Big Attendance Sees Science Fair At Public School

A few weeks ago France's De Gaulle gave us quite a jolt when he announced his recognition of Red China as the legitimate government of the Chinese people. Under the circumstances it is less surprising this week to learn that France is maneuvering to have Red China seated in the United Nations.

Our country has expressed its objections to both moves by France, but that's all there is to it, just words. From the weakness of our reaction one wonders whether our state department isn't actually leaning to the French view but withholding its approval until the American public is better conditioned to accept it, and eventually to accept also our own country's recognition of the reds.

The affair substantiates a statement by Robert Morris, Republican candidate for the Senate, when he visited here a few weeks ago. He said a State Department source told him that Secretary of State Dean Rusk conveyed to De Gaulle that if France recognized Red China we would protest, but in words only, and that we would take no action until December, or possibly next spring—then we'd make our move. Judging by the softening of our attitude, we dread to think what that move will be. Will we follow the lead of France?

People of the free world were amazed by De Gaulle's action. It was incredible that a Christian man leading a Christian nation should strike up a friendship with the global criminal and mass murderer, Mao. Even more incredible because Mao had been the chief plotter in having France kicked out of Southeast Asia. Only one explanation seems plausible. De Gaulle, as a practical politician, is getting chummy with the reds because he cannot depend on Uncle Sam to lead effectively in the world struggle against communism. Seeing the advance of the red menace, and seeing us insulted by pip-squeak dictators around the world, he could hardly think otherwise. He's playing it safe in case we fold up. But you can bet he'd still be on our side if we were exercising traditional American spunk and trying to win the struggle with communism.

An inspiring answer to De Gaulle's actions came promptly from the Nationalist Chinese in tiny Taipei. They broke diplomatic relations with France and told the world a gain of their basic goal of recovering the mainland and liberating the Chinese people from Communist tyranny. As the Legislative Yuan of Formosa opened on February 23 Premier C. K. Yen reiterated that the government will step up its effort in bringing about an early and victorious return to the mainland.

That is the story we have heard off and on ever since the Korean war. At that time Chiang was begging to get into the fight. But we, cooperating with the red dominated UN, kept him bottled up on Formosa. Winning the war was a cinch if we had used our opportunities, allowing both MacArthur and Chiang to fight as they wished. The same thing has happened several times since. The Nationalists were ready and eager. But they are constantly reminded that our fleet is there to restrain them as well as protect them.

Robert Morris brought that same statement back from his visit to Formosa last summer. Chiang said he wants to get back to the mainland and would take on the job without help if assured that America's fleet would not restrain him. He knows that people of the mainland are waiting. He has organizations already set up and waiting to join him.

Could he succeed in throwing out the reds? He is confident that he can, knowing that the principal source of his strength would be the millions of people, including soldiers, who would quit their slave masters and fight for their freedom.

Franco showed how it could be done. Communists had taken Spain and had ruled long enough to be thoroughly hated, as they are in China today. Franco landed with a small force. Supporters flocked to him. His army grew as he advanced, and the reds

3 School Trustees Seek Reelection

Indications are that there will be no change on the Muenster school board as a result of this year's trustee election. The three persons whose terms are expiring are the only candidates for the three positions to be filled in the election.

They are Jerome Pagel, David Trachta and Urban Endres, the only persons who filed candidacy before Wednesday's filing deadline, and the only ones who qualified to have their names printed on the ballot.

Honor Roll Listed At Public School

Honor students of Muenster High School for the fourth six weeks of the present school year have been announced as follows by Principal George Petrus.

A honor roll: Wayne Klement, Doris Fisher and Birt Simpson.

B honor roll: Linda Fisher, Doris Lutkenhaus, Terry Wimmer, Joe Hartman, Dale Klement, Carol Mosman, Robert Russell, Margaret Lawson, Joyce Rumley, Janet Lutkenhaus, Donna Tuggle.

W. C. Boyd Issues Formal Statement In Race for Judge

W. C. (Bill) Boyd, Denton attorney, has announced his candidacy for the office of judge of the 16th Judicial District. His statement follows.

"I am fully aware of the very serious responsibilities of the office of District Judge. The District Court touches upon the life and property of every person in Denton and Cooke Counties. The District Court tries cases where the amount in controversy is \$1,000 or more in civil cases, and, in criminal cases, where the punishment is confinement in the penitentiary — or even death in the electric chair.

The District Court also tries cases where title to land is involved, as well as adoption, divorce, and the very serious attending problems of custody and support of the children of divorced parents. I did not enter this race without serious thought and consideration of these responsibilities, and of my qualifications for such position.

"I am from a Denton County family of lawyers and judges. My whole education and training has been in the field of Government and Law. I hold a Bachelors and Masters degree in Government from North Texas State University, and a Bachelor of Laws degree from Baylor University School of Law. I have actively engaged in the practice of law in Denton since my graduation from Law School.

"I have been married for 17 years, and Mrs. Boyd and I have three wonderful children, Randy, Dan and Barbee. "You should give very serious consideration to the qualifications and the temperament of the man you elect as your District Judge.

"I have tried cases in every category of courts in Texas including the Supreme Court of Texas and the Court of Criminal Appeals of Texas, which is Texas' highest court in criminal matters.

"I have acted as the Corporation Court Judge for the City of Denton for the past four years.

"I hope you will honor me by electing me your District Judge. I can, and I will, make a good honest, conscientious Judge. I will appreciate your vote, and I will not let you down."

State OKs 4 Lanes For Highway 82 Thru Muenster

An addition of two more lanes to Highway 82 on both sides of Muenster is planned for the near future, Precinct 4 Commissioner Earl Robison said this week.

He stated that the commissioners court had been assured by District Highway Engineer Dean of Wichita Falls that the present four lane road, reaching about a mile west of Lindsay, will be extended to about a mile west of Muenster, also that there will be no change in the course of the road.

This settles the big question that has bothered local people for some time, Robison said. The road will not go past the north edge of town, as rumored. It will stay where it is. That will involve widening the present overpass to four-lane width, which is still much less expensive than buying completely new right of way and building a completely new road, Robison said.

Dean told the commissioners that the state would share with the county on the cost of additional right of way for the project. And the work is due to start soon.

Highway engineers will start promptly on their survey, then the county will proceed with buying the designated new right of way.

Weinzapfel Child Run Over by Car - Multiple Breaks

Two-year-old Robert Weinzapfel is making normal progress toward recovery after miraculously escaping death under the wheels of an automobile. He sustained multiple fractures and is a patient at Muenster Hospital.

The toddler, son of Mr. and Mrs. Henry Weinzapfel, was run over by a car Sunday about 5:30 p.m. in the parking lot south of Muenster Hospital while his father, grandfather and others at the scene watched in horror. Robert had left the group without being missed and was behind Mrs. Herb McDaniel's car when she backed from a parking place.

When Henry Weinzapfel picked up his small son it was a relief to hear him crying. He was rushed to the hospital for first aid and X-rays.

X-rays revealed both jaws broken, both collar bones and the left arm broken. There were no internal injuries. A specialist from Fort Worth tended to the broken jaws Tuesday. Robert is reported resting well, he's a good patient, he "just fusses" because he can't open his mouth — the jaws are wired — and he apparently gets tired of only liquid nourishment.

While his mother stays at the hospital with him, her substitute teacher at Muenster High School is Miss Theresa Fisher.

52 Patients Enter Muenster Hospital In First Month

Muenster Memorial Hospital during its first month of operation has had 52 patients, including eight new born babies. Forty seven were discharged during the month.

Sister Mildred, administrator, revealed the figures at the end of the month, and also said that the average length of a patient's stay was slightly more than three days. The total number of patient-days was 167, making an average patient census of slightly less than 7 persons for the 27 days of operation since its opening on February 3. The maximum number of patients was 13 and the minimum was 2. Ten operations have been performed.

"INFERNAL" REVENUE

By now W-2 forms have been distributed throughout the country and the man who thought he was paying only a few dollars of income tax each week suddenly finds that he has "contributed" hundreds of dollars to the federal government during the past year. Some will get refunds; many will have to pay additional taxes. Right here in Smithville the aggregate total collected by Uncle Sam's unpaid deputy tax collectors (the business people) amounts to hundreds of thousands of dollars. Think what would happen if that much money were released in our community. Most of it would be channeled into normal trade at our stores. Business would be good for the merchant, and he could expand and buy more merchandise and equipment, and offer better service to his customer. Then multiply this by communities throughout the nation. Standards of living would improve, there would be more and better job and recreational opportunities. People

who have just been making ends meet, would be able to save a little and perhaps make a few investments. Federal ventures like public power, farm subsidies, foreign aid, and pork barrel projects consume more money every year than is collected by the personal income tax. None of them are authorized by the Constitution — and just by eliminating them, we could do without income taxes. The Federal Government receives enough revenue from other taxes to cover our defense needs and all other constitutional requirements — without the personal income tax! The proposed Liberty Amendment — already approved by six states, including Texas — will eliminate the government's spending spree and repeal the income tax. So while still confronted with W-2 forms, 1040's, and what have you, while still faced with the grim spectre of juggling records and filling out forms (that must be correct this year, or you'll get 'em back for sure), if you get to

Where Do We Rush Next?

feeling frustrated, exasperated, and just plain mad, take your pen in hand and write your congressman to support the Liberty Amendment. And tell your friends to do the same. A tax cut would relieve the situation, but abolishment of the personal income tax will effect a permanent cure for many of our country's ailments. In just three short years — NO INCOME TAX FOREVER! MORE That's the Liberty Amendment.

— Smithville Times

TIME TO SWEAR OFF

As the Congress receives and undertakes to digest President Johnson's foreign aid message, it would be well for its members to consider:

- (a) Where the money comes from — in terms of their own constituents whose good nature and patience with respect to foreign aid are about played out.
- (b) What our staggering expenditures in this department have accomplished other than to convince our enemy that we fear him and to disgust even the recipients of our gifts at our apparent unwillingness to realize that we can't buy loyalty, undying friendship and all-out support when the chips are down.
- (c) How much better able we might have been fiscally, economically and militarily to face today's crises had we devoted our resources to our own needs.

As a single example of misguided aid, let the Congress recall that we have poured \$159 million into Ghana and committed millions more to pay for a high dam on the Volta River, to be rewarded

by violent anti-American mobs attacking our embassy and hauling down the American flag; by the vituperation of the government-controlled Ghanaian Times which declared:

"We are fed up with your imperialist American dollars. We will massacre you. You killed President Kennedy. American imperialism is a filthy civilization."

And it should be significant that even this did not disturb the Olympian calm of the New York Times which, on February 9, advised us to rise above it all. "Along with anger," The Times editorialized, "Americans feel deep perplexity . . . since it is impossible to see any rational basis for such conduct. . . . The temptation exists . . . to take retaliatory measures such as reducing or eliminating American economic aid. . . . A wiser course . . . would be to exhibit patience and refuse to be provoked."

Yet, within a week, nettled by the President's pep-talk to the top IRS tax collectors, The Times revealed some concern for our status and image around the world. "Is this a time to be so complacent and self-assured," the paper asked. "Was it not naive (for Mr. Johnson) to stress that 'we are a much beloved people throughout the world' and is it 'bellyaching' to say to the contrary? Call Vietnam, Cuba, Panama, Cyprus, China really be downgraded as much as Mr. Johnson minimized them?"

Let the Congress look back on our \$103 billion foreign aid spree and ask itself: "Isn't it time to sober up?"

By pushing their trunks up above the surface of the water and breathing through them, elephants can walk along the bottom of a river.

LET'S HAVE A SALE

They tell us that if all the land now owned by the federal government of the United States in all parts of the world could be "cashed in" we could more than liquidate the national debt and ease the tax burden on John Q. Public. Come to think of it, the best news we could receive would be that Uncle Sam was going to have a big land sale.

STATESMANSHIP WANTED

It is widely recognized that many members of the House of Representatives in their landslide vote (290-130) for the Civil Rights Act were not expressing their convictions but revealing their vulnerability to pressure and passing this hot potato on to the Senate in the pious hope that the Upper House can put the chill on it. Republican Rep. Louis Wyman, former Attorney General of New Hampshire, is more specific on this point than most. Had there been a secret ballot, he says, the measure would not have gotten 50 votes.

But the sole question now is: Can the Senate — even though opponents are prepared to talk endlessly on the subject — do more than delay this grant of extra-Constitutional powers to the President and new brigades of inquisitory deputies? And, how much delay can we expect when White House strategy — for action on tax, farm and military authorization bills first — will consume time as the convention dates draw nearer?

The outcome — which is nothing less than whether the United States is to become a dictatorship — may well turn on the development of statesmanship where none is presently apparent. In view of existing and contrary pressures in the South and in those northern big-city states with heavy concentrations of Negro population, we may best look to those areas of the nation where racial issues are of the least political concern for the Moses to lead us out of an emotional wilderness in which the landmarks of Justice and Reason and Freedom have become obscured.

If the Senate is not to yield ignominiously to the influences that numbed the conscience of the House, there is much to do to accomplish desired reforms within the framework of the Constitution. The bill as it stands, conceived in deception and dedicated to Executive authority, adds to the stature of none and destroys the freedoms of all — black or white or red or yellow; atheist, Baptist, Catholic or whirling dervish.

Carmen Jackson, James A. Hoselton To Marry April 10

Mr. and Mrs. Hugh L. Jackson, 2805 Canberra Court, Fort Worth, formerly of Muenster, have announced the engagement and approaching marriage of their daughter, Miss Carmen Lee Jackson, to James Alan Hoselton, son of Mrs. Ann Hoselton of Fort Worth.

The wedding will take place at 7:30 p.m. April 10 in Holy Name of Jesus Church, 2601 Burchill Road in Fort Worth where the reception also will be held.

The bride to be is a granddaughter of Mr. and Mrs. J. M. Weinzapfel.

Born Feb. 29, They Celebrate in '64

February 29 can make a difference in one's life . . . especially if it's a birthday. And two Muensterites can tell how it feels to have a real birthday only every four years. Both of them observed their natural birthdays Saturday for the first time since last leap year in 1960.

A birthday in leap year presents other complications, like whether to observe it every year on Feb. 28 or March 1.

The two Muenster residents who were born on Feb. 29 are 16-year-old Carol Pels, daughter of Mr. and Mrs. Ed Pels, who observed her fourth natural birthday, and Mrs. Henry Yosten who celebrated her ninth leap year birthday.

When it isn't leap year, Mrs. Yosten keeps her birthday on Feb. 28 and Carol keeps her on March 1.

This year's celebration for Carol was a slumber party Saturday night at her home for which five friends were guests. They were Cindy Stoffels, Margie Fuhrmann, Candy Fette, Monica Fetsch and Carol Mosman. They enjoyed an evening of games and music and a midnight feast before retiring. And they spent all day Sunday together at the Pels home, joined by Carol's family in the celebration.

Mrs. Yosten's birthday observance featured a come-and-go routine all day with relatives stopping in to say greetings and leave gifts and was highlighted by a noon dinner prepared and served by her daughter Kathy to the family, her parents, Mr. and Mrs. Henry Wiesman and her grandmother, Mrs. Frances Binz. Fifteen-year-old Kathy also baked and decorated the birthday cake.

Don Cookes Enjoy Surprise Visitors

Surprising Mr. and Mrs. Don C. Cooke with a visit Saturday were their son and his wife, the Harold Cookes, bringing their granddaughters Dana and Nikki Alexander. They arrived from Fort Worth early to spend the day. Harold was breaking in his new Chevrolet.

Another surprise for the Cookes came Wednesday when an old-time friend, Herman Nowell, stopped by to see them. He's a pumper for Shell Oil Co., formerly lived on the old R. W. Trew homestead and moved to Archer City in 1939. Mr. Nowell and the Cookes spanned the years catching up on family happenings. Mr. Nowell said their older son Jimmy who was born on the Trew place lives in Fort Worth now and the younger son Joe is in college in Wichita Falls. He said he still

likes to fish and that he'd bring his wife on the next visit and spend the day. Right now the Nowells are in the process of moving to Nocona.

Teachers Attend TAIR Conference

Sisters Genevieve, Henrietta, Frances, and Anna, who are members of the Texas Association for the Improvement of Reading, attended the Annual Conference held at S.M.U. on February 28-29.

Keynote speakers were Dr. Nila Banton Smith, professor of New Jersey State Department of Education and president of the International Reading Association, and Dr. H. Alan Robinson, the director of the reading conference and reading workshop of the School of Education at the University of Chicago.

Dr. Smith spoke on "Recent Reading Research Applied to Classroom Practice" and "How the Classroom Teacher Can Detect Skill Needs." Dr. Robinson's lectures concerned the "Inter-relationships in the Language Arts" and the "New Concept of Remedial Reading Instruction."

At the luncheon session, a Symposium was conducted by a five-member panel including noted librarians and Myra Cohn Livingston, who is an author of books of poetry for small children.

Father Elias Koppert, O.F.M.

Franciscan Order Concludes Triduum

Annual Triduum for members of the Third Order of St. Francis, Sacred Heart Parish, came to a close with a solemn ceremony and the papal blessing.

Some 50 members attended the three days of special prayers and conferences February 24 through 26 conducted by Father Elias Koppert O.F.M., vice commissary of the Franciscan Tertiary Province of the Sacred Heart, Chicago, Ill. Each day started with mass at 8 a.m., followed by a conference. At 2:30 p.m. another service was followed by a conference.

Among topics which Father Elias spoke on were Love of God and Neighbor which should embrace the whole world without discrimination toward color, race or creed. He talked on Charity, Compassion, Understanding, Humility, Prudence, Patience, Persistence and Peace pointing to St. Francis Assisi, patron of the Order, as an inspiration to practice virtues which endure and to teach by setting a good example.

After the final conference the group had a general meeting in the Parish Hall. Officers elected every three years and due to be chosen at the meeting, were not elected. By order of the Province, officers throughout the province will be elected in the fall. Among members at the meeting were Mr. and Mrs. Ben Hermes of Lindsay, members of St. Peter's Fraternity.

Trio Returns From Holiday in Mexico

Back from a holiday in Old Mexico are Mr. and Mrs. Ernest Medders and Father Alcuin Kubis who returned Monday after 11 days in Mexico City and Acapulco. They traveled by air.

Souvenirs came home with them and a 130 pound sail fish is coming later. It's being mounted. Mrs. Medders was the champion at deep sea fishing and brought in the 130 pounder.

The trio made tours of all the old cathedrals and churches, the highlight being the Shrine of Our Lady of Guadalupe where Father Alcuin said mass on the main altar both Sundays. They saw the miraculous picture of Our Lady of Guadalupe, the men being permitted to go to the top for a close look while the women in the party remained at the steps.

They also took in bull fights — first for the Medders — attended horse races and the Ballet and enjoyed Mexican food. Every time they got change for American money they got "whole hands full" of Mexican money. One U. S. dollar is worth about \$12.50 in exchange.

*Based upon the 2 percent limited sales, excise and use tax in Texas. Figures in this table do not reflect payments of the special motor vehicle retail tax which should be computed separately. The vehicle tax applies to the net purchase price, and was 1.5 percent through June 30, 1963 and 2 percent after that date. Cigarette tax deduction is 8¢ per pack for Texas. Gasoline tax is 5¢ per gallon for Texas.

Identify Your Income Tax Return

"When will I get my refund?" is one of the most frequent tax questions according to Ellis Campbell, Jr., District Director of Internal Revenue. He said that the failure to receive a refund — check or savings bond — is usually caused by illegible names or addresses. Mr. Campbell said that it is permissible to sign your name at the bottom of the return the way you always sign your name, even if your signature is a hurried scrawl. At the top of the return, however, your name should also be

carefully printed or typed along with your social security number. In other words, eliminate any doubt as to who you are and where you live. Each year thousands of refund checks are returned to Internal Revenue offices because the postman cannot deliver them. Director Campbell said that if the taxpayer has moved, he should show his new address to promptly receive refunds and other mail from Internal Revenue. If he moves after filing, a forwarding address should be left with the post office.

Just before the molting period ducks and geese fly to bodies of water where they will be safe from land enemies. Reason is they molt their primary feathers all at once, and for a short period can not fly.

In fact, he's made so much money going out of business that he's just opened up 10 new "Going out of Business" stores.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Excellent weather in this part of the Upper Elm-Red Soil Conservation District has had several cooperators out planting Bermuda grass and many others busy preparing their land for planting. Time is rapidly running out for cooperators who want to plant this year but do not have a seedbed prepared. Several in the area are doing custom grass planting and the district has two spriggers available but these cannot work without a seedbed. There is still time to start now. Cooke County cost-share program is paying approximately nine dollars an acre and Montague County is paying about five dollars an acre.

Among district cooperators who have planted Bermuda are M. J. Kirk, 15 acres; Fred Hennigan, 17 acres; Charley Hellman, 10 acres; Buddy Reiter, 19 acres; Al Wiesman, 15 acres; H. J. Wolf, three acres for a grassed waterway. Others will be listed later.

Some of those who have been clearing brush are Dr. M. P. Knight, 105 acres and J. C. Donnell, four acres.

Gus Lutkenhaus recently constructed a pond on his farm at Dye Mound. Personnel of the Soil Conservation Service handled the engineering and the Montague County cost-share program paid ten cents per cubic yard.

New conservation plans have been completed with John W. Page and Henry (Red) Smith in the Dye Mound community, Leo Orrell at Rosston and Ira Whitehead at Hood.

Conservation plans were revised for E. W. Mitchell of Saint Jo, Alois Trubebach of Myra, Andrew Fleitman and Joe Fisher of Muenster.

For fishermen who have a farm pond, the following should be of interest: a surface acre of water can be made to produce as many pounds of meat as an acre of Bermuda grass. It has been done, and can be done again in the same way — by adding commercial fertilizer. The recommended analysis is 8-8-2 or similar at a rate of 100 pounds per square acre beginning now, and running for at least four months. There's one other requirement — it must be fished.

Judy Juniors offers exceptional value in a 3-piece suit of great versatility. Made of a 50% Arnel, 50% cotton fabric. Chic vest can be worn with blouse alone. Wrinkle-resistant quality of fabric makes this creation an excellent travel companion for now and into summer. Colors, Seafoam Green, Charcoal, Misty Blue and Lobster Pink.

DO IT BETTER Electrically!

DRY CLOTHES flamelessly!

"Nothing I know of, Martha, would ever make washing and drying clothes fun, but my new electric dryer sure makes it a lot easier!"

If we could listen in further on this conversation, we'd probably hear a lot of good things about drying clothes the flameless electric way. Virginia will tell Martha how nice it is to be able to dry anytime, not just "weather permitting." Martha will hear, too, about the time-and-effort-saving advantages of an electric dryer. . . no more fumbling with clothes pins, no more struggling with baskets of wet, heavy wash.

P. S. to Virginia: Don't forget to tell Martha how much easier ironing is with clothes dried the flameless electric way.

could not stop him. Chiang can do the same thing. People are waiting to join him and help free their country. That's how he has it figured and lots of smart military men agree with him.

And just imagine what could be accomplished by it! As we know, the Chinese Reds are causing practically all the trouble in Asia today. Putting them out of business would stop the warring in Viet Nam, Indonesia, India, Tibet and all those other places. It would also eliminate the Chinese as a possible nuclear threat. It would put an end to the Korean stalemate.

With all those wonderful possibilities ahead you must be wondering, as I am, why we don't let Chiang have his try. Frankly, I'm astonished, have been ever since 1950. I cannot understand how we can claim to work for peace and fail to make use of a golden opportunity to wipe out the trouble.

Memorial Plaques At Hospital to be Ordered April 1

Permanent plaques will soon replace the cards which now indicate memorial dedications at the Muenster Hospital. J. M. Weinzapfel, president of the hospital authority this week revealed his intention to order the plaques on April 1.

In the meantime, he said, all who wish to designate memorials in the building are asked to check and see whether the paper listings are made, and if so, whether they are as desired. Any changes, additions or new listings would be appreciated before April 1.

Weinzapfel also pointed out that completion of the hospital does not mean the end of community responsibility. Many still have not given. Many are behind on their pledges. Their help is urgently needed in the long pull to pay off the debt, some to meet final obligations of the building.
