

By the time this column gets into print, German Week festivities will be in full swing, and hopefully there will be hundreds of visitors enjoying themselves and getting a good impression of the community.

Lots of effort has been spent in trying to assure that there will not be a dull moment. The big tent is well supplied with eats and drinks and entertainment, and in addition, there are special pageants and dances, plus horseshoes, softball, a ten mile foot race and motorcycle skill riding contests. Along with all of that, this is undoubtedly developing as a great opportunity for visitors and residents alike to see people they have not seen for years. There are reports that a number of former residents are thinking of the occasion as a homecoming. We hope so, and we hope they will enjoy every minute here.

Moreover, we hope they will see more of Muenster than just the festival attractions. We'd like to have them drive around and see why we are proud of the community as a good place to live and to make a living.

The Enterprise adds its special greetings to everybody, visitors and home folks, for a most pleasant bicentennial event.

Anyone who doesn't think our income tax system is in sad need of revising would have a hard time getting support from Washington Post columnist Nicholas Von Hoffman. He reports that if you had a "professional" income tax report preparer fill out your form, there is a 74 percent chance that it is incorrect.

Nothing was mentioned about the kind of survey or study his statements are based on, but they are interesting, and somewhat amusing as another indication of the bureaucratic tendency to louse things up. This seems to lend support to a long time popular contention that IRS regulations and forms ought to be simplified.

The author gets more interesting as he lists an assortment of experts who apparently are baffled by the IRS forms. He says that accountants making out the income tax report are found to be wrong 75 per cent of the time. Lawyers are worse, their average for bungling is 78 per cent. But who's the worst of them all? Believe it or not... it's the members of the IRS staff whose job is to help us puzzled taxpayers determine what we owe Uncle Sam. Their average for being wrong is 79 per cent.

With this much confusion already reported, a person is inclined to wonder whether it doesn't actually get more involved. For instance, who are the super-experts, or whatever they call them, who pass judgment on those lawyers and accountants and tax people? Who can say that they are right? If their check-ups were re-checked, what would their grade be?

In one respect this is a laughable situation. Imagine all that confusion in the atmosphere of authority and finality with which these people surround themselves. But consider also that the figure they hand down as the corrected amount of your indebtedness also stands a fair chance of being wrong. It's only reasonable to assume that the IRS official experts are subject to about the same percentage of error as the other experts. So, nobody really knows whether he paid the correct tax.

The real absurdity about this situation is that people hire tax experts because the tax forms are too tough for them — but they're also too tough for the experts. That seems like more than sufficient reason to simplify the forms. For many years people have been begging for an easier way so that practically any one can fill out his own and save the fee that has been paid to the experts. It's been suggested also to eliminate deductions. Just pay a certain percentage of gross income, and that's all.

It seems like a good idea until we realize that the fairer way is to make allowance for donations, sickness, tax, interest and the other deductibles and exemptions now allowed. Regarding contributions, the arrangement seems especially

Hot Races Indicate Big Voter Turnout

One of the hotter political races of recent Texas history will end Saturday in the regular Democratic primary combined with the first presidential primary of Texas.

As usual, in most state and local races it will determine who will be in office for the coming term. The reason is that in many cases the Democrat nominee of the primary will not have a Republican opponent in the general election. However primary run-offs and/or November election races are in sight for some.

At the same time Republicans also have a primary to name their candidates for the general election as well as to select their favorite for the party's presidential nomination. The party will not have a primary in Muenster. Local people who wish to vote that ballot will have to do so in Gainesville at Loch & Tracy Engineering Co., 414 E. Elm St.

Interest in the GOP is centered mostly in the hot Ford-Reagan contest for presidential nomination.

Meanwhile Democrat interest for local people is focused on several contests. In the county J. G. Whisnand and Tom Taylor are challenging the incumbent, Bill Pratt, for the office of sheriff. In Commissioner Precinct 3 Robert Hobbs Jr., Jerry Lewis, Marvin Maberry and Jim Blount are running for the office vacated by Earl Taylor.

That's the extent of activity for Cooke County offices. Other candidates as well as those for district attorney and two district judge offices are coasting into office without opposition. The same applies to State Representative Bill Sullivant.

However there is plenty of action in the race for State Senate as Incumbent Tom Creighton is challenged by Alex Tandy.

Two more hot races are on the state level and both concern Lloyd Bentsen, who is seeking the state's endorsement.

Election Will Be Different

Voters of Texas will find a different kind of ballot as they report for Saturday's election. For the first time a presidential primary is being held along with the regular Democratic and Republican primary, in which party nominees are determined for the general election.

However, people will not vote for candidates but rather for delegates who are pledged to support those candidates at the national convention. The number of delegates per candidate is determined by the total number of votes in the state senatorial district.

The local district is allowed three delegates per candidate, hence the ballot lists four groups of three each, the first group for Wallace, the second for Bentsen, the third for Carter, and the fourth not pledged to anyone. To support either of the candidates a person votes for that candidate's three delegates, or if none of the candidates is wanted the voter can vote for the fourth or uncommitted trio.

It's possible also to split support between candidates by voting for delegates from the separate groups. However the limit is 3 votes in the entire list of 12 delegates.

Sister Alberta Is Panel Member at Dyslexia Meeting

Sister Alberta, specialized teacher of Reading at Sacred Heart will be a member of a panel of experts who will discuss the teaching of dyslexic children in the classroom, during a meeting in Dallas on Monday, May 3. Also included will be hints for parents to discuss with teachers and how and when to help children with their homework.

The meeting will begin at 8 p.m. A coffee will be held 30 minutes earlier, both at The Registry Hotel on Mockingbird and Stemmons Expressway. The meeting will be of special interest to parents and teachers of dyslexic children. Any interested parents may phone Sister Alberta.

ment as the party's presidential nominee while also seeking re-election to the US Senate. In the presidential primary his name is not listed as a candidate. Wallace, Bentsen and Carter, the actual candidates, are each represented by three delegates who are pledged to support them in the national convention. Voters will cast ballots for those delegates rather than for the candidates.

Bentsen's other race is with Phil Gramm for the US Senate seat now held by Bentsen. It has been picking up speed lately and is expected to end in a close finish.

Other contests on the state ticket are for Justice of the Supreme Court, Judge on the Court of Criminal Appeals, and State Railroad Commissioner.

The election in Muenster will be held in the usual polling places with B. J. Swirczynski in charge at the North Box in the Public School and Paul Fisher in charge of the South Box at the VFW Hall. Voting hours are 7 a.m. to 7 p.m.

Both of the election judges, as precinct chairmen, urge voters to arrange their voting time so that they can conveniently attend the precinct convention at 2 o'clock. Principal purpose there is to elect delegates to the county convention in the District Courtroom May 8, 2 p.m.

Complying with current state law, the local ballot is printed in both English and Spanish.

Gala German Week Begins

The biggest party ever in the 87 year history of this community got under way Wednesday night and will continue through Sunday with a full schedule of major events in the community center and four days of carnival type activity under the big top and its adjoining beer garden.

Things started shaping up last Friday as a huge 60x100 tent arrived for erection on the parish parking lot in front of the Community Center. More correctly it can be said that German Week got its start almost a year ago when planning got started in a Chamber of Commerce meeting. Preparations have continued steadily since then, and are all set now for the big event.

Since Friday the operators of some 20 concession stands have been going strong building their booths and generally getting ready for business. Meanwhile others are setting up for beer sales and crowd comfort under the roof across the parking lot, the customary spot for other outdoor

Historical Pageant

The first of German Week's major events was held Wednesday night in Muenster High School auditorium. It was a historical pageant honoring the memory of the nation's heroes and tracing the history of the country and its people. Sponsored by the Muenster PTO, its cast included students from kindergarten through high school.

A special ceremony preceding the pageant was presentation of a flag flown over the national capitol on April 8, 1976, to Chamber of Commerce President Bertha Hamric. The flag had been presented specially for German Week by Congressman Omar Burleson to Midshipman Ramon Luke of the U.S. Naval Academy. It will be on display in the Community Center until the end of the celebration.

Miss Muenster Pageant

Next big event of the festival is the Thursday night Miss Muenster pageant for selection of the bicentennial

queen. It is sponsored by the Muenster Hospital Auxiliary and will present some thirty young ladies and their acts in competition for the coveted title. Dan Hamric is master of ceremonies for the show, which will be held in the MHS auditorium.

Three Dances

The next three events are dances to be held in the Community Center Friday, Saturday and Sunday nights.

The Friday dance, sponsored by the Knights of Columbus, is a contemporary dance with music by Wilbur Matthews, a band featuring the modern tunes. It starts with a happy hour from 7 to 8 and continues until 12. Attire will be casual.

Dance No. 2 is a glorified version of the party sponsored by Sacred Heart Choir for the past several years. It's program is a happy hour from 7 to 8 followed by a one hour concert featuring the Sacred Heart Men's Choir and the Frohsinn Singing Society of Dallas. Their numbers, mostly German, will be presented

separately and jointly, and a few will be sing-alongs in which the audience will be invited to participate. The dance from 9 to 1, with music by the Polka Patriots, will feature waltzes, polkas and schottisches. Attire will be German costumes or casual.

Sunday night's dance will be the Centennial Ball, a dress-up affair sponsored by the Chamber of Commerce. It too starts with a happy hour from 7 to 8, and also offers the special feature of an exhibition by the 49ers Square Dance Club during the hour and a short appearance again at 9. The highly popular Art Taffe band will provide the music. A closing ceremony for both the dance and German Week will be held at midnight.

Foods Galore

An extra something for all three dances is arrangement for food catered by the Ed Schneiders, and available only to persons attending the dances. It will be a cafeteria arrangement with an assortment of meats — and emphasis on sausage, plus a spread of breads, salads and vegetables.

For persons outside, during the day as well as the night, there will be food galore at a number of concessions. There will be a variety of sausages on skewers, plates and buns, also servings of German hot potato salad, kraut, beans, cheese, chips, pretzels, sloppy jos, breads, pastry, etc., accompanied by lots of coffee, beer, wine and soft drinks. An extra accommodation is sausage and cheese to go, available to visitors who wish to take some home.

Thursday and Friday

Activity Thursday and Friday begins with opening of concessions in the big tent and the beer garden at 4 o'clock. Those places will remain open until closing time at midnight. In the meantime a horseshoe tournament will get under way at 4 o'clock, the tricycle tournament at 5 and the softball tournament at 7. The softball tournament is a daily event that has been under way since Monday and is scheduled for final games Saturday.

Thursday 8 p.m. is starting time for the Miss Muenster pageant in MHS auditorium and Friday at 8 is starting time for a KC dance in the Community Center. A happy hour will precede it.

Also on schedule Friday is a concert by the Muenster High School stage band in the tent from 5 to 6. And the entire Hornet Band will play in the tent Saturday from 3 to 4.

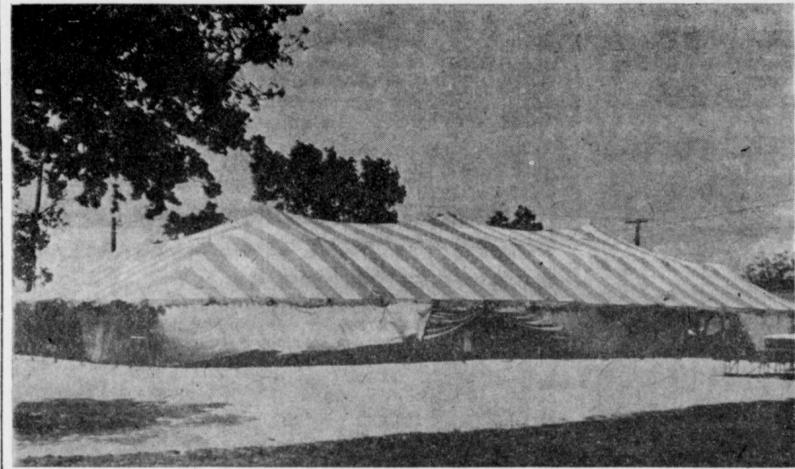

Saturday

Opening time for the big top and concessions will be advanced to 1 p.m. Saturday and Sunday. Likewise other activities will get under way at the same time. On Saturday the softball tournament resumes at 1 o'clock, horseshoes at 2, band concert at 3, and tricycle races at 3 and 5 o'clock. And persons not attracted by those events will find plenty of activity and socializing in the tent and the rest area. Starting at 7 there will be a happy hour in the Community Center preceding the Choir's concert and dance.

Sunday

Again on Sunday activity begins at 1 with the fullest schedule of the four days. There will be a turkey shoot sponsored by Muenster Gun Club for most of the afternoon at the usual site south of town. Starting at 1 o'clock there will be a bicycle rodeo, the last session of tricycle races will get under way at 3, and a tug of war is booked for 4 o'clock. Shortly after that will be the time for presentation of trophies and other awards following the German Fun Run begun at 2 in the city park. Another special feature is the motorcycle rodeo, featuring skill riding rather than speed. It will start at 5.

As in the preceding three days, prime interest is directed to the main event at 7 p.m. This time it's the happy hour and square dance exhibition preceding the gala Bicentennial Ball.

This 60x100 foot tent is headquarters for Muenster's German Week festival, which started Wednesday night and will end Sunday night. In it are the booths for a wide variety of concessions, a registration table and some of the activities. Other activities are located in the nearby parish picnic site, the Community Center, MHS Auditorium and outside. — A. J. Endres Photo

Near 200 Runners Expected to Enter German Fun Run

Sunday's German Fun Run, a race promoted by the Muenster KCs as a feature of German Week, has ballooned far beyond original expectations. Dan Hamric, chairman, said it now appears there will be about 200 runners from more than a dozen Texas cities and Arkansas, Louisiana and Oklahoma. Also there have been inquiries from Missouri and Illinois in response to publicity in a national sports magazine.

The contest is a 10 mile cross country race over paved and gravel roads and some private, roads in the area northwest of town. It begins at 2 in the city park and the finish line will be near the festival's tent, where awards will be made at 4:30.

Those awards will be trophies for first, second and third; and medals for fourth, fifth and sixth in individual divisions. Also medals for first, second and third in mixed doubles and oldest and youngest finishers. And there will be citations for all finishers not receiving trophies or medals.

Divisions are one each for boys and girls in high school or under, an open division for men and one for women and mixed doubles. All entries will receive a Fun Run T-shirt, a gift bag, free refreshments after the race and other gifts and privileges as remembrances of German Week.

Among Texas cities represented by the entries are Waco, San Antonio, College Station, Wichita Falls, Allen, Bedford, Denton and Muenster.

You can tell you're getting old when you want your new calendar to have big numerals instead of pictures of pretty girls.

Randy Williams Gets 2 Ribbons at NTSU Crafts Fair

Randy Williams, senior woodshop student at Muenster High School won a blue and a white ribbon on his woodworking projects entered April 23 in the North Texas Industrial Association Students Crafts Fair held at NTSU, Denton.

The project winning the blue ribbon was a crossbow stock made of laminated strips of walnut and ash.

The white ribbon was won on a set of wooden dominos and box. Both projects were entered in the recreational division, Level I and II.

All the residents of Muenster and the surrounding communities and all rural population and visitors are invited to visit the Muenster Public Library during German Week festivities. Friends of the Library have collected and are displaying pictures of the early settlers of our community as well as pictures of their businesses and homes. Clock, quilts, guns, clothing of generations past, barbed wire collections and many more items are ready for your viewing and reminiscing. Hours that the library will be open for your convenience are 4:00 to 8:00 p.m. on Thursday, April 29, Friday, April 30, and Saturday, May 1, and from 1:00 to 5:00 p.m. on Sunday, May 2.

Janel Stoffels and Kenneth Atkins Exchange Vows in Saturday Nuptial

The wedding of Miss Janel Stoffels and Kenneth Atkins of Decatur was held in Sacred Heart Church on Saturday April 24 at 5 p.m. Father Placidus Eckart officiated for the Nuptial Mass and recitation of vows.

She also had a birth-date penny, a blue garter and a necklace borrowed from her sister, Mrs. Joe H. Dangelmayr.

When the bride approached the altar, she paused to give her mother a long-stemmed tropicana rose, and, on leaving the altar, she gave the groom's mother a similar rose.

Letters to the Editor

Letters to the Editor:

Senator Jesse Helms of North Carolina recently introduced an anti-abortion-pro-life "human life amendment" in the U.S. Senate. The amendment (Senate J. Res. 178) will be brought up on the Senate floor soon. Your letters are sorely needed urging Senators John G. Tower and Lloyd M. Bentsen to support Senate J. Res. 178.

The main thrust of a human life amendment is to insure that all human beings enjoy the protection of the right to life. This can be done by insuring that all human beings are considered "persons" under the protection of the fifth and fourteenth amendments.

Numbers count in Washington. Your letters need not be long, well written or typed. Any letter, even a postcard will help. Time is of the essence. Drop this newspaper and write now before it is too late to:

Senator John G. Tower, 142 Senate Office Bldg., Washington, D. C. 20510

Senator Lloyd M. Bentsen, 240 Senate Office Bldg., Washington, D. C. 20510.

It's time again for the monthly paper drive at Sacred Heart School. Sister Mary John and the students hope Muenster residents have continued to save paper for a number of reasons, as an aid to good ecology and as an aid to the school fund. They also request that people box, tie or sack salvage paper to prevent wind clutter.

Response to the first collection in March was excellent and 11 3/4-ton containers were filled. During the second collection 12 3/4-ton containers were filled. Bermico Company will bring 20 containers for use during the week of May 2-7. The truck will arrive early Saturday morning.

Loyalty Day Proclamation

WHEREAS The progress, tranquility and worthy influence of our city depends in large measure upon the determination of its citizens to create and to maintain vigorously the loyalty practice of true American ideals, and . . .

WHEREAS It behooves us to periodically take stock of our achievements in such matters and to strengthen our stand against any influence, either foreign or domestic, which might threaten to disturb our preferred way of life, and . . .

WHEREAS There is in our nation evidence of some subverting forces endeavoring to undermine and destroy American unity, now . . .

THEREFORE I, David Bright, Mayor of the City of Muenster, do hereby concur with our national and state leaders in praising the concept of LOYALTY DAY, celebrated on the first day of May; and in further support of that special occasion I do urge every citizen, school, church, organization, business establishment and home within my official jurisdiction to display the flag of our country proudly and to participate in public demonstrations and ceremonies sponsored by the Veterans of Foreign Wars of the United States, and others, on LOYALTY DAY, May the first, nineteen hundred and seventy-six.

(Signed) David Bright, Mayor

Small Hospital Survival Threatened by Regulation

The Administrator, D. M. Bright, of Muenster Memorial Hospital this date, received from the Hubbard Lake Hospital Group, Inc. and Northwest Texas Health Advisory Group a news release which brings out the fact that the Muenster Memorial Hospital could be faced with very serious cutbacks in service even to the point of not being able to stay open due to the passage of PL-93-641, otherwise known as The Federal Health Planning and Resource Development Act of 1974.

The release read: as follows: Title: "Do You Know Public Law 93-641?"

The Federal Health Planning and Resource Development Act of 1974, Public Law, 93-641 is a fact!

The provisions in the law for establishing "primary care" (meaning simple care only) hospitals will mean the end of rural hospitals as you know them. You, the patient, are going to lose your right to choose your hospital and doctor.

(1) The law proposes an experimental plan creating a two-level system of medical care. The people in rural areas, in order to receive advanced or more sophisticated care, would have to go to the cities as the rural areas would only have "primary care" hospitals.

(2) The law specifically singles out centers for such things as obstetrics (delivery of babies), pediatrics, coronary care, intensive care, etc. The development of these centers for these specialized areas will deprive the rural population of good medical care at the local level.

(3) There are no medical studies showing that this two-level system of medical care will result in better care for people. Russia, according to a recent medical journal, does have a similar system that is not working for people in rural areas.

(4) The proposed law, when it becomes fully operational, will make it very inconvenient for the people of rural areas that wish to go with sick members of their families to a medical center many miles from their home town. This will result in a loss of income to families who have family members who are critically ill.

(5) The people will lose their freedom of choice of hospital and physician.

(6) Our nursing homes in rural areas will be unable to function properly without the nearby medical support of both physician and hospital.

(7) The proposed moving of patients to centers in the large cities will reduce the income of rural hospitals. Even a 10% reduction in income will force the rural hospital to lay off many people. This reduction in trained personnel will cause the hospital to discontinue many of the advanced services it now offers.

(8) Good doctors will not stay in an area of "primary care". They will move to where the centers are located in the cities, and the young doctors will not be attracted to the "first aid care only" atmosphere of a rural hospital practice.

(9) The proposed system will not save money, which is supposed to be the purpose of the law. According to the Federal Register the average routine cost for the rural hospital in Texas is \$68.00 per day compared to a large hospital in Texas which has an average routine cost of \$83.00

TEXAS has always had a powerful voice at the Democratic National Convention. It will be heard . . . loud and clear . . . again this year, if we send delegates pledged to LLOYD M. BENTSEN.

- X MIKE COLLINS, delegate for LLOYD M. BENTSON.
- X BARBARA NUNNELEY, delegate for LLOYD M. BENTSEN.
- X RICHARD LEE BAKER, delegate for LLOYD M. BENTSEN.

All three are conservatives

Elect these outstanding delegates for Bentson on May 1 . . . to be sure YOUR thinking is there for the show-down in July.

Vote the Texas ticket!

The Bentson delegates — THE TEXAS TICKET — will carry our state's banner more effectively and more forthrightly than the delegates of anyone else.

To the Citizens of Cooke County:

In January of 1976, I placed my name on the Democratic ballot for re-election. Since that time I have made a determined effort to see each of you personally. However, because of my duties as your present Sheriff, I have missed visiting with many of you.

For those of you whom I have missed, and you with whom I have visited, I want to take this opportunity to earnestly solicit your vote.

I will in the future, as I have in the past 12 years, serve you to the very best of my ability.

SENATOR TOM CREIGHTON

A conscientious conservative who speaks and votes the voice of his district.

I am opposed to any new taxes.

I have worked to retain the "pay as you go" concept in State Government. If Texas is to avoid the problems of Eastern states and cities, we must continue to maintain a balanced budget without new taxes—that means only one thing—a tight rein on state spending of your tax dollars. As a member of the Legislative Budget Board, I will carefully watch the requests of state agencies for appropriations, and cut back spending wherever possible.

I am opposed to more and bigger state government.

I was a leading opponent of the proposed new Texas Constitution, which the voters of District 22 overwhelmingly rejected last November. The proposed Constitution would have given unchecked power to the legislature and to state agencies. This would undoubtedly have resulted in additional taxes. I will continue to fight proposed changes in state government that remove government from the people.

I support the Texas Right to Work Law.

I simply don't think that state government should force a person to join a union to have a job. To me, this is one of the basic rights of all workers, and I will continue to fight efforts by union leaders to repeal the Right to Work Law. As chairman of the Senate Economic Development Committee, I know that the Right to Work Law is one reason Texas has the nation's best business climate.

I support the Texas Utilities Commission.

The consumers in district 22 have been hit by staggering increases in the cost of energy. The new Utilities Commission will work to maintain rates at a reasonable level.

Reducing plan for energy users

Plan C How to save electricity when using ranges

- When using top-of-range utensils, cover tightly and cook with minimum of water. Cooking's faster; less energy's used. Food looks and tastes better, too.
- Use flat-bottomed utensils for best contact with heating surface. Use proper size utensils. A 6" pan on an 8" heating surface wastes energy.
- Preheat oven only when needed and only to temperature stated. Normal preheat is 10 minutes; any longer wastes energy.
- When broiling, do not preheat. Leave door ajar... air circulation insures proper broiling.
- Use oven fully. Fill it with foods that cook at same temperature. Freeze extras for later use.
- Center pans in from oven sides, staggered above each other (no overlap) for best heat distribution.
- Keep oven shut. Opening door drops temperature 25° or more; wastes energy.
- Thaw frozen meats before cooking.
- Do not use oven or surface heating elements for home heating.
- Turn range off immediately when finished.

Conserve electricity and you help conserve one or more of the fuels needed to produce it: natural gas, coal and oil. Conserve fuels and you help assure that there will be enough to meet essential needs for electricity in the future.

When you pass a TP&L office, warehouse, generating plant or other facility, you'll see that we've turned off all non-essential lighting. And, in as many other ways as possible, TP&L is reducing its own uses of electricity.

If you would like additional information on conserving electricity, call or see the Customer Service Representative in the TP&L Office.

Events of First Holy Week Portrayed at Paschal Meal

An impressive and ceremonial Paschal Meal was a part of Holy Week services in Münster attended by more than 325 parishioners and guests. Held in the Community Center following Holy Thursday services in Sacred Heart Church, the event was a solemn program of Scripture Readings and songs during the serving of the wine and the meal. Brother Thomas Mosler gave all of these readings.

planned by Brother Thomas and Sister Lenore, who was projectant during the program.

Lamps and votive lights were dimmed. Mr. and Mrs. Johnny Fisher extinguished a pyramid arrangement of candles as the dramatic narrative readings led to the death of

Christ. In a period of total darkness, Dr. Martin Kralicke sang "Were You There?" Frnie Martin provided the roll of thunder with his drums.

As the theme changed to the story of the Resurrection candles were re-lighted, lamps turned up and after the Resurrection Reading the choir sang "Alleluia." "The Light of Christ" "He's Standing at the Door," a duet by Charles Bayer and Tony Luke with choir background and "Easter Song".

The Liturgical Commission of Sacred Heart Parish was in charge of all plans and arrangements. Members of the commission are Mrs. Al Schmitt chairman, Mrs. Virginia Henscheid, Mrs. Leon Klement, Mrs. Ray Hess and Mrs. Bill Koerschner.

The Liturgical Commission was in charge of the complete program. Members of the CCD Commission and their spouses seated guests as they arrived. All other members of parish commissions and their spouses, and the Benedictine Sisters and the extraordinary Ministers of the Holy Eucharist and their spouses were invited to help serve the meal.

The meal was served and eaten in an atmosphere of lamp and candle-light. Tables were beautifully decorated with antique kerosene lamps and small votive candles of various colors. Sprays of ivy were entwined the length of the tables on which gold colored cloths and green napkins were used.

Father Placidus Eckart blessed the bread and wine before it was served, and was Master of Ceremonies.

Rohmer's catered the meal of roast lamb, baked potatoes, green beans and salad. Home-made bread was placed on each table. Many ladies of the parish baked the bread and also the decorated lamb cakes which were first used as table centerpieces, then sliced and served for dessert.

The 25 member Parish Choral Group sang for the programs, before, during and following the meal. Hymns were "Fill My House", "God and Man at Table Are Sat Down", "I Am the Bread of Life", "Abba Father", "Remain in Me", "I Heard the Lord Call My Name", "For You Are My God", and "Lord, Let Me Walk."

Mrs. Bill Koerschner directed the choir and Mrs. Dave Bayer was organist. The organ was furnished by Mr. and Mrs. Felix Yosten. Laura Kralicke, Lynda Klement and Carla Yosten provided guitar accompaniment.

There were twelve Readings in the program following the meal and these were given by Mr. and Mrs. Dan Hamric, Charles Bartush, Mrs. Bill Koerschner, Mr. and Mrs. Leon Klement, Father Stephen Eckart and Father James Mosler.

Slides applying to the Readings were then projected on the screen in a sequence

YOU CAN BANK ON IT!

The financial crisis of New York last year drew world wide attention in financial circles. The possibility of any metropolis collapsing into bankruptcy, however, has serious implications for every municipality in the country.

Most cities raise money for capital improvements, such as streets, sewer systems and water systems by selling bonds. These can be either general revenue bonds, paid off by general taxes, or revenue bonds, which are paid off by the users — a water bill is a good example, since the revenue is used in part to pay off water bonds.

Banks are probably the largest single buyer of municipal bonds throughout the country. But, before banks, or any others buy bonds they must have confidence that the bonds will be paid off at the proper time and at the stated rate of interest.

While the city of New York may have brought on its financial crisis through profligate programs and spending — plus some highly questionable book-keeping practices — its demise would throw all municipal bond users under a cloud. Ultimately, it could mean higher city taxes, because municipal bond money would be more expensive.
