MUENSTER, COOKE COUNTY, TEXAS

NUMBER 36

Regardless of what David McDonald and other big wheels of the labor unions say in favor of the current steel strike, it is crystal clear to any thinking person that their only achievement is in messing up the economy of the country. And most tragic of all is the fact that the steel workers, who are supposed to be the first line beneficiaries, will be hurt as much or possibly more by the so called gains which are demanded in their behalf.

Already the steel workers are years behind in their wages. That is, the demanded pay increase, if they succeed in getting it, will take years to make up for the wage losses already sustained. But that applies to only half of their predicament. Considering the price increase that must inevitably follow the wage increase, they will never catch up. It won't be long until the same old wage-price ratio is in effect and the increased income will buy no more than it did before. So, the net result in the end is that the workers got no increase whatsoever in their real pay and actually have nothing to show for their strike except the loss sustained while they were idle.

However, they have still another loss to show for it. That is the depreciated value of their savings. Whatever they have, in insurance, bonds, savings or cash accounts, has lost some of its purchasing power. In plain words the pay raise, with its inevitable price raise, makes every worker poorer than he was before.

Facts like these are so basic that a child should be able to understand them. That's why it is so astounding that a half million men are willing to go along with the union bosses. That's why many of us are inclined to wonder whether most of them really go along willingly. They should know as well as you and I that they are losers, not gainers.

What applies to them, of course, applies also to everyone else in the country. The price raise forced by the wage raise will increase everyone's cost of living and clip a little more off the purchasing value of everyone's savings. In desperation other workers will be crying for more pay, and probably will get it, with the overall result of more price increases, and still more depreciation of the value of savings.

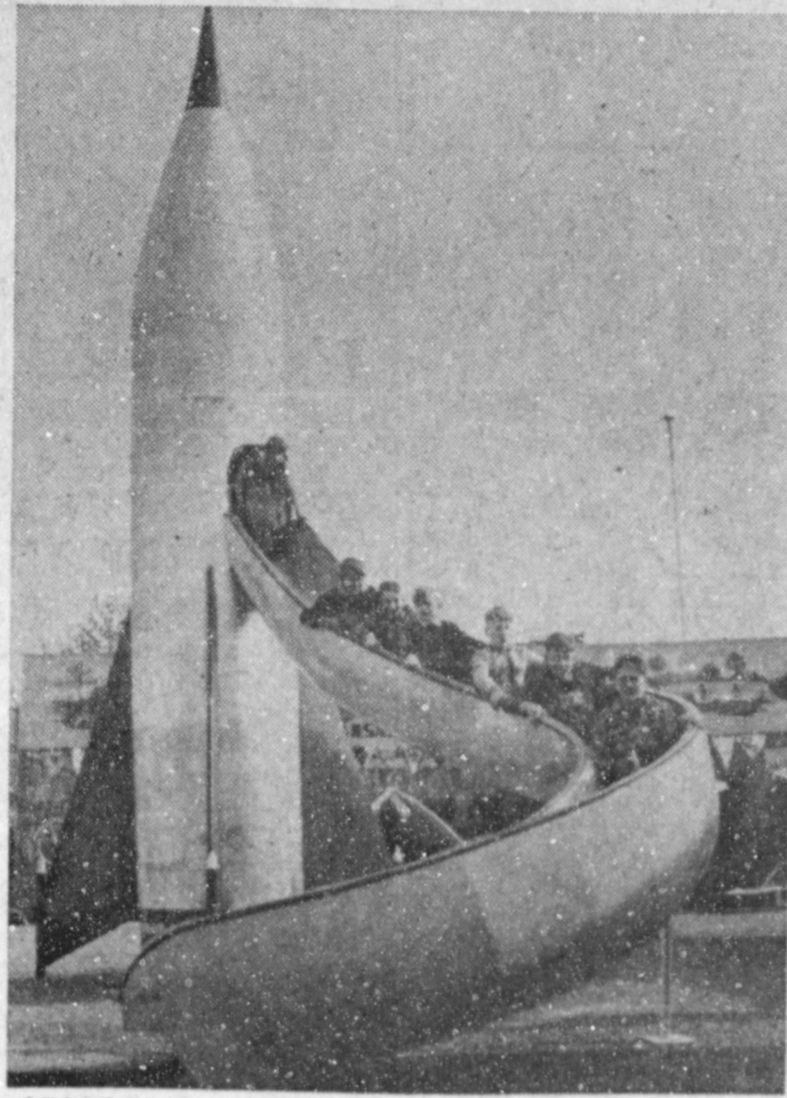

Considering such factors this column earnestly hopes that the steel companies will stand pat and refuse to give in to the pressure of union big shots. They appraised the issue correctly when they said the demand is inflationary and they will be delinquent in their responsibility to their own employees as well as the nation if they fail to stand their ground.

For the sake of principle we could add that the just and sensible adjustment in steel wages should actually be made in the other direction. That is, wages ought to be reduced, along with a reduction in prices. That would be a real benefit to the worker. While holding his own in the wage-price ratio he would gain in the value of his savings. It's hardly necessary to mention, however, that such a solution is impossible in today's bargaining climate. Just holding the line is already a tremendous job. Reversing the trend is too much to hope for.

Just the same, we have to admit that we will not begin solving our problem until we stop the climb of the inflation spiral and start heading it downward. America's greatest fault today is in penalizing thrift. We've got to restore economic integrity and honesty and quit robbing people of the value of their savings.

Developments in our vice-president's good will tour of Russia seem to bear out advance predictions. The propaganda mill of Moscow is doing all in its power to nullify the favorable impression he might have on the public. In that verbal slugfest he had with Khrushchev, for instance, the Soviet news agencies are doing a thorough job of misquoting in order to make their chief appear as the winner, and incidentally also to delete any of his spontaneous brags which would be recognized as nonsense by the average Russian citizen. All of which Nixon apparently foresaw when he challenged the red chief to give a full report

Mrs. A. Parker, 98, Myra Resident 78 Years, Dies Sunday

Mrs. Amanda Parker, 98, a resident of Myra for 78 years and that area's oldest citizen died in a Gainesville hospital at 6:30 Sunday evening, one day after she suffered a broken hip.

The accident that is said to have caused her death happened at her home Saturday evening. As she rose to go into the house after sitting on the porch a sudden twist caused her to fall. She was taken to the hospital Sunday morning. Her advanced age caused her to grow steadily worse.

Funeral services were held Tuesday afternoon at 2 o'clock in Myra Baptist Church and burial was in Reed Cemetery with George J. Carroll & Son directing arrangements. Rev. H. C. Stump, pastor, was the officiating minister.

As Amanda E. Tucker Mrs. Parker was born April 22, 1861, in Parker County south of Azle. When she was 20 she was married to John Parker, on July 27, 1881, and they moved to Cooke County settling on a farm south of Myra. After 40 years of farming they retired and moved to town in 1926. Mr. Parker died the following year. After that she shared her home with her daughter, Mrs. Dora Fears.

Always a good conversationalist, Mrs. Parker enjoyed keeping up with world events. In recent years failing eyesight forced her to quit reading but she enjoyed radio and television and for her hobby spent much time in making flowers and floral pieces, some using horsehair and some fashioned from her own hair. She was an active member of the Baptist Church for many years.

She is survived by one son, John Parker of Gainesville, two daughters, Mrs. Dora Fears of Myra and Mrs. Louella Felker of Hood; 12 grandchildren and 17 great-grandchildren.

For the annual barbeque Jerry Talley of Sherman will be master of ceremonies, Red Gordon's band will provide music and personnel of the Montague County Extension Service and Farm Bureau will be judges in the queen's contest.

NEWS OF SICK AND INJURED

Mrs. Norbert Knabe underwent surgery at Gainesville Sanitarium Monday and is reported recovering normally.

Larry Gobble, 12, is still sore and bruised and has a painful left arm with a dislocated elbow and loose ligaments as the result of a fall during play. Says he "just walked off a shed." It's about 12 feet high. The accident happened Friday evening and he was treated at Muenster Clinic. More X-rays will be made and he'll probably have to carry the arm in a sling for several weeks.

Mrs. Louis Sicking has been dismissed from Gainesville Sanitarium following surgery and is convalescing at the home of her mother, Mrs. George Lutkenhaus in Gainesville where the three Sicking children stayed while their mother was hospitalized.

Mrs. T. L. Anderson of Gainesville is reported recovering satisfactorily following surgery Monday morning at the Sanitarium.

Mrs. Junior Heath is getting back into circulation this week after being a shut-in following an operation at Gainesville Sanitarium on July 13.

Mrs. M. H. King checked in at Medical Arts Hospital in Dallas Saturday morning for a check-up and observation. She expects to be back home this weekend.

Doris Lutkenhaus, 10-year-old daughter of Mr. and Mrs. Gus Lutkenhaus, has recovered from a tonsillectomy performed the past week.

Rickey Huchton was dismissed from Baylor Hospital three days after undergoing plastic surgery Thursday. His parents, Mr. and Mrs. A. J. Huchton, stayed with him while he was in Dallas.

Mrs. Eddie Krahl is back at her own home here now after spending a week at Gainesville in the home of her husband's parents, Mr. and Mrs. Joe Krahl, following her dismissal from a Sherman hospital where she underwent surgery. Eddie brought Margie home Sunday and she's up and around the house some this week.

Public is Welcome At Budget Hearing For Public School

Persons who are interested in the Muenster Public School's budget for the coming school year are invited to attend the next meeting of the school board on Thursday, August 6.

Superintendent L. B. Bruns explained this week that the public is entitled to a hearing on the budget and the privilege of recommending changes for the welfare of pupils and the district. They will be welcome when the board reviews and adopts the budget next Thursday night.

Slow But Steady Progress Noted in Fund for Factory

This community's industrial fund to assist in financing a local clothing factory is slowly taking shape. During the past week about \$6,000 was raised, mostly in amounts of \$100 to \$300 to bring the present total to just over \$17,000, which is still \$8,000 short of the goal.

Persons who invested in the fund will have their organizational meeting this Thursday night, July 30, at 8 o'clock in the parish hall. At that time they will elect their board of directors who will then elect the officers from their own group. This executive group will have the responsibility of representing the foundation in securing a charter and negotiating for the establishment of industry here.

The first negotiation awaits completion of the organization and the fund. It is a deal in which Raden Mfg. Co. of Gainesville, in its current expansion program, will set up a factory here. Inducement offered by Muenster citizens is a \$25,000 interest free loan to be repaid at \$500 a month starting on the 13th month.

Members of the foundation, to finance this deal, are investing their money for a five year period. At the end of that time each person has the option to withdraw his investment. In case the fund is not complete the member can withdraw his balance pro rata and receive his balance when the fund is complete.

Up to now the following firms and persons have invested in this community venture: Vincent Felderhoff, Al Felderhoff, Grewing Bros., J. M. Weinzapfel, Fisher's Market, Community Lumber Co., Otto Bros., Bayer Bros., Earl Fisher, Endres Motor Co., Muenster Telephone Co., Ray Wilde, (Continued on Page 9)

For the past six years he was assigned to the Whitesboro work unit as farm planner.

Two from Muenster One from Lindsay Get Nurse Diploma

Twenty-four students of St. Joseph's School of Nursing in Fort Worth, including two from Muenster and one from Lindsay, received diplomas at graduation ceremonies at 3 o'clock Sunday afternoon in the hospital chapel.

Graduate nurses from Muenster are Mary Trubenbach, daughter of Mr. and Mrs. Alois Trubenbach and Virginia Wolf, daughter of Mr. and Mrs. Bernard Wolf. The Lindsay graduate is Marlene Bezner, daughter of Mr. and Mrs. William Bezner.

Parents and family members saw the girls get their diplomas with the Most Rev. Bishop Thomas K. Gorman officiating and the Rt. Rev. Msgr. Vincent Wolf as master of ceremonies. Afterwards there was a reception in the auditorium.

Going with Mr. and Mrs. Wolf were her parents, Mr. and Mrs. H. A. Lueb of Madill, Okla., who joined them here and returning with them was the Wolfs' daughter, Mrs. Wilfred Klement and son Chris of College Station. They met in Fort Worth and Wilfred went from there to Fort Hood for two weeks of summer camp with Army Reserves. Julia and Chris will divide their time here between her parents and her husband's parents, the Norbert Klements.

Another graduate was Gerry Geary of Monahans, fiancée of Donald Whitt, former Muenster young man now of Abilene, and he was at the commencement program. His parents, Mr. and Mrs. W. B. Whitt and his brother James Whitt also attended the exercises.

Saturday, Mary, Virginia and Marlene were among ten guests at a luncheon and swim party given at Western Hills Hotel. The event honored June Roberts of Fort Worth, also a member of the graduating class.

Mild Temperature And Good Moisture Continue in Area

Some of the most pleasant July weather this area has ever known still continues to favor Muenster. In addition to rain, which is keeping crops and pastures in fine condition, it has had exceptionally mild temperatures ranging mostly in the eighties and low nineties.

It all adds up to a better than average crop year for this community. Wheat was well above normal. Good corn and sorghum yields are now assured. Hay has been good so far and more cuttings are in sight. About the only exception was oats, which was somewhat below normal.

Rain during the past week added another .88 inch bringing the month's measure to 3.48 and the year's total to 15.45.

Last Friday's rain was accompanied by heavy winds that reached storm intensity in the North Lindsay area. At the Gregory Hundt farm it destroyed a 2-car garage and damaged a few other buildings.

New Grandstand Under Construction On Parochial Field

New spectator stands are in the making at the Sacred Heart football field. At this time two 100 seat sections are under construction and three more sections are planned.

The project is sponsored by the St. Joseph's Society of Sacred Heart Parish. Members are soliciting salvage materials for it and also donating their time for constructing it.

As described by Father Christopher Paladino, the framework of each section will be made of 2 inch pipe and seats will be made of 2 inch fir planks treated for protection against the weather. The framework will be painted with aluminum paint. It will be mounted on skids made from salvage 4 inch drill stems. When the units are complete present stands will be removed and the new sections skidded into their place about 15 feet from the sideline of the field.

Each section is to be 30 feet wide and will have 5 rows of seats. The first seats will be about 5 1/2 feet above the ground, allowing a clear view of the field even when some spectators are standing in front of the stand. The next four rows of seats will each be 16 inches higher than the row in front. Steps will be built at the front of each section. A press box will also be built on one of the sections.

The complete project calls for five sections, three to be on the west side of the field and two on the east side.

At Summer School Of Catholic Action

Four members of the parish Catholic Youth Council are spending this week in Dallas attending the Summer School of Catholic Action, Monday through Saturday. They are Margorie Schoech, Karen Endres, Carol Ann Hess and Roy Swirczynski.

Father Joseph Weinzapfel of Fort Worth who is on vacation here with his family, spent a part of this week in Dallas attending session of the summer school.

In San Antonio for Religious Service

Mrs. Al Fleitman has returned from San Antonio where she attended the jubilee celebration at Our Lady of the Lake Convent. Among jubilarians was her aunt, Sister M. Josephine. She was able to attend the ceremonies after having broken her hip early in June. Sister Josephine has been in the convent sixty years.

There were six diamond, five golden, and 17 silver jubilarians. The church was beautifully decorated with large bronze mums and the same color and floral complement were noted in the dining room.

Mrs. Fleitman also visited with her sister, Sister Ann Theodore, and her other aunts, Sister M. Cordula, Sister M. Constantia and Sister M. Emerita and her niece, Sister Miriam Dorothy. They all sent regards to all their relatives and friends.

About 50 altar boys of the parish enjoyed their "summer festival" Thursday night. It consisted of a splash party at the local pool and a picnic in the park. Brother Thomas Moster who is in charge of the servers arranged and supervised the event.

Best Year to Date Reported at Annual Meeting of NTPA

The biggest production year in the history of the North Texas Producers Association has just been completed, members of the organization were told at their tenth annual meeting last Thursday in Arlington.

J. O. Woodman, general manager of the giant milk producing cooperative, reported that it handled 872 million pounds of milk during the year, paying \$43,842,000 to its members. This represents a gain of about 70 million pounds over the previous year's production.

The organization also showed a substantial gain in membership. With one director for each 100 members, it now has 35 directors, 12 of which were added this year. Reason for the sudden growth is the co-op's expansion into West Texas and New Mexico.

Along with his report to the members Woodman stated that the Grade A dairy business is the best and most stable industry in agriculture today. He also forecast practically stable milk prices for the coming years and a trend toward fewer producers but larger production per member. Reasons for this trend, he said, are better production methods, larger herds and increasing use of bulk tanks and other more efficient equipment.

Even the surplus department of the organization reported a good record for the past year. Dairy products processed in Muenster and Sulphur Springs from the organization's surplus and Grade B milk have emerged (Continued on Page 2)

Plan Revealed for Automatic Laundry In Muenster Soon

A coin operated Washateria is due to be in business here in about a month. It will be located on Highway 82 on the lots adjoining the east of Hofbauer's Store.

Andy Hofbauer revealed this week that he will put up a 25 x 50 building of concrete tile and lease it to E. B. White of Forestburg. Work is due to begin in a few days and should be finished before the end of August.

Equipment will consist of 20 automatic washers and 4 dryers, all coin operated.

Joe Moster Attends Firemen's School

Joe Moster, assistant chief of the Muenster Fire Department returned last Friday from the annual Texas A & M five day course for firemen. He was an official representative of the local fire department and his expenses were paid by the City of Muenster.

Moster was enrolled in the class on pump maintenance, with special emphasis on the types of pumps used on Muenster's equipment. He spent all five days on repair, assembly, operation and care of the units.

The city benefits in two ways from sending a representative to the course. In addition to technical knowledge on the operation and maintenance of equipment there is a credit on insurance rates allowed by the state insurance commission. This credit of 3 per cent on the key rate amounts to a saving of about \$300 a year on the combined insurance premiums within the city.

Father Martin Fischer joined relatives from Pennsylvania on a trip to Subiaco Thursday to spend a few days. The trio, a sister, a niece and her husband visited here before they left and will be back for another visit.

from the distress market and are selling now on a competitive market. Muenster processed 108 million pounds of milk during the past year and Sulphur Springs processed 71 million.

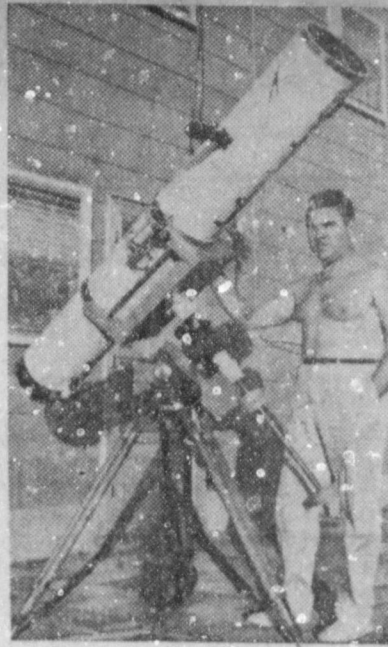

After their business session the members were shown a movie "The New Story of Milk" and attended an open house in the organization's new administration building.

About 85 Cooke County members attended the meeting, most of them going to Arlington as guests of the First State Bank of Gainesville, which chartered two air conditioned busses for the trip. Muenster made up about a third of the county's attendance.

Sisters Are Joint Honorees at Party

Mrs. Joe Luke entertained Friday afternoon in her home complimenting two out-of-town nieces, vacationing here. The honorees were Mrs. T. J. Gorman of Rockford, Ill., and Mrs. Robert Kupper of Marlin.

Guests included former classmates of Mrs. Gorman: Mrs. Lambert Bezner and Mrs. James Bezner of Gainesville, Mrs. Rufus Bezner of Lindsay and Mrs. Maurice Page, and Mrs. Val Fuhrmann and Mrs. Urban Endres. One of the school chum crowd was missing, Mrs. David Bright of Alexandria, Va., and the others signed a "Miss You" card to be mailed to her.

During the afternoon the group enjoyed seeing colored slides of the Joe Lukes' travels, made pictures of the gathering and reviewed old times and school days.

The hostess presented each honoree a gift and served refreshments of lime sundaes, angel cake, nuts and coffee.

Newlyweds Honored At Party in Myra

The home of Mrs. J. S. Russell at Myra was the scene of a gift shower Wednesday evening honoring Mr. and Mrs. Joe Boggs, recently married couple.

Sharing hostess duties were Mrs. Joe Russell and Mrs. Thurman Reid of Muenster and Mrs. Jake Huddleston of Myra. They served refreshments to 33 guests after a series of games and a display of shower gifts.

Weekend guests in the home of Mr. and Mrs. Al Walterscheid were Walter Acker, fiance of their daughter Mary Catherine, and his friend Freddy Ball, both of Nazareth.

Jo Ann Hacker and Donald Pelzel Wed At Nuptial Mass

—Boyd and Breeding Photo

Honeymooning at an undisclosed destination this week are Mr. and Mrs. Donald Pelzel who were married here Saturday. She is the former Jo Ann Hacker, daughter of Mr. and Mrs. John Hacker of Muenster, and he is the son of Mr. and Mrs. Frank Pelzel of Pilot Point.

Jo Ann and Donald exchanged vows in a double ring ceremony during nuptial high mass in Sacred Heart Church at 4 p.m. Father Christopher Paladino officiated. After the service the newly married pair went to the Blessed Virgin's shrine where the bride placed a bouquet of glads on the altar. At the same time Mrs. Norbert Walterscheid, aunt of the bride, sang a solo, Anthony Luke playing the organ accompaniment. The church choir sang the mass. Gladioli and greenery adorned the altar before which the couple pledged their vows.

For her wedding Jo Ann wore a white floor-length gown of embroidered nylon organza over taffeta, slim waisted and wide skirted with a crisp organza bow at the back. A sweetheart neckline and short shirred sleeves enhanced the bodice and she wore long matching mitts. Her veil was elbow length attached to a half hat of starched lace ornamented with seed pearls and she carried a purple-throated white orchid atop a bride's prayer book. Mr. Hacker escorted his daughter to the altar and gave her in marriage.

Helen Hacker attended her sister as maid of honor and Joan Hennigan was bridesmaid. They wore identical bouffants of yellow nylon chiffon over taffeta with matching half hats and gloves and carried yellow roses. Their bracelets and ear rings were gifts from the bride.

Felix Pelzel of Pilot Point was best man for his brother and Clyde Muller was groomsman. Wilmer Walterscheid and Alois Pelzel ushered.

Junior attendants were the bride's sister Shirley Hacker and the groom's nephew Dennis Schroeder. Shirley's costume was a duplicate of the one worn by the maid of honor and bridesmaid. She carried the flowers the bride placed on the Blessed Virgin's altar.

A reception and dinner catered by Mrs. Joe Lehnertz in the Parish Hall honored the newlyweds and Dolores Grewing and Carolyn Cunningham registered about 250 guests.

For her daughter's wedding Mrs. Hacker wore a pink embroidered lace dress and Mrs. Pelzel, mother of the groom, wore navy blue. Both wore white accessories and had shoulder corsages of white carnations. The bride's grandmother, Mrs. John Walterscheid, also had a white carnation corsage.

YOU CAN'T LEGISLATE SOCIAL JUSTICE

We have no quarrel with those who have through various ways and means attempted to bring greater security and enjoyment to humanity by eliminating those social evils which sometimes caused people to go hungry, to lose life or limb because of working hazards that could have been eliminated, to be the victims of unfair treatment.

But we fear that mankind has tended to rely too much on legislation in his quest for social justice. As a result, we find too many instances where efficiency and the good of the majority have been sacrificed in order to bring undeserved blessings to the lazy, the inefficient, the laggard, the one lacking in ambition—and the scoundrel.

Whenever a man isn't willing to deliver a day's work for a day's pay, we have a social evil just as vicious as slavery itself. Whenever management is forced to retain anything less than the best man available for a particular job, a condition exists which is just as dangerous as that which years ago shortened the lives of workers forced to subject themselves to unnecessary physical hazards.

Whenever unrealistic labor union regulations go beyond limits of justice to either party, when they become unreasonable and amount to little less than demanding something while sticking a gun in a man's back, then it is time to call a halt in the interest of decency and honesty.

Whenever an employee calls upon tenure laws or union contracts to protect his job, we can be sure in most instances that he is abusing the purpose for which such protection was made available in the first place.

READIN', WRITIN', AND STRINGIN' BEADS

The following story, illustrative of the modern trend in "progressive education," is told by Thomas D. Bailey, Florida state

superintendent of schools. Two second-graders were standing on their school playground during recess when a jet plane flew over.

"Look," said one lad, "it's a BX50." The other child said, "No, it's a BX51. You can tell by its wing sweep." "You're right," the first youngster conceded, "it's not going more than 760 miles per hour, either, because it didn't break the sound barrier." On this point both agreed. "It's amazing the pressure that develops on those jets when they go into a dive," the second boy remarked, "almost 1,200 pounds per square inch."

At this point the bell called the children back to the classroom. The first child turned to the other. "There's the bell," he sighed. "Let's go back in and finish stringing those darned old beads."

"BIG HEARTED" RALPH

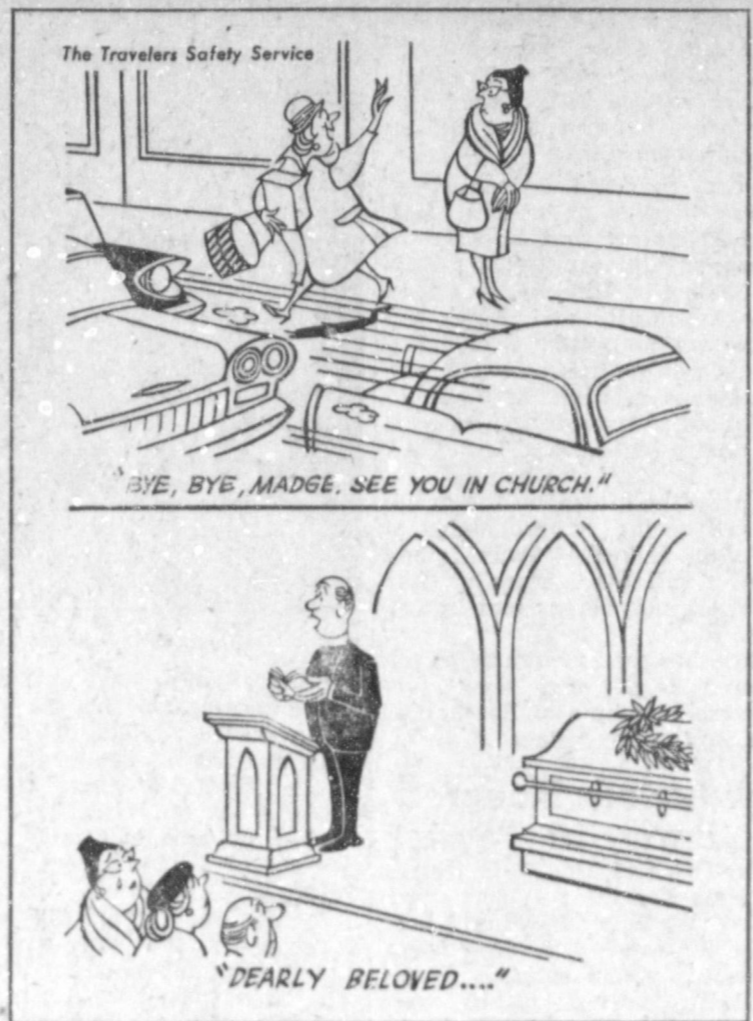

Since the Watchman began carrying the weekly letter of U. S. Senator Ralph Yarborough, we have noticed with interest that in every letter he proposes some new device for spending the taxpayer's money, and never a proposal to save money, or to halt inflation or to stabilize our government.

To the Liberal Mr. Yarborough, there is a never ending flow of tax dollars from the pocket of American taxpayers. This money doesn't come from the rich fat cats of Wall Street, as he would like the average voter to believe. This money must come from the pay checks of average American people.

It comes out of the pay check of the butcher, the banker, the candle stick maker. It comes out of the pocket of the labor union member, the farmer, the rancher, the coal miner, the gas plant employee and the school teacher. It comes from the widow with a set income, and the inflation it causes devalues the money of those on pensions or annuities.

Look at your pay check. Then look at your grocery bill. Then

BIGGER IN BUNCHES—Huge as it looks, this liquid-fueled rocket engine will be combined with several of its fellows to supply 1,500,000 pounds of thrust for the proposed Army-Advanced Research Projects Agency "Saturn" space vehicle. It's a compact, simplified version of already-operational Thor and Jupiter missile engines.

More than 2,800,000 Americans were killed or injured in automobile accidents in 1958. Injuries during the past year rose 12 per cent—twice the rate of increase for the previous year. This is the greatest waste of property and human resources in our nation.

Apply These "Don'ts" For Safer Driving

1. Don't drink while driving, boating or swimming. Alcohol produces drowsiness much quicker in hot weather and slows reactions.
2. Don't "show off" in a car or boat. The expert professionals shun this sort of thing.
3. Don't drive "part time." A distracted or inattentive driver cannot cope with situations because he is not ready for them.
4. Don't allow picnic food to get hot before mealtime. Spoiled food can result in painful poisoning and could be fatal.
5. Don't stay unprotected in the sun for more than 15 minutes. Tender skin will burn quickly under a July sun.
6. Don't be careless with fireworks. Even so-called harmless sparklers and Roman candles have caused serious burns.
7. Don't go boating without a life preserver and don't swim away from the group. Even the best swimmer can panic.
8. Don't be a "statistic." There really is no reason to hurt yourself while having a good time.

Recent visitors in the Denny home were two former Muenster girls, Sister Marie Cecile Endres, and Sister Francesca Walterscheid of OLV in Fort Worth, who were attending summer school at Our Lady of the Lake Convent.

Blanton and her daughter, Mrs. Irene Pugh. Going and returning the Golden's spent some time sight seeing "but mostly we stayed with Mama" said Mrs. Golden, who will return to her work in the NTPA office Monday.

A luxury cruiser took them sight-seeing along the Potomac River and another tour included Mount Vernon. In ballgames they saw the Yankees, Dodgers and Phillies. Sight-seeing in Chicago included China Town and tours in New York included Harlem.

If men would consider not so much wherein they differ, as wherein they agree, there would be far less uncharitableness and angry feeling in the world.

Barbara Schmitt is Birthday Honoree

Barbara Schmitt celebrated her 11th birthday Thursday with a party for which 13 girl friends were guests. Her mother, Mrs. Eddie Schmitt, arranged the observance and took the group to the pool at city park for a swim party.

Refreshments of ice cream sodas and birthday cake, planned to be served in the park, had to be moved indoors when a shower of rain spoiled outdoor fun. So the party continued at the home of Barbara's grandparents, Mr. and Mrs. J. W. Hess, who joined in birthday refreshments. Rosemary Fisher assisted with serving. Afterwards the girls played games.

That said City Council after having duly advertised for bids in the manner required by law and the charter of said city, did award contract for the construction of the paving improvement to H. M. Scott Company, Denison, Texas, upon the best bid therefor, and said contract is dated the 20th day of July, A. D. 1959, was adopted and approved by the City Council on the 20th day of July 1959.

That the City Council has caused the Water and Sewer Superintendent and City Street Commissioner to prepare and file estimates of the cost of such improvements and estimates of the amount per foot to be assessed against the property abutting said streets within the limits of said city, and the legal and true owners thereof, and said estimates has been filed with the City Secretary, which information has been examined and approved by said City Council.

SECTION 2. The written statement and report of the Water and Sewer Superintendent and City Street Commissioner heretofore filed with the City Council showing the estimated total costs of all the improvements herein being made on Hickory Street, showing the amount per front foot proposed to be assessed against the abutting property and the real and true owners showing the total estimated cost of the paving and the amount to be paid by the abutting property owners and the amount to be paid by the City, and all such information relative thereto, having been received and examined by the City Council, said report and the estimates therein shown are hereby in all respects approved and adopted; and it is hereby found and determined by the City Council that the estimated amounts of the respective items of cost of said paving is as follows:

Total estimated cost of paving project is \$8,500.00, estimated at a cost of \$3.60 per running foot, of which the abutting property owners are to pay an estimated sum of \$1.80 and the city to pay an estimated sum of \$4,500.00 for the total construction of the paving. In addition to the cost of the city, the city shall make the necessary fills, grade and prepare the street for

paving. This provision being heretofore adopted by the City of Muenster as authorized by the Revised Civil Statutes, under Article 1105b of the State of Texas.

The city shall pay all of the cost of drainage installation wherever located, all the excavation cost, base preparation, and the paving of intersections or alley ways, on the same basis as heretofore agreed and adopted for the paving of curb and gutters of said Hickory Street. No assessment shall be made against any abutting property owner thereof for costs in excess of the benefits to such property in enhanced value thereof by means of such improvements. The amount of such assessments shall constitute a first and prior lien upon all such properties and a personal liability of the true and real owners thereof, whether whether correctly named or not and shall be payable as follows:

When the improvements herein ordered for the paving of Hickory Street has been completed and accepted by the City of Muenster, the amounts of the assessment against each property abutting thereon and the real and true owners thereof shall be and become payable, which payments may be made in full or by installments made in any agreed installments of principal or interest as same matures, then at the option of the holder of said obligation, the entire amount shall become due together with a reasonable amount for attorney's fees and all collections costs incurred.

SECTION 3. A hearing shall be held and given to the real and true owners of, and all owning or claiming an interest in any property abutting upon said streets in and along said Hickory Street as to the assessments and amounts assessed against each parcel of abutting property and the true owner thereof, and as to the special benefits, if any, to said property to be received from said improvements, and concerning any error, invalidity or irregularity in any proceedings or contract concerning any matter connected therewith, which hearing shall be held by the City Council of Muenster in the City Hall at Muenster, Texas, at 8 p.m. on August 3, 1959, at which time and place all persons, firms etc., owning property abutting on said street, shall be notified to appear and to be heard in person or counsel, and may offer evidence; and said hearing may be adjourned from day to day and from time to time and kept open, until all evidence and protests have been offered and heard, and the City Water & Sewer Superintendent or City Street Commissioner is directed to give notice of said hearing by publication of Notice in some newspaper of general circulation; said notice to be published at least three times in said newspaper before the date set for said hearing, the first publication shall be at least ten days prior to the date of said hearing as required by law, (Article 1105b). Notice form is approved by City Council.

SECTION 4. Following such hearing as above provided, assessments will be levied against said abutting property and the real and true owners thereof for that portion of the cost of said improvements herein being made to be payable by abutting property owners thereon, which assessments shall be a first lien upon said property abutting said Hickory Street and a personal liability against the real and true owners thereof. In levying said assessments, if the name of the owner be unknown, it shall be sufficient to so state the fact and it shall be unnecessary to give the correct name of any such owner and no error or mistake in attempting to name such owner or in describing any of said property shall invalidate any assessment; but nevertheless, the real and true owners of said abutting property shall be liable and the assessment against said abutting property shall be valid whether or not such owner be named, or correctly named, or said property correctly described therein.

SECTION 5. The fact that the street herein named (Hickory) to be improved as heretofore and hereinabove provided for as heretofore shown in a previous Ordinance are in bad and unfit condition and a hindrance to traffic demands of the city and should be improved without delay creates an emergency and imperative public necessity for the immediate preservation of the public peace, health, safety and general welfare, requiring that the rule providing that no ordinance shall go into effect before the several readings of its final passage and all other rules an ordinance on the date introduced, be and the same are hereby suspended; and this Ordinance shall be passed and take effect as an emergency measure and be in full force from and after its passage as provided by law, and it is so ordained.

Passed this 20th day of July, A. D. 1959, by an affirmative vote of the City Council.

One-key control: only Chevy in its field has done away with fumbling for two or three keys. The same key unlocks the door, starts the engine, opens the glove box and trunk.

WHY DO WITHOUT THIS CONVENIENT LITTLE TOUCH... LET ALONE

THESE BIG CHEVY VIRTUES!

BIGGER BRAKES

Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR*-conducted test of repeated stops from highway speeds.

*National Association for Stock Car Advancement and Research

GREATER ROOMINESS

Official dimensions reported to the Automobile Manufacturers Association make this point abundantly clear. For example, Chevy's front seat room is up to 5.9 inches wider than in comparable cars. And Chevy even offers more front seat head room than all but one of the high-priced cars!

MOST ADVANCED ENGINES

We'll let SPORTS CARS ILLUSTRATED talk about Chevy's standard passenger car and Corvette V8's: "Indeed, this device is surely the most wonderfully responsive engine available today at any price." And every motor magazine concurs! There are eight V8's to pick from—the widest choice in Chevy's field.

FRESH STYLING

POPULAR SCIENCE magazine's experts took one look and said, "In its price class, Chevy establishes a new high in daring styling."

HIGHER TRADE-IN

N.A.D.A.* Guide Books carry the proof of Chevy's extra trade-in value. They show that Chevrolet used car prices last year averaged up to a solid \$128 higher than comparable models of the other two cars in Chevy's field.

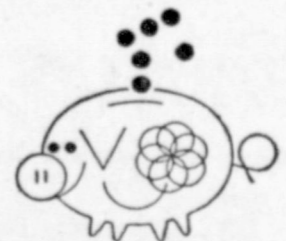

*National Automobile Dealers Association

FULL COIL RIDE

You've almost got to find a really rocky road to show off Chevy's easygoing ride to full advantage. MOTOR TREND magazine gives you an idea, though: "... the smoothest, most quiet, softest riding car in its price class."

BIGGER SAVINGS

Two Chevrolets packing our pennypinching 6 with Powerglide delivered a whopping 22.38 mpg in this year's Mobilgas Economy Run, winning the first two places in their class and walking away with top honors among all full-size cars. How can you argue with a figure like that?

No wonder more people are buying Chevrolets in '59 than any other car

The big shot labor leader went to a matrimonial agency. "Is this a union shop?" he asked. "Oh, certainly." He picked a picture of a luscious 25-year-old blonde and said, "I'll take her." "Because," said the manager, "she has seniority"

A visitor to New Mexico was talking to a sunbrowned native, and commented on the lack of rain. "Doesn't it ever rain here?" the tourist asked.

The native thought a moment and said, "Mister, do you remember the story of Noah and the Ark, and how it rained 40 days and 40 nights?"

"Sure I do said the tourist. "Well," drawled the native, "we got a half-inch that time."
