DONLEY COUNTY FAIR BEST IN RECENT YEARS

The 1954 County Fair enjoyed the largest number of visitors in recent years here Friday and Saturday and was said by many to be one of the best to be held here. All of the community exhibits were above usual, and other departments offered equal competition. The flower show and the cake department drew much attention and were exceptional for a small county fair. The location of the fair this year made a great difference and Mr. and Mrs. C. T. McMurtry have the thanks of everyone connected with the fair for the use of their building. Midway won first with their community exhibit; Lelia Lake placed second and Ashtonia placed third. Placing of the other community exhibits was as follows: Hedley, Chamberlain, White Fish, Windy Valley, Hudgins, Naylor, Goldston, Giles, Skillet, McKnight.

FLORAL SHOW

Many beautiful entries made the annual flower show held in connection with the Donley County Fair a blaze of color. There were two main divisions, the horticultural, or specimen, and the arrangement. Both were very well represented. Les Beaux Arts Club, sponsors of the flower show, appreciate the cooperation of the Clarendon Garden Club, Hedley Garden Club, Lelia Lake Future Homemakers, and all individuals who participated both in the preparation and in the entries. Special features were: the beautiful African violet display belonging to Mrs. Bill Greene Sr.; a men's arrangement division, a children's arrangement division, and the exhibit of the Lelia Lake Future Homemakers. Ribbons awarded are: Arrangements: Children's — All blue ribbons: Bobby Moss, Darbanella Moss, Frank Phelan III, Anna Beth Simmons; two arrangements, Sue Phelan, Donna Estlack, Joel Greene, Judy Greene, David and Cheryl Hardin. THE CAKE DEPARTMENT

The Cake department, a new feature of the Donley County Fair, was quite a success, especially for its first year. The Sr. Home Demonstration Club showed most of the butter cakes and the judge reported she had never judged cakes of higher quality. Mrs. Pauline O'Keefe of Pampa, judge of the show, has taught home economics for a number of years and judges cakes and cake decorations professionally. She asked that her score card be given in order to assist in this work. The score card for butter cakes: Appearance (size and shape) 25%; Color, (crust and crumb) 10%; Moisture (contents, texture) 20%; Lightness 10%; Flavor 35%. Score card for special occasion cakes: Attractiveness 50%; workmanship 25%; suitability 25%. In the butter cake division Mrs. C. D. McDowell won 1st on her cake made by the \$25,000 Pillsbury recipe "My Inspiration"; Mrs. Claude Darden 2nd; Mrs. Phelps 3rd and Mrs. A. F. Risley 4th. Others to show cakes in this division were Mrs. Pete Riley and Mrs. A. F. Floyd. In the "All Occasion" division, the Witches Home, all cake, candy and frosting, "Hans & Gretel" creation, won 1st. A Bible birthday cake won second; a colonial doll, all cake and frosting, placed 3rd. The children's party birthday cake attracted the youngsters. These were all made by Mrs. John Goldston. A "Texas" cake, made by Mrs. H. C. Brumley, placed 4th. A circus cake, a dress, rabbit, were also displayed.

Hedley Cotton Festival Only Two Weeks Away

Events are being scheduled every day for the Third Annual Cotton Festival to be held Friday and Saturday, October 8-9th. Included in Fridays events are a kick-off breakfast, 7 to 8 A. M. with all the ministers of nearby towns invited, a novelty and pet parade at 10 A. M., a performance by the Clarendon Jr. College Glee Club, a championship ball pulling contest, string music, exhibition by the R.O.T.C. drill team from WTSC at Canyon, Queen coronation at 8 P. M. and command performance for the Queen and square dance exhibiting and dancing on the street. Saturday events will include shows by the Alva Wood Entertainers from Amarillo—morning, afternoon and night; the grand parade at 1 P. M.; the Maverick Club Tumbling team from Amarillo including their champion trampoline artists at 3 P. M.; Music and novelty acts by string bands, concerts by high school bands and other acts will make a full program for both days. The F. C. Bogle Shows, Inc. will have the Midway. They will show the entire Festival week, and will have plenty of rides for the grown-ups as well as the kiddies. There will be exhibits of farm machinery including crop dusting planes, irrigation well drills, irrigation pumps, cotton harvesters, combines and other farm machinery, trucks, pickups and cars. There will be a cotton exhibit, flower show, art exhibit, agriculture and live stock exhibit and many others. A 15-car booster caravan stopped here Monday advertising the Festival. With a better than average crop, this year's Festival should be bigger and better than ever.

Bronchos To Play Pampa B Squad At Pampa Tonight

The Clarendon Bronchos take to the road tonight for their first game away from home this season and will play the Pampa Harvester B squad at Pampa at 8 o'clock. The Pampa B team is reported inexperienced but has a high weight average which will have a telling effect on any opposition. This will be the Bronchos last non-conference game before resting a couple of weeks and starting conference play on October 8th. Friday, October 1st is an open date for the Bronchos. Delma Graham and Bill Dale Hill are still on the injured list and neither will probably see any action Friday night. Coach Moore reported that his probable starting line-up would be taken from the following fourteen players: Wallace, Wilson, DeBord, Landers, Hensley, Martin, Cosper, B. Johnson, B. Phillee, Max Johnson, Bill Noblet, Hicks and Hall. Remember, the game will be played tonight instead of Friday night, and the location will be Harvester stadium in Pampa.

NEW CLARENDON RESIDENTS

The Lions Club greeter committee reported the following new residents of Clarendon, extending to them, a cordial welcome to our little city: Mr. and Mrs. Henry Dye, from Lockney, welder for Buster Campbell and living at the Lewis apartments. Mr. and Mrs. Vernon Edwards, from Memphis, Agent for American National Ins. Co., Mary Sue Longan home. Mr. and Mrs. John A. Kennedy, U. S. Air Force; Mrs. Kennedy to make home here while he is overseas. Mr. and Mrs. Ebert Ashley, from Dalhart, college and high school instructor, K. K. Day duplex.

POST OFFICE CLOSING AT NOON SATURDAYS

The Clarendon post office windows will be closed at noon Saturday hereafter as a matter of economy, Postmaster J. C. Estlack stated Tuesday. Other post offices over northwest Texas have been observing this rule for many years.

THE OUTSIDE DOOR WILL BE OPEN UNTIL 6 P. M. AS USUAL, BUT NO WINDOW SERVICE WILL BE POSSIBLE. ONLY ONE CLERK WILL BE ON DUTY A PART OF THE SATURDAY AFTERNOON TO DISPATCH MAIL. ALL MAILINGS UP UNTIL 5:30 P. M. WILL BE DISPATCHED FOR THE NIGHT TRAINS.

BAND STUDENTS TO ATTEND FAIR FRIDAY

Students of the Clarendon High School Band will attend the Tri-State Fair in Amarillo Friday, marching in the morning and reaching the Fair grounds around 11:00 A. M.

Mrs. Johnny Blocker, chairman of the transportation committee, reports that J. H. Gain, band director, asks students to be at the High School by 7:30 Friday morning. The group will go by bus and all students who do not plan to return on the bus must have written notes from their parents to that effect. Present plans call for the group to leave Amarillo at 4:00 P. M. for the return trip home with the bus reaching the school building around 5:30 P. M.

Colts To Play Canadian Kittens Here Tonight

The Clarendon Jr. High Colts will play the Canadian Kittens here at Broncho stadium tonight at 7 o'clock in their first game of the season. Price of admission will be 25 and 50 cents. It was announced also that the Colt Mothers will have the concession stand open with all kinds of eats and drinks. Coach R. B. Christian reported the Colts ready for the game with lots of pep and spirit. He has 49 boys out for the team this year and his coaching assistant is Raymond Ramirez, an outstanding player with the Canadian Wildcats last year. Christian announced his probable starting line-up as follows, beginning with left end: Melvin Housden, Glenn Dye, Sammy Wells, Monte Mann, Fred King, Ted Weatherly and Jimmy Johnson. In the backfield, Darrell Leffew will fill the quarterback slot, Butch Schollenbarger and John Morrow in the half positions and Jimmy Swinney at full.

THESE FUTURE BRONCOS WILL APPRECIATE YOUR SUPPORT, SO MAKE YOUR PLANS TO BE UP THERE TONIGHT AND HELP THEM GET STARTED OFF WITH YOUR FULL BACKING.

DUSTERS WIN CHAMPIONSHIP IN CAPROCK LEAGUE

Bronchos Defeat Mustangs 18-0

The Clarendon Bronchos found it no easy job to conquer the Claude Mustangs here last Friday night in their second game of the season and they had very little opportunity to let up any time during the game as the Mustangs posed a constant scoring threat with their passing attack that clicked on numerous occasions but lacked that scoring punch. The final score was 18-0 in favor of the Bronchos. The first quarter went scoreless with the Mustangs in possession of the ball the majority of the time. The second quarter was a see-saw affair until a short time before the half when the outstanding play of the game took place. This particular play started on the Bronchos own 30 yard line with Bobby Phillee taking a screen pass and going the entire distance of 70 yards behind beautiful blocking. The next tally came late in the third quarter with Bill Noblet going around left end from the ten yard line. The final 6 points came in the fourth with Jimmy Phillee taking a 25 yard pass and going over for the counter. Jimmy made another outstanding play just before the game ended when he intercepted a Mustang pass on the Bronco ten yard line and returned it to the Mustang 32 yard line. The entire Bronco squad played hard throughout the game and the Bronco line allowed very little gain on power plays thru the line.

NEW HOTEL SIGN IS EYE CATCHER

The new hotel sign on top of the Donley Hotel is certainly an eye catcher and something new to attract the attention of people traveling through our little city. Fletcher Curry, owner of the Donley Hotel believes in doing things right and in a big way. The sign with the letters spelling hotel and lighted with neon can be seen for quite a distance any direction from Clarendon. It is 48 feet long and 24 feet high. The letters are 8 foot and the bottom of the letters is 16 feet above the hotel roof.

RECEIVES SERIOUS INJURY

Bennie Darnell, son of Mr. and Mrs. Pete Darnell, received serious injury to his left hand Thursday afternoon while working for the Santa Fe Railroad. The accident occurred when Darnell assisted workers in removing a jack from wheels of a box car. The car slipped catching his hand between the car and the wheel. Darnell was in surgery several hours Thursday afternoon and as soon as sufficient swelling leaves the hand will undergo further surgery, possibly the last of the week. He is reported to be doing as well as possible in St. Anthony's Hospital in Amarillo.

Mrs. J. H. Brumley and her daughter, Mrs. Harold VanLoah of Burkburnett visited last week in the homes of Mr. and Mrs. Harry Brumley and Mr. and Mrs. Joe Goldston.

MISS ALPHA ALLEN AND JEAN PEGG OF QUITAQUE, TEXAS ARE NEW RESIDENTS OF CLARENDON. BOTH ARE EMPLOYED AS BEAUTY OPERATORS AT SAYE'S BEAUTY SHOP.

THE CLARENDON DUSTERS CAME THROUGH IN GRAND STYLE SUNDAY AFTERNOON AT GROOM TO TAKE THE SECOND AND WINNING GAME OF A THREE GAME CAPROCK LEAGUE SERIES THAT NEVER REACHED THE THIRD, FOR THE DUSTERS WON THE FIRST ONE ALSO. IT WASN'T AN EKE-OUT AFFAIR EITHER; THE DUSTERS SCORED 22 RUNS TO GROOM'S 10.

THE DUSTERS LED ALL THROUGH THE GAME, SCORING IN EVERY INNING EXCEPT THE THIRD. THE DUSTERS TALLIED ONE RUN IN THE FIRST AND THREE IN THE SECOND. GROOM CAME BACK IN THE BOTTOM OF THE 2ND AND DROVE IN THREE RUNS WHICH WAS ALL THEY COULD DO UNTIL THE 8TH AND 9TH INNINGS. AFTER THEY RACKED UP THOSE THREE RUNS AND THE ENTIRE THIRD INNING WENT SCORELESS, IT LOOKED LIKE IT WOULD BE A NIP AND TUCK AFFAIR UNTIL THE DUSTERS BROKE LOOSE IN THE FOURTH WITH FOUR RUNS TO PUT THEM AHEAD WITH A NICE MARGIN. THE LOCALS FOLLOWED UP WITH FIVE MORE IN THE 5TH, THREE IN THE 6TH, FOUR IN THE 7TH, ONE IN THE 8TH AND ONE IN THE NINTH. GROOM SCORED ONE MORE IN THE 8TH AND SIX RUNS IN THE 9TH. THEIR LAST SIX CAME PRETTY EASY AS THE DUSTERS HAD LET UP AND WERE NOT TRYING VERY HARD WITH AN 18 RUN MARGIN. A GROOM HOMER WITH THE BASES LOADED ACCOUNTED FOR FOUR OF THEIR LAST SIX.

WAYLAND NEWMAN, DUSTER CATCHER, BANGED OUT THE FIRST HOME RUN OF THE GAME IN THE 2ND INNING. DON LOYD HIT THE OTHER HOMER FOR THE DUSTERS WITH ONE ON IN THE SIXTH.

B. F. DORNAN WAS THE WINNING PITCHER AND WENT ALL THE WAY ON THE MOUND. DON RITTER WAS THE LOSING PITCHER AND WAS RELIEVED ON THE MOUND IN THE 5TH BY CARVER WHO FINISHED LOADING THE BASES AND WALKED IN ONE OF THE FIVE RUNS SCORED IN THE 5TH. HE WAS RELIEVED IN THE SEVENTH BY JR. HILL.

SERVICES HELD FRIDAY FOR R. I. MCGOWAN

Funeral services were held Friday afternoon at the Church of Christ for Robert Irvin (Bob) McGowan with Claude McClung officiating. Mr. McGowan, age 77, passed away in Phoenix, Arizona September 13th after an illness of about five years. His body was flown to Clarendon by a plane from Grimshaw Mortuary, Phoenix.

MR. MCGOWAN WAS BORN JANUARY 22, 1877 AT THE GROVE IN CORVELL COUNTY. HE MARRIED VIRGINIA LOCKHART IN 1895. ONE DAUGHTER WAS BORN TO THIS UNION IN 1900 AND DIED ABOUT 2 YEARS LATER. MR. AND MRS. MCGOWAN MOVED TO CLARENDON IN 1905 AND HE HAD BEEN A RESIDENT OF DONLEY COUNTY SINCE THAT TIME UNTIL 1948 WHEN HE RETIRED FROM HIS LIFELONG OCCUPATION OF BARBERING AND MOVED TO ARIZONA TO LIVE WITH HIS DAUGHTER. MR. AND MRS. MCGOWAN WERE CHARTER MEMBERS OF THE CLARENDON CHURCH OF CHRIST. MRS. MCGOWAN PRECEDED HIM IN DEATH IN 1945.

SURVIVORS INCLUDE ONE DAUGHTER, MRS. FANNIE ROEDER, PHOENIX, ARIZONA; ONE BROTHER, A. N. MCGOWAN, WACO; THREE SISTERS, MRS. MAURICE BALLARD AND MRS. TOM THOMPSON OF ABILENE AND MRS. GEO. SIMMONS, HENDERSON, TEXAS; ALSO A HOST OF NIECES AND NEPHEWS.

PALLBEARERS WERE LOYE THOMPSON, R. E. DRENNAN, C. A. WRIGHT, BILL ADAMS, CARL J. SAYE AND H. G. BOBBITT.

BURIAL WAS IN CITIZENS CEMETERY BY THE SIDE OF HIS WIFE. FUNERAL ARRANGEMENTS WERE UNDER THE DIRECTION OF MURPHY FUNERAL HOME.

SUPT. TRUITT REPORTED IMPROVING

Supt. H. W. Truitt, who is a patient of Highland General Hospital in Pampa as a result of injuries received in a car accident Sept. 12th, near Pampa, is reported improved at this time. Doctors report that it will just take time for his injuries to heal and are still permitting no visitors.

SOUTHWESTERN SPIRITUAL SINGERS TO BE HERE FRIDAY NIGHT

It has been announced that H. L. Barber, president of Southwestern Christian College of Terrell, Texas is bringing the Southwestern Spiritual Singers to Clarendon again this year. This colored sextette is composed of four girls and two boys. They are scheduled to appear at the local Church of Christ this Friday evening at 7:30 p. m.

"By being present for this program, you shall be able to see, and hear a sample of what a Christian education can do", stated Bert Wells, local minister. The purpose of Southwestern Christian College is to teach God's word, promote Christian ideals and better prepare one for service to God and his fellow man, he added. Bro. Wells extends a cordial welcome to the public to come out and hear these fine singers Friday evening.

GREENBELT MUNICIPAL AND INDUSTRIAL WATER AUTHORITY

Questions & Answers

QUESTION:
 How was the Greenbelt Municipal and Industrial Water Authority created?

ANSWER:
 The committees from the interested cities employed McCall, Parkhurst & Crowe, Bond Attor-

neys of Dallas, Texas, to direct the entire legal procedure required for the origination and final completion of this project; whereupon the attorneys prepared a Legislative Act creating a conservation district under Article XVI, Section 50 of the State Constitution. Through the cooperation of the Representatives and Senators within the area, this bill was passed by both the House and the Senate and became a law when the Governor signed the same. The bill is identified as H.B. No. 88 of the 53rd Legislature of the State of Texas First Called Session.

QUESTION:
 For what purpose was this Authority created?

ANSWER:
 This Authority was organized for the purpose of conserving the water properly belonging to the Greenbelt area now flowing completely away, storing such water and thereby providing a permanent, dependable and adequate supply of good water to the citizens of the cities and towns who vote to accept membership in the Authority.

QUESTION:
 What was the origin of this program?

ANSWER:
 For many years a group of local citizens had the idea that the Salt Fork of Red River and Whitefish Creek had a substantial water shed capable of producing a large amount of water if a dam

was constructed to impound such water; those individuals obtained early water rights and succeeded in getting them extended from time to time, anticipating that the water would surely be needed in the future for domestic or irrigation purposes.

QUESTION:
 What was the next procedure in the formation of the project?

ANSWER:
 Citizens from the cities of Wellington, Hedley, Clarendon, Memphis, Childress, Paducah and Quanah associated themselves for the purpose of exploring the actual amount of water which might be available from the Salt Fork and Whitefish Creek drainage area. They contributed funds for expense and employed Mr. A. H. Woolverton, a Hydrologist of Austin, Texas, to make a preliminary report upon the amount of water which could be impounded and a possible location for a dam site as well as to assist them in obtaining water rights from the State Board of Water Engineers.

QUESTION:
 Where the water rights secured from the State Board of Water Engineers?

ANSWER:
 Yes, these water rights were granted by the State Board of Water Engineers under the condition that the program would show definite progress of development before January 1, 1955.

QUESTION:
 What location for the proposed dam has been selected?

ANSWER:
 The dam location, subject to engineering review, has been tentatively established just below the junction where Whitefish Creek flows into the Salt Fork of Red River. This is in east edge of Donley County about 8 miles north of Hedley and about 17 miles north of Memphis.

QUESTION:
 How much water will be the capacity of the proposed lake?

ANSWER:
 The lake will have a capacity of 100,000 acre feet with a depth at the dam of about 60 feet. The lake will have a drainage area of 750 square miles, or about 5/6 the size of the average county in

the Panhandle.

QUESTION:
 How many gallons are in an acre foot of water?

ANSWER:
 There are 325,829 gallons in an acre foot of water.

QUESTION:
 What will be the approximate size of the proposed lake?

ANSWER:
 Present plans indicate the lake will be in an elbow shape with about 5 miles North to South and about 5 miles East to West.

QUESTION:
 How can this be compared to some other water supply lakes which might be familiar to people of Western Texas?

ANSWER:
 The most likely comparison would be Lake Worth at Fort Worth. Lake Worth has a capacity of 24,000 acre feet of water. This proposed lake with 100,000 acre feet of water would be four times as large.

QUESTION:
 What do the engineers estimate will be year-round average availability of water which can be obtained for the members of this Authority?

ANSWER:
 Twenty-five million gallons daily.

QUESTION:
 What is the approximate daily consumption of the towns proposed to be included in the Authority?

ANSWER:
 Based upon the towns of Clarendon, Hedley, Memphis, Wellington, Childress, Paducah, Quanah, Shamrock and McLean, with an estimated total population of 32,843 and an average usage of 100 gallons per capita, gives an average combined daily consumption of 3,284,300 gallons, which is about 13% of the available supply.

QUESTION:
 What engineers have been em-

ployed by the Authority to make the plans and direct the development of the project?

ANSWER:
 The Authority has selected a firm of Water Engineers who are well known in West Texas Water problems and whose reports are recognized by Investors in Securities of this type. FREESE AND NICHOLS of Fort Worth are the engineers. They are quite familiar with water problems in all of Western Texas.

QUESTION:
 What is the quality of water to be obtained?

ANSWER:
 Chemical analysis has been made by the Quality of Water Division of the U. S. Geological Survey. Reports on flood flows of water show good quality; low flows not quite as good as desired but on the whole it is considered that water from this reservoir will be of better quality than required by standards of Health Department. Other tests for full determination of quality of the water will be made to be sure that it is fully desirable.

QUESTION:
 What is the estimated cost of the completed construction of the dam and the pipe lines for delivering water to the various cities and other customers under consideration at this time?

ANSWER:
 The actual cost of the project cannot be definitely determined until construction contracts for the dam, the filtration plant, pipe lines, etc. have been advertised and let under competitive bidding under the supervision of the Board of Directors and the engineers for the Authority. Under present prevailing prices, the cost of the completed project is estimated at \$3,100,000.00, including interest during construction and all origination expenses.

QUESTION:
 How will this project be finan-

ced?

ANSWER:
 By the issuance of bonds.

QUESTION:
 For how long will the bonds be issued?

ANSWER:
 Under the statute authorizing the issuance of bonds by the Authority, the bonds cannot run for longer than 40 years.

QUESTION:
 What will be the interest rate on the bonds proposed to be issued?

ANSWER:
 The actual interest rate cannot be determined at this time because price of money fluctuates, and the rate can only be made at the time the bonds are ready for the market. It is contemplated, however, that these bonds will carry such rates as are comparable to those of other similar construction projects which require some two years to construct and maybe another six months to impound an adequate amount of water. On such projects which do not have historical earning records as a market predicate, it cannot be expected to receive as low an interest rate as the well-established credit of long time operating counties, cities and school districts. However, for the purpose of calculations at this time, a rate of 4% is being used for the reason that it is comparable to

such other projects presently being financed.

All retired workers who are receiving monthly social security checks will find them increased by at least \$5 in October. The 1954 amendments to the social security law make this increase automatic on the September

check which will be received in early October. In many cases the dependents and survivors of workers who are insured under the social security program will get proportionate increases. In all cases the total benefit payment to a family will show an increase. Present beneficiaries don't have to get in touch with their social security office to get the increase. It will be on the check received in October.

Under the new law, the minimum benefit for a retired worker will be \$30 instead of \$25 and the maximum benefit will be \$98.50. The maximum family benefit which was \$168.75 will be \$200. No minimum benefit will be less than \$30 for a retired worker or an only survivor.

Four Horse Shows To Brighten Livestock Events At State Fair

Four of the most famous horse shows in the nation will brighten the schedule of livestock events at the 1954 State Fair of Texas, Oct. 9-24, in Dallas, Ray W. Wilson, the fair's livestock manager, has announced.

"These four nationally recognized shows will be the Quarter and Palomino horse classes, the open cutting horse contest and the Shetland Pony show," Wilson said.

"The combined premium purse for the four shows is \$10,910, with \$3,840 posted for Quarter horses, \$2,070 for Palominos, \$2,000 for the cutting horse contest and \$3,000 for the Shetlands."

Quarter horses take the spotlight during the first week-end of the fair. First and second grounds in the roping and cutting divisions are set for opening day, Oct. 9, with the finals in both divisions on Oct. 10. Reining classes will be on Oct. 12; halter classes for mares on Oct. 15, and halter classes, stallions, geldings and groups on Oct. 16.

The fair's open cutting horse contest will begin on Oct. 15, race into the second ground on Oct. 16 and smash into the finals on Oct. 17.

"The top event of our Palomino show the last week-end of the fair will be the selection of the Stock Type Palomino Horse of the year and the Pleasure Type Palomino Horse of the year," Wilson continued.

"Owners of these two outstanding mounts will receive handsome trophies Oct. 24, from the Texas Palomino Exhibitors Association."

The Palomino judging calendar calls for all halter classes on Oct.

22 and for performance classes on Oct. 22-24. State Fair's Shetland Pony show—one of the most colorful, beautiful and graceful shows of all livestock events—opens Oct. 22 with the stallion halter classes and four of the twelve performance classes. Mare and group classes will complete the halter competition on Oct. 23. The performance classes will continue on Oct. 23 and reach their climax on the last day of the fair, Sunday, Oct. 24.

Women's Building At State Fair Devoted To Ladies' Interests

A glamorous new half-million dollar building devoted to activities of interest to women is being completed for the 1954 State Fair of Texas Oct. 9 through 24.

Completely air-conditioned, the new Women's Building will be the third largest exhibit hall at State Fair Park, covering 50,000 square feet of floor space. It will be one of the largest air-conditioned buildings on any fairgrounds.

Exhibits of textiles, cosmetics, luggage, personal accessories, lingerie, fine furs, jewelry and other articles of special interest to women will be arrayed in swank department store fashion emulating a window shopping tour of the smartest shopping centers of London, New York or Paris.

Commercial exhibits will be limited to a select group of 67 manufacturers chosen on the basis of good taste, educational value and the beauty of their exhibits.

More space than ever will be devoted to traditional exhibits of prize-winning handicrafts, needle work and other household arts.

tion in the public schools of those States was unconstitutional. The court indicated then that it might set up machinery to hear evidence in individual States. Shepperd expressed hope that the Court would work out some such method for Texas, thus allowing this State to bring out all facts concerning her own school system.

"This would allow time to study the experience of the four States now before the Court," he said, "and would also permit a possible legislative solution to the problem."

Medical Research On Heart Disease Made Possible By Large Grant

SAN ANTONIO — Large scale medical research on heart disease and hardening of the arteries will be done in San Antonio by scientists at Southwest Research Center.

A grant of \$129,000—one of the largest medical research grants given by the U. S. Department of Health—has been awarded to the Southwest Research Center's Foundation for Research and Education for the study.

The project will take three years at an annual cost of \$43,200 and will be directed by Dr. N. T. Werthessen, chairman of the Southwest Foundation for Research and Education.

Work will be mainly in the fields of circulatory disease and kidney function and scientists will use the technique for keeping organs alive outside the body developed by Dr. Werthessen at Southwest Research Center. This method enables scientists to conduct their experiments on an actual living organ.

Factors that affect the body's manufacture of cholesterol and how it is accumulated in the aorta—the big blood vessel leading to the heart—will go under the scientists' microscope. So will the functions of the kidney.

Southwest Research Center is also doing cancer research for the U. S. Department of Health. Dr.

Werthessen, in his study of leukemia in mice for the National Cancer Institute, recently discovered a means of testing drugs in mice which speeds up drug testing 10 times. It has been an aid to other scientists engaged in cancer research.

To File Brief On Segregation In Public Schools

AUSTIN — Attorney General John Ben Shepperd last week announced that Texas will accept an invitation from the United States Supreme Court to file a brief on segregation in public schools.

"After having given this matter several months of constant and exhaustive study, and having consulted with a wide cross-section of educators, teachers, legislators and State officials, we feel that we should file a brief in order to properly present the Texas position on this question," he said.

Shepperd pointed out that the only States having the issue of segregation before the Supreme Court at this time are Delaware, Kansas, South Carolina and Virginia and the mere filing of his "amicus curiae" (friend of the court) brief would not bind Texas in any degree resulting from these four cases.

"The Texas segregated school system is unique," he said, "and most Texas citizens think Texas should be allowed to work out her own problems. We will urge this view in our brief."

"We don't want what is happening in West Virginia to happen to our school children," he declared.

West Virginia abolished segregation following the May 17 decision of the Supreme Court, and the opening of the fall school term was marked by strikes, demonstrations and other civil disorders.

The Court held May 17 in the Delaware, Kansas, South Carolina and Virginia cases that segrega-

GABIE BETTS BURTON LIBRARY NOTES
By May L. Prewitt

This week we purchased "The Spider King" by Lawrence Schoonover. It is a biographical novel—the subject is Louis XI of France who was forced to struggle against odds that would have broken an ordinary man. Mr. Schoonover has made an intense study of history in developing this novel.

The "Mother's Study Club"

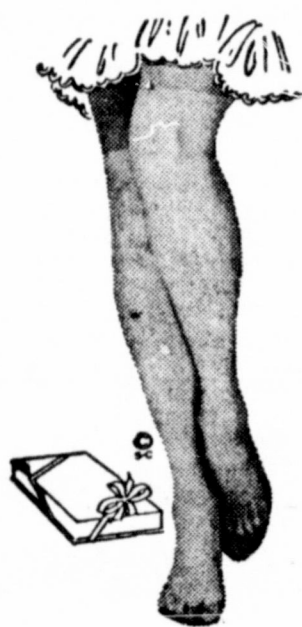

sent a check for \$6.00 to the Library this week, so we have made a partial list of books for little people as quite a few of these mothers read aloud to their children. This check can be used very profitably.

We are almost half thru re-stacking our books in the main Library room. The books are badly disarranged, and too, our shelf space is insufficient.

A box of miscellaneous books were given us this week. A part of them contain reference material. We appreciate being remembered. They have not been arranged for use, or space located until we re-arrange some shelves. If you do not return current magazines within ten days then you deprive others of their pleasure.

FARM NEWS

from the County ASC Committee

1954 GRAIN SORGHUM PRICE SUPPORT

The 1954 final county price support rate for grain sorghum is 2.21 per cwt, for No. 2 or better.

The State Committee has determined that farm-storage loans on 1954-crop grain sorghums will be available again this year.

If any producer plans on farm stored grain sorghum the following requirements must be met.

(1) The storage structure must be of such substantial and permanent construction as to afford safe storage of the commodity, protect it from rain and surface moisture, permit effective fumigation, provide reasonable protection against loss by fire, wind, birds, rodents and farm animals.

(2) Turning equipment, which is capable of moving the entire grain under loan within an approximate 72-hour period of time, must be available on the farm, or the storage structure must be adequately equipped with a ventilation system.

(3) The grain must not contain in excess of 12 percent moisture at the time of sampling.

The discount for grain sorghums which grade No. 3 and contain not in excess of 13 percent moisture shall be 8 cents per 100 pounds; and, for grain sorghums which grade No. 4 and contain not in excess of 13 percent moisture, 16 cents per 100 pounds.

Grain sorghums which grade "smutty" shall be discounted 5 cents per 100 pounds.

BENSON SEES FAVORABLE SUPPORT RATES IN 1955

Present production and consumption indicate that 1955 crop of cotton will be supported at 90 percent of parity, and wheat at 82½.

He explained that "even though wheat is supported at 82½ percent of parity, it still means an average loan level of about \$2.05 per bushel. This is about 97 percent of modernized parity—well above the world price and high by comparison with any peacetime precedent."

Pvt. Arlis Mooring Takes Top Honors

FORT BLISS, Texas—A Clarendon, Texas, soldier, Pvt. Arlis D. Mooring, recently took top honors among basic trainees in his battery firing the M-1 rifle for record at the Antiaircraft Artillery Replacement Training Center, Fort Bliss, Texas.

Because of his outstanding performance, Pvt. Mooring received an identification bracelet engraved with his name and organization. In addition to the bonus award, the Clarendon soldier qualified to wear the Army expert medal, symbolic of achievement in small arms firing.

Pvt. Mooring placed first in competition with over 200 men in his basic training battery. He currently is in his first eight weeks of basic training with D Battery of the 7th Training Battalion.

The bonus prizes are awarded to the top four scorers in each battery. Lt. Col. Arthur LaCapria, commanding officer, 7th Training Battalion, presented the identification bracelet to Pvt. Mooring during a special ceremony honoring the top marksmen.

Pvt. Mooring is a 1951 graduate of Clarendon High School. He also attended Clarendon Junior College where he graduated in 1954. He was inducted into the Army June 17, 1954, at Pampa.

AREA FHA EXECUTIVE COUNCIL TO MEET

A meeting of the Area I Executive Council of the Future Homemakers of America will be held in Plainview Saturday, September 25. Purpose of the meeting is to make plans for the coming year's work.

Attending from Clarendon will be Miss Christian, Homemaking instructor, and Jackie Estlack, President of the local FHA chapter and parliamentarian of Area I.

Mr. and Mrs. O. C. Watson and Mrs. Gale Ledbetter and Gary of Oklahoma City will go to Hobart, Okla. Saturday where they will visit in the home of Mrs. Edith Watson. They will be joined there by Gale Ledbetter who will return his family to Oklahoma City.

Sibley Reunion Held In Park

The Sibley reunion was held in the City Park Sunday afternoon. A buffet luncheon was served to forty-seven members.

HONEST JOHN REPORTS DONLEY COUNTY BEST

"Honest" John Swinney and Mrs. Swinney returned home the past week end after spending two weeks visiting and touring thru Oklahoma, Missouri, Kansas, Illinois and Arkansas. "Honest" reported that outside of the irrigated belt in west Oklahoma, Donley County had more crops than the entire area that he visited. That's covering lots of ground, but "Honest" stated that it was an actual fact. He said the springs and creeks in Missouri had dried up along with their crops and pasture land.

They visited with his brother, Mr. and Mrs. H. A. Swinney at Birch Tree, Mo. and their son, Mr. and Mrs. Theo Swinney and family at St. Louis.

Mrs. Lula Love left Thursday morning for her home at Clovis, N. Mexico after visiting the past ten days in the home of her brother and wife, Mr. and Mrs. Harry Brumley and other relatives.

PLOWIN' Out the CORNERS

Uncle Zeb

"Ye shall seek me, and find me, when ye shall search for me with all your heart", Jeremiah 29:13.

My Uncle Fudge could well have said the following:
"Even water becomes stagnant when it remains still."
"Folks who promise a lot, usu-

ally pay off in a lot of promises." "Folks who say that; "Life is just a bowl of cherries", perhaps never have as yet bitten down on a seed."

We read someplace that the average American consumes around 5 1/2 tons of hay per year. This would be enough to fill two average rooms. We eat hay, grass, silage, etc. in the form of meat, milk, cheese, ice cream, and the like. We wear it in suits, shoes and many other articles of clothing. It is startling to think what would happen if we should suddenly lose our grasslands.

From another column we take this one called Nine Lessons in

Living:
Learn to laugh—a laugh is better than medicine.

Learn to attend to your own business. Few men can handle their own well.

Learn to tell a good story. A good story is like a sunbeam in a sick room.

Learn to say kind things—nobody ever resents them.

Learn to avoid nasty remarks—they give neither the hearer or the speaker any lasting satisfaction.

Learn to stop grumbling — if you can't see any good in the world keep the bad to yourself.

Learn to hide your aches with a smile — nobody is interested anyway.

Learn to keep your troubles to yourself—nobody wants to take them away from you.

Above all learn to smile — it pays.

Someone mailed this in and we include it as another selection for the Scrap Book collectors. It is called Kindness During Life.

I would rather have one little rose

From the garden of a friend.

Than to have the choicest flowers

When my stay on earth must end.

I would rather have one pleasant word

In kindness said to me,

Than flattery when my heart is still

And life has ceased to be.

I would rather have a loving smile

The Passing Scene by Carl Rose

"Drunk and doing eighty. Never mind the ambulance. Send a basket."

From friends I know are true,
Than tears shed 'round my casket
When this world I've bid adieu.
Bring me all your flowers today—
Whether pink, or white, or red;
I'd rather have one blossom now
Than a truck load when I'm dead.

It doesn't say who said the
above but we could very well say
"Me too."

We seldom ever give credit of
any good sort to our brothers-in-
law. But on this occasion we re-

From where I sit... by Joe Marsh

Slugger Wins the "Home" Game

Slugger White, the home town's star hitter, dropped by the other day to talk baseball, and to "tell one" on himself.

Seems Slugger had been baby-sitting. "I was doing just fine," he said, "until it was time for a 'change.' I called Mom for advice. Still didn't get it right. Then Dad set me straight."

"Place the diaper like a baseball diamond with you at bat," he said. "Fold second base over home plate, and pin first and third base on home plate." That did it—with no errors!"

From where I sit, Slugger's Dad had the idea. Often, like his Mom, a lot of us tend to give advice in our terms without considering the other fellow's way of doing things. Even in choosing your favorite beverage, it's best to think of your neighbor. If you like tea, and I prefer a temperate glass of beer, we should both "play the game" and try to understand each other's point of view.

"Don't give up; even a champion was once an amateur."

Rep. Walter Rogers tells of receiving a letter from a cattleman in far away Alaska. This man likes the business up there and has been going since the early forties. According to this report there are many islands that lie in the path of the warm Japanese current and are sheltered by the

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

Sept. 9, 1954

THE PUBLIC DEBT

In a previous newsletter, I called to your attention the cash balance that has been carried by the Treasury Department in private banks in this country. This cash balance plus other cash on hand, but not in private banks, has been approximating in recent months around 5 1/2 billion dollars. This simply means that, although the national debt has been somewhere around 27 1/2 billion dollars in recent months, actually the net amount we would be in debt, if we used this cash to pay off part of the public debt, would

be some 269 billion dollars. The Congress recently authorized an additional 6 billion dollars rise in the debt ceiling which increases the debt ceiling from the present ceiling of 275 billion dollars to 281 billion dollars. I regret to tell you that the public debt has been rising month by month. On June 30, 1952, which was the end of the fiscal year for 1952, the national debt was 259 billion dollars. At that time, we had cash on hand in an amount approximately 9 billion dollars. This meant, that at that time, the net debt would be around 250 billion dollars. On December 31, 1952, the national debt was 267 billion dollars, and we had on hand at that time approximately 6 1/2 billion dollars in cash, which made the net debt somewhere around 261 1/2 billion dollars. The most recent figures available show that the debt will

continue to increase and that securities will be issued to absorb the additional 6 billion dollars authorized by Congress. Should this be done, it will mean that in the very near future, the national debt will reach an all time high. In other words, a record is in the making. Heretofore, the highest public debt ever reached was on February 28, 1946, at which time the people of this country owed \$277,972,315,345.00.

Government Employees

The monthly reports for July to the Committee on the Reduction of Nonessential Federal Expenditures reflected that there is no win the employment of the Executive Agencies of the Federal Government 2,332,223 employees. This total does not include the major portion of foreign nationals employed in U. S. Government activities abroad. That is, in addition to the above figures of 2,332,223 civilian employees, your government is also hiring 401,647 foreign nationals working for U. S. Military Agencies overseas. 117,894 of these are in Germany; 172,708 in Japan; 93,880 in Korea; 194 in Libya; 15,911 in Ryukus; 392 in Saudi Arabia and 668 in Trinidad. 305,094 of these are in the employ of the Army; 76,303 in the Air Force and 20,250 in the Navy.

The Foreign Situation

This country is presently faced with probably one of the gravest foreign situations since immediately prior to World War II. The key to the entire situation lies in Europe. That is, if the problem that exists today in Europe, and has existed for many centuries, can be solved and worked out, it could well determine whether or not we have peace for the next several decades. Italy and France definitely do not want to see a re-armed Germany, but as an alternative, they have the Russian threat on their doorsteps. Russia is definitely playing this situation to the hilt in the international political chess game. Germany is fast recovering from the ravages of World War II and will, no doubt, continue. People who are returning to this country from social and business visits to the continent, almost without exception, tell me that Germany is showing, by far, the greatest progress of any country on the continent in so far as rehabilitating herself is concerned. Whether or not Germany is re-armed is a matter that is going to have to be faced in the very near future. You will recall that after World War I and during a period of disarmament, Herman Goering, by the use of gliders, built up the Luftwaffe, one of the most effective Air Forces in the history of mankind. Relatively speaking, this was accomplished in a very short time, when it is compared with the results attained. It was this Air Force that literally knocked out the entire continent of Europe, both east and west of Germany. If we are to prevent a repetition of the history that has been written during your lifetime and mine, we must face facts, and we must deal with them now. The foreign situation must be strengthened, and it must be strengthened immediately; otherwise, we are going to find ourselves with very few and very weak allies.

Take a look at the car

This is the beauty that's soaring to new success this year. This is the tomorrow-styled Buick that has record-high V8 power, big-car roominess, the solid comfort of the famed Million Dollar Ride, and sports-car response. Is it any wonder that Buick today—regardless of price class—out-sells all other cars in America except two of the "low-price three"?

Take a look at the price

This Buick V8 costs just a few dollars more than the so-called "low-price three"!

Take a look ahead

No Wonder -
Buick Sales are Soaring!

The fact is, for just a few dollars less than some models of those "low-price three," you get in this Buick 2-door, 6-passenger Sedan a whole of a lot more automobile—more room, more comfort, more ride steadiness, more V8 power. And that "more automobile for your money" goes for every Buick in the line—the low-priced SPECIAL, the high-powered CENTURY, the extra-spacious SUPER, and the custom-built ROADMASTER. And the proof is in Buick's booming sales figures!

You want a car that will keep its style in the years ahead, and return more dollars when you sell it. That's today's Buick—for with the year-ahead styling that graces this winner—and with all the solid value built into this great automobile—you're bound to command a higher resale price when you sell it. Drop in—look over this beautiful buy—and learn the clincher: With our tremendous volume right now, we can offer you the top allowance on your present car. So you're way ahead on all counts!

State CAPITOL

By VERN SANFORD
Texas Press Association

AUSTIN — With the state Democratic convention out of the way, Texans interested in government and politics now turn their attention to the next regular session of the Legislature, coming up in January.

As the lawmakers convene, their principal problem is likely to be raising new taxes, in the amount of \$10 million to \$15 million per year.

Governor Shivers has advocated spending \$5 million more annually for mental and tubercular hospitals.

He also has recommended more spending to continue improvements in the state prison system. And he favors a state water conservation program.

Money will also be called for to enlarge the highway patrol and

to continue paying teacher salaries at the current rate.

Press Conference

In his first press conference since the run-off primary, the governor said that his re-election constituted a re-statement of Texas independence.

To please Texas, the South and Southwest, the national Democratic Party must get back to the middle of the road, Shivers said.

Specifically, he recommended replacement of Stephen Mitchell, national Democratic committee chairman, with a "good, strong, middle of the road man."

It's Not Over

Not ended by the recent gubernatorial election is the long fight between the conservative and the liberal-loyalist Democrats of Texas.

Already preparations are being made for another struggle in 1956, when, as in 1952, the rival candidates in Texas may clash over issues in the presidential campaign.

In Austin as well as in many

another city, the conservative forces are setting up a permanent organization to work between elections.

Letters will go out to workers at the precinct level, thanking them for their efforts. Files will be kept for use as reference when the campaigning begins next time.

Labor organizations are also active in the interest of elections two years hence.

Sent out by the UAW-CIO headquarters to all local union leaders in the state was a letter saying "We must, of necessity, prepare ourselves to be able to present our candidate and the issues to each and every voter next time."

Expressed in the letter was regret that Ralph Yarborough, opposing Shivers for the chief executive's job, was defeated.

Campaign Strategy Planned

For many years, the continuous political work done by the CIO has been recognized.

Union people work at politics the year round, whereas Texas

conservatives have been, in the past, inclined to relax from the political wars between elections.

A significant development is the indication that the conservatives now plan to alter their strategy and try to insure another victory next time by keeping right on the job from how right through the 1956 primaries.

One national columnist, commenting on the Texas election, remarked that the conservatives of this state have finally realized "that a political party cannot be captured by frontal assault. It must be captured by patient, quiet work at the precinct level."

Expenses Reported

Finally reported by both candidates were their expenses for the campaign.

Governor Shivers revealed a

total cost of \$285,121, with \$242,087 in donations and no debts or loans outstanding.

Judge Yarborough reported that his campaign expenditures were \$279,722, with \$245,394 in gifts and \$35,258 in debts outstanding.

Donors to Yarborough's campaign put in amounts ranging up to \$10,000, while no individual contributor to Shivers' race gave more than \$500, according to the reports.

Agency Reorganized

Re-organization in the Texas Education Agency's high officialdom came about as the result of the resignation of L. P. Sturgeon, associate commissioner of education, who will become public relations director for the Texas State Teachers Association.

Moving up in the agency will be Warren Hitt, who becomes deputy commissioner of education; Bascom Hayes, who will be assistant commissioner for instruction; and M. A. Browning, who becomes assistant commissioner for vocational education.

Dr. J. W. Edgar, commissioner of education, recommended the changes.

Also selected was a new superintendent for the Austin School for the Deaf: John F. Grace, who had been principal of Gallaudet

School for the Deaf in St. Louis. Grace succeeds Roy M. Steele, who moved to Colorado.

Since this announcement was first published just one year ago, more than 8,000,000 motorists have proved the astonishing benefits of TCP in their own cars. Today, the greatest gasoline development in 31 years has become the greatest gasoline success in history!

The Greatest Gasoline Development in 31 Years

New Conoco Super Gasoline with TCP*

- Boosts power as much as 15%!
- Increases spark-plug life up to 150%!
- Gives you extra gas mileage, too!

CROSS SECTION OF TYPICAL SPARK PLUG

Combustion deposits form here, causing mis-firing and loss of power. TCP neutralizes these deposits, giving top power and performance.

How TCP works

TCP is a special chemical additive which is added to Conoco Super Gasoline. It was specifically developed to overcome the loss of power and fuel caused by combustion deposits. TCP neutralizes harmful deposits on spark plugs—your plugs spark as they should. It prevents deposits in the combustion chambers from causing pre-ignition—"wild ping" is controlled. Thus, every time you fill up with new Conoco Super, it's like getting your spark plugs cleaned and your engine tuned-up.

TCP helps your car, whether new or old

If you are driving a new car, with a high-compression engine, you need Conoco Super Gasoline to keep your car delivering all the power that was built into it. It will actually increase spark-plug life up to 150%. If you drive an older car, with tens of thousands of miles on the speedometer, Conoco Super can restore much of the "new car" performance and power you've been missing.

Yes, a great new era in motoring is here for you. Drive into your Conoco station today and fill your tank with new Conoco Super Gasoline with TCP. You'll feel the difference by the second tankful!

Here's the most revolutionary advance in motor fuels since the introduction of tetraethyl lead in 1922—new Conoco Super Gasoline with TCP, brought to you by special arrangement with Shell Oil Company. TCP is Shell's trademark for the remarkable additive first developed for aviation fuels.

Now you can actually enjoy the benefits of an engine tune-up—just by changing to new Conoco Super Gasoline. Chances are, by the time you've finished your second tankful, you'll feel the increase in power. And you'll keep that extra power just as long as you use Conoco Super.

For Conoco Super with TCP is a new kind of gasoline. It overcomes the greatest single cause of power loss affecting most of the cars on the road today. Now, you can enjoy all the power that was built into your car.

Why you need

Conoco Super Gasoline with TCP

In the average automobile, the by-products of fuel combustion constantly build up deposits on spark plugs and in combustion chambers. These deposits can "cheat" you of power in two ways. First, they actually short-circuit your spark plugs. This causes mis-firing. Second, deposits in the combustion chamber get red hot and cause the fuel to ignite before it should. This is called pre-ignition or "wild ping." The effect of fouled spark plugs and pre-ignition is a loss in power and a waste of gasoline.
