VOLUME XXXIII

MUENSTER, COOKE COUNTY, TEXAS 76252 JULY 11, 1969

NUMBER 33

While Washington wrangles over extension of the surtax we average citizens wonder what is the principal motive behind this attempt to continue getting the extra money out of us. Do the politicians really expect to check inflation by taking that money out of circulation? Or are they more interested in providing themselves with the added revenue? The more likely guess is that politicians are looking for the funds to sustain their extravagant spending habits.

It's hard to understand how the surtax will reduce the volume of spending. It is a well known fact that government spends all that it gets, plus more. A long repetition of budget deficits indicates that every surtax dollar taken away from taxpayers will be spent anyway, so no one can reasonably expect a decrease of inflationary pressure.

In fact, it seems that the other way would be more effective. Americans have a good record as savers. Even in these times, when the value of their savings is being shrunk by inflation, they continue to put money aside for the future. If they were permitted to keep more of their income it can be logically assumed that they would save even more.

In the light of that fact it seems that politicians aren't really taking money out of circulation when they impose the surtax. The better way to reduce the volume of spending is to let people keep it. They'll use it more wisely than the government does. So, you can answer for yourself: does surtax actually restrain inflation or does it just give Washington more spending money?

A similar view can be taken of current agitation to plug some loopholes in tax regulations. The stated purpose is to equalize the tax load by extracting a larger portion from people and organizations now enjoying substantial tax exemptions. The theory has popular appeal. Make the fat cats pay more. However, too little is being said about methods to give corresponding tax relief to the other taxpayers. So, again, one must wonder whether the real motive is to help average people or just to get more money into the federal grab bag.

Common sense tells us that reduction of little people's tax cannot be considered until either of two corrective measures has been adopted. Either cut the budget or increase the tax on the favored people. Perhaps either or both are in the plans, but until evidence of the effort is apparent we can go on suspecting Washington's motives.

Still another point to consider is the nature of loopholes under political attack. Plugging some of them would be only an indirect way of tapping average folks for the increase of revenue. For instance, removing the tax exemption on interest from municipal bonds. Those bonds then would have to compete with commercial investments for financing funds, and interest rates would increase accordingly. The revenue realized by closing this "loophole" would have to come from local property taxes.

A similar situation applies to removal of the depletion allowance on oil income. Experience has shown that the industry needs it to stay in business. Removal would be followed inevitably by higher prices for petroleum products. Indirectly consumers would have to provide the additional income realized by the federal government.

Lots of other tax exemptions are regarded as loopholes with varying degrees of justification, some of them fair game for the tax reformers. One is the tax immunity of income from the fortunes of labor unions, accumulated by dues of compulsory membership and business investments. A person would think they should forfeit their exemption because of political meddling in violation of the federal corrupt practices act. It also seems reasonable that their earnings on investment should be taxable like other people's earnings. But there again it might be said that the individual member is the indirect payer of tax money taken from a union.

Likewise there's agitation to tax income from churches, foundations and other institutions. Our first reaction is that their earnings on investments, some running into the mil-

## 316 Enrolled for Annual Red Cross Swim Classes

Muenster swimming pool is a beehive of activity this week and next during its annual free Red Cross swimming classes under direction of the Cooke County Red Cross Chapter.

Enrollment at mid morning Wednesday was 316 and more are expected. The breakdown of that total is 242 beginners, 15 advance beginners, 25 intermediates, 5 swimmers, 16 adult ladies, 3 senior life saving, 10 junior life saving. That represents a strong gain over last year when the total for the course was 260.

Classes are under direction of Mrs. Robert Lewis of Gainesville assisted by Mrs. Nolan Baugh of Sivils Bend, Misses Melissa Lewis, Mitzie Brannon and Ted Westmoreland of Gainesville, all having a Red Cross rating of water safety instructor.

Also assisting are Dan Hamric, pool manager, and his local group of instructors. They are Donna Endres, Darleen Wolf, Kathy Swirczynski, Cindy Swirczynski, Shirley Swirczynski, Yvonne Gehrig, Janet Stoffels, June Stoffels, Nancy Fuhrman, Peggy Endres, Joan Monday, Barbie Hess, Mary Wimmer, Debbie Cain, Doris Felderhoff, Janet Bayer, David Fette, Kenny Hess, Tom Hennigan, Ronnie Felderhoff, Curtis Klement.

Life saving classes, taught by Mrs. Lewis start each day's activity at 8 o'clock. They occur a two hour period, first hour consisting of a lecture and the next of practice and testing.

Remaining students, slightly over 300, are divided into 2 groups with classes on alternate days, and each of the groups is assigned to three classes with one hour periods starting at 9, 10 and 11 o'clock. The net result is that each class has about 50 students taught by the staff of about 25, an average of two students for each instructor.

The course for each child, except life saving, consists of five 1-hour periods. Life saving is a 15 hour course. All who finish a swimming course will be eligible for a Red Cross pin or certificate. Those who finish life saving are eligible for certificates and patches.

## 25 Scouts Spend Week in Camp at Possum Kingdom

Twenty five members of the Muenster Boy Scouts are having a busy week of work and play at Camp Constantine on Possum Kingdom Lake.

The camp is primarily an opportunity for the boys to earn merit badges and Scoutmaster Ed Schneider plans a court of honor soon to present the awards. Other camp activity is a supervised program of outdoor recreation. The boys eat in the camp mess hall, sleep on their beds in tents provided by the camp.

Scoutmaster Schneider phoned home Tuesday night saying that the boys are fine and events of probable interest to parents are the Order of the Arrow ceremony Thursday night at 8:30 and the closing ceremony Friday night at 8:30. For the convenience of those who wish to go, he has given special travel directions to his wife. She will pass on the message to those who phone her.

The Scouts left here by school bus last Sunday at 1 p.m. and arrived at camp shortly after 3. They expect to be back home Saturday about mid-afternoon.

Boys attending are Dale and Gerry Cash, Joe, David and Tommy Bright, David and Danny Fette, Ray and Damian Luke, Bob and Jim Schmitz, John Schneider, Mark Hess, Johnny Henschel, Glenn Henschel, Ronnie Weinzapfel, Joe Swirczynski, Bruce Fuhrman, Mark Stoffels, Bob Endres, Frank Moser, Randy Wolf, Tim Felderhoff, Alan Miller, Terry Walterscheid.

## Gains Reported In Deposits, Loans At Muenster Bank

An increase of both deposits and loans at Muenster State Bank during the past year was indicated last week in the regular quarterly report requested by the state banking commission.

As of the close of business on June 30 the bank had deposits of \$3,820,054.09, an increase of \$178,785.56 over the figure reported on June 29, 1968. At the same time the total of loans was \$2,160,029.70, a gain of \$387,753.20 over last year's amount.

Total loans also show an increase since the bank's quarterly report on April 30. They had gained \$237,370.30 over the previous report of \$1,922,659.40. However deposits dropped \$397,033.16 during the period from the previous \$4,217,087.25.

Reports on the four Cooke County banks show deposits at all time high of \$30,730,424.43, a gain of more than \$4 million during the past year and a gain of almost \$1.5 million in the past quarter.

Loans too set a new record for the county banks. Total for the June 30 report was \$14,659,398.34, a gain of almost \$2.2 million for the year and of almost 1 million since the last report.

## Illness Cancels European Tour

A trip to Europe was cancelled out for Mrs. Ben Seyler Friday afternoon while she awaited departure of her plane at Love Field, Dallas. She became ill shortly before take off time and had her grandson, Jacob Bezner of Gainesville, take her to Muenster Hospital instead.

Within hours she was feeling fine at the hospital but remained until Monday for observation, then went home.

Four traveling companions decided to go without Mrs. Seyler rather than lose the trip. They are Sister Johann Seyler of Jonesboro, Ark., Mrs. C. W. Ratliff of Lubbock, Mrs. Lambert Bezner of Gainesville and Miss Aggie Lou Adams of Midland. Their tour includes London, Germany, France, Italy and Holland. They expect to return home next week Friday.

## Center Softball Team Wins Two

Things are looking better for the Center softballers, Muenster's entry in the County league. Though out of the running for loop honors they have strong hopes of improving their percentage in the closing weeks of the season.

Their inspiration is two consecutive wins in the past week. One was just a practice game and does not show on the season record but it was good for morale. The other did count and sets the record at 2-7-0.

The practice game was with Ronnie Herr's Conoco team, also a member of the county loop. It was played July 4th on the Muenster field. Good grouping of hits won the game for Muenster. A walk followed by 3 hits yielded 3 runs in the first and 2 hits following an error yielded another run in the fourth. The visitors got 1 run. Glenn Coffman allowed 4 hits and no walks and fanned 6. Muenster hitters were Joe Felderhoff, Adam Wolf, Roy Reiter, Charles Cash, Len Reiter and Glenn Coffman.

The game that counts on the record is the 14-0 win over Gainesville Planning Mill Monday night. Alvin Hartman and Charles Cash shared in a shut out while seven Center men got nine hits. They were Glenn Richardson and Tim Endres 2 each and Roy Reiter, Len Reiter, Adam Wolf, Don Schneider and Lee Roy Hess.

Sacred Heart High Seniors will conduct a scrap paper drive Saturday, July 12. Persons with paper to give are asked to have it out at the curb.

# Bike-Trike Parade, Dance Ball Games Observe 4th

Muenster's annual July Fourth observance drew a large attendance for a variety program sponsored by the local court Catholic Daughters of America. The organization, prompted by two previously successful Independence Day programs of a similar nature, again arranged entertainment to keep the younger set at home.

Highlight for the kiddies was a decorated bicycle and trike parade. A women's ball game was next followed by a men's ball game and the program ended with a dance. The Circe providing the music. Events were held in the ball park except the dance which was in the KC Hall. # Priests Exchange Jobs

Father Benedict Buergler and Father Bede Mitchell are swapping jobs this week. Father Benedict, after spending exactly four years as assistant pastor of Sacred Heart Church, has been promoted to pastor of Holy Redeemer Church, Clarksville, Ark.

Father Bede, after five years as pastor at Clarksville, is taking on less strenuous duty as assistant pastor here.

Father Benedict left here Tuesday. Father Bede is expected here Friday.

Both priests are monks of the Benedictine Abbey at Subiaco, Ark.

Father Bede was born January 7, 1899, professed membership in the order September 8, 1919, and was ordained on May 21, 1925. After becoming a priest he took post graduate studies in philosophy and theology at Notre Dame University and spent many years teaching those subjects in the Subiaco seminary. Meanwhile he did weekend pastoral work in near-by Arkansas parishes.

He also conducted many missions and retreats, one of each in the Muenster church.

Father Bede has been a resident pastor for the past fifteen years, located in Little Rock, Charleston, Scranton and Clarksville, Ark. At Clarksville he has been pastor of the parish church and of a mission church at Hartman, 10 miles away, and was also chaplain of the Newman Club at the College of the Ozarks in Clarksville. Hartman is known to some Muenster people as the home town of their former pastor, Father Frowin Koerd. The triple job left by Father Bede is the new assignment of Father Benedict.

The past four years here have been very busy ones for Father Benedict. Along with duties as assistant pastor he has headed the religion department at Sacred Heart School and the CCD program of religious instruction for public school students. He has also participated in the adult study clubs of the parish.

### MAKING SENSE

A New Jersey congressman, Dominick Daniels, has introduced legislation which would raise from \$1,680 to \$3,000 the money a social security recipient could earn yearly without penalty. This makes sense to us.

In the beginning there was reason for curbing the retiree's outside earnings. We were just pulling out of the great depression. Jobs were scarce and it was good business to remove seniors from the labor market. Such practice meant more jobs for the juniors.

Later the figure was moved from \$1,200 to \$1,500 and then to the present \$1,680. But this doesn't begin to allow for the inflation that has taken place

in 30 years. In terms of value, \$1,680 is much smaller than the original \$1,200 allowance.

Furthermore, times have changed. Unemployment is negligible. There is no longer any reason to keep a low limit. Indeed, there is a good case for removing the limit entirely.

Many retirees have good health and are itching to do something. They want work and they need more money on which to live for reasons beyond their control. And many employers could use them. And lastly they paid their good money into social security; they are entitled to draw it out even while they continue working.

### THE WIRETAP SCANDAL

It is our opinion that the scandal concerning the tapping of the phone, or phones, of the late Martin Luther King has taken an unfortunate turn. The current tempest is not in the public interest and we are surprised on one point and one point alone.

Columnist Carl Rowan is ranting about whether or not FBI Director J. Edgar Hoover ordered the surveillance with the permission of the late Robert Kennedy.

Former Attorneys General Ramsey Clark and Nicholas Katzenbach have denied every step of the way that they were involved with the electronic eavesdropping.

The FBI maintains that the listening was approved. And the issue becomes more clouded with each successive statement by either side.

We would like to see some light shed on the real issue and we think that the man in the street is probably thinking about the same thing; Why did the FBI feel that it was important to listen in on the conversations in the first place? We do not accept the smoke-screen answer of "prejudice". The FBI could do nothing with the material obtained unless such information proved illegal or subversive activities, and even at that point it would have been up to the reigning attorney general to take appropriate action.

We cannot see any of the attorneys general who were in office at the time doing any harm to Martin Luther King. We suggest that current Attorney General Mitchell make public all of the conversations that were monitored and let the public judge whether or not Mr. Hoover was acting in the public's best interest.

If Dr. King was being harassed, these tapes would show it. If he engaged in activity that was destructive or illegal, the public has the right to know about it. Why not end the foolish debate and get down to facts?

### SCANDAL AT BYRN MAWR

Prestigious Bryn Mawr bowed to black militants recently and named the Communist party's official theoretician, Herbert Aptheker, as head of the school's Black Studies program.

The appointment was made after a small group of blacks demanded establishment of a program with Aptheker at its helm. Aptheker's teaching experience has been limited to Communist training schools.

As far back as 1940, Brooklyn-born Aptheker was rationalizing the twisting-turning Soviet line at various party institutions. Aptheker was then defending the Hitler-Stalin pact. In more recent years he has headed up the party's New York School of Marxist Studies, where he has laid down the line on Hungary and Czechoslovakia.

Aptheker and other Communist officials see the Bryn Mawr appointment as highly important, as proof that the party has become "as respectable as the Democrats or Republicans," to quote one leader. Aptheker, a 10-year veteran of the party's national committee, said simply: "It is thrilling, with wide national significance for the Communist party."

### Girls Softball

Doodlebugs and Lollypops missed a good opportunity Tuesday night to do something decisive about their neck and neck race for lead of the girls senior softball loop. They tied 14-14, so their season scores now are Doodlebugs 4-2-1 and Lollypops 3-1-2. Rainbows are far behind with 1-5-1.

Two games remain on schedule in each division. Thursday night's games are the last on the list: Daisies-Brownies and Lollypops-Rainbows. And next Tuesday the girls will make up the first games on schedule, which were rained out. That will be Brownies-Daisies and Doodlebugs-Lollypops.

Final action for some of the girls is the all-star tussle with all-star boys Friday night next week.

**Sr. Little League**

Monday was an eventful day in the senior division of the Muenster Little League. The Mill's perfect record was shattered 9-7 by the Center and Endres Motor finally broke its losing streak in a 15-5 decision over Electric Co-op.  
 Both of the losses are explained by absences due to this week's Boy Scout camp. Local rule does not permit playing non members so the Mill had only six players and the Co-op five. That left the teams short handed in the field but it was a bigger handicap at bat where the regular lineup was listed and the team was charged with an out when the listed batter failed to appear. The Co-op had 4 automatic outs each time it batted around, and The Mill had 3. The other two teams have longer rosters and still had full lineups in spite of absence of scouts.  
 Standings of the teams at this time are Mill 7-1-0, Center 6-2-0, Co-op 2-6-0 and Endres 1-7-0.  
 Last games on the schedule are set for Friday night, with teams facing the same absentee problem because of Scout camp. However the situation will be different as the short roster teams play each other. With similar handicaps on both sides, the Mill will be favored to win and hold on to its top position. Games scheduled are Center-Endres, Mill-Co-op.

**Tips from The Hatchery**

Better check your cedar trees. Could be that your bagworms are showing. About time for weevil spraying on your pecan trees, if you're not afraid it will get washed off soon. Wish you would check your garage and see if my electric hedge clippers are still there, got a lot of folks wanting to use them. Call, I'll come after them.  
 Tent worms are showing up in pecan and shade trees. Reckon I'd better get busy.

lions, ought to be taxable. But then one wonders again how much of the money would be diverted from worthy philanthropies to pay the taxes.

Tax reform is a complicated problem. Almost all of us can point at loopholes which, in our opinions, ought to be removed. However every exemption has its defenders with impressive reasons to prove that it is justified.

While admitting that some tax reforms would only trans-

fer tax burdens to already burdened people, this column believes that some organizations now enjoying tax immunity do not deserve it. It hopes that Washington will make an impartial study of merits and demerits and produce legislation which will primarily help people and not just provide more federal spending money.
