MOORE TRIAL FEATURED BY FIST FIGHT

AMARILLO, Tex., June 4.—(P)—A fist fight was staged in open court this morning between Clem Calhoun, former district attorney at Berger and Abilene, and E. T. "Dusty" Miller, defense counsel, in the trial of Will Moore, negro hotel porter, charged with the fatal shooting of Monte "Pete" Moore, New Mexico cowboy.

The clash came during the cross-examination of Bill Anderson, a newly discovered eye witness, who testified for the defense. Reference to bribery was made in the questioning directed by District Attorney Edward W. Thomerson. Miller objected and Calhoun, special prosecutor, joined in the argument. Miller said the accusation was a "lie." At least one blow was landed before officers intervened.

Plan To Enlarge Milton Avenue Baptist Church

Due to increase in its membership and increased attendance at the Sunday school, the Milton Avenue Baptist church announces that it has become necessary to enlarge the church building at a cost of about \$350, and that funds will be solicited for that purpose.

Mrs. Ila Miller Reports Excellent Weslaco Meeting

Mrs. Ila Miller, delegate from the Brown County Farm Bureau to the annual regional convention of Texas Farm Bureau Federation held at Weslaco June 1 and 2, has returned and reports a very interesting convention.

House More Than Filled At Belle Plain Services

Report is received today from the Belle Plain Baptist revival as follows: "The house was filled and many people were standing on the outside Wednesday night at Belle Plain Baptist Church. This is the second week of the revival, at that place, in which Rev. C. T. Aly, a student in Howard Park College and pastor at Steeps Creek, is doing the preaching.

City Court Jury Fines Woman \$50 On Gaming Charge

Othol Hopson was fined \$50 and costs in a jury trial in city court this morning. She was charged with gaming. The trial was the outgrowth of a police raid upon a house occupied by the Hopson woman in North Brownwood several weeks ago.

CLUB CLOTHING CONTEST TO BE HELD JUNE 16

Clothing contest for women's home demonstration club members will be held at 2:00 o'clock Tuesday afternoon, June 16th, at Daniel Baker College Fine Arts auditorium, according to announcement made today by Miss Mayes Malone, county home demonstration agent.

The contests is for wardrobe demonstrators in each of the clubs of the county and for all other club women who wish to enter. The wardrobe demonstrators will be grouped in one class and the women who are not demonstrators will be in another class. Scholarships to A. & M. short course to the first place winners in each class will be given by the Brownwood Chamber of Commerce.

Burks Will Not Attend Chicago Highway Meeting

Hilton Burks, secretary of the Chamber of Commerce and an officer of the Canada-to-Gulf Highway Association, said today that he had decided not to attend the Chicago meeting of the U. S. Bureau of Good Roads which is held Monday.

American Gold Is Being Shipped To Mexico Via Laredo

LAREDO, Texas, June 4.—(P)—Mexican and border financiers and bankers were encouraged today with reports that during the last ten days \$400,000 in American gold had been shipped into Mexico through Laredo and that about \$1,100,000 was en route here for transfer across the border.

Last Legal Steps Necessary To Send Fall To Jail Taken

WASHINGTON, June 4.—(P)—All legal steps save one necessary to send Alvin Karpis to jail had been completed today. The District of Columbia Supreme Court was officially notified that the Supreme Court had refused to review the conviction of the former gangster on a charge of taking a bribe from Edward L. Donohue, wealthy oil man. Only formal commitment to jail remained.

LINDY PLANS FLYING TOUR OF FAR EAST

WASHINGTON, June 4.—(P)—Colonel Charles A. Lindbergh, will leave within a month for a flying tour of the far east, making the trip by air across the north Pacific. Mrs. Lindbergh will accompany him.

The exact date of his departure has not been determined, but at his request the state department is asking the Japanese and Chinese governments for permission for him to land in those countries.

Although the trip across the North Pacific will not involve any long water hops, Colonel Lindbergh is taking every safety precaution. His Lockheed monoplane will be equipped with pontoons and he will make fueling arrangements at necessary points. State department officials said if it was necessary for Lindbergh to land on the Soviet territory of Siberia he would secure permission privately as other fliers do when planning flights over Soviet territory.

Baker Relates Bank Account Juggling During Trial Today

FORT WORTH, Texas, June 4.—(P)—A. L. Baker, co-defendant with W. L. Smallwood and C. C. Johnson in their trial on charges of misapplication of funds, testified in federal court today that Smallwood and Johnson, former officials of the defunct Texas National Bank, were aware that accounts were being juggled. Baker said Smallwood instructed that the first improper charge be made.

Cerf Kidnapers Gets Twelve Year Term In Corsicana Trial

CORSICANA, Tex., June 4.—(P)—Currie Caldwell, first of five men indicted for the kidnaping of Robert Cerf to face trial, today was under a 12-year sentence for assault while wearing a mask. The verdict was returned late yesterday.

One Gambler Kills Another At Reno In Wild West Fashion

RENO, Nev., June 4.—(P)—William Graham, one of the "Big Four" in the gambling fraternity here, and associated with Jack Dempsey in fight promoting, shot and killed W. H. McCracken this morning when McCracken, invaded the Haymarket Club and shot Graham in the arm.

AGED MAN IS BOUND, GAGGED HOUSE FIRED

FORT WORTH, Texas, June 4.—(P)—Three men bound, gagged, beat and robbed John Deering, 77, then set fire to his house here early today. The attack followed receipt of a threatening letter recently in which Deering was warned he would be "smoked out."

Deering was awakened at 2:30 o'clock by a knock at his door. He called: "come in." Three men entered and ordered him to light the lamp and dress. When he had complied, Deering was bound hand and foot with twine. Then the men began a search of the house.

By twisting and wrenching with his hands, Deering was able to free himself and cut the fetters about his legs just as his assailants returned. They beat him on the chest and shoulders, took \$16 from him and put adhesive tape over his mouth. One remarked that they intended to take him away while another said they would burn him. In leaving the men set fire to the house, which was badly damaged.

M'LEAN MAN- WOMAN BURNED

PAMPA, Tex., June 4.—(P)—Mr. and Mrs. A. C. Ayer of McLean were burned fatally early today by the explosion of gas in the kitchen at their home. They were brought here to a hospital.

Seaman Killed As Plane Taxies Into Ship Under Repair

PENSACOLA, Fla., June 4.—(P)—Dorris Thomas Murphy, second class seaman, was killed and Cliff Llewellyn Bostwick, aviation technician mate, was slightly hurt as an airplane piloted by Lieutenant Richard S. Moss taxied into another plane on which the two men were working at the Naval Air Station here today.

Former University Of Kansas Students Get Jail Sentences

OLATHE, Kas., June 4.—(P)—E. E. Tate and George Tooley, Jr., Kansas City students at the University of Kansas until their arrest, today were sentenced to serve six months each in the Johnson county jail and pay fines of \$300 each, on charges of possession and transportation of liquor.

Scout Chief Dead

Mortimer L. Schiff, New York banker, philanthropist and recently elected president of the Boy Scouts of America, succumbed to a heart attack Wednesday night. He is shown above in uniform.

Deering told police that he received the threatening letter several days ago but destroyed it without reporting the incident to authorities.

Deering was treated for bruises. He was taken to a hospital where he was treated for bruises. He was taken to a hospital where he was treated for bruises.

WHEELER COUNTY MAN APPEALS PEN SENTENCE

AUSTIN, Tex., June 4.—(P)—T. C. Johnson, convicted in Wheeler county court of the murder of Geo. Brooks, today appealed his five year sentence to the Court of Criminal Appeals. Johnson was alleged to have killed Brooks, October 11th, 1930.

COOKE COUNTY HARVEST UNDER WAY THIS WEEK

GAINESVILLE, Texas, June 4.—(P)—Harvesting of the wheat crop in Cooke county was in progress this week, with ideal weather as an aid. The estimated yield for the county was 2,400,000 bushels.

FATAL MISHAP OCCURS DURING TRIP TO WACO

WACO, Tex., June 4.—(P)—Robert L. Robertson, 44, Adjutant General during the administration of Governor Dan Moody, was killed in an automobile accident at Lorena, 20 miles south of here, about midnight.

Robertson's automobile had gone off the highway and had struck an electric power line tower. Robertson's neck was broken.

An ambulance brought the body to Waco. General Robertson's body was placed in an ambulance for an overland journey to Gonzales at noon. The funeral will be held at his former home Saturday at 2 p. m. The body was accompanied by Adjutant General William W. Sterling and a military escort.

SIX CARLOADS WOOL SHIPPED WITHIN MONTH

Six carloads of wool have been shipped from here this season by the cooperative marketing body and another carload is practically ready to ship. Four cars were shipped in May, two on May 5 and two on May 23, and two this month on June 1. There will be at least two more carloads to be shipped from here. Last year there was a total of three carloads to be shipped by the cooperative.

The advance on all wool shipped from Brownwood has been 15 to 17 cents per pound. This was the advance made on the last shipment made to the Lone Star Wool Mohair Cooperative Association at San Angelo.

STERLING IS GRIEVED

AUSTIN, Tex., June 4.—(P)—Expressing deep regret at the death of General R. L. Robertson, Gov. R. S. Sterling said: "I regret to learn of the untimely death of General Robert Lamar Robertson. He was a clean and high minded citizen and worthy of the rank and position he filled. His death is a loss to Texas."

Opposing the Howley bill for a special session of the legislature for the purpose of considering the Howley bill or similar legislation.

EX-SERVICE MEN WILL PAINT HOUSE NUMBERS ON BROWNWOOD CURBS

For the purpose of helping ex-service men who have families and who are not working, the American Legion is sponsoring a move approved by the Brownwood City Council to have the ex-soldiers paint house numbers on the curbs over the city.

The work here will probably start tomorrow and the members of the American Legion post have already made plans, following the city council's approval of the work.

Men employed will call from house to house to see if the residents care to have the house number painted on the curb in front of the house.

ADMISS WALKING OUT OF COURT ROOM DURING TRIAL EL PASO, Tex., June 3.—(AP)—Admission that he had walked out of a Texas courtroom just before a jury convicted him of felony was made here today by Frank Taylor, after he pleaded guilty to a charge of automobile theft and received a two-year sentence.

Attempt To Kidnap Believed Thwarted By Rich Kentuckian

OWENSBORO, Ky., June 3.—(AP)—James C. Ellis, president of the Dade Park Jockey Club and wealthy oil and farm operator, escaped today from what was believed to have been an attempt to kidnap and hold him for ransom.

Ellis told police he struck one of his assailants and ran. He was followed by his automobile near Owensboro by two men who had trailed him in a small car, after his own machine had run out of gasoline.

As Ellis fled, he called for help to some men in a nearby field, and his two assailants drove rapidly off.

One of the men threatened him with a pistol and forced him to get out, Ellis said.

DAVIS HONORED AT MEETING OF B. & P. W. CLUB

In honor of Representative E. M. Davis who has returned to Brownwood from his work in the Legislature, the meeting of the Brownwood Business and Professional Women's Clubs was held Tuesday night at the Federated club rooms.

Dr. Mollie Armstrong, public relations chairman, was in charge of the meeting of the Brownwood Business and Professional Women's Clubs which was held Tuesday night at the Federated club rooms.

The three pieces were turned by hand with a tapover lathe. The slave who made the pieces was bought for the purpose because his fame as a cabinet maker was widely known.

Work As County Judge Mr. Burks told of the things done by Davis as county judge to get good roads for Brown county.

"I have never worked with a better man who was working for the good of the city and county. He saved the people thousands of dollars in buying the right-of-ways for the roads and has played the biggest part in building a greater Brownwood," he declared.

Mr. Early said he had known E. M. Davis since Davis moved to Brownwood and the more he knew him the more he appreciated him.

Tells of Austin Labors Chester Harrison told of the things done by Representative Davis in Austin, stressing the importance of the position of representative of the people.

The work of Judge Davis as county judge and as representative in helping the people was inspired by his love of fellowmen, said Mrs. J. W. Jennings.

"Nine-tenths of the bills introduced in the legislature show no sense and I am glad to believe that the 42nd Legislature passed more careful laws and more constructive laws than any previous session," he declared in speaking of the work of the legislature.

City Warrants Limits One of the most important bills in the opinion which he introduced and worked for and which was made a law is the law limiting cities and towns in the issuance of warrants.

Miss Hillyer An Honor Graduate At Denton School Miss Bonita Hillyer, daughter of Mr. and Mrs. L. D. Hillyer, 1616 Avenue D, has returned home after finishing at the College of Industrial Arts at Denton this year.

Miss Hillyer was among the honor graduates whose averages were above B. She majored in journalism. Miss Hillyer attended C. I. A. to winter terms and one summer. She was a student at Daniel Baker College last year.

Soldier Bonus Question The reason he did not vote for the soldiers' bonus, he said, was because most of the ex-soldiers did not even see service in France and really benefited by staying a few months in the training camps and are now at the height of their earning capacity.

Interesting Collection Antiques Belonging to Mrs. O. L. Samford at the Empire Furniture Co. Store

Mrs. O. L. Samford of 1509 Ninth street has on display at the Empire Furniture Company's some early American furniture and ornaments.

The display is arranged in the east show window of the store and includes a bedroom, suite and carpet. There is a hand-carved bedstead made by a negro slave before the Civil War.

The decorations, although being the same design show variation where slight differences arose as each piece was made separately. There is no exact duplicate in any of the pieces.

Water Power Lathes The three pieces were turned by hand with a tapover lathe. The slave who made the pieces was bought for the purpose because his fame as a cabinet maker was widely known.

Vincent Street Lights Street lights for the recently paved portion of Vincent street were asked by Alderman Hood who said that residents on the street had requested the lights.

Goldthwaite Mrs. Laura Horton of Wichita Falls spent a few days this week with her parents, Mr. and Mrs. Charlie Featherstone.

Reports by Officials Among the reports read the monthly statement of the city recorder showed that there were a total of 38 cases listed on the docket, two of which are pending making a total of 36 fined in city court for a total of \$252.

City Engineer H. Ball reported that the Jago Construction Company had laid a total of 1,800 feet of curb and gutter on Austin Avenue. He also included several other items in his report.

City Secretary Scott gave a detailed report of expenditures in each of the departments and a total of receipts. His report showed that there had been a total of \$7,403.82 collected and \$12,991.76 expenditures.

Sixty-One Fire Inspections Fire Marshal Ellis reported that he had made 61 inspections in the business district and 32 in the residence section of the city. He said that there had been 26 special calls because of grass and weed fires.

Woman's Dreaded Forties PHYSICIANS call this period "Menopause." It is the dreaded Change of Life. Women should face this period with well-balanced health, or dangerous symptoms may appear.

BOARD ACCEPTS HOWARD PAYNE POLICY REPORT

Report of the joint committee of board members and Howard Payne College trustees for a permanent policy for Howard Payne College was accepted by the Executive Board of the Baptist General Convention of Texas at a meeting at the First Baptist church in Dallas Tuesday.

The report was made by Rev. Alvin Swindell of Hillsboro, chairman of the joint committee, and in brief made three major recommendations:

First that the temporary emergency campaign for \$10,000 for Howard Payne College be completed in the month of June and that the third Sunday in June be designated as Howard Payne Day.

Second, that a state wide campaign for debt paying and endowment be launched immediately after the Howard Payne campaign for Baylor College not later than December 1, 1931. The first major installment on the debt being due in 1934, this campaign will come at an ample time, it was explained. It is the plan of the board to make the campaign large enough to meet the standards of the Southern Association of Colleges in endowment and equipment.

Third, in order to care for Howard Payne College until 1933, it was recommended to the finance committee that they take under consideration special appropriations for the general budget or brief special campaigns as the one conducted this year.

The report was discussed and adopted in full by the executive committee.

A committee of Howard Payne trustees and teachers under the chairmanship of Dr. A. E. Prince, pastor of the First Baptist church of Brownwood, attended the preliminary meetings and the board meeting. Besides Dr. Prince, those attending from Brownwood were: Rev. W. R. Hornburg, Dr. Jewell Daugherty, Rev. M. E. Davis, Rev. R. E. Millam and Dr. Thomas H. Taylor, president. Other Howard Payne trustees at the meeting were: Rev. W. H. Andrews, Stephenville; Rev. Jesse Yelvington, San Antonio; Rev. R. E. Day, Big Spring; Rev. Alvin Swindell, Hillsboro, and Rev. W. W. Chancellor, Mineral Wells.

Those discussing the report of the joint committee were: Rev. Swindell, Dr. Taylor, Rev. Millam, Rev. J. M. Garner and Rev. Yelvington.

H. P. C. Report Made

Facts concerning the past year at Howard Payne College presented to the board were: largest senior class, 70; largest ministerial enrollment, 69; largest scholarship society, 15; greatest scholasticism in history; greatest trustee meeting, 30 in attendance; Birleson College students enrolled, 27; banners won in football and Sunday school; nearer to paying expenses than any other year since 1920; contributions for support exceed last year; more interest in endowment than any other time in history and indebtedness refinanced for present year.

The Howard Payne men express themselves as well pleased with the board meeting. They believe the best days for Howard Payne College are just ahead.

turned to their home at Sidney Saturday after a visit with her parents, Mr. and Mrs. R. C. Dabney.

Mrs. Mary Chambers and daughter were shopping in Brownwood Saturday.

Mr. and Mrs. Neil Shaw of Brownwood visited in the home of Mr. and Mrs. Joe Dabney Sunday.

E. M. Routh had business in Brownwood Monday.

Rev. F. A. Brown of Ballinger will fill the Cumberland Presbyterian pulpit Sunday, June 6 at the 11 o'clock hour. The members of this church invite everyone to attend this service.

The fifth Sunday singing convention which met at Rock church Saturday night and Sunday was well attended and some fine singing was rendered.

Rev. J. D. Smoot of Comanche filled the Methodist pulpit Sunday at both morning and evening hours.

Mrs. Bill Skippings and little daughter of San Benito came in Friday for a visit with her parents, Mr. and Mrs. J. W. Dameron.

J. N. Bailey and S. B. Haddon, the rural mail carrier of this place attended the rural letter carriers convention of the 17th congressional district which met at the Woodland Heights school building Saturday. Joe Ashley also attended and help render some splendid quartets on the program.

Misses Maomi and Minnie Glendon entertained their Sunday school class with a party in the basement of the Methodist church Saturday evening. All who attended reported to have spent a very enjoyable evening. Ice cream and cake were served.

J. W. Porter has been real sick for the past few days but is reported improved some at this writing.

Ottwell Rochester of Skidmore came in Friday for an extended visit with his grand parents, Mr. and Mrs. J. C. Hicks.

Rev. Walter Williams of Tolar preached a splendid sermon in the Baptist church Sunday evening. Rev. Williams moved to Tolar several weeks ago and has resigned as pastor of the Baptist church of this place. The people of this community were real sorry to have Bro. Williams leave, but wish him a great success in his new fields at Tolar.

Miss Leva Eoff entered Daniel Baker College Monday for the summer term of school.

Mrs. W. T. Parker spent from Wednesday until Friday with her brother and family of Comanche.

Mr. and Mrs. Earl Hickman of Houston are visiting Mrs. Hickman's parents, Mr. and Mrs. J. F. Milner this week.

Miss Thelma Dossey returned home last week from Big Spring where she taught in the public school the past term.

W. L. Bryant and son of Sidney visited Rev. J. B. Henderson and family Wednesday afternoon.

Mrs. Ernest Allen was in Brownwood Tuesday and attended the luncheon given at the federated club rooms.

Mrs. W. L. Stewart of Zephyr was visiting in Blanket Monday afternoon.

Misses Sidney Richey and Betty Mayes of Brownwood were visiting friends and relatives in Blanket Sunday.

Mrs. Walter Prater and two sons of Cross Cut were visiting Mr. and Mrs. T. E. Levisay and family last Thursday.

Mr. and Mrs. Bill Patterson had business in Brownwood Saturday.

Miss Ruth Milner returned home a few days ago from near O'Donnel where she has been teaching.

Miss Nannie Perry of Comanche visited her sister, Mrs. George Gleaton Sunday.

Mrs. Gates and daughter of New Mexico are visiting Mrs. Gates' parents, Mr. and Mrs. W. B. Rogers this week.

Jim McCulley of Brownwood was visiting here a short time Thursday evening.

Miss Grace Reeves returned home the latter part of last week from Coleman where she taught the past school term.

Mr. and Mrs. Wesley Dowdy and little daughter, Valera returned to their home at San Antonio Saturday after a few days visit with Mrs. Dowdy's parents, Mr. and Mrs. J. W. Porter.

D. C. Nix and family spent Sunday at Center City on their farm.

Miss Virginia Bettis returned home last week from San Angelo where she taught in the public school the past term.

Mr. and Mrs. D. I. Luce had business in Brownwood Saturday.

Mrs. Janie McLaughlin and children of Stepps Creek visited in the home of Mr. and Mrs. A. J. Laughlin Sunday.

Mrs. Sallie Webb returned home Sunday from an extended visit with relatives of Stepps Creek.

Mrs. Mary Baker of O'Donnel came in Thursday for a visit with relatives and friends of this place.

S. E. Lacy had business in Comanche Monday afternoon.

Mr. and Mrs. L. B. Robinson of Fort Worth spent the week-end in the home of Mrs. Robinson's parents, Mr. and Mrs. A. J. McLaughlin.

Mr. and Mrs. John Sides and Mitchell Adkinson had business in Brownwood on Saturday.

Roger Baler returned home Sunday from Mullen, where he has been working.

Miss Ruby Lightney entered Daniel Baker College, Brownwood Monday for the summer term.

Mr. and Mrs. E. A. Kuykendall of San Saba visited Mrs. Kuykendall's parents, Mr. and Mrs. J. W. Dameron and other relatives Sunday.

Miss Joe Dabney returned home Sunday evening from a visit with Mr. and Mrs. Bill McAlpine of Spur.

Mr. and Mrs. J. A. Faulkner were visiting in Brownwood Saturday.

Mr. and Mrs. Lee Stewart received a message Wednesday from Shreveport, La., announcing the arrival of a daughter in the home of Mr. and Mrs. John Entripen.

Miss Cornelia Dabney of Brownwood spent the week-end here with home folks.

Mrs. G. W. Faulkner returned home Sunday from a few days visit with her sister, Mrs. Inman of Mineral Wells.

Mrs. Lella Hicks and Mrs. L. W. Holcomb were visiting in Brownwood on Monday.

Miss Betsie Green is visiting friends at Placid this week.

Mr. and Mrs. Goss Cobb of DeLeon visited Dr. and Mrs. D. P. Cobb one day last week.

Mrs. F. G. Bettis and Mrs. Floyd Patterson had business in Brownwood Saturday.

Mrs. Ira Ross and little son, re-

Bangs

(CONTINUED FROM PAGE THREE)

Kingston, Oklahoma came in last Thursday for a visit to relatives and friends. Rev. Hall left Tuesday for home, leaving Mrs. Hall and the children for a longer visit.

"Mutt" Pulliam and "Buzz" Guyger and Guy Matthews have returned from Sulphur, Oklahoma, where Mr. Matthews accompanied his brother, D. C. to his home, after he had attended school here this year.

Earl McCormick who was stricken with apoplexy at his home south of town last week, is still reported critically ill in a hospital in Santa Anna.

Mrs. A. E. Brown, Mrs. J. S. Hunt and children, Mrs. William Arthur Evans of Comanche, Oak Lewis and son of Cross Plains, Ernest Pool and family of Mercury, were guests of Mrs. J. K. Davis last Friday.

Mr. and Mrs. Otho Barnes, announce the arrival of a daughter, Opal Adille born May 25th.

Max Wilson, who spent several days the past week in the home of his parents here, left Friday for Killgore where he will be manager in a drug store.

Miss Mae Nichols spent the week-end with her mother at Copperas Cove.

Misses Olene and Aline Rochester are visiting relatives in Houston.

Miss Joy Alcorn has as her guest this week, her friend, Miss Smith of Cisco.

Miss Mary Bob McCall has returned to her home here from Stephenville, where she attended John Tarleton College.

Seth Jenkins is home from Stephenville where he attended John Tarleton College.

Mr. and Mrs. C. C. Wilson, and children, spent Sunday in the home of Mrs. Wilson's parents, Rev. and Mrs. L. E. Swindall and son, W. O. left the first of the week for a visit in Granbury, Willis Point and Sidney. Mr. Swindall has been elected superintendent of the Sidney school.

Mr. and Mrs. J. E. Stevens announce the arrival of a daughter, Dorothy Lou, born May 25th.

Rev. and Mrs. Urban Schulz are visiting relatives in the Rio Grande Valley.

Horace Wilson is visiting relatives in Glen Cove this week.

Chesley Wilson of San Angelo, spent several days the past week with Mr. and Mrs. Homer Schulz. He left Monday to enter summer school at Howard Payne College.

Miss Josephine Eads has returned from a visit to friends in Moody.

Lee Yarbrough has returned to Kerrville after spending several days with his family here.

The Home Demonstration club met Tuesday in the home of Miss Myrtle Gaines. The meeting opened with the club song and prayer. Roll call was answered by "The thing I do best in food preparation." A short business session was held, in which the club voted to have a community fair some time in the future. Miss Malone made the Bangs club responsible for the program at the clothing contest to be held in Brownwood June 16. Miss Mayes Malone gave a discussion on: "How can I improve my storage." There were fifteen present.

Misses Bernice and Byrd Whitley have returned from Pampa, where they have been teaching.

Indian Creek

The Girls' 4-R Club met Thursday morning May 28th at the club house with ten members and Miss Malone present. During the business session Edith Hawthorne was elected secretary to succeed Ina Gene DeHay who has moved away. All the girls made good reports on their work. Isola Andrews, a former club member, who has been going to school at Dimmitt, told about a trip to the State Clothing Contest which she attended at Lubbock this spring. Miss Malone gave a salad demonstration by making three different salads. At the noon hour lunch was served to thirteen.

The Women's Home Demonstration Club met Thursday afternoon with seven members, three visitors and Miss Malone present. Several new books were received for the library. Miss Malone discussed and showed several different types of children's clothes.

S. H. Banister of Brownwood was a business visitor to this community Monday.

Miss Virgie Cooper returned Monday from London, where she has been attending school.

Mr. and Mrs. Sidney Dribred of Dulin were Wednesday evening visitors in the home of her parents, Mr. and Mrs. Carl Dixon.

Mrs. Will Sikes named Miss Willie Edwards as her honor guest when she entertained at her home Thursday evening. Lively entertainment was furnished throughout the evening for the guests.

Mrs. Mary Head of Brownwood is visiting Mr. and Mrs. G. C. Edwards.

Miss Velma Russell of Winchell and Jack Mercer of Dulin spent Wednesday evening visiting Miss Ella Mae Dixon.

Miss Nella Beth Bullion spent last week at Brownwood with her grandmother.

Irvin Sumpter of Brownwood visited friends in this community Thursday afternoon.

Mrs. Phil Grady and son Truman of Woodland Heights spent Friday with Mr. and Mrs. W. G. Grady.

Miss Esther Nelson and Henry Morgan of Bangs attended the party at the home of Mr. and Mrs. Will Sikes Thursday evening.

Theodie Dixon who lives in East

Owens

Mrs. Alice Adamson visited Mr. and Mrs. Clint McMurry Tuesday. Bill Alfors' store was robbed on Wednesday night.

Otis Fomby was in Owens Thursday.

Mrs. C. Bullard was visited by her father last week.

Mr. and Mrs. J. J. Harris made a business trip to Bangs one day last week to see Mrs. Harris' father, who is ill.

Mr. and Mrs. A. A. Pittman spent Sunday with their daughter, Mrs. Johnnie Farrow.

Mrs. Will Wright is on the sick list this week.

Wilberta Alford was shopping in Brownwood Saturday.

Oleta Bagley was visiting Miss Jennie Wilson Friday afternoon.

Lorena Pittman visited her uncle and aunt at Brownwood the latter part of last week.

Mrs. Faye Longley of Brownwood was visiting in the home of her sister, Mrs. Carrington Ezra, Wednesday.

Mr. and Mrs. Clyde Shaffer entertained the young folks with a party Saturday night. There was a large crowd present.

Very Ezra visited Ethelene Shaffer Sunday afternoon.

Mrs. Alice Adamson made a business trip to Brownwood Wednesday.

Aline Shaffer was visiting in Blanket last week.

Winnie Ezra was the guest of Carmel White last Sunday afternoon.

Mrs. Edith Rice was shopping in Brownwood Saturday.

Clovis Boren of Owens is now working at the new dam.

Sylvia Wilson is working for his uncle, near Woodland Heights.

Tim Boren spent Wednesday night with Clovis Boren.

Mr. Shaffer and family of Owens was in Brownwood Saturday.

Mr. and Mrs. Clyde Shaffer spent part of last week with his parents at Owens.

Mr. William Huggins, Miss Ethel Head and Mr. Dillon Bowden attended the singing at Clio Sunday night.

Several people of this community attended the singing convention at Rock Church Sunday.

D. H. Bagley, Jr., attended a party near Salt Creek Saturday night.

There were several visitors at the singing Sunday night. The following are some of them: Mr. and Mrs. Bernice Jones, Lee Shaw, Dilbert and Loree Wells, Norris, Tommie and Truet Doss, Miss Katherine Evans, Clyde Thompson, Mrs. Mae Baker, Mr. Alphe Baker and family, Mrs. Dallas Chambers and little daughter and J. A. Eoff. All welcome them back.

Mr. and Mrs. Charlie Taylor attended the singing at Clio Sunday night.

There will be singing at Clio Sunday night. Every one is invited to come and bring some one with you.

Mr. Charlie Boren is on the sick list this week. We all hope he will not be sick very long.

Mr. Ernest Boren has returned home from Chrystal City where he has been working for the past few months.

Doris Shelton, daughter of Dr. and Mrs. Ben Shelton, 1621 Tenth Street, has been removed to her home after a minor operation.

Cross Plains

Destruction of corn and small grain crops have been checked due to use of poisons and the aid of parasitic insects found here recently.

Farmers expect small grain crops to excel those produced in the past few years. Three buyers have already announced themselves in the local market for small grains and two more here in prospect. Due to a light rainfall Friday night and showers Saturday threshing operations will be postponed a few days.

An extra large crowd of people were in town Saturday despite muddy roads and showers throughout Memorial Day.

The Cross Plains Truck Growers Association failed to meet here during their regular Monday night meeting due to the absence of Vocational Advisor Ross J. Newton, who has been visiting in Oklahoma. Members of this association will

plant seventy-five acres of for the mid-summer market. Members in this organization are now over one hundred. Farmers are invited to join them at their Monday night meetings. There is no money. The Cross Plains Market Club baseball game will be held here Saturday postponed due to rain.

DURANT, Okla., June 4.—246 marriage licenses issued May by L. W. Hinson, county clerk, according to the Texas law requiring notice of intention to wed.

ADVANTAGES ICE REFRIGERATION REVIEWED

TEMPERATURES KEPT AT DESIRED STAGE

Many advantages of the refrigerator are listed forth in a recent report of the country. The properly built, well insulated ice refrigerator keeps low temperatures as the ordinary unit is thermostatically controlled. In addition to the temperatures of the milk in such an ice refrigerator 40 to 42 degrees F. is warmer weather. The temperatures are ordinarily set about 45 degrees F. in winter. The Bureau of Hygiene in Washington says that milk must be kept below 45 degrees F. The milk compartment of the refrigerator with its adequate ventilation gives adequate protection for fresh meat, butter and fresh milk. The thermostat is set at 45 degrees F. in winter. This is seldom exceeded. It means that the greater portion of the food is kept at a temperature of 45 degrees F. and also makes the refrigerator more rapidly. The temperatures in an ice refrigerator are not fluctuating. The temperatures by a record will show a smooth curve. The reason for this is because it is thermostatically controlled. The temperatures will show a smooth curve. The reason for this is because it is thermostatically controlled. The temperatures will show a smooth curve. The reason for this is because it is thermostatically controlled.

1- The air in a mechanical unit the cooling surface, the coils, is from 16 to 18 degrees F. Much more moisture will be removed from the air in its lowering from 55 to 32 degrees F. than from 55 to 18 degrees F. This moisture is the frost on the brine coils. When the frost again enters the food chamber, it will absorb excessive amounts of moisture from the foods if it has been excessively dried. Therefore, an ice refrigerator does not dry out food so rapidly as a mechanical unit.

2- The air in a good ice refrigerator which has proper air circulation is never wet enough to encourage the growth of molds and bacteria. Constant contact with ice, which some people believe makes for dampness in the refrigerator, means instead a constant regulating of the moisture of the air by the process described in item 1. Humidities must be 75 or over to encourage the growth of organisms. The humidity even in the milk compartment (where humidity is highest) is never 75 in good, well-built refrigerator where there is active air circulation.

3- The new refrigerators are just as beautiful and modern in every respect as a mechanical unit. They are clean because the ice used is clean, every care having been taken to make ice of the very best quality. They are truly automatic because as more heat goes through the walls when the temperature outside rises, more ice is melted to absorb that heat and thus maintain low temperatures.

4- They are much more economical. First, because of the large food space. A grade "B" refrigerator gives a minimum of six cubic feet of food space with approximately ten square feet of shelf area. To obtain this size in a mechanically controlled refrigerator one must pay at least \$250, probably more. Excellent "B" class ice refrigerators can be bought for from \$60 to \$75. Figure the saving both in initial investment and in interest on investment.

5- They are economical because an ice refrigerator well built of good materials will last almost indefinitely. There is no machine to wear out. Mechanically cooled refrigerators will wear out. Therefore, there is little or no depreciation to charge off to an ice refrigerator.

6- There are no necessary service charges on an ice refrigerator and so it is more economical than a mechanical unit. The ice company puts in the ice and the refrigerator renders service. As long as ice is supplied, the refrigerating power of the refrigerator will work. Nothing will break down nor will anything mechanical have to be repaired.

7- The cost of ice taken on the yearly basis, not just for the hottest months of July, August and September, will not be much, if any, more than the cost of current or water and gas to run a mechanically controlled refrigerator.

8- In ice refrigerator there are no harmful gases with obnoxious odors to leak out and cause trouble.

9- Driver salesmen give excellent service, leaving no muss on the floor. They are courteous, kind and helpful. If there are any questions to be asked, the housewife does not have to call a service person, but simply asks the ice deliveryman when he calls. Help and assistance are always available.

10- Ice Refrigerators Well Built

11- Good ice refrigerators, on the whole, are better built than the mechanical units. Corkboard is one of the best insulators used in refrigerator walls because it is a good non-conductor of heat, is water resistant and has structural strength so it will stay in place in the walls. The best ice refrigerators have corkboard insulation and few, if any, of the mechanical boxes do. The wall of a mechanically cooled refrigerator will get wet just as quickly as that of an ice refrigerator because the lining is always cold and if outside air carrying heat can penetrate, the dewpoint of that air will be reached in the wall and moisture will be deposited. The insulation must be of the best to resist absorption of moisture. There can be no air spaces.

12- Gelatine desserts and salads can be cooled just as efficiently in an ice refrigerator as in a mechanically cooled box because the temperatures in the food compartment are just as low or lower.

13- When frozen mixtures are desired, ice and salt will accomplish the result easily, quickly and economically. The amount of ice and salt necessary to freeze a mousse or parfait is very small and inexpensive. When desserts are frozen in a mechanical unit, the amount of current is increased. When real ice creams are desired, in order to obtain a smooth texture they must be made in a freezer where stirring can be done. Thus ice and salt and an ice cream freezer are absolutely necessary for the making of the best quality of ices, sherbets and ice creams. Only mixtures with a large percentage of cream can be frozen successfully without stirring. People soon tire of rich desserts.

14- Always there is an ample supply of ice in an adequate ice refrigerator and more can be secured when needed or when emergency arises. If a woman has a mechanical unit, she is limited to the amount of ice the freezing trays will provide. If she wishes to freeze dessert, then she has to use part of the freezing trays and therefore the supply of ice is limited.

15- In an ice refrigerator the ice is of the highest quality, manufactured under ideal conditions. Manufactured ice is frozen from drinking water and is especially treated and filtered before placing in the freezing cans. In order to obtain clear, crystal ice the water is aerated and thus kept constantly in motion. Each crystal of ice as it freezes is washed free of impurities and air and these go to the center of the can. The block is frozen nearly to the center and then the water in the center is drawn off and distilled water added to ensure a clear block. The ice in an ice refrigerator cannot carry food odors or flavors and, when placed in drinking water, adds no taste that the water itself does not carry. The ice in a mechanical unit is not frozen in motion and therefore is cloudy. It has air channels in it and melts rapidly. The water in the trays absorb food odors from the food in the refrigerator and therefore the ice carries food flavors.

16- Foods will keep just as long as it is economically wise to keep them in an ice refrigerator as in a mechanically controlled cabinet. The keeping of food depends primarily upon the maintenance of low temperatures. We have already shown that these low temperatures are obtainable in an ice refrigerator, so the growth of bacteria will be just as low as in a mechanical unit. In addition, there will not be excessive drying in an ice refrigerator. There is no intermingling of food flavors in an ice refrigerator, so the food is more palatable. Consequently, food will retain its fresh flavor and palatability longer.

17- Large Storage Space Not Needed

18- One must remember that a refrigerator is not a cold storage warehouse and should be used to guard the food from one shopping time to the next. It is the unusual family that does not shop at least twice a week and has a daily delivery of milk. To keep food for longer periods would mean that an excessive amount of storage space would have to be provided. This means a much greater initial investment because the mechanical units which give large food storage space are extremely expensive.

EVERY HOME CAN AFFORD ICE REFRIGERATION

And what's the inference from the title of this article? That they can't all afford to put in miniature ice plants as substitutes for time-tried, trouble-free refrigeration.

"Every Home Can Afford Ice Refrigeration" should appeal at this time not only to homes of moderate means, but to the homes best able, as ECONOMY is the one slogan now.

to the market, telephone calls, perhaps even doctors' and druggists' bills added to time lost from work or school. Ice is really not an expense at all.

It is so sensible to use ice for refrigeration, thrift is the vogue now, no one boasts of how much they can spend, but rather of how much they can buy for so little.

In Canada, more than 58,000,000 acres of land are under cultivation.

SMART REFRIGERATORS

The smartest of all refrigerators today are those designed for ice. Strong, graceful lines, high above the floor on well-turned legs. Flat, unobstructed top for flowers, or convenient rest for trays of food. Finished in white or colors—in porcelain, enamel or lacquer. Interiors above reproach. Scientifically designed to maintain temperatures well below the government standards, well insulated, well built. TESTED and graded by experts. A size for every family, a price for

every purse. Smart, modern, satisfactory. Ice refrigerators have joined the style parade. Ice refrigerators have gone modern, in step with so many other everyday necessities. No longer need they be hidden away in cellars, in dark hallways or on back porches.

They have taken the center of the stage in modern kitchens now—easy on the eye, easy on the budgets for food, for health, for comfort, for entertaining.

Mr. J. Grider Lee, manager for

Brownwood Ice & Fuel Co., says they really have these smart, stylish, efficient and dependable refrigerators in stock. He says they have sold a great many that are really giving just such service and satisfaction. To use one, is to appreciate it.

PLENTY OF TIME
Wife: Going to the club again and you know the rent is due next week!
Husband (calmly): Oh, I shall be back before then.—Lustige Kolner Zeitung, Cologne.
Australia imports nearly one-half of its annual consumption of 924,000,000 board feet of lumber.

The Evidence Is CLEAR

ICE REFRIGERATION IS SAFE:

Ice refrigeration is the ONLY safe refrigeration; other kinds of refrigeration use DANGEROUS CHEMICALS for refrigerant and when placed under compression by mechanical devices, sometimes escape from tiny pipes or coils, then this chemical is absorbed by foods being kept in refrigerator, thus endangering persons using the foods. Many people have lost their lives and many more have been made ill from the use of foods kept under this condition.

ICE REFRIGERATION IS MORE SANITARY:

Free and constant circulation of fresh ICED air guarantees that your refrigerator be kept pure and sweet, free from odors and to have less BACTERIA than does other systems of refrigeration. Our one-piece porcelain-lined refrigerators are easily kept clean as a bowl.

ICE REFRIGERATION IS MORE DEPENDABLE:

With our MODERN APPROVED refrigerators you will retain an even temperature, having less variation than other systems of refrigeration. A recent test conducted by the Public Schools in one of the largest Texas cities, showed that the chemical or so-called mechanical refrigerators, varied more than twice the amount than that of the ICE refrigerators in temperature.

ICE REFRIGERATION KEEPS FOODS BETTER:

Ice refrigeration keeps foods just right, never too moist and never TOO DRY. Natural flavors are retained in foods at all times and do not MIX. Other systems of refrigeration allow food to DRY OUT and flavors to MIX. Moisture making frost on freezing coils MUST come from somewhere, therefore it is constantly drawn from foods kept in such refrigerators, thus the dry foods.

ICE FOR ALL USES:

No matter what the requirements, your ice SUPPLY is sufficient for your needs. Ice that does not give teas and drinking water bad flavor, ice that cools. Buy your groceries and meats at quantity prices, in doing so you save considerably and then place them in a MODERN APPROVED ICE refrigerator and keep them as long as you wish. You can save more with ICE refrigeration.

ICE MORE ECONOMICAL:

Ice refrigerators cost less, interest on investment is less, depreciation is less and ICE costs less than other refrigerants. You can save from \$30.00 to \$75.00 per year over other systems of refrigeration. WHY NOT SAVE?

CRYSTAL ICE IS ONE OF LEADING CONCERNS HERE

One of the newest ice plants in this part of Texas is located on East Lee Street here and is owned by the Morgan Utilities interests. The Crystal Ice Company, a branch of the Morgan interests, has grown to one of the leading concerns dealing in ice in this part of Texas.

This plant has specialized in storage and wholesale business as well as in the retail sale of ice. The plant has an ample capacity to care for the needs of any of its consumers and has never found it necessary to make arrangements for ice.

The storage business in one of the main parts of the plant and much of the space of the large establishment is given over to storage. The plant has a capacity of 35,000 cubic feet of storage space which is divided into all size vaults. These vaults were constructed to fill the needs of the individual as well as the company.

Various Sized Vaults
The various storage vaults range in size from real small to large rooms where several carloads of produce may be stored at one time. The vaults include those used by the company for their own use in storing ice and those which are leased to local concerns. These vaults are arranged along a long hallway where they are easily accessible and where it is easy to bring produce.

The company specializes during the winter months in storage for fowls prepared for the Thanksgiving and Christmas market. A number of the local produce houses have regular space in the vaults with two companies having large vaults.

At the rear of the long hall of the storage department is located a newly installed engine for operating the plant. The large machinery was installed last year in order to care for the increase in the business of the company.

In the basement of the establishment the refrigerating machinery is located and above this the freezing machinery has been placed, which makes all of the necessary equipment grouped which is an aid in cutting down expenses.

The company maintains several vaults where surplus ice is stored for summer consumption and for wholesale purposes. Because of its location the company does a large business in wholesale ice and in icing

freight cars which haul produce and other perishable supplies. These cars are used for local shippers as well as for shippers in surrounding towns.

Wholesale Business
The wholesale business of the company includes the sale of ice to small distribution stations over Brownwood as well as the sale of large quantities of ice to firms in surrounding smaller towns of this and neighboring counties.

Besides the 35,000 cubic feet of storage maintained by the company there is more than 30,000 additional which is now used by the Hartkridger - Keith - Cook Produce Company for storing their stock. This department is maintained separately from the main plant and the only connection between the two is the use of freezing equipment.

The plant controls the entire refrigeration from the engine room and both plants may be regulated to give any desired temperature in any of the many vaults.

Efficient Delivery Service
The company boasts an efficient delivery service for all parts of Brownwood as well as its wharf sales. They have a large fleet of trucks which are kept busy during the summer months until late each night. The employees claim that they have the quickest ice delivery in this part of Texas both for regular customers and for phone calls.

The ice business has been on the increase since the company established their plant here several years ago. When first established the plant was small, but has been enlarged each year since that time until its present position as one of the leading plants of this part of the state.

A CLOSE RACE
BENTON, Ill.—Harold Stock and Arthur S. Yarroll each received 432 votes for office of assessor. They decided to draw to decide the tie. Pieces of paper numbering from 1 to 25 were placed in a hat. Each man was to draw three pieces and the man who drew the highest total would win the office. The first draw came out a tie, but Yarroll won the second draw, 67 to 54.

TWIN'S ONLY QUARREL
LONDON—Thomas and William Hamer have been twins for 75 years, and they've lived their lives together, doing everything alike and entering the same business. Their only quarrel arose after they were married. They were both married on the same day, but in different churches. It is known that one was married an hour before the other, but both claim the distinction. That caused their only quarrel.

EYES STILL BAD
WIFE: Here's a bill from the optician.
HUSBAND: Tell him I can't see my way yet to pay it.—The Humorist.

MARKET PLANS DISCUSSED HERE BY PECAN MEN

For the purpose of discussing the work of the National Pecan Marketing Association, the outlook of the next pecan crop and the possibilities of the handling of the crop by the Heart o' Texas Pecan Growers' Association, local association of the national organization with headquarters in Brownwood, about twenty county agents and growers of this section met Tuesday with H. C. Lucas of Brownwood, president of the National Association, Hamilton, Mills, Rannels, Comanche and Brown counties were represented.

The meeting was called to order at the court house at 10 o'clock and Mr. Lucas explained in detail every phase of work of the national organization. Questions were asked by the men present and problems were discussed. Several men at the meeting made short talks. At noon the men went to Mr. Lucas' place east of Brownwood and enjoyed a barbecue with trimmings which was spread on tables on the front lawn under large shade trees. After lunch they inspected the Lucas pecan orchards in which Mr. Lucas is having top work done and on one block the United States government is making experiments in top working and budding.

National Work Explained
The work of the national organization was explained to the county agents and growers of the counties surrounding Brown in preparation of work to be done in the different counties soon. The national association wants the counties surrounding Brown county to ship their pecans to the local in Brownwood so as to make a strong centralized point here. Meetings will be held in the different counties soon to fully explain to other growers the nature of the organization and the advantages of marketing pecans cooperatively. The county agents who attended the meeting are asked to carry data concerning the organization to the growers in their respective counties.

Big Crop Prospects
At a short meeting following the luncheon reports of pecan crops in the different counties were heard from the representatives. Outlook at present for a bumper crop is bright and every man reporting said there would be a large harvest of pecans this year judging from prospects at present. It was generally agreed that most of the growers would be interested in the cooperative marketing plan and it is thought that the counties will be willing to have their pecans handled through the local organization. It was explained that railroad freight would not cost the growers anything as it would be absorbed by the local association and growers in other counties will have the same advantages and get as much for their pecans as the growers near Brownwood.

Visitors Here
Those registered at the meeting were: J. H. Burkett, Clyde; J. T. Stovall, Brownwood; J. T. McDonald, Brownwood; A. I. Fabis, Brownwood; G. R. Morgan, Brownwood; W. A. Prater, Cross Cut; Hilton Burks, secretary Brownwood Chamber of Commerce; C. W. Lehmborg, Ballinger; T. B. Wood, Bryan, district agent; C. E. Nelson, Hamilton; P. M. Rice, Hamilton county judge; George M. Fletcher, Mullin; H. M. Jones, president Brownwood Chamber of Commerce; P. W. Dawson, Abilene; E. M. Howard, Rising Star; T. R. Ivy, Mullin; W. P. Weaver, Goldthwaite; Marion Wilkerson, Comanche; J. A. Burton, Comanche; Bert Fletcher, Mavrick; Rannels county; H. G. Lucas, Brownwood; Hamilton, Brownwood.

GOOD FOUNDATION
Teashop Proprietress: I'm sorry you don't like my buns, but I can assure you that this business has been built up almost entirely on my cookery.
Candid Customer: I don't doubt it. With a few more buns like those you could build a hotel!—Tit-Bits.

Nurse: Please, ma'am, young Master Jack ran away and I can't find him. We were in the park.
Mistress: But didn't you speak to a policeman?
Nurse: Yes, I was speaking to a policeman when Master Jack ran off.—Moustique, Charleroi.

"What does your father do at work?"
"Makes mirrors."
"And your mother?"
"She looks into them."—Passing Show.

DISCUSS PLANS LARGE POULTRY SELLING UNITS

L. A. Nunn, E. P. Kilgore, Mrs. Lila Salyer, manager of the Southwestern Poultry Association, and County Agent G. P. Griffin attended a meeting of county agents and poultry officials at Ballinger Monday. Mr. Willardson of the Federal Farm Board called the meeting for the purpose of discussing plans for combining the cooperative poultry associations of the towns in this section into one organization. Several counties were represented.

The Farm Board, it is said, is anxious to have the different small poultry cooperatives in this section combined into one large unit. Already the dairy and poultry associations in towns where there were two separate associations have been combined. Brownwood does not have a dairy cooperative but has one of the largest poultry cooperatives in this section, the Southwestern Poultry Association.

The plan is to form the different associations into one organization and have it market its products through the Corn Belt Regional Association with headquarters at Chicago. The Corn Belt Association was formed last year under the direction and supervision of the Farm Board, which also finances the cooperative. The association has a branch office in New York and will in the near future establish branches at the different leading market centers of the county, it was said at the meeting. Committees from every county represented at the meeting were appointed to work out plans for the combining the different organizations and these plans will be presented at later meetings.

Texas Farm Bureau Appreciates Work of Federal Board

WESLACO, Texas, June 1—(AP)—The Texas Farm Bureau Federation, at its concluding session today of its annual meeting, passed a resolution expressing appreciation of the assistance given producers of the nation by the Federal Farm Board. The resolution called upon senators and representatives to support the board.

The resolution also urged bankers and other business interests to assist farmers in setting up organizations.
B. S. Burgess, field service director for the Texas Cotton Cooperative Association, declared that "if the agricultural marketing act is to be meddled with, we will do the meddling. It won't be changed by our enemies."

WACO MAN MAKES STATEMENT

"Anyone who had noticed the dreadful condition my wife was in can readily see the great change Argotane has made in her," said Mr. Owen Phillips, living at 2417 Burnett Street, Waco, Texas.
"My wife has improved so much that her neighbors often speak of it. Her health has been broken up for over four years and she suffered from stomach trouble, and her kidneys bothered her practically all the time. And for the past year or two she has had a pain across her back. Her appetite left her and what little she did eat would sour on her stomach and cause gas and intense pain. She was never able to eat breakfast at all; she was weak and dizzy and had terrible, raging headaches and was losing weight and strength. She had severe cramps in her stomach and sides most of the time and would roll and toss at night and never got very much rest. She had a bad case of constipation.
"Since taking Argotane my wife is greatly improved, and feels like a different person. She isn't bothered with stomach or indigestion troubles and eats anything she wants, and now eats a hearty breakfast. Those terrible headaches and dizzy spells have disappeared and she isn't bothered with constipation. Argotane has certainly helped her and we think it is a wonderful medicine and both will always speak a good word for it."
Genuine Argotane may be bought in Brownwood at Renfro's Rexall Drug Stores. (adv.)

SPECIAL VALUES

In ICE Refrigerators

BROWNWOOD ICE & FUEL CO. DEERN PLANT

operation still remains one of the major industries of the neighborhood. The Brownwood Ice & Fuel Co. Company said yesterday that the plant has been in the ice business for more than 25 years. The plant has seen the refrigeration business grow from a small business of the largest of all the cities in the state.

The Brownwood Ice and Fuel Co. plant, which is one of the largest of its kind in the state, is situated on the main plant on Adams street near the subway. It is one of the largest of its kind in the state. The plant has seen the refrigeration business grow from a small business of the largest of all the cities in the state.

their time during recent years to the ice business and the fuel department has grown to be a very minor part of the business. However, there is a large amount of coal sold here and the company still has several cars shipped weekly.

The main plant includes a large storage vault, the factory itself where distilled ice is frozen and another smaller plant where plain water ice is frozen. Besides the freezing vats the company has a large amount of cold storage space.

Storage Space

The total storage space which is cooled directly from the plant and which may be regulated from sub-zero temperature to almost any temperature wanted has a capacity of more than 50,000 cubic feet. Fruits, vegetables, fresh meat and other products are stored there during the Thanksgiving and Christmas rush the space is practically all filled with turkeys, awaiting shipment.

During the summer months the plant has a large business in watermelons and sells large numbers of these daily. The company stores fruits for local produce men as well as meats for packers and individuals.

The ice business includes a large wholesale department as well as the retail business which is done by the firm. There are many tons of ice shipped each year to surrounding towns and hundreds of

tons are trucked into neighboring cities.

This wholesale business in other places is aided during the summer by the small plants which are not capable of supplying the needs of the towns. Trucks are sent here and carry many blocks off.

Ice Refrigeration Cars

Another large phase of the ice business is ice refrigeration cars for shipment of perishable produce. The Brownwood Ice and Fuel Co. has many cars yearly with a track easily reached from the storage vaults for both loading and unloading. The Coggin avenue plant was completed two years ago and since that time has been doing capacity business. It was originally a storage station, but the large amount of business done there made it necessary to install freezing equipment and the new plant was constructed.

This plant includes all the latest appliances for freezing ice and is one of the best equipped plants in this part of the state. It is kept in operation 24 hours of the day and runs at capacity speed during the year.

During the winter months large quantities of ice are frozen and stacked in the storage department of the main plant and is left there for summer use.

From this storage the ice is carried both to the Coggin plant and

to other stations in town as well as being used by the main plant for retail sale and for wholesale use. With the added business brought on by hot weather it is necessary to have an ample supply of ice at all times.

If the company should run short of ice—which has never happened—it would mean the spoiling of thousands of dollars worth of perishable goods in all parts of Brownwood. Pure ice refrigeration is the cleanest, most sanitary and wholesome kind of refrigeration to be found and this fact is evidenced by the constant growth of the business.

PLENTY OF TITLES

GRIDLEY, Calif.—E. V. Cain, 27, superintendent of the local elementary schools, is a well titled man. He is president of the Gridley Rotary Club, school superintendent, vice president Northern California Teachers' Association, and Institute chairman, member of Butte County Board of Education, secretary of Butte County School Masters' Club, secretary Gridley Health Center, director of Gridley Club and director of the Red Cross.

LIKES 'EM YOUNG

"Well, Bobby," exclaimed the elderly woman visitor, "how you have grown! Still, you're not too old to kiss, are you?"

"No," answered Bobby, "but you are."—Tit-Bits.

IMPROVEMENT WORK BY CLUB MEMBERS SEEN

By CLARK COURSEY

Beautiful yards can be had in Brown county with a little work and care it was demonstrated to about 120 people of Brownwood and Brown county in a tour of inspection Friday of yards improved by 4-H Club girls at Holder, May and Keeler. Not only were the demonstrators visited but another yard near May and two yards in Brownwood were visited by the inspection party.

Twenty cars were in the tour before the day was over. About one hundred miles was covered by the party on the route.

The tour was made in connection with National Better Homes Week, which can be observed any week in May, according to Miss Mayes Malone, Brown county home demonstration agent. Beautiful yards which had been the chief assets of a beautiful home and home demonstration club members are working and have been working to make pretty yards in the county this year she declared.

The yard improved by Miss Wilma Stapp at Holder, yard of Miss Willie Keeler at May, yard of Will Miller, east of May, and Mrs. J. W. Malone's and Mrs. H. H. Negus' yards in Brownwood and Miss Dossie McBride's yard in Indian Creek were the yards visited during the tour, took all day.

The caravan of fifteen cars, headed by Miss Mayes Malone, and party, left the court house at 9:00 o'clock Friday morning and drove to Miss Stapp's yard.

Yard Beautification

Much effort and work had gone into the improvement of the yard which had been bare when the improvement was begun in March, according to Miss Stapp, who in a short talk explained the work to the party. A rock garden was built in one corner of the yard and cactus and other hardy plants are now growing beautifully. Flat stone walks had been made from the gates at the side and front of the house to the door steps and stepping stones had been laid around the entire yard. A fish pond made of a metal barrel cut in halves and sunk in the ground and surrounded with pretty rocks and plants was situated near the rear of the yard and was one of the beauty spots.

The yard improved by Miss Keeler at May was next visited by the party. In a short talk Miss Keeler told of the many improvements that had been made since March. A large cemented fish pond had been built in one corner of the yard. In the middle of the pond a large piece of petrified tree had been set and a pot plant had been placed on the stone. Flower beds were all around the house and flower beds were beautiful with blossoming flowers next to the fence in front of the house. A great amount of rock from petrification had been brought to the yard from near May and added greatly to the attractiveness of the yard.

Yard in Solid Rock

The yard of Will Miller, who lives on a high hill east of May, was next visited by the party, although it was not on the schedule of the tour. One of the many improvements wanted the members of the tour to see the improvement that had been made by the Miller family on a yard that was solid rock. The flower beds had to be dug in rock and dirt filled in. The fish pond was built on top of the ground and although the yard is not yet completed it was greatly admired by the visitors.

At noon the party had reached the A. L. Petty home south of May and stopped on the expansive lawn to spread picnic lunch. Everyone making the tour had carried food and all the food was spread together on long tables. About a hundred people enjoyed the meal. Iced tea was furnished by the May home demonstration club.

Mrs. H. H. Negus, president of the Brownwood Garden Club, was introduced at several places on the tour and made short talks. Mrs. Negus and the Garden Club cooperated with Miss Malone in planning and landscaping the demonstration yards. Following the luncheon Mrs. Negus made awards to the following 4-H Club girls for exhibits of wild flowers in the Flower Festival held in Brownwood May 15 and 16: Melba McInnis and Wilma Stapp, Holder; Maebell Fitzgerald and Imogene Meiba DeHay, Woodland Heights; and Nellie Wilson, Ida Denman and Billie Lou Curbo, Winchell. The Woodland Heights Club received the sweepstake prize for the most flowers exhibited.

Cars of home demonstration club members joined the party at several points along the roads.

Brownwood Yards

The party drove from May to the yard of Mr. and Mrs. J. W. Malone, 606 Coggin avenue, and then to the yard of Mrs. Negus, 1515 Austin avenue. Both yards are elaborate in blossoming flowers and shrubs and have attractive fish ponds and yard furnishings. The yards were greatly admired by those who visited them and many club women said they were going to make their yards more attractive.

The yard improved by Miss Lillian McBride at Indian Creek was the next stop of the inspection party. There were only a few flower beds in the yard when the work was started, said Miss McBride in explaining the improvement. Now the yard is beautiful with blossoms and shrubs of many varieties. A rock garden filled with many curious and pretty rocks and a large fish pond add to the attractiveness. Flat stone walks lead around and about the yard and an arbor which will be covered with vines and which was constructed by Miss McBride with the assistance of other members of the family, is located at the rear of the house.

From the McBride home the party went to the Indian Creek home demonstration club house as guests of the club. Algeria berry punch and cakes were served to all present. For entertainment Misses Elia Mae and Myra Dixon sang several

popular numbers, playing their own accompaniment on the guitar and mandolin. After the entertainment the inspection party returned to Brownwood.

Pleased With Tour

All were agreed that the tour had been most successful and all were thoroughly convinced that beautiful yards can be had with some effort and work. Home demonstration club members said that judging from the beautiful yards seen during the day the results are well worth the effort and work put out on the yards.

Miss Malone was highly pleased with the tour and the large number that were interested in the work and made the trip. She is also pleased with the beautiful yards of the club girls and hopes that other women and girls in the county will be inspired to make beautiful yards at their homes.

More than a hundred and twenty people registered at the luncheon at May and at the Indian Creek club house. Not all of those registered made the entire tour but all registered took part in some phase of the day's activities and many of them made the entire tour which was about 100 miles. Those registered were:

THE TURK DISCOVERED COFFEE but All Gold MADE IT GOOD

Coffee, as just coffee, was discovered centuries ago by the Turks, who roasted and brewed it to the best of their ability. But no Turk ever tasted coffee as refreshing as All Gold...the coffee that you can enjoy.

For All Gold is to coffee as diamonds are to lesser gems...the very epitome of desire and value.

All Gold is the result of long, careful testing and selection to get the exactly right coffees in exactly the right proportions to exactly suit the taste.

With this exact essence of satisfaction achieved, every safeguard is thrown around the scientific accuracy of selection and blending to make sure that All Gold is always exactly the same.

This coffee can never vary an atom in blending...it's always exactly right.

Demand All Gold for your own. Your grocer has it. Buy a can now, today!

RELIEF WORK WILL CONTINUE THIS SUMMER

Although the Brownwood Relief Association headquarters on West Lee street were closed Monday, the relief and charity work will continue during the summer months. It was decided at a meeting of the directors of the organization held Monday night. A report of work done during May and April was read by Miss Carrie Reaves and plans for the summer discussed.

The present executive committee composed of C. M. Carpenter, O. W. McDonald and Miss Carrie Reaves will conduct the business of the organization during the summer.

Aid During Last Two Months

In her report, Miss Reaves stated that 177 families had been given aid during the two months with a total of \$814.28 being spent in the work. Of this number 42 families received aid once, 20 families received aid twice and aid was given 25 families once each week with the average cost per family being \$1.25 per week.

The report also stated that on May 1, there was a balance of \$792.25 in the bank, with collections totaling \$697.50 being made to swell the total for the two months to \$1,389.75. At present there is a balance of \$495.47 with which to conduct the work during the summer. There are repayments due at present which will make the total for the summer \$539.53.

The disbursements were as follows: milk, \$7.50; food, \$52.67; medicine, \$40.29; doctors and hospital, \$51; housing, \$5.75; utilities, \$14.61; transportation, \$13.80; salaries, \$80; collectors, \$68.75; sundries, \$10.

Miss Reaves reported that 12 acres of land had been planted in peas and that it was being cultivated with implements furnished by the John Deere Company, with men receiving aid doing the work. She stated that the peas had now sprouted.

All supplies and needs of the relief work will be conducted through the summer by Miss Reaves at her home, the orders to be signed by the present committee, it was decided.

Begging by Children

The matter of children begging on the streets was discussed and it was

decided by motion that Dr. Ben M. Shelton, president of the organization should appear before the council tonight in regard to the matter and ask that steps be taken by the city to stop begging, especially by small children.

Dr. John Power made a motion that every person or firm in Brownwood who assisted in the relief work, whether by cash donations, gifts of clothing, time or any other way, be publicly thanked for their aid.

All clothing and supplies remaining in the hands of the association were packed in cases and have been stored at the Maurice Hall warehouse for the summer. They will be ready for distribution next year if needed.

The meeting adjourned for the summer and any further action will be taken by the directors as a body next fall, as may be necessary.

Cases At Brady Are Continued At Sterling Request

District Judge E. J. Miller, who is presiding in district court at Brady this week, was in Brownwood Monday and said several cases set for today had been continued. He said that last week was a very busy week at Brady, with the court working into the night Saturday.

He stated that the reason for the continuing of the cases set Monday was singular in that the request was made by Governor Ross Sterling. Walter C. Woodward, attorney for several defendants, was busy during the first part of the session at Austin and returned to Brady last week. All cases in which he was interested were set for today then continued.

Judge Miller said that the Governor telephoned him asking that they be passed as he wished to have Mr. Woodward, as a member of the senate make a tour of East Texas with him and others to investigate the oil situation there and attempt to arrive at some definite end concerning the proration there.

The judge said that this is the first time that he had ever heard of a governor requesting that a group of criminal cases be continued in any court.

Rats Travel Far

According to Henry Pasenl, a South African agriculturist, rats and mice are great travelers. He marked more than 1,000 of them and within a few months they were reported to have crossed the veldt, and more than 200 of them went as far as England and Scotland.

DAVID H. CLARK LOSES IN RACE FOR JUDGESHIP

LOS ANGELES, June 2—(AP)—While he was being bound over for trial on charges of murdering Charles Crawford, political boss, and Herbert Spencer, magazine editor, David H. Clark polled more than 65,000 votes here yesterday in his race for municipal judge but was defeated.

Complete official returns gave Clark 67,014 votes and his opponent Charles MacCoy, incumbent, 95,774. Clark, central figure in a case described by prosecuting authorities as a racketeer killing, remained in jail today unable to raise the \$100,000 bond set for his release pending trial.

Special prosecutor Joseph Ford announced Jean Riley, motion picture actress, had been dismissed as a state witness. She did not testify. Miss Riley confessed, Ford said, that her story that she had seen three men run from Crawford's office immediately after the shooting May 20 was a fabrication, told in the hope of getting publicity.

Clark's attorneys did not ask dismissal of the charges at the close of the hearing, saying he felt all facts should be brought to light in superior court. Municipal Judge Carl B. Sturzenacker granted him bail over the protest of Ford.

Volunteer bondsmen were able immediately to raise only \$64,000 and efforts were continued until midnight to obtain the remaining \$36,000. At that time Clark retired to await developments.

SEAL OF BANGS HEADS DISTRICT MAIL CARRIERS

At the conclusion of the district convention of the Rural Letter Carriers of the Seventeenth Congressional district here Saturday it was decided that a committee should later designate the place for the next meeting. Officers for both the district organization and the county unit were chosen.

A. A. Seal of Bangs was elected president of the district organization, C. D. Reagin was chosen as vice president of that group and Roscoe Reeves of Gorman was elected secretary-treasurer. R. L. Adcock was chosen as a district delegate to the state convention to be held at Waco on July 3, 4 and 5.

Officers for the county unit included Millard Crockett or Owens, president; Nat Brooks, secretary and J. C. Aubrey as secretary-treasurer. A. A. Seal will represent Brown county at the state convention.

Practically every county in the district was represented here Saturday but the threatening weather kept a large number of delegates away and the attendance totaled slightly less than 65.

The committee, although not definitely deciding intimated that the convention next year would be held at Abilene as that city is making a strong bid for the meeting.

Plans were also discussed for the national convention in San Francisco which meets in September, beginning on Labor Day and lasting three days.

INITIAL PRODUCTION WEST TEXAS INCREASED OVER PREVIOUS WEEK

SAN ANGELO, June 3—(SP)—New oil production and that of two old wells deepened last week in West Texas rated 1,276 barrels daily compared with initial yield totaling 727 barrels by two wells completed the week before. Three locations were staked, all in Ward county, one more than during the preceding week and increased the 1931 total to 96. Two tests were abandoned dry, one each in Pecos and Reeves county, the same number as during the week before.

Ward county completed two wells one good for 30 barrels, the other for 25, and a Howard county well, deepened, initially produced 160 barrels daily more than the amount for which it originally was completed. An Upton county well, deepened, added 51 barrels to its old initial mark, making new production for the week 266 barrels and bringing the year's total to 26,862.50 barrels. Another Howard county producer rigged up to deepen.

Completions Reported

PECOS—W. B. Hagan No. 1 W. T. Shearer, section 45, block 10, H. & G. N. Ry. Co. survey, elevation 2,426 feet, hole full of sulphur water 515 feet, top of salt 1,035 feet, estimated 50,000 cubic feet of gas daily at 1,770 feet, slight showing of oil 1,762 feet, four ballers of sulphur water in 18 hours at 1,825 feet, the total depth; abandoned as dry.

REEVES—The California Co. No. 2 Kloh, Rumsey & Abrams, section 11, block 54, township 4, T. & P. Ry. Co. survey, elevation 2,777 feet, top of salt 2,675 feet, top of Delaware sand 4,450 feet, two gallons of salt water hourly 4,466-70 feet, show of oil and basic sediment 4,470-76 feet, slight increase in sulphur water to 4,509 feet, the total depth, where the water rose 1,000 feet in 11 hours; abandoned dry.

WARD—Bell & Weir No. 1 Gougher, section 11, block 5, H. & T. C. Ry. Co. survey, elevation 2,441 feet, top of pay 2,187 feet, increase in oil and gas 2,239 feet, total depth 2,255 feet, initial production 25 barrels daily, flowing through casing.

The California Co. No. 1 Gordon, section 6, block 34, H. & T. C. Ry. Co. survey, elevation 2,529 feet, top of salt 990 feet, first oil and gas 2,268 feet, increase in gas 2,298 feet, 2,312, 2,319, 2,352, 2,387 and 2,399 feet, increase in oil 2,303-08 and 2,352 feet, total depth 2,399 feet, plugged back to 2,445 feet, initial

production 30 barrels daily, flowing through tubing.

Wells Deepened

HOWARD—American Maracaibo Co. No. 5-C Settles, section 6, block 32, township 2 south, T. & P. Ry. Co. survey, elevation 2,711 feet, old top of pay 2,210 feet, total depth 2,285 feet, shot with 300 quarts 2,212-77 feet, completed in April, 1929, for initial production of 800 barrels daily, pumping; recently making 100 per cent water; deepened with shot oil 2,265-70 feet and 2,380-65 feet, increase in oil 2,390-94 and 2,433-40 feet, new total depth 2,447 feet; new initial production 40 barrels of 38 gravity oil hourly for 11 hours, no water, pumping.

Continental Oil Co. No. 7 Settles, section 133, block 29, W. & N. W. Ry. Co. survey, elevation 2,691 feet, old top of pay 2,184 feet, old total depth 2,240 feet, initial production 830 barrels in 24 hours, pumping, completed in March 1929; rigging up tools to deepen.

WARD—Texas-Pacific Coal and Oil Co. No. 1 Henry James, section 5, block 34, T. & T. C. Ry. Co. survey, old top of pay 2,210 feet, old total depth 2,350 feet, old initial production 190 barrels daily, flowing, completed in Jan. 1931; now drilling below 2,372 feet, flowed 261 barrels in 24 hours on May 27; increase in oil 2,356-72 feet.

Locations:

WARD—Clyde Bradford No. 1 York, 330 feet from the northeast and southeast lines of section 10, block 34, H. & T. C. Ry. Co. survey; moving in materials.

Wadsworth & Black No. 1 Boogher, 1,400 feet from the southeast line and 500 feet from the south line of section 11, block 5, H. & T. C. Ry. Co. survey; rigging up National machine.

EXPECT \$20,000,000 SAVING IN AGRICULTURE DEPARTMENT NEXT YEAR

WASHINGTON, June 2—(AP)—Conferees between President Hoover and Secretary Hyde have disclosed that for the next fiscal year the agriculture department expects to save \$20,000,000.

In addition, it was said at the White House today, during the present fiscal year which closes July 1 there will be an additional saving of \$11,000,000.

The White House statement said: "Secretary Hyde and the chiefs of the department of agriculture report that out of the appropriations available for expenditure by the department during the fiscal year ending this month, together with unexpended balances carried forward from last year, they have during the year saved about \$11,000,000 by economies throughout the various divisions.

"Considerable unexpended balances will be carried forward into the next fiscal year beginning July 1 to cover obligations and contracts entered into.

"Of the appropriations for this next year and these balances, it is expected that about \$20,000,000 will be saved during the next year."

Bill Re-Organized 35th District Signed By Gov

AUSTIN, Tex., June 2—(AP)—Gov. R. S. Sterling today signed bills to establish the 35th district and reorganize the 51st judicial district.

The 35th district will be composed of Howard and Burnet counties and the 51st district will be composed of Coleman, Runnels, and Concho counties. The 119th district will be composed of Coleman, Runnels, and Concho counties. The governor signed a bill to provide for the election of a child and wife dependency board to support a wife who is a felon.

Other bills signed: Appropriating \$5,000,000 for the state and \$14,000,000 for miscellaneous claims against the state.

Appropriating \$145,000 for the state and \$1,000,000 for rural high schools.

Appropriating \$7,000,000 for the state and \$1,000,000 for the state.

Authorizing levee districts to demn land for levee construction.

Farmers Plan to Cooperate in the Buying of Hogs

A great many farmers of the county do not have enough hogs on their farms to make meat for the family during the year and there are only few pure well bred breeding hogs in the county, according to County Agent O. P. Griffin. Several farmers are planning to cooperate on getting a number of good hogs shipped in any number of ways which will buy one hog or more can do so.

The hogs will be bought in the Corn Belt of the United States and the purchase will be handled by the Port Worth Stock Yards Company at no extra expense to the farmers. The hogs are good stock, weight around 175 pounds and will sell at \$12 to \$15, which includes immunization and freight. Well bred Durocs, Polands or Hampshires are available. The Stock Yards Company is helping with the work in order to get the county restocked with good hogs.

With the large feed crop that will be harvested in the county it will be economical in the end to fatten hogs both for farm use and for the market, thinks Griffin. The feeding of hogs for market would be a good way to use the grain and feed instead of selling it all at present market prices, he says. Mr. Griffin is more interested in getting the farmers to raise hogs for meat for the family than for the market, however, and says a farmer who does not have hogs and sells all his grain and feed at market prices and then buys his bacon next winter is losing money. Hogs are cheap at present, but the market will be higher later, he said.

Farmers interested are asked to get their orders in soon as the deal is to be closed within the next ten days. S. E. Lacy of the Blanket State Bank and L. G. Porter of the First State Bank of Bangs are helping get up the orders and farmers of those communities can leave their orders with them. Others can leave orders at the county agent's office.

INTERESTING MEETINGS BY INDIAN CREEK GIRLS' AND WOMEN'S CLUBS

Reports of meeting of the Indian Creek Women's Home Demonstration club, of the girls 4-H club and of other activities of the clubs have been made as follows:

"The Women's Home Demonstration Club of Indian Creek met Thursday afternoon. There were seven members. Miss Mayesie Malone, home demonstration agent, and three visitors present. Mrs. F. H. Herring was in charge of the business meeting. Several new books for the library were received, being donated by Mrs. R. E. Lee of Brownwood.

"Miss Malone discussed making children's clothes and showed several different types of garments.

"Our next meeting will be the second Thursday in June at which time a jelly making demonstration and foundation pattern making will be given.

"The women's club entertained the people of the community with a social at the Friday night. Forty-two and other games were played. Refreshments were served to about forty-five people.

"More than a hundred women, members of the home demonstration clubs of the county and the Brownwood Garden Club came to the Indian Creek community Friday afternoon for the day tour. They visited the yard of Dossie McBride, then went to the club house where a short program was given. The girls of the club sang several songs, Mrs. F. H. Herring, president, welcomed the visitors. Misses Myra and Ella Mae Dixon, sang and played several numbers. Miss Lillian Malone made a brief report of club work in Indian Creek. Punch and cakes were served."

Girls' Meeting

"Indian Creek girls' 4-H club met Thursday morning at the club house with ten members and Miss Mayesie Malone present. During the business session, Edith Hawthorne was elected secretary to succeed Ima Gene DeHay who has moved away and who is now a member of the Woodland Heights girls' club. All the girls made good reports of their work and Isola Andrews, a former club member who has been going to school at Dimmitt, told about a trip to the State Clothing Contest which she attended at Lubbock this spring. Miss Malone made three different salads in her salad demonstration. At noon lunch was served to thirteen persons."

Joint Meeting Of Legion Posts Here Next Friday Night

Plans have been made for a joint meeting of the American Legion post of Coleman and the Isham A. Smith Post here on Friday night. The meeting will be a regular meeting for the local post and will be attended by more than 50 Coleman Legionnaires. Shortly following the meeting here an inter-city meeting will be held at Coleman with the Brownwood post as guests of Coleman.

The meeting will be called to order as usual and after business is transacted the meeting will adjourn into a social event.

Burleson Is Again Named As Officer Clerk Association

The thirty-ninth annual convention of the County and District Clerks' Association of Texas, which met in Dallas May 28, 29 and 30, was one of the most interesting and beneficial held in the last few years, according to W. E. Burleson, Brown county clerk, who attended.

Mr. Burleson accompanied his husband to the convention.

In the election of officers, Mr. Burleson was re-elected to the position of secretary-treasurer of the association. Other officers named were: L. Emet Walker, county clerk of Coleman county, president; Hart McCormick, district clerk of Bexar county, first vice-president; W. E. Blackburn, Potter county clerk, second vice-president; W. E. Alexander, district clerk of Tarrant county, third vice-president.

San Antonio was selected as the meeting place for the convention next year.

Mr. Burleson was well pleased with the meeting and the entire program which included many discussions by county and district clerks on subjects of interest to their businesses.

Series of Liquor Raids by Police Saturday

Members of the police made ten raids Saturday and Saturday night, and establishment three times the quantity of liquor was seized, beer and equipment for the factory. As a result two given into the hands of officials today and others were held before the city.

Three raids were in the Center avenue and Lee and Clarence Dyles and are now in the court. Some liquor was taken.

In the other raids, empty bottles and equipment were confiscated.

Hayden Hodnett, regular after being fined in city drunkenness, was given a term of county officers' licensing.

Dublin & Canon Distributors For New Refrigerator

Dublin & Canon have taken over the local distribution of the Norge Electric Refrigerator and have installed a large supply of the machines in their store on Center Avenue where one of the models is on display in the show window.

The Norge is a revolutionary refrigerator which has been constructed upon lines all its own. It does not operate like any other machine on the market and includes many features never before seen on such machinery.

It is constructed by the Borg-Warner Corporation who have made a name for themselves as manufacturers and originators of many of the common appliances on automobiles. For many years this company has been a leader in automobile appliances and there are few automobiles placed upon the market which do not have Borg-Warner manufacture equipment.

RETURN FROM FUNERAL OF ABILENE RELATIVE

Mr. and Mrs. W. A. Alford, C. M. Alford and family, J. L. Alford and family, Mr. and Mrs. R. H. Shores and Mrs. Roy Hitchcock are returned from Abilene where they attended the funeral of William Alford, twelve year old son of Mr. and Mrs. P. B. Alford. Mrs. M. B. Alford remained in Abilene after attending the funeral of her grand-son.

Young Alford passed away at 4 o'clock Tuesday at a hospital in Abilene. Death was caused by pneumonia. Funeral services were held Wednesday in the North Side Church of Christ in Abilene and burial was in the Masonic Memorial cemetery. William Alford was born in Brownwood. The family moved to Abilene several years ago.

Auxiliary Extends Thanks For Large Sale of Poppies

More than 1,500 poppies were sold by members of the American Legion Auxiliary Saturday, which is one of the largest sales ever made here, according to Mrs. J. F. Mitchell, president of the Auxiliary. About \$110 was taken in from the sales and the money goes to help the disabled soldiers who are still in government hospitals suffering from injuries received in the World War. Although not as much money was received as has been at some other times, more poppies were sold and more people were willing to do their bit by buying poppies, stated Mrs. Mitchell.

The following statement by the Auxiliary, through Mrs. Mitchell as president, was made at the meeting:

"Before retiring into our ranks of service and daily duties, we wish to thank The Bulletin, the Lyric theater and the general public for their splendid cooperation in helping the American Legion Auxiliary poppy sale a great success. Not only are we grateful for the liberal amount of money made from the sales, but for the spirit in which everyone bought, the nice things said about our work and the sincere interest manifested by everyone. We also thank those who gave the beautiful flowers to be used in the decoration services at the cemetery Sunday."

WE NEED 200 USED TIRES FOR QUICK RESALE!

We're bidding high...can give you a price on your old rubber that will save you REAL MONEY....
