MUENSTER, COOKE COUNTY, TEXAS,

APRIL 26, 1957

NUMBER 23

With pleasure we note that Loyalty Day is getting more and more attention in this country. All over the country VFW clubs are putting on special efforts for the best observance ever. In Texas Governor Price Daniel has issued a proclamation designating May 1 as Loyalty Day and urging a reverent observance of it.

The real significance of Loyalty Day can be appreciated best by thinking back to the reasons for its origin. For years the communists have put on a big show on May 1. The custom originated in Russia where May Day is still the big day of the year. As the reds gained power and influence in other areas they adopted the Russian custom of showing off on May Day.

A few years ago a relatively small group of patriotic veterans decided to do something about the red demonstration. They decided to offset the communist display of disloyalty by an even greater display of American loyalty. Their movement caught on quickly. In just a few years Loyalty Day was taking the glory away from May Day in the areas where reds had enjoyed the spotlight before. Besides, Loyalty Day was emphasizing Americanism, putting millions of good people on guard against the evils of communism.

There is a bit of poetic justice in this shift of prestige away from the commies on their special day. Reds stole May Day in the first place by desecrating the day which Russians had observed as an opening of the Month of Mary. It suited the perverted humor of red bosses to offer a special insult to Christ's mother on the day which had traditionally honored her.

In view of that circumstance a person is inclined to wonder whether the reds have gained by choosing May Day for their big event. Even though some of the red shows have been stupendous, who knows whether they have appealed more to downtrodden people than the spirit of former May Days? It is known that religion is still very much alive in Russia and its captive countries, that millions of people are being sustained through these years of suffering by the strength of their faith.

The thought of their experience should inspire us to two kinds of loyalty on May 1. As good Americans we ought to proclaim our loyalty to the nation which guarantees our freedom. As good Christians we should proclaim loyalty to the principles which assert our dignity.

Let's go all the way on the governor's proclamation. Let's offset the effect of communism's May Day demonstration by a reverent show of loyalty to God and Country.

Are you one of the many many people who go on completely unconcerned by the present squabble in Washington about the budget? Are you inclined to assume that you need not bother about government spending because you are in the low income group?

If you are, it's time for you to take notice of a few facts. First of all, the rich are getting soaked just as the political slogans claim, but we ordinary poor folks are also hit mighty hard. The reason is that too few people are in that upper income bracket and their combined payments amount to only a small fraction of the total tax bite. People with incomes of \$6,000 or less pay 75 per cent of the tax.

So, you don't mind if the government squanders a few billion dollars? Just remember that three fourths of it has to come from people like you and me.

There are a few other details on government spending which deserve our attention. The high cost of national security, and obligations such as interest on the national debt and the cost of veterans benefits make up considerably more than three fourths of the budget. The very largest items of government spending cannot be trimmed, and drastic cuts in the few possible places do not show up as big savings in the end.

It seems like an impossible situation but at the same time it stands out as a situation that might have been avoided. More (Continued on Page 8)

Mr. and Mrs. J. Schmitz Observe Golden Wedding with Ceremony and Reception

Fifty years of memories of married life spent in Muenster were reviewed Tuesday when Mr. and Mrs. John B. Schmitz observed their golden wedding. Highlighting the celebration were an anniversary mass with renewal of nuptial vows in Sacred Heart church at 4 o'clock and a reception and dinner in the parish hall.

The Rev. Louis Deuster officiated at the services and delivered the jubilee sermon. Rita Block of Lindsay, great-niece of Mrs. Schmitz, was organist and Rita's father Nick Block presented vocal selections.

The setting was similar to that wedding day in 1907 when Margaret O'Conner and her youthful bridegroom pledged their vows in the old Sacred Heart church with Rev. Bernard Zell officiating.

Two of the four members of the bridal party were attendants again Tuesday. They are Miss Lena Kleiss and Frank Yosten. Joe Schmitz who was his brother's best man has since died and Mrs. Joe Bergman (Mary Schmitz) now living in San Antonio was unable to attend her brother's anniversary celebration.

Like the wedding day with its traditional festivities and gathering of relatives and friends, the jubilee was a joyous occasion with about 150 guests present. Mrs. F. E. Schmitz presided at the guest book and Mrs. Joe Lehnertz catered the meal.

Mr. Schmitz, 73, is a native of Conception, Mo., but grew up in Muenster, coming here at an early age with his parents. He was born April 9, 1884. Mrs. (Continued on Page 8)

Over 600 Receive Salk Polio Shots

Polio immunization at Muenster took another long step forward Tuesday as 607 persons reported for their Salk shots.

According to a report Wednesday from the Muenster Clinic, 437 received their second shots and the remaining 170 were persons receiving either their first or third shots. Tabulation of those two groups was not complete late Wednesday afternoon.

Tuesday's shots marked the beginning of the last series which will be offered here at the special price of \$1.00 per shot. Persons who started then are due to report for their next shot in four weeks. Those who received the second shot will wait six months for the final shot.

All Awards Dinner Planned Sunday for Elementary Pupils

Elementary pupils who represented the Muenster Public School in any activity during the past year will be honored guests Sunday night at an all-awards banquet sponsored jointly by the PTA and the children's parents.

Pupils due to be recognized are those who participated in the band the pep squad, boys football and basketball, girls basketball, or literary events at interscholastic league district meet. Superintendent H. H. Homsley will be principal speaker.

Time for the event has been advanced to 6 o'clock so the children will be in time to attend a class play presented by Sacred Heart students at 8 o'clock.

MHS Students See Dr. Lake's Pictures At Class Banquet

Dr. and Mrs. L. E. Lake of Saint Jo, showing and explaining about a hundred of their colored slides taken in Germany, were the headliners at the Muenster High Junior-Senior banquet Tuesday night. The Lakes proved to be very welcome substitutes for the customary after dinner speaker.

Pictures shown were taken by Dr. Lake while he served as a member of the army medical corps in Germany.

Two other features on the program were the reading of the senior class will by Dee Kaderli and the reading of the class prophecy by Dolores Reiter. David Klement was master of ceremonies.

Juniors were hosts for the event and they will be guests of the Seniors at the Senior Prom dated for May 24.

2,000,000th Vehicle Comes off Line at Dallas Ford Plant

A major milestone in the history of Texas commerce and industry was reached Tuesday, April 23, when the 2,000,000th Ford vehicle came off the assembly line at Ford's Texas assembly plant in Dallas.

Urban Endres and Martin Klement, Partners of Endres Motor Co. said that Ford Motor Company first became a business and industrial citizen of Texas in 1909 with establishment of a sales, service and parts headquarters in Dallas. Assembly operations on a limited basis started in 1913 and in 1914 Ford completed Texas' first automobile assembly plant in Dallas. The present plant in Dallas was opened in 1925.

Production of the milestone car was celebrated with a dinner for 100 civic leaders headed by Mayor Bob Thorton of Dallas. They watched the 2,000,000th car "Built in Texas by Texans" as it was completed step-by-step in Ford's huge Dallas plant. Governor Price Daniel has sent a letter of congratulations to Henry Ford II, the company's president.

"We are proud of the fact that our Ford cars and trucks are built in a plant located right in our own state," Mr. Endres explained. "This means that 3,400 Texans earn more than \$15,900,000 a year building and distributing the cars we sell. The Texas assembly plant at Dallas also spends about \$2,500,000 a year on materials and supplies bought here in the state." \$5,500,000 dollars are also spent with Texas trucking firms to haul vehicles and parts to retail dealers. Brownie Troop Has Easter Egg Hunt

Brownie Troop 87 enjoyed an Easter egg hunt at the weekly meeting last Wednesday following the business session and routine ritual. The group met at the home of Mrs. Joe Tempel, leader, with Mary Catherine Walterscheid, assistant, helping with the social hour. She also brought the decorated cupcakes for refreshments.

Prizes in the egg hunt went to Judy Dangelmayr and Gloria Haverkamp for finding the most, and to Debbie Schilling and Kathy Yosten as consolation favors.

Drought Is Broken, Some Crops Thrive But Grain Hurts

The drought is definitely broken in the Muenster area. For the first time in years the ground is saturated, ponds are full, and the newly completed system of detention dams on the Elm watershed are all filled to their permanent pool level. Some of the lakes, including a few that have just been finished, filled above the outlet level and have since drained down to the permanent level.

At the same time vegetation is making its best growth in years. Pastures are on their way toward recovery from their severe decline during last year's drought. Hay crops too are looking fine, apparently about ready for a lush first cutting. Corn too is getting along nicely, but the one discouraging factor here is that some of it still has not been planted and it may be delayed until it is handicapped by the late season.

Principal crop worries now concern the wheat and oats, especially the wheat. As a crop which has yielded its best during the dry years, wheat definitely has had more moisture than it needs. In some fields signs of trouble are already showing up and the yield is expected to fall sharply unless ideal conditions prevail from now on. In areas of rank growth the straw is bending over and grain will be hard to save at harvest time. Danger of rust and smut from continued dampness presents another threat. Oats apparently has a better chance but it also has more moisture than it needs.

Up to now the rainfall for the year measures 12.93, more than 5 inches over the 10 year average of 7.73 for the first four months, and more than 2.5 inches ahead of the wettest for the same period in the past 10 years. 1949 had 10.37 inches through April and the next wettest was 1947 with 9.45. Last year's total through April was only 5.33, which was beat only by 4.74 in 1951.

The present high record of rainfall is made up of one record month and two near-record months. March, with 3.59, was the wettest in 10 years. February, with 2.79, was bested only by 4.19 in 1948. And April, now standing at 5.12 was beat by 5.31 in 1947.

The past week rates as the wettest since the beginning of the year. For five days in a row beginning last Friday, the 19th, readings on Steve Moster's official rain gauge were as follows: 1.05, .23, 1.20, .06, and 1.50 for a total of 4.04 inches.

Almost 16 Million Spent by TP&L for Expansion in 1956

To meet increasing demands for electric service in North, Central and East Texas, Texas Power & Light Company in 1956 spent \$15,997,088 on new and enlarged facilities. This continued expansion of the Company is reflected in its Annual Report to the Stockholders issued in April.

Construction of the 125,000-kilowatt Stryker Creek Steam Electric Station was started and was 20 per cent complete at the year's end. Equipment was ordered for the addition of a 200,000-kilowatt generating unit to the Company's Lake Creek plant for service in 1959. Construction of the new Stryker Creek plant and enlargement of the Lake Creek plant will bring the Company's total generating and purchased capability to more than one million kilowatts in 1959.

The Report cites a 15 per cent increase in operating revenue, a 15 per cent increase in operating expense and a 10.6 per cent increase in net income over 1955. This added net income helps to service the large added investments in the Company's facilities. The Company has invested \$103,639,000 in new and improved facilities during the last five years.

At the end of 1956, the Company was serving 329,857 customers, or 4,513 more than were served at the corresponding date of 1955. The annual sales of kilowatt-hours had increased 360 kilowatt-hours per residential customer and 1,269 per commercial customer.

Jimmy Lehnertz Sells Gulf Station To Ferd Luttmner

Two business changes become effective in Muenster this week as Jimmy Lehnertz sells his 19 year old Gulf service station to become wholesale distributor of Gulf products in Cooke County and Ferd Luttmner gives up his Sinclair station to take over the Gulf station.

The transfer of the Gulf station from Lehnertz to Luttmner was in progress Thursday afternoon. Up to then nothing definite had been decided regarding sale of the Sinclair station.

Luttmner, who got his first service station experience working at Jimmy's for about 18 months following his discharge from the navy after World War II, has been owner-operator of the Sinclair station since it was completed in October 1955. He is making the change in order to get the larger, better equipped station and the more desirable location. He will also take over Jimmy's Ice Service.

Lehnertz will succeed E. V. Lesley Jr. of Gainesville, who is resigning as Gulf consignee for Cooke County. His new work requires that he establish his home in Gainesville and he plans to move there after the close of the school year.

Lehnertz has been owner and operator of the Gulf station almost all of the time since it was opened as a new building in September 1938. He was away from 1941-45 serving in the armed forces and because of the problems of remote control he had it closed while he was serving in Italy. When he returned home he bought it from Al Horn who had re-opened it toward the close of the war.

Three of Jimmy's four army years were spent in combat service. He arrived in Africa in August 1942 just before the African campaign. After that he saw action in Sicily and Italy, earning a total of seven campaign medals, and returned home in July 1945, after VE day. He was a master sergeant in the Coast Artillery.

Along with his business activity Lehnertz is serving as supervisor of the Muenster Ground Observer Corps post and as a member of the Muenster City Council.

Baseball Schedule Split by Weather

Wet weather has split the baseball season for District 37-B exactly in half. After consulting all the member schools Superintendent Wilson of Sanger announced this week that the schedule has been reduced to a single round of games. With six teams in the loop, each will have a 5 game schedule.

Because a few games have been played it is difficult now to arrange a schedule. Besides, if wet weather continues few games would be played on schedule anyway. So each team will match its own games at its own convenience.

Up to now Muenster has played two games, losing to Valley View and Sanger. A game has been matched with Saint Jo for Friday, if weather permits, after that with Era and Callisburg.

CLUB DATE CHANGED

The regular meeting of the Get-Together club has been postponed from Wednesday, May 1, to the following Tuesday, May 7, according to announcement this week. Mrs. Jake Pagel will be hostess in her home.

Visiting the Henry Henscheids for the holidays were their daughters Florence and Lu Rose of Fort Worth. Joining them Easter Sunday were Mr. and Mrs. Gerald Metzler and sons Mark and Jerry of Gainesville and Mr. and Mrs. Rufus Henscheid.

The American Way

RUSSIA OUT-GENERATED
 The United States of America stands head and shoulders above all the other nations of the world in the production of electricity. With only approximately 6 per cent of the world's population, in 1955 we produced 41.1 per cent of the world's total.

During that same year, Russia, which is the second-ranking nation in world production of electricity, generated only 11.2 per cent of the world total.

Based on population estimates for 1955, this means that free enterprise America produced five times as much electricity per capita as did Communist Russia during that year.

Our good neighbor, Canada, with less than 1/15th of the population of Soviet Russia, pro-

duced one-half as much electricity in 1955.

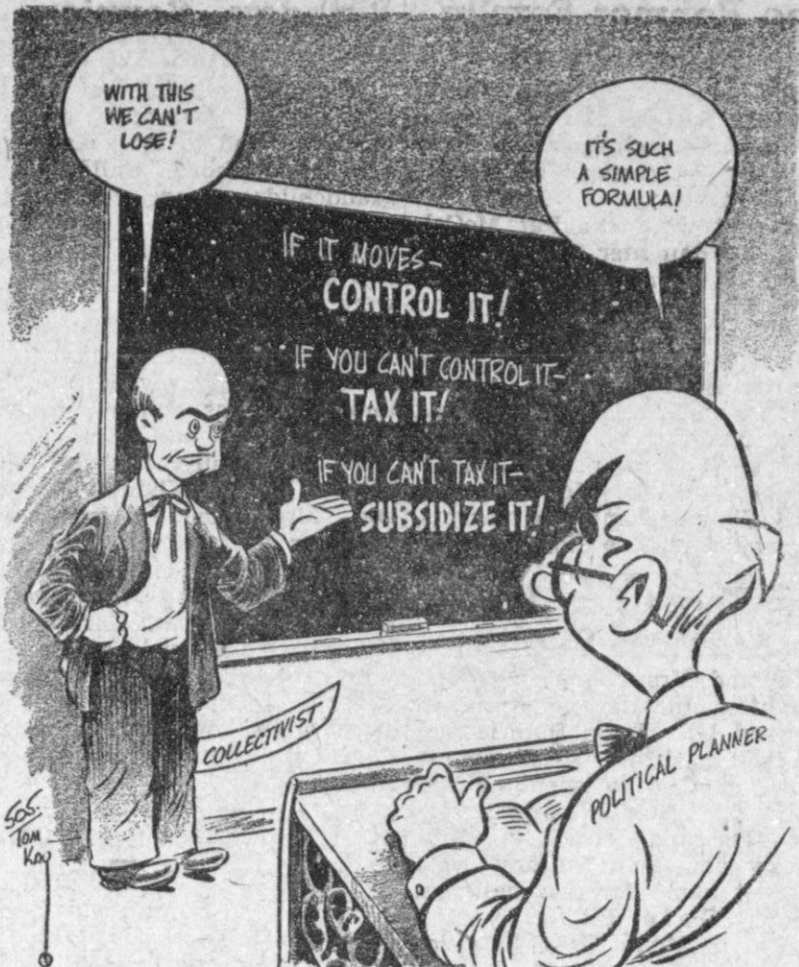

These electric statistics constitute just one further proof that "The American Way" and "The Canadian Way" (identical twins), are the best ways to achieve the most and establish ever-heightening standards of living for their peoples.

WHERE GOVERNMENT MADE A BIG PROFIT

The Gazette of Billings, Montana, in an editorial entitled "Well Repaid," effectively explodes the old illusion that the railroads were given an enormous financial boon through the early-day land grants.

These grants, of which there were 14, followed an earlier practice of granting public lands to aid canals and wagon road construction. In the case of the railroads, the grants totaled 130 million acres (most of which were unoccupied and unused) with a going value of \$123 million.

Some years ago a federal agency looked into how much of a return the railroads had made to the government, in the form

Formula for Socialism

of land-grant rate reductions which were part of the contracts. It is estimated that, to the end of 1945, these reductions totaled \$1,180,000,000 — or 9½ times as much as the lands were worth at the time they were granted.

And this isn't the whole story. As the Gazette says: "... these land-grant roads ... created billions of dollars of new wealth and enhanced the value of both publicly and privately owned lands. Non-taxable property was converted into taxable property. Thousands of thriving communities, scores of populous cities, sprang up ..."

Few financial arrangements made by this or any other government have proved so profitable to the people as those old land-grants.

THE FUNDAMENTAL REFORM

Senator McClellan of Arkansas, who has earned widespread praise for his performance as chairman of the Senate committee investigating union racketeering, recently appeared on the "Meet the Press" TV-radio program. The evidence so far produced by his investigating body, he said, shows the need for federal laws to protect union funds and to guarantee free un-

ion elections. Then he made a significant observation — that it may prove to be "imperative" to enact a federal right-to-work law, though he personally hopes that the states will do that on their own hook and so make federal action unnecessary.

There is every reason to believe that the right-to-work law (which simply provides that either membership or non-membership in a union cannot be made a condition of employment) is the biggest and most fundamental reform now needed. The union shop — under which a man must join up or be fired within 30 days after getting a job — amounts to a form of involuntary servitude. It also creates union monopolies — and monopolies in any field are classic sources of corruption. If a man is forced to become and remain a dues-paying union member in order to feed, house and clothe his family, the union doesn't have to "sell" itself on the basis of service, integrity, or anything else. The union heads are dictators, with the power of dictators — and we are learning now that some of them have shamefully abused these powers.

No good and honest union — and there are a great many of these, officered by men of high principle and ability — need fear right-to-work. If the heads do a good job, they'll get the membership, as a matter of course. Right-to-work is a potent weapon against the goon, the exploiter, and the racketeer.

Money Mad

Dollars cut such a figure with some men that they feel they have to disfigure themselves to get them.

THE CAPACITY OF THE STATES

An all-out campaign is on to persuade Congress to give huge grants to the states for school construction, on the theory that the states are incapable of meeting the need.

Yet in December, 1955, the White House Conference on Education, which was the largest and most representative gathering of its kind we have yet known, reported: "No state represented has a demonstrated financial incapacity to build the schools it will need in the next five years."

Stop Wasting Your Suffering

Adapted by a Paulist Feature Service staff-writer from a recent lecture by Frank Sheed

"If God is so good, how can He allow so much suffering? This is a question I frequently get when street-preaching. I reply, "Your question really ought to be, 'Suffering costs us so much—why do so many of us waste it?'"

Suffering is an inescapable fact—as certain as death and taxes. Man can only give a partial answer to its why and wherefore. The full meaning of suffering is hidden in the all-knowing Providence of God.

God cannot intend evil for its own sake. God permits suffering only because in the long run it will result in a greater good. We can see some of this good in our daily lives.

Sheed

There isn't one of us that hasn't had his share of suffering. And it is generally agreed that we are all the better for having suffered. We respect the fellow educated in the "school of hard knocks." We like to be able to say, "I came up the hard way."

Suffering is a great builder of character. We look upon the fellow who hasn't suffered as a wishy-washy type—as spoiled

and undependable. For centuries parents and elders have blamed the softness of life for the degeneration of youth—"It wasn't that easy when I was a boy."

But there is more to suffering than character building. Much of it costs us tremendously and persists in spite of good character. The loss of a dear one; the misery that comes from failure; the terrible pain of cancer. How should we take it? Simply by "grin and bear it" philosophy?

Wasted—that's what suffering is when it is merely endured—when it has no meaning other than the toleration of pain. Christianity never promised a life without suffering, but it can stop the needless waste.

Jesus Christ, the founder of Christianity, was known as the Man of Sorrows. His crucifixion was the most painful suffering in history. At the same time it was the most valuable. Jesus suffered and died for the sins of man and re-opened the gates of Heaven sealed shut by the sin of Adam and Eve.

Our sufferings are not wasted when they are offered for the same valuable purpose that Jesus had—to repair the wrong done to God by the sins of man. In this way suffering is a stepping stone to Heaven.

Dorothy M. Nortman, Raymond C. Hermes United Wednesday

—Boyd and Breeding Photo

Saint Peter's church in Lindsay was the scene Wednesday morning of the wedding of Dorothy Mae Nortman and Raymond C. Hermes. They exchanged their vows in a double ring ceremony at 8:30 with Rev. Conrad Herda officiating. He also celebrated the nuptial high mass.

Parents of the couple are Mr. and Mrs. Walter Nortman and Mr. and Mrs. Ben Hermes, all of Lindsay.

Mrs. William Schmitz and St. Cecilia's choir furnished the wedding music.

The bride, given in marriage by her father, wore a white Chantilly lace and tulle gown over satin. The figurine bodice of lace was designed with a Queen Ann collar and petal point sleeves. The voluminous skirt of tulle was accented with a pointed short over-skirt of lace and swept into a formal court train. Her veil of imported illusion cascaded in tiers to waist length from an orange blossom tiara and she carried white roses on top of a prayer book, a gift from the groom. For something old she wore a bracelet which belonged to her grandmother, the late Mrs. Henry Gieb.

Elfrieda Block, in pink, was her cousin's maid of honor and Mary Margaret Hermes, sister of the groom, in aqua, was bridesmaid. Their bouffant frocks were identical in design with lace bodices and net overskirts over taffeta. They carried carnations.

Doris Trubenbach of Muenster, cousin of the bride, was flower girl in a white dress and Gary Gieb of Muenster, also a cousin of the bride, was ring bearer.

Leonard Hermes attended his brother as best man and Clem Hermes, a cousin, was groomsmen. Harold Nortman and Julius Hermes ushered.

After the services a brunch was held, followed at 5 p.m. by a reception and dinner in the Lindsay Hall for about 200 guests. When Mr. and Mrs. Hermes left on their wedding trip she was wearing an aqua two-piece dress with white and aqua accessories. They will live in Lindsay in their new home that has just been completed.

Both attended Lindsay school and both are employed at National Supply Co.

May 11 Chosen for Dieter-Block Rites

Parents of the couple are Mr. and Mrs. Val Dieter and Mr. and Mrs. Pete Block.

Both are graduates of Lindsay High. The bride-to-be is employed by Southwestern Bell Telephone company and Mr. Block is employed by National Supply. He served two years in the army with most of that period overseas.

Attendants at the wedding will be Anna Mae's cousin, Mrs. Edward Sandmann, and Wilbert's brother, Eugene Block.

Golden Wedding - -

Schmitz, four years younger than her husband, was born at Sarris, Miss., Nov. 26, 1887. She came to Muenster as a young girl. They were married April 16, 1907, which wasn't in Lent that year, and postponed the celebration because the anniversary fell in Holy Week this year.

Since the fall of 1908 Mr. and Mrs. Schmitz are living on the same farm. They moved twice before settling there. At first they farmed the place now occupied by Andy O'Connor and then the place which now belongs to Ed Sicking.

The Schmitzes have two adopted children, Frank and Laverna. The latter is Mrs. J. J. Wimmer. She and her husband and their five children live here. Frank and his wife and their daughter live in Gainesville. He was 17 days old when he came to live with his foster parents. Five years later, the baby sister, nine days old, joined the family. In addition to the six grandchildren, Mr. and Mrs. Schmitz have one great-grandchild. All were present for the anniversary observance.

Among out of town guests, other than those from Cooke county, were Mr. and Mrs. Matt Stelzer of Post, Mr. and Mrs. Joe Schnitker and Mr. and Mrs. Alfred Schnitker of Denison and Mary Jane Block of Dallas.

Mr. Schmitz still does his own farming and he and his wife both enjoy working in their yard where they grow beautiful flowers, caring for a vegetable garden and taking care of their chickens.

For pastime Mrs. Schmitz spends leisure hours crocheting, principally baby caps. She has made about 75 to date and has given them all to relatives and friends. Inbetween time she has crocheted three table cloths and other pieces.

For the celebration Tuesday Mrs. Schmitz wore a navy alpaca crepe dress with beige accessories and carried the handkerchief she carried at her wedding. Her shoulder corsage was of gold tinted carnations. Miss Kleiss, also in navy, had a similar corsage and the men wore tinted carnation boutonnières.

Easter lilies adorned the altar and the sanctuary space in church and Roy Monday, a great-nephew, and Walter Lutkenhaus, a neighbor, were acolytes. Andy Monday and Lawrence Streng ushered.

Hall decorations stressed a gold and white theme with iris and bridal wreath as floral complements. The honorees' table held the square three-tiered anniversary cake.

Mr. and Mrs. Schmitz, recalling their first meeting and other memorable occasions during the past half century, feel sure that if they had to do it over they'd do it about the same way. Yes, they'd marry again, they're certain. "We've had our ups and downs, but it's been a wonderful life together," they agree.

The major railroads have 33 billion dollars invested, but their rate of return was only 3.93 per cent last year. Regulated public utilities such as electric, gas and telegraph had a return of 9.7 per cent.

Blessed Events

Lt. Col. and Mrs. David Bright of Fairbanks, Alaska, have announced the birth of a six pound son at Eileson AFB hospital on April 20. They have two other boys and one girl. The new arrival, named Raymond Thomas, is the grandson of Mr. and Mrs. J. M. Weinzapfel.

Mr. and Mrs. Gilbert Yosten of Gainesville have announced the birth of a seven pound 14 1/2 ounce son, a brother for Gary. The newcomer arrived at Gainesville Sanitarium Thursday, April 18, at 1:33 p.m. He is the grandson of Mr. and Mrs. Ewald Berend of Gainesville and Mr. and Mrs. Nick Yosten of Muenster and has two great-grandparents, Mrs. Mary Berend of Gainesville and Frank Mages Sr. of Lindsay.

Mr. and Mrs. John Arend, route 1, Muenster, are the parents of seven pound 10 ounce boy born at Gainesville Sanitarium April 19 at 5:33 p.m. They have one other boy and two girls. Mrs. Lena Arend of Lindsay and Mr. and Mrs. Adolph Pittner of Gainesville are the grandparents.

Newest arrival to the Clarence Erpeldings of Colorado Springs, Colo., is Larry Joseph, weight seven pounds eight ounces. He was born April 11. The little boy has a brother and two sisters and is the grandson of Mr. and Mrs. Joe Swirczynski. His paternal grandfather Peter Erpelding lives in Bode, Iowa.

In this group are several nationally-known firms, including the Flintkote Company, Ennis; International Business Machine Corporation, Sherman; Johns-Marville Corporation, Denison; Fleetwood Trailers, Inc., Waco; Southern Paper Box Company, Paris; Hubbard & Company, Plano, and General Cable Corporation, Bonham.

"What do you mean by that?" asked his mother.

"Well," he replied, "she's mean to everyone."
