City Election and Primary Run-off Set for Saturday

If the usual pattern of voting prevails again Saturday, conservatives of the state may be in for a disappointment. Their candidate, after enjoying a stout lead in the first primary election may be defeated by former supporters who just don't bother to vote.

That's because the minority radical wing of the party, including such organizations as DOT, NAACP, CIO Political Action Committee, and various other pinkish groups, are well organized and active whereas the conservative wing, including the big majority of Texans, are scattered and less inclined to get excited about politics. Hence the radicals are likely to turn in a much better percentage of their total voting strength than the conservatives do.

The big question is whether they can muster the ballots to overcome the supposedly comfortable plurality of 160,000 run up by their opponent in the first primary.

To make matters worse, the office sought in this race is one of the less colorful ones in politics . . . for Place One on the State Supreme Court. Thousands of average people don't know and don't care about the job or its candidates.

But the DOTs and their political associates do know and care. They are interested in placing their man in office and reaping whatever benefits they can from his influence and his brand of thinking. Furthermore they are active. They will have a good representation at the polls.

The possibilities involved in a conservative default are especially disturbing when we consider them in relation to record of the United States Supreme Court in recent years. We have noted with concern how those judges have been handing down decisions which are favorable to the reds, also how they have been applying completely new meanings to old laws, actually nullifying legal interpretations that have stood up for decades. It's hardly necessary to add, of course, that the radical wing of Texas politics has much in common with the present members of the Supreme Court. They are similarly inclined to disregard what the original lawmakers intended and to hand down instead a decision that reflects their own theories of what the law should be.

Do the people of Muenster wish to have such a man on their state supreme bench? If not, let them resolve now to be as devoted to their traditional brand of thinking as the radicals are to theirs. While admitting regretfully that conservatives will lose some ground in this contest, let's go all out in this community, confident that our vote will help keep straight thinking on the state supreme court.

For the benefit of any who might have forgotten, Hamilton is the conservative on this ticket. Smith, his opponent, is the darling of DOT, actually the organization's legal representative.

That one contest is all that Muenster people will find on the ballot Saturday. But it alone is amply deserving of our keen interest. The stakes are high . . . to determine what shade of political and ethical standards will be applied to our state's laws. It's well worth a trip to the ballot box.

An interesting detail on life in Russia is contained in National Review's "congratulations" to 28,000 car drivers in Moscow . . . as compared with three million in New York City . . . on the Kremlin's recent decision to abolish gasoline rationing coupons in the Soviet capital. "Just think of it, only thirteen years have passed since World War II ended and now the eight (8) Moscow service stations can sell all the gas (when they have it) that anyone (with a car) can afford to buy."

Another nugget from the same publication: "Chiang Kai-shek suggests that the West counter the Soviet Union's 'indirect aggression' in the Middle East with a little indirect aggression of its own behind the Iron Curtain . . . concretely, that we stir up the same kind of trouble and unrest in the satellites that the Kremlin has unleashed among the Arabs. These tactics, Chiang believes, would do more to check Soviet intrigue in Nasser-Nasser land than the alternate gun brandishing and talking to (Continued on Page 10)

Two elections will be held in Muenster Saturday. In the city hall residents of the city will elect an alderman to fill the present vacancy on the city council. In the other election the community will participate in the state wide Democratic primary to elect a nominee for Place One on the Supreme Court in the November general election.

Both elections will be short. The city ticket will have only one name, Richard Grewing, and voting will be mostly a formality. The other election offers a choice between Robert Hamilton of El Paso and Edwin Smith of Houston.

Though it receives little popular interest, the state-wide election is important in Texas political circles. It is one of the year's major contests between conservative and liberal elements of the party and its outcome could have an important bearing on future application of the law in the state.

The city election will be held in the city hall with L. A. Bernauer and R. E. Hamric in charge. The Democratic run-off will be in the usual two polling places. Joe Luke will be in charge of the North Box at the public school, Paul Fisher will have the South Box at the elevator south of the Katy railroad. Voting time for all three is 8 a.m. to 7 p.m.

Henry Pick Flies To Germany for Family Reunion

After 29 years of separation, Henry Pick is back home with his family at Cologne Germany.

Traveling on the same schedule that was used by Henry Henscheid a week ago, Pick boarded a plane at Dallas Tuesday at 8:30 and was due to arrive 18½ hours later at the airport of his home town.

Discussing his trip last Saturday, Mr. Pick said that the only definite event on his schedule is the first mass of his oldest brother's son and the celebration attending it on September 21. At that time he expects to see most of his relatives along with many friends of his youth.

The rest of his visiting plans, he said, will be worked out with his two sisters and two brothers after his arrival. Most likely to be included, he added, is the 80 mile trip to Brussels for the World's Fair.

Pick expects to return home late in September or early in October, after which he and the family will start making plans for the next big event in this memorable year of 1958 . . . the celebration by Mr. and Mrs. Pick of their silver anniversary the day after Christmas.

WITH THE MEN IN SERVICE

Transfers to Germany
After completing his basic training at Fort Sam Houston, Capt. Monte Hellman is headed for Germany. He and the family arrived during the weekend and he spent a few days of delay en route here before proceeding to Fort Dix, N.J. for processing for his overseas assignment. Mrs. Hellman and the three children will remain here, in Rudy Hellman's trailer house, until Monte can make arrangements for them to join him in Germany. He expects this tour of duty to last three years.

On Leave and Delay en Route
David Walter, son of the Oscar Walters, is at home enjoying a ten day leave plus a four day delay en route as he transfers from Keesler AFB, Miss., to Homestead AFB, Fla.

On Temporary Duty
Mrs. Joe Galloway and daughter Johann have been with her parents, the John Fishers, this week while her husband, of Altus AFB, is on temporary duty at Clinton Sherman AFB, some 50 miles north of there. Starting Friday the Galloways will be visiting here and with his family during their 20 day leave, but after that they face problems again as he returns to Clinton Sherman for the rest of his 6 months of temporary duty. No housing is available at the temporary location.

Swimming Pool to Close on Labor Day

Swimming season at Muenster will close on Labor Day. At their meeting Monday night the city council decided to hold the pool open for the first week of school, especially since it is convenient for them to do it. Dan Hamric, assistant supervisor through the summer, can remain here that long before going to the University of Oklahoma.

Pool Supervisor L. B. Bruns will quit Sunday so that he can return to teaching Tuesday. The pool will be closed as usual on Monday. From then through Labor Day it will be open every day, then closed for the season.

20 Teachers Listed On 58-59 Staff at Parochial School

Assignments for the 20 teachers who will make up the faculty at Sacred Heart School for 1958-59 were announced this week by Sister M. Celine, principal.

The list shows a total of seventeen teachers in regular academic subjects plus two priests, Fathers Christopher and Bruno Leonarda for music classes. Of the regular teachers eleven will have the first seven grades and the other six will teach the eighth through the twelfth grades.

Assignments for the grade school are as follows:
Sister Grace, Grade 1
Sister Gabriel, Grade 1
Sister Brenda, Grade 2
Sister Frances, Grade 2
Sister Genevieve, Grade 3
Sister Anna, Grades 3 & 4
Sister Gebharda, Grade 4
Sister Theophane, Grade 5
Sister Canisia, Grades 5 & 6
Sister Pauline, Grades 6 & 7
Sister Agnes, Grade 7

From there on through high school the grades are departmentalized, including the eighth grade. Teachers assigned to those five grades are Sisters Celine, Barbara, Theresina and Patricia; Miss Betty Corn and Coach George Petrus. Definite class assignments for each will be decided after registration when the number of pupils for each class is known.

Officials of the school are as follows: Father Christopher Paladino, superintendent, Father Bruno Fuhrmann, assistant superintendent, Sister Celine, principal and Sister Grace, superior of the convent.

The overall assignment list (Continued on Page 10)

'58 Grid Practice At Parochial High Will Start Monday

Coach George Petrus and his Sacred Heart Tigers will start off with a bang on their 1958 grid season. Following night sessions Monday and Tuesday they will work out day and night for the rest of the week . . . the regular time during the day and extra time under the lights.

After that the team will settle down to the regular schedule of day practice. With a total of almost three weeks until his first game, on Sept. 12th with Windthorst, Petrus feels he has time to get his team organized.

The Tigers were hit hard by graduation last year. Over half of the old starting lineup is gone, leaving a nucleus of 5 starters from his total of 9 lettermen. A few more good prospects among the beginners offer hopes for a fair starting lineup, but reserves are likely to be limited.

Home-School Society Meets
The Home-School Society of Sacred Heart School will get off to an early start this year. Their first meeting is set for the first school day, on Tuesday, August 26, 8:15 p.m.

Firemen Offer to Assist Burning of Vacant City Lots

Services of the Muenster Fire Department are available to citizens who wish to burn off vacant lots.

Fire Chief Ed Schneider announced this week that the firemen are ready to cooperate with all who want a safe way to eliminate the fire hazards and insect havens now flourishing in some parts of town.

All that's necessary is to contact him, or Steve or Joe Mosler, and a date will be arranged for the men to stand by with equipment while the area is cleared.

Mrs. Hoelker, 78, of Lindsay Is Victim Of Heart Attack

Mrs. Theresa Hoelker, 78, a resident of Lindsay since 1918, died in Gainesville Sanitarium at 5:45 Wednesday, apparently from a heart attack.

Her fatal illness lasted only a few hours. Feeling considerable pain at about 2:30 she sent word to her son, Albert, at Hoelker Grocery and he promptly rushed her to the hospital. Before that she had been working in the house and garden, enjoying her usual good health.

Funeral services and burial will be held at Lindsay Saturday with Father Aleuin Kubis officiating. Late Thursday morning final arrangements still awaited the return of her son Ewald, who was on vacation at the time of her death.

Mrs. Hoelker was born at Morrison Bluff, Ark., on Sept. 30, 1879. She was married twice, first to John Weiss, and after his death to Casper Hoelker, who died at Lindsay in 1927.

Survivors include three children by her second marriage: Ewald and Albert Hoelker of Lindsay and Mrs. Al Moosburger of Austin.

Also seven children by her first marriage: John Weiss of Gainesville; Louis Weiss of Custer, Okla.; Ed Weiss of Redwood, Calif.; Sister Mary Virginia of North Carolina, Mrs. Mary Harsin of Wyoming; Mrs. Rose Kriezenbeck of Arapahoe, Okla.; and Mrs. Paul Klein of Custer, Okla.

NEWS OF SICK AND INJURED

Herman Stoffels, enjoying rapid recovery from his recent lung operation at the Lisbon Veterans Hospital, has recovered sufficiently to be dismissed last Friday. Monday he returned to limited duty at his old job in the NTPA milk plant.

M. L. McGowan, who was severely burned on his back, arms and neck in an oil field accident in July has recovered sufficiently to return to work on a part time basis. Lonney and his family, now living at Davis, Okla., were here Saturday and Sunday as guests of her brother, Leo Lawson, and family.

Mrs. Paul Fetsch is back home since early last week recovering slowly from an operation in the Gainesville Sanitarium.

Monica, 10-year-old daughter of Mr. and Mrs. Paul Fetsch broke her right arm in a fall at home Monday.

Casper Haverkamp is back home since Tuesday getting a long fine but still under orders not to risk possible injury to his eye by work or a strain. He had a cataract removed from beneath the right eyeball on July 10. After that he spent 11 days in the hospital and about two weeks with each of his nephews, Joe Haverkamp of Gainesville and Bill Haverkamp of Muenster. He says that the sight in the afflicted eye is improving steadily. Casper also says thanks from the bottom of his heart to all who remembered him during his illness.

Mrs. Clifford Otto of Gainesville, the former Evelyn Vogel of Muenster, was dismissed from Gainesville Sanitarium Thursday after medical treatment and observation since last Sunday.

After failing to respond to several weeks of medical treatment, Father Martin Fischer had an operation for stomach ulcers Tuesday. According to a report from Father Christopher Wednesday, he is resting normally after the surgery and expects to be in the hospital about four more weeks.

Mrs. Adolph Walterscheid returned home Wednesday after three days of observation and treatment in Majors Clinic, Nona.

ST. JOSEPH'S MEETING

Regardless of a conflict with the parish shower for the Benedictine Sisters, the Saint Joseph's Society will have its regular meeting after the evening mass next Sunday. President Ed Endres said Tuesday that a short business session will be held upstairs in the parish hall, after which members will go to the basement and join in the community party.

Shower for Sisters Scheduled Sunday

The annual reception and shower for Muenster's Benedictine Sisters has been set for next Sunday night in the parish hall, following the 7 o'clock mass and benediction.

Members of the St. Anne's Society, which is sponsoring the affair, invite all parents of parochial children to come and join in the welcoming event and also do their bit toward relieving the sisters' financial strain.

They also ask parents not to bring their children along. Their wish for this party is to let teachers mingle with parents and not have their time taken up by youngsters.

Items recommended for the shower are bed linens (for three quarters size beds) canned foods, or cash.

Homsley Reveals Faculty Personnel At Public School

George H. Lemons of Seminole, Okla., completes the 1958-59 faculty at the Muenster Public School. Superintendent H. H. Homsey advised last week that he has been engaged as seventh and eighth grade teacher and also as coach of grade school athletics.

Mr. Lemons, who graduated at Central Oklahoma State Teachers College at Ada in June will begin his teaching career here. Before attending there he spent two years at a junior college in Hutchinson, Kansas, and four and a half years in the armed services. He is married and has one child.

Another new member on the faculty is Mrs. Jerry Bledsoe of Myra. A native of Vernon and now attending NTSC at Denton, she will teach the English classes.

All other teachers at the public school were on the job last year. They and their assignments are as follows: H. H. Homsey, superintendent; L. B. Bruns, principal and industrial arts; Mrs. H. H. Homsey, home-making; Mrs. John Mosman, science; Miss Bettye Dodds, commercial subjects; Boze Ansley, athletic coach and mathematics; Glenn Reiman, vocational agriculture; Jimmy Harris, history and band; Mrs. Besie Miller, first and second grades; Mrs. Weldon Holland, third and fourth grades; Weldon Holland, fifth and sixth grades.

City Changes Tax Structure to Halt Interest Payment

Though taxpayers generally will not be aware of it, they will nevertheless derive some financial benefit from a new tax structure adopted by the city council in its meeting Monday night. They will be spared some, and perhaps all, of the interest charges that are customarily paid each year on money borrowed for the city's general fund.

That will be accomplished by a new division of the city's tax revenue, applying 20 cents of each \$1.50 to the interest and sinking fund and the remaining \$1.50 to the general operations fund.

The current ratio is 65 cents to the interest and sinking fund and 85 cents to the general fund. It was set up a few years ago when funds were raised by bond issue for the city's water and sewer improvements . . . as a means of assuring adequate funds to meet bonded indebtedness on schedule.

Since then, due partly to the generous provision and partly also to the town's growth with its resulting increase in valuation and revenue, the interest and sinking fund has accumulated a surplus of several thousand dollars.

According to state laws governing municipalities none of this money can be used for any other purpose. Meanwhile the general fund falls short. So the city has to borrow and pay interest on money while it has idle money on hand.

The council's remedy is simply to put less money in the bonded indebtedness fund, leaving more for the general fund. And present records show that 20 cents out of each \$1.50 received, along with the accumulated surplus, will be more than adequate for the bonded obligations.

Students Register Next Tuesday for 58-59 School Year

Summer vacation is practically over for the children of Muenster. Next Tuesday, starting at 9 o'clock they will assemble at both of the local schools to register and get organized for the coming scholastic year.

The first day will be a short one, consisting only of registering students in their respective classes, issuing books and making class assignments for the following day. Father Christopher and H. H. Homsey, superintendents of the two schools said the students will be dismissed about noon. No meals will be served in either lunch room that day.

As during the past several years the schools will follow the same schedule all through the school year, principally because of their cooperative use of the bus system. Regular class time is from 8 to 3:30 and time is allowed to both groups of students to attend daily mass at 11:30 o'clock.

That hour for mass, used during the last school year was very satisfactory because it allows children to receive Communion without losing time for breakfast, as before. Children now can have breakfast before school and fast the required number of hours before receiving the Eucharist.

In other respects the schools are also cooperating. They observe the same holy days and holidays all the way through and the same emergency holidays for bad weather.

At Sacred Heart School the new regulation on wearing uniforms becomes effective on Wednesday, the first day of regular classes. To refresh memories on a policy adopted before the end of last school year, Sister Celine announced this week that uniforms are required four days of the week. Monday is an optional day, but blue jeans will not be permitted.

Physical Checkup Slated Sunday for Muenster Hornets

1958 football for the Muenster High Hornets begins Sunday at 2 o'clock. At that time Dr. T. S. Myrick will be at school to give the players their customary physical examinations.

Actual practice will begin bright and early the next day. At 7:30 a.m. the boys will report to Coach Boze Ansley to receive equipment and then go through a good workout before noon. They'll be back Monday night for more of the same.

Starting with the opening of school on Tuesday the team will go on a schedule of night practice and stay on it until the season opener with Pilot Point on September 5. The only exception to that schedule will be Labor Day, a school holiday. The boys will have another morning session then.

Blaze at Stoffels Doused Promptly; Damage Is Slight

Prompt action by the Muenster fire department saved the Frank Stoffels home about 7 o'clock Tuesday night and held down the damage to an estimated few hundred dollars.

It was reported to have started from a grease fire on the kitchen stove. To get rid of the flames the exhaust fan of the ventilator above was flicked on. Next they found the attic afire.

At that time the alarm was turned in and minutes later the firemen were there. They found the flame still confined to a fairly small area and chose their small hose to reduce the amount of water damage.

Rafters and roof decking were charred over an area of about 15 feet.

The Real Salesman

Fresh out of college, Joe came in from door-to-door selling and reported that he'd been insulted at every household.

"Well, I declare," his boss replied. "Can't understand it. I've covered that same area for 30 years. Some of those same housewives have slammed the door in my face, had their kids throw things at me, had their husbands kick me down the steps and swear at me — but, I don't understand it. I was never insulted."

A salesman is a man with a smile on his face, a shine on his shoes and a lousy territory.

Vows Exchanged by Raymond Hesse and Evelyn Haverkamp

—Boyd and Breeding Photo

Sacred Heart church was the scene of an afternoon nuptial high mass during which Evelyn Haverkamp, daughter of Mr. and Mrs. J. J. Haverkamp, became the bride of Raymond Hesse in a double ring ceremony. Rev. Christopher Paladino officiated at the service Saturday at 4 o'clock.

Anthony Luke, organist, played the wedding processional and remained at the console to accompany the church choir in singing the mass. Mrs. Norbert Walterscheid was soloist presenting selections after the service.

Given in marriage by her father, the bride wore a white dress of nylon and acetate lace over taffeta. The wide skirt, fashioned of tiers of ruffles extended to floor length from a fitted bodice topped with a brief bolero. The jacket was designed with cathedral sleeves and a Peter Pan Collar. The bride's veil was elbow length and she carried a white orchid atop a white prayerbook, a gift from the groom.

Her only jewelry was a handsome antique gold cross and chain, formerly the property of her great-grandmother, Mrs. Joseph Flusche, who gave it to her granddaughter, the bride's mother.

Jane Hesse, sister of the groom, was maid of honor wearing a bouffant pink nylon net dress over taffeta with matching headpiece and mitts. She carried white carnations with loops of pink satin ribbon.

Ferd Haverkamp, brother of the bride was best man and Leo Haverkamp and Leo Hesse, brothers of the couple, ushered.

After mass the newlyweds recited prayers at the Blessed Vir-

gin's altar where the bride placed a bouquet.

A wedding reception with a buffet dinner catered by Mrs. Joe Lehnertz were held in the parish hall. About 200 guests were registered by Marcy Klement and Margie Reiter. A dance in the VFW hall followed.

When Mr. and Mrs. Hesse return from a honeymoon trip they will make their home north of Muenster. He is a son of the late Mr. and Mrs. Joe Hesse and works for L. W. Powell, oil operator. Bayer Family Has Reunion to Honor Visiting Relatives

A get-together of descendants of the late John Bayer in the city park Monday night honored four visiting relatives from Willie, Iowa. They are Mr. and Mrs. Frank Bayer and daughters Edith and Susan, who left Tuesday after a week's visit here. Frank's last previous visit was in 1954 when he came for the funeral of his brother.

The group, numbering nearly a hundred people, brought covered dishes for a huge picnic supper. Those attending from Muenster were the families of Martin, John, George, Frank, Alfred, Robert and Arthur Bayer, the families of Victor Hartman, Norbert Klement and Leo Hesse; also Mrs. Joe Bayer, Mrs. Wilfred Klement, Joe Mages; the Alvin Hartmans, Herman Dangelmayrs and Dickie Cains; and Mrs. Nick Dieter and children. Others attending were Joalene Mollenkopf, Mary Catherine Walterscheid, Alice Walter, Kathleen McGannon, Becky Mosman, Margie Knabe, Dolly Otto, Charlotte Schilling and Jerry Endres.

Mrs. John Rohmer's Birthday Observed At Family Reunion

A birthday party and covered dish supper given by her children honored Mrs. John Rohmer Sunday night at the home of her son, Tony.

The event celebrated the seventieth birthday of the pioneer Muenster settler who came here with her family, the Frank Hesses, when she was just past her first birthday. The date of arrival was Nov. 14, 1889, a few weeks before the community's formal dedication on December 8.

A decorated birthday cake featured the picnic style supper which was followed with presentation of gifts and picture taking.

Another memorable event of the party was a telephone call from two daughters, Sister Fidelis and Ramona of Holy Angels Convent, Jonesboro, Ark., wishing her a happy birthday and many more to come.

During their long-distance visit they said that both are as-

signed to teach in Little Rock, Ark., during the next school year.

Also absent from the family group was Alfred (Johnny) Rohmer, who is away from Muenster on vacation.

All other members of the family were there. They are Mr. Rohmer, sons Emil and Tony and their families and Victor and Maurus, all of Muenster; Mrs. Joe Spaeth and children of Wichita Falls; Mrs. Martin Wright and husband and children of Irving; and Miss Ida Rohmer of Fort Worth.

Ida remained after the party to spend Monday with her parents.

Mr. and Mrs. Ray Evans and Mrs. J. C. Trachta have returned from a two weeks vacation trip to California. At Long Beach they were guests of Mrs. Evans' sister, Mrs. Howard Couch, who returned with them for a two weeks visit here. Other main stops for the vacationers were at Disneyland, Calif.; Las Vegas, Nev.; Prescott, Ariz.; and the annual Indian Ceremonials at Gallup, N.M.

STANDING ON THEIR RECORD

Senator Wayne Morse and others may scoff at the statistics on Supreme Court decisions compiled by Senator James O. Eastland, but those figures do indeed tell a story.

Senator Eastland added up the records of Supreme Court justices on all cases involving communism. His statistics prove conclusively that certain justices — notably Warren, Brennan, Black, Douglas and Frankfurter — have consistently favored the Communist position.

Justice Hugo Black participated in 71 cases involving Communists and on every single occasion he voted to sustain the position advocated by the Communists.

Justice Douglas favored the Communist cause in 66 of 69 cases.

Justice Frankfurter has participated in 72 cases and his record shows that he opposed the Communists in only 16 of the decisions.

Nor is the record of two Eisenhower appointees much more impressive. Chief Justice Warren has favored the Communist position in 36 of 39 cases; Justice Brennan in 18 of 20.

By way of comparison, it should be noted that Justice Clark cast an anti-Communist vote in 33 of 51 cases, former Justice Reed in 40 of 54, and Justice Whitaker in seven of 11.

By "pro-Communist" vote is meant any decision which favored the Communists or furthered the interest of or benefited the party generally while weakening the internal security of the United States.

Even more alarming than the individual statistics, however, is the fact that in the four and a half years since Earl Warren took his oath as chief justice, the court has heard no less than 39 cases involving Reds or subversive activities. And in 30 of these decisions the court sustained the position advocated by the Communists.

Senator Morse, on the floor of the Senate, denounced these statistics as a "sinister attack upon those great public servants," who, he said, are only "protecting individual rights." But how can that be? All Senator Eastland has done is to add up all decisions which went for and against the Communist

Same Old Mirage

cause, simply permitting the record to speak for itself. He is not saying that the justices are Communists or anything of the kind. All he is saying is that they have consistently voted in favor of the position advocated by the Communists.

Is there something wrong with judging the court on the basis of the record it has compiled? No reasonable man would think so.

GOVERNMENT FREEZES FARMER'S BANK ACCOUNT

Uncle Sam's bureaucrats have tightened their grip on farmer Stanley Yankus, Jr. This farmer was illegally penalized by the federal government for growing too much wheat for his own use.

"Federal agents appeared at the Dowagiac National Bank and, armed with a garnishment, froze Mr. Yankus' bank account of \$3,403.50."

"Mr. Yankus said he simply did not know what he was going to do. The day before he wrote a check in payment for chicken feed for \$767, which will probably bounce. Annually, Mr. Yankus markets approximately 53,000 dozen eggs. His is the largest egg-producing business in the country. Four years ago he received notification that the federal government was fining him for growing and using too much wheat on his 100-acre farm."

The fines continued each year and now total \$3,848.00. The farmer has refused to pay on the grounds that his constitutional rights have been infringed upon.

"The Agricultural Adjustment Act of 1938 is the law the government charges Mr. Yankus has violated. Under the provisions of the Act, farmers are bound to abide by acreage allotments established by the agricultural stabilization and conservation committee. Mr. Yankus says he has never signed any agreement with the government and has never received any subsidy. In addition, the farmer says he uses all the wheat he grows as feed for his laying hens. The 39-year-old farmer, with his wife and two school age sons, do all the work on their farm."

Abridged from The Dowagiac Daily News, Dowagiac, Michigan.

Here seems to be a young man, with all the sound virtues usually admired and respected by Americans. He is industrious,

thrifty, a good manager and a business man, growing wheat and feeding it to hens, which produce annually 53,000 dozen eggs. He had a bank account and was paying his bills. What's wrong with that? Can't the government endure having any rugged, dependable farmers who don't want federal handouts?

WE CAN'T WAIT ANY LONGER

James Hoffa, head of the Teamsters' union, has proposed the most grandiose scheme of its kind in our history. He will attempt to organize all the truckers, all the railroad workers, all the airline pilots, and all the maritime workers into a single union.

As one report puts it: "The congressional friends of labor sadly shook their heads and labor's critics smiled with satisfaction," when this plan was announced by Mr. Hoffa. Other labor leaders also sadly shook their heads, and for good reason. If a labor group of this kind is ever formed, it will have the whole country at its mercy. It could call a general strike which would totally cripple the economy. The trains, the trucks, the planes, and the ships would all stop. Nothing would move unless and until the demands of the union, no matter how extreme they might be, were granted.

It is also said that, if Mr. Hoffa is successful in this incredible endeavor, Congress will have no choice to bring the unions under the anti-trust laws. But, in any reasonable view, Congress can have no excuse for waiting to see if Mr. Hoffa can achieve his aim or not. His plan simply highlights a fact that has long been evident — that the unions have a monopoly power that is denied to all other enterprises and organizations, and that this power can no longer be countenanced in a supposedly free country.

The unions must be subjected to the anti-trust laws, like everyone and everything else. The right-to-work must be made universal. All other proposals are trivial.

SPEAK UP FOR DECENCY

By Rev. James Keller, Director of the Christophers

Recently a man in St. Louis turned off a TV show because he regarded it as unsuitable entertainment for his family. His comment was: "That is the type of thing that twenty-five years ago was burlesque—for men only."

MILLIONS of decent Americans are shocked by the increasing vulgarity and depravity being circulated in print, over the air, and in films. And the recent wave of delinquency is evidence that their worst fears are well-grounded.

But you are in a position to see that the literary and entertainment fields are distinguished by good taste and decency. Don't underestimate what one person like you can do. With God's help, your courageous stand can have a telling effect.

A BUSINESSMAN in Oklahoma recently proved this. He belongs to a business group exemplary in all respects except one. The entertainment at their annual party was, as he put it, "an insult to any normal person and debasing to say the least."

When he protested to the management they gave him the usual answer. "That's what the men want." Not satisfied, he challenged them to poll the membership by mail. The results surprised everybody. 77% of the men voted for a change to decency. The men got the type of entertainment they really preferred—not what a small minority "assumed" they wanted.

WE SOMETIMES forget that every person has a pretty fair idea of what is decent and what is indecent. God has given us all a sense of right and wrong. It only takes a little effort to follow our convictions and others will fall in line.

Remember that every newspaper, magazine and book publisher, every radio, TV, and movie company is dependent upon you for its very survival. Their business is to serve you—not dominate you.

YOU HOLD the purse strings. Every dollar you spend can be a vote for or against decency. You must be the judge. Your power to be selective can be a decisive one. Stir up others to approve or disapprove quickly and forcefully, and you will do much to raise the standards of literature and entertainment.

In meeting this growing problem, first of all, be just and fair. Recognize the efforts of publishers and producers to maintain high standards. Occasionally write to congratulate them on their good work and assure them of your prayers to help them fulfill their responsibility to the public.

FURTHERMORE, make sure to be positive and constructive—not merely negative and critical. Good literature and entertainment means far more than absence of filth, just as health means much more than the avoidance of disease.

There it is... the rest is up to you. In a thousand ways you can do much to improve our moral standards if only you will SPEAK UP FOR DECENCY.

**School Lunch Fund
For Texas Increased
By Over \$700,000**

College Station — First installment of \$5,488,245 of federal funds for Texas schools in the national school lunch program will be released by the food distribution division, Agricultural Marketing Service, Dallas, around September 1, reports John J. Slaughter, chief of the Dallas AMS office.

Texas public schools will get \$5,166,017, an increase of \$661,

449 over last year and private schools will get \$322,228, an increase of \$72,570, according to Slaughter.

Funds appropriated by Congress for the program are released to the states according to the number of children between 5 and 17 years of age, inclusive, and the relation of the per capita income in the U. S. to the per capita income in the state.

The public school allotment for Texas will be used by the Texas Education Agency to reimburse schools in part for the food bought from local merchants. Texas private schools secure their allotments directly from Slaughter's office. Last year about 3,000 public and 131 private schools operating under the school lunch program spent about \$20,780,935 with local merchants for food, Slaughter said. They served 90,860,139 meals, nearly all with a half pint of milk and the average cost was about 25.4 cents during November, the peak month of participation last year.

"With the use of USDA funds and foods, schools can keep the cost of lunches at the lowest possible level," Slaughter said, emphasizing that each school determines the cost of its lunches on a non-profit basis.

The program is designed to improve the diets of school children and to enlarge the market of farmers. At the same time, it creates local business and jobs.

Texas public schools which have not been in the program but wish to participate this next school year should contact Charles M. Hicks, Texas Education Agency, Capitol Station, Austin. Private schools should contact the Food Distribution Division, AMS, USDA, 500 S. Ervay Street, Dallas 1, Texas.

**USDA Will Compare
Merits of Purebred
And Crossbred Cow**

College Station — Whether hybrid dairy cattle might be better producers than purebred cattle is about to be subjected to scientific scrutiny at the U. S. Department of Agriculture's Beltsville, Md., research center.

A long-range investigation recently undertaken by USDA scientists will compare purebred Brown Swiss, Ayrshire, and Holstein cows with crosses of the same breeds, according to A. M. Meekma, extension dairy husbandman. Test matings are planned so that both two-way and three-way crosses can be compared.

The crossbred and purebred cattle, descended from the same basic stock, will be compared on the basis of their milk production (including butterfat content and solids-not-fat production), breeding qualities, birth weight, growth of calves, and their efficiency in converting feed into milk.

Meekma says these studies should demonstrate whether the hybrid vigor that has been so effective in increasing productivity and quality in many plants and some animals can be put to practical use in improving dairy herds. Using sires from artificial breeding establishments, crossbreeding would be relatively easy to practice in the dairy industry if it should prove desirable, concludes the specialist.

Marysville News

By Mrs. B. G. Lyons

MARYSVILLE — A full week of revival services has been in progress at the Marysville Baptist Church since last Sunday. Rev. Newton of Denton is conducting the services and the regular pastor, Rev. Manning Bishop is song leader.

Friends here have learned that the Roy Winchester family, of Marysville, have recently moved from Lewisville to Grand Prairie.

Mrs. Mary Booth of Bowie is spending several days with her cousin, Mrs. B. G. Lyons, while her husband is in Levelland for a medical check-up.

Mrs. Dora Lassiter of Sapulpa, Okla., a sister of the late Shelby West, accompanied Rev. and Mrs. Charles Lassiter to revival services Monday night.

Billy Bishop, son of Rev. Manning Bishop of Denton, is spending this week with James Whitt.

A guest of the Lawton Moons this week is her mother, Mrs. Jane Craddock of Gainesville.

Mr. and Mrs. John Richey visited Sunday with her brother,

Joe Wyatt, and family at Calistburg. They report that Joe is making nice progress after his recent surgery.

The Nig Wilson family, accompanied by the Don Wilsons and her brother, Richard Herr, were Sunday visitors in the home of Mrs. Nig Wilson's brother, M. T. Burk and family.

The Marysville cemetery committee acknowledge receipt of \$2.00 from Mrs. Martha Hutchens of the Arlington Masonic Home and \$2.50 from her brother, Buck Lay, of Houston. They are members of a pioneer Marysville family, several of whom are buried in the cemetery.

Mrs. J. N. Shaw and son, Albert, and his daughter, Paula, of Gainesville returned early Monday morning from a trip to west Texas and New Mexico. They left Wednesday, spending that night with her granddaughter, Mrs. Gene Hawkins, Rev. Hawkins and children. They spent three days with Mrs. Shaw's daughter, Mrs. Horace Moody and family in Bovina. Sunday morning they toured Carlsbad Caverns before starting their trip home.

Mr. and Mrs. W. O. Grant and children, Dolores and Larry, of Alta Loma, returned home Sunday after visiting two weeks with their parents, Mr. and Mrs. B. G. Lyons and her sister, Mrs. Marie Stiles and daughters, Shirley and Velora of Gainesville. Tim, the youngest boy remained to visit through August with his aunt and grandparents.

Wendell Richey and brother-in-law, Krift Cane of Snyder, visited his cousin, Don Ray Moon Tuesday. Don Ray is on leave from Abilene Air Force Base, visiting his father, Bill Moon and other relatives.

BULCHER HD CLUB MEETS
A talk by Mrs. Eddie Fleitman on caring for sick in the home featured the regular monthly meeting of the Bulcher Home Demonstration Club last Thursday in the home of Mrs. Gid Prather.

Another interesting event on the program was a recitation by Club President Mrs. Albert Fleitman of the ten commandments to combat juvenile delinquency.

Mrs. Prather served refreshments to five members and one child.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Terraces properly constructed and properly managed help save topsoil and water. Terraces make farming operations more diffi-

cult, but the loss of topsoil makes farming impossible.

Terraces on cropland gives several benefits. They break long slopes into short slopes, thus preventing large amounts of water from gathering before it is sidetracked. It prevents water from concentrating in unprotected drainageways in the cultivated fields. Terraces slow down the movement of water and move it slowly across the slope so that more of it soaks into the soil for crop production. Terraces carry run-off waters to a safe disposal area such as pasture or waterway strips where the concentration of water can be safely handled. Because terraces are so important in soil and water conservative cost-share payments for terrace construction is provided to landowners through the county ASC offices and technical assistance is provided by the Soil Conservation Service assisting the Upper Elm-Red Soil Conservation District program.

Farmers in the Muenster area are continuing to take advantage of favorable conditions by building terraces to protect their sloping fields. Added to the growing list of terrace builders last week was Andrew Wimmer with 2200 feet of terraces and Walter Reed of Myra is building 4000 feet of the wide base channel type terraces to add to his system. The terraces, outlet onto a Bermuda-grass waterway that was planted for that purpose. At Hood Cecil Welch and Joe Lewter are building 6000 feet of terraces on each of their farms, and Joe Lewter is also constructing about 15,000 feet of terraces on the farm he operates for Mrs. Jewel Trew.

Arthur Hellman is adding 6600 feet of terraces to his farm south of Muenster and Tony Walterscheid and Ray Kupper have added more terraces to the land they farm northeast of Muenster.

All terraces being built are the broad low ridge channel type terraces, that are easy to farm and all terraces outlet on to pasture or waterway grasses to prevent erosion. Each terrace represents another step forward for each landowner toward completion of a soil, water and plant conservation plan on his farm. It's a step toward continued and increased production on the land.

Ponds to provide livestock water have recently been completed on the D. D. Grant ranch, on the R. T. Brock farm near Hardy, on the Jack Gordon farm at Tyler Bluff and on the Judy farm northeast of Muenster operated by the Bayer Brothers. Other ponds have been staked and are under construction on the Webb Reynolds farm at Forestburg on the L. O. Biffle farm near Rosston and on the T. E. Giles ranch near Saint Jo.

All ponds are located so that they will enable the landowner to practice better grazing management by providing water so that grazing rotations can be carried out to improve the grass cover through proper use and deferred grazing practices.

LIVING COST UP 108%... AVERAGE PRICE PER KWH FOR ELECTRICITY DOWN 43%

Times change—and so do buying habits. But even if the careful customer no longer looks for flaws in the glaring light of day, he still looks for the best value money can buy.

We invite you to take a closer look at our "product" in the light of the continuing economy you get in the purchase of electricity.

Since 1936, the rising tide of living cost has gone up 108%. Yet, unlike the cost of most other necessities, electricity is actually cheaper than it was 22 years ago. The average cost of TP&L residential

electricity today is 43% less per kilowatt hour than in 1936.

We of TP&L have been able to keep the unit price of your electricity low through efficiencies and economies in operation and your increased use of service... and in spite of the continually rising cost of materials and labor in connection with carrying on our business.

Texas Power & Light Company is a product of this country's free enterprise system... that has resulted in America enjoying the highest standard of living in the world today!

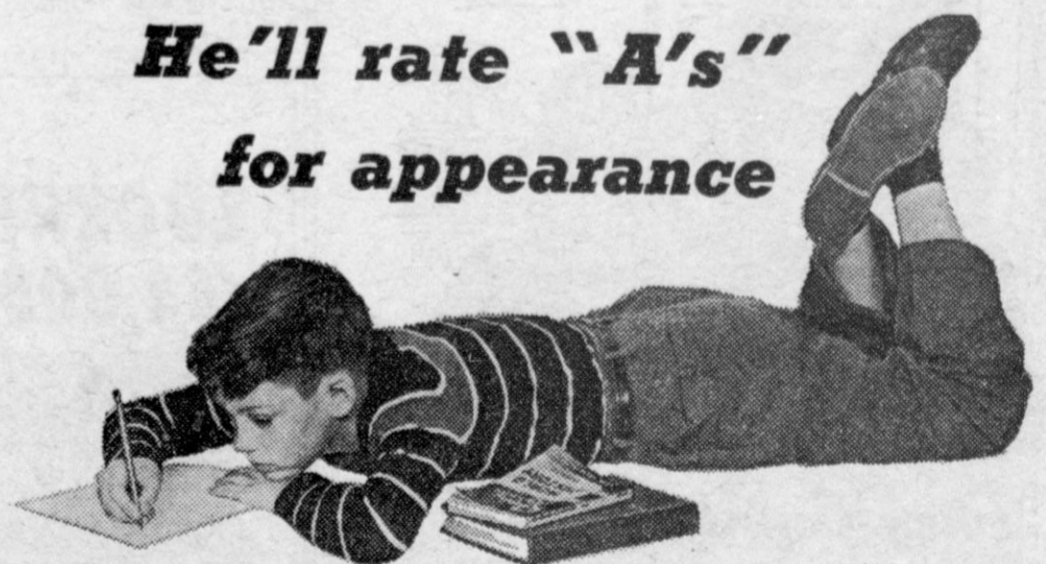

Electricity is the biggest bargain in your family budget.

Example: YOU CAN OPERATE YOUR ELECTRIC REFRIGERATOR FOR ONLY 75c TO \$1.25 A MONTH

Humble Announces TV and Radio Plans For SW Conference

To celebrate its 25th year as sponsor of Southwest Conference football broadcasts, Humble Oil & Refining Company is adding a new feature to this fall's football presentations. It is a videotaped "Game of the Week" to be presented each Sunday afternoon during football season with Kern Tips narrating.

Announcement of this and other broadcast-telecast plans was made yesterday at a school for Southwest Conference announcers held in San Antonio. Besides the 11 videotaped games, there will be 70 radio broadcasts and four live telecasts of Southwest Conference games.

The videotaped games will offer many of the advantages of live telecasting; in fact most viewers cannot distinguish between the two. Each game to be recorded on tape will be selected by Conference representatives and will be telecast at 5 p.m. (CST) the day after the game is played. It will be seen over a 28 station network in Texas and New Mexico. This program will give viewers a 45-minute version of the game as it would have been if telecast "live."

Live telecasts include the Baylor-Texas Tech game, October 18; the SMU-Georgia Tech game, October 25; the Rice-Army game, November 8; and the TCU-Texas game, November 15. These four games, selected by the Conference, will be telecast over a network of 24 TV stations.

More than 130 radio stations in Texas and New Mexico will be used for radio broadcasts of games played by the Southwest Conference, Texas Western and New Mexico University. These will originate from 25 stadiums in 16 states.

Gainesville College Offers Education At Reduced Cost

You say that you want an education with the opportunity and progress it promises? This you can afford, for Gainesville College brings academic and vocational training to your very door.

Since living expenses represent five-sixths of a student's educational costs at a state college away from home, the student going to the community college will save from \$800 to \$1000 in almost unavoidable costs of room, board, and travel. Fees at Gainesville College are the minimum \$100 per year plus the laboratory fees averaging \$6 per laboratory course.

The college bookroom furnishes texts at a minimum charge. Social activities — parties, picnics, dinners are planned and paid for chiefly through the student activity fund.

The deserving student who needs aid with tuition may find it through the Mary Josephine Cox Foundation scholarships which have been made available through the years to hundreds of Gainesville and Cooke County students for two years of education.

The student who wants the opportunity of two years of accredited college training at a minimum of expense can find it within his own community at Gainesville College, where the student-faculty relationship is closer and more valuable than at the larger college.

Cora: "I hear you have accepted Joe. Did he happen to mention that he proposed to me first?"

Laura: "Not specifically. He did say he had done a lot of foolish things before he met me."

Board of Review Promotes 6 Scouts

Six tenderfoot scouts of the Muenster troop advanced to second class rating Monday night in their appearance before the local board of review.

They are Thomas and Roy Hartman, Thomas and Jerry Mosman, Jerry Taylor and Johnny Yosten.

The men who judged on their eligibility to advance were Acting Chairman John Mosman, Frank Felderhoff, Ray Wilde and Paul Endres. Also attending the review were Scoutmaster Nick Miller, Assistant Scoutmaster Maurice Pagel, and Joe Sicking, institutional representative of the VFW Post, which sponsors the local Boy Scouts.

Date for a Court of Honor, at which the six boys will formally receive their new rating and insignia, will be set for a convenient date in the near future.

Meanwhile the youngsters are already working toward their first degree rating. Friday night in the Muenster pool they will try to meet the swimming requirement, a 50 yard swim. Their intention is to avoid having the next advancement held up until the pool opens again.

Parochial Teachers

Sister Brenda, replacing Sister Ursula, is in Muenster for the first time. Miss Betty Corn of San Antonio is an addition to the high school department.

The total number of Benedictine Sisters serving the community this year is seventeen, the sixteen teachers and their housekeeper, Sister Josephine.

It frequently happens that the self-made man is an outstanding example of unskilled labor.
