VOLUME XXIV

MUENSTER, COOKE COUNTY, TEXAS

DECEMBER 11, 1959

NUMBER 3

Under way now and building up steam for a big push in the next legislative session is a drive seeking a constitutional amendment election on abolishing the poll tax.

Apparently that is smart politics. We can imagine the professional politicians all striving to be prominently identified in this noble effort to remove a shameful restriction on the rights of the dear people. Lots of vote seekers would like to boast "I helped enable you to vote without paying that awful poll tax."

But there is doubt regarding the economic wisdom of the movement. Most of us have clear memories of this year's desperate legislative efforts to create new sources of state revenue. It doesn't seem smart to eliminate a generally accepted tax and then cause a big furore setting up a new tax to succeed it. And we know that would have to be done. With the condition of modern budgets, it is self evident our state can't afford such political luxury as lopping off revenue.

Aside from that consideration, we could say also that the scheme ought to be opposed on principle. This column has contended for years that the poll tax is both practical and just, and its greatest fault is in its name . . . which derives from the penalty for violation rather than the tax itself.

Actually the poll tax is nothing but a personal tax. It is reasonable because it demands from each citizen a small portion of support to his state government. Certainly there can be no objection to that, especially since there are so many who pay nothing else toward the state services they receive. We ought to be fair enough to admit that every person owes something . . . and this method is as practical as any for getting such payment from every adult citizen.

Now let's look at the next provision of the poll tax law, the feature from which it derives its name. Clearly, there must be a penalty for evading tax. If we evade income or excise taxes we can be prosecuted. Property tax can't be evaded because it can be charged against the property itself, and eventually has to be paid. But failure to pay the personal tax has its special penalty . . . suspension of the person's right to vote during the coming year.

After all, isn't that a logical penalty? If a person fails in his obligation as a citizen, isn't it fair that some phase of his right as a citizen should be correspondingly restricted?

Well, that's how the poll tax works. Regardless of the critical comments, it is not a price on someone's voting right. Rather, loss of voting right is the penalty for poor citizenship.

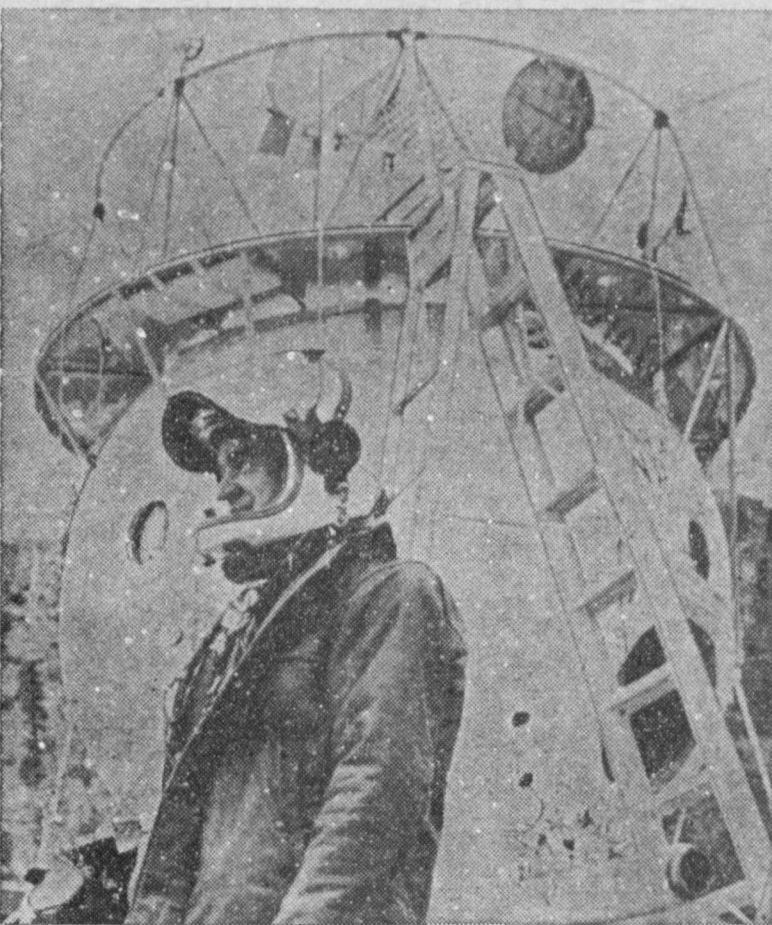

If this seems like double talk, consider the time element. A person reaching 21 is permitted to vote from the date of his birthday until the end of the year but his personal tax obligation becomes due at the end of the year. His voting privilege comes ahead of his obligation. And thereafter a person does not pay his tax in advance to qualify for the voting right. He votes the full year and pays his tax at the end. At this time, until January 31, we are paying a 1959 tax and renewing our privilege to vote in 1960. Significantly, the receipt issued specifies the payment is for a 1959 tax. Suspension of voting privilege does not come until after a person has failed in his obligation.

Instead of clamoring for repeal of the poll tax law, our politicians ought to be striving for greater understanding and appreciation of it. The law serves a good purpose in that it gets at least a little from many persons who would otherwise pay nothing . . . and no one can deny that everyone has at least a small personal obligation to the state. Also, since the tax is fair, we must concede that eliminating it and shifting the tax burden to other people would be unfair.

If those fellows want to perform a real service they should start a movement for changing to a more correct and less objectionable name. They'd probably find that venture just as popular as the one they are working on now.

Before leaving the subject, let's remember that poll tax payments are due now. As we remit let's bear in mind that

## Course in Selling Offered Here by State Agency

A four-class course in salesmanship sponsored by the Texas Education Agency will be available to people of this area in mid-January.

Henry Weinzapfel disclosed that Homer Bronstad, area supervisor of TEA, has scheduled January 11, 13, 14, 15 for a class entitled "The Dynamics of Selling" to be taught by Francis Flynn.

Registration fee for the complete course of four classes is \$2.50. That amount, Bronstad said, is intended mostly to cover the cost of books and materials and does help toward the instructor's pay. He is paid by the state agency.

## Local KCs Admit Four Members at Initiation Sunday

Four men were admitted to the Muenster K of C council last Sunday at a joint initiation held in Gainesville for Districts 6 and 47.

The new Muenster members are Henry Pels Jr., Earl Koelzer, Edward Pick and Norbert Flusche of Saint Jo. They joined some 25 other candidates from Gainesville and Denton of District 47 and Sherman, Denison and Pilot Point of District 6.

In charge of the event were Edwin D. Gunter, executive assistant state deputy of Texas and Paul Wiese, district deputy of District 47.

The initiation ceremonies started last Thursday night with the first degree in Denison.

Sunday's program started with group attendance of members and candidates at mass in St. Mary's church followed by breakfast in the St. Mary's lunch room.

Second and third degrees were held in the Gainesville K of C Hall starting at 10 o'clock. After the initiation the program closed with Dutch lunch and a social gathering in the council's club room.

**READY FOR ACTION**—Resembling heavy artillery weapons drawn up for review, New York City snowplows are assembled before city hall, ready to do battle with enemy Winter.

## Death Sunday Ends Long Illness Of Mrs. J. Flusche

A long illness ended for Mrs. Joseph C. Flusche Sunday morning. She died at her home in Lindsay at 9 o'clock, three weeks before her 79th birthday.

Funeral services were held in Sacred Heart Church here Wednesday at 9 o'clock and burial was beside her husband in Sacred Heart Cemetery.

A grandson, Rev. Hubert Neu of Dallas, was celebrant of the solemn requiem mass assisted by Rev. Christopher Paladino and Rev. Martin Fischer as deacon and subdeacon. Father Christopher delivered the funeral sermon. Nick Miller Funeral Home was in charge of arrangements.

Rosary services were held at the Miller Chapel Monday at 4 and at 8 p.m. and Tuesday at 3 o'clock by the Third Order of St. Francis, at 3:30 by members of St. Anne's (Continued on page 2)

## KCs to Give Yule Party for Kiddies

The Muenster K of C Council's annual Christmas party for children of the members will be held Sunday night, December 20 in the K of C hall, starting at 8 p.m.

Plans for it, as completed at the regular meeting Wednesday night of last week, are to have both Santa Claus and an assistant on the job to accommodate the expected big crowd of kiddies.

There will be a Christmas tree, gifts and candy and free soda pop for all the children.

## NEWS OF THE SICK

Mrs. Ben Sandmann of Lindsay who was a patient for medical care at Gainesville Sanitarium, entering Saturday, was moved by ambulance to St. Joseph's Hospital in Fort Worth Tuesday night. Her daughters Mmes George Bayer and Ed Klement of Muenster and Miss Ethel Sandmann of Lindsay, went with her and remained over night. Family members take turns staying with her.

Sam Epps, 83, was dismissed from Gainesville Sanitarium Monday after his second stay in the hospital since he broke his right hip in a fall at his home the latter part of October. He's still a bed patient except for short periods each day when he sits up in a wheel chair.

P. J. Rollman had a week-end pass from the V. A. Hospital in Dallas and spent it here with his family. His next visit at home will be for Christmas.

Mrs. Joe Beizer of Lindsay spent the weekend at Gainesville Sanitarium for a checkup and tests.

Faye Fette was back at Parkland Hospital in Dallas Tuesday for X-rays and a check-up which showed progress, however slow, in recovery from illness and surgery with began last August. She was permitted to return home Tuesday evening.

Leonard Walterscheid has had skin graft surgery on his injured leg and it has been placed in a cast. Healing progress is more rapid now and he's confident he will be permitted to spend Christmas here with home folks. In the meantime he's enjoying visits with Pete Rollman who is also a patient at the Dallas VA Hospital.

## Parochial Teams Lose 4 to Nocona And Beat Lindsay

Four losses to Nocona and two wins over Lindsay make up the past week's activity for Sacred Heart's basketball team.

Last Thursday night on the Sacred Heart court both of Nocona's teams rolled on to easy victories over the parochial boys and girls. Scores were 49-25 in the girls game and 45-20 in the boys game. Helen and Joyce Hacker, with 13 and 8, led the Tigerettes in scoring. Wimmer, Haverkamp and Streng, with 10, 5 and 4 paced the Sacred Heart boys.

Tuesday night at Nocona was more of the same. Both of the host teams took immediate command and coasted on to easy wins, 63-26 in the girls' game and 54-22 in the boys' game. Helen Hacker and Betty Danglmayr hit 12 and 8 for the Tigerettes while Haverkamp and Streng hit 10 and 7 for the Tigers.

B teams were given the Sacred Heart assignment when Lindsay played here Friday night.

In the girls game Lindsay started strong for a 10-0 lead at the first quarter. Then Sacred Heart started the long job of overcoming its deficit. By half time the Tigerettes still trailed 16-8 and at the end of the third period they were tied at 19. In the final quarter Sacred Heart nudged ahead 27-24. Joan Kaiser and Carol Wimmer led Sacred Heart with 14 and 11. Dolores Hess and Louise Hermes scored 12 and 7 for Lindsay.

The boys B squad had less excitement and won easily 39-12. Tony Knabe and Roger Taylor scored 12 and 11 while A. Hermes dunked 6 for Lindsay.

Sacred Heart's teams will go to Windthorst for a pair of games Thursday night.

### News of the Men in Service

#### He's In The Navy, Now

Walter (Duke) Fette left Dallas Tuesday night for the Naval Training Station in San Diego. He passed all his tests Monday. Second time was charm. Last June he enlisted and passed everything except weight and had to come back home and gain at least seven pounds. He did better than that. And Tuesday night he took off to begin boot training.

#### Has Holiday Leave

Among early arrivals to visit here on holiday leaves will be Major and Mrs. Hal Falck of Augusta, Ga. They'll arrive next week to visit her parents and family, the Jake Pagels.

#### Joins Husband

Mrs. Joe Carroll McElreath has joined her husband in Hawaii. She left Dallas by plane Saturday for Scofield AFB where PFC McElreath is stationed. Seeing her off on the trip were her mother, Mrs. Jane Sutton of Gainesville and her parents-in-law, Mr. and Mrs. H. E. McElreath of Sivel's Bend.

## Hennigan Bar Due To Open This Week

Another new business is due to begin operation during the coming week end. It is Hennigan's Bar, owned and operated by Fred Hennigan and his son, Arthur.

The location is on North Main, beside Wolf's Barber Shop, the place used as a cafe several years ago. For the past month the owners have been busy renovating and installing furniture and fixtures. Still in the making are kitchen facilities for preparing sandwiches and light lunches. To begin the bar will offer cold snacks with its beer. Michelob beer on draught is the bar's featured item. Other popular brands will be available in bottles.

## Interest Shown in Forming Community Civic Group

Formation of a civic organization working for Muenster and surrounding area seemed very probable last Thursday night after a special dinner meeting in Rohmer's Restaurant.

Sixty three persons were there and heard talks on the achievements of such organizations and the urgent need for such activity if the community is to continue moving ahead.

The net result of the gathering is the appointment of a committee to recruit interested persons and set a date for an organizational meeting. Arthur Endres heads the committee and co-workers are J. M. Weinzapfel, Glenn Hellman, Ray Wilde, Urban Endres and Rudy Hellman. J. B. Klement, last president of the Muenster Community Council, which has been inactive for about ten years, opened the meeting by stating the purpose was to resume if possible the spirit and activity that prevailed here several years ago. Arthur Endres, last secretary of the Community Council, then outlined the achievements of the organization.

J. M. Weinzapfel added to those remarks, explaining that a local chamber of commerce had served the community well, and so had a local planning group formed in connection with the Kessler Planning Association of Dallas. But the history of all is that they thrived as long as there were persons willing to do the work, then they faded away. To correct that situation

## New Listings for Scholastic Census Sought by Bruns

As the time approaches for the annual scholastic census Superintendent L. B. Bruns is concerned with the problem of getting a complete list of the district's school age children for the next school year. In the hope that it will help him avoid oversights, Bruns is looking for information which can be used next month, when the actual count is made.

Present records enable the census taker to get a complete list of children over 6 years old. Pupils usually are found both on the previous census list and on the current class roll. But beginners are not on either of those records.

In case they have older brothers or sisters in school the enumerator at least has family connections and will find the youngsters listed with the older children. However if the first child of a family reaches 6 before Sept. 1 he may be overlooked because there is no previous record of him.

Such children especially are the ones Bruns wants to know about. Parents and friends will do him a favor if they will report such names so he can make notes and stand a better chance of avoiding oversights at census time.

It is financially important for the district to report all of its school age children. Since the school operates on a per capita basis the figure determines how much money will be received from the state for operation of the local school.

## Football Letters Awarded to 14 on '59 Hornet Squad

Fourteen members of the Hornet football squad and two managers are due to receive their letter-jackets some time in January.

Coach Charles Smith announced this week that an order has been submitted for the following players: Don Trubenbach, Mark Hellman, Ferd Haverkamp, Clyde Walterscheid, David Yosten, Harold Flusche, Jim Schumacher, Johnny Pagel, Lloyd Klement, Doug Hellman, Joe Hellman, James Harris, Larry Wimmer and Truman Wolf. Student managers to receive letters are Bobby Yosten and Roger Fleitman.

Five of the lettermen are seniors and will not be back with the squad next year. They are Trubenbach, Haverkamp, Schumacher, Klement and Doug Hellman.

Herbert Meurer suggested operating with a full-time or part-time secretary as chambers of commerce do. That way the average members would contribute toward having essential work done rather than sitting by idly while a few leaders do the work themselves.

There was discussion also on a name for the new organization. Weinzapfel said that Community Council was chosen before because the membership and program were community-wide rather than city-wide, and chamber of commerce is usually understood to be a city organization.

Urban Endres said that the distinction between names seemed less important than the usefulness and prestige of a more generally accepted name. He said that if an organization does the job of a chamber of commerce it should also use the name so that its identity and its function are both clearly understood.

The membership committee after making its contacts, will set the date for the organizational meeting. At that time the members will decide on a name, purpose and method, dues, meeting dates and other organizational details.

## MHS Teams Lose In Tourney Opener; Split 2 with Era

Both of Muenster High's basketball teams lost their preliminary games at the Callisburg tournament Monday night and went into the consolation brackets.

Their next action will be with Lindsay Thursday afternoon, girls at 5 p.m. and boys at 6:15.

Both of the MHS teams lost to Forestburg by substantial scores and Lindsay lost a pair of one sided games to Era.

For the first quarter Muenster girls got along all right and ended with a 10-9 lead. But then Forestburg took over and piled up leads of 24-14, 42-20 and 52-23 to end the other periods. MHS scorers were Fisher 15, Dern 6 and Hellman 2.

The boys game was similar except that Forestburg did not wait until the quarter to start operations. They extended the lead steadily throughout the game for a final score of 45-21. Doug Hellman hit 8 and Harris 6 for the Hornets.

Playing Era last Friday night on the local court MHS girls got their only win so far. It was a thriller in which the lead changed about 10 times and Muenster happened to hold it at the end. Muenster led 10-9 at the quarter and 14-13 at the half. At the third quarter Era nudged ahead 19-18 and Muenster regained the lead 24-22 at the end. Fisher with 15 and Dern with 6 led Muenster's scoring.

Next Era walloped Muenster boys by the convincing count of 48-26. It was the visitors' game all the way, starting with an early lead and extending it in each period. Leading Muenster scorers were Harris 8, Doug Hellman 7, and Mark Hellman 6.

After this week's tournament at Callisburg the MHS teams have three more games before Christmas. Valley View there next Monday, Sacred Heart there on Friday and Sanger here on the 21st.

## SUSPICIOUS TRAGEDY

The sudden demise of Povl Bang-Jensen — whether by suicide, as surface indications suggest, or by murder, as other circumstances hint — could turn out to be a significant event in American history, ranking in ignominy with the firing of our Korean

War commander, and our loss of this "police action" to Red China.

As is generally known, the Danish diplomat, who was senior political affairs officer for the UN Secretariat, was fired from this post by Dag Hammarskjold when he refused to uncover Hungarian freedom fighters who had given him confidential information on the 1956 uprising. Bang-Jensen was a man who knew too much.

When the story is told, Americans may finally decide, the UN is not for them.

## MEDICAL REVOLUTION IN COLD BLOOD

A great advance in science — and in life-saving — is nearing its climax. What's in prospect is a new technique that will permit the storage of whole blood, not for 21 days as at present, but indefinitely. This suggests not only a coming revolution in blood banking, but a new technique as well for storing bone marrow and — at some future time perhaps — limbs and organs for transplantation.

Aided by such tools as the electron microscope, a team of scientists at the Linde Company laboratories at Tonawanda, N. Y., have recently demonstrated that quick freezing to a temperature of minus 320 degrees Fahrenheit is the answer to long-term blood preservation. This is done with liquid nitrogen in fewer than 45 seconds — so fast that blood cells are undamaged. Kept at temperatures this low, living cells remain inert and unchanging indefinitely.

What this development will mean to the medical profession, to suffering humanity, and to those who must meet the disasters of war and peace only the future can tell in full. It seems likely, however, that this new research will result in a means of stockpiling enough whole blood of all types to meet every requirement. And blood needs are increasing fast: a single heart operation may take as much as 20 pints.

The Linde scientists working on this dramatic program, with support from the Office of Naval Research are quick to point out that there is much yet to do. Practical equipment must be perfected so that hospital staffs everywhere can economically and easily freeze, store, and thaw blood in this fantastically low temperature range. The work may take another three years, but the goal is plainly in sight.

When Linde started this program three years ago, much work on blood preservation had already been done by distinguished medical researchers. What the Tonawan-

da team has done is to carry the best work forward, bringing to the project the company's great experience in low-temperature technology and its extensive facilities in such fields as bio-chemistry, physics, mathematics, biology, and mechanical engineering.

Thus, once more, as in the past, industry is extending a capable helping hand through science to all humanity. This is free enterprise at its best — the pattern of progress in America.

"Persons who remember the horrible post-War I conditions in Germany, when it took a wheelbarrow of marks to buy a loaf of bread, are apprehensive that this country is headed for similar situation unless inflation can be halted. The steel industry says it is seeking an end to the upward spiral in the adamant stand it has taken against higher wages. One thing is certain: if Big Steel gives in, wages will soar in every other industry." — Kansas City Press

## THE FAMILY DOCTOR HOLDS HIS OWN

The family doctor holds a high and honorable place in American history and tradition. The very phrase brings up pictures of a dedicated physician, fighting his way through storm and darkness in a horse and buggy or a primitive car.

Yet, some years ago there was a feeling that the family doctor was on the way out, and that medical knowledge had become so vast and treatment so complex that only specialists could meet the need. And, for a time, the statistics bore this idea out. In 1940, only one medical student in 10 planned on entering general practice. But a dramatic change has taken place. Today, six medical students in 10 go into general practice.

There are good reasons for this. The general practitioner of today is far more competent, far more knowledgeable, than his predecessors. Post-graduate work, reading, medical meetings and other factors see to it that he keeps up with medical progress. And there is more to the matter than just the question of competence. The family doctor fills a niche that no one else can fill. He knows his patients — and they know him, as a friend as well as a medical man. He is on call when needed. He brings with him confidence and peace of mind — psychological medicines, so to speak, which are important to building and regaining health. He knows when a specialist should be summoned, and what kind.

The American scene wouldn't be the same without the family doctor. It's good to know that he is holding his important place in the great canvas of American medicine.

The biggest trouble with success these days is that its recipe is just about the same as that for a nervous breakdown.

## KHRUSHCHEV'S PLAN

By Richard Cardinal Cushing, Archbishop of Boston

Soviet Communism is pledged to the destruction of the United States Government. Many do not understand this but at the present moment the Communist Party is distributing in books and in popular pamphlets its promise to end the Government of this country by violence.

**THE CONQUEST** of the United States was presented to the comrades of the world by Nikita Khrushchev, in his recent report to the Twenty-First Congress of the Communist Party of the Soviet Union. Because he wishes to charm the United States into "negotiations" and to summit conferences, Khrushchev must conceal his full meaning behind roundabout language. But when we look at the goal of the Soviets, we see that it leads to espionage and into every method that would hamper us and eventually destroy us.

Knowing Communists, we should realize that it is impossible to deal with Moscow. Because of their pledge to conquer the world, the Soviet uses every means, fair or foul, to bring about world dictatorship.

AMERICANS, however, are con-

fused as to what they should do against the Communist line. For instance, the Communists skillfully conduct what looks like an extensive battle against social injustice. At the same time they wage a continuous campaign to alarm us into thinking that American civil liberties are in danger if the Communists are curbed in any way. Thus many patriotic Americans, taken in by the Red attack on "social injustices," begin to take a kinder view towards the Communists' pleas for freedom, the surrender of Berlin and West Germany, and the official recognition of Red China.

We, however, must be aware of three things: the godless nature of Communism, the unscrupulous methods Communists use to further their own ends, and the Communist use of reforms as a "screen" to cover their illegal conspiracies.

IT IS amazing that the intention of world conquest, constantly stressed by the Communists everywhere, has not been better grasped by patriotic Americans. We must realize clearly and beyond doubt that the great plan and purpose of Soviet Russia is to smash our Government and thus to end our Republic. The best way that we can guard our country from the effects of Red tactics is to know the Communist line and to combat it.

**EFFECT OF TEMPERATURE**  
Rising temperatures make ice more slippery. A car with regular tires, moving at 20 MPH on glare ice, requires 114 ft. at 0° and 235 ft. at 30° above. Reinforced tire chains provide consistently shorter stops, about 77 ft., regardless of temperature.

## STOPPING ABILITY ON DRY PAVEMENT

REGULAR TIRES 21 ft

Above charts, provided by the Texas Safety Association, Inc., illustrate test results by National Safety Council's Committee on Winter Driving Hazards. For each "braking distance" above you must add 22 feet, which is distance traveled during average "reaction time" needed to think and get your foot on brake after seeing a reason to stop. Skidding and reduced visibility are the major added hazards of winter. Can you see and stop in time? Are your windshield wiper blades giving clear, streak-free visibility? Does your defroster work?

## Local News BRIEFS

Mr. and Mrs. John Rohmer spent three days of last week in Irving with their daughter and family, the Morton Wrights, and also drove to Dallas to see their nephew, Leonard Walterscheid at the VA Hospital.

From Germany comes word that Captain and Mrs. Monte Hellman have named their baby son Chris LaMont. Also that he weighed 8 pounds 8 and a half ounces at birth Nov. 18. The cablegram announcing his arrival told the grandparents only "It's a boy."

Quail hunting for the men and visiting for their wives were the daily schedule when Mr. and Mrs. Ed Eberhart and Mr. and Mrs. Herman Eberhart and son Larry spent three days of last week in Post as guests of their daughter and sister and her family, the Julius Stelzers. The ladies also drove to Lubbock for shopping and sight-seeing. And one afternoon the two Mes. Eberharts were special guests at a Brownie troop meeting in the Stelzer home. Mrs. Stelzer is a troop leader. The little girls made Christmas gifts for their mothers and also made the same for their guests. Meanwhile the men did all right on their quail hunt.

**Inventor Displays Device for Using Kerosene in Cars**

Stanford, Calif.—A 67-year-old inventor displayed a fairly simple device today which enabled a standard V-eight auto engine to:

—Run just as well on kerosene, alcohol or diesel fuel as it did on high-octane gasoline.

—Operate on 15 percent less fuel than an ordinary engine.

—Produce two-thirds less smog ingredients in its exhaust.

—Cut down exhaust production of carbon monoxide to a point where it would be impossible to commit suicide in a converted car.

The invention, known as the "RAM" stratcharge combustion system, was developed by Jack Heintz in the garage of his home at Los Gatos, Calif. It was tested and is on display at the Stanford University engineering laboratory.

Heintz, former partner in the Jack and Heintz engineering firm of Detroit, said the modification could be applied to any auto engine for about \$200 — and could be built into new engines at no increase in their cost.

The inventor said he hasn't been approached by the automobile industry in regard to the device and doesn't expect to be.

"They're content with the status quo and more interested in covering up the deficiencies of their engines with smog-muffler systems than in improving their fuel burning potentials," he said.

Heintz said the auto industry's experiments with mufflers which would destroy unburned fuel after it leaves the engine by heat or catalytic action was "like inventing rubber gloves to repair a leaking fountain pen."

Children home alone, the youngest ones especially, would be helpless to escape if fire should strike while you're away.

This tragedy happens every day and actually is the cause of one out of every three child fire deaths.

Never leave small children alone. Even if it is necessary to leave the house for only a few minutes ask a neighbor to stay with the children. And whenever you must go out for a longer time, leave the children in the care of a baby sitter who not only has been told what to do in case of fire but who is also physically and mentally capable of carrying out such instructions.

**Full Turn for  
 The Cycle Cycle**

Demands on Santa Claus through the years have been many and various. He has seen the bow and arrow give way to the dart gun, then to the machine gun to be followed by matched six-guns with bedizened holsters and belt to be succeeded in the Space Age by moon rockets and none-too-well-guided ballistic missiles.  
 But through it all, the plea for a bicycle has remained head and shoulders above all others. And, today, while the demand from the little people is bigger than ever, thousands of others who stopped writing

to Santa some time ago are pinning their hopes on bikes for Christmas.

What happened? For one thing, medical and health experts have been urging bicycling — not only for the youngsters but for their elders — even oldsters. Dr. Paul Dudley White, the President's heart physician and an ardent cyclist in his seventies, has said: "I would like to put everybody on bikes . . . not once in a while, but regularly as a routine." Joining Dr. White are such notables as Dr. Irvine H. Page of the American Heart Association, Dr. W. W. Bauer, director of health education of the American Medical Association, Dr. Theodore Klumpp, specialist in geniatrics and many more including public health officials of Britain, Holland, India and here in the U. S.

This imposing body of medical opinion makes it pretty tough for parents to object to the bicycle. In fact, they're asking for them, too. But what sends the youngsters, from five to 25 — or more — is the testimony of famous football coaches and the tidal wave of popularity for bicycles at American colleges and universities, with bike riders mounting into the thousands on many a campus. At Smith College, for instance, there are 2,034 riders out of a total of 2,150 students, and at Vassar 1,100 out of 1,384 are cyclists while there are 4,500 pedalers at the University of Michigan.

So it looks like a rough Christmas for grandma and grandpa, America's traditional givers of bicycles. Not only are the little people clamoring for bikes, but the older ones — who got their first two-wheelers back in the 40's — have got to have new ones to take to college.

It seems only fair to suggest that the time has now come for a little reciprocity. Why not a "bicycle built for two" under grandpa's Christmas tree?

A cowboy who can keep in balance upon and with a horse, and who can ride long distances without retightening the cinches or galling the horse's back, is known as a "light rider."

**Christmas Mailing  
 Now Helps Prevent  
 Late Mail Pile-up**

"The time has passed to talk about 'Mailing Early for Christmas.'" Postmaster Arthur Endres said this week, "but our patrons can still help the Postal Service avoid a tremendous last-minute pile-up of Christmas mail by sending all packages and cards right now!"

To the inevitable last-minute mailers he suggests that Air Mail postage be used on all gifts and cards going to distant cities.

The postmaster said that Regional Postal officials were expecting the Christmas mail volume this year to break all previous records. And this mail load is expected to hit its peak next week.

He cautioned local post office patrons to make sure that all packages are addressed carefully and that zone numbers are included on mail going to large cities with zoned delivery.

"There is still time to mail cards for local delivery," Mr. Endres said, "but they should all be in the mail by the end of next week."

He recommended that cards going out of town be sent by first class mail (4c postage) in order that they may be returned or forwarded in case the addressee has moved. And he pointed out that it is quite proper to affix your return address on Christmas cards.

The Muenster Post Office offers window service from 8:30 a.m. until 5:00 p.m.

**Mrs. Fred Knabe Is  
 New President of  
 St. Anne's Society**

Election of officers for a new year was the business highlight at the December meeting of St. Anne's Society of Sacred Heart Parish and Mrs. Fred Knabe was the organization's choice for president.

Serving with Mrs. Knabe will be three re-elected officers: Mrs. Frank Herr, vice president; Mrs. Tony Gremminger, secretary; and Mrs. Leo Henschel, treasurer.

Mrs. Victor Hartman, retiring president, conducted the meeting in the presence of about 50 members. In appreciation for her work during six years as head of the society, Mrs. Hartman received a spiritual bouquet from the membership. Mrs. M. J. Endres won the attendance prize.

After adjournment the group joined St. Joseph's Society for a social.

**Toastmasters Club  
 Sets Meeting Here**

The Toastmasters' Club of Gainesville, inviting additional membership from this community, has set its January 12 date for Muenster and urges interested persons to contact one of its three local members: Arthur Endres, Henry Weinzapfel and Michael Sloan.

The Toastmasters' Club is an organization for studying and practicing the art of public speaking according to rigid standards comparable to those in many colleges. In many cases the work completed in a Toastmasters course is accepted for credit by universities. Total membership of the Gainesville club is 24.

Kid's Yule Party  
For December 18**

Members of the Muenster VFW Auxiliary made plans for their children's annual Christmas party and discussed other coming events at their December meeting Monday night.

Date for the party was set for Friday, December 18. It will be a morning event beginning at 9:30 at the VFW Post Home and will be for members and their pre-school age children. The organization limits the party to pre-school youngsters because older children have their class parties in school and this gives the tiny tots a similar treat.

Members wanting to participate in a gift exchange will bring a gift and receive a gift.

Around a dollar gift items were suggested.

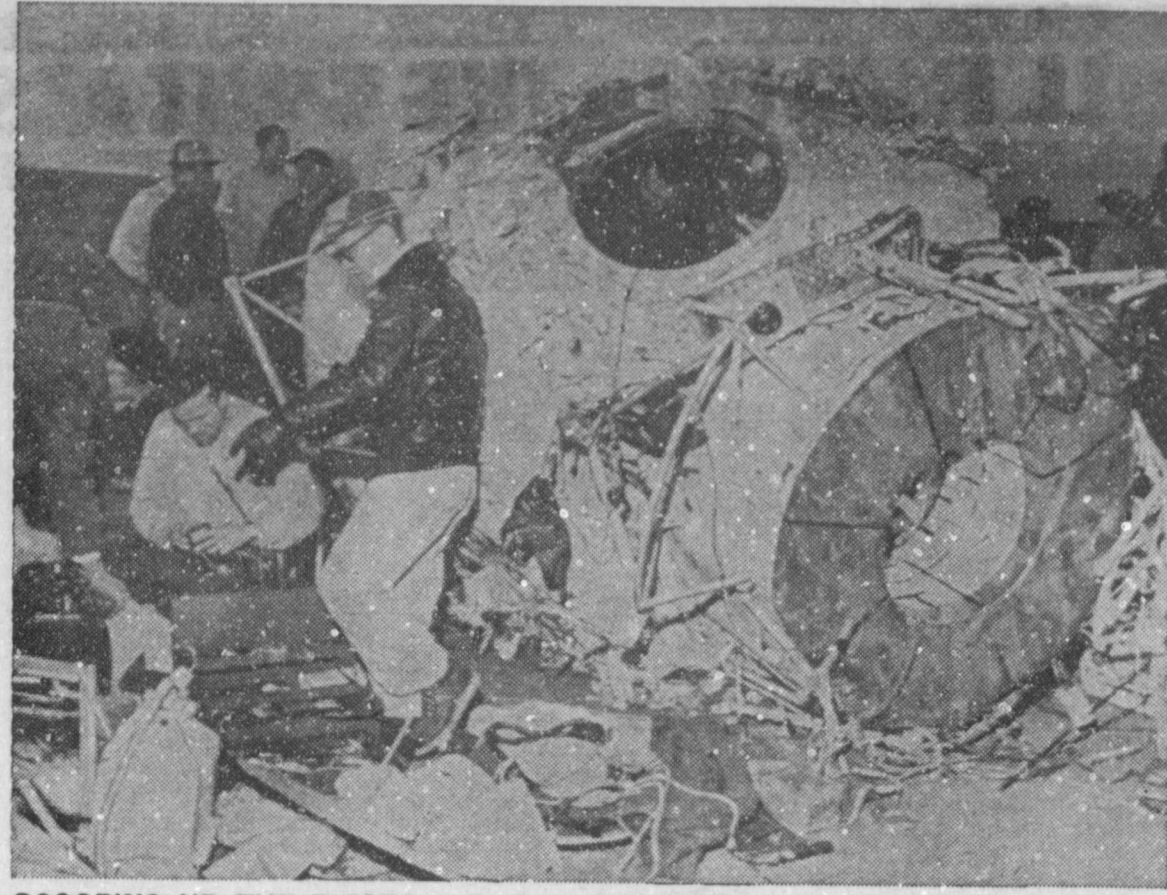

Volunteering as chairmen of various committees were Mrs. Ray Swirczynski to see that Santa Claus gets there, Mrs. Oscar Miller for refreshments, Mrs. Clarence Hellman for gifts, and Mrs. Nig DeBorde, Mrs. Otto Walterscheid and Mrs. Clarence Hellman, tree and decorations.

Another committee consisting of Mrs. Richard Grewing, Mrs. Leo Lawson and Mrs. Clarence Hellman will make arrangements for Christmas presents for handicapped children in local veterans' families.

The Auxiliary voted a contribution to the National Muscular Dystrophy Foundation and collected ten per cent of remaining dues to fulfill the month's honor roll requirements.

Reports revealed that 19 Christmas packages were sent to overseas young men and women of the community in the service and that Muenster will host the District I convention in February.

Mrs. Jenkins announced that the annual 4-H Christmas party is set for Monday night, Dec. 14, in the Community Center Building at Gainesville. And reminded the members to start planning for the dress revue, dairy foods show and district contests which come up in April.

Before adjournment, Patsy Endres, president, in the name of all Sacred Heart 4-H girls, presented Mrs. Jenkins a Christmas gift as a token of appreciation for her help. Kathleen McGannon served as secretary and reporter. Meeting of the Intermedi-

Flora Mae Sims and Mary Knabe led the girls in singing Jingle Bells and Silent Night to end the meeting. Blondie Fleitman is reporter.

### Utility Companies Sponsor Awards Program for FFA

Muenster area Future Farmers of America were reminded this week to make preparations to enter the 1960 Texas FFA Electric Awards Program sponsored annually by Texas Power & Light Company and 10 other Texas electric utilities.

The program is designed to recognize students of vocational and economic use of electricity in connection with productive supervised farming activity on the farm and in the home.

Future Farmers compete for area prizes ranging from \$10 to \$50 and for a \$100 state award. Area and state winners may qualify for a national award. The 1959 state winner was Albert Repa, Jr., of Granger.

Information regarding the program can be received from vocational agricultural teachers.

### Christening and Birthday Observed

The home of Mr. and Mrs. Melvin Schumacher at Gainesville was the scene of a dinner party Sunday observing the christening day of their new baby Dennis Ray and the birthday of their little girl Karen who was two years old Dec. 1.

Mr. and Mrs. Billy Schroeder of Windthorst were godparents at their nephew's christening in St. Mary's Church. Others at the turkey dinner were the grandparents, Mr. and Mrs. Henry Schumacher and Mr. and Mrs. Ted Gremminger and Karen's brothers Dale and Kenny.

Centerpiece for the table was a decorated birthday cake with two candles and those attending brought a shower of gifts. Mrs. Ted Gremminger spent several days of last week with her daughter and family.

### 3 Events in Week Outstanding for The John Caugheys

Three important things happening in the space of a week made that period interesting and exciting for Airman and Mrs. John Caughey, stationed at Ramey, AFB in Puerto Rico. And letters and a telegram have helped Mrs. John Kathman share in the excitement with her daughter and son-in-law.

A raise in rank, initiation into the Fourth Degree Knights of Columbus and arrival of a son, in that order, make it a red-letter week for the 25-year-old airman and his wife.

John advanced to Airman Second Class, then became a member of the Fourth Degree, one of nine in the service joining from his base. There were 172 initiates and two bishops participating in the ceremonies at San Juan. Bishop McManus of Ponce celebrated the Pontifical Mass and was one of the speakers. A banquet and dance concluded festivities. And finally, the last of the events and the happiest, the birth of a seven pound ten ounce boy Sunday.

This writer would suggest . . . that you just go on feeling like a heel and pass up all the hitchhikers because a survey shows that the percentage of thugs is NOT one in a thousand or any thing like it. For instance the police department at Globe, Arizona made a survey of 300 hitchhikers. It showed 34 had criminal records or were wanted by authorities. Criminal records included 24 for burglary, 14 for auto theft, 11 for personal violence." — Liberal, Kans., Times

### Recollection Day For Lindsay Men Scheduled Sunday

A day of recollection for men of St. Peter's Parish, Lindsay, has been arranged for Sunday with the Very Rev. Vincent Wolf, pastor of the Co-Cathedral in Fort Worth, conducting the conferences and special services.

The program for the day begins at 8 a.m. with mass and a short sermon and will be followed by breakfast — in silence — served by St. Anne's Society.

The rest of the morning schedule is conference at 9:45, stations of the cross at 10:30, and conference at 11:15. Lunch in silence at 12.

The afternoon program consists of rosary at 1 o'clock, question box at 1:30, opportunity for confession at 2:30 and the closing at 3:30 with Benediction and Papal Blessing.

In announcing the day of recollection, Father Alcuin, listed other masses in St. Peter's Church Sunday for 7 and 9 a.m. He invited all men of the parish, married and single, to avail themselves of this opportunity . . . to set aside one day of Advent to prepare for Christmas.

### Full House Cheers Christmas Pageant By Lindsay Pupils

A capacity audience in Lindsay Parish Hall Sunday night applauded a 60-minute Christmas pageant presented by school children and went home inspired after witnessing the reverence and beauty of the Christmas story.

Sister Liberta directed the program and supervised costuming. Staged as a pantomime, the actors performed silently while the story unfolded in choral readings and carols. It was presented in eight scenes.

Beginning with a dance of the Angelic Host the following tableaux were of the Annunciation, Visitation, the Crib at Bethlehem, Shepherds on the Hillside, Shepherds at the Crib, the Three Magi, and the Faithful at the Crib.

Forty-seven children participated as angels, twenty-five were in the chorus, eighteen provided choral readings, twelve made up the angelic host, twenty-one were shepherds, and forty-three gathered for the group of faithful visiting the Holy Family at the stable.

Among individual roles were Rosalee Ann Moster as the Archangel Gabriel, Rosemary Hermes as the Mother of Jesus, Anthony Hermes as St. Joseph, Elizabeth Aithchison as St. Elizabeth, Michael Fuhrmann as the Innkeeper, Leroy Sandmann as his son, and Larry Sandmann, Robert Fleitman and Roy Morisak as the Three Wise Men.

Behind the stage, tending to lights, curtain, props and so forth were Leroy Sandmann, Bernard Kubis, Henry Sandmann, Michael Fuhrmann, Jimmy Zimmerer, Paul Hess and Elizabeth Aithchison.

Friday afternoon Sister Florentine's fifth and sixth graders were treated to a party by the roommothers. Games, soda pop and candy were enjoyed. Gerald Stoffels won the door prize, a rosary. It was the third consecutive month that this room won the attendance award for having the most parents present at the PT meeting.
