American Legion Dance Tonight (Wednesday)

The local American Legion Post is giving everyone the opportunity of starting the Thanksgiving holidays off right by sponsoring a big Thanksgiving dance tonight (Wednesday) at the Opera House. The starting time is 8:30.

"The Collegians," 14 piece swing section of the famed West Texas State College Buffalo band will be on hand to furnish the music and it is understood that they feature music in the modern style, both sweet and swing, with a lot of good jazz for those that really like to stir about.

If you like to dance or enjoy good music, come out tonight and join the Legion fellows in this big Thanksgiving dance. They say you will enjoy the music as well as meeting a number of your friends who will probably be home for the holidays.

LEADER PUBLISHED ON WEDNESDAY THIS WEEK

The Leader is being published a day early this week so that the Leader staff may have the opportunity of joining their neighbors in observance of Thanksgiving Day.

We want to thank our advertisers and others for turning in their ad copy and news items early in order to make it possible to publish a day early.

We wish each and every one a most enjoyable Thanksgiving with all the trimmings—which naturally includes having all the kids home, or the kids being able to go home—and a big festive meal.

Your Leader will be published at the regular time next week, on Thursday.

IT IS TIME FOR THOSE SANTA LETTERS

All of you youngsters who are anticipating a grand and glorious Christmas should sit down right now and write that letter to Santa, telling him all the nice things you want and what a good little boy or girl you have been for the past year. Just address your letters to Santa Claus in care of the Donley County Leader and they must be received by our office here not later than December 6th, and it will be much better if you can mail them right away.

Farmers To Use Commercial Fertilizers

Increased production is the aim of every farmer during this time of high prices. The first step by farmers to increase production was the planting of Austrian Winter peas as a winter legume and to be turned under as a green manure crop.

This coming year farmers from all over the county will use commercial fertilizers. One car load of 4-12-4 fertilizer has been ordered by Mr. Nolie Simmons and Forrest Sawyer who are handling fertilizer for Donley County. H. M. Breedlove, county agent, says that commercial fertilizers will step up production in some cases by as much as one third. In fertilizing feed and cotton and other row crops the fertilizer is put in the ground at the time of planting by fertilizer boxes that are attached to the planter. Fertilizer on broadcast crops and small grain can be put on the ground just before planting or even after the crop is up.

Breedlove says that farmers in this county realize the value of fertilizers and he believes that the program will make great progress in Donley County.

For any information in regard to the use of commercial fertilizers call by the county agent's office.

Active pallbearers from Clarendon were Otto Beach, Hubert Heatherly, T. W. Trussell and Frank Thomas. Paul Smith of Trinidad, Colo. and a former resident of Clarendon was an active pallbearer also.

Shakeup In Class AA Districts

AUSTIN, Nov. 25.—District assignments for 1948 Class A interscholastic League teams that will compete next year for the first statewide football title in the A bracket were announced yesterday.

The Interscholastic League's executive committee said the groupings were tentative, calling on the districts to meet as soon as possible to determine whether or not they want any changes.

The league announcement said the privilege of voting in other schools remains, "but the state office does not think it wise in most instances to admit schools from a lower classification."

A total of 82 schools were dropped from A list, and 11 schools were moved from Conference AA to A. The league said that all schools with an enrollment of 200 to 499 have been placed in the district most accessible to the school.

The committee announced it was guided by these factors in making the assignments: 1. Enrollment in the last four high school grades; 2. Geographical location of a school; 3. Arranging schools in such a manner as to have 32 districts, thus "assuring an orderly state championship playoff for Conference A members."

This is the tentative lineup, by districts pertaining to the Panhandle:

1. Dalhart, Dumas, Hereford, Perryton, Phillips, Tulia.
2. Childress, Clarendon, McLean, Memphis, Shamrock, Wellington.
3. Abernathy, Floydada, Paducah, Ralls, Spur.

FARMERS UNION TO HOLD WORKSHOP

Members of Texas Farmers Union in Donley County and surrounding areas will meet in Clarendon the second week in December for a two-day workshop, according to John Gordon, local Farmer Union representative.

Several state and national Farmers Union officials will be present to conduct the program. There will be sessions on problems that are faced or will be faced by farm people ranging from the hired hand to the landowner. There will be other sessions dealing with legislation, cooperative education and many other things of vital importance.

"Farmers Union," said Mr. Gordon, "is an exclusive dirt farmer organization, controlled by dirt farmers. It's an organization built around human welfare."

This will not be a closed meeting and those who are interested in the welfare of people are cordially invited to attend.

SHAVAR ARMY SURPLUS STORE OPEN

T. M. Shaver has his Army Surplus store officially opened for business this week after being partially open for some time, although his building was not complete. Work was completed last week in setting the front glasses in the building and Mr. Shaver is all set up now for his regular business which includes Army Surplus items and made to measure clothing. He plans to add a more complete line of men's furnishings just as soon as they become available.

The new business is located between the Heath Motor Company and the Murphy-Spieer-Bunton Funeral Home.

Mrs. J. R. Porter left Monday to visit her children at Austin through the Thanksgiving Holidays.

Mrs. J. R. Porter left Monday to visit her children at Austin through the Thanksgiving Holidays.

Thanksgiving Day is our country's public recognition of the power and providence of God. It is peculiarly an American institution, which has no counterpart in other lands.

On this day the people of our country, led by the government itself, expresses their humble and heartfelt thanks to God for His protecting care and the abundance of His provisions for our comfort and welfare.

The day itself is a wholesome influence in American life. It means a great deal when the people of a great nation lay aside their material concerns & gather in family groups to express gratitude for divine providence.

The Thanksgiving dinner may be a feast of delicacies or an unpretentious meal of simple fare. But those who partake of it should do so with thankful hearts and understanding minds.

"Let everything that hath breath praise the Lord," sang the Psalmist. And in thousands of churches and millions of American homes this Thanksgiving Day, grateful people will bow in humble recognition of God's matchless goodness.

The admission will be \$1 per couple and 75 cents for stags. The dance will start at 8:30 p. m.

The proceeds from the dance will go into the youth center fund and everyone is urged to come out and have a good time and give this younger group your support.

Drilling To Start Soon On New Oil Well

According to informed sources, another attempt to find oil in Donley County will be made in the near future as a new test well location has been staked off on the Ozier farm about three and one-half miles southwest of town.

The Honolulu Oil Company is the company that is having the well put down and it is understood that Buck Stevens of Oklahoma is the contractor for the drilling. Drilling equipment started coming through Clarendon Sunday and the main rig and heavy machinery passed through town Tuesday. The actual drilling will be delayed a number of days awaiting the completion of a water well and a slush pit and also a navigable road to the drilling site as several of the trucks bogged down in mud Sunday in an attempt to cross the Ozier field.

The new well will be known as the Honolulu Oil Company No. 1 Ozier, and it could not be learned as to what depth the contract called for or any other particulars concerning the drilling. A certain amount of secrecy is involved in such transactions and all the majority of us can do, is await for developments.

At any rate, we do know that a well is going to be drilled and we all hope that they can give us a gusher. The writer was told that this same company was drilling on the south plains and that at one particular location they were down around 8,000 feet. If we can get a well that deep here, there is a fair possibility of oil. We all hope for the best.

According to Mr. W. E. Lowry, of the State Board of Vocational Education, some boys are actually taking courses in "Baby Sitting," and according to some of the Panhandle newspapers girls are playing football. For pity sakes, what next?

Quoting from a speech by Walter Hammond, at the Farm Bureau Convention, "It is not so important what we did yesterday or last year, but the important thing is, what are we going to do tomorrow." We could apply this to almost everything. In speaking about Government controls, Mr. Hammond said also, "That he would rather do as he pleased without anyone telling him what to do." In other words, "be a Rugged Individualist, but that he had rather have a few controls, and not be a Rugged Individualist, than to be a Ragged Individualist." Me too.

APARTMENTS NEEDED BADLY HERE

A number of families connected with the new oil well which is to be drilled soon are coming or are already here and are desperately in need of places to live. There are also some of the employees of the CAA which need a place to stay. The question is --- where can they find those places?

Everyone who has an apartment, furnished or unfurnished or who can fix up an apartment is asked to call the City Hall and report what they have so these new people can get located.

Isabelle Wright is confined to her bed from an injured knee.

Winter Increases Fire Hazards

The onset of winter increases fire hazards by more than a third, County Agent H. M. Breedlove, warned this week.

"Winter means heated homes and barns and also an increase in fire hazards—a 34 percent increase. Cracked chimneys, corroded flues, defective furnaces and improperly discarded hot ashes are the villains. Make sure that your heating plant is in good working condition."

"An annual farm fire loss of over \$90,000,000 is more than any country can afford — especially during the present food crisis," Mr. Breedlove declares.

"Fire prevention on the farm is only half the job for complete fire safety. A farmer must make provision to protect his farm if he wants to keep it. He must take the time to instruct his family and his farm hands in the use of fire-fighting equipment. A farmer must see to it that a sufficient number of approved fire extinguishers are on his property and that they are placed in strategic locations."

County Agent Breedlove reminded all farmers that the first five minutes of a fire are the most important. "You can do more to control a fire in the first five minutes than can be done in the next five hours. Fight that fire the minute you discover it."

LOCAL HUNTERS BRING HOME THE DEER

R. T. Brown and L. N. Snoddy returned home Sunday from Sierra Blanca where they spent a week deer hunting.

Mr. Brown's son, William Brown, met them there and took them to his camp in the mountains. They reported seeing many deer and brought a 230 pound, 11 point buck home with them.

Thanksgiving 1957

The Texas farmer and rancher have much to be thankful for this Thanksgiving. In most instances his income from farm products and livestock has been the greatest in the history of the nation. Prices have been better than good and in the majority Texas' crops have been abundant.

Yes, Thanksgiving 1947 is truly a day to give thanks.

But what about Thanksgiving 1957?

Will the farmer and rancher have as much to be thankful for then? If history repeats itself, and it always has in agriculture, the fat years will give way to lean years. In Texas the weather is always an uncertainty and it is conceivable that a long drouth in the following years can ruin even the most abundant crops.

But come what may, drouth or low prices, the farsighted farmer can have an abundant Thanksgiving in 1957. While his income

is high he will invest what he can in a safe and sound investment. Such an investment is U. S. Savings Bonds. For every \$3 the farmer invests now, he will receive \$4 in 1957, when his Savings Bonds mature. In the meantime, he has a financial reserve that he can use at any time in case of emergencies.

Plant now the crop that never fails for your 1957 Thanksgiving.

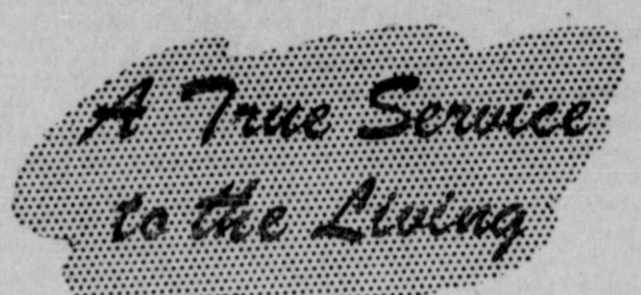

Guests in the home of Mr. and Mrs. C. C. LaGrone Sunday were Mr. and Mrs. Wayne Ewing and daughters of Borger, Mrs. Harris Lane of Comanche, and J. G. McAnear of Clarendon. The occasion

was a celebration of Sammy LaGrone's birthday. He was one year old.

Veterans' News

World War II veterans desiring to study abroad can qualify for benefits at the same time under both the GI Bill and the Fulbright Act administered by the State Department, the Veterans Administration ruled this week.

The VA ruling held that payments of education and training benefits under the GI Bill may be made to student-veterans regardless of any grants made to them under the Fulbright Act, since the funds used to administer the Fulbright Act were not secured from United States government appropriations.

The Fulbright Act, passed by the 79th Congress, provides for grants in aid to American students for study abroad or to foreign students for study in this country with costs defrayed by credits acquired through sale of surplus property abroad.

The Act also specifies that veterans of World War I and II must be given preference by the 10 man

Board of Foreign Scholarships which awards the study grants.

It is hoped that a limited number of grants will be made under the Fulbright Act for the academic year 1948-49. Applications are not being received at this time, but persons desiring information on the program may obtain it from the Division of International Exchange of Persons, Department of State, Washington 25, D. C.

Almost all of the 2,013,000 World War II veterans who completed or dropped out of school or job training courses they began under laws administered by the Veterans Administration are eligible for additional training.

VA said this week that all but 29,000 of these veterans interrupted or discontinued their training before they had used all of the training time for which their active war service qualified them.

Of those not eligible for further training, 20,600 are disabled veterans who were declared rehabilitated. The remaining 8,400 are GI Bill trainees who used all of their available entitlement.

Billing Clerk To Fashion Designer

From billing clerk to fashion designer is the step taken daily by Miss Winifred Summers, Columbus, Ohio. Employed in the purchasing department of the Timken Roller Bearing Company's Columbus plant, Miss Summers has, for three years, tended to office routine by day and, by night, taken up her studies at an art school in furtherance of an ambition carried since her fifth grade school days.

Based on the quality of the designs turned out thus far, Miss Summers would do equally well as a designer or an illustrator and a career as either one would satisfy her. An ever-widening circle of friends beseech her for help in attaining that "New Look."

Asked what relation there was between roller bearings and ladies fashions, the part young miss replied: "Naturally there is no relation between roller bearings for freight cars and the lines of an evening gown. But, there is a difference between the employee with a hobby and one without. The person with a hobby is inquisitive and business today is seeking inquisitive employees. Just look at the suggestion awards made regularly by Timken and other big companies." The point was well made.

Say "Thanksgiving" to any man, woman or child in the U.S.A. and they'll think of turkey, cranberries and other little solid, satisfying things. It's been that way for more years than any of us can remember. And maybe it's just as well this year that we go on having these old familiar symbols - - because somehow what we truly feel in our hearts on this greatest of all Thanksgivings cannot be expressed or pictured.

But every dear, delightful moment of the old American ritual will be terribly precious to us this year because there is not one of us who will not remember that it might not have been. That had it not been for the Grace of Almighty God and the sacrifices of free men it would not have been.

... And at this time we want to thank our many friends and customers for their patronage during the past year and will always strive to give you the best in service and quality foods.

WHEAT GRINDINGS AND FLOUR PRODUCTION

AUSTIN, Texas—Wheat grindings plunged 12 per cent from August to September, dropping to 3,309,000 bushels, according to Bureau of the Census reports to The University of Texas Bureau of Business Research.

The seasonally-adjusted index prepared by the University Bureau sagged 15 per cent during the month, since the dip was more than is usual in the August to September comparison. In spite of the monthly lag, grindings were half again as large as prewar (1935-39) production with the index at 152.

Wheat flour production slacked off 12 per cent but passed up year ago September production by 5 per cent. Some uneasiness has been expressed by mill men over early 1948 activities. Flour mills may be forced to close or run on a part-time basis next spring for want of wheat, which is one danger sighted in the present export buying.

BUILDING PERMITS SAG IN TEXAS

AUSTIN—The State's building outlook for the remainder of the year looked bleaker than had been expected after permits sagged 3 per cent from September to October, according to The University of Texas Bureau of Business Research.

The plunge was not a seasonally-anticipated one, and as a result the Bureau's adjusted index was narrowed by 21 per cent. The index is still six times greater than the prewar (1935-39) average, reflecting gains in value and number of permits.

Most encouraging to the building trade and to persons caught in the housing pinch was the fact that the index was almost 100 per cent above its year-ago level, reaching \$32,538,811 during the month.

Dominating the immediate future of building plans is the fact that material prices are up again and will probably go higher; however, few shortages in materials are anticipated next year.

So Little Meant So Much

When our pilgrim fathers wrested a meagre living from their rock-strown soil, they didn't wail about their hardships, rant against their neighbors. They shared what they had - and were grateful for life's simplest awards: food, clothing, shelter. Now that our lives have become so greatly enriched, materially, we must take care lest we lose the greatest gift of all - appreciation.

Ma Hoskins Sneezed at Cats!

Ma Hoskins couldn't understand why she got a fit of sneezing every time Harpo, the cat, came in the room. Finally figured she'd have to get rid of Harpo altogether.

Then Doc Hollister explained she had an "allergy." Cat's fur made her sneeze like strawberries give some folks rash. He gave her an inoculation so she and Harpo could live sneezelessly together.

I guess a lot of us have "allergies" in the social sense. Some folks just can't stand movies, or radio comedians. Other folks don't go for beer. Myself, I enjoy a moderate glass of beer or two with friends ... but it's up to them what beverage they choose.

From where I sit, the important thing is not to let our social allergies result in antisocial taboos. Let's not criticize the fellow who likes beer if we like cider. A little inoculation of tolerance can help us live-and-let-live happily together.

Union Thanksgiving Service
A Union Thanksgiving Service will be held tonight, Wednesday, November 26th, when the churches of this community will hold their Union service at the Baptist Church. Often one adds: "We would like to attend but can't." It is possible for one to worship in Spirit, but your presence lends not only more to the atmosphere of such a service as this but it greatly increases the corporateness of such a venture. Surely your time is not so valuable that you can not give God some of it upon such a Day as "Thanksgiving." Each one of us has so much to be thankful for for that such an occasion as this can help us express our thanks to God by our presence.

Each of the Clergymen of the Community will have parts in the service, each one bringing with them the union that is only possible through such a service.
The Rev. Dr. S. W. Hayne of The Methodist Church will be the Speaker. The service will begin at 7:30 at The Baptist Church.

W. G. Adams, son of Mr. and Mrs. Bill Adams, has a good report on his first coaching job at Plains, Texas. His team played 10 games—won 7, lost 2 and tied one, and they scored 210 points to their opponents 39. Homefolks are proud of his success.

**TWO ONE-ACT PLAYS
BIG SUCCESS**

The two one-act plays presented at the College auditorium last Thursday night by the Cue and Curtain club were a great success with the cast of each play receiving a very big applaud from the near-filled auditorium.

"His First Shave", the first play to be presented, brought laughs from the crowd all the way through. The second play "The

Doctor's Affair" was equally as good but was more on the serious side.

Every member of the cast of each play, acted their parts well and are to be commended for their fine work. The plays were directed by Mrs. Jolly Johnson, local speech and dramatic artist.

The plays were sponsored by the Band Parents' organization and the proceeds from the plays will go into the Band fund.

**TIME FOR COMRADE
VISHINSKY TO QUIT
CALLING US GREEDY**

How much help has Uncle Sam given to foreign countries? Since the beginning of the war, it has amounted, net, to \$58,206,741,335. But as no one knows what a billion dollars is, much less 58 billion, let's measure this by yardsticks we know something about.

At \$8,000 per house, this gigantic sum would build over 7,000,000 homes.

It is three billion dollars more than the total purchases in all our retail stores in the year we entered the war.

It is ten billion dollars more than the total assets of all our life insurance companies—the backlog of security for 65,000,000 insurance policyholders.

It is six billion dollars more than the net worth of all our business companies. These assets are the backlog for jobs for nearly all of us—manufacturing, mining, railroading, merchandising, shipping, etc.

It is twenty-three times as much as we paid on the education of all children in our public schools.

It is almost three times as much as all our farmers and cattlemen received for their cattle, crops, poultry, etc., in our biggest farm income year.

It is five times the value of all farm buildings, houses and barns in the United States. Hence, if all our farm buildings were completely destroyed by five successive fires, it would rebuild them five times.

It is two-and-one-half times the value of all our farm lands.

It is \$15,000,000,000 more than the total national income of all our people in 1933.

It is twenty-nine times as much

THE DONLEY COUNTY LEADER

as all our old and sick people received in social security payments the year we entered the war.

It is ten billion dollars more than the total wages and salaries paid in America the year the war broke out in Europe.

It is fourteen times the amount of all business profits that same year.

It is eleven times the value of all United States exports to foreign countries in 1929, the peak export year before the war.

It is \$6,000,000,000 more than the total spent to run the Federal Government during the first seven years of Mr. Roosevelt's administration.

Consider these facts, Mr. Vishinsky, deputy foreign secretary of the Soviets, and then tell us that we entered this war to make money!

Of this huge total, how much went to Russia in lend-lease, direct loans and UNRRA relief? The answer is \$11,681,393,782. How much is that by some yardstick we can understand? Well, it is almost eleven times the value of our cotton crop in 1946; ten times the value of our wheat crop; almost eight times the value of all hard and soft coal dug in 1946; and six times the value of all gold, silver, iron, copper, lead, zinc and other metals mined that year.

Mr. Vishinsky, you can tell your people, behind your iron curtain of censorship, that we went into the war to make money, but you can't make our taxpayers believe your story. They will have to pay all those eleven billions of American aid to your

country. It is part of their debt. And, besides, don't you forget this. We depleted our coal, petroleum, iron and timber reserves in this process. In the wheat we sent abroad were millions of tons of our fertile soil. We sent our country \$11,297,883,000 of the real wealth of the United States.

In reverse lend-lease, you gave us back \$2,219,000! Or \$1 for every \$5,310 we sent you. While we were doing this, your country has seized 274,000 square miles of other people's lands—eight times the size of Indiana—with 24,355,000 people! Stop calling us greedy! — Samuel P. Pettengill, Texas Tax Journal.

Those attending the monthly Workers Conference at Memphis Tuesday were Rev. Sartain, W. D. Kidd, Mrs. A. W. Simpson, Mrs. Lola Barns and Mesdames Zebb Davis, Bob Head, H. Huffman, A. T. Cole, Mamie Holligan, Hayes.
