

MUENSTER ENTERPRISE

VOLUME X

MUENSTER, TEXAS, COOKE COUNTY, FRIDAY, MARCH 29, 1946

NUMBER 18

Early Construction Of Hospital Favored At Directors' Meet

Quite a number of people know that the fire department has split the city into four zones, and quite a number have guessed that a certain number of short blasts on the fire whistle indicates the zone in which a fire is located, but so many don't know what part of town is in what zone.

Con did not know either until a few days ago, and he hereby shares the information with one and all, especially for the benefit of fire truck chasers who have found it necessary in the past to come to town and follow the big red wagon. Henceforth they can head straight for the neighborhood, maybe even beat the truck there.

Understand, of course, this choice bit of information is being divulged with a reminder that we noisy people, should we get to a fire first, will be thoughtful enough to keep our jalopies out of the fire truck's way. The firemen will be somewhat disconcerted if they find cars where they wanna be.

Anyway, here's how the zones are laid off. The street intersection southwest of the water tower is the pivot point and the streets themselves are zone boundaries. The area south and west of those streets is zone 1; north and west is zone 2; north and east is zone 3; south and east is zone 4.

So, when you hear that long blast of the fire whistle, listen some more. The number of short toots immediately following tells where the fire is.

Confidentially, however, the system was not arranged for the benefit of kibitzers. It's for the firemen themselves. No matter where they are they know the approximate location of the fire. They'll be able to save precious minutes.

Pardon us for commercializing the column, but it so happens we have a good opportunity to plug the one commodity this paper has for sale — its advertising.

Last week a subscriber asked us to advertise the loss of her son's billfold. No sooner had the paper come out she informed us, than she recovered the lost article. She found it at her home under a bed. Yes, sir, Enterprise ads get results.

Nothing the proposal for a 20 per cent pay increase to army and navy personnel along with the vast amount of publicity on the pleasures of foreign travel at Uncle Sam's expense, we can gather that the armed services are not getting satisfactory response to their recruiting campaigns.

To our way of thinking the services are using the wrong approach in their quest for recruits. They look for responsible, dependable people when they appeal most strongly to the shiftless type.

Suppose instead of that line the army were to institute a campaign based on a slogan like "we get things done", something to appeal to a fellow's pride, so that the man enlisting would feel he is becoming a useful public servant and not a liability to the taxpayer. Suppose it said "you can come out of the army with an education" instead of "you can earn a ticket to attend school at the public expense." We can imagine that ambitious youngsters would find such appeals more interesting.

Quite a number of things are hurting the army nowadays. One is the common complaint of so many returned veterans that they had nothing to do for months and months. They are sick of it and they don't recommend the service to their friends. Another thing is the colossal waste they saw. The beefing they do about that doesn't help matters either.

Very likely we'd see a sharp rise in the number of enlistments if recruiting experts as well as men in the upper brackets offered other inducements. They need an appeal to pride and ambition, something to assure the youngster that his hitch is not just so much lost time in his personal life but rather an investment for better living later. Promise the youngster that he's more or less self sustaining while he's there, that he can pick a trade and learn it thoroughly, that he'll have access to courses he did not complete in school, above all that he will have the satisfaction of feeling useful. That's what it takes to get an army of men.

Like all proposals, the one for a pay boost to servicemen has two sides. One of the principal inducements held up to the prospective enlistee is the compensation he will get in cash and other benefits. Take the case of a private, the lowest paid person in the service. He gets 50 dollars cash in addition to board, lodging, clothing, medical expenses.

(Continued on Page 3)

Meeting here Saturday afternoon, March 23, directors of the Muenster Cooperative Hospital association decided to begin negotiations immediately for securing their building site and planning construction of a building.

After a discussion on instituting immediate limited services the organization agreed that rather than set up one system temporarily and adopt another when the building is completed it would rush construction and then adopt a permanent plan of operation.

Heretofore building had not been considered feasible because of the shortage of desired materials. Revised plans favor a modest beginning within the present resources of the association, but still adequate for the needs of the community. That would include the central unit consisting of operating room, laboratory, reception room, office, etc., and necessary equipment with space for 15 to 20 beds.

It was also recommended that basic construction material be concrete tile or any other suitable material now available and provisions be made for the finishing touches when conditions are more favorable. Thus the unfinished outside wall would await face brick, stucco or ornamental glass and plain concrete floors would await tile or linoleum.

Original plans would also be such that wings can be conveniently added as the need arises. In this way, the directors decided, they can provide local hospital service at a much earlier date without waiting for a large membership or the desired building materials. And as memberships continue to come in their remittances would go into the improvement and expansion fund.

The location preferred for the hospital site is the Zipper land just outside the city limits on North Main. Since the meeting was the first since their election last week, the directors elected their officers as follows: J. M. Weinzapfel, president; E. A. Felker, vice president; Herbert Meurer, secretary-treasurer. Other directors are Dr. T. S. Myrick, J. W. Hess, Arthur Endres and R. N. Fette.

Inadequate Protection Near North City Limit Revealed By Fire Drill

Members of the volunteer fire department had a realistic fire drill Monday when they answered a call and found a rubbish heap fire that had been set by their chief, Jimmy Lehnertz.

The location was a spot near the new city well, especially selected as a means of securing information vital to the fire department and the city. One thing discovered is that water pressure in that area is very inadequate. The stream, shot straight up, hardly soaked the telephone line, which is less than 90 feet from the ground. Two factors cut down the pressure, one being the location is high as well as a great distance from the water tower, and 3 blocks from the nearest water plug. Decreased difference in elevation and friction through pipe and hose both have their effect.

Another point that Lehnertz noted was that the firemen used only four minutes in driving from the station to the fire, leading the hose back to the fire plug and making their connection but it took the water longer than a minute to go from the plug to the nozzle.

Checking their hose after the drill the men found one defective section. It has been discarded.

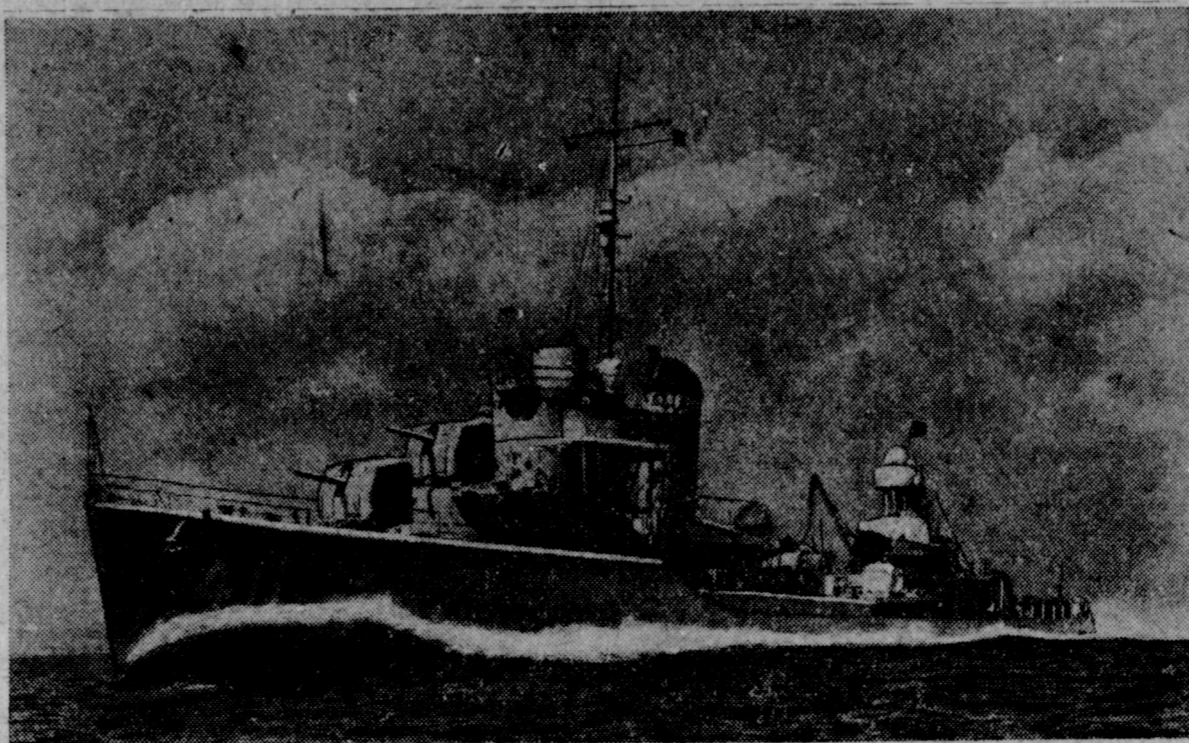

Five Names On Ballot For Trustee Election

When submitted to the county superintendent on March 26 Muenster's ticket for the coming school trustee election had five names as candidates for three positions. They are Albert Henschel, Frank Yosten and Meinrad Hesse each seeking reelection and J. P. Flusche and C. M. Walterscheid. These are the names to be printed on the ballots. If additional candidates appear their names will have to be written in at the election.

The election will be held at the Muenster public school on Saturday, April 6, between the hours of 8 a.m. and 7 p.m.

The motto of the Royal Canadian Mounted Police is not "Get Your Man" but "Maintain the Law."

GUINEA PIG FOR ATOMIC BOMB TESTS

Official U. S. Navy Photograph
Battle-veteran of the Pacific the Sims-class destroyer USS Anderson has a proud World War II record based on participation in the Battles of Midway, Coral Sea, and Santa Cruz, and in support of the landings at Tarawa, Guadalcanal, Kwajalein, Ikiwa, Sansapor, Morotai, and Leyte. The vessel also rescued more than 1,000 officers and men from the sinking carriers Lexington, Yorktown, Wasp, and Hornet. The Anderson was damaged heavily twice during the war, by shellfire and Kamikazes.

FORTY BOYS RECEIVE TENDERFOOT BADGES IN SCOUT CEREMONY

Installation ceremonies and an impressive program during which 40 boys of Muenster's Boy Scout Troop No. 164 were presented with Tenderfoot badges and membership cards, were held Thursday evening, March 21, in the parish hall at 8 o'clock. Parents and friends of the boys attended the program for which the lads had been preparing for the past three months under the instructions of Scoutmaster John Hoffman and Assistant Scoutmaster, Rev. John Walbe.

Herbert Meurer, committeeman was master of ceremonies. He announced the program numbers and introduced the guests and members of the local committee.

Assembly call on the bugle by Scout Roger Wolf opened the program after which the assembly sang the National Anthem with Mr. Hoffman at the piano. The Scouts stood at attention and saluted the Flag, prominently displayed on the stage.

A brief welcome address was given by Father John and Mr. Meurer gave a talk outlining the committee's part in scouting and at the same time thanked Mr. Hoffman and Father John for their efforts and time, given without remuneration.

Field Executive Frank Cockrel of Denison was in charge of the installation and investiture of the troop committee, the Scoutmaster and his assistant. Presentation of the charter was made by Dr. A. A. Davenport, district committeeman of Gainesville, and a short address was given by Mr. Sienker, district committeeman of Gainesville.

Investiture of the patrol leaders and scouts, and the presentation of badges and membership cards was made by Mr. Hoffman and Rev. Walbe, following the unison repetition of the scout oath.

Father John spoke on scouting and what it means, and Mr. Hoffman delivered an address in which he urged cooperation of the parents and their interest in scout activity.

The assembly sang "God Bless America", the scout yell was given and Taps was sounded by Roger Wolf. The final number was benediction by Rev. Walbe.

Troop No. 164 is divided into five patrols of eight members with a patrol leader and assistant leader, as follows: (first two names are leader and assistant)

Patrol No. 1—Clyde Fisher, Paul Luke, Neil Fisher, John Fisher, Mitchell Wolf, Melvin Herr, Hugh Endres, Harold Knabe.

Patrol No. 2—Monte Hellman, Donald Endres, Michael Luke, Daniel Luke, Kenneth Wiesman, Gilbert Yosten, Henry Weinzapfel, John Myrick.

Patrol No. 3—Virgil Walter, Allen Hoffman, Michael Driever, Maynard Williams, Joseph Cannon, Roger Wolf, Charles Pagel, James Knabe.

Patrol No. 4—Junior Martin, Dale Martin, Junior Hammer, James Hammer, Sam Cannon, Harold Reeves, Raymond Branch, Gene McNeely.

RAIN GIVES CROPS A BOOST, RETARDS OTHER ACTIVITIES

With rain and sunshine alternating during the past week crops of the community are making encouraging headway and offer hopes of a fair harvest in spite of the green bug scare that made the rounds a few weeks ago. Grain is growing so rapidly that the insects haven't a chance to keep up.

According to the city's rain gauge the community's rainfall since last Friday measures 1.3 inches bringing total precipitation for the month to 2.3. Recorded daily at 8 a.m., the figures are as follows: March 23, .10; March 25, .40; March 27, .80.

In this area the rain has been generally slow, soaking in as it fell and causing little change in creek levels. Reports farther west however, indicate heavier showers resulting in a washout on Highway 82 west of Saint Jo.

Muenster was feeling the effect of that washout Wednesday. Mail which is normally delivered through the night by a truck from Wichita Falls to Gainesville and back was not on hand Wednesday morning. All traffic, including bus service, over the road is temporarily discontinued.

Local activity has also been hampered by the rain. The REA line crew, unable to drive in fields is inactive and three rigs in the southeast Muenster field are shut down until they can be moved to new locations.

Friends Learn Details On Leo Zipper's Fatal Accident in Germany

Relatives and friends here have this week learned the details of the accident that took the life of T-5 Leo Zipper on Jan. 28 in Germany. When his commanding officer, the letter was sent to his parents, Mr. and Mrs. Joe Zipper in San Pedro, Calif., and copies forwarded to this city.

At the time of the accident, the letter explains, Leo was on duty with an officer and five other enlisted men going to Munich to pick up equipment. Leo was driving one of the vehicles, a two and a half ton truck. They were proceeding along very cautiously on slippery roads when the truck got out of control. It spun around throwing him out of the truck and turned over on him. His death was instantaneous and without pain.

The letter continued that mass of requiem, attended by his friends, was seen by the chaplain and that burial was to take place in an American cemetery in either France or Holland.

Seven-Fold Increase In State Building Permits

AUSTIN, TEXAS.—Building permits in Texas were seven-fold greater in January, 1946, than they were in January, 1945, the University of Texas Bureau of Business Research reports.

Statistics from 44 Texas cities show that permits totaling \$26,248,692 were issued this year, compared with \$3,325,653 in January, 1945. The only one of the 44 cities to show a decline was Denison.

The value of building permits issued in January was 31.9 per cent lower than in December, 1945.

Thomas Jefferson's library was bought to start the Congressional library.

New Federal Ban On Building Expected to Cramp Local Plans

The immediate outlook for Muenster's anticipated building boom took a serious set back Tuesday with the government's announcement of drastic restriction in all commercial construction in order to make materials available for almost 3 million new homes.

It is not definitely known here whether any of the new buildings escape the provision of the regulation, which permits completion of construction already begun provided "any of the materials which are to be an integral part of the structure have been incorporated in it on the site" before Tuesday and if work is being carried on at the present.

Local construction plans likely to be affected by the curtailment are those for the hospital, the theatre, three or four garages and perhaps a few smaller buildings not yet divulged. Remodeling at the cheese factory and the refinery, already in progress, apparently does not come under the restriction. Construction of the new parish church was not anticipated for some time and it is possible that the ban will be lifted before the community is ready to start.

The regulation may, however, open a boom in home building. People who have been delaying because of material shortages may decide to get in line and make their new homes a part of the 3 million home program.

Before they can proceed they will have to secure formal authorization from the National Housing Administration, and veterans, for whose benefit the order is especially intended, will receive prior consideration.

Other construction allowed by the regulation includes construction, repair alteration or installation jobs on houses or other residential structures not to exceed \$400 on farm buildings excluding houses not to exceed \$1000, and on commercial structures not to exceed \$1000 a job.

DECLINE IN PRICES OF TEXAS FARM LAND NOT YET IN SIGHT

Appearances do not suggest that a decline in the prices of Texas farm land is in the offing. Accordingly, says B. T. Haws, County Agent for the A and M College Extension Service, families looking for a break before investing wartime savings in land may have to wait beyond 1946 to get it.

Average farm land values in July 1, 1945, he explains were above their 1920 levels in one sixth of the states, and equal to or above 1919 levels in one half of them. The trend in Texas was revealed in sampling of three representative counties by the Texas Agricultural Experiment Station, showing that farm land prices went steadily upward in the third quarter of 1945. But a significant factor was noted in an increase in cash buying. Tenant buying which usually is low at this season, showed an increase over the previous year in two of the sample counties.

A more desirable trend was indicated in this quarter, however, in the fact that more buyers indicated intention to operate the tracts purchased and non-farmer settlers still were on the increase.

Mission Scheduled During Holy Week

A full week of mission exercises to be conducted along with the traditional Holy Week services has been arranged for the Sacred Heart parish this year. Father Herman Laux, pastor, announced this week.

It will be conducted by Rev. Bede Mitchell, O.S.B. of Subiaco Ark. The opening services will be held on Monday, April 15, and the closing ceremonies with papal blessing at 3 p.m. Easter Sunday. The complete schedule will be announced at a later date.

GREMMINGER TO OPEN SHOP

Tony Gremminger is getting his machine shop ready for business. He had asbestos brick siding applied during the weekend and is getting tools and other equipment together preparatory to opening in a week or two. He will specialize in tractor repairs and will devote some time to car repairs. His shop is the original Seyler garage west of the J. W. Fletcher residence.

Red Cross Donations 85 Per Cent of Goal As Drive Nears End

For the first time in many a year Muenster did not succeed in meeting its Red Cross quota. With a total of \$809 on hand as compared with a goal of \$960, Mrs. G. H. Hellman, local solicitor, is willing to concede that the community has little chance of making the grade.

This is the first time in many years, at least since the beginning of the war that the community failed to exceed its quota by a generous amount, however it has the satisfaction of knowing that it has still done better on a percentage basis than most other localities. It is slightly less than 85 per cent.

A few more dollars for the purse are being added by nightly collections at the Relax Theatre.

Contributions not previously listed include:
\$10—Joe Fleitman, Sr.
\$5—Joe Otto, Mrs. Henry Branhart, Mrs. Mike Kleiss, O. J. Robertson, Mrs. Ed Williams.
\$2.50—J. O. Wilson
\$2—Ben Luke, Charles Bernauer, Harry Otto, Tony Trubebach, Sr.
\$1—Rev. Herman Laux, Paul Fisher, LaVerne Starke
50c—Ed Hess

94,000 Acre Decrease In County Cultivation During Past Five Years

Cooke County had a decrease in the number of farms under cultivation in 1945 as compared to 1940 and average farm acreages decreased from 196 to 188.3 acres and approximately 94,000 acres of land went out of cultivation over the five year period.

According to an agricultural census made by the department of commerce and received by B. T. Haws, County Agent, Cooke county farmers in 1940 were tilling a total of 2,530 farms covering 495,874 acres, while the recently completed 1945 census reveals 2,130 farms totaling 401,127 acres, a decrease in cultivated land of 94,747 acres.

Food production increased considerably during the five year period. The value of vegetables grown for farm use increased from \$61,105 to \$173,845. The eggs produced in 1940 were 1,134,421 dozens compared with 1,520,358 dozens in 1945. The chickens raised in 1940 were 256,992 compared with 444,913 in 1945.

The cost of feed during the five year period skyrocketed out of proportion to the number of farmers reporting their expenses on livestock and poultry feed. In 1940 1,402 farmers reported an expenditure of \$148,953 on livestock and poultry feed, but in 1945, 1,949 farmers reported they spent \$696,761 on the same commodity.

City Election Ticket Has 2 Positions, 1 Candidate

When Muenster citizens go to the polls next Tuesday, April 2, to elect two city aldermen they will have to write in their choice for at least one candidate. With the dead line for announcements already past, the city's ticket still lists only one candidate.

R. L. McNeely whose term as Alderman Number 1 expires this year has announced for reelection. I. A. Schoech declines to accept another term in the Number 2 alderman position.

LOCAL NEWS BRIEFS

Short Items of Interest About Folks You Know

Mr. and Mrs. J. M. Weinzapfel spent Monday in Oklahoma City.

Miss Catherine Seyler of Dallas spend Sunday here with relatives.

Mr. and Mrs. John Chandler and family of Dallas were weekend guests of relatives here.

John Wieler and Ervin Hamric made a business trip to Dallas Monday.

Ed Swirczynski and Miss Hazel Holloway of Fort Worth visited here Sunday with Ed's parents, Mr. and Mrs. Joe Swirczynski.

Miss Anselma Págel of Chickasha, Okla., was here to spend Sunday with her parents, Mr. and Mrs. Jake Págel.

Mrs. Ted Gremminger and Mrs. Tony Gremminger and daughter, Marion were visitors in Wichita Falls Saturday.

Mr. and Mrs. Stan Yosten of Fort Worth were here Sunday to visit their parents and other relatives.

Ens. Rita Voth of Norman, Okla., was home for a weekend visit with her parents, Mr. and Mrs. Barney Voth and family.

Mr. and Mrs. Andy O'Connor spent Monday in Dallas with their daughter, Mrs. Noel Jacobs and husband.

Richard, 8-year-old son of Mr. and Mrs. Ed Hess, is recovering from an illness of pneumonia at the family home.

Mr. I. A. Schoech and Mrs. John Walter who were confined to their homes last week on account of illness are up and out again.

Robert Voth, little son of Mr. and Mrs. Joe Voth, has recovered from a minor eye operation performed at the local clinic Monday.

Paul Himmels of Windthorst visited the Steinberger and Gremminger families and other friends here Tuesday.

John Beard, who has been suffering from an infected leg, is making a satisfactory recovery. It was reported this week. He expects to be up and out shortly.

Joe Horn was moved from Gainesville Sanitarium to his home here Monday and is making a satisfactory recovery from an

operation performed March 18.

Jack Hoehn is back in Muenster as a civilian having received his discharge from the army air forces. He had served since May, 1943.

Henry Trachta left Monday evening for Springfield, Mo., to spend a week with his sister, Mrs. Thomas Donohue and other relatives.

Misses Helen Walterscheid Bernice Luttmir and Margie Endres and Alvin Fuhrmann, Reuben Sturm and Paul Sicking visited in Fort Worth last Sunday.

Mr. and Mrs. Al Walterscheid and family were Sunday dinner guests of her brother, Joe Loerwald and family east of Gainesville.

Ben Seyler, B. H. Shumacher and Elmer Fette spent Tuesday and Wednesday at Camp Claiborne, La., attending a surplus army goods sale.

Mr. and Mrs. Joe Bergman had as their guests Thursday, Mrs. Louisa Bundschuh of Southmayd and Mrs. Charles Fisher and daughter.

Mr. and Mrs. Ferd Yosten and daughter, Judy, of Fort Worth spent Saturday night and Sunday here as guests of their parents, Messrs and Mmes. I. A. Schoech and Frank Yosten.

Dr. and Mrs. E. W. Laake and her mother, Mrs. J. Finnegan, all of Dallas, were Sunday afternoon guests of his sister, Miss Angela Laake, and niece, Olivia Stick and Rosa Driever.

Mrs. Al Walterscheid and daughters, Virginia and Dorothy, and Mrs. Clarence Wilson, accompanied by Mrs. Joe Loerwald of Gainesville spent Saturday in Dallas.

Mrs. J. E. Lane, visiting her daughter in Pilot Point was stricken ill Wednesday and her daughter, Mrs. R. L. McNeley and her son, Harry Lane, left immediately to be at her bedside.

Mr. and Mrs. Anthony Klement have bought a 7-room house at Lindsay and will move it here to be their home. They this week bought city lots from Mrs. Joe Felderhoff.

Among local residents purchasing army trucks and jeeps at a surplus property sale at Camp Howze are Steve Fette Gene Lehnertz, Gilbert Endres, Pat Hennigan, Jimmy Lehnertz and V. L. Fuhrmann.

Mr. and Mrs. Charles Fisher and children drove to Valley View Sunday morning and joined her brother, Alphonse Schmitz and mother, Mrs. Mary Schmitz, on a trip to Roanoke to visit Mr. and Mrs. Charles Roeder.

Mr. and Mrs. Orlen Edelen and family moved Tuesday to make their home in Ardmore, Okla.

PROTECTS CATCH

This able fisherman won't have to concoct any alibis or "fish stories." He wisely places his two-pound black bass in a "stay alive" cotton duck bag instead of hooking the fish on a conventional type stringer. The bag keeps fish alive, protects them against snakes and turtles, and does not hang on brush and water weeds.

where he will be employed by Merrick Oil Company. His place with Phillips Petroleum company is being filled by Roy Nunley who moved here from Kansas.

Mr. and Mrs. L. Burchfiel enjoyed a conversation with Sgt. Andy Steizer stationed in Kassel, Germany, one evening last week. The call came over radio telephone and was exceptionally clear and distinct. Mrs. Burchfiel said. Andy inquired about his friends and stated that with good luck he'd be coming back to the states in August.

When a man pays special attention to a woman it's an indication he wants to marry her. When he pays no attention to her, it's a sign he has married her.

Political Announcements

The following persons have authorized The Enterprise to announce their candidacies for political offices, subject to the Democratic primary election, July, 1946.

County Attorney:—

L. V. HENRY, JR.

JOHN ATCHISON

For Commissioner Prec. 4:

J. E. (Earl) ROBISON

(Reelection)

LEONARD J. LUTTMER

Commissioner Precinct 3:—

J. R. (Robert) LITTLE

(Reelection)

Sheriff:—

EMORY HORN

J. S. (Jim) BUSH

County Tax Assessor-Collector:—

TOM A HAYES

(Reelection)

County Treasurer:—

MRS. EVA G. TOWNSLEY

(Reelection)

County Clerk:—

TOM BLOUNT

(Reelection)

County Judge:—

CARROLL F. SULLIVANT

The Baha'i Faith, dedicated to the international brotherhood of man and universal peace, is followed in 78 countries by adherents whose sole purpose is to further the principles of the Faith.

LYNTON I. COURSEY MARRIED SUNDAY TO GAINESVILLE GIRL

Miss Lillie Mae Jigout of Gainesville and Lynton I. Coursey of Muenster married in rites performed Sunday March 10, at Commerce Street Church of Christ in Gainesville with Elder Willis Kreager officiating.

The bride, daughter of Mrs. Myrtle Jigout, wore a navy blue ensemble with blue accessories and a corsage of red rose buds. Her only jewelry was a four-strand pearl necklace, a gift from the bridegroom.

She was attended by her sister Mrs. Pearl Richardson, who wore a melon colored spring suit with black accessories and a corsage of white carnations.

The bridegroom was attended by his cousin, Coursey Cummings. After the ceremony, dinner was served to relatives and friends and the three tiered wedding cake topped with a miniature bride and groom, was cut and served by the bride's mother.

Mr. and Mrs. Coursey are making their home on a farm 5 miles south of Muenster. He is the son of Mr. and Mrs. John Coursey of this city.

Make It and Loose!

Why no butter? According to American Dairy Assn., the trouble is that the OPA ceiling on butter is 46 cents a pound, although the butter makers must pay 60 to 72 cents for the cream they need to produce it" — so—

SODALITY GIRLS ENJOY SPELLING BEE AT MEETING

Members of the Young Ladies Sodality enjoyed an old fashioned spelling bee following their regular business meeting on March 18. Miss Marie Felderhoff conducted the contest and the prize was won by Miss Theresa Walter. During the business session, committee chairmen reported and routine business was discussed.

Father John, spiritual director, addressed the assemblage, and members guessed the writer of the snooper sheet as Miss Rose Marie Endres. The door prize was drawn by Miss Clara Mages. Night prayers led by Father John closed the evening.

P-TA PLANS CLOSING OF SCHOOL TERM ACTIVITY

Meeting in a regular business session Friday evening members of Sacred Heart P-TA made plans for the closing of school activity which includes the junior-senior banquet, the senior-junior prom and an all day festival for grade and high school students.

Football Coach Rev. John Walbe reported that part of the football equipment has arrived and that all of it will be on hand to begin the next season.

Mrs. Rudy Hellman, president presided. The meeting opened with prayer and closed with the group singing of "Beautiful Texas".

Why is it that a fellow will leave the farm to move to the city to work hard in order to move to the country?

THE STATE OF TEXAS

TO: E. T. Hubble, GREETING: You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 6th day of May, A.D., 1946, at or before 10 o'clock A.M., before the Honorable District Court of Cooke County, at the Court House in Gainesville, Texas.

Said plaintiff's petition was filed on the 19 day of March, 1946.

The file number of said suit being No. 14631.

The names of the parties in said suit are: Lela Hubble as Plaintiff, and E.T. Hubble as Defendant.

The nature of said suit being substantially as follows, to wit:

A suit for divorce from the bonds of matrimony for the reason of harsh and cruel treatment on the part of defendant toward plaintiff and for change of the name from Lela Hubble to Lela Atkinson, and for costs of suit and for general and special relief.

Issued this the 19th day of March, 1946.

Given under my hand and seal of said Court, at office in Gainesville, Texas, this the 19th day of March A. D., 1946.

LET'S STOP FEEDING INFLATION

You know what happens...

When you continue to spend more than you make and...

Keep on borrowing to make up the difference!

You know too, that a big chunk of every dollar you earn and every dollar you spend goes to pay the cost of government.

That's why it's important for you to take a good look at the way the government spends your dollars.

Government should begin now to live within its means

During the war government necessarily spent huge sums of money. Yet, with the war over, the government plans to spend four times as much in the coming year as it spent in the highest pre-war year.

Most thoughtful people believe that government expenditures are now far greater than they need be.

They believe that government, like a family, should live within its means... that it should not spend more than it takes in... that it should not keep on going deeper into debt.

Yet that is exactly what's happening today. Our government is spending billions more than it takes in. And it continues to borrow to make up the difference.

This is the kind of money-handling that causes inflation.

Economy in government means money in your pocket

If the American people — through Congress — will reduce government spending and take steps to encourage production, inflation will be stopped... and this is the only way it can be stopped.

Write your representatives in Congress today.

Urge them to cut the cost of government, eliminating all waste... all unnecessary services... and postponing all expenditures that can be put off until our war bills have been paid.

Urge them to make the government start living within its means... at a level that you and your neighbors can afford to pay.

You'll see the results soon in the cost of everything that you buy... food, clothing and everything else. And you'll be doing your country a real service.

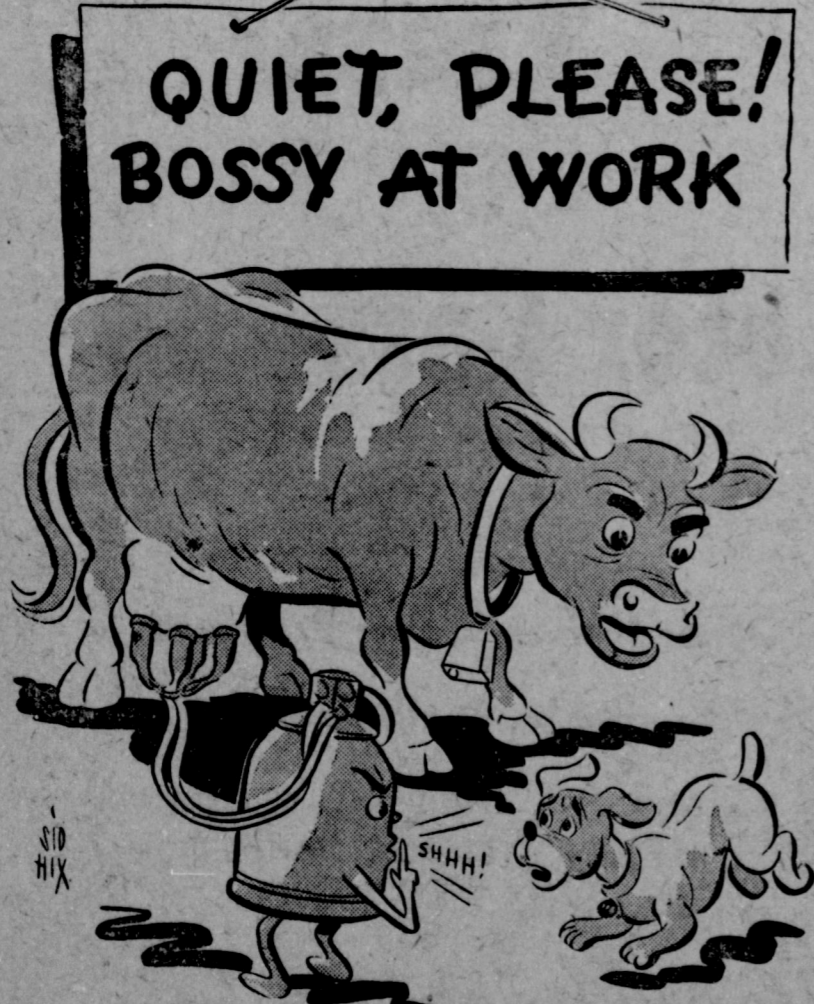

YOUR DOLLARS... a postcard to the National Association of Manufacturers; 14 West 49th Street, New York 20, N. Y., will bring your copy of this informative booklet on government spending—a subject which is all-important to you.

EAST SIDE OF COURT HOUSE - PH. 224 - GAINESVILLE, TEX.

FIRST RULE of successful milking is that the cow should like the milker—both man and machine. Second rule, and just as important: There should be no distractions in the barn at milking time. Distractions interfere with the natural "letting down" of the cow's milk.

Make milking time a quiet time for your herd. And if you have a McCormick-Deering Milker, check it regularly to see that it is operating properly. If you need a new milker, ask us about the availability of new machines. Ask us, too, about International Milk Coolers.

MRS. HUCHTONS PLANS NEW BUILDING FOR HELPY SELFY LAUNDRY

The Münster Helpy-Selfy Laundry purchased three weeks ago by Mrs. Katherine Huchtons is destined to have a new home in the near future. Constructed of concrete tile, it will be located on the same block on which U.J. Endres is now building a home and Kaiser-Meurer Motor company intends to begin soon on a new garage. It will face west.

At the same time Mrs. Huchtons is expanding her plant. The building, measuring 28x30 will provide ample space for 8 washing machines, six of which will be installed as soon as construction is finished. The present location has three washers.

Tile is being hauled to the site this week and construction is expected to get under way late this week or early next week.

or early next week.

His present schedule calls for deliveries in a number of cafes and grocery stores in Gainesville before coming to Münster and Saint Jo. If circumstances permit he may also call at Lindsay and Myra.

Unable to secure plain bread he will begin with rye, French, whole wheat, and raisin breads, plus an assortment of pastries, including cake, rolls, pies doughnuts and cookies. He will handle special orders for weddings, birthday anniversaries and other occasions.

WALNUT ST. OPENED

Walnut street in the city has been opened for a thoroughfare from Division street to Third. Heretofore it stopped at Third, east of the ball park. The work was done under supervision of Commissioner Earl Robison.

Mr. and Mrs. Tim Stormer stopped here Saturday enroute to Amarillo where they will make their home. Mrs. Stormer is the former Miss Agnes Fette, and they were guests of her parents, Mr. and Mrs. C. J. Fette. Both Mr. and Mrs. Stormer were recently discharged from the service. He was a member of the air corps, and she a member of the WAVES.

Strange that money is called "dough". Dough sticks to your fingers.

"WIMPY" KATHMAN RESUMES OLD JOB AS BAKERY DISTRIBUTOR

Announcement was made this week by F. A. "Wimpy" Kathman that he will soon be back on his old route as distributor for Purity Bakery products. Currently he is being delayed while the delivery truck which he intends to use is under repairs but he expects to begin work late this week.

 THE STATE OF TEXAS
 TO: Claude Boone, GREETINGS:
 You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 15th day of April, A.D. 1946, at or before 10 o'clock A.M., before the Honorable District Court of Cooke County at the Court House in Gainesville, Texas.

Said plaintiff's petition was filed on the 19 day of January, 1946.

The file number of said suit being No. 14581.

The names of the parties in said suit are: Robert H. Boone as Plaintiff, and Claude Boone et al as Defendants.

The nature of said suit being substantially as follows, to wit: Plaintiff sues defendants for the partition of property, being all of lots 11 to 16 in Block No. 20 of the Montgomery Addition to the City of Gainesville, Texas and being the same property conveyed to B.H. Boone et al by deed from J. M. Biffle and wife shown of record in Vol. 137, page 332, Deed Records of Cooke County, Texas.

Plaintiff prays that said property be sold by a Receiver to be appointed by the Court and the proceeds of such sale be divided between the owners of said property, according to their respective interests therein, save and except each defendant's pro rata share of \$107.09, city and county taxes paid by plaintiff which he is entitled to recover, the plaintiff alleging that the said property is not susceptible of partition in kind.

Issued this 28th day of February, 1946.

Given under my hand and seal of said Court, at office in Gainesville, Texas, this the 28th day of

February A. D. 1946.
 SEAL Martin G. Davis, Clerk
 District Court Cooke Co., Texas.

THESE STILL ARE TREASURES IN DAVY JONES' LOCKER!

some pay increases; if inflation continues they will probably get still other increases.

The House this week by a vote of 239 to 80 passed H.R. 4873 to create an agricultural credit agency. All Texans voting were among the eighty opposing the bill. We recognize that there is need for reorganization of the many farm lending agencies. However, the bill did not abolish any job or agency but simply created a new, independent bureau to be known as the "Farm Credit Agency", to be headed by a superintendent board of seven full time members who would hold office for fourteen years at a salary of \$12,000 per year per individual. It was argued that such a board would not be responsible to any department and would be out of politics. In such event there would be no limitation upon the activities of such board and many of us feared the results.

The House also passed this week H.R. 2501, directing the Department of Agriculture and other agencies in disposing of Farm Security Administration and rehabilitation project lands to give preference to Veterans. I secured the adoption to an amendment to this bill providing that "any conveyance by the Government of title to land under this act shall convey all of the right, title, and interest of the Government in and to such land, including all mineral rights." Heretofore the FSA has withheld three-fourths of the minerals under small farms sold to farmers, while the Federal Housing Agency in most cases has retained all of the minerals. If any amendment is approved by the Senate, this policy of holding out minerals under small farms will be reversed.

The House Banking and Currency Committee continues to

struggle with a bill for the extension of OPA. A White House statement in February declared it to be the policy of the government to retain price control during the present emergency "over scarce materials and facilities". A report from the Director of War Mobilization and Reconversion, in referring to price controls, stated: "They will be lifted as quickly as supply approaches balance with demand". In a New York speech in December, Mr. Bowles stated that price controls would be removed just as rapidly as supply conditions would permit. In a letter received by me yesterday from the new OPA Administrator, Jaul A. Porter, appeared this sentence: "Some-time ago Mr. Bowles announced a policy of removing all price controls as soon as needs for them disappeared." Yesterday, I appeared before the Banking and Currency Committee and urged them to write the proposed bill extending OPA a provision that no price control should be imposed upon any commodity of which there is a normal and adequate supply. Since the President and OPA admit this to be a sound policy it seems to me that it ought to be written into the law. After all, the people speaking through their elected representatives have a right to determine governmental policy. Such policy and determination should not be left up to appointive bureau heads.

Washington Notes

By Congressman Ed Gossett

Washington, D. C., March 23 — Apparently our hope that after the war we would substantially reduce the size and cost of the Federal Government is being slow of realization. When the number of Federal employees passed the million mark shortly before the war, we thought that to be a staggering number. Since V-J day the number of civilian employees on the Federal payroll of the old line departments and agencies has actually increased 149,000. Such reduction as has actually taken place has occurred largely in the War and Navy Departments that have dismissed 745,000 employees within six months since cessation of hostilities. In December 1945 we had 3,155,192 civilian employees on the Federal payroll; in January we still had 2,946,947 employees on the Federal payroll. Of course we still have hope for substantial reduction when the "duration" has ended and "reconversion" is completed. However, most war service employees are simply being shifted from one agency to another. Unless the public loudly and insistently demands substantial reductions, such reductions will not likely be made.

If the current demand of Federal employees for a 20 per cent increase in pay is granted, it will add \$1,600,000,000 to the current \$8 Billion Dollar Federal payroll. Federal employees will soon get

UNDULANT FEVER CAN BE TRANSMITTED FROM ANIMALS TO HUMANS

Austin — Undulant (Malta) fever is a disease which is transmitted to human beings by infected animals. Individuals may acquire the disease (1) as the result of direct contact with infected animals or (2) following the use of raw dairy products obtained from infected dairy cows. If the disease is due to contact with infected animals or their waste products, the germ gains entrance to the human body through the skin, stated Dr. Geo W. Cox, State Health Officer.

Persons who live on farms are more subject to undulant fever than those who live in cities. On farms, the disease is more apt to affect men due to the fact that men come in contact with hogs and cows to a much greater extent than do farm women. Farmers have direct contact with animals during loading and unloading for market. The handling of infected cows or sows and the young at the time of birth represent hazardous types of contact. The danger of undulant fever

may be reduced greatly by avoiding as much as possible all forms of direct contact with animals which may be infected. The wearing of heavy gloves if contact is unavoidable should aid in protecting the skin against exposure. Urban residents have little or no occasion to come in direct contact with infected animals. Undulant fever acquired in city or town is due, as a rule, to the use of milk, cream, and butter which lack certain safeguards. Prevention of undulant fever, whether due to contact with infected animals or to ingestion of contaminated dairy products, is dependent to a further extent, upon the eradication of contagious abortion from farm animals and careful pasteurization of dairy products.

Higher Farm Accident Toll Expected From Defective Equipment

With the high crop requirements and shortage of new machinery, a higher farm accident toll is apt to result this year unless proper precautions are taken, says R. B. Hickerson, assistant state farm labor supervisor for the A. and M. College Extension Service.
 The fundamental step in the safe operation of machinery is to put it in good condition before field work starts, says Mr. Hickerson. Defective hitches, seats, clutches, wheels, brakes, steering mechanism, and unguarded revolving parts are things to check for. The National Safety Council at Chicago reports that many fatal accidents have been caused by failures of makeshift seats and unguarded power take-off shafts.
 Clean all dirt, trash and grease from platforms, pedals, foot rests or steps to assure safe footing, Mr. Hickerson says.
 Poorly conditioned farm machinery is irritating and fatiguing to the operator. It reduces his alertness and encourages carelessness. Timely servicing will reduce accidents as well as costly field breakdowns.

SUGAR SHORTAGE MAY CONTINUE INTO 1947

WASHINGTON—The Agriculture Department said Monday that the sugar shortage may continue into 1947.
 It reported that the per capita civilian supply during the April-June quarter will be slightly smaller than in the corresponding quarter last year.
 The department allocated civilians 1,385,000 tons for the coming quarter. While this is 260,000 tons more than was distributed under rationing during the quarter last year, the department explained that on a per capita basis, the supply will be smaller because the civilian population has been increased more than 8,000,000, largely to demobilization.

Although it is a difficult feat it is possible to walk across the Bering Strait, on ice from Alaska to Siberia. The feat was accomplished by Capt. Max Gottschalk in 1913.

In Days of Old

Your grandfather walked when he went courting and probably carried his boots in his hands part of the way to save wear on the leather.

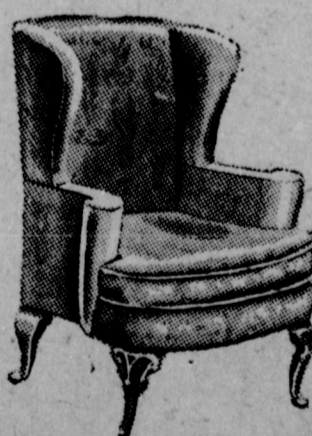

Those were economical days. Times have changed. Your grandfather had but little money and what little he had he carried with him or hid it in an old tin can in the cellar. We have passed the coonskin stage long ago. The modern way is to keep your funds in a bank and pay by check. Our bank is modern. The only exception is that we are old-fashionedly courteous and neighborly. In every other way we are up to the minute.

Those were economical days. Times have changed. Your grandfather had but little money and what little he had he carried with him or hid it in an old tin can in the cellar. We have passed the coonskin stage long ago. The modern way is to keep your funds in a bank and pay by check. Our bank is modern. The only exception is that we are old-fashionedly courteous and neighborly. In every other way we are up to the minute.

DDT's Effect Varies with User's "Know-How"

"Don't try to use DDT as an all-purpose insecticide. For use against each insect DDT requires a different application." That was the advice given to the nation's housewives last week by Dr. Heber C. Donohoe, research director and entomologist of the Peterman laboratories. "It's a good thing to remember that DDT has little or no effect at all on certain insect species," he added.

Powders should be dusted into crevices and placed in unbroken lines in front of hiding places and in areas frequented by roaches, as shown in the photo above, according to the Peterman expert.

DDT has enjoyed wide notoriety following its development by the Army and many persons have felt that merely using the product would bring a speedy end to all their insect problems, the scientist stated. It doesn't work that easily. DDT requires careful handling if the best, or even satisfactory results are to be obtained.

80 Per Cent Flour Has Same Vitamin Content Higher Protein Value

Enriched 80 per cent flour, to be on grocery shelves soon, has the same vitamin content as enriched white flour, but is higher in protein value — energy — according to Miss Edith Lawrence, food preparation specialist of the Texas A. and M. College Extension Service.

The story of American flour, Miss Lawrence says, goes something like this: For many years modern white flour has been losing important values in milling. In order to have it white and fine and of good keeping quality, the outer coat of the grain was removed. With it went around seven-eighths of the thiamine and niacin, three-fourths of the riboflavin, and four-fifths of the iron, as well as some calcium, phosphorus and better quality protein.

Some of these values were returned when bread was enriched with the three lost B-vitamins, thiamine, riboflavin and niacin, also iron.

Only about 65 per cent of the flour and flour products on the market, however, have been enriched. Flours rank in this order in nutritional value: whole wheat enriched 80 per cent flour, enriched white flour, unenriched 80 per cent flour, and unenriched white flour.

The new 80 per cent flour is much finer and lighter in color than whole wheat flour. Unenriched it has only about 40 per cent as much thiamine as whole wheat flour, only half as much riboflavin and iron, and a fourth as much niacin.

On the foods preparation end, tests conducted by the USDA Bureau of Home Economics under commercial baking conditions revealed that the difference in bread made with the old and new flours was not as great as had been expected. The loaves made from the 80 per cent flour did not rise quite as much as those from white flour, and the bread had a slightly off-white or creamy cast. The Bureau of Human Nutrition and Home Economics has had reasonably good success in making biscuits and pastry with the 80 per cent flour.

Citation by Publication

THE STATE OF TEXAS
TO: Alta F. Petre, GREETINGS:
You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 22nd of April, A. D., 1946, at or before 10 o'clock A. M., before the Honorable District Court of Cooke county, at the Court House in Gainesville, Texas.

Said plaintiff's petition was filed on the 6th day of March, 1946. The file number of said suit being No. 14625.

The names of the parties in said suit are: Charlie L. Petre as Plaintiff, and Alta F. Petre, as Defendant.

The nature of said suit being substantially as follows, to wit: Suit for divorce from the bonds of matrimony, plaintiff alleging cruel, harsh and abusive treatment on the part of the defendant as grounds therefor.

Issued this the 6th day of March, 1946.

Given under my hand and seal of said Court, at office in Gainesville, Texas this the 6th day of March A.D., 1946.

SEAL Martin G. Davis, Clerk District Court, Cooke, Co. Texas (16-7-8-9)

MATTRESSES MADE OF GLASS ARE COMING

An enterprising manufacturer is coming up soon with almost a believe it or not product—a mattress made of glass. The glass mattresses the Los Angeles maker says, "will hold their own with any others for softness, probably wear forever."

Inside is fiber glass, outside is woven glass cloth. They are said to be non-allergic, non-combustible, non-bacterial, supporting, with particular appeal to hospitals and hotels.

How did Jones get ahead so fast? Well, everytime someone threw a brickbat at him, he made a stepping-stone of it.

SHREWD SELLING

In front of a grocery store, a well known judge of art noticed a dirty little kitten lapping milk from a saucer that he realized was a rare piece of pottery. He dashed into the store and bought the kitten for five dollars, telling the proprietor, "For that sum I'm sure you won't mind throwing in the saucer. The kitten looks so happy eating from it." "Nothing doing", said the proprietor. "That's my lucky saucer. From that saucer so far this week I've sold 32 cats."

Lindsay News

Aiphonse Fleitman lost a cow which was struck by lightning Tuesday evening.

Mrs. Adam Beyer and children, Gertrude, Dorothy and Frank spent Tuesday in Sherman.

Mrs. Henry Stelzer and Mrs. H. G. Fuhrmann of Muenster spent Friday visiting Mrs. Anna Wiese.

Robert Beyer of Dallas spent the weekend with his mother, Mr. Adam Beyer and family.

Miss Frieda Zwinggi of Dallas was home for a weekend visit with her parents, Mr. and Mrs. Leo Zwinggi.

Mr. and Mrs. Eugene Schmitz have moved to Wapanake, Okla., where they bought a home and are in the cafe business.

Miss Elfreda Hermes, daughter of Mr. and Mrs. Clem Hermes of Lindsay, is now employed in the Gainesville city water and tax office as clerk in the city light department.

"Frozen Coffee"

Frozen coffee cubes may make coffee brewing as simple as boiling water, their enterprising manufacturer predicts.

Dropped into a pint of boiling water, one cube of the frozen, concentrated extract will make steaming, sedimentless coffee in an instant.

Water in the Danube River is not blue, but muddy.

KATHMAN RESUMES CAFE MANAGEMENT

H. H. Kathman returned to the cafe business Friday when he bought back the cafe he sold to Bill Eberhart last November. Mr. and Mrs. Eberhart, former proprietors, left Friday to make their home in Illinois.

In resuming the business Kathman said he "felt at home", having spent the better part of 30 years in that line of work. He will feature short orders, cold drinks, candy and cigarettes

Confetti---

free recreational facilities, and reduced prices at theatres, exchanges, and commissaries. In all values combined he gets no less than 100 a month. The army estimates it higher. If married he receives additional allowances for wife and children. Besides, he pays no income tax. Men who think it over will agree that the average private has more actual security than the average civilian.

But a soldier with spunk will soon be more than a private, unless all the breaks are against him. Add his longevity and higher base pay and he begins doing quite well.

And when it comes to commissioned officers or the first three non com grades the set up
