

MUENSTER ENTERPRISE

VOLUME XI

MUENSTER, COOKE COUNTY, TEXAS, FRIDAY, JULY 18, 1947

NUMBER 34

Paul C. Clayton, 71, Gainesville Merchant Passes Late Sunday

Paul C. Clayton, 71, for many years a Gainesville merchant, passed away at his home in that city late Sunday after a lingering illness.

Funeral services were held Tuesday at 10 a. m. in the First Methodist church, the Rev. Keener R. Isbell, pastor, officiating. Masonic services were held at the grave and burial was in Fairview cemetery under the direction of George J. Carroll and Son Funeral home.

Mr. Clayton was a native of Tupelo, Miss., and came to Texas in 1882. He entered the dry goods business as a button boy in his father's store in Cleburne. Later he associated with stores in Fort Worth, Little Rock, Ark., and Gainesville before going into business for himself in March, 1929. While in Little Rock he married Miss Luella Carlin of that city. She passed away three months ago.

Survivors include four daughters: Mrs. Jack W. Crawford, Dallas; Mrs. Robert Madill, Moorestown, N. J.; Mrs. Raymond Mannscheck and Miss Martha Lee Clayton, both of Gainesville.

Notes On Soil Conservation

R. W. Donnell of Saint Jo, has signed an agreement with the Upper Elm-Red Soil Conservation District on his ranch consisting of over 2000 acres. Donnell is endeavoring to carry out a complete ranching program consisting of grass, soil, and water conservation.

Other farm plans completed include: Joseph Flusche, Gus Livingston, Harry Otto, Tony Felderhoff, Mrs. Joe Bayer, Wright Embury, F. J. Trubench, and Henry Fleitman. All of these farmers are developing a coordinated soil and water conservation program through the help of Soil Conservation Service technicians assisting the Upper Elm-Red Soil Conservation District.

The vetch harvest in the Muenster Work Unit is nearing completion and reported yields vary from 100 to 200 pounds of estimated clean seed per acre. A considerable amount of vetch was not even harvested due to the plant matting on the ground as a result of no rye being grown with the crop to help hold the seed off the ground. In those vetch fields where Abruzzi rye was planted combining is very successful.

Walter Klement, cooper in the Northwest Muenster Conservation Group, harvested over 2000 pounds of Midrid clover seed from six and one half acres. He is expecting about 10% loss in volume due to oats and trash. After cleaning, this will still amount to a very sizeable income per acre. Ray Klement in this same group, recently mowed his newly established buffalo grass pasture. This is a highly recommended practice as it helps keep competing weeds and grasses from robbing the young buffalo grass of available moisture.

There were no injuries or damages Wednesday morning when Al Schmitt's driverless truck rolled the half block from Hennigan's garage across the highway and settled in the ditch just beyond. After having it pulled out Al drove it away with no marks other than a few fender blemishes.

Schmitt had forgotten to set the brake as he parked beside the garage. While inside he and Pat Hennigan noticed a truck in the ditch across the highway and a few minutes later he discovered it was his truck.

Parked Truck Won't Stay Put; Wanders into Ditch

There were no injuries or damages Wednesday morning when Al Schmitt's driverless truck rolled the half block from Hennigan's garage across the highway and settled in the ditch just beyond. After having it pulled out Al drove it away with no marks other than a few fender blemishes.

FMA Members Will Have Business - Social Session July 24 At Parish Hall

Members of the Farmers Marketing Association will have a combined business, educational and social session next Thursday night July 24, at 8:30 in the Muenster parish hall.

Rudy Hellman, plant manager, disclosed this week that he will give a report of the plant's activity for the first six months of this year.

The educational feature is a lecture by E. R. Eudaly, special representative for Universal Mills and former instructor of the Dairy Husbandry department of Texas A & M College, on dairy management. Refreshments will follow the lecture.

The driver of this car was killed because he was driving "too fast for conditions." Rounding a curve on damp, slippery pavement, his machine skidded off the road and rolled over and over down the side of a steep embankment; finally came to rest right-side-up with the driver crushed in the wreckage. Stated speed limits apply only to average conditions, and a safe speed at ordinary times can be a very dangerous speed in bad weather. The law has a right to expect motorists to drive below stated speed limits when special conditions demand it.

Renewed And Expanded Jimmy's Service Station Again Open For Business

After weeks of delay caused by building complications, Jimmy's Service Station renovated and expanded, re-opened its doors for business late last week.

Doubled in size, the business has more than doubled its facilities. Separate washing and lubricating departments, relieve the former congestion of doing both jobs in the same place and the west side annex provides ample space for office and accessories display. The former office and stock room is now used for a stock room only.

A complete face lifting job accompanied the expansion. The old section received a new coat of stucco, old gas pumps gave way to up-to-date models, the driveway and grease department were replaced by new concrete, and old flood lights were replaced by new ones. All that remains to complete the renovation is an asphalt extension from the driveway to the highway road surface.

Bezner Chicks Rally For 11-10 Win And Series Tie

Muenster's softball team fizzled away a game Monday night after having it practically on ice and permitted the Bezner Chicks of Gainesville to even the series at 2 all. The only other game of the week was that against the powerful Jaques team of Denison, which turned out as just another victory on the visitors' long list of triumphs.

Playing the Chicks the boys took the lead with two in the second and added to their margin steadily during the next four innings. At the start of the sixth they were ahead 8 to 4. Then they weakened and allowed a 6 point rally and added 2 more in their half to even the score at 10 each. The Chicks pushed over their winning tally in the seventh.

The Jaques team almost knocked the cover off the ball in winning 15 to 2. Besides lots of 1, 2 and 3 base hits, they slapped out 8 homers. The score is a fair indication of the comparative strength of the two clubs. According to players, the game was their 27th straight victory and the 38th out of this season's 42 games. They have played at several invitation tournaments in addition to their league games at Denison.

Fire Chief Urges Special Precautions When Burning Grass Off Vacant Lots

After the near-disaster of last Friday's pump house and grass fire, members of the volunteer fire department are seriously concerned over the hazard of grass fires within the city limit.

Fire Chief Jimmy Lehnertz this week requested that residents refrain from burning off lots on windy days. As a special precaution where buildings are nearby he suggested that people arrange to burn lots at the time scheduled for a regular fire drill and notify the fire department in advance.

Work Begins On \$20,000 Catholic Church At Nocona

The foundation of the first Catholic church to be built in Nocona is completed according to an announcement by Rev. John H. Morse, pastor of St. Mary's church, Henrietta, and St. John's church, Montague.

The building, which will be completed by November or December, will cost approximately \$20,000.

H and H Feed Store Adds Electrical Sales And Service Department

The establishment of a full fledged electric shop for Muenster got under way the latter part of last week when Melrad Hesse, Albert Henscheid, Wimpy Kathman and Bill Fuhrmann set up their headquarters in the H and H Feed Store. The business will consist of appliance sales and service, house wiring, electrical trouble shooting and general electrical repair work.

A part of the feed store office has been converted into a display floor and a part of the warehouse will be equipped soon for the repair and service department.

Henscheid and Kathman, with several years of experience at wiring and appliance work, respectively, will each continue his former line of work, and Fuhrmann, an electrician in the service, will assist in both lines. Hesse, though interested in the electrical business will continue to manage the feed department. Kathman will continue to spend mornings on his bread route.

Financial Problems of Farming Considered by GI Agriculture Class

Members of the Muenster GI vocational agriculture class turned their attention to financial matters Monday night. Their meeting was featured by J. M. Weinzapfel's discussion on the relations of farming and banking and the preparation of farm lease papers.

The next meeting, Instructor Hugh Barnhart stated, will be an open discussion on "Ways to maintain milk production during the hot summer months."

On Tuesday of next week, Barnhart said, members will visit the agricultural experiment station 3 miles west of Montague to study fruit production methods and soil building crops.

One new member joined Monday bringing the class enrollment to 19. He is Reagan Shiflet of Marysville.

Construction Begins On Dr. Allen Schmitt's Modern Clinic Hospital At Saint Jo

Construction on the first wing of Dr. Allen Dean Schmitt's modern clinic hospital at Saint Jo is well under way according to a report in last week's Saint Jo Tribune. The building's walls, of brick-faced tile, were more than half way up Thursday.

The original wing is planned to include a reception room, operating room, lab, X-ray and supply room and three patient bed rooms. The structure is being erected with a view of adding additional wings. At a later date, to form an "L" shaped building, it is understood.

The clinic-hospital is being erected on a lot 150 by 144 directly opposite the G. C. Davis residence. The \$500 lot was purchased and donated to Dr. Schmitt for his hospital location by H. D. Field, Sr., H. D. Field, Jr., Kingery Brothers Drilling Co., and Scott Brothers.

Dr. Schmitt expects to occupy the first wing of the building before September, although some of the equipment, such as the X-ray, may not be available by that time.

Mrs. L. H. Baumhardt and children, Janice and David, spent the weekend in Wichita Falls with her parents. David remained there to accompany his grandparents on an extended vacation in Colorado. Mrs. Baumhardt and Janice were accompanied home by little Miss Virginia Graves who is spending this week with the Baumhardt family.

Jacob Pagel Sr., Merchant Here 1908-38, Dies Sunday After Extended Sickness

Alert Firemen With Lots of Hose Check Grass Fire Headed For Refinery

Muenster's alert fire department and about 1300 feet of hose are due credit for preventing a serious fire here at about 8:30 Friday morning. A blaze originating in the pump house of Mrs. L. Schumacher's lease at the southwest edge of the city was advanced steadily through dry grass toward the refinery storage tanks and was brought under control only a few yards short of the mark.

It also ignited a small pool of oil which sent up dense clouds of heavy black smoke but caused no serious hazard. A burned out electric motor and damage to wires and switches constituted the principal loss.

Only the long fire hose enabled firemen to cope with the blaze. Their nearest connection was at the Waples Painter company more than a block from the fire.

News Of Sick And Injured

Kenneth Otto, little son of Mr. and Mrs. Bill Otto, has recovered from an operation for the removal of his tonsils.

Mr. and Mrs. Eddie Hess took their young son, Richard, to Glen Rose Sunday for an examination. The boy's leg that had been causing trouble was found to be doing alright and he returned home with his parents the same evening.

Mrs. Roy Endres Jr. has recovered from a tonsillectomy performed at the local clinic Tuesday morning.

Leonard Vogel, son of Mr. and Mrs. Joe Vogel, sustained an arm injury Saturday during play. X-rays revealed that no bones were broken but that the arm was thrown out of joint. He was treated at the local clinic.

Herbert McDaniel continues to improve at Glen Rose and expects to come home some time next week. His wife visited him Sunday and was accompanied home by her sister, Mrs. Wm. Bergman, who had spent three weeks there for her health.

Henry Felderhoff is convalescing at the home of his parents, Mr. and Mrs. John Felderhoff, where he was moved last Thursday after having an operation for the removal of his appendix the preceding Sunday at Gainesville Sanitarium.

Joe Reiter of Wanette, Okla., well known locally, is seriously ill in the Shawnee, Okla., hospital, relatives learned this week.

VFW Starts Converting Pool Hall Into Club Room

With visions of a cozy club room that will be open every night, Muenster VFW members are settling down in earnest to a renovating job on their recently acquired headquarters. The building, formerly Bud's recreation hall is one door north of Fisher's Market.

The principal improvement, two wash rooms, has already been completed and work has started on a decoration scheme to brighten the interior. Other contemplated additions are lounge chairs, tables, and a record player.

The club room will be exclusively for members and their lady friends.

Boy Scouts Are Active Working For Advancement

Muenster Boy Scouts have been active during the week working for advancement and planning for the week's encampment at Lake Texoma on July 27 through August 2.

The troop spent Sunday afternoon at the creek at C. J. Fette's where cooking tests were supplemented with instructions on swimming and life saving.

A Green Bar meeting was held at the home of Scoutmaster Nick Miller Monday night to discuss the encampment and make plans for the week's activities which will include swimming, boating, rope work, fishing, handicraft, mapping, hiking, first aid, an overnight hike and a visit to other troops in the camp.

During the week several of the boys made their 14 mile hike, a requirement to advance to first class rating.

Jacob Pagel, Sr., 79, prominent retired early-day merchant of this city, succumbed to a lengthy illness Sunday at 4:15 a. m. in a Gainesville hospital. He had been in ill health since an operation for a kidney ailment 13 months ago and complications developed causing his death.

Funeral services were held at Sacred Heart church Tuesday morning at 8:30 with Rev. Herman Laux, pastor, officiating at the requiem high mass and at the burial in the local cemetery. Funeral arrangements were under the direction of Mrs. Nick Miller. Serving as pallbearers were grandsons of the deceased, Paul and Michael Luke, Jerome and Maurice Pagel and Charles Pagel and John Janicki.

Mr. Pagel was born in Philadelphia, Penna., in June 1868, a son of the late Mr. and Mrs. Charles Pagel, and as a lad moved with them to Loretta, Tenn., where he grew to manhood assisting his father on the family farm. In the late 1880's he set out for himself, going to Helena, Ark., where he went into the furniture business. It was there that he met Miss Annie Haverkamp to whom he was married in August, 1891.

They came to Muenster in December, 1908, and in January, 1909, he went into the grocery and dry goods business, buying the merchandise of Fipp and Andress as his initial stock. He continued active in business until 1938 when he sold out to his son, Jacob Pagel Jr., and retired. Mrs. Pagel died in 1934.

Mr. Pagel was prominent in civic and church affairs and was a charter member of the local council Knights of Columbus and a long time member of the Catholic Knights of America, serving as secretary for that organization for many years.

Survivors are two sons, Jacob Pagel Jr., Muenster, and Henry Pagel of Muskogee, Okla.; one daughter, Mrs. Henry Luke, Muenster; ten grandchildren and four great-grandchildren. One son, Charles Pagel, preceded him in death in 1935. Also surviving are two brothers, one in California and one in Memphis, Tenn., and two sisters of Loretta, Tenn.

Out of town relatives at the funeral included Mr. and Mrs. Henry Pagel of Muskogee, a niece, Miss Katie Trumper of Helena, Ark., and a granddaughter, Miss Anselma Pagel of San Antonio.

Rodeo Starts Schedule Of Alternate Saturdays; Next Show Is July 26

For the balance of the summer Muenster rodeos will be held on alternate Saturdays and the next scheduled is for the night of July 26, according to an announcement this week by Dick Cain and Babe Felker. The schedule was changed in cooperation with the Forestburg rodeo management, which like the local show, experienced smaller attendance on conflicting nights.

Winners in last Saturday's rodeo are as follows:

The down calf roping: Pete Cook, 9.9; Mutt Lacy, 15; Mills Reed, 17.1. Ribbon roping: Earl Thompson, 15.2; Joe McDonald, 15.3; Tony Trubenbach Jr. 15.6.

Steer riding: Clifford Boydston, Boyd Collins, C. P. Watson.

Bronc riding: Bill Henley, Bill Biffle, Punk Gay.

An added feature was the Bloomer race which consists of a race on horseback to the end of the arena where each contestant puts on a pair of bloomers before remounting and returning to the starting line. John Mosley was the winner.

George Gehrig Re-opens Store's South Wing As Maytag Appliance Agency

The south part of George Gehrig's hardware building, idle since more than a year ago when the Huchtons' Laundry moved to its new building again assumes the status of a business location. It opened Monday as headquarters for Gehrig's Maytag agency.

The one room contains all of the agency's activity with displays arranged across the front and parts bins and service department at the back.

The opening coincides with the arrival of Gehrig's latest appliance, the new Maytag freezer unit, which shares display space with a range and a washer.

A newly installed neon sign illuminates the building's front.

The split that should have been made long ago has been made at last. Nations have stopped kidding themselves about the possibility of reconciling ruthless totalitarianism with democratic ideals. This isn't "one world" after all. Dreams are shattered by that realization but at least an understanding has been reached.

The meeting at Paris marks a clear-cut division into two worlds. One is dominated by communist Russia, the other is led, inspired and aided by democratic United States. The contest is on to determine which of the two ideologies can best lead distressed countries out of their present troubles. At the same time another contest is under way — to determine which of the two groups can best prepare for the final show-down between themselves.

Actually, that show-down is under way right now. We are at war with Russia. Not a shooting war but an economic and diplomatic war that will develop into a shooting war if we do not win in this first phase.

Russia's goal is obvious. It wants to bring the entire world under the autocratic rule of the international communist party. Its method is slavery, cruelty, treachery — in fact any practice, no matter how wicked and contemptible, which will serve its purpose. This country's purpose is to encourage and help the creation of free, independent, prosperous countries, and its methods are honest and generous.

After wasting two years in a futile effort to get along with Stalin and company our only regret is that the break was not made at San Francisco. Precious time has been lost on our side while Russia pursued her relentless program of plundering, gobbling and subverting.

There was a time when the Balkan countries were not in the grip of communistic stooges and they would have been free to deal with this country. Now they are helpless while the mob with the guns decrees they will have to accept an economy of misery.

There was a time when we could have prevented Russia's treacherous UN policy of distributing our donations only to communist henchmen and claiming that it alone was giving the help while America did nothing.

We might also have prevented the international bandits from fattening their resources by private property seizures while we gave millions to relieve the distress of private citizens.

We've been tricked and double crossed in practically every dealing with the Soviets. As regards property seizures they prevailed on us to permit confiscation of Nazi holdings, then proceeded to claim every industry that the Nazis had confiscated which included practically everything of value in the Balkans. They know as we do that the Nazis did not have legitimate claims, but justice means nothing in Moscow.

They've preached disarmament and scrapping the atom bomb but resented the proposal of a world wide checking system to see that all countries abide by the agreement.

The plain fact is that the break with Russia is a lucky break for every one of the Western powers. Until now it's been too much like an honest person dealing with a crook — the crook always has the advantage because he can put over a fast deal once in a while whereas the honest person has too much principle to even try anything like that.

The break is equally lucky in another respect. It changes Russia's status from that of a treacherous friend to a recognized enemy. We're not kidding ourselves any more. We're fully aware of the Soviets' aims and whatever future dealings we have with them will be conducted with that understanding. We're on guard and don't intend to give them any more chances to stab us in the back.

Even as regards the strain on world peace we're better off than before. Henceforth two groups will be going their separate ways. It will be a race between Soviet slave economy and Western free economy, and we believe the democracies will be able to stay far enough ahead to discourage Russian hostility for a long time — and to cope with it successfully if and when it comes.

As long as this remains a contest between democracy and communism we have no worries. Our principal concern is to keep our democracy from becoming infected by communism. Our new appraisal of Russia should by all means be accompanied by a crack-down on (Continued on page 8)

LOCAL NEWS BRIEFS

E.S. Lawson spent last Thursday in Bolivar on business.

Rev. Father Raymond of Subiaco, Ark., visited here the latter part of last week with the local pastors.

Mr. and Mrs. George Gehrig and children and Mrs. Wm. Gehrig spent Sunday at Turner Falls on an outing.

Miss Joyce Williams, employed

in Orange, is here for a vacation visit with her parents, Mr. and Mrs. C.L. Williams and family.

Mrs. Gus Knabe is spending this week in Gainesville with her children Lawrence Knabe and Mrs. Frank Hellinger and their families.

Leo Sicking, G. J. Reiter, C.W. Wimmer and Fr. Felderhoff are on vacation this week from duties at the REA Co-op.

M. Sgt. Walter Huchtons of Shreveport, La., is here to spend a 30-day furlough with his mother, Mrs. O.J. Huchtons and family.

Mr. and Mrs. Johnny Sicking and son flew to Wichita Falls last week

to attend a glider meeting. They made the trip in Emmet Fette's Aeronca Champion.

Paul Luke made a solo cross country flight Sunday, to Denton and Sherman and back, and then passed tests after which he received his private pilot's license. He received instructions from Emmet Fette and used his Aeronca Champion for the tests at Whaley's in Gainesville.

The J.J. Haverkamp home was the scene of a family get-together Sunday honoring his sister and niece, Sisters Anselma and Thomasina. Out of town guests included Mr. and Mrs. Ray Kupper of Lindsay and their guest, Troy Kupper of Corsicana.

Mrs. J.D. Linn had as guests last week her son-in-law and daughter, Mr. and Mrs. W.P. Parker and son of Dallas and her grandson, Bill Womack of Fort Worth. While here the visitors were joined by local relatives on a fishing trip to Red River.

Mrs. Theo Wiesman and granddaughter, Miss Carolyn Wiesman, will return home this weekend after a ten day visit in Carlsbad, N.M., with the former's daughter, Mrs. A.F. Lueb and family. They made the trip with Mrs. Wiesman's son, Ted Wiesman of Gainesville.

Joe Weinzapfel and A.J. Felderhoff were in Wichita Falls Sunday to attend the National Glider meeting held in that city. They accompanied Mr. and Mrs. J.M. Weinzapfel who drove on to Windthorst and Scotland to visit relatives. They were guests of Mr. Weinzapfel's father, Henry Weinzapfel in Windthorst and in Scotland visited with Henry Meurer and Mr. and Mrs. Rolland Hart.

Misses Juanita Weinzapfel and Johann Seyler of Azle were home to spend Monday night until Tuesday morning with their parents, Messrs. and Mmes. J.M. Weinzapfel and Ben Seyler. The Seylers went for them Monday and they returned with Mr. and Mrs. Weinzapfel who went on to Westphalia to attend the Catholic State League meeting.

Mayor J.M. Weinzapfel and City Water Superintendent Steve Moster attended the monthly meeting of the North Texas Waterworks and Sewerage association in Nocona last Wednesday night. Business was preceded with lunch and the featured speaker was a representative of the Dallas City Waterworks whose topic was "Distribution of Water Systems and their Maintenance".

HEREFORD VISITORS ARE COMPLIMENTED SUNDAY

Erwin, Reynold and Wilfred Herr of Hereford arrived Sunday morning to spend the day with relatives in this city and also drove to Gainesville for a visit with Mr. and Mrs. Arnold Friske. The boys are sons of Mr. and Mrs. Emil Herr, formerly of Muenster.

At noon they were honored with

a dinner at the home of their maternal grandparents, Mr. and Mrs. August Friske, for which Mr. and Mrs. Joe Luke and son, Norman, were also guests. During the afternoon they visited their paternal grandmother, Mrs. Fred Herr, Sr., and in the evening they were complimented with an informal family gathering in the home of their uncle and aunt, Mr. and Mrs. John F. Herr.

Personnel included Mrs. Fred Herr, Sr., Mr. and Mrs. Ben Luke and family, Mr. and Mrs. R.R. Endres and family, Mr. and Mrs. Frank Herr and family, Mr. and Mrs. Anthony Luke, Mr. and Mrs. Joe Luke Misses Lena, Elizabeth and Katie Herr, Wilmer and Harold Luke and the hosts and their children, Misses Jeanie, Ann and Terese, and Patsy, Richard and Alma.

EVELYN DICKERSON AND HOWARD COUCH ARE WED SATURDAY

A wedding of interest to friends here is that of Miss Evelyn Dickerson of Oklahoma City, sister of Mrs. Ray Evans of this city, who is generally known here because of her frequent visits at the Evans home. Miss Dickerson became the bride of Howard F. Couch of Oklahoma City in rites performed Saturday at 6:30 p.m. in the Dixon Street Christian church at Gainesville. Rev. R. Cherryhomes, pastor, performed the ring ceremony.

The bride wore a navy blue crepe dress with draped skirt, a navy blue picture hat and other accessories in navy and a corsage of red roses. She was attended by her sister, Mrs. Evans, who wore a light blue crepe dress with black accessories and a corsage of white carnations.

Ray Evans attended Mr. Couch as best man.

After the ceremony the bridal party had dinner to precede the couple's departure on a wedding trip. They will make their home in Oklahoma City.

Fred Bittner of Los Angeles, Calif., spent several days of the week with his uncle and aunt, Mr. and Mrs. Joe Bergman. Another guest at the Bergman home for the week was Bernadine Knoff, a niece, from Kansas City, who is visiting relatives here. Fred also spent several days with another uncle and aunt, Mr. and Mrs. Joe Kathman.

Washington News Letter

By Congressman Ed Gossett

Washington, D.C., July 12 — This newsletter is being hurriedly written in order that I may get out to the ball park in time to participate with the Democrats in a baseball game against the Republicans. These games used to be annual affairs before the war. Chief Justice Fred Vinson of Kentucky will throw out the first ball in today's game. A good many years ago when a congressman from Kentucky, Chief Justice Vinson was the pitcher for the Democratic ball team.

A great deal is being said in Washington and elsewhere these days concerning the contract negotiated by John Lewis for the United Mine Workers. It is generally understood that U.S. Steel, a great many of whose furnaces were closed down for lack of coal brought pressure upon the coal operators to agree to the terms of John Lewis.

The United Mine Workers have secured between 35¢ and 45¢ per hour increase in wages. The royalty paid by mine owners to the health and welfare funds of the workers has been doubled. Instead of \$11.85 for a 9-hour day, the miners will now receive \$13.05 for 8 hours which will include one hour travel time plus one-half hour lunch time. In other words, the miner will get \$13.05 for 6-1/2 hours actual work. In addition to health, accident, and insurance funds, the miner also receives a paid vacation.

When prices were held down, wages could not go up without cutting into industrial profits. Now wage increases are simply added on to the cost of the commodity and passed on to the consumer. This all adds up to a statement I have been making for years, to-wit: As between gigantic industrial monopolies on one hand and gigantic labor monopolies on the other, the consuming public has little protection. The function of government is to write the rules of fair play and then to enforce those rules. One of the biggest and most important jobs government now has to do is protect the public from gigantic monopolies. Anti-trust laws of this country should be strengthened and enforced. Trust-busting is a big job that must be done if small business men and small people generally are to continue to have their rightful place in the American economic picture. Now to avoid too much regulation on one hand and too little on the other hand is a serious problem.

The House this week passed a new tax bill by a vote of 302 to 112. The only substantial difference between the bill just passed and the one vetoed by the President some weeks ago is the effective date of the act. The new bill starts tax reduction on January 1 of 1948 instead of July 1 1947. In my opinion all tax reduction bills should begin in the future and should not be retroactive. Again, it seems important that tax bills should be enacted in a time and manner to give people adequate notice of what their liabilities will be. Where and how much to reduce

taxes, how and where to reduce government expenses, are problems with which Congress and the country must continue to struggle.

In 1940 and again in 1946, Congress passed so-called "Reorganization bills" authorizing the President to reorganize the Executive Branch of the government and to reduce conflicting and duplicating functions. Very little reorganizing was done under either of these bills. Congress has now sought to take a hand in the matter itself. A bill has been passed setting up a congressional commission to make a scientific study of government reorganization. The commission will be composed of two Senators, two Representatives, two officials appointed by the President from the Executive Branch of the government, and six civilians, two to be appointed by the President, two by the President Pro Tempore of the Senate, and two by the Speaker of the House of Representatives. The purpose of this commission is to bring about economy and efficiency in the Executive Branch of the government.

The Republicans still contend they will adjourn congress on July 26. The calendars of both the House and Senate are clogged with bills. The pre-adjournment rush and confusion is on. Many important measures will doubtless be left on the calendars of both the House and the Senate.

Not a Spiller

Mistress — "Marle, when you wait on the table tonight for my guests, please don't spill anything."

Maid — "Don't worry, ma'am; I never talk much."

Sentence Corrected

Teacher — "Willie, please correct this sentence: 'Girls are naturally better-looking than boys.'"

Willie — "I'd say 'Girls are artificially better-looking than boys.'"

Ad Got Results

Two executives were relaxing in a drug store. In the course of their shop talk one asked, "Is your advertising getting any results?"

The other took a long swallow of fruit juice before he answered, "Sure thing! Last week we advertised for a night watchman, and the next night we were robbed."

"Won't you join me in a cup of coffee?"

"You get in first."

NEW TEXAS ALMANAC NOW OFF THE PRESS

A record of wartime and postwar economic, political and social development in Texas, is portrayed in the half million or more facts presented in the 1947-48 edition of the Texas Almanac which has just been published by The Dallas Morning News.

Industrial development in the period, 1940-46, inclusive, was greater than in all previous Texas history. As measured by number of employees there was a net gain of more than 100 percent even after the closing of some of the large war plants. As measured by value of products the gain was more than 200 percent. State and national bank assets were up 200 percent and other data indicate a general advance of 100-200 percent in the state's industry, commerce and finance.

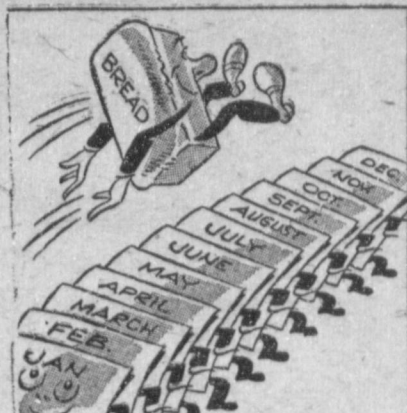

Momentous in this development

postwar oil, gas and other mineral production, manufacturing, communication and transportation, including rail, highway, aviation and shipping. An extensive chapter on State Government gives a catalogue of all officials, details of state finances, including statistics of educational support, clemsomary institutions and public welfare, including old-age and other pensions. The 608-page book, containing approximately 750,000 words and statistical word-equivalents, covers several thousand separate subjects, including such diversity as rainfall data, a forestry survey of East Texas, flora and fauna, religious bodies, recreational resources and state national parks and forests, libraries, penitentiary system and complete political calendar for 1948.

MOTOR NUMBER LAW WOULD INSURE TITLES

Austin. — A new law to end the legal confusion incident to exchanging motors in cars and trucks has gone into effect, following its passage by the Fiftieth Legislature.

Since a vehicle is legally identified and its ownership established by its motor number, it is important that title papers be corrected when the owner installs a new or exchange motor. Otherwise he might find himself not the legal owner of the car.

All county tax assessor-collectors and the State Highway Department at Austin have forms and instructions for making application for proper numbers to be stamped on the new motors which bear no number.

The law now bans the practice of stamping the old number on the new motor.

New Poison Rough on Rats

London. — A deadly poison which attracts rats, acts on their lungs and drives them out into the open air to die has been developed. It is alpha naphthyl thiourea, the discovery of a British chemical manufacturer. One pound can kill, 3,000 brown rats, 4,000 mice or 144 black rats.

His Discovery

Pond Mother — "Where did you get that black eye, Harold? Didn't I tell you that good little boys never fight?"

Harold — "Yes, mother, and I believed you. I thought he was a good little boy and hit him, and then I found out he wasn't."

From where I sit... by Joe Marsh

Sam Helps with the Dishwashing

Dropped in at the Abernathy's just the other evening—and there was Sam, out in the kitchen with an apron on, helping his missus wash the supper dishes. (And then I learned later he'd helped cook the supper, too.)

Of course, Sam could have settled into his favorite chair, enjoyed his evening glass of beer, and left all the messy kitchenwork to Dixie. But he kind of likes her company—and she in turn certainly appreciates his help.

In fact, sharing the housework

and the mealtime chores is sort of a bond between them... like sharing that friendly glass of beer together, when the work is done. It's one of those little all-important things in marriage.

From where I sit, the time that a man and wife can spend with each other in this busy world today is all too precious. And the more things they can do together, the better.

Joe Marsh

has been a net increase in the state's population. There has been a large shifting from rural to urban residence and vocation, with an accompanying rapid decline in farm tenancy. Big increases in average farm acreage and high degree of farm mechanization are recorded. The late industrial expansion, data presented by the Texas almanac show, solved an accumulated problem of fifteen years of declining cotton acreage by giving employment to displaced tenants and greatly increasing the average individual income of both rural and urban population.

Features of the new Texas Almanac include complete text of the State Constitution with historical amendments. The book presents an interesting account of Texas' activities in World War II, revised population estimates for late 1946 for all counties, cities, towns and villages. There is a complete summary of the new agricultural census and extensive information on the cattle industry, which now brings greater cash income than Texas crops including a history on the development of ranching.

There are extensive reviews of

New Machine Increases Tube Safety

In a remarkable demonstration of the effectiveness of a new tube splicer, a 16 x 5.00-8 industrial tube was inflated 19.25 times above its normal capacity, by engineers of the experimental division, the General Tire & Rubber Company. Before inflation the wall gauge of the tube was 90/1000 of an inch thick and after inflation the thickness had been reduced to 10/1000 of an inch. Not only does the test prove the strength of the splice, but it also shows the increased adhesion of the valve to tube. Designed by Max Engler, and demonstrated by Harold Lewis, right, and Harvey Scott, the new development gives General Tire, which pioneered pneumatic industrial tire usage, the industry's most advanced method of sealing industrial tubes.

John Pendleton, L.H. Pendleton, as Plaintiffs, and Clarence Pendergast, and if dead, his unknown heirs, Betty Lou Smith, and if she be dead, her unknown heirs, and Ray Suydam, as Defendants.

The nature of said suit being substantially as follows, to wit:

Plaintiffs sue for partition of the hereinafter described land and allege that said land is not susceptible of partition in kind and pray for appointment of Receiver and that said land be sold at private sale for cash and after payment of costs and charges that the proceeds of said sale be paid over to the owners of said land in accordance with their respective interests therein, said land described as follows:

106-42-100 acres of land out of Lots 1, 10 and 12, in League 4, out of the Hunt County School Land in Cooke County, Texas;

BEGINNING 712 1/2 varas North of the most Southern Southeast corner of the said League Survey, a stake in the east boundary line of said Block 1 in said League;

THENCE North 1246 1/2 varas, a stake in the east boundary line of Block 12 of said League;

THENCE West 475 varas;

THENCE South 1246 1/2 varas.

THENCE East 475 varas to the beginning;

and being the same land conveyed by B.P. Gavey and wife, Tina Gavey to A.J. Pendleton and wife, Sarah Pendleton, or record in Vol. 68, page 350 or the Deed Records of Cooke County, Texas.

Plaintiffs allege that the defendant Clarence Pendergast, or if he be dead, his Unknown Heirs, own an undivided 19-180ths interest in the land above described, and that the defendant Betty Lou Smith, or if she be dead, her Unknown Heirs, own an undivided 19-720ths interest in said land, and defendant Ray Suydam owns an undivided 19-180ths interest in said land.

Issued this 7th day of July, A.D., 1947.

Given under my hand and seal of said Court, at office in Gainesville, Texas this 7th day of July, A.D., 1947.

Texas City Gets New Fog Fire Fighter

TEXAS CITY, TEX. — Smoke filled the skies again here, but it was good smoke, the kind people like to see. It came from oil fires set by the Texas City Volunteer Fire Department when demonstrating the fire fighting abilities of their new F.M.C. high-pressure Fog Fire Fighter, a gift of the manufacturer.

Top picture, taken on the grounds of a Texas City refinery, demonstrates how an oil fire can be extinguished in 10 seconds with 10 gallons of water. The new fire-fighting unit is self-contained, carries its own water and releases it in fog form under 800 pounds pressure. The value of this unit was proved in the Texas City disaster when a duplicate unit belonging to the Pasadena, Texas fire department fought fire continuously for 60 hours.

In lower photo, Mayor J. C. Trahan holds certificate of ownership presented by John B. Crumme, Chairman of the Board of Food Machinery corporation, as Bob Horton in the cab, Fire Chief Fred Dowdy, left, and R. G. Pulver of the John Bean Mfg. co., right, look on.

Local NEWS Briefs

Rev. Edward Devers of Decatur arrived Monday for a visit with the Fisher families.

Mrs. Joe Swirczynski and son, George, Joan Swirczynski and Carlene Knaut visited in Fort Worth Sunday and Monday with Mr. and Mrs. Ed Swirczynski, who have moved their ice cream business into a new, larger building.

Mr. and Mrs. Ferd Yosten and daughter, Judy, arrived here Tuesday night and will remain until Sunday to visit relatives. They are on a two weeks' vacation, the first part of which was spent in Denver and Colorado Springs.

Chas. Wilhelm of Hereford has renewed his subscription to the Enterprise adding that the family enjoys the paper every week and would not want to be without it. He wrote that he had a very good yield of wheat this year.

Mr. and Mrs. Turner O'Neal spent the latter part of last week in Temple, Okla., with Mr. and Mrs. Henry Dunn who accompanied them home Sunday. Mr. Dunn returned to Temple Sunday evening but his wife remained to spend the week here.

Roy Baumhardt joined his mother, Mrs. Callie Baumhardt and family here this week after an extended visit with his sister and family in Devol, Okla. Roy is 16 and is assisting with work at Muenster Manufacturing company until school opens.

Mr. and Mrs. F.E. Perry and daughter of Seminole visited here last week with her sister, Mrs. Jack Robertson and family, and at Myra with her parents, Mr. and Mrs. M.H. Grammer. The three families drove to Dallas one day to visit other relatives.

"We must admit science is resourceful. It couldn't open the window so it air-conditioned the train."

Observe Oral Hygiene, See Your Dentist Regularly, To Preserve Sound Teeth

Austin. — The fact that dental decay may occur in the mouth of the average person, despite proper home care given the teeth, does not lessen the importance of brushing the teeth and massaging the gums daily, nor does it minimize the need for a cleaning and inspection of the teeth twice a year by the family dentist. Dr. Geo. W. Cox, State Health Officer, says that the lack of these measures gives added power to germs that attack the enamel of the teeth and gum tissues.

"If, despite the practice of proper oral hygiene, decay is suspected or teeth are injured in any way, the thoughtful person will seek the dentist's office promptly for the necessary corrective work," Dr. Cox said.

"It is surprising, though, even in these days of comparatively painless dentistry, that so many persons neglect to have their dental defects corrected, because they foolishly fear the discomfort they might experience in the dentist's chair," said the State Officer. "There are others who having lost a tooth or several teeth make no effort to obtain replacements. Apparently they believe they can get along without them. Reduced masticating power, the annoyance and sometimes actual discomfort of chewing hard substances on the exposed gums, and crooked teeth are some of the possible consequences of gaps in the teeth."

Knowing How

A gaunt farmer in a hardware store in North Carolina was complaining about the life of a tobacco grower. I sympathized that it must be hard work.

"Son, ain't the work," he said, "It's knowin' what has to be done — and then rackin' your brain to figure out a way to get outa doin' it."

Working with Texas Farmers since 1915

ELECTRIC FEED MIXER

Texas Power & Light Pioneered Rural Electrification in Texas

The Texas Power & Light Company began its rural electrification program back in 1915. By 1921, we had brought electricity to 6,926 farm and rural families. This number has almost doubled every ten years since, as we consistently added more and more lines, reaching a greater number of farm families each year. Now, approximately 7,000 miles of TP&L rural lines alone serve more than 68,000 farm and rural customers.

More than thirty years of research, development and experience have shown our engineers the most economical way to extend these rural lines. As a result, we have been able to provide dependable, low-cost rural electric service to farms and rural homes throughout the 52-county area served.

The Company also supplies electric power at wholesale to 21 REA Distribution Cooperatives which in turn serve many thousands of additional rural and farm homes. The rate at which this Company supplies service to these Cooperatives is one of the lowest in the nation, and is lower than that of the Tennessee Valley Authority to Cooperatives in its area.

A continuous rural expansion program is being carried out in North, East and Central Texas by Texas Power & Light Company, and 1947 plans call for the construction of 1,000 miles of new rural lines to serve approximately 9,000 new customers living on farms and in rural communities.

New Uniform Traffic Code Does Not Ban Hitchhiking

Austin — Contrary to inaccurate reports, the new Uniform Traffic Code does not prohibit hitchhiking. George Clarke, managing director of the Texas Safety Association, said today in Austin.

The two-line subsection of the traffic code pertaining to hitchhikers reads:

"No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any vehicle."

A roadway is defined in the bill as "that portion of the highway improved, designed or ordinarily used for vehicular travel."

The bill defines a highway as "the entire width between the boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel."

Clarke emphasized that the bill does not forbid any person to stand on the shoulder of the road for the purpose of soliciting a ride from a driver.

He said that it is a prevalent practice in the state for hitchhikers to stand on the concrete surface of the road, and that this action constitutes a definite hazard to the hitchhikers, as well as to traffic.

Penalties for violations of the act range from \$1 to \$200.

Katy Passengers No Longer Afoot at Destination; Car Rent Service Available

St. Louis, Mo. — Travelers by rail now will be able to go by train to their destination and then have an automobile for their use on arrival, according to an announcement today by the Missouri-Kansas-Texas Lines.

The Katy has joined other American railroads in effecting a rail-auto travel plan through the cooperation of the Hertz Driveurself System and other drive-it-yourself systems in 250 U.S. cities, the announcement said.

Under the plan, rail travelers may reserve an automobile in advance for use on arrival at their destination. A nominal charge per mile covers the cost of the automobile use, including gasoline, oil, insurance, etc. Holders of Katy credit cards and the national rail credit card system, of which the Katy is a member, may rent cars without making a deposit.

Chevrolet '47 Production Reaches Half Million Mark

Detroit — Chevrolet is the first manufacturer in the auto industry to announce production of half a million vehicles in the calendar year 1947, according to a statement made by Nicholas Dreystadt, general manager of this largest General Motors division.

Production of its 500,000 unit July 7 contrasts with 1946, when Chevrolet, because of a prolonged strike and material shortages, had not attained so high a mark until mid-November. The figure includes 360,947 passenger cars and 140,688 trucks.

"A plain and simple answer for this question's what we wish: Does fishing make a man a liar or do only liars fish?"

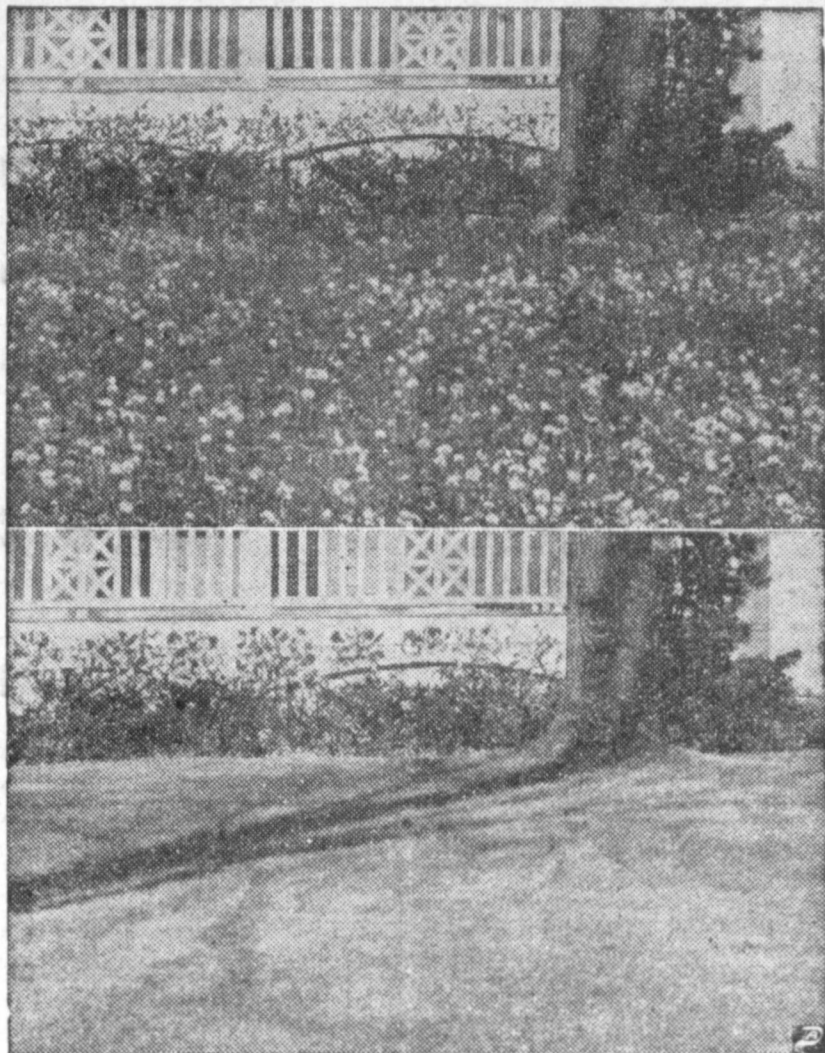

This Was the Army

A ribbon-bedecked Negro soldier, passing through an Army separation center, stated his name was: Jacksonbill.

"That's an unusual name," commented an officer.

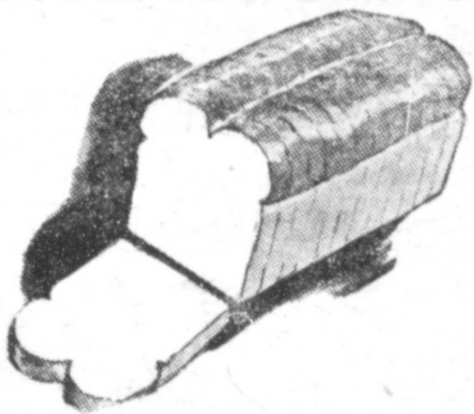

"Oh," explained the soldier, "that's my military name. My real name is Bill Jackson!"

Just Spray — Weeds Die

Thanks to science, things happen fast these days. The top picture is of a lawn infested with dandelions and other ugly weeds. Within six weeks after spraying with the butyl ester of 2,4-D, the same lawn is transformed into the perfect weed-free blanket of grass pictured below. The benefits of spraying lawns with butyl ester of 2,4-D, are fourfold. Spraying it is easy, it starts to work in 5 minutes or less, it stimulates the grass, and weeds thus sprayed will never reappear, because the 2,4-D kills most common weeds down to the roots. The butyl ester of 2,4-D is the result of extensive research conducted by Sherwin-Williams scientists.

Success does not depend on lying awake nights, but staying awake days. Women who really know how to raise children are too busy to tell.

Johnson had hit some high spots in his life, but decided to settle down and take out life insurance. One of his best friends was an agent of some large company so Johnson went to him and applied for a policy. He took an examination from a doctor and then waited for a long time. One day he saw his friend and asked him about the policy.

"Well," said his friend, "you see, after an examination, the doctor takes a chart of the applicant's body and punches holes in it wherever he finds something wrong."

"Did he do that in my case?" Johnson asked.

"He sure did," replied the agent. "Then he took the chart home and put it on the player-piano, and it played 'Nearer My God to Thee'."

Handle With Care

"Sorry to hear your engagement is broken off, old man."

"I'll get over it. But the worst blow was when she returned my ring marked 'Glass — Handle With Care!'"

The Final Straw

The new warden of the prison was finding it difficult to get a telephone call through to a friend on the outside. Exasperated, he shouted to the operator:

"My dear young lady, do you know who I am?"

"No," came the sweet reply, "but I know where you are."

A city boy, visiting his country cousin, was walking through a pasture when he heard a buzzing sound. "Come away from there!" the cousin shouted. "It's a rattlesnake. If you go near it, it will strike!" "Gosh," said the city boy, "do they have unions, too?"

TAKING A LITTLE CHANCE CAN PUT YOU IN A BIG ACCIDENT!

Unless something is done, 19,500 farm residents may be killed and 1,800,000 more injured in accidents this year! * A bad accident—months in bed—the loss of a whole year's crop—may be your fate if you are careless.

For it is the little chances we take . . . little repairs we neglect to make . . . that cause big accidents. Inspect your farm and home for danger spots. Do you take the chances shown here? Watch yourself!

*National Safety Council estimate

Check on Yourself! HOW MANY CHANCES DO YOU TAKE EVERY DAY?

I swing onto highways without stopping.
 I stop completely at highways.

Do you sneak through stop signs . . . fail to look both ways before turning onto highways? When walking on highways, do you dangerously walk *with*, not *facing*, oncoming traffic? Are you careless crossing highways? Be careful—or 6,500 farm dwellers may die this year in traffic accidents!

I approach animals without warning.
 I never approach animals carelessly.

Do you approach horses from behind without speaking and patting their flanks to warn them? Are you often forced to lead the bull around because you do not have a properly built, safe bull pen? Then, watch yourself . . . because one out of four fatal farm accidents occurs in handling livestock.

I put off repairing broken steps.
 I keep stairways well repaired.

Do stairways in your home and barn need repairs? Do you have stairways cluttered with boxes, toys, brooms? Are they unlighted? Do you have ladder or hay-chute openings without handrails? These often cause falls . . . falls which account for 39% of all fatal accidents in farm homes!

I sometimes take chances with machinery.
 I am never careless around machinery.

Do you leave safety shields off power shafts, gears and chains? Wear loose-fitting clothing that may catch in machinery? Operate the tractor on dangerous inclines or banks? Then tragedy may strike . . . for mishandled machinery and equipment are involved in 30% of fatal farm accidents.

Lecturer: "Of course we all know what the inside of a corpuscle is like."
Chairman of Meeting: "Most of us do, but you better explain for the benefit of them as never been inside one."

ONE FARMER OUT OF EVERY TEN WILL BE INJURED DURING '47

College Station, — One out of every ten farmers in the United States will be disabled by injuries during 1947, unless they give safety on the farm more attention.

That prediction is made by the National Safety Council, which has announced the week beginning July 20 as National Farm Safety Week.

Every day of 1947, 52 farm people will die as a result of accidents, the council also predicts on a basis of past years' figures. Two farm residents will be killed accidentally and 205 injured during the noon hour every day, unless better safety precautions are taken.

The safety council urges farm families to look for the hazards that endanger lives at home, at work and on the highway; to eliminate as many of these hazards as possible; and to remember that carelessness on the part of any family member can mean unhappiness and even death to the entire family.

By calling attention to farm safety, the council hopes to see a big reduction in such figures as these: four farm buildings destroyed by fire every hour; 4,500 farm workers killed and 300,000 injured in 1946; 186 workers, injured by some type of farm machinery, 193 hurt by falls, 104 injured by livestock, and 92 crippled from cuts, falling trees, burns and other small accidents.

CATHOLIC DAUGHTERS WILL SEW FOR MISSIONS FRIDAY

Announcement was made this week that the local court Catholic Daughters of America will have a special meeting this Friday night in the K of C hall at 8 o'clock. This meeting will take the place of the meeting originally set for the afternoon of Friday, July 25.

Members are asked to bring needles and thread, along with any clothing to be mended or remodeled as the principal activity of the session will be sewing for the missions.

How to Plan Your Electrical Wiring For Most Comfort on Porch or Lawn

Heat relief recipe: Move the kitchen and dining room outdoors

YOU will spend many more of your waking—and sleeping—hours on the porch or lawn this summer if you use a little foresight in planning your electrical wiring.

Enough convenience outlets should be available to plug in several reading lamps, a radio, electric clock, fan and cooking appliances.

While you're about it, consider the advantages of doing some of the housework, such as ironing, in these cooler out-of-door areas. If this provides the answer to hot weather ironing complaints, be sure to install a heavier circuit for high wattage appliances such as the iron, ironer and hot plate—it will provide better current supply for cooking appliances, too.

Where to Place Outlets

As for outlet placement, home wiring experts use this rule-of-thumb:

On porches at least one duplex convenience outlet should be installed every 15 feet of house wall for portable lamps and appliances.

A central lighting fixture, wall switch controlled, also is considered a must for each 150 square feet of porch area.

Wiring for Terrace and Yard

On terraces you will need special weatherproof convenience outlets on every 15 feet of house wall. Be sure to place them 18 inches above the floor line, the engineers add.

As for terrace lighting, you'll need one light on the building wall or, if you prefer, on a centrally-located post. Both types

should be switch-controlled from the house.

Electric tools and gardening aids, such as the electric lawn mower, hedge clipper, bug traps, electric saw, drill and hammer, etc., can be used most efficiently when special outdoor wiring is provided. Weatherproof convenience outlets should be installed on the outside walls of the house near spots where tools will be used.

Special wiring also may be provided for:

Flood lighting for nighttime sports such as badminton, croquet, handball, tennis and golf chipping, pitching or putting;

The barbeque area for electric cooking appliances and lighting.

Garden and lawn lighting accentuates the beauty of flowers and shrubbery after dark.

In a tight-fisted congregation, the hat was passed round one Sunday and returned absolutely empty. The pastor cast his eyes heavenward and said reverently, "I thank Thee, oh Lord, that I got my hat back."

Father Raymond of Subiaco, Ark., visited Father Conrad the latter part of last week.

Troy Kupper of Corsicana visited during the week with his uncle, Joe Kupper, and his cousins, Mr. and Mrs. Ray Kupper.

Miss Ida Mae Neu has returned home after spending several weeks in Gainesville with Mr. and Mrs. Ed Pulte and family.

Miss Frieda Zwingsl of Dallas was home for a weekend visit with her parents, Mr. and Mrs. Leo Zwingsl.

Ora Lee Magez is spending the

week with Mr. and Mrs. Arnold Friske while her mother, Mrs. Frank Magez Jr. is in Dallas for a series of medical treatments.

Charles Neu, son of Mr. and Mrs. Joe J. Neu, suffered painful facial burns Friday but is recovering normally. The accident was incurred when he removed the radiator cap from a hot tractor and boiling water spewed out.

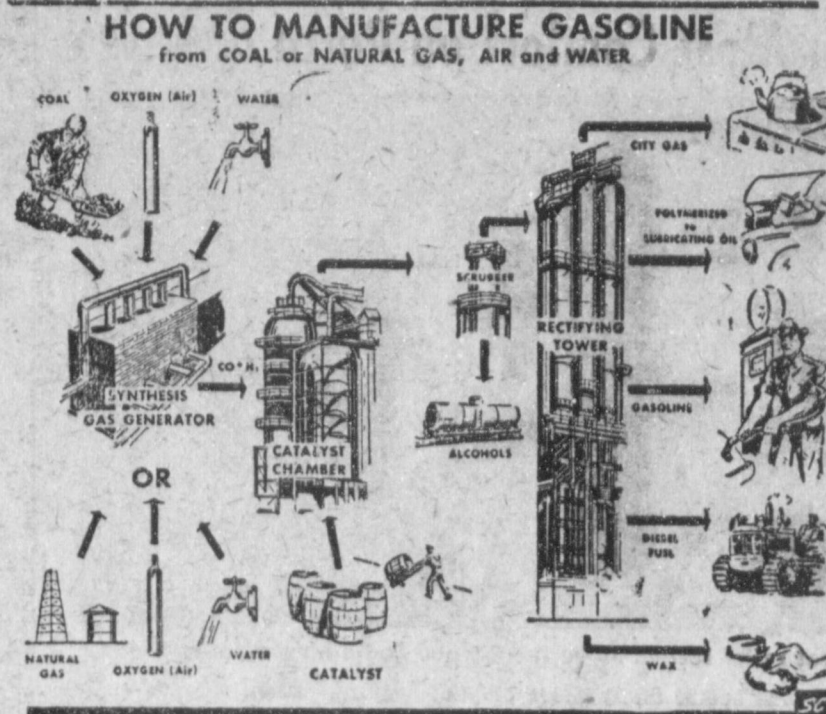

Mr. and Mrs. Anton Dieter of Brisbane, Calif., have renewed their subscription to the Enterprise and mentioned that they will not be in Texas for their annual vacation this year. They said they enjoy reading the news of Lindsay and Muenster and sent greetings to all their friends.

Miss Georgia Spaeth who has been attending NTSTC at Denton since June left Tuesday for Dallas where she is employed by Southwestern Life Insurance company. She was one of the students selected to work under the Business Experience course earning college credit. She will return to school in Denton to continue her classes in February.

ALLEEN MOSMAN AND DALLAS MAN UNITED JULY 3 AT DALLAS

Miss Alleen Mosman, daughter of Mr. and Mrs. P.P. Mosman of Gainesville formerly of Lindsay was married to Donald D. Anderson in Sacred Heart church, Oak Cliff, Dallas on July 3. The pastor officiated at the nuptial high mass and at the ring ceremony.

The bride wore a white peplum suit with brown open crown hat and brown accessories and a corsage of pink and white carnations. She carried a white prayer book and a pearl rosary. She was attended by her sister, Miss Nita Mosman who wore a gold colored dress with brown and white ac-

FUEL OF THE FUTURE

PITTSBURGH, PA.—Workings of the revolutionary process for making gasoline from coal and gas are revealed above. Originated in Germany, this fuel source of the future is being perfected by American engineering science. The diagram, as explained by Gulf research laboratories which are aiding in the development, shows the following steps:

- (1) Coal—or natural gas—is mixed with air and water and converted by combustion and chemical action into synthesis gas.
- (2) The gas is passed through a catalyst (material causing a basic chemical reaction), which transforms it into vaporized petroleum-like materials and alcohols.
- (3) The alcohols are separated in a scrubber.
- (4) City gas is drawn off, and the petroleum materials converted into gasoline, lubricating oils, diesel fuel and wax.

cessories and a carnation corsage. Charles Hoveck, a Navy buddy of the groom, was best man.

After the ceremony relatives and friends were guests for an informal reception in the home of the groom's parents, Mr. and Mrs. L. F. Anderson, and dinner was served at noon in the home of the bride's brother and sister-in-law, Mr. and Mrs. Frank Mosman.

The couple left on a wedding trip and when they return will be at home in Dallas he is employed with the Egan Printing company. Those at the wedding included Mr. and Mrs. P.P. Mosman and Mr. and Mrs. Arnold Friske and daughters.

MUESTER CYO GROUP TO SPONSOR PIE SUPPER

The Muenster CYO group announced Tuesday that it is sponsoring a pie supper and social in the parish hall next Wednesday night and that the program for the event is fun packed and entertaining. An invitation is extended to Lindsay and Gainesville CYO members to join in the affair.

A pie will admit a couple, but is not compulsory. It was pointed out. A small admission fee will be made for a couple without a pie.

Home Sweet Home

Little Lorraine was rather cranky one day, and her mother said angrily: "If you can't behave, you'd better move!"

Lorraine felt just contrary enough to agree. Picking up her hat and coat and her doll, she walked out the back door.

A neighbor saw her and asked: "Where are you going?"

Lorraine answered: "My mommy told me to leave home because I wouldn't behave myself."

The neighbor assured Lorraine: "Well, don't worry, if you behave you can live with me."

"If I wanted to behave," restored Lorraine. "I could live at home."

Confetti---
red stoges in America and all the other Western powers.
Take heart, folks. A movement getting started in Washington may be just the thing we've been hoping for a long, long time. There's talk of a civilian investigating committee whose job will be to probe into all government agencies

and functions for the purpose of determining what can be weeded out without impairing efficiency.

The men behind the idea are wise in turning this job over to a civilian committee, and to our way of thinking that one point marks the sincerity of their motives. Investigators will be men who are not only interested in reducing the burden of government but are likewise free of entangling political alliances. There's less likelihood of withholding facts because of possible repercussions in their departments. Another appealing circumstance is the commission's acquaintance with efficient business methods. They know what's required of the average worker and they are quite likely to recommend that government employees put out an equal amount of work.

Other faults they will look for are duplication of work, unnecessary activities and unnecessary personnel. Wherever they find two or more agencies keeping similar or almost similar records — and there are plenty of cases like that — they will suggest dissolving all but one of them. Wherever they find time killing jobs they will suggest more cuts. Wherever they find loafers they will suggest dismissals.

If the congress will approve such a commission we may feel certain it will also consider the commis-

sion's findings — and that should lead to a wholesale house-cleaning. Should it be reluctant to accept the commission's findings we would expect a heap of embarrassing publicity from the press and radio. Yes, this movement has a chance of developing into something good.
