MUENSTER, COOKE COUNTY, TEXAS, FRIDAY, JULY 18, 1941

NUMBER 34

## Tiny Spiders Kill 35 Cedars In Cemetery

According to the Soviet radio report, a division of Nazi soldiers were bottled, their supply lines severed, and their ranks being gradually thinned by incessant guerrilla attacks. The commentator concluded with: "They face certain annihilation, unless God performs a miracle."

Surprise! Who would have expected that kind of remark from an atheist. To say the least, it is inconsistent. How it must have embarrassed the Communist big-shots!

Twenty years ago the Reds were boasting how they would completely root out any idea of a God. Failure in that venture was inevitable. The belief is too fundamentally a part of human nature. However, it was convenient for many years for men in favored positions to pretend disbelief. But now, when Communism is facing its greatest test, when Red leaders realize how precarious their cause really is, they instinctively get serious minded. The more trouble Stalin gets his people into, the less success he will have imposing Atheism on them. Actually he's driving them back to God.

There is only one formula for getting Atheism accepted: Make conditions so pleasant and so prosperous and so peaceful that people begin thinking they can get along without the Supreme Being. But neither Stalin nor anyone else can do that.

A few dozen crackpots tried to make fools out of a mighty nation. It will be amusing now to see the crackpots exposed as fools.

As amusing as the Red commentator's slip of the tongue is Hitler's claim that he has taken up the sacred task of defending Europe against Communism. He seems to think the whole world should hail him as a liberator. The fact is that Hitler is entitled to much credit for his service to humanity. On the other hand, Stalin is entitled to a world of credit for a similar service.

Civilization is grateful to both, just like a police department is grateful to rival criminals who rub out one another in a gang war. It has no respect for either belligerent. It is just thankful that decent society has been relieved of a messy job. More power to both of the rats.

May each wipe out the other and rid the world of two scourges.

A thing like this could happen only in America. Some local civic group has named a comic strip character, Joe Palooka, as its national ideal. At first thought this seems to suggest a fundamental shallowness of the American mentality—unless you know Joe Palooka. But the more you think of over the more you are inclined to concede the wisdom of such a choice.

Joe is a combination of about all the qualities that Americans admire. He's a fine physical specimen able to take care of himself. But better still, he has character. Joe is everybody's friend, he trusts everybody, he is always ready to help anybody. He has deep seated convictions of honesty, loyalty, patriotism and other virtues. He is completely unassuming, and he's a perfect gentleman. Not the polished cavalier type but a sincere fellow who wouldn't hurt a person's feelings for anything in the world.

Usually in picking ideals we like to favor men like Lincoln and Washington. We would like to be doing wonderful things on a big scale. The trouble is we don't have room for 130 million Washingtons and Lincolns. But we do have room for 130 million Joe Palookas—little fellows who quietly go their way, always loyal to the ideals we are proud to identify as real Americanism, always ready to do a little more than their share to make this a brighter world. Think it over. If there were more Joe Palookas America would be a lot better country to live in. Definitely he is a worthy ideal for the average citizen.

At the time of the big ruckus in the North American Airplane plant in California, one fellow wrote a newspaper editor requesting a scorching editorial on what he would say if Hitler sent troops into a factory and, at the points of bayonets, forced men to turn out war materials for a foreign nation.

The editor's reply was a neat job of putting a radical in his place. It is well worth our notice.

What happened in California is not at all what the critic—who very likely is another of our subversive undesirables—intimated in his challenge. As the editor pointed out, soldiers did not force men to go back to work. They only subdued a mob

(Continued on page 6)

The worst set-back encountered to date by the Civic League and Garden Club in its cemetery beautification project is the horde of tiny red spiders that attacked the cedar grove and killed 35 trees.

According to a report by Mrs. Nick Miller, chairman of the cemetery committee, a great deal of time was lost before the nature of the trouble was determined. At first a form of rust was believed responsible. Then, when the microscopic pests were discovered, the first few sprayings were fruitless because an ingredient to make the poison stick had been left out.

It is believed that all the pests are now under control.

More than half of the trees along the sidewalk leading to the Calvary group in the center of the cemetery, were affected. Trees spotted in other sections of the cemetery escaped infection. Thirty-five trees are dead and it is still too early to determine whether others will be lost.

In view of the large expenditure necessary to replace the trees, members of the cemetery committee are urging especially generous donations in the current annual drive for cemetery funds.

## ANOTHER STEP TAKEN TOWARD APPROVAL OF CITY WATER SYSTEM

A license as an approved water works operator received this week by Frank Hosdebeck advances the city of Muenster one step nearer to securing the State Health Department's approval of its water system. Samples of the water had previously been declared O. K.

Only one obstacle blocks the approval. Unsanitary conditions in the vicinity of the well, still have not been eliminated. As long as open toilets, garbage, etc., which might prove a source of pollution, exist, the Health Department will not give its approval.

Approval means being listed by the department as a city with pure water and the right to post highway signs proclaiming the water's purity.

## EMERGENCY LOAN FOR WHEAT PRODUCTION OFFERED TO FARMER

Emergency Crop loans for the production of winter wheat and other small grains are now available to farmers in Cooke county, and applications for these loans are now being received at Chamber of Commerce, Gainesville, by W. R. Yearly, field supervisor of the Emergency Crop and Feed Loan Section of the Farm Credit Administration.

These loans will be made, as in the past, only to farmers whose cash requirements are small and who cannot obtain a loan from any other source, including production credit associations, banks, or other private concerns or individuals.

As in former years, the money loaned will be limited to the applicant's necessary cash needs in preparing his land and seeding his 1941 grain crops.

Borrowers who obtain loans for the production of grain crops are required to give as security a first lien on the crop financed.

Mr. Yearly will be in Gainesville each Monday, from 11:00 A. M. to 2:00 P. M.

## Oil Field Notes

In general, oil development in the Muenster area continues at its usual steady pace. Drilling continues in the proven fields south of town.

East of the Linn-TCU-Fette production, H. E. DeLee has started his second of a group of five wells on the Rosson estate.

In the recently discovered field northwest of Muenster, Harrell is ready to set pipe on good indications at 1900 on the No. 2 Bindel. The Danglemyr well in that area was declared dry at 3400. Reports are that tests will be drilled soon on the Moore place about three-fourths miles west and on the Charles Cler farm some distance north.

West of town acreage is being blocked for a test which will probably be located on the Grant farm.

The Henscheid field just north of Muenster sees a revival of activity. J. G. Richards and Son started this week on a well for Humble on the Feiderhoff estate, adjoining the Henscheid estate production.

Another wildcat is being drilled by Russell on the Hill Campbell ranch east of Muenster.

Outside the local area but of considerable interest to local oil men is Dixon Oil Company's deep test at Slevels Bend. It was down to 2500 Wednesday and is due to go on to 4000 unless production is found at a higher level.

## THE U. S. NAVY OVER ICELAND

AKUREYRI, ICELAND. — Official U. S. Navy Photo—The United States Navy released this view of the harbor at Akureyri, Iceland, with the comment that the picture was taken from a naval patrol plane a "few days" preceding the U. S. occupation. This port is Iceland's second largest city.

## City Clean-up Sponsored By Civic League

A city-wide clean-up will be conducted in Muenster this Friday, members of the Civic League and Garden Club decided at their meeting last week. This is one of the campaigns conducted by the League, independent of the city, and the usual charge of twenty-five cents will be made at each home or business house where trash is picked up.

In making the announcement, Mrs. Herbert Meurer, chairman of the sanitation committee, asked that all rubbish, tin cans, etc., be sacked, rather than boxed, and she added that all sacks will be emptied on the truck and left for further use. She explained that the truck driver experiences much difficulty in picking up cardboard boxes because in most cases they do not hold the load and break before reaching the truck. Henry Grewing has been engaged as the hauler and will make the collection at the time of the pickup. Citizens are urged to cooperate to the fullest extent in this campaign.

## SODALITY BRUNETTES CHALLENGE BLONDES FOR SOFTBALL GAME

A softball game, Brunettes vs Brunettes, furnished the principal discussion at the meeting of the Young Ladies Sodality Monday evening during a regular monthly session. A definite date for the contest has not been decided but regular practice schedules were set and team members named. The read headed members of the sodality will be in charge of the cold drinks stand during the game. It was decided.

Delegates to the Catholic State League convention at Pilot Point were named as follows: Misses Anna Marie Klement, Mathilda Hess, Armelia Yosten and Mary Elizabeth Endres. Miss Klement will be one of the speakers at the Youth Rally.

Miss Veronica Yosten, chairman of the social life committee, announced a joint social for the girls and the Holy Name Society to be held in the parish hall this Wednesday evening.

The meeting opened and closed with prayer led by Rev. Richard Eyeld, spiritual director. A large attendance was present.

## FORMER MYRA LADY BURIED SATURDAY IN REED CEMETERY

MYRA.—Funeral services for Mrs. Kate Bryant of Dallas, formerly of this community, were held Saturday afternoon at Reed cemetery. Mrs. Bryant died last Thursday afternoon at Dallas.

The deceased, wife of the late W. M. Bryant, resided in this community a number of years before moving to Dallas. Mr. Bryant is also buried in Reed cemetery. One son, L. E. Bryant of Dallas, survives.

## Bindel Youth at Carlsbad Victim of Lightning Stroke

Raymond Bindel, 21, son of William Bindel of Carlsbad, N. M., was killed instantly by a bolt of lightning in an electrical storm at Carlsbad last Saturday, according to word received here by relatives of the Bindel and Trubench families. Mr. and Mrs. Tony Trubench and son, Martin, and Mrs. Peter Bindel attended the funeral Tuesday.

## Serial Numbers Assigned To New County Registrants

A list of Cooke county young men who registered for selective service at the county draft board on July 1, together with their serial numbers, has been issued by the draft board.

There are 130 young men on the list, twelve of whom gave Muenster as their address. Their names and numbers are as follows:

- 4—Edwin J. Luke
- 5—August J. Lutkenhaus
- 21—Raymond F. Lutkenhaus
- 35—Riley W. Robeson
- 36—Adolph H. Schumacher
- 38—Herman C. Fette
- 40—Edward Streng
- 71—Patrick Stelzer
- 83—Urban J. Endres
- 85—Willie J. Fuhrmann
- 89—Andrew Joe Luttmner
- 92—Walter H. Klement

Places to be held by these men on the county's list of eligibles is being determined in the second master lottery in Washington on Thursday, July 17. The sequence in which their serial numbers are drawn will determine the sequence of their local draft order numbers.

Thereafter the new men will be integrated among registrants already on the draft rolls. In general, the method will be as follows. Each local office will determine its ratio of new men to possible trainees between the ages of 21 and 27. (A recent congressional decree deferred all persons who were 28 or over on July 1). If the proportion, for example, is 10 to 1, the order number of one new registrant will be placed on the revised list after every ten of the older registrants.

## Scholastic Transfers Must Be Made in July

Cooke county students who plan to attend the next school year outside their respective home districts have only two more weeks left to make arrangements.

All transfers must be completed before August 1 in order to facilitate the proper transfer of student per capita allotments. Failure to comply with this regulation may result in a student's failure to make the desired change.

Transfers are obtained in the county superintendent's office in the courthouse.

## POP DEFENSE

## BUY UNITED STATES SAVINGS BONDS AND STAMPS

AMERICA ON GUARD! Above is a reproduction of the Treasury Department's Defense Savings Poster, showing an exact duplication of the original "Minute Man" statue by famed sculptor Daniel Chester French. Defense Bonds and Stamps, on sale at your bank or post office, are a vital part of America's defense preparations.

## County Drive For Aluminum July 21 to 29

Cooperating in a nation-wide drive for scrap aluminum, members of the Cooke County Civilian Defense council have completed plans for extensive collection of the material from July 21 to 29. Arrangements were made in a special session at Gainesville Tuesday night.

Earl Fisher, Muenster representative on the council, brought the organization's plea to this community. He explained that the purpose is to secure every available scrap of waste aluminum as a means of bolstering the nation's limited supply of that vital and essential metal. He pointed out, however, that the civilian council does not wish people to donate useful articles. "Do not give a pot or pan if you have to buy another to replace it."

Cooking utensils are expected to make up the principal source of the scrap. Discarded radios, parts of old washing machines and dozens of other items will also yield useful scraps.

Every family is asked to search its home for items to donate, if necessary to rake through old rubbish heaps, and bring the material to town. For the duration of the drive a receptacle for the material will be located in front of the bank. No arrangement has been made here for calling at homes in order to gather the material.

Speakers at the council meeting appealed to the public spirit of patriotism to put this drive over, asking that every person assume the responsibility of gathering the metal in his home and delivering it. No one is receiving pay. What a person does is his contribution to the national defense program.

## GROUP WILL ATTEND CONCLAVE, JUBILEE AT PILOT POINT

A large number of Muenster people will go to Pilot Point, Tuesday, Wednesday and Thursday of next week to attend sessions of the 43rd annual convention of the Catholic State League and its affiliated organizations and a Golden Jubilee commemorating the founding of Saint Thomas parish fifty years ago. The conclave will be the 27th annual one for the Women's Union and the third for the CYO.

The first day's program includes registration of delegates and the first general meeting. Wednesday, designated as Catholic Day, will also mark the jubilee celebration. Speakers will include Msgr. J. G. O'Donohoe of Fort Worth; Rt. Rev. Msgr. W. J. Noid of Dallas, and Dr. John G. Bowen, Field Representative of the National Council of Catholic Men, Washington, D. C.

Miss Anna Marie Klement of this city will be presented as speaker on the youth program using as her subject, "The Blessed Virgin in the Lives of Youth." Rev. Francis Zimmerman will be master of ceremonies at this gathering.

Thursday's activities will include a mass for deceased members and closing sessions with sacramental benediction and Te Deum at 5:30.

## WORK ENDS ON HALF FINISHED REA LINE, NO WIRE AVAILABLE

Lack of material due to national defense needs is about to cause another halt in the already long delayed line construction project for the local electric co-op. Delivery on about half of the wire is not expected until September, after which the job can be completed in a few weeks.

Less than a week of work will complete the line as far as material reaches, according to W. B. Autrey, superintendent for Taylor Construction Company. From then until the rest of the material arrives the crew will be laid off.

The line will be really for energizing as far as it reaches, Autrey said.

## REV. VINCENT ORTH ILL WITH FLU AND NERVOUS BREAKDOWN

Rev. Vincent Orth is reported recovering normally after convalescing from a recent illness of summer flu and a nervous breakdown. He was a patient at St. Vincent's hospital at Sherman for two weeks and this week was able to leave the hospital and go to Lindsay where he will spend a few weeks resting with Father Conrad and with members of his family. Fathers Frown and Richard visited with him Monday afternoon.

Mrs. E. P. Buckley and daughter, Betty Lue, returned Thursday from a vacation visit with relatives in several Oklahoma towns.

## AAA Offers Escape From Wheat Penalty

WASHINGTON. — With many farmers protesting against the 49 cents a bushel penalty on excess wheat, the Agriculture Department announced Sunday a 12-month extension of the period during which such grain may be stored under Government loan and thereby opened a way for growers to avoid the penalty.

Under original regulations, the Government offered loans for a period ending April 30, 1942. Regulations announced Sunday extend the date until April 30, 1943.

Officials explained that a farmer storing excess wheat under loans could take it from storage and sell it free of penalty in event that:

Quotas were lifted by 1943. He underplanted his acreage allotment next year by the amount of this year's excess.

He suffered a crop loss next year in which case this year's excess grain could be sold as part of the 1942 crop without penalty to the extent that 1942 production fell below his quota.

Farmers taking advantage of the extended loan will be allowed 12 cents a bushel storage allowance for grain stored on their farm.

## Boy Ties One End of Rope To Himself, The Other End To Horse; Not Badly Hurt

Young Wilbert Vogel, 10, son of Mr. and Mrs. Joe Vogel of Myra, has learned by experience that it is not wise to have one end of a rope around himself while the other is tied to livestock.

The lad was leading a horse Monday afternoon and had either tied or wrapped one end around his neck—the horse was gentle, and that method apparently relieved him of holding the rope. All was well until the boy was suddenly jerked backward by his neck. It is not known whether the horse got scared, stepped on the rope, or what, but when Mr. Vogel arrived from a short distance he found the boy with a bad bruise and rope burn on his neck, and the horse nearby dangled a broken rope.

A doctor's examination failed to reveal any further injuries to the boy.

## Firemen Name Jake Horn, Jim Lehnertz Delegates to Annual Firemen's Course

The election of delegates to attend the annual Firemen's School at A. & M. College and the discussion of the annual picnic furnished the principal business at the monthly meeting of the local volunteer fire department Monday night.

Jimmy Lehnertz and Jake Horn Jr., will leave Sunday to attend the week's school at College Station. The annual get-together for members and their families and the city council will take place on Sunday evening, July 27th, at the K of C hall.

## McFarlane Gets Post On Attorney General's Staff

W. D. McFarlane, Graham, former congressman of this district has been appointed as a special assistant in the United States Attorney General's department. He will be stationed at Texasarkana to direct legal affairs in connection with the leasing and purchasing of 42,000 acres of land for the shell-loading plant and ammunition depot to be established near that city.

## LOCAL NEWS BRIEFS

Short Items of Interest About Folks You Know  
ROSABELL DRIEVER, Society Editor

Mrs. Ed Wolf returned Tuesday from Lubbock where she spent three weeks with her parents.

Miss Emma Lee of Dallas visited here Saturday as the guest of M. R. Collins.

F. J. Schenk and Turner Buck of Saint Jo spent Friday fishing at Lake Katy.

Mr. and Mrs. "Pop" Menzie left Thursday for a 10-day vacation in their former home town in Kansas.

Fathers Frowin and Richard visited in Windhorst and Wichita Falls Tuesday.

Little Nolen Thorn of Waco is the guest this week of little Joe and Tommy Flood.

Miss Marie Streng of Dallas spent from Saturday to Tuesday here with members of her family.

Mr. and Mrs. Tom Carter spent Sunday with relatives in Durant and Kenefic, Oklahoma.

Mr. and Mrs. Alvin Cier of Valley View were in Muenster Tuesday to spend the day with relatives.

F. J. Schenk and Tom Carter made a business trip to Fort Worth Monday.

A family gathering and social evening marked the birthday of Alois Walter Tuesday at his home.

Mr. and Mrs. J. H. Flood and sons returned Sunday from a vacation trip to Galveston and Waco.

Otto Walterscheid of Tishomingo, Okla., has moved to Muenster to assist Bud Bernauer in the management of the new Magnolia Station.

Monte George of Wichita Falls is the new employe of Frick-Reid Supply Co. He will be here through the summer.

Tommy Weinzapfel and Ray Wilde, students in the current CAA course at Gainesville, made their solo flights Monday.

Herbert Meurer and Ben Seyler attended a Chrysler meeting in Dallas Friday. They made the trip in the Muenster club's airplane.

Mr. and Mrs. John Furbach and son were at Lake Murray, Okla., Friday for an all-day outing and fishing trip.

Mr. and Mrs. Frank Schilling and daughter, Mike, Albert and Carl Schilling visited in Pilot Point with relatives Friday evening.

Mr. and Mrs. Tom Hennigan and family of Wilson, Okla., were Sunday visitors at the homes of Fred and H. P. Hennigan.

Mrs. Kate Morbitzer and children of Scotland were here to spend Sunday with the Weinzapfel and Gremminger families.

Ed and James Esch and Bob Morris of Grand Rapids, Michigan, are here to spend this week with the Fisher families.

Dr. and Mrs. T. S. Myrick flew to Wichita Falls Sunday for a visit. They went in the Muenster Club's plane.

Miss Gertrude Voth is recovering from an operation for the removal of her appendix at Medical-Surgical hospital in Gainesville Tuesday.

Mr. and Mrs. Paul Nieball and family will leave this weekend on a vacation trip to California and other points of interest on the west coast.

Mrs. L. A. Bernauer and Mrs. John Meurer returned Tuesday from a weeks' visit in Dallas and Fort Worth where they were guests of Mr. and Mrs. A. H. Rebenstish and Mr. and Mrs. Charles Stelzer. Mrs.

Stelzer drove them back to this city and spent a few hours visiting relatives.

Miss Rita Voth, a student nurse at Saint Anthony's hospital in Oklahoma City, is spending her annual vacation with her parents, Mr. and Mrs. Barney Voth.

Mr. and Mrs. Clarence Wilson left Friday for a ten-day vacation. They are visiting relatives and friends in Floydada and Penwell and Albuquerque, N. M.

Mr. and Mrs. F. E. McLeod and daughter left Sunday to spend two weeks in Ardmore, Okla., with relatives. He is on his annual vacation from duties at Frick-Reid.

Father Melnrad, who assisted here with parish duties during the absence of Father Frowin, left Friday morning to assist with pastoral duties at Tyler.

Mr. and Mrs. W. L. Wages stopped to visit with Mrs. T. C. Wages Friday enroute to their home following a week's vacation in San Antonio.

Mrs. E. C. Harmon who underwent an operation in Dallas recently was able to be moved to her home here Monday and is convalescing nicely.

Frank Hess, Pete Rollman, Al Walterscheid and Matt Schmitz, accompanied by Theo Schmitz of Lindsay, enjoyed fishing at Lake Bridgeport Tuesday.

Miss Margaret Simons has returned from a three weeks' visit in Mooretown, Minn., where she visited with two nieces who are Benedictine nuns.

Mr. and Mrs. Joe Luke and daughter, Miss Alma Marie, accompanied by Miss Gladys Wilde, are leaving Monday to spend next week on a vacation tour of Oklahoma, Arkansas, Kansas and Missouri.

Mr. and Mrs. C. W. Ratliff and three sons of Lubbock arrived Saturday for a week's vacation visit with her parents, Mr. and Mrs. John Fette, and other relatives and friends.

Leo Henschel and "Pop" Menzie spent most of Tuesday on a business trip to Wichita Falls, Windhorst and Jackboro and completed the day with several hours of fishing at Lake Bridgeport.

Paul Walterscheid, Henry Pels, Tony Walterscheid and son, Emmet, Gene and Cyril, spent Saturday at Lake Bridgeport on a fishing trip and caught more than fifty pounds of fish.

Mr. and Mrs. Lou Wolf left Wednesday on a ten-day vacation tour to the Blue Ridge mountains of Virginia. During Lou's absence Will Wallace of Houston will have charge of his barber shop.

W. C. Russell of Big Spring, formerly of Muenster, visited with friends here Saturday and in the evening joined Oren Edelen, T. M. Hammer and Ralph Cason of Durant on a fishing party at Lake Murray.

Robert Lueb returned to his home in Coleman, Okla., Tuesday following a two months' visit here and at Lindsay with relatives. He was accompanied home by Mr. and Mrs. Bernard Wolf and family who spent the day with relatives.

Mrs. Bernie Schumacher is on a vacation from duties at Jimmy's Cafe. She spent the weekend at Gainesville with her parents, Mr. and Mrs. George Hundley and was the guest of relatives in Dallas several days of this week.

Mr. and Mrs. Herman Fette had as guests Thursday Mr. and Mrs. B. L. Murry and three daughters and Miss Jimmy Nell Runyon of Sterling, Kansas, and Mrs. J. F. Brown and daughter, Wanda Lou, of Lindsay.

Mr. and Mrs. Alphonse Vogel of

### KNOXVILLE GIRLS O. K. 'YOO-HOOS'

Houston arrived Monday evening for a week's visit with relatives. The couple was married on July 4 and since that time are on a wedding trip, the first part of which was spent in Louisiana.

Bob Yostson's infected eye is much better and his general health is improved greatly following his stay at St. Vincent's hospital, Sherman, for treatments and general build-up. He was able to return to his home Sunday.

Saint Anne's Mission Sewing Circle met for a monthly afternoon of sewing and quilting in the school basement Thursday afternoon. Fifteen members were present. At the close of activity cake and punch were served.

Father Frowin returned Thursday evening from a three weeks' trip that included visits at the National Eucharistic Congress and with relatives in northern states and a general check-up on health at the Mayo Clinic in Rochester.

Mrs. R. M. Zipperer suffered a relapse of illness last week and was taken back to St. Vincent's hospital

KNOXVILLE, Tenn. — Comment on the disciplining of men of the 110th (Yoo-Hoo) battalion by Lt. Gen. Ben Lear has come from many quarters, pro and con. Here are four Knoxville sub-debs who say they definitely see nothing wrong with soldier's Yoo-Hooing at girl golfers in shorts. They are left to right: Mary Towns Bruner, Nancy Hootman, Lloyd Keener and Betty Ashe. The tempest started when the troops Yoo-Hooed at girl golfers in shorts at Memphis, not knowing that Lt. Gen. Lear was among the golfers. The General was heckled himself, when he remonstrated and the result was that the men had to hike 15 miles. The General was golfing at Sherman. Her husband and children visited her Monday and reported that she is improving but will remain at the hospital for a few more weeks.

A recent message from Earl Lehnertz, first class private in the regular army service, discloses that he has been temporarily transferred from the 46th air base group at Fort Wayne, Ind., to Fort Benjamin Harrison at Indianapolis. He is taking a baker's course at a Cooks and Bakers School.

### MRS. JOE LUKE NAMED PRESIDENT AT CIVIC LEAGUE'S ELECTION

Mrs. Joe Luke was elected president of the Civic League and Garden Club when members of the organization held their annual election of officers during a regular monthly meeting Friday afternoon.

Other officers on the club's roster for the coming year are the following by re-election: Mrs. Tony Gremminger, treasurer; Mrs. Rosa Driever, secretary and reporter; Mrs. Nick Miller, chairman of the cemetery committee; Mrs. Herbert Meurer, chairman of the sanitation committee; Miss Olivia Stock, program and year book chairman.

New officers to serve on the executive committee during the ensuing year, as elected at the meeting, are Mrs. M. J. Endres, vice president; Mrs. Ben Hellman, chairman of the flower show committee, and Mrs. Jake Pangel, chairman of the highway beautification committee.

Mrs. J. B. Wilde and Mrs. Tony Gremminger were named sponsors for the local girls' 4-H Club.

Preceding the election, committee reports were heard and it was advised by Mrs. Miller that trees at the cemetery had been sprayed, the annual collection for the cemetery is progressing favorably, and recent work included also the removal of eight more curbs from graves.

Mrs. Herbert Meurer announced a city-wide cleanup to be held on Friday, the 18th, and the treasurer's report was read by Mrs. Gremminger.

The meeting was held in the home of Mrs. T. S. Myrick, retiring president, who was in charge of the business session. The Question Box of the month and the roll call were answered simultaneously, several of the questions being followed by a round-table discussion.

The Myrick home was adorned with arrangements of zinnias and dahlias and at the close of business attractive refreshments of pin wheel sandwiches, salted nuts and lime punch were served to seventeen members and Mrs. Herman Fette, to whom membership was extended at the meeting.

It was announced that committee chairmen will meet in the near future to name their assistants and that each chairman may appoint two such helpers. All members, however, are on the cemetery committee, which as in the past years, is the organization's main project.

The next meeting will be held on August 8th at the home of Mrs. M. J. Endres.

### New C. D. of A. Officers To Be Installed Friday

Officers of the Catholic Daughters to serve during the ensuing year will be formally installed in ceremonies that will take place in the K of C hall this Friday evening. members decided during a regular session last Friday. Mrs. Rose Zihlman of Windhorst, district deputy, will preside at the installation which is scheduled to begin at 8 o'clock.

Other business of the court consisted of plans for a card party as a benefit for the new church building fund, the exact date to be announced later, and the naming of Mrs. John Fisher as hostess for the social this month. She will entertain in her home on Thursday, the 24.

## F. D. R. BEAT HITLER TO THE PUNCH

Hitler's reaction to our government's occupation of Iceland was the most amusing sidelight of last week's international developments. Borrowing Roosevelt's expression, he described the action as "a stab in Europe's back."

Of course it did not occur to der Feuhrer that Iceland was as much in need of protection as Denmark was in the first stages of war. Nor apparently does he realize that US has as much right to adopt an orphaned island as the Reich did to subjugate a dozen nations.

But why beat the devil around the bush? Everybody knows why we took Iceland. Hitler knows too, and that's why he's so peeved. Adolf knows that FDR knew the Nazi machine wouldn't hesitate a moment to grab that base as soon as it became vital to further extension of his operations. His griping now is plain sour grapes. What would have been all right for him was all wrong for Uncle Sam.

Another thing that bothers Hitler is the inevitable consequence of America's occupation of the strategic position. This will make it tough for German planes to do any real damage over here, whereas it will simplify our raids on Europe if and when we get into the fight.

Probably it will also make our aid to Britain more effective. Before long we can expect fighter planes to be completed here and flown to England. A re-fueling base in Iceland makes that possible. Heretofore precious time was lost shipping parts across for assembly in England. Besides many a plane was lost in submarine raids on shipping, and the parts that did get there stood a chance of being blasted by air raid before they could be assembled.

Doubtless that worries Hitler more than any other phase of this episode. He can imagine droves of powerful new planes swarming toward England and himself powerless to slow down the mighty avalanche. His only course is to send out droves of fighters to intercept them, in which case he will lose as heavily as the migratory flocks.

As far as strategy is concerned, FDR could not have done better. For once Hitler did not get in the first punch—and it does not hurt our American pride to realize that the first real staggering lick Hitler has felt in this whole fight was delivered by our country.

## PLEASING DEVELOPMENTS

Everything considered, we ought to be fairly well satisfied with present war developments. Comparative—and conflicting—reports of the Nazi-Red campaign seem to indicate that both sides are sustaining severe losses. That suits us fine. We want both of the international cut-throats whittled down to the point that they will no longer be able to molest civilized people.

At the same time England gets more and more furious in its pounding of German workshops, docks, supply centers, etc. It does seem at last that the Waterloo for the modern Napoleon is in sight.

In other words, it is beginning to seem as though Europe will be able to clean up its trouble this time without the help of American blood. Another pleasing circumstance. We don't belong in their quarrels anyway. We have already been extremely generous in giving all this material aid. They have no right to expect more.

Perhaps this is mere wishful thinking, but we anticipate an early realization that we can narrow down our idea of "national defense" to defense of our nation only, as we understood it back there in those early days. Now that the nation is awake and the rest of the world is punch-drunk we have reason to believe we will not be molested. Of course, our defense preparation is not complete. This is no time to be cocky. But it is all right to be optimistic.

## Washington Snapshots

by JAMES PRESTON

The important House Military Affairs Committee, headed by Representative May of Kentucky, numbers 17 Democrats and 11 Republicans in its membership. But it rose above partisanship and reached heights of real statesmanship in the majority report on defense which it made a short time ago.

The document in question is worth serious study by anyone interested in the defense situation. Unfortunately it didn't receive much initial attention, for the Committee, more serious-minded than publicity-wise, made it public on a Saturday.

As a result, it appeared in the newspapers the following day, and anyone who has ever tackled a three-pound metropolitan Sunday edition knows that any single piece of news has a pretty good chance of getting lost and "buried" there.

The report is a big affair, the outcome of many weeks of careful study and only a few of its main thoughts can be summarized here. It is most notable as a piece of statesmanship for the unflinching way in which it lays the blame for deficiencies of the defense program, such as they are, squarely on the shoulders of government. That took realism and courage.

Serious present deficiencies in defense, the committee frankly declared, were attributable largely to "absence of a responsible head with authority and power," and to too much zeal in recent years for "social reform rather than national security." It asked for greater "vision" on

## HIS BOUNCING BABY BOY

the part of government officials, and then lashed out with a strong indictment of the present tendency towards more and more bureaucracy as a substitute for intelligent planning:

"The Administration has been too prone when difficult problems arose to easily dispose of them by creating another board, only to add to the confusion of the assortment of agencies we now have."

Though the report is extremely critical, it is one of the most encouraging releases to come out of Washington in a long time, simply because it really tries to get at the truth of the situation, let the chips fall where they may.

One large company that is playing a big part in the defense program has been accumulating a merchant fleet of its own. And a certain so-called "liberal" publication doesn't like the idea of the company's failing to accept government assistance.

Here is the story: Most steamship companies with merchant shipping plans apply to the government for a subsidy. When they receive the funds, the organizations concerned are compelled by law to open not only their books, but the books of all affiliated companies, to inspection by the Maritime Commission. In other words, a considerable degree of government regulation is the price paid for the subsidy.

This particular company, however, chose to pay all its own expenses in building up its fleet. So the "liberal" publication comments sourly that "Congress never anticipated that any shipper might ignore the subsidy."

All of which is highly reminiscent of the old story about the soapbox radical who shouted, "Come the revolution, you'll eat strawberries and cream—and like it!"

**INCIDENTAL INTELLIGENCE:** One of the more recent government publications is titled "Food Habits of the American Coot with Notes on Distribution." Your reporter hasn't read this little pamphlet yet, but he can't help wondering whether this is the coot that some people are supposed to be as crazy as.

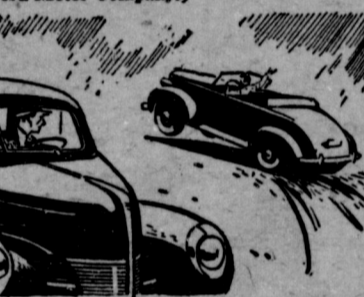

By the way, the coot classic is published by the Bureau of Biological Survey, a division of the Fish and Wildlife Service, which has now been classified as a "defense agency." That leads to a further question pondered by many observers: Can it be that the Fish and Wildlife Service, along with other non-defense agencies, was thus re-classified in order to confuse the issue at a time when the press and public were actively clamoring for non-defense economies to make up in part for our huge defense expenditures?

## How to become A SKILLED DRIVER

By RAY W. SHERMAN  
Courtesy of the  
FORD GOOD DRIVERS LEAGUE

**EDITOR'S NOTE:** We believe many motorists in this community would drive better if they knew better how to drive. In the interest of safety, we will publish from time to time excerpts from the book, "How to Become a Skilled Driver," written for the Ford Good Drivers League by Ray W. Sherman, noted authority on driving. These excerpts are reprinted through courtesy of the Ford Motor Company.

### SKILLED DRIVERS NEVER STUNT

Some drivers think skill behind the wheel consists in doing tricks with a car—driving fast, beating lights, gliding through "stop" signs or generally making the rest of the world miserable.

When a skilled driver watches one of these unskilled operators, he feels rather sorry. He sees a wonderful piece of machinery, glorious roads leading to lovely countryside, a driver with good intellect, good arms, good legs, good eyes. And he sees the whole picture marred because the driver never acquired real driving skill.

Some drivers think they're smart when they do tricks with a car. Actually, if a driver doesn't think right, he can't drive right.

### To Get Original Driver's License Applicant Must Know Answers Like These

If you were called upon today to apply for an automobile driver's license, would you know the answers to the questions which would be asked you by the examining highway patrolman?

Here are samples of the questions you may be asked when taking examination for an original driver's license. Not only are the questions shown, but the answers are given for your benefit. It would not be amiss for persons already holding an operator's license to review the following questions and answers:

Q. What is the speed limits on

highways and in cities?

A. The speed limit on highways (for passenger vehicles) is 60 miles per hour in day time and 55 miles per hour at night, unless conditions and zone signs are to the contrary. In all cities and towns the speed limit is 30 miles per hour, unless changed by city ordinances.

Q. In what lane of traffic should you be driving to make a left turn?

A. In the lane to the right of the center of the street.

Q. In what lane of traffic should you be driving to make a right turn?

A. In the lane next to the curb.

Q. If you approach a school bus stopped on the highway, loading or unloading passengers, what should you do?

A. Regardless of the direction from which you approach, you must stop and wait until the passengers have loaded or unloaded and the bus moves on.

Q. What are you required to do when you see a burning red light on the front of a vehicle or hear a siren sounding over it?

A. Pull over to the extreme right and stop.

Q. What vehicles are allowed by law to have a red light on the front or sound a siren?

A. Police cars, fire trucks and ambulances.

Q. If you are entering a state highway from a side road, what must you do?

A. You must stop and see that the highway is clear before entering.

Q. Is it a violation of the law to park on the pavement of a well traveled portion of the highway?

A. Yes.

Q. When entering a street or highway from a private driveway, what should you do?

A. Stop.

Q. Are you required to have your operator's or chauffeur's license with you at all times when operating a motor vehicle?

A. Yes.

A highway is the entire width between property lines of any road, street, way, thoroughfare, or bridge in this state not privately owned or controlled, when any part thereof is open to the public for vehicular traffic and over which the State has legislative jurisdiction under its police power.

### THE AVERAGE WOMAN

Some facts and fancies about the average woman were recently compiled by a writer in a magazine, but we do not undertake to vouch for which of his statistics, if any, are accurate. Anyway, he asserts that the Average Woman:

Is 5 feet, 4 inches tall, and weighs 128 pounds until she begins to get careless about her figure.

Marries at the age of 24, and lives five years longer than her husband. Quarrels with her husband at least twice a month.

Threatens eight times to go home to her mother but never does.

Spends three years and eight months talking on the telephone.

Attends 3,027 movies, many of them double features, and listens to 18 radio serials a week.

Spends a year and a half in beauty parlors, and four years washing dishes.

Is positive that her children are better than the brats next door.

Devotes the best seven years of her life to trying to make her husband over, but without success.

Occasionally wishes she had married someone else.

And makes a darned good wife at that.—Exchange.

Emma Grace, of Gainesville, were guests of Miss Mary Townsley, Thursday.

Miss Dorothy Fay Blanton returned home Sunday from Denton where she had been a student at TSCW for the first six weeks of summer school, doing work toward a Masters degree. She was accompanied by a college friend, Miss Mary Rogers of Tyler, for a few days visit.

**Your Health**

BY GEO. W. COX, M. D.  
Texas State Health Officer

AUSTIN.—If your work is such that it causes excessive perspiration, add a pinch of ordinary table salt to each drink of water you take to help prevent heat cramps. This is advised by Dr. George W. Cox, State Health Officer, to prevent a possible increase in the number of heat victims as the Texas thermometer hits 95 degrees and above.

Laborers, mechanics, farmers and white collar workers whose work causes them to sweat profusely, are in danger of having their body salt content become deficient with resulting heat cramps or heat fog. Salt is a prominent constituent of sweat; the body may lose as high as 40 to 50 grams of salt during hot days.

In industry, a method of preventing heat cramps is to take a tablet of pure salt or mixture of salt and dextrose with each drink of water. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

Salt deficiency may be prevented by taking salt in various ways. Where prepared tablets are not available, table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating. Alcoholic drinks should be avoided.

Heat cramps is characterized by pains (cramps) in the abdominal region, headache, and in severe cases, by nausea and vomiting. The body temperature remains about normal. Likewise the pulse rate; body salt losses occur without the knowledge of the individual until there is a deficiency; then the abdominal muscles begin to cramp.

**Lone Star State Has Vital Part In Defense Program**

AUSTIN.—While the eyes of America are focused on the tense situation in Europe, Texas is bending every effort to aid in National Defense. Daily this state becomes of greater importance to the whole National Defense Program.

Bombers, of the type most needed by England, are being built at Dallas and Fort Worth. Ammunition will soon be turned out in large volume by the plant now under construction at Texarkana; other articles of vital importance are being turned out daily by Texas industries. Large numbers of ships will soon be constructed in the new yards at Orange and Houston. American soldiers are being trained in modern warfare at Brownwood, Abilene, Mineral Wells, Palacios, San Antonio, El Paso and other cities. American Air Corps pilots are being taught flying, bombing, and aerial warfare at Randolph Field, the huge Naval Air Base at Corpus Christi, Victoria, Cuero, Brady, Corsicana, and Stamford. Soon new air schools will be completed at Lubbock, Midland, Coleman, Grayson county, and several other points in our state. Mechanics to service American planes will be trained in large numbers at Wichita Falls within the very near future.

Citizens of Texas are thinking in terms of Defense Bonds and Savings Stamps. They are anxious to help. They know that the Canadian people were asked recently to subscribe \$600,000,000 to put over Canada's Victory loan and that the friends on our North went over the top by buying \$710,958,950 of these securities.

The secretary of the Treasury, Henry Morgenthau Jr., said: "Defense Savings Bonds and Stamps give us all a way to take a direct part in building the defense of our country—an American way to find the billions needed for National Defense."

"The United States is today, as it has always been, the best investment in the world. This is an opportunity for each citizen to buy a share in America."

What Your Defense Dollar Buys:  
\$1: 16 cartridges

**DOORBELL RINGING-- EASY STYLE**

There's nothing mysterious about the way advertising works.

It's like the salesmen who go from house to house looking for customers.

Advertising does the same job on a larger scale.

It's quicker — reaches more people — at a lower cost per call.

In other words, it's a time saver, which means it's a money saver as well.

*Banking by Mail*

**FOR FARMERS**

Farmers appreciate the convenience and safety of banking by mail, as well as the time it saves.

There are seasons of heavy work when an extra trip to town may be a hardship. Bad weather and dangerous roads may offer other obstacles. Banking by mail, however, is always easy and always safe.

We invite you to bank with us by mail whenever you find it an advantage. Let us send you the few forms and instructions needed for this purpose.

**WOMEN OF RUSSIA DO THEIR BIT**

U. S. S. R.—A woman motorcyclist of the Moscow Air Raid Precautions Organization is shown receiving her assignment at Air Raid Precautions headquarters. Soviet women are even engaged fighting with the men in the front lines, the Russians say. Passed by the Russian censor.

Regular \$1.00 size Hinds Honey and Almond cream for 49 cents. It soothes sunburn; get several bottles to last through the winter, it is also excellent for chapped skin. Keeps hands lovely. Hoelker Grocery. (Adv. 34)

The community picnic sponsored by St. Peter's Society on the school grounds Sunday was well attended by people from Lindsay and neighboring communities. The attendance prize, a set of dishes, was presented to Joe Hermes and Miss Gertrude Voth of Muenster as the recipients of a grease gun.

**GEORGE S. CASSADY ON EXECUTIVE STAFF OF BRANIFF AIRWAYS**

George S. Cassady, formerly of Gainesville and well known in this community, has been appointed as-

ron at Langley Field, Va. In July, 1933, he joined United Airlines as first officer, later advancing to the rank of reserve captain. In 1938 he again entered official service as air line inspector with the Bureau of Air Commerce. October, 1940, found him in Washington with the Civil Aeronautics Authority, and three months later he was assigned as chief of operations unit in the air carrier inspection section of CAA.

From April to June he was pilot of a Douglas DC-3 bomber as one member of a crew demonstrating a recently developed automatic direction finder. His flights testing this new navigational device were conducted throughout the United States and into Alaska and Canada. He joined Braniff on July 1.

Mr. Cassady has the military rank of captain in the U. S. Air Reserve.

**U. S. MARINE CORPS SEEKS ENLISTMENTS AMONG YOUNG MEN**

With the registration of the second group of young men who have reached the age of 21 since the first registration, many of them have already volunteered for service in the U. S. Marines. These men may enlist in the Marines for either the four year period or in the Marine Corps Reserve, with active duty, for the duration of the national emergency only, after which they will be discharged.

As there are only five recruiting stations serving the upper section of Texas, Major J. D. O'Leary, Recruiting Chief of the Dallas District, announced today that a recruiting officer would be stationed at the Post Office in Gainesville, Monday and Tuesday, July 21st and 22nd and at the Post Office in Nocona, Wednesday and Thursday, July 23rd and 24th, to accept applications for enlistment in the Marines.

While in the above named places, the recruiting officer will accept an unlimited number of applications for enlistment, and men who pass examinations given in these places, will be furnished free transportation to Dallas, where final examinations are given and enlistment takes place. From Dallas, men enlisted will be transferred to the Marine Corps Base in San Diego, California, where they will receive their initial training. Many choices are available to men who enlist now, including Aviation, tank units, par-

achute troops, infantry, artillery, sea duty aboard battleships, cruisers, aircraft carriers and many schools for actual shop training.

**Don't Block Street With Parked Cars, City Asks**

A general request to refrain from blocking streets with parked automobiles was issued this week by City Marshal Frank Hoedebeck. He referred specifically to West First and West Second streets which are frequently blocked, and especially on Sundays, by rows of cars along the west side of Main.

The city council, responding to recent complaints, instructed Hoedebeck to keep the streets open. He makes the request in the hope that the public will cooperate. If the nuisance continues he will be forced to erect signs and impose fines for violations, he added.

**WEEK'S RAINFALL .89 INCHES**

Two light showers and another fairly good shower falling here during the past week gave corn and feed crops a slight boost and delayed plowing for a few days. According to readings at the local Department of Commerce rain gauge .89 inches fell during the week, .71 of it on Monday morning.

**Confetti---**

(Continued from page 1)  
of pickets who were preventing others from going back to work.

Among the many rights we Americans cherish is that to work and earn our daily bread. Labor racketeers had challenged that right, so Uncle Sam went to bat for the working man. No worker was driven back to the job. There was only an assurance no one would be molested if he returned. No more was necessary. Men came back in droves.

It is assuring to realize that the rank and file of Americans are reasonable and decent at heart. They dislike labor racketeering as much as any of us sideline observers do, and once they are relieved of the shackles of mobster domination, are ready to fall in line with respectable people.

Months ago people were saying that labor racketeers were overplaying their hands. Present conditions seem to support that statement. Ever since the soldiers called the hand of those West Coast Reds, strikes have been fewer and shorter between.
