Farmers Strive to Beat Army Worms To Remaining Crop

Forty eight boys and girls of this community are reaching an important goal in their careers this week. As high school graduates they have completed the job which seemed so enormous only four short years ago.

In a very real sense it is the end of one kind of life and the beginning of another. Up to now most of these young men and women have depended on their parents and teachers. From now on they will be less dependent. Some will be completely on their own, holding down adult jobs and paying most or all toward their own support. Some will go to college, being still financially dependent but on their own as regards scholastic and social life. Everything considered, this is one of the biggest single steps toward maturity that these youngsters will take.

As they come away from graduation ceremonies most are aware that their scholastic efforts are far from ended. They know that in this highly technical world they will have to study much more to qualify for their chosen trades and professions.

Even those who have no definite plans for the future can improve their outlook by continued study. Education adds something to a person's inherent ability. No matter what work is taken up later the person will be able to do it better if he has given his mind additional training.

Now as always it is possible to name people who did very well in spite of missing an education. But in almost every case the person concerned will admit he could have done better if he had gone to school more.

Nor does success here apply only to enriching one's purse. Education broadens a person's ability to enjoy living just as definitely as the ability to make a living.

Another and greater phase of personal success was mentioned by Father Patrick Hannon in his baccalaureate sermon last Sunday night. He advises keeping one's sights on eternal success even more than temporal success. It counts most in the long run. Knowing that and living accordingly constitutes the most practical education of all.

We've had another fireside chat in defense of the administration's big budget. President Eisenhower is still striving to convince us that all those billions are needed to assure domestic and foreign security.

The one tiresome fact in all this budget bickering is the assumption that security and services cost as much as the budget specifies. We are told that a slash is foolhardy even though we know that billions in duplication and extravagance were revealed by the Hoover Commission.

Budget defenders say military strength must not be sacrificed but ignore useless expenditures that have no bearing on military strength. They urge foreign aid but make no effort to stop some of the absurd squandering which achieves little if anything in the way of aid.

If the president only knew it, the country does not disagree with him in principle. Like him, (Continued on Page 8)

MHS School Paper Gets Merit Award

The Hornet's Voice, student publication of Muenster High School has received the Distinguished Merit Award at the 1957 Interscholastic League Press Conference in Austin.

The award is given on a basis of excellence rather than in competition and represents first class rating in the school's division, which is determined by its enrollment. Only one other school paper of the state received a distinguished merit award in that division.

In a higher division the Leopard Tale of Gainesville High School also won the distinguished merit award. It has been awarded second class rating in the nation wide Columbia High School Press Association.

Both the Hornet's Voice and the Leopard Tale are printed in the Enterprise plant.

Farmers of this community are racing with the weather and the army worm in a desperate effort to salvage a fair portion of the crop that has survived the past several weeks of excessive moisture.

Fair weather has prevailed since the 2.04 rain last Friday night and most farmers are working overtime to get their remaining oats before the worms get it. The crop generally is being harvested as hay, rather than risk the loss of all of it while waiting to combine it for the grain.

Reports are that the infestation of worms is about the worst this community has known, and crops that are not harvested soon may not be harvested at all. The pests are stripping the plants wherever they go. They take the tender blades as they proceed up the stem and finally the tender little stems which support the individual kernels of grain, allowing the grain to fall to the ground.

What farmers eventually salvage out of the predicament depends mostly on the weather. Continued dryness will give them a chance to get a fair percentage into the barn. More rain, however, would give the worms a disastrous advantage.

The anxiety applies especially to the early oats crop which, until the plague of worms, appeared to be a record breaker. Late oats and wheat had already been written off mostly as poor crops or complete failures. Also figured as lost were any other crops in spots that have had water standing constantly for weeks.

Another big casualty in the army worm attack is the alfalfa crop. The lush cutting which is normally taken a few weeks after a rain is going to the army worms this time.

The moisture measure for May now stands at 5.38 and the total for the year to date is 25.62 inches... more than three times the total measure at this time last year. The measure at the end of May 1956 was 8.41 inches.

Lions Club Elects Moster President

Steve Moster is the new president of the Muenster Lions Club. He and other officers for the coming year were named at the election held during the regular meeting Tuesday at noon.

Other officers elected are Arthur Endres, secretary; H. H. Homsley, 1st vice-president; Dr. T. S. Myrick, 2nd vice-president; Earl Fisher, 3rd vice president; M. D. Kaderli, taif twister; and R. E. Hamric, B. J. Swirczynski, Rudy Hellman and Jimmy Lehnertz, directors.

Installation ceremonies will be held at a special ladies night program Tuesday night, June 4, on the concrete platform at the city park. The dinner will be served picnic style. Details regarding the program are not complete.

35 Studens Have Perfect Attendance Record for Year

Thirty-five Muenster scholastics achieved perfect attendance records for the year just ended, reports from Sacred Heart parochial and Muenster Public School reveal.

Principal L. B. Bruns named nine MHS students on the list and the elementary grades account for two making a total of 11.

At Sacred Heart, four high school and 20 elementary students have perfect attendance records, according to their respective principals, Sister Celine and Sister Carmelita.

At the top of the list with the longest perfect attendance is Clyde Walterscheid, an eighth grader at Sacred Heart, who has a flawless record for the entire eight years he has been in school. He is the son of Mr. and Mrs. Paul Walterscheid.

Others at the parochial grade school on this year's "never missed" rolls are Clarence Bayer and Julia Yosten, seventh grade; Virgil Hess, Thomas Mosman, Mildred Starke, Jane Trubenbach and Ruth Wimmer, sixth grade; David Bayer, Thomas Fuhrman, Quintan Hess and (Continued on Page 2)

Auxiliary Will Sell Buddy Poppies at Churches Sunday

Sunday will be the annual Buddy Poppy drive's big day in Muenster and members of the VFW Auxiliary, sponsors of the campaign, are anticipating a big boost to the poppy fund.

Mrs. F. A. Kathman, chairman of poppy sales, and her committee will be stationed at the doors of both Muenster churches following all services Sunday to accept contributions.

The Auxiliary reminds citizens that all money received from poppy sales — except the actual cost of the small red flowers — stays in the local treasury to help needy families of the community. This has become a tradition through the years. All funds are used here at home except purchase price of the poppies which goes to disabled war veterans.

NEWS OF SICK AND INJURED

Norbert Rohmer is reported improving at Gainesville Sanitarium where he is being treated for severe burns on his face, both hands and arms and his left shoulder. He suffered the burns Saturday morning when a gasoline engine exploded. He had started the engine to pump water from his cellar. Then he went to breakfast. Returning to the cellar, he found the motor had stopped and it was when he attempted to start it again that the mishap occurred. Members of his family, the Leo Rohmers, are in constant attendance at his bedside.

Mrs. Frank Trachta is still a patient for treatment at Gainesville Sanitarium but if progress toward recovery continues she will be permitted to leave the hospital this weekend. She'll be at the home of her daughter, Mrs. Orris Russell, 1303 Hillcrest, in Gainesville for about two more weeks of bed rest before returning to her home there.

Mrs. Clem Reiter entered Gainesville Sanitarium Sunday for medical care.

Wayne, three-year-old son of Mr. and Mrs. Richard Grewing, is recovering from an unfortunate experience during play Friday. He fell from an upright gasoline tank and hit his head on a sharp piece of iron. He was treated at the Muenster Clinic where three clamps were inserted in the back of his head to close the gash.

Ernest Wolf was dismissed from Gainesville Sanitarium Tuesday night and is up and around at home but will not be returning to his work for some time. He is recovering from injuries received in a fall from Red River bridge May 10. He works for the Texas Highway department.

Joe Swirczynski and Mrs. Bob Yosten learned Monday of the serious illness of their brother John Swirczynski who suffered a stroke Sunday morning and is a patient at St. Anthony's Hospital in Oklahoma City. He is 77 and just recently had some difficulty in having his teeth extracted.

Steen Collier of Wichita Falls, generally well known here for his weekly attendance at the Livestock Auction sale is recovering from serious illness that afflicted him while he was attending a Gainesville auction sale. Collier, 35, collapsed from an internal hemorrhage and was rushed to Gainesville Sanitarium. Last Wednesday, after six days there he was moved to Bethania Hospital in Wichita Falls. While he was hospitalized at Gainesville members of the Cain family joined Mrs. Collier in attendance at his bedside.

June 3-7 Scheduled For Bible School

Dates for the annual Vacation Bible School at the First Baptist Church of Muenster have been set for June 3 through 7. Rev. Billy Whitt, pastor, announced this week.

The program, to include Bible study, craft work and fellowship, will be given in detail when plans are complete.

Jerry Vernon was in Waco Wednesday and Thursday attending a meeting of coaches of the Southwest Academic League.

City Wide Clean-up Will Be Followed By Insect Control

A city wide clean-up followed by an insect control will begin here this weekend. Members of the city council at this week's session set Saturday as the day to get trash out of town and early next week as the time to start street mowing and spraying.

City Manager Steve Moster, in charge of the jobs, said that both are being financed by the city, however residents will have to cooperate in order to get the service.

As regards the clean-up, people are expected to have their rubbish at the curb line in disposable containers such as sacks or cartons. Loose trash will not be picked up, nor will the trash be dumped in the truck in order to leave the containers. People are reminded to be sure their packages are waiting when the truck arrives because it will not go over a street that has been serviced before. The pick-up will start at 8 o'clock.

Spraying will start promptly after the clean-up in connection with weed mowing along the streets. The spraying attachment is mounted on the city's tractor along with the mower and will be run as the tractor makes its last cut along each street. The unit will also spray alleys that are clean.

Moster said that spraying has little effect if the insects can take refuge in weeds, tall grass or rubbish, and the operator will be instructed not to bother with such alleys. However, if property owners will clean up their adjoining alleys they can enjoy better insect control for their area.

Swimming Pool Will Open June 1

Muenster's municipal swimming pool will open on Saturday, June 1. The date was set by the city council Monday night after being assured by Pool Supervisor L. B. Bruns that he will have plenty of time to get the place ready for operation. Bruns, principal at Muenster High School, will start working at the pool after school closes Friday of this week.

The council also approved a list of rules to govern behavior at the pool. The rules are intended to make the pool safer and more enjoyable. The list of rules will be published in next week's Enterprise.

Soil Stewardship Sermon

Soil Stewardship Week, beginning next Sunday, May 26, will be observed with a special sermon at the First Baptist Church Sunday morning. Rev. Billy Whitt, pastor, announced that the subject for the sermon is "What God's word says about the soil He created." Starting time for the service is 10:45.

School Lunch Rooms Serve Over 75,600 Meals to Students

More than 75,600 individual meals were served in Muenster's two school lunch rooms during the 1956-1957 term.

At each of the schools an average of 200 students passed through the line five days a week for 36 weeks. In addition, teachers at the public school joined students for the noon meal.

At Muenster High Mrs. Al Yosten was in charge. She was assisted by Mrs. Nig Wilson and Mrs. Isabel Fette. Evelyn Haverkamp, a student helper, assisted during serving hours, and Mrs. Joe Lehnertz substituted when one of the regular employees was absent.

At Sacred Heart lunch room Mrs. Al Walterscheid was in charge of the staff. Mrs. Gertrude Bayer and Mrs. Frank Kaiser were regular employees and Mrs. John Grewing was substitute helper. Mrs. A. A. Otto began the term as a regular member of the staff but was forced to quit in February on account of her health. She was not replaced.

At both schools meals conform to standards of health and nutrition and milk is served daily. Students' favorites, however, are not the complete balanced meals. At both lunch rooms, hamburgers and barbecue sandwiches are at the top of the list with (Continued on Page 8)

48 High School Graduates Receive Diplomas This Week

Class Presentation Features Program At Muenster High

Twenty eight seniors, the largest graduating class in the history of Muenster High School, will receive their diplomas Friday night in a special commencement program which will be presented almost entirely by the graduates.

The main event, entitled "The Key Spirits in Our Lives" was especially composed by the class sponsor, Mrs. H. H. Homsley to include all the class in a single presentation. Margaret Milner's valedictory and Pat Horn's salutatory are parts of the presentation.

Other events on the program are an invocation by Superintendent H. H. Homsley and a benediction by Principal L. B. Bruns, presentation of diplomas by B. J. Sicking, president of the school board, presentation of special awards by Superintendent Homsley, and professional and recessional by Becky Mosman.

Rev. Patrick Hannon Addresses Grads at MHS Baccalaureate

A plea to distinguish the difference between liberty and license and to direct their lives accordingly was the substance of the baccalaureate sermon by Father Patrick Hannon, assistant pastor of Sacred Heart Church, to the Muenster High School graduates Sunday night.

Father Patrick traced briefly through the order of creation, pointing out that man, the most perfect of God's creatures, is endowed with the faculties of intelligence and free will, and that the use of those faculties is man's way of earning eternal salvation. Father Patrick then explained that man's God-given freedom is accompanied by God-given duties. Our freedom to do as we please does not apply to the extent of violating Divine or natural law nor of violating a neighbor's rights.

The baccalaureate service opened with a "Devotional of Love" in which Jean Wieler, as narrator, described love and enumerated other virtues that are associated with it. Those virtues are unselfishness, patience, humility, kindness, forgiveness and sincerity. As each was explained it was presented on a card by a girl symbolizing that ingredient of love. The girls who assisted Miss Wieler in the program are Pat Otto, Louise Noggler, Margie Flusche, Dolores Reiter, Virta Lee Bridges, Kathy Pagel and Judy Cain.

Rev. Billy Whitt, pastor of the First Baptist Church and a graduate of Muenster High gave the benediction closing the service.

The Sacred Heart Men's Choir sang three songs and Superintendent Homsley welcomed guests and served as master of ceremonies. Becky Mosman played the piano for the processional and recessional.

Contract Awarded To Corsicana Firm For Detention Dam

Arnett and Duncan of Corsicana is the apparent successful bidder for the contract of constructing the detention reservoir just west of the Muenster city limits. A report submitted Wednesday by Acting State Conservationist Paul Walsler reveals that firm had the low bid of \$33,858.30.

The dam, officially identified as Site 6-B, will be constructed in cooperation with the Upper Elm-Red Soil Conservation District. It is located on land owned by J. M. Weinzapfel and will impound flood waters on a tributary which empties into Brushy Elm Creek. It is the seventeenth such structure in a program of thirty four to reduce flood damages on Elm Fork of the Trinity River.

Mr. Walsler said a total of eight bids were received and following review of all bids the formal award of contract will be completed by the state office of the Soil Conservation Service at Temple.

Bishop Gorman Will Talk at Parochial Ceremony Sunday

Twenty high school seniors and 37 elementary students are candidates for graduation in Sacred Heart school's formal closing exercises Sunday night at 7 o'clock.

His Excellency the Most Rev. Bishop Thomas K. Gorman of the Dallas-Fort Worth diocese will be the featured speaker delivering the combined baccalaureate and commencement address. He will also officiate at the mass and present the diplomas.

This is the second time in the school's history that one service combines what was previously three separate programs. The procedure was inaugurated last year.

Graduates will enter and leave the church to the traditional processional and recessional played by Anthony Luke, church organist. High school seniors will be attired in formal graduation gowns and caps of royal blue.

Memorial Service Sunday Will Honor Muenster War Dead

Annual Memorial Day services honoring this community's service men of all wars will be held Sunday at Sacred Heart church and cemetery following the 10 a.m. mass.

Muenster's VFW Post and its Ladies Auxiliary are in charge of the ceremonies which include a procession from church to the cemetery, an address, placing of bouquets on graves, prayers, a hymn by the choir, a three volley salute by the rifle squad and taps.

Richard Swirczynski is program chairman, Arthur Bayer is in charge of the color guard and firing squad, Mrs. John Huchton is arranging for floral sprays, Mrs. Richard Grewing is securing corsages for Gold Star mothers, and this year's Solemn Communion class will place the bouquets on the graves.

As is customary each year, rosary will be recited in the procession and the first stop will be at the crucifixion group in the cemetery where prayers will be recited for all deceased of the community. After that the procession will move to the service men's graves for the lowering of the flag to half mast and the rest of the ceremonies.

Mary Weinzapfel Gets Scholarship

Mary Weinzapfel, daughter of Mr. and Mrs. J. M. Weinzapfel, has received a \$1,000 scholarship at the University of Dallas, according to an announcement this

week by F. K. Brasted, president of the university. The scholarship applies at the rate of \$250 annually for four years.

Miss Weinzapfel, student of Our Lady of Victory Academy, Fort Worth, took the scholarship examination at the university on May 4. It was open to seniors of all private and public schools in the 53 counties which make up the Diocese of Dallas-Fort Worth.

The University of Dallas was opened last September on a 1,000 acre campus eight miles northwest of downtown Dallas. It is a four year coeducational college of liberal arts which started with a freshman class only and will add another class annually until 1959.

A story is told of a young man who called one evening on a rich old farmer to learn the farmer's story of how he became rich.

"It's a long story," said the old man, "and while I'm telling it, we might as well save the candle." And he blew it out.

"You need not go on," said the youth. "I understand."

Never Trust The Other Driver

"Never trust the other driver!"

In these words, a bulletin of the Texas Safety Association, warned Texans to be on their driving-guard against the unpredictable behavior of pedestrians and other drivers.

"It isn't enough to obey the law and mind your own business," the bulletin reads. "You have a moral responsibility to prevent an accident if you can — even if the other fellow is at fault."

A few of the other-fellow's more common blunders were listed as being:

Failure to heed a stop sign or sneaking across on the "Yellow-light."

Making a turn from the wrong traffic lane.

Failure to signal a turn, or giving the wrong signal.

Stopping suddenly (Of course this won't bother you if you're not too close).

Trying to pass on a curve, hill or other no-passing zone.

hot rolls, butter and jelly a close second at Muenster High. Cooked vegetables and salads are least favored with spinach probably at the bottom of the list. But students usually "cleaned their plates" at each meal with a minimum of comment.

Other students of Muenster's more than 670 scholastic population either go home for the noon meal or bring their lunch with them. When weather is bad, attendance at both lunch rooms increases.

Local News BRIEFS

Spending Saturday with Mr. and Mrs. Bill Stelzer were Mr. and Mrs. Theodore Kaden and daughter, Miss Jane Kaden, of Jacksonville, Fla. The Kadens are celebrating their 48th wedding anniversary by taking a car trip through several states and Mexico and their stop here was a complete surprise to the Stelzers. The two couples talked over old times when Mr. Kaden was a cashier here in the bank in 1909 and 1910. They also lived at Gainesville and are now visiting relatives there.

Mrs. Joe Voth returned Saturday evening from Napa, California where she visited her sister-in-law, Navy Nurse Rita Voth, after driving to the west coast with her when she went back to duty after a visit here. Mrs. Voth came home by plane and was met at the Dallas airport by Mrs. L. J. Roberg and Mrs. Kyle Waggoner.

Mr. and Mrs. J. M. Weinzapfel and Mrs. Tony Gremminger spent Saturday through Monday in Oklahoma. Going, they stopped at El Reno where Mrs. Gremminger remained with old friends in her former hometown. The Weinzapfels went on to Enid where Sunday Mr. Weinzapfel attended a Fourth Degree Knights of Columbus exemplification. From there they went to Tulsa to be guests of their daughter and family, the P. W. Hellmans. Mrs. Gremminger met them there Monday for a visit and to return home.

Bill Fink, former employee at the Muenster Enterprise, stopped in for a visit Tuesday. Now living in Chickasha, Okla., Fink is a serviceman for Linotype Company.

Rev. Louis Deuster and Mr. and Mrs. Herbert Meurer left here early Sunday morning for Corpus Christi where they attended the state Knights of Columbus convention this week. They left by car immediately after Father Louis' 5 a.m. mass.

Seniors of Sacred Heart High slipped away Thursday of last week on their "sneak day." Father Christopher went along and with the exception of the faculty nobody knew where they were going. They spent the day on an outing at Turner Falls.

Dangelmayr, Karen Endres, Janice Vogel, Karen Stormer, Patsy Klement, Flora Mae Sims, Theresa Fleitman, Patsy Zimmerer and Virginia Taylor.

Nine Band Members Get Jacket Awards

For the first time in Muenster High School Band history graduating seniors who have been band members are receiving jacket awards.

Presentation of jackets will hereafter be an annual event, according to information released at the school. Heretofore, members who wanted jackets bought them, but in the future eligible seniors will receive them free.

The jackets, ordered recently, are expected this week before classes dismiss for the term. They are red wool trimmed with white leather and display a letter shaped like a lyre telling how many years the student participated in the band.

Receiving jackets this year are nine seniors — Pat Cain, Lou Rena Wolf, Mary Pick, Helen Fisher, Pat Horn, Lorraine Sicking, Wylie Lewis, Larry Kathman and Grady Reed.

Pause For Reflection

... with James C. Ingebreten President, Spiritual Mobilization

According to a recent Associated Press dispatch from Omaha, Neb.: "Development of a chemical described as having many potential commercial uses has been disclosed . . . by the Quaker Oats Company.

"A product of waste from furfural, a widely used industrial chemical, it was named Levulinic acid.

"In 1951 . . . the company developed a process of squeezing furfural out of corn cobs, oats and rice hulls, and similar agricultural wastes. Furfural is used in nylon, synthetic rubber, medicinal, plastics, lubricating oils,

and other compounds."

Here is a product made from the waste of a product made from another waste.

This reminds me that, on the occasion when Jesus fed the five thousand with five loaves and two fishes, "when they were filled, he said unto his disciples, Gather up the fragments that remain, that nothing be lost."

Waste has no place in a Christian culture. And yet we still see much of it all around us — particularly waste of human lives, which in God's sight is the worst waste of all. We salvage corn cobs and oats hulls while all around us human character is being wasted — and worse. Surely we can do more than most of us are doing to help remedy this situation, can we not?

THE WAY THE WIND BLOWS

The "Listening Post" section of Newsweek magazine finds that the Senate investigation of labor racketeering has given great impetus to proposed laws, both federal and state, designed to prevent abuses in the future. It also finds there is markedly increasing sentiment for the right-to-work law, which outlaws compulsion and puts union membership on a strictly voluntary basis. As an example, it cites Idaho, where earlier this year such a law passed the House but met narrow defeat in the Senate, and says: "A number of legislators feel it would pass 'hands down' if brought to a vote today."

Actually, the right-to-work law is the really basic reform that is needed. No longer could union officials force a man to join and pay dues — or starve. They would have to "sell" their services, on the basis of merit. This would inevitably make for better unions, with more responsible and efficient executive and administrative staffs, and it would do more than any other single thing to get rid of the crook, the exploiter, and the labor dictator.

Thoroughbred horses are always mounted from the left.

Gift Party Honors Carol Klein Sunday

Carol Klein, bride elect of Walter Grewing, was complimented with a miscellaneous gift shower Sunday afternoon when Mrs. Richard Grewing was hostess in her home.

Paper and pencil games relating to the bridal theme furnished entertainment for the 14 guests, mostly classmates of the honoree. Game prizes were won by Suzanne Hesse and the honor guest, Mrs. John Grewing drew the door prize.

The party room was adorned with roses and honeysuckle and the hostess served refreshment plates and cold drinks.

Carol and Walter will be married Thursday, June 6, during a four o'clock nuptial mass in Sacred Heart church.

Betty Lue Buckley To Marry June 9

The engagement of Betty Lue Buckley and Alvin Paul La Rose of Houston has been announced by her parents, Mr. and Mrs. E. P. Buckley of Grapevine, formerly of Muenster.

The wedding vows will be read Sunday, June 9, in St. Francis Assissi church in Grapevine.

Betty Lue received her Master of Arts degree in speech correction from St. Louis University last year. She took her B. S. degree there in 1953. A graduate of Sacred Heart High, she received the Sedes Sapientiae award in her senior year for leadership, scholarship, service and loyalty.

County 4-H Clubs Have Bake Sale at Gainesville May 25

Cooke county 4-H clubs have slated a benefit bake sale for Saturday, May 25, and Miss Yvonne Allen, assistant home demonstration agent, reminds local girls to participate by contributing cakes and light bread. Proceeds will go into the county 4-H council's activity fund.

Place for the sale is Tom Thumb's Supermarket where 4-H clubbers will sell the baked goods. Muenster clubs have a quota of 15 items and these should be delivered to the place of sale between 9 and 10 a.m., Miss Allen said.

Mrs. Paul Fisher, local adult leader, said that she will furnish transportation for the baked goods if they are left at Fisher's Market before the deadline. However, club members or parents going to Gainesville may take theirs with them. Articles should be tagged with name of donor, name of club, and should identify the item.

Mr. and Mrs. Virgil Doty and children of Mesquite returned home Sunday evening after a four-day visit with her grandparents, Mr. and Mrs. Joe Swirczynski and Mrs. J. S. Horn, and other relatives. Sunday afternoon their infant daughter Sharon Yvonne was baptized in Sacred Heart church. Father Patrick officiated and Mr. and Mrs. Richard Swirczynski were sponsors.

AT DEDICATION CEREMONY AT ST. JOHN'S SEMINARY

Mrs. Ray Klement and son Lynn Joe and Mrs. Herman Fette were in San Antonio Sunday to attend dedication ceremonies for three new buildings at St. John's Seminary where their sons Lloyd Klement and Kenny Fette are students. The classroom building, study hall and library, and dining hall and kitchen were solemnly blessed by Most Rev. William O'Brien, archbishop of Chicago and president of the Catholic Church Extension Society.

After the services, parents and friends were conducted on a tour of the seminary and given opportunity to visit with their boys. Two other local boys are students there, William Fisher and Jerry Reiter. The Muensterites made the trip by train.

They also visited with Mrs. Joe Bergman and her daughter Mrs. Billy Showers who met them at the seminary and took them to the depot.

THIRD ORDER CEREMONY

In a profession ceremony conducted by the Third Order of St. Francis Thursday night Mr. and Mrs. Louis Steinberger became members of the Sacred Heart fraternity and Mrs. George Spaeth of Lindsay became a member for St. Peter's fraternity. At the same ceremony Mr. and Mrs. H. J. Fuhrman were received as novices. Father Louis read the ritual and J. W. Hess, local prefect, lead the prayers. The service was held after May devotions in church.

SH Hi Class Night Program Features Awards Presentation

Presentation of coveted awards earned by students during the past term highlighted Sacred Heart High school's annual class night program Sunday in the parish hall.

Rev. Christopher Paladino, school superintendent, announced honor students and made the presentations.

Leading the list is Imogene Flusche, valedictorian and winner of the Sedes Sapientiae award. Her name will be engraved on the Balfour plaque in the school corridor and her reminder of the distinction is a gold key. This is the school's top award and is won not only through scholarship but also for loyalty, dependability, cooperation and achievement.

Carol Miller runner-up for the honor, received a fountain pen and pencil set from the Alumni Association. She was also elected the ideal girl student, the most beautiful girl and the senior favorite.

Jere Friske received the salutatorian medal; Jerome Voth, the achievement medal; Michael Fuhrmann, citizenship medal; Florentine Vogel, history medal; Theodore Walterscheid, typing

medal. Journalism awards went to Imogene Flusche, editor of the annual; Della Fette, editor of Mosaics, and to Norma Walterscheid and Ethel Knabe.

The class night program, arranged and produced entirely by the students, bordered on the humorous. Ann Luke and Jeanette Haverkamp paraded the seniors; Joan Hennigan and Jo Ann Hacker presented "Can You Imagine;" Carol Ann Miller and Delphene Derichsweiler read the class will; Florentine Vogel presented the class prophecy; Della Fette and Norma Walterscheid gave the junior citation; and Gene Hartman and Theodore Walterscheid presided for presentation of comical gifts to seniors and juniors.

Jere Friske, salutatorian, gave the welcoming address; Theresa Haverkamp and Teresa Schad read the class history; and Imogene Flusche, valedictorian, gave the farewell message.

Other numbers were a hymn by the high school, the senior class song, and the closing hymn by high school students. Carol Henscheid played the piano accompaniment.

Mrs. Mathilda Wimmer is in Fort Worth for an indefinite visit with her daughter, Mrs. Ed-die Magas and family.

Social Security Disability Benefit Will Start in July

This coming July Social Security disability benefits will be paid for the first time according to Roy Westerfield, manager of the Social Security Office in Sherman. Applications for such benefits may be filed now. Cash monthly benefits may be payable if the worker is so severely disabled he cannot work, and if he meets other conditions stipulated in the Social Security Amendments passed by Congress last August.

The worker must have been working in covered employment for at least 5 years during the 10 year period before he became disabled, and 1½ years of that work must have occurred during the 3 year period before disability. Furthermore, he must have been disabled for at least 6 months and must have attained the age of 50.

Disabled workers who have not yet reached age 50 should file claim to freeze their benefit rate; those who are already 50 will want to file claim now for the benefits themselves. Westerfield cautioned all, whether filing for payments or the freeze, to file before July 1 if the disability occurred prior to July, 1956, or within one year of the disability if it occurred after June 30, 1956. He urged that all interested parties write his office and ask for the disability leaflet. He explained that the increase in the social security tax this year is specifically for the purpose of building up a disability trust fund, out of which disability benefits will be paid.

the public wants the essentials. But it doesn't want its money goofed away.

Incidentally, the last few weeks seem to emphasize all the more the urgency of government economy. Storm and flood damage and crop deterioration are causing economic cramps that may need more relief than the big drought. More and more it seems that the country can't afford to waste money.
