VOLUME XXIX

MUENSTER, COOKE COUNTY, TEXAS 76252 MARCH 5, 1965

NUMBER 15

Last week this column made an effort to clarify what some people have regarded as inconsistent, that is, its support of a local hospital district while opposing many socialistic ventures by our national government.

It was pointed out then that there are varying degrees of socialism. In its simpler forms socialism is a part of our every day lives. It includes basic facilities and services which through the years have been taken over voluntarily by the public as community responsibilities — like roads, schools, police systems, the courts, etc.

In other words our problem is not whether we should approve or reject socialism, but how far we are willing to go in approving. Do we think that a hospital can properly be rated as a community responsibility? And, if so, do we think that values offered in this case are worth what they cost?

Those are the questions that count. And it does not follow that a person must oppose this degree of socialism because he opposes the more extreme forms.

For instance, this column thinks that socialism in the absurd degree is that practiced by the communists, or that which prevailed during the first few years of our Pilgrim colonists—turning all production over to the government for distribution according to need. It destroys incentive and creates a cumbersome dictatorial bureaucracy that is both inefficient and tyrannical.

Likewise this column disapproves many of our own nation's socialistic ventures. It does not think that government should use billions of tax money to provide transit systems and other accommodations in favored areas. It does not think that government should promote tax supported business projects where tax-paying private capital is willing to do the job.

This column, while approving the basic principle of social security, does not approve the method of our present system. It thinks that security should be assured through a plan that follows sound insurance practice, in which people over 65, or their heirs, receive the money they have paid in, plus a reasonable interest. It does not approve the present method by which, in many cases, the next of kin cannot collect on funds that have been paid in for years. Nor does it approve another present provision by which some beneficiaries receive regular maximum benefits after paying in only the small specified minimum. In short, this column thinks that our government, in its social security administration, should follow the same standards that insurance companies follow, which, indeed, official regulation requires them to follow.

Let's hope these examples will clarify the issue. Obviously there are milder forms of socialism, which can properly be classified as community responsibility. We can logically approve them without favoring the more extreme socialism. In fact, most people do.

A significant quote from this week's US News & World Report: "The White House and State Department were more annoyed than disturbed by the proposal of UThant, Secretary-General of the United Nations, to 'negotiate' US troops out of Vietnam. In effect he called for an international conference to decide how the US should 'withdraw gracefully,' not whether it should."

The statement substantiates what has been said here many times. The official attitude of the UN is pro-communist, and it has been for many years. Instances can be cited by the dozens to show that peace keeping attempts of the organization invariably seek settlements favorable to the reds. It's gratifying to note that President Johnson has a belly full of that kind of dealing. It encourages us to think dispositions may finally be changing in official Washington—that we're starting to think of freedom's interest rather than trying to co-exist on the enemy's terms. Perhaps we're even thinking about winning this world tussle.

Another quote: "US would prefer not to take advice from (Continued on page 8)"

## Track Team Will Compete in Meet At Iowa Park

Considering the little practice they have had, Muenster's Hornets did a fine job last Friday in a practice track meet with Saint Jo and Era on the Saint Jo field. Coach James Polk said he is encouraged by the nice records they turned in.

Prior to then, and again this week the boys have had little practice. Weather has been severe and the track has been muddy. Running on the road and in the gym for general conditioning is about all they have done.

Their first action of the season is set for Saturday at Iowa Park track meet. It's due to be a huge event attracting top athletes from about 50 Class AA, A and B schools of North Texas. The local boys will be competing out of their class and Coach Polk doesn't expect them to get much more than experience.

Two other practice meets are on schedule before the annual district meet. Those are at Gainesville on March 13 and Saint Jo on March 27.

Seventeen boys are on the Hornet team. Their assignments are listed as follows by Coach Polk.

Dickie Embry and Herbie Sicking in high jump. Glenn Fleitman in pole vault. Tommy and Virgil Swirczynski, Roy Wimmer, Ken Stommer and Jimmy Robison in sprint events. Robison and Wimmer in hurdles and broad jump. Roy Hartman and Tommy Flusche in shot and discus. Bob Russell, Dale Klement, Louie Hellman, Tommy Trachta and Joe Hartman in distance running. Tommy Tuggle is a junior who has been working with the team and will be eligible to compete in either junior or senior divisions.

## Science Students Attend A&M Event

About 20 science students of Muenster High School and their co-sponsors, Mrs. Mosman and Carl King, are planning a trip to A&M University Friday for the state meeting of JETS (Junior Engineering Technical Society).

The day's program is both long and crowded. They will leave here about 4 a.m. expecting to arrive in time for registration at 9:30. They will attend two general meetings for students and sponsors, and at one time students will participate in contests of math, slide rule, physics, chemistry and mechanical drawing while sponsors are attending a special meeting. They expect to head homeward about 5 p.m.

Some parents, too, will make the trip. There will be at least one adult in each car.

## Mrs. Paul Endres To Attend National 4-H Adult Forum

Mrs. Paul Endres will be among 24 4-H leaders from the State of Texas to attend a 4-H Leader Forum in Washington, D.C., April 5-10, 1965.

She was recently selected as one of two adult leaders from the nineteen county Extension District IV on the basis of her exceptional contribution as an adult leader. Also attending the Forum from District IV will be Bob Cole, Denton County.

Mrs. Endres has served as an organizational leader for 11 years. She has served as project leader in both foods and clothing for 9 years. Coaching method demonstration teams in foods, safety and wildlife has also been her service as an adult leader. She has served on all county wide planning committees including: county achievement events, dress revues, food shows, Share-the-Fun contests, and county camp activities.

Mrs. Endres recently made this statement about 4-H Club work; "I believe 4-H helps boys and girls develop a well balanced personality and helps them accept challenges and responsibilities as adults. An effective 4-H program gives young people opportunities to acquire the qualities of leadership and become good citizens."

## 40 Hour Service At Sacred Heart Will Start Sunday

The annual 40 hours devotion in Muenster's Sacred Heart Parish will be held Sunday, Monday and Tuesday of next week.

Father Alcuin Kubis revealed this week that the service will begin at the 9 o'clock Mass Sunday and closing service for the day will follow the 7 o'clock evening Mass.

On Monday and Tuesday services will begin at the 6 a.m. Mass and end with Benediction at 7:30. The final closing will be a solemn event with clergy from neighboring parishes participating.

## SH Church Starts Lenten Schedule

The solemn season of Lent opened in the Sacred Heart Parish at 6 o'clock Mass Wednesday morning. Included in that service was the traditional blessing of ashes and distribution of a pinch of the blessed ash to the forehead of each parishioner with the reminder, "Remember man that you are dust and unto dust you shall return."

A special service locally for the rest of the season will be a Mass at 7:30 each Friday night followed by the Way of the Cross. Another service, not special for Lent, is the regular Tuesday night novena service.

Regarding fasting, the church continues its attitude of recent years. Father Alcuin Kubis explained that fasting now is required on only four days of the year—Ash Wednesday Good Friday and the vigils of Immaculate Conception and Christmas. During Lent, however, the church recommends some sort of voluntary sacrifice as a substitute for the previously required Lenten fast.

## Schedule of Coming Events

FRIDAY, March 5, CDA meeting, KC Hall, 8 p.m.

MONDAY, March 8, Garden Club meeting, Mrs. Dan Luke's home, 8 p.m.

## Fear of Measles Ups Demand for Immunizations

A new and deep respect for measles is developing in Muenster nowadays. Taken for granted many years as a childhood disease that eventually comes to most homes but causes little trouble, it is recognized as an ailment that can cause serious after effects and even death.

Because of those dangers a new interest in measles immunization is also developing in the community. Dr. Martin Kralicke, city health officer, disclosed Wednesday that about 200 measles vaccines have been administered the past few days and appointments are on file for more shots as soon as the vaccine arrives. Also about 50 shots are reported at Saint Jo.

The vaccine currently being administered has been in use for six years, Kralicke said, and recent tests have shown the first shots given with it are still effective. No one can say how much longer its protection will continue.

Another vaccine just developed, is introduced and will be available soon. It differs from the present vaccine principally in that it can be given in a single shot. The present shot requires an accompanying shot of globulin.

Dr. Kralicke said that Muenster is fortunate in getting immunization before the measles epidemic arrived. Very few cases have been treated here. Those known are mostly at Lindsay and Gainesville.

He also said that the Rubella variety of measles, the more serious kind, is the one prevailing now. It not only makes the child sicker, leaving about 50 percent with after effects that may hang on a year, but also developing other serious complications in about 20 percent of the patients. Some get pneumonia. Some get other ailments resulting in permanent damage to brain or the senses. It is believed now that many mental and physical handicaps of unknown cause were actually caused by measles.

#### SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Now is the time to plan on where to plant some kind of summer legume. There are three good legumes which do well in this part of the Upper Elm-Red Soil Conservation District. These are: Cowpeas, Hubam clover and Madrid clover. These can be planted in late winter and spring at a general seeding rate of 15 pounds per acre. There may be some cooperators who prefer Lespedeza. If so, now is the time to plant.

Summer legumes are valuable in many ways. They serve as an umbrella to protect the soil from the hot sun, blowing winds and hard rains. In addition to this, they make and store nitrogen. A good stand will make 30 or more pounds of nitrogen per acre. Their roots renovate the soil by punching holes in it. The top part is returned to the soil as a high quality residue or as a green manure crop.

Legumes help to control destructive insects and weeds. All of these benefits from legumes add up to soil improvement. Consequently, crops following legumes produce more. Urbanites and district cooperators all agree that soil protection and improvements are necessary if the nation is to remain strong; however, the increase in production has not enjoyed the same united agreement and popularity.

Soil improvements and increased production go together. Poor soil protection and improvement means poor production, poor livestock, poor people, soil erosion, etc. Good soil protection and improvement means higher production. Legumes do more to protect and improve the soil than any other single conservation practice. For this reason the local Soil Conservation Service recommends a summer legume in the conservation program.

Detroit may have put the nation on wheels; but Washington certainly put it on skids.

"Look at me," she complained, "my clothes are so shabby that anyone coming to the door would think I was the cook!" "Not if, they stayed for dinner," quipped her husband.

Two other local teams were also in the tournament. SH Alumni boys lost to Muenster Mill in the consolation final and Sacred Heart High boys lost to Prairie Valley in the semi final of the championship.

None of the Muenster teams played in preliminary games. SH High drew a bye and chose to play in the championship bracket. Next they beat Nocona Boot Co. before being eliminated by Prairie Valley.

Icy weather Tuesday night kept the other three teams out of the opening games and all were placed in the consolation bracket. In next games Muenster Mill beat Nocona Fire Dept. and Alumni boys beat Piggly Wiggly of Nocona. The final was a hot contest finally decided in an overtime period.

Alumni girls were put in the consolation bracket when they missed the opening game. Next they beat Spanish Fort, then won two straight over North Saint Jo in the final. That last game was a thriller. SH rallied and won after trailing 12-0.

### March 20 Set for Elm-Red Contest In Land Judging

The Upper Elm-Red Soil Conservation District Board of Supervisors made plans at their February meeting to hold their 9th annual land judging contest in Gainesville, Saturday, March 20, 1965.

The contest will be held in the Cooke County Junior College gymnasium and will be open to all twenty-one Future Farmers of America Chapters

in the District, plus the three County Agricultural Extension 4-H programs in the district.

Chairman Harold Skaggs of Sherman stated, "We have been having a good contest but it could be no larger. I would like to see teams from all the FFA chapters in the district plus the three county 4-H programs. Last year approximately 100 boys participated in the contest from all over the district and we would like to see even more this year."

The contest will be run by

experienced Soil Conservation Service technicians who are assisting the Upper Elm-Red CSD. The contest will follow the rules and regulations used in state and national land judging contests.

Teams will start registering at 8:00 a.m. on Saturday, March 20, and the contest will start at 9:00 a.m. The SCD Board will serve a noon luncheon to the contestants and their coaches and awards will be presented the winning teams and high scoring individuals in the contest. There

will be a junior and senior team division in the contest. All first year boys will be in the junior level and the more advanced students will make up the senior division.

Skills learned in this contest go with a boy all through life. He has a better understanding of the land, how to classify and judge it and how to conserve and take care of the soil. Boys receiving this training in land judging can appreciate the soil and its problems and be better prepared in future life to help

improve and conserve it, Skaggs added.

Mr. and Mrs. Joe Luke are back home after a week of visiting in Louisiana, guests of their son and family, the Norman Lukes in Shreveport. They made an air trip to New Orleans one Sunday to visit the Wilfred Herrs and saw some of the Mardi Gras celebrations and parade. They were snowbound in Shreveport and had to stay a few days longer until highway conditions improved.

**Hall Assigned To Committee for Redistricting**

Senator Louis Crump of San Saba, Chairman of the Senate Redistricting Committee, has announced the appointment of the sub-committee to work on legislation dealing with congressional and legislative redistricting. Presently there are three bills pending in sub-committee, Senate Bill No. 7, a bill to redistrict the Texas Senate, and Senate Bills 17 and 25, both of which pertain to congressional redistricting. Crump named the following to be members of the sub-committee on the bill designed to redistrict the Senate: Crump, Chairman, Cole, Hardeman, Moore and Reagan. Those named to the sub-committee on the congressional redistricting bills are: Crump, Chairman, Dies, Hall, Kazen and Parkhouse.

In announcing the appointments, Crump stated, "I have given much thought and consideration to the matter and my decision to appoint these members was not arrived at hastily. I fully realize that there are many other members of the 21-member committee who would have served well and ably and who were most anxious to serve. However, it is my feeling that the membership of these sub-committees is fairly constituted and representative of the entire state. I can assure everyone that we will work hard on this all important legislation."

Mr. and Mrs. Joe Horn and Mrs. Bernard Sicking, joined by Miss Judy Sicking of Fort Worth, were in Austin Sunday attending the dedication and open house of the new Catholic Student Center at the University of Texas. They visited the Horns' daughter Diane Horn, also with Doris Fisher, and exchanged pleasantries with Abbot Alfred Hoening of Corpus Christi. And Mrs. Horn talked by phone with Mrs. Townsend Miller. Bishop Gorman of Dallas was one of six bishops present.

Balph, Gladys S. Balyeat, Fidelity Royalty Company, Yetta Rosenbloom, Isabel R. Wilson, Leslie L. Wilson, E. F. Bailey Survey, Abstract No. 44, in Cooke County, Texas, the basis of such claim being that the present lessees have not operated the leasehold estate as a reasonably prudent operator would, and that by virtue of same, such lease has expired and terminated; the interest claim by all of defendants is 7-8th working interest, plus 1-16th royalty, all subject to an oil payment belonging to some of the defendants. If this citation is not served within 90 days after the date of this issuance, it shall be returned unserved. The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

**Bad Weather Brings Holiday**

Even though sleet and ice Tuesday afternoon made conditions quite hazardous, the school children all enjoyed it because it meant a holiday. The school was closed on Wednesday, because of the icy conditions, but classes resumed Thursday full force and the students got in their annual snowball fight. Since last week was six weeks' test week, the holiday affected the schedule. Six weeks' tests were scheduled for Friday and Monday.

**Track Meet Scheduled**

The track team of Muenster High entered a triangular track meet at St. Jo Friday afternoon with the Era and St. Jo teams. This was a practice meet to see what the three track teams could do. St. Jo seemed to take the lead; however, our team looked promising.

There will be a track meet Saturday, at Valley View of Iowa Park. Coach Polk is also considering entering the meet at Gainesville the same day.

The senior play, Tuesday, was a smashing success if one can judge from the reaction of the audience. The riotous farce met with gales of laughter, which could still be heard long after the final curtain.

Each of these beauties is the lowest priced in its line. But the ride doesn't show it. Or the interior. Or the performance.

Chevelle, America's favorite intermediate-size car, has clean new styling, wide doors, roomy, tasteful interiors and Chevrolet easy-care features.

Chevy II got a lot smarter for '65—but stayed sensible! Still family-size, easy to handle, economical, and the lowest priced Chevrolet you can buy.

Or get a sporty rear-engine hardtop in a Corvair Sport Coupe or Sport Sedan for fun in the months ahead.

Chevrolet, Chevelle and Chevy II are available with the Turbo-Thrift Six for fuel economy, quick warmups, quiet idling. It's light, efficient, smooth and spirited.

**Native of Lindsay Tells of Mission Work in Nigeria**

Brother Louis Fuhrmann, OSB, a missionary stationed in Africa has written to the Enterprise reporting on his activities and asking that his personal greetings be extended to friends and relatives of Cooke County.

He doesn't have time to send letters to them individually, Brother Louis says. He is one of the fourteen faculty members operating a boys boarding school with an enrollment of 210. Those duties along with the monastic schedule leave very few idle moments.

Brother Louis is a member of the St. Mukasa Priory at Eleme, near Port Harcourt, Nigeria. With him on the staff are four priests, another brother and eight lay teachers, one a Peace Corps member from Philadelphia.

Early in January he had the pleasure of a visit with home folks. Wilbert Vogel, son of the Joe Vogels of Münster, is stationed at Port Harcourt as a petroleum engineer for Baker Oil Tools, Inc. He learned about Brother Louis from home and went to Eleme to see him. The two had not met before but had a great visit discussing mutual friends and happenings of mutual interest in Cooke County.

Brother Louis also extended his personal thanks to all who gave to the Nigerian collection and to those who gave him tools, money, supplies, etc., for missionary work. He remembers them daily in Masses and prayers.

**P T Club Members Enjoy Open House At Lindsay School**

Open house at Lindsay School was combined with the Parent-Teacher Club's regular monthly meeting Thursday as an observance of Public School Week. Students' work was displayed.

After touring the classrooms in both high and elementary departments visitors were served refreshments of cookies and coffee by the homemaking class in the home economics room. All signed a guest book in the high school hall. Gilbert Hermes won the door prize.

Milton Pierce, principal of Collinsville Public Schools, was master of ceremonies and Father John Walbe led the invocation.

Ray Haverkamp, president of the Athletic Association, extended welcome and Patsy Zimmerer, captain of girls' basketball and Ronnie Zimmerer, football co-captain, gave the responses.

Coach Henry Schroeder introduced the guest speaker Texas Ranger Louis Rieger. He spoke on "Them Olden Days."

Musical selections were presented by the Shadows—Jimmy Eberhart, Joe Bezner, Ronnie Krebs and Jimmy Flusche. After the banquet the group went to the Parish Hall for dancing.

President Mages read an article from a news journal concerning measles and vaccinations for the disease and encouraged parents to have their children—who haven't had measles—immunized.

A program was announced for the next meeting on March 24 at 7:30. Sister Patrick's Spanish classes will perform and will present a short skit. First and second graders and ninth and tenth graders will go on the stage. Especially enthused are first and second graders who will be in Spanish costumes.

The United Nations in a conflict the UN has been no help in settling—especially since that organization's UThant hasn't succeeded notably in straightening out the UN's own muddled affairs."

That's the spirit! And may it be the spirit from now on! As long as that outfit continues its present policy it deserves no cooperation from us. As long as it declines to penalize the deadbeats of its membership it deserves no financial support from us.

It's high time for US to adopt a new policy—to think and act in support of freedom and justice—and to follow that policy rigidly regardless of the UN.
