VOLUME XXXIII

MUENSTER, COOKE COUNTY, TEXAS 76252 AUGUST 22, 1969

NUMBER 39

The embargo on trade with Rhodesia, which was imposed by our nation in compliance with UN urging, seems like poor business as well as poor diplomacy. Before the embargo U.S. bought chrome ore from American owned mines in Rhodesia at \$30 a ton. Because this metal is essential to our steel industry, another source had to be found. But chrome ore is scarce, and it developed that our only other available source is Soviet Russia, which demands \$48 a ton even though the ore is poorer quality than Rhodesia's.

How's that as an absurd policy? We're paying through the nose to hurt a friend as a way of appeasing members of an organization which has handed us raw deals ever since it was founded. We decline a fair deal with a friendly country and pay profiteering prices to a country which is dedicated to our destruction.

One wonders how the new administration of Washington can allow this boner to continue. Rhodesia has offered to send troops to support us in Vietnam, Russia is supporting our enemy. Rhodesia shares our heritage in breaking away from an intolerable dependence on England, just as we did in 1776. Rhodesia is striving for a stable government. Russia is striving for a typical African mess to serve as another fertile ground for sowing the seeds of Communism.

Rhodesia is our kind of people cherishing our kind of tradition, and stands solidly beside us in resisting the advance of global communism. It's hard to understand how we pulled the colossal goof of hurting both a friend and ourself to help an enemy. It's still harder to understand and why we persist in the mistake.

Related to this situation is a report that Russia has maneuvered, through satellites, to buy the high grade low price Rhodesian chrome ore which our country refuses to accept. It makes us look like first rate suckers.

Legislature efforts in Austin to create new sources of tax revenue seem more satisfactory to the politicians than to the business people who will have to serve as tax collectors. This applies especially to the proposal of raising sales tax a fourth cent or a half cent—they're having trouble deciding which it should be. Their method apparently is to decide how much they want and crank up a computer to tell what the exact rate must be, regardless of what kind of fraction comes out.

Those guys ought to look at the other side too, to imagine themselves as sales people who have to calculate with fractions on every transaction. Then, perhaps, they'd be inclined to stick with a whole figure—either leave the rate at 3 per cent or raise it to 4. Why expect us to struggle with odd figures?

The proposal prompts one to wonder why sales tax cannot be considered with some other suggested taxes to set rates that are simpler all around. For instance, a 3.5 per cent rate is proposed on services like telephones, telegraph, auto repair, appliance repair, entertainment, and a number of other services. There's that fractional rate again. Well, why not go up on one and down on the other? Better still, why not make the services, which were exempt before, subject to sales tax, and leave the sales tax rate as it was?

The column's reason for this suggestion is that the services listed, just like the sales tax, apply to practically all consumers, and it really doesn't matter if the rate is higher on one item and lower on another, or if the tax is still higher on one item and completely omitted from another. The obvious intention is to extract money from everyone, but that can be accomplished without assessing odd rates on many things.

A protest is in order from consumers and business people alike. Instead of tedious figuring to get a tax on many things, we prefer the simplest way possible to get the desired revenue from all the people. In the long run folks are concerned with the total they have to pay and they prefer the least possible trouble in doing it. The latter applies even more so to our citizen tax collectors. The less bother and red tape the better.

New High Recorded In City Water Use

The water consumption record here was topped for the third time during the current hot dry summer when the volume hit 567,000 gallons Wednesday of last week.

Up to this year the record was 462,000 gallons metered on August 23 last year. That record fell on July 3 with a volume of 531,000 and again on July 10 when the figure reached 558,000. And now that record likewise takes a tumble.

Heat that passed the hundred mark most of the time since July 1, and was generally in the high nineties on other days, combined with a drought to push the water demand up and up. The month so far has had seven days when over 400,000 gallons of water were used. In sharp contrast with that, consumption on August 16 was only 196,000 gallons. It was the day following last week's 65 inch rain.

Swim Pool Will Close Labor Day

Muenster's swimming season is rapidly drawing to a close. After short days this week there will be two full schedule days this weekend and three next weekend. The last day will be labor day.

The city council decided Monday night to close the pool this week at 7, partly because football practice is taking many of the pool's customers, partly because football is occupying the pool's managers, Dan Hamric and David Fette.

Next week, with both schools open, the pool will be closed Monday through Friday. So the schedule from now on consists of two full days, 2 to 9 p.m. Saturday and Sunday this weekend, then three full days, 2 to 9 p.m. Saturday, Sunday and Monday next weekend.

The Men In Service

R & R in Philippines

The Vincent Felderhoffs have letters from their son Mike Felderhoff, U.S. Navy, telling about being in Hong Kong for rest and recreation and enjoying it. He has been serving aboard the USS Oriskany in Vietnam waters since April as an airman apprentice.

Civilian Again

Earl Cunningham is a civilian again, separated from the Army, and is visiting his parents the Herb Cunninghams. He spent the past year at Fort Hood after serving in Vietnam 13 months and held the rank of Specialist Five.

On Overseas Leave

Major and Mrs. John Broome and children Kathy and John Paul are visiting here with her parents, the John Wielders. Enroute they visited his relatives in Tennessee. Major Broome is on overseas leave before assignment in Vietnam. His wife and children will live in Muenster while he is on foreign duty.

On Leave In Canada

The Andrew Schoechs have been receiving picture postcards from their son-in-law and daughter, Spec. 4 and Mrs. Peter Wall from Canada where they are spending most of his three-week leave time. They had visited the Shrine of St. Anne de Beaupre. Before going to Canada they visited his relatives in New Jersey. He is stationed at Fort Lee, Va.

Training at San Diego

Ralph Hermes has notified his parents, Mr. and Mrs. Tony Hermes of Lindsay, that he is in training as a Naval recruit and has the following address: SR Ralph J. Hermes, USN, B754934, Co. 538, Recruit Training Command, US Naval Training Center, San Diego, Calif., 92133.

Gene Lehnertz writes his mother, Mrs. Joe Lehnertz, that he's on the mend after undergoing leg surgery in the Veterans Hospital at Spokane, Wash., on Aug. 15. The operation repaired damage from shrapnel during World War II. Gene is one of the Lehnertz Brothers of Longhorn Barbecue fame in Spokane but he won't be on the job for a while. His address for the next three weeks is Room 445, Veterans Hospital, Spokane, Wash.

Garbage Disposal Proposals Will Get More Study

The city council got some information but not enough in its recent opinion survey on the preferred method of trash and garbage disposal in Muenster.

Councilmen reviewed the report showing that 84 opinions had been submitted, and 24 favored a compulsory system of disposal and 46 favored an optional system and 14 expressed strong opposition to a compulsory system.

Even so, Mayor Earl Fisher stated, the total number of responses is not a sufficient percentage of the city's total number of families. Besides, some responses reflected an obvious misunderstanding of a proposition and should not be counted as definite answers.

The council agreed that its best course is to inquire about disposal methods in use elsewhere, and the rates charged, before recommending any particular system.

After that the city will probably send out carefully worded questions to avoid further misunderstanding in conducting another survey.

Mayor Fisher said the council is aware that a more satisfactory method of garbage disposal will have to be adopted some time. The intention is to move slowly and carefully in the hope of avoiding mistakes.

Hornet Coaches Have High Hopes For Strong Team

Hornet Coaches Glenn Richardson and Dan Hamric have visions of a good season as they settle down to serious and rugged practice. Thirty five boys have reported to date, and they are headed by thirteen lettermen from last year's bi-district champ team.

Despite a loss of ten players, practically the entire '68 starting lineup, by graduation, Richardson feels that he has another strong outfit. The men moving up have experience plus a year of growth. Again, seniors will predominate in the starting lineup.

The line, says the Hornet boss, averages five pounds less than last year's, but probably is quicker than the other. Backs too are capable but the team will miss Clifford Sicking's explosive speed.

Lettermen back in the harness are Seniors John Monday, Andy Knabe, Carl Endres, David Fette, Terry Miller, Henry Sicking, Tommy Henschel, David Stormer, Bobby Bruns and John Felderhoff. Stormer had surgery last week and is not expected in the lineup for 4 to 6 weeks. The other lettermen are Juniors Earl Koelzer and Leon Klement and Sophomore Henry Knabe.

Non lettermen, including several who have had a year or two of experience on the squad are Seniors: Dale Hellman and Lynn Joe Klement; Juniors: Mike Jaska, Tim Hartman, John Schnieder and Gerry Cash, Sophomores: Jerry Eckhart, Claude Klement, Glenn Felderhoff, Chuck Fisher, Danny Fette, Ricky Swirczynski and Kevin Sicking; Freshmen: Jim Endres, Richard Fisher, Ronnie Flusche, Eddie Knabe, Lonnie Hellman, Hank Trachta, Roy Klement and Alan Miller.

CCJC Completes Course in Sheet Metal Fabrication

Certificates of achievement were presented to 13 local residents who, on Friday, August 15, successfully completed an eight-week training course in sheet metal fabrication at Cooke County Junior College.

The training, which was conducted under the auspices of the Manpower Development Act was designed to fulfill manpower needs of local industrial concerns and to equip local residents for gainful employment.

The success of the training program is evident; every person successfully completing the training program was invited to report to work at Weber Aircraft on Monday, Aug. 18. Demand for training in sheet metal led to capacity enrollment in a second training session which began on Monday, Aug. 18. It is expected that another class will be scheduled to commence in late October.

Crash is Fatal to H. J. Johnson, 68

Final services were held Wednesday at 3 p.m. in the Vernie Keel Funeral Home Chapel at Gainesville for Henry Frank Johnson, 68, of Gainesville, who died at 11:30 p.m. Monday from injuries received in a 2 car accident last Saturday two miles east of Muenster. He was buried in Fairview Cemetery under direction of Vernie Keel Funeral Home. Among pallbearers were Leonard Bayer and Mike Schilling of Muenster.

Johnson was well known here as owner of a farm about five miles north of Muenster. He is survived by his wife, a daughter, two brothers, two sisters and two grandchildren.

Gas Company Gets OK on Application For Higher Rate

Lone Star Gas Company announced last week that the Texas Railroad Commission has rendered a decision and order granting the company a six-cent increase in its intracompany city gate rate.

The order, which will increase to 41.4 cents per thousand cubic feet the intracompany charge for natural gas delivered at the city gate by the company's transmission division to its distribution divisions for sale to residential and commercial customers and for gas unaccounted for in the distribution system.

The old intracompany rate of 35.4 cents per thousand cubic feet of natural gas had been in effect since Feb., 1960.

Now that the commission has rendered its decision, Lone Star will evaluate earnings in all Texas cities, towns and communities served by the company. Individual rate action will be pursued in those towns where earnings are inadequate.

Lone Star petitioned the Railroad Commission for a 9.35-cent increase in May, and the commission held public hearings on the request in June. An additional hearing was held July 28 where a committee representing several cities served by Lone Star submitted direct evidence advocating a different theory of rate making and an increase of only 3.4 cents.

Claude Jones of Gainesville Dies

Funeral services were held at 4 p.m. Sunday at First Baptist Church, Gainesville, for Claude Jones, 82, banker and civic leader, who died early Saturday in Gainesville Hospital following a long illness.

Dr. Harry Roark officiated at the services and Vernie Keel Funeral Home directed burial in Fairview Cemetery. Bearers were William Lewie, Lambert Collums, Don Howeth and Gene Watts.

Jones was born in Gainesville Jan. 24, 1887, and was married to the former Sallie Bess Morris, who died in 1962. He was vice chairman of the First State Bank where he started as a bookkeeper in 1917. Before that he was employed more than seven years as cashier of the Wells Fargo Express Office. He was a member of the First Baptist Church and the Masonic Lodge, was past president of the Kiwanis Club and the Chamber of Commerce, and long time secretary of the Gainesville school board and Cooke County fair and treasurer of the county Red Cross chapter.

Jones particular interest in recent years was soil conservation and agricultural progress. He has been referred to as Mr. Conservation of Cooke County, has received district and state awards and recognition for his efforts in promoting conservation. He was associated with J.M. Weinzapfel, Clyde Wells and the late J.W. Hess in originating the annual soil conservation awards banquet in the Upper Elm Red district, the first and still rated among the best programs of its kind in the nation.

Death Ends Long Illness Of John B. Klement, 85

John B. Klement, 85, a long time resident and leader of this community died last Saturday at 6:45 p.m. in the Golden Years Rest Home following a long illness.

Funeral services were held at 10 a.m. Monday in Sacred Heart Church with Father Placidus Eckhart officiating and also conducting graveside rites in Sacred Heart Cemetery. Burial was under direction of Nick Miller Funeral Home and bearers eight grandchildren: Karl, Dale, Glenn, Jerry, Melvin, Wayne and Wilfred Klement and Johnny Reiter.

Rosary was recited at 4 o'clock Sunday in the Miller Funeral Home, a wake service was conducted at 8 p.m., and a special rosary for Knights of Columbus was held after the wake service.

John Klement was born in

Bavaria, Germany, on June 24, 1884, and came to the United States with his parents when he was nine years old. The family settled in Austin and his father, Andrew Klement, died within a year. The family remained until 1906 then moved to Muenster.

Mr. Klement was married to the former Maggie Knabe in Sacred Heart Church on Feb. 19, 1908, and they spent the next 35 years farming. After coming to town Mr. Klement remained active for a number of years as a lumber yard employee and as commissioner of Precinct 4. He held that position for three 4-year terms.

Mr. Klement was a long time leader in community affairs. He served on the Farmers Marketing Association board for most of its 30 years of existence, including 10 years as president and many years as director. He also held offices, including grand knight, for twelve years in the Knights of Columbus and was president of the Muenster school board for several years. Likewise, he was active in parish affairs, serving for several years on the church committee.

Mr. and Mrs. J.B. Klement celebrated their golden wedding anniversary on February 15, 1958. She preceded him in death on February 1, 1965.

Survivors are eight sons: Norbert, John A., Ray, Edgar, Walter, Martin and Roddy Klement, all of Muenster, and Albert Klement of Lindsay; one daughter, Mrs. Albert (Buddy) Reiter of Muenster; one sister, Mrs. Clem Schumacher of Sunray; 42 grandchildren and 43 great grandchildren.

387 are Enrolled At Sacred Heart

An increase of 60 over last year's enrollment was recorded at Sacred Heart School in registrations during the past weekend. Practically all of those were signed up last Friday in registrations following church services for the feast of the Assumption.

Reports from Sister Georgia and Sister Elizabeth, principals of the elementary and high school departments, show a total of 387 as of Tuesday afternoon. There are 301 in the grades and 86 in high school. Beginning counts last year were 243 and 84 for a total of 327. Enrollment of each grade will be listed after classes begin.

Player Shortage Handicaps Tigers

A shortage of manpower haunts Coach Tom Joy as he faces the Sacred Heart Tigers' 1969 football season. Fifteen boys were out for the Wednesday morning practice, another has definitely indicated he will be there and two more are expected.

Joy said the boys are working hard and have a good attitude. He is confident that he will be able to shape them into a good first string but he will be in trouble soon when he starts substituting.

Eight of the boys are veterans of last year's squad. They are Melvin Schilling and Paul Bayer, seniors; Fred Fuhrmann, Tommy Felderhoff, Kevin Swirczynski and Tim Bindel, juniors; Ronnie Hess and Allan Hess, sophomores.

New members of the squad are Bill Bartush and Henry Knabe, juniors; Rossie Felderhoff, sophomore; Gary Endres, Melvin Luke, Mark Schmitt, Myron Hess and Larry Bayer, freshman.

Assuming that the Tigers opponents will come up with just normal strength, Joy expects his team to be definitely outclassed in most if not all games. Nevertheless his intention is to have them playing proud, to do their best and hope for a few breaks.

Arnold Stelzer Dies

Relatives here received word Thursday of the death at 11 p.m. Wednesday of Arnold Stelzer in Portland, Oregon. He was formerly of Muenster, a son of the late Mr. and Mrs. Gus Stelzer. Survivors include his wife, three brothers and two sisters.

Students Will Register Friday At Public School

Registration at the Muenster Public School will be held this week Friday from 9 to 11 o'clock.

Superintendent L.B. Bruns announced this week that buses will follow their usual routes and will run an hour later than the regular schedule last year. The intention is to have the buses arrive at or about 9 o'clock. Registration should be finished at 11 o'clock or sooner and children will be dismissed in time to return home for their noon meals.

First class day will be the following Monday, beginning at 8 o'clock, the usual time. Between Friday and Monday the school's administration will have time to work on schedule adjustment, in case it is needed.

New at the school this year is a change of method in determining the amount of state aid to be received by the school. Heretofore the school received a per-capita allotment for each scholastic living in the district. Now the pay is based the average number of students actually attending. ADA continues to determine how many teachers are authorized by the Texas Education Agency.

Ten 2-year Courses In Technical Work Offered at CCJC

Cooke County Junior College offers courses in ten (10) technical careers proposed by the U.S. Office of Education and National Industrial Conference Board. In keeping with the demand for trained technicians, the local college is offering two-year technical courses which enable students who have completed the program to secure employment immediately in business and industry.

The scientific and technological revolution is creating career opportunities—literally by the millions. Demand for people with technical skills is growing twice as fast as for any other group, while jobs for the untrained are rapidly disappearing. No longer does an individual need four years college to begin a scientific or technical career. He can enter such fields as medicine, computer science, engineering, or the space program with one or two years training.

Two-year programs in automotive technology, electronic data processing, electronics, drafting technology, machine shop, welding, agriculture, and

office occupations are available at the local college. In each program, instruction is given under actual working conditions, thus permitting the student to be familiar with his proposed occupational environment.

The local college offers training similar to that of a technical institute, but with more emphasis on theory—and possibly some courses in liberal arts. If a student decides to continue his education and get a four-year degree, he may transfer many of the credits earned under the technical program to most four-year colleges.

The advantages of individual attention, smaller classes, and progress at one's own rate make the technical programs offered at Cooke County Junior College especially attractive. Prospective technicians in the above named fields are urged to contact the local college for details regarding enrollment and financial arrangements.

New Ford Maverick... the simple machine

- LOW PRICE.** Maverick is the best seller of the '70s at 1960 prices. And you get your money's worth. A complete car all ready to drive home.
- LOW FUEL BILLS.** In tests by professional drivers at our tracks, where we do our best to duplicate actual driving conditions, Maverick averaged 22.5 mpg. (Some Maverick owners report they get 25 mpg and better.)
- 105 HORSES.** Maverick's high-spirited Six gives you nearly twice as much horsepower as the leading import's engine. You get fast acceleration, easy passing.
- PEOPLE-SIZED INTERIOR.** Maverick pinches pennies, not people. Its front seat gives you nine inches more shoulder room than the leading import. Plus lots of leg room, hip room and head room.
- EASY HANDLING.** Maverick can outmaneuver the leading economy import. It can U-turn in a tighter circle, nip around corners and slide into tight parking spaces with amazing agility.
- FEWER SERVICE CALLS.** Maverick is actually easier and less expensive to maintain than an economy import. Maverick oil changes come only once every 6,000 miles and chassis lubrications once in 36,000 miles. The leading import recommends an oil change twice as often and a chassis lubrication six times as often. (Maverick gives you economy without inconvenience!)
- SIMPLE SERVICE AND REPAIRS.** The Maverick Owner's Manual has 24 pages of instructions for routine maintenance jobs you can do yourself, if you wish. You can change spark plugs, replace fuel filter, adjust ignition timing, and more. Even a smashed grille can be replaced in as little as 13 minutes.
- WIDE-OPEN TRUNK SPACE.** No more cramming in luggage just because you have a small car. Maverick gives you 10.4 cubic feet of luggage space—nearly twice as much as the leading import. (With Maverick, you can take it with you.)
- SOLID DURABILITY.** Maverick's unitized body construction makes it light, strong and durable. (And Maverick's 3-speed transmission is tough enough to handle twice as much horsepower as the engine turns out.) (Maverick may be little, but you don't have to treat it like a kid.)
- BUILT-IN SAFETY.** Unlike most economy imports, Maverick's tread is wider than the car is high. That means stability—mightily important when the road is wet or the wind is strong.

Muenster hitters were Willie Walterscheid a home run and a single, Leonard Reiter two singles, Tom Flusche a homer, and Joe Felderhoff and Adam Wolf each a single.

Trio Returns from 6000 Mile Trip of 12 States, Canada

A three-week vacation for Mrs. Margaret Sicking, her daughter Miss Theresa Sicking, and Mrs. Andrew Zimmerer, all of Gainesville, was filled with scenic beauty as they traveled through 12 states and Canada covering 6000 miles.

Highlights included visits to famous shrines and stops with relatives and friends.

First shrine stop was in Belleville, Ill., at Our Lady of the Snows. Mrs. Zimmerer was seeing it for the first time. Mrs. Sicking and Theresa noticed that it had been built up considerably since their visit four years ago.

They viewed miles and miles of beautiful corn and fields of beans driving into Indiana and Ohio and miles of vineyards.

Near Rudtown, Ohio, they visited the Sorrowful Mother Shrine, then stopped with cousins Mr. and Mrs. Alpha Bores at Monroeville, Ohio. That's where they saw the men on the moon on color TV.

Next a scenic drive along Lake Erie into Pennsylvania, traveling the fruit belt. In New York it was Niagara Falls, and riding the little train around the Falls on the Canadian side. Cherries were in abundance, workers busy picking in the fields and the three enjoyed fresh cherries. Then the scenic Lake Ontario drive into Canada at Cornwall over the USA Peace Bridge and the St. Lawrence River.

At Trio Riviers they visited the first Canadian shrine, Our Lady of the Cape and the Basilica, the Church of Our Lady.

Then to Quebec to the Shrine of Ste. Anne de Beaupre, the main shrine of them all...and the Holy Steps. Mrs. Sicking made all the sight-seeing tours in her wheel chair.

At St. Jerome the trio visited the Sicking's friends, Mr. and Mrs. John de Villers and daughters Diana and Jackie whom they met in 1967 and who were so good to them after they wrecked their car enroute to Expo.

Back in the states they stopped at Richmond, Mich., with friends, the Robert Tibbets family. Driving through the grain belt they saw farmers busy combining and baling hay. At Muskegan, Wis., they crossed Lake Michigan by auto ferry, an 85 mile six hour excursion.

At West Bend, Iowa, they visited the Grotto of the Redemption. Mrs. Zimmerer was seeing it for the first time. The Sicking's had visited it six years ago.

In Omaha, Neb., they visited friends, the J.J. Janasiks and in St. Joseph, Mo., they were guests of Mrs. Sicking's cousins, Mr. and Mrs. Jim Shermans and daughters.

They headed for home in the rain through Kansas and Oklahoma.

Your dollar buys twice the electricity it did 20 years ago!

And that's a lot!

In these days of sky-high prices for nearly everything, it's nice to know that the price of each kilowatt-hour unit of electricity used by Texas Power & Light Company customers in their homes is about one-half what it was in 1949.

True, most electric bills are higher today, but that's because most people are enjoying so many more conveniences and comforts provided by electrically-operated appliances and equipment. Last year, the average TP&L residential customer used more than six times the amount of electricity he used in 1949.

When you receive your electric bill, think of the many electric servants in your home and the jobs they perform. Remember the low, per-unit price of electricity. We believe you'll agree that the cost of electricity is the biggest bargain in your family's budget.

SECTION 5. That election judges and clerks are directed to comply with Article 6.06, Election Code of the State of Texas, as amended (Section of House Bill 181, Acts 1967, 60th Legislature, Regular Session, Chapter 452, Pages 1026, 1028), which provides that a space shall be placed beside each of the propositions in which the voter is instructed to place an "X" or other clear mark to indicate the way he wishes to vote; and which also provides that failure of a voter to mark his ballot in strict conformity with the directions on the ballot shall not invalidate the ballot, and the ballot shall be counted if the intention of the voter is clearly ascertainable, except where the law expressly prohibits the counting of a ballot. It is specifically provided that the election officers shall not refuse to count a ballot because of the voter's having marked the ballot by scratching out the statement of proposition for which he does not wish to vote.

SECTION 6. That notice of the election hereby ordered and called shall be given: (a) by publication on the same day two successive weeks in a newspaper of general circulation published within the county of Cooke, State of Texas, the date of the first publication to be at least twenty-one (21) days prior to the date set herein for such election; and (b) by posting of such notice at the polling place of the Town of Lindsay, Texas, not less than twenty (20) days prior to the date set herein for such election. It is hereby found and determined that the Muenster Enterprise is a newspaper of general circulation within said Town of Lindsay, Texas. SECTION 7.
