# Ticket Sales for Hall Dedication End Next Sunday

The last call has been sounded for people who wish to attend the community dinner following dedication of the new Sacred Heart Community Center on Sunday, December 8.

Father Placidus Eckart announced in last Sunday's parish bulletin that ticket sales for the dinner will end next Sunday, December 1. The tickets are available through this week at Gehrig Hardware, Ben Franklin Store and Hennigan Auto Parts and will also be available at the Rectory through next Sunday.

Reason for shutting off sales, says Father Placidus, is to have a firm figure for making preparations, that is regarding the number of tables and chairs to be set up and especially the number of meals to be catered. Everyone who wishes to come is urged to see one of the listed busigame program with Sanger on ness firms before closing time the MHS court Tuesday night. GREETINGS:

The statewide promotion of Gift Certificates for Meat, Poultry and Dairy Products presents a happy solution to the dilemma of what to give for Christmas. The giving of these foodstuffs expresses the true spirit of the season. Furthermore, these products are in abundant supply at this time and are good

The Cooke County Farm Bureau and other agricultural groups, have developed a program encouraging the giving of gift certificates for meat, poultry and dairy products. The use of these certificates not only solves the problem of what to give, it also represents a timely boost for producers of these essential foods.

NOW THEREFORE I, as County Judge of Cooke County, do hereby proclaim the month of December, 1974, as

GIVE MEAT, POULTRY AND DAIRY PRODUCTS MONTH"

and urge all citizens to take advantage of this unique gift idea. I further urge local news media to promote this positive approach to helping relieve the distress of these segments of our farm and ranch com-

# THE PROOF

Based on GM Proving Grounds mileage tests and extended maintenance intervals for Chevy's bestselling 1975 pickup -- projected through 50,000 miles

Chevy is serious about truck economy. For 1975, Chevrolet has made meaningful advances designed to lower the costs of operating this C10 Pickup. Based on GM Proving Grounds mileage tests and new extended maintenance intervals, projected through 50,000 miles of driving, savings in operating costs can be as much as \$680 compared to last year's comparably-equipped model.

#### Let's look at this specific model: the popular C10 Half-ton V8 Pickup.\*

This is Chevy's best-selling pickup and it offers outstanding potential for lower costs of operation. Projected savings based on GM Proving Grounds tests are shown in the box at right. These savings, of course, will vary depending on equipment, loads, operating conditions, driving habits and the price of gasoline.

#### More miles per gallon definitely helps lower the cost of ownership.

Comparing this 1975 Chevy C10 Half-Ton Pickup\* with its 1974 counterpart in the GM Proving Grounds City/Suburban Driving Schedule, the '75 Half-Ton, using unleaded gasoline showed about a 14% reduction in fuel consumption over the '74 model using leaded fuel. As detailed in the box at right, this would amount to net savings of \$343 in 50,000 miles. Again, these savings will vary depending on equipment, loads, operating conditions and the price of gasoline.

#### New extended maintenance intervals help reduce operating costs.

Compare maintenance costs for the same two pickups. Following the Maintenance Schedule for recommended service, this '75 Cl0 Half-Ton Pickup, using unleaded fuel, could save about \$337 on parts, lubricants and labor over the comparable '74 model, using leaded fuel projected through 50,000 miles of driving. That's because this new '75 C10 model has a catalytic converter and High Energy Ignition and needs fewer scheduled changes for spark plugs, oil, and filters, needs fewer chassis lubes, and has no points or ignition condensers to replace.

#### Projected lower operating costs during 50,000 miles

1975 Half-Ton 350 V8 Fleetside Pickup\*

Increased miles per gallon Increased miles per gallon
As tested in GM proving grounds city/
suburban driving schedule, this 1975
Chevy C10, using unleaded fuel, shows
about a 14% reduction in fuel consumption over a comparable '74 model using leaded fuel. That's 700 fewer gallons in 50,000 miles. Cost figures could
vary, depending on the price of leaded
and unleaded fuel in local areas; however, at a price of 56c per gallon for
unleaded fuel, allowing a one cent per
gallon increase over leaded fuel as permitted by federal regulations, this
would represent a net savings of

Extended maintenance intervals Chevy compared scheduled maintenance costs, for both '75 and '74 half-ton costs for both "75 and "74 half-ton models, using recommendations from the 1975 Chevrolet truck series 10-30 light-duty emission system maintenance schedule, current list prices for parts, and a figure of \$11 an hour for labor. Actual figures in various specific localities could be higher or lower, projected through 50,000 miles, the savings in parts, lubricants and labor for this "75 model could add up to

\* Vehicles and Test Description

Comparisons are based on the following 1975 Chevrolet Half-Ton Pickup and its comparable 1974 model: C10 350 2-barrel V8 Fleetside Pickup, 8-foot box, under 6,001 GVW, equipped to comply with Federal emission standards, with Turbo Hydra-matic 3-speed transmission, 3.40:1 axle ratio, and L78-15 tires. Mileage tests were conducted in the GM Proving Grounds City/Suburban Driving Schedule at average speeds of 24 mph with 1.6 stops per mile. Test averages from three production '75 models were compared with test averages from three production '74 models. Test weights were 4,649 pounds for the '75s and 4,570 pounds for the '74s.

> Mr. and Mrs. Dude Berry attended funeral services for Guy Sampler in Decatur, Nov. 22. Mr. Sampler is the fatherin-law of the former Elsie Monroe - Elsie is Mrs. Berry's sister.

Bula Mae Berry tells me she has been nursing a very bad ingrown toe nail for about a month. About two weeks ago she went to see her doctor and told him she had come to have the toe cut off. The doctor wouldn't go along with that, but she goes back to him in two weeks. She says he is gonna cut it off or do some-- she has suffered enough. Guess she must be in pain if she is ready to have it amputated.

The Bruno Fleitmans had an early Thanksgiving reunion the past weekend when their daughter Janie, Mrs. Frank Cox and daughter Kelly Jane of Houston were guests. They were met at D-FW Airport by Jerry Fleitman Friday and returned Sunday night. Seeing them off were Mr. and Mrs. J. D. Fleitman and sons Douglas and Sam and Mrs. Bruno Fleitman. It was young Kelly's first air travel.

While here the family was together Saturday noon and all day Sunday in the Fleitman home. The Don Lesters of Gainesville were with the group and were hosts for supper in their home Saturday evening. Mrs. Cox brought along and showed pictures and slides of a recent Paris and Rome trip she and her husband took.

## Accidents Increase 55 Speed Limit

The reduction of the speed limit due to the energy crisis has definitely affected the number of traffic fatalities in Texas, but many drivers are starting to disregard the limit

and drive at greater speeds.

Jim Arnold, Administrator of the Governor's Office of Traffic Safety, issued a plea for the motorist to cooperate and observe the 55 mph limit on a voluntary basis. He also announced plans for a stateple getting monthly social wide study to determine the security payments are 72 effect of the lowered speed limit in relation to fatal acci-

Said Arnold, "When the energy shortage hit and the limit was set at 55, by state and federal law, most motorists complied and kept their speed down and limited their travel. ed an increase," said Arnold. Another contributing factor that may increase the chances of traffic crashes, injuries and fatalities, is the "variances of speed ranges." "For example," said Arnold, "a motorist is on the highway at 50 miles-perhour and he is passed by a driver traveling 70 or more. This variance in the range greatly increases the oppor-

tunity for an accident." Arnold said as the speed is violated to excess, the fatality figures may increase, therefore he has called for a state-wide study to determine the relationship of traffic accidents to the speed limit reduction in Texas.

and punch. The young couple have been residing in Wichita Falls since their marriage. However, they left for Colorado Nov. 25 to make their home in a small town west of Denver. Paula told me she plans to enroll in the university at Boulder at mid-term.

Might add here that Dave Roberts sure did make a fine 'hostess" at the shower. He was passing out cake, coffee and punch like an ole pro.

On Nov. 17 there was a big family dinner in the home of Mrs. Ada Jackson in Forestburg. It was in honor of Ada on her 86th birthday which came on Nov. 18. All of Ada's children, but one, were there. The one not present was Mrs. Jean Ensey of Bakersfield, Calif. Those there for dinner were Messrs. and Mmes. Enis Steen, Hob Jackson, and Tommy Swan, Chris and Bill all of Fort Worth, the Joe Jacksons of Nocona and the Warren Jacksons, Dana and Charlsey of Wichita Falls, Messrs. and Mmes. Ray Jackson and Jack C. Dill and Vatoni of the burg, Mrs. J. T. McCandless and Todd of Matador and the Bill Jacksons and Janice of Decatur.

Then in the p.m. other visitors were Mrs. Vallie Buck, Messrs. and Mmes. Ernest Thurman all of Nocona, Lonnie Gilliland of Newark, W. A. Griffin of Wichita Falls and Charles Dill of the burg.

Yours truly and the better half attended the annual Thanksgiving Bar-B-Q at the Muenster Livestock Sale Barn Thursday, Nov. 21. Saw several Forestburgers over there - the Howard Sockwells, the Shorty Ropers, the H. Knoxes, Audie Lee Knox, Gene Shears, J. T. Willis, Cecil McCandless, Cecil's wife Mary

Mr. and Mrs. Louie Lowrance and family of Sunset were over in Dewey visiting with Robert and Juanita Ensey Nov. 10. Yours truly stopped by there about dinner time and Juanita sure did have a good dinner whomped up for them.

Visiting Harold Freeman Nov. 10 were Joe Smith and Roger Thomason.

Monday night, Nov. 11 was P.T.O. meeting night at the local school. Bowie Chief of Police Byron Wasson gave a program on drugs and drug abuse. Charles Edwards and his Ag boys gave a program which was most interesting. The sixth grade won the room count at this meeting.

Cleo Lanier and two grandsons Tracy and Jeff cleaned up the little roadside park again Monday. We certainly should give these three some thoughts of appreciation seems that Cleo always takes on the burden of keeping it clean.

On Nov. 14 Clifford and Merle Hudspeth were very pleasantly surprised by a visit by some members of the Vardell family. Clifford and the Vardells were friends many years ago when the Vardells lived on the Price Hudspeth place out on the prairie. Visiting were Ernest Vardell of Biggs, Calif., and Mr. and Mrs. S. T. Grism of Randlett, Okla.

Mrs. Mary Edwards visited with her cousin Brenda Cannon in Gainesville Nov. 15.

# Reducing plan for energy users

# Plan C How to save electricity when using ranges

- 1. When using top-of-range utensils, cover tightly and cook with minimum of water. Cooking's faster; less energy's used. Food looks and tastes better, too.
- 2. Use flat-bottomed utensils for best contact with heating surface. Use proper size utensils. A 6" pan on an 8" heating surface wastes energy.
- needed and only to temperature stated. Normal preheat is 10 minutes; any longer wastes 4. When broiling, do not preheat.

3. Preheat oven only when

Leave door ajar...air circulation insures proper broiling. 5. Use oven fully. Fill it with foods

that cook at same temperature.

- Freeze extras for later use. 6. Center pans in from oven sides, staggered above each other (no overlap) for best
- heat distribution. 7. Keep oven shut. Opening door drops temperature 25° or more; wastes energy.
- 8. Thaw frozen meats before cooking.

- 9. Do not use oven or surface heating elements for home heating.
- 10. Turn range off immediately when finished.

Conserve electricity and you help conserve one or more of the fuels needed to produce it: natural gas. coal and oil. Conserve fuels and you help assure that there will be enough to meet essential needs for electricity in the future.

When you pass a TP&L office, warehouse, generating plant or other facility, you'll see that we've turned off all non-essential lighting. And, in as many other ways as possible, TP&L is reducing its own uses of electricity.

If you would like additional information on conserving electricity, call or see the Customer Service Representative in the TP&L Office.

#### Car Registrations Expected to Pass 105 Million in '74

Passenger car registrations in the United States are expected to reach more than 105 million by the end of 1974, according to the American Automobile Association (AAA), Texas Division.

The AAA cited Federal Highway Administration figures that estimated there would be an increase of 3.5 percent over the number of cars registered in 1973 - 105,-287,000 as compared to 101.8

In Texas there should be an estimated 6.125 million cars registered by the end of the year, an increase of 4.2 percent over 1973's 5.881 million.

The expected total number of national motor vehicle registrations in 1974 is 130,751,000, an increase of 4.2 percent, or 5,330,124 over last year's 125,-

Trucks and buses should total 25,464,000, a 7.6 percent

States that lead in the number of motor vehicle registrations are California, expected to have 13.8 million, followed by 8.3 million in Texas, 7.6 million in New York, 6.9 million in Ohio and Pennsylvania, 6.2 million in Illinois, more Betty Fuhrmann accom- than 5 million in Florida and panied other staff members of Michigan, and more than 4 million in New Jersey.

Girls Gehrig's Hardware, Ben doing the defensive work were Linda Miller, Mary Hess and Elizabeth Kralicke,

In the next game Tigers got off to a fair start and trailed by only 17-10 at the first quarter, but then were swamped during Forestburg's explosive second and third quarters. Scores ending the periods were 49-20 and 75-32. In the fourth Forestburg reserves were in and Sacred Heart closed the gap slightly.

Roger Endres led the scoring with a big 28, Ricky Walterscheid made 7, Bob Hartman 6, Pat Endres, Glen Walterscheid, Ken Felderhoff and John Henscheid each 2.

#### SH Eliminated in Second Games of Weekend Tourney

Sacred Heart's basketball teams lost a pair to Collinsville in the openers of last week's tournament at Whitesboro, and then were eliminated from the consolation bracket as the girls lost to Howe and the boys to Whites-

In their first action the Tigerettes made a cold start and trailed 15-4 at the end of the first quarter and then played it near even for the rest of the game. Scores ending the other periods were 21-11, 25-19 and 34-25.

Gloria Hess hit 11 for Sacred Heart while Marlene Pagel made 6, Sharlene Pagel 4, Mary Hess 2 and Laura Kralicke 2. Tigerette guards were Janet Bayer, Linda Miler and Mary Hess.

In the second game Sacred Heart trailed 8-3 at the quarter and rallied for a 17-16 lead just before the half, but two free throws put Howe ahead 18-17. Third quarter was a big one for Howe who jumped to a 31-22 lead and then coasted to the 43-30 win.

Tigerette scorers were Gloria Hess; Laura Kralicke 6, Marlene Pagel 5, Sharlene Pagel 3, Mary Hess 2. On defense were Elizabeth Kralicke, Janet Bayer, Linda Miller and Mary Hess.

Boys, like the girls, lost their opener in the cold start of their first quarter, which end 16-4 favoring Collinsville. After that the Tigers gained by 2 as scores ending the periods were 31-24, 49-41 and

Roger Endres led the Tiger scoring with 30. Mark Hess made 16, Joe Hoedebeck 7 and

John Henscheid 4. That put Sacred Heart in the consolation bracket, from which it was eliminated by a classy Whitesboro quint which apparently could do no wrong. The Bearcats did a fine job of ball handling and shooting to keep extending the margin by scores of 34-12, 59-24, 78-33 and 94-48. SH scorers were Roger Endres 28, Pat Endres 12, Mark Hess 8.

## Have Safety with Beauty In Your Christmas Plans

turn into a "beast" unless you've planned safety into your decorations.

Trees, lights, candles, tree and mantle trimmings, your fireplace and excess paper can be a source of trouble, says the Texas State Department of Health.

Center of most home decorations is the brilliantly lighted and colorful tree, and it should be the place for starting your safety efforts.

In selecting a cut green tree, get one with a good green color. Needles of a fresh tree should be hard to pull from branches, and needles won't break when bent. Bounce the tree hard against the ground and you won't get a shower of needles if the tree is fresh.

Trees should be placed in base which holds water, and this water should be checked regularly while the tree is up. Before mounting the tree, cut about two inches off the trunk to allow it to better absorb the water.

Placement of trees also is important, says the State Health Department. Keep them away from stoves, fireplaces and radiators which could cause a tree to dry out quickly and perhaps catch fire. What about decorations?

Never use lighted candles on a tree or near other evergreens, decorations or wrapping paper. Candles should be in non-flammable holders and in locations where they cannot be knocked down or blown

In selecting lights, check for the Underwriters' Laboratories "UL" label. On all strings of lights, make certain that all connections are tight and that there are no frayed or bare wires. These could cause short circuits and perhaps a fire — or a shock to the person installing them.

Outdoor lights should be waterproof. They are especially made for the outdoors. When away from home, or

when you go to bed, turn off all lights. And, never use electric

ights on metallic trees. Trimmings for trees and elsewhere in the home should be of flame-retardant material, something that won't flare up

f accidentally ignited. If using spun glass for decorations, wearing gloves may keep the "angel hair" from irritating your skin. And, keep

it away from your eyes. Tinsel and artificial icicles are made now of plastic, which is preferable to lead products. Leaded materials are hazardous if ingested by children, says safety experts.

If there are small children in the home, care should be taken in selecting decorations. The United States Product Safety Commission urges parents to avoid decorations that are sharp or breakable - in-

Beautiful homes are the rule | small removable parts if used during the Christmas season where children can get at just ahead, but beauty may them. Pieces could be swallowed or inhaled. And, trimmings resembling cady could be eaten by a child.

When installing their trees many people burn the trimmings from branches in their fireplaces. If burned a piece at a time, this shouldn't cause any problem. But piling up a big mound of evergreens could cause popping and mental Security Income recipicrackling and a large number of sparks. So be careful. And always use a screen before the fireplace.

The Product Safety Division of the State Health Department hopes that all clothing will someday be flame resistant. Standards are now in effect for certain types of children's clothing. But until that time, extreme care needs to

Matches, lighters and canthe reach of children. Children and adults should avoid the wearing of loose, flowing clothes - especially long, open sleeves — near the open flames of a fireplace, stove or candle-lit table.

And, once those presents under the tree have been wrappings from the tree and fireplace area and remove payable. them from the home.

Christmas should be a joyous occasion. Keep it that way by planning for safety, says the State Health Department. It will add to your enjoyment of the season to know that you and your loved ones are safe as possible.

tion of food. They don't agree, for instance, that we need the quality and quantity of beef being produced by our lavish grain feeding. They think we can get along well on less beef and lower grade and save great quantities of feed grain to send to low producing countries.

Indirectly this suggests the 'gunboat diplomacy" referred to as a possible consequence of the oil crisis. Nations may become desperate if their need becomes sufficiently critical. In the same way our excessive use of food may drive some of the have-not people to desperation.

Don't be surprised if, little little, we see a gradual change of the American diet. Nutritionists tell us we're very inefficient in our use of protein. Cattle, poultry and swine consume much more than they give us in meat, eggs and milk. Besides that we eat much more meat than we need, according to the diet experts, and more than we should, according to medical

SSI Beneficiaries Asked to Contact Social Security

"People who are receiving Supplemental Security Income (SSI) monthly checks will have to answer several questions which will be asked by the Social Security Administration. This is so that a redetermination may be made as to their continuing eligibility," said Gus Jones of the Sherman Social Security Office today.

"At this time, our office is sending letters to Suppleents who were converted from Welfare on January 1, 1974,' continued Jones. It is the recipient's responsibility to contact the Social Security Office so that all necessary information may be obtained. In most cases, there will be no change, and a person will continue to receive his checks in the usual manner without any interruptions.

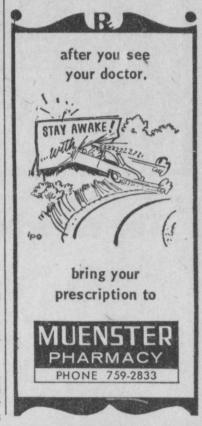

However, there have been cases in which an SSI recipidles should be kept out of ent was receiving the incorrect amount, and this had to be corrected. The person who gets the checks, whether for himself or on behalf of someone else, is responsible for giving the Social Security Administration all information which would cause those checks to be increased, deopened, gather up all those creased, or even if there would be no change in the amount

"It is preferred that the person receiving the checks appear in person because at least once every two years a face-to-face interview is required," explained Jones. If a person cannot come into the office (or meet with our representative), he should contact the Social Security Office by telephone. Jones further stated that "If a person fails

to contact us within a reasonable period of time, it may become necessary to suspend that person's benefits." Therefore, to avoid any interruption in checks, a person should contact the Social Security Office immediately when he receives

a letter asking him to do so. The Sherman Social Security Office is located at 810 N. Travis. The telephone number is 893-4301. Office hours are from 8:30 a.m. to 4:45 p.m., Monday through Friday, except national holidays.

A representative may be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12 noon and 12:45 p.m. to 3:00 p.m. at the Federal Building. Those people living in Gainesville may call the Sherman office toll free by dialing "O" and asking for ENterprise 6-2528.
