## Joint-Banquet Well Attended

Approximately 225 members of the Chamber of Commerce, Lions Club and their guests and a number from neighboring towns were present last Tuesday evening to enjoy the joint banquet of the two organizations, and to honor Fred Wemple of the State Highway Commission, DeWitt Greer, State Highway Engineer, and Delbert Downing, manager of the Midland Chamber of Commerce.

Mr. Downing was the top speaker of the evening and had everyone enjoying themselves to the limit throughout his entire talk. When he came to the serious part of his speech, he pointed out several important factors which have the most to do with the success of a community. "You may be a member of an organization but you have to take an active part to help make it a success, and the same idea may be applied in regard to the progressiveness of a community as a whole," he stated. Everyone seemed to enjoy every minute of his talk and a number have acclaimed it the best they have ever heard presented in Clarendon.

Mr. Greer made a short talk in regard to the Highway Department and said that the improvement of the farm-to-market roads was one of the foremost future programs under study at this time and would do more toward future prosperity and progressiveness than any other project. He pointed out that the department has 8,000 employees and that the majority had selected this as their life's work and were devoting their foremost efforts in seeing that the people of Texas had better roads.

Mr. Wemple spoke briefly and stated that he was proud of the fact that no politics are involved in the highway commission and that the Texas Legislature was in full cooperation with the plans of the commission. "We try to spend your money to the best advantage," he added.

Carl Allmond, president of the Lions Club, opened the meeting and then turned it over to Mr. R. E. Drennan, past president of the Chamber of Commerce, who served as master of ceremonies.

Mr. Drennan introduced Ray J. Noblitt, new president of the organization and other members of the board. Mr. Noblitt made a short talk and stated that with the help of everyone in the community that nothing would be overlooked that would add to the growth and prosperity of our county and surrounding area.

The entertainment program included readings by Jackie Brooks and vocal selections by Mrs. Frank Phelan Jr.

## DONLEY FARM BUREAU MAKE PLANS FOR MEMBERSHIP DRIVE

Mr. Holley Wood, president of the Donley County Farm Bureau stated this morning that the board of directors met in the county office and planned a membership drive.

Directors present were H. Wood, O. L. McBrayer, Jake Masterson, Mrs. J. L. Butler and J. L. Butler. Mrs. J. L. Butler was elected secretary and treasurer for the county organization and Mr. B. F. Wolford was elected membership chairman. Mr. Wood gave a report of the District meeting recently held in Amarillo.

The board voted to give one dollar for each new member secured by teams going into the field to secure new members.

Mr. Wood is urging that everyone join the Farm Bureau now because this is the time that important farm legislation is pending in Congress and we must be represented to get a good long range farm program for the farmers. Congress wants a program for the farmers that the farmers themselves think is a good sound program.

"They need our help to form this program," stated Mr. Wood, "and by being a member of the Farm Bureau we can present our ideas to Congress in an organized manner."

## Meeting In Regard '49 Farm Program To Youth Canteen Called for Monday

A mass meeting has been called for Monday afternoon at 3 p. m. at the College auditorium of all interested parties in regard to organizing the youth program here in Clarendon. Everyone who is now working with the youth of any age or any organization is urged to be present. Mothers, fathers or guardians of any youth in our town, who are interested in seeing something done for these young folks are especially urged to be present also.

At the present time only two or three organized groups are taking advantage of the youth center building which has been provided for their use by the local Lions Club. It is hoped that a broader organization may be formed at this meeting whereby more activities may be planned for the youth to be held there. They want to give the youth center a regular name and make it a recreational spot for youngsters of all ages.

It is hard to point out any particular objective of the meeting other than to organize, express ideas and views and get something started that can have an opportunity to grow. Your help is needed at this meeting so make your plans now to be at the College Auditorium at 3 p. m. Monday and lend whatever support you can. The youth of our community will certainly show their gratitude for whatever effort you may extend.

## '49 Farm Program To Be Explained Next Week

Donley county farmers and ranchers will have a chance to hear the 1949 farm program explained to them next week when county agent H. M. Breedlove will hold community meetings over Donley County.

Donley County was allotted more money for 1949 than in 1948 and all farmers and ranchers are urged to attend these meetings in order that they might be more familiar with the practices and payments for conservation work done on their farms and thereby earn the maximum amount of money for carrying out conservation practices. Community committees helped the county agent set the meetings over the county.

All community committees were in a meeting on Tuesday of this week and the program was explained to them in order that they can be of more help to producers in their communities. The meetings are as follows:

- Clarendon—Court House, Feb. 14th at 2 p. m.
- Hedley—School House, Feb. 14 at 7:30 p. m.
- Jericho—School House, Feb. 15 at 2 p. m.
- Lelia Lake—School House, Feb. 15th at 7:30 p. m.
- Skillet—School House, Feb. 16 at 9:30 a. m.
- Glenwood—School House, Feb. 16th at 2 p. m.
- Ashtola—School House, Feb. 16 at 7:30 p. m.

Breedlove is urging that every one attend these meetings; pick the meeting closest to you and bring your neighbors and attend. The more you know about the farm program, the more conservation work you can carry out on your farm and receive assistance by the federal farm program.

## Local Boxers To Meet Wellington Here Feb. 17th

The next boxing event on schedule at the local gym will be between the local boxing team and the leather slingers from Wellington on Thursday night, February 17th. The basketball season will be over by that time and a number of boys who have not fought this year will probably be matched.

Coach John Lee of Wellington has reported that he has a good line up of larger boys and will bring enough of the heavies along to make it plenty interesting for the fans and also for the Clarendon opponents.

Wellington has always produced some good boys in the boxing ring and from what we can learn at this time, they haven't lost any of their strength this year, and on the other hand, coaches Clinton and Jones report that the local boys will be in tip top condition for the event and will do their best to win the majority of bouts which will probably number between 15 and 20.

The local fighters have another fight on the schedule for this Friday night at Quail and those of you who can, are urged to go along and give the boys your support.

Charlie Murphy announced that tickets for the boxing with Wellington will go on sale at the Clarendon Furniture Co. Monday morning and a scramble is expected for the better reserved and ringside seats as everyone likes to see Clarendon and Wellington boys meet in any kind of sport.

## HIGHWAY PATROLMEN IN SEARCH OF DWELLINGS

The Leader received a letter the first of the week from Senator Grady Hazlewood at Austin stating that Colonel Homer Garrison of the Department of Public Safety had advised him that plans were to station two Highway Patrolmen in Clarendon to help in enforcing Highway laws in this area, but he was having a hard time finding a place for them to live.

If anyone knows of apartments, houses or otherwise that are now vacant or that will be vacant within the near future just drop a card to Senator Hazlewood at Austin or to Col. Homer Garrison in care of the Department of Public Safety, Austin, Texas and let them know what information you have in this regard. It will be a credit to have these men located at Clarendon.

Mr. Jim Johnson, 71, of Brice, suffered a broken hip when he slipped on ice at his home Monday. He is reported doing nicely in Clark's hospital at Memphis.

The District 2A Tournament finished its first week of play with two undefeated teams emerging. Shamrock and Memphis will be the main attraction Saturday night as they will battle for the district honors, unless there is an upset Friday night when Memphis plays the luckless Lefors Pirates and Clarendon takes on the powerhouse from Shamrock.

Wellington and McLean will begin the second round of District play Friday afternoon in the College gymnasium at 2:00, and Memphis will tangle with Lefors as the second feature. The evening games will start promptly at 7:30 at which time McLean will meet Wellington and Clarendon will tangle with Shamrock.

There will be no Saturday afternoon games but a full evening program is in store for all cage fans as there will be three contests and the first will begin at 6 p. m. Wellington will meet Lefors; Clarendon will meet McLean and the two top bracket teams, Memphis and Shamrock will play last. This game is expected to decide the district championship. The admission for Saturday night will be 75c and 35c.

Following the final game, R. E. Drennan will present the winning teams with 1st and 2nd place trophies. He will also present 10 gold basketballs to the winning team and 10 to the all district team which will be picked by the coaches in the district.

LAST WEEKS RESULTS The tournament opened with a heartbreaker when Clarendon lost to Wellington with a close score of 37-36. Gene Bulman racked up 11 points for the Bronchos and O'Neil ran up 15 for the Skyrockets.

Shamrock had it easy when they trounced Lefors 35-19 in the second game Friday afternoon. Glover and Buice tallied 7 each for the Irish. Stokes, a two hundred pounder, was the high pointer with 6 for the Pirates.

Friday night Memphis and McLean battled to the final whistle. The score was never more than two points difference throughout the game. At the end of the third quarter the teams were tied up 22-22. Memphis finally soared ahead in the last minute of the game to defeat the Tigers 30-26.

Bulman carried the Bronchos to a 27-12 victory when he repeatedly hit the basket for 15 points against the Pirates from Lefors Friday night. Jenkins and

Littlefield are credited for 5 points each.

The Saturday afternoon crowd saw McLean and Lefors in a not too hard fought game. The fast moving five from McLean ran Lefors over the court for a 24-19 victory. McLean's coach Don Leach gave all of his boys a chance to show their ability. Lefors relied on their boy Stokes for another high pointer of the game with 9 points.

The Skyrockets led the Cyclones from Memphis through the second game Saturday to lose in the final seconds of the game 20-19. The half time score showed Wellington well ahead by 12-7, and at the third quarter 18-14. The fast moving team from Memphis came through determinedly when Crooks rung up four points in the closing seconds of play.

A capacity crowd witnessed an exciting game between the Shamrock Irishmen and the McLean Tigers. Both teams have been bitter rivals on the gridiron as well as the basketball court. Skaags, a freshman from Shamrock, was the center of attraction. Despite his short height, his ability to handle the ball would be a credit to any college team and he has three more years to go for Shamrock High. Wayne Martin with 11 points and Skaags with 10 led the Irishmen to a 35-22 victory over the Tigers.

The first round of the tournament came to a close when the Memphis team overpowered the Clarendon Bronchos 41-24. The Cyclones couldn't miss from the time the game started till the final whistle. Morrison, the Cyclones high pointer, hit the basket from any angle he chose. Gene Bulman came through again for the Bronchos when he tallied 9 points.

CITY-COUNTY LIBRARY NOTES

By May L. Prewitt

The Library was a busy place during the entire month of January, as reading was a compulsory pastime due to the cold snowy weather. There are four new books for wee folks added to our list this week - Walt Disney's "Donald Duck, Come Play With Me," Disney's "Mickey & The Bean Stalk," Ronney Gay's "Cinder's Secret" and Nasti's "Little Steps." This last is a lovely volume of children's poems, but I was desirous of a book of "Blessings or Thanks" to be used at the table by children. It is general gratitude, but beautifully stated. The County generously allowed us cash for an unabridged Dictionary. We have mailed several letters of inquiry as to discount for Libraries. A dictionary has been such a necessity, that the Library patrons will be elated

when we get it for use.

Mr. Jim Patman gave us several biographies this week. One is an autographed copy of "Cyclone" Davis who was a Texas political character for so many years. Then the life of Jim Farley, and one of Will Rogers. These are all of interest.

A friend gave "Wake of, Red Witch". This is screened now and I noticed it is showing in Wichita this week. We appreciate these gifts, as it is almost impossible to keep sufficient material for our readers. Please don't forget your current magazines-Post, Colliers, News Week, Readers' Digest, American Home, House & Garden, House Beautiful, Cattleman, Holiday and several others are contributed regularly. We use them, but would appreciate some of the McCallis and Good House Keeping when you complete them.

Something To Remember

If you want to fatten a chicken, feed it Corn, wheat, Kaffir or Milo, but if you want Eggs, and lots of them, feed Chic-O-Line, or Wes-Tex, 18 or 20% Protein Egg Mash, a Tried and Proven feed that brings results-new low prices that will interest you, and make the old hens cackle.

Why experiment? Feed the feed that has stood the test for years. Just a cold blooded business proposition, and remember we give Green Stamps on all Cash feed sales - - ask for them.

They said, "Rich man's toy!"

THAT'S what "wise guys" of the 1880's called the newfangled electric service. And that's all it might be today... IF...

IF people hadn't risked their savings to start electric companies such as yours, and to keep them growing.

IF others, often against expert advice, hadn't poured out their energy and time—to extend the wires farther and farther, make the service better and better, bring rates lower and lower.

They took the risks—they developed the skills—and everybody benefits. That's the way the American business system works. Rich man's toy? Today, electric service is every man's good right arm!

West Texas Utilities Company

THOMAS A. EDISON, father of the Electric Age, was born February 11, 1847, and died October 18, 1931:

There is no monument above his grave. It is unmarked to this day. Somehow that seems quite fitting—because, after all, the real monuments to Edison's greatness are found all around us.

We at the West Texas Utilities Company pay special tribute to his memory, for Edison founded the first business-managed electric service company 67 years ago.

**National Heart Week  
February 14-21**

AUSTIN — Throughout the United States the week of February 14-21, will be observed as National Heart Week, and Dr. Geo. W. Cox, State Health Officer has announced that the State

Health Department will cooperate to the fullest extent in stressing to the public the necessity for full information and intelligent action in attempting to control this nation's major killer, heart disease.

From a national level, heart disease is the leading cause of

death, and yearly takes a greater total number of lives than the next five leading causes of death combined. One out of every three deaths in the United States is due to diseases of the heart and blood vessels, and it is estimated that one out of every twenty persons suffer from some form of heart or blood vessel disease.

A great amount of research in the cause and treatment of the heart diseases has established the fact that some of them can be materially helped by certain drugs, or even surgery, and it has been proved beyond doubt that the heart patient who places himself early under competent medical care, has by far the best chance of survival. In many instances the patient can, under competent care, lead an almost normal life, with only certain restrictions as to activities and indulgences which might adversely affect his condition.

"Consult your doctor for a physical check-up at least once a year", Dr. Cox advises. "If heart disease occurs, he will have an opportunity to find it, and begin proper treatment in the early stages, thus assuring you a better chance to finish a normal, comfortable life span."

**MEDICAL PRICES  
WILL INCREASE**

Shortages always raise prices. The Texas Medical Association, by restricting enrollment in Texas medical schools to barely enough to replace deaths and retirement has cut down our supply of doctors, especially in our rural areas, thereby causing a shortage and higher fees for services, while 3,000 pre-med students find the gates barred against them.

This same medical association now plans to get control of the supply of all competitive healing professions, so they can cut off replacements in these healing professions and make the short-

age even more acute and thus raise the prices higher than today.

The Basic Science Bill (S.B. 63) is designed to give the Medical Association complete control of all branches of the healing arts and it is being pushed by unlimited funds and a high-priced lobby. If we, the people, do not write, phone or visit our senators and representatives, we will have this infamous legislation forced upon us.

This is a call for action. If you want to know the names of your legislators, phone this newspaper. Address letters to them at Capitol Station, Austin. Stop that Basic Science bill. Write, wire or phone today. (Paid adv.)

**Noted Poet - Writer  
To Be at WTSC  
February 15-18**

CANYON—Robert P. Tristram Coffin, nationally known poet and writer of fiction, biographies and articles, will appear at West Texas State College February 15 through February 18.

Coffin will hold informal meetings with small groups of students and clubs. His visit at the college will be informal in that his talks can be arranged to suit the convenience of any group, large or small.

The general public is invited to visit the campus and hear Coffin at any or all of his lectures.

His poems have received favorable comments in many publications in the United States. Among these are this one from the Saturday Review of Literature:

"Robert P. Tristram Coffin has won a place for himself among the best American poets of his time - - - In all his books he is apt to ambush you with sudden leaping phrases like a burning arrow - - - He is the most pictorial of our poets."

Maurice Lane student at WTSC was home for the week end.

**Veterans  
News**

Veteran enrollments in colleges and universities under Federal training programs on November 30, 1948, dropped 15 percent below enrollments on November 30, 1947, the Veterans Administration reports.

Similarly, enrollments on October 31, 1948, were 17 percent under the totals for October 31, 1947.

This Fall's drop in the number of veterans in institutions of higher learning under the GI Bill and Public Law 16 (for the disabled) marked the reversal of a general upward trend that had continued since both laws went into effect.

The number of veterans in colleges and universities on November 30, 1948, under both laws was 1,050,668, compared with 1,235,761 as of a year ago.

The October 31, 1948, total was 953,247, while the figure for October 31, 1947, was 1,149,933.

Despite the drop in college enrollments, the number of veterans in schools below the college level under the GI Bill and Public Law 16 showed a slight increase this Fall over last Fall.

On November 30, 1948, there

### Basic Science Bill Unsatisfactory

AUSTIN—Dr. L. George Grupe of San Angelo, vice-president of the International Chiropractors Association, charged here today that enactment of a basic science bill now pending in the Texas Legislature would give the State Medical Association a "life and death" grip on all forms of treat-

ment used by practitioners of the healing arts. "The Basic Science Bill is still just as unsatisfactory to the people of Texas now as it was two years ago, four years ago, or six years ago," Dr. Grupe said. "The State Medical Association is desperate this year to establish a medical monopoly—so desperate that it has cloaked its usual legislation in a new name in an effort to deceive the people."

He pointed out that the legislation the medical association is seeking is called a minimum standards act this year. "It is the same Basic science bill the people of Texas through their representatives in the Legislature have rejected time and time again. "The State Medical Association is still demanding that practitioners of all healing arts approach the question of disease, causation and correction from the same point of view—that all should be masters of certain medical subjects from an allopathic point of view.

"The chiropractor does not, and never has, claimed to be a general practitioner of medicine. He is a specialist, who believes that many ailments originate in the nervous system of the spine and can be corrected by adjustments. "Requiring chiropractors to be proficient in certain allopathic medical subjects, many of them in no wise related to ailments originating in the spine—such as the basic science bill proposes—is like requiring a newspaperman to appear before a board of radio announcers and pass a voice test before he becomes qualified to write a news story or an editorial. "Members of the State Medical Association claim they are inter-

ested in passage of a basic science bill because many inefficient practitioners would be eliminated. "The sincerity of the Medical Association's interest in health standards can be judged by the fact that chiropractors of Texas have presented the chiropractic minimum standards bill each session for a number of years to set up high educational standards for their profession, but that their efforts to protect the public have been thwarted on each occasion by the selfish opposition of the State Medical Association. "Make no mistake about it, these leaders of allopathic medicine want to rule the roost and tell every Texan — 'We know what's best for you. You go to the doctor we tell you to go to or remain sick.' "

Dr. Grupe said the chiropractors have the highest educational standards for their limited field of practice of any professional group and again this year are attempting to pass a chiropractic minimum standards bill to compel all chiropractors to meet high standards of educational qualifications. "On the other hand, if there are any incompetent allopathic medical practitioners — and the State Allopathic Medical Association in its latest propaganda admits there are—then the obvious step is for all the allopaths to take corrective action in their own field, like the chiropractors are attempting to do in theirs. "The State Allopathic Medical Association, however, is apparently not interested in cleaning its own house. For the basic science bill specifically exempts its members from provisions of the bill."

A total of 228 charters were issued in November, and 301 businesses were formed in December 1947. Totaling 67, merchandising businesses received the greatest number of charters in December, followed by manufacturing, 35; and real estate, 34. ### Ground-breaking Ceremonies For New Chapel

DALLAS — Ground-breaking ceremonies for a new chapel for

the Perkins School of Theology at Southern Methodist University will be held Feb. 7. The chapel will be the building in a six-building range now under construction. Completion of the new building for the theology school is expected in approximately two years. To cost between two and three million dollars, the six buildings will include, in addition to the chapel, a library, a classroom administration building, and three dormitories. Construction of the quadrangle is made possible largely through gifts of Mr. and Mrs. J. J. Perkins of Wichita Falls. Mr. and Mrs. Mike McCall and daughter Nancy were visitors in Paducah and Quannah last Saturday.

### Duke Gets His Tractor

Duke Thomas bought a farm with the money he'd saved in the Service, but he couldn't get a tractor. He needed it badly, but was tenth on the local dealer's list.

"Tell you what," old man Peters says. "If those nine fellows ahead of you agree, you'll get the next one I get in." "No, thanks," says Duke, "I'll just take my turn."

But old Peters mails out nine postcards. And the other day he tells Duke his tractor will be in next week. "I simply wrote the facts to the fellows ahead of you. They decided it."

From where I sit, it's that spirit of understanding that helps make our democracy so great. Understanding for the other fellow's problems and respect for the other fellow's rights — whether it's his right to earn a living, his right to cast his vote against your candidate, or even his right to enjoy a moderate, friendly glass of beer or ale—if and when he chooses. Let's always keep it that way!

Some twenty-two centuries ago the Romans got tired of women drivers and passed a law to cut it out. According to my ancient history, it was in 205 B. **CONVINCING.**  
The lawyer was pouring it on the weazed old farmer when he yelled: "You mean to tell this jury that, with your eyes, you can recognize a man a quarter of a mile away?" Then it was time for the parity party to land when he replied: "Gosh, yes. When I get up in the morning, I can see the sun and that thing is said to be 93 million miles away!"

GROCERY & MARKET WE DELIVER 5-Phone-6

Seen in the Claude News last week:

"Fred Maple was slightly injured Monday when caught between a fence and a 15,000 lb. steer, and couldn't work for a day or two." "Anyway, I guess if it had been a full grown steer he couldn't have worked for a week. Sounds like a lot of 'Baloney' to me. It sounded bad enough without that last '0', son."

A Reader gave me the following quotes from somewhere: "Make new friends, but keep the old. One is silver the other gold."

"When in doubt, tell the truth" and "Never miss an opportunity to make folks happy, even if you have to let them alone to do it."

Met Mr. Wolford, of Lelia Lake at the Farm Bureau Meeting in Amarillo; he seemed surprised that I was still living in the nice warm Panhandle. Said that he thought I had moved to some of those northern cooler states. Anyway, I didn't like that twinkle that he had in his eye, and I don't want to hear anymore about the subject.

Joe ain't coming to Harry's house, and Harry ain't going to his. Anyway, it might be better if each tended to his own biz'.

Sometimes I wish that I hadn't sold that Old Caterpillar; I haven't found a thing to fuss with Uncle Jay about since. Met Jay Taylor in Amarillo the other day and he gave me some low-down on him, but it is un-printable.

A good cake needs a lot of shortening, and so does a good speech.

Most of us believe in the old saying "Like Father, Like Son", until we see our son acting like we used to, or still do - - -

It is not always the loudest sermon that is heard the best.

Although he should have been a member of the 'Ain't Smoking Society all the time, I just heard about him. Anyway, Kenneth Mathews is now officially a member in good standing. Think maybe I ought to get out some membership cards yet.

Enjoyed my little visit with Tom Henry Miller, the other day, and is he ever proud of that watch given him by the Sunday School. Hope I can have the privilege of visiting with him again; his cheerful, sunshiny disposition just naturally made me feel better.

15,000 lb. steer. Oh Me.

Mrs. Bill Bromley accompanied her son Pete Bromley to Lubbock last Friday where Pete underwent an operation on his knee. He received a knee injury while playing with the WTSC Buffaloes this past season. He will be on crutches for about two weeks.

Mrs. Bea Scoggins and daughter, Mary Lois of Electra, are visiting her niece and family. Mr. and Mrs. Homer Estlack this week.

Mr. and Mrs. H. H. Hahn and family of Pampa visited Sunday with her parents, Mr. and Mrs. J. R. Bulls.

# Veterans' News

Hospitalization and outpatient treatment provided by the Veterans Administration are not available to members of veterans' families, VA said in response to a number of inquiries. Many wives of veterans were treated by Army and Navy doctors while their husbands were in service. Some wives now erroneously believe they also are entitled to medical treatment from VA physicians. Only ex-servicemen and women, if discharged under conditions other than dishonorable, are entitled to hospital treatment under the following priority system: First—Emergency cases. Second—Those suffering from injuries or diseases incurred in or aggravated by military service. Third—Those who state under oath they are unable to pay hospital charges for treatment of nonservice-connected disabilities or illnesses. These veterans, if not in the emergency category, must wait until a bed becomes available. Outpatient treatment is available only for veterans with ser-

vice-connected disabilities. Each veteran's eligibility must be determined by VA before treatment of this type can be authorized.

Veterans of World War II who were discharged on or before July 25, 1947, can apply for readjustment allowances up to July 25, 1949, under present legislation, VA reports.

Men discharged after July 25, 1947, are entitled to readjustment allowances until two years after their date of discharge. No readjustment allowances are payable after July 25, 1952.

More than 9,000,000 World War II veterans applied for education and training under the GI Bill and Public Law 16 since the two laws went into effect in June, 1944, and March, 1943, respectively.

Joins Texas Drys CANYON—Dr. J. A. Hill, president emeritus of West Texas State College, has joined the staff of the United Texas Drys as a special worker in the educational field. Dr. Hill resigned as president of W. T. on Sept. 1. He is continuing to make his home in Canyon and is doing special writing for newspapers and magazines.

The many friends of Mrs. I. M. Noble will be glad to learn that she was able to be at home after being at the Wichita Clinic. She returned home Sunday and is improving fast.

**Donley County Farm News**

In behalf of the Donley County Agricultural Conservation Association we want to take time to express our gratitude to the Bankers in Donley County for having the 1949 Agricultural Conservation Program handbooks printed. The three banks in Clarendon, and the one in Hedley contributed evenly to the cost of printing. This will prove to be a great service to the farmers in Donley County and to the conservation program as a whole. We have 1,000 copies of the handbooks here in the office and we plan to distribute them to the farmers in the near future.

Mr. Breedlove, County Agent, plans to hold a series of meetings over the county in each community and distribute the booklets. He plans to discuss in detail with the farmers attending these meetings, the practices approved for this county, and to answer the questions they might have concerning the program. Clyde Neel, chief clerk here in the office, will hold similar discussions with all the veterans farm classes in the county. We will be happy to have a representative from the office

meet with any other group which is interested and which does not fall in the two groups already mentioned.

We cannot stress too much that just because the State Committee of the Agricultural Conservation Program has asked us to cancel all the approvals for subsoiling that have not been completed does not mean that this practice will not earn payment in Donley County. This practice will qualify for payment only when the land is dry and it is the opinion of the State Committee that AAA funds should not be tied up for the period of time it will take the land to dry out. We will try to notify everyone when the county Committee has determined that the land is dry enough to be chiseled effectively. Anyone desiring to carry out the practice at that time will qualify for payment.

**School of Music To Be Held at Memphis February 13-18**

The Panhandle Baptist Association will have a School of Music February 13-18 at the First Baptist Church, Memphis. The school will be led by Mr. J. D. Riddle of Dallas. Mr. Riddle is head of the Music Department of the Baptist General Convention of Texas. He will teach a course in Theory for Young People and Adults. Mr. J. O. Strother of Memphis will teach a course in Theory for Intermediates and Juniors. Mrs. J. D. Riddle will teach a course in Hymn Playing.

The school will begin Sunday afternoon with an old fashioned hymn sing. The classes will be held each evening through the week beginning at 7:15.

"All who are interested in learning more about music and its place in the worship of our churches are invited to attend," stated Rev. L. A. Sartain of the Clarendon Baptist Church.

Mr. and Mrs. Clyde Barker and family spent the week end visiting Mrs. Barker's sister, Mr. and Mrs. C. F. Lewis at Dumas and his sister, Mrs. Ray Ledbetter at Dalhart.

**DEPUTY COLLECTOR OF INTERNAL REVENUE TO BE HERE FEBRUARY 25**

The preparation of individual income tax returns for the year 1948 usually presents some problem to the average citizen with which assistance is desired. For this reason, a Deputy Collector of Internal Revenue will visit Clarendon to assist our citizens with their income tax problems.

Existing laws do not impose this duty upon the Collector of Internal Revenue or their employees, but they desire to assist wherever possible, to the extent permitted by available personnel. The Deputy Collector's advice and assistance is extended purely as a courtesy and without cost to any citizen.

Deputy Collector S. Baker Mallett will be at the Court House here, February 25, 1949, from 8:30 a. m. to 5:00 p. m. to render assistance with income tax problems to any who desire it. This will be the only visit that can be made to our city for this purpose before March 15, 1949.

Rev. and Mrs. James Gilbert announce the arrival of a baby girl Friday. Mother and baby are doing fine at the Memphis hospital.
