Auxiliary Maps Plan For Annual March Of Dimes Campaign

The annual March of Dimes campaign in Muenster will again be sponsored by the Ladies Auxiliary to the Veterans of Foreign Wars Post 6205 and members are arranging a well organized drive. It is the organization's fifth March on Polio of this nature.

The Auxiliary mapped its campaign Monday night at its regular December meeting and committee chairmen accepted responsibility for various phases of the campaign.

Definite plans for contributions include personal solicitations at the doors of both local churches, the traditional one-hour porch light drive and collections through the small containers which will be left in local business houses throughout the city.

Tentative plans include some special sales activity and, possibly, a variety show.

Chairmen include Mrs. L. J. Roberg, president of the organization and head of the working groups; Mrs. Maurice Pagel, church collections; Mrs. H. H. Homsley and FHA Chapter members, the porch light drive; Mrs. Richard Grewing and Mrs. David Trachta, containers for the business houses.

The campaign will not begin until January and a definite date for the church door collection will be announced when that arrangement is complete.

Parochial Cagers Beat Alumni, Split Pair With Buckner

Cagers at Sacred Heart High made it three out of four during the past week, splitting a twin bill with Buckner of Dallas and winning both in their tussles with the Alumni.

The loss was to Buckner's boys Tuesday night by a count of 42 to 29. For three quarters the Tigers made it a hot game then slumped in the fourth and allowed their visitors to run up a comfortable margin. At the end of the first period Buckner led 11-4. In the next two Sacred Heart trimmed the lead to scores of 20-15 and 23-22. In the final frame Buckner gained 14. Top scorers for the Tigers were Sonny Walterscheid and Gene Hartman with 13 and 12.

Parochial girls after a good first half had plenty of lead to survive Buckner's comeback in the second. Scores by periods, with Sacred Heart leading all the way, were 12-3, 18-6, 24-20 and 29-24. Dorothy Zimmerer hit 10. Patsy Bayer and Virgilla Schilling got 8 each.

Playing the Alumni last Friday night the Tigers trailed close for three quarters then nosed ahead in the closing minutes for a 29-26 win. Scores for the first three periods were 9-6, 17-16 and 22-21. Leading scorers were Len Haverkamp and Gene Hartman with 10 and 7 for the Tigers and Jerry Hoenig and Joe Felderhoff with 10 and 6 for the Alumni.

An early lead was the deciding factor in the Tigerettes' 33-34 win over the Alumni. First quarter count was 13-3 and the exes took up some slack in the second for a score of 16-11. After that they rocked along evenly for scores of 26-22 and 33-34 closing the third and fourth periods. Dorothy Zimmerer scored 18 for the school girls, Theresa Felderhoff 16 for the exes.

Next on the Sacred Heart schedule are Windthorst there Friday and Harrold there next Tuesday.

Postmaster Urges Christmas Mailing During Next 10 Days

The local post office hopes to keep its good record on handling Christmas mails by getting everything processed and delivered well before Christmas Eve, Postmaster Endres said this week.

He added that how well the mail moves will depend a great deal on the cooperation local people give in getting their packages and Christmas cards mailed during the next ten days. "It's important in the small

town as well as in the city to mail early during the Christmas season," the Postmaster said. "Most people appreciate the early arrival of a gift or card, and where there is a heavy concentration of mail early mailing could mean the difference in on-time and late delivery."

"And be sure to use the correct address," Mr. Endres added. "Wrap and address packages carefully. Take a little extra time and place the address inside the package just in case it should come unwrapped."

The address on all mail destined for the larger cities should include zone numbers to insure faster delivery.

The Postmaster also advocated the use of first class postage on Christmas cards. First class postage — a three-cent stamp — allows a written message to be included inside. There are other advantages, too. The Post Office considers first class mail as preferential mail which is entitled to the fastest handling. Also, a Christmas card with first class postage may be forwarded or returned to the sender.

"Incidentally," the Postmaster concluded, "it is socially correct to place your return address on the envelope bearing a Christmas card."

CARD OF THANKS

Many thanks to everyone who remembered me with greeting cards, flowers, visits and other kindnesses during my illness and stay in the hospital and to all who said a prayer for my recovery. All of these thoughtful deeds meant much to me and to my family who join me in this expression of appreciation.

District President Is Guest Monday at Auxiliary Meeting

Mrs. Davis (Dorothy) Drake of Gainesville, District I president of the VFW Ladies Auxiliary, was a guest Monday night at the December meeting of the local Auxiliary in the VFW hall. In a short address Mrs. Drake spoke with enthusiasm on "Membership," "Community Service" and "VA Hospital Work." She was accompanied to Muenster by Mrs. Orpha Grovert who also spoke briefly, explaining the Gainesville group's participation in hospital work and their monthly visits to the Bonham hospital.

The visitors were introduced by Mrs. L. J. Roberg, president, who conducted the business session in their presence.

Business on the agenda in-

cluded the writing of gift checks. Two \$50 checks will go to local families with handicapped children — this is from the Buddy Poppy fund — and one check was mailed to the National Muscular Dystrophy Foundation. This latter contribution is the December Honor Roll requisite.

Members mapped their annual participation in the March of Dimes campaign and announced chairmen who volunteered to head committees in this drive sponsored by the organization for the fifth consecutive year.

The group completed plans for their children's Christmas party and set the date for Dec. 17.

Mrs. Frank Felderhoff volunteered to be refreshment hostess for the next three meetings, replacing Mrs. Gary Hess who served the preceding months.

Mrs. Roberg announced that the Auxiliary's annual candy sale for Christmas was in progress and members all took boxes for their own enjoyment or to sell during the holiday season.

Mrs. Arthur Endres, chairman of the Christmas gift parcels for servicemen overseas, gave her report. The Auxiliary sent gifts to ten local men. They are David Endres, Ronald Fette, Don Flusche, Richard Hess, Max Rummelhart, David Bright, Ernest Sicking, James Hess, Danny Owen and Alfred Walter.

After adjournment 20 members and the two guests were served refreshments and Mrs. Maurice Pagel's name was drawn for the attendance prize.

Shorter Work Week?

Deep down inside of him, every man (we're not so sure about every woman) is lazy and shiftless. We don't want to work — for work's sake. We haven't been out of the trees long enough.

But the hard fact is we can no longer get a banana or a coconut by merely reaching for it. We have to work to eat. And since it has become the custom to wear clothes and live in houses and give our kids a better start than we had, it has also become the custom to work. What is called "ambition" is a liking for money, or things, or social standing or leadership among our fellows that is stronger than our dislike of work.

Thus, when labor leaders raise the issue of a shorter work week, they are playing with human dynamite. And when they explain, as Walter Reuther has, that they are seeking not merely fewer hours of work but a still fatter pay envelope the lure is atomic!

Less work at higher pay means less goods — at tremendously

higher cost. And, as we know from sad experience, when goods are scarce, the competition is not to find buyers but to find things-to-sell-and prices go through the roof. If you think we have inflation now, just hold your hat!

John L. Lewis, who has always been a tough, bitter, no-holds-barred fighter for his mine-workers, and who has gotten his boys the highest pay-scale in Labor, has told them flatly: "If you want to stop eating so much and loaf more, we can get you the six-hour day."

We've been thinking our days are pretty long too. It would seem like semi-retirement for an editor to go to the 40 hour week. But we just don't know how we'd buy the fish-hooks we'd need for all that leisure.

And even if this crisis-torn nation didn't go to you-know-where in a hand basket economically, we can't help wondering how long the rank and file of us could physically survive more idle time. Some would have to work 40 hours — or more — just to rescue the rest from the accidental shootings, drownings, highway mayhem and assorted immolation associated with modern recreation!

It is a tribute to sorely-tempted human judgment — and a mercy, too — that a recent Gallup poll has shown that people (in all categories) are opposed to the shorter week. Even manual workers voted only 39 percent in favor, 55 percent against, six percent having no opinion.

Who Wants Him?

"Assistant President" Sherman Adams is quoted as saying that the American people want Adlai Stevenson to advise the Eisenhower Administration on foreign policy. But, without access to Governor Adams' crystal ball, we can only look back on the evidence of 1952 and 1956 which indicates that the people did not want Adlai formulating any policies (foreign or domestic) for them, and that Adlai's foreign policy views of 1956 — notably on recognizing Red China and stopping bomb-tests — were definitely not those of President Eisenhower.

What seems most likely is that Thomas E. Dewey told Mr. Adams that the people wanted Adlai (even though Paul Hoffman and Dr. Milton Eisenhower are said to have sold the Stevenson to the President). All of which makes one wonder what a voter has to do to get former candidates out of his hair.

Terse Report

During last summer's floods in Texas, there were many complaints about the tardiness of a rural mail carrier who delivered in an area near the Sabine River, which overflowed its banks and flooded the countryside. Finally the postmaster asked the carrier to file a written report in answer to the charges.

This is what he wrote: "The first day my car got stuck in the mud. The second day my car got washed away in the flood but I saved the letters. The third day my team of mules got drowned, and the fourth day my boat got wedged in the tree-tops above the public square in front of the courthouse."

Posting of Posts By P. O. Is Costly

Apparently the Post Office Department had to be told that buying locally can save high shipping costs.

Cement posts that support many street corner mailboxes were being bought from a single supplier — in Baltimore, Md., — and shipped all the way to the West Coast at a cost of more than \$15 each.

Post Office officials began buying them locally for \$2.70 a piece only after the Hoover Commission, set up to investigate government waste, disclosed the costly trans-continental practice.

FREEDOM FIRST

"In gloating over Russia's achievement in putting the first earth satellite in motion Nikita Krushchev gives credit therefor to the "socialist" system of government under which the Soviets operate. He implies, of course, that this 'socialist' or communist system is superior to the capitalistic system that we know in America. For our part, we'll take the good old American way over the totalitarian way of Russia, even if it means that we're later than they in making a spectacular demonstration of our ability to get a 'Sputnik' circulating around the earth. We hope the day will never come in this land of ours when even the most amazing scientific achievement is put ahead of the freedoms we are wont to enjoy." —Fort Payne, Ala., Times-New Era.

Foreman — "Did you mark the parcel 'Fragile' — this side up with care?"

Assistant — "Sure, Boss, and to be doubly careful I marked it on both sides."

Sputnik's Message to Us

By John P. Brennan, staff-writer, Paulist Feature Service

"BEEP, BEEP" used to mean that a youngster wanted to pass you on his bicycle. Today two "beeps" signal that a new satellite is spinning around the earth.

The Soviet launching of two "moons" within short space of one another, and the Russian boast of reaching the moon has many Americans worried.

FOR MANY in this country, the new "moons" were like clouds of fear and uncertainty. When Sputnik went up, their hopes went down. The beeps gave many the blues.

For a long time, we have been confident that the technical know-how of our scientists was the most advanced in the world — that it would protect us from invasion and destruction.

SPUTNIK HAS warned that we are not first, at least in intercontinental missiles. It also reminded us that physical science alone should never have been our sole hope for security. It was the error of the last century to put all hope in physical science and to forget about God altogether. Twentieth century people are wiser in this respect. They do not want to forget God. But often they do not remember Him.

God created the sun, earth, planets, and man. He gave us our life now and is our hope for salvation and life after death. God knew

from all eternity that Sputnik would be launched. He alone knows fully well what it means for the world.

THE WISE MAN turns to God first for strength and courage. He prays fervently that God will give him that peace which the world cannot give.

As each ICBM rocket is launched, the Christian continues to hope. He knows that God sees and watches over us. The Christian knows that the world is in the hand of God.

THIS TRUST in God who is our final hope does not excuse us from working out a solution to world problems. Trust in God gives us a firm foundation on which to work. It is up to us to do our share. We must pray as if all depended on God, but work as if all depended on us.

As loyal citizens we encourage the development of our national defense; we cooperate in civil defense programs. Those who are in charge of the government need our support and encouragement. We applaud every legitimate means to defend our country and the world. But we must also pray.

THE RUSSIAN satellites may not tell Americans much about ionic pressures or the curvature of the earth. But if we learn from Sputnik how to get down on our knees and ask God's help, we will have learned a great deal. A Sputnik in the sky signals "beep, beep" down to earth. We on earth can beam our prayers up to God in heaven.

Safety Association Offers Advice on Tree Decorations

Austin — "Today is the day to prevent an accident — not tomorrow."

J. O. Musick, General Manager of the Texas Safety Association, issued words of caution today to Texans, regarding Christmas tree decorating safety.

"Most of us make special efforts to see that our homes are filled with pleasure during the Christmas season.

"Why, then," Musick asked, "can't we go a step further and make sure our holiday spirit isn't accidentally marred through carelessness in decorating our homes?"

Musick pointed out that it takes less than 60 seconds for the average Christmas tree to burn completely.

"You have probably seen a Christmas tree burned outdoors," he said. The roar and power of that fire are awesome, even when under control. It can bring death and terror into a home unless a few common sense precautions are taken."

To reduce the possibilities of

such an accident to minimum, Musick listed the following "musts" for safe decorating.

1. Keep tree outside until ready to set it up; then erect it away from heating units. Never place it so that it will block an exit.
 2. Make a fresh cut diagonally in the trunk, at least one inch above the original cut, and keep the base in a water-filled container during the holidays.
 3. Anchor your tree firmly at both the top and bottom. Don't try to fire-proof your tree with chemicals. Use non-flammable decorations.
 4. Keep lighted candles away from tree or other decorations. Use only Underwriter approved lighting — checking to make certain all sockets and wires are in good condition.
 5. Turn off tree-lights at bedtime or when away from home.
 6. Clean up after Christmas gift opening — scattered wrappings are an invitation to disaster.
 7. Dispose of tree safely; never burn it in the fireplace.

Dyed in the Wool

Add this one to those tall stories of Texas wealth. A man had a small farm down there with a few sheep and one day his wife while dyeing some bedspreads blue, had a little lamb fall into the bucket of dye. A passing motorist, spying the lamb with the blue fleece, stopped and offered \$50 for it. So the Texan figured he had stumbled onto a good thing and colored more of his lambs with blue dye which brought him big profits.

"Pretty soon," he recalled, "I was coloring my lambs pink, blue, yellow, green, lavender and turquoise, and you know — now I'm the biggest lamb dyer in Texas."

The only 1958 car that offers more of everything you want... yet is priced lower than in '57

Here's great news! While prices of 1958 cars of other manufacturers are up, the price of Ford's exciting new Custom 300 Series is down. A brand-new 58 Ford Custom 300 with all of its exciting new styling and engineering advances is priced lower than a '57 model, similarly equipped!

World approved styling. A Custom 300 brings you styling that is dramatically new. With its Honeycombed grille, Slipstream roof, Deep-Sculptured rear deck, and Safety-Twin headlights and taillights, Ford styling drew admiring glances from Paris to Saigon . . . yet it's yours now in any 58 Ford Custom 300 without extra cost!

New handling ease. Slide behind the wheel of a Custom 300 and you'll soon discover just how much fun driving can be. Notice how smoothly it handles. That's Ford's new feather-touch Magic-Circle steering, the next best thing to power steering.

New riding comfort. Notice, too, the solid comfort of your ride. That's Ford's easier acting front and rear suspensions. They soak up the bumps before they reach you.

Thrifty, new engines. You have a wonderful choice of new, more efficient power plants . . . designed for real gas-saving economy plus greater performance. Six or V-8, they give you more power, smoother power, from less gas!

Priced as much as \$50 lower. A comparison of manufacturer's suggested retail delivered prices shows that a 58 Ford Custom 300 is priced as much as \$50 less than the same model for '57! You'll wonder how Ford can offer so many of the things you want in a car priced so low. One big reason: Ford gives you more car for less money because Fords sell more! See and drive a Custom 300 and we believe you'll agree that these Fords give you more real value for your car-buying dollars than any car on the American road today.

Breakfast Planned By St. Anne Society

Routine reports and a discussion of coming events occupied members of the parish St. Anne's Society at their December meeting Sunday afternoon.

The group has planned a communion breakfast for Sunday, Jan. 19, following attendance at the 8 o'clock mass.

This event will honor fifty-year members. There are about 15 half-century members in the society.

Mrs. Joe Swirczynski, mission chairman, reported on the Thanksgiving clothing drive and Mrs. Fred Hoedebeck announced that she had made a quilt for the society to sell, the proceeds to go into the church fund.

Mrs. Victor Hartman, president, conducted the business and reminded the membership that dues for a new year are now payable and that the amount is \$1.50.

The meeting, held in the parish hall, started with the monthly prayer service and concluded with a short talk by Father Bruno. He spoke on advent and the coming holiday season, with emphasis on a spiritual rather than a material observance of Christmas.

Thirty-seven members were present and Mrs. Albert Hess won the attendance prize.

Bake Sale Saturday

Freshmen of Sacred Heart High will sponsor a bake sale Saturday as a class benefit and invite everyone to visit their stand at Hofbauer's Food and Locker Service. The sale will begin at about 11 a.m. and the students said they will have an assortment of bread, rolls, and pasteries on hand for customers.

Chairmen Named at Farm Bureau Meet

Chairmen to head Cooke County Farm Bureau committees for a new year were named at the December meeting of directors of the organization Monday night.

New chairmen are: Vincent Zimmerman, membership; Gus Lutkenhaus, resolutions; Paul Fisher, legislative and policy development; L. G. Gentle, service; Glenn Hellman, animal health; Mrs. L. G. Gentle, recreation; and Mrs. Paul Fisher and Mrs. Herman Schniederjan, publicity.

During the meeting, delegates to the recent state convention in Dallas gave reports. John Popp spoke on that portion of the convention concerning field crops and L. G. Gentle told about wheat acreage, research and marketing. Joe Hundt, president, gave a general resume of convention highlights.

Hundt and Gentle announced that they would be among members in attendance at the district program planning meeting in Dallas Wednesday, Dec. 4.

Mr. and Mrs. Paul Fisher were among those attending the session.

AT PARENT'S ANNIVERSARY

Mr. and Mrs. Earl Fisher and children were in Amarillo during the Thanksgiving holidays and on the 28th attended a family reunion honoring Mrs. Fisher's parents, Mr. and Mrs. E. J. Evers of Umbarger on their 45th wedding anniversary. The all-day observance was held in the home of a son, Al Evers. It was the first time in 15 years that all of the Evers children were together with their parents. Most of the couple's grandchildren also attended.

Run Out of Savings

Trying to sell a housewife a home freezer, a salesman pointed out, "You can save enough on your food bills to pay for it."

"Yes, I know," the woman agreed, "but you see we're paying for our car on the carfare we save. Then, we're paying for our washing machine on the laundry bills we save, and we're paying for the house on the rent we're saving. We just can't afford to save any more right now."

Reading Tea Leaves

"I always wonder what a doctor writes in a prescription."

"Yeah, me, too. I can't read it either but I have a hunch it says, 'I socked him \$7, I think he has about \$5 left for you!'"

One day as I sat musing, sad and lonely and without a friend, a voice came to me from out of the gloom saying, "Cheer up, things could be worse."

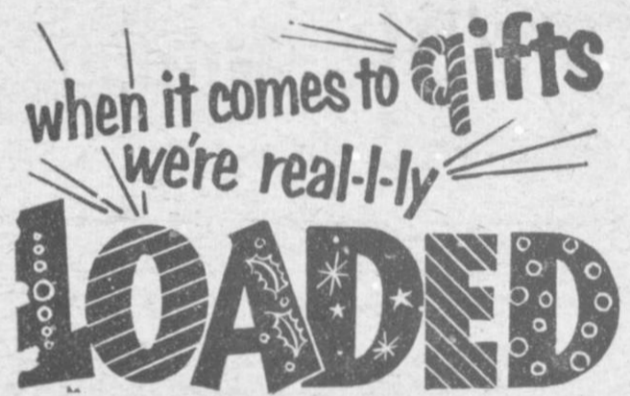

So I cheered up, and sure enough things got worse.

Here's one produced by a recent study: Last year taxes — levied by the federal, state and local governments — took an average of \$2,400 from each of America's 42 million families. Dr. Culpepper - - - state committee by May 1. After that, it is hoped, recommendations on the state level can be drawn up and submitted to the legislature by October 1. Hale-Aikin committee members serving the Muenster school district are M. D. Kaderli, Herbert Meurer, L. B. Bruns, Weldon Holland and Mmes. R. J. Hellman, Dave Trachta, W. R. Lindsay and B. J. Swirczynski. With Dr. Culpepper on Tuesday night's program were four members of the association speaking on current school problems. Charles Newton of Valley View spoke of the teacher shortage problem which is due to hit the state in the next few years and proposed means of attracting more people to the profession. Ben Davis of Era recommended a county wide vocational guidance day for high school students to help them appreciate the value of courses they are expected to study. Herbert Meurer of Muenster presented a recent article by R. L. Mullins of Wolfe City criticizing the modern "progressive" education and its emphasis on non essentials. J. G. Biffle Jr. of Myra spoke on finance and attendance in small schools. Also on the program were an invocation by J. N. Scott of Callisburg, a welcome by B. J. Sicking and introduction of the speaker by Dr. T. S. Myrick. Eugene Springs of Rad Ware presided. After the business session Mrs. H. H. Homsley served coffee, cake and cookies in the home-making department.

Cotton Farmers to Vote December 10 On 1958 Program

How farmers vote in the cotton marketing quota referendum to be held throughout the Nation's cotton-growing area on December 10 will determine whether quota penalties will apply and also the level of price support for 1958-crop cotton. The referendum therefore is of vital concern to every cotton grower, says Everett L. Malli-cote, Chairman of Cooke County Agricultural Stabilization and Conservation Committee.

The marketing quota program will be in operation for next year's crop, the chairman explains, if at least two-thirds of the votes cast in the referendum are in favor of the program. In that case, price support will be available to growers who comply with their farm allotments for the 1958 crop of upland cotton at a level between 75 and 90 percent of parity, and quota penalties will apply on any "excess" cotton. If more than one-third of the votes are against quotas, there would be no quota penalties and the price support level to eligible growers would drop to 50 percent of parity.

All farmers and their wives who were engaged in the production of upland cotton in 1957 will be eligible to vote in the referendum.

The referendum will be held between the hours of 8 a.m. and 7 p.m. on Tuesday, December 10, at the following polling places: Dexter-community center building; Callisburg-Crawfords Store; Woodbine-Woodbine store; Burton-school; Burns City-New Hope Church; Union Grove-Bloomfield School; Valley View-community center building; North and South Gainesville-ASC Office located at 300 E. California St.; Sivells Bend-Sivells Bend store, Era-Alexander's Store; Myra-Parker Fear's Garage; Lindsay-Lindsay hall; Rosston-George Berry's Store; and Bulcher-community center building.

Since there are only six persons in the Muenster community eligible to vote in the referendum the county ASC office has not designated a voting place here. Local eligible voters are expected to vote at Myra or Bulcher.

Harris, Billy Otto, Larry Wimmer, John Fette, John Swirczynski, Walter Fette and Nolan Harmer.

MHS Teams Enter Forestburg Tourney

Muenster High basketball teams will start their 57-58 season with a bang Thursday night as they take on the Goldburg teams in preliminary games of the Forestburg invitation tournament.

The experience will be especially rugged for the boys who still have had less than a week of practice. Their start in basketball was delayed one week when they extended their football season for a bi-district game. Then they were delayed more while awaiting arrival of their gym shoes.

Muenster girls are somewhat farther advanced. They have practiced several weeks.

Birthday Surprise

Mrs. Phillip Metzler was pleasantly surprised Sunday evening in observance of her 60th birthday when relatives and friends gathered at her home for the occasion. They brought birthday gifts, a decorated cake and other refreshments. Another surprise which added to the delight of the celebration was the presence of Cpl. and Mrs. Rudy Dieter who came from San Antonio on a weekend pass for the occasion. Mrs. Dieter is the Metzlers' daughter Anna Belle.

Confetti . . .

is just as accurate as the other, maybe more so. It studies all plant employees over a period of ten years and 3 months and figures out to the astounding total of 115,000 person years. That kind of coverage seems at least as thorough as the samplings used in other surveys.

The report doesn't necessarily mean that for health's sake we should smoke more cigarettes nor that we should go looking for jobs in cigarette factories. But it does suggest quite emphatically that the reasons for lung cancer have not been definitely pinned down.

Army of Occupation in Japan and was later on the front lines in Korea. During that conflict he received a battlefield commission as second lieutenant. After the war he gave up his commission in favor of a master sergeant rating.

He went to Hawaii in September this year after being stationed at Fort Bragg, N.C.

In 1941 while training in Georgia he married Anna Ruth Davidson in Macon and she survives with their seven children, six sons and a daughter ranging in ages from 11 years to three months. They are Jimmy, Danny, Stanley, Tommy, Bobby, Cynthia and Steve.

Other survivors are his parents; two brothers, Herman of Muenster and Walter of Gainesville; and four sisters, Mrs. Ray Sicking and Mrs. Eddie Krahl of Muenster, Mrs. William Flusche of Lindsay and Mrs. Julius Stelzer of Post.

The accident that ended Eberhart's adventurous army career happened while he and other service men were repairing a barracks building after storm damage. He lived five days. The body was flown to California and came by rail from San Francisco to Gainesville, arriving Sunday. From then until time for the funeral it was at the Miller Funeral Home here and two rosary services were held Sunday and Monday at 4 and at 8 p.m.

County ASC Office Gets New Location

The Cook County Agricultural Stabilization and Conservation Committee has a new office, effective Thursday of this week. It is located at 300 East California St. in Gainesville, just east of Brown Pontiac Company.

H. B. Newberry, manager of the ASC office, said the reason for moving is that the office outgrew its former location in the court house. The number of farm programs administered by the ASC required larger quarters.
