## County Talent In Radio Broadcast

**Williams Tells**  
By Fred L. Williams

### A Grasshopper Story—

Some of the newspapers from towns in nearby sections have been carrying some rather tall tales about the grasshopper invasion. Here is a typical example, taken from the Wheeler Times:

"Among the reports of large grasshoppers hereabouts, few can equal the experience of a nearby farmer when he mistaked one of the insects, by mistake, for a horse.

"As the story goes, M. L. Clark, living east of town, was delayed from milking until twilight fell. Finding the cows had not come up as usual, Clark stepped into the darkened barn, took a saddle from its accustomed place, and tossed it on the first animal he came to, thinking it one of his work horses.

"Leading the critter to the outer gloom, he hastily and unsuspectingly mounted. Response to a prod of Clark's heel was all that could be asked for—and more.

"After a dizzy flight of more than 200 yards, the astonished rider found himself hanging head downward in one of his famous peach trees. There in that position he was able to see, against the better light of the skyline, a curious sight.

"The hopper stepped carefully into the stirrups of the saddle on its back and loped gaily off over the hill.

"Next!"

And Another—  
Then, there was another story which appeared in several papers. It went something like this:

A gargantuan grasshopper flew into a drug store, perched himself upon the counter, and started pounding thereupon with great vigor.

The clerk came rushing up to wait on the "customer."

"What'll you have, sir?" he asked.

"Gimme a shot of arsenic, buddy, and make it snappy. That county agent and his poisoning is making a regular hop-head out of me!"

Crops Holding Up—  
Donley County crops seem to be holding up well, considering the lack of rainfall. Food is suffering to a certain extent, but cotton is heavily fruited and has a good color. However, a gully-washer would be well in order. And, unless rain is received within the next week or ten days, crops are going to start deteriorating rapidly.

Somebody really oughta see Old Tack, and find out if something can't be done about it.

Short Ballot—  
Donley County voters will find a very short ballot placed before them when they go to the polls on August 22, to cast their votes in the run-off primary.

Only two state offices will be on the ballot, one district office, and one precinct office. The state run-off offices are between Ernest O. Thompson and Frank Morris for railroad commissioner, and George B. Terrell and J. E. McDonald for agricultural commissioner.

The district office is that of district judge, and the run-off candidates are A. J. Fires and A. S. Moss. The Precinct 3 commissioner's office will find the names of J. A. Tollett and Claude Nash on the ballot.

There will be more or less inclination on the part of voters to refrain from voting in the face of such a short ballot, but every voter should go and express his preference in each of the races. The offices are important, and a fairly representative vote should be polled.

Big Party—  
Heard a lady remark that she was going to give a party for the people she "owes." If we tried that we'd have to hire a hall to accommodate the crowd.

## FREIGHT RATE ON CATTLE TO TEXAS TEMPORARILY CUT

REDUCTION ON SHIPMENTS OUT OF KANSAS DROUTH AREAS ANNOUNCED.

Washington, Aug. 5—Western railroads have approved of a 25 per cent cut in freight rates on beef cattle shipped from Kansas drouth areas to Texas for pasturing, E. B. Boyd, of Chicago, chairman of the Western Traffic Executive Committee, on Wednesday advised Jesse W. Tapp, chairman of the Agricultural Department drouth committee. The 50 per cent reduction on range cattle proposed as a substitute was taken under consideration by the rail carriers, Boyd said.

Tapp's telegram to Boyd Monday included a telegram from the Texas and Southwestern Cattle Raisers' Association, which read: "Conditions in Kansas are such that it is estimated 50,000 to 100,000 cattle must be moved immediately on account of the drouth. These cattle would be returned to Texas if railroads would establish drouth rates; otherwise they must be sacrificed. We very earnestly urge that you use your influence toward securing establishment of drouth rates immediately to Texas."

In asking the rate reduction to Texas, Tapp in the same wire to Boyd added: "Believe unfavorable conditions in Kansas and relatively favorable conditions in Texas warrant establishment of reduced round trip rates similar to those already established on certain lines in the Northwest and that in addition (Continued on Page Eight)

The proprietors added that the public is cordially invited to inspect the new building and equipment.

## MAIL INVITATIONS FOR TOURNAMENT

SEVENTH ANNUAL INVITATION TOURNEY TO BE HELD HERE AUG. 16-17.

Invitations were being mailed Wednesday to West Texas golfers to attend the Seventh Annual Hillcroft Invitation Tournament to be held here Sunday and Monday, August 16 and 17.

Indications from surrounding clubs are that this year's play, which always attracts a fast field, will outstrip all former tournaments held here since Elliott Hatch, former Fort Worth city champion, won the title over a galaxy of West Texas stars in 1932.

A feature of this tourney, which is especially attractive to business-men golfers, is the qualify-at-home system. Entrants may shoot their test rounds on their home course and mail their attested cards along with their entrance fees, to the secretary of the Clarendon club. Flights will consist of 16 players each with 18-hole final matches Monday afternoon.

An attractive prize list is nearly completed and special entertainment is being arranged, according to club officials, who said a complete program would be released within the next few days.

Both Goldston and Chestnut, National Bank examiners with headquarters in Dallas, were on a business trip when their car collided with another automobile at an intersection, according to Jack Goldston, who said Goldston's car did not overturn, and Chestnut's injury resulted from flying glass.

## Run-Off Ballot For County To Be Short

Only three applications for absentee ballots had been received Tuesday for the August 22 run-off election, according to County Clerk W. G. Word, who said the ballots would not be issued before Monday, August 10.

The runoff ballot will be short with only two state, one district and one precinct office listed.

The state races are for railroad commissioner with E. O. Thompson and Frank Morris as candidates, and the agricultural commissioner with J. E. McDonald and George B. Terrell as candidates. The contested district race is between A. J. Fires and A. S. Moss, candidates for district judge.

The precinct race is for county commissioner of precinct 3, with Claude Nash and J. A. Tollett as candidates.

Mrs. McLaughlin was born in Oklahoma on February 16, 1896, and at the time of her death was forty years old.

Mrs. C. E. Griggs and daughter, Eunice, left Friday for a visit with relatives in Oklahoma City, Oklahoma.

ONE MILLION A YEAR

The population of Japan increased last year by 1,028,623 in a land that, even now, has about 70,000,000 people living on a few small islands, which have much mountainous country.

With talk of the population of the United States becoming static and European countries worrying about the birth rate the advent of one million more Japanese a year might mean something, say about 1960!

### A BROADCASTING SUGGESTION

The suggestion, frequently made, that the government establish a chain of radio broadcasting stations, to be operated in the interests of the people instead of the advertiser, is not bad. In fact, we see many advantages to the government and to the people.

So far as we know, no state has a broadcasting system, although one could be easily established and maintained by a small tax placed upon receiving sets. This tax, it seems to us, would be eminently fair if used for the benefit of the listeners, who pay for it, and who would receive a direct and exclusive return from it.

### CHILDREN AND GROWTH

Health is an important asset in life, seldom appreciated by those of us who enjoy it.

Hundreds of children in Donley County are growing up with the slightest instruction in matters relating to their growth and proper development. Hundreds of adults, serious minded in many things, look on without apparently realizing the importance of getting these youngsters off right.

Athletics have had a marked influence on the physical development of American young people and the recent inauguration of competitive sports for our girls has been a wonderful step in the right direction.

The word is that the old-fashioned family doctor has disappeared. This means that physicians have begun to send out their bills on the first of the month.

If you are really important where you work it might be a good idea to take a vacation for a month and let the boss see how he gets along without you.

If you value your life have yourself examined physically at regular intervals and, if you are strong mentally, let an expert look over your brain work.

This is the time of the year that the boys and girls go around the country selling magazines so they can get back in college. Anyway, that's their story!

## When the H. C. of L. Came Down

By IRVIN S. COBB

AS I heard the tale it had to do with a small community in Texas where the railroad ran through the main street and on either side the track stood a short order restaurant owned and operated by a colored man.

One night the official bad man of the vicinity came lurching into one of these rival establishments. While the uneasy negro made

pretense at being glad to see him the bully flopped his long frame into a chair and demanded:

"Nigger, have you got a nice tender sirlin steak here?"

"Yes, suh!"

"All right, then; you cook it fur me and don't you cook it too long else I'll cook you awhile myself. And along with it you better bring me some fried onions and fried potatoes and some celery and a mess of hot biscuits and green peas and roasting ears and pie and coffee and anything else tasty that you've got around this dump."

When the bad man had eaten he leaned back in his chair, drew a springback dirk knife out of his pocket. Suddenly he spoke and the negro jumped.

"What sort of dump does the other nigger over across the tracks run?" he asked.

"Oh, Mister Gatlin, you wouldn't lak dat place a-tall," stated the colored man.

"Yes," said the bully, "and what's more, he's a robber—he's a regular pirate. Last night I went into his joint and ordered just about what I've had here to-night. When I got through I asked him what the damage was and that black scoundrel had the gall to ask me for a dollar and a quarter? I got up intendin' to kill him. But all I done to him was just cut off both his ears with this here frog-sticker and feed 'em to him. By the way, what do I owe you for this mess of vittles?"

"Boss," said the darkey, "I reckon a dime would be ample."

At Dallas the Texas Centennial Central Exposition offers the greatest recent world's fair, an event that far outshines the Chicago Century of Progress. Sleep late in the mornings, spend the day in those air-cooled exposition buildings and enjoy the heavenly nights with their riot of color on the exposition midway and grounds. There will be a new thrill and a new adventure every hour.

An hour away is the gigantic Fort Worth Pioneer Centennial with its big Jumbo show and its wealth of entertainment under the leadership of Broadway's Billy Rose. Fort Worth is putting on a big time show. It should be on your vacation plans.

**Famous Battle Site**  
In Austin the University of Texas has assembled one of the most extensive and unusual historical and scientific exhibits in the history of the state. Although their publicity has not yet gone out in a spectacular style the showdown at Austin is in its own right a big attraction. It adds to the big Centennial vacation possibilities in Texas.

A few hours from Dallas is San Antonio, historic old Alamo City and the location of many historic shrines and not far away is Houston with its San Jacinto battlefield, its modern entertainment facilities and its resort beaches.

At Galveston is one of the famous beaches and resort cities of the world.

**NOBODY'S BUSINESS**  
BY JULIAN CAPERS JR.

Austin.—Despite Gov. Allred's declaration that he "still has an open mind" on the question of calling a special session of the legislature this fall, best informed opinion here is unanimous in the belief that a "lame duck" session will get under way around October 1.

Passage of enabling legislation to qualify Texas for federal aid on other phases of the Social Security program of the New Deal, and raising of additional revenue for old age assistance will be the principal matters submitted. Although renewal of liquor licenses will bring in substantial additional revenue for pensions in September, all authorities here agree additional permanent financing will be necessary. They think Gov. Allred, with the very obvious mandate of the people reflected in his tremendous vote for re-election, will have no great difficulty in obtaining action on his tax program which included increased taxes on natural resources, increased franchise taxes, luxury taxes and others in his original tax program proposed 18 months ago.

**BITTER CAMPAIGN LOOMS**

Notwithstanding the example of several other runner-up candidates who bowed to the will of the voters and withdrew, where leaders lacked only a few hundred or thousand votes of having a majority vote, the backers of Frank Morris apparently were planning to keep their man in the runoff against Chairman Ernest O. Thompson of the railroad commission, and observers here expected a bitter, mud-slinging campaign of the worst type, based

on Morris' performance in the first primary. Col. Thompson's lead over Morris was around 278,000 votes, and nobody here concedes Morris an outside chance to win the runoff. If Thompson had received 13,000 more votes than he did, he would have had a clear majority over his four opponents, out of more than 900,000 votes cast in this race.

Thompson forces indicated they would continue their campaign on the outstanding record of the rail commission chairman, urging his policy of conservation of natural resources, as opposed to Morris' cry of "throw the oil fields wide open." They have so far made no effort to reply to Morris' tirade of abuse and vilification of Thompson, but Thompson's friends have been checking up on Morris' activities as a former "faith-healing" evangelist in Crockett.

The issue in this race is clearly drawn. It is whether the people of Texas are willing to back the law enforcement program of their railroad commission, or whether hot oil operators and others who oppose a lawful regulation program are going to run the government of Texas.

**OLD JIM QUILTS**

Jim Ferguson, whose sales tax candidate polled a new all-time low vote for a Ferguson entry, announced he had quit, and suspended his weekly sheet, The Forum. Old Jim was as much out of place in this campaign as a one-horse buggy would be in an automobile show. The Ferguson political power, which disturbed Texas for 19 years, has apparently passed.

**SEES THE LIGHT?**

Rail Commissioner Lon Smith, who has refused to sign the monthly proration orders recently, suddenly decided to sign the August order. Thompson's total vote of around 450,000 votes out of 900,000 may have persuaded

Smith that it would be more profitable to work at his own job than to campaign against his colleagues, Thompson and Terrell.

### POLITICAL Announcements

The Clarendon News is authorized to announce the following as candidates for the offices listed, subject to the action of the Democratic primaries in July and August, 1936.

For Railroad Commissioner—**ERNEST O. THOMPSON**

For District Judge—**A. S. MOSS, A. J. FIRES.** (Re-election)

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquirers must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q.—How many trips did Moses Austin make to Texas? F. D. Caldwell.

A. Only one. He came to Texas from Missouri in December, 1820; secured a permit to colonize 300 families; returned to Missouri in January, 1821, and died June 10, 1821, before he could complete arrangements to return to Texas with colonists.

Q.—State how Moses Austin secured consent to plant a colony in Texas. F. D. Caldwell.

A.—When he first presented his application to Governor Martinez at San Antonio, he was ordered to leave Texas "as soon as he could get out of it," without even an examination being made of his papers. By accident he met Baron de Bastrop, whom he had known in Louisiana, who secured for him another interview with the governor, who in three days approved the application and forwarded it to the authorities at Monterrey.

Q.—What salary is paid Billy Rose to direct the Texas Frontier Centennial at Fort Worth? A. G. S. Houston.

A.—Much publicity has been given to a statement that he is paid \$1,000 a day for 100 days.

Q.—What was the "Provisional Government" of Texas? A. L. Honey Grove.

A. It was the government set

### "It's A Small World"

IN PITTSBURGH the other day a couple were married and they had the ceremony put on a record. The "I do" and "love, honor and obey," etc. were picked up by concealed microphones and recorded on disks. No doubt those disk records will cause some lively discussion down through the years, whenever they have a family quarrel.

EXPERTS in Cambridge, Mass., gave the Radcliffe College girls the jitters when they discovered that the coat of arms used by the college since 1894, should really be used only by widows and spinsters. It's bad enough to have to get a diploma, let alone having "Old Maid" engraved all over it.

MEANWHILE Donald MacMurray completed a four-year course at the University of Chicago in only eight months. He said he could have earned his diploma in half the time if he'd been more diplomatic about it.

EVERYBODY'S been signing Jim Farley's name to things. So many Farley signatures have been turning up unaccountably that there certainly must be a lot of rubber stamps at work somewhere. Jim says he knows nothing about the \$1 admittance cards to Democratic rallies, that somebody sent to postmasters, and that "some overzealous individual" must have signed his name to them. Another overzealous individual is Al Smith who mailed a letter to Jim Farley's convention a couple of weeks ago. The letter got lost in Jim Farley's Post Office, so the convention never got it. No rubber-stamp about Al Smith.

FROM Estes Park where Candidate Landon is vacationing, his wife revealed that "Al" likes to read detective stories and try to guess the solutions. Maybe he can solve the mystery of the disappearance of Al Smith's letter.

up at San Felipe in November, 1835, composed of a governor, lieutenant governor and a councilman from each municipality. Its functions and powers were poorly defined. It was succeeded by the "ad interim" government created at Washington-on-the-Brazos, in March, 1836.

Q.—Why has all the fuss been made about placing the Buffalo Bill statue on the Centennial grounds at Dallas? A. G., Columbia, Mo.

A.—Claiming he was a Union spy during the Civil war and never identified with Texas in a way to receive such an honor, a citizen of Austin sought an injunction to prevent erection of the statue, which was presented to the Centennial by the scul-

HAILE SELASSIE wants to return to Ethiopia where, some of his subjects are said to have set up a government in the town of Gore. You'd think he'd have had enough of gore in the recent war. Anyway the threat of his return is causing new trouble in the garden of Eden, British Foreign Secretary.

DURING the Democratic nomination-notification ceremonies at Franklin Field in Philadelphia, they installed a "demonstration meter" to measure the applause and show it by means of lights. If this device is left there for the football games, the teams won't have much to do—the side whose cheering section makes the most noise would win.

A COPY of Edgar Allan Poe's pamphlet "Tame Age" published in 1827, recently turned up in Baltimore. A man bought it along with five other books in a second-hand store for \$1.25. It's worth probably \$30,000—about \$1,000 per page. At that, the Congressional Record costs much more. This amazing record of Congress' deliberations (and useless speeches) cost the taxpayers \$23,450 for just one Monday and Tuesday alone, during the recent sessions. How America likes books!

YOUR CORRESPONDENT has discovered why the W.P.A. workers who wave red flags to warn motorists, get better pay than the fellows who have to do the shovel-work. The men with the little red flags haven't anything to lean on.

tress. The injunction was refused and the statue erected.

Q.—Did Stephen F. Austin ever advertise for Texas colonists? S. G., Austin.

A.—He advertised extensively in newspapers throughout the Mississippi and Ohio river valleys, setting forth fully the terms and conditions.

Q.—What were the "Turtle Bayou resolutions?" M. P., Groesbeck.

A.—Following the actions of Col. John D. Bradburn in enforcing certain customs regulations and in imprisoning W. B. Travis and Patrick C. Jack, about 160 Texans organized for resisting Bradburn. Fearing their action might be regarded as revolutionary, they passed resolutions at Turtle Bayou declaring they were not rebelling against Mexico, but cooperating with Santa Anna in his revolt against Bustamante.

## CAVALCADE HEROES STEP FROM PAGES OF TEXAS HISTORY

Dallas, Texas, August 5—When the forty-foot rainbow colored water screen falls on the largest stage in the world at the Texas Centennial Exposition, heroes of the past step from the pages of history to recreate the glamorous story of the birth of an empire. Three hundred actors, a hundred head of horses, Longhorns, burros, oxen and mustang ponies figure in this great Cavalcade of Texas, the biggest show, at the Exposition. Above, eight of the men who portray outstanding Texans sign their names above genuine signatures of heroes of the Republic.

Walter Knorpp was in Pampa Tuesday.

Mr. and Mrs. Bert Smith and children returned to Clarendon last night after a vacation in Colorado.

Mrs. Essie Payne of Amarillo visited with Mr. and Mrs. Heckle Stark and Mr. and Mrs. Neal Bogard last week.

## ARE YOU FAIRLY REPRESENTED?

Your printing must be considered as a force in your selling plans if you are to get the best results from it. No matter if it is just letterheads, or envelopes, or shipping tags, these things represent YOU and YOUR BUSINESS to someone, perhaps, who has never seen you; if they are cheap, unattractive, flimsy, your prospect or customer will get the same sort of impression of you from them.

It is certainly worth your while to give your printing your serious and undivided attention until it is planned and executed to represent you fairly.

### Screen Lovers For The First Time

Clark Gable's newest picture  
 role is in a romantic musical  
 drama of early San Francisco in  
 which he is co-starred with Jean-  
 ette MacDonald and Spencer  
 Tracy.

Gable's vigorous roles in "Chi-  
 na Seas" and "Mutiny on the  
 Bounty," and Miss MacDonald's  
 outstanding success in "Naughty  
 Marietta" and "Rose Marie"  
 served as the inspiration to bring  
 the two notable stars together for  
 the first time.

In the new picture, Metro-Gold-  
 wyn-Mayer's "San Francisco" op-  
 ening next Wednesday at the  
 Pastime Theatre, Gable portrays  
 a big-time gambler of the Golden  
 Gate city at the height of its  
 most glamorous period, in the  
 beginning of the twentieth cen-  
 tury.

The part is in tune with the  
 type that Gable likes best, such

as "Red Dust," "Free Soul,"  
 "Men In White," and "It Hap-  
 pened One Night"—and which did  
 more to elevate him to the top  
 ranks of stardom than did any  
 other characterization.

Miss MacDonald is a small-  
 town minister's daughter who  
 seeks adventure in San Francis-  
 co, rises to fame in the music  
 halls, and, later, in the legiti-  
 mate theatre.

Bernard Hyman and John Em-  
 erson produced the colorful musi-  
 cal drama, with W. S. Van Dyke  
 as director, from an original story  
 by Robert Hopkins. Anita Loos  
 wrote the screen play.

An absorbing love story for  
 Gable and Miss MacDonald is  
 woven through the plot, with Miss  
 MacDonald singing favorite songs  
 of the past and others written  
 for her. These range from melo-  
 dies familiar to every household  
 to the most famous operatic arias.

Miss Carrie Davis left last  
 week for Denton, Texas, and Ok-  
 lahoma, where she will spend her  
 vacation.

Merrill Cayton of Amarillo  
 arrived in Clarendon Saturday,  
 and is employed at the City Gro-  
 cery & Market.

Roy Heath left today for Dal-  
 las where he will attend a meet-  
 ing of Maytag salesmen and the  
 Texas Centennial.

J. Frank Heath left today for  
 Dallas to attend a meeting of  
 Maytag officials. From Dallas  
 he will visit the Maytag factory  
 in Wisconsin.

### LIBRARY NOTES

(By Mrs. C. A. Burton)

We find ourselves always in-  
 terested in the growing list of  
 worthwhile books being filmed.  
 A book which the children en-  
 joy, and a picture they enjoy is  
 Eleanor Gates' "The Poor Little  
 Rich Girl" with Shirley Temple  
 as the lonely little rich girl. We  
 have the book. We also have  
 Curwood's "God's Country and  
 the Woman" and Robert Hichen's  
 "Garden of Allah" which have  
 lately been screened. The screen  
 adaptation of Lloyd C. Douglas'  
 "Green Light" quickly followed  
 that of his "Magnificent Obses-  
 sion."

Last week's review of best sell-  
 ers in Oklahoma City, Boston,  
 Chicago, New York, and San  
 Francisco all begin with "Gone  
 With The Wind" by Margaret  
 Mitchell while all of these except  
 Chicago include "The Last Pur-  
 itan" by George Santayana. "The  
 Way of the Transgressor" by Ne-  
 glere Fanson and "Wake Up and  
 Live" by Dorothea Brande, the  
 last on the list of inspirational  
 books are leaders in non-fiction,  
 with "Man The Unknown" by  
 Alexis Carrel and "Around the  
 World in Eleven Years" by Abbe  
 Children following closely.

"Gone With The Wind" is a  
 long novel, almost as long as  
 "Anthony Adverse" and the re-  
 views of it are being unusually  
 interesting. It is called "A mov-  
 ing and significant novel of the  
 South during the War Between  
 the States. Set in Georgia, writ-  
 ten by a native Southerner, it  
 portrays as never before the im-  
 pact of a cataclysmic era on real  
 men and women." The story is  
 called gripping, the setting verac-  
 ious, and the writing distin-  
 guished. The Los Angeles Times  
 calls it "the most satisfactory,  
 the most convincing, the most  
 powerful presentation of that  
 tragic era ever put into fiction."  
 Yet it is not a war novel in the  
 ordinary acceptance of that term,  
 but is a novel of that period, a  
 study of the men and women of

that period. Her "gallery of por-  
 traits" is said to be amazing.  
 The author, Margaret Mitchell,  
 is Mrs. John R. Marsh in her  
 home in Atlanta, Ga. She comes  
 of a southern family dating back  
 to colonial times. Her father and  
 brothers are lawyers whose hob-  
 by is Georgia history. She be-  
 gan writing as a reporter on the  
 Atlanta Journal, and wrote this  
 story between 1926 and 1929. H.  
 S. Latham, vice-president and  
 general editor of MacMillan Co.,  
 visited Atlanta a year ago, heard  
 of her manuscript, asked to see  
 it, and the result is this best sell-  
 er everywhere.

Elsie E. Egermeier of Okla-  
 homa City has written "Eger-  
 meier's Bible Story Book" for  
 children which is now in its six-  
 teen edition. The first edition  
 was of 10,000 copies, but recent  
 editions have been of 20,000. It  
 is said to have had a wider cir-  
 culation than any other book  
 written in Oklahoma. Miss Eger-  
 meier was a teacher in the  
 schools there.

Dorothy M. Black, a librarian  
 in the University of Illinois li-  
 brary, gives some interesting  
 facts as follows "To the libraries  
 of Newark and Jersey City, with-  
 out than to school or college, Will  
 Durant declares himself indebted  
 for his education."

 very desultory schooling, he pro-

(By DICK COOKE)

With the tentative dates for the annual Hillcroft Invitation Tournament set for Sunday and Monday, August 16 and 17, officials of the club are going forward with plans for the most successful tourney held here in several years.

Committees are being appointed to assist in the work which is essential in putting over a fast tournament such as Clarendon always boasts for their invitation.

This year all members are in hopes the affair will reach the heights attained along about 1932 when Elliot Hatch bagged the trophy from Reggie Greenhaw in the title match. That was one of the fastest fields ever in the Panhandle.

There were such stars, whose lights were shining brightly in those days, as Elliot Hatch, later Fort Worth city champion; Frank Foxhall, who had just annexed two Green Belt titles; Reg Greenhaw, finalist in the Green Belt and winner the following year; Jimmie Gamewell, now a pro in Amarillo; Raines West, New Mexico state champion, and also a Green Belt winner. But space will not permit this to go on forever.

To attract that kind of a field again is possible, but it will have to be promoted with fast golf, a substantial prize list, entertainment and plenty of hard work.

What has become of the hot golf this week? The only par-shattering score reported was a snappy 33 whipped off by diminutive Pinky Kerbow in one of his unconscious moments.

It looks like Paul Greene has gone stale for the time being, along with Dude Gentry who has again lost his putting stroke. It is said that Gentry missed a four-footer on an important hole Sunday.

Wesley Knorpp is quoted as saying that he has been defeated so much lately in golf that the first thing he knew Bennett Kerbow would beat him and then he would give up the game.

When interviewed Tuesday, Kerbow asserted that he would, and is hereby entering a formal challenge to Mr. Knorpp, "and," he added dramatically, "I will let him choose my weapons. In other words, I will use only two clubs, and I will let Mr. Knorpp pick the clubs."

Why Gulf is the Gas for August

"'COM ON, FELLAS, and cool off!" Most days are hot in August. Gasoline must be refined specially for this weather. If it isn't, part of the fuel goes out the exhaust unburned, wasted . . . and you don't get the mileage you should. Use That Good Gulf Gasoline in August. It's refinery-adjusted for summer weather—"Kept in Step with the Calendar"—all of it goes to work, none of it goes to waste.

Considering how fine this railroad transportation is nowadays, you can't travel any cheaper. Fares lowest in history—substantial savings on round trip tickets. So why not take the train? It's safer. It's more dependable.

You can't beat the improved travel comfort in coaches and sleeping cars. It's a good thing movies don't have such restful seats—most folks would sure fall asleep.

Ever hear about the new Free pick-up-and-delivery of less than carload freight? It's a great convenience to shippers and receivers alike. Western railroads pick up at the door, ship by fast freight, and deliver to door at no extra charge.

Railroad trains are running on faster schedules these days. Seems like the iron horse wants to show these new streamlined diesels that he can step out, too. Both passenger and freight schedules have been speeded up.

What's more, the railroads believe in "safety first." Last year not one passenger was killed in a train accident on western railroads.

Talk to your local railroad agent. He's full of information about traveling and shipping.

We are proud of railroad achievements, appreciate the public's good will and increased patronage, and pledge continued progress.

### CENTENNIAL GETS CRITICS' PRAISES

**MOST LAVISH ARRAY OF ENTERTAINMENT EVER ASSEMBLED, IS OPINION.**

Fort Worth, Aug. 5.—As New York critics, Southwestern editors and "just folks" have returned home and proclaimed to the world that the Fort Worth Centennial is the most lavish array of entertainment ever assembled in one spot, the attendance has been gaining with the velocity of a snowball rolling down a mountain-side.

This praise through the printed page and by word-of-mouth is reflected in the largest single representation was contributed by cattlemen, in whose honor Monday, Tuesday, and Wednesday were set aside. They found that the Centennial had captured the spirit of the West, with "The Last Frontier," Will Rogers' memorial room, collections of firearms and branding irons, and Sunset Trail, the replica of a street of 50 years ago.

Critics have thumbed their volumes of synonyms and antonyms to describe "Casa Manana," "Jumbo," "The Last Frontier," and the rest of the Centennial. Damon Runyon, renowned for his sports writings, short stories, and tales of the screen, wrote in the New York American: "Never a similar institution ever in the world" and "An amazing concoction—big town and pioneer days." Robert Garland, in the New York World-Telegram exclaimed of the Centennial attractions as a whole: "So gargantuan, so fantastic, so incredible" and of "Casa Manana," he recorded: "Biggest and most beautiful theater-restaurant these eyes have ever seen." And John Harkins of the Universal Service described the Fort Worth

## TO BE TAKEN AT FACE VALUE

When you pick up this newspaper and read the announcements of this city's local merchants, or those of national advertisers, you need never think or question the sincerity and honesty of their statements.

This reliance on Advertising has been brought about by Advertising, and is one of Advertising's greatest contributions to the satisfaction and ease of modern living.

An advertiser deliberately attempting to deceive takes the quick, short road to ruin. The insincere or extravagant statement may have its brief day. But the greater attention it attracts, the sooner the public will discover and destroy its deceit.

The cornerstone of successful shopkeeping always has been "keep faith with the public"; give honest values and truthfully represent the merchandise and its service. This principle had to find its expression in Advertising—for Advertising is nothing more than the owner of the store or a factory talking with people in their homes about such things as shoes and soap, radios and rugs, blankets and bloomers.

It pays to read the advertisements. They are first-hand news of what is being invented, fashioned, and perfected in the workshops of the world for your well-being, comfort and convenience.

Last week's issue of the News quoted Judge S. W. Lowe as saying that approximately 20 Old Age Assistance pension checks had not been received in Donley County. Mr. Lowe this morning said the story should have read: twenty applications for Old Age Assistance had not been investigated.

Only four or five of these applications remain to be investigated today, Lowe said, and added that many applicants of this county had never received a check, while some few had received their second payment.

Centennial as "Beyond the Broadway dream."

Outstanding, even among the picturesque individuals who have a part in the Centennial, is Capt. Irvin O'Hay, whose sonorous voice gives the rolling lines that interpret "The Last Frontier." Captain O'Hay's career—as Rough Rider at San Juan Hill, service in the Boer War, adventure in Central American revolutions and finally in the Canadian and American forces during the World War—stirred Damon Runyon to do a full-length article about the colorful announcer of the wild and woolly show in Fort Worth.
