NUMBER 11

Three cents of its value was clipped off your \$10 bill last month and the cost of living in this country rose to a new record high level. That is not just an unsupported guess but an official statistic released by the US Labor Department. It is a statement of plain fact reminding us again that inflation is here and our great society is headed for financial troubles.

If that statement sounds rather remote and impersonal you can bring its meaning much closer by realizing that we — you and I — are a part of this great society. Every one of us personally is forced to help pay for this folly. The very same inflationary trend which robbed us of three pennies from every \$10 last month has taken a dollar and a half from every ten since 1955.

For a better idea of what has happened during the past decade, think over these figures submitted by Senator John Tower. The food dollar has lost 15 cents; the rent dollar has lost 13 cents; the clothing dollar has lost 7 cents; the medical dollar has lost 18 cents; the home-building dollar has lost 20 cents; the college-cost dollar has lost 24 cents; the car repair dollar has lost 20 cents; the car insurance dollar has lost 26 cents.

Any way you spend it your money buys a lot less than it used to, and indications are that it will continue shrinking in real value. LBJ told us to expect that. Not in those very words, but in his announced plan to go farther in the red this year — in spite of confident predictions of the greatest national prosperity ever. It's a frightening outlook. If we can't break even in good times what will we do when hard times hit?

Much has been said about what this generation is doing to posterity — the staggering debt we are leaving to them. It's time to think also of what it is doing to ourselves. Inflation is systematically robbing us of our personal savings. The new figures show us that a ten year old dollar is worth 85c. It's also true that a thirty year old dollar is worth less than 45 cents. And there's no way of knowing how little our money will be worth five or ten years from now if the trend continues.

Plenty of big shots in Washington know that, and they also know as well as you and I do that the line has to be drawn somewhere. Admittedly no one knows just how far this thing can go before it gets out of control, so common sense and conscience demands that they do something.

Unfortunately and ironically, however, those are still the politicians who seem to get along. Too many people are still impressed by the artificial prosperity resulting from wild spending of money taken from this generation and the next one. They don't realize that the gravy train will crash if it is not stopped.

A thought offered by Paul Harvey Monday is one that deserves a lot more publicity. He quoted a military man's opinion that odds are stacked against us in a man to man war with the reds. We're hopelessly outnumbered. So the smart thing is to use the method of fighting in which we are superior.

Considering that point, there was good news in the report that US has resumed the bombing of North Vietnam. We have the enemy bettered in that department. It's our only way to avoid a stalemate and eventual defeat, as in Korea. It was also gratifying to see that the big majority of Washington officials are backing the president in his decision. Apparently we are finally deciding to win.

Nevertheless there are still men like Senators Mores and (Continued on page 8)

The series of auto plates on sale here is FJY 925 to 999 and FJZ 10 to 524.

"FB WEEK PROCLAIMED" — Governor John Connally is shown signing a proclamation designating Feb. 7-12 as "Farm Bureau Membership Week" in Texas as Texas Farm Bureau Queen Cherri Lee Norman of Tahoka and TFB President C. The state farm organization has a goal of 100,500 members in 1966.

District Gains 6 In School Census, New Count Is 737

A net gain of 6 has been recorded in the 1966 scholastic census of the Muenster School District. Superintendent L. B. Bruns revealed this week that the unofficial count was 737 after finishing the enumeration on January 31.

Last year's count at census time was 732 but the figure was cut to 731 in the office of the Texas Education agency in Austin. Comparing his new census with last year's record, Bruns said that 84 on the former list were lost because they passed the scholastic age or moved out of the district. Meanwhile the list gained 90 who reached the scholastic age or moved into the district.

The census count is especially important to the district because it is the basis on which the state makes its per capita allotment to the district. This year it receives payments on 739, which includes 8 transfers into the district along with the district's scholastic count of 731.

Colonial Acres Appaloosa Horses Win in Ft. Worth

Muenster's Colonial Acres Appaloosa horses didn't let the bitter cold Friday interfere with their winning ways at the Fat Stock Show in Fort Worth. Three entries won three trophies for their owners.

The new and already famous Colonial Acres owned by Mr. and Mrs. Ernest Medders showed a top place stallion, a first place mare and the reserve champion of the Appaloosa show.

Top Valley, a three-year-old mare exhibited for the first time, won her class and stayed in the show to be reserve champion.

Bob Smith, horse trainer at the ranch, showed Ringo San Siemon, a two-year-old stallion to the top of his class.

Colonial Acres also had a fourth place winner in the Stallion Foaled in 1965 class.

Mr. and Mrs. Medders, family members, and all the ranch's cowboys attended the Friday event. Gene Riggs was on TV and radio in connection with the winning entries.

Miss Cathy Medders was home from Hockaday in Dallas for the mid-term recess and her brother John was at home for the weekend from Shawnee, Okla., St. Gregory's College.

Next big event for Mr. and Mrs. Medders at the Stock Show is Thursday night this week when they host the banquet for the Red Angus Association. It will be held after the show at Green Oaks Inn, Fort Worth.

Rugged Weather Takes Another Slap at Muenster

For the second time in two weeks winter was showing off in a big way, apparently trying to make up for its long delay in arriving.

It made the comeback last Friday starting with miserable freezing rain while the temperature was near the freezing mark. Shortly after noon a drop of the mercury accompanied by snowfall put the schools out of business again. Buses were sent out before 1 o'clock. Depth of snowfall that afternoon was measured at almost 3 inches and the combined moisture measure of snow, sleet and rain for the day was .52 inch.

Temperature dropped to 6 on Saturday and 2 on Sunday.

Still more winter arrived Monday in a fine mist that froze as it settled. Roads were treacherous. Temperatures Tuesday and Wednesday mornings were in the low twenties with wind that made them feel at least 10 degrees colder.

Wednesday the weather cleared, just in time for the community to take warning that more is coming. The groundhog had an all-day opportunity to see his shadow.

Muenster Splits Basketball Games With Era Teams

Muenster High's basketball boys played a mighty second half Tuesday night to overcome a five point half time deficit and beat Era 48-41.

The first half belonged to the visitors from Era as they posted scores of 12-10 and 26-21 the first two periods. After intermission MHS started inching up and trailed 33-32 at the end of the third period. And then the big final period.

Leading MHS scorers were Chris Cain 18, Robert Russell 13, Dale Klement 11, Jimmy Robinson 6.

The girls game was an easy one for the visitors — by a count of 38-10. Jill Swirczynski and Linda Wilson each scored 5 for MHS.

Next and last on the MHS basketball schedule are games Friday at Callisburg and Tuesday at Saint Jo.

Muenster junior teams made a feeble start in last week's tournament at Lindsay. Both lost to Callisburg — 49-1 in the girls game, 44-9 in the boys game. After the first day the tournament was postponed because of severe weather and the Muenster teams are booked with Rad Ware for their next games Thursday afternoon.

County Has 1300 Fewer Votes Than Last Election Year

For a political year, Cooke County's list of qualified voters is below par, but it is considerably better than the non-political year just passed.

Mrs. Jo Hillis, tax collector disclosed Tuesday, after the deadline had passed, that about 6850 holders of poll tax receipts and exemptions are qualified to vote in all local and state races. She did not estimate the full voter strength, which also includes over age persons not requiring exemptions.

In the 1964 presidential election year the county had 9882 poll tax receipts and 2170 exemptions — a total of 8152. In 1965 it had 4277 receipts and 1918 exemptions — a total of 6195.

As the poll tax deadline passes the filing deadline for political candidates is rushing up. They must file with the county Democratic chairman and pay their fee on or before February 7 to be on the ballot of May 7.

Races indicated so far are Earl Robison and Leo J. Haverkamp for commissioner of Precinct 4, J. H. Riley and Boyd Sisson for County Clerk, Anna Mae Shorter and Lewis Barthold for district clerk.

EXPOSING A FRAUD

We're not imparting any new and startling information in pointing out that Communism is the greatest fraud ever perpetrated on mankind, but now and then something happens which dramatizes the fantastic extent of the swindle.

There was such a case in East Germany only a few weeks ago when Erich Apel, chief economic planner for that Communist country, committed suicide. And what caused Herr Apel to take this step? Even he, Communist that he was, could no longer condone the greedy plundering of his fellow-Germans by

the rapacious Russians. So, with his death, the world learned another lesson about the Communist system, which is supposed to end man's inhumanity to man and stop the exploitation of the oppressed.

What Apel was protesting was customary Soviet economic practice which bleeds every satellite of the USSR to build up the Marxist fatherland. In this case, Apel's death disclosed that East Germany was required to deliver to the Soviets more than 50 percent of all its exports, but the Red bosses fixed the prices and these ranged from 15 to 30 percent less than the Germans could have gotten for their products if they had been permitted to sell them to anyone else. The other side of the coin was even worse. East Germany was required to buy from the Russians vast quantities of essential goods — coal, crude oil, pig iron, etc., — at fantastically high prices. Oil cost the Germans 84.5 percent more than current world prices; pig iron 36.1 more.

Think of this the next time you read one of those magazine pieces telling how life in the Soviet Union is gradually becoming better. Think of it the next time you hear a college professor—not really a Communist, mind you, only a Marxist — pontificate on the glories of socialism as compared with capitalism. Give it some thought when you see some of those weirdies trudging around with their picket signs denouncing U.S. imperialism. Ponder it the next time you hear cackling in the UN which expresses the same idea.

And come to think of it, we haven't heard any protests in the UN on Herr Apel's sacrifice, although it was obviously made to call attention to Soviet imperialism. Nor have there been any teach-ins.

NO HIGH-PRESSURE HELP NEEDED!

Keep Our Food Industry Strong

In 1965 the American consumer spent slightly more than 18 cents of his after-tax dollar for food, compared to 26 cents, fifteen year ago. In 1966 U.S. Department of Agriculture statisticians say, the expenditures will be slightly below last year, and by 1970 expenditures should fall to 17 cents.

This is a positive testimony of industry's fine performance in supplying a great abundance of the most nutritious food the world has known, while keeping prices at a remarkably stable level.

C. C. Cook, president of General Foods Corporation, in a year-end statement said that U.S. food producers "have cooperated with government agencies to effectively safeguard the purity of grocery products and to control the information on labels. Food manufacturers and distributors recognize the necessity of a business-government working partner relationship."

"But sound judgement is needed," added Mr. Cook, "amid the current clamor for still more 'consumer protection.' The industry needs flexibility to provide the diversity of food products the consumer demands. The consumer must not be overprotected at the cost of being under-served."

WHAT IS INFLATION?

Contrary to popular belief, inflation is not rising prices. Rising prices are the effect, not the cause of the thing itself. Inflation is brought about in one way, and in one way only: By the "watering" (dilution) of the money supply by government. The cause, the inflated (government counterfeited) money (either in the form of actual currency or government "backed" credit) thus introduced into the market enables those into whose hands it falls to bid against the money already in circulation for existing goods and services. An unnatural demand (purchasing power) is thus created, forcing the price of goods and services upward. Consequently, prices rise; your money buys less. This is the effect.

In the absence of government created inflation (or illegal counterfeiting operations), rising (and falling) prices are merely the normal and beneficial reaction of the market to changing supply and demand. Rising prices, in a free market, are a signal to business and industry that the present supply of a given product or service is inadequate and that a profit may be made from increased production. Falling prices, on the other hand, are also a signal telling the producers that the present supply is more than adequate and that production, for the moment, should be curtailed. Don't blame the market place for inflation and high prices. It is not the "greedy businessman" who is to blame but your greedy government. Inflation is always and solely government induced.

LENGHTENING THE COATTAILS

We're not at all surprised that a good many Congressmen are enthused about President Johnson's proposal for a Constitutional amendment extending a congressman's term of office from two years to four. Since they gave themselves that pay raise a couple of years ago, we suppose it's only natural they'd like a little more "job-security" once they've managed to get elected. We're grateful, therefore, that the proposed amendment has to be ratified by the States.

It may be that there's some merit in the President's argument for a four-year term. Tending to the job in Washington probably does interfere with some Congressmen's campaigns for reelection - or vice-versa. But, on the other hand, let all those Representatives get really settled in Washington, with no professional need to visit the folks back home and it just might be that an increasing number would forget whose interests it is that they are supposed to represent.

Also, we're not convinced that Mr. Johnson's proposal derives entirely from his concern for the campaigning problems of the members of the House. Even though the proposed amendment, if passed, would not take effect during his own term in office, we can't rid ourselves of the thought that maybe the President thinks it both unfair and inconvenient for a President to haul a pack of cooperative Congressmen into office on his coattails only to have them fall by the wayside two years later. Can it be that the President is trying to double the length of the coattails for his successors in the Executive Office?

He could, of course, very easily prove us wrong on that point. He needs only to revise his proposal to provide that those four-year Congressmen should seek election in the off-years, between Presidential elections. If this would result, as Mr. Johnson has contended, in a lighter turnout of voters, so be it. No voter deserves to be represented if he is too lazy to go to the polls. And surely any self-respecting aspirant to a Congressional seat would prefer making it on his own two feet.

Or, there's another possible amendment. Earlier this month, the Government in Italy had to undergo three votes of confidence in six days. It failed to survive the third vote. Would our Congressmen like to consider that "sudden death" system?

ROBBING PETER

There's a bumper sticker gaining popularity in Louisville, Ky., which would be funny if the message it carries wasn't so important: "I'm fighting Poverty. I work."

And when you get right down to it, this nation has had the longest and most successful war on poverty in the history of man because of the millions of Americans who work. Long ago our forefathers decided the government would provide the freedom and the people the elbow grease in a joint effort to combat poverty.

The scheme worked because the people worked. They knew they'd starve if they didn't.

Now, the trend is to take part of the fruits of the workingman's labors and give it to those who don't work. Under this arrangement those who want to work can, and those who don't want to don't have to. This is progress?

Mrs. Wilson Feted On 84th Birthday

Eighty-fourth birthday of Mrs. Clarence Wilson was celebrated twice Saturday. At noon she was an honored guest at dinner in the home of Mr. and Mrs. Alvin Hartman, sharing honors with Mr. Hartman who has a birthday on the same date. Other guests were the hosts' parents, Mr. and Mrs. Victor Hartman and Mr. and Mrs. Tony Felderhoff and Monica, Bobby and Kenny Hartman. There was a birthday cake and both honorees received gifts. In the evening Mrs. Wilson was surprised when Mr. and Mrs. Harvey Schmitt, Mr. and Mrs. Victor Hartman and Patsy and Johnny Yosten arrived at her home with another birthday cake and ice cream and spent the evening visiting.

There are several cardinal rules for driving on ice and snow:
1. Keep moving so you won't spin or get stuck. 2. Use low gear sparingly. 3. Stay several extra car lengths behind the driver ahead. 4. Avoid abrupt stops. (Sudden braking can throw you into a serious skid.)

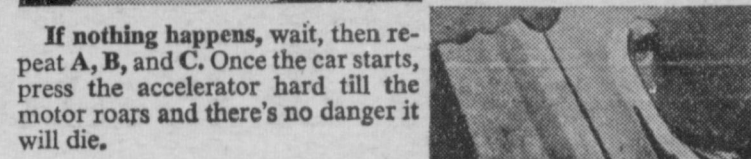

Train the children not to interfere with your driving. In the wintertime, particularly, you need to give all your attention to the road.

To start a cold or flooded car, follow this simple formula: A. Turn off everything electrical—lights, radio, heater.

B. With the car in neutral, push the accelerator to the floor, hold, count slowly to 10. C. Try the starter in bursts of two or three seconds.

If nothing happens, wait, then repeat A, B, and C. Once the car starts, press the accelerator hard till the motor roars and there's no danger it will die.

If your door lock freezes, just the warmth of your hand or breath on the lock may unfreeze it. Otherwise, warm the key with a cigarette lighter, a match, or hot water and work it around in the lock until ice melts.

Other winter problems, like stalling due to carburetor icing, can be avoided by using seasonally controlled gasoline and other automotive products made by companies like American Oil.

LaVerne Otto and David Hess Marry At Nuptial Mass

Sacred Heart Church was the scene of the wedding Saturday of Miss La Verne Otto and David Hess who exchanged vows in a double ring ceremony at Nuptial Mass, 5 p.m.

The Rt. Rev. Abbot Alfred Hoening of Corpus Christi, uncle of the bride, officiated. Parents of the young couple are Mr. and Mrs. John Otto and Mrs. Arnold Hess.

Given in marriage by her father, the bride wore a full-length sheath of white angel-skin peau de soie, the front enhanced with lace appliques sprinkled with seed pearls. A triangle-shaped removable train was attached to a bow at the back waistline. Long sleeves tapered to points over her hands and a soft fan of lace formed the petal neckline.

Her tiered circular veil was elbow length held by a peau de soi and tulle petaled crown ornamented with seed pearls. Her flowers were white roses and English ivy in a cascade arrangement.

Sisters of the bride were her attendants. Mrs. David Gilley of Dallas was matron of honor and Miss Earline Otto was bridesmaid. They wore street-length dresses of coral rust satin and carried colonial bouquets of bronze pompon mums.

Dennis Hess, twin brother of the bridegroom, was best man and David Gilley was groomsmen. Bobby Pels of Weatherford, Okla., and Danny Hoening ushered.

Anthony Luke, organist, and Sacred Heart men's choir furnished music for Mass and Mrs. Leo Lawson was vocal soloist before the service and again afterward when the bride presented the traditional bouquet at the Blessed Virgin's altar.

Wedding reception and buffet were in the Parish Hall with Mrs. Joe Lehnertz in charge. Mrs. Kenneth Otto and Mrs. Roy Monday presided at the guest book. The bride's table was adorned with mums, fern and wedding bells and held the square three-tier wedding cake. It was topped with a miniature bride and groom, the same figurines that topped the cake at the wedding of the bride's parents. The wedding dance was in the VFW Hall.

When the newlyweds left on their honeymoon trip she was wearing a gray wool suit with black accessories. They will

be at home in Kermit. Both are graduates of Sacred Heart High School with the class of 1965. She was homecoming football queen in her senior year. Since graduation she was employed in Dallas by the Retail Credit Bureau of America. He works for a Kermit automobile agency.

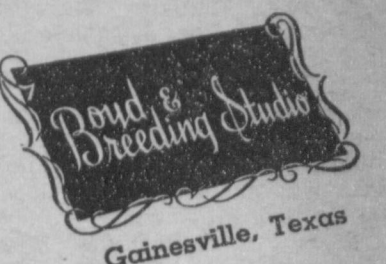

Among guests at the wedding were the bride's grandparents, Mr. and Mrs. Tony Otto; and from out of town Andy Yosten of Fort Worth, Mr. and Mrs. Virgil Evans, Frank Evans, Carol and Alvin Evans, all of Pilot Point; Messrs. and Mmes. Tommy and Sid Otto, Alvin Noggler, Kenneth Otto, Leo Hoedebeck, and Kenneth Hoedebeck, all of Gainesville; and Messrs. and Mmes. Henry and John Hess, Wilfred Hess and Clarence Zimmerer of Lindsay.

"Would you mind repeating what you said?" asked the psychiatrist of his new patient. "I said," yelled the man, "that for some reason nobody seems to like me! Why don't you pay attention, you thimble-brained fathead!"

Alcoholism, Topic For Home-School Guest Lecturer

Members of S H Home-School Society had Mrs. Robert Myers of Gainesville as guest speaker to highlight the program at their January meeting Tuesday night.

Mrs. Myers spoke on alcoholism—the signs, symptoms, danger, and the urgency of instruction to young people regarding the use of alcohol. She charmed her audience with the informal lecture and the group applauded vigorously at the end of the 75-minute talk.

Also on the program were two short films, one shown by Father Benedict entitled "The War on Gobbledygook", the other shown by the Muenster VFW Auxiliary, a film from the National Foundation of March of Dimes on birth defects.

Business conducted by Herbie Miller, president, was brief and routine. Members voted to pay from treasury funds the cost of a set of new Catholic

Encyclopedia for the school library.

Sister Geradline reviewed the Youth Corps federal aid program in operation in the high school.

After adjournment there was a social hour and refreshments of coffee and cookies served by the hostesses, Mmes. Alphonse Reiter, Wilfred Reiter, Arnold Rohmer and Henry Pels Jr. Forty-five members attended.

Myra Kimmel and Wayne Schmitt Say Vows in Amarillo

Miss Myra Ann Kimmel was married to Wayne Otto Schmitt in St. Joseph's Catholic Church, in Amarillo, on Saturday, January 29, with Rev. James Lee, Jr., performing the ceremony.

The bride is the daughter of Mr. and Mrs. Frank S. Kimmel, 209 Cotillion Road, Fort Worth. The bridegroom is the son of Mr. and Mrs. Al J. Schmitt of Muenster.

Maid of honor was Miss Loretta Schmitt, San Antonio, sister of the bridegroom. Earl Britten, Amarillo, was best man. Ushers were Thomas Schmitt and Robert C. Connor, both of Amarillo.

The bride wore a Dior blue Italian silk suit with an A-line skirt. The shaped cut-away jacket had a single button closing below the notched collar. She wore a white lace overblouse with scoop neckline. The bride carried a Mother-of-Pearl bound prayer book, a gift from her aunt and namesake, Miss Myra Kreps, of Louisville, Kentucky.

The prayer book had been given to Miss Kreps, of Louisville, by her aunt and namesake, in 1907 by Miss Kreps of Baden, Germany.

The maid of honor wore a light beige suit, with small pillbox beige hat and carried a single, long-stem red rose.

Immediately following the ceremony a reception was held in the Candle Light Room of the Holiday Inn, Amarillo.

The bride is a graduate of Texas Tech and a member of Phi Mu Sorority. At the present time, she is Manager Trainee for Sears-Roebuck,

Amarillo. Mr. Schmitt is also a graduate of Texas Tech and a member of Alpha Delta Sigma. He is assistant Advertising manager of Shamrock Oil & Gas Corporation, Amarillo.

After a skiing trip in Colorado, the couple will reside at 2709-A Curtis, Amarillo.

Mr. and Mrs. Jim Fisher and children Susan and Mark of Arvada, Colo., are on vacation visiting his parents, Mr. and Mrs. J. W. Fisher. Jim spent four days this week at Lake Texoma attending the Southwestern Institute of Park Executives, one of 300 delegates. Enroute to Muenster the Fishers stopped at Plainview for visiting with her parents. They'll go to Houston to visit the Niel Fishers and other relatives while they are on a three-week vacation.

The astronomical measure of a light-year equals six trillion miles.

Nuns on Visit Are Reunion Honorees

Two nuns visiting here finally got off between snow storms to return to San Antonio. An earlier planned return didn't materialize on account of the record 15 inch snowfall. They left last Thursday the day before another snow storm blew in.

Sister Ann Theodore Wiesman and Sister Margaret Rohmer were taken back to Our Lady of the Lake by Mrs. C. M. Walterscheid and two sons.

Sister Margaret, 86, headquartered at the home of her niece, Mrs. C. M. Walterscheid and together they visited all the relationship including Mrs.

Mike Kleiss, a sister, at Golden Years Rest Home, other sisters, Mrs. Jos. Pautler and Miss Odella Rohmer, and a brother John Rohmer. The Rohmers had their family together for a reunion dinner.

Sister Ann Theodore was with her sisters, Mrs. Al Fleitman and Mrs. J. J. Haverkamp and together they visited all the relationship. The Fleitman home was the scene of coming and going and small reunions because the weather prevented all being together at one time. The Herbie Fleitmans and two sons came from Denison.

Sister Ann Theodore was also entertained in the homes of the Henry Felderhoffs, Ed-

die Fleitmans and Walter Klements. And the Tony Wiesmans were hosts for his sister in their home in Gainesville. She also visited at Muenster Hospital with a niece, Mrs. Joe Henry Walterscheid, who is a patient.

Visiting Wednesday and Thursday with Mrs. Rudy Hellman were Mr. and Mrs. Ray Fikf and little son Ray of Syracuse, N.Y. Mrs. Fikf is a cousin of Mrs. Hugo Hellman and this was their first visit in Muenster. They stopped over enroute to Las Cruces, N.M. He's a chemist at Syracuse University and will be doing research work.

Marysville News

By Mrs. John Richey

MARYSVILLE, Feb. 1 — Mrs. John Richey joined her sister Mrs. Earl Cochran of Gainesville for a visit Wednesday with their brother Joe Wyatt and his wife at Callisburg.

Sunday visitors with Mr. and Mrs. Don C. Cooke to help Mr. Cooke celebrate his birthday were their son and his wife, the Harold Cookes and daughter and family, the Gene Alexanders, all of Fort Worth.

Having Sunday dinner with the Sam Sparkmans and V. M. Ramsey were the latter's son and family, the Melton Ramseys of Whitesboro. Other visitors in the afternoon were the Gordon Ramseys of Gainesville and their son-in-law and daughter, the Loye Murrells of Grand Prairie who also visited the Grady McElreaths.

Mr. and Mrs. R. D. Morris enjoyed a telephone visit with their daughter, Mrs. Bob Grober and family who reported having moved from Muskogee to Tulsa, Okla., to a new home. Mrs. Grober was enthusiastic over the new place which is a four-bedroom, brick with central heat and air conditioning. It has a built-in all electric kitchen with dishwasher. Feeling Tough? You May Have Coryza

If your nose is stuffy and you have difficulty breathing, chances are you're suffering from one of the most widespread and prevalent of all diseases — coryza.

Chilling and overheating makes a person particularly susceptible to coryza, which is why it is so prevalent at this time of the year.

There is no known cure. Although it is relatively minor, coryza causes an annual loss of more than \$5 billion each year in the United States alone in terms of time lost from work, wages lost, and cost of treating the disease and its complications.

Persons of all ages are susceptible to coryza, according to World Book Encyclopedia, but preschool youngsters seem to be most susceptible. More than 30 million illnesses each year in American preschool youngsters are caused by coryza.

William Henry Harrison, ninth president of the United States, delivered his inaugural address on a cold, windy day and caught coryza. This developed into pneumonia and he died a month later.

Coryza is what keeps handkerchief makers and tissue manufacturers in business. It is popularly known as the common head cold.

"Listen, Captain," said the police officer. "We've been giving that ventriloquist the third degree for over an hour and a half, and a plainclothesman, three cops, and a detective have all confessed to the crime — shall we go on?"

What's the best 5-letter word for fertilizer?

And for wheat — NIPAK 45.

Get better wheat crops and earn bigger profits. Topdress your wheat with Nipak 45 right now — for greater yield and higher protein. Nipak 45 — 45% nitrogen fertilizer from Urea — gives you one-third more nitrogen per pound than any other form of solid nitrogen fertilizer — which enables you to handle less fertilizer and cover

more ground in less time. Nipak 45 is uniformly prilled, too. It flows easily, won't cake, clog — or corrode your equipment. Nipak also dissolves in the soil moisture and moves quickly to the root zone where it stays put until your crops need it. So for more grow power, ask your local Nipak dealer about Nipak 45. He can help you plan a complete fertilizer program because he can provide a complete fertilizer service.

Lone Star Beer Reaches All-Time High in '65 Sales

Lone Star Brewing Company recorded an all-time sales high of 1,137,490 barrels in 1965. President Harry Jersig said this record sales figure was 22% higher than 1964 when the annual sales amounted to 932,787 barrels, also a high over any other year.

The 1,137,460 barrels represent audited sales on which excise taxes were paid, Jersig emphasized. The 1965 increase was 204,703 barrels.

"Brewers are submitting their figures now, and among those published to date, Lone Star Brewing Company's 22% sales gain should place us at the top of the list as America's fastest growing brewery. Too, record sales should advance us into the first 20 breweries. Last year Lone Star ranked 25th."

The figures include the products of the breweries at San

Antonio and Oklahoma City. Jersig attributes the record gains to fresh concepts in packaging, to advanced methods, to an alert distributor organization, to increased distribution area and an aggressive advertising and sales program.

In April of 1965, the Glass Keg quart was introduced with twist-off, twist-on crown. The contents, non-pasteurized draft beer. The combination was a first for the Southwest. It was introduced with the greatest speed to distributors, backed by total conversion of the entire media advertising program, and the package was an almost overnight success.

By mid-July, Lone Star Brewing Company management had made the decision to market another draft beer package. This was a special 12 ounce can designed to look like a draft keg, and the package was fitted with a new type pull-top opener. Lone Star named it "Ring-Tap" and featured this in advertising and promotion programs. Again, the Lone Star Handy Keg of Genuine Draft Beer was the first canned draft beer ever seen in the Lone Star Brewing Company's markets.

In September, the first full month with both draft packages in all markets, Lone Star Beer was the first time in history out-sold all other brands in Texas. Its draft beer was established as the No. 1 draft choice in the Southwest. In Oklahoma, sales of Lone Star Beer were up too, 23.97% for

State Fair of Texas directors have elected a new president and a new executive vice president/general manager, the first time in history that both positions have been filled at the same time. Mr. Robert B. Cullum, left, succeeds C. A. Tatum Jr. as president of the nation's largest annual exposition in terms of attendance. Mr. Joseph B. Rucker Jr. is the new executive vice president/general manager, succeeding James H. Stewart who retired at the end of 1965. James W. Aston was re-elected treasurer and Arthur K. Hale will be secretary again in 1966. Dates of the 1966 State Fair of Texas in Dallas will be October 8 through 23.

1965, a figure above the average.

The brewery's sales and marketing personnel had been surveying Louisiana and additional Arkansas territory for introduction of the brand. With the highly successful acceptance of new packages and products, the decision was made to move into key markets during the summer of 1965. Distributors in both states have penetrated the market quickly with Lone Star Beer. Jersig believes sales will

climb again in 1966. "In certain areas of Arkansas and Louisiana, we were in the market for under six months, and with a full year, and anticipated greater market share, 1966 could again show substantial sales gain."

Today, Lone Star Beer distributes its line in all of Texas, Oklahoma and Arkansas, and parts of Louisiana and New Mexico.

It's that little bit of difference in each of us that makes the big difference.

Be A Safe Driver . . .

Here's How By Sam Hanks

Racing Director, Indianapolis Speedway
 1957 Memorial Day 500-Mile Winner

SAVE TIRES AND LIVES

In the last two years, the winning car in the Indianapolis 500 has finished the race without changing tires.

When tires will stand up for 500 miles at a 150 mile-an-hour average on the Speedway, it's a real tribute to their staying qualities.

If we stop to think about it, we all know tires are better than ever. Flats used to be commonplace, but now many drivers have never experienced one — and therein lies a danger.

Too many of us have become complacent about tires. But an under-inflated tire run at turnpike speeds is a prime candidate for a blowout. We all know what happens when the tire blows out at high speed, especially a front tire.

Even if you avoid a blowout, driving under-inflated tires takes thousands of miles off their life.

Incidentally, contrary to a popular notion, letting air out of your tires is no real help in getting off ice. Sand or rock salt works much better.

So, if you want to save tires — and possibly your life — check tire pressures regularly.

Another good way to save tires — and lives — is to replace shock absorbers every 20-25,000 miles with new Monroe shock absorbers or front and rear Load-Leveler stabilizing units. Worn shock absorbers are dangerous and can cost you as much as 17% in tire life, roughly about 5,000 miles of travel.
