The crisis in American med icine resulting from the runaway cost of medical malpractice insurance is finally coming to the attention of Washington legislators. Among the corrective efforts are one bill to protect, against "catastrophic" claims recoveries - the settlements that go into six or seven figures. Another bill proposes a drastic cut in the lawyer's share of a malpractice settlement. Also, one bill seeks protection against "catastrophic" loss by insurance companies. At first glance this seems like concern for the big companies rather than the dectors and their patients, but

fering the protection. A survey of Texas doctors by the Texas Medical Association shows that the malpractice claim problem has literally exploded in the past four years. Malpractice suits against Texas doctors have quadrupled during that time and amounts asked in those suits has increased more than 500 per cent. Together the two figures of claims now is twenty times as much as four years ago.

A number of factors are blamed for this condition. One is the increasing numbers of claims later proved to have no merit. Another is glorification of the physician as a person who can pay the exhorbitant amounts. And it's the system which allows claims for unlimited amounts, sets no limit \$167.677.22 since the last quaron the amount of time allowed terly report. for filing a claim, and often does not apportion awards on an equitable basis. All of these factors need to be considered in working out the remedies dropped about \$1 mililon in for our malpractice insurance the past quarter. Also total

The urgency of finding solutions is pointed up by the fact that medical and hospital care are not only more expensive but also more limited because of the malpractice suits. Some of the more significant findings in the Texas survey include the following.

1.12 Inch Rain A comparatively small rain that did a big job was Wednesday's million dollar all day drizzle. All of it soaked in giving a great lift to all vegetation, especially the grain crops which seemed to be waiting for such a boost.

The measure on Steve Moster's official gauge was an even inch Thursday at 7 a.m. and .04 the day before. With .08 on Sunday, that makes 1.12 inch for April and 3.59 for the year. Though still far below average for this time of the year, the small rains have been timely and did a maximum amount of good.

Council Has **Busy Meeting**

The Muenster City Council had a crowded agenda for its regular meeting Monday night, starting with acceptance of a resignation by Leonard Endres from the Muenster Water Board in order to qualify him for a place on the city council. According to municipal regulation a person can not be on both the board and the coun-

Then, with an opening on the water board, the council appointed Richard Grewing to it. The net result is that Endres and Grewing have traded

positions. Another appointment was Dr. Enrique Juarez as the city's health officer. Previously this position alternated between the two resident doctors, and Juarez recently became the third resident doctor.

In an effort to avoid future discrepancies in surveys, the council has asked for establishment of an official point which will be the origin of future surveys. The problem is that variations exist besurveys that do not agree. The council favor's accepting existing surveys but requiring new ones to be based on a

common origin. Jaycees asked the council for a special permit to sell beer at the week-long softball tournament ending on May 2. The city approved it as a special accommodation for German Week, but not to be considered as a precedent for future tournaments.

Two additional mercury vapor street lights also received the city's okay. One will be installed at the corner of Sixth and Hickory, the other at the corner of Sixth and Ash.

Other council action concerned a long delayed clearance to construct the road and bridge on Ash Street, setting an opening date for the swimming pool, and shelving a Jaycee proposal to build a log cabin in, the park.

NAVARRO COUNTY -Corn and sweet potatoes are selling in Corsicana at fifty cents and oats at sixty cents a bushel. Chickens are worth twelve and a half cents apiece and eggs twelve and a half cents a dozen.

AUSTIN — The governor is expected to urge passage of important amendments to the new constitution's Judiciary Article. Many members elect of the 15th Legislature insist on giving the new constitution as it stands a fair chance to work and others insist on radical changes. A long session is expected. Austin is quite dull and expects little from the session of the legislature. The new constitution cuts down on per diem, mileage and salaries to such figures that the solons will have little spending money after paying for hash and lodging.

SAN ANTONIO - One of the greatest curiosities that has ever been brought to our city is the petrified form of an old-time Indian warrior. It was purchased recently by Mr. Joseph Ransom of Laredo, Texas, from some Mexican authorities who are said to have come upon it while working an old mine. Mr. Ransom is now on his way to the Centennial Exhibition in Philadelphia with this wonderful petrification.

SAN ANTONIO - Work on the extension of the Pierce railroad from the Guadalupe to San Antonio will be commenced this week. The day is breaking for San Antonio

and Western Texas at last. Advertised in Leading Texas Newspapers: Fun! Fun! Fun! Wolf Race — \$10 Premium. A large grey wolf will be turned loose on the prairie south of the city on Friday, April 14, 1876, and a premium of \$10.00 in currency will be paid to the owner of the dog (Grey Hounds excepted) that shall catch it. The wolf may be seen in the yard in the rear of the "Club Room" on Main Street.

Four Scholarships Available at CCC

The Cooke County College Faculty Association will offer scholarships of \$175 per semester for the academic year 1976-77 to four students attending Cooke County College. High school students in the top 20 per cent of their graduating class and current college students who have demonstrated academic excel-

lence are urged to apply. Interested persons may acquire applications from Ron Melugin, Joe Wilson, or Pat Ledbetter of the Cooke County faculty along with instructions for applying. A college or high school transcript will be necessary. The deadline for completing applications is May 1, and winners, selected by the Scholarship Committee of the Association, will be announced by May 15. Recipients for 1975-76 were Donna Fielder, Kenne Woods, Sherry Brown, and Jeffrey

Marijuana & Drug Abuse

by James McDonald Muenster Chief of Police The local police do not wish the pusher friend will ignore to use this release as a scare you. He will let you take the tactic, we just wish to state fall. the bare facts.

It has become quite apparent and obvious, marijuana and dangerous drugs are in the City of Muenster, and you can bet it's a problem. Whether you as citizens wish to admit it or not, it's high time, you, the Citizens of Muenster, stop ignoring the fact, and retaliate. How? Cooperate with local police in their attempt to put a stop to marijuana and drugs.

Some hallucinagenic drugs and marijuana have been confiscated from young people in your city, and they are not just outsiders, some have been your local youth.

It's time you also recognize that, we are not television super cops, nor can we any longer stand alone and shoulder the responsibilities of attempting to stop the flow of marijuana and dangerous drugs and other violations in Muenster, you the citizen must participate by becoming involved in controlling drug

activities in your city.
You can have a fairly clean city in drugs and other crimes by opening your eyes to the fact that it is happening in Muenster. As long as you ignore the existing situation, such things as codeine, morphine, opium, mescaline, various tranquilizers and other hallucinagenic drugs can and will flow into Muenster, can and will inflict great damage to persons exposed.

When you know of a person who has possession of, or is attempting to sell dangerous drugs or marijuana to others, do not guard this information or person. Contact your local police.

We assure you, under no circumstances shall your name be given to anyone. You will be given to anyone. You will remain anonymous, unless 6 you wish to have your identity known.

With your help the local police can and will do their job. If you do not help, and if one of your children or a friend becomes exposed and then hooked on drugs, do not blame the police. Instead, put the blame where it belongs, on the person who withholds the information.

Let's not protect the pushers any longer. They don't care about you, for they will sell & sons who have the money, regardless how young they may be. If you believe a pusher is your friend, and if you are now now now now now now ever arrested for possession of marijuana or dangerous drugs, ask your pusher friend to admit to selling you the drugs

Again, I say, give your police the assistance they need, and I can assure you, we shall make it damn hot for the pushers, regardless who they are. We shall not and will not back off from any persons dealing in mari-

juana or dangerous drugs, nor will we be bought off.

The Muenster police will do their very best to apprehend any and all persons involved in marijuana and drugs.

THANKS

I want to thank everyone for the care I received while hospitalized four days in twenty seven days in Muen- 4227. ster Memorial Hospital and for the concern shown by friends and neighbors. Special thanks to the doctors and good Fathers.

Mrs. Ann Stoffels

The kindness and many thoughtful deeds of relatives and friends during the illness and at the death of our father, have been very comforting to us. We wish to thank especially Fathers Placidus, Stephen, Gillespie and Harry Fisher who visited him and Doctors Antonetti, Jaurez and Kralicke who cared for him, also the nurses and staff of Muenster Memorial Hospital and Gainesville Frontier Manor. We are grateful also for the Mass offerings, flowers, food and sympathy.

During the week of April Ball Park. 4 through 10 Texans are observing National Library Week. This special week during the bicentennial year willgive Texans an opportunity to turn attention to their pub-lic, academic and school libra-

During the past decade Texans have made considerable progress in improving their support for libraries, and last year the State recognized its role in public library service by appropriating funds for the systems organized under the Texas Library Systems Act. Since Muenster Public Library is a member, it will receive 800 books through the appropriation.

Librarians and staff of Muenster Public Library enjoyed a visit on Thursday, March 25 from Kippy Jagoe of Dallas, a representative of the North East Texas Library System. She spent the day here, evaluated Muenster Public Library and offered suggestions and had lunch with the staff. In the afternoon she accompanied Mrs. Steve Moster to visit Sacred Heart High School Library, saw Muenster Memorial Hospital, both schools and the park. Before returning home she stopped to Muenster cheese and flowering plants.

Student Council Elects Officers

Campaign signs in the halls and gym - clever, original skits — well-delivered speeches by campaign managers and candidates, all added to the excitement of the student council elections at SHH during the week preceding April 1.

Purpose was to elect, by democratic process, officers for the 1976-77 school year. Heading the list of officers elected is Chuck Koesler president, George Luke 1st vice president, Cheryl Luke 2nd vice-president, Sharon Grewing secretary, and Gary Henscheid treasurer.

Sacred Heart students of grades 8-12 voted.

In the race for council president Chris Schilling was. campaign manager for candidate Cathy Bartush; Lori Rohmer was campaign manager for candidate Julia Bayer; Dianne Kralicke for Mary Hoedebeck; Sally Endres for Chuck Koesler and Craig Sangster for George Luke. In the vice-presidential race

Cindy Bartush was campaign manager for Cheryl Luke and Sally Endres was campaign manager for Mary Luke. In the race for council sec-

retary Mildred Grewing managed the campaign for Sharon Grewing and Janet Henscheid managed for Donna Hennigan. In the race for council

treasurer Lori Rohmer managed the campaign for candidate Toni Hoedebeck, Elizabeth Kralicke managed for Nancy Luke, Karen Schilling for Bert Miller and Craig Sangster for candidate Gary Henscheid.

First 100 Years Of Cooke County Reprints Available

Four dramatic eras - pioneering, ranching, farming and the development of Cooke County in the first 100 years of its history, 1848-1948.

Now 1955's THE FIRST 100 YEARS IN COOKE COUNTY has been reprinted by The Naylor Company of San Antonio, publishers of the ori-

The new edition has the same features as the original: mapped endsheets by Daniel original photographs, a foreward by the author, an extensive appendix, a bibliography and a complete index. The infamous "great hang-

ings" of Cooke County Civil War days are described here by a member of the jury and by the man who drove the wagon from Gainesville out to the "hanging tree" and back to town with the bodies.

The Indian raids which terrorized Cooke's early settlers are documented through milsented gifts, and then refresh- itary and county records, which indicate little success by the soldiers in apprehending marauding bands who burned, murdered and kidnapped at will.

A microcosm of United States history is here also, as county residents are called to World Wars I and II.

Author A. Morton Smith was a great-great-grandson of Daniel Montague, for whom neighboring Montague County was named and whose commission as surveyor of Cooke County is the first document (1848) recorded in the deed records of Cooke.

Mr. Smith was chairman of the Cooke County Centennial Commission in 1948, and was

inspired to write this Cooke County history.

Born in Gainesville, county seat of Cooke, he joined the staff of the Daily Register in 1922, became city editor in 1924 and editor in 1942.

He was one of the founders of the Gainesville Community Circus, among other civic activities, and in 1952-53 served as national president of the Circus Fans Association of America.

A. Morton Smith died only a short time after the publication of "The First 100 Years in Cooke County", but ever since the book went out of print, county residents and Montague Smith, forty-two the author's relatives have been requesting another edition.

Books are available from the Gainesville American Revolution Bicentennial Committee, the Cooke County Heritage Society and local book outlets.

"How do rising fuel prices affect my electric bill?"

Texas Power & Light generating plants require enormous quantities of natural gas, lignite coal and, when deliveries of gas are curtailed, fuel oil, to produce electricity. In 1975, TP&L's fuel costs were \$147 million, more than five and a half times greater than in 1970. In 1970, only 15 cents of each dollar paid to TP&L by its customers was used to purchase fuel. In 1975, fuel required 37 cents of each revenue dollar.

Unlike most businesses, TP&L cannot automatically raise the basic price of electricity as the costs of producing it go up. TP&L's rates are established and altered only by resolution or ordinance of city councils. For this reason, TP&L, and almost every electric company in the nation, has a fuel adjustment provision in its rates. When TP&L's fuel costs exceed 70 cents per million BTU's (the equivalent of 1,000 cubic feet of natural gas), the adjustment provision permits us to pass on to our customers the additional cost. TP&L makes no profit on the fuel it purchases.

"What is TP&L doing to offset rising fuel prices?" To offset the rising prices of natural gas and fuel oil, TP&L and two other electric companies are constructing large generating units which use relatively low cost lignite coal as fuel. Two such units have been in operation since 1972, a third unit was placed in service in 1974 and a fourth in 1975. Five other lignite-fueled units are now under construction and still more are being planned.

For almost sixty-four years, Texas Power & Light has supplied dependable electric service at a fair price. We're working to keep it that way.

Film Is Available On Water Safety

A recent addition to the water safety program of Muenster is a film series on Life Saving and Water Safety produced by the American Red Cross and purchased jointly by the Muenster VFW Post and the Muenster Boys Club.

It is a comprehensive series covering all phases of lifesaving and water safety, and can be beneficial to anyone . . young or old, swimmer or non-swimmer, hunters, boaters, or any outdoorsmen. They give a wealth of instruction on how to respond to trouble in the water.

The films are in the library and are available for use by any responsible group or club.

Too often a shyster will tell a patient that he has a chance to get big money by magnifying a slight injury or claiming one that does not

It's a good gamble: lots to win and nothing to lose. Perhaps the lawyer can get a good settlement out of court just because the doctor and insurance company don't want to spare the time and expense of fighting the case. Otherwise Lindsay. They also enrolled ing doctor and insurance company as rich people who So a sympathetic jury decides Get well cards were sent to in favor of the "poor fellow".

Getting down to basic principles, the malpractice suits too often are a matter of dishonesty, either faking a non existent ailment or exaggerating a lesser problem, and as such they can be classified wholly or partially as criminal acts. It might make a great difference if courts took this factor into consideration and filed criminal charges on persons whose cases turn out to be fraudulent. Or perhaps the defendent ought to counterattack by filing suit against the lawyer and client who made the false claim.

Of course there are exceptions where malpractice suits are justified. But they are not causing the present malpractice troubles. Our problem is plain legalized robbery, and the solution lies in dealing and hand made articles for with it as crime. This isn't just a legal game with much to win or nothing to lose. Whenever shown to be fraudilent the client and should both be punished, and the lawyer ought to be disbarred besides.
