MUENSTER, COOKE COUNTY, TEXAS

NUMBER 39

The AFL-CIO state convention held in Brownsville this week pledged its support to Lyndon Johnson in the coming presidential campaign. The report fits with that from labor leaders in other parts of the country, indicating that they are counting on him to strengthen their control over rank and file workers, which means, principally, the repeal of Right to Work laws in some 20 states.

At the same time it is interesting to note that proposals have been sent to the Democratic platform committee supporting both sides of the Right to Work issue. George Meany, national AFL-CIO president, asks for elimination of Right to Work. C. D. Cadwallader, a railroad conductor, asks that the platform favor its retention.

All of which points to a possibility that labor bosses are spinning their wheels when they expect to deliver the solid strength of organized labor at the ballot box. They fail to consider how many members, exercising their own judgment, will decline to be organized in a political way.

Lots of working people are firm believers in unionism, but based on voluntary membership, which enables them to take a stand against their own leaders as well as their employers. They have learned from experience that the closed shop system, which prevails in many states, makes them captive members. They have to belong to hold their jobs. If they are unfortunate enough to have corrupt and dictatorial leaders they endure various kinds of abuse or they simply don't work. To quit the union means to quit the job. They're stuck.

Realizing that they want a Right to Work law, with its assurance that they can quit the union but still hold their jobs whenever they feel they are being pushed around by their union bosses.

There's real merit in this kind of unionism. It guarantees an organization that does things for its members while restraining it from doing things to them. It demands fairer and less corrupt administration of union bosses because they must hold their positions by merit rather than the force of legal or goon power.

Many of labor's big shots have complained that Right to Work is intended only to wreck the unions. That isn't true. All it would wreck is the strange hold that corrupt cliques have over rank and file members, and require the organization to deserve its existence by working for the benefits of its members rather than the enrichment of its top echelon.

Another complaint is that it is unfair to permit non-members the benefits that are secured by efforts of the union, that they should pay their share in securing those benefits. Obviously that point is exaggerated. Not many workers will continue taking the free ride while others around them are paying the fare. Even so, the organization would be hurt less by a few slackers than by corrupt leadership. If that's the price of eliminating crooks at the top it's still a good deal.

The nearly 800 delegates to the annual meeting of Texas' 79 rural electric systems have elected these four men to the board of directors of the statewide association, Texas Electric Cooperatives, Inc. They are, from left: B. C. Broad of Brady, manager of McCulloch Electric Cooperative; Michael Sloan of Muenster, manager of Cooke County Electric Cooperative; Martin Hyltin of Austin, manager of Lower Colorado River Electric Cooperative; and R. L. Elliott of Dalhart, manager of Rita Blanca Electric Cooperative. The three-day convention ended Friday, August 14.

The Mike Sloans Get State Offices At Co-op Meeting

A Muenster couple, Mr. and Mrs. Michael E. Sloan, have both been elected to offices in the state-wide association of Texas electric cooperatives in Texas.

Both were elected at the annual convention of Texas Electric Cooperatives in Austin August 12-14. Mrs. Sloan was chosen chairman for the ladies organization, and Mr. Sloan is one of four new members of the board of directors of Texas Electric Cooperatives.

Sloan is manager of Cooke County Electric Cooperative, with headquarters at Muenster, which serves rural areas of Montague and Cooke counties and parts of Denton, Grayson, and Wise counties. Its system includes some 1,575 miles of distribution lines, and it serves members-owners at some 4,000 metering points. Sloan has been manager of the system since October, 1958.

Mrs. Sloan is a teacher in the Muenster public schools. Both she and Sloan are graduates of North Texas State University and Mrs. Sloan also has a degree from the University of Texas. They have two children, Sandra Leigh, 12, and Susan Lynne, 9.

Before they moved to Muenster, Sloan was purchasing agent for the Western Company, an oil well servicing concern at Midland.

20 Boys Report For Grid Practice At Muenster High

Twenty eager youngsters answered the call for football practice Monday at Muenster High and are working four hours daily to get in condition. Complying with new regulations, the boys are taking their first week's practice in shorts and without padding.

Coach James Polk is all for the new regulation, says it gives the players time to toughen up before starting contact practice. They will put on the regular football gear next week.

Though not claiming to be a title contender Polk is confident that his Hornets this year will end their season with more wins than losses. Last year they struggled along with a big disadvantage in weight and lost nine of their ten games. This year the average weight of the starting lineup is 156 pounds, last year it was 138.

Four of the '63 regulars are absent this year. Weldon Vogel and Larry Gobbie graduated, Bob Russell and Jimmy Robison are out on doctors' orders. That means seven of the regulars are back on the job, with benefit of a year of growth and experience. Most of the reserves likewise have a year of growth and experience.

Roster members are Virgil Swirczynski, Roy Wimmer, Ken Stormer, Dick Embry, Glenn Fleitman, Tommy Flusche, Roy Hartman, Dale Klement, Tommy Swirczynski, Robert Fisher, David Fisher, Wayne Klement, Terry Cason, Glenn Klement, Tommy Tugle, Herbie Sicking, Louis Hellman, Tommy Joe Trachta, Eddie Hellman and Joe Hartman.

MRS. MICHAEL SLOAN was elected chairman for the ladies group at the annual meeting of Texas Electric Cooperatives, state-wide association of rural electric, at their meeting in Austin August 12-14.

800 Attend State Meeting of Texas Electric Co-ops

"By the preservation and improvement of rural America, you have done so much to strengthen the free enterprise system. But political propagandists portray you as enemies of free enterprise," U. S. Senator Ralph Yarborough told nearly 800 representatives of Texas rural electric cooperatives meeting in Austin August 14.

The right of rural electric cooperatives to generate their own power was stressed by another speaker as essential to the continued development of rural areas. He is Norman Clapp, head of the Rural Electrification Administration in Washington, D. C.

Theme of the annual meeting of members of Texas Electric Cooperatives, state-wide association of rural electric, was "Helping Build Texas." And speakers agreed that this job — as it relates to rural Texas — has just begun.

"The lines to you and your fellow member-owners signify only the beginning — only the start of a new vitality for rural Texas," J. R. Cobb, general manager of Texas Electric Cooperatives, said.

"Let's say loud and clear to all the people in Texas that our rural electric cooperatives — born and raised in adversity and operating even today in areas of receding population — pledge that electric power (Continued on page 6)

Sylvan Walterscheid, president of St. Joseph's Society, was master of ceremonies for the brief program and presented Father Martin with a spiritual bouquet and a gift from the society. Jack Gray Quits As District Judge

Judge Jack Gray of Denton Saturday announced his resignation of the 16th Judicial District bench effective Sept. 11. Judge Gray has held the office since January 1957, and was not a candidate for re-election this year. The district is composed of Cooke and Denton Counties.

In announcing his resignation, Gray said that he was recommending to Gov. John Connally that W. C. (Bill) Boyd Jr. of Denton, the Democratic nominee, be appointed to serve the unexpired term until Jan. 1.

Gray will resume private practice in Denton. Prior to his election as district judge, he was Denton County judge for four years.

Benefit Party Set for Hospital

Muenster Hospital Guild committee chairmen met Monday evening to complete plans for their benefit ice cream supper and game party to be held Tuesday after evening devotions. It will be held outside the Parish Hall. There will be plenty of homemade pie and ice cream and they invite everyone to come and join them for the evening. The proceeds will go for Muenster Memorial Hospital.

Swimming Pool Closes August 30

Only about 10 more days of swimming are left for this season in the Muenster pool. The city council in its meeting Monday night set Sunday, August 30, as the closing date.

The council also set a new schedule for the last week. Tuesday through Friday the pool will open at 4 o'clock, allowing time for kids to get out of school. Monday the pool will be closed, as usual. Next Saturday and Sunday the usual hours will apply.

800 Persons Hear Briefing on Plans For Motel-Resort

About 800 persons at the Saint Jo high school auditorium last Friday night heard a briefing on plans for the combined motel and vacation ranch to be built soon by Mr. and Mrs. Ernest Medders near Saint Jo. Most of those attending were from Saint Jo. Others were from neighboring areas of Montague County and from Muenster.

Before the meeting about 575 of them were guests of the Medders at a catered barbecue buffet.

Carl Webb of Fort Worth, attorney and developer of the project, was the principal speaker, stating that construction is due to begin in about two months and facilities will be ready for use in June, 1965.

Webb said the motel will include 100 units built around small lakes and 20 of them will be family cottages. Other features will be an Olympic size swimming pool, a nationally affiliated 18 hole golf course, a health spot, a beauty salon, a bride trail, and a restaurant with accommodations for several hundred.

The motel, to be affiliated with the Holiday Inn chain, will have a distinct western look. People of Saint Jo were invited to enhance the western atmosphere by promoting a western spirit in their town.

Mr. and Mrs. Medders and Mr. and Mrs. Joe Smiddy also talked about the services and comforts that will be available in the multi featured resort and motel.

Persons seeking employment in both the construction and operation of the big million dollar establishment are asked to apply at the office of Colonial Acres Ranch.

Holidays for the school year are listed as follows. Labor Day, Thanksgiving, (2) days. Sacred Heart Teachers Institute, Immaculate Conception, Christmas (2 weeks), St. Joseph Feast, Easter (2 days).

Drought Relieved But Not Broken By 1.94 in. Rain

The drought was not broken but it was agreeably bent by two nice rains, on Saturday and Tuesday. Their combined measure was 1.94 inches, a very welcome relief to the dryness that had been hanging on since late May.

Before that the last worth while rain was 1.54 on May 29. Totals for June and July were only .64 and .06 inches. The rain record at this time stands at 1.94 inches for the month and 18.26 for the year.

The showers were parts of general rains covering a wide area of Texas. And they were far more generous south of town than in Muenster or to the north. Last Saturday when the city got 1.18 reports were progressively heavier going south. Hood, about 10 miles south, got six inches.

Most as welcome as the moisture was the drop of temperature that accompanied it. Weather has been an average of 10 degrees cooler.

38th County Fair To Open Monday

Everything's set for the 38th annual Cooke County Fair which will be held Monday through Saturday of next week in Gainesville's fair park.

ON THE WAY

Yes, it's started on every side, from the Communists, the moderates in the Republican party, the see-all, know-all columnists, the Democrats, the colored groups. The bombardment is coming from all over, not only from this country, but foreign nations as well. That's the lambasting Barry Goldwater, the GOP candidate for President, is already receiving.

But it's only the beginning. He'll be accused of everything under the sun, deliberate lies will be written and uttered against him and as the heat of the campaign heightens, the clamor for his scalp will be heard on every side. It is unfortunate that a man of his calibre must be subjected to all of this criticism in order to win the election for our presidency but that is the American way.

The Proper Definition

We know he'll remain steadfast through it all, never once wavering from the principles he has set down as to what is needed in a president. We're with him all the way and so are millions upon millions of United States citizens. We urge only that you find the source of lies that will be told about him. Barry Goldwater deserves to be president and we're confident that every knock will be a boost.

CHICKENS COME HOME TO ROOST

Yes, the chickens are coming home to roost for the Northern and Eastern agitators who have tried to make Mississippi a political battleground. New York City is besieged with racial riots in Harlem, and the police department cannot cope with the problem.

The only racial trouble Mississippi has experienced has been incidents promoted and manufactured by outsiders. While New York City seethes in racial unrest, Mississippi goes happily about its business. A visitor to our state from Wisconsin stopped at a Houston service station the other day, and remarked that he had never visited in "a more peaceful state."

JOHNSON AND 'LEGAL PLUNDER'

In the first half of the 19th century, the French economist Frederic Bastiat asked the perplexing question, "How is legal plunder to be identified?" His answer: "Quite simply. See if the law takes from some persons what belongs to them, and gives it to other persons to whom it does not belong. See if the law benefits one citizen at the expense of another by doing what the citizen himself cannot do without committing a crime." — Frederic Bastiat, (1801-1850).

Last February, in a White House speech published later in the Congressional Record, President Lyndon Johnson stated: "We are going to try to take all of the money that we think is unnecessarily being spent and take it from the 'haves' and give it to the 'have nots' that need it so much." — (From President Johnson's White House speech, January 15th, 1964, official text in the Congressional Record, p.2227).

The question arises: Is the John Administration bent on Frederic Bastiat's pithy description of 'legal plunder'?

— St. Paul, Minn., Wanderer

Many of us have already reached the age where the future of our country has little meaning to us personally. But what about our children and our grandchildren, and our great grandchildren? Shall we 'visit' upon them the 'iniquity of the father?' Or will we leave them a heritage such as we received from our forefathers? In our humble opinion, a 'back to God' movement can do more good for our nation than a thousand planks in a political platform. It is simple it is easy, it will work — if we restore the belief in almighty God in our country.

The world's first and only nuclear-powered merchant ship the U. S. S. Savannah, docked in New York after a 42 days' journey of 10,000 miles, having used two pounds of uranium oxide for fuel. A comparable vessel, conventionally powered, would have used an estimated two million pounds of fuel. Beset by union jurisdictional squabbles for several years after its completion, the Savannah was tied up for many months at Galveston. It may prove to be merely an \$80 million status symbol, although it has already fulfilled all hopes.

Carbon black — a sophisticated "cousin" to that unpopular substance, soot — is one of the most useful products of modern industry, according to an article in Petroleum Today. It is used to strengthen and toughen rubber tires, raincoats and conveyor belts, and goes into bowling balls, typewriter ribbons, eyebrow pencils, television tubes and printer's ink. Its particles are so tiny that the period at the end of a sentence in ordinary printed matter contains nearly one billion particles of carbon black.

HOMEWORK IS A LIGHT SUBJECT!

Adequate, properly positioned lighting can make school homework easier and more effective... a big step toward better grades for almost any student.

Check the room or rooms used for study in your home for these common lighting faults:

GLARE — irritating, direct light from unshaded bulbs or improperly placed lighting sources.

CONTRAST — too great difference between light and dark areas in the room.

SHADOWS — cast from poorly placed lamps and fixtures.

NOT ENOUGH LIGHT — because of too few lamps... because the bulbs are too small... because room colors are too dark.

Dealers or TP&L Home Service Advisors will be glad to counsel with you on good study lighting.

HOMEWORK IS A LIGHT SUBJECT!

Adequate, properly positioned lighting can make school homework easier and more effective... a big step toward better grades for almost any student.

Check the room or rooms used for study in your home for these common lighting faults:

GLARE — irritating, direct light from unshaded bulbs or improperly placed lighting sources.

CONTRAST — too great difference between light and dark areas in the room.

SHADOWS — cast from poorly placed lamps and fixtures.

NOT ENOUGH LIGHT — because of too few lamps... because the bulbs are too small... because room colors are too dark.

Dealers or TP&L Home Service Advisors will be glad to counsel with you on good study lighting.

MEASURING TIP

Refrigerated shortening is hard to pack into a measuring cup. If your recipe calls for 1/2 cup of solid shortening, put 1/2 cup cold water into a 1-cup measure. Add the fat, pushing it under the water until the water stands at the 1-cup mark. Pour out the water and you have a 1/2 cup of fat.

MRS. JO HILLIS JAMES WHALEY

Two Germans in the Communist zone were discussing the fuel shortage under communism. The first said, "Your house is always warm. How do you manage it?" The second answered, "In strict confidence, it's my parrot. I taught him to say 'Long Live Party Chief Ulbricht.' Then I put him on our balcony overlooking the wood depot. Every time the parrot screams that slogan, the depot workers throw firewood at it. So now I get all the fuel I need."

W. J. Millers Back From California

Returning Saturday from a two week trip to California were Mr. and Mrs. Bill Miller and sons Robert, Terry and Allan. They enjoyed driving through the desert and the mountain country. They all took a swim in the Pacific Ocean. They stopped in Nevada at Reno and Las Vegas and in California saw many places including Disneyland and the Golden Gate bridge in San Francisco. They had a beautiful drive through the resort town of Monterey, Calif., seeing many different views of the ocean. Also stopped for pop calls in Albuquerque, New Mexico with the Frank Hennigans and Leon Hellmans. While they were away daughter Linda spent a week in Dallas with the Don Glover family.

Reunion Marks Two Occasions For John Rohmers

The family of Mr. and Mrs. John Rohmer were all together Monday evening celebrating two occasions. It was a surprise for Mrs. Rohmer on her 76 birthday and gave Mrs. Fidelis and Romana a chance to see all the family.

They came Monday for the celebration and Sister Fidelis left Tuesday evening for Eureka Springs, Ark. for her assignment, and Sister Romana will remain to teach in Sacred Heart School this term.

Mr. and Mrs. Emil Rohmer were hosts in their home for the evening meal which was catered by Rohmers Catering Services. There was a birthday cake and gifts for Mrs. Rohmer.

In addition to family members from here, out of town guests were Mr. and Mrs. Joe Spaeth and family of Longview, Mr. and Mrs. Morton Wright and children of Irving, Mr. and Mrs. Johnny Rohmer and Darlene and Miss Ida Rohmer of Fort Worth.

Medders Scatter On Vacation Trips

Mr. and Mrs. Ernest Medders didn't get off on vacation to Colorado after all. Business kept them at home. But the rest of the family left.

Instead of Colorado, the Joe Smiddys Jr. and daughter Elizabeth, visitors from Wise, Va., and Mary Margaret and Sara Medders made flying trip to California to see Disneyland. They left Saturday to spend three days there and two in Los Angeles and are due home Thursday.

Miss Cathy Medders, vacationing in New York at the Fair with a group from Hockaday, telephoned home Friday to report safe arrival after a visit in Canada. She's due home Thursday.

Also coming back Thursday are Gene and John Riggs who have been in Tennessee — Gene making arrangements to enter the University of Tennessee, and Frank Medders who has been the guests of the Jimmy DeLoach family in Dallas.

will continue to be available in ever increasing quantities on a reliable basis, at reasonable rates, through our locally-owned electric cooperatives," he urged.

Miss Charlotte Garrett of Breckenridge was named Miss Texas Rural Electrification at the annual banquet held Thursday night, August 13. Miss Jo Lynn Petras of LaGrange was named runner-up. Miss Garrett will represent the Texas rural electrics in a national contest to be held at Miami Beach in January.

Three winners in the statewide contest for the best essays on the history of a rural electric cooperative were announced at the meeting. Winning first place and a \$500 scholarship was Miss Kathy Brown of Slaton. Second place winner was Horace Pipkin of Keller, and Jimmy Raffel of Coleman was third. Pipkin received a \$300 scholarship and Raffel, one for \$200.

Miss Brown wrote on the history of South Plains Electric Cooperative at Lubbock; Pipkin on Tri-County Electric at Azle; and Raffel on Coleman County Electric.

Members also elected new officers and four new members of the board of directors of Texas Electric Cooperatives. New officers are Seth Kennedy of Victoria, president; Raymond Hampel Jr., of Corsicana, vice-president; and Virgil B. Shaw of Quitman, secretary-treasurer. New directors are B. C. Broad of Brady, R. L. Elliott, Jr., of Dalhart, Michael E. Sloan of Muenster, and Martin G. Hyltin of Austin.

Attorneys for the rural electric cooperatives elected R. E. (Bob) Schneider of George West president of their section. Ladies elected Mrs. Michael E. Sloan of Muenster as their new chairman.

Member service advisors for the rural electrics also hold a separate session as part of the convention, and they selected three men to head their group. They are James Hull of Colorado City, Danny Swafford of Sinton, and Juan D. Nichols of Quitman.

Senator Yarborough in his talk urged members to recognize that the leaders of the Republican Party have taken strong stands against the rural electric cooperatives and the Rural Electrification Administration.

He declared that his opponent for the Senate seat "has embraced that rigid element of the Republican Party whose members have introduced nine anti-REA bills now pending in the 88th Congress." And he declared that his opponent "wouldn't know a cotton boll from a corn shuck."

Delegates to the convention responded to the Senator's appeal for a more active interest in politics by passing a resolution calling for the publication of voting records and statements by candidates in **Texas Co-Op Power**, state-wide newspaper of the rural electrics.

Another speaker, Bruno E. Schroeder of Austin, executive vice-president of the Texas Federation of Cooperatives, urges a new look at agriculture as an industry.

We must look at agriculture as the giant industry that it is, and "we must organize in such a way that we can have a more powerful voice — have some influence on market

MISS CHARLOTTE GARRETT, a petite brunette beauty from Breckenridge, is the new Miss Rural Electrification of Texas. She will represent the rural electric cooperatives of Texas in a national contest at Miami Beach, Florida, in January. prices and on sources of supply."

The convention delegates approved several resolutions expressing specific support of the theme of the convention, "Helping Build Texas." One resolution pledged support of the war on poverty and continued support of a "vigorous rural areas development program." Another expressed appreciation to the Farmers Union, Farm Bureau, State Grange, Sheep and Goat Raisers, and other farm and ranch organizations for their support of electric cooperatives and of rural development.

The delegates expressed strong opposition to the Supreme Court ruling requiring reapportionment of both houses of state legislatures on a population basis, and they urged Congress to act "to return to and leave the question of apportionment of the state legislatures for determination by the states themselves."

They also expressed support of the Alliance for Progress and the Texas Partners of the Alliance, a group of citizens of Texas and Peru.

One newspaper headed a new policy with "Okay, Mamas" and announced a new policy in writing up weddings. "No longer will we be printing the details of the bride's clothing or that of her attendants," the announcement said. The editor gave as one of his reasons for the change that he

didn't have time to run to the dictionary to check the spelling of applied, Shantilly and peau de soie. "But it's worse when you don't know what it means," he said adding, Besides, cutting out this practice will save space for something important, such as what the groom wore."

non union workers enjoying very satisfactory relations with employers. Why should they pay dues, why take union orders, when they are already pleased with their wages and working conditions?

You can bet that political endorsements by labor bosses will not be heeded by lots of union members. Having minds of their own, they realize that the allegiance asked of them is not the best for them, and they'll vote as they please. While heartily in favor of the principle of organizing, they are not in favor of the un-

principled methods by which some of their organizations are run.

History has shown that to be a fact. Remember a few years ago when unions from many states poured millions into Ohio to defeat Senator Taft. He won by his biggest majority ever, receiving strong support from predominately unionized industrial areas. It goes to show that many union members ignore their bosses and vote their convictions.
