Legion To Handle Free Barbecue for July 4th Event

The local American Legion Post will handle the free barbecue this year in connection with the annual July 4th Celebration. Pat Slavin, Commander of the Legion, speaking for the organization, offered to take over this responsibility as it is such a big job for the Outdoor Entertainment Association to look after everything connected with the three day celebration. It was definitely decided at the community meeting Monday night to go ahead with the building of additional bleachers, box seats, etc.

At a meeting of the Legion Tuesday night, Slavin appointed the following chairmen to handle the various duties connected with the free barbecue: Pete Kunz to obtain beef; J. B. Melton to set up tables; W. W. Sandifer in charge of cooking beans and fruit; H. M. (Flip) Breedlove in charge of the barbecuing; Pat Slavin to get wood; Pete Kunz to get money for trimmings; Harlie Gordon to obtain crocks for fruit; Ernest Kent on hauling detail; Breedlove and Sandifer in charge of menu, plates, etc.; Curtis Mears in charge of bread and other trimmings.

If you want to see and enjoy a good baseball game, be out at Duster Park Sunday afternoon for the opening pitch.

Joel Bruce Greene Struck By Car, In Critical Condition

Joel Bruce Greene, 3-year-old son of Mr. and Mrs. Wm. S. Greene, was critically injured when he was struck by a car near Leslie about 5:30 Sunday afternoon.

His condition was described as very critical at last report Wednesday morning. His injuries included a brain concussion and both legs broken above the knee. He had not regained consciousness at last report.

Little Joel was playing beside the road while his parents were visiting his grandparents, Mr. and Mrs. J. O. Adams, who operate a store in the Leslie community. Two highway patrolmen, Blackie Galloway and Clint Kulp, also were at the store and witnessed the accident along with the child's father and several others. They said he was struck by a car operated by Jeffe Odom of Dimmitt, as he started across the road. He was rushed to a Memphis hospital, then transferred to Northwest Texas hospital in Amarillo.

FIRE NOTICE!

An extensive effort is being made by the local Volunteer Fire Department to acquaint local residents with the greatest problem confronting the firemen when an alarm is sounded. That problem is "Parking and Crowding Around Where a Fire is in Progress."

Local firemen are asking all the curious, thrill seekers and those actually interested, to park their automobiles at least two (2) blocks away from a fire and leave all streets and intersections clear in the fire area. Upon numerous occasions in the past, firemen have been unable to string hose or have been delayed due to the public gathering in too close. In addition to the possible loss of time, you or a fireman may be injured on account of this one thing. Firemen are expected to put out a fire and just as quickly as possible—and with your cooperation they certainly can do a better job.

There are laws governing racing to a fire, parking in a fire area, etc. Local officers will be cooperating to see that the above request is observed. The firemen don't want anyone fined - - all they want is your cooperation so they will have a chance to protect the property of the citizens of Clarendon and do the best job they can.

More Wonderful Moisture

Those long faces are getting shorter and shorter—all the time as appreciable moisture continues to fall over this area. It's the type of rain we like to see, for the most part of a gentle rain soaks right on into the ground and it is the deep down moisture that really counts in this part of the country.

Many farmers would like to get their seed in the ground for a May planting but none are grumbling about the additional moisture and delay.

Willard Knox reported a total of .51 inch for Lelia Lake, from Sunday thru 11:30 Wednesday morning and the rain was still coming down. This gave them a total of 5.81 since the first of May. Ben Lovell reported a total of 1.34 inches since Sunday thru 11:30 Wednesday morning which is the largest total reported in for the same period. We understand some parts of the county received larger amounts earlier in the week but we have no positive reports.

Here in town, Tommy Saye reported .11 on the 12th, .27 on the 16th, .02 the 17th and .18 on the early check Wednesday morning. Since that time an additional .31 has fallen, giving a grand total for the month at 4.37 inches up to 12 noon Wednesday.

The beginning of this drought breaker came on the same date this year as the good rains last year according to our issue of the Leader dated May 13, 1954. At that time we had received 3.47 inches and our report this year in our May 12th issue gave us a total of 3.48 inches.

After spending some time in Amarillo with the Borden Company, Lane stated that he was happy to move back to Clarendon and take over as salesman for this popular bakery line. "I find that Bunny Bread is popular with most everyone in this area and it makes one feel good to be connected with a product that is so well received," Lane added.

Sims PTA Concludes Year's Activities

The Sims PTA concluded the year's activities with meetings the past two weeks. On May 5, the regular monthly meeting was held in the Junior High Auditorium, and the order of business was the installation of the incoming officers. Mrs. John W. Smith of Memphis, District Chairman, acted as installing officer.

In an impressive ceremony, using the oak tree, which is the emblem of the National Congress of Parents and Teachers, Mrs. Smith duly installed each officer. Using the trunk of the tree to represent the duties of the president and the branches the duties and responsibilities of the officers, with the committee chairmen represented by the twigs and each member by leaves, Mrs. Smith told how necessary it is for a healthy, active, growing tree to have all its parts. The local unit sincerely appreciates the efforts of Mrs. Smith in preparing this impressive ceremony and the properties thereof. Long time members reported that it was the most beautiful installation service in the history of the unit.

Following the installation of the new officers, Mrs. T. M. Caldwell, Jr., adjourned the meeting to next September.

A special school of instruction for incoming officers was conducted by Mrs. Caldwell in the Junior High Cafeteria on Thursday, May 12th. —Reported.

DONLEY COUNTY SOIL CONSERVATION DISTRICT NEWS

"Guar is a crop that deserves a trial on those diverted acres," reports J. N. Weaver a cooperator of the Donley Soil Conservation

District. A 10 acre trial planting of this summer legume was made last year by Weaver on his place in the Hudgins Community.

In spite of the severe drought last year, Weaver was still able to combine enough seed for his own use and some over to sell. He plans to increase his planting this year to 20 acres.

Edwin Eanes, a district cooperator of the Naylor community, has been using this soil improving crop for a number of years. "Guar is one of the best legumes for this area," stated Eanes. In 1950, Eanes planted one 80

acre field to guar, maize, sudan, cane, and cotton. The following year he planted the entire field to cotton. The area where the guar had been the previous year yielded one-half bale per acre. The entire field averaged less than one-fourth bale per acre. Cotton on the guar land made twice as much as that following any of the other crops.

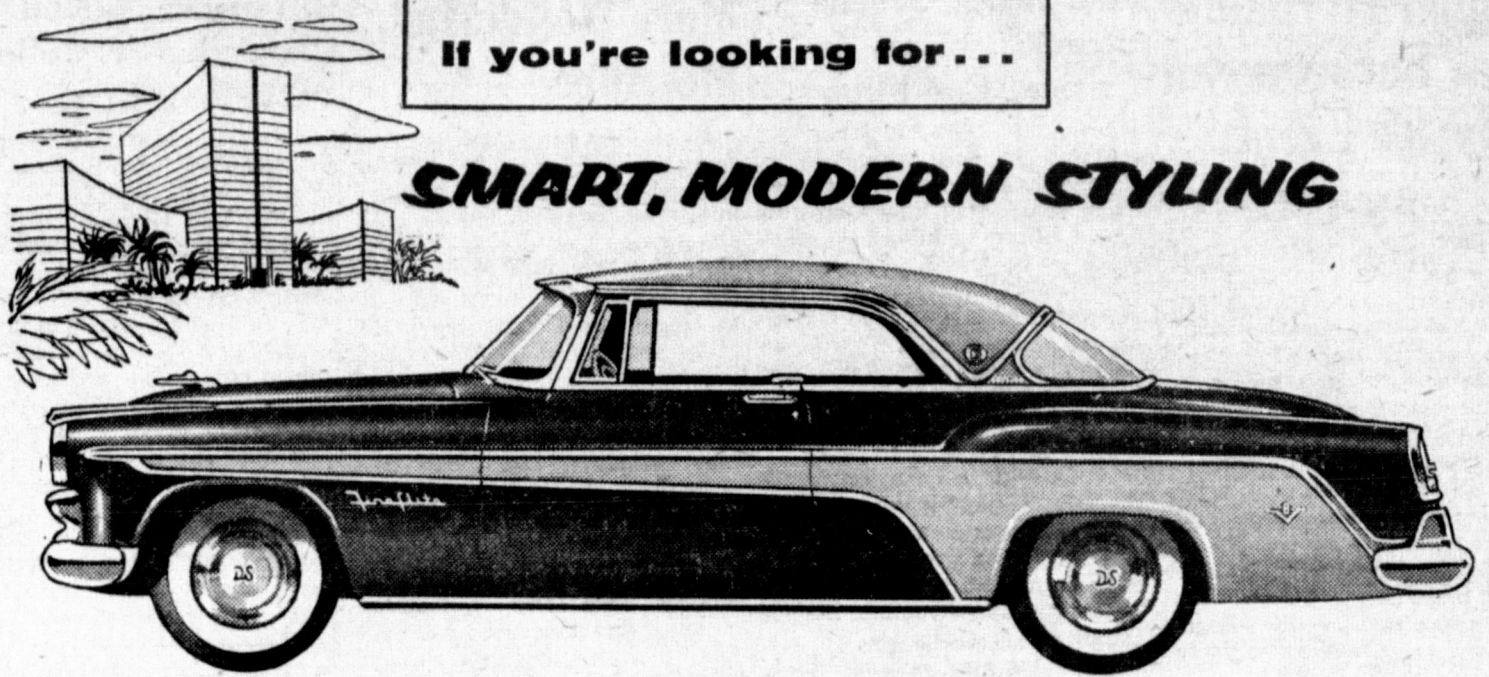

A number of other district cooperators have indicated that they intend to make a trial planting of this new legume.

Below are some reasons for planting guar on diverted acres:

1. Adds nitrogen to the soil.
2. May be used for cash crop through sale of seed.
3. May be used for a green manure crop.
4. Seed, if ground or rolled, are good protein supplement for livestock.
5. Increases yields of following crops.

Additional information may be obtained from the Soil Conservation Service.

GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

This week we received our Spring issue of Readers' Digest Selections of Condensed books. It has at least three books you will enjoy immensely. I noticed Irving Stone's statement "To me, one of the most gratifying sights in all the world is that of a man or woman reading a book." It really stimulates admiration for that person since there are so many people who idle away precious time.

Most of our books are replacements in the junior section for boys and girls, this week. They were a memorial gift in memory of Mrs. J. M. Ray by Mr. and Mrs. Frank Phelan and Sue.

"Miss Posey Longlegs" by Miriam E. Mason, and illustrated by Maud and Miska Petersham is an exceptionally clever story for children. These books for child-

in 1926 from W. D. Martin. His total acreage at the present time is three sections. He raises cotton, grain and cattle. Mr. and Mrs. Stark were married in 1920. They are members of the First Presbyterian Church and Mrs. Stark is a past president of the Presbyterian Auxiliary;

both are members of the Order of the Eastern Star, and Mrs. Stark is Past Worthy Matron of this organization. She is also a member of the Daughters of the Nile, and is active in the Pathfinder Club. Mr. Stark is a 32nd degree Mason and received his Scottish Rite work at Ft. Worth.

ren always fascinate me, as the writer fits history in with the period settings as adult books are written.

Next week will be time for our new magazines. "Household" is the only June issue to arrive with the exception of two or three Detective copies left here for exchange.

The children are beginning to purchase membership cards. We are regretting that there are no new readers for those who have completed first grade. Our only support this year has been "The Book Club" and "Pathfinder Club." We have several memorial books contributed; our other funds have been membership and fines. The latter are difficult to collect. The books are returned with a promise to pay the fine later, and while they can't take

books without paying the fine—they just don't return with the

fine and do without books quite often.

THE LION'S TALE

By Carl Allmond

When a club is alive and active, the members are proud to have guests. This fact has been demonstrated for the past several weeks. Two gentlemen were down from the Amarillo Air Force Base Tuesday, and presented the program. Capt. C. T. Barnes and Sgt. A. F. Roy brought a film on "Guided Missiles." The film was both educational and interesting. If you think an airplane cannot be knocked down by a man pushing a button, on the ground, you should have seen the film. These missiles are controlled from the time they are fired until they are exploded by radar. Don't forget the Lion's Club Circus, May 19th—afternoon and night. The High School Band needs uniforms! Tickets may be purchased from Rayburn Smith, or students. You will be hearing more about the hospital, shortly. A petition will be circulated. We missed Mayor Burton Tuesday. Latest reports are that he is doing nicely, and eating everything they bring in. He was taken to Odom Hospital in Memphis, Tuesday morning. Lion Lee Bell has returned home, and is improving rapidly; he has been missed. The members look forward to the return of Lee and H. T. Tuesday guests were: Capt. C. T. Barnes, Sgt. A. F. Roy, Amarillo Air Force Base; Cpl. W. O. Heironimus, Okla. City, (Caraway's grandson), Glenn Robertson, Amarillo (Wallace Raney's son-in-law), Bill Reeves, Amarillo; Bill Shock, Okla. Fishing License Rules Clarified

AUSTIN—The Assistant Executive Secretary of the Game and Fish Commission pointed out in a statement that persons fishing in private lakes or ponds that are land locked do NOT need a regular individual fishing license. He said the clarification was made because of numerous inquiries lately. The Assistant Executive Secretary said the state law specifically exempts from license requirements private lakes or ponds which are NOT subject to overflow to or from a public stream. If the lake is subject to overflow from any public body of water, river or stream, state license requirements apply.

"The apparent intent of the law," he added, "is to permit persons with private lakes or ponds which are not restocked from contact with public waters to avail themselves of the fishing resources without necessity of the usual state fishing license. "The principal point apparently involves use of artificial baits, that is so far as the resident individual is concerned, because the state law requires persons using artificial bait to have a regular state fishing license. Persons NOT using artificial bait may fish in their own home counties without a license, under the general state law."

The Assistant Executive Secretary said that until the record drought set in a few years back, there had been a tremendous trend toward creation of private lakes or ponds for personal fishing facilities. "Our best estimate is that there are upwards of five thousand such lakes or ponds," he said. "These projects naturally have been encouraged on the theory that development of private fishing facilities takes just that much pressure off public waters." The Assistant Executive Secretary said the fact that some of the private lakes or ponds have been stocked with fish from state hatcheries has no bearing on the personal license regulations.

The largest ranch in the United States, is the King Ranch, in Texas, with 970,000 acres.

Saturday, May 28th Is Poppy Day

Mrs. Essie Putman, president of the Legion Auxiliary, announced this week that Saturday, May 28 would be Poppy Day in Clarendon.

The Auxiliary's poppy program is carried on, the twelve months in the year at the Legion Hospital of Kerrville. The disabled men are given profitable employment shaping the little red flowers. With the distribution of the poppy materials to the hospitalized veterans, the little red crepe petals and wire stems become something significant to the veteran. It signifies the fact that poppy making furnishes therapy for the disabled and hospitalized veterans; also the money earned in this manner helps them to feel they are helping support their wives and families.

"The poppy has become the symbol of the dead - - - their memorial flower. Why do we have Poppy Day? First, we wear the poppy each year to express the feeling of gratitude that is always in our hearts for the men who died for America. The poppy is their flower. Second, we wear the poppy to help lighten the burden of those who are still undergoing suffering and hardships because of the wars, the disabled veterans and the families of the dead and disabled," stated Mrs. Frank Sheffield, Poppy Director for Texas. "The crepe-paper poppy you wear over your heart this May day of remembrance, may be ill-fashioned and unskillfully made. Treasure it the more, because it represents the first faltering steps on the road back for some man who risked his life, so that you and I could keep ours," she added.

Mr. and Mrs. Charlie Seeds are the proud parents of a daughter, Beverly Ann, born Sunday night, May 15th in a Memphis hospital. Both mother and baby are reported doing fine.

FARM NEWS

from the County ASC Committee

1956 WHEAT QUOTA MEMORANDUMS

"A wheat marketing quota for the 1956 crop of wheat is expected to be proclaimed by the Secretary soon, as required by law. Departmental policy concerning the outcome of the referendum is strictly neutral, since the law provides that wheat growers voting in the referendum make the decision as to whether they wish to impose marketing quotas. In accordance with Departmental policy, informational materials prepared to inform wheat growers of the facts and alternatives to be considered by them before the referendum will be strictly neutral and factual.

In adhering to this policy it is important that all committeemen be notified that they must not in their official capacity as committeemen take a stand for or against marketing quotas. Committeemen must also be reminded that farmers generally may find it difficult to distinguish between their official neutral stand and an expression of personal at-

titude toward quotas. **DROUGHT EMERGENCY FEED PROGRAM EXTENDED**

Eligible farmers and ranchers in Donley County may apply to their local county Farmers Home Administration for certain feed grain at a reduced price of \$1 per hundredweight. The transactions are made through regular, established feed dealers. Under terms of the current announcement, applications for feed at the reduced rate will be received by FHA committees until close of business June 15, 1955, for supplies to meet requirements to June 30, 1955.

BLOWIN' Out the CORNERS
by Uncle Zeb

The following little poem came from a publication known as the Evangelical Beacon. To me it merits a lot of thinking. It is called:

WONDERING

IF I were God
And man made a mire
Of things; war, hatred,
Murder, lust, cobwebs,

Of infamy, entangling
The heart and soul.
I would sweep him
To one side and start anew.
(I think I would)
If I did this,
Would I be God?

Someone has said that; "The love of money is the root of half the evil in the world and the lack of something better to love is the root of the other half."

We heard this one the other day; "Little Tommy came to school with his pockets full of bubble gum passing it out to everyone. Upon being questioned by his teacher regarding his unusual behavior he explained; "Oh, I just became a brother last night."

Sign on a busy man's desk; "If you have nothing to do, please don't do it here."

I guess for us people out here in the Panhandle, rain is the one thing that will do the most to pep us up and make us step lively again. Looking down the street before the last rain folks just seemed to have lost interest in the world about them. Were moping around with sort of a give-up look. Just as soon as the showers began coming there was a different look on their faces. Hope was born anew. Last year times were bad, we all knew that. It was most too late for a crop this year but next fall and next year that will be different, and perhaps it will. Always just before we have to give-up entirely it does rain. We can be thankful always for every rain. Thankful to our Maker, but most of all I believe we should be thankful for that hope. This thing that springs eternal in the hearts of men they look forward and upward and keep moving onward and toward their Creator. Anyway, to get what we want and need is pretty wonderful, but to have faith in tomorrow; to look forward for a

better next year; just to have that hope that keeps our determination to keep on keeping, is just about the best thing of all. What would we do without Faith; if our hopes were gone.

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

THE AMERICAN FARMER

Yesterday and today the House has been embroiled in bitter debate concerning the future of the American farmer. The bill under discussion is H. R. 12, which primarily fixes supports on the six basic commodities, cotton, corn, wheat, peanuts, tobacco and rice at 90 percent of parity for the crop years 1955, 1956 and 1957. Under the economy as it presently stands in this country, the American farmer is entitled to the passage of this bill. However, you will know the fate of the legislation by the time this letter reaches you. I sincerely hope that it is good. I will introduce an

amendment to the bill in a very few hours which will increase the price supports on grain sorghums. This is very important to our section of the country, because grain sorghums are the major cash crop in our section of Texas and in many portions of Kansas, Oklahoma, Colorado and New Mexico. I expect great opposition to the amendment from people who understand more about arithmetic than they do human beings. The amendment will probably fail because it is designed to contribute to the economic equality of the American farmer. There has been a propaganda campaign going on in many of the urban areas against the American farmer. He has been portrayed as a scoundrel who has been milking the public treasury and is responsible for the consumer prices of food products. This vicious campaign is, in my opinion, closely akin to treason. It is false, it is deliberate and it is malicious. Some of the accusations and innuendoes directed against the American farmer would lead one to believe that the beads of sweat on a man's brow have now become badges of dishonor. God forbid that we ever reach that state. It would definitely denote the complete failure of Christianity and civilization.

What happens to the American farmer during our generation may well determine the future of this country. We have during the past few years permitted the farm income to drop tragically, while at the same time the cost of living was increasing. This not only jeopardizes the farmer, but it puts the small independent American business man in the farm supported communities in a squeeze from which he cannot free himself and must face eventual bankruptcy. The decrease in farm income has resulted in a substantial decrease in the farm population. The records will reflect that this emigration from the farm has turned into immigration to the metropolitan areas and a resulting increase in the general labor market. In other words, the former consumer of the products of labor is fast becoming the producer of those products and no longer the consumer thereof. This can result in nothing except an unbalance of the general economy. This means unemployment, it means social problems, and it means subsequent demands for expansions of present government social programs. This cannot contribute to the perpetuation of the free country visualized by those who signed the Declaration of Independence. Destroy the American family-sized farm, and you destroy America.

THE 1954 TEXAS TRAFFIC SCORE

Texas Dept. of Public Safety

AUSTIN—In 1954 there were 1,813 collisions of motor vehicles with animals reported to the Department of Public Safety. In

these collisions 6 people were killed and 256 were injured. In 1953, the toll was 8 killed and 266 injured. This is a heavy price to pay for pasturing private stock on public highways but it will be paid year after year until the drivers demand a stock law that will provide authority, facilities and personnel for counties to impound and sell untethered stock on highways.

Bridge Completion Offers Excellent Route For Tourists

AUSTIN—The State of Texas can now offer another excellent, direct route for tourists traveling to Texas from the Midwest who enter the state at the Panhandle, D. C. Greer, State Highway Engineer, announced in Austin today.

Completion of the bridge across the Canadian River on State Highway 70, between Pampa and Perryton, closed the last gap in this highway which connects with U. S. 83 seven miles south of Perryton, Greer said. From there, U. S. 83 extends north to the Canadian boundary at Westhope, North Dakota, forming a direct route from the Canadian border to Texas. State Highway 70 now traverses 343 miles from Perryton to its southern terminus 43 miles south of Sweetwater, where it connects with U. S. 277, to form a direct southern route to the Rio Grande River.

The bridge also opens an additional route for Panhandle residents who use the highways to ship cattle, grains, and other farm and ranch products to southern and midwestern markets, Greer continued, and marks the end of a problem that has for years been troublesome to residents of Gray, Roberts, and Ochiltree Counties as well as other travelers in the area. It makes possible a direct

route between Pampa and Perryton, a distance of 64 miles. Formerly, travelers between these points had to go by a roundabout route of either 82 miles or 99 miles.

Begun June 7, 1954, the bridge was completed the last of April at a cost of \$580,700, ending a program started in 1940. The bridge is 3,251 feet long with a 26-foot clear roadway.

The official designation from Pampa to Perryton was made by the Highway Commission in May, 1940. However, due to unavailability of funds, it has been necessary for the road to be constructed by sections, Greer explained. All highway construction was delayed by World War II and steel for bridges was still difficult to obtain as late as 1951. Various other problems have arisen during the last 15 years to delay completion of this road, he continued.

In December, 1952, the Commission took action for the completion of the last gap between Pampa and Perryton. The con-

struction of the Canadian River Bridge marks the completion of this highway.

Armed Forces Day Celebration To Be Held At Amarillo Air Force Base

AMARILLO AIR FORCE BASE—Plans for one of the biggest Armed Forces Day celebration and open house ceremonies ever seen in the Panhandle area are being shaped at Amarillo Air Force Base, according to a recent announcement made by Brigadier General Walter R. Agee, base commander.

Colonel William L. Todd, AF Day project officer, said that open house would be held on Saturday afternoon from 1:00 to 5:00 p. m., May 21, and from 10:00 a. m. until 5:00 p. m. on Sunday, May 22. The doors of the Air Base will be opened to the public on these days, and visitors are welcomed to the Jet Airplane training center on these dates.

At 3:00 p. m. on Saturday, May

ONCE IN 80,000 . . . Fred Eilers and his wife, farmers near Gillingham, Mo., tend identical triplet bull polled shorthorn calves named Pete, Peter and Repeat.

21st, a massive review of Air Force, Navy and Marine reserve and National Guard troops, with the USAF Band, Drum and Bugle Corps, and a Color Guard representative of the parade services. Following the review, a guest

speaker, as yet unnamed, will speak on general Armed Forces Day topics, concentrating on the 1955 AFD theme, Power for Peace.

Visitors will see on display late model jet fighters and bombers, various types of conventional propeller driven aircraft, and Air Force equipment in the way of armament, radar, communications and cut-away models of jet engines. Overhead, a demonstration of precision formation flying and aerial maneuvers will be seen.

Forces Day open house, visitors will be guided on tours of food-service facilities and dining halls, service club, hobby shops, athletic facilities, and the MARS radio station. A snack-bar on the flight line will be open on both days, and ice-cream and soft drinks will be available at refreshment stands along the hangar lines.

Amarillo Air Force Base has entrances from both Highway 60 and 66, and lies 9 miles northeast of the city of Amarillo.

Midnights and Sidelights FROM YOUR State CAPITOL

By VERN SANFORD
Texas Press Association

AUSTIN — Right down to the wire, the Legislature fought out the battle of taxation. Pay of the legislators—\$25 per day—stopped May 10. So there was all the more reason, from their point of view, that the toughest, most complex and controversial problem of the session be solved as soon as possible. First, the House passed a tax

bill, increasing or putting new levies on gasoline, cigarettes, snuff, tobacco, natural gas, trading stamps, uranium, and wine and beer dealers. When this bill went to the Senate, amendments were introduced to tax auto storage and parking lots, jewelry, furs and clothing, storage warehouses, airlines, real estate brokers, chemical manufacturers, hotels, tourist lodges, department stores, and chain stores.

Thornton Jr. chairman of the State Highway Commission. He asked that the state tax on gasoline be set at six cents per gallon, instead of the present four cents. (The House bill increased the gasoline tax to five cents.)

Gov. Allan Shivers had advocated a two-cent increase in the gasoline tax to provide for the state's highway needs.

He continues to express the hope that there be no income or sales tax.

That the Legislators will complete the tax bill and adjourn within two weeks is Shivers' guess.

Big question is whether the House will accept what the Senate does—especially if it changes the gas levy.

Political Aspect

While they were discharging their legislative duties, some members were thinking seriously about the political campaigns of a year hence.

Mentioned often as potential candidates for Governor have been John Ben Shepperd, U. S. Sen. Price Daniel, Lt. Gov. Ben Ramsey and Sen. Jimmy Phillips. But a new face entered the picture this week when Sen. Otis Lock of Lufkin was approached by friends who urged him to give serious consideration to the race for Governor in 1956.

Shivers Returns

Gov. Allan Shivers brought much news back with him from

DR. H. R. BECK
DENTIST
Goldston Bldg.
Clarendon, Texas Phone 46

Washington. In a long press conference he made the flat assertion that the Democratic Party cannot nominate another left-wing candidate and win.

He repeated that he did not intend to support Adlai Stevenson as the nominee for President next year.

He praised the work of U. S. Sen. Lyndon Johnson as Senate majority leader.

He stated that he had started negotiations with U. S. Interior Secretary McKay, looking to the solution of technical problems involving control of tidelands oil and gas leasing—and he expressed the opinion that Texas' tidelands problems were more technical than legal.

Shivers may ask the Legislature to set up state control over the distribution of polio vaccine. His decision will follow a conference with Dr. Henry Holle, state commissioner of health.

One of Shivers' first visitors on his return from Washington was 12-year-old Bernard Andrews. He is spelling champion of the Negro elementary schools of Houston.

Young Andrews told the Governor and Rep. Charles Murphy of Houston that the hardest word he had to spell in winning the championship and a trip to Austin by aeroplane was "zephyr".

Park Bill Passes

Ready for Governor Shivers' signature is the long fought parks bill.

Jointly sponsored by Rep. Charles Murphy of Houston and Sen. Carlos Ashley of Llano, the measure provides for \$25,000,000 worth of bonds to build tourist

accommodations in state parks. It calls for the erection of lodges at Inks Lake in Central Texas, Eisenhower State Park on Lake Texoma, and Atlanta State Park on Lake Texarkana.

Scheduled for construction first is a 101 unit resort hotel and lodges on Roy Inks Lake, to cost approximately \$1,000,000.

Later construction would be at Possum Kingdom Lake, Lake Whitney, and Falcon Reservoir.

The entire program is self-liquidating.

Veterans Land Program

Loopholes in the veterans land program will be plugged if bills by Rep. Dolph Briscoe and Rep. Buckshot Lane meet with Senate approval.

These two House-passed measures would set up stiff requirements and regulations for land purchases and place full responsibility for administration of the program on the shoulders of the chairman of the Veterans Land Board.
