

Now that the CIA has been humiliated and over-publicized and jeopardized by the Congress and the media, it seems like high time to start picking up the pieces, restoring public confidence in it, and putting it back on the job of doing the work that's so very vital to the security of our country.

Ray S. Cline, former deputy director of the agency, says he likes to think that CIA can get back on the track. "The first thing we've got to do is to propose the specific remedies for whatever is now felt, after these exhausting reviews, to have been mistakes or errors on the part of CIA and other agencies. If Congress or the President will simply issue clear instructions, I have every reason to believe that the CIA will do its job well."

That statement makes sense. Of course everybody has to admit that the agency has been out of line on a number of occasions in recent years. Coping with international intrigue, the agents encountered many situations when they felt justified in fighting fire with fire. Agents of other countries, particularly the reds, did not hesitate to do what best served their country's purpose and the CIA did what it could in the interest of our country.

The existence of this condition points up the fact that the intelligence services are urgently needed by our country and everything possible ought to be done to make them effective. And common sense tells us that it can't operate properly when Congress and the media keep sniping at it, when exposure of names and missions can put lives in jeopardy and tip off an enemy. Nowadays, while the KGB gets bigger in this country and all over the world it is more important than ever to give our intelligence our very best cooperation so that they can do the best possible job for us.

Needless to say, this requires secrecy. Regardless of that old line to the effect that America has a right to know, the more important fact is that other nations and their intelligence do not have the right to know. When Congress pries into secrets and when the media blows up an indiscretion, the news becomes available to 200 million people who are mostly unconcerned. Actually only a few million people really become aware of what's happening and they can't do a thing to change it. But the news is vitally important to our enemies who wring every possible bit of information from every statement that supposedly is published for our benefit. Without casting reflection on these people who pry into CIA, we have to wonder whether they do more for us or the enemy.

With this thought in mind, it seems that the proper policy would require an arrangement which does not expose personnel or operations of the intelligence services. While we forego reports so that the enemy will not have them, we have to trust that the one person or the few in command of the agency are tops in judgment and dedication.

**American Security Council** is one organization that deplores the damage being done by investigations and attacks on the intelligence services. It points out that if present world trends continue the Soviet Union can precipitate a major confrontation with the US in four or five years. Kremlin strategists believe that Soviet nuclear and conventional military supremacy will be of such a magnitude that the Soviets can "put an atomic gun to our heads" and force us to back down or risk nuclear destruction. When we have this kind of enemy to deal with, obviously it is to our interest to have our intelligence services operating with the fewest possible handicaps. We need positive reports alerting us to the dangers in time to do something about them.

In relation to the domestic assault on the FBI and CIA, an intelligence source is quoted as saying that destruction or neutralization of US intelligence operations has long been an objective of Soviet intelligence and is a necessary step to hide Soviet preparations for a confrontation. While US intelligence is being

## March 1 Is Income Tax Deadline for Many Farmers

Certain North Texas farmers have until Monday, March 1, to file their federal income tax return and pay any tax due, according to a Dallas official of the Internal Revenue Service (IRS).

A. W. McCanness, IRS district director for North Texas, said today that farmers who did not file a declaration of estimated federal income tax by January 15 should file their 1975 tax return and pay all tax due by March 1 to avoid a possible penalty.

Farmers, for federal income tax purposes, are defined as those persons who earned at least two-thirds of their 1975 gross income from farming.

## Society Receives Thanks for Large Mission Shipment

Members of St. Ann's Society have received a letter of appreciation from Father Gregory of the Sacred Heart Southern Mission in Walls, Mississippi. In it he responded to the shipment by the local group, of 26 cartons of clothing, shoes, soap, coupons, etc., which were given for use by the very impoverished residents of the mission area.

He gave credit to St. Ann's Society for paying the shipping charges and also mentioned that the cleanliness of the clothing was especially appreciated.

A quote from Father Gregory's letter stated "Your practical assistance for these underprivileged families here alleviates some of their immediate needs and gives our missionaries the opportunity to spend more time trying to remove the causes of poverty and neglect. Your gifts bring encouragement to the poor and foster respectability while inspiring hope for the future."

## Soil Conservation District Enjoys Outstanding Year

"1975 has been one of our better years in so far as overall accomplishments is concerned," stated J. H. Bayer, Chairman of the Board of Directors of the Upper Elm-Red SWCD. "With the help of local leaders, banks, newspapers, colleges, state and federal agencies, radio and TV stations, schools, landowners, farm operators, and thousands of others we have put together another very fine record," Bayer said.

Highlighting the many accomplishments in 1975 was the completion of three new flood-water structures. This brings our total to 166 with four under construction now and several more expected to be built this year. The directors attended many out of district meetings this year including state, regional and national conferences and with members of the legislature both at Austin and in Washington.

The 26th Annual Awards Program and Banquet was held in Nocona. The 26th Annual Grass Judging Contest was held in October and the 19th Annual Land Judging Contest was held in late March. The 15th Annual Essay Contest was held in January with some very good essays written on the subject of "Conservation, Key to the Future."

Bayer said, "We are pleased with the accomplishments in the various conservation practices established on the land which include 19,600 acres of pasture planting, 193 new farm and ranch ponds, 48 acres of grassed waterways, 4300 acres of brush management, 1060 acres of critical area shaping and planting, 76,000 acres of pasture and range management, 22 grade stabilization structures and 14 miles of parallel terraces."

Many farms were sold during the year and many of the new owners requested assistance in the development of new conservation plans. As a result of change of ownership 193 new conservation plans were prepared in 1975. Another 142 landowners with old conservation plans received technical assistance in updating their plans.

"We are now in the process of distributing over 500 copies of our annual progress report. This was the 34th Annual Report and seeks to show in a small way what is going on in the three-county district," Bayer stated.

The Fred Story Revue will be on display February 25 at the Muenster High auditorium. At 1 p.m. matinee and an 8 p.m. evening show, Fred Story will conduct an adventure into the impossible. Highlights of the performance will include "Where does the Duck Go?", "Fantasy in Flowers", the famous "Houdini Trunk" and the mystery of the "Oaken Bucket".

The Story Revue lasts a full evening and during the performance the days of Keller, Thurston, Blackstone and Houdini will return for a brief time. Disbelieving skeptics will be invited on stage to assist in the performance of the famous Houdini Trunk.

A boy from the audience will be beheaded on stage during the evening performance. Seeing the cold steel of the guillotine blade and feeling its sharp edge will convince even the most reluctant observer that there is Magic in the air.

The veteran performer of television and stage will bring his talent and mysteries to Muenster on the twenty-fifth to thrill young and old alike. Billed as a family entertainment, Fred Story and Company promises to baffle the imagination, tickle the funny bone and fill the evening with Fantasy.

Tickets for the performance are available from members of the Chamber of Commerce.

## Tigers End Season With Surprise Win at Forestburg

Coach Stalik's Sacred Heart Tigers closed out their basketball season in glory Tuesday night with an exciting, 80-69 win over Forestburg. The achievement was especially satisfying in that it was the Tigers' first victory over the Longhorns in two years . . . and it happened at Forestburg.

Coach Stalik was elated. He said that the Tigers were at their season's best in this game as well as in the win over Lindsay last Friday. It was a gratifying ending of a tough season including the bottom spot in TCIL standing.

The Tigers started Tuesday's game with a first quarter deficit of 21-13, then got hot and stormed through the second to a half time lead of 36-28. Their lead was trimmed to 52-46 in the third, then the Tigers put on another spurge and ended at 80-69.

Roger Endres led the scoring with 36 big points. Joe Hoedebeck added 21, Glenn Walterscheid 11, Mark Hess 10, Bob Hartman 2.

Junior varsity Tigers did not do as well, ending at the short end of a 41-38 score. After a slow start they trailed 10-3 at the quarter, then played almost even for two periods ending at 20-15 and 32-23. They got hot in the fourth and cut the lead by 8, but that was not enough. They were still down by 3.

Top scorer was Ken Felderhoff with 24. Brent Hess added 8, Fred Koehler 4 and Dan Walterscheid 2.

## C of C Heads into Crowded Schedule

A magic show, the annual membership drive and election of directors, the annual banquet, and the coming German Week festival combined to make up a full agenda at the Chamber of Commerce luncheon meeting Tuesday.

The Magic Show, booked for matinee and evening on February 25, is a fund raising event to help defray anticipated expenses for the four day German Week celebration.

Hopefully another substantial source of funds is the membership drive with dues of \$25.00 for a business firm and \$12.50 for an individual. Customary inducement to get out the dues is giving two banquet tickets for a business membership and one for individual membership. Tickets will be available also to non members at \$3.00 each. Banquet date is March 11. Name of the speaker had not been confirmed Tuesday.

An added feature of the banquet: new residents of recent months will be "new-comer" guests.

Discussion of German Day indicated that plans are well advanced for a crowded calendar as well as a good variety of concessions. Also arrangements include appropriate decorations and costumes for the festival, streamers for downtown, brochures, and German Week pins to be worn for weeks before.

Featured events are historical pageants, by Muenster PTO Wednesday night and the Hospital Auxiliary Thursday night; a dance in the Community Center Friday; the Choir's concert and song-fest and polka dance in the Community Center Saturday night, and a Cherry Rhone dance in the KC hall at the same time; and the Bicentennial Ball in the Community Center Sunday night.

The concessions will have beer and foods, especially sausage, plus games, souvenirs fancy work, a display of old pictures and artifacts etc. And with the concessions there will be a stage for whatever entertainment can be arranged. Two of the attractions will be concerts of the MHS band on Thursday and Friday. And a strong probable is square dancing. Also in the planning are a Marathon race, horseshoes, and a motorcycle rodeo.

The election of directors will select two persons for vacancies created by expiring terms of Herb Miller and Al Hess. Nominées are Albert Lippe, John Fisher Jr., Janie Monday, Miriam Caplinger, Roger Taylor and W. J. Miller.

Letters concerning the banquet, election and membership drive, along with a ballot, have been sent to all members by Secretary Bill Bedrick, who reminds that the deadline to send in votes is March 1 . . . so that results can be told at the banquet. Bedrick also suggests sending dues payments along with the ballots.

## Micro-Wave Oven Demonstrated at Garden Club Meet

Mrs. Tulu Hickerson, Home Service Advisor for Cooke County Electric Co-op presented a program on drying flowers in a Micro-Wave oven for Muenster Garden Club Monday. She also spoke on other uses of the oven and stressed its time saving and fuel saving advantages. Mrs. Hickerson displayed several arrangements using dried flowers and placed them on the refreshment table. Of unusual interest was a large white orchid, dried and displayed in a covered brandy snifter. Several flowers, brought by members were dried during the demonstration. One advantage of this method of drying and preserving flowers is their pleasing color retention.

Sylvia Hofbauer conducted the business meeting. Reports told about the Flower Show set for June 12 in the KC Hall. Mrs. Roger Taylor will be chairman and the show will be themed: "Happy Birthday, America."

Three events conducted in observance of Arbor Day were listed. Trees were planted at both schools with students participating and at the City Park, with Bluebirds participating. Mrs. Richard Pagel was general chairman.

A general clean-up week is planned before German Week.

The meeting was held in the Cooke County Electric Co-op Building. Hostesses Mrs. Joe Fisher and Mrs. John Fisher served a dessert plate with coffee to 16. Mrs. King Koch was welcomed as a new member. Guests were Mrs. Andy Hofbauer, Mrs. Johnny Fisher and Mrs. Herbert Fette.

Next month's meeting will be themed: "Beauty from a Tiny Seed". Mrs. B. J. Swirczynski will speak on "Basic Gardening Information". Members will exchange surplus flowers and vegetable seeds. Mrs. John Mosman and Mrs. H. H. Houtchens will be co-hostesses.

**Domino Tournament**  
There will be a domino tournament sponsored by the Hood Community Club on Friday, February 20, at 7 p.m. in the club building. Refreshments will be available.

**County Students on  
 A&M Scholarship  
 Have Good Record**

All of the six students who  
 have received scholarships  
 from the Cooke County A&M  
 Club have outstanding records  
 at Aggieland for the fall se-  
 mester, according to Kit Car-  
 son, club reporter.  
 Four of the six earned the  
 Distinguished Student rating  
 on grade point averages of 3.25  
 or more out of a possible 4  
 points, one barely missed the  
 rating and one has an excep-  
 tional record in the Corps of  
 Cadets and extra curricular  
 activity.

Jerry Baugh, senior of  
 Gainesville, has a grade aver-  
 age of 3.6; Mitchel Greer,  
 freshman of Gainesville has  
 a grade of 3.3; Joe Hundt, soph-  
 omore of Lindsay has a grade  
 of 3.4, Lyle Klement, sopho-  
 more of Muenster has a grade  
 of 3.4; Cynthia Felderhoff of  
 Lindsay has a grade of 3.2.

 ster is a battalion commander

**MHS Teams and  
 Holliday Divide  
 Pair of Contests**

In a pair of fine perform-  
 ances on the local court last  
 Friday night the MHS basket-  
 ball teams divided honors  
 with the two Holliday teams.  
 First on the program the Hor-  
 nettes dominated the action  
 for three quarters by a ratio  
 of almost 2 to 1 and coasted to  
 an 83-57 triumph with re-  
 serves on the job.

The Hornets had their hands  
 full with the big Eagles but,  
 thanks to a great effort, man-  
 aged to hang on to a slim lead  
 until late in the fourth and  
 eventually lost 69-65.

The boys ended the first  
 quarter in a 14-14 tie and  
 Muenster pulled ahead in the  
 second for a 38-31 lead at in-  
 termission. Again in the third  
 the Hornets were gaining un-  
 til late in the period the vis-  
 itors got 6 in just a few sec-  
 onds. There was a field goal  
 followed by a foul goal and  
 a technical goal, then Hollid-  
 ay's throw in following the  
 technical and another quick  
 goal. So scoring was even for  
 the period and Muenster led  
 by 7 . . . 58-51.

The 6 point surge seemed  
 to spark the Eagles while it  
 spooked the Hornets. Holliday  
 closed the gap, mostly on foul  
 shots, and took the lead less  
 than 3 minutes from the end.  
 In the last minute Muenster  
 cut the lead to 67-65 and  
 fouled shortly after trying to  
 break the Eagle freeze. So  
 Holliday added two more  
 while the clock showed just a  
 second remaining.

Dan Endres led MHS with  
 22 points. Tim Wolf got 18,  
 Mike Davidson 15, Bob Endres  
 6, and Kirk Johnson 4.  
 Muenster girls piled up a  
 26-6 first quarter lead and  
 lost just a few points of mar-  
 gin in the second, and the  
 count at intermission was 39-  
 22. In the next period Muen-  
 ster gals poured 'em in again  
 ending with a lead of 66-34.  
 Finally Holliday gained on  
 MHS reserves and the Hor-  
 nettes still led by 83-57.

Deb Schneider scorched the  
 net with 42, Tracey Klement  
 made 24, Becky Fields 8, Ro-  
 bin Walterscheid 4, Sandy  
 Schneider, Marla Sicking and  
 Kathy Davidson each added 1.  
 On defense Gina Felderhoff,  
 Kim Klement, Kathy Fisher,  
 Thelma Lewis, Kelly Hale,  
 Brenda Walterscheid, Kathy  
 Davidson and Debbie Zim-  
 merer.

 vision was Too Old, who lost  
 to H&W in the champ final,  
 and consolation winner of the  
 men's division was the No  
 Goods.

The Ranch took the runner  
 up trophy of the women's di-  
 vision after losing to the  
 Blue Blazers for the champ  
 trophy. Women's consolation  
 winner was Dynamic.

**IT HAPPENED  
35 YEARS AGO**

Feb. 7, 1941  
Local refinery resumes operation after close-down of several months. Herman Trachta former resident here, dies in Minnesota. Cooke County cotton report shows nearly 15,000 bales ginned. **Right Living Adds  
Years to Life**

Physical fitness buffs have long maintained that their regimen not only made them feel better — it actually was adding years to their lifespan. A California study has now given a strong scientific boost to those claims.

"Men can add 11 years to their lives and women seven years by following seven simple rules of clean living," found the study, as reported in the January newsletter of the President's Council on Physical Fitness and Sports. The study was conducted by the California Health Department's Human Population Library.

- The seven rules:
1. Get the right amount of sleep — seven hours a night for women, eight for men.
  2. Eat a good breakfast each day.
  3. Eat three meals a day at regular times and avoid snacks.
  4. Exercise regularly, preferably by participating in sports.
  5. Control your weight.
  6. Drink moderately — no more than one or two drinks daily.
  7. Don't smoke cigarettes.

"A man of 45 who observes six or all of the rules can expect to live, on the average, to age 78," says Dr. Nedra Belloc, one of the authors of the study's report. "The man who observes three or fewer rules will be fortunate to reach 67," she adds.

The Dean of the School of Public Health at UCLA says this about the study's findings: "The daily habits of people have a great deal more to do with what makes them sick and when they die than do all the influences of medicine. A man at age 55 who follows all seven good health habits has the same physical health status as a person 25 to 30 years younger who follows less than two."

Ponce de Leon and others sought but failed to find the legendary Fountain of Youth. Following these seven rules of health, individual citizens have the opportunity to succeed where Ponce de Leon failed.

**Pearl Recycles  
Over 800,000  
Aluminum Cans**

The Cooke County Distributing Company has recycled more than 822,595 empty all-aluminum beverage cans as part of the record high 100 million used cans collected so far this year through Pearl Brewing Company's statewide recycling network, according to Urban J. Endres of the Pearl Beer distributorship here.

The 100 million cans already exceed the 81.8 million cans collected in all of 1974. More than 208.4 million cans — or approximately one all-aluminum beverage can for every man, woman and child in the nation — have been collected from the Texas environment since Pearl's recycling network was established in March, 1973.

Distributors pay 15 cents per pound for the all-aluminum cans of any brand. It takes approximately 23 of the empty, 12-ounce all-aluminum cans to make a pound. Cans collected by the distributors each week are processed at Pearl's recycling center.

Earlier this year, Pearl dedicated an Aluminum Can Manufacturing Center, located adjacent to the brewery, and now manufactures the majority of the aluminum cans used to package Pearl, Pearl Light, Texas Pride, Jax, Royal Crown Cola, Nehi beverages and Lipton tea. The can manufacturing center is the third facet in Pearl's environmental program, which also includes the statewide collection center network and the recycling center in San Antonio.

**Profit, How  
Much Is Enough**

There's an old saying that there are three kinds of lies: a) hot lies, b) cold lies; and c) Statistics — with category "c" being the worst of all. A great deal of truth can be seen in this when it comes to many of the current attacks being made by leftist extremists against what they call "excessive, disgraceful, unfair," etc., profits enjoyed by the U.S. petroleum industry.

The facts are that the genuine profit — i.e., actual return to the stockholder-owners of the oil companies — is not as "excessive" as the lefties would have you believe. In truth, those profits are pretty slim.

This was pointed out recently in a message released by the Mobil Oil Corporation. During the first nine months of 1975, Mobil earned an estimated \$613 million. That looks like a lot of money, and indeed it is. But, that \$613 million is what Mobil earned on average assets of \$14.5 billion. Hence the actual earnings is only 5.6 cents on each dollar of assets.

Frankly, the oil folks say, that is NOT enough money — and we agree — to replace the gasoline, heating oil, and other petroleum products used so lavishly by American consumers. And it isn't enough to replace all of those cracking plants and extensive facilities that are being worn out. It doesn't leave enough to provide new jobs for a growing work force. And it certainly doesn't provide enough to pay for all the new, additional "environmental" costs to purify the air and water.

On gasoline alone, the world-wide profit for each gallon of petroleum sold was 1.5 cents . . . down from 1.6 cents per gallon in 1973. Compare that to the four cents per gallon you are paying for Federal taxes, plus the five to ten cents per gallon in State gasoline taxes, every time you pull up at the gas pump.

So, the next time someone tries to tell you that "swollen oil profits are too high," you suggest that he check out his figures. And, if he thinks that oil profits are all that great, ask him how much money has he invested in oil stocks?

**Plastics, Tires  
To Be Recycled**

As environmental pressures mount, efforts to recycle chemicals from scrap tires and plastic wastes gain impetus.

In Germany, the government and plastics industry are building a pilot plant to recover methane, ethylene, styrene, benzene and waxes from used plastic.

In the U.S., Goodyear and the Oil Shale Corp. will use a similar technique to process 15 tons per day of discarded tires by early 1976. If this test program succeeds, it could lead to 15 plants recycling the 165 million tires worn out yearly in the U.S.

Did you ever think that arguing with some people is like trying to read a newspaper in a high wind?

## SH Class Visits At State Hospital

The Health Class of Sacred Heart High School and the instructor, Coach Tom Stalik spent part of Wednesday, January 28, on a field trip to Wichita Falls State Hospital. Purpose of the visit was to culminate the unit of study on Mental Health and Mental Diseases.

## SH Teams Blanked In Four Weekend TCIL Encounters

Sacred Heart basketball teams lost all in their four TCIL games during the weekend with Alamo of Amarillo and Christ the King of Lubbock.

The Tigerettes gave the Alamo gals a run for their money ending with a slim deficit of only 40-37. For three periods they were lagging by rather one sided scores of 14-6, 25-15 and 33-23 then caught fire and almost closed the gap. It was one of their better games of the season, says Coach Stock. Point makers were Gloria Hess 19, Sharlene Pagel 10, Cindy Bartush 6, Marlene Pagel 2.

The boys game was a run away with the visitors accelerating for three periods by counts of 21-8, 35-16 and 49-21. In the last period Alamo reserves were put in and the Tigers trimmed the margin by 11 points. Final score was 58-41. Roger Endres led SH scoring with 19. Glenn Walterscheid hit 11, Mark Hess and Joe Hoedebeck 6 each.

In Saturdays opener Christ the King girls gained through three quarters by scores of 8-5, 20-12 and 30-18. Then the teams broke even in the fourth and SH was at the short end of 40-28. Tigerette scorers were Sharlene Pagel 13, Cindy Bartush 8, Gloria Hess 4, Beverly Pels 2, Marlene Pagel 1.

Sacred Heart boys gave a good chase through two quarters for scores of 13-10 and 36-28. The Lubbock guys gained to 61-40 in the third and an almost even last period set the score at 82-60. Glenn Walterscheid led Tigers scoring with 18, Roger Endres made 14, Joe Hoedebeck 10, Mark Hess 9, Bob Hartman 4, John Henscheid 2, Darrell Walterscheid 2 and Kenny Felderhoff 1.

## MHS Clobbered in 2 at Archer City

The favorites of the 13-A basketball race took Muenster teams in their stride last Friday night. Both Archer City teams maintained their perfect records with decisive wins over the Hornets and Hornets.

The champion girls piled up the points for leads of 22-8, 47-22 and 71-30 in three periods and then coasted to an 85-46 win. Deb Schneider was MHS leader with 32, Tracey Klement made 6 and Becky Fields 4. On guard were Gina Felderhoff, Kim Klement, Kathy Fisher and Thelma Lewis.

Next game was more of the same. Starting with a moderate 14-8 first quarter lead, the Wildcats stormed to 43-15 at the half. After that they played it about even for counts of 61-36 and 78-50.

Hornet scorers were Dan Endres 15, Tim Wolf 12, Bob Endres 10, Kirk Johnson 6, Mike Davidson 3, Nick Walterscheid 2, Craig Richey 2.

## Walterscheids at Vermeer Meeting

Mr. and Mrs. Jerry Walterscheid joined Vermeer dealers of this area of Texas on a flight from D-FW Wednesday morning to attend a meeting of Vermeer Manufacturing Company in Pella, Iowa. They represented W.P.W. of Muenster.

While the men were in meetings, the ladies were given a tour of the city of Pella and the historical museum which had been the boyhood home of Wyatt Earp and also other spots of local interest.

Before departing for home the next day they all toured one of the four plants where the balers and other equipment are manufactured.

While their parents were away, the three Walterscheid sons stayed with their grandparents, Mr. and Mrs. John Kupper.

## Public School Happenings

### First Grade

A science project in the first grade is the source of great interest among the pupils of Mrs. Gwen Trubebach. It is "A Study of Living Things and their Needs." Starting and caring for the various projects made the class aware of the needs of living things. A shelf in the classroom has been reserved for exhibits tended by the children.

Judy Biffle's purple crocus is in full bloom. Glen Reiter's ivy has added several new leaves. Billy Hall's aquarium containing gold fish and snails is doing well. The class is also having success with a woodland terrarium. The children have especially enjoyed seeing rain drops form along the inside walls of the terrarium.

Four students, Melanie Richey, Judy Biffle, Eileen Knabe and Tracey Walterscheid have earned "bookworms" this six weeks. "Bookworms" are earned when a child has read over 25 books outside of regular classroom work.

### Kindergarten

Donna Walterscheid was honored by her mother, Mrs. Hank Walterscheid for her birthday last week when she brought cup cakes and punch for all the kindergarten pupils. Special treats were boxes of valentine candies and balloons which Donna shared with her classmates.

Other books ready for reading are "The Children who Lived in a Barn", "Danny and His Thumb", "Growing Time", "Ira Sleeps Over", "The Tenth Good Thing About Barney" (Barney was a cat and died), "Johnny Cake", and "It's Only Arnold". "Mustang" and "Davy Crockett" are two which have been made into Walt Disney movies. "The Land of Green Ginger" tells the story of Aladdin's son whose only fault was that he was far too nice. Also of interest are "The Little Witch's Black Magic Cookbook", "Magic Book", "Photography: A Manual for Shutterbugs", and "The Ghosts".

**Creighton Asks for Re-election**

Mineral Wells -- State Senator Tom Creighton today formally announced for re-election in the 17-county 22nd Senatorial District declaring opposition to increased taxes in the 65th Legislature to convene in January, 1977.

"The impact of inflation on the taxpayers dictates that our state government hold spending within available tax revenues," Creighton said. "This can be accomplished barring a fiscal catastrophe," the senator stressed, noting that official forecasts are that the state will start the next session with a \$428.2 million surplus.

"At next year's legislative session, there will be a real premium upon experience and calm, unhurried judgment," said Creighton who was first elected to the Senate in 1960 and is now fourth ranking member of the 31-member body. "A careful and deliber-

ate appraisal of all state programs will be essential", he said. "That I will do."

The 22nd District Senator is chairman of the Senate Economic Development Committee and is vice chairman of the Senate Finance Committee with chief responsibility to prepare the Senate's proposed state budget. He also is a member of the Senate Natural Resources Committee and the Legislative Budget Board which, between sessions, reviews budget requests from all state agencies.

"The high mark of the last legislative year", Creighton said, "was the people's defeat of State Constitutional revision" which he opposed as too much of an overhaul at one time of the people's basic charter. Creighton also fought for a more equitable public school financing system, successfully supporting a lower rate of ad valorem taxes to be paid by area taxpayers than proposed in the original bill. "Trimming down the rate saved area taxpayers millions of dollars, although the local share was left too high", he said.

Creighton also is a strong supporter for agriculture and rural Texas.

During his first twelve years in the Senate, Creighton has been chairman of the important Water and Conservation Committee, Privileges and Elections Committee and, for the past four sessions, he has served on the Appropriations subcommittee and the Senate-House Conference Committee on Appropriations.

Creighton and his wife, the former Sue Sparks, reside in Mineral Wells where he is a practicing attorney. Their three sons, Will, Kenny and Mark, are all in college at this time.

The 22nd Senatorial District is composed of Bosque, Comanche, Cooke, Denton, Eastland, Erath, Hill, Hood, Jack, Johnson, Montague, Palo Pinto, Parker, Somervell, Stephens, Wise and Young Counties.

In making this announcement, the veteran Senator said, "I believe that my reelection will prove to be of the utmost benefit to our District because of my past experience, seniority and knowledge of the needs of our District."

**FHA Chapter Will Conduct a Day of Child Care Center**

As a community service, the Future Homemakers of America of Muenster High School will offer a child-care center on Friday, with the day divided into two sessions, 9-11:30 a.m. and 12:30-3:30 p.m.

Mothers may bring children, ages 2 to 5 years for one session and each child may bring a favorite toy if he cares to.

No lunches will be served but a mid-morning or mid-afternoon snack will be offered to the children.

Friday's activities will be the highlight of F.H.A. Week.

**Sacred Heart and Lindsay Split Two Basketball Games**

One of the most thrilling games of the Tigers' basketball season had a happy ending here Friday night as the SH boys came from behind and nudged Lindsay 67-63.

For two quarters the local boys had the edge. They were ahead 14-9 and 34-26 ending the first and second and dropped behind 46-43 as the Knights put on a strong effort. From then on it was a tense zig zag affair until the Tigers took the lead for keeps about three minutes before the end.

Roger Endres led SH scoring with 30 points. Glenn Walterscheid made 19, Joe Hoedebeck 12, Mark Hess 4 and John Henscheid 2. For Lindsay it was Roy Metzler 23, Jim Arendt 17, Pete Fuhrmann 10, Ken Hermes 8, David Hermes 5.

The Tigerettes game went the other way by a score of 40-25. After a slow start SH trailed 8-2 at the quarter but caught fire in the second and was down 13-12 at halftime. After that the visitors took charge and accelerated to a third quarter lead of 25-18 and a final lead of 40-25.

Sharlene and Marlene Pagel scored 12 and 11 and Beverly Pels 2. Regulars Gloria Hess and Cindy Bartush did not play because of flu. Scorers for the visitors were N. Hundt 14, M. Felderhoff 12, K. Hermes 9, C. Haverkamp 3 and J. Hermes 2.

seriously weakened, the source declares that KGB activities within the US have become so massive as to be almost uncontrollable.

This assessment is disturbing but not surprising. Considering the USSR's history of conquest in the past few decades, we can't imagine it will agree to live and let live if the US continues stripping away its defense in both military and intelligence.

Despite detente we are at war with the red system, and we are in danger of being taken over as so many other countries have been. We need a healthy, vigorous intelligence system that can keep us informed of enemy strength and intentions as well as to protect our own forces and institutions against subversion and sabotage. This should be remembered by those who are determined to expose intelligence secrets and activities.

**SCS Gives Tips on Building, Caring For Martin Houses**

If you are thinking of building a bird house to attract purple martins this spring here are some pointers to follow. It is best to erect martin houses immediately prior to the spring arrival of the birds to reduce competition from sparrows. They should be located in open areas away from trees to prevent perdition from squirrels.

After the birds depart in late summer or early fall, take the house down, repair it, spray for insects and store it until next year. The house needs to be 15 to 20 feet above the ground and anchored so that it can be taken down.

The inside dimensions of each apartment should be 8x8x8 inches. The entrance hole should be two inches in diameter and located one inch above floor level. Each floor in the house should have a porch three inches deep for easy entrance and a railing to protect young birds. Purple martins prefer white houses.

If the house can not be taken down each year be sure to plug the entrance holes after they depart and remove plugs prior to their return. There is a need for two ventilation holes in the top of each apartment and two drain holes in the floor of each apartment. Place a predator shield on the pole between the ground and the house to protect the birds from cats and snakes. You can enjoy purple martins in your back yard if you plan and prepare for them.

**Over One Million Aluminum Cans Bought Here in '75**

The Pearl Beer Distributing Company here collected more than 1 million used all aluminum beverage cans and paid over \$6,000 to people in this area for cans last year, according to Urban J. Endres, owner.

At the same time, Endres announced that used aluminum cans will be collected this year from 9 a.m. until 11:30 a.m. every Saturday at his distributorship, 315 N. Mesquite Street.

Last year the statewide Pearl aluminum beverage can recycling program removed over 133 million cans from the Texas environment or 71.69% of the brewery's aluminum beverage can production.

"We're very proud of our distributor network which has made it possible for Pearl to collect 242 million used beverage cans in our statewide environmental program since we began in 1973," said Lee Birdsong, president of the San Antonio-based brewery.

"This means that Texans are enjoying a cleaner, safer, healthier and more beautiful environment because so much litter has been removed through our statewide program," Birdsong added.

Nearly 100 Pearl and Jax distributors make up the statewide collection center network. Cans are collected by distributors and shipped to the Pearl Recycling Center located adjacent to the brewery in San Antonio where the cans are crushed, reduced to popcorn-sized pellets and shipped to smelters.
