NUMBER 49

Truck-Tractor Crash Is Fatal To Wm. J. Neu, 63

As the hottest political campaign in the history of this country draws to a close, a record number of voters are convinced that their decision next Tuesday will be more important to the nation's destiny than any they have ever made before. No one can be certain that we have actually reached the crossroads, but we can be sure that the point is at least dangerously near.

The \$64 question in this '64 election is "how far can we continue our present trend in domestic and foreign policies before reaching a point of no return?" How much more socialism and federal bureaucracy can we take without becoming permanent captives of the system? How much more can we accommodate the growing communist menace before finding ourselves powerless to check its further growth and our own eventual enslavement?

Folks who are not bothered about those questions obviously are not likely to be worried. But those who have the vision to see the threat, and the imagination to see the possible consequence, owe it to themselves and their nation to think seriously before voting.

They'll do well to appreciate also that this is likewise a grave matter of conscience. We have a sacred duty to God and our fellow man to vote for the way we honestly think is God's way . . . in relation to His commandments as well as the dignity and freedom of men.

Many of the issues of this campaign can be measured by those fundamentals. One of those is the matter of restoring God to His proper place in our lives. He belongs back in our classrooms, not only in prayer but in a teaching policy which will re-establish the old Christian principle that every person is accountable for his stewardship. It's a lot of hooey to excuse crime and moral laxity on grounds that people are victims of environment. Elementary common sense tells us the Creator expected people to be responsible when He endowed them with free will. Laws alone will not solve the crime problem. Our country desperately needs a moral awakening.

That need, moreover, is as urgent among high officials as among the masses. None of us needs to be told that something is seriously wrong when an administration tolerates sordid cases like Estes and Baker and Jenkins and even uses its power to prevent their exposure. Honestly, do you think any group deserves to remain in power when it shows so little regard for the basic morality of its personnel? And remember, there are other cases of people who were kept on the job or even promoted when exposed as crooks, perverts or traitors.

Another big issue is economic. Despite claims of prosperity we know that a nation, like an individual, is not prosperous when he goes deeper and deeper in debt. If we are really doing well, as we are told, why aren't we living within our income and paying off some of the old debt? Like the fellow squandering borrowed money, we're headed for a sad day of reckoning. Can anyone conscientiously vote for continuation of such recklessness?

Effects of that wild fiscal policy have already been felt by most of us. Deficit spending has brought on inflation, shrinking the value of our savings by more than half since 1940. You know and I know that something is basically wrong in a fiscal policy that penalizes the virtue of thrift.

Inflation is directly related also to the issue of social security, on which LBJ has done a lot of lambasting. The real issue here is what will any person's social security be worth when inflation takes away the value of his money. Another problem: will we be able to afford social security, even before the inflation crash comes, if it is burdened with the additional load of medicare, as the administration demands? We owe it to ourselves to think it through and see who is really right on that subject.

Another important issue is the "great society", which happens to be only a high sounding word for socialism. LBJ revealed that plainly enough when he announced his intention to take from the have

William J. Neu, 63, a native of Lindsay and a resident of the community until recently when the family moved to Gainesville, was the victim of a truck-tractor collision Thursday, Oct. 22. The fatal accident occurred about 10:15 a.m. on the Interstate Highway 35 overpass at California St. in Gainesville.

An employee of a private maintenance crew under contract to the Texas Highway Department, Neu was mowing a plot of grass at the south end of the overpass when the tractor he was operating was struck by a north-bound diesel truck. Marvin Heffner of Kansas City, Kansas, driver of the truck escaped serious injury.

Funeral services with requiem mass were held at 9:30 a.m. Saturday in St. Mary's Catholic Church in Gainesville with Father Thomas Taffe, pastor officiating. Burial was in St. Peter's Cemetery at Lindsay under direction of Geo. J. Carroll and Son Funeral Home. Rosary was recited in the Carroll Chapel at 7:30 p.m. Friday.

Mr. Neu was born in Lindsay in 1901. He married Miss Annie Bierschenk there on Sept. 3, 1930.

Survivors include his wife; four sons, Elroy of Gainesville, Virgil, Freddie and Leon of Lindsay; two daughters, Mrs. Alfred Hess of Gainesville and Margie Neu of the home; four brothers, John of Gainesville, Matt of Lindsay, Henry of Marion, Iowa, and Nick Neu of Slaton; three sisters, Mrs. Paul Arendt Sr. of Lindsay, Mrs. Will Bierschenk of Valley View, and Mrs. Gus Schmitt of Alice and 11 grandchildren.

Tough Odds Face Hornets in Game Friday at Saint Jo

Muenster High's Hornets, after a disappointing game with Era last week, are heading for another rough one Friday night, when they clash with the Saint Jo Panthers, currently boasting a perfect season and rating as strong prospects for the district title. The game will be in Saint Jo, starting at 7:30.

Coach James Polk and his boys are determined that despite the heavy odds they are going to look better this week than they did against the weaker opponent last week. With that in mind, they've done some re-organizing, both offensively and defensively, and have put in some hard practice trying to overcome their weakness. Physically the Hornets are all okay and ready for action.

Another factor also figures in the game and traditionally ignores the comparative dope on the teams. That is that the Hornet-Panther struggle is usually a hot one and anything can happen.

Last year Saint Jo trimmed Muenster 21-0. The three previous years Muenster won, by scores of 38-12 in '62, 48-6 in '61 and 30-12 in '60.

Three Amendments On Ballot for Tuesday Election

Texas going to the polls next Tuesday will have an opportunity to vote on three proposed amendments to the state constitution as well as on the list of federal, state and local office holders.

The first of those proposals is intended to eliminate authority to transfer as much as one per cent of the permanent school fund to the available fund for helping pay the state's current school expense.

Second on the ballot is a proposal requiring public notice on both the local and state levels of intention to introduce bills creating conservation and reclamation districts.

Last on the ballot is a proposal authorizing payment for medical care on behalf of persons sixty five and over, not receiving old age assistance and unable to pay for needed medical services.

Garden Club Will Collect November 1 For Cemetery Fund

The time has arrived for another semi-annual collection for the Sacred Heart cemetery fund. Mrs. Tony Gremminger, co-chairman of Garden Club cemetery committee, reminds people of the parish that it will be held on All Saints' Day, November 1, as usual. She also said that the usual procedure will be followed. Members of the Garden Club with their baskets will be at the church doors after all the masses next Sunday. Everyone in the parish is urged to remember the collection and bring a donation.

Money received in the two annual collections, All Saints' Day and Memorial Day, is used for cemetery maintenance, which includes watering, mowing, trimming and replacement of shrubs.

Tigers Will Play F. W. Christian in Cowtown Friday

The Tigers will take on big league competition Friday night when they go to Cowtown for a game with Fort Worth Christian. Coach Adam Wolf reported this week that their rating according to Inter-scholastic League would be either 2-A or 3-A.

It is one of the strongest teams the Sacred Heart boys face this year. Big, fast and tricky is Wolf's description after seeing the team in action last week. And its record so far is 5-1-1, the tie being with Msgr. Nolan High, which is the considerably enlarged successor to Laneri.

The Tigers, after resting last week are mostly in good condition for their coming fracas. The exception is Danny Hoenig. He's been out of practice this week with a strained ligament in his back and probably will not be ready to play.

Homecoming at MHS Spoiled by 26-6 Loss to Era

The Era jinx continued to hang over Muenster High School Saturday night, not only giving the visiting Hornets their seventh consecutive win over the local Hornets, but also spoiling an otherwise very pleasant homecoming for everybody at MHS.

Era boys lived up to tradition as they took on the Muenster team. They were at their season's best, looking like champs, as they moved smoothly and powerfully to their 26-6 win.

Their first score came about midway in the first period on a quickie drive that gobbled up 68 yards in 5 plays. Jerry Kindiger, Garrett and Sluder shared in the work and Kindiger went the last 26 for the touchdown. Garrett kicked true on his try for extra point.

For a few minutes after that Muenster seemed to be making a comeback. Two first downs gained 40 yards but the third series bogged down as the second quarter opened.

That period was taken up almost entirely with Era in control. After moving two first downs the visitors lost possession on a fumble. Four plays later Muenster kicked and Era started moving again from its 21. They were on Muenster's 44 when the half ended.

After intermission Era resumed its power drive. In 11 plays following kickoff it completed the 63 yards to the goal. Garrett made the last yard in a blast at the center of the line and also kicked true for an extra point.

Muenster's effort after that moved ahead, but not enough to overcome a 15 yard penalty, and the series ended 3 yards short of a first down. That was on Muenster's 45. Two plays later Ronny Muller circled right end on a 41 yard scoring sprint. An attempted kick for extra point was blocked. The score was 20-0.

Shortly after the last quarter opened Muenster put together all of its first downs of the second half to produce its only score of the game. It started with recovery of an Era fumble on the Muenster 49.

Next three plays reached Era's 40. Two short plays went a pass to Stormer for 16 went

Jerry Hoenig Is Crew Leader for '64 Farm Census

Jerry J. Hoenig of Muenster has been named a crew leader for the 1964 Census of Agriculture, Percy R. Millard, director of the regional office of the U.S. Bureau of the Census at Dallas, announced today. The new crew leader is one of about 1,825 persons throughout the U.S. to receive this appointment.

The new crew leader will supervise a team of census enumerators who will visit all farms and ranches in Cooke County to collect official census questionnaires from farm operators. Enumeration of all farms in the county will take place in November and early December.

The census will be taken in the following way: Shortly after Nov. 5, the Bureau of Census, an agency of the U.S. Department of Commerce, will mail census questionnaires to all rural boxholders. Those required to fill out the forms should do so and hold the questionnaires until a census enumerator comes to collect them. At that time, the enumerator will help answer any questions that may have proved troublesome.

The crew leader is a key person in conducting a Census of Agriculture. He recruits and trains the enumerators, schedules their work, reviews the accuracy of completed forms, and conducts difficult interviews.

The Census of Agriculture is taken every five years ending in "4" and "9" to gather information on the nation's agricultural resources and production. Such information is vital in making decisions affecting many segments of the U.S. economy. Data gathered include the number and size of farms, acreage and harvest of crops, livestock inventories, and information on farm equipment and improvements and income and some production expenditures.

The information will be published starting in 1965 for counties, States, and the nation.

Both Schools To Have Carnivals For Halloween

Cooperating with a request of local pastors and the city council, both Muenster schools will have carnivals Saturday night as an alternative to Halloween trick-or-treat wandering.

In the parish hall the Sacred Heart School carnival will begin at 2 o'clock and last until about 10, offering concessions and entertainment sponsored by all the classes.

A special feature is a costume party upstairs in the hall beginning at 7:30, with emphasis on originality in portraying Halloween characters. There will be three divisions: pre-school and primary through grade 3, grades 4 to 6, and grades 7 and 8. Each division will have three prizes, \$2.00, \$1.00 and 50 cents. Entrance fee is 10 cents.

The public school's Fall Carnival begins at 7 o'clock, and will also have concessions as money makers for class funds.

Commemorating Muenster's diamond jubilee year, the costume contest there will feature pioneer attire, particularly the kind worn here in 1869. It will have two divisions, for adults and high school students, and two winners, a man and a woman, will be selected in each division.

A third division, for the kiddies, will be a Halloween costume contest, also with prizes for the two first place winners.

After that, about 9 o'clock, sophomores will present a one act play.

Peggy Branch Is Queen at MHS '64 Homecoming

Muenster High Homecoming crowds cheered as Miss Peggy Branch was crowned homecoming queen for 1964 in royal ceremonies during football half-time. She is a senior, the daughter of Mr. and Mrs. Linzie Branch.

Homecoming was a happy and gala event with only one thing spoiling an otherwise perfect night. In the game with Era's Hornets, Muenster Hornets were on the short end of a 26-6 score.

Queen Peggy received her crown from Ervin Hamric, president of the Ex-Students Association which sponsors the annual program. She also received an arm bouquet of red carnations.

Other queen candidates, Faye Embry, Jill Swirczynski, and Peggy Hellman, made up the queen's court. They received corsages.

Assisting with formalities were other officers of the association: Mrs. Harold Bindel, vice president; Miss Rita Fisher, secretary, and Mrs. James Hammer, treasurer.

Escorts for the royal party were the four captains of the Hornet squad: Roy Hartman, Roy Wimmer, Tommy Swirczynski and Tommy Flusche.

The evening's program started with dinner in the school dining room. Some 120 were present. A special entertainment program featured Mrs. Rody Klement in a vocal solo and Charlotte Wolf, Miss Muenster 1964, in a dance.

Two prizes were awarded. Sailor Dickie Pagel came the farthest distance to attend. He's from Moffet Field, Calif. And Alphonse Luke was the

Record Turnout Expected In General Election

Sharing the nation's intense interest in this year's presidential campaign, Muenster is getting set for a record vote in the general election next Tuesday.

To beat the old general election record the two local boxes will have to poll over 626, which was the total in 1960. And to beat all records they will have to top 877, the total of this year's Democratic primary.

Actually, the coming election has a faint chance to beat that top figure. All voters in the primary are still qualified and there may possibly be a few non poll tax people who can vote for federal offices. None showed up in the primary, but that part of the ticket inspired less interest then.

Balloting for North Muenster will not be in the usual location. To avoid disturbing class work it is transferred from the public school to the KC Hall. And Leo Henschel will be presiding judge, replacing Joe Luke who is in the hospital. Henschel was appointed Tuesday by the Commissioners Court.

Otherwise election procedure will be the same as usual. Paul Fisher will be in charge of the South Muenster box, at the entrance to the city park. And polls will be open between the hours of 8 a.m. and 7 p.m.

The official ballot has three columns of candidates, for Democratic, Republican and Constitution parties, also another column for write-ins.

Voters are reminded that, as far as their balloting is concerned the contest is not just between Democratic and Republicans. They cannot just scratch one or the other and ignore the third column. To vote for a candidate a person must scratch the names of all others running for the same office.

Along with choices on the national and state levels, this ballot offers also a local contest. Jo Hillis is Democratic nominee, James Whaley is Republican nominee for the office of county Tax Assessor-Collector.

SH School Holds Conferences of Parents-Teachers

Lights in every room at Sacred Heart elementary school this week indicated that it's the time of semi-annual parent-teacher conferences.

These are the meetings held during each semester with the parents of every child in the school.

The purpose of a meeting is a frank discussion of the student's school record — his grades, behavior and application along with recommendations of ways in which the parent can help improve the work.

The high school department will have its conferences next week Wednesday, all day and into the night. While teachers and parents are meeting the students will have a holiday.

A GROWING MONSTROSITY

Occasionally we hear some friend mention his Social Security in the same tone of voice he uses in talking of his life insurance policy. He indicates the belief the money he pays in Social Security taxes is deposited in an account identified by his Social Security number and set up to pay him benefits from his own money when he retires.

A little investigation reveals this isn't exactly the way Social Security functions, although the bureaucrats try to leave this impression with individuals. The program basically is a pay-as-you-go social welfare program, in which taxes are collected from wage earners, employees, and self-employed persons, and redistributed by the bureaucrats to other individuals whom they decide are eligible to receive

benefits. Records are kept of individual earnings in order to determine whether or not an individual qualifies for coverage and what level of benefits he or she will receive.

Proof that the program is not self supporting is contained in action taken by the Congress on Monday. The Senate Finance Committee approved legislation previously passed by the House to raise Social Security tax and increase benefits. Of course, the increased benefits (5 per cent across the board) will be payable almost immediately. The increased tax bite will be delayed until after election.

When the Senate approves the finance committee report, Congress will have eliminated the benefits gained by income tax cuts early this year.

Beginning January 1 of next year, Social Security Tax bites will increase from 3.625 per cent to 3.8 per cent and the tax base will be raised from \$4800 per year to \$5400. Using our sixth grade arithmetic, we figured out what this meant in dollars and cents.

We found that a wage earner with \$5400 annual base pay will pay \$203.20 in taxes in 1965 compared with \$174.00 this year. In addition, his employer will also be forced to contribute the same amount. In 1966, the bite is scheduled to go deeper with employer and employee each coughing up \$216.00. In 1968 another scheduled boost will up the involuntary contributions to \$243.00 each.

In 1971, the fourth increase in the six year period provides that the employer and employee will be taxed at the rate of \$259.20 each. During the six year period from 1965 to 1971, the tax will increase a jolting 49 per cent.

The employee and employer's contribution in 1965 totals \$406.40. We checked with a local life insurance agent to compare the costs of individuals purchasing their own retirement plan versus the rosy hued socialized program administered by the politicians. The agent quoted us the following figures from his rate books. A man 30 years old can invest \$341.50 a year for 20 years and pay out a \$10,000 addition to his estate. If he so desires he can cash the paid up policy and receive the money or the company we checked will guarantee him \$72.50 per month retirement pay. We haven't heard of any estate additions, cash values or guaranteed retirement from the politically motivated monstrosity called Social Security.

If the bureaucrats were not so anxious to tax individuals so they can brag about giving them something, the employee who receives \$5400 in base pay in 1965 could receive raises amounting to approximately \$3.50 a week by 1971 without costing his employer any additional expense.

RUSSIANS PLAY US FOR SUCKERS

The Russian space agency has done it again. A few months ago it was reported that the Soviets were slowing down their space program in the interest of some pressing domestic problems. But not so. They now have sent a three-man team into orbit and successfully landed it after 24 hours and 17 minutes in orbit.

We authorized sales of wheat to the Russians, on credit terms, if needed, to ease their most pressing domestic problems. With this problem solved or eased by capitalistic America, the Russians were freed to continue their efforts in the space field — and from the latest development to a great advantage. Again, it seems, we've played the sucker role in the race with communism.

Just how long we can continue these mistakes in order to pacify the "co-existence" plans of the Russians is a question that cries for an answer. But we get no answer — only silence.

NO OTHER WAY

Both the presidential candidates, and both party platforms, promise tax reduction. At the same time, there is fear that we may be on the verge of a new wave of inflation.

There is a grim irony in this. For a cut in taxes will be meaningless, and worse, if it is offset by further degradation of the dollar.

The number one need — if we are to cut taxes and at the same time protect what remains of the dollar's purchasing power — is a government that lives within its income and starts paying off its debts. That means more than the elimination of waste and duplication of effort, it means the elimination of non-essential spending, and of activities which can and should be undertaken by taxpaying private enterprise. There is no other way.

"What is meant by 'Let Us Continue?' Does it mean that we are to continue deficit spending in the approximate amount of \$3,800 per minute, or \$63 per second, as we have done for the last 4 years? Shall we continue this kind of prosperity? Does 'Let Us Continue' mean that we are to continue the destruction of constitutional government, bit by bit? Does it mean that we are to go deeper and deeper

Election Expected To Set Record in Ticket Splitting

Close observers of Texas elections down through the years expect an unusual amount of "ticket splitting" in the General Election November 3rd.

Members of both major parties will be affected; that is, "regular Democrats may find that they want to cross the party lines to vote for one or more, but not all, Republican nominees; and vice versa.

In the 1960 General Election, at least half a million Texans voted "split tickets." This estimate comes from comparing the total vote received by the Kennedy-Johnson ticket with the Democratic and Republican votes for Governor and other state offices.

The Courts have held, in effect, that there is no legal bar to ballot-splitting. Each voter has the right to make his individual choices, regardless of party, and this right cannot be limited by party action.

The mechanics of ballot-splitting are less complicated than the average voter realizes. To vote for a particular candidate for a particular office, whether on a paper ballot or on a voting machine, the essential thing is to leave his name and mark out the name or names of his opponents in the other columns. In counties that use voting machines, the voter is entitled to receive technical information as to how he can make his vote count as he wants it to count.

Voters using paper ballots need to be reminded that there are other columns than the Democrat and Republican, and that these columns must not be overlooked. The final result must be, simply that only one name is left (in whatever column) for each office. Otherwise, the vote for that office cannot be counted.

WHALEY'S PLATFORM

James Whaley proposes the following four point program:

1. He plans to actively assume the responsibility of assessment, and he will not vest the duty of assessment in the Commissioner's Court by inaction. He is cognizant of the fact that the Commissioner's Court has the power to override assessment as an equalization board.
2. He plans to construct a County wide survey map file in order to be certain that all property is on the tax rolls.

Family Gathering Marks Birthday of Joe Fisher Sr., 87

Joe Fisher Sr. who probably remembers more about pioneer days in Muenster than any other resident, celebrated his 87th birthday Sunday. He was only 12 years old when he came here and still recalls fondly that he was one of the first mass servers. His brilliant memory can span the years and recount happenings as though they were yesterday instead of three quarters of a century ago.

With him for the celebration at his home were members of the family through the fourth generation. He has seven sons, three daughters, 43 grandchildren and 17 great-grandchildren. Most of them live in Muenster and about 100 attended the birthday party. They brought covered dishes for the noon meal.

Mrs. Charlie Fisher baked and decorated the three-tier birthday cake.

Attending from out of town were a son, Father Harry Fisher of Gainesville and two granddaughters Misses Clara and Emma Fisher of Fort Worth.

Mr. Fisher still enjoys good health, has his own teeth and a head of hair, drives his own car and takes part in city and parish activities.

Thomas Jefferson was the first president of Washington and Lee College, then called Washington College.

to the 22. Wimmer went to the 10. A holding penalty there made things look very bad as the ball was set back to the 25. But the next play Wimmer took Swirczynski's short pass in the clear and scooted some 15 yards to the line. A run for bonus points was stopped short.

On the kickoff that followed Muenster got a break. It was an on side attempt recovered by Muenster on the Era 46. But the next play was an offsetting bad break. Era intercepted and started a final drive from its 30. Eleven plays did it and the last 6 yards were made by Kindiger. A kick for extra point was blocked.

Tiger Cubs Take 30-14 Tussle from Windthorst Kids

By a score of 30-14 Sacred Heart's Cubs triumphed over Windthorst's youngsters on the local field Sunday afternoon.

It was a game featured by long gains on both sides, and especially the neat passing of the visiting boys, who took to the air when they had trouble trying to budge the heavier Sacred Heart team. The open game also resulted in several interceptions, four by Sacred Heart and two by Windthorst.

Clifford Sicking started the scoring on the second play after kickoff when he sailed around right end for a 60 yard gallop to the goal. Clifford Zimmerman knifed through the middle for two bonus points. After that Windthorst made good yardage on two passes but the next was intercepted. Then the Cubs made a first down and fizzled on the next attempt, after which Danny Osterman took off on a 35 yard scoring run. The try for extra points failed and Sacred Heart led 8-6 shortly before the first quarter ended.

The Cubs next score resulted from a drive, interrupted by an interception and continued after Windthorst failed to advance. The entire distance was 52 yards. Leroy Hess made the last 5 and also the bonus points. The score was 16-6 at half time.

Early in the next half the Cubs missed a big opportunity by fumbling on the 2, but cashed in a few plays later on a blocked kick which Bobby Bruns covered behind the goal. Sicking added two points.

Again, shortly after the last period opened Leroy Hess put the Cubs back in business with an interception. Sicking got loose for 34 yards and the final Sacred Heart TD. A try for extra points fell short.

In the closing minutes Windthorst made its final score. Danny Schroeder, who did a fine job of passing the rest of the game, was on the receiving end of this one and hot footed about 40 yards to the goal. Pennartz made extra points.

VOTE FOR THE TEXAN WHO LEADS THE FREE WORLD!

For the past eleven months, for the first time in our history, a native son has led our nation and the free world. And every Texan can take pride that President Johnson has met the awesome burdens of the office with courage, wisdom and restraint.

THE ISSUE TUESDAY IS SIMPLE: WHO CAN BEST LEAD OUR NATION IN A TIME OF CHALLENGE AND PERIL?

To which man do you feel most comfortable entrusting the security and well being of yourself and your children for the next four years—

A man who wants to turn back the clock of achievement . . . a man who has worked consistently against progressive measures in the Senate . . . a man virtually untested in a time of crisis?

Or a man who has dedicated his entire life to public service . . . who has demonstrated, under five administrations, progressive leadership in working for a better way of life for all Americans. A man who has proved his courage under fire . . . has demonstrated his unwavering strength to meet any aggressor with firmness, yet restraint?

PRESIDENT JOHNSON HAS PROVIDED RESPONSIBLE LEADERSHIP FOR MORE THAN A QUARTER OF A CENTURY

For almost three decades, President Johnson has been a pillar of strength for Texas and the nation. As Congressman, as Senator, as Majority Leader, as Vice President, and now as Chief Executive, he has written a proud record of progress.

ONLY TEXAN PRESIDENT LYNDON JOHNSON OFFERS THE EXPERIENCE, THE PATIENCE, THE WISDOM, AND THE STABILITY NEEDED BY THE NATION AND THE FREE WORLD IN THESE CRITICAL TIMES!

★LET'S KEEP A COOL HEAD IN THE WHITE HOUSE★

VOTE **TEXAN** VOTE **LBJ**

★RESPONSIBLE LEADERSHIP FOR ALL AMERICA★

(Pol. Adv. Paid for by Texas Johnson-Humphrey Campaign, Hunter McLean, Chm.)

Do You Know . . .

What Humphrey and ADA want to do?

It's enough to scare the daylight's out of all Americans!

HUMPHREY AND HIS ADA ARE FOR

- SOCIALIZING THE UNITED STATES
- WAGE AND PRICE CONTROL
- RENT CONTROL
- RECOGNIZING RED CHINA
- AID TO COMMUNIST COUNTRIES
- WELCOMING CASTRO INTO THE ALLIANCE FOR PROGRESS
- TURNING PANAMA CANAL OVER TO UNITED NATIONS
- ABOLISHING HOUSE COMMITTEE ON UN-AMERICAN ACTIVITIES

What is ADA?

A writer from the Louisville COURIER-JOURNAL defined ADA this way:

"The political organization, Americans for Democratic Action, (ADA) has become a synonym for fellow-traveler, for communist sympathizer, for advocate of 'soft' policies toward Russia." Robert L. Riggs, Washington Bureau, Louisville COURIER-JOURNAL.

ADA stands for:

- Domestic socialism.
- One world government.
- Blindness to the Communist threat.

ADA is a national left wing political organization. It is the most influential of all home-grown organizations attempting to change our traditional American government into a socialist dictatorship. Though not admittedly a "secret organization," no membership list can be obtained from their national headquarters in Washington.

U. S. Senator Strom Thurman said about the ADA: "All the actions and policies advocated by the ADA point to federal socialism."

WHO FOUNDED ADA?

ADA was founded in 1947 by a group of ultra-liberals, including Hubert Humphrey; Chester Bowles; radical labor leader David Dubinsky; New York City editor, James Wechsler, once an official of the Young Communist League; Harvard historian Arthur Schlesinger, Jr.; Walter Reuther of the UAW; Morris Ernst of the American Civil Liberties Union; Joseph L. Rauh, Jr., liberal Washington lawyer; and many others.

"The left-wing, radical ADA and their cohorts stand for everything Texas doesn't."

Governor John Connally in a statewide telecast to Texas voters May 23, 1962

HUMPHREY AND ADA - ONE AND THE SAME

Hubert Humphrey, perhaps more than any other person in high elective office, stands for and symbolizes the extreme left in American politics.

Humphrey, a founding father of ADA, was chairman of ADA in 1949 and 1950. Every year since, he has served as National Vice-Chairman. During fifteen years in the Senate he has voted the ADA position on 191 occasions, and against it only 13. Humphrey demonstrated his subservience to the ADA when he said "this great organization has seen fit to chastise me. Perhaps I did not understand why at the moment, but their judgment was undoubtedly better than mine."

Norman Thomas, six times a **Socialist Party** presidential candidate, said this year: "Humphrey is the type of Democrat I like, and one who would be a Socialist if he got to England." Chicago Tribune, May 30, 1964.

ADA WORLD, (ADA official publication) March, 1964 reported: "The nation's great gathering of liberal-labor leaders will begin May 15 in Washington, D. C., at the ADA Seventeenth Annual Convention. **Walter Reuther, Hubert Humphrey and Martin Luther King** will address the convention.

Congressman Otto E. Passman (Dem.-La.), 10 years Chairman of the House Appropriations Sub-committee: "... Hubert Humphrey is a Socialist if I ever saw one. America is not creeping, but running toward Socialism."—Dallas News, Sept. 11, 1964.

A vote for Lyndon Johnson is a vote to make Hubert Humphrey President.

Lyndon Johnson had a serious heart attack in July, 1955. Doctors say that the average life expectancy of a man Johnson's age following such a heart attack is less than 10 years. (Ask your own doctor about this.) Therefore, medical odds are that if Johnson is elected in 1964, Humphrey will be President before the term expires.

NEVER BEFORE HAS THE EXTREME LEFT HAD ITS MAN SO CLOSE TO THE PRESIDENCY.

250 at Coffee for Graham Purcell At Colonial Manor

People from a wide area of North Texas attended a Saturday morning coffee given by Mr. and Mrs. Ernest Medders at Colonial Acres for Congressman Graham Purcell of Wichita Falls.

As guests arrived they were greeted at the main gate by a group of young men who attached campaign stickers to cars. Handsome campaign pictures adorned the white pillars of Colonial Manor.

Guests were welcomed at the front door where the hosts and Congressman Purcell were in the receiving line.

Coffee was served in the main dining room. Mrs. Bill Brewer, the Medders' niece visiting here from Matawan, N. J., presided at the silver service, and their daughter Miss Cathy Medders, home from Hockaday in Dallas, assisted. Guests helped themselves from an assortment of beautiful pick-up foods.

Centerpiece for the table was an arrangement of red, white and blue carnations centered with a styrofoam Democratic donkey.

It was a come and go coffee between the hours of 10 and 11:30. Some 250 people attended.

The Texas Tech-SMU football game encountered rain and hail but the crowd was jubilant because Texas Tech won.

When the Muenster trio returned home they brought Mrs. Meurer's mother, Mrs. John Fette, with them. She had spent a week with the Ratliffs.

ADA Denounced By Gov. Connally In 1962 Campaign

AUSTIN — In his latest Texas campaigning, Senator Barry Goldwater scored the semi-secret ADA political organization which Senator Hubert Humphrey helped found and has served the past 17 years.

Goldwater's challenge recalled the words of an alarmed Governor John Connally when he sternly warned of an attempted ADA takeover of Texas in 1962.

Concerned Texans, facing the possibility of an ADA radical a heartbeat from the Presidency, are calling for Connally to again sound the warning to all Americans.

On a statewide telecast May 23, 1962 Connally charged "the most vicious, dangerous undercover political campaign in Texas history has been launched against John Connally."

"The architect of the diabolical plan is the left-wing radical ADA and their cohorts who stand for everything Texas doesn't."

"The basic technique they use in the 'big lie' is the same kind of tactics employed by dictators."

In other speeches Connally branded the ADA as one of the "divisive forces of extremism" and said they think "just about 100 per cent opposite to the way most Texans think."

He charged ADA stirred religious prejudice in the state and sought to "saddle Texas with a personal income tax on wage earners."

The 1965 Ford rides quieter than a Rolls-Royce!

Prior to the introduction of the 1965 Fords, the country's leading automotive writers drove the new models at Dearborn. Most of these experts remarked about the extraordinary quietness and smoothness of the Ford ride. An automotive writer, in *Mechanix Illustrated*, said, "If there is a quieter car made in this country, I haven't driven it."

Quiet Means Quality... Since quiet is a traditional measure of car quality, Ford engineers designed the '65 Ford for maximum quietness. To illustrate

this quality achievement, Ford chose to make a documented test against the world's finest luxury car—Rolls-Royce. Bolt, Beranek and Newman, Inc., world's leading acoustic consultants to government and industry, conducted the tests under supervision of the authoritative United States Auto Club. All cars were tuned to factory specifications.

The Result... The Fords proved

to be slightly quieter at all speeds.

The official test report reads, in part: "At all moving speeds, on both courses, the Fords were quieter than the Rolls-Royces."

The Difference... The sound level difference, to be sure, is small—but it is there. At 60 miles an hour, Ford was actually 2.8 decibels* quieter than Rolls-Royce. At 40, Ford was 5.5 decibels* quieter. At 20, Ford was 4.9 decibels* quieter. However small these advantages over Rolls-Royce may be, they are significant evidence of quality—important to anyone buying a car in Ford's class.

Take A Test Drive... A key—and a warm welcome—await you at your Ford Dealer's. The key, incidentally, fits in the lock no matter which side is up—symbolic of the hundreds of advances you'll find in any Ford you road-test. Come in and see for yourself.

*Decibels are the universally recognized units for measuring the volume of sound.

MPH	FORD	ROLLS-ROYCE	FORD QUIETER BY
20 mph	67.4	72.3	4.9
40 mph	75.9	81.4	5.5
60 mph	82.6	85.4	2.8

TEST CONDITIONS: Dry, level, moderately smooth concrete divided highway; light, quartering wind. All cars operated at steady 20, 40 and 60 mph with all windows and vents closed. TEST EQUIPMENT: Bruel & Kjaer precision octave band analyzer, recording through direct observation and through Nagra precision tape recorder. Data expressed in Perceived Noise decibels, TEST CONDUCTED ON September 24, 1964, by Bolt, Beranek and Newman, Inc., of Cambridge, Mass., the world's largest acoustic consulting firm. TEST CERTIFIED by the United States Auto Club. CARS TESTED: Two brand-new Rolls-Royce Silver Cloud III sedans, V-8 with automatic transmission, list price in New York \$16,655 each. Three 1965 Fords, each with 289-cubic-inch V-8 engine and Cruise-O-Matic transmission: Galaxie 500 LTD, Galaxie 500/XL and Galaxie 500 4-Door Sedan.

Halloween Comes Early at Lindsay

Halloween came to Lindsay early this year. Sunday was the day when spooks, ghosts and goblins made their appearance at the annual Carnival sponsored by the Parent-Teacher Club.

Highlight for the children was the costume contest in which winners received prizes. Mr. and Mrs. Jay Pybas, judges, had a difficult time determining winners.

Chris Bezner was best costumed in the pre-school group. He was made up as an African jungle man. In the school group three prizes were awarded. Debra Hess was best as a witch, Larry Zimmerer was second as a hobo and Kenny Hermes was third as a clown.

Various games and concession booths and refreshment counters did a brisk business during carnival time.

and give to the have-nots, which in itself is fundamentally wrong. And which is also economically unsound, as shown in our own early history and the experience of communist nations. Socialism is willingly accepted only up to a certain point. There comes a time when people balk at sharing with those who do not earn their way and decide they too will live on handouts. Our Pilgrims saw the folly of it and abolished the system. Modern countries solve the problem by dictatorship. Suppose we reach that point. What would be our solution? Rather than think of that we'd better take steps to avoid it.

One of the proposals in the socialistic scheme is federal aid to education, which has also been kicked about in the campaign. Goldwater has stated that he is opposed to the aid on principle, first, because it costs more to take money from communities and give it back after deducting federal handling expense, secondly, because federal aid is accompanied by federal control, whereas jurisdiction should be left entirely with state and local areas. If, however, congress should pass federal aid, he insists its benefit should be available to all children, in parochial and private schools as well as public schools. But then he suggests even a better method. He thinks the best kind of federal aid is through deduction for educational expense on income tax return.

Think that over and you'll have to agree it is the best idea yet for aid to education. It brings aid to all children,

oldest ex-student at the dinner.

The honored class this year was that of ten years ago. There were 16 graduates in 1954 and eight of them were in attendance.

Those present were Billy Ben Boyles of Tyler, Mrs. Bill McCollum (LaQuita Cain) of Dallas, Mrs. C. J. Newman (Mary Nell Hellman) of Wichita Falls, Edward Pick of Muenster, Mrs. Loffie Smith (Edna Swirczynski) of Carrollton, Mrs. Frank Mages III (Earline Walterscheid) of Dallas, Wilmer Walterscheid of Muenster and Mrs. John Aytes (Carol Hellman) of Shreveport, La.

The senior class was in charge of the dinner and Miss Diann Henzler and senior mothers were in charge of decorating. Autumn was depicted in a beautiful display of leaves and flowers.

An ambitious young man ventured to approach a great merchant and inquired, "May I ask you the secret of success?"

"There is no secret," replied the merchant. "You just jump at your opportunity."

"But how can I tell when my opportunity comes?"

"You can't - you have to keep jumping."

wherever they happen to attend. It eliminates the element of federal control and snoozerism. It eliminates the need of an expensive federal staff to administer the federal aid program. You have to agree, it's better than the administration's socialistic plan. That matter of bureaucratic administration incidentally, is one of the big burdens in every socialistic venture. One often wonders whom the politicians are more concerned with, the handout beneficiaries, or the additional job hold-

ers. The reason it's considered good politics, of course, is that it gets votes from both groups.

By all means, let's not overlook foreign policy as an issue in this election. We're told that we are at peace even though our men are being killed in hot war and we're unmistakably in the middle of a cold war. For three decades we have helped the enemy that is fanatically dedicated to our destruction. We did it by power politics, by appeasement, by double crossing our

real friends and by foreign aid.

Isn't it time to change our ways? Isn't it time to stop the folly which has enabled that enemy to take over almost half of the world? Especially when we wonder how much more growth it needs before taking us over as well? Hadn't we better realize that it's time to cultivate friendships that count, and to quit helping and appeasing the enemy?

We'd be more realistic also if we'd quit the scare talk about whose finger is on the

bomb button. We know that neither we nor the Soviets are ready to risk annihilation. Self preservation prompts both sides to leave fingers off the buttons.

But another factor is on our side. We don't have to use the bomb to win. We can stop helping and let the red menace perish from its own weakness and corruption.

All these things are important issues in the election, and all of us know which candidate stands for what. In our hearts we know who's right.
