Air Officials To Speak To Lions Next Tuesday

W. S. Whaley, local Chamber of Commerce manager, reported yesterday that several capable speakers would be on hand next Tuesday, May 17th, to speak to members of the Lions club in regard to Air Education and the reasons why it should be incorporated into our public school studies. Those to appear here on the program will be Fred Reed of the CAA in Fort Worth, Miss Ziggy Hunter, inspector with the Texas Aeronautics Commission, Austin and Ted Reid, member of the faculty at WTSC.

These speakers will bring with them, information that will be very informative in regard to Air Age Education. An air minded individual recently made the following statement which is explanatory in itself.

"Aviation presents to the American school one of the greatest challenges in the history of public education. So paramount, so transforming, and so rapid have been the technological advancement of science that invention has completely outdistanced education and social development. We have a social order out of step with science. If social progress is to overtake material invention, the school must integrate in terms of the child's life the meaning and significance of his rapidly changing environment."

Superintendents and other school officials from surrounding towns have been invited to join the local group and hear these speakers.

Colored Children To Be Vaccinated For Small Pox Next Wednesday

Dr. J. Gordon Stewart, local health officer, stated yesterday that he had made a request to the state health department for smallpox vaccine and that he and Mrs. Margaret Naylor, head nurse at the hospital, would vaccinate all colored children at the colored school next Wednesday, May 18.

This is just a precautionary measure and will be a free service, Dr. Stewart stated. "Any parents of white children who desire to have their child vaccinated may take them up to the hospital any day next week and they will be vaccinated free of charge," he added.

A child vaccinated now will have a better opportunity of protecting their sore arm than if they wait until a short time before school starts this fall. All children entering school for the first time must have proof of their small pox vaccination before they will be admitted.

65000 Ford Workers Strike

DETROIT, MICH.—UAW-CIO Local 600 struck against Ford Motor Co. after failure of last minute peace talks. Some 65,000 workers thronged out of two Detroit plants as the world's second largest auto empire faced complete paralysis. Shown here are pickets preventing car from entering plant.

An Open Letter To Residents Of Donley County

The Donley County Adair Hospital has been open for two months now as a county operated hospital. You the taxpayers and voters of Donley county, voted for the hospital to be operated by the county. This doesn't mean that the hospital offers free service. The ideal situation is for the hospital to pay all its own expenses each month and break even.

The first month was a good month, but the last month, patients in the hospital have dropped to an alarming extent. If the hospital doesn't break even, or goes in the red, it is you the taxpayer who pays the bill.

The charges at the hospital are fair and reasonable. Patients who have been discharged from the hospital are very well satisfied with the care and treatment given them. It is cheaper and more convenient to use our local hospital.

What we would like for you to realize is that the hospital belongs to you through your commissioners court and the appointed hospital board. We all want the hospital to be a success, that is, we do not necessarily want to make money, but for what money (your money) is spent, we want to be able to realize the greatest possible benefit.

The county has the obligation to keep the hospital staffed at the fixed cost of approximately \$1,500 per month. Are we going to spend \$1,500 per month to care for 2 or 3 patients?

What the hospital staff and employees, the hospital board, and the commissioners court want is for you as citizens to get behind the hospital and help us to make it work. The hospital is yours. If you have any constructive criticism to offer, we want it and need it.

Week End Rains Net Two Inches Moisture

Welcome moisture fell last Thursday in the amount of .48 inch and then had a repeat performance on Friday in a more violent form. The fall Friday netted an additional .51 inch but was not very beneficial as far as the moisture was concerned. In fact considerable damage was reported over the county as the flash rain broke terraces and played havoc in general. The majority of the half inch rain fell in just a few minutes. Damage to tall wheat was reported meager but freshly planted row crops had to be replanted in many instances.

The moisture continued falling intermittently throughout the day Saturday and netted 1.01 inches of rainfall to bring the grand total for the three days to an even two inches.

TWO SAWS ARE LOOT IN LUMBER YARD BURGLARY

Sheriff Guy Wright reported that he had two good clues but they were almost like looking for a needle in a hay stack in connection with the break-in burglary of the Foxworth-Galbraith Lumber Co. Monday night. He found some good tire tracks and shoe marks that may lead to the arrest of the guilty party.

Only two hand saws have been missed to date and it is believed that the burglar was frightened away before he got his hands on anything else, the sheriff added.

"Whistle Stop" Order Now In Effect

The Fort Worth & Denver City Railroad received a go-ahead signal from the Railroad Commission Monday for the Texas Zephyr to make only "Whistle Stops" at Clarendon and the order went into effect Wednesday night of this week. The commission action cancelled an April 30 order which stopped the railroad from starting the schedule May 1. W. J. Murray, chairman of the Railroad Commission, and commissioner E. O. Thompson voted in favor of the new schedule. Commissioner Olin Culberson dissented.

Electra has passed a city ordinance which, among other rules, requires all passenger trains passing through Electra to stop so that train sanitary facilities may be inspected.

The Zephyr will stop at Electra Friday because an Electra citizen will be on board. Mayor T. Leo Moore has announced that a band will be out to greet the train and that ladies of the city will serve coffee and doughnuts to passengers during the stop. Word was received this morning that Chilli-cothe has followed by passing the same ordinances that Electra had. Mayor Joe Jones stated yesterday that Mayor Moore was sending a copy of the ordinances to Clarendon for consideration here.

Mrs. Mattie Manning of Amarillo, her daughter, Mr. and Mrs. Russell Caulkins of Ft. Worth and Mr. and Mrs. Carl Glenn and baby of Cleburn visited Mrs. Manning's sister and family Sunday, Mr. and Mrs. J. C. Estlack.

FUTURE HOMEMAKERS ATTEND CONVENTION

Thursday, the sixth of May, when Miss Loyd Richerson arrived in Dallas with her group of girls, there was a Recreation Program in the Crystal Ballroom, Baker Hotel. During this program everyone became acquainted. The group learned many new square dance steps.

Friday morning the 3,800 delegates from all over the state met at the State Fair auditorium. The opening ceremony was very colorful. During the all day affair many interesting speeches were given. The president, Ruth Henderler, gave a speech on "Good Will in the Home." This was followed by a Scottish Dance by the members of the Colorado Chapter, Senor Roberto de la Rosa, the cultural agent for the Mexican government, Mexico City, spoke on "International Good Will." Four other speeches were given later in the day. Very beautiful was the formal banquet in the Crystal Ballroom. Honorary memberships were presented at this time.

Saturday morning the House of Delegates met in the Crystal Ballroom. The most outstanding thing was a story of her F.H.A. life by Ruth Henderler, the state president, and the installation of the new state officers. It made a person realize the importance of the F.H.A. and of all the good that is done in this organization. A few minor amendments were made in the Constitution.

On Friday evening May 20th at 8 p. m. in the gymnasium, the Senior High School Seniors have their graduation exercises. They also, have an excellent speaker for this occasion, Rev. Leon Hill of Amarillo.

Drilling Started On Jack Roach No. 1

Very little information could be learned this week in regard to the Humble Oil & Refining Co. Jack Roach No. 1 other than that the surface casing had been set and actual drilling had started. As near as we can learn the well is termed as a tight hole and very meager and delayed information will be given out. According to the type of rig, which has been reported as the largest to be set up in Donley county, it will be a deep test.

The well location is three miles west and 1 mile north of the Country Club.

"Quads - They're Wonderful"

NEW YORK, N. Y.—These were the words of Mrs. Esther Collins, 28, when she got her first look at the quadruplets—two boys and two girls born to her at Lenanon Hospital, The Bronx. The circular apertures in the incubator are plastic-sleeved openings for the insertion of ministering hands. The quads father, Charles, 29, is a brokerage clerk. The Collins already have one son and have been assured of a new home to replace their present three-room apartment.

RATTAN-MORELAND MARRIAGE VOWS EXCHANGED

By Ethel Harvey

First Baptist Church was the scene of the informal wedding recently in which Bernese Rattan, daughter of Mr. and Mrs. M. L. Rattan, became the bride of J. T. Moreland, son of Mr. and Mrs. Ernest Moreland of Lakeview.

Rev. L. A. Sartain, pastor, read the double ring service. An arch of fern and yellow roses flanked by white and yellow tapers in candelabra and baskets of bridal wreath formed the background for the exchange of vows.

Preceding the ceremony Mrs. Beryl D. Clinton played traditional wedding music on the organ. Mrs. L. A. Sartain sang, "I Love You Truly."

Charlotte Jones, cousin of the bride, and Loyd Risley, Jr., lighted the candles. Johnny Rattan, brother of the bride carried the rings in a white lily.

Mrs. Carl M. Bennett, twin sister of the bride, was matron-of-honor. She wore a street-length dress of yellow silk chambray, with white accessories and a bandeau of white daisies. Her corsage was white carnations.

Carl M. Bennett was best man. Beaty Hillman and Jimmie Bullock served as ushers.

The bride chose for her wedding an afternoon dress of white sharkskin, with white accessories. She wore a half-hat of gardenias and her corsage was gardenias. She carried a white Bible and white lace handkerchief.

The bride's mother wore a gray suit with gray and black accessories. The bridegroom's mother wore a pink crepe dress with black accessories. Both wore corsages of white carnations.

Following the ceremony a reception honoring the bridal party was held in the church parlors.

The serving table which was covered with a white lace cloth was decorated with the three-tiered wedding cake topped with a miniature bride and groom.

Mrs. Carl M. Bennett served the wedding cake. Mrs. Joe Goldston, Mrs. A. O. Hefner and Mrs. Sam Darden served the punch. Margaret Ann Robertson, cousin of the bride, registered the guests.

Mrs. Moreland was graduated from Clarendon High School in 1947, and graduated from Clarendon Junior College with the class of '49. He is employed at the Rexall Drug Store.

Mr. Moreland was graduated from Lakeview High School in 1945. He served two years with the Navy and has attended Clarendon Junior College the past two years and graduated with the Class of '49. He is employed with the Noblitt Sales Company.

The couple are at home at the Whitlock Apartments.

The wedding party was feted at a rehearsal dinner at the home of Mr. and Mrs. Carl M. Bennett. The table was decorated with spring flowers and the brides chosen colors of yellow and white. The party included the bride-elect and the groom, and Misses Reba Wade, Nettie Jon Heathington, Mr. and Mrs. Fred Martin, Mr. and Mrs. Tommy Saye, Jimmie Bullock, Beaty Hillman and the host and hostess.

WEST—ROLF

Miss Wanda Nell West, daughter of Mr. and Mrs. Horace Harrison West, was married to Jack Sloan Rolf, son of Mr. and Mrs. J. M. Rolf of Little Rock, Ark., April 15 at St. Luke's Methodist Church at Dallas.

Maurice Risley of Clarendon attended the wedding. Jack was formerly a Clarendon boy and was attending S.M.U. at the time of his marriage.

BRIDE-ELECT HONORED WITH TEA-SHOWER

Saturday afternoon, April 30, Miss Bernese Rattan, bride-elect of J. T. Moreland, was given a tea-shower at the home of Mrs. Joe Goldston. Miss Patsy Blair presided at the guest book. Miss Jane Johnson served punch to the thirty guests. Yellow and white, Miss Rattan's chosen colors, were carried out in the refreshments.

The tea table was covered with a sheer organdy cloth and was graced with a miniature bride. Yellow and white tapers burned in crystal candelabra and tiny yellow roses with bridal wreath completed the decorations. A gorgeous arrangement of tulips graced the buffet. Guest favors were miniature sugar umbrellas. Assisting in the dining room were Mrs. Bill Bromley, Mrs. A. O. Hefner and Mrs. Jolly Johnson. Mrs. Carl Bennett, Jr. and Mrs. Frank Blair presided in the gift room. Receiving the guests were Mrs. Goldston, Miss Rattan, Mrs. Merle Rattan and Mrs. Moreland.

City Ordinance

Be it ordained by the City Commission of the City of Clarendon, Donley County, Texas: Upon and after the passage of this ordinance, it shall be unlawful for any person, firm or corporation, either acting for themselves or by agent or representation, to remove any clean out plug and/or mud cap of the sewer system of the City of Clarendon, Donley County, Texas. EXCEPT licensed plumbers under direct authorization of the City Commission of the City of Clarendon, Donley County, Texas.

Hedley Man Takes New Job In Egypt

James R. Grimsley left Kansas City on May 2nd, on a Trans-World Airline "Constellation", for a flight to Cairo, Egypt. He left La Guardia Field, New York, that same day at 10 p. m., and was to arrive in Cairo on Thursday, May 5th.

He is a construction superintendent for the Marley Company, Inc., of Kansas City, Kan., and will go on to Suez, Egypt, where he will supervise installation of three cooling towers on a construction project for a Chemical Company. He will be about six months on his present assignment.

Robert, as he is known here, is the son of W. E. Grimsley, and was born and raised near Hedley. He attended Hedley High School, where he was graduated with high honors in 1941, winning a medal in math, and some scholarships which he did not use, in spite of having to be out of school several weeks to help harvest crops; school did not let out then as we do now, for crop gathering.

He started work at Berger in June of that same year, on a job with a Marley Company crew, as an apprentice carpenter, at the age of 18. He went on with the crew to other jobs, traveling over a wide territory, till he was called into Army service, where he served 28 months. CITY-COUNTY LIBRARY NOTES

By May L. Prewitt
 Only a few new books arrived this week—among them is Walt Disney's "Peter and the Wolf" for the young readers. We have several of this series.

There has been numerous calls for Audie Murphy's "To Hell and Back", and while I know it is being published as a serial in the Amarillo paper, it has been purchased and ready for your reading. A Library friend made it convenient for us to purchase this book. It is a first hand story, vivid and realistic—written to remind a forgetful public of a lot of boys who never made it home.

In the last issue of The New York Times Book Review, Harvey Breit relates a part of his interview with Faith Baldwin. Since so many of the Library patrons enjoy her writings it is likely they will be interested to know that her first novel was published in 1921. She has written about sixty novels and this gives her a batting average of slightly more than two a year. She estimates some ten million copies of her books have been printed and reprinted. "Popular, or mass appeal—fiction reflects contemporary life just as prestige fiction does." She also states that "writing for a mass audience gives a lot of pleasure, and enormous contact with people thru letters and otherwise." Her sincerity promotes popularity, and everybody is concerned with death, love, disaster, marriage relations and "will I-won't I" themes. Her new book is "Golden Shoe String" which we hope to purchase in June.

While as in all small Libraries, our reading material is limited, but we shall be happy to have the boys and girls make the Library their reading headquarters this vacation.

COTTON AND WHEAT RECORDS: We have completed calling in all the Communities in the county to fix up their past records on the crops that they have been planting since 1945. There are a few "stragglers" in each Community that have not yet been to the office to do this. We would like to ask you once more to make an effort to come to the office as soon as it is possible and let us help you complete these records. We cannot do this without your help, and it will be to your disadvantage if you don't come to the office and turn in this report. Last Friday and Saturday we had Mr. T. L. Speir and Mr. Melvin Rampy here to help the producers from Community "C". This week we had Mr. Enos Glass and Mr. Otis Owens from Community "G", and Mr. Carroll Lewis, Mr. Gerald Noble, and Mr. Oscar Anderson from Community "E". The only remaining job to get done is getting these fellows that have not yet come to the office to get their reports in.

STRIP CROPPING: This is to notify all producers who are interested in Strip Cropping to come to the office and get your approval before you begin your work. The payment for this practice is 50c per acre and we are now issuing approvals for this.

GRAIN DELIVERY: The following producers have delivered their grain to the Kimbell Milling Co. Elevator at Hedley, Texas; W. K. Hardin, Harold Phelps, J. E. Mahaffey, H. C. Shaw, H. C. Shaw, Jr., and M. G. Cottingham. The grain delivered was No. 2 Yellow Milo, Purchase Agree-

ment Grain and was reported in excellent condition.

TRIP TO WACO: Mildred M. Ritter, Administrative Officer and Roy C. Jewell, Chairman of County Committee went to Waco last week to hear Secretary of Agriculture Charles F. Brannon, speak on the Agriculture Program for the future years as he has presented it to Congress. They reported a very good speech and a successful trip with many interesting sights along the way, especially the Bluebonnets. Mrs. Ritter flew from Waco to Vernon on the return trip reporting that the fields and countryside presented a very pretty picture to observe from the sky.

It seems that our Windy Valley project has already been put to good use. Fellows from down that way report that since the recent rains the ditch has a lot of water in it and it is doing a good job of draining off excess water from the surrounding cropland.

You are always welcome to come to see us at any time.

Keep Your Yard Looking Its Best

COLLEGE STATION—It takes mowing, watering and fertilizing to keep a yard looking its best.

That's the word from Sadie Hatfield, extension landscape gardening specialist of Texas A & M College. Regular mowing with a sharp, properly adjusted mower keeps your lawn looking neat and helps the grass grow and spread.

How high the grass is mowed depends on what grass you have. Bermuda, St. Augustine or centipede grass can be mowed closely if the yard is well fertilized. The fescues and bluegrass should be mowed at one and a half inches or higher, Miss Hatfield says.

Now about watering the lawn.

If you have the water supply to do this during the hot, dry weather, it's best to soak the ground thoroughly now and then—just soak long enough to keep the plants alive.

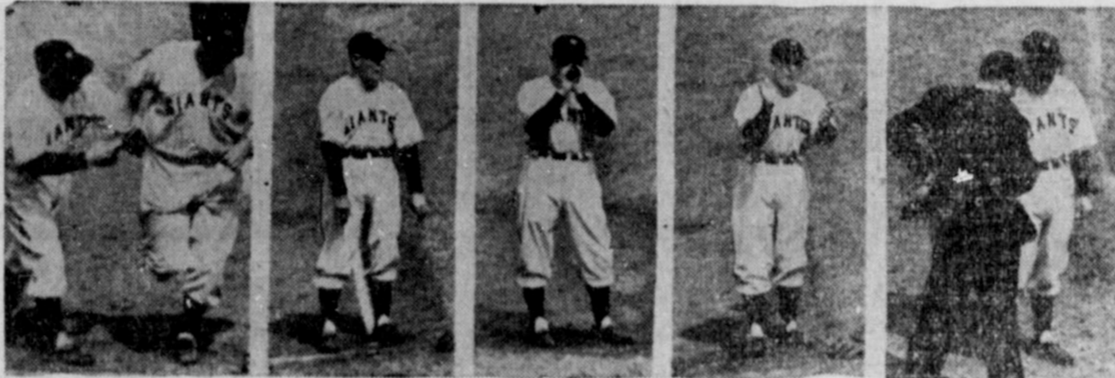

Here's a point to remember, too. Light sprinkling every day just to cool things off encourages shallow root system and helps crabgrass more than it does the better lawn grasses.

Further information on lawn grasses and fertilizing the yard can be obtained from the local county agent.

Nice green lush lawns in the summertime means taking care of your yard the year round, Miss Hatfield concludes.

Lippy Leo Durocher Back In Uniform

NEW YORK, N. Y.—Manager Leo Durocher was back in Giant uniform, after his five-day suspension, and things looked pretty rosy. Cleared of charges of striking a baseball fan he got a rousing welcome from the crowd at the Polo Grounds, and then the Giants trounced the Pittsburgh Pirates, 11-4, (May 4). These photos show him on the job. From left: He congratulates first baseman Johnny Mize on his fifth-inning homer; wig-wags signals and encouragement from his third-base coaching position and converses politely with umpire Frank Dascoli.

PLENTY OF CHICKEN IN THE FREEZER

COLLEGE STATION—We all want plenty of chicken on the table every season of the year, and the foods specialists for the Extension Service of Texas A&M College tell us that putting them in the freezer is a good way to insure this.

"Chicken in the Freezer" is the name of a leaflet from the U. S. Department of Agriculture, which gives directions for freezing stewing hens as well as the younger birds. If you want a copy of this leaflet, then write to the U. S. Department of Agriculture, Washington, D. C. and give the number AIS-74.

The leaflet gives directions for handling broilers, bakers and stewers in both the home freezing unit and the commercial locker plant.

Rail Shipments Of Fruits & Vegetables

AUSTIN—Despite substantial increases in parsley, spinach, and beets, rail shipments of fruits and vegetables in Texas fell 30 per cent from February to March, the University of Texas Bureau of Business Research reported.

Totaling 3,254 carloads in March 1949, fruit and vegetable shipments fell 72 per cent during the 12-month period.

Movement of oranges, down 95 per cent, lettuce, down 90 per cent, grapefruit, down 87 per cent, and cabbage, down 81 per cent, showed the biggest decreases from February to March.

Parsley and spinach, rising 12 and 6 per cent, respectively, were the only items to show an increase in rail shipments from March 1948.

Oranges, which in March fell 99 per cent behind a year earlier, headed the list of greatest declines of rail shipments.

From where I sit... by Joe Marsh

How Would You Say It?

Curley Lawson's cousin from back East and a few of us got talking when he was here visiting, and I couldn't help noticing how different he said things.

For instance, he said, "Lifting that 200-pound bag of cement almost killed me." "You mean sack of cement?" asks Curley. (That's the way we'd say it.) "No," interrupts young Elliott who'd spent a lot of time down South, "He means a 'poke of see-ment.'"

It was good for a chuckle, anyway. Bag, sack or poke—we knew

what he was trying to say. It just depends on where you are in the U. S., which way sounds right.

From where I sit, whenever we criticize someone for sounding funny to us, we ought to think how we sound to them. It's the same as choosing your liquid refreshment. I'm accustomed to a moderate glass of beer—you may like ginger ale—but who's to say the other's wrong? I'd say we're both right!

Rural Road Program Calls For Survey Of Each County's Needs

AUSTIN—Success or failure of the \$30,000,000 rural road program voted by the legislature depends to a degree on county commissioners. Representative Preston E. Smith of Lubbock said today.

It is the commissioners' responsibility to survey their own area and determine where each county's allocation should be spent for farm-to-market roads, Smith pointed out.

He added that when their study was completed, the commissioners should present their findings to the district highway engineer so that he can make recommendations to the state highway department.

"The quicker this work is done,

the better," Smith said. "We all know that the funds are going to run out before all the meritorious roads are built. The counties who first present their facts will be the ones to get the roads."

Farm-to-market roads will be placed on the basis of merit with respect to population and vehicle miles travelled, Smith said he had been informed by highway department authorities.

It has been estimated that 25,000 miles of farm-to-market roads will be completed under the program, Smith said, "and when you divide that by the number of counties in Texas, it's not much mileage for each county."

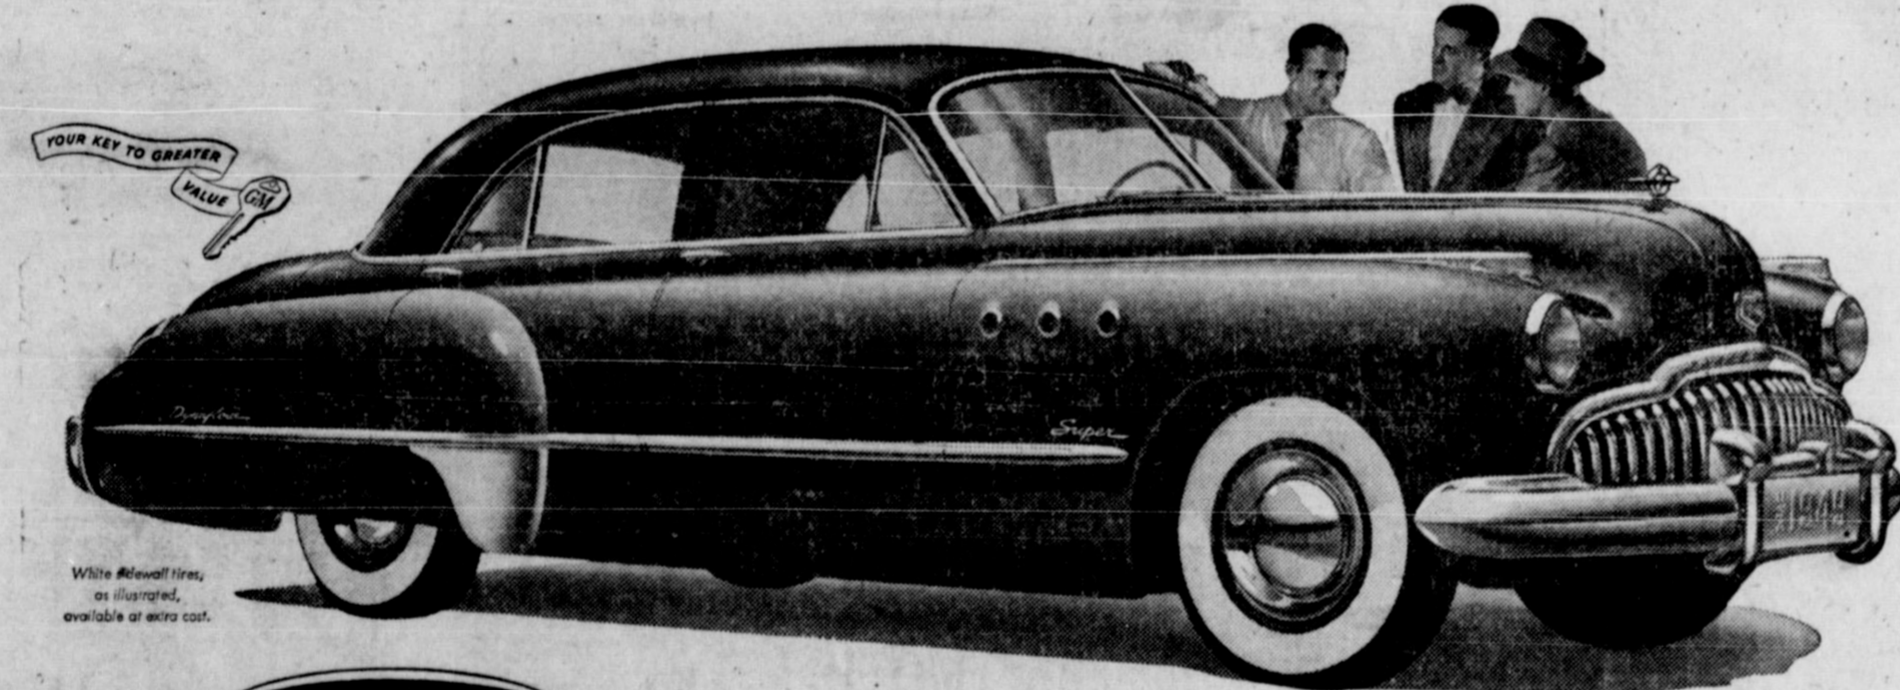

The Lubbock representative called on county commissioners to carry out their part of the program—including the provision of right-of-way—to insure efficient and economical use of the money provided by the legislature.

"I have always been interested in the rural road program," Smith declared, "and I have worked for it ever since I have been in the legislature."

He said that while the appropriation of \$30,000,000 for farm roads—the first of its kind—was inadequate to complete the desired rural network, "at least it is a start, and perhaps in the future more funds can be provided for this purpose."

Smith called for conscientious work on the part of all concerned in getting rural road construction under way.

"If we can make a good start in Texas," he argued, "and if we can show that the money is being spent to the best advantage in providing roads for those who need them most, then I am confident that there will be no great difficulty in continuing the program and in expanding it from year to year."

OLD PATHS
By **DOYLE WILLIAMS**
Minister
Church of Christ

Is a man or preacher narrow or deluded when he only contends; for the unity of all Christians in the language of the Lord? Is he deluded when he earnestly pleads for men and women to receive Jesus's teaching into their heart, as final authority? Is he doing wrong when he is pleading for you to implicitly obey each and every command of the Lord; with no more emphasis on the one than the other?

The authority of men should be set aside and destroyed, and the authority of Jesus restored to the people. The philosophies, speculations of designing men must be set aside, and the clear, intelligible, and glorious teaching of Christ and his Apostles restored to men. There must be a clear issue made between Christ and all human leaders, between his teaching and all human teaching, between his kingdom and all other kingdoms.

The serious intentions, and religious questions, of earnest men and women should be answered;

GENGHIS KHAN
CONQUEROR OF ALL ASIA AND EUROPE IN THE 13TH CENTURY, ONCE ANNIHILATED THE ENTIRE PERSIAN EMPIRE SIMPLY BECAUSE ITS RULERS **WORE THEIR MUSTACHES CURLED UPWARDS!**

not with the sophistry of bias minded preachers and teachers, but with the word of God. When this is done there will be only one, answer to any one question that pertains to life and Godliness. But until this is done you will find men and women groping in darkness; blind leading the blind, all falling into the ditch of confusion.

This situation can be brought

about by a determination on every individual's part, to lay aside every thing that you have ever been taught in matters of religion, and investigate the Bible for your self. Forget that you have ever heard a preacher preach; think for your self, ask your own questions, answer them with the word of God, and not with what you would like to hear, or what you would rather hear, neither the thing that would be more pleasing than something else, but let God answer it for you from his will; the Bible.

Another thing that will help in this matter is; stop allowing teachers and preachers to tell you that God's holy Bible can not be understood, and that it was only meant for the educated few. Surely the Lord would be unkind and unjust, to give me directions from earth to glory, and make it so obscure and difficult; that I could not understand, then send me to hell for not knowing the way. (Adv.)

Health Notes

AUSTIN—Almost four thousand Texas children from more than 225 counties have received beneficial services and aid to happy, normal living under the Crippled Children's Division administered by the State Health Department, during the calendar year 1948. This information is shown by the annual report issued by Dr. Geo. W. Cox, State Health Officer.

According to Dr. Cox, the most commonly treated conditions are late effects of acute poliomyelitis, cerebral palsy, osteomyelitis, tuberculosis of joints, cleft palate, harelip, and clubfeet. Although the services are provided for children from birth to 21 years, the largest group treated were from the age bracket of 5 to 14 years.

The help given these crippled children represents 3,747 clinic visits, 43,433 days of hospital care, 2,897 days of convalescent home care, and 4,986 doctor's visits.

"As long as sufficient State funds are available, any crippled Texas child of normal mentality, under twenty-one years of age, whose parents or guardians are unable to pay for proper care, is entitled to the help of the Crippled Children's Division," Dr. Cox said, "if his doctor believes that it is reasonable to expect that the child can be improved through hospitalization, medical or surgical care, artificial appliances, or through a combination of these services."

Parents of crippled children should make application for this assistance by completing application forms, which should be signed by the physician and approved by the County Judge. The application is then mailed to the Crippled Children's Division, Texas State Department of Health, Austin, Texas.

But now some of the men claim that I started something now, their wives are going to want them to stay around on "Club Day." SIGNS OF THE TIMES

Some things I remember about the program at the Press association meeting: Listening to the Amarillo A Cappella Choir makes your ears tingle to the very tips. It is unbelievable.

"If we don't have free press we won't have hardly anything" - Mayor Hagy. "I came to Texas with \$4.00 and T.B., now I don't

have either one" - Frank Jamison.

Mr. Jamison also said that he was glad to be back in Texas where people believed in Hell, Calomel, and the Democratic Party.

"Bless their little soil sodden souls" - Miss Phyllis Radovich, of the Hereford Brand in referring to farmers.

"A pessimist is a man that has loaned money to an optimist" - Ray Nichols of the Vernon Times.

Mr. Nichols also made the statement that: "I am a Methodist by choice; my parents made it. I am also a Democrat for the same reason" - - -

Ain't that just about the truth about all of us; we do a lot of boasting about the outstanding advantages of our denomination and our party, and in most cases we belong to the thing because our parents belonged.

Uncle Fudge says: "The reason I never did get married was because I was afraid that I couldn't support the government and a wife at the same time."

Read this somewhere: "The tongue is a little thing, but it fills the universe with trouble."

"It is safer to flee from temptation than to fight it" - Guthrie.

Cancer Control Work In Texas May Be Sharply Curtailed

DALLAS—Cancer control work in Texas during 1949-50 may be sharply curtailed and cancer education, service, and research in the state seriously retarded unless more Texans are given an opportunity to contribute to the 1949 drive for funds of the Texas Division, American Cancer Society.

This statement was made today by Karl Hoblitzelle, of Dallas, state campaign chairman for the American Cancer Society, when announcing the extension of the Society's April membership drive into May.

"We are still far short of our \$450,000 goal," Hoblitzelle said.

"and, unless our campaign workers are allowed more time to seek contributions, cancer control work in Texas will be sharply curtailed.

"Our carefully-budgeted program indicates that \$450,000 is the minimum needed to advance the Texas fight against the nation's No. 2 killer, which this year probably will claim the lives of more than 7,000 Texans."

"Our cancer fight calls for funds to support research, professional education for doctors and nurses, information centers, and many other phases of cancer control, and funds are sorely needed to continue the work," the state campaign chairman said. "For this reason I am asking all

of our workers to continue their campaigns."

Hoblitzelle urged all Texans who have not yet contributed to do so by sending their donations to: "Cancer, Care of Postmaster, in their own city or town", or by sending them to their own county unit.
