**Goes To Austin**

Mr. Millsap and Boyce Pierce left Wednesday at noon for Austin. They spent the night in Hillsboro, and went on to Austin Thursday to enter track meet on Friday and Saturday. There were 31 contestants in Boyce's event, which was rural pentathlon, composed of five events. Boyce had a bruised heel and his first jump injured his heel anew, disabling him somewhat in running or jumping, but he won first in shot put and fourth in pentathlon in the state, which makes us proud of him. The trip was very educational and one the boys will long remember. Besides seeing many new records set in track, they saw the world's champion tennis players in action; visited the state capitol while the legislature was in session; visited Robert Brown's museum at Baylor, and the University of Texas.

Friday night Mr. Millsap's oldest brother, E. A. Millsap, and his father, both of Houston, met

him and attended the track meet. Then they called on D. A. Foster, Texas school financier, on business. They were in the capitol when Gov. Allred approved the million-dollar high school tuition bill which will also benefit Donley County. Mr. E. A. Millsap visited to capitol on business of consolidation, which makes his school district 324 square miles in size. He is superintendent of Cypress accredited rural high school, which has 24 accredited subjects.

Mrs. J. B. Millsap and the boys visited with Mr. and Mrs. J. O. Seaton while Mr. Millsap was in Austin.

Mr. and Mrs. Nelse Robinson and son, Demp, were callers in the Pat Longan home Monday night. The time was spent playing dominoes. It is known that Dempsey Robinson and Beryl Longan are the champions.

FRANK SMITH who pitched a few years ago for Cincinnati in the National League, was reared at Tarboro, North Carolina, and began playing baseball there. He became the baseball idol of his fellow-

Tarborians, and when George Leidy, later manager of the San Antonio team in the Texas League went to town to lure the young phenomenon into faster company, the whole community showed their resentment very decidedly, because with their pitcher gone the home team would go to pieces.

"I was in my room at the hotel," said Leidy, telling about it, "when a dozen husky, determined looking citizens walked in and told me that Frank Smith was going to stay right where he was and that if I wanted to go on living I'd better catch a train leaving for the North at 7:30 o'clock that night."

"What did you say to that?" asked a listener.

"I told them," said Leidy, "to go to thunder. I told them that I was a free-born American citizen and that I would stay there a year if I wanted to. I told them in so many words that they couldn't bluff me. I told them that I would die in my tracks before I would show the white feather—and I was down at the depot at a quarter of seven, waiting."

Sam Baugh and Walter Roach must be great athletes when they can grab the newspaper headlines in competition with such lovely sports competitors as these four on the Horned Frog campus. Let the girl athletes of T. C. U. rule in sports for a day! And what rulers! Ready for a bit of tennis is Mrs. Kenneth Vaughan, junior, from Fort Worth. And who wouldn't relish a round of golf with Miss Betty Trammell, a Fort Worth freshman. Even the golf ball should enjoy its lowly role! Archery dates back to ancient times but Miss Billy Stocker supplies the modern touch. She is a sophomore from Pasadena, Calif. And a real "pip" is Miss Katherine Pipkin, Fort Worth junior, poised for a plunge in T. C. U.'s swimming pool.

What is the "Low-price Field"?

YOU hear a lot about "the low-price field" these days. A good many cars claim to be in it. So whenever the low-price field is mentioned, remember:

Until Ford came, no average American could own a car.

Today all Ford prices are still low — with the prices of the 60-horsepower Ford V-8 \$30 to \$60 lower than those of any other car of comparable size.

But with Ford, "low price" doesn't merely mean low figures on the price tag. It means much more than that. It means low prices and low costs all the car's long life. Low prices for service — for parts — and, above all, for operation.

Both Ford V-8 engine sizes are economical to operate. The 85 horsepower gives greater gasoline mileage this year than ever, and the "60" delivers the highest mileage in Ford history.

Private owners, cab companies, fleet operators all report that the "60" averages from 22 to 27 miles per gallon of gasoline.

Check and see how much Ford saves you.

Ford Founded the Low-price Field Ford Keeps That Field Low-priced Today

Ford V-8 Prices Begin at \$529

AT DEARBORN FACTORY. TRANSPORTATION CHARGES, STATE AND FEDERAL TAXES EXTRA

This price is for the 60-hp. Coupe equipped with front and rear bumpers, spare tire, horn, windshield wiper, sun visor, glove compartment and ash tray.

Mr. and Mrs. Homer Gorman and children and Mr. Stegall of Borger were visitors at the Zeigler home Sunday afternoon.

Prof. and Mrs. Smith and children ate Sunday dinner with Mr. and Mrs. Grant last Sunday.

Hubert Zeigler was called to Dimmitt last week to attend the funeral of a nephew. He was the son of Mr. Tom Zeigler. Grandma Zeigler of Oklahoma also came up, and she is now at the home of Mr. and Mrs. Hubert Zeigler.

Mrs. Dee Blanks and son of Amarillo visited her mother, Mrs. Dimmitt last week to attend the funeral of a nephew.

Mr. Earl Porter and family ate Sunday dinner with Mr. and Mrs. Hubert Zeigler last Sunday. Their daughters prepared the dinner in honor of Mother's Day.

Fontayne Elmore made a trip to Amarillo Monday of this week.

Mr. and Mrs. Alfred Poggram of Quail visited last Sunday with his parents, Mr. and Mrs. Jim Poggram.

Mr. and Mrs. Neely Hudson and Mrs. N. D. Hudson visited relatives at Brice last Sunday.

**Last Call Is Made For Soup Donations**

A deficit of more than \$50.00 will be in the school soup kitchen fund when the kitchen is discontinued this week at the close of school. It is the hope of committeemen in charge of the kitchen where undernourish school children have been fed, that the deficit may be cleared before the kitchen is discontinued Friday.

A total of \$20.92 was contributed this week. Contributors were: H. T. Burton \$2; W. H. Patrick \$1; Wesley Knorpp \$3; A. L. Chase, \$1; Jo Ella Stewart 50c; Dewey Hernodon \$2.85; O. C. Watson \$1; Homer Mulkey \$1; Mrs. C. B. McCanne \$1; Florence Fink Brittain of Ironton \$1; Lions Club Fine Box \$5.57; and soup sales \$1.

An urge is being made this week that every citizen who has not contributed and those who would like to make another contribution to mail or give the contribution to Odos Caraway, Chas. Lowry or The Clarendon News in order that the deficit may be erased.

**Lions Governor**

**JOE POND**  
Colorado, Texas

Lions' District Governor-elect Joe Pond of Colorado, Texas, won his post by the narrow margin of three votes at the recent convention of Lions, District 2-T, Texas, held at Big Spring, May 2-3-4.

The newly elected leader for the Lions in this district, is a well-known insurance man and civic worker of West Texas, and is popular in Clarendon, having visited the local Lions Club, and having been associated with several Clarendon men over the years.

He will take office at the conclusion of the International Convention in Chicago in late July, succeeding District Governor Elmer D. Elliott of Dalhart, the present incumbent.

**Social Security Head Coming Here**

Jacob G. James, a member of the staff of the Dallas Social Security board office, will be in Clarendon, Friday, May 21, to assist all persons who may be in need of information or advise regarding the Social Security Act.

Mr. James will be in the directors' room of the Donley County State Bank from 10 a. m. until 3 p. m. and may be conferred with there Friday, May 21.

Inquiries and reports received daily at the Dallas office indicate that many people are not aware that the Federal Old-Age Benefits program applies to the establishment with one employee the same as to large establishments. Many employers apparently do not understand that they must apply for employers identification numbers, and thousands of employees, it seems, have not yet applied for account numbers.

It is estimated that 4,000 persons in Texas are now eligible to file claims for lump-sum death benefits under this law. The fact that only 25 persons have claimed their benefits must show that potential beneficiaries do not know of their rights.

In all cases where employees reach age 65 or die the law requires employers to fill out form SS-3 and send it to the Collector of Internal Revenue. Approximately 4,000 of these forms are now due and only a few hundred have been filed.

Many people apparently do not realize how important it is that they should protect and retain their account numbers, that those numbers are for identification and accounting purposes to assure workers that they will receive their retirement pay which they are now earning.

**Brunk Youngster Attends School**

If June Alice Brunk, 10, doesn't like the teacher she doesn't let it worry her because since entering school only a few years ago she has attended 121 different schools.

June Alice is the daughter of Mr. and Mrs. Glenn Brunk, who travel with Brunk Comedians and tour five states. The usual stop is one week and the child enters school in each town.

H. M. Lane, principal of Junior high school and South Ward school, reports that the youngster is a model student, ranking high in deportment and in scholastic standing, as indicated by her "circulating" report card.

Classmates were over enthusiastic that the little actress attended school here last week and teachers report there was an orgy of "autographs" seekers. June Alice dined Thursday afternoon at the Parent-Teacher Association program.

Visitors in the D. F. Randel home Sunday were Mr. and Mrs. J. E. Calvert, L. T. Randel of Chillicothe; Floyd Randel of Wichita Falls; Mr. and Mrs. George W. Klock of Amarillo; and Ralph E. Randel of Panhandle. Mrs. Calvert spent the week-end in the Randel home.

Mrs. Ida Atterbury of Amarillo is visiting this week with Mrs. Sella Gentry.

**Lions Club Hears Convention Report**

Report on the recent District Convention at Big Springs was the main feature of Tuesday's Lions Club luncheon program held Tuesday at the Clarendon Hotel. With a number of absences noted the club heard Lion O. C. Watson bring the report of what he termed one of the best conventions he had attended in the past twenty years.

President Stallings welcomed the new members into the club and said the initiation ceremony would follow at a near date.

Lion J. R. Gillham made a report on the softball league being formed here for the summer months and asked that the Lions Club put a team in competition. This was referred to Lion Hicks, chairman of the recreation committee.

Reporting on the deficit in operation of the school cafeteria, Lion Caraway asked that donations come in this last week of operation for the school year in the hope of closing with balanced books.

Rhodin Chase, former club pianist and now of Houston was a guest of his father, Lion A. L. Chase.

**LIBRARY NOTES**  
(By Mrs. C. A. Burton)

We have on our shelves 18 copies of the Boy Scout merit badge series, giving the requirements for securing merit badges on these 18 subjects. Besides these we have quite a few splendid Scout stories. Franklin K. Mathews, chief Scout librarian, has this to say: "Books may play a vital part in character development. What is needed is that morality be emotionalized, made thrillingly attractive. Stories of sports are particularly suited to do this, for they may present boys at play so graphically that the playground becomes a stage, teaching the youthful mind morality with all the vivid force and alluring charm of the drama. Self-sacrifice becomes glorious; selfishness a thing to be despised; truthfulness and honesty commendable; cheating and lying mean and contemptible; fairness always honorable and the lack of it despicable." Such are the books of Ralph Henry Barbour and others which our boy readers enjoy.

The literary world is holding Margaret Mitchell with her "Gone With the Wind", responsible for the large number of Civil War stories being given the reading public just now. The Centennial brought us large numbers of Texas books, and now the coming Pan-American Exposition at Dallas calls attention to a large number of books on Mexico and South America. The titles of many of these are very attractive.

The vogue of the novelette which someone has called "significant fiction in small packages", has grown steadily since James Hilton gave us "Good-bye, Mr. Chips". The most recent success along this line has been John Steinbeck's "Of Mice and Men" which was the March selection of the book-of-the-month club.

I will say in the beginning that I do not have the book in the library, but I want to tell you about it and its author, since it is being much discussed.

John Steinbeck and his wife live in the little town of Las Ga-

**Bellicose Boss Succumbs**

Jane Arthur, as the stunning steno who sought employment secretarial for opportunities affairial, gets her man in "More Than a Secretary", riotous romantic comedy produced by Columbia and showing May 19-20-21, at the Pastime Theatre. George Brent is the "boss" who falls for the charms of the glamorous Jean. Seen in the supporting cast of "More Than a Secretary" are Lionel Standar, Ruth Donnelly, Reginald Denny and Dorothea Kent. Alfred E. Green directed.

tos, Calif. After their marriage five years ago they lived for a while in Monterey, which is the scene of his first novel "Torilla Flat". Here they lived on \$25 a month. He was born in Florida, but the father moved his family back to his own birthplace, Salinas, where he served as county treasurer for many years. The mother taught in the tiny red school house of the Big Sur country 60 years ago, and John was a member of the first surveying party that ever went into that rugged country.

At intervals for eight years John Steinbeck attended Stanford University, but was not very happy there until he finally convinced the authorities that he did not want a degree, but wanted to study only that which interested him. Then for some years he traveled about the country getting whatever jobs he could, as a brick carrier, a chemist, a painter's apprentice. For a while he reported on a New York newspaper, but got fired because he insisted on reporting the poetry or philosophy he saw in the facts instead of the facts themselves.

He is now 32 years old—has a deep, quiet voice, fair hair and eyes the blue of the Pacific on a sunny day. He seems to belong to the coast and ranges and cliffs of the Big Sur country. His first book was published in 1929 and has been followed by four others before this last. They were only moderately successful, and he has almost given up hope of making a living with his pen until this recent success.

Steinbeck has been compared with D. A. Lawrence, Ben Abramson says of him, "Like all truly creative writers he treats not of surfaces and consequences, but of that which is at the root of all human happiness and misery, all class struggle and social injustice—human character."

A reviewer says of this short novel, "Of Mice and Men" that it is a work of art intensely alive—a story of human flossam that

drifts about in odd backwash of our civilization—and invariably pictured by Steinbeck with unique compassion and understanding of their hopes and fears.

It is a story of Lennie and George who share a couple of acres, a few pigs and chickens and rabbits and having a home. Lennie, who is a huge mountain of a man, but not "bright", and George who has voluntarily assumed his charge. The reviewer continues, "Steinbeck handles the filtration of dreams and desire through the mechanical processes of daily life with the magical precision of a great prose artist, so that the climax of the book is indescribable in its force". But with all the above, it is not a "pretty story".

**Trench Silos Proving Worth To Farmers Throughout Texas**

Farmers in the grain sorghum belt are reporting to their county agricultural agents that the feed they put down last fall in trench silos became more valuable with the passing months and that "their cattle couldn't have done without it."

A 200 ton trench silo filled in September of 1935 was opened during March by Ben J. Teague of the Rivercamp community in Childress county. Approximately 100 farmers gathered at the Teague farm to see the silage which had been stored for 18 months.

In October, 1935, I. S. McMillin, ranchman of Stonewall county, stored 150 tons of red top cane in a trench silo. He opened it in February of 1937 to feed out to 50 heifers which were calving. McMillin says that the heifers immediately began to do better, gave more milk, and that the calf crop is his best in years.

Farmers filled 35 trench silos in Motley County last fall and much of the silage has already been fed. In most cases, the silage is being used to feed out steers or calves or to winter cows. The comment of Fred Bourland, Matador ranchman, "My trench silo will make me more profit than my cotton crop," seems to be the sentiment of most of those who experimented with trench silos during the past year.

Silage from his trench silo resulted in an increase of two quarts of milk per day per cow, according to S. O. Montgomery, dairyman of Ranger, Eastland County. Montgomery also found that his feed cost went down, as he was able to decrease his grain ration.

**Watch Infections In Coming Outing Season**

Austin, Texas, May 11.—As the summer season approaches, a word of warning is timely to prospective campers, Boy Scouts, Girl Scouts, summer vacationists, fishermen and other who enjoy getting out into the open, relative to the possible dangers that may be encountered from the standpoint of contracting infection under the changed environment. This is especially true of diseases that may be transmitted through food and water supplies.

Typhoid fever is a disease the amount of which is greatest, as a rule, where there is the least

sanitation. It is an unnecessary and preventable disease. It is spread from person to person by water, milk, fingers, flies and food. Every case is contracted by taking into the mouth some substance contaminated with typhoid organisms, and these occur only in nature in the bowel and bladder discharges of persons sick with typhoid or from the germs in their systems.

Persons planning a vacation or trip where sanitation may not be rigidly enforced or where food handlers are not regularly examined should protect themselves against this disease by being vaccinated. Three inoculations with typhoid vaccine, a week apart, are necessary to secure protection against this disease and the immunity established is good for two years. The purity of water or milk cannot be judged by looking at it. Play safe and have your doctor protect you.

Spring time is here, and naturally fly time is here. Have you inspected your screens, are they in proper condition to keep out the flies? If not, why not call us, we will be glad to have them inspected for you, and give you an estimate on repairing them, so they will be in first-class condition.

Soon it will be summer time again, the good old summer days we all love and enjoy, if we have a cool home in which to live. You can enjoy a cool comfortable home, when your home is properly insulated, and besides enjoying a cool home for the hot summer days, you can save money on fuel in the winter time. Let us give you estimates covering the complete installation of the proper insulation for your home. The cost is surprisingly low.

Maybe your home needs repainting or the interior needs refinishing with wall paper or paint . . . Call us on any of your home building problems. We are constantly in touch with good dependable carpenters, painters and plumbers, and we will be glad to help you with your building problems.

**WANT TO SAVE 260 CUPS OF COFFEE?**

Two hundred and sixty cups of coffee is a lot of coffee!

But did you know you will save the price of that many cups of coffee in a year if you buy *Admiration* in Cellophane bags at a price of about 4c per pound less than other methods of packing? It's an actual fact! That is if your consumption of coffee is the small-family one of a pound a week. Of course, the more you use, the more you will save.

Such a saving is real economy, because the *Admiration* you buy in moisture-proof Cellophane bags is the same as that put up in cans and jars—just as fresh, just as fragrant and just as delicious. Triple-sealed bags, plus the fastest coffee delivery service in America, guarantee its freshness at all times.

Buy it in the bag and save the difference.

### Billy Rose Chooses Six 'Beautiful Ladies'

The six most beautiful girls in Texas State College for Women, Denton, were selected by Billy Rose from among the sixteen class beauties presented at his Casa Manana Revue in Ft. Worth last October. His choices of one beauty from each class and two at large were kept secret until the Senior Formal Prom. The chosen girls are Misses Catherine Pool, San Antonio, chosen at large; Louise Carter, Dallas, Junior beauty; Olivia Bishop, San Antonio, Senior beauty; Constance Wright, Mulvane, Kansas, Sophomore beauty; Mary Frances Greenwood, Farmersville, Freshman beauty; and Joy Hawley, Denton, chosen at large.

is threatened with death in the house. It may get a final house test this week.

**Session End Nearing**  
Although neither house had acted definitely at the week-end on adjournment date, May 22 was most frequently mentioned by senate leaders as the probable time. That would cause solons to work about 10 days at \$5 a day, and

would probably enable passage of the regular appropriation bills, upon which the house is busily engaged this week. Whether the chief bone of contention—the race-horse betting repeal bill—will get up remains doubtful, with the decision apparently resting in the hands of the senate minority group which has buried it on the calendar.

### REV. E. B. BOWEN IS IN STAMFORD HOSPITAL

A letter here the first of the week conveyed the information that Rev. E. B. Bowen, Stamford, former pastor of the Clarendon Methodist Church, was in a hospital there for observation and treatment for either gallstones or stomach ulcers. His many friends

here hope he will have a speedy recovery.

Visitors and dinner guests in the W. B. Haile home Sunday were Mr. and Mrs. Paul Rusa of Panhandle, Mr. and Mrs. Buel Gray of White Deer, Mr. and Mrs. Byrum Haile and daughter, Jeanne Ann, of Amarillo and Mr. and Mrs. Clyde Martin of Clarendon.

## THE GREATEST TIRE EVER MADE TO SELL AT THESE LOW PRICES

COME in, examine a cross section cut from a Firestone Standard Tire, then examine the deep-cut, non-skid tread and see how much extra value you get. You will quickly understand why more and more car owners are equipping their cars with these tires. You will agree that never before have you seen so much quality, so much built-in mileage and so much safety at so little cost. You will find the Firestone Standard Tire is made safer from blowouts with the Firestone patented process of Gum-Dipping. The patented construction of two extra layers of Gum-Dipped Cords under the tread protect against

punctures and bind the tread and cord body into one inseparable unit. The wider, flatter tread with more rubber on the road will give you longer mileage and greater protection against skidding. Firestone is able to give you all these extra values because Firestone Standard Tires are built in such large quantities that great savings are made in production.

Don't drive another day on thin worn tires that are dangerous and may cause an accident. Join the Firestone SAVE A LIFE Campaign by equipping your car with Firestone Standard Tires—First Grade Quality at Low Cost.

## Buy Firestone STANDARD TIRES TODAY AND SAVE!

**YOU SAVE** yourself and your family from dangerous accidents because Firestone patented construction features give you greatest blowout protection and safety from skidding.

**YOU SAVE** because Firestone Standard Tires give you low initial cost and lower cost per mile.

**YOU SAVE** by buying now as tire prices are advancing. The price of crude rubber has gone up 110% and cotton more than 26% during the past two years. BUY NOW AND SAVE.

BY JULIAN CAPERS JR.

Austin.—Veto by Gov. Allred of the commercial carrier bill, written by the legislature in an effort to permit private business concerns to deliver their products in their own trucks without qualifying as common carriers, and a revival of the oft-repeated rumor that Gov. Allred will receive appointment as a federal judge and resign the governorship, were the outstanding developments of the week in Austin.

The federal judgeship rumor which has been bruited about for more than a year, appeared this time to be backed by significant circumstantial evidence. Although Allred has maintained discreet silence, his close friends say he is exceedingly anxious for the job. There is before the house judiciary committee in Washington a bill creating an additional judgeship in the South Texas (Houston) district. Inside information from the national capital indicates it probably will be passed at this session of congress.

Agreement Reported  
Best information here is that

Senators Sheppard and Connally will endorse different candidates, neither naming Allred. That would put the decision up to Vice-President Garner, who has always been Allred's close political friend. Garner is known to be willing to go a long way to prevent Allred becoming a candidate against Connally in the future, and, the current story here is that he has definitely decided to back Allred for the judgeship. In that event, Allred would resign. Lt. Gov. Walter Woodul automatically becoming governor for the remainder of Allred's term.

Friends of Col. Ernest Thompson and Atty. Gen. William McCraw, who will both seek the governorship in 1938, are said to have used their influence to prevent this program working out in the past, because they feared that Woodul would feel obligated to seek election as governor, thus complicating the situation next year for their favorites. But close friends of Woodul have recently declared the lieutenant governor would far rather be attorney general of Texas—an ambition to which he has been pointing his whole political career for years—and that even if he served out Allred's unexpired term, Woodul probably would then continue with his present campaign for attorney general next year. Upon

this assurance, friends of the other two candidates apparently have waived their opposition to Allred's appointment, and the thing appears more likely to be worked out on this basis now than at any time since the rumor originally started.

**Allred Visits Roosevelt**  
Two visits by Gov. Allred—official, to welcome the president to Texas, and the other with an apparent effort at secrecy this week—lend some credence to the reports. The governor's mysterious "trip to the country" to "take a rest" is reported here to have been an unheralded visit to the president near Galveston.

Knowledge of the situation is credited by many here with the policy of the group of senators who have blocked action of many important legislative measures supported by Allred, including the race repeal bill. Nobody knows when the Allred appointment will go through—if it does—but Sept. 1 is the date most frequently heard here in discussions of the subject.

**Eighth Veto Angers House**  
Veto by the governor of the bill adopted to permit privately owned trucks to cruise the highways at will drew fire in the house which quickly passed the measure over the veto, with many Allred stalwarts favoring the bill. In the senate, anti-Allred leaders, such as Frank Rawlings of Fort Worth, and Clint Small of Amarillo, rallied to support the veto, and the bill failed of enactment over the veto by the narrow margin of two votes. The governor explained in his message that the bill was so poorly drafted it virtually threw the highways open to trucks without regulation, and raised serious legal questions as to the validity of the whole common carrier truck laws now in effect. The governor took the position that the private trucks ought to be permitted to operate only under strict regulation, and that the present good system of regulation for common carriers should not be jeopardized or impaired. Senate action probably killed further commercial truck regulation for this session.

**Thompson Favors Advertising Bill**  
Rallying to the support of Lt. Gov. Walter Woodul's constitutional amendment to permit the state to advertise for tourist and industrial business, Col. Ernest O. Thompson of the railroad commission pointed to Amarillo, the city of which he formerly was mayor, as having proved the value of community advertising by doubling its population within a few years through advertising. He also cited the California campaign, which has raised the per capita income of that state to twice that in Texas, brought millions of visitors and permanent residents there, and drawn millions of dollars of industrial capital to the coast. The amendment resolution has passed the senate,

### DON'T RISK YOUR LIFE ON THIN WORN TIRES

Protect yourself and your family from the danger of driving on thin worn tires which may cause a serious accident.

**DO YOU KNOW**  
THAT last year highway accidents cost the lives of more than 38,000 men, women and children?  
THAT a million more were injured?  
THAT more than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to unsafe tires?

Above is a section cut from a smooth, worn tire, which shows the non-skid protection worn off. Tires in this condition are more liable to punctures, blowouts and skidding.

Above is section cut from a new Firestone Tire. Note the thick non-skid protection against skidding, blowouts and punctures. Come in today and see by actual demonstration.
