There are two ways to get to the top of a tree. Climb it, or sit on the acorn long enough.

In a history class one student wrote: "The Armistice was signed November 18, 1918, and since then, every year there has been peace for two minutes."

Experience shows that industry is recognized and has its own reward. Consider the lowly mosquito as an example. He rarely gets a slap on the back until he goes to work.

**MURPHY-SPICER-BUNTIN FUNERAL HOME**  
PHONE 180 DAY OR N

The following letter seems to be the sentiments of a boy from the City, after helping some

Farmer with the Harvest. It takes a lot of Grit, and a lot of "Sand in your Crow" to take it on the chin during Harvest, and a lot of these Boys are to be commended for helping out. Anyway, for the Letter.

Dear Uncle Zeb; As you are supposed to be a Farmer, although I doubt it, I am writing you with the hope of straightening out a few people on this business of Farm Life. I had looked at those beautiful pictures in the magazines of combines in the fields, and fields looked so

beautiful, and the Farmer looked so clean, even the combine looked shiny, and the tractor looked like it was just out of a paint shop. There was always a brook running by the house, and shade trees along the fence. The Farmers Daughter was walking down the path to the barn with the milk pail, and you could hear her singing in the picture. All in all, it looked so wonderful. But whether they were selling combines, or house paint they just didn't tell the whole story. No, Uncle Zeb, they didn't say a word about the Mosquitoes, and the "Chiggers". Not one word about heat, and the dirt, and the grease. About the chaff that goes down your collar, until you feel like you had been sandpapered. And if the trees had been there you wouldn't have had time to sit under them except at night, and then if you would have still been able to sit up, the mosquitoes and the "Chiggers" would have eaten you up in a little while. The Farmers Daughter was driving a truck, and the cows had to be driven up, and while one of us beat off the flies the other would milk them. No, they didn't tell the whole story, Uncle Zeb.

Best wishes to you, and all my sympathy to all Farmers, Signed, A Gentleman From Town. I can't argue, I'm too tired, but there is another side to it, Son. We do have our good days. Any-

way, thanks for the letter.

Wonder what is the matter with our good friend "Uncle Jay" these days. He comes on the air so late, that I never get to hear him anymore, and I sure do miss him too. They say he has been a lot of help to the Farmers during the Harvest Season, so thanks to you, you Old Country Boy. Anyway one morning I was late and just as I went out the door, I heard him come on the air with something like this:

Time to get up and start the day; Time to listen to Uncle Jay. Feed the hogs and milk the cows, Grease the combines and start the plow; Pick up some wheat, and take it to town. Bring it home, and dump it on the ground.

Can't see no future in that—Don't even know where I'm at. Almost lost my grip on life; Even threatened to whip my wife.

Maybe I did get what he said mixed up with what I was thinking. Anyway pretty soon we can listen to him again, and those Gentlemen from Town will have to get up as early as we do, and the freeze will kill the flies, and the frogs will eat up the mosquitoes, and there won't be any more chaff, and the weather will be cool, and we can enjoy being "Old Country Boys" again. Oh me!

Mike Heath of Amarillo is visiting his aunt and family, Mr. and Mrs. Dale Hill this week.

**CLARENDON POSTAL RECEIPTS GAIN**

The highest postal receipts at the local postoffice of all time was for the month of December of 1943 showing a total of \$3031.41.

The best showing for a June month was in 1945 with a total of \$1758.70. The following June of 1946 shows only \$1112.44. June of the present year soared upward

with a gain over June of 1946 by \$269.24 or a total of \$1381.68.

It is believed that the new air mail rate of five cents had a lot to do with the increased sale of postage stamps. The average person would pay two cents more any time to know that the letter will arrive next day rather than next week. If the letter is to be sent a distance of more than two hundred miles, the two cents extra for an air mail stamp will get

the letter to its destination hours sooner, and if the letter be sent to a distant state, it will arrive next day rather than three or four days later.

With the present prospects, postmaster J. C. Estlack stated that July and August will likely exceed that of last year in stamp sales by several hundred dollars.

Lem Taylor and his folks were up from Wichita Falls for the 4th.
