NUMBER 13

At the rate communism has been gaining lately, and at the rate our country is being insulted and pushed around by two-bit dictators, how long can we survive as a free and independent nation? Don't brush that question off lightly. Think of it seriously in relation to our humiliations in Cuba, Panama, Zanzibar, Venezuela, Vietnam, and practically any other place where we have had clashes with the red menace. Everywhere the answer is the same. We are losing. If things keep going this way it is only a matter of time until we will be taking our orders from Moscow.

And while all that is going on we are promoting a disarmament program to convince the enemy of our sincere desire to keep the peace. We are demonstrating our good will by offering to turn our fighting forces over to the UN, subordinating our own national self interest to the cause of world peace and co-existence.

When the arrangement is completed, in just a few years, there will be no more aggression anywhere because the international police force under UN command will keep order everywhere. Success in that venture is assured, of course, because no country will have enough troops or equipment of its own left to give the UN army any serious trouble.

It all sounds wonderful if you are an idealist. But it sounds like a nightmare if you are practical. Imagine the possible consequences, which also happen to be the probable consequences. You know what kind of a record the UN already has. In Korea it would not permit its forces to defeat the reds. In Hungary it did nothing to stop the Kremlin's butchers. In the Congo it sent troops to crush the freedom fighters and help the reds seize power. It has howled constantly about the old colonialism while working to establish the Soviet colonialism. It has condemned American imperialism while helping to extend the Soviet empire.

That's the record of the UN. That's the outfit to whom our State Department proposes handing over our arms and our soldiers, leaving only a token force here to keep order among us. How does that idea impress you? — considering the UN's past performance as an organization to make the world safe for communism!

You can imagine what would happen. Reds, who are running the UN show, would send your sons and brothers under their own leaders to distant countries to slap down every bid for freedom by local patriots. Meanwhile they'd have reliable red troops here keeping us in line. The conquest of this country would have been accomplished as Lenin predicted — by plucking it as a fruit when the time is ripe.

Obviously, this is not the picture drawn by Adlai Stevenson, our delegate to the UN, or the State Department. They expect a big happy family of nations, all getting along wonderfully, and a cooperative group of UN leaders exercising a high standard of wisdom and justice. But is that what you expect? From what the UN has done up to now, isn't it more likely to finish its job of communicating the world?

Believe it or not, that disarmament plan is already in motion. Egg heads have convinced our administration that the way to relieve world tension and get along with the reds is show them that we trust them. Well, what do you think of the idea? Do you trust them?

This situation, along with the problems arising from frequent communist inspired incidents, Soviet wheat deals and the like, point out with absolute certainty that the important issue this election year is communism. Though concerned about inflation, taxes, civil rights, unemployment, and other things that affect our daily living, we still have to admit that none of them count if communism takes over.

It's gratifying to note that some political candidates this year are bearing down on the red issue. And one of the foremost among them is Robert Morris, Republican candidate for this state's Senator. As a man who spent years investigating and prosecuting

District Banquet Heads Program For FFA Week

Members of the Muenster FFA Chapter this week are joining other members of the state and nation in observing Future Farmers of America Week, which traditionally is proclaimed during the week of George Washington's birthday.

Their main event is participation Thursday night at Denton in the annual district banquet along with election of district officers and sweetheart and presentation of awards. The award he is receiving is the highest that can be earned by a FFA member on the state level.

The Muenster chapter's candidate for the title of district sweetheart is Pat Fette. Each of the district's twelve chapters has an entry in that contest.

Other business at the banquet is the election of district officers and also the district nominee for the election of area officers to be held later.

Several members of the local chapter, along with John Walterscheid, Miss Fette and Chapter Adviser Edgar Dyer, plan to attend the district banquet.

Another event for the week was Dyer's participation in a special radio program on KGAF Monday featuring FFA chapters of this area.

The chapter's local banquet, which used to be held in FFA Week, will be held later in the school year. The chapter's membership this year is 33.

Emergency Unit Serves Hospital In Power Failure

The stand-by generator at Muenster Memorial Hospital did fine on its first test Tuesday afternoon. Tommy Hesse, maintenance man, reported that it turned on automatically about thirty seconds after a power failure and turned off when power was restored.

The stand-by unit consists of a gasoline engine and generator. It provides current for the emergency circuit, which serves surgery, delivery room, emergency room and a number of lights scattered over the hospital. Even during a power failure the hospital can continue its urgent services and provide adequate light.

Cause of the power failure was a broken 12,000 volt line just north of the Parish Hall. Kenneth Selby of the TP&L service crew repaired the break and restored service in about 17 minutes. He said that wind swinging the wire had caused it to snap.

A CABINET POST FOR QUALITY

The President, ever mindful of the election 10 months away, has appointed a woman to a cabinet post. Mrs. Peterson, a union leader will check the quality, labeling of consumers goods 'in the public interest.'

the Government assumes it can dictate taste, fashion — and now, quality of goods. They assume that 'in the public interest' they (the bureaucrats) are in the best position to regulate and control what the public will buy. The opposite is the truth, of course. The decisions are made by the housewife in the market place. If the goods are not of good quality they will not sell. This is a lesson Mrs. Peterson and the President will learn and it won't take a slide rule in the supermarket or grocery store to check size or label. — Waterville, Wash., Empire-Press

YOU CAN'T HAVE IT BOTH WAYS

ECONOMY MUST APPLY TO ALL

There have been disturbing signs of late that proposed cuts in federal spending are not receiving the whole-hearted support that should be accorded them. Some members of Congress have indicated that while they are strongly in favor of over-all federal budgetary economy they will resist cutbacks in spending that affect their particular districts.

If that attitude persists and spreads we believe that a very serious blow will be dealt the economy efforts. Federal spending cannot be effectively reduced if a lot of pockets of immunity from its provisions are set up. It has to apply to all areas and all situations with equal force if sizeable deductions are to be realized.

There is another serious aspect of the issue that should be borne in mind — the danger that loudly voiced opposition to cuts will be used by the Washington big spenders as a "mandate" to increase rather than decrease expenditures.

THE WAY TO CURE POVERTY

The alleviation of poverty has been a major objective since civilization began. But a strategic goal must be accomplished by a tactical plan — that is, a method of achieving the wanted end. President Johnson's idea is to do it by heavily-increased federal spending for a multitude of projects.

Henry Hazlitt, one of the clearest writers on economic matters, in a Newsweek article says: "The way to cure poverty is not through inflation, 'share-the-wealth' schemes, and socialism, but by precisely the opposite policies — by the adoption of a system of private property, freer trade, free market, and free enterprise. It was largely because we adopted this system more fully than any other country that we became the most productive. . . ."

"The way to combat the remaining pockets of poverty is to keep this system; to reduce government intervention instead of increasing it; to reduce government spending and punitive taxation — in brief, to increase the incentives to the initiative, effort, risk-taking, saving, and investment that increase employment, productivity, and real wages."

It may be that direct government tax spending is needed in a few distressed areas. But, overall, the weapons Mr. Hazlitt advocates are precisely the ones we must depend upon.

TITO'S NEW PLANT

On September 1 Tito and Khrushchev toured a model Yugoslav \$40 million plastic plant. This Yugoslav plant was (1) financed partially with a \$23 million U.S. Foreign Aid grant, (2) equipped with U.S. machinery, (3) everything was designed by U.S. engineers, and (4) it was constructed under supervision of U.S. technicians.

Yugoslav and Russian flags flew gaily as Tito and Khrushchev inspected the factory, but nowhere at the plant was there a sign indicating the part that the United States played in building this factory for Tito's brand of Communism.

... INTO DARKNESS

There could be no more complete misnomer than the so-called "Civil Rights Act of 1963." It is belligerently uncivil. It destroys rights of all rather than protecting the rights of any. And while, mercifully, it was not passed in 1963, Congress is being pressed now for passage of a revised version that is not "watered down," but more drastic and more sweeping than the original.

This measure should, in all truth, be renamed the "Socialists' Omnibus Bill of 1963." That its concern for "discrimination," "race" and "religion" — none of which terms is defined in the bill — is a cover for an unprecedented power grab by the Executive is revealed in such language as: "The President is authorized to take such action as may be appropriate . . ." and: "Each Federal department and agency . . . shall take action to effectuate . . ." Title VI, if you read it carefully, reveals the \$100 billion blackjack that is to be swung over the heads of all — to belabor all races and all creeds.

A minority report filed by six members of the House Judiciary Committee, Reps. Willis, Forrester, Tuck, Ashmore, Dowdy and Whitener — all of them Democrats, all of them lawyers and all of them

experts on this type of legislation — declares flatly that the bill is unconstitutional and points out that it "vests almost unlimited authority in the President and his appointees to do whatever they desire."

It reminded them, they said, of the words of George Washington: "Government is not reason, it is not eloquence — it is force. Like fire, it is a dangerous servant and a fearful master . . ."

And in conclusion these lawmakers said: "In all the years Congress has pondered the equities of civil rights legislation, no committee has ever suggested for the executive such totality of power as is embodied in this package of legislation. Grant it, and our fireball of liberty will spin into darkness, suffocate. For our Republic cannot live without breath and the breath of our Republic is personal liberty and personal responsibility."

But this "totality of power" will be granted — unless those who recognize the peril can offset the pressure of the misguided and the ambitious. If you cherish liberty and the right of free choice on which American achievement is based, write both of your Senators. Tell them why you want them to vote against that Civil Rights Act of 1963.

Budget Program Is Given at HD Meet

Mrs. Al Walter was hostess for the February meeting of Muenster Home Demonstration Club Thursday when Mrs. Bernice Thurman, county HD agent, was program leader. Her talk, illustrated with posters, was on "How to Live Beyond Your Budget."

She discussed installment plan buying which is practiced by most homemakers, and permits young couples to start housekeeping owning or paying on home, car and all the luxuries of life.

The local club went on record as favoring a change of name for the organization. Clubs everywhere are giving their opinion on this matter in an effort to get a name more suitable for the work and activities of the club.

Mrs. Paul Fisher, president, presided and Mrs. Albert Fleitman gave the county council report.

The group discussed putting up a bulletin board with samples of leaflets available from the Extension Office in Gainesville.

Mrs. Arthur Williams led a game during the social hour and Mrs. Walter served cherry cheese pie and coffee to ten members, Mrs. Thurman and Mrs. Bill Karr of Houston who was a guest, visiting her parents, the Al Walters.

Mrs. Davidson Is Hostess to Club

Tuesday Nites Club met Thursday for the February social and had a Valentine party. Mrs. Charles Davidson was hostess in her home.

The group welcomed Mrs. James Mollenkopf as a new member.

Progressive round dominoes provided entertainment until the hostess served refreshments. Decorations and refreshment plates carried out the Valentine theme stressing hearts and flowers.

In the games, Mrs. Johnny Wimmer was high score winner and Mrs. Norbert Koesler won the consolation award. Mrs. Leo Lawson drew the door prize.

Beckers Surprised On Anniversary

A surprise party greeted Mr. and Mrs. Martin Becker to observe their tenth wedding anniversary. A group of relatives and friends gathered at their home for the Sunday night celebration, Feb. 9.

Mrs. Henry Voth Jr. brought a decorated cake for the party and was the surprised birthday honoree. Her birthdate is Feb. 12.

Table games and refreshments were party highlights.

Firemen See Film

Muenster volunteer firemen saw a movie at their meeting Thursday night in City Hall. The educational film entitled "Fire Attack" demonstrates good and deficient practices in one phase of fire fighting — fire attack. The three principles involved — teamwork, discipline, and supervision — are clearly brought out in the film. It was shown through courtesy of Fire Prevention & Engineering Bureau of Texas, Dallas.

Twins Celebrate

Celebrating their second birthdays Sunday were Cathy and Cristy Glover, twin granddaughters of Mrs. Andy Hofbauer. The little girls and their parents, the Don Glovers, came from Dallas to spend the weekend in Muenster. Larry Hofbauer, also of Dallas, was at home too for the family's celebration of the twins' birthdays.

Facts About Social Security

Prompt and accurate reporting of net earnings was described today as "the only way to assure self-employed people of social security protection in future years." In a joint notice to self-employed people, Gus Jones, social security district manager, and Herbert Clark, administrative office of Internal Revenue, advised that the 1963 Federal income tax returns (Form 1040) must be filed on or before April 15, 1964.

Clark stated that a self-employed person must file a tax return and pay the self-employment tax if net earnings for the year were at least \$400, even if no income tax is payable.

Jones reminded self-employed persons that any old-age, survivors, and disability insurance benefits payable to them and their families will be based on credits reflecting reported earning. If earnings are not reported or if they are incorrectly reported, benefits may be reduced — in some cases lost entirely — when the worker retires, becomes disabled, or dies.

He Missed The Boat

Pfc. Peter Kappas writing from Okinawa tells his mother, Mrs. Marie Kappas, that he missed the boat returning the rest of his outfit to the states. He went to the hospital instead and had an operation for acute appendicitis. The letter, dated Feb. 11, gave assurance that he was feeling fine and would be returning with the next group leaving Okinawa homeward bound.

Weekend Visitors

Pfc. Jerome Voth of Fort Sill, Okla., spent the weekend with his parents, the Joe Voths. He brought a buddy, Mike Russell, with him. Jerome has just finished Non Commissioned Officers School at Fort Sill.

Blue Birds

Second grade Blue Birds, meeting Feb. 14, had a Valentine party in the club house. The heart shaped cake with all members names inscribed on it was a conversation piece. It was served with Cokes. Favors were pop corn balls and lolly pops. Mrs. Martin Becker, leader, and her assistants Mrs. Robert Bayer and Elizabeth Knabe directed games in which each of the members won a prize. They also exchanged valentines. Eight members and one guest, Margie Felderhoff, were present.

3rd Order Triduum First Service Set At 8 a.m. Tuesday

Father Elias Koppert, O.F.M., provincial vice commissary of the Franciscan Tertiary Province of the Sacred Heart, Chicago, will make his annual visitation to Franciscan Tertiary members of Sacred Heart Fraternity Feb. 25, 26 and 27.

The three days of prayer and conferences will open at 8 a.m. mass Tuesday. The complete schedule of services will be announced by Father Koppert. Appointments for members to consult privately with him can be arranged.

The visitation will conclude on Thursday with election of officers for a three year term. Mrs. Edd McGannon is prefect.

Father Elias will meet with the fraternities at Gainesville and at Lindsay before coming to Muenster.

The age of discretion is when a man puts the small bill on the outside of his roll.

Registration for Free Votes Will End on March 7

Registration of voters who want to qualify for free votes in federal elections will continue through March 7. County tax collectors are issuing the free receipts which may be obtained by direct personal or mail application.

Holders of the free registrations cannot vote in state or local races, in constitutional amendment or bond elections — only for president, vice president, U. S. senator, U. S. representative and congressman-at-large.

State attorneys emphasize, however, that the free registration receipts are good for primary elections, the November general election and any special election involving federal offices during the coming year. In other words, those who have them can vote in their party primary for senator, congressman and congressman-at-large or in any special election for these offices, as well as the general election.

Voters over 60 in cities of 10,000 or more population who did not get their poll tax exemptions before the January 31 deadline cannot qualify for special registration. Over-age voters in smaller cities need no certificate of any kind.

MEMBERSHIP INVITED

Membership in St. Anne's Society is solicited and candidates are invited to sign up before March 1 and participate in the reception ceremony to be held that day. The service will be in Sacred Heart Church at 3 p.m. Sunday, March 1. Prospective members may leave their names with Mrs. Al Walterscheid, president, Mrs. Leo Henscheid, treasurer, or Mrs. Ervin Henscheid, secretary.

State Population Continues to Rise

Although the State Health Department reported an "uninterrupted decline" in the Texas birth rate per 1,000 population between 1956 and 1962, the state population continues to rise. Births in 1962 totaled 244,069. New settlers moving in from other states accounted for a 200,000 increase, helping to make the population pass the 10 million mark last year. But at the same time the number of deaths for one year reached an all-time high of 81,118.

Heart disease was the leading cause of death, accounting for 33 per cent; cancer was second with 15 per cent; apoplexy, third with 12 per cent of the deaths; and accidents of all kinds, fourth with seven per cent.

CD of A Members Show Interest in Hospital Auxiliary

Catholic Daughters of America, meeting for February, signed up about a dozen members interested in a Hospital Auxiliary when it gets organized.

The court elected Mrs. Ted Gremminger as delegate to the biennial state convention in Corpus Christi in April.

It was announced that there is a need for more volunteers among members to participate in the Vocation Mass Crusade, and another announcement concerned a benefit project on which the organization has

started. The court is having Christmas cards made picturing the altar in Sacred Heart Church as it appeared decorated for Christmas the past year. Card sales will start this fall.

Mrs. Charles Taylor, grand regent, presided and 14 members attended. Because it is Lent no refreshments were served.

S. H. High Keeps Lead in Contest Asks More Stamps

Sacred Heart High continues holding the lead in the annual cancelled stamp contest. That report has just reached Sister Theresina and the sophomores who are in charge of the mission project.

The Ceylon Mission Stamp Bureau, Jesuit House of Studies, Mobile, Alabama, conducting the stamp drive as a mission benefit, released the progress report.

Sacred Heart School hopes to stay in the lead and solicits more cancelled stamps. The race is half over. The next shipment will be made before the March 31 deadline. The final shipment must be made by May 1.

While the students hope to win the grand prize in the contest, that is not the real object of the stamp hunt. It is mission work. They gratefully acknowledge stamps turned in so far and ask that everyone continue saving cancelled stamps and send them in or telephone the school and students will call and pick them up.

Helping the sophomores and Sister Theresina in readying the stamps for shipment are Mrs. Alfons Koessler, Mrs. John Walter and Mrs. Frank Trachta who neatly trim the stamps leaving the margin required by contest rules.

Some of the stamps sent in previously have already been sold to stamp dealers, the sales directly helping poor missions.

Elm-Red District Names Winners In Essay Contest

Harold Skaggs, Chairman of the Board of Supervisors of the Upper Elm-Red Soil Conservation District, has announced the winners in the 4th annual essay writing contest.

Skaggs stated, "The SCD Board received 110 entries from all over the three-county district and competition was keen among the best entries." The top essays were so close it was impossible to decide a clear cut winner so two have been selected as first place winners and they will split the first prize award of \$15.

The first place winners were Barbara Fuhrmann of Lindsay and Kenny Case of Whitesboro. The competition was also close for second place and it also resulted in a tie between Nancy Kemplin of Valley View and Frank Chesney of Prairie Valley.

The second place award of \$10 will be divided between these two winners equally. Third place winner was Roger Wilson of Nocona. He will receive a \$5 award from the district.

Judges for the contest were W. M. Walters, Soil Survey Leader with the Soil Conservation Service, Ralph Cole, Farm Editor of the Gainesville Daily Register, and T. H. Dick, Science Teacher in the Gainesville High School.

Skaggs expressed his appreciation to all the vocational agriculture instructors over the district, the high school teachers, school superintendents, county agents, and others who encouraged and assisted these high school students in the preparation of these essays. Special thanks go to all who prepared essays for this contest. Each student that entered an essay has been benefited whether he or she was a winner or not. The knowledge and use of soil and water conservation is something everyone needs to know and use in daily living, Skaggs said.
