LISA ROBISON, daughter of Jimmy and Sheri Robison of Rt. 2, Muenster, was crowned Homecoming Queen of Muenster High School Friday night, Nov. 3, during halftime festivities of the Hornet-Petrolia football game. She was escorted by Mike Pagel, 1989 graduate of MHS, and son of John and JoAnn Pagel. Dave Fette Photo

## Bridge hearing defines project, receives full support

A new bridge across the Red River just south of Courtney, Oklahoma is pretty well a sure thing according to Leland Jett, Supervising resident engineer for the Texas Highway Department. Jett, from Bowie, explained the situation "where we stand" at a public hearing held Tuesday night at the Nocona Community Center. A standing room only crowd was present for the good news. 212 people registered at the sign-in desk.

Jett explained that the purpose of the meeting was not to debate but to exchange and explain ideas. The final decision would not be made on the project till the full transcript of the meeting was received by the Highway Department. All indications are that the bridge and five sections of connecting highways - four in Texas and one in Oklahoma - are a certainty. Jett gave detailed explanations of the financing and right-of-way acquisition. The U.S. Department of Transportation will finance the bridge. Parts of construction costs for the project will be shared by Texas and Oklahoma. FM right-of-way acquisition must be handled by Cooke and Montague counties on the Texas side. Oklahoma right-of-way is purchased by the state. Jett made pamphlets on the right-of-way acquisition available to landowners present and more help is available from his office in Bowie. Call (817)872-2265 or mail to P.O. Box 349, Bowie, TX 76230.

The bridge is the star of the project but the connecting roads which accompany are also very valuable. In Cooke County, FM 373 will extend northwest 4.3 miles to intersect FM 677, three miles north of Capps Corner. The intersection at Bulcher was the only point of controversy at the meeting. Plans are to have the new hard top intersect the existing highway at a "T" junction, (see picture). Muenster interests have been adamant in their request that the junction be a smooth flowing "Y" junction that does not

require a stop and a sharp turn. The request is in writing from previous meetings. Jett said he will have it thoroughly checked out.

Jett reviewed the procedure of choosing the bridge site. He said, "This is the preferred alternative site developed from information gathered at and since the July 26, 1988 meeting. With this site, east-west transportation is greatly improved." He pointed out that the Rock Bluff site was good but it did not please Nocona and did not im-

prove east-west traffic. Similarly, sites further west did not please Saint Jo and Muenster and were subject to instability and archaeological problems. The Courtney site benefits from the river stability, location halfway between existing bridges, support by Oklahoma and improvement of connecting roads.

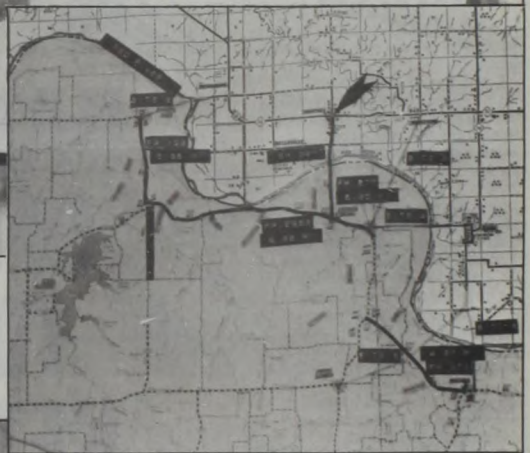

Northern Montague county will benefit from the new highway linking Spanish Fort to FM 2953 across to FM 677 and north to the

bridge site, a total of about 17.5 miles of new highway. Oklahoma will have only about 1.5 miles of highway to build. Residents and landowners on the east side of Lake Nocona presented a petition to include about three miles of highway in the project in their neighborhood.

The bridge is proposed to be 2,800 feet long and 40 feet wide. It has passed a rigorous environmental impact study. Only one Please See BRIDGE, Page 2

LEILAND JETT used a large map of the Red River area to show locations of the proposed bridge and connecting highways at the public hearing Tuesday in Nocona. At right is an enlargement of the area he is pointing to. Dave Fette Photo

THE ONLY CONTROVERSY in the Red River Bridge project seems to be the junction with the existing highway near Bulcher. The Highway Department proposed a route indicated by the solid brown line. Muenster wants a route similar to the dotted line. The Muenster preference would allow smoother traffic flow onto FM373. Department officials at the meeting did not explain why they wanted the "T" junction. (Photo taken from aerial photo on display at the hearing.)

## City Council welcomes decorative street lights

The Muenster City Council has issued a blanket building permit applying to installation of 50 decorative street lights along Main Street and Division Street. This was the recommendation of the zoning board. It clears the way to begin the process of mounting the lamps which have been paid for with the prize money won in 1986 in the Keep Texas Beautiful Contest. Property owners who have adopted one of the street lights will be contacted soon.

**(EDITORIAL COMMENT: We all know the lights COULD be up by Christmas. Why not cooperate in a big way and make it happen, in time for Christmas and the end of our Centennial?)**

In other action, the Council: - Discussed passing a city ordinance against obstructing streets and other passageways.

- Decided not to put the old Christmas lights across Main Street and Highway 82. TU Electric would have charged a minimum of \$600.00 for the stringing job done in the past years for free. The worn-out condition of the light cords was also pointed out.

- Cast Muenster's vote for Robert Klement for a Director of the Cooke County Appraisal District Board of Directors.

- Established dumping fees at the city landfill at \$20.00 per large truckload, \$10.00 per pickup load and \$20.00 to rent the city flatbed truck. Allowance will be made for partial loads.

- Discussed personnel policy concerning wage payment when injured on the job.

- Approved payment of monthly bills totalling \$67,243.57.

## New abbot at Subiaco is Fr. Jerome Kodell of Ark.

Father Jerome Kodell, former pastor of Holy Redeemer Church of Clarksville, Arkansas, has been elected the Abbot of New Subiaco Abbey in Subiaco, Arkansas.

The gathering of Benedictine priests and brothers was held Wednesday, Nov. 8, for the purpose of naming a successor to Abbot Raphael deSalvo who resigned recently. Abbot Jerome is 49 years of age.

The Muenster Enterprise received word of the election late Wednesday evening. A picture and biography will follow next week.

## Time capsules to be sealed at Centennial grand finale

"What will Muenster be like in 25 years?" - "What will it be like in 100 years?" - "Can you visualize the year 2089?" - "How would you like our city to be in a quarter century, or in a full century from today?"

Those intriguing questions were pondered at a committee meeting attended on Tuesday, Nov. 7, by Lorena Taylor, Robert McDaniel, Joe Caserta and John Fisher.

Everyone who is interested is invited and urged to consider these questions, then submit a handwritten or typed statement of prophecies, visions, hopes and dreams for Muenster in 25 or 100 years hence.

The committee will furnish a durable paper that can survive the ravages of time, and be placed inside two time capsules which will be sealed at the Grand Finale Centennial Party and Dance on Dec. 9. The capsules will also include a history, pictures, some Centennial memorabilia and other items still to be determined that will be of interest to those in attendance at the observance of Muenster's Bicentennial. It is entirely conceivable that some of today's youngsters will attend this event.

John C. Fisher is in charge of accepting the materials, and securing both time capsules. Robert McDaniel, Joe Caserta and Lorena Taylor will compile the prophecies, visions and hopes submitted. Any of these persons may be contacted with suggestions for the project, any questions, and particularly the written papers. Deadline for these is Nov. 30.

Lorena Taylor will contact all 10 of Muenster's surviving mayors. She said also that several classes of school children will be asked to contribute.

## Good News!

Trust in the Lord with all your heart, on your own intelligence rely not; in all your ways be mindful of him, and he will make straight your paths. PROVERBS 3:5-6

## Williamson to run for re-election

Thursday evening, Oct. 26, State Representative Ric Williamson announced to an overflowing crowd of 1500 supporters that he will run for re-election to the Texas House of Representatives.

The applauding constituents were told his goal of \$40,000 had been reached and that his family and staff had given him a commitment of continued support in his work for the taxpayers of the State of Texas.

State Treasurer, Ann Richards, along with State Comptroller Bob Bullock, Governor Clements' Chief of Staff Mike Toomey, and Representative Rick Perry joined Ric for this event at the Parker County Sheriff's Posse in Weatherford. Ric was quoted as saying "without the support of these very capable state officials, my family, staff, friends, and constituents, it would not be possible

to continue working as hard as I do to represent the 63rd Legislative District."

Ms. Richards spoke to the gathering with all the gracious enthusiasm she is known for. In addition to her praises in support of Ric and his accomplishments, Ms. Richards struck home with the crowd about her beliefs for the State of Texas. While emphasizing education, Ms. Richards strongly suggested that our lawmakers needed to get on with the job of addressing and solving the equitable financing of public education and in the process find an answer to take the total responsibility off of property taxpayers.

In addressing our continuing criminal justice problems Ms. Richards emphasized early education standards and development of different methods of treatment

for non-violent criminals through labor camps and rehabilitation programs.

During this period of campaigning for the office of Governor, Ann Richards will continue to look in every direction to solve these critical issues. She encourages the input from all Texans and is a lady who listens.

While Comptroller Bob Bullock and Ann Richards control the 'cash flow' side of the State of Texas, Mr. Bullock emphasized how much the State of Texas needs to recognize the need for legislators who will continue the trend set by Ric for a responsible fiscal approach with quality dedication to lawmaking. He emphasized his working relationship with Ric who not only introduced quality legislation and successfully got it passed into law, but he

found equitable ways to pay for the programs. As a candidate for Lt. Governor, Mr. Bullock wants to continue the awareness of the need of dedicated leadership while recognizing the sacrifices made by men such as Ric.

Loyal friends contribute to harmonious working relationships in state government and Representative Ric Perry along with Mike Toomey have professionally and personally worked with Ric to establish this type of constructive relationship. While not always in total agreement, their friendship has supported Ric throughout his public service career. Ric assured those who showed their loyalty Thursday evening that he will continue to serve the taxpayers and their mandates by being a man who serves in the very best interest of the State of Texas.

# Lifestyle

## Fort Worth ceremony unites couple

MR. and MRS. JACK RANDALL BELL  
... nee Michelle Marie Fuhrmann ...

Michelle Marie Fuhrmann and Jack Randall Bell were married in a Nuptial Mass with double ring ceremony in St. Bartholomew Catholic Church on Saturday, Sept. 16, 1989 at 3:00 p.m., celebrated by Father Richard Beaumont, pastor.

The bride is the daughter of Ewald and Irma Fuhrmann of Idabel, Okla., former residents of Muenster and Lindsay; and the granddaughter of Mrs. Helen Hofbauer and the late Clem Hofbauer of Muenster and the late Matt and Rosa Fuhrmann of Lindsay.

The groom is the son of Mr. and Mrs. Lewis "Jack" Bell of Broken Bow, Okla. and the grandson of Anna Folken of Eagle, Neb.

Presented at the altar by her father, the bride was wearing an elegant gown of Alencon beaded lace, satin and French vanilla tulle, featuring a sabrina neckline and short sleeves. The fitted bodice of lutex Alencon beaded lace was enhanced with a medley of pearl clusters and iridescent sequins. The full skirt was designed with layers on layers of French vanilla tulle with appliques of daisies, pearls and sequins. The back of the gown was accented with a lace-cuffed plunge back adorned with a garden of daisies which fluttered through the entire silhouette. The train was semi-cathedral length and was also adorned with daisies.

A matching band-style headpiece held the fingertip imported English illusion veil, with delicately scattered with daisies.

Her bridal bouquet was a collection of white and peach roses,

baby's breath, lace streamers and bows.

### ATTENDANTS

Carmen Coggburn of Omaha, Neb., was her sister's maid of honor. Jessica Pohl and Sandy Hall of Fort Worth, friends of the bride were bridesmaids.

Their tea-length dresses of jade green velvet were designed with elongated bodices, scooped necklines and puffed sleeves. Low sculptured backs were accented with a matching bow just below the waist line. Each carried peach and pink roses with French vanilla tulle.

Michael Bullock of Fort Worth was the groom's best man. Earl Ehlers of Meno, Okla., a friend of the groom, and Melvin Fuhrmann of Austin, bride's brother were groomsmen.

Ushers were Larry Gibbs of Dallas, Groom's cousin and Kevin Coggburn of Omaha, bride's brother-in-law.

Mass servers were Phil Record and Tim Meader of Fort Worth.

The Liturgical reader was Joe Winterling. Offertory gifts were presented at the altar by the couple. Eucharistic Ministers were Judy Costello and Julia Pelham. All are of Fort Worth.

Carmen Coggburn, harpist, and Becky Warren, flutist, presented preludes to the ceremony. Guy Sells, organist, and Pat Ward, vocalist, presented "Time For Joy," "Canon in D," "Trumpet Tune" and "The Wedding Prayer." Saint Bartholomew's Folk Group presented "I Lift Up My Soul," "Create In Me," "One Bread, One Body" and "Be

Exalted, O God" for the Mass Liturgy. "Trumpet Voluntary" was the organ solo for the recessional.

Jaclyn Sliger of Hot Springs, Ark., groom's niece, and Elizabeth Cler of Lindsay, bride's cousin, presented rice bags to guests.

### RECEPTION

A reception, dinner and dance followed at the Holiday Inn South in Fort Worth for 250 guests, hosted by the parents of the bride. Marissa Contreras and Tina Madu of Fort Worth presided at the guest book. Serving punch and coffee before the dinner were Margaret Ranger of Isabel Okla. and Laura Cercona of Fort Worth.

The bride's table held white linen cloths, peach and pink gladioli, fern and baby's breath in strawberries.

The bride's four-tiered wedding cake was decorated with pink roses, carnations daisies and baby's breath. The white cake had peach filling and was cut by Sharon Sliger of Hot Springs, Ark., groom's sister. Becky Warren of Fort Worth and Angela

Hofbauer of Muenster, bride's cousins, served the bride's cake.

Tina Madu and Elise Herchen cut and served the two layer chocolate groom's cake which was topped with chocolate covered cherries.

Guests danced to music by Peter Knight Silander, "The Motivator," of Dallas.

The rehearsal dinner was hosted by the groom's parents on Sept. 15 at Zuider Zee Seafood Restaurant.

After returning from a wedding trip to San Francisco, Napa Valley, Yosemite National Park, Monterey, Carmel and Santa Cruz, the couple plans to reside in Fort Worth.

The bride is a 1980 graduate of Idabel High School and graduated from Oklahoma State University with a Bachelor of Science degree in Computer Science. She is a senior Computer Systems Engineer at General Dynamics in Fort Worth.

The groom is a 1980 graduate of Broken Bow High School and holds a Bachelor of Science degree from Oklahoma State University. He is a senior Software Engineer at General Dynamics.

## LHS memorial fund set up for Henry Schroeder

by Elaine Schad

Lindsay High School has set up a memorial fund in honor of former longtime teacher, coach, principal and superintendent, Henry Schroeder.

Schroeder, who began the sports program at Lindsay when he started teaching there in 1958, died last week after a long battle with cancer. He was 60. During a tenure in Lindsay, he was a social studies and religion teacher, longtime track coach, leading the girls' track team to more than a decade of dominance in district competition in the 1960's through the mid-1970's. He was also principal before taking over the superintendent's position. He retired earlier this year.

Donations to the memorial fund will be used to purchase library materials. For more information or to make a donation, call the school office at 668-8923.

## Littlest Angel program begins for Christmas

The "Littlest Angel" committee is now getting ready for the Christmas giving program of 1989.

This five-year-old program has successfully involved the generosity of many people in Gainesville and surrounding Cooke County towns who give fully of their time, talent and money.

Clothing and toys are given to children under 17 years of age who would not have the happiness of opening gifts at Christmas time. Clothing is also given to elders, age 60 and over, and food baskets, as available, are given to families and elders on the basis of income and number of people in the household.

Applications for eligible families will be taken at the Courthouse Monday, Nov. 13, through Friday, Nov. 17. Each application is then thoroughly checked to pre-

vent fraud or duplication of services.

Those who would enjoy shopping for a child or adult, are asked to take one of the Littlest Angel cards that hang on Christmas trees in the area banks after Thanksgiving. The card will contain the age, size of clothing and gift preferences.

Or, if giving money is preferred instead of shopping, a check may be mailed to the "Littlest Angel" Program, P.O. Box 607, Gainesville, TX 76240. Or write or call Debbie Hess, local chairman, at 759-2890, Rt. 2 Box 608, Muenster, TX 76252.

## Clothing sale at Sacred Heart to be held Nov. 14

A clothing sale of dealers' samples will be held at Sacred Heart Community Center on Nov. 14, from 11 a.m. to 6 p.m.

A large variety of women's dresses, separates and sweaters and men's shirts and sweaters will be offered to the public at prices discounted 30 to 50 percent off retail prices. Women's sizes will include 4 through 18 in a variety of casual to holiday styles, including sportswear. No duplicates

in style and color will be included in the collection.

This will be a perfect time to select your holiday gifts and personal wear. Allison Collectibles, Espirit and Ralph Lauren Chaps are just some of the brand names you will recognize. Handbags will also be available for purchase.

The sale is being sponsored by Sacred Heart Development Committee to benefit continuing education for teachers.

## Food Drive is underway

The annual Bread Basket Food Drive for the needy in Cooke County is underway and will extend through the end of November, officials said.

The drive restocks the shelves of the county's emergency food bank located in the basement of the Courthouse and administered by VISTO, Volunteers In Service To Others, and sponsored by the Cooke County Ministerial Alliance.

Donations may be made at Gainesville major grocery stores, county churches and at area schools. Non-perishable canned items, cereals, peanut butter, and other foods high in protein are suggested.

ASHLEY WALTERSCHEID

## Ashley is four!

Ashley Walterscheid, daughter of Donna and Craig Walterscheid, celebrated her fourth birthday with two parties. The first party was held on her birthday, Friday Nov. 3 at Tender Loving Day Care Center. She brought cupcakes to serve her friends.

The second party was a noon meal held at her home on Sunday, Nov. 5. Her birthday cake was made by her Grammy, Evelyn Walterscheid. Family members attending were the honoree's parents, Donna and Craig; Grandparents, Betty Ann "Cookie" and Don Flusche and Evelyn and Donnie Walterscheid; Uncle Karl and Aunt Beth Trubenbach; Uncles Steve and Dickie Trubenbach; and friend, Judy Pagel.

## Sell-O-Rama set for Nov. 10-11

### County Extension Agent

Bigger and better than ever! That's one way the Annual Arts and Crafts Sell-O-Rama, sponsored by the Cooke County Extension Homemakers, could be described.

The sale, to be held this year in Gainesville's Civic Center, will open on Friday, Nov. 10, at 10 a.m. It will remain open for sales until 8 p.m. and reopen on Saturday morning, Nov. 11, at 10 a.m. Shoppers can take advantage of another full day until closing time at 6 p.m.

The Civic Center allows many area artisans to display their handcrafted items. This year more than 120 tables will be filled with arts of all types.

Items to be sold by area artisans include a wide variety such as wood crafts, jewelry, toys, dolls, paintings, handpainted china and soft sculptures. There will also be needlework and Christmas ornaments, plus a variety of miscellaneous items.

The Sell-O-Rama will offer an excellent way for people to Christmas shop or buy those homemade items which they don't have the time or talent to make themselves.

Door prizes will be provided by each exhibitor with a drawing held every hour.

The Extension Homemakers

Council will also have a Bake Sale of homemade goodies just in time for your holiday entertaining. The club women will have a concession stand open so viewers will be able to shop over lunch or enjoy a snack break.

The Bake Sale is to benefit the 4-H Scholarship Fund. Extension Homemakers Council annually presents scholarships to graduating seniors.

The Civic Center in Gainesville is located at the corner of Fair Park Boulevard and South Weaver Street.

For any questions concerning the crafts sale, call Mrs. Evelyn Yeatts, County Extension Agent, at 817-668-5412.

Everyone is invited to come to the Arts and Crafts Sell-O-Rama and join in the fun.

## Baptism

### Rohmer

Alan and Connie Rohmer of Lancaster brought their infant son, Tyler Alan Rohmer, to Holy Spirit Catholic Church of Duncanville on Sunday, Nov. 5, at 1:15 p.m. for his baptism. Father Tom Clorkerty administered the Sacrament.

Godparents were an uncle, Curtis Rohmer, and an aunt, Kathy Rohmer, both of Dallas.

Tyler Alan wore a special christening gown that was a gift from his paternal grandparents, Urban and Viola Rohmer of Muenster. He also wore a baby ring that belonged to his big sister, Lisa.

A reception was held in the Alan Rohmer home following the ceremony. Attending were Urban, Viola and Brian Rohmer of Muenster; Gary and Robin Rohmer and children, Lauren and Andrew, of Dallas; Sharon and Dave Shallenberger and children, Christina and Melissa, of Midlothian; and Curtis Rohmer and Kathy Rohmer of Dallas.

## Saint Jo Opry set for Nov. 11

The Saint Jo Opry will have its monthly show in the school auditorium Saturday night, November 11, in Saint Jo. The show will start at 7:00 p.m. The Country Cut Ups will be performing, along with a guest group which has been scheduled. Proceeds from the opry will go into a fund to air condition the school auditorium.

Concessions will be available. Admission will be \$1.00. Everyone is invited to come out for an entertaining, fun filled evening.

## Kelsey is three!

Kelsey Haverkamp, daughter of Monty and Sherri Haverkamp of Gainesville, celebrated her third birthday on Oct. 27 with a party at Tender Loving Care Day Care Center. She shared birthday cake with all of her friends who sang "Happy Birthday" to her. A special treat was a gift from Wanda.

On Sunday, Oct. 29, Kelsey was guest of honor at a birthday party at her grandpa and grandpa's house. Tom and Virgilla Herr served cake and ice cream to the guests and Kelsey enjoyed opening gifts.

Among those attending were special friends, Katie Endres and Courtney Hartman; grandparents Polly and Chalkie Haverkamp of Whitesboro; great-grandparents Frank and Caroline Schilling and Ida Herr.

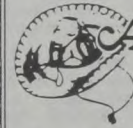

Also Brian Herr and Silvia Hellinger and Darrell Herr and Shawna Grewing, Kelsey's parents and brothers Derek and Nathan.

Unable to attend but telephoning on Kelsey's birthday was her aunt, Karla Haverkamp of Tulsa, Oklahoma.

## Brother Thomas spends week in Subiaco, then returns to Belize, Central America

Thanksgiving was celebrated early in the Florence Grewing home when 38 family members gathered on Saturday, Oct. 28, for a covered dish dinner with turkey and all the trimmings.

Houseguest was Brother Thomas Moster, OSB, who was in Muenster for the weekend after spending the past year on assignment in Belize, Central America. He plans to return to Belize for another year following the election of a new abbot at Subiaco Abbey in Arkansas this week.

Carol Frost and daughter, Loren, accompanied Florence Grewing on the drive to Subiaco

to get Brother Thomas.

While in Muenster, he visited his mother, Theresa Moster, at St. Richard's Villa. He also had a short visit with Steve and Mary Moster.

Returning Brother Thomas to Subiaco Abbey were his sister, Florence, and her sister-in-law, Carol Grewing. This trio spent one day on a drive to Eureka Springs and surrounding area. The ladies spent two nights at Courty House and enjoyed visiting with several former pastors and relatives of Muensterites. All sent best regards.

## Muenster Public School Honor Roll...

### MUESTER ISD FIRST SIX WEEKS HIGH HONOR ROLL

**12th grade** - Michael Abney, Denise Anderle, Justin Ashley, Donnie Bierschenk, Donnie Boydston, Mike Connell, Yancy Culp, Jan Fleitman, Jeff Hellman, Jimmy Herr, Shonna Reiter, Sean Slater, Scot Vogel, Cynthia Youngblood.

## Warning... check \$20s!

After Muenster State Bank employee Carla Cunningham heard a news report on an Ardmore station concerning bogus \$20 bills found in the Ardmore area, she alerted local bank officials who contacted police officials in Ardmore.

Detective McGee of the Ardmore Police Dept. said that the department had five bogus bills in their possession and another coming. The bills have a dirty, washed appearance and are all 1985 series. The face and hair of Andrew Jackson are lighter than on a true bill. The series numbers found so far are G88447871F2, F27403580A and G84570138E. A small 72 appears on the lower right hand corner of the back side of the bills.

Henry Weinzapfel of Muenster State Bank warns merchants and other local people to be especially careful as more cash changes hands during the holiday season.

## Reading is a great learning incentive

"If we could get our parents to read to their pre-school children 15 minutes a day, we could revolutionize the schools." — Ruth Love, Supt. of Chicago Public Schools.

Perhaps this is too simple as a solution, but the fact is our schools need all the help we can give. Children continue to read below their grade level and the dropout rate is rising.

Reading to your children is a worthy endeavor. It's something you can do all by yourself, it's not expensive and it promises to be a joyful, rewarding experience, perhaps the best part of your day, for both you and your child.

Jim Trelease in **The Read-Along Handbook** suggests these guidelines: 1) start young; 2) be selective - match the book to the child; 3) keep it short and interesting.

Suggestions for the young child: Concept books that teach shapes, colors and numbers: 1) **Growing Colors** by Bruce McMillon; 2) **Is It Red? Is It Yellow? Is It Blue?** by Tara Haban; 3) **Shapes** by John J. Reiss; 4) **Circles, Triangles and Squares** by Tara Haban; 5) **Counting Wildflowers** by Bruce McMillon.

Picture books which stimulate the imagination: 1) **The Napping House** by Audrey and Don Wood; 2) **People** by Peter Spier; 3) **Young Lions** by Toshi Yoshida; 4) **Haircuts for the Woolseys** by Tomie dePaola.

Fairy tales that speak to the heart and soul of the child: 1) **Dear Milli**; 2) **Legend of the Bluebonnet** by Tomie dePaola; 3) **Snow White and the Seven Dwarfs** by Jacob Grimm.

Chapter books can be started as early as four years old: 1) **Charlotte's Web**; 2) **A Lion To Guard Us** by Clyde Robert Bulla; 3) **The Lucky Stone** by Lucille Clifton; 4) **The Cricket In Times Square** by George Selden.

Continue to read to your child even after he has learned to read. Read for the sheer pleasure and fun it affords. Even a teenager would enjoy **Alexander and the Terrible, Horrible, No Good, Very Bad Day**. After all, a good story book or picture book is appealing to all ages.

Don't forget poetry. **Where The Sidewalk Ends** is an excellent book for all ages. Get a copy of **Joyful Noise: Poems For Two Voices** and read it with your child. What fun!

Have you read to your child today?

## Kimberly Nix turns seven

KIMBERLY NIX

Kimberly Nix, daughter of Kim and Brenda Nix, celebrated her seventh birthday with two parties. The first one was on her actual birthday, Nov. 2. She had friends over for games, cake and ice cream. Gifts were opened.

Those attending were Megan Felderhoff, Loren Dangelmayr, Kristin Grewing and her sister, Katie, and brother, Patrick.

Saturday, Nov. 4, she celebrated again with lots of games and prizes.

A soccer cake was served, which was made by her mother, and ice cream. Gifts were opened and pictures were taken.

Those attending were her parents; brother Patrick and sister Katie; grandparents, Andy and Cecilia Wimmer; Terry, Harvey, Jason and Terri Sue Wimmer; Molly, Andrea, Staci and Julie Gieb; Candie, Sarah and Adam Geiser; Barbie, JoAnna and Megan Felderhoff; Norma, Carl, Travis and Mark Bayer; Sherri, Monte, Derek, Nathan, and Kelsey Haverkamp; Sandy Wimmer; Tracey Vogel; and Amber Vogel.

Birthday greetings were sent in the mail by Kimberly's Aunt Valana and Uncle Mike Fritchie and she received a telephone call from her grandparents, Nancy and Raymond Nix from Denison.

## JAM on Sunday

JAM (Jesus Alive in Muenster) will be held Sunday, Nov. 12, at 7 p.m. in the new JAM Room. Use convent chapel entrance! The theme will be "The Trinity"... All high school and recent graduates are invited and encouraged to attend.

## Lauren celebrates birthday

**LAUREN GRABBITT**

Lauren Nicole Grabbitt celebrated her third birthday on Sunday, Oct. 29, with a party in the home of her parents, Larry and Lisa Grabbitt of Lancaster. Her actual birthday is Oct. 23. Cake and ice cream were served following the opening of gifts.

Helping Lauren celebrate were her parents; her little brother, viny; aunts Pam Grabbitt and Debbie Vantrece; cousins Krystal and Bubba Grabbitt and Cherie and Amber Vantrece.

Lauren's great-grandmother is Cecilia Schmitz of Lindsay.

## Silhouettes offered Nov. 11 at museum

Having a difficult time finding that perfect Christmas gift for that hard-to-buy for person? Are you a grandparent longing for the days of your youth and wanting to share those times with your very special grandchildren? Well, worry no longer because the Morton Museum has the answer to your dilemma! On Saturday, Nov. 11 from 1 p.m. until 4 p.m. a silhouette artist from the Rose Artist Studio in Dallas will be at the Morton Museum of Cooke County. The cost of the silhouettes will be \$15 each and you must reserve your time in advance. Call the museum at 668-8900 to make your reservations. Don't miss this opportunity to get some of your Christmas shopping finished early.

**BILLY HAVERKAMP JR.**

## First birthday celebrated

A first birthday celebration was held in the Muenster City Park on Oct. 15 for Billy Haverkamp Jr. His actual birthday is Oct. 17.

Billy's parents, Billy and D'Ann Haverkamp, hosted the evening party. A clown theme cake was served to guests along with cold drinks and ice cream. Pictures were made and everyone enjoyed watching Billy open gifts.

Attending were his parents; his sister Brittany; grandparents, Peggy O'Brian of Gainesville and Dan Haverkamp of Muenster; great-grandmother, Ella Haverkamp; Jean Holder of Gainesville; and Vicky Fisher and Sally, Maggie and Jessica of Muenster.

## PARENTIME self-study course offered

by Evelyn Yeatts,  
County Extension Agent

"To help parents of 6 to 12 year olds feel comfortable in this role" - that's the goal of PARENTIME, a series of four home study lessons for busy parents.

The free study course is being offered by the Texas Agricultural Extension Service - Cooke County. The lessons are one way the County Extension Service is providing parents in Cooke County with basic information which can help them understand how their child grows and develops and the part parents play in that development.

The four weekly lessons include:

- Growth and development
- Ages and stages of behavior changes
- Developing self concept
- Communication with your child

Anyone, not only parents, who wants to learn more about elementary age children can participate.

It's often difficult for parents of young children to find the time to come to meetings. The mail out series cannot replace parenting classes but it does offer another way parents can learn about their young children.

To participate in the mail out study, call the County Extension Office at 668-5412.

Being a parent of a 6 to 12 year old may be one of the most interesting challenges you have ever had. You can find the Parentime lessons helpful.

## prepare for winter winds

The heating season is not far away and Lone Star Gas Company recommends a heating system efficiency and safety check be made before cold weather arrives.

All natural gas heaters must be tuned properly to assure the most efficient and safe operation. Here are a few steps most consumers can take.

\* CHECK, replace or clean filters now and at regular intervals during the heating season.

\* CHECK the main burner or burners and the pilot light for a blue flame. A yellow flame indicates an air mixture adjustment may be needed.

\* CLEAN dust and dirt from the air registers.

\* CHECK the exhaust vents for proper venting of exhaust gases.

\* CHECK to make sure the heater has an adequate fresh air supply for efficient combustion.

If adjustments or repairs are needed, your Preferred Gas Dealer, a qualified heating contractor or Lone Star Gas should be contacted. To identify your nearest Lone Star Gas Preferred Gas Dealer, call 1-800-545-3427.

If your gas furnace is several years old, it should be inspected by a professional each year.

Today's natural gas furnaces are much more efficient than those sold just a few years ago. Many older units will operate at 60 percent efficiency, or less. Newer models are much more efficient, with some rated at over 95 percent. A new high-efficiency gas furnace will often pay for itself in just a few years.

## Al Hesse honored on 90th

Al Hesse was surprised on his 90th birthday on Thursday evening, Nov. 2, with a party at St. Richard's Villa when nieces and nephews and his two sisters, Dora Henscheid and Theresa Hesse, accompanied with birthday cake and gifts.

Music by Norma Jean Clifton and Sonny Walterscheid, along with group singing made it a fun party. Picture taking, visiting and reminiscing concluded the party.

Cake, cookies, punch and coffee were served to Ben, Agnes and David Hesse; Herb and Dolores Miller; Jane, Jim and Jeff Myrick; Wilfred and Lillian Walterscheid; Virgil and Bart Henscheid; Ethel Hesse; Armella Cler' Leoba Mollenkopf; Norbert and Liz Koelzer; Regina Pels; Vince and

Trudy Felderhoff; Dorothy Hesse' Dora Henscheid and Theresa Hesse.

Coming from out - of - town were Pauline Spires of Gainesville; Sister Francesca Walterscheid and Sister Roberta Hesse of Our Lady of Victory Convent, Fort Worth.

Al Hesse was born on

November 2, 1900 in Muenster to pioneer parents, Franz and Elizabeth Hesse.

Sister Roberta Hesse has recently returned to Texas after serving the past 21 years as a missionary in Rwanda, Zaire, Africa. She is on an extended visit with family and relatives.

# Hornets run over Petrolia Pirates 30-6

The Muenster Hornets whipped the Petrolia Pirates to raise their season record to 6-2 and their district record to 2-2. Petrolia drops to 7-2 overall and 3-2 in district play. Petrolia will finish their season this week against Era while the Hornets have Alford and Windthorst remaining.

The game opened with Muenster kicking to Petrolia. The deep kick by Brawner was returned to the 25-yard line where the Pirates set up their offense. The Hornets got an early break when, on the second play of the game, the ball was jarred loose from the Pirate ball carrier and was pounced on by Mike Vogel. The Hornets took little time turning the miscue into a scoring opportunity. With good runs by James Hennigan and Mike Vogel, the Hornets were inside the 5 looking to cash in, but two procedure penalties moved them back and forced them to go for the field goal. Brawner remained perfect on the season when he booted through the 26-yarder for an early Hornet lead, 3-0.

Following another good kick, Petrolia again went to work around the 25. The Hornet defense swarmed the Pirate runners and allowed them nothing on three straight plays, forcing a Pirate punt. A 15-yard penalty gave the Pirates new life near mid-field, but again were allowed only 3 plays by the stingy Hornet defenders. On their next possession, Muenster drove into Pirate territory but this time it was the Petrolia defense making the plays, stopping the Hornets on downs at the enemy 34-yard line.

On the very next play, the turnover bug bit again. Linebacker Troy Pagel dove on the loose ball, giving Muenster excellent field position at the 36. The Hornets needed only 5 plays to cover that distance with Mike Vogel providing the final yard on a plunge to the right side for 6. Brawner toed the extra point, making it 10-0 Muenster.

The Hornets had one more possession the first half following an interception by Marshall Smith, but ran out of time and the half ended 10-0 in favor of the Hornets.

Petrolia received the second half kickoff but again was only allowed three offensive plays. Following the punt, Muenster went to work on Petrolia's 47-yard line. It took the locals only 9 plays to score, with the final 13 yards coming on a Brawner to Smith pass. "That was a great

ries, with two touchdowns," reported the coach. Hennigan did gain 54 yards before the injury, raising his season total to 809 yards.

The final Hornet tally came on a 10-yard run by Scot Vogel capping a 55-yard, nine-play drive. With only 1:15 left in the contest, the Hornets led 30-0. With Hornet reserves in the game, Petrolia got its only score on a 79-yard run.

"We totally dominated the game," said Jump. "Our defense played great, allowing only three plays per possession most of the night." Scot Vogel again led the Hornet defense with 12 stops, followed closely by Jeff Hellman with 10. "This week we created turnovers, not committed turnovers," replied Jump. "We made very few mistakes."

Offensively, Jump praised the whole group. "We rolled up 355 yards rushing and you only do that if everyone plays well." "The offensive line had their best night of the season," reported Jump. Brad McDaniel, Yancy Culp, Donnie Boydston, Michael Bierschenk, Jeff Hellman and Keith Vogel all graded above 75 percent, with Jeff leading the pack with a whopping 93 percent. The backs also provided support, with

MARSHALL SMITH (35) goes airborne, diving over the line against the Petrolia Pirates. Dave Fette Photo

MIKE VOGEL (33) follows blocking of Scot Vogel (40) during a drive which became a scoring drive for the Hornets. Dave Fette Photo

Smith, Scot Vogel, and Troy Pagel all blocking above 80 percent. "When we lost James, everyone seemed to turn it up a notch. That is the kind of kids we have here. They are always willing to take up the slack," replied the Hornet mentor.

Jump singled out several others for their outstanding play. Troy Pagel, who filled in at fullback, blocked at 93 percent and also registered 7 tackles with 2 sacks from his linebacker slot. Jeff Hellman, who not only was the top blocker, had 10 tackles, 2 behind the line of scrimmage and caused a fumble. Marshall Smith had 3 catches for 30 yards and a touchdown, while on defense he had 6 tackles and an interception. Finally, Mike Vogel, who had the best night of the season for a

Hornet runner as he stepped for 197 yards and still managed 5 tackles and a fumble recovery on defense. "You could really single out every player, we had a great team effort," praised Coach Jump.

The Hornets travel to Alford this Friday for a 7 p.m. district contest. The Bulldogs are tied for the lead in District 12A with a 3-1 district record. "They are young and talented," reported Jump, "and have been playing very good football." "We said last week that the road to the playoffs goes through Muenster," (with district leaders Alford and Petrolia still on the Hornet schedule) "but our battle cry this week is the road to the playoffs stops with Muenster!" The Hornets can all but eliminate Alford from the playoff picture with a Hornet victory. "We must play well, but I know we will put our pride on the line and have a great game." Follow the Hornets to Alford and join in their quest for victory No. 7. **GO BIG RED!**

## Little Reds are scoreless against Petrolia, 34-0

Muenster Junior High Hornets traveled to Petrolia last Thursday and took a 34-0 swatting from the Pirates.

Petrolia took the opening kickoff and passed their way to the end zone, taking an early 6-0 lead. Both teams went back and forth for the next several possession with neither team mounting a drive.

Near the end of the second quarter, Petrolia opened the airways to cap a long drive with a short touchdown run. The 2-point conversion was good and the Pirates led 14-0 at half.

Petrolia used their ground game in the second half to break open the game and win 34-0.

"The boys played hard, but were overzipped by the larger Pirates," said Coach Tim Ratliff. Muenster was led on offense and defense by Rodney Vogel, Jay Hennigan and Brandon Walterscheid.

The team travels to Windthorst Thursday, Nov. 16, for the season finale. Game time is 7 p.m.

# Tina Klement, girls' team are regional champions

The Muenster Hornettes Cross Country Team brought home the Regional title from Vandergriff Park in Arlington this past Saturday. The locals were led by Tina Klement who kept her undefeated streak alive by outprinting a couple of challengers in the last 200m to claim the title in 12:42 over 3000m. Amy Dankesreiter became the second individual qualifier when she finished 6th overall in 13:22. The top 10 individuals qualify for state competition.

The Muenster boys also competed in Regional on Saturday and had a fine showing, finishing 5th as a team, with one individual state qualifier. Yancy Culp will be the lone boy representative as he covered the 5000m course in 18:20 to finish 6th overall. Others competing for the boys were Michael Bierschenk 21st, Jason Biffle 40th, Doug Hennigan 44th, and Terry Felderhoff 54th. The boys' team was rounded out by Eric VanSwearinger and Yoshi Nakamura.

The entire girls' team qualified for state competition by the strong finish of the remaining team members. Cindy Culp finished 13th in 13:53, Melissa Bayer 14th in 14:05, and Cheryl Hacker 15th in 14:06. Others competing in the event were Amy Hoening in 14:50 and Tonya Knabe in 14:57. The Muenster girls finished first with 42 points, followed by Windthorst in a distant 2nd with 106 points. Points are determined by finish with 1st place receiving 1 point and so on.

"The kids all did very well," reported Jump. "Cross country requires a lot of self-discipline and individual training. These kids deserve all of the credit for their success." The Lady Hornettes and Yancy will be traveling to Georgetown this Saturday to compete in the State Cross Country Meet. "We expected all of them to be very competitive," said Jump. "I know they will represent as well."

Watch for state results in next week's Enterprise.

MUESTER HIGH SCHOOL Cross Country State qualifiers are, 1 to 8, front - Amy Dankesreiter, Tina Klement, Melissa Bayer, Amy Hoening; back - Tonya Fisher, Yancy Culp, Cheryl Hacker, Cindy Culp. Not pictured is Marcia Vogel, alternate. Janie Hartman Photo

## New winner... Cory Knabe comes in 1st

The ninth week of our football contest finds a new winner. 13-year old Cory Knabe out guessed the other 34 contestants and took the top weekly prize. Ben Bindel followed for 2nd place. Both entrants had 18 correct games, but Cory took the honor by having a 20 point difference in the tie breaker, Ben missed by 22 points. Janet Fisher and Bonnie Stoffels came in close with 17 guesses, while 12 contestants had 16 right and 11 had 15.

All entries had the correct choice for the Aggies and Arkansas victory. Only one wrongly picked Gainesville, Air Force, Oklahoma and Houston to lose.

Of local interest, 19 Tiger fans were looking for a victory. Most tie breaker scores were only a point or two apart; the closest to the final score was a 7-35 guess; the farthest was giving Sacred Heart a 41-6 win. Eleven of the entries picked Muenster to lose, while seven were looking for Alford to beat Valley View, and 17 wrongly picked Lindsay over Windthorst.

The most missed game was San Diego's victory over Philadelphia, which everyone picked incorrectly. Only one person correctly guessed Stanford to win over UCLA and two had right picks on the Jets over New England and Texas Tech's upset over the Longhorns.

Mickey Haverkamp is leading the race for the season's big prize with a percentage of 75 correct guesses. Bonnie Stoffels follows with 72.5 percent. Other contestants and their percentages who are still in the running for the big bucks are Nick Stoffels 71.5; Benny Haverkamp 70.5; Alan Hudspeth 69 and Tim Bindel 68 followed by Carol Grewing, Ben Bindel, Tim Felderhoff, Leona Hellman, Steve Fuhrmann, John Bartush and Peachie Huchton.

Dennis and Muller Accounting was last week's tie breaker sponsor where the weekly winnings were picked up.

## Tigers lose to Oakridge, face Tyler Street next

"A team failure," said Tiger Coach John Sims. "We didn't play well... nothing went right... every little mistake cost us."

The Sacred Heart Tigers traveled south to Oakridge last Saturday, hoping to bring home a district win and a shot at the playoffs. But turnovers, 4 interceptions a fumble and a poor kicking game spoiled the day for the Tigers.

Oakridge took the opening kickoff and, in 6 plays, moved 80 yards to score early on the Tigers. The extra point kick was wide and the score read 6-0.

Ryan Hess picked up 7 yards for the Tigers, who had to boot the ball back to the Owls. Starting inside their 20-yard line, Sacred Heart's defense held, taking over on the 31-yard line. On the first play of the series, the Tigers' first turnover, an interception, gave the Owls the ball and on only 4 plays, Oakridge drove 67 yards to score again. The defense of David Rohmer and Larry Switzer stopped the extra point run and Oakridge took a 12-0 lead.

Sacred Heart could only gain 5 yards on their next possession, kicking the ball over to the Owls as the first quarter ended. On 2nd and 4, the Tigers regained possession when Stevan Nasche picked off an Owls' pass. Runs by Ryan Hess and Darren Klement and a pass to Tony Grewing gained 23 yards for Sacred Heart when Oakridge again fouled up the Tigers by picking off a pass.

Oakridge moved 76 yards in 8 plays to score. The extra point kick was good and the Owls stretched the score to 19-0 with 5:03 remaining in the half.

The Tigers got only one play in the next series of plays, then fumbled the ball to Oakridge, only 20 yards from the Owls' goal line. An incomplete pass, two 5-yard penalties and a fumbled ball helped the Tigers regain possession. But on 4th and 8, a blocked punt again gave the Owls the ball, just a shot away from paydirt. It took Oakridge just 4 plays to move 21 yards and score again. The extra point kick went wide and the score read 25-0 at half.

The Tigers took the kick to start the second half, but lost yardage on the attempt and gave the ball back to Oakridge. The Owls again moved the ball into the end zone in 8 plays and increased the score to 31-0.

Sacred Heart gained only 3 yards in their next possession, when an attempted punt was blocked, giving their opponents the ball on the 22-yard line. The next play, a pass, was completed to add another TD to the Oakridge score. The kick was good and the scoreboard read 39-0 with 5:01 remaining in the quarter.

Bad luck again hit the Tiger team when, during their next series of plays, Oakridge picked off a pass. The Owls moved inside the Tigers' 20-yard line, but 2 penalties forced an attempted field goal, which failed. Sacred Heart took over on their own 22-yard line.

The highlight of the game for the Tigers then occurred when Shawn Dangelmayr completed a pass to Tony Grewing, who broke several tackles and gained 57 yards, giving Sacred Heart a first down on Oakridge's 17-yard line. Ryan Hess picked up 2 yards to end the quarter, then on 3rd and 15, Tony Grewing ran in for 6 points. Chris Hess, on his only play of the game, booted the extra point and the Tigers were on the scoreboard.

"Tony played his best game," said Coach Sims. "That was a super catch and he broke 2 tackles." A passing game is something Sims has been attempting all season. "He did it," the coach said about Grewing's successful catch.

Sacred Heart then attempted an inside kick, giving the Owls the ball at midfield. Fine defensive plays by David Rohmer and Ryan Hess forced Oakridge to punt on 4th down. The Tigers started on their 12-yard line, with runs by Darren Klement and Ryan Hess, the ball moved to the 44-yard line.

Then an intercepted ball gave possession back to the Owls on the Tigers' 41-yard line. Oakridge moved in to the 20-yard line when the defense forced a fumble that was covered by Ryan Hess. The Tigers lost yards on their next play, then threw an interception, giving Oakridge the ball just 15 yards from the goal line.

The Owls moved to the 1-yard line and, on the last play of the game, fumbled on the snap and failed to score.

"Oakridge played their best game all year," said Sims. "They're a lot better team than the records show."

Sacred Heart picked up 5 first downs, gaining 88 yards in 31 carries and 66 yards in the air. Oakridge had a total gain of 342 yards and 17 first downs. Darren Klement was the Tigers' leading rusher, picking up 49 yards. Ryan Hess gained 36 and Tony Grewing completed 2 passes for 36 yards. Stevan Nasche and Shawn Dangelmayr shared the quarterback position after Nasche was sidelined with an injury.

The Tigers travel to Bishop Dunne Stadium Friday, Nov. 10, for their final district contest with the Tyler Street Christian Crusaders.

"We'll go down and give it a shot," said the Tiger coach. "They're a beatable team if we can stop (Donovan) Brown." Brown scrambled for 800 yards last season for the playoff Crusaders' squad. "We have to keep their passing to a minimum and play great defense," continued the coach. "We can win, even with just 11 players."

Injuries and other complications have plagued the Tigers all year, but the worst hit team this week with the loss of four starters, because of academic grades, leaving only 11 players to start Friday night. Game time is 7:30 p.m.

### Directions for Tyler Street game

The following route to Tyler Street football game is recommended for travel:

Travel I-35 to Dallas and travel into Dallas to Hwy. 67S. Exit and travel Hwy. 67S to Ledbetter/Loop 12 West. Exit Ledbetter and travel to the first light which will be Rugged. Turn right on Rugged and travel approximately three blocks to Bishop Dunne High School.

## Roundball fans... Lady Cubs open Monday

Sacred Heart's Lady Cubs tipoff their 1989-90 basketball season Monday evening in Gold-Burg. The Lady Cubs will compete in the North Texas Junior High School Independent Conference with Montague, Gold-Burg, Forestburg, Prairie Valley and Terral, Oklahoma. The six schools will play a round-robin schedule.

The Lady Cubs are led by eighth graders Jennie Endres, Donetta Hess, Deanna Hess, Amy Fisher, Kelly Dangelmayr and Erica Schilling. Seventh graders on this year's squad include, Tiffany Fisher, Kristen Fleitman, Tammy Fleitman, Jennifer Fuhrmann, Sarina Fuhrmann, Stephanie Grewing and Loretta Reiter. Kerri Endres, Nicole Endres and Vanessa Felderhoff represent the sixth grade members of the Lady Cubs.

## Cubs rip the Owls

The Sacred Heart Junior High Tiger Cubs traveled to Fort Worth last Saturday morning to take on the Oakridge Owls.

The Cubs' defensive held the Owls to three plays after the opening kick, taking over at the Oakridge 37-yard line. Runs by Chris Pagel and Jason Hofbauer took the ball to the 5-yard line. A loose ball was covered by Oakridge who took possession for 4 plays, punting the ball back to the Tigers. Two plays later, the Cubs threw an intercepted pass, which Oakridge ran back for 75 yards for a touchdown. The extra point run was good and the Owlets led 8-0 with 1:08 remaining in the first quarter.

Chris Pagel returned the kick 20 yards to the 35-yard line, then picked up another 11 for a first down. Another fumbled ball gave Oakridge possession on their 45-yard line. After a 10-yard holding penalty, the Little Owls fumbled the ball back to the Cubs. Jeremy Bayer covered the ball for Sacred Heart. Pagel, Hofbauer and Mike Gehrig moved the ball to the 8-yard line where Pagel ran around the right to score the Cubs' first TD. Pagel also ran the extra point and the game was tied 8-8 with 3:46 remaining in the first half.

A short kick gave the Cubs the ball at midfield. On their second play, Jeremy Bayer again covered a loose ball, giving the Cubs possession at their 45-yard line.

Again Pagel, Hofbauer, Gehrig and Neil Berres moved the ball to the 4-yard line, and with six seconds on the clock Neil went over for 6 points. Pagel ran the extra point and the Cubs took a 16-8 lead.

The Tigers took the second half opening kick. A 5-yard delay of game penalty forced Sacred Heart to punt. A bad snap gave Oakridge the ball only 5 yards from the goal line. In two plays, the Owlets scored; the extra point attempt failed, and the scoreboard read 16-14.

The Oakridge defense stiffened with the Cubs' next possession and stepped in and intercepted a Sacred Heart pass. In two good plays the Owls scored again and with 28 seconds remaining in the third quarter Oakridge took the lead 16-20.

A 15-yard penalty kept the Cubs

from moving on their next plays and Oakridge took over on the 45-yard line. Two defensive plays by Jeremy Bayer and Neil Berres gave the Owls no gain when Bayer covered his third fumbled ball and the Cubs regained possession on their own 47-yard line. Three runs by Pagel put the ball on the 39, where Jason Hofbauer's run, followed by Pagel's extra point, returned the lead to the Cubs 24-20 with under 3:00 remaining in the game.

Sacred Heart defense held again, taking the Owlets for a 6-yard loss, help with a fine defensive play by Jason Hess. The Cubs took over on the Oakridge 24-yard line. Runs by Berres, Hofbauer and Jon Klement placed the Cubs on the 2-yard line. With 15 seconds remaining in the game Mike Gehrig crossed into the end zone to give Sacred Heart a 30-20 victory.

The junior high squad travels south again Friday evening to Tyler Street Christian School to tangle with the Crusaders. Game time is 5:00 p.m.

## Golf tourney set for Nov. 10

## Tigerettes prepare for season opener

The 1989-1990 Sacred Heart Tigerettes will open their 1989-1990 season Thursday evening in the Tiger Den against archival Valley View. The freshmen Tigerettes will play a junior varsity game at 6:00 followed by the Tigerettes.

The defending class A State Champions were hit hard by graduation with the loss of All-State performers Noelle Hesse and Lisa Hamric. All-Star Vickie Schmitt, along with key role players Jennifer Fuhrmann and Janel Flusche. "We graduated another great group of young ladies," commented Tigerette mentor Jon LeBrasseur. "Most people felt we would struggle last season and many feel the same this season, we will wait and see when the ball is tossed up."

Leading the list of returners for the Tigerettes are All-Star LaBecah Hess and All-District performer Amy Walterscheid and '88-89 starter Debbie Schmitt. Amy Bayer, Janie Fisher and juniors Sharon Fuhrmann and J.J. Dowd top the list of returning letterwinners. "I am very pleased with our pre-season effort," said Coach LeBrasseur. "We show improvement with each workout and I hope that by Christmas we will be ready for another title run."

"We are very strong inside with Fisher, Schmitt, Walterscheid, Dowd and Fuhrmann, Amy Bayer will have to give us strong floor play and sister Vickie Bayer along with Shirly Henscheid and Jennifer Walter must give us solid play at the guard positions in their

relief roles," said LeBrasseur. "Amy Walterscheid is having an outstanding pre-season along with junior Sharon Fuhrmann." "Hess is learning a new position, and Schmitt is coming off of a foot injury, that has slowed their progress." "Fisher and Dowd look outstanding inside and Bayer is blossoming into a capable replacement for Noelle Hesse."

The Tigerettes will need to find some offense as via graduation they lost top offensive stars Lisa Hamric and Vickie Schmitt. "We have moved LaBecah into the shooting guard position and Janie into the power forward slot and they are playing their roles better each day," said LeBrasseur. "We have made some defensive changes and a few offensive changes but basically we just have put in some new gears to replace our graduates."

"We have a balanced schedule again this season with a challenge every week," said LeBrasseur. This is a tribute to the area coaches and athletes who have worked hard through the summer programs to improve their teams. "We will be the underdog many times this season but I feel our girls will always put forth their best effort."

"Thursday will be a major test for us as Valley View looks to be the top team in the area."

The Tigerettes' five freshmen Christy Yosten, April Truenebach, Angie Hofbauer, Mandy Barnhill and Deanna Bayer will play a JV schedule in their preparation to continue the Tigerette tradition.

## YAMAHA Breeze

- Completely automatic transmission — no clutching or shifting
- Four-stroke, 124cc electric-starting engine
- Comfortable seat and front and rear swing-arm suspension provide smooth rides
- Virtually maintenance-free design keeps it going strong
- Exciting color selection

ATVs with engine sizes of 90ccs or greater are recommended for use only by those aged 16 and older. Yamaha recommends that all ATV riders take a training course. For safety and training information, see your dealer or call the ATV Safety Institute at 1-800-447-4700. ATVs can be hazardous to operate. For your safety: Always wear a helmet, eye protection and protective clothing; never ride on paved surfaces or public roads; never carry passengers; never engage in stunt driving; riding and alcohol/drugs don't mix; avoid excessive speeds; and be particularly careful on difficult terrain.

\*Denotes District Contests \*\*Denotes Homecoming '89

### CONTEST RULES:

- Only one entry per person per week. Contest entries must be 12 years old or older.
- This page of schedules, results, predictions, pictures and the contest itself is supported by the advertisers appearing here. Each ad contains a scheduled high school, college or pro game for Friday, Saturday or Sunday of the week of publication. Read each ad and circle the winner. Entries on forms other than this newspaper page will not be accepted.
- In order to determine the prize winners in case of ties, you must predict the score for the tie breaker game listed in the featured ad above.
- Print your name, address and phone number clearly in the space provided.
- Deliver the full contest entry to **The Muenster Enterprise BEFORE 5 p.m. FRIDAY**, the week of publication. Mailed entries will be accepted only if postmarked before Friday, 5 p.m. Address for mailing entries is P.O. Box 190, Muenster, Texas 76252.
- The featured ad is picked at random each week. It contains the tie-breaker listing and is one of the winner/loser picks. Winner will pick up their prizes at that business each week on or after Tuesday of that week.
- To be the grand prize winner, a contestant must enter every week. Contest will continue as long as either Muenster team remains in play. Winner of the \$100.00 grand prize will be determined by the best winning percentage throughout the contest after the lowest score is thrown out.

**Season Grand Prize \$100.00**  
**Second Prize \$50.00**

**Weekly Prizes**  
First \$10  
Second \$5

# Hoffman hurdles Lindsay Knights

Lindsay hosted Windthorst last Friday night with high hopes of a district victory, but the Trojans' J.T. Hoffman scored 5 touchdowns and gained over 300 yards to hand the Knights a 33-19 loss.

Windthorst took the opening kickoff, moving downfield to the Knights' 30-yard line where J.T. Hoffman ran in for the first score of the game. Hoffman kicked the PAT and the Trojans led 7-0 with 9:37 on the clock.

The Knights took their first possession on their own 25-yard line. Runs by Fred Hughes, Kevin Parsons, Joel Metzler and a pass to Pat Corcoran moved the Knights to the 3-yard line, with 4:33 remaining in the first quarter. Parsons crossed over for a touchdown and Tracy Huchton's kick tied the game 7-7.

Lindsay's defense, led by Huchton, Russell Almon, Corcoran, Metzler and Patrick Schully, held the Trojans for no gain on their possession, forcing a fourth down punt.

Again the Knights' three backs moved the ball, but this time only 9 yards and a 4th and 1 attempt was halted by Windthorst defense.

On the Trojans' last play of the quarter, Schully dropped Hoffman for a 19-yard loss, forcing Windthorst to punt on 4th and 28.

Windthorst's kick gave the Knights possession on their own 6-yard line. After gaining 14 yards, two fine Trojan defensive plays turned the ball over to the visitors.

An intercepted pass placed Windthorst only 23 yards from the goal line. A 15-yard penalty, a pass defensive play and a tackle by Corcoran gave the Trojans the option to punt, putting the Knights deep in the hole on the 3-yard line. Lindsay was halted 15 yards later, punting the ball back to the visitors. A 44-yard touchdown run was called back on a holding call and two plays later, David Fleitman covered a loose ball and Lindsay took over on the 37-yard line. Joel Metzler then ran for a touchdown. A bad pitch stopped the extra point conversion and Lindsay led 13-7 with 3:55 remaining in the half.

The ball bounced back and forth the remainder of the quarter with highlights including a quarterback sack by Matt Zimmerman and an interception by Pat Corcoran.

The second half was all Windthorst. "They made adjustments during halftime," said Lindsay Coach Pat Benton. "They came out fired-up and started giving the ball to Hoffman and we couldn't stop him."

The Trojans took first possession and easily moved the ball 64 yards for a Hoffman touchdown. Hoffman kicked the extra point and Windthorst took a 14-13 lead.

Lindsay moved the ball 45 yards, helped by two 15-yard penalties, but was stopped on fourth down. A short 8-yard punt gave the Trojans possession at midfield. Runs by Hoffman and Brad Veitenheimer were topped by an 18-yard Hoffman touchdown run. The PAT kick hit the goal post, giving Windthorst a 20-13 lead.

Lindsay's next drive took them 66 yards to the Windthorst 11-yard line. A fumbled play and three incomplete passes halted their scoring threat early in the final quarter. The Trojans took the ball and marched 89 yards, with Hoffman going the final 5 for another touchdown. The PAT failed and Windthorst had a 26-13 lead, with just over 10 minutes left in the game.

The Knights gained 32 yards during their next possession, but a 4th and 1 attempt failed and Windthorst took over at their 41-yard line. The Trojans moved to the 7, gave the ball to Hoffman, who

scored his fifth touchdown of the night. Hoffman's extra point kick was good, the score 33-13.

The Knights' play of the game came on the first play of their next series. Quarterback Scott Hermes passed to Chris Hanks who ran for a 70-yard touchdown. The extra point run failed and the scoreboard read 33-19 with 2:11 remaining in the game. Windthorst played out the remaining minutes.

Windthorst picked up only 1

KEVIN PARSONS (22) gains extra yards behind the blocking of Joel Metzler (45) and Fred Hughes (11) in action against Windthorst.

QUARTERBACK SCOTT HERMES (5) gets off a pass as Knights' Herb Price (56), Fred Hughes (11), Kevin Parsons (22) and Joel Metzler (45) stand guard against the Trojans.

(Statistics by Bridgette Anderle)

The car pictured on the back of the ten dollar bill is a 1926 Hupmobile.

more first down than Lindsay, but gained 408 yards rushing, 332 of those by Hoffman. Joel Metzler led the Knights' rushing with 94 yards in 11 carries, followed by Kevin Parsons with 92 yards in 23 attempts.

Lindsay added 125 yards to their passing game. Chris Hanks picked up 70 and Pat Corcoran 40 yards. Tracy Huchton, Pat Corcoran and Joel Metzler led the Knights' tackles.

The Knights take a breather this week before facing the Valley View Eagles on Nov. 17.

## St. Mary's to field the first football team since 1960s

When the Sacred Heart junior high football team takes the field at 6:00 p.m. Wednesday, they will be playing a team from St. Mary's School in Gainesville, which has not fielded a team in almost 30 years.

The St. Mary's Mustangs, the newly-formed football team at St. Mary's under the direction of Father Nicholas Fuhrmann and Ted Westmoreland, held their first scrimmage Nov. 2 at Lindsay against the 7th Grade Squires. While Lindsay did all the scoring in their 14-0 victory, the St. Mary's coaches were well pleased with the efforts of the young junior high team, said Father Nicholas.

St. Mary's had a football team in the 1930's when the team was known as the Galloping Gaels. The name was later changed to Mustangs, but football was discontinued with the closing of the high school department. Except for a brief revival in the 1960's, St. Mary's has been without organized football.

Father Nicholas, a former coach at Windthorst, started the team because he feels competitive sports are important in the growth of young men and women. "We had other sports at St. Mary's, but football demands more personal discipline and more team effort than any other sport," he said. "We also feel that if St. Mary's students wish to pursue football in high school, they will be better prepared."

St. Mary's hopes to carry a full

slate of games next season, which could include a couple of games each against Sacred Heart, Windthorst and Lindsay junior high teams.

# Lowering of Moss Lake beneficial to fishermen

Area fishermen may be the winners of a project which will begin next week, lowering the lake level of Moss Lake by 12 feet.

Personnel with the Gainesville Police Department, which is in charge of law enforcement at the lake, located northeast of Lindsay, are expected to open the outlet gates in order to perform safety inspections and repairs, if needed, to the dam area around the lake, said Gainesville City Manager Gene Cravens. Landowners around the lake have been notified so they can secure their boat docks or make needed repairs, he said. The project should be completed by February.

Engineers with the Soil Conservation Service will inspect the spillway, flood gates and the dam itself, said Richard Connert, district conservationist. Should major repairs be needed, state engineers will be called in, he said.

Moss Lake was built in 1966, and was originally intended to eventually provide an alternative water source for the City of Gainesville, which owns the lake. At normal water levels there is 1,125 acres of surface water, with normal fluctuations of about three feet a year. This will be the first time the dam has been inspected since the lake was built, officials said.

While the priority is checking for damage, lowering the water level could be very beneficial for fishing, which is open to the public with Texas fishing licenses, said Phil Durocher, fresh water management director for the Texas Parks and Wildlife Department in Austin. "If you have to pick a time of the year to lower it, this would be the perfect time," he said.

Years ago, the Parks and Wildlife Department routinely lowered water levels on lakes to aid the fish population, said Bruce Highsmith of Denison, Parks and Wildlife biologist assigned to Moss Lake. "Water has become such a precious commodity, however, that no one really wants to intentionally spill it anymore," he said.

When the water level is lowered, aquatic vegetation around the edges of the lake will die, Highsmith said. This will do two things. First, it will prevent the shore line from being inundated with vegetation which hampers bank fishing. Second, it will take away protective cover for bait

fishes, such as minnows, who are supposed to be supplying food for the larger fish.

"When you lower the water level, what you do is pull all the bait fish out into the channels where the predator fish can enjoy an obstructed feast," Highsmith said. "But since it's during the winter, the fishes' metabolism is reduced, so they aren't going to go hog wild."

In 1986, Lake Possum Kingdom underwent the same technique. Water levels weren't returned to normal until the spring of this year. The result came in June of this year when an angler pulled in the 9th largest bass in the state's history.

Moss Lake is expected to return to normal not long after the outlet gates are closed on February, since the lake is fed by both north and south Fish Creek. With the smaller bait fish in a more concentrated area with the larger predator fish, however, fishing should be improved, Highsmith said.

During the 1980's, fishing at Moss Lake had undergone somewhat of a decline, said Highsmith. "For some reason, the lake didn't produce very much fishing and we were receiving a lot of complaints," he said. During the past year, however, that has been turned around, he said. The Parks and Wildlife Department has been stocking the lake with both small and large-mouth bass and has been doing some electrolyte surveying. Earlier this spring, a nine-pound bass surfaced as have several large fish, Highsmith said.

**EVER WONDER HOW THOSE INCREDIBLE ATV STORIES GOT STARTED?**

While owners of other ATVs have nothing better to discuss than gear ratios, Polaris owners swap stories like the one about the guy who pulled a stuck 4x4 pickup out of the mud with a 4x4 Polaris Trail Boss. Or the doctor who makes lease calls across the Alaskan wilderness on his Polaris ATV. Or the Maryland dairy farmer who won the 4x4 class of a hundred-mile cross-country race on his two-year-old Trail Boss.

Ask a few Polaris owners and your Polaris dealer what they've heard about Polaris ATVs on the trail and on the job. Then try one yourself. It's almost guaranteed that you'll come back with something to talk about.

**WARNING:** ATVs can be hazardous to operate. These are full-size machines, designed to be ridden only by adults age 16 and older for your safety. Always wear a helmet, eye protection and protective clothing. Never ride on paved or public roads. Polaris recommends that all ATV riders take a training course. ### Traditional dinner and bazaar set for Nov. 18

The Forestburg United Methodist Church will have their annual traditional Thanksgiving Dinner and Bazaar Saturday, Nov. 18, 1989 at the Forestburg Community Center. The dinner will be turkey and dressing and ham with all the trimmings. Serving will start at 11:30 a.m. Adults \$4.00. Children under 12 \$2.00. There will also be a bake sale. Everyone is invited to come and enjoy a good Thanksgiving dinner.

**Cemetery Working set for Nov. 11**  
A cemetery working will be held on Saturday, Nov. 11, at the Old Southward Magee Cemetery near Forestburg. It will continue all day, with dinner on the grounds.

The cemetery was almost abandoned for many years, and thick underbrush grew among the graves. Last year, a group of citizens worked with chain saws and cleared part of the brush away. Again, this year, in October they met again to continue the work.

Many of the early day pioneers are buried in this cemetery, including some of the Southwards,

Magee and Lt. Van Roberts who was killed by Indians at Forestburg. Also buried there is John Steadham, who insisted on the building of Fort Steadham, or Fort Bingham as it was later called, for the protection of the settlement from Indian raiding parties. Some of the marked graves date back to the 1870s.

Any help for the cemetery working is welcome. For information, call Veda Brogdon, 964-2336.

### News of the sick

George Stephenson and son, George B., and daughter, Judy, of Gainesville visited Mr. and Mrs. Jack Berry and James Thursday afternoon. James Berry is improving and getting stronger.

### Granddaughter visits Bobbie Wylie

Mrs. Bobbie Wylie had as her guest for the weekend her granddaughter, Kimberly Vannoy of Hillsboro. Mrs. Wylie took Kimberly home Sunday afternoon, accompanied by Ruth Smith.

Mrs. Bobbie Wylie and Ruth Smith went to Wichita Falls Monday.

### Personal

Little Miss Chari Richardson accompanied her grandparents, Norma and Bill White, to Decatur Saturday.

### Guests of Mrs. Berry

Mrs. Josephine Berry drove to Bowie Friday and visited and spent the night with Mrs. Veda Magee. She returned home Saturday.

Brenda, Charley and Zack Haverkamp of Gainesville visited Mrs. Josephine Berry and Joe Frank Berry Sunday afternoon.

### Personal

Mr. and Mrs. Marvin Maberry were in Henrietta Tuesday.

### Geese fly south

Jim Penton and Nick Muller saw about 300 Canadian geese flying south. It is the first ones they have seen this fall and they think the geese are a little late.

### Mrs. Hanson visits kin

Mrs. Joyce Hanson celebrated a birthday Sunday. She drove over to Montague and accompanied her daughter, Mrs. Carol Jaske, Emy and James Brossart to Wichita Falls. They visited Deanna Brossart. They then went to the Sheraton Hotel where Emy

Brossart auditioned for a style show sponsored by Toys-R-Us to be held Dec. 3, followed by dinner at Red Lobster.

Mrs. Joyce Hanson and Mrs. Mag Huckabay were in Gainesville Tuesday.

### Ten have lunch together

Mrs. Louise Shults drove to Era Tuesday and Mrs. Jessie Mae Martin accompanied her to Gainesville to the home of Mrs. Edith Richardson where they joined eight other ladies for a covered dish lunch and get-together. The ladies all had a nice time and visit.

### Fall foliage colors

The foliage is changing its colors. Some trees are real pretty. However, some of the leaves are falling, maybe it won't be as pretty as it is some years. In some areas, there is lots of dead grass and weeds, so everyone should be careful with fire.

### New addition in Rosston

Jim Penton of Rosston phoned to tell that he and Wilbur deBorde of Era installed the first and only fireplug in Rosston on Monday, Nov. 6. Now near the museum, it will be sanded, painted red, and moved to a Forestburg street. In his phone call, he asked that fellow citizens be broadminded in considering the fireplug.

## Anniversary observed of Francis Lightfoot Lee

The Francis Lightfoot Lee Chapter of NSDAR celebrated its 10th anniversary at the Oct. 14 meeting held at the Morton Museum of Cooke County at 2 p.m.

Historically, Mrs. Gordon B. Smith Sr. and Mrs. Fletcher W. Fischer were the Founding Regents. On Oct. 12, 1978, Mary Katharine Davis Smith received the appointment as Organizing Regent of the newly proposed Francis Lightfoot Lee Chapter. This request was made to the State Regent of the Texas Society, Mrs. Georgia B. Edman of Houston, by Mrs. Betty B. Miller of Washington, D.C., Organizing Secretary General of the National Society, Daughters of the American Revolution.

On Oct. 13, 1979, at the home of Mrs. Aline Lee Fischer, Trails Crossing Ranch of Era, the Francis Lightfoot Lee Chapter of NSDAR was confirmed with Mrs. Lewis Patrick O'Neill of Dallas, State Parliamentarian, installing the first corps of officers as follows: Mrs. Gordon B. Smith Sr., Regent; Mrs. F.W. Fischer, Vice Regent; Mrs. John E. Balentine, Chaplain; Mrs. William G. Basinger, Recording Secretary; Mrs. Rube Griggs of Muenster, Treasurer; Mrs. Ruby Davis, Registrar; Mrs. Bette Ann Gunter,

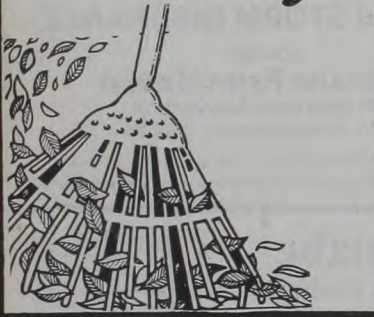

Librarian; and Mrs. Marvin Maberry of Era, Historian. Other organizing members were Linda Diane Clark, Carolyn Ann Davis, Ariail Lee Fischer Gores and Ann Avery Davis Wheeler.

Members joining the first year became charter members. They were Mrs. Edward Earl Dale of Rosston, Mrs. Terry Patrick Jones and Mrs. J.B. Smith.

The 10th anniversary meeting of the chapter was presided over by the Regent, Mrs. Linnie Shobe. Mrs. Mary Edith Eldridge served as Acting Chaplain. Mrs. Bette Ann Gunter read the special message from the President General, Mrs. Eldred Martin Yochim.

Mrs. Maurine Griggs, program chairman, introduced Mrs. Shawna Powell, curator of the Morton Museum, whose subject was "The Legacy of Courage." She pointed out that we owe a great debt to the early settlers who endured many hardships and Indian raids by the Comanches and the Kiowas. In spite of stockades built for their protection, the raids were quite frequent, and some families were killed as a result. She stated that in 1880 - around 10,000 people populated Cooke County. Her historical presentation covered the period of 1850-1880.

# Farm & Ranch

## Several tips offered for groundwater protection

By Larry Binz  
Texas Farm Bureau

MARLIN — The overwhelming majority of the groundwater in the U.S. is utilized by agriculture, so it stands to reason that farmers and ranchers want to protect this valuable natural resource from possible pollution, says an Extension agricultural chemical specialist.

"Eighty-two percent of the groundwater in the U.S. is used for irrigation of crops," said Dr. Denise McWilliams. "This use also requires that water quality be high enough that crops and any water collection points do not become polluted."

Speaking to several Falls County ag producers here recently, Dr. McWilliams noted that a considerable amount of the groundwater used for irrigation will re-enter the water cycle to replenish groundwater supplies.

While noting that ag chemicals have brought about tremendous advancements in crop production, McWilliams advised the producers to exercise caution in their use of fertilizers and pesticides to conserve the chemicals and water.

### Advantages of chemicals

McWilliams cited the enormous good uses for chemicals, such as insecticides that have curtailed or eliminated diseases and boosted the yield and quality of food and fiber grown in the world.

"Pesticide use has more than tripled since 1964. Such increase indicates the benefits of fertilizers and pesticides," she observed.

However, "using more than what the label calls for won't make it better," she observed.

Chemical companies don't put labels on their chemical containers for decoration; but for instructions on how to apply chemicals safely and in the most economical manner, she observed.

### Protecting groundwater

The ag chemical specialist

touched on some ways that producers can contribute to the protection of groundwater in their day-to-day farming operations.

A brief list follows:

- Don't allow applied nitrogen plus the natural amount in the soil to exceed the level needed for crop use.
- Don't apply the nitrogen before the crop can utilize the fertilizer.
- Nitrogen should not be applied to sandy or limestone soils in which the fertilizer does not adhere to the soil and thus leaches.
- Applying nitrogen when the soil is at least 90 degrees (Fahrenheit) and moist (80 percent saturated) will cause the fertilizer to leach.
- Rotation of crops reduces nutrient inputs, and curbs erosion and fertilizer requirements.
- Don't broadcast phosphate fertilizers. Band it instead since it tends to bind to soil particles tightly.

- Alternate the use of different pesticides to encourage pest resistance and build up residue levels.
- Read ag chemical labeling closely. One cannot assume that there is a universal set application rate for all such chemicals.
- The use of integrated pest management is a good complement to chemical application in controlling insect problems.

In her concluding remarks, McWilliams noted that there are several factors impacting the effectiveness and risk of using fertilizers and pesticides. These include: (a) geographic and geological factors; (b) climatic factors; (c) soil factors; (d) chemical factors; and (e) management practices.

McWilliams acknowledged that the vast majority of farmers are committed to protecting the groundwater.

An occasional reminder of the ways to ensure protection of the groundwater keeps everyone committed to this end, she observed.

## Seedling tree program initiated by USDA SCS

The Upper Elm-Red Soil and Water Conservation District will be sponsoring a conservation tree planting program for area landowners announced Richard Connert, District Conservationist with the USDA Soil Conservation Service in Gainesville.

The conservation tree program enables farmers, ranchers, rural landowners, and suburban landowners to obtain trees at nominal cost. "The purpose of the program is to encourage landowners to plant effective wind barriers which can protect life and property for 40 years or longer if properly maintained," said Connert.

There are several adapted species of conifers available as potted trees. Included are Afghanistan Pine, Austrian Pine, Ponderosa Pine and Red Cedar. Hardwood tree seedlings are available as barerooted plants with such species as Red Oak, Bur Oak, Green Ash, Pecan and Russian Olive being offered. Wildlife packets, which are made up of four species of 25 trees each, are also available.

The Soil Conservation Service is the technical agency that assists the Upper Elm-Red SWCD in carrying out their programs. Conservationists are available to assist you with questions concerning tree windbreaks or discussing any other problems you might have. For additional information, contact the Gainesville field office at 668-7794 or stop by at room 204 in the Federal Building.

## County Agent's Report

by Craig Rosenbaum

## Grain sorghum yield results are reported

1989 was a good year for grain sorghum production in Cooke County as well as North Texas. In the North Texas counties reporting grain sorghum variety demonstrations, yields ranged from an average high of 4,273 pounds to an average low of 3,061 pounds per acre.

County producers saw both good and bad in weather and environment in 1989. The high rainfall provided plenty of moisture for the grain sorghum during the boot and dough stage. These stages of production are very dependent on rainfall. Some producers planted late this year on frozen out wheat ground. This milo performed very well, also.

However, there were problems encountered during the growing season. There was quite a bit of yield reduction due to the large number of headworms. 1989 was

probably one of the worst years we have seen with headworm damage. This year due to the abundant rainfall, the millers were very active. Producers should remember to check fields thoroughly next year approximately five days after the brown blossom phase for the presence of very small headworms.

Chinch bugs were not as severe a problem this year due to the rainfall. Chinch bugs tend to be a greater problem when we have drier weather.

The data listed only includes varieties that had three or more locations reported. The medium maturing varieties performed better this year due to the ample moisture. Producers having questions about any of the varieties can contact the County Extension Office.

### Ag Income Tax Meetings

Dr. Ken Stokes, Area Extension Economist, will be in town Wednesday, November 15, to present an Ag Income Tax Meeting for farmers and ranchers. The meeting will begin at 7:00 p.m. at the Cooke County Fairgrounds. Stokes will emphasize new income

tax law developments and problem areas for farmers and ranchers. Recent tax changes that affect farm and ranch tax reporting will be covered.

The meeting is free and open to farmers and ranchers in the area.

## New standards enforced for many storage tanks

Mandated by the Texas Legislature in 1987, the Texas Water Commission has begun enforcing standards for the operation of underground and aboveground storage tanks in the state.

Senate Bill 779, adopted by the Legislature in 1987, and House Bill 1588, approved by lawmakers last spring, gave the Commission power to establish guidelines and regulate most tanks. Those regulations went into effect Sept. 29.

The standards include inspection and testing for releases of controlled substances, procedures for closing an existing tank or installing a new underground or aboveground tank, and a system for fee assessment to support the state's cost to administer the program.

### Some exemptions noted

There are several categories of tanks that are exempted from the new regulations. These exemptions include:

- Farm or residential tanks with a capacity of 1,100 gallons or less used to store motor fuel for non-commercial uses.
- Tanks used for storing heating oils for consumption on the premises where stored.
- Septic tanks.
- Surface impoundments, pits, ponds or lagoons.
- Storm or wastewater collection systems.
- Flow through process tanks.
- Tanks used for activities regulated by the Texas Railroad Commission.
- Pipeline facilities, including gathering lines, if they are previously regulated by existing law or code.
- Tanks located in an underground basement if the storage tank is located on or above the

surface of the floor.

In addition, partial exemption is given to in-ground hydraulic lifts that use a compressed air/hydraulic fluid system and which hold less than 100 gallons of hydraulic oil.

Such lifts will, however, remain subject to release reporting and corrective action requirements under the Texas Water Code.

If an underground storage tank system was installed after Dec. 22, 1988, it is expected to be in compliance with all regulations of the Water Commission during the entire operational life of the system.

For systems installed on or prior to that date, the system will have to be brought in compliance with tank release detection requirements. The compliance dates are according to when the tank was installed.

### Dates for compliance

The following dates have been established:

- Dec. 22, 1989—for tanks installed during or prior to 1964 and for tanks for which the installation is not known or cannot be determined;
- Dec. 22, 1990—for tanks installed during the years 1965-1969, inclusive;
- Dec. 22, 1991—for tanks installed during the years 1970-1974, inclusive;
- Dec. 22, 1992—for tanks installed during the years 1975-1979, inclusive; and
- Dec. 22, 1993—for tanks installed during the years 1980-1987, inclusive, and for tanks installed from Jan. 1, 1988-Dec. 22, 1988, inclusive.

All regulated underground or aboveground tanks in existence on or after Sept. 1, 1987, must be registered with the Texas Water Commission.

## Fertilize for Spring wheat now.

Give your new wheat crop a fast start, and make sure it has all the nutrients it needs to produce the yield you're after.

Base your fertilizer plans on soil test information and your realistic yield goals, then apply all your fertilizer ahead of the drill. Do it early... as soon as the weather breaks. You'll be ready to plant when the soil temperature is right.

Let our Fertilizer Specialist help you from the start. We have all the materials that have been proven effective in this area. We can also arrange custom application if you wish. Come see us soon. We're ready when you are.

# Country Tidings

by Ruth Smith

**Bert Galmor dies at 71**  
Funeral services for William Bert Galmor, 71, of Forestburg were held at 2:30 p.m. Wednesday, Oct. 25, at the Forestburg Church of Christ.

C.E. Cole, minister of the Saint Jo Church of Christ, officiated. Interment was in Perryman Cemetery.

Mr. Galmor passed away about 4:30 p.m. Oct. 23 at the Denton Regional Medical Center.

He was born Sept. 27, 1918. His parents were the late Robert B. and Mary E. Galmor. He and Miss Eula Faye Fanning were married July 28, 1940 in Love County, Oklahoma.

Mr. Galmor was a veteran of World War II. He worked with heavy equipment. He was preceded in death by his parents, three brothers and two sisters. He is survived by his wife, Eula Faye of Forestburg; three daughters, Nell McKinney of Burleson, Rose Hoover of Montague and Alice Shults of Forestburg; one sister, Alice Muncie of Madill, OK.; one brother, Robert Lee "Bob" Galmor of Mobeetie; seven grandchildren; and six great-grandchildren.

Nephews were pallbearers: Mickey Landers, Junior Landers, Terry Landers, Bobby Galmor, J.C. Landers and L.C. Landers.

**Services held Oct. 28**  
Funeral services for Mrs. Ethel B. Harris, 94, were held Saturday, Oct. 28, at 2 p.m. in the Forestburg Church of Christ.

C.E. Cole, Saint Jo Church of Christ minister, officiated. Interment was in the Perryman Cemetery under the direction of McCoy Funeral Home.

Mrs. Harris passed away Thursday in Bridgeport. She was born May 25, 1895 to David Albert and Sara Solomon Barclay. She and John Quincy Harris were married July 20, 1913 in Rosston. Mr. Harris preceded her in death March 9, 1959. She was a member of the Church of Christ, a lifetime resident of the Forestburg area and a homemaker.

She is survived by several nieces and nephews. She was preceded in death by five sisters and five brothers.

**Fred Ford, dead at 66**  
Funeral services for Fred Ford, 66, of New Deal were held Friday, Oct. 27, at 10 a.m. in Spanish Four-square Gospel Church. His wife, Ruby Faye (Peachie), and seven lay

pastors of the church officiated. Interment followed in Terry County Memorial Cemetery, under the direction of Brownfield Home.

Mr. Ford passed away Wednesday morning at St. Mary of the Plains Hospital in Lubbock. He was born March 26, 1923 in Cooke County. His parents were the late Pat W. and Almeda (Sutton) Ford.

He attended school in Rosston and Era. Mr. Ford moved to Lubbock in 1943 and lived there prior to serving in the U.S. Air Force during World War II. He and Miss Ruby Faye (Peachie) Parks were married on July 24, 1946 in Brownfield. Mr. Ford was a farmer in New Deal and a pastor and a founder of the Spanish Four-square Gospel Church, which was founded in 1955.

Surviving are his wife, Peachie, of New Deal; one brother, P.W. "Pete" Ford Jr. of New Deal; one sister, Mrs. Margaret English of Rosston; and numerous nieces and nephews and a host of relatives and friends.

He was preceded in death by his parents, one sister and one brother.

Those attending from the Rosston area were his sister, Margaret, and husband, Bill English; Mrs. Juanita Cote, Mr. and Mrs. Travis Sutton, Mr. and Mrs. Stanley Lovette, Rev. Marshall Stewart and Mr. and Mrs. Louise Ford.

**Reminder:**  
The Church of Nazarene at Prairie Point will have a special

service Sunday evening, Nov. 5, at 6 p.m. Guest speakers will be missionaries, Rev. and Mrs. Norman Howerton, from Argentina. Everyone is welcome to attend.

**Two attend wedding**  
Mrs. Louise Shults and Mrs. Joyce Hanson drove to Denton on Monday, Oct. 23, where they were joined by Mrs. Shults' son, Bill. Then they all drove to Fort Worth to attend the wedding of Mrs. Shults' nephew, Donald Ollie Kelley, to Caprie Phillips. Both are employees of Delta Airlines, he as a pilot and she as a hostess.

The wedding was in a beautifully restored old home on Thistle Hill in Fort Worth. The reception followed at Los Hombres Restaurant.

Mrs. Shults and Mrs. Hanson spent Monday night with Mr. and Mrs. Bill Shults, then returned home Tuesday morning.

**Guests of Hutsons**  
Mr. and Mrs. Kenneth Hutson had as their guests during the weekend Wayne and Millie Hutson of Bloomfield, New Mexico, Rickey Gaston, Brad Hutson, Betty Luttmir, Kenda Hutson and Tiffany Hacker and Rickey Brawner, all of Saint Jo.

**Team Penning is memorial**  
Harold Bowles had a team penning at his home at Era Saturday afternoon in memory of the late Freddie Fortenberry of Slidell. Prizes were given. Among those attending were Mr. and Mrs. Tom Richardson, Chari and Laura; Mr. and Mrs. Bill White; Mrs. Charlot-

te Fortenberry; Leslie Fortenberry; and Ethan Fortenberry of Slidell. They all rode in the grand entry.

**Maberrys attend two birthdays**  
Mr. and Mrs. Marvin Maberry Sr. drove to Daingerfield Friday to visit their son, Marvin Jr., and granddaughter and her family. They celebrated Marla's birthday that was Oct. 20 and their great-granddaughter, Jamie Bullard's birthday that was Oct. 30. The Maberrys returned home Sunday.

**Guests of the Berrys**  
Mrs. Marsha Hamlin and daughter Melissa and daughters Brenda and Candice of Charleston, South Carolina visited Mr. and Mrs. Jack Berry and James and their houseguests, Katie and Johnny Cook, Sunday afternoon.

Emory Fletcher of Mesquite had lunch with the Jack Berrys and James Monday.

Mrs. Mae Fletcher and daughter Linda Holcomb of Mesquite visited in the Jack Berry home Saturday afternoon.

James Berry is doing okay after three treatments last week.

**Cooks visit brother in hospital**  
Mr. and Mrs. Johnnie Cook went to Terrell Wednesday to be with his brother, Frank Cook, who had surgery. They returned Saturday.

**At Halloween Carnival**  
Mrs. Becky Richardson, Chari and Laura and Mrs. Norma White attended the Halloween Carnival at Slidell Saturday evening.

**Joyce Hanson enjoys granddaughters**  
Miss Deanna Brossart of Wichita Falls visited her grandmother, Mrs. Joyce Hanson, Tuesday afternoon.

Mrs. Hanson visited her daughter, Mrs. Carol Jaska, in Montague Wednesday, then they drove to Gainesville. Mrs. Hanson drove to Bowie Friday to see the school parade that her granddaughter, Emy Brossart, was in, which featured Bowie Homecoming floats.

**Guests of Berrys**  
Mr. and Mrs. Ira Bewley of Pampa visited Miss Lois Bewley and Clyde Wednesday and Friday. Ellis and Jo Stofle of Tioga visited Miss Lois Bewley and Clyde Sunday afternoon.

**Personal**  
Mrs. Barbara Jo Pierce of Fort Worth spent Saturday with her mother, Mrs. Evelyn Brown. In the afternoon, the ladies drove to the Rosston Cemetery.

Ruth Smith visited Mr. and Mrs. Wilfred Sicking and Gary Sunday. Betty has been ill for several years.

**Personal**  
Mrs. Cornelia Holzboog of Denison visited Mrs. Juanita Greanad Sunday.

**Two attend supper**  
Mr. and Mrs. Ted Jackson drove over to Saint Jo Saturday evening to attend the Thanksgiving Supper for the Eastern Star.

### NOTICE

**PUBLIC NOTICE**  
In compliance with the Public Utility Commission of Texas Order under Docket No. 7937, Application for Sale, Transfer or Merger for Muenster Telephone Corporation of Texas and Valley View Telephone Company, Muenster Telephone Corporation hereby gives notice that it has filed a revised tariff to reflect the merger of the Valley View Telephone Company operation with Muenster Telephone Corporation.

In revising its tariff, Muenster Telephone Company included all new or revised rules of the Public Utility Commission of Texas and the Federal Communications Commission covering its operation and those of Valley View. Revisions included the correction of errors and omissions of rates and charges made in previous tariff filings, or the necessary revisions to adjust charges made which are not in compliance with the existing tariffs. These items include charges for local calls made from paystations in Valley View; directory listings; reduction of service charges for Valley View; reduction of extension line charges for on-premises telephones for Valley View; and miscellaneous discrepancies in tariff application.

The net revenue effect of the rate adjustments is a reduction of 1/100th of one percent (1%) of the Company's annual operating revenues.

A copy of the revised tariff containing all revisions is on file with the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Austin, Texas 78757 or is available for inspection at the Company's Headquarters Office in Muenster, Texas. Information regarding the rate changes or tariff revisions may be obtained by calling the Company's Business Office at 817/759-2251.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

### CITATION BY PUBLICATION

THE STATE OF TEXAS  
TO: Owen Williams, Respondent:  
GREETINGS:  
YOU ARE HEREBY COMMANDED to appear and answer before the Honorable 235th Judicial District Court, Cooke County, Texas, at or before 10 o'clock a.m. of the Monday next after the expiration of 20 days from the date of service of this citation, then and there to answer the petition of Anita Biggers, Petitioner, filed in said Court on the 19th day of October, 1989, against Owen Williams, Respondent, and said suit being numbered 89-474 on the docket of said Court, and entitled "In The Interest of Kimiko Michelle Biggers and Keyona Renae Biggers, children, the nature of which suit is a request to appoint petitioner managing conservator. Said children were born the 1st day of May 1982 and the 13th day of March 1983 in Gainesville, Cooke County, Texas.

The Court has authority in this suit to enter any judgment or decree in the children's interest which will be binding upon you, including the termination of the parent-child relationship and the appointment of a conservator with authority to consent to the child's adoption.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved. The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

You have been sued. You may employ an attorney. If you or your attorney do not file a written answer with the clerk who issued this citation by 10:00 a.m. on the Monday next following the expiration of twenty days after you were served this citation and petition, a default judgment may be taken against you.

Issued and given under my hand and the seal of said Court at Gainesville, Texas, this 25th day of October, 1989.

Bobbie Callhoun, Clerk,  
235th Judicial District Court,  
Cooke County, Texas  
/s/ Jean Rawls, Deputy

# Farm & Ranch

## State hay show deadline is Friday, November 17

Texas farmers and ranchers need to submit entries for this year's State Hay Show by Nov. 17. The show will be held Dec. 12-13 at the Lowman Student Center at Sam Houston State University in Huntsville, in conjunction with the annual meeting of the Texas Forage and Grassland Council. The big show will highlight hay samples from throughout Texas and also include a program of interest for hay producers, users and commercial suppliers. Awards given by the Texas Forage and Grassland Council and

hay show awards will be presented to producers. A hay judging contest for 4-H and FFA members will be held Dec. 12, starting at 1:30 p.m. Contest winners will be recognized following the judging activity. Producers may submit one sample in each of the seven show classes. Classes, the same as in past years, include Coastal bermudagrass, other bermudagrasses, other perennials, mixed grasses, summer annuals, winter annuals and legumes.

## County Agent's Report

by Craig Rosenbaum

This last rain Sunday night was a welcome sign for all small grain farmers in the county. A large percentage of the small grains have been planted and the general inch and one half of rain should provide ample moisture to germinate what is not already up and growing. Due to the unevenness caused by the varying moisture conditions in the fields, producers should be cautious when using herbicides in their small grain fields. If you use a product like Glean, be sure that you use it pre-emerge or after your wheat has started to tiller. This herbicide should not be used on wheat that is just in the spike or early growing stage. Also, if you use a hormone-type herbicide, be

sure to apply these herbicides only after plants are fully tilled. Full tillering and secondary roots generally begin to grow at about six weeks after emergence. Two years ago, we had some problems in the county from applying hormone-type herbicides too early to young wheat plants. The herbicide was applied six weeks after planting but not six weeks after emergence. The plants were young and injury was not noted until head emergence. This injury caused heads to be trapped in the sheath and to not fully extend. Also, the flag leaf took on a hormonal injury pattern in that it was tightly rolled. This is a very good example for the old concept of "read and follow label directions."

Other small grain herbicides needing special attention before their use include Sencor and Lexone. These two herbicides can only be used on selected wheat varieties and only on soils that are not high in calcium. This would be soils that generally have a pH of 7 or less. Hoelon, a grass herbicide, has a restriction for no grazing. This herbicide is only good as a grass herbicide and will not get broadleaf weeds.

Should you have any questions about these herbicides, contact your chemical representative or the County Extension Office. Don't forget: **Always read the label completely and follow all restrictions as to use of the product!**

## Biological control can minimize pesticide use

By Robert L. Haney  
TAES Science Writer

Insects and mites have made life miserable for man and beast in America for thousands of years. They have cut the quality and yield of America's agriculture, damaged both human and animal health and lowered the quality of life.

In relatively recent times, we have come to rely more and more on pesticides to control these pests on the farm, in the city, in industry and rural and urban home alike.

This reliance on a single control has created formidable problems including environmental contamination, health and safety risk, increased production cost and pesticide residue, according to Dr. Fowden Maxwell, head of the Department of Entomology at Texas A&M University.

The use of biological controls offers numerous advantages over the utter dependency on chemical insecticides, said Maxwell, who guides entomology research in the Texas Agricultural Experiment Station. Biological organisms are environmentally safe, non-polluting and preserve endangered species and biological diversity.

Use of biological control minimizes pesticide use, thereby prolonging the useful life of chemical pesticides by slowing the development of pesticide resistance. Biological control is compatible with low input, sustainable agricultural systems that have recently been much in the news, Maxwell said.

Biological control uses living organisms (predators, parasites and pathogens) to kill pest organisms. While biological control is a simple concept, Maxwell said, it utilizes a complex system with multiple interactions between living organisms, each with unique characteristics and behavior.

Natural enemies decrease the population density of their host

### Safety can help save your farm

Farmers may get more fresh air than most office workers, but unlike office workers, they're also exposed to toxic gases, dust, pesticides and allergens. While farms are more tranquil than a typical city street, farmers often work in such close proximity with noisy machinery that they suffer a higher rate of hearing loss than the general public. While farm children generally aren't exposed to the same degree of drugs and agents as their urban counterparts, they are literally steps away from heavy machinery, toxic pesticides and cars moving at high speeds on rural roads.

No matter what the age of the family members, the farm can be a hazardous place, for several reasons. First, farming is one of the most physically demanding of all occupations. Farmers must work long hours in all sorts of weather. The fatigue and bodily stress of farm work can result in accidental injuries in the short term and disabilities in the long term.

The farm environment contains plenty of heavy machinery, chemicals, dust, toxic gases, noise and other potential health and safety hazards. But farmers themselves generally receive little or no formal safety and health training. Most farms, since they have fewer than 11 employees, are not subject to federal safety and health requirements.

While many people feel that a farm is the ideal environment for families, the imminent dangers of rural life, coupled with the financial devastation accidental injury or death can produce, demand that farm families make safety and health top priorities.

To help make your farm and home as safe and productive as possible, the National Safety Council offers these steps for safe, healthy living:

- Be physically fit and ready for a safe day. Dress properly for the job, including personal protective equipment (hard hat, safety shoes, respirator, protective goggles, etc.) if the job or conditions call for it. Take work breaks to stay alert.
- Carefully read and follow recommendations in operator's or instruction manuals and on product labels.
- Train helpers for each job. Assign younger and older workers only those jobs they can accomplish safely.
- Keep children out of the work area. Don't let them ride on equipment.
- Keep machinery shielding in place. Turn off the power before unlogging or attending to operating problems.
- If your tractor has a rollover protective structure (ROPS), wear your safety belt to stay protected in case of overturn. If it doesn't have ROPS, ask your dealer to install one if available for your model.
- When applying pesticides or herbicides, follow label directions to the letter. Wear protective gear. Post warnings around treated areas. Safely dispose of empties and leftovers. Store chemicals in original containers, in a place secured from children.
- Inspect all equipment and facilities periodically, making needed repairs and correcting hazards without delay.
- When on public roads with either a car, pickup or farm vehicle, obey all traffic laws. Drive defensively, and be courteous to other drivers. Wear your safety belt.
- Prohibit small children from such potentially dangerous places as chemical storage areas, ponds, grain bins, workshops and animal quarters.
- Falls are the leading cause of death in the home, and are especially dangerous to older adults. Keep your home safe from fall hazards. Clean up spills promptly and remove obstacles from the floor. Apply nonskid backing to rugs and nonskid strips to bathtubs.
- Install smoke detectors on every floor of your home. Test them regularly. Develop a home fire escape plan, and practice it with your family.
- Be prepared for emergencies. Learn first aid and CPR. Post emergency numbers at every phone.

and, in turn, host abundance influences the population density of natural enemies. In practice, biological control ranges from self-sustaining systems to systems requiring regular intervention with biological agents.

Significant success in biological control has resulted from reuniting natural enemies and introduced or exotic pests. In a very different dimension, as genetic engineering progresses from the conceptual to the practical stage, Maxwell said, we are learning how to modify microbes to be more effective biological control agents. Agricultural scientists can now answer questions which only a few years ago could not even be asked.

"The practice of biological control is dependent on an understanding of how organisms interact in nature," Maxwell said. "Our ability to use biological control strategies will be determined by the fundamental knowledge base in biology and ecology of pest species, beneficial organisms and their interactions."

"An expanded knowledge base is critical, from behavior to population genetics to biochemistry. The research arena must span from field to laboratory."

Agricultural producers, consumers and public health agencies have recognized the importance of environmentally sound approaches in the control of pests, Maxwell said. Based on research and extension success in integrated pest management during the last decade, the American public has come to expect alternative approaches to pest control.

The agricultural community also is more receptive to minimizing pesticide use and integrating alternative pest control techniques. Thus, the stage is set for biological control to become a primary means by which we ensure the health and

productivity of important animal and plant species.

"To those of us engaged in entomology research, our responsibility is clear. We must develop viable, biological and cost effective tactics and systems for biological control of key pests for agriculture and the urban environment," Maxwell said.

"I believe we can do this if we achieve these seven objectives: 1) Use biotechnology to improve the efficacy of biological control agents, through application of the tools of molecular biology and other emerging technology; 2) Develop the biological and physiological data necessary to provide for inexpensive mass production of beneficial organisms; 3) Develop operational and practical biological control programs; 4) Enhance bio-systematic efforts to identify existing biological control agents and to develop an understanding of species and host relationships; 5) Assemble a more complete data base on biological control organisms, their sources, biological and environmental constraints; 6) Identify the behavioral attributes and stimuli that regulate the action of beneficial insects; and, 7) Develop an improved regulatory framework that will enhance, not inhibit, incorporation of biological control agents into plant and animal production systems, and protection requirements in urban and suburban environments."
