JUNIOR CLASS TO PRESENT THREE ACT COMEDY FEBRUARY 21-22nd

Members of the Junior Class of Clarendon High School will present a three-act comedy, "The Funny Brats," in the high school auditorium, Monday and Tuesday nights, February 21 and 22, at 7:30 p. m.

NOTICE

For a great number of years the City of Clarendon has had an ordinance specifying that all bills for the payment of water must be paid on or before the 10th day of the month following the billing.

Meeting Called To Discuss Proposed Underground Water Conservation Dist.

County agent H. M. Breedlove announced this morning that a meeting of all farmers interested in irrigation or now irrigating and all real property owners are urged to attend a meeting in the court house in Clarendon on Monday night, February 21 at 7:30. The purpose of the meeting is to discuss the proposed underground water conservation district that is being formed by the state water board of engineers.

Colts Win 13th Straight Game

The Jr. High Colts racked up their 13th consecutive win at Lefors last Thursday night by defeating the Bandits 31-30. The Colts held their own pretty well until the last quarter when they had to muster their remaining strength to quell a last minute rally and win the game by one point.

TRAIN FOR WAR . . . Camouflaged Nationalist Chinese infantrymen drill under U. S. instructors in Formosa. Communist China's rejection of truce spurs defense of Formosa and adjacent islands.

FARM NEWS

from the County ASC Committee

PREMEASUREMENT OF COTTON ACREAGE

At the time the farm operator files his written request for the service, he will be advised that he or his representative must be at the farm at the time the premeasurement is made and that it will be his responsibility to have available stakes that may be needed in staking out the areas to be planted to cotton.

1955 COTTON ACREAGE ALLOTMENT RELEASE AND REAPPORTIONED

Any producer who has a cotton allotment and does not plan to plant his allotment may release his allotment and receive history credit for that farm in 1955. The allotment cannot be released to any one producer but will have to be released to the county committee.

COMBINATION AND SUBDIVISION OF FARMS

Any producer wanting a combination or subdivision of his farm or farms must make application far in advance of planting time, because they must be approved by the county and state committee which takes several weeks. The transmittals covering reconstituted farms will be submitted on the basis of 15-day intervals.

Watch For Those Free Movie Passes

Another group of names will be found in this issue of the Leader who are to receive free passes to the Mulkey Theatre. If you find your name listed somewhere in the ads or news columns mentioning the free movie passes, all you have to do is come by the Leader office and pick them up.

Bronchos Lose To Gruver In District Tournament

The Bronchos were squeezed out 57-54 by Gruver in the district tournament at White Deer last Friday night. It was a very close game but the Greyhounds got the ball in the closing minutes and stalled for the remainder of the game. Don Landers and Bob Johnson fouled off for the Bronchos in the third quarter which hurt Clarendon considerably.

Services Held Friday For J. L. Talley

Funeral services were held Friday afternoon at the First Baptist Church for James Littleton Talley with Rev. Ernest Phillips and Rev. Ed Byers officiating. Mr. Talley, 79, died last Wednesday afternoon in the Groom hospital following a lengthy illness. He was a retired farmer and had been a resident of this area since 1922.

College Girls Win Over Lubbock All-Stars

Last Friday night the Clarendon College girls defeated the Lubbock All-Stars by a score of 63-28. The local girls started out slowly, leading at the end of the first quarter by a score of 10-9. At half-time the score was 23-11, and at the end of the third quarter they had increased their lead to 39-16 and went on to win 63-28.

INVITATIONAL BASKETBALL TOURNAMENT FINALS FRIDAY & SAT.

New Type Telephone Bill Will Reach Local 'Phone Subscribers This Month

A different, new type telephone bill will reach telephone subscribers in Clarendon this month, according to H. E. Craig, district manager for General Telephone Company of the Southwest.

The new bill comes through subscriber telephone billing by mechanical equipment, which will eventually be put into operation in all 242 Company exchanges. In describing the bills, Craig stated they are about the weight of a postcard, compared with the paper bills of the past. They are 7 3/4 inches long by 3 3/4 inches high and are not folded as were the former bills. General's new insignia appears on the new bills, which are printed in green.

Fire Damages City Drug

A fire which was believed to have been ignited by faulty wiring, caused considerable damage to the building housing the City Drug about six o'clock Tuesday afternoon. Damage to stock was limited to smoke and some water damage but no estimate had been made of the actual damage Wednesday morning.

The fire broke out about mid-way of the building in the attic and had made considerable headway before it was noticed. A number of customers were in the store at the time the flame broke through a skylight and spread the blaze across the ceiling. All were able to get out without injury and quick work on the part of the volunteer firemen prevented a possible disastrous fire. Using fog nozzles on lines from the fire truck tanks, they had the fire under control within a very few minutes after the alarm was sounded and very little water damage was in evidence.

Bulldogs Lose To Amarillo 72-62

In the last conference game of the season played here Friday night, the College Bulldogs lost to Amarillo 72-62. Amarillo enjoyed a comfortable lead thru most of the game but the Bulldogs were closing the gap fast in the fourth quarter. Fans were quite unhappy with the officiating and were of the opinion that the score would have been much closer if the officiating hadn't been one sided.

Jr. High Girls Win Two Games Last Week

The Jr. High girls played Kellerville Feb. 8th at Kellerville with the final score being 34-32 in favor of the local team. The starting lineup for the game was Ola Putman, Virginia Taylor and Suzanne Sandifer as forwards and Beth Lamberth, Jackie Richy and Maggie Morrow as guards. High point player was Virginia Taylor.

Grand Champion Hampshire Boar

J. R. Gillham, Lelia Lake Vocational Agriculture Instructor displays the grand champion Hampshire boar of the recent Fort Worth Fat Stock Show. The young boar will be used by F.F.A. chapter members and farmers at Lelia Lake in improving their Hampshire swine.

REVERE RIDES AGAIN . . . Gathering funds to rebuild Boston's storm-wrecked Old North Church. San Francisco members of Lantana League gaze at historic church's 214-year-old weather vane.

BLOWIN' Out the CORNERS

Uncle Zeb

Last week when we were asking for someone to send us in the words on some very unusual sign that they had seen someplace, Mrs. F. S. Clark tells us of a sign at a railroad crossing; I believe it was near Channing, reading like this: "The train passes this crossing in 14 seconds whether you are on it or not." Send us the most unusual ad or sign that you recall.

This week we attended the Annual Husband's night sponsored by the Unity Study Club. I don't remember when we ever enjoyed any thing so much. The humor and the downright good thinking of their speaker, the Rev. Dick Cruz of the First Christian Church of Pampa was a real treat. Thank you ladies for promoting such very worthwhile programs in our community. We remember the following little bits of humor that was used in the matter of introductions.

We quote:
"Husbands are all alike, they just look different so that you can tell them apart."
"Hospitality is making folks feel at home when all the time you wish that they were."

There would be fewer arguments if we tried to decide what was right instead of who was

right.
Kindness is said to be a language that the blind can see and the deaf can hear.

Try as I can it is hard for me to up my evaluation of my Brothers-in-law. Just about the time that I let down my guard and decide to be friends and trust the whole lot, one of them will let me down.

Last week for instance I received a decent looking package out of the post office. It was all legally and legibly addressed to Uncle Zeb and had the proper box number and all. It even had the return of the sender which happened to be the one without any appendix, about which he likes to relate the details. All carefully we undone the package, lifted the lid off on our side expecting to be blown up or something with each move.

When we unwrapped it the only thing that blew was our

stack. It was terrible that anyone would play such a prank. Actually, it was and is unprintable. We will never trust them again, or did we even intend to anyway. Just wonder if other folks have this much trouble, with their brother-in-laws.

A good way to stay young; work with young people. A good way to die young; try to stay up with them.

We are throwing hundreds of millions of dollars in lend lease and in propaganda at the rest of the world. Much of the help is lost in the scramble of rotten politics in those countries. The man on the street never knows anything about it. Much of the propaganda is scattered out over radios of which most of the folks never did and never will own one.

Most of the countries of Asia for instance are confused as to whether communism is worse than the countries of France and England which have for so long held them slaves. Then, when they try to place us on either side they become even more confused. There ought to be some way we could reach the masses with something real. What do you think about it?

Some people seem to think clocks were made to enable them to tell just how late they'll be for appointments.

Committee For The White House Conference On Education

Texas would be allotted 67 representatives to the White House Conference on Education this year under the tentative plan announced today by President Eisenhower's Conference Committee.

The State's quota, based on population, was disclosed when the Committee for the White House Conference on Education published its "working plan" for the Nation's first concerted study on educational requirements. The Committee is headed by Neil H. McElroy of Cincinnati, Ohio, president of Procter & Gamble Co.

More than 2,000 persons would take part in the White House Conference November 28 through December 1st under the Committee's tentative plans. Some 70% of these would be selected by officials of the State and Territorial conferences being held this year in conjunction with the White House Conference. Others would be representatives of national organizations taking part in the Conference program, members of Congress, foreign observers, and others named by the Committee. The State and White House Conference program has been characterized by President Eisenhower as potentially the largest study of education ever made. It calls for meetings of lay citizens

and educators in each State and Territory to discuss possible solutions to their educational problems. Funds for defraying costs of State conferences were appropriated by Congress last year in response to the President's request.

Texas' portion of the \$700,000 appropriated for State meetings is \$33,462. Texas has decided not to use Federal funds for the Texas conference, which is being planned for this spring.

More than 90% of the States and Territories eligible for Federal funds have taken some official action toward a statewide conference on school needs, according to Clint Pace, Committee Director. Six State conferences have been held, and dates have been set for twenty-one others. The remaining States have appointed chairmen or planning committees.

To carry out the program of educational conferences, the President appointed a 32-member committee composed of leaders in business, industry, education, labor, agriculture, publishing and other fields.

Announcing its hope for a conference of more than 2,000 persons, the Committee said it would base a report to the President of the "significant and pressing problems" in education on the re-

sults of the White House Conference and two other sources of information. These are: the results of the Committee's studies into six broad areas of education and the conclusions reached at State and Territorial conferences.

The six areas also will be the discussion agenda at the White House Conference. They are:

1. What Should Our Schools Accomplish?
2. In What Ways Can We Organize Our School Systems More Efficiently and Economically?
3. What Are Our School Building Needs?
4. How Can We Get Enough Good Teachers — And Keep Them?
5. How Can We Finance Our Schools — Build and Operate Them?
6. How Can We Obtain a Continuing Public Interest in Education?

From where I sit ... by Joe Marsh

Swiftly Gets Slowed Down

Swiftly Fisher has a short temper and really hit the roof when he got a parking ticket last week. He wasn't near a hydrant or too far from the curb. There was a big sign saying "ONE HOUR PARKING" and he'd only been gone twenty minutes.

Running to Traffic Court, where Hack Miller was on duty, Swiftly hollered how he hadn't done anything wrong...how he is the most law-abiding driver in town.

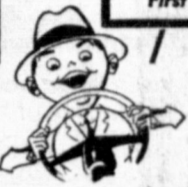

But Hack examined the ticket, and smiled. "Slow down, friend," he said. "You're not guilty—ex-

cept of making a big fuss over nothing. This ticket came from some kid's policeman play outfit!"
From where I sit, jumping to conclusions can make anyone appear silly. Another way to look foolish is to make a quick decision on a question of personal preference. For instance, I like a glass of beer occasionally. You may be a buttermilk man. But neither of us ought to "lay down the law" about the other's choice.

"Fabulous DeSoto Fireflite V-8 Sportsman—longest, lowest, and widest in DeSoto history, barely 5 feet high."

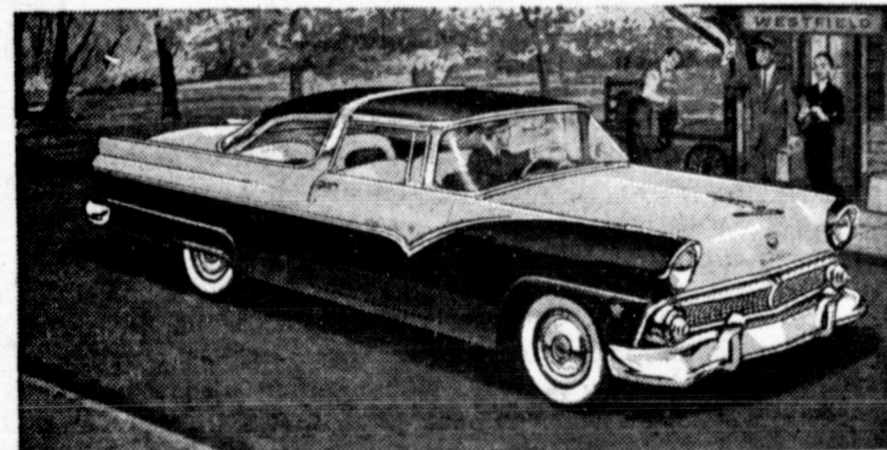

"All new for '55, the fair-fashioned Dodge Royal Lancer offers you instant power through its top-horsepower aircraft type V-8 engine."

See your "dream" car in this line-up?

Here's why it deserves Conoco Super Gasoline with TCP

...the fuel designed for today's hi-compression engines!

"Ford's Fairlane Crown Victoria delivers exciting new Trigger-Torque response from a choice of three new hi-compression engines."

"The completely restyled 1955 Hudson Hornet features a new V-8 engine of advanced design, rated at 208 horsepower."

Regardless of make or year, your car will benefit from Conoco Super Gasoline, the fuel that combines a controlled higher-octane rating with all the power benefits of TCP!

Whether you're the proud owner of one of these 1955 beauties... or are still getting dependable service from your present car... isn't it time you benefited from Conoco Super Gasoline with TCP? Make no mistake about it! Here is no ordinary fuel, but an astonishing new kind of gasoline that sets free every ounce of power packed into today's wonderful high-compression engines... a gasoline that virtually tunes up any engine by the time you've finished your second tankful!

- THE BENEFITS OF TCP PROVED BY OVER 8 MILLION USERS!**
1. TCP boosts your car's power as much as 15% (because it neutralizes power-robbing lead deposits on spark plugs and in combustion chambers).
 2. TCP gives you extra gas mileage (motorists report up to 3 miles more per gallon).
 3. TCP is just like an engine tune-up (because you enjoy all your car's built-in power).
 4. TCP increases spark-plug life up to 150% (because it actually fireproofs your spark plugs).
 5. TCP is your guarantee of Top Car Performance (because it brings out all the extra performance of Conoco Super's controlled higher-octane rating).

Clarendon, Texas

Highlights and Sidelights FROM Your State CAPITOL

By VERN SANFORD
Texas Press Association
AUSTIN — Austin is full of "land-grab" investigations. Attorney General John Ben Shepperd blew the lid off veterans' land sales to start the movement and the lid is still sailing. Both houses of the legislature have their own investigating committees. Also peering into the "land block sale" scandals are grand juries in Travis and De Witt counties. Voting to conduct a full investigation, the House set up a committee composed of Representa-

tives Joe Burkett, Wade F. Spilman, Virginia Duff, Reagan R. Huffman and Jesse Osborn. Burkett is chairman; Spilman vice-chairman. Recalled by the Senate investigating committee, headed by Sen. Dorsey B. Hardeman, was Attorney General Shepperd, for testimony under oath. This at the request of Sen. Jimmy Phillips. Because of Phillips' line of questioning, Rep. Leroy Saul charged that the senator was preparing to run for attorney general and using the investigation for "personal publicity."

Shepperd testified that minutes of the Veterans' Land Board showing him present and voting for individual applications were erroneous. He said that the board didn't pass on the applications—that it was an administrative matter turned over to the chairman—former Land Commissioner Bascom Giles. The same practice is being followed under the new chairman, J. Earl Rudder, Shepperd said. Shepperd also said he didn't use his influence as a board member to get favors for any applicants. He further stated that a 1953 letter from G. Curtis Jackson Jr. Zavala County attorney, complaining of block land deals by C. O. Hagan, was not seen by him until after the investigation started.

Shepperd Files Suits

This testimony came as Shepperd filed the first two of a prospective long list of suits to forfeit block land deals and recover the money paid land operators. G. Curtis Jackson Jr. was a defendant named in one of the

suits. Shepperd testified that Jackson was identified in one of the land deals.

Shepperd's first two suits were against L. V. Ruffin and B. R. Sheffield, both of Brady, and J. Paul Little, G. Curtis Jackson Jr. and H. R. Stallings, of Crystal City. The Brady group was sued for \$336,247; the latter for \$150,000.

Sheffield has been identified as a former business associate of Bascom Giles, who quit as land commissioner and veterans' land board chairman on Jan. 1. Giles refused to testify before the Senate committee on his business relations with Sheffield and other land operators.

Rep. Dolph Briscoe Jr., author of the House investigation measure, also introduced a bill providing 10-year prison terms and \$10,000 fines for using deceit, fraud or duress on veterans, or false or forged documents in land deals.

Insurance Committee Action

Corrective insurance bills have run into a slow-down. Four were heard by a House Committee including one to regulate insurance company securities. All were sent to a sub-committee for two weeks. In the Senate the insurance committee heard two bills. One

would fix a \$375,000 minimum capital and surplus for new legal reserve life companies, all in cash. One requires examinations of legal reserve life agents. Both were attacked as monopolistic for the big companies and were sent to sub-committees.

Labor Bills

Legislative committees moved slowly on a mass of other bills awaiting their action.

Several labor bills were heard. One by Sen. George Parkhouse, dealing with "the Port Arthur situation", won favorable action. It would permit picketing only by employees representing a majority of the workers of a struck firm.

Another bill by Parkhouse would prevent pickets from interfering with common carrier service to a struck plant; and would fine or jail common carrier employees for refusing to cross a picket line.

Water Committees Busy

Two committees studied water legislation.

Rep. Harold Parish's constitutional amendment for a \$200 million bond issue and a 1-cent property tax, was reviewed by the constitutional amendments committee, and held over for action.

Donley County Leader, \$2.50 year

State Highway Dept. Spends \$75,249.48 On Donley Highways

AUSTIN — A check on State Highway Department records has revealed that \$75,249.48 was spent by the department on Donley County highways during the fiscal year 1954, Senator Andy Rogers, 30th District, of Childress, announced this week.

This was part of the whopping \$3,531,666.01 allocated and spent in the 15 counties of District 30 during the period, he said. Of the amount spent in Donley County, \$5,833.21 was for construction of new highway and \$69,416.27 for maintenance of existing road.

"And the benefit we get from this money in the 30th District is increased by the fact that ours is

a rural area and the money goes for actual highway construction rather than for fancy and expensive traffic-routing devices," Sen. Rogers said. "While the effect of these tremendous expenditures is good and much needed, it is plain that highway appropriations for the state must be ever larger if Texas is to keep pace with other progressive states in the building and maintenance of good road systems."

The immediate future needs of Donley County are taken into account in the \$688,697.19 worth of contracts signed for jobs that are now underway, and the \$218,200 planned for near-future construction.

Free passes to the Mulkey Theatre are at the Leader office for Mr. and Mrs. Charlie Murff.

Not a shift, but a switch of the pitch

And man! What that does for Dynaflow!

This is for sure ... There's never been anything in your car-driving experience like the feel of Buick's new Variable Pitch Dynaflow*—because there's never been anything like it in a car before.

In a modern plane, yes. For this is the principle of variable pitch propellers used on airplanes. Their propeller blades change "pitch" for quick take-off—then change to another "pitch" for better gas mileage in cruising aloft.

Now you can do the same thing on the ground—in a 1955 Buick.

Twenty propeller blades have been ingeniously engineered into the Dynaflow unit. They pivot—one way for a big boost in gas mileage while cruising—another way for brilliant new performance.

You switch the pitch for instantaneous

HOTTEST BUICK IN HISTORY
No wonder you see so many 1955 Buicks on the highways—they're rolling up bigger sales than ever before in history—topping the popularity that has already made Buick one of the "Big Three" in total sales.

acceleration just by pressing the pedal way down. Then it happens ...

A build-up of momentum as smooth as oil—and as quick as a split second. Dazzling new response on getaway—or a spectacular burst of instant safety-surge power when you need it out on a highway.

It's pure thrill—and a happy surprise in its far better gas mileage in cruising. Yet Variable Pitch Dynaflow costs not a penny more than earlier versions of this wonder drive.

How about you trying it?

That way you can also look into the sizzling new horsepower, the fresh new styling, the envied ever-level ride, the eye-opening low prices—all of which are making the 1955 Buick the hottest seller in all history. Come in this week, won't you?

*Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.

TO THE PEOPLE OF THE 18TH DISTRICT
By Congressman Walter Rogers

THE FAR EAST

On February 2, 1955, I inserted in the Congressional Record an article authored by Dr. Diosdado M. Yap, editor and publisher of "Bataan Magazine". Dr. Yap has long been an outstanding foe of communism and a great champion of democracy. He covered the SEATO Conference in Manila

last September and then toured Southeast Asia for a period of approximately two months. He is a native of the Philippine Islands. He is a recognized and well-known authority of Far Eastern affairs. I have discussed this matter many times with Dr. Yap personally, and have been deeply impressed with his profound understanding of the peoples in that section of the world. His recent article contains several paragraphs that I think would be of interest to you. He says:

"In talking with hundreds of people on my recent trip, I find that among the masses in the Far East, with the exception of the Philippines, the people know nothing of these vast sums (six billion dollars in economic and technical assistance since 1945) which have been contributed by this country to help them. The benefits have been used to attempt to build political power, to stabilize existing governments, or carry on a propaganda war among people who can neither read nor write and who do not have enough to eat, let alone radios to hear American broadcasts against the evils of communism. In all my travels in about 27 countries, the only story I saw in any newspaper about America, was a short paragraph in a paper in Pakistan concerning the divorce of Marilyn Monroe and Joe DiMaggio. By such standards are Americans judged in the Far East."

Speaking of the thinking of these people, Dr. Yap says:

"The attitude of the great majority of the people of southeast Asia is best illustrated by a conversation I had with a laborer in Singapore. 'The people just want peace,' he declared. 'We are tired, we do not want to fight anyone anymore. We just want a chance to make a better living.'"

"Freedom to the common man in Asia means a small piece of land to call his own upon which he can raise enough to feed himself and his family and which will afford them shelter and give them the opportunity to clothe themselves."

And he quotes a Saigon taxi driver: "Yes, we have heard of America. They have given much money, but what is their purpose? They are in cahoots with the British and the French and will help these countries in their colonial policies, which means slavery for us."

In summing up, Dr. Yap says: "The minds of the people of Asia are yearning, not so much for knowledge of how bad communism is, as for assurance of how good democracy can be to their daily lives. Asia has been denied freedom for so long a time it has forgotten what freedom can mean in terms of a prosperous economy, progressive community life, and a richer meaning of human existence. These things cannot be brought home to the people of Asia merely through the propagation of the manual of arms or the usual vituperation against the Krem-

lin or Peiping governments." I apologize for devoting most of the newsletter to this subject, but it is of number one importance at this time. We are truly engaged in a battle for the minds of men. We can win it, and we must.

TEXAS WINS AGAIN
You have heard of George Washington being the father of this country. But, did you know that the Panhandle of Texas has some residents who are direct descendants of Colonel Joshua Fry, who was Washington's senior in command of Virginia forces in 1754? In other words, our Panhandle citizens' ancestor was the commander of the father of this country. Of course, some people will say this is a little far-fetched, and it probably is, but I say it just takes a little figuring to prove that you can't beat Texas, and especially the Panhandle. I got this information from Tom and Vera Jones, of Canadian, who are visiting in the Capital and have been digging through the Archives. Tom is one of the descendants.

"PLANT TEXAS"
John White, Commissioner Texas Dept. of Agriculture

Texas is like an uncut diamond. Skillful treatment will enhance its natural beauty. Just as a precious stone needs the art of a jeweler to increase its value, so does Texas need the cooperation of its citizens in a program designed to restore much of the vegetation lost in the recent drought.

"Plant Texas" is a slogan that will be heard often in 1955. It isn't just an empty phrase. It is the rallying cry of a movement to restore the fertility of Texas soil and save the land from the hazards of destructive erosion.

In Texas and other states land was once abundant. Man could ravage the land and move on to

more virgin territory. This led to abuses by uneconomic cutting of forests; denuding much other land of vegetation and fertility; reducing water resources and leaving eroded, water scarce, unsightly landscapes.

Man, alone, hasn't been the only culprit, however. Four years of harsh drought have completed the job of land and plant destruction begun by the careless pioneer. Now is the time to start correcting these mistakes of man and nature.

Early this year, the Governor of Texas issued a memorandum proclaiming an official "Plant Texas" movement. The program is sponsored by the Texas Department of Agriculture in cooperation with the Texas Nurserymen's Association.

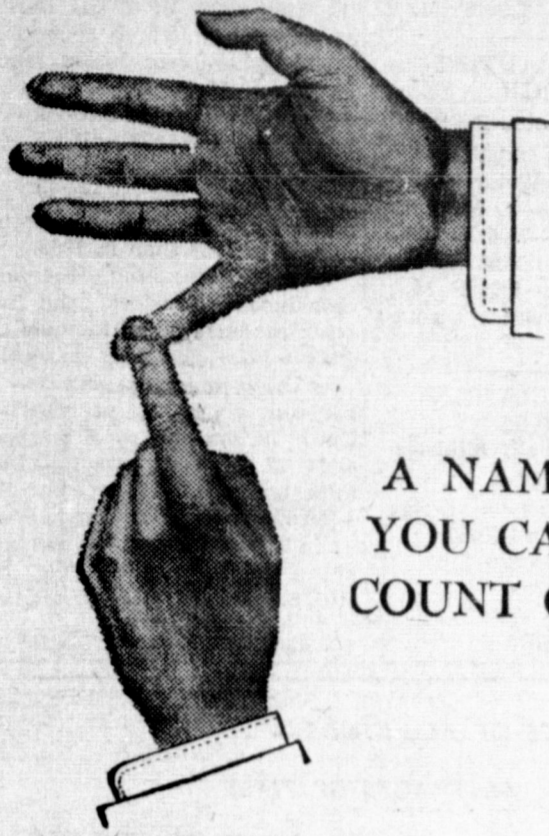

The idea is to encourage better

soil conservation practices and to promote more and better plantings around homes, schools, churches, public and industrial buildings.

This is an opportunity for every homeowner to participate in a project for the betterment of the state and, at the same time, improve his own holdings. Civic clubs, too, are encouraged to push the program on a community-wide basis.

Additional information and suggestions are available from the Texas Department of Agriculture at Austin. So plant that extra tree or shrub! Seed that plot of barren soil! It is an investment in the future productivity of the state.

Texas Farm Cash Income Lowest of Any Year Since 1946

AUSTIN—Texas farm cash income in 1954 totaled \$1,848,000,000—lowest of any year since 1946 and 1 per cent below 1953, the University of Texas Bureau of Business Research reports. The general conclusion reached at the U. S. Department of Agriculture's annual outlook conference is that 1955 will be very much like 1954, the Bureau adds. Most of the commercially important crops produced higher income in 1954 than in 1953. Generally speaking, 1954 farm cash income livestock and livestock products failed to equal the 1953 total. The only exception was sheep and lamb income, 14 per cent above a year earlier. Cattle income was off 5 per cent, eggs, 22 per cent, and milk and milk products, 17 per cent. The 3,920,000 bales of cotton harvested in Texas during 1954 was well above the 10-year average but still below 1953 total production.
