Clarendon F. F. A. Celebrates National Future Farmer Week

Members of the Clarendon Future Farmer Chapter have spent a busy week in their part of celebrating National Future Farmer Week. The group presented an assembly program to the high school students Monday morning in which they explained the workings of the state and national organizations. The sixteen greenhand members of the chapter were placed on the stage and their services, for a period of three days, were auctioned off to the highest bidders; the bids totaled over \$80 for the services of the greenhand members. The greenhands began their services Tuesday morning and will end them at 12 o'clock Thursday night. Shines, bookcarrying, feeding pigs and calves, and similar chores were familiar duties for the greenhands during the three days service period.

Officers of the chapter presented a program to the Clarendon Lions Club Tuesday in which they explained the local, state, and national setup of the Future Farmer Organization. James Mahaffey, Bobby Longan, Don Hudgins, John Morrow, Butch Schollenbarger, Carl Talley, Pat Roberson, and Harold Lindley participated in the program. Adviser J. R. Gillham presented Don Hudgins with his check for \$2,096 for the Grand champion calf of the Amarillo Fat Stock Show, Carl Talley with his check for \$457.00 for the grand champion barrow of the Amarillo Fat Stock Show, and John Morrow his check for \$208.00 for the grand champion barrow of the junior show of the 1958 Fort Worth Fat Stock Show.

Tonight from seven to ten P.M. the Future Farmers will honor their sister organization, the FHA girls with a party at the canteen, and then the chapter members will play games from ten until 12. It has been rumored that the greenhand members will be allowed to reverse the position of master and slaves on their present bosses from 11 to 12, and this is being looked forward to with much anticipation by the freshman members.

Approximately 15 members of the group will leave for Houston Friday afternoon, where they will spend next week exhibiting ten head of calves and approximately 100 head of barrows. The local youths have sold approximately two-thirds of the animals they had on feed and have only the younger-smaller animals to exhibit at the Houston Show.

TAX-MAN SAM SEZ:

Some of us know that the groundhog can't predict the weather. But there are other folks who figure that the TV weatherman makes more mistakes than the groundhog does. When it comes to filing income tax returns lots of folks see their shadow and run for cover. Somehow or other taxpayers fail to add and subtract right on their tax returns. Uncle Sam says more people add in favor of themselves than in favor of the government.

However, a lot of people cost themselves instead of the government by failing to add or subtract right. The government has lots of adding machines and they check the tax return carefully and try to correct the errors. It pays to check your addition on your tax return instead of completing a correspondence course with the income tax folks.

TEXAS PRESS ASSOCIATION

AUSTIN — One of the hottest topics at next July's precinct conventions likely will be whether such conventions should be held any more.

Gov. Price Daniel has suggested abolishing the precinct conventions. His premise is that much of the infighting that afflicts the Democratic Party in Texas originates in these neighbor-against-

neighbor squabbles. He proposed instead the electing of delegates (one per precinct) to the county conventions by direct vote at the primary.

Governor Daniel pointed out that the conventions sometimes are controlled by a minority group within the area. Many more people, generally, vote in the primaries than bother to come back to the voting place a second time in one day for the precinct conventions.

Electing delegates by direct vote, contended the governor, would do away with "rump conventions" and contests over which

precinct delegation is entitled to seats at the county conventions.

Governor Daniel's recommendation, made at the State Democratic Executive Committee meeting, came as a surprise counter-offensive to the DOT's "code of ethics" campaign. DOT (Democrats of Texas) is a liberal group, openly bucking the governor for control of party affairs. Spearhead of its drive is the "code of ethics" proposal designed, according to its sponsors, to eliminate much of the fighting and give everyone a fair shake at conventions.

DOT members were immediately critical of the no-precinct convention plan. It would eliminate "grass roots" gatherings, they said, the only chance every citizen has to get up and speak his piece. But the governor had an answer for that too. He suggested that the new law provide that any qualified party member could propose a resolution at his county convention.

Both the governor's and DOT's suggestions are to be studied by the SDEC. Governor Daniel said if his plan meets with approval within the party, he will submit it to the Legislature next year.

TAX FACTS
Texans paid \$2,600,000,000, or one-fourth total income, in state, federal and local taxes in 1956.

In a fact-packed report (its first), Texas State Tax Study Commission traces the history of Texas' taxing patterns from 1932 to 1956. Next in an expected series of about 10 reports will compare Texas taxes with other states. Findings are to be presented to the Legislature in 1959 to serve as background for revenue-wrestling.

At present, says the report, Texas Taxes are derived 45 per cent from property; 22 per cent, sales; 16 per cent, severance; 17 per cent, all other sources. Basic pattern has not been changed since 1941, but all categories ex-

PRICE OF PROGRESS
Re-locating utilities in the path of the new interstate highway system is going to cost Texas cities more than most officials had originally thought.

Atty. Gen. Will Wilson ruled that state-federal funds may be used only in a limited way to pay for utility moving. Specifically, said Wilson, they may be used to pay for relocation of sanitary sewers and for other utilities, such as water and power lines, only if they must be moved completely outside the road right of way. Cost of re-locating water, power and gas lines within a right of way must be paid for by the city or utility company.

Texas League of Municipalities protested the interpretation, said it would cost Texas cities as much as \$20,000,000 to comply. Chief source of disgruntlement to the city officials is that under the same federal building program, cities in other states are not required to meet this cost.

temporarily, by an opinion handed down by the Attorney General's department. Based on the state's laws governing lotteries, the opinion, at first glance, seemed to rule out any type of drawing for prizes.

However, Assistant Attorney General Cecil C. Rotsch, who wrote the opinion, says that the ruling does not change, in any way, the law as it always has been interpreted in Texas. He merely cited earlier court opinions, Rotsch pointed out. And his recent opinion does not alter what always has been considered the accepted procedure in connection with drawings or contests.

DONLEY COUNTY SOIL CONSERVATION DISTRICT NEWS

H. J. Rogers who lives about three miles south of Lelia Lake is planning to construct a waterway. Mr. Rogers has been a co-operator in the Donley Soil Conservation District for a number of years.

A waterway is a means of conducting runoff water from an area to a safe point of release with a minimum of erosion. Waterways are designed and seeded to a permanent vegetation

so that a lot of water can be moved along slow enough to be non-erosive. Waterways usually function as a collective outlet for diversion terraces and standard terraces but may also be used to move water concentrated by other means to a point of release.

Richard Finch, Ed Dishman, and Douglas Johnson, technicians with the Soil Conservation Service will design and stake the waterway on the Roger's farm.

GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

A recent copy of "Time" magazine reported the death of Betty MacDonald who is best known as the author of "The Egg and I." She had written several other books and those who read them will be saddened to know death claimed her at the age of 49. She was clever and the reading public will regret her departure so early in life.

We have received the February issue of "American Heritage." This is Vol. IX No. 2, and is likely our last copy as it was a year's subscription and published every two months. This was a gift in Mr. Frank Phelan's memory from his sister, Mrs. Victoria Morrow. This copy has a lovely back of an inset of two exquisite miniatures, of Thomas

Pinkey Jr. and his bride-to-be by Edward Greene Malbone, reproduced by the courtesy of the Carolina Art Association.

We were given "Hoof Trails and Wagon Tracks." This was given in memory of Miss Annie Reeves, and I'm sure as a child pioneer, she would appreciate this type of book.

"Give Me Possession" by Paul Horgan is recommended for the Lenten Reading List. The writer has won numerous prizes for his books. Among them Pulitzer Prize, The Bancroft Prize for Historical history, "The Great River; The Rio Grande In North American History," the Campion Award, and others. This is his first novel in fifteen years. We have had this book since the first of the year.

Charles Ferguson has published a recent book, too, but his book prices are rather high for our Library and his books are not very popular here, altho he was

once one of our popular teenagers of Clarendon.

The March magazines are on our news stand, but we take only one copy of each so they go rapidly.

ter suddenly drop in the room, then it is pretty certain that if we have ever begun doing what ever it is, then we should quit it immediately if not sooner. I have talked with parents who had teen age children who didn't believe that they knew that beer was kept in the ice box, inasmuch as it was always in the back. Don't kid yourselves parents, because you are sure not kidding anyone else. Because remember this; if you have ever let your child find beer in your ice box or

if you have ever taken a drink before him or with him then, no matter if he or she becomes an alcoholic or a drunkard you have no right to quarrel with them. Because according to the doctors who have studied the effects of alcohol say that certain people can not help being alcoholic once they start. Then the real blame comes back to what ever and who ever influenced them to start. The same thing is true about gambling or any of the other things which we wouldn't want our children to do. The more we study and learn about the lives of youngsters the more we realize that it is the influences upon their lives that make them what they grow up to be.

Then another thing and this we learned the hard way. When you see that you have made a mistake in your life, and who among us has not, always be quick to take your son aside and admit that you did make this mistake. We remember at least one occasion when it almost took our hide to do this but we were glad afterward that we did. And we know from experience that we saved him from this mistake.

SOCIAL SECURITY INFORMATION

Self-employed farmers may use an alternate method for figuring earnings from their farm John R. Sanderson, District Manager of the local Social Security Administration Office, and Jim Pierce, Group Supervisor of Internal Revenue, Amarillo Office reminded farm operators today.

Mr. Pierce pointed out that self-employed farmers may figure their earnings for social security in several ways.

(1) If your gross income from agricultural self-employment is not more than \$1800, you may count as your net farm earnings either your actual net or 3/4 of

your farm gross income;
(2) If your gross farm income is more than \$1800, and your net farm earnings are less than \$1200, you may use either your actual net or 1/200;

(3) If your gross farm income is more than \$1800 and your net farm earnings are \$1200 or more, you must use the actual amount of your net earnings.

Pierce added that use of the option will enable farmers with gross income as low as \$600 to obtain social security protection for themselves in their old-age and for their survivors in case of death. However, he emphasized that regardless of the way in which you figure your net earnings, you must have net earnings of at least \$400 (from farming alone, or in combination with other SE earnings) in order to get social security credit for the year.

In addition to the revised optional method, the 1956 amendments extended social security coverage to some farm owners who receive cash or crop shares from tenant farmers. If the farm landlord under his agreement with his tenant, materially participates in the production or management of production of the farm crops raised on his land, this income, formerly excluded as rental income, may be reported for social security purposes. This provision is effective for taxable years ending after 1955.

Requests for information regarding taxes due and tax return forms should be directed to the Internal Revenue Office at Dallas, Texas. Questions concerning the old-age, survivors, and disability insurance program will be answered by your social security office at Amarillo, Texas.

F. H. A. Sweetheart Banquet

Have you ever wished that you could forget all your troubles and fly away? The Clarendon F.H.A. girls did just that on Feb. 14. Of course they did have to use their imaginations a lot, but at exactly 7:30 P. M., sixty-four F.H.A. girls and their dates assembled at the First Methodist Church for their annual Sweetheart Banquet. "Hearts and Arrows Airline Tour" was the theme used.

As the guests arrived, they weighed in their baggage (dates). Hearts, arrows, and cupid were used for wall decorations. Centering each table was a net ruffled heart which supported a miniature airplane. Plate favors were airline tickets for a five hour airline tour of such scenic spots as Fort Flirtation, Lover's Lake, Proposal Park, Ring Ridge, Mt. Matrimony, and Honeymoon Haven.

Miss Beth Gillham, F.H.A. President, was mistress of ceremonies and asked each person to fasten their safety belts as we prepared to leave on the imaginary trip. All dates weighing over 150 lbs. were required to form a chorus and to sing "Let Me Call You Sweetheart" before being allowed to go along. Jerry Behrens directed this group since he was the heaviest date present.

The first stop for the group was at Lovers Lake. A delicious meal of Braised Chicken, Scalloped Potatoes, English Peas, Warldof

Salad, Hot Rolls, Butter, Tea, and Confetti Cake was served by Mrs. E. S. Ballew's Sunday School Class. They were dressed as stewardesses. At Proposal Park, Sandra Pinkerton gave a reading "Valentine Troubles" and Dan Cupid, Robbie Lou Johnson, gave the group a few hints to make some courtships progress a little better.

The Hearts and Arrow Airline stopped over about ten minutes at Ring Ridge and Miss Wanda Ryan, Jo Ann Wood, Phyllis Hill, Sharon Smith, and Sandra Pinkerton were nominated by the F.H.A. girls to run for "Valentine Queen." At Mt. Matrimony Miss Wanda Ryan sang "The Loveliest Night in the Year," and "Chapel in the Moonlight." She was accompanied by Georgia Bell Harmon, F.H.A. pianist. The airline tour ended with the stop at Honeymoon Haven. Before leaving the plane, a secret ballot was taken of the five Valentine Queen candidates. Results were announced at the Valentine party immediately following the banquet, at the American Legion Hall.

1926 BOOK CLUB
Tuesday evening at 7 o'clock the 1926 Book Club entertained their husbands and friends with a dinner party at the Patching Club House.

The dining table was decorated with red carnations, double crystal candelabra and red candles. Guests were Mr. and Mrs. Walter Lowe, Mr. and Mrs. Rayburn Smith, Shamrock, and Mrs. George Benson. There were twenty-four members present. Progressive "42" was enjoyed by all.

Mr. and Mrs. W. F. McDonald, and son of Amarillo visited her parents, Mr. and Mrs. J. A. Ivey.

Sandra Pinkerton Crowned "Valentine Queen"

The American Legion Hall of Clarendon was the spot chosen to climax the festivities of the Clarendon F.H.A. Chapter on Feb. 14th. Gay Valentine decorations on the wall, balloons, and a giant six-foot heart just off the stage set the scene for the crowning of the Valentine Queen. Candidates and their dates were announced at the Sweetheart Banquet, but the identity of the real queen was a deep dark secret until 10 P. M.

Miss Sandra Pinkerton, daughter of Supt. and Mrs. W. W. Pinkerton, was crowned "Valentine Queen" by her escort Monty Mann and presented a lovely bouquet of red carnations as the song "Young and Beautiful" was played in the background. In her court were Wanda Ryan and Kenneth Housden, Phyllis Hill and Carl Evans, Sharon Smith and Richard Vallance, Jo Ann Wood and Owen Johnson, Beth Gillham, F.H.A. President, and Elbert Swearingen assisted with the coronation.

During the evening lovely refreshments of cookies, Cokes, potato chips, fritos and cheese dip were served from a gay table covered with a red linen cloth sprinkled with white cupid. Other guests for this occasion were Mr. and Mrs. Leman Wallace, Mr. and Mrs. Homer Bones, Mr. and Mrs. George Thompson, Mrs. Loyd Huff, Mr. and Mrs. John Gillham, Mr. and Mrs. Houston Bell, Mr. and Mrs. Hall Hardin, Mr. and Mrs. Pinkerton, Mr. and Mrs. Kenneth Vaughan, Mr. and Mrs. Alfred McMurtry. Hostesses were the F.H.A. Chapter Mothers: Mrs. George Smith, Mrs. Lee Bell, Mrs. Alfred McMurtry, Mrs. G. A. Lamberth, Mrs. Homer Bones, Mrs. L. L. Wallace, Mrs. Hall Hardin, and Mrs. John McClellan.

The program leader, Mrs. Hazel Brandon, introduced Dr. Geo. W. Smith of Clarendon. Dr. Smith gave a very interesting discussion on the program theme. His talk included many helpful suggestions. One of the main points of his discussion was for an individual to consider his physical limitations and live with them.

Comets Split Games With NBC Last Week

The Clarendon Junior College Comets and Nashville Business College split their two game series here last week. The Comets took Wednesday night's game 52 to 48 in an overtime battle, but NBC came back strong Thursday night and easily defeated the Comets, 59 to 37.

The Comets played a good game Wednesday night in defeating the always powerful NBC girls. Nashville held a 11 to 10 first quarter lead, the Comets rallied for an 18 to 12 halftime advantage, but NBC came back strong in the third quarter to take a 28 to 25 lead. The regulation game ended 40-40. In the overtime period, the Comets led all the way for their eventual win. Mary Mann was high for the Comets with 17 points, Kathryn Edwards made 10, Myrlene Nichols 9, Janice Martin 6, Nancy Challenor 5, Dovie Smithson and Myrna Carney 2 each and Linda Lindsey 1. Aline Garms played but did not score. Joan Crawford, popular Clarendon player the past two years, led the Nashville attack with 25 points.

Thursday night's game was a different story. The Comets could never get started and for all practical purposes were never in the game. Nashville took an early lead and led 14 to 9 at the end of the first quarter, 29 to 17 at the half and 45 to 24 at the three-quarter mark. The young Comets made many mistakes and the veteran NBC girls took advantage for their easy win. Mary Mann was again high for the Comets with 16 points followed by Dovie Smithson with 7, Myrlene Nichols six, Nancy Challenor three, Kathryn Edwards and Virginia Sellers two each. Doris Colbert made 18 for Nashville.

Mrs. Tren Stengel of Oklahoma City came to take her mother, Mrs. Lena Antrobus, home with her Thursday.

Egg Law Enforcement Began February 17

Texas Department of Agriculture John C. White, Commissioner
 On Monday, February 17th, official enforcement of the new Texas Egg Law was inaugurated by the Texas Department of Agriculture. Texas will no longer be the only state in the Union without legal protection for the egg industry.

The new egg law is essentially a grading and labeling act. Briefly, it requires all eggs sold within the state to be properly marked as to its grade—and the eggs must meet the specifications indicated on the carton or crate whenever inspectors from the Department make one of their frequent spot-checks at any level of trade.

The end result of this new law will benefit all persons connected with the industry. The producer is given an incentive to market high quality eggs that bring a premium price. The better his eggs, the more his profit and his good quality product will not have to compete on the same levels with inferior eggs.

The housewife, too, will be relieved of the hit-or-miss methods of egg buying. No guesswork is involved when she picks her eggs at the market. The grade on the box is the grade of the egg inside and she still will have a wide choice of quality and price according to her cooking needs.

The entire egg industry can expect a boost, also. For years, Texas eggmen have been plagued with false or misleading labeling methods within the trade. Various phrases were used in advertising which lead to confusion in trying to buy high quality eggs. Now the trade has a uniform system of grading on which to base their price.

In addition, egg handlers can buy and sell Texas eggs of a known quality without having to rely on out-of-state purchases for accurately graded eggs. This will help to keep Texas money in Texas.

When the Legislature passed the egg law, it also set up a Texas Egg Marketing Advisory Board to aid in policy making and enforcement problems. Agriculture Commissioner John White is chairman of this board, with D. W. Renuau of Seguin serving as vice-chairman.

Eldridge And Chalenor Crowned King & Queen

Bub Eldridge, popular freshman from McAdoo and Nancy Chalenor, equally popular freshman from Plano, were crowned Basketball King and Queen in an impressive ceremony at the College Auditorium last Friday morning. Members of the basketball teams, both boys and girls, participated in the program along with a group of students who presented various musical numbers.

Miss Chalenor, a beautiful and friendly blond, was crowned by Bill Schneider and Jimmy Adams, co-captains of the boys team while Eldridge, a handsome six foot, one inch, 180 pounder, was crowned by the co-captains of the girl's team, Myrna Carney and Kathryn Edwards.

Magazine Has Picture Story of Deer Fight

AUSTIN — White-tailed deer fights are seldom seen by man, and even more rarely captured on film. One such movie sequence, made by the Texas Game and Fish Commission in its film, "Hill Country", is described in the November issue of "Texas Game and Fish", the official magazine of the Commission.

The movie has been shown to more than 63,000 Texans since its release. The story of the fight and filming is told in "60 Seconds of Fury", by Theron D. Carroll, biologist, with accompanying pictures from the movie sequence by Lon Fitzgerald, official photographer.

The two men had waited three days in the Hill Country for something unusual they could record in their movie. The movie cameras had been focused for a turkey scene to be taken in the late afternoon, but a six-point buck challenged an eight-pointer on the wildlife stage just as the turkeys came by. The entire fight took less than a minute.

The major portion of your Heart Fund contribution remains in your community and state to support the local program against the heart diseases. The remainder is used to advance the battle conducted nationally by the American Heart Association.

Phoenician tombs estimated to be 3,000 years old have been unearthed by heavy construction machinery at Rota, Spain, where the U. S. Navy is building a modern air-sea base.

Heart diseases cause more deaths in the United States each year than all the other causes combined, according to U. S. Government statistics quoted by the Texas Heart Fund.

The Navy icebreaker USS Glacier has crashed through ice up to 25 feet thick at McMurdo Sound, Antarctica.

The American Heart Association and its affiliates have channeled more than \$25,000,000 into heart research since 1948. Help Your Heart Fund Help Your Heart.

Marines were stationed on board more than 500 ships of the U. S. Navy during World War II.

Hundreds of cities across Texas are conducting Heart Fund drives this month to support the battle against the heart and circulatory diseases through programs of research, education and community heart projects. Help Your Heart Fund Help Your Heart.

THE DONLEY COUNTY LEADER

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

A HOT TIME ON THE HILL

The hottest thing on Capitol Hill last week was the investigation being conducted by the Legislature Oversight Subcommittee. This is a Subcommittee of the Committee on Interstate and Foreign Commerce doing some investigating of federal agencies. I am not a member of the Subcommittee but am a member of the parent committee. In the final analysis, the Subcommittee will make a report of its activities to the parent Committee. The Subcommittee is headed by Honorable Morgan Moulder, a Member of Congress from the State of Missouri. Mr. Moulder is a very able lawyer and has been a hard

working Member of the Congress. He has a tough job on his hands and one that will require him to step on some pretty sensitive toes. The Legislative Oversight Subcommittee was set up originally to make a thorough investigation of the activities of the several agencies of the federal government such as the Federal Communications Commission, the Federal Power Commission, the Federal Trade Commission, the Civil Aeronautics Board and others. These commissions and agencies were originally set up as arms of the Congress to handle licensing and investigative work in matters concerning the public interests which required treatment of a quasi or semi-judicial nature. It was anticipated that these agencies would continually remain under the control of the representatives of the people, to wit, the Congress of the United States. However, during the late years, the agencies have gradually slipped out from under the

wing of Congress and have apparently considered themselves answerable to the Executive Branch of the government. Many people became disturbed about this trend because of the political overtones with which some of the decisions seemed to be clothed. There were charges that these agencies were overstepping their jurisdictional authority and were being used to further the political ambitions, as well as the financial ambitions, of a few favorite sons. There were many other charges involving the agencies. The truth or falsity of all the charges had to be determined, because these several agencies involved have jurisdiction over matters which affect the daily lives of every single individual living in the United States, such as railroads, buses, trucks, airplanes, radio, television, telephones, telegraphy, securities, trade practices, electricity, gas and many other things. The Subcommittee was formed

The police in the District have worked most diligently in an effort to stem this criminal tide. However, it seems to be growing worse, insofar as the personal attack types of crime are involved. One District resident has suggested in a letter to one of the local newspapers that the President remove the troops from Little Rock and bring them to the District of Columbia to cope with the situation.

Bulldogs Beat Howard County; Lose To Amarillo In Final Games

The Clarendon Junior College Bulldogs beat Howard County Junior College here last Friday night 86 to 78 and lost to the Amarillo College Badgers at Amarillo Tuesday night 65 to 54 to ring the curtain down on the regular season of 1957-58. The Bulldogs won 14 and lost 11 over the full season and won four and lost four in conference play.

Last Friday night, the Bulldogs played one of their best games of the season in beating the fast and aggressive Howard County team. Steve Jarnigan paced the Bulldogs with 26 points while Loyd Stephens made 16. Layne Cushenberry 12, Jimmy Adams 10, Dennis Love 7, Don Johnson 6, Bill Schneider 5 and Bub Eldridge 4. The Bulldogs were leading 42 to 24 at halftime and although the Howard County team hit 57 percent of their shots during the last half, failed to gain a point on the Clarendon boys.

The Amarillo Badgers got revenge on the Bulldogs at Amarillo Tuesday night. The Bulldogs played pretty well except that they could not seem to hit. Their defense, ball handling, etc., was up to par, but the Amarillo jinx held on. The Bulldogs have never been able to hit a respectable percentage of their shots in the Amarillo gym.

Jarnigan kept the Bulldogs in the game with 23 points. He was the only player to hit in double figures as Love came in with 8, Stephens 6, Cushenberry 5, Johnson 4, Adams and Schneider 3 each and Eldridge 2. Jim Bevers hit 21 points and Royce Hardaway 17 for the Badgers.

The opening minutes of play looked like the Bulldogs were going to take a real beating as the Badgers jumped into a 16 to 6 lead. However, the Clarendon boys began to hit and played their usual fine brand of ball for about ten minutes and pulled into a 27 to 21 lead. The Badgers rallied and Clarendon maintained a 29 to 28 lead at the half. In the opening minutes of the second half the Badgers built up an eight point lead and the Bulldogs could never catch up.

How the Bulldogs will fare in the final standings of the conference depend on results of games this week-end between Amarillo and Frank Phillips at Amarillo and Odessa at Howard County. There are a lot of "ifs" involved, but should Frank Phillips beat Amarillo and Howard County beat Odessa the Bulldogs could either win second place or at least tie for that spot.

LEADER CLASSIFIEDS GET RESULTS

Attempt Being Made To Organize Scholarship Society

Honor students of Clarendon Junior College who are ranked in the upper ten percent of the college according to scholastic standing and who have a grade average of not less than a B are attempting to acquire a charter for the organizing of an honorary scholarship society known as Phi Theta Kappa. It is a recognized honorary society whose object is to promote scholarship, to develop character, and to cultivate fellowship among the students of the college.

Five charter members have been selected by the college faculty to present a petition for the charter and they are Mary Jo Johnson, W. H. Brown, and Myrna Carney of the sophomore class and Don Pitts and Cheryl Schism of the freshman class. A committee composed of Miss Burnham, Mrs. Naylor and Mr. Cooper will evaluate the petitions that are presented and pick seven for membership from those who have presented petitions for membership. Under the leadership of the co-sponsors Weldon E. Day and Mrs. E. J. Walker, the charter members will initiate seven more members which is the maximum number of members that the society can have.

The organization will have fund raising campaigns in the future to help maintain its projects and other activities, but there is an urgent need for some financial help in order for the chapter to materialize this year, and all contributions and support will be greatly appreciated. The society will not only help the students, but will raise the prestige of the college and the community. It is also the first attempt in several years to organize a society of this kind, so that the students who rank high scholastically will be recognized for their effort.

Curtis Mears Complimented For Service
