### BY CHARLES E. SIMONS. Associated Press Staff Writer. AUSTIN, Aug. 20.—(A)—Records in the office of R. D. Parker, chief of the oil and gas division of the Railroad Commission, indicate a very definite ratio between the price of crude and the cost of gasoline. The past ratio has been a one-cent

barrel price of crude oil. Therefore the average citizen might be affected by the order of Governor R. S. Sterling in closing down the East Texas oil field and also has a vital interest in the new conservation law which, should it prove effective, is expected to increase the price of crude oil to at least 75 cents or \$1.

BRADY, Texas, August 19 .-Sp.)-Old Tom, Brady's faithful express horse, was the last of its pecies in West Texas to give way to the motorized age. This pow-erful 1,800 pound draft animal, which had for many years drawn the huge express wagon until it knew the place of business of ach customer, was recently sold

for a plow horse.

For the past number of years, express officials had intended to replace this slow moving beast of burden with a faster express truck, but Old Tom had endeared itself to the people of the comnunity, and sentiment triumphed over hard-boiled business sense Old Tom had three weaknesses ugar, apples and bananas, and was always ready to stop to receive these gifts from people on the street with a grateful nod. Besides its record for faithful-

ness, this huge sized nag held the stinction of wearing the largest collar made by harness factories. The Brady office was the last of the 278 express offices of this division, and perhaps in Texas, to change from the horse and wagon days to the speedier motorized
