MUENSTER, COOKE COUNTY, TEXAS,

APRIL 19, 1957

NUMBER 22

Ed Moster, 64, Dies After Long Illness; Rites Monday at 9

Once again it is saddening to observe that the anniversary of Christ's supreme sacrifice and triumph witnesses more of the same old world tension. The principles which He taught, which were proved to be true because He proved Himself to be Divine, are still being disregarded by men who shape the course of history.

This week points up the sad fact that many important men who claim to be His followers are not applying His standards. So-called Christian nations are doing what is expedient rather than right, betraying millions of helpless human beings by accepting a monstrous plan of co-existence. Christian civilization has failed Christ by neglecting to stand up for the way of life that He taught.

As things are going nowadays a person is inclined to wonder how much longer things will get worse before they start getting better. When will the light dawn upon those who make the big decisions? Will we, as some predict, wreck civilization first then let the remnants of mankind start over? Or will we re-organize our scattered strength in time to avoid the devastation?

This is the big question facing humanity now. And its solution depends entirely on how many people are willing to get their answers from Christ. We've got to go by strict standards of right and wrong rather than the present system of international horse trading. We need the intellectual honesty and humility to admit past mistakes and strive to correct them rather than keep trying to hide them. We need the courage to stand up for the right regardless of the enemy's threats. Above all we need the spiritual strength to dedicate our personal lives to His way of running the world.

Good Friday and Easter have a profound spiritual significance, and fortunately no human being who so wishes can be deprived of the Eternal blessings they have made available to him. Likewise they have a profound temporal significance. They prove indisputably that Christ's teaching is God's teaching, the only way for His creatures to get along in His world.

With justified indignation many of us have been beefing lately about the Federal government's enormous budget. 72 billion is a staggering figure, several billion more than it ought to be, according to many economy conscious national leaders.

One point that escapes the average person's notice, however, is that the budget, when figured in true values, is not really as high as it seems. Inflation has to be considered. Besides the population is greater so some budget increase is justified. Make adjustment for those two factors and the budget becomes a little less outrageous.

As regards inflation, however, let's bear in mind that its principal cause was the attitude of our Federal government. The official spending spree, accompanied by policies which seemed to encourage high wages and high prices, relentlessly drove down the value of money. It seemed as though the powers of the Potomac were deliberately striving to cheapen money as they increased the national debt, stealing from the national savings to avoid a reckoning for their spending sprees.

Another cycle of the inflation appears to be in the process of developing now. Along with the sky-high budget we have reports of coming demands for less work and higher pay. That will mean more price increase, more depreciation of the dollars now in savings. The American people, including those who receive pay raises, are to be shorn of more of their savings.

Therein lies the real absurdity of this economic nightmare. Union leaders, supposedly with the workers' interest at heart, get the members a raise. Prices go up accordingly and in a short time the workers are back on the same wage and cost of living level. But meanwhile the real value of insurance policies, bank accounts or other savings has depreciated. Actually labor has been losing rather than gaining by the pay raises.

And now, it seems we're headed for more of the same. When will people wise up?

Ed Moster, 64, a resident of Lindsay for the past 20 years since moving to that community from Muenster, died Thursday at about 5 a.m. in Gainesville Sanitarium after a prolonged illness.

Four years ago he suffered a stroke from which he never fully recovered. He had several strokes since then, including one about a week ago which left him in a coma until his death.

Funeral services will be held Monday morning at 9 o'clock in St. Peter's church at Lindsay with the Rev. Conrad Herda, pastor, officiating. Burial in the Lindsay cemetery will be directed by George J. Carrol and Son, Funeral Home. Rosary services will be held at the funeral home chapel Friday, Saturday and Sunday nights. The funeral is being delayed on account of Holy Week church services.

Mr. Moster was born Dec. 15, 1892, in Sarcoxie, Mo., a son of Mr. and Mrs. Joseph Moster and moved to Muenster with them when he was seven years old.

He was married to Miss Margaret Koesler here on July 31, 1917, and farmed south of town until 1936 when he moved to Lindsay and continued farming there.

Survivors are his wife, four sons, John Moster of Muenster, George and Lawrence Moster of Lindsay and Herman Moster of Gainesville; four daughters, Mrs. Joe Hellinger and Miss Hilda Moster of Gainesville, Mrs. Bob Brewer of Wichita Falls and Mrs. Louis Wiesman of Farmington, N.M., and 22 grandchildren.

A brother, Leo Moster, and a sister, Mrs. Bertha O'Callaghan, preceded him in death.

Community Crops Escape Damage in Late Spring Freeze

Grain crops, vegetables, fruits and flowers of the varieties that are subject to damage in a light freeze had a narrow escape last Friday night when temperature fell to 29 degrees. The effects on fruit still are not definitely apparent but other vegetation is known to be in good condition.

Tender plants like tomatoes, corn and spuds at first seemed to be hit rather hard. Flowers also were droopy Friday morning but looked much better before noon. By noon of the next day a few nipped leaves here and there remained as evidence of the sub-freezing blast.

Crop conditions in general are still very favorable. In contrast with the few years immediately past, farmers now are concerned with excessive moisture rather than with too little of it. Grain is rank, in danger of breaking over in a hard wind or beating shower. Likewise dampness makes it more subject to rust. Other vegetation finds the condition more favorable. Pastures and alfalfa are thriving. Corn and other row crops are getting a fine start.

Mrs. Wallis, Mother Of Mrs. Toothaker, Passes in Sherman

Mrs. D. L. Wallis Sr., 81, mother of Mrs. Lee Toothaker of this city, passed away Monday night in Sherman following a long illness. She had been blind and paralyzed for the past six years. She died in the home of a daughter, Mrs. Bob McAfee.

Funeral services were held at 10 a.m. Wednesday in the Daniel Funeral chapel with Dr. W. Landon Miller, pastor of the First Baptist church, officiating. Burial was in Memorial Park cemetery.

Mrs. Wallis, a native of Atlanta, Ga., came to Texas in 1892 and was married to D. L. Wallis in Weatherford the following year. He died in 1951. She lived in Sherman since 1944 after spending more than 40 years in Denton.

Survivors are six daughters, two sons, five sisters, 13 grandchildren and 16 great-grandchildren.

Friends attending the funeral included Mrs. J. M. Weinzapfel, Mrs. Tony Gremminger, Mrs. C. F. Gobble and Mr. and Mrs. Byron Sears.

Happy Easter

Wolf Wins Second Place in Mile Run At Regional Meet

James Wolf, mile runner on the Muenster High track team, will be the only representative of District 37-B at the state track meet in Austin on May 3 and 4.

He was second place winner in his event at the Regional meet held last Saturday at the NTSC field in Denton. Winner of the event was Howard Dugger of Itasca with a time of 4 minutes and 50.9 seconds.

Dee Kaderli was the only other Muenster entry to make a showing at the meet. He ran fourth in the 880 yard run but failed to qualify for the state meet. Only first and second place winners in the regional can go to the Austin meet. Other Muenster entries at the meet were Hubert Richey and Dan Hamric.

Another 37-B member who placed in the meet was Cecil McFarlin of Valley View. He was fourth in the broad jump.

Team honors at the meet were carried away by Clifton High School and individual honors went to Bill Polk of White-wright who tied Joe Noggler's 1955 Regional record of 10 seconds flat in the 100 yard dash and trimmed Noggler's 220 yard record from an even 22 seconds to 21.8.

Ervin Hamric Named New PTA President

Members of the Muenster Public school Parent-Teacher Association Tuesday night elected officers who will assume their duties next September.

New officers are Ervin Hamric, president; Mrs. David Trachta, vice president; Mrs. R. P. Cain, secretary. Returned to office for another year are Mrs. Albert Fleitman, treasurer, and Glenn Hellman, parliamentarian.

Mrs. M. D. Kaderli, retiring president, conducted the business session during which announcement was made of a benefit bake sale scheduled for May 11, and the grade school's operetta slated for May 22.

Another coming event that was discussed is the annual junior-senior banquet and prom. It will be held next Tuesday night, April 23.

For the evening's program the sewing class of the home-making department presented a style show, modeling the garments they have just completed. Thirty-three girls modeled dresses in a wide variety of styles from sports outfits to evening frocks. Two of the models showed skirts and blouses they made, and seven tiny girls modeled children's dresses made by the sophomore class.

Marcy Klement, FHA president, was narrator and Jim Harris' dance band played background music.

Refreshments of cookies and coffee were served by Future Homemakers of America after the meeting.

City Shut-Down From 2 to 5 Urged For Good Friday

In a traditional Holy Week proclamation this week Mayor Urban J. Endres designated Good Friday, April 19, as a day of special reverence and called on all residents to observe it fittingly by suspending business and attending church services.

The proclamation asks that all business houses close between the hours of 2 and 5 o'clock, allowing ample time before and after Good Friday services which begin at 3 o'clock.

Mayor Endres called attention to the community's fine record of observing Good Friday in the past and asked that this year's observance be carried out in the same respectful and edifying manner. He urges complete cooperation, that all business firms close their doors, that workmen lay down their tools and that all people refrain from unnecessary driving.

Weekly Trades Day Event Organized By Business Firms

A weekly "Appreciation Day" sponsored by about 20 Muenster business firms is being organized now and is expected to be ready for its opening event on Saturday, June 1.

The copyrighted program, conducted in cooperation with the National Trades Day Association of Weatherford, offers a weekly drawing for a portion of the treasure chest. A winner's share of the chest is determined by the percentage indicated on his coupon.

Coupons are available without obligation, and more coupons are given with sales by the participating merchants. A winner must be present to receive his treasure, however, the usual practice is to send a token prize to the person who was not present to collect.

Any money not collected remains in the treasure chest. At the same time participating merchants add \$2 each to the chest every week. From a small beginning the chest frequently grows into thousands of dollars.

Participating business men will meet next week to consider a set of local rules for conducting the Appreciation Day.

Jerry Yosten, 8, son of Mr. and Mrs. Werner Yosten, is a surgical patient at Gainesville Sanitarium.

Mrs. Tom Gallery and daughters Gretchen and Michele of Scarsdale, N.Y., are here to spend the Easter holidays with her parents, the John Fettes and family. They came by plane to Dallas where Mrs. Ben Seyler met them.

City Names Bruns to Manage Swim Pool

L. B. Bruns, principal of Muenster High School, will again be in charge of the municipal swimming pool and Dan Hamric, MHS student, will be his assistant. The appointments were made by the city council at its regular session Monday night.

The council also decided that admission charges will remain at 35 cents and 15 cents and that the pool will be opened as soon as Bruns and Hamric can get ready after the close of school.

Last Salk Series At Special Price To Begin Tuesday

Last call for persons who wish to get their polio immunization vaccination for \$1.00 per shot. The last series to be available at the Muenster Clinic at the reduced price will begin Tuesday, April 23, Dr. T. S. Myrick disclosed this week.

On the same day several hundred other persons, who received their first shots a month ago, are due to receive their second shots. Likewise, a few, who started the series six months ago, are due to take their third and final shots next Tuesday.

According to the calendar the vaccination date is Monday but was delayed a day to avoid a conflict with Easter Monday activities.

Dr. Myrick particularly emphasized that shots to be effective should be received on schedule. Persons due for their second or third shots should be sure to report Tuesday to avoid starting a complete new series. He also said that he expects the community to be about 90 per cent immunized after this last series is completed. About 800 persons have either started or completed the series.

MHS Takes First In Journalism at Regional Meeting

Muenster High School's journalism team won first place and Pat Horn achieved top individual honors Saturday at the Regional Interscholastic League Meet at North Texas State College in Denton.

Pat ran up a score of 325 points and will represent Region III at the state meet in Austin early in May.

The team composed of LuRena Wolf and Pat Horn won first place with a score of 527. LuRena placed fourth for individual recognition with a score of 202 points.

Pat earned her honors by winning first in news writing, second in editorial writing, copyreading and headline composing, and fifth in feature writing. LuRena shared first in headline writing and feature stories and was fifth in news writing and copyreading.

Also attending the meet were Fred Savage, the school's journalism and English teacher, and Lorraine Sicking and Mary Pick. Lorraine and Mary entered in the ready writing contest but did not place.

A senior at Muenster High, Pat is associate editor of the school's paper, The Hornet's Voice. She is active in the Band and in CYC activity and plans to major in journalism in college. She is the daughter of Mr. and Mrs. Joe Horn.

District Baseball Halted by Weather

Weather has knocked out another pair of baseball games at Muenster High School. Last Friday's encounter with Era was postponed because of a near-freezing wintry blast and Tuesday's game with Callisburg was discouraged by a combination of wet ground and cold air.

Up to now the Hornets have played one game, an 8-4 loss to Valley View. Era and Callisburg have not played a single game. The situation in general seems to call for eliminating half the games and play a single round robin schedule. That now appears to be about the only way the district can decide its championship by the Interscholastic League deadline.

Superintendent Homsley said he is heartily in favor of that change. He favored the single round robin schedule when it was first suggested at a district meeting several weeks ago and he was disappointed when the official schedule called for two games with each opponent.

Butter Added to List of Products At NTPA Plant

Add butter to the list of products made in the Muenster plant of North Texas Producers Association. The operation is due to get under way as soon as the current peak period tapers off sufficiently to set up the new equipment and put it to work.

A huge new stainless steel churn with a capacity of 2,000 gallons is at the plant awaiting installation. With it are two vats each designed to hold a complete batch of butter. The vats are mounted on wheels and equipped with electrically powered hydraulic lifts for convenience of unloading.

The churn adds another operation at the plant and also presents another opportunity to salvage a higher return from the products which are classed as surplus. The best market for sweet cream is the ice cream industry and a big percentage of the local cream is used in that way. The rest has been delivered to butter plants.

Installation of the churn here will serve a double purpose. It adds another operation, and another source of revenue, to the local plant. Besides it relieves

(Continued on Page 2)

Three Day Revival For Easter Planned At Baptist Church

A three-day Youth Revival begins at the First Baptist church Friday with Evangelist Bill Self of Decatur Baptist college conducting the preaching services. Bill Baker of Burkburnett will be here as song leader. Pastor Billy Whitt points out that the revival is not solely for young people — that it is intended for the entire congregation.

On Friday and Saturday nights, prayer services begin at 7:30 and the preaching service starts at 8 o'clock. Youth fellowship will follow each service.

Easter Sunday is the big day with Sunday School at 9:45 and the morning message at 11 o'clock. A covered dish luncheon is on the program for 12 noon, and there'll be an Easter egg hunt for children at 2. The evening preaching service will begin at 7:30.

Special music will be presented by young people every night and guest musicians from Gainesville will give a program.

Junior High of SH School to Present Original Operetta

Operetta comes to Muenster again this season with an original musicale entitled "Happiness Valley." Date for the presentation is April 28.

Directed by Sister Carmelita and Sister Jane Frances, the cast includes students of the seventh and eighth grades of Sacred Heart School.

Stage settings and costumes for the 75 minute dramatic composition are home made copies of native scenes and dress of Mexico, Spain, China, Scotland, Ireland, Vienna, Austria and Texas, USA. Songs and dances traditional and familiar in these localities will be done by the young amateurs.

The leading role, that of a ballerina, is played by Gloria Yosten. Strong supporting roles are played by Carol Fette, Dorothy Bayer, Jim Moster, Martha Sue Meurer, Kathleen McGannon, Mary Lou Owen, Patsy Endres, Margorie Schoech, Joan Fisher, Carol Wimmer and Phyllis Cler. All students of both classes appear in minor roles or in group scenes.

The story, done to song, dance and dialogue, tells about Queen Ermalinda, the dancer, who is the ruler of her country. She had been enjoined by her father to encourage the arts of song and dance among her subjects. Each year a dance festival is held. This particular spring, however, the royalty decides, to surprise the village folk with new types of entertainment. To accomplish this Ermalinda visits other countries in search of talent.

Annette Fuhrman, young daughter of Mr. and Mrs. Marcus Fuhrman, has been dismissed from Gainesville Sanitarium following an appendicitis operation and is convalescing at home.

Local News BRIEFS

Mary Weinzapfel of OLV Academy, Fort Worth, arrived Wednesday night to spend the school holidays with her parents. Other guests in the J. M. Weinzapfel home will be Mr. and Mrs. Henry Weinzapfel and son of Whitesboro who will also visit her parents, the Arthur Hellmans.

Georgia Ann Owen and Laverna Hess of Fort Worth will spend the holiday weekend with their families, Messrs. and Mmes. Ray Owens and Gary Hess.

Assistant County Agent D. B. Wheeler met with 4-H club members of Sacred Heart school Tuesday for a program on the planning of record books. After demonstrating the correct way to report projects and enter them in the record book, Mr. Wheeler gave a talk on field crops.

Mrs. John Schilling of Houston is here for an indefinite visit with her children and other relatives and friends.

Mmes. J. C. Trachta, Richard Grewing and David Trachta were Fort Worth visitors Tuesday.

Charles Felderhoff and Basil Reiter, students at Dallas University, are spending the Easter holidays with their families.

Donald Bayer, Wilfred Klement, Eugene Walter and Lawrence Milner of Texas A&M College are guests of their parents for the current holidays.

Mr. and Mrs. Kenny Wiesman of Houston will be here for the holiday weekend to visit their parents, the Herbert Meurers and Al Wiesmans.

Finding a way to live a simple life is today's most complicated job.

Butter at NTPA

considerably the demand on the plant's hauling facilities. The butter manufactured here will be packed in 64 pound boxes and shipped to a West Coast packaging plant which supplies a nation wide system of chain stores. At this time the plant does not have a market for its new by-product, buttermilk, but expects to find a market for dried buttermilk.

Milk receipts at the NTPA plant now average about a half million pounds daily and the plant is in the middle of its annual big rush. With milk production at its peak a larger volume of surplus milk comes in. At the same time the plant's orders for Grade A milk are below normal . . . because other areas too have plenty of milk . . . so a much larger percentage is left for processing.

Selling Grade A milk is the preferred and most profitable operation at the NTPA plant. Whatever milk is left has to be processed into milk products. The principal processing operation now is making condensed or powdered milk, which requires separating cream before skim milk goes to the condenser. There again, the plant has two possible operations, one more profitable than the other. As much cream as possible is sold to ice cream plants and the rest is used for making butter.

Building And Improvement Notes

Building activity in Münster nowadays consists of just two jobs, the combined warehouse and truck shed for NTPA and a new home for Louis Roberg.

Work on the NTPA building is running slightly ahead of schedule. Walls are more than half finished and steel erection for the roof is due to start next week.

Louis Roberg's house, in the southeast part of town has been under construction for about three weeks. It will be a 2-bedroom house with brick and shakertown siding, double carport, central heating and air conditioning.

One job is under way in the Münster rural area. It is a hay barn for Kleiss Brothers.

While the slump is in effect here Lindsay is going strong and providing work for several of the local carpenters. Two new homes are nearing completion, one for Raymond Hermes on Highway 82 near the Gainesville golf course, the other for Wilbert Block on the FM loop east of Lindsay. A house for Billy Zimmerer in Lindsay was started Tuesday. All three of the new houses have 3 bedrooms, central heating and attached garages.

An improvement completed lately is a refinishing job for the NTPA offices. It includes new floor coverings and new wall and ceiling paint throughout.

Another improvement currently underway will add considerably to the shelf space at Pagel's Store. Maurice is spending his spare time building new racks to replace several of the store's old tables and counters.

Totem poles may be likened to a family coat of arms.

Blessed Events

Mr. and Mrs. Stan Wylie welcomed the arrival of their daughter at 3:30 a.m. Monday, April 15, in a Fort Worth hospital. The seven pound eight ounce girl has two brothers and is the granddaughter of Mr. and Mrs. Bill Kathman, Münster, and Mr. and Mrs. W. B. Wylie of Wichita Falls.

Mr. and Mrs. Harvey Buttrell of Fort Worth — she's the former Dorothy Sicking — are the parents of a son, a brother for Mike, born Wednesday, April 17, at St. Joseph's Hospital. Gus Sicking of Münster and Mr. and Mrs. W. H. Buttrell of Fort Worth are the baby's grandparents.

The Incas used a water clock.

Dairy Group Sees Program on Disease

Recent discoveries concerning symptoms and effects of cattle diseases, especially in relation to the animal's reproduction, will be shown and explained to members of the Cooke County Dairy Association and to other interested persons in the near future.

Directors of the organization decided to bring the program to their members after seeing it in their own special program Monday night.

County Agent Neil Tibbets gave the talk and showed illustrating slides.

Make a plastic dust protector for your ironing board. Cut plastic several inches larger than the board, and hem. To make the cover fit the ironing board snugly, run elastic through the hem.

Safety Rules for Power Mowers

A power mower is a potentially lethal weapon unless it's handled with a bit of judgment. Here are some do's and don'ts for its safe operation, given by the editors of CHANGING TIMES, The Kiplinger Magazine.

Clear the lawn of stones, wire and other debris before mowing. Don't work on the mower, adjust it or remove foreign matter, unless the motor is stopped. Be sure that small children and pets are well out of the way. Don't use an electric mower when the grass is wet, and don't smoke while fueling a gasoline mower. Learn how to disengage the clutch quickly. And finally, turn off the motor before leaving the machine unattended.

An employer says an Eskimo woman is old at 40. An American woman is not so old at 40. In fact, she's not even 40!

Windthorst Parish Plans Anniversary Observance In July

By Rev. Cyril Lange, O.S.B.
In July of this year the members of St. Mary's parish will celebrate the 65th anniversary of its founding. To quote the words of Rev. Albert Schreiber, O.S.B. in his history "Mesquite Does Bloom," we would like to recall a memorable event, "Atop the highest point in Archer County, a group of colonizers planted a wooden cross towards the end of July, 1891. Under the cross-beam they nailed a second arm bearing the inscription 'Windthorst'."

This historic event, the descendants of these colonizers are this year commemorating by the repair and repainting of their beautiful church. This is the third church built by this thriving little community. The first church was completed in 1893, this was destroyed on January 3, 1894 by fire. The second church was built in 1904, this was also destroyed by fire on May 2, 1924. The present church was solemnly blessed on November 25, 1925. This edifice, the witness

to many joyful and sad occasions, is the pride and joy of every member of the community. The members of the parish are all contributing generously toward this anniversary project.

The work on the church, completed last week, had been in progress for about six weeks. The committee to assist in the details of the repair and painting included: Louis Schroeder, Albert Veitenheimer, Alois Lindeman, Jake Horn, Robert Wolf, Oscar Pennartz, Alfred Berend, Jr., Alvin Koetter, Ed Veitenheimer, Edward Berend, John Schreiber, Frank Koetter, and Ernie Hoff (who volunteered when his father Ernest could not serve.)

If any friends or former members of the community wish to help along, they may send contributions to the Rev. Pastor.

The contractor for the over all job is L. J. Gentry and Son of Henrietta, the firm which built the present church in 1925. His building has stood the test of 32 years and the parish is proud to have him back.

Mr. and Mrs. Don Hudgins who lived in Mrs. Mary Voth's house on North Main for the past two years have moved to Sherman to make their home.

3rd Order to Keep Sanctuary Light Burning One Year

Desiring to contribute toward a charitable cause, members of the Third Order of St. Francis, Sunday agreed unanimously to keep the sanctuary light burning in Sacred Heart church for one year. The offering for the light's candles will be taken from the fraternity's treasury.

The business session of the organization in the parish hall followed the regular monthly prayer service in church at 2:30.

J. W. Hess, prefect, presided, and routine business was discussed. At the suggestion of Rev. Elias Koppert, provincial from Chicago, members of the Muenster, Lindsay and Gainesville fraternities will have a joint conference here in the fall. Plans for the afternoon's program are being worked out by officers.

It was announced that profession ceremonies will be held here on May 17 and anyone wishing to join as a novice at that time is welcomed.

After the business, Mrs. J. W. Fisher gave a short reading on "Prayer," and Mrs. Leo Henschel followed with a reading concerning the Third Order rule. About 50 members were present.

California Couple Honored at Dinner

The home of Mr. and Mrs. Herman Fette was the scene of a dinner party Sunday honoring her grandparents, Mr. and Mrs. V. H. Brown of Santa Anna, Calif., who are spending a month's vacation in Cooke county.

Sharing honors of the occasion was little Judy Stewart of Gainesville, great-granddaughter of the Browns, who was observing her sixth birthday. A decorated cake and gifts for Judy added a festive touch to the event. Long stemmed purple iris and Bells of Ireland decorated the party rooms.

Other guests were Mr. and Mrs. J. Q. Stewart and the rest of their family, Mike, David and Martha Ann of Gainesville and Becky Waggoner of Saint Jo.

In the afternoon the grownups drove to Forestburg for a visit with Mr. Brown's sister-in-law and old friends. Tuesday Mrs. Brown, Stewart and Fette went to Dallas to be dinner guests of old friends of the Browns in that city.

Girl Scout News

Troops 101 and 80

Brownies of Troops 101 and 80 and their leaders Mrs. Fred Savage and Mrs. Gene Hoedebeck held a joint meeting in the City Park and helped Mrs. Hoedebeck celebrate her birthday.

The open air meeting began and closed with the Brownie ritual and the afternoon program provided games and refreshments of birthday cake and ice cream. Cheryl Savage, member of Mrs. Hoedebeck's troop, baked the cake and presented it to the honoree.

Troop 89

Girl Scouts of Troop 89, continued their present project of making hot pads at their meeting in the home of Mrs. R. N. Fette, with Mrs. Lou Wolf, assistant leader, helping with the details of the handwork. The girls are fashioning the pads from bottle caps covered with bright material and sewing the sections together. Sandra Walter, refreshment hostess, served ice cream sandwiches. The recreation period was devoted to outdoor games.

Troop 86

Troop 86 Girl Scouts, at their regular meeting, fashioned puppets from paper sacks and produced novel and comical marionettes which they displayed to the delight of those present.

The afternoon opened and closed with the troop ritual and ice cream bars were refreshments.

The meeting was held in the home of Mrs. Urban Endres, leader, with Mrs. Cecil Sims, assistant, present.

Troop 87

Brownies of Troop 87 held their regular weekly meeting in the home of their leader Mrs. Joe Tempel. The routine opening ritual was followed by games and songs and then the group made plans for an Easter egg hunt to be held in the City Park. Eight members and Mary Catherine Walterscheid, assistant to Mrs. Tempel, attended. Ice cream bars were refreshments.

Pause For Reflection

with James C. Ingebretsen President, Spiritual Mobilization

Charles Van Doren, TV's quiz genius, in a recent issue of This Week magazine, told how his father, Mark Van Doren, poet and critic, encouraged him, as a boy, to find the answers to innumerable questions and store them in his mind.

But Charles then added: "There are two kinds of questions: the ones that have answers that can be found in books or by asking an expert, and the ones that have no answers that are satisfactory when they come from anybody but yourself. The answers to the great questions — What is life? What is love? What should a man do? — these are never simple, and must be thought out by each human being . . ."

This, I think, is profoundly true. But there is one book that can help us answer even these questions — the Book of books.

It was the great literary scholar, William Lyon Phelps, who said, "I believe a knowledge of the Bible without a college course is more valuable than a college course without a knowledge of the Bible."

So, while we are frantically trying to produce more engineers, more technicians, and more college-trained people of every other kind, let us not forget that to fill the head while leaving the heart empty is like growing a tree with a top too heavy for the trunk to support. In the testing time, when "panic strikes like a storm and calamity comes like a whirlwind," it is the stout of heart, rather than the merely stuffed of head, who will endure.

KARL MARX'S GHOST

The working of Karl Marx's ghost in the United States is revealed by editor Celdon of the Carroll County, Maryland, Times, in the following editorial:

"The present Federal income tax structure is exactly the same kind of tax system advocated by Karl Marx for the destruction of the middle classes and of capitalism itself.

"Marx could not have devised a more monstrous tax plan than our present program which is leading to complete destruction of all individual freedoms.

"Our American system of taxation has changed in purpose from providing revenue for the support of the government to a scheme for revolutionizing our social system.

"The tax system has gradually been adopted so that it is devised not to raise revenue but to reform society and to mold the lives and to distribute our wealth, according to the ideas of the economic and social planners.

"The top rates of the Federal individual tax is about as close as one can get to outright confiscation of property without due process of law. Ninety-one percent of income is imposed on the highest incomes and the destructive effect of progressive rates start way down in the middle income groups just as Marx visualized.

"There should be a revision of the present discriminatory and confiscatory tax rates. This would release the tax blocks and assure maximum growth of all business without government manipulation and control."

Aspiration plus perspiration enables a man to reach his goal.

The Bible - Source of Human Freedom

TRACTORS THEN AND NOW

Writing in Agricultural Leaders' Digest, E. R. McIntyre tells of "Tractors Then and Now." He compares the tractors of the mid-thirties with those available today.

The old tractors did a good job. They saved labor and cut production costs. They played an honored role in the agricultural revolution. But they don't compare with their present-day counterparts in any particular. The modern tractors are more powerful. They are capable of more work in a given period of time. They require less maintenance. They have all sorts of valuable features, running a wide gamut from electric starters to hydraulically controlled hitches, that were unknown in the old days.

Just about every farmer will agree with this. But what is not nearly so generally understood is what has happened to farm machinery prices, in relation to farm labor costs and the return the farmer gets for crops.

Mr. McIntyre covers this ground clearly. Farm labor prices have risen faster than the machinery prices — and the result is that it took 312 fewer days of hired labor to buy a 20-30 HP tractor in 1956 than in 1940.

In 20 years, the prices paid farmers for corn and wheat have risen by 137½ per cent and 117 per cent respectively. Yet a typical tractor costs only about 46 per cent more than its predecessor of 20 years ago — and it is a far superior machine.

The farmer who buys a "tractor now" gets a better deal than the farmer who bought a "tractor then."

GASOLINE A REAL BARGAIN

Ask the average automobile owner if he thinks gasoline is too expensive, and the unhesitating reply will be a loud, resounding "yes." That answer would be correct — gasoline is too expensive.

But the excessive price cannot be laid on the doorstep of your filling station owner who fills your tank, or the gasoline refining company that fills his.

The villains in this gasoline drama are the Federal and State Governments. Mr. and Mrs. Average American Motorist paid \$53.44 during 1956 in direct taxes levied on motor fuel.

From 1925 to the present, including even the most recent price increase, the consumer's cost of gasoline, exclusive of taxes, has increased only 15½ percent. During that same period, the selling price of clothing increased 67 percent, household furnishings 62 percent and food 71 percent. Looks as though the gasoline folks have held the line against inflation, doesn't it?

What's more, the gasoline you fill up with today is a vastly superior product to what you purchased in 1925.

So, if you just have to squawk about the price you pay for gasoline at your filling station, don't ride the poor innocent owner — holler to your guilty Federal and State legislators. The price you actually pay for the gasoline, exclusive of taxes, is one of the

Easter Has A Double Meaning

By Rev. Eugene Burke, professor and author

The Resurrection of Jesus tells the Christian that the power to vanquish death and to put on immortality is now held out to him and to all men. Death, which has always stood astride the path of the future—robbing our dreams of fulfillment—is finally conquered.

YET, EASTER cannot be seen only as a victory. It must enter our lives in the same way in which it entered into the history of man—by way of the Cross. The Resurrection of Jesus is the victory—but death on Calvary is the battlefield where victory was won.

How can failure, and suffering, and defeat be the very weapons of victory? What is the meaning of this Christian paradox?

THE ANSWER lies in a fact that enters into the life of each of us—the fact of sin. Sin is the force that alone possesses the power to destroy life.

Not only do pride, selfishness, lust, avarice and murder destroy the noblest hopes of man. But these sins cut across the path of life, destroying our relationship with God. And He alone can

fulfill our dreams by an everlasting life.

TO ALL the disorder and fury of man separated from God, Christ submitted Himself, willingly and lovingly, for our redemption. And His obedience, even unto death on the Cross, made it possible for man to be freed from the slavery to sin and be taken into the light and kingdom of God. "By dying He has overcome our death; by rising again He has restored our life."

This is the twofold reality that must be found in our lives if they are to be triumphantly Christian. If we do not share in the power of the Cross over sin, we will not share in the glory of Easter.

AND WE do not share in Christ's power and glory simply by believing in it—or by hearing it—or by reading about it. We must LIVE it, by our personal individual acts and choices. Like Christ, we must "do only the things that are pleasing to my Father."

We must live in the conviction that every step of the Christian life, Christ has taken before us, and now takes with us. This is to share personally in the passion of Christ—the one road that leads to our everlasting share in the glorious victory of Easter Sunday.

SOIL CONSERVATION DISTRICT NEWS

Coastal Bermuda grass roots are still going into the ground in the Muenster-Saint Jo area. Cooperators of the Upper Elm-Red Soil Conservation District are taking advantage of favorable moisture conditions to get a planting of this fast-growing hybrid grass. Many small plantings are being made on sandy soils to get nursery plots started for a source of roots for future plantings.

Frank Bindel has just finished planting 25 acres to Coastal on his farm north of Muenster. The grass was planted on field area that is subject to erosion and had suffered damage in the past. The grass will hold the soil and prevent land and water loss. At the same time it will furnish excellent pasture for livestock. A portion of the grassed area will serve as an outlet for terraces which will be built to protect the sloping fields.

Weldon Dennis has planted eight acres of sandy bottomland to Coastal for a root nursery. It will be used to supply roots for future plantings on the Dennis farm near Bulcher. This landowner has vetch and button clover on all his bottomland fields and the 110 acres in legumes are furnishing lots of high protein grazing for his livestock.

He also has vetch seeded on the old needlegrass upland fields to build up the land's fertility so that grass can be planted in the next few years. Seed prospects from the vetch and button clover on the bottomland pastures are looking bright.

ROAD TO RUIN
H. W. Prentis Jr., chairman, Armstrong Cork Company, is a student of history. Great civilizations, he has found, decay and disappear by a set pattern: "From bondage to spiritual faith; from spiritual faith to courage; from courage to freedom; from freedom to abundance; from abundance to selfishness; from selfishness to complacency; from complacency to apathy; from apathy to fear; from fear to dependency; from dependency to bondage."
Thus went the Roman Empire. Think of it in terms close to home, if you will. Dependency: Nearly 38 million Americans are receiving payments from the Federal Government. —Dallas News.

Wedding Date Set For Frank Krebs Dorothy Luttmer

Mr. and Mrs. Henry Luttmer, route 6, Gainesville, have announced the approaching marriage of their daughter, Dorothy Faye, to Frank J. Krebs Jr., son of Mr. and Mrs. Frank Krebs of route 1, Gainesville.

The wedding will take place in St. Mary's church on Wednesday, May 8, at 4 p.m. with the Rev. E. J. Gerlich, pastor officiating.

Carolyn and Jerry Hoedebeck of Dallas will be the bridal attendants.

The bride-to-be was graduated with the 1955 class of Gainesville High school. The prospective groom, a graduate of St. Mary's school, spent two years in the army with 20 months' service on Okinawa. He is employed by National Supply Co.

Freshmen Give Lab Equipment to School

As their gift to the school this year, freshmen of Sacred Heart High have added a handsome demonstration table to the science laboratory equipment.

The class raised the money for the project by running the popcorn machine on Tuesday and Thursday and by other benefit events to give the school the gift equivalent to about \$600.

Jerry Vernon, the school's athletic coach — he's also a union carpenter — made the table in his leisure time. The class project, started at the beginning of the term, reached fulfillment when the gift was presented to the school recently. Just as elated as the students over the lab's equipment is Sister Theresina, freshman class sponsor and science instructor.

Name Speaker for Athletic Banquet

The Rev. James Fitzpatrick of Dallas will be the featured speaker at Sacred Heart High school's annual all-athletic banquet this year, it has been announced. He is assistant pastor of St. Edward's church. The program is scheduled for May 8.

Awards will be presented to lettermen at the event.

The junior-senior prom will follow the banquet.

When you are tempted to speed, remember the words of Barney Oldfield, dean of American automobile racers: "When the speedometer hits 60," declared Mr. Oldfield, "think of 66 feet, for that is how far your car will travel after you decide to stop, and before your foot even touches the brake pedal. When your speedometer says 50, think of 55 feet; if 40, of 44 feet."

Experts call this the "reaction distance," that is, the distance your car will travel before your nerves and muscles can respond to your mental command to apply the brake. To find how much room you need to stop safely at 40 or 50 or 60 miles an hour, multiply this reaction distance by three. For instance, at 60 miles an hour, you cannot stop your car in less space than 198 feet, or almost the distance of an ordinary city block.

The U.S.S. Holland, which became the first undersea craft to be commissioned by the U. S. Navy was accepted on Apr. 11, 1900 for a price of \$150,000. Today's atomic submarines cost about \$30,000,000 exclusive of the power plant.

Mrs. Willie Walterscheid and a baby son will leave Friday to return to Fountain, Colo., after spending a week here with her parents, the H. H. Homsley's and her husband's family, the Al Walterscheids.

Local News BRIEFS

Kenny Fette, Lloyd Klement, William Fisher and Jerry Reiter, students at St. John's Seminary in San Antonio, arrived Wednesday to spend the Easter holidays with their families, the Herman Fettes, Ray Klements, Paul Fishers and Alfons Reiter's. They will resume classes next Tuesday.

Guests of Mrs. William Bergman Friday through Sunday were her son and daughter-in-law, Mr. and Mrs. Joe Bergman, another daughter Mrs. Anna Knoff and her daughter and baby daughter, all of Kansas City. From here the visitors went to Oklahoma City to see their sister, Sister Mary Beatrice.

Mr. and Mrs. H. L. Herron of Denison visited here Tuesday with homefolks and stopped at Lindsay for a visit with a daughter, Mrs. Bernard Gieb and family.

Sunday guests of J. D. Walker and his mother, Mrs. Ada Walker, were the former's daughter and family, the B. E. Dunsworths of Burleson and Rev. C. F. Cody of Sadler. Rev. Cody is pastor of the Shiloh Baptist church.

Jerry Henscheid arrived Saturday to spend the Easter holidays with his parents, the Leo Henscheids. He is a student at St. Edward's University in Austin and has a recess from classes until next Tuesday. Expected to join them this weekend for a holiday visit are Mr. and Mrs. Damien Hellman and son Kevin of Lubbock who will also visit his parents, the Rudy Hellmans.

R. M. Zipper, Mrs. C. J. Kaiser and daughter Joannie drove to Dallas Sunday to take little David Stockman back home after a three-week visit here with his grandparents, the Zippers. In the afternoon the infant son of Mr. and Mrs. Jim Stockman, Michael Craig, was christened in St. Pius X church with Mrs. Kaiser and Mr. Zipper as godparents. Joining them for a visit was Joan Zipper, also of Dallas.

Mrs. C. J. Newman and Lorene Fleitman of Wichita Falls were weekend visitors with their families, the Clarence Hellmans and Al Fleitmans.

Steve Moster and Larry Yosten attended the regular waterworks and sewage association meeting in Celina Wednesday night. Steve was on the program, taking part in a panel discussion.

Mrs. Charlie Meurer of Windthorst and her daughter Mrs. Henry Thoele of Wichita Falls were guests of relatives here Tuesday and Wednesday.

Recent guests of Mrs. Mathilda Wimmer were her daughter Mrs. Irene Nall and Mrs. Nall's niece, Mrs. Roy Knight, both of Dallas.

Lillian Vogel and the Don Mullers of Fort Worth were weekend visitors with their parents, the Joe Vogels and Matt Mullers. Sunday night the Clifford Ottos of Gainesville joined the Vogel family for supper.

Mrs. Lee Parkhill and Mr. and Mrs. Joe Davis of Lubbock visited Mrs. Parkhill's mother, Mrs. Ellen Cochran and her sister Mrs. J. E. Owens and Billy Sunday.

Miss Yvonne Allen, assistant county home demonstration agent, met with Muenster 4-H clubs at Sacred Heart school Tuesday. In separate meetings, the three groups — senior, junior and intermediate — had the same program on 4-H reports and record books.

Matt Muller Home Party Scene Sunday

The Matt Muller home was the scene of a family gathering Sunday as a farewell party for Lt. and Mrs. C. C. Blanton and an anniversary celebration for Mr. and Mrs. Don Muller who have been married one year.

The Blantons left Tuesday for San Marcos where he has been assigned to a specialists school for the next 16 weeks. They formerly lived in Columbia, S.C., and he had a 30-day leave. The Don Mullers who live in Fort Worth were here for the weekend.

Everyone attending the reunion brought covered dishes for a feast at noon and for the evening meal. Card and domino games, visiting and picture taking entertained the group in the afternoon.

Present in addition to the hosts and the honorees were Mr. and Mrs. George Gehrig and daughters, the Norbert Knabes and family, Mr. and Mrs. Julian Walterscheid and Beverly, and Arnie, Clyde and Jeanette Muller. Only member of the family missing was Mrs. C. D. Richards and her family of Watertown, Mass. She plans to visit here this summer.

When a man says money can do anything, that settles it: he hasn't any. —Ed Howe.

Don't get up from the feast of life without paying for your share of it. —W. R. Inge.

Three out of every four American homes have electric toasters, more than 90% have electric irons, 60% have vacuum cleaners, 80% electric washers.

Some girls are unmarried for the same reason some drivers run out of gas; they pass too many filling stations looking for their favorite brand.

THIS WAY AND WATCH YOUR STEP—If you should ever get caught at the wrong end of a fire, you could have this sight confronting you. It's a victim's view of a rescue ladder, provided in this overhead shot of new fire equipment in St. Louis, Mo. The 100-foot ladder is easing up to the 80-foot level.

**IT HAPPENED
20 YEARS AGO**

April 15, 1937

Phillip Berend, former Muenster resident, dies at Lindsay after long illness. Relatives and friends from here attend Msgr. Danglmayr's investiture in Dallas. Father Francis and parochial school youngsters organize ball team. Burger's lads win season opener with Hays Independents. Cooke county farmers adopt range building plan for coming year. Dallas group gives concert here; Muenster male quartet joins in program. Jerome Pagel and five other youths escape injury when Model T

touring car turns over on Highway 5. Paul Endres, knocked cold in motorcycle spill, is recovering. Local ginners attend Dallas convention. Jake Horn Jr. is building a new five-room home. Edwin Luke returns after serving as page for Dr. C. L. Stocks in the Texas House of Representatives. Pete Kleiss has bought the Charles Stelzer Estate property. More than 800 farmers are signed up for the 1937 Cooke County Coil Conservation program.

15 YEARS AGO

April 17, 1942

Election is set for another school consolidation; hope to merge Hays and Muenster districts. Local women finish 27 woolen dresses for Red Cross project. Mrs. Frank Seyler is recovering from major surgery

performed in Fort Worth. Catholic Daughters' hear talk on defense work with Vernie Keel as guest speaker. St. Anne's Society completes mass kit for army chaplain. Mrs. Ed Wolf adds new equipment to beauty shop. Lindsay young ladies conduct contest for Miss Lindsay, Queen of the Golden Jubilee, to reign over celebration in July. Muenster Players, directed by Father Richard, draw good crowd for their comedy "Where's Grandma?"

10 YEARS AGO

April 18, 1947

Muenster will entertain Sixth District Knights of Columbus at initiation banquet Sunday. Milk at local cheese plant tops all time record with over 100,000 pounds on Thursday. Rain perks up prospects for good 1947 grain crops but cuts day off weekend outing for Boy Scouts. Local rodeo's opening is rained out; will try again next Saturday. Flu epidemic here sends many to bed. Fred Hennigan and Tony Hoening join in gas and oil agency. The Henry Zimmerers announce the arrival of Patsy Tommy Lee arrives for the Ray Swirczynskis. Alvina Roewe marries James Havens in Sherman. County car registrations gain 419 since last year.

5 YEARS AGO

April 18, 1952

Local grain crops are helped by 1.25 inch soaker. Shutdown follows Sunday's picture at Relax Theatre; F. E. Schmitz, owner, closes after two years of operation. Cpl. Clyde Fisher escapes injury in airplane accident in California. Rush time arrives at the cheese factory with more than 200,000 pounds of milk daily increase. Walter Yosten has entered M&S Hospital for treatment. Della Rose Herr and Denis Walterscheid marry. The Russel Herbs and baby daughter of El Cerrito, Calif., are here for a visit with her family, the John Tempels. Mr. and Mrs. Adolph Walterscheid celebrate silver wedding anniversary. New arrivals: daughters for the Maurice Pagels, Ed Clers, Norbert Hoedebecks, and Sid Esksteins of Fort Worth; sons for the Joe Bezners Jr., Walter Morrisons of Berger, Smyrel Owens of Lawton and Norbert Tempels of California.

Gift Party Sunday Honors Mrs. Herr

A gift party complimented Mrs. Melvin Herr of Gainesville Sunday afternoon when Mrs. Vernon Davis entertained in her home there with Mrs. Frank Mages III as co-hostess.

About 30 guests registered on a baby's white blanket and Mrs. Herr will embroider the signatures. Paper and pencil games furnished entertainment with winners Mrs. Alvin Hartman, Gwen Friske and Mrs. Ewald Berend presenting their prizes to the honoree.

The shower gifts were presented in a decorated basinet.

Refreshment plates, served by the hostesses contained cake squares topped with icing in the shape of baby booties in pink and blue, pink punch and white nut cups in the shape of three corned pants.

The refreshment table held a large stork and an arrangement of iris and wisteria in blue and white.

MINISTER-MAGICIAN—Larry Kettleshake, a divinity student from Springfield, Ohio, wears a minister's robe and a magician's dress suit about equally. Larry, who has preached in Kentucky, Indiana, Michigan and Ohio, earns a substantial part of his college expenses by making magic. He has appeared before an average of 50,000 people annually for the past several years in performances at fairs and shows.

Gainesville

Marysville News

By Mrs. B. G. Lyons

MARYSVILLE, April 16 — Mr. and Mrs. Robert Porath and daughter Sandra and Mrs. Robert Matthews and son Gary, all of Dallas, spent the weekend with their parents, Mr. and Mrs. Jim Shiflet.

Visiting here as the guest of her son Eddie Kuykendall and family is Mrs. Lillie Kuykendall of Blair, Okla.

Rev. and Mrs. Billie Whitt of Decatur visited Sunday afternoon with his parents, Mr. and Mrs. W. B. Whitt, James and Linda.

Mr. and Mrs. Lloyd Barnhart spent Sunday in Aubrey with Mr. and Mrs. Sam Rogers. They also stopped in Gainesville to visit Henry Hobbs at the Sanitarium where he is recovering from illness.

M. and Mrs. Earl Robison and Jimmie were in Pauls Valley, Okla., Sunday to attend funeral services for his aunt, Mrs. John Poyner.

Rev. and Mrs. Robert May of Dallas are spending this week at the Methodist parsonage while Rev. May conducts services in Sivells Bend each evening. Mrs. May conducted the Bible lesson here Sunday evening during Rev. May's absence.

Mr. and Mrs. W. F. Davidson surprised their son-in-law and daughter, Mr. and Mrs. Bo Snow Thursday in their home in Gainesville with a supper party honoring Mr. Snow in observance of his birthday. Others present were aunts, Mrs. Emma Breckenridge and Mrs. Myrtle Blount and son Carl, and an uncle and aunt, Mr. and Mrs. Sam Baker and son Ray, all of Gainesville.

Mrs. John Richey and Mrs. Earl Robison attended the regular county Home Demonstration council meeting in Gainesville.

Marysville Home Demonstration club held its regular meeting Friday with Mrs. Marvin Doughty as hostess. A program on "Pots and Pans" featured Mrs. John Richey as speaker and Mrs. Earl Robison showed slides on the subject.

SH Yearbook Staff Busv on '57 Volume

Staff members of Sacred Heart High's annual, Cordis, began work on their yearbook the past week and already have several pages sent to the printers. As in previous years, the book will include end of the year activities and will be ready for distribution some time after the close of school.

Staffers this year are Imogene Flusche, editor; Ethel Knabe, associate editor; Norma Jean Walterscheid, cartoonist; Carol Ann Miller and Delphene Derichsweiler, girls' sports writers; Leo Hess and Jere Friske, boys' sports writers. Della Fette is assisting as secretary to the group.

Little Security

It's surprising how many people live on such a narrow margin in this wide world of ours.

A JESUIT SINGS—The Rev. Aime Duval, guitar-playing Jesuit priest, sings at Paris' Gaumont Theater to an enthusiastic audience of more than 5,000 teen-agers. One of France's top popular singers, Fr. Duval says musical recitals of spirituals and swing and of blues, ballads and religious songs of his own composition lead his audience closer to God. The 38-year-old priest sings in nine languages. His income goes to his religious order.

TP&L Is Member Of Newly Formed Atomic Foundation

Texas Power & Light Company has joined with ten other electric light and power companies operating in Texas in forming the Texas Atomic Energy Research Foundation, it was announced Wednesday (April 10) by W. W. Lynch, TP&L president. Incorporation papers have been filed with the Secretary of State.

The Foundation, a non-profit organization, is to engage in research in the atomic energy field as it applies to the generation of electric power, Mr. Lynch said. The program will not include an atomic energy power generating plant at this time.

"Texas Power & Light's active interest in atomic energy as a fuel source for producing electric power dates back from the beginning of its release by the AEC for domestic use," said Mr. Lynch. "In June, 1955, the Company employed the full time services of a scientist assigned to the study of nuclear energy. Three months later, Texas Power & Light Company secured an Access Permit which entitles designated TP&L officials to receive confidential and restricted data from the Atomic Energy Commission."

The eleven electric utilities

which form the Foundation, Mr. Lynch explained, will carry on research and development work in the nuclear field in a program designed to assure for Texas the benefits which develop from this new source of energy.

"As a group these companies can engage in many nuclear research projects whose expenditures might be burdensome on a single company."

The program of the Foundation is long range, he explained, because the natural gas now used by utilities in the Southwest is an efficient fuel and likely will be much cheaper than nuclear energy for many years.

"The Foundation does not plan to request government funds to support its nuclear research program," Mr. Lynch said. "It hopes, however, to work closely with the Atomic Energy Commission in any program it undertakes."

"It should be understood," he said, "that the only difference in atomic energy power plants and present day power plants is that

this new energy substitutes as a fuel or heat source for the boilers which make the steam to spin the turbo-generators. The generators, transmission and distribution systems are virtually the same."

Mr. Lynch is a member of the Board of Directors of the Foundation. W. A. Parish, president of the Houston Lighting & Power Company, is president of the Foundation. All of the companies supporting the Foundation are represented on the Board.

In addition to Texas Power & Light Company, other companies supporting the Foundation are: Central Power & Light, Community Public Service, Dallas Power & Light, El Paso Electric, Gulf States Utilities, Houston Lighting & Power, Southwestern Gas & Electric, Southwestern Public Service, Texas Electric Service and West Texas Utilities.

The truth about Electric Cooking:

It's clean!

The electric range gives you pure heat . . . no smudge on pots or walls.

It's automatic!

Positive switches eliminate costly guesswork. Automatic timer saves many kitchen-sitting moments.

It's safe!

Flameless heat, providing safety for unknowing hands.

It's healthful!

Accurate control of heat means less water needed. Keeps vitamins intact, retains full food flavor.

It's fast!

Second to none in cooking time . . . new electric oven and surface elements come up to full heat in a matter of seconds.

It's convenient!

Automatic controls permit other activities while cooking proceeds.

It's certain!

Temperatures are constant. Heat goes directly into utensil . . . no heat loss.

It's economical!

Averages only \$2.29 a month for electricity (or less than 1¢ per person per meal).

and it's so MODERN!

Citation by Publication THE STATE OF TEXAS
TO: Theresa Spiva
GREETING: You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 20th day of May, A.D., 1957, at or before 10 o'clock A.M., before the Honorable District Court of Cooke County, at the Court House in Gainesville, Texas. Said plaintiff's petition was filed on the 2nd day of March, 1957. The file number of said suit being No. 18113. The names of the parties in said suit are: Donald Spiva as Plaintiff, and Theresa Spiva as Defendant. The nature of said suit being substantially as follows, to wit: Suit for divorce from the bonds of matrimony for the reasons of harsh and cruel treatment on the part of defendant toward plaintiff, for cost of suit and for general and special relief. If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved. Issued this the 2nd day of March A.D., 1957. Given under my hand and seal of said Court, at office in Gainesville, Texas, this the 2nd day of March A.D., 1957. Woodrow U. Clegg, Clerk District Court Cooke County, Texas (20-4p)

Modern diesel powered submarines are equipped with a breathing device, known as a snorkel, which permits the vessel to draw fresh air from the surface while running submerged.

Pity The Poor Saver

If in 1947 you squeezed \$18.75 out of your household budget, you could have bought a nice U. S. Government savings bond with a face value at maturity of \$25.00.

Today if you will send it along to Mr. Humphrey at the Treasury Department, he will pay you twenty-five nice crisp greenbacks. Your money, as the bankers say, would have grown by one-third and you would have earned dollars at the rate of about 3 percent.

Not too bad, on the face of it. Of course you could have done as well elsewhere and without having to wait a full decade to get your full interest. Private savings institutions pay their full interest right along; the Treasury savings bond doesn't pay out the full interest unless you hold it the full ten years. Moreover, some institutions, like the savings and loan associations, would have paid you more for the loan of your savings.

Now with the general rise in interest rates, lending to Uncle Sam has looked less and less attractive. Of course U. S. Savings bonds are patriotic, but since most of these bonds are bought by small savers it is "the little people" of political lore who are paying the premium on patriotism.

So the Treasury asked Congress for permission to up the interest rate on these savings bonds. For new bond purchasers (the fellow who loaned the Government last year gets no boost) the rate would rise from 3 percent to 3 1/4 percent.

For our part, we approve, and we hope Congress will speedily do so as well. We think the Government ought to pay the going rate for what it buys, whether what it is buying is a clerk's labor, a piece of steel or the loan of some money.

But that is not the whole of the story. When the Government took your \$18.75 in 1947 in contracted to pay you \$25.00 in 1957. It will fulfill that contract to the letter. Unfortunately for you, the dollars you get back this year are worth 15 percent less in the store than the dollars you loaned the Government.

The Labor Department figures that if you take a 1947 dollar as par, then a current dollar is worth only 84.7 cents in terms of what you can buy. That is, the Treasury today will give you back 25 greenbacks that are worth \$21.25. So your real pay for lending the Government that money is not the \$6.25 you thought it was but only \$2.50. In short, your earned interest over those ten long years was barely 1 percent.

You'll hardly build up much for your old age that way. And even the higher interest rate won't help if during the next decade the Government is going to take back through inflation as much or more than it gives you in more greenbacks.

We are glad to see Washington pitying the poor saver but we wish somebody there would think about the real cause of his plight. —Wall Street Journal.

Rate Reduction on Hay Saves Texans Over \$2.6 Million

AUSTIN, Texas — The railroads' voluntary 50 per cent reduction in hay rates in eight drought-stricken states has saved ranchers and dairymen \$3,707,040 in the last five months.

Of that amount two-thirds, or \$2,630,611, benefited Texas agriculturists, the Texas Railroad Association announced here.

The 50 per cent slash in rail rates ended March 31 with the coming of good rains to the areas affected.

The action by the western railroads is credited by officials of many state agriculture associations in Texas with saving the herds of thousands of small ranchers and dairymen.

In appreciation for the railroads' rate slash the San Antonio Chamber of Commerce extended to all the lines an appreciation banquet in San Antonio. It was the second such affair honoring the railroads, another one having recently been held in Dublin, Texas.

The period from Oct. 13 through March 31 found the railroads hauling into the drought-stricken area 20,753 cars or 324,476 tons of hay. Of this amount, 12,643 cars, totaling 205,184 tons, came into Texas to save ranchers and dairymen \$2,630,611.

Wanna Buy a Pet?

Thinking of buying an unusual pet for the children? You can get some pretty attractive buys in the under-\$1,000 bracket. Here are a few offered by a New York zoo supplier: various monkeys, \$30 to \$50; baboon, \$75; 18-foot python, \$400; violet-necked, double-wattled cassowary, \$600; coatimundi, \$35; jaguar, \$500; bison, \$350; elk, \$150; two-toed sloth, \$225.

The big beasts unfortunately come high. The same firm will sell you a full-grown orangutan for \$4,000, an elephant at \$3,000, a pair of young hippopotamuses for \$5,000, a giraffe at \$3,500. The most costly item: a \$10,000 gorilla.

Dollar for dollar and man for man, the submarine is this country's most economical weapon. Comprising only 1.6 per cent of the Navy's World War II personnel, the submarine service accounted for 55 per cent of all enemy shipping destroyed.

A SIGHT TO STRIKE FEAR—The massive black shape of a tornado moves slowly through Dallas, Tex. The narrow-looking funnel of the twister is sucking homes, cars and citizens into its whirling interior, leaving many dead and injured and property damage into the millions in its wake.

Lindsay News

Mr. and Mrs. Don Hermes and son Don Ray returned to their home following a convalescent visit with her daughter, Mrs. Bomar Woods and family, in Denison. She says many thanks to everyone who remembered her with prayers, get-well cards, visits and other kindnesses while she was sick.

Mrs. John Bezner is back at home following a convalescent visit with her daughter, Mrs. Bomar Woods and family, in Denison. She says many thanks to everyone who remembered her with prayers, get-well cards, visits and other kindnesses while she was sick.

Mr. and Mrs. George Schmidkofer and family recently moved to Gainesville where they are at home as 1814 Buck Street.

Mr. and Mrs. Martin Friske and son Jere were dinner guests of their son-in-law and daughter, Mr. and Mrs. Bernard Sandmann, in Fort Worth Sunday before Mrs. Friske left, at 3:15 by plane for Torrance, Calif. to visit another daughter, Mrs. Glenn L. Cathey and her husband and three children. Mrs. Friske will be present for the First Communion of her granddaughter, Cheryl Cathey, on Holy Thursday.

Patsy Zimmerer is Birthday Honoree

A group of 24 youngsters helped Patsy Zimmerer celebrate her birthday at the home of her parents, Mr. and Mrs. Raymond Zimmerer.

After admiring the honoree's birthday gifts from the guests, the group played games. Balloons and bubble gum for favors added to the fun.

Refreshments of birthday cake, ice cream and soda pop were served by Mrs. Raymond Zimmerer assisted by Mrs. Lawrence Zimmerer.

Reflection

In trying to show up the weaknesses of another a man is apt to put a few of his own on display.

Modern submarines can travel faster submerged than on the surface. They can fully submerge in less than one minute.

4-H Clubs Discuss Record Preparation

Lindsay senior and junior 4-H club girls had the same program at separate meetings with Miss Yvonne Allen, assistant home demonstration agent, in charge.

Members learned how to prepare 4-H records correctly and how to fill out report forms. Miss Allen handed out samples for the girls to examine before making their reports.

At the senior group's meeting Mrs. Nick Block, adult leader, served cake. Alice Voth, president, conducted the business session.

The junior club had a recreation hour with jokes and riddles by Rosemary Hermes and Margery Fuhrmann, and a song by Carolyn Schmitz, Dolores Hess and Lorine Voth. All members joined in a song before adjournment. Rosemary Hermes played the piano accompaniment. President Dorothy Bengfort presided for the business meeting.

Lindsay 4-H boys also had a meeting on record keeping when they met with D. B. Wheeler, assistant county agent. After the lesson on reports and records he explained the Sears pig program and told of points to be considered when writing the essay.

Winners Announced In Poster Contest

Students of St. Peter's school at Lindsay gathered up all the prizes in the high school boys' division and all but one in the girls' division in the Sherman deanery's annual Diocesan Vocation Poster contest.

Award winners are Jimmy Zimmerer, first; Leslie Kuhn, second, and Kenneth Zimmerer, third among the boys, and Louise Hermes first and Rosemary Bezner second in the girls' competition.

In the grammar grades' contest Sacred Heart of Muenster won second and third in both the boys' and girls' divisions.

Gene Hoenig's entry and Dolores Otto's poster were second place award winners and Jim Moster's and Margie Vogel's were third.

Deanery prizes are sterling silver medals and chains for boys and gold crosses and chains for girls winning top place; leather bound Sunday missals for second; and large gold crosses for

third.

Diocesan winners are now being selected from among winners of the six deaneries of the Dallas-Fort Worth diocese and will be announced next week. These winners in the poster contest will receive their awards in Dallas from Bishop Thomas K. Gorman on Sunday, April 28, in ceremonies in the Cathedral at 3 p.m.
