected that the engineers will advertise for bids on the hospitals within sixty days.

Meanwhile, by order of General Omer Bradley, VA's new hospital construction program was being considerably revised because of the mounting costs of building.

In order to build the hospitals with the money originally appropriated by Congress, it will be necessary to eliminate all features not essential to good medical treatment for veterans, Bradley said.

It is expected that major modifications in plans for hospitals at Bonham and Dallas, Texas, New Orleans, Louisiana and Mound Bayou and Tupelo, Mississippi, will be made.

Plans for hospitals at Houston and El Paso, Texas will not be affected by the order.

Desirable but unessential features such as theaters, office space and doctors and nurses quarters are

being eliminated from plans to cut the cost of the new hospital construction program.

A record enrollment of nearly 100,000 World War II veterans in Southwest colleges and universities this fall anticipated by the Veterans Administration and educators.

VA officials expect about a 15 per cent increase in the number of veterans attending college under the GI Bill as compared to last spring's enrollment of 85,000 in the higher institutions of learning in Texas, Louisiana and Mississippi.

Veterans entering school for the first time should obtain their certificates of eligibility immediately from the proper VA regional office. Others who plan to change schools or courses of study this fall must obtain prior approval from VA.

Veterans enrolled in school prior to this fall and not planning to

change courses or transfer to another school may continue their education without contacting the Veterans Administration.

PLOWIN' Out the CORNERS

By Uncle Zeb

It seems the dogr to door salesmen are getting thick again. I never knew there were so many things that I couldn't afford to do without. However, some of them will bear watching. I heard of one that when the lady tried to fasten the door, stuck his foot in it and tried to force her to let him in. Anotherone, if you don't buy her books, will ask if there is anyone in the community with any culture, or that loves their children. And when you say that you can't afford the set of books, she will want to know whether you have a new car or not. Salesmen that have something worthwhile to sell do not have to use these methods to sell it.

One of the most miserable people in the world to talk to is one that is always arguing about everything. The kind that, as the old saying goes, will argue with a "Sign Post." The next time you are talking to one of them try making a simple statement like: black is black. He will surely begin by saying "Now I wouldn't go so far as to say that, there are certain kinds of black that are not actually black. This is a terrible habit, and I am going to try to quit it too."

The following is a quote from a letter Mama received from one

of her old teachers. People, like this man, will never stop teaching. Even though they are too old for the classroom, their influence and their lives, and wise sayings will live on and on. Anyway, I liked it, and I hope you will—"This leaves neither of us in first class health, but as good as could be expected at my age. You see I am 81, and I could not expect to feel very chipper. I still hear well and see well, and usually feel very well until I look in the mirror. My what time can and does do to a person, but one just as well laugh as to cry and it sounds better, and "Laugh and the world laughs with you, and weep and you weep alone," end quote. With this kind of humor, he can never grow old.

Received a card from a friend last week, that I had always considered an honest and truthful man. But, on the card and in his own handwriting was the following: "I used to hear that these petrified trees had petrified birds in their petrified branches, singing petrified songs, but I never did believe it until today, and sure enough there they were." Some people are honest in all their dealings with their fellowman, and their lives are an example in the community, but let them go on a vacation or a fishing trip, and suddenly you have to take all that they say with a "Grain of salt." However, I didn't say that I doubted what my friend said, and I hope I can go on my vacation soon.

FARMERS UNION LEADERS & YOUTH REPRESENTATIVES IN MEETING THIS WEEK

Approximately fifty Farmers Union leaders and youth representatives from seven locals are meeting together this week in Sunnyvale Camp at Grand Prairie, Texas, for a five day state leadership training camp.

This news comes today from Wilma Smith of Clarendon, of the Goldston Local.

The Camp is under the direction of Mrs. Ethel Overturf, Director of Education for Texas Farmers Union. She is being assisted by members of the staff of Texas Farmers Union; also, Mrs. Esther Harbo, Education Director for Rocky Mountain Farmers Union and Mr. Ed Mertz, Executive Secretary for Farmers Educational Foundation.

Among the visitors to the Camp have been Homer Duffy, President of the Oklahoma Farmers Union, which represents a membership of some 30,000 members. Duffy told the young people gathered at the Camp that "the future of the Farmers Union rests in your hands. If the job of building a decent world is to be accomplished, it will be largely through your efforts and ideas."

Major emphasis in the Camp schedule is placed on Cooperatives, Security for the Farm Family, Human Relations, and Know Your Farmers Union. Learning about these problems is done through the workshop or "learning by doing" method.

Mable Mongole returned home Tuesday from a visit at Kerrville and Lubbock.

Wayne Moore and Harry E. Blair returned home Monday from Colorado.

R. W. COUSAR

The speaker on the Presbyterian Hour network next Sunday morning August 17, will be the Rev. R. W. Cousar, D. D., of Chattanooga, Tennessee.

Dr. Cousar is a native South Carolinian. He took his undergraduate work in Davidson College and his professional work at Union Theological Seminary in Richmond. The degree of D. D. was conferred upon him by King College. His work has been preeminently in the pastorate. He has served churches in Norfolk, Craddock and Waynesboro, Virginia. For two years he was assistant professor of the Bible at Mary Baldwin College in Staunton.

In 1939 he became the pastor of the Central Presbyterian Church in Chattanooga. For the past several years he has carried on a most successful radio ministry broadcasting his services on Saturday evenings.

Dr. Cosar's subject for next Sunday will be "The Triumph of Modern Christianity". This broadcast will be heard in this community at 7:30 A.M. CST over station KGNC of Amarillo or WFAA of Fort Worth.

Miss Wilma Dee Smith returned Monday from a two weeks visit with Mrs. Bart Rice at Parral, Old Mexico.

Mr. and Mrs. J. A. Wheat of Seymour, Texas were weekend guests of Mr. and Mrs. Roy Beverly. Mrs. Wheat will be remembered here as Mrs. Ruth Teat.

Mrs. Cora Patterson came in Monday from Pampa for a visit with her brother, J. A. Warren and sister, Mrs. C. J. Talley of the Martin community.

Mrs. Evalyn Hollingsworth was taken to Berger Saturday for medical attention. She returned home Sunday and is somewhat improved.

Mr. DeHart of Claude, who owns the residence occupied by H. L. Babbitt, has the rock and sand at hand, preparatory to adding a rock veneer to the house.

Mr. and Mrs. Walker Lane are home from their trip to various places in California. Mr. Lane attended the Lions International Convention while in San Francisco.
