MUENSTER, COOKE COUNTY, TEXAS 76252 AUGUST 8, 1969

NUMBER 37

Getting one's self accepted as a ward of the national welfare system is a simple matter, as demonstrated recently by an executive of a radio station in Georgia.

The man looked like anything but poor folks as he walked into a welfare office seeking a handout. He wore a suit costing \$120 and had a general look of affluence, and was accompanied by a friend who appeared to be equally prosperous. He told the welfare worker a touching hard luck story about his fictitious financial troubles and came away with a month's supply of food.

He had proved his contention that almost anyone can get a handout from our welfare system. Too many workers just don't bother to find out how many of the applicants are undeserving and they don't seem to care that the stuff they give so freely represents an added burden to taxpayers.

The exasperating fact is that these welfare workers are our employees. We pay their salaries and furnish the money and things they give. One would expect them to show some concern for our interest. But they make little or no effort to turn down the phonies.

This, principally, is what is wrong with this country's welfare system. Americans are generous. They are glad to help people in need, but they deeply resent being played for suckers. They don't like the idea of putting out extra work to provide increased welfare funds which are handed out irresponsibly to people who won't work.

The people of Texas have just voted on Amendment 5 to increase the state's welfare fund from \$80 million to \$80 million. As this is being written the results are not yet revealed, however one can assume from previous widespread support that it will be approved. It should be for the sake of many poor people who desperately need help, and in spite of the phonies who are riding the poverty gravy train.

The situation is suggestive of the scriptural story of harvesting grain and weeds together so that the grain will not perish — and then the recommendation to sort out the weeds after the harvest.

This column hopes that Amendment 5 was okayed in order to avoid a serious snarl that would cause hardship to deserving people. But, with that problem solved, it also feels that the weeding process becomes imperative. Basic justice demands it — either to stop this legalized pilfering from taxpayers, or to avoid curtailed payments to the real poor folks, or both.

It's high time for conscientious supervision of the welfare system. We need administrators on the federal, state and local levels who will honestly try to see that it serves its intended purpose. We should by all means provide a decent living for those who can't provide for themselves. At the same time we should seek out every cheater and serve notice that his gravy train has quit running.

One suggested improvement is an efficient system of communication between welfare and employment offices. There ought to be a policy whereby every able bodied applicant becomes an applicant for work, and his welfare eligibility ends when a job is offered. The policy furthermore should stipulate that the applicant cannot turn down a job even though he is willing to accept less pay for loafing or because he doesn't like the type of work offered, or even if the job pays less than welfare handouts. In the latter case it seems reasonable to give partial handouts which, added to job income, would provide a decent living. But if the job offer is equal to or better than welfare pay the applicant should be immediately removed from welfare rolls.

Does this attitude seem too tough? Is it degrading to be told to either work or go hungry? Well, we taxpayers don't think it's degrading to work. And there was a time in our history when it was considered degrading for able bodied people to accept charity.

The good book says that man will live by the sweat of his brow. Wise guys who choose to disregard that rule are the ones who are lousing up our society.

City Sends Man to Firemen's School

Clarence E. "Dink" Hudspeth was this year's representative of the Muenster Volunteer Fire Department attending the annual Texas Firemen's Training School at Texas A&M University. It was the fortieth annual session conducted by A&M.

Hudspeth was enrolled in the Firefighting 2 course with lectures, demonstrations and practice in pump operation, ladders, driving emergency vehicles, chemistry of fire, and combined operations. The staff of some 300 administrators and instructors consisted of specialists from equipment manufacturers and firemen from the large cities of the state.

The City of Muenster sponsored Hudspeth's attendance at the course, and by doing so qualified for a 3 per cent key rate credit for every person paying fire insurance in the city. Combined savings on the premiums is considerably greater than the cost of attending.

Other benefits of the course are reduced losses through more efficient fire fighting methods and savings from fire prevention. The local department has been consistent for many years in adopting those parts of the course which apply to the Muenster set-up. Hudspeth was accompanied to College Station by his wife. Meanwhile their daughter, Francine, was a guest of Patsy Barthold at Myra.

2 Teachers Quit At Muenster High

The teacher situation at Muenster Public School has deteriorated sharply during the past week. Just as Superintendent thought the faculty was practically complete he discovered that he lost two English teachers.

Mrs. Anita Sheppard and Mrs. Patsy Moeck both gave notice of their resignation and by Wednesday afternoon only one of the vacancies has been filled.

The brand new faculty member is Miss Juanelle Turner, now attending Texas Woman's University at Denton and majoring in English and PE. Her home is in Gainesville. She prefers to avoid a daily drive and hopes to rent an apartment or a room with kitchen privileges in Muenster. Anyone who can offer these accommodations is asked to notify Mr. Bruns or Mrs. Cash.

Meanwhile the search continues for an English teacher or a social science teacher. Resignation of Mrs. Sheppard is associated with equally bad news for Saint Jo High. Her husband has resigned as head football coach of the Panthers.

County FB Sends Two H.S. Students To Waco Seminar

Two high school students of Cooke County attended a citizenship seminar conducted by the Texas Farm Bureau at Baylor University last week Monday through Saturday.

They are Donna Marie Rohmer, daughter of Mr. and Mrs. Arnold Rohmer of Muenster, and Dana Brown, daughter of Mrs. Lucy Brown of Gainesville. Both were sponsored by the Cooke County Farm Bureau.

Purpose of the seminar is to give students a better understanding of the American way of life. Emphasis is placed on economics, moral and social aspects of American society. Instruction consisted of lectures, films and panel discussions. Some 390 students from 140 Texas counties attended.

Featured on the lecture staff were Dr. C. L. Ganus, president of Harding College, Searcy, Ark., Dr. C. L. Kay, assistant president of Lubbock Christian College; John Noble, Muncy, Pa., author of "I Was a Slave in Russia," and W. Cleon Skousen, Salt Lake City, author, lawyer, educator and former FBI agent.

In addition, a young former narcotics addict and ex-convict from Dallas related the tragic story of his life as an addict and criminal. And 18-year-old Miss Mary Rando of Friona gave her rendition of "I Am the Nation," a patriotic recitation that helped her win the Freedom Foundation's George Washington honor medal.

Cable TV Begins Local Bulletins

The slogan "There's more to see on Cable TV" became more meaningful here this week when Muenster Telephone Corporation introduced a local bulletin board as a feature of Channel 2 on its TV cable system.

Available now is current information on the weather and the correct time. And there are a number of blank panels on which bulletins can be posted on special news of local interest.

Alvin Fuhrman, manager of the cable system, says that the bulletins will be reminders of coming events or special community occasions or announcements of new happenings. The policy will shape up as the public prefers, he said, and he's listening to suggestions.

The bulletin board consists of several panels arranged in a semi-circle with time and date, a rain gauge, and indicators of outside temperature, barometric pressure, wind direction and wind velocity — plus a humidity indicator to be installed soon. Other panels are blank awaiting the bulletins to be posted there.

In the center of the semi-circle is a camera revolving slowly, scanning the gauges and bulletins and transmitting its picture to Channel 2 of the local TV cable. This is the channel on which KGAF-FM radio is heard, and the sound

3 Local Scouts Admitted Into Order of Arrow

Three members of the Muenster Boy Scout troop were admitted into the Order of the Arrow in solemn ceremony at Camp Wisdom last Saturday night. They are Gerry Cash, Danny Fette and Johnny Schneider, who had been chosen for the honor while attending the Scout Camp at Possum Kingdom Lake a few weeks before.

The Saturday night reception was preceded by a 24 hour ordeal during which the boys fasted, kept silent and helped on camp improvement work. Mr. and Mrs. Charles Cash took the trio to Camp Wisdom Friday afternoon. The R.N. Fettes brought them home Saturday night.

Auxiliary to VFW Plans Bake Sale

Members of Muenster VFW Auxiliary, meeting Monday night planned a benefit bake sale for September, the exact date still to be announced, and heard a report on the weekend District I Convention in Greenville.

Mrs. Clarence E. Hudspeth, president, presided and Mrs. Herbie Herr told about the convention.

It was announced that frames are being made for pictures of recently deceased veterans. These pictures will join those of other deceased veterans displayed in the Post Home.

Mmes. Ray and Hank Walterscheid were hostesses for a cold buffet after business and the former won the cake door prize. Thirteen were present.

CCJC Dance Hosts Area '69 H.S. Grads

Cooke County Junior College will be host at a pre-entrance dance for the area graduating classes of 1969 on Saturday, August 9, from 8 p.m. until midnight in the Women's Gymnasium.

Graduated high school seniors will be admitted free of charge upon presentation of proper identification and previously mailed letter of invitation. All others will be charged an admission fee of \$2.00 per couple and \$1.50 for a single person. Music will be furnished by "The Love Field."

Counselors will be on duty to help students with pre-entrance plans. Persons who plan to attend CCJC this fall may make application at this time and be eligible for the \$25.00 savings bond given by the Astronomy Club.

Mrs. Rudy Hellman is back from a six-week tour of the Orient with many interesting stories to tell. She has prepared a travel talk that will appear in The Enterprise at a later date.

Opinions Invited on Garbage Disposal

The old problem of garbage disposal again confronts the Muenster city council. On one side it has comment indicating that such a service is wanted. And at Monday night's regular meeting it had two separate applications for the disposal job. Councilmen listened to both proposals and decided to await an expression of public opinion.

The first method proposed, according to Mayor Earl Fisher, is a mandatory service of two pickups a week for a fee of \$2.25 a month for each residence or place of business. If adopted by the city everyone would be required to use it.

The other proposal is a voluntary system. People wishing to use it are to pay \$1.00 for each pickup, which is to be made on alternate Saturdays. A maximum of two barrels of trash is allowed for the dollar and 25 cents per barrel will be charged for any additional trash. Additional pickups could also be arranged if a customer wishes.

Having heard the proposals the city now would like to hear from its residents. It

wants to know first of all whether a sufficient number of people are sufficiently tired of doing their own hauling, and enduring the smoke and smell of burning, to want a change. If so, what method do they prefer?

Opinions will be welcomed at the city hall. City Superintendent Steve Moser recommends reports by phone call or postal card. No letters, please because of filing difficulties. The council encourages all interested people to express their opinions as a means of helping work out the best solution to the problem.

Ft. Worth Arrest Solves Burglary At Medical Center

Items stolen here on June 3 when the offices of Dr. Martin Kralicke and Dr. Alfredo Antonetti at the Medical Center were hit have been recovered in part and charges were filed this week against Charles Bannion of Tarrant County for receiving and concealing stolen property.

The complaint, filed Tuesday in Peace Justice Carl Burchfield's court alleges that Bannion received and concealed a saddle owned by Dr. Kralicke. The saddle, valued at \$1,016, has been recovered along with a stamp collection and deer rifle. Still missing are two cameras.

The saddle had been dyed and the manufacturers name removed. Positive identification was made by the manufacturer. The stamp collection was partially destroyed.

Dr. Antonetti has fared better. His movie camera and Polaroid camera have been recovered.

September 1 Is Filing Deadline For Water Rights

The Texas Water Rights Commission announced today that final notice of the recording deadline under the Water Rights Adjudication Act of 1967 has been given. Everyone who is using water from a public stream who does not claim under a certified filing or a permit from the State must record his claim by September 1, 1969. Users of water for domestic and livestock watering purposes are exempt from this requirement.

Failure to timely record the claim will "extinguish and bar" the claim of water right according to Section 4 of the Adjudication Act. All affected water users who have not already filed their claim are urged by the Commission to do so as soon as possible.

Valid claims will be recognized to the extent of maximum use of water without waste during any year between 1963 and 1967. Where the user was in the process of constructing a system or had facilities to use a larger amount of water on the effective date of the Act than he had actually used, use from 1968 to 1970 may be recognized.

Further information and forms for recording claims under the Water Rights Adjudication Act may be obtained from the Texas Water Rights Commission, P. O. Box 12396, Capitol Station, Austin, Texas 78711.

A COMMUNITY CHALLENGE

What makes a slum? That first broken window? Or the door off its hinges? The gutter that was to be repaired tomorrow, or the other little fix-up, clean-up jobs that were never done?

When pride gives way to neglect—when homes become just houses, when people become careless and let litter accumulate, the seeds of slums are being sown. The dividing line between a thriving community and a deteriorating one is a matter of pride.

American industry for years has encouraged community improvement through its "Keep America Beautiful" campaigns. The Federal government has also initiated several programs to encourage this objective. Slum development is a local problem. It is up to each one of us to have sufficient pride in our neighborhood to keep up each piece of property, and encourage the refurbishing of those areas suffering from man-made neglect.

How do we eliminate slums? The first answer is to overcome the indifference of the people. —Industrial Press Service

TAKING THE BITE OUT

The best method for stopping the itching from chigger bites is not to get bitten. Before going into an area where the pests may be present, use a repellent. They are available in aerosol containers, as dusts or sprays. Dusting sulfur does a good job, says Weldon Newton, associate Extension entomologist, but may not be as effective as some of the repellents. Areas, including lawns, may be dusted or sprayed to eliminate the mites. The larvae stage of the insects is the troublemaker.

Proof of Age for SS Can be Shown In Several Ways

Proof of age is still a big problem for many people applying for social security benefits. This is especially true for those applying for retirement benefits.

Generally, people born after 1930 have little difficulty in obtaining an original birth certificate, but those born before then may find their birth was never officially recorded at the state or local level.

The best evidence of age for social security purposes is a birth or baptismal record made shortly after birth. If such does not exist, a school record, family Bible, early federal census record, or a marriage record indicating age would be valuable in proving a date of birth.

If these are not available, a combination of several proofs must be submitted. They may include a delayed birth record, insurance policy, child's birth record showing parent's age at the time of the child's birth, old poll tax receipts, military record, or driver's license issued several years ago.

Anyone planning to apply for social security benefits should obtain adequate proof of his age several months before he applies. Many people experience a delay in receiving their first social security check because of the difficulty in locating adequate proof.

The local social security office encourages everyone planning to retire to start assembling his age proof early. If any questions or problems arise, visit your social security office located at 810 N. Travis in Sherman or call 893-4301.

If you are unable to go to the office in Sherman, a representative may be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12:00 noon at the Federal Building.

Lutkenhaus Scene**

A calendar company in Austin has contracted for two paintings by Alex Lutkenhaus to be cover pictures. Steck-Warlick has selected "Monument Valley" a painting that was grand prize winner at the Bowie Art Show recently and a fall scene with mountains, pines and stream.

Alex went to Austin the past week to meet with company officials. He took his son James and his brother Bobby Lutkenhaus with him.

Before going to Austin they made a sight-seeing trip through the Big Bend and other points of interest.

**Mrs. Clive Gobble
Birthday Honoree**

Spending Sunday with Mr. and Mrs. Clive Gobble and honoring Mrs. Gobble with a birthday dinner were Mr. and Mrs. Pat Cathey, Mr. and Mrs. Leroy Bagwell, their daughter Mrs. Cordella Totten and son Timmy, all of Fort Worth and Mr. and Mrs. Glenn Cathey and son Pat of Norwalk, Calif. The California Catheys are dividing a vacation with their parents, the Gobbles in Muenster and the Martin Friskes at Lindsay.

Never swim alone. Half of all pool accidents and fatalities occur when the victim is not following the "buddy system." When it comes to swimming safety, think in terms of two's.

**Two Are Honored
At Gift Shower**

A gift party Sunday afternoon had two honorees who were showered with layette gifts presented in bassinets.

The honored ones were Mrs. Joe Galloway of Wichita Falls and Mrs. James Walterscheid of Arlington.

Hostesses Mrs. Clyde Fisher, Mrs. Francis Fisher and Mrs. Johnny Pagel entertained in the Clyde Fisher home.

They served refreshments to some 40 guests from Muenster and Lindsay. A pink and white color scheme was accented and a large stork held a vantage spot.

The Galloways also visited her parents, the John Fishers and the Walterscheids visited their families the Joe Fishers and Paul Walterscheids while they were in Muenster.

**Sister Theresina
Sends Greetings
From Switzerland**

Sister Theresina who is summing in Switzerland with relatives sends greetings from her homeland to all her friends. She soon will be returning to the motherhouse in Jonesboro, Ark., and then to Muenster to teach in Sacred Heart High School.

Among her notes she reveals that the mini-skirt is in Switzerland. Girls there wear much the same clothing as American girls and the same hair styles. The braids of the pretty rosy-cheeked Swiss girls have disappeared — replaced by short cuts.

The food is almost the same as in the States... soft drinks include Coca-Cola, Seven Up and Pepsi Cola. Likewise American cigarettes are available. These along with other products including Esso, Colgate and Ford are seen and heard on radio and TV commercials.

Among TV programming she watched the moon walk, the investiture of Crown Prince Charles of England as Prince of Wales and saw American performers including the Delta River Boys. And much USA news is told. She also listened to a radio interview between the Swiss government and Wallace of Alabama. Wallace said a fine relationship existed there between the colored and whites and also that he would run again for the presidency of the USA.

She has also enjoyed the beautiful Swiss music and songs... has heard too American jazz, combo and pop blaring from a nephew's record player.

Visits to churches contrasted the old and the new. A magnificent church erected between 1626 and 1680 is being renovated outside at a cost of more than a million Franks. Because it is a landmark and one of the most beautiful churches several organizations are sharing the cost. The six main altars, immense pipe organ and gold tabernacle are "out of this world" beautiful, she says. It is built in Renaissance style with magnificent carving, located in St. Johann.

The ultra modern new church at Wattwill resembles a theatre inside and outside. The tower is fantastic— one large block upon a smaller one. There are no stations or statues — except an idol-like carved one of the Madonna and the Infant, no cross except on a pole similar to ones carried in Muenster in processions, and no corpus, only a silhouette of the crucified.

The tabernacle though nothing beautiful is said to be very costly and the bells are absolutely majestic.

Sister wrote about a rabies scare in the area she was visiting in July. It came from Germany and spread quickly over some cantons. Strict measures were taken. Foxes were gassed in their dens, cats and dogs were given shots and suspicious ones, or even not suspicious ones were killed.

There is an unheard of building fever running over Switzerland, modern apartments, hotels, etc. If this keeps up beautiful Switzerland will be beautiful not much longer, she added. Thousands upon thousands of Italians and Spaniards come from their native lands

to work in Switzerland. The Swiss people do not care to do this kind of hard, rough work, nor would there be enough to do it.

A novelty in Switzerland at present is Roman bread — coarse bread as the Romans were actually supposed to have eaten it.

And in her letter written July 27 Sister Theresina was looking forward to a visit from Mr. and Mrs. John Hellman who are vacationing in Switzerland. They planned to visit her and her people in early August and meet the folks of whom John's grandmother, the late Mrs. Gus Hellman, spoke of so much. John is the son of Dr. and Mrs. Hugo Hellman of Wauwatosa, Wis.

Bullard Blanks Local All-Stars

It wasn't Muenster's night last Thursday when five of the Center softballers were on the all star team which split a double header with Bullard Supply.

The twin bill was the grand finale of the year's Cooke County Softball League. Bullard won the champ title and the stars were selected from all other teams to oppose the champs. Two were chosen for each position, so half of them played the first game, half the second game.

Four of the Muenster men were in the first game, which Bullard won 7-0. They were Alvin Hartman, Glenn Richardson, Willie Walterscheid and Leonard Reiter. All went hitless and Hartman, as pitcher, allowed 5 hits and a walk as Bullard scored 5. Bill Puckett relieved Hartman in the sixth.

Next game Adam Wolf was with the winners and was a hitter as the stars nipped the champs 3-1.
