VOLUME XXXI

MUENSTER, COOKE COUNTY, TEXAS 76252 APRIL 5, 1968

NUMBER 20

Since Sunday night the current presidential campaign is a brand new subject. It's altogether different with President Johnson declining to seek or accept the nomination of his party. Fellow Democrats whose time for weeks was spent mostly in sniping at LBJ's Vietnam policy suddenly find that they have neither the man nor the issue for a target. The President had previously removed the issue by proposing their kind of a move to seek a Vietnam settlement.

Republicans are very much in the same fix. Since LBJ faded out there's no one left to point the finger at. Somehow pointing at the party or administration does not have the same political impact.

The President said he got out of the race so that he can give more attention to peace efforts and to remove that subject completely from partisan politics. His motives deserve our praise. He should not be hampered in a matter of such great importance by thoughts of political consequence, or charges of expediency. The nation hopes with him that his withdrawal will serve a useful purpose.

Regarding his later availability for nomination, however, there is room for doubt. LBJ is an old pro at politics. He could be looking farther ahead than the present undertaking, reasoning that success in this venture would give his popularity rating a big lift and make him a stronger candidate. Then he could respond to a draft.

So, just assuming he had political motives, his pull-out still makes sense. It creates a better atmosphere for his peace dealings. It creates a great deal of immunity from political attack. It enables him to postpone his decision on running again and let the situation later help him decide whether he really wants to be out of the race.

As regards the halt in bombing, the nation has its fingers crossed, hoping against grim evidence of past experience that this course finally will be fruitful. In view of first reports on Hanoi's reaction, the hopes are rather slim. Of course there's a possibility that the enemy's first refusal is intended to improve his bargaining position and that he'll agree to talks when he thinks the time is right. But there's also the other possibility — that Ho Chi Minh regards LBJ's offer as a sign of weakness indicating that red chances of winning are better than ever.

If such is the case, the present effort faces a grave risk of more regrets. The world knows what happened before when we followed this policy. Reds used the pause to move in supplies and troops and generally improve their fighting ability. Later our soldiers paid dearly for the peace effort. This time we're being more cautious allowing reds freedom to operate only in the north. That freedom however may allow significant military progress which can later be used to advantage against our men.

Another disturbing angle in the peace effort is our very apparent eagerness to reach a settlement — which will encourage the enemy to drive his hardest bargains. Suppose it does succeed in getting negotiations started. What kind of behavior can we expect? Will it be an endless farce of arrogance and insult like Panmunjom?

Regarding enemy demands, it's a sure bet he will insist on the Cong's share in South Vietnam's government, as fool-

Safety Inspection Deadline Near

The Texas Department of Public Safety reminded motorists today that less than two weeks remain for obtaining the 1968 inspection sticker with more than two million cars still in need of being inspected.

"Lines are already beginning to form," a DPS spokesman said, "and they will get longer as the final date approaches. Many drivers may find it difficult to obtain necessary repairs if they continue putting off the inspection until the last minute."

The DPS pointed out that only about 3,500,000 vehicles have been inspected for the 1968 sticker through March 31, and that estimates indicate more than six million vehicles will be registered during 1968.

Five Injured In Accident

Three Muenster people were hospitalized and three were dismissed from Muenster Hospital following a two-car collision early Sunday morning on Highway 82 in front of The Center.

Taken to Muenster Hospital after the accident were Robert Walterscheid 22, and Miss Rita Fisher 23, occupants of one car, and William Fisher 27, Walter "Hooker" Grewing 35, Joe Moster 35, and Robert Fisher 19, occupants of the other car.

Robert Fisher and Walter Grewing were transferred by ambulance to Dallas at noon Sunday for surgery by a bone specialist at Baylor Hospital. Fisher's right leg was broken. He also received a skull fracture. Grewing's right arm was broken.

Mr. and Mrs. Earl Fisher accompanied their son and Mrs. Grewing went with her husband. Mrs. Fisher and Mrs. Grewing remained in Dallas. Both men are reported doing well. Fisher's leg was put in traction.

Miss Rita Fisher sustained painful facial cuts and dental injuries. She was dismissed from Muenster Hospital Tuesday and her mother took her to Fort Worth Tuesday afternoon for dental surgery Wednesday. William Fisher sustained a broken wrist. He was dismissed after treatment. Their parents are Mr. and Mrs. Paul Fisher.

Joe Moster received facial cuts and was dismissed after treatment. Robert Walterscheid was not injured. He is the son of Mr. and Mrs. Otto Walterscheid.

All six had attended the Muenster Jaycee banquet and dance and some of the men had stayed on to clean up and lock the KC Hall afterward.

Robert and Walter are both on the sixth floor at Baylor. Robert is in Room 6026. He'll be there six to eight weeks. Walter is in Room 6119. He was to be hospitalized about 10 days.

Stained Windows Planned in S H Church for Easter

If indications now are correct Muenster's Sacred Heart Church will have a new look for Easter. Twelve genuine mouth-blown, antique, stained glass windows will have been installed.

There are 32 windows and eventually all will have their present amber glass replaced with stained glass. These are being donated by parishioners and parish societies as memorials. The highly colored windows will have a central figure of a saint surrounded by symbols pertaining to his life.

They will include the following: Our Lady of Perpetual Help, Our Lady of Guadalupe, St. John the Baptist, St. Joseph, St. Anne, St. Alphonse Liguari, St. Paul, Sacred Heart of Jesus, St. Augustine, St. Alcuin, St. Margaret, St. Benedict, St. Rose of Lima, St. Patrick, St. Boniface, St. Theresa, St. Elizabeth, St. Thomas Aquinas, St. Matthew, St. Luke, St. Peter, St. Isidore, St. Jude, St. Scholastica, St. Catherine of Siena, St. Cecilia, St. Magdalen, and symbols from St. Joseph and the Holy Family.

When the half-million dollar church was under construction in 1952, temporary windows of amber frosted glass were installed — replacements to wait until the debt was lowered.

It's Wet!

Excessive rainfall continues to haunt this area, as rain continued into April after the wettest first quarter on the official record.

Readings by Steve Moster Tuesday and Wednesday were .17 and .41, bringing the year's total measure to 12.63 inches. The three months preceding had a total of 12.05, which in a new record for January. March total was 5.67 topping the previous high of 5.23 in 1961. January total was 4.67, only slightly below the 4.86 of 1949.

Doris Schmitt Is Cooke County's Spelling Champ

Muenster's Doris Schmitt, 13, eighth grader at Sacred Heart won the Cooke County Spelling Bee Saturday over seven other contestants to become the second consecutive county winner from Sacred Heart School.

As winner of the county spelling crown Miss Schmitt will represent Cooke County in the District Spelling Bee at Dallas on May 4. She is the daughter of Mr. and Mrs. Al Schmitt.

The contest was held at Krum and the only schools entered were Muenster and Ponder.

The play, written by Anton Chekov, was entitled "A Marriage Proposal." The MHS team includes Wimmer, Bruns and Felderhoff in the cast, Gareld Payne as director and David Fette as a onemember stage crew.

Nocona Will Host 1967 Soil Champs Awards Banquet

The nineteenth annual awards banquet honoring conservation champions of the Upper Elm-Red Soil and Water Conservation District will be held Thursday, May 9, in the Nocona High School gymnasium.

Plans for the event were made last Thursday in a meeting of bankers and news media representatives in the First State Bank of Gainesville. A special guest of the meeting was Clyde Wells of Grandbury, one of the small group which planned the first awards banquet nineteen years ago. J. M. Weinzappel and Claude Jones, likewise original planners, were also there.

Wm. Claunch Jr. was chairman of the meeting, succeeding Claude Jones, who retired last year after serving as chairman since the beginning. Afterward all were guests of First State Bank for a charcoal steag supper at Mo-Jo Lodge, Leeper Lake.

The awards banquet will follow recent custom in honoring eight separate conservation projects. A champion will be named in each of the district's five zones and one of those five will be named also as champ of the district. In addition there will be awards for the best comeback farmer, the best city farmer and the best landlord-tenant team.

Program procedure again will feature the conservation stories of the champions. As colored pictures from the farms are flashed on a screen they will be described in a narrative.

Gene Foster of Grayson County Junior College has been selected for the narrative. Olie Carrier of Radio KBAN, Bowie, will be master of ceremonies.

Three in One Election Booked for Saturday

Three elections in one will be held Saturday in the public school. It will be a one stop election to select members of the city council, the hospital board and the local, county and college school boards.

Polls will be open from 8 a.m. to 7 p.m. in the main corridor of the school and a voter registration certificate is needed to vote in all.

Voters are reminded that voting procedure has changed in Texas. Now a person votes for the candidate of his choice instead of voting against all others. He marks an X in the space beside the candidate of his choice but no longer marks through the names of those he is voting against.

Two of the elections will be conducted at one voting box with Charles Cash as election judge and Edgar Dyer as the clerk.

One ballot issued by them includes the three school board elections. Ray Wilde and Robert Bayer are unopposed candidates for the Muenster school board. Herman Hartman is the unopposed candidate for representative at large on the county school board. Paul Campbell, W. E. Levell and Boyd Ware are three candidates for two positions on the college board of regents. That part of the ballot presents the only race in the three elections.

To vote in the three school elections a person must be a resident of the Muenster

Muenster Youths Have 28 Entries in Fat Stock Show

Muenster 4-H and FFA members had twenty eight entries in the Cooke County Junior Fat Stock Show last Friday winning five blue ribbons, fourteen reds and nine whites.

Though the Muenster exhibitors failed to win champ ribbons they did exceptionally well financially. They got strong support at the auction of entries following the show. On an average their animals were tops in the auction's bidding.

Local firms and individuals there to bid up the show animals were Muenster Mill, Tony's Seed & Feed, Stockmen's Feed Store, Livestock Auction, Bank, Electric Co-op, Fisher's Market, TP&L, J. J. Wieler, Ray Klement and Mrs. Oscar Detten.

Those who entered fat steers and their awards were as follows. Jerry Fleitman, Paul Bayer, Allen Fleitman, Ricky Walterscheid, blue ribbons. Clinton Bayer, Ross Felderhoff, Lynn Klement (2) Jack Dangelmayr, James Dangelmayr, Chris, Margie and Tommy Felderhoff, red ribbons. David Stormer, Bob Bruns, John Monday, Dale Cash, John Dangelmayr, Carl Bayer, white ribbons.

Lyle Klement, red ribbon on fat barrow. Paul Bayer blue ribbon on fat lamb. Robert Sicking red ribbon on fat lamb. Larry Bayer, 2 red, 1 white on fat lambs. Leon Bayer, 1 red, 2 whites on fat lambs.

Along with premium prices for most entries at the auction, there were cash awards to all exhibitors, paid by United Fund to encourage livestock projects by club members.

Tiger Trackmen In Kamay Meet

Their relay team, coming in sixth was made up of Tom Hess, Paul Hoedebeck, LeRoy Hess and Steve Hess. In addition Lee Roy Hess was fourth in the pole vault and Tim Endres was fifth in the mile run. Tom Hess, who has been breaking area records in the mile, came out of the relay with a limp and had his name scratched off the mile race.

School District, including that portion of the former Myra district which was merged with the Muenster district last year.

However, residents of the former Myra district are not qualified to vote for hospital directors. The hospital district is limited to the former Muenster school district.

Muenster's city election will be conducted by Clive Gobble as judge and Lee Toothaker as clerk, and voters must be residents of the city. Candidates listed on the ballot are Richard Grewing and A. T. Tuggle, each unopposed for re-election.

SAIGON, DETROIT, NEWARK, WATTS

There are well over two million people in Saigon. Yet it took only a few thousand enemy soldiers to disrupt the life of that city, terrorize its inhabitants, kill hundreds, destroy property worth millions.

It is clear that the appearance of the invaders did not set off the popular uprising expected. But even if one-half of one percent of the residents of

the city had supported the Communist forces — ten thousand residents, let us say — that number was sufficient to cache major stores of arms and ammunition, to provide shelter and food, to guide the invaders to choice targets within the city.

After the riots in Detroit, Newark and Watts and other American cities last summer it was estimated that something like one-half of one percent of the residents took an

active part in the riots. But that number was sufficient to do great property damage, and to destroy the morale of city residents. Confidence in government failed.

The lesson of Saigon is the same as the lesson of Detroit, Newark and Watts. The outpouring of money, into Vietnam, or into American cities, through programs designed to "relieve poverty" or to further "pacification", will not make a difference. That path has been followed consistently both in Vietnam and in the United States, without providing any relief. Still, we hear voices urging even more handouts in our country. It's suggested that the flow of dollars would equal the costs of the Vietnam war.

Those are the voices of people who have learned nothing from past mistakes. They are the voices which urge us to put all our effort into the "pacification" program in Vietnam, rather than into the military effort. They would inactivate our police and restrain them when riots start — but put the public treasury at the disposition of the riot leaders.

In Saigon, as in any American city, a fraction of one percent of the population can prove a great danger. But money will not buy them off. Nor is it certain that good intentions and good will are enough to soften their designs. In the last analysis, the city the society, and the nation, must defend themselves. These are police and military functions. The officials we have elected must use them.

WE SEEM TO BE TURNING OUR BACKS ON EVERYTHING THAT MADE AMERICA GREAT

We pamper criminals and hamper police, when the police are all that save us from anarchy.

We spend billions to pay people not to work — when we need the workers, and haven't got the billions.

Devoted men in uniform spend their lives, underpaid and in jeopardy, fighting to keep our nation safe. Then, for political advantage, we sweep aside their gravest advice.

Companies which provide millions of the best-paying jobs in the world were built out of profits by ambitious men who plowed those profits back, to make more. Now Government and unions call such men selfish, and tax and destroy the profits vital to tomorrow's jobs.

We spend billions to get to the moon, for some ridiculous "prestige", instead of using those billions to reduce our debt and make us safe and solvent again.

For voters at home we placate our enemies abroad and attack our friends (and HOW we need those friends!).

We concentrate more and more power in a central government (too often of little people) and so weaken the local governments — which are the very essence of democracy and freedom.

We spend billions for foreign aid and let prosperous foreigners who owe us billions spend OUR money to deprive us of OUR dangerously-needed gold.

COMMON SENSE used to be the outstanding trait of Americans. In Heaven's name, WHAT HAS HAPPENED TO IT?

BUMP BUMP

The people who usually note such things overlooked an oddity when the new 6-cent postage stamp bearing the likeness of Franklin D. Roosevelt was introduced. It was a case of one Roosevelt bumping another. Four years, Cousin Teddy adorned the 6-cent stamp, when few people had reason to buy that denomination.

The television-addicted tot answered the front doorbell and, discovering a brush salesman on the steps, called out: "Hey, Mom, it's a live commercial."

LESSON FROM A GHETTO

One recoils at the use of the term "ghetto" to describe any American community. The word originated in Europe to describe a sealed-off section of a city where Jews were restricted for residence. When night fell, the residents had to be inside the walls. And they were forbidden to leave it during the night. In this country it came to mean a quarter of a city in which a racial group segregated itself by choice. But no racial group in the United States was ever sealed off or segregated by law or regulation.

In modern times slovenly newsmen have adopted the term as one to identify essentially Negro areas of a city. But if one accepts this loose terminology, it is necessary to observe that another area which is occupied by a high concentration of another minority must also be termed a ghetto. New York's Chinatown falls in that category. No part of New York City is more densely populated by a higher percentage of a minority. In accepted modern terminology, these are ghetto people.

Something like 4,000 of Chinatown's residents demonstrated a few days ago. That's quite a turnout. If 4,000 residents of Harlem had marched anywhere, it would have made headlines and TV newsreels from coast to coast. Not so when Chinatown turned out its residents on a bitterly cold morning. You see, those 4,000 Chinese-Americans weren't asking for welfare handouts, protesting segregation, or de-

manding open housing. Nothing like that. They were petitioning city hall not to close the police station in Chinatown.

The crime rate in Chinatown has always been lower than in other sections of the city. But lately, outsiders have begun to invade the area to rob and rape and loot. The Chinese were only asking that the Mayor save their police station which he had marked for closing and consolidation with another station blocks away as an economy measure. As a matter of fact, the Chinese said that they'd be willing to pay higher taxes of the police station could be kept open, and the police on patrol in their ghetto.

Some of the youngsters among the 4,000 carried signs which read, "We Love Cops." So the next time you hear some authority holding forth on the subject of ghettos, ask about the Chinatown ghetto in New York City. It hasn't experienced any of that police brutality we hear so much about. The residents "Love Cops." They aren't demanding equality, or handouts. They've earned equality, by hard work. Quite a contrast isn't it? Do you think maybe the news services and the TV news cameramen discriminated against the Chinese?

HS Society Hears Superintendent of Diocesan Schools

Members of Sacred Heart Home-School Society had Sister Caroleen, SSND, of Dallas, diocesan superintendent of schools, as guest speaker at their monthly meeting discussing the past and present, with a look into the future of American Education.

She traced the history of Catholic schools back 400 years to the first in 1564 and showed by contrast that the first public school dates back to 1840.

Explaining modern teaching methods she said everything is being taught in the idea of concept. Everything is taught creatively, and religion can be taught creatively.

Doctrine and truth are still the same. These were not changed by Vatican II, she pointed out. Discipline is new. "We are not here now to protect our children's faith 'per se'... we cannot say that we exist for that purpose today... we want to put our children in a Christian environment and atmosphere to be fuller, richer Christians.

"You have nothing to fear either academically or religiously. You have a good system, a good school," she told her audience in conclusion.

Larry Yosten, president, presided and Sister Roberta, local principal, introduced the speaker. Father Andrew closed the meeting with prayer. After adjournment hostesses Mmes. Al Felderhoff, Charley Hellman and R. N. Fette served coffee and cookies.

State's Greatest Tourist-Vacation Season Opens Soon

Greatest tourist-vacation season ever experienced in Texas is about to get under way. Every town of the state will share in it.

Gov. John Connally has just opened the first of the 10 new Texas Travel Trails — Mountain Trail in Trans-Pecos — and dedicated improved Davis Mountains State Park.

Spending by out-of-state visitors in Texas last year totaled \$1,200,000,000. Indications are 1968 will top that substantially.

HemisFair opens April 6 (granted some near-miraculous feats of speed in construction and cleanup activities) and will continue through October 6. Historic San Antonio's 250th birthday will be celebrated in connection with the grand opening.

By conservative estimate, 7,000,000 visitors will attend the fair during its six-months run. Twenty-six foreign governments will exhibit on the 92-acre site. Texas' own \$10,000,000 exhibit — the Institute of Texas Culture, depicting the role of two dozen ethnic groups in building the state — is expected to be the main educational attraction.

A \$5,000,000 U. S. Pavilion will feature a remarkable motion picture on the confluence of western civilizations.

In addition to the educational events, plenty of top-flight entertainment is booked in San Antonio's new civic center on the fairgrounds, and there are rides, souvenirs and fun for all ages.

Mrs. Lyndon B. Johnson will head a group of dignitaries including Secretary of the Interior Stewart Udall, who will preside over opening ceremonies April 6.

A great Texas attraction — Six Flags over Texas — will launch its eighth season (midway between Dallas and Fort Worth), April 13. Facilities have been expanded into a \$2,000,000 program. Pioneer Amphitheatre's 1968 production of "TEXAS" in scenic outdoor splendor near Canyon, opens June 29.

Lone Star Beer's Exhibit is Major HemisFair Feature

The Lone Star Hall of Texas History delves into the exciting past of the Southwest. This major exhibit at HemisFair '68 in San Antonio gives visitors an authentic look at the events, the men, the women, who built the heritage of Texas and its adjoining lands.

The pavilion and its dioramas have been more than two years in planning and building by the Lone Star Brewing Company. Located under the Tower of the Americas, and facing the lagoon on one side, the multi-level building should prove a haven for visitors of all ages.

Planned as a fun center too, in addition to the look at the past, there's a look at today and the future. For refreshment, Lone Star Beer and root beer will be served on the lower level from a 126 foot bar. Tables and comfortable chairs overlook the lagoon where daily water shows and other activities may be watched through the floor to ceiling windows.

The second floor features a 60 foot bar and additional serving facilities, plus an outstanding view of the grounds and lake. On both levels, specialty foods will be served at reasonable prices.

"Lone Star Brewing Co. has long and deep experience in museums and exhibits," said J. C. Gordon, vice president, public relations. "In the 1950's the brewery saved the old Buckhorn Bar and its world-famous collection of horns and antlers, which was restored on its property at San Antonio. Many millions have visited the Buckhorn Hall of Horns and the newer Hall of Fins.

"Our representatives have collected thousands of relics, memorabilia and antiques to assure authentic backgrounds in the dioramas. LaFitte's personal sidearms, a 100 year log cabin, its weathered oak logs still worthy, are there. Lifelike wax figures of Jim Bowie, Rene LaSalle, Austin, Teddy Roosevelt, and others are there too.

Everyone is welcome to the Hall of Texas History, children and adults. Admission is free.

MPI Head Praises 90 Percent Parity Milk Price Support

"Milk drinkers in the Nation can thank Secretary of Agriculture Freeman and the Johnson administration for heading off a serious future milk price raise," said Harold Nelson, general manager of Milk Producers, Inc. "The Secretary's announcement, on March 20, to support dairy prices at 90 percent of parity should halt a nationwide decline in milk production," according to Mr. Nelson. "Secretary Freeman and the Johnson administration showed great foresight in taking this action. Had it not been done, the resulting milk shortage could have caused drastic price increases that would have affected the nutritional needs of every man, woman and child in our Nation," predicted Nelson.

Speaking for the 9,000 dairy farmers in a five-state area he represents, Mr. Nelson declared, "Milk producers are fortunate to have such men of vision as Secretary Freeman and others in the Johnson administration who used every tool in their power to halt a serious milk shortage. Only fairer prices can slow the exodus of dairymen from one of the Nation's most vital industries.

"We are proud that our President is a product of rural America and is sensitive to threats to the conditions that built this great Nation. By taking this action, Freeman and the administration showed that they recognize the importance of strong agricultural prices to the economy of the Nation.

"Our Board of Directors adopted a resolution following the Secretary's announcement commending the Johnson administration for providing this stabilizing influence in the dairy industry and the Nation's economy," stated Nelson. Milk Producers, Inc., with general offices in San Antonio, represents dairy farmers in Texas, Oklahoma, Arkansas, Kansas and New Mexico.

Tigers Lose 11-1 To Gainesville B

Sacred Heart's baseball team, still completely without benefit of practice, went down by an 11-1 count at Gainesville last Thursday. But Coach Tom Williams is not down hearted. Gainesville B was mostly A in this case, and the Tigers played them well most of the time. Hits are still scarce, he said, but strikeouts are fewer. At least the boys are connecting. And their fielding is better too.

The Tigers' only run came easy as the Gainesville hurler walked four in a row. With one out and three on base Sacred Heart prospects were temporarily bright, but the next batter hit into a double play.

Tigers have two more games booked at Gainesville, Friday and Monday at 3:30. First action at home will be with Lindsay next Tuesday at 2 o'clock.

can be more effective as a legislator—than someone without this experience. On this basis, I am asking for your vote in the Democratic Primary May 4."

As Assistant Attorney General of Texas during the administration of Will Wilson, Mr. Scofield became familiar with the operation of many departments of state government, including the legislative branch.

"My training, my professional background and my personal interests have been directed to matters of law and government for many years," Mr. Scofield continued, "and this — plus the practical experience I have had in state government — will enable me to give this district the type of representation it needs and is entitled to have in Austin."

"In addition, I have always believed that good government starts at the grass roots level, and that what we do in our precincts and our communities is very important," he added, "and I would like to point out that I have a consistent record of participation in the Democratic Party at precinct, county and state levels."

A native Texan, Mr. Scofield formerly practiced law in Gainesville with the late Cecil Murphy of that city. His parents, Mr. and Mrs. J. A. Scofield, are Gainesville residents, and he is the grandson of the late Mr. and Mrs. J. B. Scofield, also of Gainesville.

His aunt and uncle, John S. and Rita Scofield, were at one time ranchers in the Marysville area.

A former City Judge, Mr. Scofield is a past president of the Lewisville Chamber of Commerce and has also served on its Board of Directors.

He is Chairman of the Board of Trustees of the First Methodist Church in Lewisville as well as a member of the Board of Trustees for the Lewisville Public Library.

During World War II, he served with the Marines in the South Pacific and was awarded the Purple Heart.

Meet the cleanest cook in the kitchen... ELECTRICITY.

Lucky families who are cooking on electric ranges are discovering how clean kitchens can be. They don't have to repaint as often. Kitchen curtains keep their freshly-laundered look longer. Even cooking utensils need no scouring because the bottoms of pots and pans stay shiny meal after meal. And electric ranges have never been easier to care for than they are today.

All in all, electric ranges are eliminating hours of dreary housecleaning and saving money, too.

Add that to the perfect-recipe performance of electric controlled-heat cooking and TP&L's low-cost electric service, and you know why more and more families are cooking electrically every day.

State Hospital Is In Need of Items For Easter Cheer

An appeal for special Easter needs comes from the Volunteer Services Council of Wichita Falls State Hospital. Items listed by Miss Beulah Ann Johnson, volunteer coordinator, include women's hats — straw hats only — gloves, purses and cosmetics, men's white shirts, sport shirts, ties, cuff links and toilet articles. Also Easter flowers, real or artificial, for chapel and 40 wards, coffee, cookies and Kool Aid. Patients need help all year long, Miss Johnson said, and everything is appreciated. Deliver to Volunteer Service Building, Wichita Falls State Hospital. Medical studies reveal that cheerful people are healthier than unhappy people. Confetti . . .

ishly suggested by some people over here. Knowing what has happened before when reds got into coalition governments, it seems obvious that such an agreement is only a step toward total communist take-over. In other words it amounts to defeat for U.S. and South Vietnam.

The big question now is how will Hanoi respond to our latest peace offer. Will it exploit the present circumstance and try for a settlement which amounts to victory? Or will it use the bombing pause to reinforce, confident of inflicting humiliating defeat on us? Either way it's bad for our side.

On the other hand there's a good sign of better prospects.

As LBJ said, principal areas of population and food production are being spared, but areas of conflict are still being pounded. Possibly the president's motive is to emphasize a final appeal to the enemy while showing critics over here that he'll go far in seeking a settlement. We prefer to think that he intends to talk turkey if reds accept the offer — or start fighting to win if they reject it.

Our country can take encouragement too from new developments in South Vietnam. People there apparently are becoming more conscious of their stake and their responsibility in the war. They talk of big increases in their fighting force, of going it alone if we decide to pull out. The better spirit there combined

with a winning policy here would make a big difference.

Surprise! Latest from Hanoi is that reds are willing to talk about negotiating. That's something, finally, even though not a definite sign of progress. So now we have two big questions. Will the war end? If so, what will the settlement be?

14th Birthday

David Bright Jr., 14 years old Wednesday, had help celebrating his birthday with ice cream, cake and soda pop. His mother served the refreshments after school to his grandparents, the J. M. Weinzapfels, cousins Ronnie, Melissa and Robert Weinzapfel and his sisters and brothers. They remembered him with gifts.
