

# MUENSTER ENTERPRISE

VOLUME VIII

MUENSTER, TEXAS, COOKE COUNTY, FRIDAY, MARCH 10, 1944

NUMBER 16

Good news for everybody but the 4-F's. There are going to be some changes made. At long last somebody has decided that men of minor disability can be used to advantage in the service. So, rather than put unnecessary strain on essential industry and family circles, Selective Service will be a little less rigid in its demands.

A good idea. So good it should have been put into effect at the very beginning. We'd have fewer idle farms and broken homes if it had been. Not that either deserves special privilege but only that people of less responsibility should be called first.

The reason given is that many of the jobs in the service can be adequately filled by men now classified as 4-F. Amazing, isn't it, that the draft machine took so long to discover what practically everyone else knew all along?

To make the situation even more ridiculous, the army has been hiring 4-F's. There are cases galore of men who were turned down by medical examiners and then landed camp jobs. For anything from 125 to 250 per month. Which was a lucky break for the fellows, of course, but not so good for the taxpayers. Meaning you and me. We'll put out a lot of extra effort to make up for the billions pooped off by mistakes. All because of failure to realize that 4-F's can work as well in uniform as in civilian clothes.

This isn't just a matter of drafting either. Lots of volunteers were rejected because they did not come up to the army's specifications. Some were patriotic youngsters with minor physical defects, some were veterans of the first war, too old to be accepted in this one.

And all the time the army had more limited service jobs than limited service men. Supply, kitchen, maintenance, finance, truck driving are only a few examples. Doing such work as that, what difference does it make, a person has flat feet, murmuring heart or hernia? Actually a guy with a peg leg can sit at a desk as well as an all-American athlete.

Another common practice that seems to be completely screwy is releasing men from service because of minor physical handicaps. Thank goodness, something is being done about that now. The man who can't take it in regular duty is being transferred to some thing less strenuous. Like a WAC, he can swap places with some able bodied man who is tough enough for the hard grind.

Suppose our government had known a couple of years ago what it has learned since. Just what system would it adopt in running this war? Betcha it would be plenty different from what it is now. First of all it would probably take 4-F's and veterans, put them at jobs they could handle and let 'em stay there. Maybe start a little earlier on the WAC drive and even draft a few if the response were not satisfactory. Besides that it would probably put essential workers on a soldier basis there by heading off strikes and skyrocketing prices. Also eliminate the cost plus racket to prevent fabulous profits.

Inequality in this thing has been pathetic. People in war plants, who are in the fight as definitely as those at the front, are a part of the grand strategy. So is every laborer and contractor who helped build the camps and ships, every civilian who holds down a steady job in a camp. They're all in the fight and should share in the sacrifice.

In spite of all the blunders we have to admit this is a grand old country. Amid the confusion we can see the nucleus of democracy. The big idea behind it all was to preserve traditional freedom as much as possible, even through the emergency. But there a person is dealing with human elements. The fault was not in our system but in those who were to apply it. The cost plus basis is fine as long as grafters do not run up unnecessary costs. Labor privileges are desirable as long as they are not abused by unscrupulous racketeers. Rationing is fine as long as people abide by it conscientiously. Selective Service is fair but, because of the human element again, not all selections are prudent or just. Efforts to maintain efficiency in our fighting forces is commendable but it need not exclude men of minor handicaps.

The big difference between this and normal times is that human weakness asserts itself more under strain. To make matters worse, the men in control are usually too much concerned with the one great emergency to turn their attention to the other problems. Only occasionally we see signs of a vigorous flare up.

It was comforting to note a few (Continued on Page 4)

OUR BOYS WITH THE COLORS

**Pictures From Cassino**  
Mr. and Mrs. Joe Lehnertz received a group of kodak pictures last week from their son S. Sgt. Jimmy Lehnertz, taken at Cassino. Included are pictures of scenery in that sector, one with the Benedictine Abbey in the background, prior to its destruction by bombings of Feb. 15, and several of Jim and his buddies. On one the boys are sitting on the steps of a gun-riddled building, the bullet holes plainly visible, and another shows them in front of an attractive ancient edifice. No explanatory notes accompanied the pictures, however.

**Has First Furlough**  
Pvt. Roman Klement arrived Saturday to spend his first furlough with his parents, Mr. and Mrs. John Klement and family here. In the army since Oct. 16, 1943, he was stationed at Fort Knox, Ky., and last week completed his basic training there with an armored unit. While at Fort Knox, Pvt. Klement won medals for qualifying as an expert with the machine gun and as a sharpshooter with the rifle.

**Now in England**  
Tech. Sgt. Anthony Luke, in a letter written to his parents, Mr. and Mrs. Ben Luke, on Feb. 14, advises that he recently arrived in England and, that at last, his Christmas mail is catching up with him. Previously he was in Italy and Ireland.

**Elmer Is A Sergeant**  
Elmer Fette was recently promoted and is now a full-fledged sergeant. He is at present back in Hawaii, according to a letter his parents, Mr. and Mrs. John Fette, received from him this week. He mentioned "having been several places" during the past few months, but did not explain further. He has seen and visited Pvt. Emil Rohmer and Pvt. Carl Schilling since he is back at Hawaii and said his next visit would be with Lt. Norman Luke.

**In Italian Hospital**  
Mr. and Mrs. Ed Eberhart have a letter from their son, Pvt. Bill Eberhart, written on the 21st of Feb., in which he informs them that he is confined to a hospital in Italy, and adds, "Don't Worry." He has been stationed in the Italian war zone for the past several months. No indication of why he is in the hospital was given.

**Reports OK in Italy**  
Pvt. Vincent Felderhoff, writing from Italy on Feb. 21, tells his parents, Mr. and Mrs. John Felderhoff, that he is still on duty with the 5th army in the Cassino sector. At the writing he was behind the fighting lines for a few days of rest following a month of combat during which period he didn't even have time to shave. "By the time this reaches you I will be back with my company on the front," he added.

**Chaplain Zimmerman Writes**  
Captain Francis Zimmerman, whose address now bears an APO number care of Postmaster, San Francisco, has written a short letter to the Enterprise, which is in part: "My whereabouts and activities are still veiled in military secrecy. As soon as our Uncle says I can tell some thing I certainly will. At this stage of the game I greet all the people of Sacred Heart Parish, my friends, and ask a special 'Ave' for myself. Daily do I remember the parish. I will never forget the six happy years I spent there as assistant, the many kindnesses and favors and foremost, the deep respect I enjoyed. May God bless each and everyone of you with His choicest benedictions. A good many of the people in Muenster write me from time to time. I should like to hear from ALL of them." (Father Francis' address is available at the Enterprise office here, or may be secured from his parents, Mr. and Mrs. I.A. Zimmerman, at Lindsay.)

**Receive OK Cables**  
Messrs. and Mmes. J.J. Haverkamp, Joe Swirczynski and John Walterscheid and John Yosten had cables last week from their sons, S. Sgt. Leo Haverkamp, Pvt. Richard Swirczynski, Cpl. Norbert Walterscheid and Pvt. Richard Yosten, advising, "OK. Don't worry." The parents think their sons were with the large convoy reaching England recently, and are expecting letters with more information soon.

Cpl. Bill Knabe of Camp Walters was home for a weekend visit with his parents, Mr. and Mrs. Gus Knabe.

**IN ENGLAND**  
—Cpl. Norbert Walterscheid, son of Mr. and Mrs. John Walterscheid, has arrived safely in England, his parents learned this week. He entered the army in February 1943 and received his basic training at Camp Hulen, a facility which he participated in maneuvers in Louisiana.

**Letter From India**  
Pfc. Larry Yosten, stationed in India with the army, in a letter to his parents, Mr. and Mrs. Bob Yosten, writes about some of the customs in that country. He tells of attending a Hindu funeral in which the native's body was taken to a river and ducked under, then put on a pile of brush and burned, no one seemed sad, everyone was jabbering and cutting up. Returning from that service he met another funeral procession, entirely different from the first, this time a cow was being buried with much solemnity, flowers and weeping. The natives, he remarks, all go bare footed, and wear the traditional sheet thrown over their heads, and at the time he wrote the natives were having a jamboree of some sort, during which they were keeping up a constant drumming which had been going on for several days and nights without intermission. "The noise almost drove us fellows batty, it sounded so awful," he added. Best wishes were included for the Muenster folks.

**Souvenirs From Many Lands**  
Arriving during the past week to relatives here were numerous souvenirs sent by their sons and brothers from foreign countries. Mr. and Mrs. Joe Lehnertz received a hand carved tray of tangle oak from the Australian timbers, a gift from their son, S. Sgt. Earl Lehnertz. He is stationed in New Guinea but mailed it from Australia when he was in that country some time ago. Mr. and Mrs. Paul Endres received a tea set of Bavarian china, which he bought in Sicily. The delicate, featherweight dishes arrived without so much as a crack or a chip, in spite of the many miles they traveled. Also from W.O. Endres came a tiny peasant cap of many colors for his nephew, Jimmy Fuhrmann. Meanwhile the youngster received a hand made ring from his father, Pfc. Valentin Fuhrmann, from Albu. The small silver band is fashioned from a coin from that out post.

**15-Day Furlough**  
Pvt. and Mrs. H. J. Schneiderman are here to spend a 15-day furlough with her mother, Mrs. Carra Paset and his relatives at Independence, Kansas, where he is on duty at an army air base.

**In California Hospital**  
Joe Devers, SIC, a veteran of battles in New Caledonia, Guadalcanal, Munda and New Georgia Islands, arrived back in the states on the 23 of February and is confined to a hospital at Shemacher, Calif., on account of a stomach ailment. He has written his fiancée, Miss Adeline Knabe. While in the foreign countries above mentioned Seaman Devers sent Miss Knabe a collection of souvenirs which he made from parts of Jap Zeros. Included are a bracelet made from a light-weight, aluminum-like material, and a bracelet fashioned from the windshield of a Zero, and two hand carved rings, of some character silver metal. Another souvenir is a miniature cedar chest, made by hand throughout, even to the tiny hinges which hold the lid. The items were on display at the Enterprise office during the week and were inspected and admired by dozens of persons.

Mr. and Mrs. Al Swirczynski and children of Dallas were weekend guests of relatives in this city

## 3 BUILDINGS BURN AT GIMPLE FARM IN SATURDAY A.M. FIRE

A fire early Saturday morning at the farm of Mr. and Mrs. Carl Gimple south of Gainesville, resulted in damage estimated at \$600. Completely destroyed by the blaze were the garage, brooder house, smoke house and a storage room, along with 100 baby chicks, 18 gallons of lard, some 800 lbs. of pork, and other items. The loss was not covered by insurance.

The fire was discovered by Mr. and Mrs. Gimple at 2 a.m. and the only thing they were able to save was the pickup which he drove from the flaming garage shortly before the roof collapsed. Fortunately the brisk wind was from the north, had it been from the south the house would have been in danger.

Seriously threatened was the dairy barn, and neighbors who were aroused by the fire, posted themselves about the barn with a water hose to protect it from becoming ignited.

The blaze is thought to have started from an oil brooder in the brooder house, which was the building between the garage and smoke house.

## MRS. CARL HERR IS ELECTED PRESIDENT ST. ANNE'S SOCIETY

Members of Saint Anne's Society, meeting in session Sunday afternoon, held their annual election of officers and elected Mrs. Carl Herr as president. She replaces Mrs. Felix Becker, who served several years.

Re-elected for another year are Mrs. Albert Henschel, vice-president, and Mrs. Lena Streng, secretary-treasurer.

A new committee, elected Sunday, is the Sick Committee and chosen to serve on it are Mesdames Ben Hellman, M. J. Endres and J.A. Fisher.

Routine business was discussed, a financial report for 1943 was given by the secretary and plans for coming activity were made.

Rev. Father Thomas, spiritual director, met with the group.

## Hatchery Asks Patrons To Place Chick Orders Now; Will Close May 1

As the Muenster Hatchery enters the last half of the hatching season, Felix Becker, manager, this week stated that all persons desiring chicks are asked to place their orders at once, to avoid disappointment, as the hatching season this year will be a short one.

The hatchery will close on May 1st and there will be absolutely no May chicks.

He added that business has been good, that persons have cooperated nicely and he mentions the fact that they get their orders in at once, so that all business can be cleared up by the last of April.

## Funeral Rites For Mrs. Hoehn Held Saturday

Funeral services were held here Saturday morning at 10 o'clock for Mrs. A.T. Hoehn, 59, who succumbed to an illness of pneumonia and complications in a Gainesville hospital the preceding Wednesday. Rev. Thomas Buegler, pastor of Sacred Heart church, officiated at the requiem high mass and at the burial in the Muenster cemetery and also delivered a short, inspiring sermon.

Serving as pallbearers were Walter Richter, Edward and Werner Cler, Martin Bayer, Herman Fette and Joe Trubenbach. Herman Fette and Joe Trubenbach, directors of George J. Carroll and Son Funeral Home of Gainesville.

Survivors are the husband, two daughters, Mrs. Ed Cler, Garland, and Miss Jane Hoehn, a senior cadet with the army nurses corps, Austin; four sons, Lt. Albert Hoehn, with the Navy, somewhere in the Marshall Islands; Lt. C.M. Hoehn, with the army air corps, stationed at Tallahassee, Fla.; Aviation Student, Jack Hoehn, training at San Antonio, and Bill Hoehn, who resides at home, and one granddaughter of Garland.

Also surviving are two sisters, Mrs. Margaret Touline, Springfield, Ill., and Sister Ernestine of the order of Saint Vincent De Paul, of San Jose, Calif., and a nephew, Rev. Edward Case, S.J. of St. Louis, Mo.

Mrs. Hoehn was born Bertha Donnelly in Chatham, Canada, on June 10, 1884, a daughter of the late Mr. and Mrs. John Donnelly of Illinois. He was supervisor of lumber camp in Canada at the time of Mrs. Hoehn's birth and the family moved back to the states, making their home in Odessa, Ill., when she was four years old. Later they moved to Texas and it was at Ballinger that Mrs. Hoehn entered nurses training, graduating in 1912. She was married there to Mr. Hoehn on August 1, 1917, and the following year they moved to Burkburnett, residing there until 1927, when he was transferred to this city by the oil company for which he is employed. They resided here since.

Mrs. Hoehn had scores of friends in Muenster and neighboring communities, who loved her for her generous nature and the interest she took in the welfare of her friends and neighbors. She was a devoted wife and mother and a faithful member of Sacred Heart church.

Her death came as a shock to all who knew her, as she was ill less than two weeks and her condition was not considered serious.

All of the children with the exception of Lt. Albert Hoehn were here for the funeral services.

## SPRINGTIME IS KITE TIME — FLY THEM SAFELY, IS WARNING

With the approach of spring, youngsters are beginning to answer the urge to fly kites.

"In wartime, such as the present, it is patriotic as well as wise for kite-flyers to exercise special care," pointed out C.B. Stringer, district manager of Texas Power and Light Company, in emphasizing the precautions which should be taken when indulging in the popular springtime sport.

Chief among these is to fly kites in open spaces where there are no electric power lines. Kites which fall across, or become entangled in, power lines endanger the continuity of electric service to industries which may be engaged in production of vital materials needed in the war effort.

Another precaution is to use no kites which contain metal or string with wire in it, since metal is a conductor of electricity.

Flying kites in the rain is also considered hazardous since a wet kite string is also a conductor of electricity.

As a fourth precaution, it is urged that kite-flyers not attempt to disentangle any kite that should fall in an electric line, but call the electric service company, which will send a trained man out to remove the kite.

## RedCross Drive Has Fine Start

**Parochial Students To Give Operetta Sunday To Swell Local Purse**

A unanimous support of the Red Cross War Fund is apparent here according to reports by local solicitors this week. The workers began the campaign last Wednesday and continue to bring back stories of whole hearted response they are meeting and a surprising eagerness to contribute to this life-saving cause. Not merely to enroll to protect one's self-respect, but to give for the good it will do to others.

The oneness of the purpose prevails throughout the sectors the solicitors have worked, and though no figures were released by Chairman Mrs. G.H. Hellman, she stated that Muenster made a wonderful beginning toward its \$1,100 goal during the first week of the drive.

In the county one-third of the quota of \$23,400 was reported turned in by Wednesday of this week.

The emblem of membership in this drive is a small white metal flag with a red cross upon its face. Membership cards are also given to all donors.

Local solicitors are Mr. and Mrs. G.H. Hellman and Mrs. Jim Cook, who are working both residential and rural districts. Persons who find it more convenient, may leave their contribution at the Muenster State Bank.

**Students To Give Program**  
Students of Sacred Heart School will present an operetta in the parish hall Sunday afternoon, following Lenten Devotions, proceeds of which will be turned over to the current drive.

It was pointed out that no admission charge will be made, that everyone is welcome to attend the program, but that those who want to make a voluntary contribution are urged to do so, as this money will immediately be turned over to the Red Cross local fund.

## REV. THOMAS HONORED WITH FEAST DAY PROGRAM TUESDAY

Honoring Rev. Father Thomas on the feast day of his patron Tuesday pupils of Sacred Heart school presented a delightful program under the direction of the Benedictine Sisters and gave the honor guest a spiritual bouquet and a shower of gifts.

The Glee Club opened the program with a feast day song, after which Johann Seyler brought the welcome and greetings address in the name of the student body and the faculty.

An operetta, "Highway Happiness" headlined the bill and was dramatized and vocalized in a pleasing manner on a stage appropriately set to depict a highway, surrounded by shrubs and flowers. Over this highway, during the course of the play, passed boys and girls of many lands, and those from almost all walks of life, all acting their parts while the glee club furnished the musical words.

Superb costumes, complete to the minutest detail, added a note of the realistic to the show, which was a fantasy through which fairies danced and flowers rose to sing. Outstanding were a minuet, dances by Dutch maidens and Spanish señoritas, a solo Chinese dance and an Indian war dance.

The operetta was directed by Sisters Geraldine and Georgia.

At the close of the first and second grades appeared in a short humorous skit, and then presented the pastor with a spiritual bouquet. The concluding number was the presentation of a horn of plenty, overflowing with gifts, to the honoree.

Father Thomas then gave a short address in which he expressed his appreciation for the program and the presents.

Immediately afterwards members of Saint Anne's Society served refreshments to the adults in attendance, while students were granted a recess for the remainder of the afternoon and a holiday on Wednesday.

The program was presented at 1:30 in the school auditorium and was attended by a large number of mothers and friends, in addition to the pastors, faculty and student body.

**In New York Hospital**  
Mr. and Mrs. Frank Hess have word that their son, Pvt. Raymond Hess, is confined to a hospital in Brentwood, N.Y. His illness prevented him from accompanying his company overseas.

## "H" hour on the dairy sector

Puts curl in the tail

Remember these three things about Dr. Hess Hog Special:

1. It supplies vitamin D in a very stable form, and hogs need vitamin D, especially in fall and winter when there is less and less sun.
2. It supplies minerals. Minerals that are essential for bone and tissue development. For good growth, plenty of framework, and good gains.
3. It supplies tonics that aid digestion and assimilation of feed. Especially important today when there is a scarcity of protein supplement.

Get Hog Special now—we have an ample supply.

Count this man among the hard fighters for a United Nations' victory. Seven days a week, every week, he is in the front line of the battle for food.

His "objective" has been set. He is to help produce more milk than the nation has ever produced before, milk and the products of milk being rich in nutrients we all need for health and strength and stamina.

Because cheese carries important food values of milk in concentrated, shippable form, the Government's requirement for our fighting men and fighting allies is estimated at

nearly 400 million pounds this year. And over 500 million more pounds of cheese are needed . . . for you and other civilians to share.

Winning the battle on the dairy sector will be far from easy; there are many obstacles to overcome. But our dairyman friend was in action when "H hour" ("the hour of attack") came before sunrise today. So will he be tomorrow and the next day.

He'll get no decoration for heroism in service, no medal to wear on his Sunday-best suit. But he doesn't care. This is his job, his vital job in the war . . . and he'll do it.

Because of the tremendous demand, both military and civilian, you may not be able to get as much Kraft Cheese as you would like, or get your favorite varieties—Kraft American, "Old English", "Philadelphia", Brand Cream Cheese, Velveta, and so on. But you may be sure, as always, that any cheese or cheese food which bears the Kraft name represents the very highest standard of quality.

*of Sacred Heart High School Celebrates Feast Day of Father Thomas*

Tuesday, the feast day of St. Thomas Aquinas and feast day of our pastor, Father Thomas, was duly celebrated by the students. The high school Glee Club rendered the singing at the High Mass that morning.

"We tell you now why we stay on this highway To my surprise if one were wise They'd always stay on this highway."

Such were the words of the heralds, Gerald Beyer and A.J. Felderhoff at the opening of the High School Operetta "Happiness Highway" which was presented Tuesday afternoon in honor of

YOUR TIRES MUST LAST FOR THE DURATION

DON'T let occasional stories about imminent release of new tires confuse you. There is no prospect of any being on the market for consumer use. That means the tires now on your wheels need frequent inspection, and RECAPPING at the first sign of wear.

### RECAP If You Can't RE-TIRE

Only a tire specialist can tell you whether the rubber in your tires is good enough to warrant a recapping job. If it is — here's the solution to your tire problem! We do a job that will prove satisfactory and safe. Drive around today for the recapping job that will help your present tires last until you can get new ones.

the feast day. Happiness Highway? Yes, here we found sunshine, flowers and blue birds singing. The jolly policeman, played so realistically by Alfons Koesler, gave way to the Health Squad led by Norbert Marges, a promising vocalist. The Happy Girls, Minuet Dancers, fairies, flowers, cowboys, and Indians followed each other on Happiness Highway. On this road we also found friends from Spain, Holland, and Ireland. They were dressed true to the fashions of their countries in every detail. Juanita Weinzapfel and Helen Ruth Otto, as Dutch Girls, wore wooden shoes which sounded time to their dance.

Special thanks is given to Sister Geraldine our director, Sister Georgia for costume designs and Johann Seyler for dancing directions and Juanita Weinzapfel for piano accompaniment.

After the program Father Thomas spoke and thanked the students for the performance. To show his appreciation he granted a free day on Wednesday.

### Sports Review

Hurrah for the boys. Last Wednesday they won an overwhelming victory in basketball over the Public School. The score was 32-10.

The girls were not so victorious in their Volley Ball. The Public School won two out of three games.

But the girls are on their toes in other fields. At last after weeks of waiting for favorable weather they have been able to practice Basket Ball with Sister M. Geraldine as coach. Every girl that is on the team is required to learn the rules.

### 4-H Club Meeting Feb. 28

The High School Division of the 4-H Club held its regular meeting Monday afternoon at 2 o'clock, with Mary Evelyn Seyler, president presiding. Several interesting talks were given during the meeting. The speakers and their subjects were the following: Rose Marie Becker, "Why We Need Vitamins", Philomena Felderhoff, "How to Get Berry Sprouts and Care For Them", Margie Ann Erdres, "How We can Produce Food With More Vitamins", Della Rose Endres, "How to Make and Care for Grape Cuttings".

Sister Georgia gave an excellent talk on foods and vitamins and mentioned several recipes that combine raw vegetables and fruits to make tasty vitamin salads and other dishes.

Mrs. Joe Lake showed cuttings from shrubs that grow in the locality and told us now and when to make cuttings.

Mrs. J.M. Weinzapfel, sponsor, and Miss Olivia Stock, president of the Civic League were also in attendance.

### CARD OF THANKS

We gratefully acknowledge every kindness and all expressions of sympathy during our recent sorrow. We appreciate all the thoughtful deeds, the flowers and the spiritual bouquets, and offer a special word of thanks to Texas Company employees for their consideration.

### How to Care for Your Gas Range

Do not put wet dishes directly on the enamel. (This enamel is glass.) Protect top with asbestos mats.

★ ★ ★

Wipe off spilled foods at once, with dry cloth. Later when range is cool, clean with damp cloth.

★ ★ ★

To clean top burners of aluminum or enamel, use mild soapsuds; rinse and dry. (Do not boil in soda solution.)

★ ★ ★

To clean broiler grill, let cool before washing with soapsuds; use fine steel wool. (Remove grill and pan from the range, as soon as food is taken off.) Whenever possible, use only a moderate heat for broiling, and you will find the broiler easier to clean. (Many foods broil well with a moderate heat.)

★ ★ ★

The oven-lining will last longer, if you roast meats at low temperatures (250° to 325°). It makes better tasting meat, besides, and also cuts down grease-spatter on oven-walls.

★ ★ ★

To clean up spill-overs on oven-floor, let cool, and then use a fine steel wool.

such incidents lately. One is the much ballyhooed congressional revolt against executive domination. We need more of it, with the ultimate result that the functions of government will return to their proper departments. More so that no one department, especially a one man department, will have more than its share of power. A logical development of our trends during the past several years could easily lead to dictatorship. Perhaps not as vicious as Hitler's brand — but the point is we don't want any kind of dictatorship.

On the par with that affair is the present rumbling of approaching storm over the refusal of some administrative officials to testify before congressional committees. Here's another opportunity for congress to assert its rights. Unless it does it will have failed the whole nation. A sacred tradition of our government, actually the corner stone of its security, is at stake.

Imagine our predicament when the directors of administrative agencies cannot be held accountable for their actions. Every alphabetical concern in the whole long list could run hog wild and get away with it. One of the functions of congress is to deal with such cases. And it had better exercise its function, for its own and the nation's sake.

The first impression to strike us here is that somebody's hands are not clean. Otherwise why the refusal to show them? And if that's the case we want congress to do its worst. We don't want that kind of hands handling our funds.

There are ramifications too. They speak of "whitewashing" the probe in an effort to spare administrative officials and advisers. To which we reply, "let's see all the hands."

Incidentally, two of the officials

spent the latter part of last week here with his mother, Mrs. Anna Wiese and other relatives. He is leaving this weekend to report for army training. On Friday evening he was honored with a farewell party at the home of his brother-in-law and sister, Mr. and Mrs. W.J. Schmitz at Gainesville for which relatives and friends were guests.
