

About the best reply of all to Khrushchev's remark in his famous "Face the Nation" TV appearance . . . in which he said the grandchildren of present day Americans would be living under a socialistic form of government . . . can be credited to Senator Knowland of California. He predicts that the grandchildren of today's Russia will be living under a capitalistic system.

Something to notice about those statements is the fact that they do not contradict each other . . . and that both may be correct. It is easily possible that the Russians will find an opportunity to clean out the reds in the next two generations and that the new economy will be capitalistic. Likewise, it is possible, if the trend of the past 20 years continues, to see socialism gradually take over in America. We have cause to be alarmed as we see the expansion of federal power and the growth of federal services.

It has been pointed out that the average American served a theoretical "last day of bondage" on May 10, so far as 1957 taxes are concerned. All he has earned up to that time just about covers his tax bill for the year.

This statement is based on someone's estimate that taxes in the United States currently take about 36 per cent of all earned income, or the amount earned in 130 calendar days.

Still more estimating places the daily cost of all government, federal, state and local, at about a billion dollars each for those first 130 days. In round figures, then, every billion added to the budget means another day we have to put in for the government. Every billion of reduction means another day for ourselves.

It isn't surprising that lots of people are kicking up a fuss over our government's agreement permitting a GI in Japan to be tried by a Japanese court rather than an American court martial for the death following an accident early in the year. As many of us recall, the soldier accidentally fired a shell which killed a Japanese woman on a firing range.

The agreement to turn over the young man has all the earmarks of a political deal to appease the Japanese element which is striving to make a big issue over the incident. But it lacks sadly in signs of the government's loyalty to one of its citizens who was carrying out his assigned duty in a foreign country.

This situation is even worse than most of those arising under the Status of Forces Treaty. This is not a deliberate crime for which the natives have some justification in demanding their kind of justice. This is an unfortunate accident with none of the elements of crime, and the luckless offender is entitled to all the legal safeguards his country guarantees its citizens.

The publicity being given to this incident is serving a useful purpose. It's causing people to

**MILES AND MILES**—Around the world would be just a quick jaunt for Andrew J. Ryan, of Phoenix, Ariz., who's driven a total of 2,480,000 miles in road tests for a tire company. That's enough distance to take him around the globe 100 times.

## Three Day Festival At Forestburg Will Mark Centennial

Forestburg, observing its centennial this year, is holding a three-day celebration beginning Friday this week. And the welcome mat is out for everybody to attend.

Highlighting Friday's entertainment is a rodeo at 7 p.m. to be followed by an old-time camp fire program at 9:15 on a hillside around a covered wagon train.

Saturday at 2 o'clock the townspeople will put on a gigantic parade and another rodeo will follow. At 7:30 p.m. there will be judging in various contests, with prizes for the best beards, an old fiddlers contest and numerous awards. At 8 o'clock a square dance will be held on the city streets.

Sunday's program begins on a solemn and reverent note with a memorial service at 11:30 a.m. This is homecoming day and those attending are reminded to bring basket lunches for a picnic at noon. A variety of entertainment is planned for the rest of the day.

Visitors will be invited to see a display of antiques in the school.

Throughout the celebration two queens will reign over the festivities. One will represent the era of 1857, the other will be Miss Forestburg 1957.

Casey Jones is president of the centennial committee. Rex Anderson is vice-president, Howard Sledge is secretary-treasurer and J. M. Dunn is finance chairman.

The committee has started the sale of a 36-page "History of Forestburg" in which there are pictures and stories of early-day citizens and buildings, an article on how Forestburg was named, and tales of Indian raids.

## Swimming Pool Attendance Lags

Up to now business has been poor at the Muenster swimming pool. Manager L. B. Bruns disclosed Wednesday that the pool's admissions since it opened last Saturday added to only about \$28.00.

The first day was fair with the first day was fair with an income of \$19. Sunday, however, which should have been a big day, was rainy and chilly and the pool closed at 3:30 without having admitted a customer. Monday was the regular day for closing and Tuesday's attendance was about 10 adults and 40 children.

However, the pool has already had some unauthorized patrons. Bruns said that signs Tuesday indicated visitors were there the night before.

Brun's offered a special word of advice to the trespassers, reminding them that the pool gets an extra strong bromine treatment through the night and the strong solution might injure people's eyes. He also warned that the city will use stern measures if necessary to stop the trespassing.

Regular hours at the pool are 2 to 9 p.m. However, the management is instructed not to keep the place open if attendance is not sufficient to justify the use of lights, pumps and treating chemicals. Cost of operation at night is about \$5.00 per hour.

## Harvest Prospects Slip Daily as Wet Weather Continues

One of the most exasperating and disappointing harvest seasons in the history of Muenster has just dragged through another week of delay and will have to drag through several days more before farmers can return to their fields . . . provided ideal drying weather sets in immediately.

That applies to land with average drainage. Many places will take considerably longer and others, still under water, will not be worth the harvesting effort anyway.

The past seven weeks has been one of the roughest periods ever for local farmers. Favored by nice weather early in the year, grain grew better than usual. Bumper crops of wheat and oats were in sight. At the same time other fields were in good condition for planting row crops. Then the wet weather set in. Practically no work has been done since and crops have deteriorated steadily.

First came the problem of delayed spring plantings, then worries over excessive moisture on the grain, and still later the attack of army worms, then still more rain.

Between times there were short periods of encouragement. After a few days of sunshine some farmers eagerly mowed patches of oats to harvest as hay. A little of that hay has been baled and hauled in but most of it remains on the ground, pounded down by weeks of rain. Most of it now is rotted, musty and muddy.

Of the grain not cut for hay some has been damaged by army worms, some was drowned out and some has matured to the combine or binder stage.

## Parish Gives \$226 For Cemetery Fund

The semi-annual collection conducted Sunday at the four masses at Sacred Heart Church enriched the local cemetery fund by \$226.39, but still fell short by about \$50 of meeting the average in other collections. The donations were accepted by members of the Garden Club, which sponsors and supervises maintenance of the cemetery.

Mrs. Steve Mosler, club treasurer, points out that the amount received probably will not support the project until the next collection in November, and reminds all who forgot that money is still welcome. Anyone at the bank will accept it for deposit in the cemetery account.

## Pee Wees' Opening Game Rained Out

Pee Wee baseball got off to a poor start here Tuesday night as the season opened with a postponed game. Wet weather, which has continued with very few breaks for the past six weeks, left the field unfit for the scheduled clash of the VFW and KC clubs.

According to league rules the postponed games are to be played on Sunday afternoons. So the first Sunday of the season is listed as the first make-up date with game time set for 3 p.m. According to weather forecasts issued on Wednesday it is also possible that Friday's game will be postponed and Sunday's will be a double header.

The schedule, as it stands now, calls for 3 games within the next week. They are Lions vs St. Joseph Friday; VFW vs KC, Sunday; KC vs Lions, Tuesday.

## Parochial Students Will Wear Uniforms Starting September

Uniforms will be introduced in both the elementary and high school departments of Sacred Heart School beginning with the next school term. The decision to use them along with the styles of uniforms were revealed last Sunday in the Sacred Heart parish bulletin.

The intention of school authorities is to make the change gradually so that children will be able to make use of clothes they now have on hand. However, the use of uniforms will not be compulsory. Children will be encouraged but not required to wear them.

As regards the gradual start, Wednesday will be the regular day for wearing uniforms during the next school year. On other days the uniforms will be permitted and encouraged. In later years there will be more days for regular use of the uniform, but there will always be a day or two per week for use of other clothes.

The idea in general is to cooperate with parents in getting the best use out of clothing. Whether or not the school has uniforms every student will have other clothes and will need more than just Saturdays and Sundays to get adequate wear from them.

The prescribed style for high school girls will be a navy blue skirt and white blouse. For elementary girls it will be a jump-style dress with white blouse. Boys' uniforms in both high school and grades will have navy blue or black slacks with light blue sport shirts, either long or short sleeves.

## Local Pastors to Attend Retreat at Abbey Next Week

Father Conrad of Lindsay will accompany the local priests to Subiaco for the retreat.

During the same week a diocesan retreat will be conducted in Dallas for secular priests of the diocese. Two of the Gainesville priests will attend, leaving Father Burke, assistant pastor, to answer emergency calls in the three parishes.

Another priest who may possibly be available for emergencies is Father Francis Zimmerman. He is expected to be on vacation next week at his parents' home near Lindsay.

Harvest - - -

But the ground is too wet for harvesting machines, so it will have to wait. Meanwhile farmers are aware every delay means the loss of more grain. Much of the grain is down, more is falling daily. The big question now is how much can be picked up and recovered in harvesting.

It has been rough to date but only time can tell how the year as a whole will compare with 1956. Then the grain crop was good but a big part of the income had to be spent on stock feed. As of now a skimpy grain crop is still likely and a good feed crop is possible.

A week ago farmers were just getting back to their fields when the rains hit again. Since then there has been some moisture every day up to Wednesday for a total of 3.10 inches. This raised the rain measure for May to 9.68 and the start for June to 1.96 inches. The year's total so far is 30.88, already more than 10 inches over the '56 total and not far from the total for a normal year.

The astounding fact is that almost 23 inches has fallen in the seven weeks since April 19. From that day to the end of April the measure was 11.35. May had 9.68 and June has 1.96 ... a total of 22.99 inches.

CONTROL GOES WITH MONEY

The plan for having the federal government provide \$2 billion in federal aid to the nation's schools over a four-year period drew this comment from Senator Knowland: "My practical knowledge of Washington leads me to the conclusion that nothing terminates in four years. And I have never seen the Federal Government contribute money without wanting to exercise control."

After business, Father Patrick continued his series of talks on Virtue, stressing modesty in dress, especially during the summer months.

Forty-three members attended and Mrs. Lawrence Wimmer won the attendance prize.

Gerlich for girls at the State School at Gainesville; and Mrs. Joe Swirczynski reported on mission work, saying she had 100 pounds of clothing ready to ship to mission centers in Dallas and Fort Worth. Mrs. Steve Mosler reminded members to bring in their old nylon hose which the court will send to missions and blind veterans institutions where they are fashioned into useful articles.

As a means of increasing their treasury funds, members voted to sell "Hot Rods" during the summer. The rods are metal picks to be inserted in roasts, potatoes and other foods that are baked to cut baking time about 40 per cent.

### Julia Wolf Bride of Wilfred Klement In Saturday Rites

—Boyd and Breeding Photo

Julia Wolf and Wilfred Klement were married Saturday during a 5 p.m. nuptial high mass in Sacred Heart church with Rev. Patrick Hannon officiating. Parents of the couple are Mr. and Mrs. Bernard Wolf and Mr. and Mrs. Norbert Klement.

For her wedding Julia wore a white chantilly lace and nylon tulle dress over satin. The aisle-wide skirt, fashioned of tiers of tulle ruffles with front and back lace inserts, swept into a chapel train. The fitted bodice with lace yoke and sweetheart neckline had short sleeves complemented by matching full-length mitts.

A crown of lace, studded with pearls and sequins, held her elbow-length veil, and she carried a bouquet of pink roses. Her father gave her in marriage.

Attending as maid of honor was Virginia Wolf, while Marcy Klement was bridesmaid. They are sisters of the couple. Another sister of the groom, Shirley Klement, and a niece, Janice Wayland of Midwest City, were flower girls. They wore identical bouffant dresses of pink embroidered tulle over net and taffeta and carried dark pink carnations. Matching pink headpieces and mitts completed their costumes.

### FOREIGN RAID

"We need foreign trade, but not to the extent that our own industries are wiped out," says Chairman M. C. McIver of the Hardwood Plywood Manufacturers Committee in a plea for passage of bills now before Congress that would establish a quota limiting plywood imports to 15 percent of domestic production.

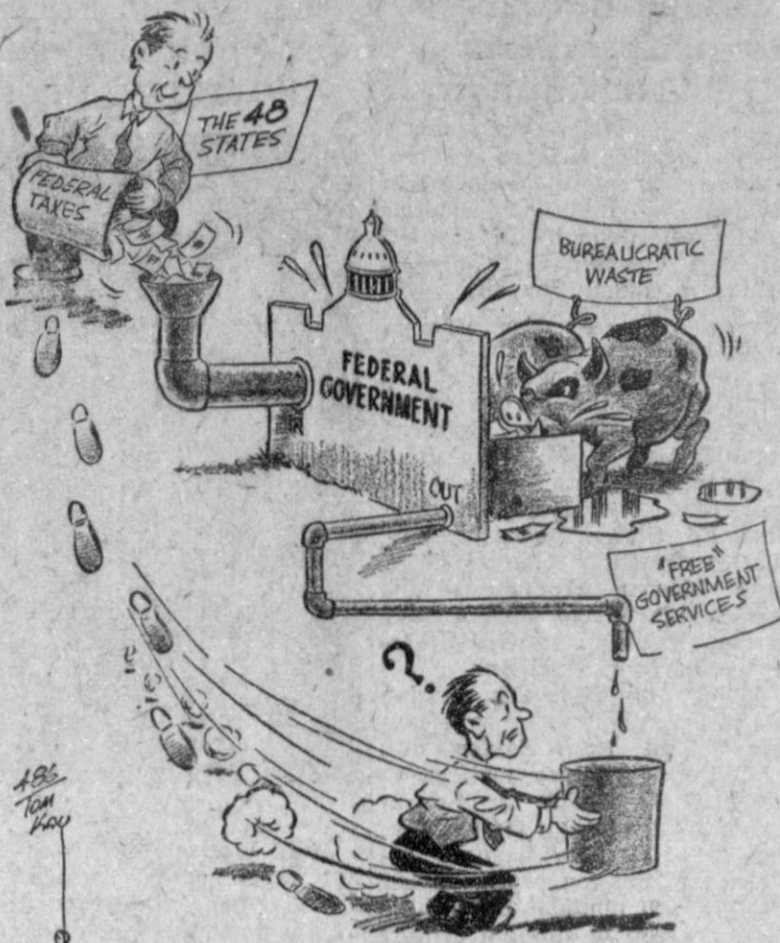

A swift look back to the secret Geneva sessions of the GATT (General Agreement on Tariffs and Trade) conferees in 1951 — which slashed protective tariffs on so many American products — provides a shock for any American whose welfare depends, as whose doesn't, on turning factory wheels.

Since 1951, imports of hardwood plywood from Japan have risen from less than 13 million square feet a year to 527 million — an increase of more than 4,000 percent! And while US consumption has increased 77 percent in this period, imports which supplied 7.6 percent of the American market in 1951 have now pre-empted 45 percent of it. And importers, as Mr. McIver says, are "reaching for more." He charges that "... importing

groups, enjoying the benefits of unlimited importation which was never intended, are reaping a harvest, (and) are trying to kill off American production so they can have the market to themselves. Riding on the back of low-paid foreign labor, they already have knocked out American plants and shut Americans out of work."

Unless Congress provides the quota relief the Committee seeks, the situation is bound to proceed from bad to worse so long as imported panels can be offered in US markets at prices below our manufacturing costs. Without protection against the present bureaucratic enthusiasm for the welfare of other nations, the outlook is bleak indeed. Plywood workers, both employed and unemployed, may well ponder the Japanese wage of 11.5 cents an hour compared with the \$1.30 or more they are (have been) making.

We do not believe there is any sentiment in Congress for letting American wage scales descend to rice-bowl levels, or even to European levels. But we shall have to wait and see whether Congress has the courage to prevent it.

### Pause For Reflection

... with James C. Ingebretsen  
 President, Spiritual Mobilization

The \$72,000,000,000 budget recently submitted to Congress apparently has aroused a lot of people, who formerly had hardly been aware of it, to the terrifying size of our Federal government. They are coming at last to realize something of the tremendous overgrowth that has occurred in government in recent years.

But I am persuaded that overgrowth in government is largely a result of undergrowth in people; paternalism in government signifies infantilism in its citizens.

So, if we want the cost and scope of government to do down, we are going to have to grow up.

If we were half the men the Founding Fathers were, we would no more tolerate the present size of our Federal government than they tolerated the tyranny of George III. But, as long as we do tolerate it, government will continue to grow larger and larger. As long as we are content to be "little people," we shall have "big government" — and we shall have to pay for it.

### A LESSON FROM THE ROBINS

During a hot day in May two robins were fighting at a bird bath, thus preventing each from bathing. Then something happened. They quit fighting and bathed side-by-side.

Free men living in a union of friendly states have learned that more is gained by working together, but in many parts of the world men are still fighting.

In two minutes the robins discovered fighting is futile — men take longer to learn.

By Mrs. B. G. Lyons

MARYSVILLE, June 4 — Mrs. Jesse Davison has as her guest this week Mrs. Attie Wyatt of Dallas. Visiting her last week were a daughter, Mrs. E. W. Young and her husband and daughter Mary Anne of Hereford, John Marcus Duffey, a nephew from Fort Worth, and Mrs. Owen Almon, a daughter from Gainesville. The Youngs went from here to Tyler and then to Chandler to visit other relatives.

Don Ray Moon and a buddy, Cletus Welch, stationed at Abilene Air Force Base, spent the weekend at home. Other visitors in the Bill Moon home on Sunday were Mr. and Mrs. Max Harrell and daughter Rhonda Kim of Sherman.

Hobson Wyatt of Fort Worth has returned to his home after a week's visit with his sister and brother-in-law, the Nathan Whitts. He also visited the Bill Moons.

James and Linda Whitt re-

turned home Saturday after spending a week in Decatur with their brother, Rev. Billy Whitt and his wife, who brought them home and stayed to spend the weekend with the W. B. Whitt family. Mrs. Billy Whitt's brother John Marcus Huckabee of East Texas is a guest this week in the Whitt home here.

Mrs. Effie Robison and Mrs. Irene Richey attended a meeting at the home demonstration club house in Gainesville Wednesday. The program was on crafts.

While B. G. Lyons was picking berries in his garden Saturday he came face to face with a diamond back rattlesnake. The rattler struck, but Mr. Lyons struck quicker — with a hay hook he was using to lift the vines. This is the third time a rattler has been found on the place during the 48 years of ownership by Mr. and Mrs. Lyons.

**On the Reef**

One day, when a horse drawing a cartload of coal got stalled on muddy Main street in a small western town, the "natives" promptly gathered around and offered advice.

"Put on the whip," shouted the driver of an express wagon. "Take him by the head," added a truckman.

"If that was my hoss," said a man with a bundle of clothes under his arm, "I'd tie a cloth over his eyes. I've seen it done hundreds of times, and it makes 'em pull their best."

"Don't believe it," said a man with a cane; "I owned horses all my life, and I've had some bad ones among them. The only thing to do is to blow in the right ear."

"You mean the left ear," said a squeaky voice.

"No, I don't! I mean the right ear. I've tried it often enough to know, I guess."

A crowd of fifty had gathered, all were talking at the same time. The driver got down and looked the situation over. One wheel was down in a rut. He was undecided what to do, and the good-humored friends continued giving their advice in copious quantities.

Two sailors just then came along, and one of them called out, "Ay, mate; but here's a raft on a reef."

"Over with 'er then!" said the other. Each seized a wheel for a lift, the driver clucked for the horse to go ahead, and away they went, as easily as you please. The two sailors were the only two in the whole crowd who did not advise the driver how to do it.

A traveling salesman, held up in the Orkney Islands by a bad storm, telegraphed to his firm in Aberdeen: "Marooned by storm. Wire instructions."

The reply came: "Start summer vacation as of yesterday."

**Bulcher News**

By Mrs. Paul Tracy

BULCHER, June 4 — Mr. and Mrs. August Hyman had as recent guests her sister and brother-in-law, Mr. and Mrs. Guy Giles of Wichita Falls.

Tuesday night visitors with Mr. and Mrs. R. H. Sharp were his sister Mrs. Craig Campbell accompanied by Mrs. Lester Blythe, both of Vinita, Okla.

Mr. and Mrs. E. Newby are spending their annual vacation in Florida.

Sgt. Workman of Wichita Falls met with the Bulcher Ground Observer Corps Tuesday night to show a film on civil defense and to give class instructions. After the meeting refreshments of pie, cake and coffee were served to eight sky watchers, two visitors and Sgt. Workman.

**Kewanee Employees Have Annual Picnic**

Kewanee Oil Company's southern division held its annual picnic for employees and their families on June 1 at Lake Murray State Park. Making up the large attendance were employees, company officials and guests from Bulcher, Saint Jo, Muenster, Wichita Falls and Abilene and from Tulsa, Walters and Haldton, Okla.

W. L. Suggs and M. B. Thompson, retiring employees, and their wives were honored guests for the occasion. In appreciation of their years of service the men each received a fishing rod and reel and the ladies were each gifted with an electric clock.

Another tribute to the two couples was a large decorated cake presented by J&S Supply company of Muenster. The cake was used as the centerpiece for the table.

The menu featured barbecued pork ribs and baked beans furnished by the company, and salads, cake, pie and other accessories brought by women of the district.

For entertainment Charles Welch sang and played his own guitar accompaniment and the Daffern string band gave several selections. Children enjoyed games with prizes.

Bulcher was represented by the following and their families: J. M. Shields, Calip Cannon, R. V. Daffern, Dexter Dennis, E. L. Robison, Jimmy Atteberry, Paul Tracy, C. V. Crabtree, R. J. Samples, J. D. Goff and August Hyman. L. Burchfiel and family and Sandy Yoder were present from Saint Jo and the Bill Lindsay family and the Dennis Jones family were present from Muenster.

**ROAD TO RUIN**

H. W. Prentis Jr., Chairman, Armstrong Cork Company, is a student of history. Great civilizations, he has found, decay and disappear by a set pattern: "From bondage to spiritual faith to courage; from courage to freedom; from freedom to abundance; from abundance to selfishness, from selfishness to complacency; from complacency to apathy; from apathy to fear; from fear to dependency; from dependency back to bondage."

Thus went the Roman Empire. Think of it in terms close to home, if you will. Dependency: Nearly 38 million Americans are receiving payments from the Federal Government.

*Moves out in a single sweep of motion*

... Chevrolet with Turboglide!

Chevy's come up with the newest, sweetest, smoothest automatic drive—Turboglide. It's the first and only triple-turbine transmission!

Turboglide is something really new and different in automatic drives. In the first place, there's only one forward-speed position on the control panel. There's no "Low" needed.

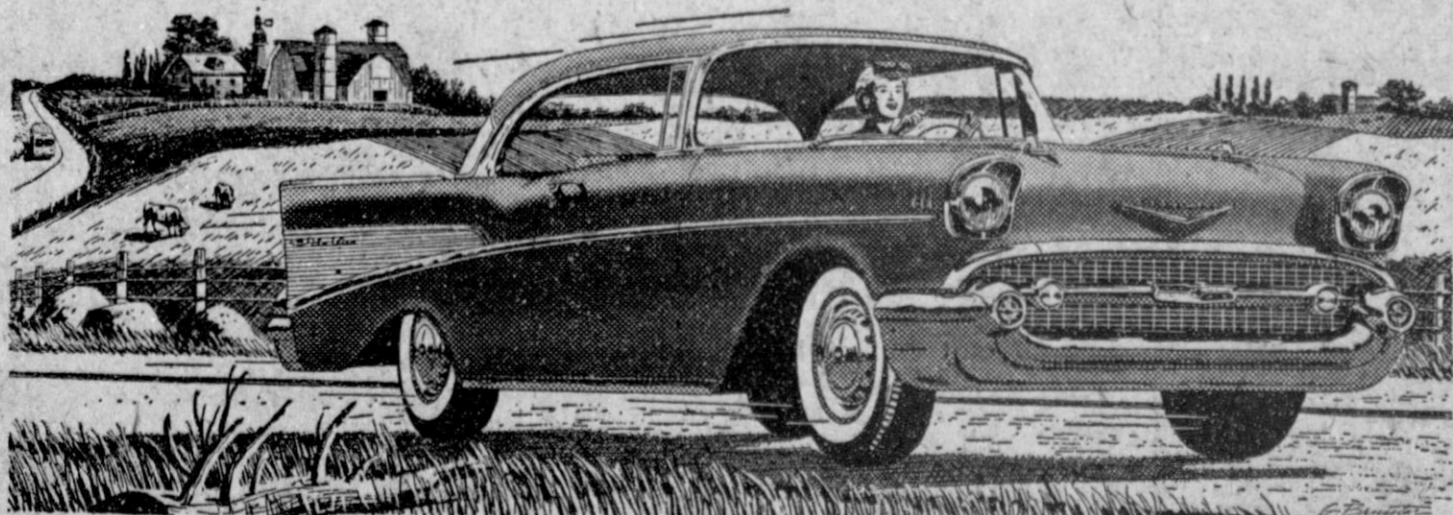

Turboglide handles everything with the oil-smooth action of triple turbines. You travel from a standstill to top cruising speeds with never a lurch or lag to mar your motion.

When you see a steep downhill stretch ahead, you set the selector at "GR" (Grade Retarder) and Turboglide helps slow you down.

Try Chevy's new, nothing-like-it automatic drive. It's optional at extra cost—and worth it.

the little flame that freezes... secret of today's most amazing refrigerator

Thirty years ago came the first "electric ice boxes"... costly, complicated, noisy, liable to break down, wear out and gluttons for current. Two Swedish chemists decided there must be a better way. And, in their Stockholm laboratory, discovered The Little Flame That Freezes. A tiny gas flame replaced all those moving parts... makes all other refrigerators old-fashioned. No noise! Nothing to wear out! They had discovered the refrigerator that was 30 years ahead of its time! It still is!

**ANIMAL'S BIRTHDAYS**  
February is considered the "birthday month," because it is the month of the birthdays of George Washington and Abraham Lincoln. Few days are happier days than birthdays for the young folks. Wonder how birds and animals would look upon birthdays if they knew when theirs came around! Of all the birds, swans have the most birthdays. They have been known to live three hundred years.  
Among animals, whales are entitled to the most birthday candles. Their average life is about one thousand years. In view of this, it may be that the whales which follow the ships in the Atlantic ocean today also followed the little ships in Columbus' small fleet back in 1492. Elephants, under good conditions, will live four hundred years. It is said that an elephant that fought in the army of Alexander the Great was banded and named "Ajax." The great beast was found 365 years later and still alive.  
Tortoises have many birthdays, too. They live considerably over a hundred years.  
The average number of birthdays of horses is from 25 to 30; of hogs, bears, and wolves, 20. Of the smaller animals, dogs and cats usually have from 10 to 15 birthdays, and squirrels and rabbits about 7 or 8.

**AIR CONDITIONING STANDARD** — Eighty-four-year-old Tom William Thurban sits in his "Thurbanette," an odd-looking car he built mostly out of scrap motorcycle parts. Thurban of Ewell, England, claims the car can reach a top speed of 80 miles an hour, despite its looks. And, more attractive still, it gets 45 miles to the gallon.

**Big Budget Quiz**

The quiz show has become one of the phenomena of the times. Television is now crowded with programs in which contestants can win all manner of prizes if they are able to answer enough questions correctly.  
The Citizens Committee for The Hoover Report also has produced a quiz. It involves billions of dollars — some of which comes out of your own pockets. It is called the "Big Budget" quiz — and here are the questions and answers.

1. How much is the government's proposed budget for fiscal 1958? The answer: \$71,800,000,000.
2. How long would it take you, an individual citizen, to spend this sum at the rate of \$100,000 a day? The answer: Nearly 2,000 years.
3. Has the government ever spent more in a single year? The answer: Only in wartime.
4. How does the 1958 budget compare with federal spending 20 years ago? The answer: 1,000 per cent increase.
5. What will 1958 budget costs mean to families and individuals? The answer: \$1,400 per average American family, or \$427 per capita.
6. How high is the national debt now? The answer: \$274,000,000,000.
7. What is the average family's share of this debt? The answer: \$7,000.
8. What was the average family's share 20 years ago? The answer: Less than \$1,100.
9. The Hoover Report points to eventual savings of \$5,000,000,000 yearly. What would this mean in savings per average family? The answer: \$100 a year.
10. Who must move for action on the Hoover Report: The answer: Congress, the Administration — and You!

If you could jump as well as a flea, you could do 1,000 feet at a clip.

**Bernice the Quail Sets Laying Record**

**AUSTIN** — Bernice, most faithful of all state workers, is back on the job again, according to the Assistant Executive Secretary of the Texas Game and Fish Commission. Bernice is the little hen quail at the Tyler quail farm.

Last year she set a world's record by laying 311 eggs. This was equal to taking only Sundays, Labor day and Christmas off.

This year Bernice layed 28 eggs in each March and April and has a perfect record for May, according to George Stodghill, hatchery superintendent.

### 500 Attend Mass And Program for Priest at Lindsay

In St. Peter's church at Lindsay Sunday a newly ordained priest, the Rev. Robert W. Wilson of Fort Worth, celebrated a solemn high mass and afterwards was honored at a community dinner in the parish hall.

More than 500 persons from Lindsay and surrounding communities filled the church for the occasion. Happiest of those attending were Mr. and Mrs. John Neu of Lindsay who made the scholarship fund for Father Wilson's seminary training possible.

Assisting Father Wilson as deacon and sub-deacon were Rev. Conrad Herda, pastor of St. Peter's and Rev. Thomas Tschope of Dallas. Other assisting ministers were Rev. Hubert Neu a native of Lindsay, also of Dallas, and Rev. Eugene Mundkowski of Irving. Other priests present in the sanctuary were Rev. Anthony Gajda of Valley View and Rev. E. J. Gerlich and Rev. William Lane of Gainesville.

Rev. Thomas Weinzapfel of Dallas preached the sermon. Mrs. William Schmitz, organist, and St. Cecilia's choir presented the music.

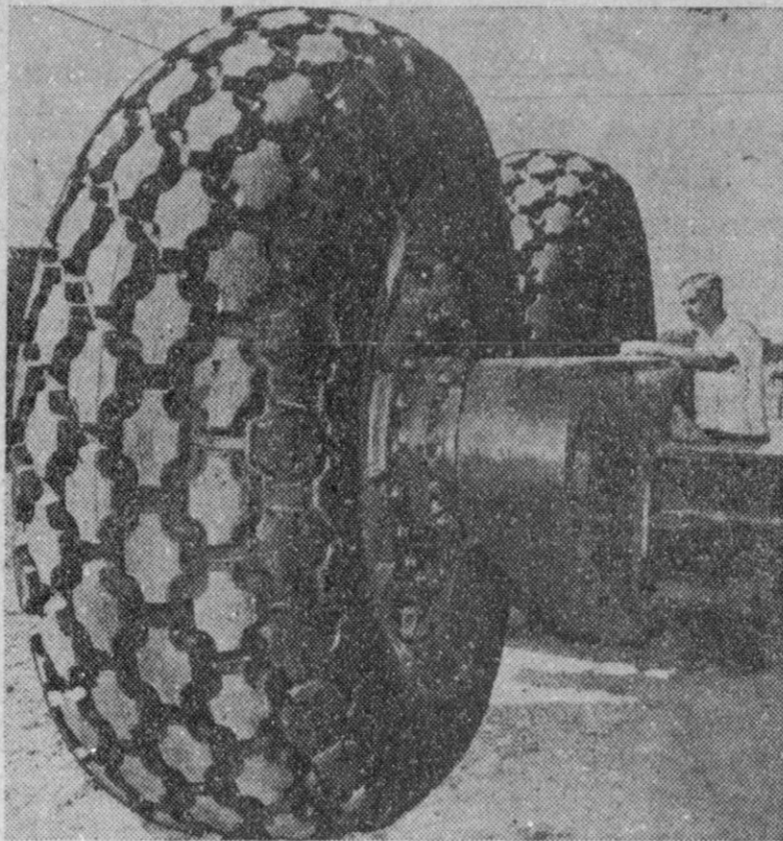

Ushers were Freddie Neu, Elroy Neu, Paul Arendt and Paul Neu.

Services began at 4 p.m. with a procession from the rectory to church. In the procession were Margie Neu carrying the gold chalice for the mass, Kathy Rauschuber of Valley View carrying wheat sheaves and Paula Herr of Muenster carrying a cluster of grapes.

Among those attending the service were the young priest's sister, Marlene Wilson and their father, F. Wilson and Mrs. Wilson of Fort Worth. Relatives and friends were present from Muenster, Gainesville, Fort Worth, Valley View and Pilot Point.

Members of the Mothers' Society prepared and served the dinner in the parish hall, beginning at 6 o'clock. Proceeds from this event went into the new St. Peter's High school fund. Two hundred and seventy-five persons were served.

For the after dinner program Joe Bezner Jr. was master of ceremonies and Ann Neu gave the welcoming address. Speakers included Father Conrad, Father

Presiding at the guest book were Mrs. Rufus Henscheid of Muenster and Mary Nell Bierschenk of Valley View.

Father Wilson left Monday from Fort Worth by plane for a week's vacation in Mexico City. He will receive his assignment from the bishop of the diocese after his return.

take a good look at that absurd arrangement by which our country drafts young men and assigns them to the job of serving their country in foreign lands but does not safeguard their rights as American citizens.

While we of this area are singing the praises of flood prevention reservoirs on Elm Creek, a report from Lampasas advises us that a similar system of reservoirs, planned and completed on paper, would have saved five lives and some five million dollars worth of property had it been established on the ground. The probable flood damage if the dams had been there is about \$70,000, SCS engineers estimated.

Actually, application for the flood prevention system was submitted to Washington for approval ten days prior to the Lampasas flood. What a pity the project was not a year or so ahead of its present schedule.

Another interesting fact: The estimated cost of the entire flood control system was 1.25 million dollars . . . one fourth of the amount it would have saved.

### New Lion Officers Installed Tuesday By Weldon Cowan

Weldon Cowan, former superintendent of the Muenster Public School and former president of the Muenster Lions Club returned to Muenster Tuesday night to officiate at the installation of newly elected Lions Club officers. Cowan is the present mayor of Nocona and former president of the Nocona Lions.

In his installation remarks he urged the new officers to be self starters, applying the initiative to set the club's projects in motion and the leadership to inspire whole hearted cooperation by other members. Cowan recalled some of the club's achievements while he lived in Muenster, saying that the organization was strengthened by them and the community was improved by them.

In his remarks as the new president Steve Moster indorsed the "self starter" ideas as applied to the officers but added that the leadership would depend on other members to serve as the "engines."

Dr. T. S. Myrick also spoke briefly, praising and thanking the retiring president, H. H. Homsley, for his two years of able and eventful leadership.

The ceremonies were held in connection with a special ladies' night dinner in the MHS gymnasium. Originally planned as an outdoor affair in the city park, it was transferred to the gym when bad weather threatened.

The club's new officers are Steve Moster, president; Arthur Endres, secretary; H. H. Homsley, 1st V.P.; Dr. T. S. Myrick, 2nd V.P.; Earl Fisher, 3rd V.P., M. D. Kaderli, tail twister; and R. E. Hamric, E. J. Swirczynski, Rudy Hellman and Jimmy Lehnertz, directors.

### Swimming Class Due Early in July

The second annual Red Cross swimming course for Muenster is likely to be held early in July, according to L. B. Bruns, manager of the Muenster swimming pool. The Cooke County Red Cross Chapter, which supervises the swim classes is occupied now with its annual class in Gainesville and will turn its attention to Muenster after that.

As before, Muenster will be expected to provide its own instructors but Red Cross will provide the supervisory personnel.

Depending on the number of available instructors, the school this year may be limited to beginners. Youngsters will receive prior attention and advanced swimmers will get instruction if they can be accommodated. The important consideration here is that children be able to swim so that they will be safe in the water.

### CARD OF THANKS

The Rev. Robert W. Wilson, his sponsors Mr. and Mrs. John Neu, and his family take this means of expressing sincere thanks to everyone who helped make his Mass at Lindsay such a memorable and cherished occasion. To each who participated or attended the program they say "Thank You."

Since 1950, according to J. Edgar Hoover of the FBI, the crime rate has increased four times as fast as the population. He finds the increase in juvenile crime especially alarming.
