Mammoth State Fair Opens Saturday

The \$30,000,000 State Fair of Texas—hailed as the largest annual exposition in the United States—opens Saturday in Dallas for another breath-taking 16-day run.

The "big berth" of the world's state fairs, which covers 187 acres, is expected to draw 2,000,000 visitors before it closes. Nearly a quarter million are expected on opening day.

To tell what visitors will see and enjoy at the 1948 Fair has all the earmarks of a gigantic "Texas brag." But the Fair, as "The Show Window of the Southwest" will truly reflect the many facets of life, industry and economy of this section.

Agriculture and livestock will

occupy choice positions, but sharing the spotlight will be scores of entertainment features both on and off the Fair's ten-acre million Dollar Midway.

More giveaways and free attractions will be featured than at any previous State Fair.

The Five Eltons, performing on trapeze and rings 125 feet in air, will give their sky ballet twice daily, followed by the unparalleled and hazardous mid-air feats of Les Kimris, famous aerial gymnast. Art Linkletter will originate his nationwide daily "House Party" broadcasts from Fair Park auditorium the week of October 11. These attractions and many other broadcasts will be free.

In the Auditorium Jimmy Durante and Harry James will head an all-star revue. At the Grand-

stand will be the "Flying L" Rodeo with Jimmy Wakely, cowboy singing star. The Ice Arena will contain the third, all-new edition of "Ice Cycles of 1948."

Eleven special shows and new thrill rides, including the complicated new double ferris wheel, will dot the Midway, the greatest number of such attractions ever assembled in Texas.

Major exhibits will include the South's largest automobile show, a revolutionary agriculture show, junior and senior livestock shows with a premium list of \$62,291, Palomino and Quarter Horse shows, \$100,000 electric show including television, textile, culinary and antiques show, and a spectacular State Fair art exhibit.

A mile-long parade through downtown Dallas, headed by Gov. Beauford Jester, will precede the formal opening. The Governor will be principal speaker Saturday at the dedication ceremonies for the new \$800,000 Automobile, Aviation and Recreation Building, part of the Fair's \$3,000,000 "new look."

The hated Texas-Oklahoma football game will give the renovated and enlarged 67,435-seat Cotton Bowl its baptism of fire on opening day.

Texas and Louisiana.

The Navy Band, universally acclaimed for its sound musicianship and versatility, will play under the direction of Lieutenant Commander Charles Brendler, U.S.N., who has been a member of the band for more than 31 years.

Since 1925, when President Coolidge signed special enabling legislation, the Navy Band has made annual tours to bring its music to audiences throughout the country, except for the World War II years, Mr. Sandefer said. In April and May the band played to vast concert audiences in thirteen of the mid-western states.

They are featured weekly on three major radio networks and play for numerous White House functions and other official engagements.

During the summer they have appeared regularly for Monday evening concerts at the steps of the nation's Capitol and have played for packed audiences on the beautiful Potomac in the shadow of the Washington Memorial.

Both concerts will be held in the Oiler Baseball Park in Pampa, but in case of inclement weather, the concerts shall be

held in the Junior High School Auditorium.

Time for the matinee concert will be 3:30 p. m. and the evening performance will be held at 8:30 p. m. Admission for students for the matinee performance will be 50¢ whereas admission for students at the evening performance will be \$2.00. Admission for adults for either performance will be \$2.00.

Tickets for the concerts are now on sale at either bank in Pampa and mail orders for tickets will be accepted and filled by mailing your check or money order to The American Legion, P. O. Box 657, Pampa, Texas.

From where I sit... by Joe Marsh

Get The Truth!

Called on my good friend "Cappy" Miller, who edits the County Bee, the other day. And hanging up on the wall of Cappy's office is this slogan for his paper:

"Remember there are two sides to every question. Get both sides. Be truthful."

A good slogan... not just for a newspaper—for people, too. Because there'll always be two sides to every question: the side of those who vote one way, and those who vote another—the side of those who enjoy a temperate beverage

like beer or ale, and of those who swear by nothing but cider.

And from where I sit, once you've got both sides—and faced them truthfully, you realize that these differences of opinion are a precious part of what we call Democracy—the right of the individual to vote as he believes, to speak his mind, to choose his own beverage of moderation, whether beer or cider.

A Free Press...

THE SAFEGUARD OF DEMOCRACY

I, too, work on your newspaper.

Without my help modern newspaper service would be impossible. I operate linotypes... run monotypes... engrave plates... turn the presses, make the teletypes click... melt the metal... and do countless other jobs. Yes, I am part of your newspaper service—and proud of it!

Roddy Kilmer

A free press... one of our great American heritages... is the nation's bulwark against forces which would destroy individual freedoms. An informed people are a free people, and as long as the printed word conveys to all the people the basic truths and records of their attainments and failures, the people will remain free.

We congratulate the West Texas Press on their service to the cause of freedom. We are proud of the part which electric service has in making possible the indispensable service newspapers render.

THE DONLEY COUNTY LEADER

PAGE THREE

SKYLINE TIDINGS

Hi! Everybody- That guy Dodo is back on the job again. Took a leave of absence to find out what was going on in the rest of the country and oh brother are there a lot of things that you and I didn't know about.

Matthew Taylor spent the summer up in Colo. learning the art of modern farming with the flying contraption called an airplane. He was up there dusting crops for those Colorado farmers who are really modern, up to date on this farming. They know how to save more time and less hard work, and save on the expense of farming. Matt says that he dusted every thing from wheat to onions and cattle. If there is anything that you want to know about

dusting or spraying just contact Matthew Taylor and John Jay.

There has been quite a bit going on at the old field since I have been gone. The Donley County Aviation Club has reorganized and are really a "up and coming" club. They have purchased a new army building for a club house, and it is also used for a lounge and class room for the flying students who are taking flying at the field. By the way, you don't have to be a pilot to join the club, and if you aren't interested in aviation join any way and we will stimulate your interest. All kidding aside, we would gladly welcome anyone who wants to join the club, and will guarantee you a lot of fun and enjoyment. Those interested just call Joe Jones.

Old Joe Jones has really been busy the last few weeks fixing up a duster for Mr. "Doc" Weaver of Canyon. How do you like those things by now Joe?

John Jay breezed up to Kansas last week and had a spray unit installed in his Stearman that he has been petting and sitting up with at nights and is ready and set to go to town on this spraying.

The D.C.A. Club had its monthly meeting the other night and decided to have a dance at the new lounge October 9, 1948 at 8 p. m. That is, after we finally got a date that would suit George Hunsacker. It seems that George is going to take that fatal step and get himself all hitched up. Boy if that gal only knew what she was letting herself in for marrying one of these flying fellows. We all had a very enjoyable time out here even though the president had to call some of the gals down who were very interested in something besides what he was talking about. Now I wonder who they were.

Mrs. Edna Smith, L. L. Wallace, Homer Bones, and Matthew Taylor loaded up and went to the air breakfast at Dumas, last Sunday. Then this Sunday Joe Jones, L. L. Wallace, Willard Knox, John Jay and Matthew Taylor all flew over to Borger to get a free breakfast. I got all the low down on Joe while we were there. It seems that Joe is pretty well known over at Borger; so he had

better walk a straight line from now on or I will tell.

Gene Davis of Hedley went on a long cross country hop last week. Now Gene is not a true pilot because here he was at Denton and could not even tell that there was a gas college there. Gene I believe that I would of had some engine trouble or something while I was there.

Mr. Smith has got the Taylorcraft in the Clarendon A&E Shop for an annual inspection, and Joe says it is ready for another year of good flying now.

Matthew Taylor had the duster that he is flying down at the fair ground Saturday on exhibit. Matt says he doesn't believe that he wants to land down there every day. I wonder why!

Well folks I guess I have "blabbed" enough, and besides I can't think (period) of any more prop wash to sling, so I'll just shut up for a week.

Oh wait a minute! NOTICE all you fly boys. Get out your pictures of you and your little puddle jumpers and send them to Matthew Taylor. It seems that he wants it for the rogues gallery in the lounge of the new club building, so come on boys and get them to him as soon as possible.

The Lion's Roar

By O. D. LOWRY
Club Reporter

The regular meeting of the Lions Club was held Tuesday, October 5th in the Lion's hall. The percentage of attendance was about average and six guests were present.

After an enjoyable meal the roll call was answered by each Lion giving his first name instead of the conventional "here." Imagine the secretary's red face when he reached the four Estlacks.

The Boss Lion read the list of committee appointments for the new year and asked that each Lion assume the responsibility of the appointment.

Lions Carroll Knorrpp and Ray Palmer made announcements concerning the club sponsored dance to be held October 15.

May I end with this thought: How good would our Lions club be if everyone attended as I do.

Mrs. Florence Bledsoe of Indianapolis, Ind. is visiting her sister, Mrs. Henry Williams and Mr. Williams. Mrs. Bledsoe spent several weeks visiting and sightseeing on the West coast before coming to Clarendon. She will visit other relatives in Okla. and Kansas before returning to her home.

Mr. and Mrs. G. A. Anderson visited her aunt at Snyder, also an aunt, Mrs. Williams at Marlow, last week. They returned home Sat.

"Every four minutes an American dies of a disease caused by a common cold," says a medical item. It must be awfully monotonous for the American.

An oil man never knows whether he is four feet from a million dollars or a million feet from four dollars.

If there were no despicable tightwads, where would our good fellows borrow money?

The achievements that adorn human progress are not the rewards of those who did not plan.

Sometimes the best command of the English language is complete silence.

Cooperation Wins on the Telephone Party Line, Too

Real teamwork is needed to win football games. And the same spirit of cooperation is necessary in order for a telephone party line to function smoothly.

Today, continued shortages of vital materials make it possible for us to continue our expansion program only by party line telephone installations. We would like to give a private line to everyone who wishes one; but when it is a case of party line—or no telephone—you'll surely agree that party line is better.

So won't you please be a good party line neighbor. It means better telephone service for everyone—including you

Quiet people aren't the only ones who don't say much. What this country needs right now is day clubs for night workers.

Today's couplet: Girls who gush and baby-prattle haven't brains enough to rattle.

The most expensive pipe one smokes, leads from the furnace. Some people are fenced off from success by their own railing.

The man who brags that he runs things around his house is probably referring to the lawn mower and the washing machine.

"We are looking forward to bigger and better fair next year, and again thanks to the business men of the county and citizens for the five hundred dollars in premiums given to all departments of the fair and the cooperation that made this past fair a success," stated H. M. Breedlove.

superphosphate has been applied. There will be a number of farms that will produce more in the next five years due to the winter legume practice this year. Some of the men are also saying that there is not enough moisture to bring winter legumes and any other winter crop up right now and some of them are waiting to plant their crops. Right at the present I wonder whether a rain would be the best all cases considered. Maybe it won't be necessary for any of us to make a decision about the rain.

Wish I was a stone
A sittin' on a hill,
Doin' nothing all day long
But just a sittin' still.
Wouldn't eat, wouldn't sleep,
Wouldn't even wash.
I'd just sit there a thousand years
And rest myself b'gosh.
I didn't write the above. It was sent in by a friend, but it does fit my feelings sometimes. Does anyone know who the author was or is?

Heard on the street Monday:
"I jest declare you can't tell dat it is Dollah Day. A Dollah won't buy nothin' nohow."

Everyone please go by the Armstrong County F.F.A. exhibit and look at our picture. Read the writing above and below and tell me whether it is a compliment or an insult. I may want to sue someone and I want a lot of witnesses.

I don't believe the Fair is as good as it used to be, pre-war however, I won't pass final judgment until after I attend Uncle Jay and Lewis Nordyke's Party on Saturday night.

Counting today, tomorrow, and the next day, I haven't smoked a cigarette in a week. I haven't promised anyone that I was quitting, and I may not. I'm just experimenting. Anyway, I don't feel good. My nerves are jumpy, and don't smoke before me or offer me one, please. Every time I reach for the package Mama asks me if I am a "Man or a Mouse." Anyway, I know which one I am, but if I go back to smoking she will know. Take my advice never try to quit. You will probably live within ten years of as long

anyway. And unless I get to feeling better that last ten years won't be worth much anyway. Am I a man or a mouse? I hope no one tells me except Mama. Anyway, by the time you read this I will probably be about ready to quit again. I talked to one man that said he didn't mind to quit, that he had already quit a hundred times.

Don't sympathize with me until you look in my pockets. I won't promise anything.

FARM NEWS

Fall has really arrived. You can tell that by all the fresh colds and the increase in sales of medicine. I for one have a sore throat and it is rather painful. The farmers are really busy, most of them don't stay in town more than a very few minutes at a time.

How many of you saw the article in the paper last week announcing the sale of more government potatoes? I got this information by telephone late Wednesday and it was only through the courtesy of Mr. Estlack that we were able to make this announcement at all. These potatoes are still available at the present time. They are good Colorado potatoes and are to be sold for 30c per hundred pounds delivered in Clarendon. Would also like to caution anyone buying potatoes that they are for livestock feed only and there is a penalty for misuse of these potatoes. They are for sale to any livestock feeder in this county in car-load lots of 450 sacks each.

Did you attend the Donley County Fair? I thought that there were some good exhibits out there. I was just sorry that I couldn't be out there after the judging to see if I agreed with the judges. Donley County should be well represented at the Tri-State Fair this time.

There have already been several producers in this week and they are reporting their legumes have been seeded and the 20%
