MUENSTER, COOKE COUNTY, TEXAS 76252

NUMBER 45

The Dallas Times Herald was concerned in a recent editorial that the death of Senator Dirksen could result in waning interest in the good senator's constitutional amendment guaranteeing the right of non-denominational school prayer.

Dirksen was devoted to the amendment and gathered majority support for it in the 1966 Senate vote, but unfortunately he was eight votes short of the required two-thirds majority. Nevertheless he kept working at it, hoping eventually to nullify the Supreme Court ruling of 1962, which banned required or officially written prayers in public schools.

By coincidence, the senator's wish becomes more significant at the time of his death. Not because of his death, but rather because of that atheist female who is making a career of insulting God.

The wave of resentment she is creating across the country is prodding the public to overcome some of its apathy on the subject. If Dirksen were still here we could expect him to do something while the resentment exists and possibly get Senate approval of the prayer amendment. Since he's gone we wonder if anything will get done, if so, what and by whom?

By way of clarification it should be admitted that the Supreme Court's ban on prayer was limited. It referred only to required or officially written prayer. Defenders of the court decision, including some church people, have pointed out that the ban does not apply to all prayers but only to those which are officially written. Presumably, then, Dirksen's intention was to remove the limitation and allow any kind of prayer the school authorities wished.

In that regard it seems that Dirksen's view was as valid as the Court's. Accepting the principle of separation of church and state, all will admit that prayer should be non-denominational and not partial to the views of any one creed. However, how can the law's intent be guaranteed when a prayer is a personal and spontaneous recitation by the person who says it? How can anyone be sure that it will not be denominational, reflecting the creed of the person who recites it?

Considered from this angle, it appears that the Court's decision was a boner in logic. A better way to avoid violation of the principle of separating church and state is to make sure of avoiding denominational prayer. The sure way of doing that is to adopt official prayers which meet the constitution's standard.

This column does not know what was Dirksen's main point of contention. Did he want prayers which were adopted as official because they were acceptable to all creeds, or did he just wish to remove the court's limitation and permit any prayer that a school's personnel wished to use? Either way, his idea seems better than the Court's. We hope that the blasphemous mouthings of the atheist madam will induce other senators to carry on the Dirksen crusade.

Regarding the present ruckus started by Mrs. O'Hair, it's hard to see how she can make a case. School officials have been cautious to avoid trouble, and doing that was rather simple by just allowing persons to pray as they pleased. We doubt that they willingly and knowingly defied the law when it was more prudent and easier to just avoid the issue.

Perhaps she can cite some cases of slip-ups on technicality. One can understand that some people occasionally will present prayers that were composed by others instead of their own recitations. That seems reasonable because many such prayers are more beautiful or appropriate, expressing the thought better than the people could on their own. Quoting another's prayer ought to be as valid as quoting another's statement in science or literature. It could be the madam's grounds for suit. If so, let's hope that the Supreme Court will show her the scorn she deserves.

The biggest absurdity about her suit is the attempt to fatten financially on the case. Imagine, she demands damages because she has been offended by these prayers. Or possibly she resents prayer as a personal affront to her because this is her law passed by a silly court at her personal demand. Well, you can't a suit be (Continued on Page 8)

\$5,478 Received For 2nd Quarter of City Sales Tax

The city of Muenster has received \$5,478.03 from the State Treasurer, the amount realized on its 1 per cent sales tax for the second quarter of this year.

Mrs. Glenn Richardson, city secretary, said Monday that the accompanying statement indicated gross collections of \$5,625.25 for the period. The state deducted \$112.50 as its 2 per cent service fee and also held back \$273.78, which is 4.76 per cent retained to cover possible discrepancies. Then it added \$239.12 which had been held back from the previous quarter's payment.

This check is the biggest of the four received here since the sales tax started on July 1, 1968. Next biggest was \$5,109.37 for the last quarter of '68, which includes the Christmas buying season. The other checks were \$4,964.51 for the third quarter of last year and \$4,576.12 for the first quarter this year.

The four checks received so far add to \$20,128.03, the city's full year of sales tax revenue. It is more than twice as much as the city's original estimate and almost twice as much as indicated in a report of Texas Municipal League.

Still higher revenue is due beginning this week Wednesday when alcoholic drinks became subject to the sales tax.

Tigers Will Play Era High Hornets There Friday Night

Sacred Heart's Tigers, working on a season long uphill struggle, are headed for one of their normal oversize jobs this week. They will meet the Era Hornets there Friday at 8 p.m.

Era made a good season start by blasting Callisburg and S&S and improved its image last week in a close loss to Boyd. Against that competition a small loss was still a good record, but the report is that Era looked better than the score.

The team's big threat is its passing. Quarterback Ford can maneuver behind the line and hit his target. Coach Tom Joy is concerned about that and has his Tigers working overtime on pass defense. He's also putting in time on his offense, especially trying to improve the blocking.

The Tigers will go into action without Henry Knabe, tackle, who received a leg injury during the week. Other team members are ready.

Tibbets Will Head UF Rural Effort

Neil Tibbets is one of 150 community and civic minded persons who will be helping with the 1970 United Fund Campaign. He is serving this year as one of the six division chairmen in the United Fund and will work in Muenster, Lindsay, Era, Hood, Valley View, Callisburg and other communities.

Neil Tibbets has been the county agricultural agent of Cooke County for 14 years. In his 17 years of Extension work he has also served in Johnson and Dallas counties. He is a graduate of Texas Tech in Agriculture Education and holds a B.S. Degree.

Over 800 Signatures OK Prayer in Space

Over 800 personal requests to "make space for God" were sent from here this week to NASA headquarters of Houston.

There were 536 letters and 285 petition signatures collected by local Jaycees in cooperation with the statewide Jaycee campaign for letters asserting the right of astronauts to pray or quote from the Bible while on a space mission.

The campaign was launched in response to recent objections by Atheist Madalyn Murray O'Hair and her claim to have 27,000 signatures opposing prayer and Bible passages on space flights. Texas Jaycees set out to match her letters more than 10 to 1 and set their goal at 300,000. The petition was adopted as a means to add emphasis.

Jaycee President John Pagel was chairman for the Muenster campaign. He has forwarded

Ft. Worth Team Romps to 33-12 Win over Tigers

The same old problem haunted the Tigers as they played the Falcons of Fort Worth Country Day School here last Friday night. They were simply swamped in weight and numbers and experience.

The odds were hopelessly stacked, still they fought every minute of the way and gave a very good account of themselves.

That was true especially early in the second quarter when they held the big Falcons to a yardage of -1 in a series starting from the 1. The same applied a short time later when the visitors started on the 12 and ended on the 5.

Starting the game the Falcons intercepted on the third play and lost possession as Kevin Swirczynski recovered a fumble. Next time they got hold of the ball they scored in one play, Kimble hit right tackles and sailed on for 47 yards. Tigers had to kick in their first series and the Cowtowners went 27 yards in the next two series, after which Sacred Heart made one of its two first downs of the first half.

Starting the second quarter Tigers intercepted a long pass and were backed up against the goal line. Three tries got short yardage and a fourth down punt was blocked, a set up on the 1 for the Falcons.

That's when the Tigers pushed the Falcons back one yard in four plays and stopped another scoring threat moments later.

But the third attack was too much, Tigers fumbled two plays later and the Falcons were in business again on the 7. Second try was a screen pass that went for 9 and the score.

First play after kickoff was (Continued on page 4)

Moon Year Flavor Will Feature Fair

Big Tex and his gigantic State Fair of Texas, the largest on earth, take a giant leap together into the Space Age with the Moon Year Exposition, Oct. 4-19 in Dallas.

The four-story cowboy won't be swapping his 75-gallon Western hat for an astronaut's helmet. But the whole fair will have a strong space flavor mixed with the timeless taste of snow cones and hot dogs. A serious scientific exhibit will add its own excitement to the familiar Ferris wheel of fun, color and thrills.

The Moon and Beyond is the title of this keynote exhibit, a comprehensive space show featuring a full-size mockup of the Apollo command module, authentic right down to the last control.

Four walk-through sections with sound and color pictures, all being presented together for the first time, will tell the story of the National Aeronautics and Space Administration (NASA); its Mercury, Gemini and Apollo programs; the moon landing and the prospects for voyages to other planets in our solar system and even to more distant worlds.

The space show will be in the New Dimensions Pavilion, formerly the Varied Industries Building, adjoining the Southwestern Wax Museum.

The Moon and Beyond comes to the State Fair of Texas from NASA's Manned Spacecraft Center in Houston.

42 Enrolled in Pre-School Class

Forty two kiddies were enrolled Wednesday morning in the pre school program of Muenster Public School and have been divided into two classes of 21 children each.

Principal Charles O. Cash made the announcement after the last pupil was signed up, adding that children can still be enrolled and more are expected on or before the first classes next Monday. Since the enrollment figure is low, 12 less than last year, Cash said that more will probably show up later.

Mrs. Hollis Berry again teaches both of the pre-school classes. Classes are scheduled so the rural children can ride the busses one way. Morning pupils can come to school on the bus, evening pupils can return home that way.

Strong Start by Celina Defeats Hornets 32-14

Muenster fans were never more cheerful in defeat than at Celina last Friday night. Despite their team's 32-14 loss they came away proud and pleased. They had all but forgotten the nightmarish first eight minutes in which the Bobcats scored four quick touchdowns and were thinking of the other three quarters in which the Hornets outscored and outplayed their hotshot foes.

It was well known that the Hornets had lots of nerves and butterfly stomachs as they squared off against the mighty Celina outfit. It was the team which had clobbered their 40-0 in the regional last year and was rated even stronger this year.

Celina promptly started to prove that the rating is correct. First scrimmage play was a 12 yard gain by Hampton, the black streak. Next was a pass for 65 yards, Point after touchdown kick was good and Celina led 7-0 in the first minute.

Next one took slightly longer, Hornets were stopped on their third series and Gary Vest got loose for 72 yards just three plays later.

TD number 3 likewise came easy to the Bobcats. Hornets were stopped on the first series. After a short kick Celina was 37 yards away. Eleven free yards on a penalty and four plays made the distance. The scoring play was a pass for 12 yards.

And still another quick one. On the first play after kickoff Vest intercepted and dashed 35 yards to pay dirt. Extra point kick was good. The score was 26-0 with 3:42 still showing in the first quarter.

Gloom was heavy on the Muenster side, and an estimate of the final score was humiliating. It was becoming amusing to fans across the field.

Again the game resumed on a sour note. On second play (Continued on page 8)

Grewing both won door prizes.

October 1 Mail Brings 1969 Tax Statements

It's tax paying time again. People of Muenster have received their annual pink statements in window envelopes reminding them that they are expected to remit to tax collectors of the city, the school district and the county. The statements were in the mail promptly on October 1.

On an average the total tax bill for taxpayers of the city of Muenster will be near \$5 for each \$100 of assessed valuation. Actually that figure is subject to adjustment because of variation in valuations by the city, school district and county.

County valuations are the lowest and they are subject to rates of \$1.60 for the county plus 65 cents for the Muenster Hospital District. The county collects for the hospital district. The city has a tax rate of 1.35 and the school district a rate of 1.50.

A breakdown of the county's \$1.60 rate show 82 cents for administration, 6 cents for FM and lateral roads, 30 cents for the junior college and 42 cents for the state.

Total valuations for the county are \$50,211,438, an increase of about \$200,000 over last year.

Reports from the two local tax offices indicate that over 3000 statements were mailed out in a total amount of over \$173,000.

Mrs. L. B. Bruns at the school tax office said that to

Eleven New Cubs Join Local Pack

Muenster Cub Scout Pack welcomed 11 new members at Monday night's meeting which included presentation of awards, games and refreshments.

Committee Chairman Clyde Fisher presided and Cubmaster Alvin Hartman and Webelos Leader Don Murch presented awards.

Den Chiefs Danny Fette, Jim Endres and John Schneider led games.

A display of crafts by dens and Webelos was viewed by boys and parents.

Mrs. Edgar Dyer led the group in singing God Bless America as the program finale. Mrs. Alvin Fuhrman accepted duties as mother of Den 2 succeeding Mrs. Ray Wilde. Mrs. Harold Knabe and Mrs. Werner Cler joined den mothers as assistants.

New members are Chris Stoffels, Kevin Cler, Tim Walterscheid, Joe Bartush, Dick Dangelmayr, Eddie Serna, Paul Serna, Alberto Escobedo, Gary Joe Walterscheid, Curtis Pagel and Stuart Wolf.

Awards were presented as follows: Curtis Pagel and Stuart Wolf, Bobcat, Dwayne Knabe, Wolf; Doug Cler, Deryl Zimmerman and Kent Wolf, Bear; Robert Hartman, Silver Arrow; Dannie Fisher, Aquanaut; Bill Murch and George Luke, Webelos Award.

assessed valuation is \$9,865,850 and the revenue expected, at the \$1.50 per \$100 rate, should be \$147,987.73. Of that amount \$85,231 will be paid on personal property and \$62,756-40 on oil and utilities.

The school tax went up 33 1/2 per cent since last year. Faced by teacher pay raises, rising costs and debts on buildings the school board made the 1/2 increase on all valuations and retained its old rate of \$1.50. Last year's total tax bill was \$111,267 on valuations of \$7,417,808.

The city of Muenster has a better deal. It decreased its rate from \$1.50 to \$1.35. Total tax expected is \$25,439.80 on total valuations of \$1,884,429. Valuation of real estate accounts for \$1,377,269 of that and of personal property for \$507,160. Last year the city's statements amounted to \$27,285.49 on valuation of \$1,819,034.

Past experience at both local offices indicates probable collections of 97 per cent by February 1. After that date taxes become delinquent and subject to penalty.

Soil District Sponsors Contest In Grass Judging

The twentieth annual grass judging contest sponsored by the Upper Elm-Red Soil and Water Conservation District will be held at Cooke County Junior College on Tuesday, October 7. Registration will begin at 1 p.m. and judging at 2.

Harold Skaggs of Sherman, chairman of the district board of supervisors, made the announcement this week stating that the contest is open to all members of the 4-H clubs and Future Farmers of America chapters in the three-county district. At least 100 boys are expected to compete.

Skaggs praised the contest, which started in 1950, as one of the best in the district for agricultural youths. It is based on knowledge of fifty plants grown on farms and ranches of the area. These plants are identified by name and classified as to grazing value, wildlife value, annual or perennial, native or introduced, and whether a cool or warm season growing plant. Intensive study is required to prepare for the contest and the knowledge attained is useful in later farm operation.

The contest has a junior division for first year students and a senior division for advanced students. A team is composed of four boys and the team score is made up of the three highest individual scores.

After the contest the board of supervisors will host the boys and their coaches at refreshments, and will also present awards to the winning teams and high scoring individuals.

Stout Collinsville Pirates Will Host Hornets Friday

There will be no let-up of pressure on the Hornets this week. Scarcely recovered from a real strain at Celina last week they are taking on the tough Pirates of Collinsville. The game will be there starting at 8 o'clock Friday night.

Wins over Anna and Valley View and the 33-5 mauling dealt out to Lindsay last week have given the Pirates momentum that will be hard to stop.

Just the same Coaches Richardson and Hamric are confident that the Hornets can handle the job. They proved their ability last week by outplaying the rugged Celina Bobcats for three quarters, and Celina is rated as one of the top Class B powers of this area.

But it will not be easy. Collinsville is another high rated outfit with size to match Muenster's and a pair of hard running backs.

A problem for the Hornets is the absence of John Monday with a shoulder injury received last week. He will be replaced by Jim Endres, who did a fine job at the quarter-back spot several times last week. Otherwise all of the boys are well and ready.

New Tax Package Effective Oct. 1

AUSTIN, Tex. — Legislators closed out 44 days of special session conferences over taxes and finance. Texas' \$348.6 million tax bill, which takes effect October 1, includes:
... An increase from 3 to 3.25 per cent in the general sales

tax rate and inclusion for beer and liquor in the tax base for the first time.

... A boost in the cigarette taxes from 11 cents to 15.5 cents a pack.

... Increase in corporation franchise tax from \$2.75 to \$3.25 per \$1,000.

... Change in corporation franchise tax allocation formula to include out-of-state concerns which sell products in Texas (food and drugs exempt).

... Raise in natural gas tax from seven to 7.5 per cent of value.

... Levy of five cents a drink on alcoholic beverages sold in private clubs.

A record \$5.8 billion biennial appropriations bill — \$313.8 million above the present general revenue spending level — Would provide a \$205.6 million increase for education,

\$58 million more for health, hospitals and youth corrections, \$62.2 million increase for medical aid to the needy and a 10.4 per cent increase in state employees' pay.

When the major business of the session was over, legislature turned to other matters submitted by Gov. Preston Smith which included:

... Creation of 28 new district courts over the state.

... Establishment of an antiquities code, setting state policies for historic and scientific explorations on state-owned lands.

... Removal of the statutory interest rate limits on state and local government bonds.

... A variety of "clean beach" legislation.

... Authority for creation of a non-profit corporation to provide deposit insurance for state banks and savings and loan associations in the \$15,000 to \$100,000 range.

Before departing for the hinterlands, legislators voted themselves increases in their contingency funds.

House raised its allowance for each representative from \$450 to \$875 monthly during the interim between legislative sessions. Senators raised their expense maximum from \$1,000 a month to \$1,700.

Legislators in both houses are paid a salary of \$4,800 a year.

Governor Smith Okays \$5.8 Billion Budget for 70-71

Gov. Preston Smith has signed into law a \$5.8 billion 1970-71 state budget. This was after vetoing \$4.4 million in miscellaneous spending items. Yet the expenditure set an all-time record.

Earlier, Smith approved a new record \$348.6 million tax bill which takes effect October 1. (In addition to state revenue, cities will get an estimated \$6 million a year due to extension of the sales tax to beer and liquor. Sales tax rate goes up from 3 to 3.25 per cent.)

Smith also signed other acts of the special session, including legislation creating 28 new Texas district courts. He will name all judges to serve until the next general election. This may be the largest single amount of judicial patronage assigned a Texas governor at one time in state history.

Tax bill as passed by the Legislature provided plenty of revenue to fill the State's needs, but Smith said his vetoes are "justified for the sake of economy perhaps more than for anything else." Many of the items vetoed, he noted were not part of the original House or Senate appropriations acts, and some were not even requested by agencies.

Governor Smith vetoed the following items as now "unjustified or non-essential": Construction funds totaling \$2.9 million for the Dallas Neuropsychiatric Institute; \$262,717 for the Department of Public Safety sub-district headquarters in McAllen; \$250,000 for the Junction adjunct of Texas A&M; \$160,000 for Texas Maritime Academy Pelican Island Development.

Also an appropriation of \$225,000 for contracts of private lawyers to assist the Attorney General in tort claims cases in 1971; \$172,000 for park land acquisition in Hardeman and/or Motley counties; \$207,500 for acquiring land and development of Port Lavaca Causeway State Park; \$50,000 for drilling a water well at Lyndon B. Johnson State Park in Gillespie County; \$25,000 for Longhorn Cavern State Park; \$29,000 for completion of a master plan for the Red River Authority; \$60,000 for a fish raising facility at Stephen F. Austin College in Nacogdoches, and \$65,000 for environmental pollution control studies at Prairie View Agricultural and Mechanical College.

File Promptly for Medicare Benefits At 65th Birthday

"Don't delay, do it today" might sound like an overworn cliché, but it is an important suggestion to any person nearing his 65th birthday, Gus Jones, Sherman social security district manager announced today.

Failure to make application on time has resulted in a loss of cash benefits and Medicare protection to several local residents, he reported.

A worker should apply for his social security benefits during the three months period before his retirement date, he stated, and definitely during the three months before his 65th birthday, whether he is contemplating retirement or not.

He emphasized that early filing of the claim allows the social security office adequate time to assist the claimant in securing the required proofs for approval of his claim, and also assures the payment of benefits promptly.

Jones said that applications are retroactive for a period of one year but this regulation is not effective with respect to a claimant's election of supplementary medical insurance under Medicare. This is why it is imperative that people make their applications in the three month period before age 65.

Though the regulations allow a person seven months

(three months before and three months after his 65th birthday) to enroll in the "doctor bill" part of Medicare, he pointed out that the claimant must make his election before he becomes 65 for his protection to be effective with the month of his birthday.

Jones urges everyone nearing 65 to contact his office to file for these benefits. If you are unable to go to the office in Sherman a representative may be contacted in Gainesville each Tuesday and Thursday in the Federal building. He is there between the hours of 9:30 and 12:00 noon.

Over One Trillion Miles Traveled by US Drivers in 68

U.S. highway travel topped the one-trillion-vehicle-mile mark during 1968, reports the American Automobile Association.

Total travel amounted to 1,016 trillion vehicle miles, a 5.2 percent increase over 1967's 965 billion miles, according to a compilation of state highway department reports received by the AAA.

In Texas motorists in 1968 recorded 62.2 billion vehicle miles, 28.8 billion of them along rural highways and 33.4 billion of them along urban and municipal roadways. Interstate Highway System travel in Texas accounted for 13.6 billion vehicle miles.

Nine states each reported 1968 travel in excess of 30 billion vehicle miles—accounting for half of all vehicle travel in the nation. They were California, 106.0 billion; New York, 62.3 billion; Texas, 62.2 billion; Pennsylvania, 56.9 billion; Ohio, 52.8 billion; Illinois, 52.1 billion; Michigan, 48.0 billion; New Jersey, 37.7 billion, and Florida, 34.8 billion. Seven additional states reported travel in the range of 20 to 30 billion vehicle miles. Added to the top nine, those 16 states account for two-thirds of the miles traveled in all 50 states.

The trend toward a higher proportion of urban travel was continued in 1968, with urban travel comprising 50.3 percent of the total compared to 50.0 percent in 1967.

Mrs. Weinzapfel Is Birthday Honoree

Mrs. J.M. Weinzapfel's Sept. 28 birthday was the inspiration for a family dinner party Sunday and visits from children earlier who couldn't attend the Sunday celebration.

The Henry Weinzapfels and David Brights were co-hosts for the dinner — a barbecued chicken feast on the patio at the Henry Weinzapfel home.

Mr. and Mrs. Hugh L. Jackson and children came from Fort Worth bringing a large decorated cake. It was served with ice cream in the late afternoon.

Also attending from out of town were Mr. and Mrs. Bill Birden and sons of Lewisville. Mrs. Tony Gremminger was a special guest.

A Saturday surprise was a visit from a daughter and

son-in-law, Mr. and Mrs. P.W. Hellman who flew in from Tulsa to spend the day. And on the preceding Wednesday, Msgr. Thomas Weinzapfel of Dallas and Father Joseph Weinzapfel of Grand Prairie were visitors and stayed over night. Their birthday visit was early because parish duties prevented their attending the Sunday party.

Weekending with Mrs. T.S. Myrick and the Pat Stelzers was Mrs. Myrick's grandson Thomas Myrick, son of the John Myricks of Aurora, N.C. Thomas is a freshman in high school at Norman, Okla., and lives there with the Raymond Pultes. He also visited his other grandmother Mrs. Jewel Whorton at Gainesville and his uncle and family, the Jim Myricks of Arlington who were visiting in Muenster.

These toys are just a few from an assortment presented Sunday, Sept 14, by Muenster Jaycees to the Denton State School for Retarded Children. Shown with Mrs. Dorothy Morse, assistant coordinator of volunteer services are Jerry Wimmer, Charles Bayer and Larry Tisdale. The toys were originally shipped on consignment to Tony Luke's Ben Franklin Store by the Ben Franklin Company. When consignment time expired the company asked Luke to give the remaining toys, retail about \$500, to a charity rather than ship them back. Luke asked the Jaycees to take over. After delivering the toys the Jaycee trio had a tour of the school with Mrs. Morse as guide.

'Squaw Pan' Gets Companion Tool 'Mano' for Grinding

When Davy Krahl, a pupil of the Junior High of Sacred Heart School read the recent article in the Muenster Enterprise about the "Squaw Pan" he realized that he had the means to supplement the missing part of this grinding tool—the grinding rock or "mano" as it is properly called.

Not only did Davy, who is a member of the Archeological Club present the Science Department of Sacred Heart High with a handsome, reddish colored mano, perfectly smooth on one side, rough on the other and of very comfortable gripping quality, but he also brought a brochure, entitled Metates and Manos—The Basic Corn Grinding Tools of the Southwest. The Metate is the more technical name for Squaw Pan.

Four different types of metates were shown and described. The one Sacred Heart has is a basin metate with a one-hand mano rotated in operation. A second illustration showed a trough metate with one end closed and a two-hand mano operated in reciprocal back and forth motion; a third was a trough metate with both ends open and a two-hand mano operated reciprocally.

One picture in the brochure shows a grinding bee in which were Indian women grinding corn in a "grinding Bee." An authority describes such grinding bees in which music was played on a flute to accompany the corn grinding, and singing from the operators helped lighten the work.

Sacred Heart's Science department wishes to thank Davy for completing so perfectly the gift of George Gehrig who donated the "Squaw Pan," or "Metate." Davy is the son of Mr. and Mrs. Eddie Krahl.

Mrs. Hartman Is Feted on Birthday

Members of the Victor Hartman family including all the grandchildren gathered for a birthday celebration honoring Mrs. Hartman at the family home Sunday.

Also honored was a granddaughter, Madonna Hartman of Killeen, celebrating her seventh birthday.

Gifts and decorated cakes were included in the observance.

Attending the all-day gathering from out of town were Mr. and Mrs. Teddy Gremminger and children of Garland, Mrs. Keith Tompkins and children of Arlington, Mrs. Gene Hartman and children of Denton, Mr. and Mrs. Walter Wolf and family of Gainesville and Mr. and Mrs. Willard Hartman and family of Killeen who spent the weekend. Also present were the Alvin Hartmans, Harvey Schmitts and John Yostens and their families.

Return from Trip

Mr. and Mrs. Felix Yosten are back from a week's vacation in California with their children Tom and Misses Gloria, Linda and Bernadette Yosten who live in Mountain View. They traveled by air through courtesy of American Airlines and Gloria who is an airline hostess. There was much sight-seeing including cities, mountains and beaches and they toured a winery. One night at the Jamaica Inn they met Western Star Eddie Dean who was guesting there. The three Yosten sisters have enrolled in night school to work on college degrees and hope eventually to teach. Linda, R.N., nurses at Stamford Hospital, Bernadette works in a bank and Tom works in an electric appliance store. The past week Gloria received her gold wings for flying five years.

**The Paul Fetsches
Vacation in N.Y.**

Mr. and Mrs. Paul Fetsch had a five-day vacation at Long Island, N.Y., flying to see friends they made 25 years ago when Paul was stationed at Mitchell Field there in the Air Force. The base is no longer there. It has been replaced by a college and industry.

They visited their first home where they located after their marriage. The same people, Mr. and Mrs. Everett Mott, still live there. And they got together with six couples with whom they were friends in 1944.

Sight-seeing included Jones Beach, the Atlantic Ocean and boat riding and many other in-

teresting places.

One day they made a tour of Sands Point Day School for gifted children—a private school run by Dr. Marie Fetsch and her husband Joseph Fetsch, a retired Navy officer. They are no relatives but are pen pals of the couple's son Robert Fetsch of San Antonio.

While they were away Miss Evelyn Fetsch of Dallas was at home to help Joan and Garry with farm chores. Mr. and Mrs. Fetsch returned Thursday evening. Evelyn returned to Dallas Sunday.

Jerry Hellman of Fort Worth visited Monday with his uncle and aunt, the Ervin Hamrics and his cousin Dan Hamric and family.

Early Hot Streak Gives Cubs 20-6 Win over Saint Jo

Sacred Heart Cubs at Saint Jo Tuesday night opened their game with a hot streak that scored 20 quick points and then held out for a 20-6 final score.

David Krahl started it with a 75 yard kickoff return and a run for extra points.

Shortly after that Kenny Hess intercepted and Krahl got loose on the next play for 65 yards and a TD.

Saint Jo snapped back with a good kickoff return, a 29 yard run to the 27 and a first down on the 18. But the next series stood still and Sacred Heart got possession on the 18. Shortly after that Krahl scooted around right end on a 77 yard scoring gallop.

That was less than a minute into the second quarter and the rest was scoreless until the final minute. During that time Saint Jo outgained Sacred Heart 8 first downs to 3, however good defense at the right time kept the Cubs out of trouble.

Tim Felderhoff intercepted in the end zone and grounded the ball giving the Cubs possession on their own 20 but the ball went back on an interception the next play.

After that both teams failed on a series of downs, and then Saint Jo made the final 12 in three plays.

The Cubs will have an open date next week.

Tigers - - -

a pass to Ronnie Hess for 12 yards, the Tigers only completion of the game. The next was an interception. Falcons were starting again with 56 to go. Only four plays were needed, and the payoff was a 35 yard pass to Rodgers. A kick was good for extra point making the count 19-0 at intermission time.

Falcons started the second half with a first down and failed the second series when a fourth down gamble was smeared for a five yard loss by Melvin Luke.

That was only an interruption, however. After holding Sacred Heart on the first series Day School went 73 yards and overcame a 15 yard penalty along the way. A run went for 53 but a clip penalty reduced the actual gain to 27. Nine more tries finished the remaining 46 yards. A kick made the score 26-0.

Another TD came just before the end of the third quarter. Ronnie Hess had just intercepted, Sacred Heart was 30 yards away. A pass was complete to Melvin Schilling but he fumbled when tackled. A Falcon recovered it in the air and breezed some 80 yards to the goal. A kick added a point.

For the last quarter Falcons turned the game over to their reserves, making the game about as one sided the other way.

Following kickoff Sacred Heart went 61 yards in 13 plays and their drive fizzled. However defense held and Sacred Heart was back in business on the 30 after four plays.

Schilling made the distance on runs of 23, 3 and 4 and also crashed over for bonus points.

The final drive started with Schilling's fumble recovery on

the Tiger 46. Eight plays and 15 free yards on a penalty made the 54 yards. Schilling plowed over for the last 9 yards and for the extra points. The count was 33-16 two plays before the game ended.

WHAT IS AMERICANISM?
 Here is what Theodore Roosevelt said: "Americanism means the virtues of courage, honor, justice, truth, sincerity and hardihood -- the virtues that made America. The things that will destroy America are prosperity - at any price, peace - at any price, safety-first instead of duty-first, the -love -of -soft -living, the get - rich - quick theory of life."

CCJC Welcomes Suggestions on Adding Courses

As part of the continuing efforts toward expansion of its community services, Cooke County Junior College has extended an invitation to area residents to contact the college regarding any courses they would like to see added to the curriculum in the future.

The college also asks area residents who are interested in courses such as sculpturing, oil painting, pottery-ceramics, and weaving to contact the college and indicate the most convenient time for attending such classes.

At present the above courses are a part of the night school program but could be offered at other times if enough interest is shown. Those interested should contact the Secretary to the Dean of Instruction at HO5-3476. The information will be used to assist in arranging course offerings for the forthcoming semester.

SOIL CONSERVATION DISTRICT NEWS

A beautiful system of parallel terraces can be seen from Hwy. 82 3 miles East of Muenster on the Joe Mages farm. Approx. 4 inches of rain in two days has caused many fields to wash. If yours is one of them why not go by and see the parallel terraces on Mr. Mages farm on your way to Gainesville to make an application to build your parallel terraces. This place is farmed by Eddie Schmitt.

You can buy Ammonia Nitrate now for \$3.00 per hundred - that's about 3 bales of bought hay this winter - and with this nitrogen you can fertilize an acre of bermudagrass. This could save buying a lot of hay this winter.

A shortage of rainfall this year has caused a shortage of grass and hay. Now that we have moisture our pastures can be topdressed with at least 30 pounds of nitrogen per acre. A lot of grass can be grown between now and mid-November which is about the end of our growing season.

Those who have shaped some gullies and planted them to grass can benefit most by applying 30 pounds of Nitrogen per acre as soon as possible. This could mean the difference between a cover of grass and bare ground.

Clitus Dunn recently constructed two farm ponds and two diversion terraces under his Great Plains Conservation program. The ponds will serve as separate water supplies in two different fields. The two diversion terraces will divert water from two gullied areas and empty the water at safe outlets. The ponds will be stocked with fish at a later date.

Clifford Hudspeth of Forestburg has built a farm pond and shaped and plowed several acres of gullies which will be sprig planted to Coastal bermuda next spring.

Other local farmers who have built ponds include B.F. Wolf, J.P. Kidd, Paul Fisher, and Cecil Simms.

Mrs. Pauline Seay continues to make good progress on her farm at Forestburg which is under a Great Plains Contract. She has had the timber removed from 7 more acres and the area plowed with a dozer and an offset disk. Several burned windrows have been repiled and burned again and about 20 acres have been plowed in preparation for planting coastal bermuda next year.

Mr. W.R. Hutson has made an application for a Great Plains Conservation program as soon as funds are available. His farm is located in the Dye Mound area of Montague County.

A conservation plan was recently developed with Foy and Talbert Fanning on their farm at Forestburg. They also made an application for a Great Plains Contract as soon as funds are available.

If any are interested in the Great Plains Program, we are still taking applications at Muenster. See your local Soil Conservation men. Those who make application now will be that much farther ahead of the rest when funds are available.

Collinsville Trips Knights 32-6 in Fumbles Contest

Lindsay High's short winning streak came to a jolting stop last Friday night when the Pirates of Collinsville came for a raid. In spite of statistics showing that it was a close game, the scoreboard said that the visitors won 32-6.

The outcome reflected a difference in the way the teams responded to their breaks. Fumble recoveries and interceptions added to six on each side and Collinsville turned three of them into scores while the Knights lost their opportunities. Another factor, however, was that the Pirates usually had better field position and they were nearer the goal when opportunities came.

First Pirate touchdown resulted from a drive as the game started and a pass added 2 points.

The second score came shortly later after a drive that was interrupted by a pair of fumbles. Collinsville fumbled on the 10, Lindsay fumbled it back on the 4.

Another drive late in the first half ended in a 22 yard romp to the goal.

An interception and 45 yard run back produced the fourth TD and a short drive after fumble recovery ended in the last Pirate touchdown.

Lindsay's came less than 2 minutes from the end. It resulted from a drive in which the big plays were a pass from Fuhrmann to Bezner for 33 and a run by Hermes for 38.

Statistics were somewhat less one sided. Visitors led 14-11 in first downs and 271-203 in yardage.

Mr. and Mrs. Jim Myrick and children Jill, Julie, Joe and Jeffrey were Saturday overnight and Sunday visitors with his mother, Mrs. T.S. Myrick and the Pat Stelzers and visited with relatives of the Hesse family. It was baby Jeffrey's first trip away from home and his get-acquainted visit with family members.

Mr. and Mrs. Bill Kathman spent Saturday and through Sunday in Grand Prairie with their daughter and family, the Stan Wylies.

Hornets - - -

A Hornet pass was intercepted. But then Muenster got its first break. Next play Tommy Henscheid recovered a Celina fumble.

Two plays later Jim Endres went in at quarterback and started firing passes. He hit John Felderhoff for 20, Robert Bruns for 5 and 9. Spirit was reviving fast on the field and in the stands.

Then Endres avoided a pair rushers and floated a long pass to Bruns who went high for it and came down running. He had only a few yards to go to finish the 34 yard TD play and the Hornets had broken the Bobcat jinx. Their drive consisted of four completions out of 7 tries for total gains of 62 yards. The score was 26-6 with 5 seconds remaining in the first period.

In spite of the one sided count the Hornets were serious about winning. They forced Celina to punt on the first series after kickoff and headed goalward. With 35 yards to go, John Monday passed to Andy Knabe for 11, gained 11 and 4 on two keeper plays and passed to Bruns for 9. Monday also crashed over for bonus points. The score was 26-14 less than two minutes into the second quarter.

The rest of the period was two futile attempts to get going. Celina made a first down, kicked on the second series and Muenster kicked on its first series. Then Celina made two more first downs and lost possession on the 30.

Starting from there Muenster got back to the Bobcat 32 before running out of time. Earl Koelzer with a run for 10 and pass completions for 7 and 9 was the principal gain-er.

Third period was more of the same with both teams making good defensive stands at the crucial times. Muenster made 2 first downs, kicked, then another first down following Monday's interception and lost possession on the 29. Celina bounced back with a strong drive for 37 yards in eight plays before Terry Miller recovered a fumble on the Hornet 32.

Five plays and a penalty got Muenster back to the Bobcat 32 before losing possession on a fumble.

Ending that period and starting the last, Celina failed on its second series and Muenster on its first. Then the Bobcats went after their last score from 78 yards away. The big jolt to the Hornets in that drive was a pair of 15 yard penalties reaching the 37. It was a spark for Celina or a let down to Muenster and the Bobcats scored nine plays later on a 10 yard pass.

For the rest of the game neither team could keep going. Highlights were an interception by Celina, passes for 15 yards to Bruns and 23 to Felderhoff, a fumble recovery by David Stormer and one by Celina.

As Muenster prefers to look at the game it was not all a loss but rather a loss in the first quarter and a fine comeback in the rest of the game. After the first quarter the Hornets outplayed and outscored the Bobcats. Especially impressive was the magnificent defensive work of the Hornet line in holding the backfield which includes state champion track men. Standouts there were Tommy Henscheid, Henry Sicking, Leon Klement, David Fette, Terry Miller, Bobby Bruns and Henry Knabe.

MHS Wins 6-0 in B Team Tussle With Windthorst

Muenster's Bees were winners by a slim 6-0 margin in their head bumping contest with Windthorst B team here last Thursday night.

The game was practically all defensive with the Bees getting more breaks but failing to use them. Muenster led 5-2 in first downs and 57-6 in net rushing yardage. In passing it was Muenster again with 44 yards on 6 completions out of 14 while the visitors gained only 3 on one completion out of 5. Exchanges also favored Muenster with a 2-0 record on interceptions and a 2-1 record on recovering the opponent's fumbles.

Another bad break for the young Trojans was a fouled up kick ending the game's first series of downs. A bad pass from center gave Muenster a set up on the 18 but offense failed to cash in. The next four tries gained only 3.

The Bees made better use of their next break, which came about midway in the second quarter. A Trojan kick from inside the 10 went almost straight up putting Muenster in business only 16 yards out. Three plays got to the 4 and two plays later Ricky Huchton made the last yard. A run for extra points failed.

Near the end of the half Muenster threatened again but ran out of time on the 12. Another good opportunity missed by the Bees was near the end

when they had 8 to go for goal in four downs but lost instead of gained on the series.

The second half started with two first downs by Muenster and 1 by Windthorst. After that the game was all defense. Neither team made a first down. Alan Miller and Hank Trachta each got an interception and Danny Fette recovered a Trojan fumble.
